L.B. FOSTER COMPANY

PROXY STATEMENT

GENERAL INFORMATION

This proxy statement is furnished in connection with the solicitation of proxies by the Board of Directors of L.B. Foster Company (the Company) for use at the May 21, 2009, annual meeting of shareholders and at any adjournment thereof. This proxy statement, the enclosed form of proxy and the Company's 2008 Annual Report to Shareholders were available to shareholders on the internet at www.proxyvote.com or mailed on or about April 9, 2009.

The presence, in person or by proxy, of the record holders of a majority of the Company's outstanding common stock is necessary to constitute a quorum. At the close of business on March 20, 2009, the record date for entitlement to vote at the meeting (Record Date), there were 10,139,714 shares of common stock outstanding. A quorum will require the presence, in person or by proxy, of the holders of at least 5,069,858 shares. Where a shareholder's proxy or ballot indicates that no vote is to be cast on a particular matter (including broker non-votes) the shares of such shareholder are nevertheless counted as being present at the meeting for the purposes of the vote on that matter.

Only holders of record of the common stock at the close of business on the Record Date are entitled to notice of and to vote at the meeting or at any adjournment thereof. Such shareholders will have one vote for each share held on that date. The common stock does not have cumulative voting rights in the election of directors.

Directors shall be elected by a plurality of the votes cast from the shares present in person or represented by proxy at the meeting. Accordingly, abstentions and broker non-votes will have no effect on the election. Broker non-votes are not considered to be votes cast.

The Audit Committee of the Board of Directors has appointed Ernst & Young LLP as the Company's independent registered public accountants for 2009. The Company will consider the affirmative vote of a majority of the shares of common stock present and cast in person or by proxy, as a ratification of this appointment. As a result, abstentions have the same effect as a vote against the ratification, but broker non-votes will have no effect.

If the enclosed form of proxy is properly executed and returned, it will be voted as directed. If no directions are given, the proxy will be voted FOR the election of the seven nominees named herein, and FOR the ratification of the appointment of Ernst & Young LLP as the Company's independent registered public accountants for 2009. The proxy confers discretionary authority to vote on other matters to Lee B. Foster II, Chairman of the Board, and Stan L. Hasselbusch, President and Chief Executive Officer.

If your shares are held in street name (i.e. held for your account by a broker or other nominee), you should receive instructions from the holder of record on voting your shares.

Table of Contents

If voting instructions representing shares in the Company's 401(k) plan are received but no indication is provided as to how those shares are to be voted, those shares are nonetheless counted as being present at the meeting and will count toward achievement of a quorum.

The cost of soliciting proxies will be borne by the Company. Officers or employees of the Company may solicit proxies by mail, telephone, e-mail or facsimile. The Company does not expect to pay any compensation for the solicitation of proxies, but under arrangements made with brokers, custodians, nominees and fiduciaries to send proxy material to the beneficial owners of shares held by them, the Company may reimburse their expenses.

If you are a shareholder of record, you may vote your shares of common stock by telephone or through the Internet. You may also vote your shares by mail. Please see the notice mailed to you for specific instructions on how to cast your vote by any of these methods.

If you are a beneficial owner of the Company's common stock, and not the shareholder of record (for example your common stock is registered in street name with a brokerage firm), you must follow the procedures required by the holder of record, which is usually a brokerage firm or bank, to revoke or change a proxy. You should contact the shareholder of record directly for more information on these procedures.

Votes submitted via the Internet or by telephone must be received by 11:59 PM EST, on May 20, 2009. Submitting your vote via the Internet or by telephone will not affect your right to vote in person should you attend the annual meeting. You may change your vote or revoke your proxy as described above or by submitting a valid, subsequent vote by telephone or through the Internet, by submitting another properly signed proxy which bears a later date, or by attending the annual meeting and voting in person.

RATIFICATION OF AUDIT COMMITTEE S APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS

Ratification of Appointment of Independent Registered Public Accountants

The firm of Ernst & Young LLP has served as the Company s independent registered public accountants or as independent auditors since 1990 and has been appointed by the Audit Committee of the Board of Directors as the Company s independent registered public accountants for the fiscal year ending December 31, 2009. Although action by the shareholders in this matter is not required by the Company s By-laws or otherwise, the Board of Directors believes that it is appropriate to seek shareholder ratification of this appointment in light of the important role played by the independent registered public accountants. If the shareholders fail to ratify the selection, the Audit Committee will investigate the reasons for shareholder rejection and consider whether or not to retain that firm. Even if the appointment is ratified, the Audit Committee, in its discretion, may direct the appointment of a different firm at any time during the year if the Committee determines that such a change would be in the best interests of the Company and its shareholders.

The Board of Directors recommends that you vote FOR ratification of Ernst & Young LLP s appointment.

¹ Beginning in June 2008, the base annual fees of the respective chairmen of the Audit Committee, the Nomination and Governance Committee and the Compensation Committee were raised from \$31,500 to \$42,500. The base annual fee for other outside directors was increased from \$29,000 to \$40,000. Outside directors also received \$1,000 for each Board meeting attended, \$500 for each committee meeting attended (of which the director is a member) and \$500 for each telephonic Board or committee (of which the director is a member) meeting in which the director participated. Lee B. Foster II, who was an employee of the Company through May 2008, had received, while an employee and Chairman of the Board, a salary of \$165,000 per annum plus benefits. Commencing May 28, 2008, the fees for Lee B. Foster II, Chairman of the Board of Directors, were a base annual fee of \$85,000 and a \$2,000 fee for each Board meeting attended, and \$1,000 for each telephonic Board meeting attended, together with medical benefits for him and his wife.

² On May 28, 2008 (the date of the Company's 2008 annual shareholders' meeting) each outside director was awarded 1,750 shares of the Company's common stock. Since the awards were fully vested on the grant date, the aggregate grant date fair value of each stock award to the Company's non-employee directors is reflected in the Stock Awards column of the table based on the compensation cost recognized in 2008 for financial statement reporting purposes and computed in accordance with SFAS 123(R). For a discussion of valuation assumptions, see Note 1 of the Company's 2008 Consolidated Financial Statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2008. When a director is elected or re-elected, he or she will receive the lower of 3,500 shares or such lesser amount as shall be determined by the Board of Directors. The Board has determined that the grant to each outside director, including Lee B. Foster II, re-elected at the May 21, 2009, annual shareholders' meeting (or an adjournment thereof) will be reduced to 1,750 shares.

³ Mr. Foster was both Chairman of the Board and an employee until May 28, 2008, at which time he was no longer an employee. Mr. Foster's other compensation included such things as the Company match to the 401(k), a contribution to the SERP and medical benefits.

⁴ The Company reimburses outside directors for expenses associated with travel to and attendance at Board of Directors meetings. This reimbursement and other expenses associated with travel to and attendance at Board of Directors meetings are not included in the table.

Table of Contents**INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS FEES**

Ernst & Young LLP s (E&Y) aggregate fees (including out-of-pocket expenses) billed for fiscal 2008 and 2007 for each of the following categories of services are set forth below:

Tax fees (federal and state)	\$ 16,000	\$ 14,000
Total fees	\$ 454,604	\$ 447,447

The Audit Committee reviews summaries of services provided by E&Y and the related fees and has concluded that E&Y s provision of certain audit-related services is compatible with maintaining E&Y s independence. All services are pre-approved by the Audit Committee.

CORPORATE GOVERNANCE**The Board and Board Meetings**

The Board of Directors consists of seven directors. During 2008, the Board held ten meetings, five of which were telephonic. The Board has determined that all of the directors except Messrs. Foster and Hasselbusch, qualify as independent as defined by applicable NASDAQ rules. In making this determination, the Board has concluded that none of these directors has a relationship which, in the opinion of the Board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director.

During 2008, each director attended at least 75% of the total number of meetings (held during the period served) of the Board and all committees on which he or she served.

The directors regularly have attended shareholders meetings without a formal policy on attendance and the Company does not believe that a formal policy is required. All of the directors attended the 2008 annual meeting of shareholders.

Communications with Directors

Shareholders and other parties interested in communicating directly with the Chairman of the Board or with the non-managerial directors as a group may do so by writing to L.B. Foster Company, 415 Holiday Drive, Pittsburgh, PA 15220, Attn: Chairman of the Board or Attn: Outside Directors. The Secretary of the Company shall review all such correspondence and shall regularly forward to the Board a summary of all such correspondence and copies of all correspondence that, in the opinion of the Secretary, deal with the functions of the Board or committees thereof or that he otherwise determines requires the Board s attention. Directors may at any time review a log of all correspondence received by the Company that is addressed to members of the Board and request copies of any such correspondence. Concerns relating to accounting, internal controls or auditing are directed to the Company s internal audit department and handled in accordance with procedures established by the Audit Committee with respect to such matters.

Table of Contents

Board Committees

The Board has three standing committees: the Audit Committee, the Compensation Committee and the Nomination and Governance Committee. Each member of these committees is independent as defined by applicable NASDAQ rules. Each of the committees has a written charter approved by the Board.

Audit Committee

The Audit Committee is composed of Ms. Owen (Chairman), Mr. McIlroy, and Ms. Rowland. The Board has designated Ms. Owen as the Audit Committee's financial expert under applicable SEC rules.

The Audit Committee, which held seven meetings (two of which were telephonic meetings) during 2008, is responsible for overseeing, with management, the work and findings of the independent registered public accounting firm, as well as the effectiveness of the Company's internal auditing department, the adequacy of the Company's internal controls and the accounting principles employed in financial reporting. The Audit Committee also is responsible for the appointment and compensation of the independent registered public accounting firm. The Committee's charter is posted on the Company's website, www.lbfoster.com.

The Audit Committee also is responsible for reviewing and, if appropriate, approving transactions with related persons. Under the Company's written policy, no employee, officer or director is to participate in any transaction (subject to various exceptions including exceptions for stock ownership in a publicly traded company and participation in a transaction solely as an employee, director or shareholder of the Company) with the Company without the Audit Committee's approval. The Company's written policy on related person transactions may be found in its Legal & Ethical Conduct Policy at the Company's website.

Compensation Committee

The Compensation Committee is composed of Messrs. Rackoff (Chairman), McKane and McIlroy.

This Committee, which met on seven occasions (one of which was a telephonic meeting) in 2008, is responsible for reviewing and recommending for approval significant employee benefit programs, determining officer compensation, reviewing and recommending for approval certain organizational changes and granting equity awards.

The Compensation Committee makes decisions regarding executive compensation and these decisions are then ratified by the Board of Directors. The Committee's charter is available at the Company's website. The Committee does not delegate its authority to any third party.

The Compensation Committee currently uses a Comparator Group, identified in the Compensation Discussion and Analysis on page 10, and survey data as a tool to establish competitive compensation for the Company's executive officers.

The Committee has retained Towers Perrin to provide consulting services on the Company's compensation practices and appropriate levels of and structures for executive compensation.

The Compensation Committee gives significant weight to the Chief Executive Officer's recommendations regarding other executive officers' compensation; such other executive officers are not present when the compensation is being determined. With respect to the Chief Executive Officer's compensation,

Table of Contents

the Compensation Committee may solicit the Chairman of the Board's views, but does not defer to the Chairman's views. The Chief Executive Officer is not present when his compensation is being determined.

Nomination and Governance Committee

The Nomination and Governance Committee is composed of Messrs. McKane (Chairman) and Rackoff and Ms. Owen.

This Committee, which met on four occasions in 2008, is responsible for overseeing corporate governance, proposing director nominees to the full Board, recommending which directors should serve on various Board committees and recommending who should serve as Chairman of the Board and Chairman of each of the Board's committees. This Committee also recommends to the full Board appropriate compensation for non-employee directors.

The Nomination and Governance Committee endeavors to create a Board of Directors consisting of individuals who are financially literate and whose experiences and backgrounds will enable the Board of Directors to provide meaningful counsel to and oversight of management. The Nomination and Governance Committee seeks to recommend, to the full Board, nominees who will create and maintain a Board of Directors that satisfies applicable legal and regulatory requirements. In support of these goals, the Committee oversees a program for the Directors continuing education, which includes seminars focused on strategic and governance issues. The Committee's Charter is available on the Company's website.

In selecting nominees for election to the Board of Directors, the Nomination and Governance Committee will consider submissions from shareholders. A shareholder wishing to recommend a nominee may notify the Company's Secretary or any member of the Nomination and Governance Committee in writing and provide whatever supporting material the shareholder considers appropriate. Submissions should be sent to the Company's principal executive offices, 415 Holiday Drive, Pittsburgh, PA 15220, Attn: Secretary.

The Nomination and Governance Committee determines appropriate levels of compensation for the outside directors following essentially the same process as the Compensation Committee follows to determine compensation for executive officers. The Nomination and Governance Committee used survey information as a tool to determine appropriate levels of director compensation.

The Nomination and Governance Committee's members also may confer with other directors to obtain information on competitive compensation practices. The Committee used such information, together with other Companies' compensation practices, to exercise its subjective judgment in determining appropriate levels of compensation. The Committee then makes recommendations to the Board for ratification by the full Board. The Committee does not delegate its responsibilities to any third party.

Table of Contents

Code of Conduct and Ethics

The Company adopted a written code of conduct and ethics that applies to all the Company's directors, officers and employees, including its chief executive officer, chief financial officer and chief accounting officer. A current copy of the code, titled "Legal and Ethical Conduct Policy", is posted on the Company's website.

Compensation Committee Interlocks and Insider Participation

All members of the Compensation Committee are independent directors, and none of them is a present or past employee or officer of the Company or any of its subsidiaries. No member of the Compensation Committee has had any relationship with the Company requiring disclosure under Item 404 of Regulation S-K of the Securities and Exchange Commission (SEC). The Company's executive officers have not served on the board or compensation committee (or other committee serving an equivalent function) of any other entity, whose executive officers have served on the Company's Board or Compensation Committee.

Section 16(a) Beneficial Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's directors and executive officers to file reports with the SEC on their transactions in and holdings of Company common stock and to provide copies of such reports to the Company. Based on its review of such copies, the Company believes that all of its directors and executive officers complied with these filing requirements.

Ownership Guidelines For Outside Directors

The Company's outside directors are expected to own Company common stock valued at least 3 times their respective annual cash compensation as a director within five years of first being elected to the Board.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview

The Company attempts to retain and attract talented and qualified executives. The Board of Directors' Compensation Committee (the Committee) pursues this goal through its recommendations for executive officer compensation, which recommendations are approved by the Board of Directors. The Committee's compensation philosophy is to reward initiative and positive results. Unless otherwise indicated, all Committee actions or determinations have been approved by the Board.

The Committee aligns executive officer compensation with the Company's performance and the creation of long-term stockholder value. Accordingly, a significant portion of executive officers' compensation is variable and earned under incentive plans that are based on the Company's performance and the value delivered to the Company's stockholders.

Table of Contents

When making decisions on its recommendations for executive compensation, the Committee takes into account the executive's entire compensation package. While the Committee has not established any policy on allocating an executive's total compensation package between current year and long-term compensation or between cash and equity, the Committee attempts to structure its executives' compensation into a competitive package that aligns total compensation with corporate performance.

Executive officers' compensation includes base salary, annual incentive awards, and long-term incentive awards. Base salaries are set with reference to the 50th percentile of data for positions of similar responsibility. Annual incentive compensation is based on goals, or targets, established by the Board after considering the Company's prior year performance, planned current year performance and anticipated market conditions for the current year.

In October 2007, the Committee retained Towers Perrin to conduct a comprehensive review of the Company's executive compensation program. Their research and analysis indicated that the long-term incentive portion of the executives' compensation packages had not been competitive nor aligned with the Company's desired positioning. Accordingly, the Committee, commencing in early 2008, increased long-term incentive opportunities through the regular issuance of common stock, both time and performance based, for long-term incentive awards. This decision met the Committee's goal of increasing stock ownership levels and enhancing retention among our executive team.

The Committee has continued to consult with Towers Perrin to assist the Committee in the evaluation of the Company's executive compensation practices.

Comparator Group

Each year, to assist in its compensation decisions, and to determine medians for overall compensation and each pay component, the Committee used market data drawn from the following surveys: (i) market compensation surveys from Towers Perrin, Mercer, Watson Wyatt; (ii) the CompAnalyst by Salary.com survey provided by the Company's internal human resources department; and (iii) the compensation practices of the Comparator Group described below.

Due to the Company's product mix and distinct manufacturing and distribution functions, the Committee does not believe the Company has true peers among publically traded organizations. Accordingly, the Committee, upon Towers Perrin's recommendation, used certain publically traded companies that were, in some respect, comparable to the Company (the Comparator Group). These companies were selected based on the following criteria: (i) revenues ranging from \$250 million to \$1.2 billion; (ii) industrial companies, many with a distribution segment; and (iii) assets of less than \$1.0 billion and annual asset turnover (revenue/total assets) of greater than 1.0.

In 2007, the Committee approved the following Comparator Group: A.M. Castle & Co., Circor International, Inc., Empire Resources, Inc., NN, Inc., Olympic Steel, Inc., Koppers Holdings, Inc., Wabtec Corp., Greenbrier Companies, Inc., American Railcar Industries, Inc., Lawson Products, Inc., Haynes International Inc., Skyline Corp., Northwest Pipe Company, Insteel Industries, Houston Wire & Cable Co., RBC Bearings, Inc., DXP Enterprises, Inc., Synalloy Corp., and Portec Rail Products, Inc. The Committee removed Industrial Distribution Group, Inc., from the Comparator Group because the company is no longer a publicly traded organization and therefore proxy disclosures are no longer available.

Table of Contents

The Comparator Group's proxy disclosures provide a point of reference for the Committee's compensation decisions. The Committee does not, however, require that compensation be set within any range of percentiles.

Compensation Decision Recommendations

After considering the pay practices of other organizations (as derived from the Comparator Group proxy disclosures and compensation surveys), the Committee exercises its judgment in making decisions on executive compensation components, including the amount and the allocation of compensation.

The Committee believes that a significant portion of an executive's compensation should be delivered through performance-based incentive compensation components. The Committee has identified meaningful financial and shareholder performance objectives that align with the business strategy of the Company. The Committee uses annual financial performance metrics and goals as the basis for motivating and rewarding executives through the Company's incentive plans. In addition, the Committee believes that an increase in the Company's stock price is the best means of rewarding shareholders and executives over the long-term.

The Company's incentive plans (annual and long-term) are targeted to reward executives at an amount as determined by the Committee, based on their review of appropriate market data as described above. If the Company's performance exceeds goals and expectations, the incentive plans are designed to pay above the targeted level. If the Company's performance falls below goals and expectations, the incentive plans are designed to pay below the targeted level. If actual performance falls below a certain threshold level, the incentive plans are designed to pay nothing.

The following table shows the allocation of compensation between each element:

Specific Components of Named Executive Officer Compensation

While the preceding Overview described the Company's overall approach to executive compensation, the remainder of this discussion will focus on how these general policies specifically affected the NEOs listed in the Summary

Compensation Table on page 23.

Table of Contents

For the Company's fiscal year ended December 31, 2008, the Company's NEOs were Stan L. Hasselbusch, Donald L. Foster, David J. Russo, Kevin R. Haugh and John F. Kasel.

Salary

Previously, the NEOs were eligible for salary reviews at 12 month intervals based on their starting or promotion date with the Company. Starting in March 2008, the Company adopted a more simplified approach where all salaried employees will receive an annual salary review in March of each year. The Company believes that a single review date will promote more accurate assessments of its employees' relative performances. In 2009, however, the Company, in response to the current difficult economic climate, has deferred salary reviews until at least June 30, 2009.

Using proxy data from the Comparator Group and compensation surveys as guidelines, the Committee determines competitive salaries for the NEOs. The Committee gives significant weight to the Chief Executive Officer's performance assessments and salary adjustment recommendations for other NEOs. The NEOs' salaries, other than Mr. Haugh's (Mr. Haugh joined the Company in February 2008), were last adjusted in March 2008, with salary increases ranging from 5.8% to 10.5%. The adjustments partially were attributable to the NEOs having had different periods of time between their previous salary adjustments and March 2008. These salary increase levels were also used to narrow competitive gaps that were apparent during the Committee's assessment of executive salaries relative to the competitive market.

The Committee normally adjusts the salary of the Chief Executive Officer (CEO) based upon its interpretation of the above mentioned guidelines and its assessment of the CEO's performance (taking into account the health of the Company's various markets). The Committee may also solicit recommendations and insights regarding Mr. Hasselbusch's performance from the Chairman of the Board, Lee B. Foster II. Due to the economic climate, Mr. Hasselbusch voluntarily requested that the Committee temporarily reduce his salary by ten percent effective January 1, 2009. The Committee, while recognizing Mr. Hasselbusch's continued excellent performance, reluctantly granted Mr. Hasselbusch's request and plans to review his salary later in 2009.

Table of Contents***2008 Annual Incentive Program***

In May 2008, the Corporation's shareholders approved the L.B. Foster Executive Annual Incentive Compensation Plan (Annual Plan). Pursuant to the Annual Plan, the Committee established 2008 Performance Measures and Goals (2008 Goals). Annual incentive awards for 2008 were based upon the extent to which Corporate and/or individual operating units approached or surpassed target levels of Pre-Tax Income and, for Corporate only, ROIC. The Committee believes these two measures appropriately reflect the profitability of the Company and holds management accountable for the efficient use of Company capital.

Corporate's targeted Pre-Tax Income was set at \$30,664,000 under the 2008 Goals and targeted ROIC was set at 15%. For 2008, Corporate Pre-Tax Income was \$37,108,000 and actual Corporate ROIC was 17.6%. For the NEOs whose bonus award was based, in part, on an operating unit's performance,

⁵ **Pre-Tax Income** meant the pre-tax income for the Corporation or, as applicable, for an operating unit determined in accordance with generally accepted accounting principles, but excluding: (i) the Milestone Payments or other amounts, if any, paid to the former shareholders (and their respective successors and assigns) of the Dakota Minnesota and Eastern Railroad Corporation (DM&E) arising from or in connection with the 2007 merger of the DM&E; (ii) all gains or losses arising from sales of capital assets when the sale or purchase price for an individual asset exceeds \$50,000; (iii) all expenses, costs, profits, losses or gains attributable to (a) the sale; other than sales of inventory in the ordinary course of business, of more than 25% of the assets of an Operating Unit or 50% of the assets of a component in the Fiscal Year, or (b) the acquisition of a business in 2008 for a purchase price of more than \$1M; (iv) with respect to operating units only, the costs of the Plan; (v) interest, investment gains or losses arising from cash or marketable securities of \$105M; and (vi) interest expense related to use of funds in excess of \$105M, during the Fiscal Year in connection with the purchase of a business or businesses for more than an aggregate purchase price(s) of \$105M; provided, however, that the loss of investment income due to the use of funds in excess of \$105M shall be added back to calculate pre-tax income with such funds being deemed to have earned interest at the effective average interest rate attained by the Corporation for the Fiscal Year from the date such funds are so utilized. Notwithstanding the foregoing, in the event more than 25% of the assets of an operating unit or 50% of the assets of a component are sold, excluding sales of inventory in the ordinary course of business, during the Fiscal Year, such component's or operating unit's, as applicable, pre-tax income shall be eliminated from all calculations, together with the component's or operating unit's, as applicable, profits, losses and pre-tax income for the Fiscal Year.

⁶ **ROIC** meant, with respect to the Fiscal Year, after tax earnings from continuing operations before interest income and interest expense and amortization charges (tax affected using the effective corporate tax rate) and excluding: (i) all Milestone Payments or other amounts, if any, paid to the former shareholders (and their respective successors and assigns) of the DM&E arising from or in connection with the 2007 merger of the DM&E; (ii) all gains or losses arising from sales of capital assets when the sale or purchase price for an individual asset exceeds \$50,000; and (iii) all expenses, costs, losses, and gains attributable to (a) the sale, excluding sales of inventory in the ordinary course of business, of more than 25% of the assets of an Operating Unit or, more than 50% of the assets of a component, or (b) the acquisition of a business for a purchase price exceeding \$1M, divided by an average of month end total assets less the sum of cash, marketable securities and non-interest bearing current liabilities, determined in accordance with generally accepted accounting principles.

Table of Contents

actual performance exceeded their targets as well. This resulted in bonus awards paid above target as seen in the Summary Compensation Table. The 2008 Goals provided that awards payable under the plan be included in the calculation of both Corporate Pre-Tax Income and Corporate ROIC.

Corporate and each operating unit were expected to achieve targeted levels of income and, as to Corporate, ROIC under the 2008 Goals, but with it becoming increasingly difficult to attain levels of Pre-Tax Income and/or ROIC above target(s). It was anticipated to be unlikely, although possible, for a NEO to receive a maximum award.

For the 2008 annual incentive program each NEO was assigned the following target opportunity as a percent of base salary:

	Target Percentage
Stan L. Hasselbusch	65%
Donald L. Foster	40%
David J. Russo	45%
Kevin R. Haugh	35%
John F. Kasel	40%

A Participant's base salary was multiplied by this target percentage to obtain a Target Award. The table below illustrates the performance measures used for 2008 and the allocation assigned to each NEO:

	Metric	Stan L. Hasselbusch	David J. Russo and John F. Kasel	Donald L. Foster and Kevin R. Haugh
	Corporate ROIC	25%	25%	
FINANCIAL PERFORMANCE AWARDS	Pre-Tax Income - Corporate	75%	55%	20%
	Operating Unit Pre-Tax Income			60%
INDIVIDUAL PERFORMANCE AWARDS	Personal Objectives		20%	20%

Financial performance awards are designed to comply with Section 162(m) of the Internal Revenue Code (Code), while individual performance awards may not satisfy Section 162(m) requirements.

Individual performance awards are based on criteria established by the CEO, but with the awards being paid only after the Committee had reviewed and approved the performance criteria and the resulting awards. The criteria for individual performance awards varied, including such things as: for Mr. Foster, working capital management and customer satisfaction; for Mr. Russo, reducing risk management expense and improving days sales outstanding; for Mr. Haugh, improving customer satisfaction; and

Table of Contents

for Mr. Kasel, improved corporate safety and reducing plant expense. The Committee concluded, upon Mr. Hasselbusch's recommendation, that the NEOs substantially had achieved their performance goals.

Omnibus Incentive Plan

The Omnibus Incentive Plan, as amended, was approved by the Company's shareholders in May 2008. This plan provides for the issuance of up to 500,000 shares of the Company's common stock, which may include newly-issued or treasury shares, through the exercise of stock options or the award of shares of common stock. The Omnibus Plan also provides for the award of performance grants.

The Committee, after consultation with Towers Perrin, contemplated approving annual grants of equity. This program consists of two components: time vested restricted stock and performance units. The objectives of this program are to provide NEOs with incentive to remain with the Company, provide a means for executives to build ownership in the Company and align the value of awards with the Company's long-term financial performance. A new three year performance period begins at the start of each year, creating overlapping three year performance periods.

The time vested restricted stock grants were designed to align NEO compensation and Company performance by making some of the compensation incentive opportunity dependent upon appreciation of shareholder value. Equity grants are also designed to promote retention of talented executives and build their ownership in the Company.

The performance share units were designed to align compensation and Company performance by making the preponderance of NEO long-term incentive compensation over each three year performance period based upon the Company's return on invested capital (ROIC).

After consulting survey data furnished by Towers Perrin, the Committee determined to issue equity in the form of unvested common stock and performance share units, for the initial three year performance period 2008-2010, inclusive, valued at target as follows:

Stan L. Hasselbusch	\$ 500,000
Donald L. Foster	\$ 120,000
David J. Russo	\$ 120,000
Kevin R. Haugh	\$ 70,000
John F. Kasel	\$ 120,000

The Committee plans to review performance goals and targets annually for each successive three year performance period. In 2009, the Committee determined to use the same target values and financial metrics for the performance period 2009-2011, inclusive.

⁷ For purposes of the three year performance period 2008-2010, ROIC for each year means: (a) after tax earnings from continuing operations before interest income and interest expense and amortization charges (tax affected using the effective corporate tax rate) and excluding all Milestone Payments or other amounts, if any, paid to the former shareholders (and their respective successors and assigns) of the DM&E arising from or in connection with the 2007 merger of the DM&E, divided by (b) an average of month end total assets less the sum of cash, marketable securities and non-interest bearing current liabilities, determined in accordance with generally accepted accounting principles.

Table of Contents

In 2008, approximately 25% of the long-term incentive awards were distributed through the issuance of unvested common stock (Restricted Shares), which generally will be forfeited if a participant is not employed by the Company on March 6, 2012, or four years from the date of grant. Using a value of \$43.91/share (the average closing price of the Company's stock on trading days between February 18 and February 29, 2008), the Committee awarded amounts of such forfeitable stock to each NEO. The remaining 75% of an NEO's long-term incentive award was in the form of Performance Share Units which, for the performance period from 2008-2010, inclusive, will be converted into Company common stock based upon the Company's average ROIC over the three year performance period. The NEOs were awarded the following Restricted Shares and Performance Share Units:

Name	Restricted Shares	Performance Share Units
Stan L. Hasselbusch	2,847	8,540
Donald L. Foster	683	2,053
David J. Russo	683	2,053
Kevin R. Haugh	399	1,195
John F. Kasel	683	2,053

Average ROIC for the three year performance period will be calculated by adding together the annual ROIC percentages and dividing by three. The Average ROIC target for the 2008-2010 performance period is 16%. The Committee determined Average ROIC was the performance measure most aligned with shareholders' interests over the long-term.

The number of Performance Share Units to be earned at the end of the performance period and awarded to a participant in common stock shall be determined by multiplying the participant's Performance Share Units by the Percent of Performance Share Units that corresponds to the Company's Average ROIC for the three year performance period:

Level of Performance	Average ROIC	Percent of Performance Share Units Earned
Below Threshold	Below 12.0%	0%
Threshold	Equal to 12.0%	50%
Target	Equal to 16.0%	100%
Outstanding	Equal to or Greater than 20.0%	200%

Table of Contents***Annual Incentive Plan for 2009***

Pursuant to the Annual Plan, the Committee approved the 2009 Performance Measures and Goals (2009 Goals) under which annual incentive awards for 2009 will be based upon the extent to which Corporate and/or individual operating units approach or surpass, applicable thresholds for, Pre-Tax Income⁸, Free Cash Flow⁹, EBITDA¹⁰ and, for Corporate only, ROI¹¹. The Committee included the new metrics, Free Cash Flow and, for one operating unit, EBITDA because the Committee wanted

⁸ **Pre-Tax Income** shall mean the pre-tax income for the Corporation or, as applicable, for an Operating Unit for the Fiscal Year, but determined in accordance with generally accepted accounting principles, including 100% of the applicable LIFO charge or credit but excluding: (i) the Milestone Payments or other amounts, if any, paid to the former shareholders (and their respective successors and assigns) of the DM&E arising from or in connection with the 2007 merger of the DM&E; (ii) all gains or losses arising from sales of capital assets when the sale or purchase price for an individual asset exceeds \$50,000; (iii) all expenses, costs, profits, losses or gains attributable to (a) the sale; other than sales of inventory in the ordinary course of business, of more than 25% of the assets of an Operating Unit or 50% of the assets of a Component in the Fiscal Year, or (b) the acquisition of a business in 2009 for a gross purchase price of more than \$1M; (iv) with respect to Operating Units only, the costs of the Plan; and (v) interest, investment gains or losses arising from cash or marketable securities of \$105M. Notwithstanding the foregoing, in the event more than 25% of the assets of an Operating Unit or 50% of the assets of a Component are sold, excluding sales of inventory in the ordinary course of business, during the Fiscal Year, such Operating Unit s or Component s, as applicable, Planned Pre-Tax Income shall be eliminated from all calculations (if a stipulated amount of a Component s assets are sold, the Operating Unit s Planned Pre-Tax Incentive Income and Corporate Planned Pre-Tax Income shall be reduced to the extent of the Component s Planned Pre-Tax Income), together with the Component s or Operating Unit s, as applicable, profits, losses or Pre-tax Income for the Fiscal Year.

⁹ **Free Cash Flow** shall mean the sum of net cash provided by (or used in) operating activities, and proceeds from capital asset sales, reduced by capital expenditures on property plant and equipment as adjusted for unusual gains or losses or other transactions outside of the ordinary course of business.

¹⁰ **EBITDA** (Earnings before interest, taxes, depreciation and amortization) shall mean for any period (a) income from continuing operations excluding certain items detailed below; (b) plus income tax expense; (c) plus interest expense; (d) minus interest income; (e) plus depreciation expense; and (f) plus amortization expense. Excluded items are: (i) the Milestone Payments or other amounts, if any, paid to the former shareholders (and their respective successors and assigns) of the DM&E arising from or in connection with the 2007 merger of the DM&E; (ii) all gains or losses arising from sales and all expenses, costs, profits, losses or gains attributable to (a) the sale; other than sales of inventory in the ordinary course of business, of more than 25% of the assets of an Operating Unit or 50% of the assets of a Component in the Fiscal Year, or (b) the acquisition of a business in 2009 for a gross purchase price of more than \$1M; and (iii) with respect to Operating Units only, the costs of the Plan. Notwithstanding the foregoing, in the event more than 25% of the assets of an Operating Unit or 50% of the assets of a Component are sold, excluding sales of inventory in the ordinary course of business, during the Fiscal Year, such Operating Unit s or Component s, as applicable, Planned and Actual Pre-Tax EBITDA shall be eliminated from all calculations.

¹¹ **ROIC** shall mean, with respect to the Fiscal Year: (A) after tax earnings from continuing operations before interest income and interest expense and amortization charges (tax affected using the effective corporate tax rate) and excluding: (i) all Milestone Payments or other amounts, if any, paid to the former shareholders (and their respective successors and assigns) of the DM&E arising from or in connection with the 2007 merger of the DM&E; (ii) all gains or losses arising from sales of capital assets when the gross sale or purchase price for an individual asset exceeds \$50,000; and (iii) all expenses, costs, profits, losses, gains, attributable to (a) the sale, excluding sales of inventory in the ordinary course of business, of more than 25% of the assets of an Operating Unit or, more than 50% of the assets

of a Component, or (b) the acquisition of a business for a gross purchase price exceeding \$1M, divided by (B) an average of month end total assets less the sum of cash, marketable securities and non-interest bearing current liabilities, determined in accordance with generally accepted accounting principles.

management to focus more heavily on the generation of cash. In addition, the Committee created more rigorous standards for achieving higher awards related to Pre-Tax Income, while lowering the threshold for minimum awards. The Committee lowered planned ROIC from the levels in the 2008 Goals in recognition of the difficult economic conditions anticipated for 2009.

Retirement Plans

The Company's 401(k) and Profit Sharing Plan, a defined contribution retirement plan, qualifying under Section 401(k) of the Code and covering all salaried employees, includes an automatic enrollment provision, two year vesting, and immediate eligibility and Company match. In 2008, the Company matched the first 1% of the employee's compensation, then matched 50% of the employee's next 6% of contribution. For 2008, the Company also made a discretionary contribution of \$1M to the 401(k) which will be shared by participants based primarily on their respective compensation and, to a lesser extent, years of service, subject to Code limitations. The Company's contributions for 2008 to the 401(k) for Messrs. Hasselbusch, Foster, Russo, Haugh and Kasel are included in the Summary Compensation Table.

The Company also maintains a Supplemental Executive Retirement Plan under which executive officers may accrue benefits unavailable under the 401(k) because of Code limitations. These benefits are also included in the Summary Compensation Schedule.

The Company maintains these retirement plans in order to provide a competitive opportunity for its employees to obtain a secure retirement.

Other Compensation Plans

At various times in the past, the Company has adopted certain employee benefit plans in which NEOs have been permitted to participate. The Company also provides certain executive officers with life, long-term disability and health insurance programs. The incremental cost to the Company of the NEOs' benefits provided under these programs is included in the Summary Compensation Table. Benefits under these plans are not directly or indirectly tied to Company performance.

The Company also provides limited perquisites to the NEOs which may include cash car allowances or use of a leased car and membership in athletic or social clubs. The Company believes that these perquisites tend to promote the Company's image, to provide outlets for interaction between the Company's executives and the Company's vendors/suppliers and other business associates and/or to encourage healthy activities. The Company's incremental costs for these perquisites are included in the Summary Compensation Table.

The Company does not offer post-retirement health coverage to the NEOs.

Right of Recovery

The Company has adopted policies regarding the adjustment or recovery of awards or payments in the event that the Company is required to prepare an accounting restatement due to material non-compliance with any financial reporting requirement or if the performance measures upon which they are based are restated or otherwise adjusted with respect to Performance Share Units awarded in 2008 under the Omnibus Plan.

Table of Contents***Ownership Guidelines***

The Company has adopted equity ownership requirements or guidelines. Within the later to occur of five years of being elected to the office or 2013, the CEO is expected to own stock valued at least 5 times his salary. Senior Vice Presidents are expected to own stock valued at least 2.5 times their respective salaries, and Vice Presidents and the Controller are expected to own stock valued at least 1.5 times their respective salaries. Shares that count toward the equity ownership requirements include all vested or unvested shares and unearned performance share units at target. Unexercised stock options are not included for ownership purposes.

Change in Control

On December 9, 2008, the Board of Directors, upon the prior recommendation of the Board's Committee, adopted the L.B. Foster Company Key Employee Separation Plan which may provide certain severance payments upon a change in control of the Company. The Committee believes that providing severance in a change in control situation is beneficial to shareholders so that executives may remain indifferent when evaluating a transaction that may be beneficial to shareholders yet could negatively impact the continued employment of the executive. The Company has selected its officers as participants in the Plan. The current participants include Stan L. Hasselbusch, Donald L. Foster, David J. Russo, Kevin R. Haugh, John F. Kasel and the Company's other officers. In the event a participant's employment terminates, (subject to certain exceptions) due to a Change in Control of the Company, each participant is to receive the participant's base salary plus the average of the participant's annual cash bonuses paid or due and payable over the prior three calendar years multiplied by a Benefit Factor. The participants' Benefit Factors are:

	Benefit Factor
Chief Executive Officer and Sr. Vice Presidents	2
Vice Presidents and Controller	1

Each participant also will be paid all amounts otherwise owed to the participant, and \$15,000 for outplacement services. Medical, dental and vision insurance will be maintained for specified durations. A participant will not be entitled to these payments and benefits under the plan unless both (i) a Change in Control has occurred and (ii) the participant's employment has been terminated (involuntarily or for good reason, but not for cause). Certain equity also may become vested upon the occurrence of a Change in Control in accordance with the provisions of the respective equity plans.

Any payment to a participant that would constitute an excess parachute payment within the meaning of 280G of the Code will cause the payment to be reduced to an amount, expressed in present value, which maximizes the aggregate present value of the payment, without causing any payment to be subject to the limitation of deduction under Section 280G. See the table on page 27 for estimates on the benefits the NEOs would have received if a participant was terminated on December 31, 2008, in connection with a Change in Control.

Tax Considerations

The Committee has considered the impact of the applicable tax laws with respect to compensation paid under the Company's plans, arrangements and agreements. In certain instances, applicable tax laws

Table of Contents

impose potential penalties on such compensation and/or result in a loss of deduction to the Company for such compensation.

Section 409A. Participation in, and compensation paid under, the Company's plans, arrangements and agreements may, in certain instances, result in the deferral of compensation that is subject to the requirements of Section 409A of the Code. Generally, to the extent that the Company's plans, arrangements and agreements fail to meet certain requirements under Section 409A of the Code, compensation earned there under may be subject to immediate taxation and tax penalties. It is the intent of the Company that its plans, arrangements and agreements will be structured and administered in a manner that complies with the requirements of Section 409A of the Code.

Section 162(m). With certain exceptions, Section 162(m) of the Code limits the Company's deduction for compensation in excess of \$1M paid to certain covered employees. Compensation paid to covered employees is not subject to the deduction limitation if it is considered "qualified performance-based compensation" within the meaning of Section 162(m) of the Code. While the Committee considers the tax impact of any compensation arrangement, the Committee evaluates such impact in light of our overall compensation objectives. The Committee reserves the right to approve non-deductible compensation if it believes it is in the best interests of the Company's shareholders. Additionally, if any provision of a plan or award that is intended to be performance-based, within the meaning of Section 162(m) of the Code, is later found to not satisfy the conditions of Section 162(m), the Company's ability to deduct such compensation may be limited.
