Protecting Your Privacy

Our Pledge to You

THE FUND IS COMMITTED TO YOUR PRIVACY. On this page, you will find the Fund's policies and practices for collecting, disclosing, and safeguarding nonpublic personal information, which may include financial or other customer information. These policies apply to individuals who purchase Fund shares for personal, family, or household purposes, or have done so in the past. This notification replaces all previous statements of the Fund's consumer privacy policy, and may be amended at any time. We'll keep you informed of changes as required by law.

YOUR ACCOUNT IS PROVIDED IN A SECURE ENVIRONMENT. The Fund maintains physical, electronic and procedural safeguards that comply with federal regulations to guard nonpublic personal information. The Fund's agents and service providers have limited access to customer information based on their role in servicing your account.

THE FUND COLLECTS INFORMATION IN ORDER TO SERVICE AND ADMINISTER YOUR ACCOUNT.

The Fund collects a variety of nonpublic personal information, which may include:

- Information we receive from you, such as your name, address, and social security number.
- Information about your transactions with us, such as the purchase or sale of Fund shares.
- Information we receive from agents and service providers, such as proxy voting information.

THE FUND DOES NOT SHARE NONPUBLIC PERSONAL INFORMATION WITH ANYONE, EXCEPT AS PERMITTED BY LAW.

Thank you for this opportunity to serve you.

The views expressed in this report reflect those of the portfolio manager only through the end of the period covered and do not necessarily represent the views of Dreyfus or any other person in the Dreyfus organization. Any such views are subject to change at any time based upon market or other conditions and Dreyfus disclaims any responsibility to update such views. These views may not be relied on as investment advice and, because investment decisions for a Dreyfus fund are based on numerous factors, may not be relied on as an indication of trading intent on behalf of any Dreyfus fund.

Dreyfus High Yield
Strategies Fund

The Fund

A LETTER FROM THE CHAIRMAN AND CEO

Dear Shareholder:

This semiannual report for Dreyfus High Yield Strategies Fund covers the six-month period from April 1, 2010, through September 30, 2010.

Although a double-dip recession remains an unlikely scenario in our analysis, recent uncertainty regarding the breadth and strength of the U.S. and global economic recoveries has led to bouts of weakness in some of the riskier asset classes. High yield bonds have been a notable exception, ranking among the financial markets' leaders amid robust demand from investors seeking generous levels of income from a limited supply of securities in a low interest-rate environment.

Uncertainty will probably remain in the broader financial markets until we see a sustained improvement in economic growth; but the favorable influences underlying the high yield market's advance could persist for some time to come. Record low short-term interest rates, improving corporate balance sheets, and investors' global search for income could continue to support high yield bond prices, especially if today's economic concerns prove to be overstated. We currently are less optimistic about the prospects for traditional safe havens in the fixed-income markets, as U.S. government bonds appear to offer limited value at current low yields. Your financial advisor can help you align your investments with a slow-growth economic environment as well as your needs, goals and attitudes toward risk.

Edgar Filing: DREYFUS HIGH YIELD STRATEGIES FUND - Form N-CSRS

For information about how the fund performed during the reporting period, as well as general market perspectives, we provide a Discussion of Fund Performance on the pages that follow.

Thank you for your continued confidence and support.

Jonathan R. Baum
Chairman and Chief Executive Officer
The Dreyfus Corporation
October 15, 2010

2

DISCUSSION OF FUND PERFORMANCE

For the period of April 1, 2010, through September 30, 2010, as provided by Karen Bater, Portfolio Manager

Fund and Market Performance Overview

For the six-month period ended September 30, 2010, Dreyfus High Yield Strategies Fund achieved a total return of 5.92% (on a net asset value basis) and produced aggregate income dividends of \$0.258 per share.¹ In comparison, the BofA Merrill Lynch U.S. High Yield Master II Constrained Index (the Index), the fund's benchmark, achieved a total return of 6.58% for the same period.²

High yield bonds encountered heightened volatility when new questions surfaced regarding the strength and sustainability of the U.S. and global economic recoveries. The fund produced a modestly lower return than its benchmark, primarily due to its focus on income-oriented securities from issuers meeting our quality criteria, which prevented it from participating in greater gains posted by discounted bonds from distressed issuers.

The Fund's Investment Approach

The fund primarily seeks high current income. The fund also seeks capital growth as a secondary objective, to the extent consistent with its objective of seeking high current income. The fund invests primarily in fixed-income securities of below investment-grade credit quality. Issuers of below investment-grade securities may include companies in early stages of development and companies with a highly leveraged financial structure. To compensate investors for taking on greater risk, such companies typically must offer higher yields than those offered by more established or conservatively financed companies.

Renewed Economic Uncertainty Sparked Market Volatility

Although the U.S. and global economic recoveries persisted throughout the start of the reporting period, investor sentiment deteriorated in May 2010 when a number of developments brought the economic rebound's sustainability into question. A sovereign debt crisis roiled Europe when Greece found itself unable to finance a heavy debt load, and surging property values in China kindled fears that higher short-term interest

The Fund 3

DISCUSSION OF FUND PERFORMANCE (continued)

rates and other remedial measures might constrain a key engine of global growth. The United States also encountered greater economic uncertainty when employment and housing data sent mixed signals regarding an already tepid economic recovery.

Edgar Filing: DREYFUS HIGH YIELD STRATEGIES FUND - Form N-CSRS

As a result of these economic setbacks, higher yielding sectors of the U.S. bond market lost value early in the reporting period, and traditionally defensive U.S. government securities generally rallied. However, high yield bonds bounced back strongly during the third quarter of the year, due mainly to robust demand from income-oriented investors seeking higher yielding investment alternatives in a low interest-rate environment. Indeed, the lower rating tiers typically produced higher total returns than the market's higher rating categories during the reporting period. Corporations took advantage of this strong appetite for income and the prevailing low cost of capital, issuing a relatively high volume of new bonds.

Income-Oriented Investment Posture Dampened Results

The fund began the reporting period with an emphasis on income-oriented securities from lower-rated companies characterized by strong free cash flows, a substantial degree of asset protection and good prospects for future growth. While we believe that this strategy positioned the fund well for the longer term, it detracted mildly from results during the reporting period when lower-quality bonds, including those from financially distressed issuers, fared better on average than the fund's holdings.

The fund's higher-quality investment posture reflected an emphasis on the media, technology, telecommunications services and automotive industry groups, which we regarded as relatively attractively valued, and where we expected company fundamentals to improve in a recovering economy. Conversely, the fund held underweighted exposure to the energy and financials sectors. On the whole, we believed that energy companies faced headwinds posed by stubbornly low natural gas prices, and bonds from financials companies appeared richly valued to us.

These sector allocations generally worked well during the reporting period, as the fund received strong contributions to relative performance from the telecommunications services sector. Individual companies in the financial and health care sectors also ranked among the fund's top performers during the reporting period. On the other hand, bonds

4

issued by a provider of telephony services for the hearing impaired lost considerable value due to an unfavorable regulatory ruling.

Positioned for a Further Recovery

Although we remain concerned regarding recent economic and market setbacks, we believe a return to recession is unlikely. In addition, business fundamentals appear to be improving, as evidenced by falling default rates. Therefore, we have maintained the fund's relatively constructive positioning, focusing on companies in the lower rating tiers that, in our analysis, have the ability to grow their revenues and service their debt. We recently have found a number of opportunities meeting our criteria in the chemicals industry, but fewer among gaming companies. We also have found fewer opportunities toward the higher end of the high yield credit-rating spectrum, where yields have been relatively low. As of the reporting period's end, the fund has maintained overweighted positions in income-oriented bonds from the media, technology, chemicals and automotive sectors.

October 15, 2010

Bond funds are subject generally to interest rate, credit, liquidity and market risks, to varying degrees. Generally, all other factors being equal, bond prices are inversely related to interest-rate changes and rate increases can cause price declines.

High yield bonds are subject to increased credit risk and are considered speculative in terms of the issuer's perceived ability to continue making interest payments on a timely basis and to repay principal upon maturity.

The use of leverage may magnify the fund's gains or losses. For derivatives with a leveraging component, adverse changes in the value or level of the underlying asset can result in a loss that is much greater than the original investment in the derivative.

1 Total return includes reinvestment of dividends and any capital gains paid, based upon net asset value per share. Past performance is no guarantee of future results. Share price, yield and investment return fluctuate such that upon redemption, fund shares may be worth more or less

Edgar Filing: DREYFUS HIGH YIELD STRATEGIES FUND - Form N-CSRS

than their original cost. Return figure provided reflects the absorption of certain fund expenses by The Dreyfus Corporation and/or the fund's shareholder servicing agent during the period. Had these expenses not been absorbed, the fund's return would have been lower. Pursuant to an agreement in effect through March 31, 2011, The Dreyfus Corporation will absorb certain fund expenses, at which time it may be extended, modified or terminated.

- 2 *SOURCE: FactSet* Reflects reinvestment of dividends and, where applicable, capital gain distributions. On September 25, 2009, the Merrill Lynch U.S. HighYield Master II Constrained Index was renamed the BofA Merrill Lynch U.S. HighYield Master II Constrained Index, (the Index). The Index is an unmanaged performance benchmark composed of U.S. dollar-denominated domestic and Yankee bonds rated below investment grade with at least \$100 million par amount outstanding and at least one year remaining to maturity. Bonds are capitalization-weighted. Total allocations to an issuer are capped at 2%. Investors cannot invest directly in any index.

FINANCIAL HIGHLIGHTS

The following table describes the performance for the fiscal periods indicated. Total return shows how much your investment in the fund would have increased (or decreased) during each period, assuming you had reinvested all dividends and distributions. These figures have been derived from the fund's financial statements and market price data for the fund's shares.

NOTES TO FINANCIAL STATEMENTS (Unaudited)

NOTE 1 Significant Accounting Policies:

Dreyfus HighYield Strategies Fund (the fund) is registered under the Investment Company Act of 1940, as amended (the Act), as a non-diversified, closed-end management investment company. The fund's primary investment objective is to seek high current income. Under normal market conditions, the fund invests at least 65% of its total assets in income securities of U.S. issuers rated below investment grade quality or unrated income securities that The Dreyfus Corporation (the Manager or Dreyfus), a wholly-owned subsidiary of The Bank of New York Mellon Corporation (BNY Mellon), that serves as the fund's investment manager and administrator, determines to be of comparable quality.

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) is the exclusive reference of authoritative U.S. generally accepted accounting principles (GAAP) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal laws are also sources of authoritative GAAP for SEC registrants. The fund's financial statements are prepared in accordance with GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

Edgar Filing: DREYFUS HIGH YIELD STRATEGIES FUND - Form N-CSRS

(a) Portfolio valuation: Investments in securities excluding short-term investments (other than U.S. Treasury Bills) and forward foreign currency exchange contracts (forward contracts) are valued each business day by an independent pricing service (the Service) approved by the Board of Trustees. Investments for which quoted bid prices are readily available and are representative of the bid side of the market in the judgment of the Service are valued at the mean between the quoted bid prices (as obtained by the Service from dealers in such securities) and asked prices (as calculated by the Service based upon its evaluation of the market for such securities). Other investments (which constitute a majority of the portfolio securities) are valued as determined by the Service, based on

The Fund 21

NOTES TO FINANCIAL STATEMENTS (Unaudited) (continued)

methods which include consideration of: yields or prices of securities of comparable quality, coupon, maturity and type; indications as to values from dealers; and general market conditions. Restricted securities, as well as securities or other assets for which recent market quotations are not readily available and are not valued by a pricing service approved by the Board of Trustees, or are determined by the fund not to reflect accurately fair value, are valued at fair value as determined in good faith under the direction of the Board of Trustees. The factors that may be considered when fair valuing a security include fundamental analytical data, the nature and duration of restrictions on disposition, an evaluation of the forces that influence the market in which the securities are purchased and sold and public trading in similar securities of the issuer or comparable issuers. Short-term investments, excluding U.S. Treasury Bills, are carried at amortized cost, which approximates value. Registered investment companies that are not traded on an exchange are valued at their net asset value. Investments denominated in foreign currencies are translated to U.S. dollars at the prevailing rates of exchange. Forward contracts are valued at the forward rate.

The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. the exit price). GAAP establishes a fair value hierarchy that prioritizes the inputs of valuation techniques used to measure fair value. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Additionally, GAAP provides guidance on determining whether the volume and activity in a market has decreased significantly and whether such a decrease in activity results in transactions that are not orderly. GAAP requires enhanced disclosures around valuation inputs and techniques used during annual and interim periods.

22

Various inputs are used in determining the value of the fund's investments relating to fair value measurements. These inputs are summarized in the three broad levels listed below:

Level 1 unadjusted quoted prices in active markets for identical investments.

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.).

Level 3 significant unobservable inputs (including the fund's own assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used as of September 30, 2010 in valuing the fund's investments:

Level 1	Level 2 Other	Level 3
Unadjusted	Significant	Significant

Edgar Filing: DREYFUS HIGH YIELD STRATEGIES FUND - Form N-CSRS

Transfers in and/or out of Level 3	
Balance as of 9/30/2010	1,396,691

In January 2010, FASB issued Accounting Standards Update (ASU) No. 2010-06 Improving Disclosures about Fair Value Measurements . The portions of ASU No. 2010-06 which require reporting entities to prepare new disclosures surrounding amounts and reasons for significant transfers in and out of Level 1 and Level 2 fair value measurements as well as inputs and valuation techniques used to measure fair value for both recurring and nonrecurring fair value measurements that fall in either Level 2 or Level 3 have been adopted by the fund. No significant transfers between Level 1 or Level 2 fair value measurements occurred at September 30, 2010. The remaining portion of ASU No. 2010-06 requires reporting entities to make new disclosures about information on purchases, sales, issuances and settlements on a gross basis in the reconciliation of activity in Level 3 fair value measurements. These new and revised disclosures are required to be implemented for fiscal years beginning after December 15, 2010. Management is currently evaluating the impact that the adoption of this remaining portion of ASU No.

Edgar Filing: DREYFUS HIGH YIELD STRATEGIES FUND - Form N-CSRS

2010-06 may have on the fund's financial statement disclosures.

(b) Foreign currency transactions: The fund does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss on investments.

Net realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized on securities transactions

24

between trade and settlement date, and the difference between the amounts of dividends, interest and foreign withholding taxes recorded on the fund's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the value of assets and liabilities other than investments resulting from changes in exchange rates. Foreign currency gains and losses on investments are included with net realized and unrealized gain or loss on investments.

(c) Securities transactions and investment income: Securities transactions are recorded on a trade date basis. Realized gains and losses from securities transactions are recorded on the identified cost basis. Dividend income is recognized on the ex-dividend date and interest income, including, where applicable, accretion of discount and amortization of premium on investments, is recognized on the accrual basis.

The fund has arrangements with the custodian bank whereby the fund may receive earnings credits when positive cash balances are maintained, which are used to offset custody fees. For financial reporting purposes, the fund includes net earnings credits as an expense offset in the Statement of Operations.

(d) Affiliated issuers: Investments in other investment companies advised by Dreyfus are defined as "affiliated" in the Act.

The fund may invest in shares of certain affiliated investment companies also advised or managed by Dreyfus. Investments in affiliated investment companies for the period ended September 30, 2010 were as follows:

Affiliated Investment Company	Value 3/31/2010 (\$)	Purchases (\$)	Sales (\$)	Value 9/30/2010 (\$)	Net Assets (%)
Dreyfus Institutional Preferred Plus Money Market Fund	4,495,000	81,157,000	80,809,000	4,843,000	1.7

The Fund 25

NOTES TO FINANCIAL STATEMENTS (Unaudited) *(continued)*

(e) Dividends to shareholders: Dividends are recorded on the ex-dividend date. Dividends from investment income-net are declared and paid monthly. Dividends from net realized capital gains, if any, are normally declared and paid annually. To the extent that net realized capital gains could be offset by capital loss carryovers, it is the policy of the fund not to distribute such gains. Income and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP.

Edgar Filing: DREYFUS HIGH YIELD STRATEGIES FUND - Form N-CSRS

For shareholders who elect to receive their distributions in additional shares of the fund, in lieu of cash, such distributions will be reinvested at the lower of the market price or net asset value per share (but not less than 95% of the market price) based on the record date's respective prices. If the net asset value per share on the record date is lower than the market price per share, shares will be issued by the fund at the record date's net asset value on the payable date of the distribution. If the net asset value per share is less than 95% of the market value, shares will be issued by the fund at 95% of the market value. If the market price is lower than the net asset value per share on the record date, BNY Mellon Shareowner Services, an affiliate of the Manager, will purchase fund shares in the open market commencing on the payable date and reinvest those shares accordingly. As a result of purchasing fund shares in the open market, fund shares outstanding will not be affected by this form of reinvestment.

On September 29, 2010, the Board of Trustees declared a cash dividend of \$.043 per share from investment income-net, payable on October 28, 2010 to shareholders of record as of the close of business on October 14, 2010.

(f) Concentration of risk: The fund invests primarily in debt securities. Failure of an issuer of the debt securities to make timely interest or principal payments, or a decline or the perception of a decline in the credit quality of a debt security, can cause the debt security's price to fall, potentially lowering the fund's share price. High yield (junk) bonds involve greater credit risk, including the risk of default, than

26

investment grade bonds, and are considered predominantly speculative with respect to the issuer's continuing ability to make principal and interest payments. In addition, the value of a security may decline due to general market conditions which are not specifically related to a particular company, such as real or perceived adverse economic conditions, changes in the outlook for corporate earnings, changes in interest or currency rates or adverse investor sentiment. They may also decline because of factors that affect a particular industry.

The fund is permitted to invest up to 5% of its assets directly in the common stock of high yield bond issuers. This percentage will be in addition to any other common stock holdings acquired as part of warrants or units, so that the fund's total common stock holdings could exceed 5% at a particular time. However, the fund currently intends to invest directly in common stocks (including those offered in an initial public offering) to gain sector exposure and when suitable high yield bonds are not available for sale, and expects to sell the common stock promptly when suitable high yield bonds are subsequently acquired.

(g) Federal income taxes: It is the policy of the fund to continue to qualify as a regulated investment company, if such qualification is in the best interests of its shareholders, by complying with the applicable provisions of the Internal Revenue Code of 1986, as amended, and to make distributions of taxable income sufficient to relieve it from substantially all federal income and excise taxes.

As of and during the period ended September 30, 2010, the fund did not have any liabilities for any uncertain tax positions. The fund recognizes interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statement of Operations. During the period, the fund did not incur any interest or penalties.

Each of the tax years in the three-year period ended March 31, 2010 remains subject to examination by the Internal Revenue Service and state taxing authorities.

The Fund 27

NOTES TO FINANCIAL STATEMENTS (Unaudited) (continued)

The fund has an unused capital loss carryover of \$248,937,760 available for federal income tax purposes to be applied against future net securities profits, if any, realized subsequent to March 31, 2010. If not applied, \$105,470,700 of the carryover expires in fiscal 2011, \$56,969,403 expires in fiscal 2012, \$19,946,264 expires in fiscal 2014, \$8,379,964 expires in fiscal 2016, \$24,707,290 expires in fiscal 2017 and \$33,464,139 expires in fiscal 2018. It is uncertain that the fund will be able to utilize most of its capital loss carryovers prior to its expiration date.

The tax character of distributions paid to shareholders during the fiscal year ended March 31, 2010 was as follows: ordinary income \$27,522,930. The tax character of current year distributions will be determined at the end of the current fiscal year.

NOTE 2 Borrowings:

The fund has a \$125,000,000 Revolving Credit and Security Agreement (the Agreement), which was renewed until November 1, 2011, subject to certain amendments. Under the terms of the Agreement, the fund may borrow Advances (including Eurodollar Advances), on a collateralized basis with certain fund assets used as collateral which amounted to \$307,425,184 as of September 30, 2010; the yield to be paid by the fund on such Advances is determined with reference to the principal amount of each Advance (and/or Eurodollar Advance) outstanding from time to time. During the period ended September 30, 2010, the fund was charged \$1,022,938 pursuant to the Agreement.

The average amount of borrowings outstanding during the period ended September 30, 2010, under the Agreement, was \$117,409,800, with a related weighted average annualized interest rate of .42%.

NOTE 3 Management Fee and Other Transactions with Affiliates:

(a) Pursuant to a management and administration agreement with the Manager, the management and administration fee is computed at the annual rate of .90% of the value of the fund's average weekly total assets minus the sum of accrued liabilities (other than the aggregate

28

indebtedness constituting financial leverage) (the Managed Assets) and is payable monthly.

The Manager has agreed to waive receipt of a portion of the fund's management fee in the amount of .15% of the value of the fund's average weekly total assets (minus the sum of accrued liabilities, other than the aggregate indebtedness constituting financial leverage) until March 31, 2011. The reduction in management fee, pursuant to the undertaking, amounted to \$302,094 during the period ended September 30, 2010.

The fund compensates BNY Mellon Shareowner Services, an affiliate of the Manager, under a transfer agency agreement for providing personnel and facilities to perform transfer agency services for the fund. During the period ended September 30, 2010, the fund was charged \$8,000 pursuant to the transfer agency agreement, which is included in Shareholder servicing costs in the Statement of Operations.

The fund compensates The Bank of New York Mellon, a subsidiary of BNY Mellon and an affiliate of Dreyfus, under a custody agreement for providing custodial services for the fund. During the period ended September 30, 2010, the fund was charged \$24,810 pursuant to the custody agreement.

During the period ended September 30, 2010, the fund was charged \$2,793 for services performed by the Chief Compliance Officer.

The components of Due to The Dreyfus Corporation and affiliates in the Statement of Assets and Liabilities consist of: management fees \$298,279, custodian fees \$7,502, chief compliance officer fees \$1,783 and certain transfer agency fees \$2,000, which are offset against an expense reimbursement currently in effect in the amount of \$49,713.

(b) For the period from April 1, 2010, through July 30, 2010, in accordance with a Shareholder Servicing Agreement, UBS Warburg LLC provided certain shareholder services for which the fund paid a fee computed at the annual rate of .10% of the value of the fund's average weekly Managed Assets. Effective July 30, 2010, the Shareholder Servicing

The Fund 29

NOTES TO FINANCIAL STATEMENTS (Unaudited) (continued)

Agreement between the fund and UBS Warburg LLC was terminated by the fund. During the period ended September 30, 2010, the fund was charged \$133,057 pursuant to the Shareholder Servicing Agreement.

For the period from April 1, 2010 through July 30, 2010, UBS Warburg LLC agreed to waive receipt of a portion of the fund's shareholder services fee in the amount of .05% of the Managed Assets. The reduction in shareholder services fee, pursuant to the undertaking, amounted to \$66,529 during the period ended September 30, 2010.

Edgar Filing: DREYFUS HIGH YIELD STRATEGIES FUND - Form N-CSRS

(c) Each Trustee who is not an interested person (as defined in the Act) receives \$15,000 per annum plus \$1,000 per joint Board meeting attended, \$2,500 for separate in-person committee meetings attended which are not held in conjunction with a regularly scheduled Board meeting and \$1,000 for Board meetings and separate committee meetings attended that are conducted by telephone. The fund also reimburses each trustee who is not an interested person of the Trust (as defined in the Act) for travel and out-of-pocket expenses. In the event that there is an in-person joint committee meeting or a joint telephone meeting of the Dreyfus/Laurel Funds, Inc., The Dreyfus/Laurel Funds Trust, The Dreyfus/Laurel Tax-Free Municipal Funds, Dreyfus Investment Funds, Dreyfus Funds, Inc. (the Board Group Open-End Funds) and the fund, \$2,500 or \$2,000 fee, as applicable, is allocated between the Board Group Open-Ended Funds and the fund.

NOTE 4 Securities Transactions:

The aggregate amount of purchases and sales (including paydowns) of investment securities, excluding short-term securities and forward contracts, during the period ended September 30, 2010, amounted to \$112,997,636 and \$109,047,180, respectively.

The provisions of ASC Topic 815 Derivatives and Hedging require qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments and disclosures about credit-risk-related con-

30

tingent features in derivative agreements. The disclosure requirements distinguish between derivatives, which are accounted for as hedges and those that do not qualify for hedge accounting. Because investment companies value their derivatives at fair value and recognize changes in fair value through the Statement of Operations, they do not qualify for such accounting. Accordingly, even though a fund's investments in derivatives may represent economic hedges, they are considered to be non-hedge transactions for purposes of this disclosure.

The following summarizes the average market value and percentage of average net assets of derivatives outstanding for the period ended September 30, 2010:

	Value (\$)	Average Net Assets (%)
Forward contracts	181,325	.06

Forward Foreign Currency Exchange Contracts: The fund enters into forward contracts in order to hedge its exposure to changes in foreign currency exchange rates on its foreign portfolio holdings, to settle foreign currency transactions or as a part of its investment strategy. When executing forward contracts, the fund is obligated to buy or sell a foreign currency at a specified rate on a certain date in the future. With respect to sales of forward contracts, the fund incurs a loss if the value of the contract increases between the date the forward contract is opened and the date the forward contract is closed. The fund realizes a gain if the value of the contract decreases between those dates. With respect to purchases of forward contracts, the fund incurs a loss if the value of the contract decreases between the date the forward contract is opened and the date the forward contract is closed. The fund realizes a gain if the value of the contract increases between those dates. Any realized gain or loss which occurred during the period is reflected in the Statement of Operations. The fund is exposed to foreign currency risk as a result of changes in value of underlying financial instruments.

The Fund 31

NOTES TO FINANCIAL STATEMENTS (Unaudited) (continued)

The fund is also exposed to credit risk associated with counterparty nonperformance on these forward contracts, which is typically limited to the unrealized gain on each open contract. The following summarizes open forward contracts at September 30, 2010:

	Foreign Currency	Unrealized
Forward Foreign Currency		

Edgar Filing: DREYFUS HIGH YIELD STRATEGIES FUND - Form N-CSRS

Exchange Contracts	Amount	Proceeds (\$)	Value (\$)	(Depreciation) (\$)
Sales;				
Euro,				
Expiring 10/27/2010	140,000	188,632	190,818	(2,186)

At September 30, 2010, accumulated net unrealized appreciation on investments was \$18,248,234, consisting of \$23,575,629 gross unrealized appreciation and \$5,327,395 gross unrealized depreciation.

At September 30, 2010, the cost of investments for federal income tax purposes was substantially the same as the cost for financial reporting purposes (see the Statement of Investments).

32

PROXY RESULTS (Unaudited)

Holders of Beneficial interest voted on the following proposal presented at the annual shareholders meeting held on August 5, 2010 as follows:

	Shares	
	For	Authority Withheld
To elect two Class II Trustees:		
James M. Fitzgibbons	60,410,705	4,098,869
Roslyn M. Watson	60,406,294	4,103,280

The terms of these Class II Trustees expire in 2013.
