Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

**Item 8.01 Other Events**

On July 28, 2009, the Company entered into a two year hedging agreement (the "Agreement") effective August 1, 2009 on crude oil pricing with Macquarie Bank Limited. The Agreement provides for a \$60.00 price per barrel floor and a ceiling of \$81.50 per barrel on volumes of 9,500 barrels per month during the period August 1, 2009 through December 31, 2010 and 7,375 barrels per month from January 1, 2011 through July 31, 2011 (the "Hedged Volumes"). The Company's current average oil production is approximately 15,000 barrels per month. The Company does not pay a fee under the Agreement.

The Agreement is intended to protect the Company in the event that oil prices return to the low levels of crude oil pricing experienced in late 2008 and early 2009 when crude oil prices fell to the \$30.00 per barrel range. If crude oil prices remain between the floor and ceiling prices no activity will occur under the Agreement. However, pursuant to the terms of the Agreement if the price of crude oil falls below \$60.00 per barrel during the term of the Agreement, the Company will still receive the price of \$60.00 per barrel on the Hedged Volumes of the Company's oil production. Conversely, if the price of crude oil rises above \$81.50 during the term of the Agreement the Company will receive such increased prices in excess of \$81.50 per barrel only on the Company's oil production in excess of the Hedged Volumes.

To effectuate the hedging arrangement, the Company and its subsidiaries, Macquarie Bank Limited and the Company's senior lender, Sovereign Bank entered into an International Swaps and Derivatives Master Agreement and intercreditor agreement.
