LARGO VISTA GROUP, LTD.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL INFORMATION
MARCH 31, 2004
(UNAUDITED)

NOTE A - SUMMARY OF ACCOUNTING POLICIES

General

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-QSB. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.

In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included.

Edgar Filing: LARGO VISTA GROUP LTD - Form 10QSB

Accordingly, the results from operations for the three-month period ended March 31, 2004 are not necessarily indicative of the results that may be expected for the year ended December 31, 2004. The unaudited condensed consolidated financial statements should be read in conjunction with the consolidated December 31, 2003 financial statements and footnotes thereto included in the Company's SEC Form 10-KSB.

Business and Basis of Presentation

Largo Vista Group, Ltd. (the "Company") was incorporated under the laws of the State of Nevada. The Company is principally engaged in the distribution of liquid petroleum gas (LPG) in the retail and wholesale markets in South China and in the purchase of petroleum products for delivery to the Far East.

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries, Largo Vista, Inc., Largo Vista Construction, Inc., and Largo Vista International Corp. Largo Vista, Inc. is formed under the laws of the State of California and is inactive. Largo Vista Construction, Inc. is formed under the laws of the State of Nevada and is inactive. Largo Vista International Corp. is formed under the laws of Panama and is inactive. The Company also has operations through DBA (Doing Business As) agreements with Zunyi Shilin Xinmao Petrochemical Industries Co., Ltd. ("Zunyi") and Jiahong Gas Co., Ltd. ("Jiahong"). Zunyi and Jiahong are both registered under the Chinese laws in the Peoples Republic of China.

All significant intercompany balances and transactions have been eliminated in consolidation. All amounts in these consolidated financial statements and notes thereto are stated in United States dollars unless otherwise indicated.

Stock Based Compensation

In December 2002, the FASB issued Statement of Financial Accounting Standards No. 148 ("SFAS No. 148"), "Accounting for Stock-Based Compensation-Transition and Disclosure-an amendment of SFAS 123." This statement amends SFAS No. 123, "Accounting for Stock-Based Compensation," to provide alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, this statement amends the disclosure requirements of SFAS No. 123 to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported results. The Company has chosen to continue to account for stock-based compensation using the intrinsic value method prescribed in APB Opinion No. 25 and related interpretations. Accordingly, compensation expense for stock options is measured as the excess, if any, of the fair market value of the Company's stock at the date of the grant over the exercise price of the related option. The Company has adopted the annual disclosure provisions of SFAS No. 148 in its financial reports for the year ended December 31, 2003 and will adopt the interim disclosure provisions for its financial reports for the subsequent periods. The Company has no awards of stock-based employee compensation outstanding at March 31, 2004.

Reclassification

Certain reclassifications have been made to conform to prior periods' data to the current presentation. These reclassifications had no effect on reported losses.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS

The following discussion should be read in conjunction with the Company's Condensed Consolidated Financial Statements and Notes thereto, included elsewhere within this Report.

DESCRIPTION OF THE COMPANY

The Company is principally engaged in the resale and distribution of liquid petroleum gas (LPG) in the retail and wholesale markets in South China and in the purchase of petroleum products for delivery to the Far East.

Through DBA agreements with Zunyi and Jiahong, the Company is engaged in the business of purchasing and reselling liquid petroleum gas ("LPG") in the retail and wholesale markets to both residential and commercial consumers. The Company operated a storage depot and has an office headquarters in the City of Zunyi. However, the Company has found the storage depot operations to be unprofitable; and therefore has terminated those operations in order to concentrate its resources on supplying LPG in bottles and through pipelines.

In February 2002 and May 2003, the Company entered into agreements

Edgar Filing: LARGO VISTA GROUP LTD - Form 10QSB

("Agreements") with Zunyi Municipal Government ("Government") to design and install LPG pipeline systems in residential areas in the city of Zunyi, China on behalf of Government. In exchange for installing the pipeline, the Agreements provide for the Company to be the sole LPG supplier for those households.

FORWARD LOOKING STATEMENTS

This Form 10-QSB contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. All statements included herein that address activities, events or developments that the Corporation expects, believes, estimates, plans, intends, projects or anticipates will or may occur in the future, are forward-looking statements. Actual events may differ materially from those anticipated in the forward-looking statements. Important risks that may cause such a difference include: general domestic and international economic business conditions, increased competition in the Company's markets and products. Other factors may include, availability and terms of capital, and/or increases in operating and supply costs. Market acceptance of existing and new products, rapid technological changes, availability of qualified personnel also could be factors. Changes in the Company's business strategies and development plans and changes in government regulation could adversely affect the Company. Although the Company believes that the assumptions underlying the forward-looking statements contained herein are reasonable, any of the assumptions could be inaccurate. There can be no assurance that the forward-looking statements included in this filing will prove to be accurate. In light of the significant uncertainties inherent in the forward-looking statements included herein, the inclusion of such information should not be regarded as a representation by the Company that the objectives and expectations of the Company would be achieved.

RESULTS OF OPERATIONS

REVENUE

During the quarter ended March 31, 2004 the Company realized \$124,692 of revenue compared to \$12,387 for the same period in the prior year, a 906.6% increase. This was largely due to increased sales at the depot operated by the Company. However, as noted above, due to their unprofitability, the Company has decided to terminate the depot operations.

COSTS AND EXPENSES

During the quarter ended March 31, 2004 the Company incurred \$89,230 of operating expenses compared to \$147,716 for the same period in the prior year, a 39.6% decrease. This was due to the continuation of operations with greatly reduced overhead costs.

7

LOSS FROM OPERATIONS

The increase in revenues, accompanied by the decrease in operating expenses resulted in the reduction in the loss from operations to a loss of \$68,531 from a loss of \$151,686 for the same period in the prior year, a 54.8% decrease.

LIQUIDITY AND CAPITAL RESOURCES

Edgar Filing: LARGO VISTA GROUP LTD - Form 10QSB

As of March 31, 2004, the Company had a deficiency in working capital of \$775,852. During the first three months of 2004, the operating activities of the Company provided a cash flow of \$20,292.

While we have raised capital to meet our working capital and financing needs in the past, additional financing is required in order to meet our current and projected cash flow deficits from operations and development. We are seeking financing in the form of equity in order to provide the necessary working capital. We currently have no commitments for financing. There is no guarantee that we will be successful in raising the funds required.

The effect of inflation on the Company's revenue and operating results was not significant. The Company's operations are located in mainland China and there are no seasonal aspects that would have a material effect on the Company's financial condition or results of operations.

The Company's independent certified public accountant has stated in his report included in the Company's December 31, 2003 Form 10-KSB, that the Company has incurred operating losses in the last two years, and that the Company is dependent upon management's ability to develop profitable operations. These factors among others raise substantial doubt about the Company's ability to continue as a going concern.

CAUTIONARY FACTORS THAT MAY AFFECT FUTURE RESULTS

Our annual report on Form 10-KSB for the year ended December 31, 2003 includes a detailed list of cautionary factors that may affect future results. Management believes that there have been no material changes to the factors so listed, however other factors besides those listed could adversely affect us. That annual report can be accessed on EDGAR.

ITEM 3. CONTROLS AND PROCEDURES

The Company's management including the Chief Executive Officer, President and Chief Financial Officer, have evaluated, within 90 days prior to the filing of this quarterly report, the effectiveness of the design, maintenance and operation of the Company's disclosure controls and procedures. Management determined that the Company's disclosure controls and procedures were effective in ensuring that the information required to be disclosed by the Company in the reports that it files under the Exchange Act is accurate and is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and regulations.

Disclosure controls and procedures, no matter how well designed and implemented, can provide only reasonable assurance of achieving an entity's disclosure objectives. The likelihood of achieving such objectives is affected by limitations inherent in disclosure controls and procedures. These include the fact that human judgment in decision-making can be fully faulty and that breakdowns in internal control can occur because of human failures such as errors or mistakes or intentional circumvention of the established process.

There have been no significant changes in internal controls or in other factors that could significantly affect these controls subsequent to the date of the evaluation thereof, including any corrective actions with regard to significant deficiencies and material weaknesses.
