Item 8.01. Other Events.

On January 31, 2006, IHOP Corp. issued a press release announcing its 2006 performance guidance. A copy of the press release is attached as Exhibit 99.1, and incorporated herein by reference.

Also on January 31, 2006, IHOP Corp. held a conference call to discuss its 2006 performance guidance. A copy of the 2006 guidance call script is attached as Exhibit 99.2, and incorporated herein by reference.

The 2006 guidance call script accompanying management's discussion during the conference call include references to the non-GAAP financial measures free cash flow and discretionary cash. The Company defines free cash flow for a given period as cash provided by operating activities for such period, less capital expenditures for such period. The Company defines discretionary cash for a given period as cash provided by operating activities for such period, plus principal receipts from notes and equipment contracts receivable, less repayment of long-term debt principal and capital lease obligations less capital expenditures for such period. Management utilizes free cash flow and discretionary cash as measures of operating efficiency to determine the amount of cash remaining for general corporate and strategic purposes. Management believes this information is helpful to investors to determine the Company's cash available for these purposes. Free cash flow and discretionary cash for any given period may be affected by a variety of factors, including but not limited to, changes in assets and liabilities and the timing of purchases and payments. Free cash flow and discretionary cash are supplemental non-GAAP measures and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with generally accepted accounting principles.

The following table reconciles the Company's guidance with respect to free cash flow for the year ending December 31, 2006, to the Company's projected cash flow provided by operating activities for the year ending December 31, 2006:

	Year Ending December 31, 2006 (dollars in thousands)			
Cash flows from operating activities:	\$	55,000	-	\$ 60,000
Capital expenditures		(12,000)	-	(14,000)
Free cash flow	\$	41,000	-	\$ 48,000

The following table reconciles the Company's guidance with respect to discretionary cash for the year ending December 31, 2006, to the Company's projected cash flow provided by operating activities for the year ending December 31, 2006:

	Year Ending December 31, 2006 (dollars in thousands)			
Cash flows from operating activities	\$	55,000	-	\$ 60,000
Principal receipts from notes and equipment contracts receivable		18,000	-	20,000
Repayment of long-term debt principal and capital lease obligations		(24,000)	-	(24,000)
Capital expenditures		(12,000)	-	(14,000)
Discretionary cash	\$	35,000	-	\$ 44,000
