SUMMARY INFORMATION

THE ISSUER

Central Federal Corporation (the "Company") was organized as a Delaware corporation in September 1998, under the name Grand Central Financial Corp., as the holding company for Central Federal Savings and Loan Association (the "Association") in connection with the Association's conversion from a mutual to stock form of organization. On March 27, 2003, the Association changed its name to Central Federal Bank (the "Bank"), and, on April 23, 2003, Grand Central

Edgar Filing: CENTRAL FEDERAL CORP - Form S-3

Financial Corp. changed its name to Central Federal Corporation. On January 15, 2004, the Bank changed its name to CFBank effective April 20, 2004. As a savings and loan holding company, the Company is subject to regulation by the Office of Thrift Supervision (the "OTS"). On October 22, 2004, CFBank acquired Reserve Mortgage Services, Inc., an Ohio corporation formerly know as RJO Financial Services, Inc. ("Reserve"). Currently, the Company does not transact any material business other than through the Bank. At March 31, 2005, the Company had total assets of \$\$152,511,000 and stockholders' equity of \$19,049,000.

The Bank is a community-oriented savings institution which was originally organized in 1892. Its principal business consists of attracting deposits from the general public in its primary market area and investing those deposits and other funds generated from operations and Federal Home Loan Bank of Cincinnati ("FHLB") advances, primarily in commercial real estate and business loans and conventional mortgage loans secured by single-family residences. The Bank also invests in consumer loans, primarily indirect automobile loans and loans originated directly or on the Bank's behalf by automobile dealers at the time of sale. To a significantly lesser extent, the Bank invests in home equity, multi-family, commercial real estate and business, construction and land loans. The Bank also invests in mortgage-backed securities, primarily those guaranteed or insured by government agencies such as Ginnie Mae, Fannie Mae and Freddie Mac, and other investment grade securities. The Bank's revenues are derived principally from the generation of interest and fees on loans originated and, to a lesser extent, from interest and dividends on investment securities. The Bank's primary sources of funds are retail savings deposits and, to a lesser extent, principal and interest payments on loans and investment securities, FHLB advances and proceeds from the sale of loans. The Bank operates through its home office located in Fairlawn, Ohio, and full service offices in Calcutta, Ohio, Columbus, Ohio and Wellsville, Ohio and an additional office in Marietta, Georgia.

THE OFFERING

Up to 127,077 shares of Common Stock are being offered pursuant to this prospectus by stockholders who received shares in connection with the acquisition of Reserve on October 22, 2004. The closing price on the Nasdaq Stock Market on that day was \$12.70 per share. The Company will not receive any proceeds from the sales of shares pursuant to this offering.

RISK FACTORS

In deciding whether to invest in shares of Common Stock, you should consider carefully the risk factors discussed in the next section, and you should review the information incorporated in the discussion of risk factors by reference to the Company's Form 10-KSB for its fiscal year ended December 31, 2004. Information on obtaining a copy of the Company's Form 10-KSB is set forth on page 13 of this prospectus under the caption "Incorporation of Certain Documents by Reference."

3

RISK FACTORS

An investment in shares of Common Stock involves significant risk. You should carefully consider the following risk factors and the other information set forth in this prospectus before deciding to purchase any shares of Common Stock.

THE PRICE OF COMMON STOCK MAY BE VOLATILE, WHICH MAY RESULT IN LOSSES FOR INVESTORS.

The market price for shares of Common Stock has been volatile in the past, and

Edgar Filing: CENTRAL FEDERAL CORP - Form S-3

several factors could cause the price to fluctuate substantially in the future. These factors include:

- announcements of developments related to the business of the Company or the Bank;
- fluctuations in the Company's results of operations;
- sales of substantial amounts of the Company's securities into the marketplace;
- general conditions in the Company's banking niche or the worldwide economy;
- a shortfall in revenues or earnings compared to securities analysts' expectations;
- lack of an active trading market for the Common Stock;
- changes in analysts' recommendations or projections; and
- announcements of new acquisitions or other projects by the Company or the Bank.

The market price of Common Stock may fluctuate significantly in the future, and these fluctuations may be unrelated to the performance of the Company. General market price declines or market volatility in the future could adversely affect the price of Common Stock, and the current market price may not be indicative of future market prices.

THERE IS NO ACTIVE TRADING MARKET FOR THE COMPANY'S CAPITAL STOCK, AND THUS YOUR ABILITY TO SELL SHARES OR PURCHASE ADDITIONAL SHARES OF COMMON STOCK WILL BE LIMITED AND THE MARKET PRICE MAY NOT REFLECT TRUE VALUE.

Your ability to sell shares of Common Stock or purchase additional shares largely depends upon the existence of an active market for the Common Stock. Although the Common Stock is quoted on Nasdaq, the volume of trades on any given day is extremely light. Until an active trading market develops for the Common Stock, you may be unable to find a buyer for shares you wish to sell or a seller of additional shares you wish to purchase. In addition, a fair valuation of the purchase or sales price of a share of Common Stock also depends upon active trading, and thus the price you receive for a thinly traded stock, such as the Common Stock, may not reflect its true value.

FUTURE SALES OR ADDITIONAL ISSUANCES OF THE COMPANY'S CAPITAL STOCK MAY DEPRESS PRICES OF SHARES OF COMMON STOCK.

Sales of a substantial amount of the Company's capital stock in the public market, or the appearance that a substantial amount is available for sale, or the issuance of a significant number of shares could adversely affect the market price for shares of Common Stock. As of March 31, 2005, the Company was authorized to issue up to 6,000,000 shares of Common Stock, of which 2,225,987 shares were outstanding, 216,398 shares were reserved for issuance pursuant to options granted under the Company's stock option plans and an additional 14,474 shares were available for granting options or shares of restricted stock under these plans. The Company also was authorized to issue up to 1,000,000 shares of Preferred Stock, none of which was outstanding or reserved for issuance. Accordingly, the Company may issue up to 3,774,013 additional shares of Common Stock (including those reserved for issuance) and up to 1,000,000 shares of Preferred Stock without further stockholder approval. Dilution to the value of a stockholder's investment also would occur if any of the available shares were issued at a price less than the average price per share paid by such

Edgar Filing: CENTRAL FEDERAL CORP - Form S-3

stockholder.

4

THE COMPANY'S CHARTER DOCUMENTS, DELAWARE LAW AND FEDERAL REGULATIONS MAY INHIBIT A TAKEOVER OR LIMIT THE COMPANY'S GROWTH OPPORTUNITIES, WHICH COULD CAUSE THE MARKET PRICE OF COMMON STOCK TO DECLINE.

Certain provisions of the Company's charter documents, Delaware law and federal regulations could have the effect of making it more difficult for a third party to acquire, or of discouraging a third party from attempting to acquire, control of the Company. See "Limitations on Acquiring the Company," on pages 5 through 9. In addition, the Company must obtain approval from the OTS before acquiring control of any other SAIF-insured savings institution. No person may acquire control of a federally insured savings institution without providing at least 60 days written notice to the OTS and giving the OTS an opportunity to disapprove the proposed acquisition.

THE COMPANY AND THE BANK OPERATE IN A HIGHLY REGULATED ENVIRONMENT, AND CHANGES IN LAWS AND REGULATIONS TO WHICH THE COMPANY OR THE BANK IS SUBJECT MAY ADVERSELY AFFECT THE COMPANY'S RESULTS OF OPERATIONS.

The Company and the Bank operate in a highly regulated environment and are subject to supervision by various governmental regulatory agencies, including the OTS and the Federal Deposit Insurance Corporation ("FDIC"). Laws and regulations currently applicable to the Company and the Bank may change, and there is no assurance that such changes will not adversely affect the business of the Company and the Bank. Therefore, the Company is unable to determine the extent to which legislation, if enacted, would affect its business. For more detailed information regarding the risks attendant to regulation and supervision, see the discussion in the Company's Form 10-KSB for the fiscal year ended December 31, 2002, in Part I, Item 1, Description of Business, under the captions "Federal Savings Institution Regulation," "Federal Home Loan Bank System" and "Federal Reserve System." See "Incorporation of Certain Documents by Reference" at page 13 to learn how to secure a copy of the Form 10-KSB.

THE COMPANY OPERATES IN AN EXTREMELY COMPETITIVE MARKET, AND ITS BUSINESS WILL SUFFER IF IT IS UNABLE TO COMPETE EFFECTIVELY.

In the conduct of certain aspects of its banking business, the Bank encounters significant competition from other commercial banks, savings and loan associations, credit unions, mortgage banking firms, consumer finance companies, securities brokerage firms, insurance companies, money market mutual funds, and other financial institutions. Many of the Bank's competitors have substantially greater resources and lending limits than the Bank.

THE LOSS OF KEY MEMBERS OF THE COMPANY'S SENIOR MANAGEMENT TEAM COULD ADVERSELY AFFECT ITS BUSINESS.

The Company's success depends largely on the efforts and abilities of current senior management of the Company and the Bank. Their experience and industry contacts significantly benefit the Company. If the benefit of their experience and contacts were to be lost, the business of the Bank and the Company could be adversely affected.

IF THE COMPANY DOES NOT EXPERIENCE ANTICIPATED GROWTH, THE COSTS ASSOCIATED WITH RECENT EXPANSION WOULD HAVE A MATERIAL ADVERSE IMPACT ON EARNINGS.

Within the past year, the Company expanded to new locations and restructured its personnel in anticipation of growth. If the Company does not experience expected growth, the costs associated with this expansion and restructuring would have a

Edgar Filing: CENTRAL FEDERAL CORP - Form S-3

material adverse impact on the Company's earnings.

CHANGES IN ECONOMIC AND POLITICAL CONDITIONS COULD ADVERSELY AFFECT THE COMPANY.

The success of the Company and the Bank depend, to a certain extent, upon economic and political conditions, local and national, as well as governmental monetary policies. Conditions such as inflation, recession, unemployment, changes in interest rates, short money supply and other factors beyond the control of the Company and the Bank may adversely affect the Bank's asset quality, deposit levels and loan demand and, therefore, the earnings of the Bank and the Company.

5

CHANGES IN INTEREST RATES COULD ADVERSELY AFFECT THE COMPANY'S RESULTS OF OPERATIONS AND FINANCIAL CONDITION

The Company's earnings depend substantially on "rate differentials," which are the differences between the rates it earns on loans, securities and other earning assets, and the interest rates it pays on deposits and other borrowings. These rates are highly sensitive to many factors which are beyond the Company's control, including general economic conditions and the policies of various governmental and regulatory authorities. Frequently the maturities of assets and liabilities are not balanced, and an increase or decrease in interest rates could have a material adverse affect the Company's net interest margin, results of operations and financial condition.

THE COMPANY MAY NOT BE ABLE TO PAY DIVIDENDS IN THE FUTURE IN ACCORDANCE WITH PAST PRACTICE.

The Company is dependent primarily upon the Bank for its earnings and funds to pay dividends on the Company's Common Stock. The payment of dividends by the Company and the Bank also is subject to legal and regulatory restrictions. Any payment of dividends by the Company in the future will depend, in large part, on the Bank's earnings, capital requirements, financial condition and other factors considered relevant by the Board of Directors (the "Board").

CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This prospectus contains forward-looking statements that reflect the Company's views regarding future events. These forward-looking statements are subject to risks and uncertainties and include statements regarding position, business strategy and other plans and objectives for future operations and statements that are not historical facts. Although the Company believes such statements are based on reasonable assumptions, these forward-looking statements are subject to numerous factors, risks and uncertainties that could cause actual outcomes and results to be materially different from those projected, including, but not limited to, those statements found in this prospectus under the caption "Risk Factors" and in other documents filed by the Company with the Securities and Exchange Commission and incorporated in this prospectus. Readers are cautioned not to place undue reliance on forward-looking statements which speak only as of their dates. Except for its ongoing obligation to disclose material information as required by the federal securities laws and Nasdaq rules, the Company does not have any intention to update forward-looking statements after the distribution of this prospectus. Actual results may differ materially from those suggested by the forward-looking statements for various reasons, including those discussed under "Risk Factors" in this prospectus.

USE OF PROCEEDS

The Company will not receive any proceeds from the sale of Common Stock by the

On April 20, 2005, the last reported sales price of the Company's Common Stock on the Nasdaq Small Cap Market was \$10.49 per share.

DESCRIPTION OF CAPITAL STOCK

GENERAL

The Company, a Delaware corporation, has authorized capital stock consisting of 6,000,000 shares of Common Stock, par value \$0.01 per share, and 1,000,000 shares of preferred stock, par value \$0.01 per share (the "Preferred Stock").

At March 31, 2005, 2,225,987 shares of Common Stock were issued and outstanding and held by approximately 599 holders of record and individual participants in security position listings. No shares of Preferred Stock were outstanding on that date or are outstanding on the date of this prospectus. The Common Stock is listed on the Nasdaq Small Cap Market under the ticker symbol "GCFC." Each share of Common Stock is entitled to one vote on all matters presented to stockholders. No shares of Preferred Stock are issued and outstanding as of the date of this prospectus.

The Common Stock represents non-withdrawable capital, is not an account of an insurable type, and is not insured by the FDIC or any governmental agency.

COMMON STOCK

Dividends. The Company can pay dividends out of statutory surplus or from

Edgar Filing: CENTRAL FEDERAL CORP - Form S-3

certain net profits if, as and when declared by its Board. The payment of dividends by the Company may be subject to limitations imposed by law and applicable regulation. The holders of Common Stock are entitled to receive and share equally in such dividends as may be declared by the Board out of funds legally available therefore. If the Company issues Preferred Stock, the holders of shares of Preferred Stock may have a priority over the holders of shares of Common Stock with respect to the receipt of dividends.

7

Voting Rights. The holders of Common Stock possess exclusive voting rights in the Company. They elect the Board and act on such other matters as are required to be presented to them under Delaware law or the Company's Certificate of Incorporation, as well as any other matter that properly comes before the stockholders. Each share of Common Stock is entitled to one vote; there is no right to cumulate votes in the election of directors. If the Company hereafter issues Preferred Stock, holders of shares of Preferred Stock may also possess voting rights.

Liquidation. In the event of any liquidation, dissolution or winding up of the Bank, the Company, as holder of the Bank's capital stock, would be entitled to receive, after payment or provision for payment of all debts and liabilities of the Bank (including all deposit accounts and accrued interest thereon and any remaining rights under the liquidation account established in connection with the Bank's conversion from mutual to stock form in 1998), all assets of the Bank available for distribution. In the event of any liquidation, dissolution or winding up of the Company, the holders of its Common Stock would be entitled to receive, after payment or provision for payment of all its debts and liabilities, all assets of the Company available for distribution. If Preferred Stock is issued, the holders of Preferred Stock may have a priority over the holders of Common Stock in the event of liquidation, dissolution or winding up.

Preemptive Rights. Holders of Common Stock are not entitled to preemptive rights with respect to any shares that may be issued. Common Stock is not subject to redemption.

PREFERRED STOCK

None of the shares of the Company's authorized Preferred Stock are issued and outstanding. However, shares of Preferred Stock may be issued with such preferences and designations as the Board may from time to time determine. The Board can, without stockholder approval, issue Preferred Stock with voting, dividend, liquidation and conversion rights, which could dilute the voting strength of the holders of Common Stock and may assist management in impeding a takeover or attempted change in control of the Company.

LIMITATIONS ON ACQUIRING THE COMPANY

Several provisions of the Company's charter documents, the laws of Delaware and federal regulations limit the ability of any person to acquire a controlling interest in the Company and thus may be deemed to have an anti-takeover effect. The following discussion is a general summary of those provisions. Copies of the Company's Certificate of Incorporation ("Certificate of Incorporation") and ("Bylaws") may be obtained from the Company upon request or at the website of the Securities and Exchange Commission. See "Incorporation of Certain Documents by Reference" and "Where You Can Find Additional Information" at page 13 below.

LIMITATION ON VOTING RIGHTS

The Certificate of Incorporation of the Company provides that in no event shall any record beneficial owner of any outstanding Common Stock in excess of 10% of

Edgar Filing: CENTRAL FEDERAL CORP - Form S-3

the then outstanding shares of the Common Stock (the "Limit") be entitled or permitted to any vote in respect of the shares held in excess of the Limit. Beneficial ownership is determined pursuant to Rule 13d-3 of the General Rules and Regulations promulgated pursuant to the Securities Exchange Act of 1934 (the "Exchange Act"), and includes (i) shares beneficially owned by such person or any affiliate (as defined in Exchange Act Rule 12b-2), (ii) shares which such person or his affiliates have the right to acquire pursuant to any agreement or understanding, including without limitation upon the exercise of conversion rights or options and (iii) shares as to which such person or his affiliates are deemed to have beneficial ownership through any partnership, syndicate or group acting for the purpose of acquiring, holding, voting or disposing of shares of Common Stock. Notwithstanding the foregoing, shares with respect to which a revocable proxy has been granted in connection with a meeting of stockholders and shares beneficially owned by any Company benefit plan are not subject to the limitation, and no director or officer of the Company (or any affiliate) will be deemed to beneficially own shares of Common Stock of any other director or officer of the Company (or any affiliate) solely by reason of service as a director or officer of the Company.

8

CLASSIFIED BOARD OF DIRECTORS

The Board is divided into three classes, each of which contains one-third of the whole number of members of the Board. Each class serves a staggered term, with one-third of the total number of directors being elected each year. The Certificate of Incorporation provides that the size of the Board is fixed from time to time by a majority of the directors. The Certificate of Incorporation provides that any vacancy occurring in the Board, including a vacancy resulting from death, resignation, retirement, disqualification, removal from office or other cause, may be filled for the remainder of the unexpired term exclusively by a majority vote of the directors then in office. The classified Board is intended to provide for continuity of the Board and to make it more difficult and time consuming for a stockholder group to fully use its voting power to gain control of the Board without the consent of the incumbent Board of the Company. A stockholder may nominate any person to serve as a director, but notice of such nomination generally must be provided to the Company not later than 90 days prior to the meeting date. The Certificate of Incorporation of the Company provides that a director may be removed from the Board prior to the expiration of his term only for cause, upon the vote of 80% of the outstanding shares of voting stock. In the absence of these provisions, the vote of the holders of a majority of the shares could remove the entire Board, with or without cause, and replace it with persons of the stockholders' choice.

CUMULATIVE VOTING, SPECIAL MEETINGS AND ACTION BY WRITTEN CONSENT

The Certificate of Incorporation does not provide for cumulative voting for any purpose. Moreover, special meetings of stockholders of the Company may be called only by the Board. The Certificate of Incorporation also provides that any action required or permitted to be taken by the stockholders of the Company may be taken only at an annual or special meeting and prohibits stockholder action by written consent in lieu of a meeting.

AUTHORIZED SHARES

The Certificate of Incorporation authorizes the issuance of 6,000,000 shares of Common Stock and 1,000,000 shares of Preferred Stock. The authorization of these shares gives the Board flexibility to effect, among other transactions, financings, acquisitions, stock dividends, stock splits and employee stock options. However, these additional authorized shares may also be used by the Board consistent with its fiduciary duty to deter future attempts to gain

Edgar Filing: CENTRAL FEDERAL CORP - Form S-3

control of the Company. The Board also has sole authority to determine the terms of any one or more series of Preferred Stock, including voting rights, conversion rates, and liquidation preferences. As a result of the ability to fix voting rights for a series of Preferred Stock, the Board has the power, to the extent consistent with its fiduciary duty, to issue a series of Preferred Stock to persons friendly to management in order to attempt to block a post-tender offer merger or other transaction by which a third party seeks control, and thereby assist management to retain its position.

STOCKHOLDER VOTE REQUIRED TO APPROVE BUSINESS COMBINATIONS WITH PRINCIPAL STOCKHOLDERS

The Certificate of Incorporation requires the approval of the holders of at least 80% of the Company's outstanding shares of voting stock to approve certain "Business Combinations," as defined therein, and related transactions. Under Delaware law, absent this provision, Business Combinations, including mergers, consolidations and sales of all or substantially all of the assets of a corporation must, subject to certain exceptions, be approved by the vote of the holders of only a majority of the outstanding shares of Common Stock of the Company and any other affected class of stock. Under the Certificate of Incorporation, at least 80% approval of stockholders is required in connection with any transaction involving an Interested Stockholder (as defined below) except (i) in cases where the proposed transaction has been approved in advance by a majority of those members of the Board who are unaffiliated with the Interested Stockholder and were directors prior to the time when the Interested Stockholder became an Interested Stockholder or (ii) if the proposed transaction meets certain conditions set forth therein which are designed to afford the stockholders a fair price in consideration for their shares in which case, if a stockholder vote is required, approval of only a majority of the outstanding shares of voting stock would be sufficient. The term "Interested Stockholder" is defined in the Certificate of Incorporation to include any individual, corporation, partnership or other entity (other than the Company or its subsidiary) which owns beneficially or controls, directly or indirectly, 10% or more of the outstanding shares of voting stock of the Company. This provision of the Certificate of Incorporation applies to any "Business Combination," which is defined to include (i) any merger or consolidation of the Company or any of its subsidiaries with or into any Interested Stockholder or Affiliate (as defined in the Certificate of Incorporation) of an Interested Stockholder; (ii) any sale, lease, exchange, mortgage, pledge, transfer, or

9

other disposition to or with any Interested Stockholder or Affiliate of 10% or more of the assets of the Company or combined assets of the Company and its subsidiary; (iii) the issuance or transfer to any Interested Stockholder or its Affiliate by the Company (or any subsidiary) of any securities of the Company in exchange for any assets, cash or securities the value of which equals or exceeds 10% of the fair market value of the Common Stock of the Company; (iv) the adoption of any plan for the liquidation or dissolution of the Company proposed by or on behalf of any Interested Stockholder or Affiliate thereof and (v) any reclassification of securities, recapitalization, merger or consolidation of the Company which has the effect of increasing the proportionate share of Common Stock or any class of equity or convertible securities of the Company owned directly or indirectly by an Interested Stockholder or Affiliate thereof.

AMENDMENT OF CERTIFICATE OF INCORPORATION AND BYLAWS

Amendment of the Company's Certificate of Incorporation must be approved by a majority vote of its Board or by the affirmative vote of at least 80% of the outstanding shares of the Company's voting stock entitled to vote (after giving effect to the provision limiting voting rights) in order to amend or repeal

Edgar Filing: CENTRAL FEDERAL CORP - Form S-3

certain provisions of the Certificate of Incorporation, including the provisions relating to voting rights (Article Fourth, Part C), management of the business and conduct of the affairs of the Company and calling special meetings (Article Fifth), the number and classification of directors and nominations (Article Sixth), amendment of the Bylaws (Article Seventh), approval of certain business combinations (Article Eighth), director and officer indemnification by the Company (Article Tenth) and amendment of the Company's Certificate of Incorporation (Article Twelfth).

The Bylaws may be amended by the Board, or by the vote of at least 80% of the total votes eligible to be voted in the election of directors.

CERTAIN PROVISIONS OF THE BYLAWS

Article Sixth of the Certificate of Incorporation incorporates by reference Article I, Section 6 of the Bylaws, as it pertains to stockholder nominations for director. As noted above, a stockholder who intends to nominate a candidate for election to the Board must give at least 90 days advance notice to the Secretary of the Company. Article I, Section 6 of the Bylaws also requires a stockholder to give 90 days prior notice with respect to any new business; the stockholder also must provide certain information to the Company concerning the nature of the new business, the stockholder and the stockholder's interest in the business matter. Similarly, a stockholder wishing to nominate any person for election as a director must provide the Company with certain information concerning the nominee and the proposing stockholder.

Article I, Section 9 of the Bylaws provides that any action to be taken by the stockholders must be taken at a special or annual meeting and may not be taken by written consent of the stockholders.

Article VIII of the Bylaws specifies that the Bylaws may be amended by a majority of the members of the Board or by the affirmative vote of stockholders holding at least 80% of the outstanding shares of Common Stock.

REGULATORY RESTRICTIONS

A federal regulation prohibits any person prior to the completion of a conversion from transferring, or entering into any agreement or understanding to transfer, the legal or beneficial ownership of the subscription rights issued under a plan of conversion or the stock to be issued upon their exercise. This regulation also prohibits any person prior to the completion of a conversion from offering, or making an announcement of an offer or intent to make an offer, to purchase such subscription rights or stock. For three years following conversion, OTS regulations prohibit any person, without the prior approval of the OTS, from acquiring or making an offer to acquire more than 10% of the stock of any converted savings institution if such person is, or after consummation of such acquisition would be, the beneficial owner of more than 10% of such stock. In the event that any person, directly or indirectly, violates this regulation, the securities beneficially owned by such person in excess of 10% shall not be counted as shares entitled to vote and shall not be voted by any person or counted as voting shares in connection with any matter submitted to a vote of stockholders.

Federal law provides that no company, "directly or indirectly or acting in concert with one or more persons, or through one or more subsidiaries, or through one or more transactions," may acquire "control" of a savings association at any time without the prior approval of the OTS. In addition, any company that acquires such control becomes a "savings and loan holding company" subject to registration, examination and regulation as a savings and loan

holding company. Control in this context means ownership of, control of, or holding proxies representing more than 25% of the voting shares of a savings association or the power to control in any manner the election of a majority of the directors of such institution.

Federal law also provides that no "person," acting directly or indirectly or through or in concert with one or more other persons, may acquire control of a savings association unless at least 60 days prior written notice has been given to the OTS and the OTS has not objected to the proposed acquisition. Control is defined for this purpose as the power, directly or indirectly, to direct the management or policies of a savings association or to vote more than 25% of any class of voting securities of a savings association. Under federal law (as well as the regulations referred to below) the term "savings association" includes state-chartered and federally chartered SAIF-insured institutions, federally chartered savings and loans and savings banks whose accounts are insured by the FDIC and holding companies thereof.

Federal regulations require that, prior to obtaining control of an insured institution, a person, other than a company, must give 60 days notice to the OTS and have received no OTS objection to such acquisition of control, and a company must apply for and receive OTS approval of the acquisition. Control, involves a 25% voting stock test, control in any manner of the election of a majority of the institution's directors, or a determination by the OTS that the acquiror has the power to direct, or directly or indirectly to exercise a controlling influence over, the management or policies of the institution. Acquisition of more than 10% of an institution's voting stock, if the acquiror also is subject to any one of either "control factors," constitutes a rebuttable determination of control under the regulations. The determination of control may be rebutted by submission to the OTS, prior to the acquisition of stock or the occurrence of any other circumstances giving rise to such determination, of a statement setting forth facts and circumstances which would support a finding that no control relationship will exist and containing certain undertakings. The regulations provide that persons or companies which acquire beneficial ownership exceeding 10% or more of any class of a savings association's stock after the effective date of the regulations must file with the OTS a certification that the holder is not in control of such institution, is not subject to a rebuttable determination of control and will take no action which would result in a determination or rebuttable determination of control without prior notice to or approval of the OTS, as applicable.

DELAWARE CORPORATE LAW

Delaware law provides additional protection against hostile takeovers. The Delaware takeover statute, which is codified in Section 203 of the Delaware General Corporation Law ("Section 203"), is intended to discourage certain takeover practices by impeding the ability of a hostile acquiror to engage in certain transactions with the target company.

In general, Section 203 provides that a "Person" (as defined therein) who owns 15% or more of the outstanding voting stock of a Delaware corporation (an "Interested Stockholder") may not consummate a merger or other business combination transaction with such corporation at any time during the three-year period following the date such "Person" became an Interested Stockholder. The term "business combination" is defined broadly to cover a wide range of corporate transactions including mergers, sales of assets, issuances of stock, transactions with subsidiaries and the receipt of disproportionate financial benefits.

The statute exempts the following transactions from the requirements of Section 203: (i) any business combination if, prior to the date a person became an Interested Stockholder, the Board approved either the business combination or the transaction which resulted in the stockholder becoming an Interested

Stockholder; (ii) any business combination involving a person who acquired at least 85% of the outstanding voting stock in the transaction in which he became an Interested Stockholder, with the number of shares outstanding calculated without regard to those shares owned by the corporation's directors who are also officers and by certain employee stock plans; (iii) any business combination with an Interested Stockholder that is approved by the Board and by a two-thirds vote of the outstanding voting stock not owned by the Interested Stockholder; and (iv) certain business combinations that are proposed after the corporation had received other acquisition proposals and which are approved or not opposed by a majority of certain continuing members of the

Board. A corporation may exempt itself from the requirements of the statute by adopting an amendment to its Certificate of Incorporation or Bylaws electing not to be governed by Section 203.
