Note Regarding Forward Looking Statements

This Annual Report on Form 10-KSB contains "forward-looking statements." These forward-looking statements are based on our current expectations, assumptions, estimates and projections about our business and our industry. Words such as "believe," "anticipate," "expect," "intend," "plan," "may," and other similar expressions identify forward-looking statements. In addition, any statements that refer to expectations, projections or other characterizations of future events or circumstances are forward-looking statements. These forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from those reflected in the forward- looking statements. You are cautioned not to place undue reliance on these forward-looking statements, which relate only to events as of the date on which the statements are made. We undertake no obligation to publicly revise these forward-looking statements to reflect events or circumstances that arise after the date hereof. You should refer to and carefully review the information in future documents we file with the Securities and Exchange Commission.

PART I

ITEM 1. DESCRIPTION OF BUSINESS.

Some of the information in this report may contain forward-looking statements. These statements can be identified by the use of forward-looking terminology such as may, will, expect, anticipate, estimate, continue or similar words. These statements discuss future expectations, contain projections of results of operations or of financial condition or state other forward-looking information. Important factors that could cause actual results to differ materially from those discussed in such forward-looking statements (Cautionary Statements) include: the general strength or weakness of the Company's products, the industry, and the pricing policies of competitors. All subsequent written and oral forward-looking statements attributable to the Company or persons acting on behalf of the Company are expressly qualified in their entirety by such Cautionary Statements.

Corporate History

SIMEX Technologies, Inc., a Delaware corporation together with its subsidiaries, is referred to herein as the Company. The Company's predecessor corporation was originally organized in 1983 with limited operations until its reorganization with SIMEX A/S, a Norwegian corporation, on April 28, 1998. Under the terms of the reorganization, the principal shareholders of SIMEX A/S became the majority shareholders of the Company, and SIMEX A/S became a wholly-owned subsidiary of the Company. In April of 1999, the Company reincorporated as a Delaware corporation and changed its name to SIMEX Technologies, Inc.

Simex A/S Acquisitions and Divestitures

SIMEX A/S began operations in 1980 as an engineering and service company based in Stavanger, Norway. In May of 1998, SIMEX A/S acquired Norsk Kjoleindustri A/S (Norwegian Cooling Industries), which was an HVAC equipment design, manufacturer and maintenance organization that, among its products, manufactured and installed ice machines and other cooling equipment for a variety of applications. Subsequently from 1998 to 2001, SIMEX A/S completed a number of other acquisitions designed to complement its existing business. The acquisitions were intended to position the Company to compete with other engineering and construction companies and to expand its services to other markets. In 2002, the Company sold SIMEX A/S and Simex Capital, Inc., which constituted all of the Company's operations at the time.

{A0042073.DOC}

Remote Business, Inc. Acquisition and Divestiture

Effective as of May 20, 2003, the Company completed a merger subject to certain terms to be complied with after May 20, 2003, under which it acquired all of the outstanding stock of Probity Investigations, Inc. (Probity), and ownership of Probity's wholly owned subsidiaries, Kyros, LLC (Kyros) and Remote Business Management, LLC (RBM). Under the terms of the reverse acquisition, a share exchange transaction occurred with the shareholders of Probity, which resulted in a change in the control of the ownership of Simex, with the shareholders of Probity becoming the controlling group.

On September 18, 2003, Simex executed a Mutual Rescission Agreement (the Rescission Agreement) whereby it agreed with the Probity Shareholders to mutually rescind the May 20, 2003 reverse acquisition of Probity and return all parties to their respective positions as they existed prior to May 20, 2003. The basis for the Rescission Agreement was that Probity had not fulfilled all of its requirements under the May 20, 2003, reverse acquisition agreement.

On December 5, 2003, the Company acquired Remote Business, Inc. (RBI), a newly-formed subsidiary of Probity, in exchange for 16,000,000 newly-issued shares of the Company's common stock. Immediately prior to the acquisition, Probity transferred security equipment inventory with a fair value of \$550,000 and the operations of its subsidiary, RBM, excluding all recorded assets and liabilities of RBM, to RBI. The acquisition was accounted for as a purchase. Because the Company was a non-operating company at the time of the transaction and the common shares of the Company were thinly-traded, the purchase price was deemed to be the fair value of the assets acquired. Accordingly, no goodwill was recorded in the acquisition.

On August 31, 2004, the Company and Probity entered into a Memorandum of Understanding to rescind the purchase of RBI, and cancel a secured loan of \$35,000 that it had previously made to Probity. Probity agreed to return 500,000 shares of the Company's common stock pursuant to the Memorandum of Understanding. Pursuant to the Memorandum of Understanding, Probity took over ownership and management of RBI on September 7, 2004. The Company and Probity entered into a Mutual Rescission Agreement in February 2007 to memorialize Probity's takeover of ownership and management of RBI in September 2004. The Company and Probity amended the Mutual Rescission Agreement on August 13, 2007 to provide for the cancellation of an additional 14,300,000 shares of common stock that had been issued to Probity in the original transaction and to modify the indemnity provisions thereof.

Simex Data Systems, Inc.

Effective January 16, 2004, a wholly-owned subsidiary of the Company, Simex Digital Solutions, Inc. (SDS), entered into a marketing agreement with Structured Data Systems, Inc. (Structured Data), a Georgia corporation. Structured Data was a value-added reseller of computer hardware and software. Under the marketing agreement, SDS marketed products sold by Structured Data. In August 2004, SDS breached its obligations under the marketing agreement, and as a result Structured Data terminated SDS's rights thereunder by a notice dated August 3, 2004. SDS ceased operations shortly thereafter.

Red Alert, Inc.

On August 19, 2004, the Company entered into an Agreement and Plan of Share Exchange with Red Alert Group, Inc., a Georgia corporation ("Red Alert"). Red Alert was a specialized consulting firm operating in the areas of homeland security, cyber security, and private military security. The Agreement and Plan of Share Exchange was amended and restated on August 27, 2004 (the "Exchange Agreement"). Under the terms of the Exchange Agreement, the Company agreed to issue 3,905,253 shares of its newly

{A0042073.DOC}

designated Series A Preferred Stock in exchange for all of the issued and outstanding shares of the common stock of Red Alert. On August 30, 2004, C. Mickle Moye resigned as Chairman of the Company, and eight designees of Red Alert were appointed to the board. Also on August 30, 2004, Kjell I. Jagelid resigned as President and Chief Executive Officer of the Company, and Timothy A. Holly was appointed President and Chief Executive Officer.

The Company subsequently determined that it could not acquire Red Alert by the issuance of its shares of Series A Preferred Stock in compliance with federal securities laws due to the size, nature and composition of the shareholders of Red Alert. As a consequence, the Company never issued any shares of Series A Preferred Stock to the shareholders of Red Alert, and therefore never completed the acquisition of Red Alert. On January 6, 2006, the Company and Red Alert entered into a Mutual Rescission Agreement, under which they mutually terminated the Agreement and Plan of Share Exchange. In connection with the Mutual Rescission Agreement, Kjell I. Jagelid, and other shareholders holding a majority of shares, removed all of the designees of Red Alert on the board of directors of the Company resigned, and appointed Mr. Jagelid and Warren L. Traver directors of the Company.

Current Business of Company

Since the disposal of RBI in September 2004 and the termination of operations at SDS on August 3, 2004, the Company has been a public company with no operating activities. The Company therefore has no business segments, has no operations in any industry, does not sell any products or services, has no competition, has no requirements for raw materials, has no expenditures on research and development and has no employees.

Management's Plans

Since the disposal of the Company's operations in 2004, the Company has been seeking an acquisition or merger candidate. The Company is seeking an operating company with a viable product or service that has growth potential. However, there is no assurance that the Company will be successful in raising capital or in locating a suitable acquisition candidate, or that the terms of any such transaction will be favorable to existing shareholders.

Competition

The Company is and will continue to be a limited competitor in the business of seeking business opportunities with private companies. A large number of established and well-financed entities, including venture capital firms, are active in mergers and acquisitions of companies which may be desirable business opportunity candidates for us. Nearly all such entities have significantly greater experience and financial resources, technical expertise and managerial capabilities than us. Consequently, the Company will be at a competitive disadvantage in identifying possible business opportunities and successfully completing a business opportunity.

Government Regulation

The proposed business activities described herein classify the Company as a "blank check" company. Many states have enacted statutes, rules and regulations limiting the sale of securities of "blank check" companies in their states.

Risk Factors

An investment in the Company's shares are subject to the following risk factors:

{A0042073.DOC}

NO REVENUE AND MINIMAL ASSETS. The Company has no revenues or earnings from operations. The Company has no significant assets or financial resources. The Company will, in all likelihood, sustain operating expenses without corresponding revenues, at least until the consummation of a business combination. This may result in the Company incurring a net operating loss which will increase continuously until the Company can consummate a business combination with a profitable business opportunity. There is no assurance that the Company can identify such a business opportunity and consummate such a business combination.

SPECULATIVE NATURE OF COMPANY'S PROPOSED OPERATIONS. The success of the Company's proposed plan of operation will depend to a great extent on the operations, financial condition and management of the identified business opportunity. While management intends to seek business combinations with entities having established operating histories, there can be no assurance that the Company will be successful in locating candidates meeting such criteria. In the event the Company completes a business combination, of which there can be no assurance, the success of the Company's operations may be dependent upon management of the successor firm or venture partner firm and numerous other factors beyond the Company's control.

SCARCITY OF AND COMPETITION FOR BUSINESS OPPORTUNITIES AND COMBINATIONS. The Company is and will continue to be an insignificant participant in the business of seeking mergers with, joint ventures with and acquisitions of small private entities. A large number of established and well-financed entities, including venture capital firms, are active in mergers and acquisitions of companies that may be desirable target candidates for the Company. Nearly all such entities have significantly greater financial resources, technical expertise and managerial capabilities than the Company and, consequently, the Company will be at a competitive disadvantage in identifying possible business opportunities and successfully completing a business combination. Moreover, the Company will also compete in seeking merger or acquisition candidates with numerous other small public companies.

CONFLICTS OF INTEREST - GENERAL. The officers and directors are associated with other firms and are involved in a range of business activities which may have business dealings with the Company at some point in time. Due to these affiliations and the fact that some officers are expected to devote only a portion of their time to the business of the Company, there are potential inherent conflicts of interest in their acting as directors and as officers. Each of the officers and directors is or may become an officer, director, controlling shareholder, partner or participant in other entities engaged in a variety of businesses. These existing and potential conflicts of interest are irreconcilable and could involve the participating officers and directors in litigation brought by the Company's shareholders or by the shareholders of other entities with which the officers and directors are currently, or may become, affiliated. To help alleviate this position somewhat, Management has adopted a policy of full disclosure with respect to business transactions with any entity in which any or all of the officers or directors are affiliated, either directly or indirectly. An officer or director may continue any business activity in which such officer or director engaged prior to joining the Company.

REPORTING REQUIREMENTS MAY DELAY OR PRECLUDE ACQUISITION. Section 13 of the Securities Exchange Act of 1934 (the "Exchange Act"), requires companies subject thereto to provide certain information about significant acquisitions, including certified financial statements for the company acquired, covering one or two years, depending on the relative size of the acquisition. The time and additional costs that may be incurred by some target entities to prepare such statements may significantly delay or essentially preclude consummation of an otherwise desirable acquisition by the Company. Acquisition prospects that do not have or are unable to obtain the required audited statements may not be appropriate for acquisition so long as the reporting requirements of the 1934 Act are applicable.

LACK OF MARKET RESEARCH OR MARKETING ORGANIZATION. The Company has neither conducted, nor have others made available to it, results of market research indicating that market demand

{A0042073.DOC}

exists for the transactions contemplated by the Company. Moreover, the Company does not have, and does not plan to establish, a marketing organization. Even in the event demand is identified for a merger or acquisition contemplated by the Company, there is no assurance the Company will be successful in completing any such business combination.

LACK OF DIVERSIFICATION. The Company's proposed operations, even if successful, will in all likelihood result in the Company engaging in a business combination with only one business opportunity. Consequently, the Company's activities will be limited to those engaged in by the business opportunity which the Company merges with or acquires. The Company's inability to diversify its activities into a number of areas may subject the Company to economic fluctuations within a particular business or industry and therefore increase the risks associated with the Company's operations.

REGULATION. Although the Company will be subject to regulation under the Securities Exchange Act of 1934, management believes the Company will not be subject to regulation under the Investment Company Act of 1940, insofar as the Company will not be engaged in the business of investing or trading in securities. In the event the Company engages in business combinations that result in the Company holding passive investment interests in a number of entities, the Company could be subject to regulation under the Investment Company Act of 1940. In such event, the Company would be required to register as an investment company and could be expected to incur significant registration and compliance costs. The Company has obtained no formal determination from the Securities and Exchange Commission as to the status of the Company under the Investment Company Act of 1940 and, consequently, any violation of such Act would subject the Company to material adverse consequences.

PROBABLE CHANGE IN CONTROL AND MANAGEMENT. A business combination involving the issuance of the Company's common stock will, in all likelihood, result in shareholders of a private company obtaining a controlling interest in the Company. Any such business combination may require management of the Company to resign as members of the Board of Directors of the Company. The resulting change in control of the Company could result in removal of one or more present officers and directors of the Company and a corresponding reduction in or elimination of their participation in the future affairs of the Company.

REDUCTION OF PERCENTAGE SHARE OWNERSHIP FOLLOWING BUSINESS COMBINATION. The Company's primary plan of operation is based upon a business combination with a private concern which, in all likelihood, would result in the Company issuing securities to shareholders of such private company. The issuance of previously authorized and unissued common stock of the Company would result in reduction in percentage of shares owned by present and prospective shareholders of the Company and would most likely result in a change in control or management of the Company.

REQUIREMENT OF AUDITED FINANCIAL STATEMENTS MAY DISQUALIFY BUSINESS OPPORTUNITIES. Management of the Company believes that any potential business opportunity must provide audited financial statements for review, and for the protection of all parties to the business combination. One or more attractive business opportunities may choose to forego the possibility of a business combination with the Company, rather than incur the expenses associated with preparing audited financial statements.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

During the quarter ended December 31, 2004, the Company did not submit any matters to a vote of security holders.

PART II

ITEM 5. MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS.

Our common stock is registered with the United States Securities and Exchange Commission under 12(b) of the Securities Exchange Act of 1934. Our common stock trades on the Pink Sheets under the symbol SMXT. The following table summarizes the low and high prices for the Company's common stock for the years 2004 and 2003.

	<u>2004</u>		<u>2003</u>	
	<u>High</u>	<u>Low</u>	<u>High</u>	<u>Low</u>
First Quarter	n/a	n/a	0.20	0.05
Second Quarter	n/a	n/a	0.70	0.20
Third Quarter	n/a	n/a	0.60	0.25
Fourth Quarter	n/a	n/a	0.52	0.10

The high and low quotes on the Company's common stock reflect inter-dealer prices, without retail mark-up, mark-down or commission and may not represent actual transactions. There were 202 shareholders of record of the common stock as of October 31, 2007. This number does not include an indeterminate number of shareholders whose shares are held by brokers in "street name."

The Company's common stock is subject to rules adopted by the Securities and Exchange Commission ("Commission") regulating broker dealer practices in connection with transactions in "penny stocks." Those disclosure rules applicable to "penny stocks" require a broker dealer, prior to a transaction in a "penny stock" not otherwise exempt from the rules, to deliver a standardized disclosure document prepared by the Commission. That disclosure document advises an investor that investment in "penny stocks" can be very risky and that the investor's salesperson or broker is not an impartial advisor, but rather paid to sell the shares. The disclosure contains further warnings for the investor to exercise caution in connection with an investment in "penny stocks," to independently investigate the security, as well as the salesperson the investor is working with and to understand the risky nature of an investment in this security. The broker dealer must also provide the customer with certain other information and must make a special written determination that the "penny stock" is a suitable investment for the purchaser, and receive the purchaser's written agreement to the transaction. Further, the rules require that, following the proposed transaction, the broker provide the customer with monthly account statements containing market information about the prices of the securities. These disclosure requirements may have the effect of reducing the level of trading activity in the secondary market for the Company's common stock. Many

{A0042073.DOC}

brokers may be unwilling to engage in transactions in our common stock because of the added disclosure requirements, thereby making it more difficult for stockholders to dispose of their shares.

The Company did not declare any cash dividends on its Common Stock during its fiscal years ended on December 31, 2004 or 2003. The board of directors of the Company has made no determination to date to declare cash dividends during the foreseeable future, but is not likely to do so. There are no restrictions on the Company's ability to pay dividends.

Securities Issued in Unregistered Transactions

During the quarter ended December 31, 2004, the Company did not issue any shares in unregistered transactions.

Issuer Purchases of Equity Securities

During the quarter ended December 31, 2004, the Company did not repurchase any shares of its common stock.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION.

Disclosure Regarding Forward Looking Statements

This Annual Report on Form 10-KSB includes forward looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended ("Forward Looking Statements"). All statements other than statements of historical fact included in this report are Forward Looking Statements. In the normal course of its business, the Company, in an effort to help keep its shareholders and the public informed about the Company's operations, may from time-to-time issue certain statements, either in writing or orally, that contain or may contain Forward-Looking Statements. Although the Company believes that the expectations reflected in such Forward Looking Statements are reasonable, it can give no assurance that such expectations will prove to have been correct. Generally, these statements relate to business plans or strategies, projected or anticipated benefits or other consequences of such plans or strategies, past and possible future, of acquisitions and projected or anticipated benefits from acquisitions made by or to be made by the Company, or projections involving anticipated revenues, earnings, levels of capital expenditures or other aspects of operating results. All phases of the Company operations are subject to a number of uncertainties, risks and other influences, many of which are outside the control of the Company and any one of which, or a combination of which, could materially affect the results of the Company's proposed operations and whether Forward Looking Statements made by the Company ultimately prove to be accurate. Such important factors ("Important Factors") and other factors could cause actual results to differ materially from the Company's expectations are disclosed in this report. All prior and subsequent written and oral Forward Looking Statements attributable to the Company or persons acting on its behalf are expressly qualified in their entirety by the Important Factors described below that could cause actual results to differ materially from the Company's expectations as set forth in any Forward Looking Statement made by or on behalf of the Company.

Plan of Operation

Since the disposal of the Company's operations in 2004, the Company has been seeking an acquisition or merger candidate. The Company is seeking an operating company with a viable product or service that has growth potential. However, there is no assurance that the Company will be successful in raising

{A0042073.DOC}

capital or in locating a suitable acquisition candidate, or that the terms of any such transaction will be favorable to existing shareholders.

Results of Operations

Revenues

The Company's revenues from continuing operations in the year ended December 31, 2004 were \$0, as compared to \$53 in the year ended December 31, 2003. During the year ended December 31, 2003, the Company had operating activities in the month of December at its RBI subsidiary. During the year ended December 31, 2004, the Company had operations at its RBI subsidiary and its SDS subsidiary; however, it has classified those operations as discontinued operations because they were both disposed of in the year ended December 31, 2004.

Selling, General and Administrative Expenses

The Company incurred selling, general and administrative expenses of \$1,183 in the year ended December 31, 2004, as compared to \$456 in the year ended December 31, 2003. The substantial increase in selling, general and administrative expenses was the result of a substantially greater level of business activity in 2004 attributable to operations at RBI and SDS and legal costs associated with the Company's agreement to acquire Red Alert. A substantial part of the selling, general and administrative expenses in 2004 was a non-cash expense of \$654 resulting from the issuance of 5,031,666 shares of common stock for services.

Other Income (Expense)

The Company incurred other income (expense) of (\$517) in the year ended December 31, 2004, as compared to other income of \$3 in the year ended December 31, 2003. In 2004, the other expense was largely attributable to a loss of (\$514) incurred in connection with the disposal of RBI and the cessation of operations at SDS during the period.

Net Loss

During the year ended December 31, 2004, the Company incurred a net loss of (\$1,755), or \$(0.05) per diluted weighted-average share. During the year ended December 31, 2003, the Company reported a net loss of (\$429), or \$(0.02) per diluted weighted-average share. The increase in loss in 2004 as compared to 2003 was primarily due to excess general and administrative costs, particularly those incurred in connection with the acquisition of Red Alert and the issuance of 5,031,666 shares of common stock for services, operating losses at RBI and SDS, and nonrecurring losses associated with the disposition of RBI and SDS.

Liquidity and Capital Resources

At December 31, 2004, we had no assets, current liabilities of \$404, and a working capital deficit of (\$404).

The accompanying financial statements indicate that the Company has no liquidity, and requires additional capital to pay any of its liabilities. As a publicly traded company subject to ongoing reporting requirements with the Securities and Exchange Commission (SEC), the Company will continue to incur significant expenses to maintain current reporting status with the SEC. These expenses are likely to

{A0042073.DOC}

increase in coming periods based on more stringent reporting requirements and public oversight initiatives that have been or are being adopted by the SEC in response to corporate governance concerns and recent corporate scandals and abuses. Audit and professional fees will increase as a result of these changes and the increases will impact the profitability of the company in future periods.

The Company's plan is to locate an operating company with viable products or services that desires to go public by means of a reverse merger. There is no assurance that the Company will be able to find a suitable acquisition candidate.

Going Concern

The Company's financial statements have been presented on the basis that it is a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. As shown in the accompanying financial statements, the Company incurred net operating losses through the year ended December 31, 2004. These factors create an uncertainty about the Company's ability to continue as a going concern. The recent efforts by Company's management to raise additional operating capital were successful. The ability of the Company to continue as a going concern is dependent on their continued success in raising capital. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements that are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.

ITEM 7. FINANCIAL STATEMENTS.

The financial statements required by Item 310 of Regulation S-B are attached hereto as Exhibit A.

ITEM 8. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

On February 9, 2005, Miller Ray & Houser LLP, resigned as the Company's independent accounts. To the knowledge of current management, during the period that Miller Ray & Houser LLP, was engaged, it expressed no disagreements on any matter of accounting principles or practices, financial disclosure, or auditing scope or procedures, which disagreements if not resolved to Miller Ray & Houser's satisfaction would have caused them to make reference in connection with their opinion to the subject matter of the disagreement. The audit report of Miller Ray & Houser on the Registrant's financial statements for the year ending 2003 did not contain any adverse opinion or disclaimer of opinion, nor was it qualified or modified as to uncertainty, audit scope or accounting principles. The Company did not consult with Miller Ray & Houser LLP regarding any matters or events set forth in Item 304(a)(2)(i) and (ii) of Regulation S-B.

On August 29, 2006, the Company retained Connolly, Grady and Cha, P.C. as its independent accountants. The Company did not consult with Connolly, Grady and Cha, P.C. with respect to any of the matters described in Item 304(a)(2)(i) and (ii) of Regulation S-B prior to its engagement.

ITEM 8A. CONTROLS AND PROCEDURES.

{A0042073.DOC}

Kjell I. Jagelid is both our chief executive officer and our chief financial officer, and is responsible for establishing and maintaining our disclosure controls and procedures. Mr. Jagelid evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) as of September 30, 2007. No evaluation was made as of December 31, 2004. In designing and evaluating our disclosure controls and procedures, he recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and management necessarily applied its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Based on this evaluation, he concluded that as of December 31, 2004, our disclosure controls and procedures were (1) designed to ensure that material information relating to the company, including our consolidated subsidiaries, is made known to our chief executive officer and chief financial officer by others within those entities, particularly during the period in which this report was being prepared and (2) effective, in that they provide reasonable assurance that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms. Accordingly, Mr. Jagelid concluded that our disclosure controls and procedures as of December 31, 2004 were inadequate to ensure that information necessary to prepare and file timely reports required by the Exchange Act could be filed.

This quarterly report does not include a report of our management's assessment regarding internal control over financial reporting or an attestation report of our registered public accounting firm due to a transition period established by the rules of the Securities and Exchange Commission.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

In the last two fiscal years ended December 31, 2004 and 2003, we retained Miller, Ray & Houser, LLP and Connolly, Grady and Cha, P.C., respectively, as our principal accountants. We understand the need for our principal accountants to maintain objectivity and independence in their audit of our financial statements. To minimize relationships that could appear to impair the objectivity of our principal accountants, our board has restricted the non-audit services that our principal accountants may provide to the Company primarily to tax services and audit related services. The Company is only to obtain non-audit services from our principal accountants when the services offered by our principal accountants are more effective or economical than services available from other service providers, and, to the extent possible, only after competitive bidding. The board has adopted policies and procedures for pre-approving work performed by our principal accountants.

After careful consideration, the board has determined that payment of the audit fees is in conformance with the independent status of the Company's principal independent accountants.

Audit Fees: The aggregate fees billed for the fiscal year ended December 31, 2004 for professional services rendered by the principal accountant for the audit of our annual financial statements and the review of financial statements included in our filed Form 10-QSB's is \$6,667 (based on \$20,000 for 2004, 2005 and 2006). The aggregate fees billed for the fiscal year ended December 31, 2003 for professional services rendered by the principal accountant for the audit of our annual financial statements was \$52,390.

Audit-Related Fees: The aggregate fees billed for the fiscal years ended December 31, 2004 and 2003 for assurance and related services by the principal accountant that are reasonably related to the performance of the audit or review for the audit or review of our annual financial statements and the review of financial statements and are not reported under the previous item, Audit Fees, was \$0 and \$0 respectively.

Tax Fees: The aggregate fees billed for the fiscal years ended December 31, 2004 and 2003 for professional services rendered by the principal accountant for tax compliance and tax planning was \$0 and \$0, respectively.

All Other Fees: The aggregate fees billed for the fiscal years ended December 31, 2004 and 2003 for products and services provided by the principal accountant other than the services reported above was \$0 and \$0, respectively.
