RLJ Lodging Trust

Notes to the Combined Consolidated Financial Statements

(unaudited)

1. Organization

RLJ Lodging Trust (the "Company") was formed as a Maryland real estate investment trust ("REIT") on January 31, 2011. The Company is a self-advised and self-administered REIT that acquires primarily premium-branded, focused-service and compact full-service hotels. The Company qualified and elected to be taxed as a REIT for U.S. federal income tax purposes, commencing with the portion of its taxable year ended December 31, 2011.

Substantially all of the Company's assets are held by, and all of its operations are conducted through, RLJ Lodging Trust, L.P. (the "Operating Partnership"). The Company is the sole general partner of the Operating Partnership. As of June 30, 2013, there were 123,629,453 units of limited partnership interest in the Operating Partnership ("OP units") outstanding and the Company owned, through a combination of direct and indirect interests, 99.3% of the outstanding OP units.

As of June 30, 2013, the Company owned 149 properties, comprised of 147 hotels with approximately 22,300 rooms and two planned hotel conversions, located in 22 states and the District of Columbia, interests in land parcels located adjacent to certain hotels and an interest in two mortgage loans secured by hotels. The Company, through wholly-owned subsidiaries, owned a 100% interest in all of its properties, with the exception of the Doubletree Metropolitan Hotel New York City, in which the Company, through wholly-owned subsidiaries, owned a 95% controlling interest in a joint venture, DBT Met Hotel Venture, LP, which was formed to engage in hotel operations related to the Doubletree Metropolitan hotel. An independent operator manages each property.

2. Summary of Significant Accounting Policies

Basis of Presentation and Principles of Consolidation

The accompanying unaudited combined consolidated financial statements and related notes have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP") and in conformity with the rules and regulations of the SEC applicable to financial information. As such, certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been omitted in accordance with the rules and regulations of the SEC. The accompanying unaudited financial statements include adjustments based on management's estimates (consisting of normal recurring adjustments), which the Company considers necessary for the fair statement of the combined consolidated balance sheets, statements of operations and comprehensive income, statements of changes in equity and statements of cash flows for the periods presented. The unaudited combined consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto as of and for the year ended December 31, 2012, included in our Annual Report on Form 10-K filed with the SEC on February 28, 2013. Operating

Edgar Filing: RLJ Lodging Trust - Form 10-Q

results for the three and six months ended June 30, 2013 are not necessarily indicative of actual operating results for the entire year.

The unaudited combined consolidated financial statements include the accounts of the Company, the Operating Partnership and its wholly-owned subsidiaries, including a joint venture. All significant intercompany balances have been eliminated in consolidation.

Reporting Periods

As of June 30, 2013, the Company owned five hotels that were managed by affiliates of Marriott International ("Marriott"). Beginning January 1, 2013, the Company's hotels managed by Marriott were accounted for on a calendar year basis. Prior to January 1, 2013, the Company's hotels managed by Marriott were accounted for on a fiscal year comprised of 52 or 53 weeks ending on the Friday closest to December 31. The Company's results for the three and six months ended June 30, 2012 include the results of operations for the Company's Marriott-managed hotels for the 24-week period ended June 15, 2012.

Table of Contents

Reclassifications

Certain prior year amounts in these financial statements have been reclassified to conform to the current year presentation with no impact to net income, shareholders' equity or cash flows.

Use of Estimates

The preparation of the Company's financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of certain assets and liabilities and the amounts of contingent assets and liabilities at the balance sheet date and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Revenue Recognition

The Company's revenue comprises hotel operating revenue, such as room revenue, food and beverage revenue and revenue from other hotel operating departments (such as telephone, parking and business centers). These revenues are recorded net of any sales and occupancy taxes collected from guests. All rebates or discounts are recorded as a reduction in revenue, and there are no material contingent obligations with respect to rebates and discounts offered by the hotels. All revenues are recorded on an accrual basis as earned. Appropriate allowances are made for doubtful accounts and are recorded as bad debt expense. The allowances are calculated as a percentage of aged accounts receivable. Cash received prior to guest arrival is recorded as an advance from the guest and recognized as revenue at the time of occupancy.

Incentive payments received pursuant to entry into management agreements are deferred and amortized into income over the life of the respective agreements. In May 2012, the Company received an incentive payment of \$4.0 million related to purchasing a hotel and entering into a franchise agreement, which is being recognized over the remaining term of the franchise agreement. As of June 30, 2013, there was approximately \$3.9 million remaining to be recognized.

Investment in Hotel and Other Properties

The Company's acquisitions generally consist of land, land improvements, buildings, building improvements, furniture, fixtures and equipment (FF&E), and inventory. The Company may also acquire intangibles related to in-place leases, management agreements and franchise agreements when properties are acquired. The Company allocates the purchase price among the assets acquired and liabilities assumed based on their respective fair values.

The Company's investments in hotels and other properties are carried at cost and are depreciated using the straight-line method over estimated useful lives of 15 years for land improvements, 15 years for building improvements, 40 years for buildings and three to five years for FF&E.

Edgar Filing: RLJ Lodging Trust - Form 10-Q

Intangible assets arising from acquisitions are amortized using the straight-line method over the non-cancelable portion of the term of the agreement. Maintenance and repairs are expensed and major renewals or improvements are capitalized. Upon the sale or disposition of a fixed asset, the asset and related accumulated depreciation are removed from the accounts and the related gain or loss is included in discontinued operations.

The Company considers each individual property to be an identifiable component of the business. In accordance with the guidance on impairment or disposal of long-lived assets, the Company does not consider a property as held for sale until it is probable that the sale will be completed within one year and the other requisite criteria for such classification have been met. Once a property is designated as held for sale the operations for that property are included in discontinued operations. The Company does not depreciate properties so long as they are classified as held for sale. Upon designation of a property as being held for sale and quarterly thereafter, the Company reviews the realizability of the carrying value, less cost to sell, in accordance with the guidance. Any such adjustment in the carrying value of a property classified as held for sale is reflected in discontinued operations, as an impairment charge.

The Company assesses the carrying values of each property whenever events or changes in circumstances indicate that the carrying amounts of these properties may not be fully recoverable. Recoverability of the property is measured by comparison of the carrying amount of the property to the estimated future undiscounted cash flows which take into account current market conditions and the Company's intent with respect to holding or disposing of the property. If the Company's analysis indicates that the carrying value of the property is not recoverable on an undiscounted cash flow basis, it recognizes an impairment charge for the amount by which the carrying value exceeds the fair value of the property. Fair value is

Table of Contents

determined through various valuation techniques, including internally developed discounted cash flow models, comparable market transactions and third party appraisals, where considered necessary.

The use of projected future cash flows is based on assumptions that are consistent with a market participant's future expectations for the travel industry and economy in general and the Company's expected use of the underlying properties. The assumptions and estimates about future cash flows and capitalization rates are complex and subjective. Changes in economic and operating conditions that occur subsequent to a current impairment analysis and the Company's ultimate use of the property could impact these assumptions and result in future impairment charges of the properties.

Franchise Agreements

As of June 30, 2013, 142 of the Company's hotel properties were operated under franchise agreements with terms ranging from 10 to 30 years. The franchise agreements for these hotels allow the properties to operate under the respective brands. Pursuant to the franchise agreements, the Company pays a royalty fee, generally between 3.0% and 6.0% of room revenue, plus additional fees for marketing, central reservation systems and other franchisor costs that amount to between 1.0% and 4.3% of room revenue. Certain hotels are also charged a royalty fee of between 2.0% and 3.0% of food and beverage revenues. Franchise fees are included in other hotel expenses in the accompanying unaudited combined consolidated financial statements.

Earnings Per Share

Basic earnings per common share is calculated by dividing net income attributable to common shareholders by the weighted-average number of common shares outstanding during the period excluding the weighted average number of unvested restricted shares outstanding during the period. Diluted earnings per common share is calculated by dividing net income attributable to common shareholders by the weighted average number of common shares outstanding during the period, plus any shares that could potentially be outstanding during the period. Potential shares consist of unvested restricted share grants and unvested performance units, calculated using the treasury stock method. Any anti-dilutive shares have been excluded from the diluted earnings per share calculation.

Share-based Compensation

From time to time, the Company may issue share-based awards under the 2011 Equity Incentive Plan (the "2011 Plan"), as compensation to officers, employees and non-employee trustees (see Note 11). The vesting of awards issued to officers and employees is based on either continued employment (time-based) or based on the relative total shareholder returns of the Company and continued employment (performance-based), as determined by the Board of Trustees at the date of grant. For time-based awards, the Company recognizes compensation expense for non-vested shares on a straight-line basis over the vesting period based upon the fair market value of the shares on the date of grant, adjusted for forfeitures. For performance-based awards, the Company recognizes compensation expense over the requisite service period for each award, based on the fair market value of the shares on the date of grant, as determined using a Monte Carlo simulation, adjusted for forfeitures.

make the required monthly payments. Under the terms of the mortgage loan, the lender received the monthly net cash from operations from the hotel. In December 2012, the Company entered into a deed in lieu of foreclosure agreement with the lender, providing for a consensual transfer of the property to the lender or its designee. On May 30, 2013, the Company transferred title to the hotel to the lenders pursuant to the deed in lieu of foreclosure arrangement. The Company removed the hotel's net assets and liabilities in its combined consolidated balance sheet in May 2013 and recorded a gain on extinguishment of indebtedness of approximately \$2.4 million to discontinued operations at that time.

Operating results of discontinued operations were as follows (in thousands):

	For the three months ended June 30,		For the six months ended June 30,	
	2013	2012	2013	2012

5. Investment in Hotel and Other Properties

Investment in hotel and other properties as of June 30, 2013 and December 31, 2012 consisted of the following (in thousands):

	June 30, 2013	December 31, 2012
Land and land improvements	\$ 587,616	\$ 563,524
Buildings and improvements	2,823,966	2,655,086

Accumulated depreciation and amortization	(647,484)	(585,791)
Investment in hotel and other properties, net	\$ 3,221,671	\$ 3,073,483

For the three and six months ended June 30, 2013, depreciation and amortization expense related to investment in hotel and other properties was approximately \$31.8 million and \$63.1 million (excluding discontinued operations), respectively. For the three and six months ended June 30, 2012, depreciation and amortization expense related to investment in hotel and other properties was approximately \$31.3 million and \$64.9 million (excluding discontinued operations), respectively.

Impairment

The Company determined that there was no impairment of any assets for each of the three or six month periods ended June 30, 2013 or 2012.

6. Debt

Revolving Credit Facility and Term Loans

The Company entered into a credit agreement on November 20, 2012 that provides for (i) an unsecured revolving credit facility of up to \$300.0 million with a scheduled maturity date of November 20, 2016 with a one-year extension option (the *Revolver*), and (ii) an unsecured term loan of \$275.0 million with a scheduled maturity date of November 20, 2017 (the *Five-Year Term Loan*). The credit agreement amends and restates in its entirety the Company's prior unsecured revolving

Edgar Filing: RLJ Lodging Trust - Form 10-Q

Table of Contents

credit facility, which was originally entered into as of June 20, 2011. In addition, on November 20, 2012 the Company also entered into an unsecured term loan of \$125.0 million with a scheduled maturity date of November 20, 2019 (the "Seven-Year Term Loan").

The credit agreements for these loans require that a group of no less than 20 of the Company's hotel properties remain unencumbered by outstanding indebtedness. The credit agreements contain certain financial covenants relating to the Company's maximum leverage ratio, minimum fixed charge coverage ratio, minimum tangible net worth and maximum secured indebtedness. If an event of default exists, the Company is not permitted to make distributions to shareholders, other than those required to qualify for and maintain REIT status. As of June 30, 2013, the Company was in compliance with all financial covenants.

The Company incurred \$5.2 million in fees related to the credit agreements that were deferred and are being amortized over the term of the Revolver, the Five-Year Term Loan and the Seven-Year Term Loan, respectively.

Borrowings under the Revolver, the Five-Year Term Loan and the Seven-Year Term Loan bear interest at variable rates equal to the London InterBank Offered Rate ("LIBOR") plus an applicable margin. The margin ranges from 1.70% to 3.00%, depending on the Company's leverage ratio, as calculated under the terms of each facility. The Company incurs an unused facility fee on the Revolver of between 0.25% and 0.35%, based on the amount by which the maximum borrowing amount exceeds the total principal balance of outstanding borrowings.

Under the terms of the credit agreement for the Revolver, one or more standby letters of credit, up to a maximum aggregate outstanding balance of \$30.0 million, may be issued on behalf of the Company by the lenders under the Revolver. The Company will incur a fee of 0.125% of the value of each standby letter of credit that is issued on its behalf. Any outstanding standby letters of credit would reduce the available borrowings on the Revolver by a corresponding amount. No standby letters of credit were outstanding at June 30, 2013. The Company also may borrow up to a maximum aggregate outstanding balance of \$40.0 million of swingline loans. Any outstanding swingline loans reduce the available borrowings under the Revolver by a corresponding amount. No swingline loans were outstanding at June 30, 2013.

For the three and six months ended June 30, 2013, the Company incurred an unused commitment fee on the Revolver of approximately \$0.3 million and \$0.5 million, respectively. At June 30, 2013, outstanding borrowings on the Revolver, the Five-Year Term Loan and the Seven-Year Term Loan were zero, \$275.0 million and \$125.0 million, respectively. At June 30, 2013, the interest rates on the Five-Year Term Loan and the Seven-Year Term Loan were 2.04% and 2.44%, respectively. For the three months ended June 30, 2013, interest expense incurred on the Revolver, the Five-Year Term Loan and the Seven-Year Term Loan was zero, \$1.4 million and \$0.8 million, respectively. For the six months ended June 30, 2013, interest expense incurred on the Revolver, the Five-Year Term Loan and the Seven-Year Term Loan was \$0.1 million, \$2.8 million and \$1.5 million, respectively.

Prior Credit Facility

The Company entered into an unsecured revolving credit facility on June 20, 2011, that provided for maximum borrowings of up to \$300.0 million. The credit facility required that a group of no less than 15 of the Company's hotel properties remain unencumbered by outstanding indebtedness. The credit facility contained certain financial covenants relating to the Company's maximum leverage ratio, minimum fixed charge coverage ratio, minimum tangible net worth and maximum secured indebtedness. If an event of default existed, the Company was not permitted to make distributions to shareholders, other than those required to qualify for and maintain REIT status. As of June 30, 2012, the

Edgar Filing: RLJ Lodging Trust - Form 10-Q

Company was in compliance with all financial covenants. On November 20, 2012, the unsecured revolving credit facility agreement was amended and restated in its entirety with the Revolver and Five-Year Term Loan as discussed above.

The Company incurred \$3.0 million in fees related to the credit facility that were deferred and were being amortized over the term of the credit facility. On November 20, 2012, when the unsecured revolving credit facility agreement was amended and restated in its entirety, approximately \$1.7 million of the fees unamortized at the time of the amendment and restatement were transferred to the Revolver and will be amortized over the term of that credit facility.

Borrowings under the credit facility bore interest at variable rates equal to LIBOR plus an applicable margin. The margin ranged from 2.25% to 3.25%, depending on the Company's leverage ratio, as calculated under the terms of the credit facility. The Company incurred an unused facility fee of between 0.30% and 0.40%, based on the amount by which the maximum

borrowing amount exceeded the total principal balance of outstanding borrowings.

The Company incurred interest expense on the credit facility for the three and six months ended June 30, 2012 of approximately \$0.6 million and \$0.6 million, respectively. For the three and six months ended June 30, 2012, the Company incurred an unused commitment fee of approximately \$0.2 million and \$0.5 million, respectively. There were \$85.0 million of borrowings outstanding at June 30, 2012.

Some mortgage agreements are subject to customary financial covenants. The Company was in compliance with these

Table of Contents

covenants at June 30, 2013 and December 31, 2012.

In November 2011, the Company elected to cease the subsidization of debt service on the mortgage loan secured by the Courtyard Goshen, Indiana. In December 2011, the Company received notice of an event of default for failure to make the required monthly payments. In May 2012, an Order Appointing Receiver (the "Order") was entered in the Elkhart County, Indiana, Superior Court No. 1. In June 2012, the receiver, pursuant to the Order, took control of the property for the benefit of the lender of the mortgage loan. As of June 30, 2013, the principal balance outstanding was \$5.5 million. In February 2013, the lender filed suit against the Company claiming amounts due from the Company in its capacity as a guarantor of certain borrower obligations. The Company disputes the lender's claim and intends to defend itself against the claim.

7. Financial Instruments: Derivatives and Hedging

The Company employs interest rate swaps and caps to hedge against interest rate fluctuations. For derivative instruments designated as cash flow hedges, unrealized gains and losses on the effective portion are reported in accumulated other comprehensive income (loss), a component of shareholders' equity. Unrealized gains and losses on the ineffective portion of all designated hedges are recognized in earnings in the current period. For derivative instruments not designated as hedging instruments, unrealized gains or losses are recognized in earnings in the current period.

At June 30, 2013, the fair value of interest rate swap assets of \$4.5 million was included in prepaid expenses and other assets in the accompanying combined consolidated financial statements. At June 30, 2013 and December 31, 2012, the aggregate fair value of interest rate swap liabilities of \$0.2 million and \$0.5 million, respectively, was included in accounts payable and accrued expenses in the accompanying combined consolidated financial statements.

As of June 30, 2013 and December 31, 2012, the Company had entered into the following interest rate swaps and caps (in thousands):

Hedge type	Notional value at		Hedge interest rate	Maturity	Fair value at	
	June 30, 2013	December 31, 2012			June 30, 2013	December 31, 2012

(2) Designated as a cash flow hedge

Edgar Filing: RLJ Lodging Trust - Form 10-Q

As of June 30, 2013 and December 31, 2012, there was approximately \$4.5 million and zero, respectively, in unrealized gains included in accumulated other comprehensive income related to interest rate hedges that are effective in offsetting the variable cash flows. There was no ineffectiveness recorded on designated hedges during each the three or six months ended June 30, 2013 or 2012.

8. Fair Value

Fair Value Measurement

Fair value is defined as the price that would be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or most advantageous market. The fair value hierarchy has three levels of inputs, both observable and unobservable:

- Level 1 Inputs include quoted market prices in an active market for identical assets or liabilities.
- Level 2 Inputs are market data, other than Level 1, that are observable either directly or indirectly. Level 2 inputs include quoted market prices for similar assets or liabilities, quoted market prices in an inactive market, and other observable information that can be corroborated by market data.

Edgar Filing: RLJ Lodging Trust - Form 10-Q

Table of Contents

- Level 3 Inputs are unobservable and corroborated by little or no market data.

Fair Value of Financial Instruments

The estimated fair values of financial instruments have been determined by the Company using available market information and appropriate valuation methods. Considerable judgment is required in interpreting market data to develop the estimates of fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts that the Company could realize in a current market exchange. The use of different market assumptions and/or estimation methods may have a material effect on the estimated fair value amounts. The Company used the following market assumptions and/or estimation methods:

- Cash and cash equivalents, hotel receivables, accounts payable and accrued expenses - The carrying amounts reported in the combined consolidated balance sheet for these financial instruments approximate fair value because of their short maturities.
- Investment in collateralized loans - Fair value is determined by obtaining a third-party appraisal or discounting the future contractual cash flows to the present value using a current market interest rate. The market rate is determined by giving consideration to one or both of the following criteria, as appropriate: (1) interest rates for loans of comparable quality and maturity, and (2) the value of the underlying collateral. The fair values of the Company's investment in collateralized loans are generally classified within Level 3 of the valuation hierarchy. The fair value at June 30, 2013 and December 31, 2012 was \$22.1 million and \$23.0 million, respectively.
- Variable rate mortgage notes payable and borrowings under the credit facility - The carrying amounts reported in the combined consolidated balance sheets for these financial instruments approximate fair value. The Company estimates the fair value of its variable rate debt by using estimated market rates for similar loans with similar terms and loan to value ratios, which is a Level 3 input. As a result, the Company determined that its variable rate mortgage notes payable in their entirety are classified in Level 3 of the fair value hierarchy.
- Fixed rate mortgage notes payable - The fair value estimated at June 30, 2013 and December 31, 2012 of \$735.6 million and \$745.3 million, respectively, is calculated based on the net present value of payments over the term of the loans using estimated market rates for similar mortgage loans with similar terms and loan to value ratios, which is a Level 3 input. As a result, the Company determined that its fixed rate mortgage notes payable in their entirety are classified in Level 3 of the fair value hierarchy. The carrying value of fixed rate mortgage notes payable at June 30, 2013 and December 31, 2012 was \$758.6 million and \$770.7 million, respectively.

Recurring Fair Value Measurements

The following table presents the Company's fair value hierarchy for those financial assets and liabilities measured at fair value on a recurring basis as of June 30, 2013 (in thousands):

Edgar Filing: RLJ Lodging Trust - Form 10-Q

	Fair Value at June 30, 2013			
	Level 1	Level 2	Level 3	Total
Interest rate swap asset	\$	\$ 4,527	\$	\$ 4,527
Interest rate swap liability	\$	\$ (199)	\$	\$ (199)
Total	\$	\$ 4,328	\$	\$ 4,328

The fair values of the derivative financial instruments are determined using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of each derivative. The Company determined that the significant inputs, such as interest yield curves and discount rates, used to value its derivatives fall within Level 2 of the fair value hierarchy and that the credit valuation adjustments associated with the Company's counterparties and its own credit risk utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by itself and its

Table of Contents

counterparties. As of June 30, 2013, the Company assessed the significance of the impact of the credit valuation adjustments on the overall valuation of its derivative positions and determined that the credit valuation adjustments were not significant to the overall valuation of its derivatives. As a result, the Company determined that its derivative valuations in their entirety are classified in Level 2 of the fair value hierarchy.

9. Income Taxes

The Company elected to be taxed as a real estate investment trust under Sections 856 through 860 of the Internal Revenue Code when it filed its U.S. federal tax return for its short taxable year ended December 31, 2011. To qualify as a REIT, the Company must meet a number of organizational and operational requirements, including a requirement that it distribute at least 90% of its adjusted taxable income to its shareholders, subject to certain adjustments and excluding any net capital gain. The Company's intention is to adhere to these requirements and maintain the qualification for taxation as a REIT. As a REIT, the Company is not subject to federal corporate income tax on that portion of net income that is currently distributed to its shareholders. However, the Company's taxable REIT subsidiaries (TRS) will generally be subject to federal, state, and local income taxes.

The Company accounts for income taxes using the asset and liability method. Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to the differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities from a change in tax rates is recognized in earnings in the period when the new rate is enacted.

The Company had no accruals for tax uncertainties as of June 30, 2013 and December 31, 2012.

10. Commitments and Contingencies

Ground Leases

The Courtyard Waikiki Beach is subject to a ground lease with a term extending to 2112. The annual ground rent is \$3.5 million through 2016, after which the annual rent shall increase by the increase, if any, in the Consumer Price Index (CPI) from the immediately preceding calendar year. The increase is limited to five percent per annum for the first 10 years in which the annual rent is subject to increase, and six percent per annum during the seven subsequent years in which the annual rent is subject to increase. Thereafter, there is no cap on the increase in the CPI. For both the three and six months ended June 30, 2013, \$0.1 million of rent was incurred. There was no ground rent expense in 2012 as this property was acquired in 2013.

Restricted Cash Reserves

The Company is obligated to maintain reserve funds for capital expenditures at the hotels (including the periodic replacement or refurbishment of FF&E) as determined pursuant to the management agreements, franchise agreements and/or mortgage loan documents. The management agreements, franchise agreements and/or mortgage loan documents require the Company to reserve restricted cash ranging from 1.0% to 5.0% of the individual hotel's revenues and maintain the reserves in restricted cash reserve escrows. Any unexpended amounts will remain the property of the Company upon termination of the management agreements, franchise agreements or mortgage loan documents. Additionally, some loan agreements require the Company to reserve restricted cash for the periodic payment of real estate taxes and insurance. As of June 30, 2013 and December 31, 2012, approximately \$65.1 million and \$64.8 million, respectively, was available in restricted cash reserves for future capital expenditures, real estate taxes and insurance.

Litigation

Neither the Company nor any of its subsidiaries are currently involved in any regulatory or legal proceedings that management believes will have a material adverse effect on the financial position, operations or liquidity of the Company.

Table of Contents**11. Equity Incentive Plan**

The Company may issue equity-based awards to officers, employees, non-employee trustees and other eligible persons under the 2011 Plan. The 2011 Plan provides for a maximum of 5,000,000 common shares of beneficial interest to be issued in the form of share options, share appreciation rights, restricted share awards, unrestricted share awards, share units, dividend equivalent rights, long-term incentive units, other equity-based awards and cash bonus awards.

Non-vested Restricted Share Awards

From time to time, the Company may award non-vested shares under the 2011 Plan, as compensation to officers, employees and non-employee trustees. The shares issued to officers and employees vest over a period of time as determined by the Board of Trustees at the date of grant. The Company recognizes compensation expense for non-vested shares on a straight-line basis over the vesting period based upon the fair market value of the shares on the date of issuance, adjusted for forfeitures.

A summary of the non-vested shares as of June 30, 2013 is as follows:

	2013		
	Number of	Weighted Average	
	Shares	Grant Date Fair	
		Value	
Unvested at January 1,	1,013,673	\$	17.80
Granted	377,830		21.55
Vested	(215,538)		18.21
Forfeited	(2,270)		18.90
Unvested at June 30,	1,173,695	\$	18.93

For the three and six months ended June 30, 2013, the Company recognized approximately \$2.2 million and \$4.1 million, respectively, of share-based compensation expense related to these restricted share awards. For the three and six months ended June 30, 2012, the Company recognized approximately \$1.7 million and \$3.2 million, respectively, of share-based compensation expense related to these restricted share awards. As of June 30, 2013, there was \$21.2 million of total unrecognized compensation costs related to non-vested share awards and these costs were expected to be primarily recognized over a weighted-average period of 2.7 years. The total fair value of shares vested (calculated as number of shares multiplied by vesting date share price) during the six months ended June 30, 2013 was approximately \$4.8 million.

Performance Units

The Company awarded performance units to certain employees under the 2011 Plan. The performance units vest over a four-year period, including three years of performance-based vesting (measurement period) plus an additional one year of time-based vesting.

Edgar Filing: RLJ Lodging Trust - Form 10-Q

As of June 30, 2013, there were 1.0 million unvested performance units outstanding with a weighted average grant date fair value of \$15.36 per performance unit.

For the three and six months ended June 30, 2013, the Company recognized \$1.1 million and \$2.2 million, respectively, of share-based compensation expense related to performance unit awards. There was no share-based compensation expense during the three or six months ended June 30, 2012 related to the performance units as they were granted in the third quarter of 2012. As of June 30, 2013, there was \$11.2 million of total unrecognized compensation cost related to the performance units and these costs are expected to be recognized over a weighted-average period of 2.6 years.

As of June 30, 2013, there were 3,077,497 common shares available for future grant under the 2011 Plan. Any performance units that convert into restricted shares will reduce the number of common shares available for future grant under the 2011 Plan.

12. Earnings per Common Share

Basic earnings per common share is calculated by dividing net income attributable to common shareholders by the weighted-average number of common shares outstanding during the period excluding the weighted average number of unvested restricted shares outstanding during the period. Diluted earnings per common share is calculated by dividing net income attributable to common shareholders by the weighted average number of common shares outstanding during the period, plus any shares that could potentially be outstanding during the period. Potential shares consist of unvested restricted share grants and unvested performance units, calculated using the treasury stock method. Any anti-dilutive shares have been excluded from the diluted earnings per share calculation.

Unvested share-based payment awards that contain non-forfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating shares and are considered in the computation of earnings per share pursuant to the two-class method. If there were any undistributed earnings allocable to participating shares, they would be deducted from net income attributable to common shareholders utilized in the basic and diluted earnings per share calculations.

For the three months ended June 30, 2013 and 2012, approximately \$0.1 million and \$12,000, respectively, represented undistributed earnings that were allocable to participating shares. For the six months ended June 30, 2013 and 2012, no earnings representing undistributed earnings were allocated to participating shares because the Company paid dividends in excess of net income.

The limited partners' outstanding limited partnership units in the Operating Partnership (which may be redeemed for common shares of beneficial interest under certain circumstances) have been excluded from the diluted earnings per share calculation as there was no effect on the amounts for the three and six months ended June 30, 2013 and 2012, since the limited partners' share of income would also be added back to net income attributable to common shareholders.

The computation of basic and diluted earnings per common share is as follows (in thousands, except share and per share data):

Item 2. Management's Discussion and Analysis of Results of Operations and Financial Condition.

The following discussion and analysis should be read in conjunction with our consolidated financial statements and related notes included elsewhere in this report, as well as the information contained in our Annual Report on Form 10-K for the year ended December 31, 2012, filed with the SEC on February 28, 2013 (the "Annual Report"), which is accessible on the SEC's website at www.sec.gov.

Statement Regarding Forward-Looking Information

The following information contains certain statements, other than purely historical information, including estimates, projections, statements relating to our business plans, objectives and expected operating results, and the assumptions upon which those statements are based, that are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements generally are identified by the use of the words believe, project, expect, anticipate, estimate, plan, may, will, will continue, intend, should, expressions. Although we believe that the expectations reflected in such forward-looking statements are based upon reasonable assumptions, beliefs and expectations, such forward-looking statements are not predictions of future events or guarantees of future performance and our actual results could differ materially from those set forth in the forward-looking statements. Some factors that might cause such a difference include the following: the current global economic uncertainty, increased direct competition, changes in government regulations or accounting rules, changes in local, national and global real estate conditions, declines in the lodging industry, seasonality of the lodging industry, risks related to natural disasters, such as earthquakes and hurricanes, hostilities, including future terrorist attacks or fear of hostilities that affect travel, our ability to obtain lines of credit or permanent financing on satisfactory terms, changes in interest rates, access to capital through offerings of our common and preferred shares of beneficial interest, or debt, our ability to identify suitable acquisitions, our ability to close on identified acquisitions and integrate those businesses and inaccuracies of our accounting estimates. Given these uncertainties, undue reliance should not be placed on such statements.

Except as required by law, we undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise. We caution investors not to place undue reliance on these forward-looking statements and urge investors to carefully review the disclosures we make concerning risks and uncertainties in the sections entitled Risk Factors, Forward-Looking Statements, and Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report, as well as risks, uncertainties and other factors discussed in this Quarterly Report on Form 10-Q and identified in other documents filed by us with the SEC.

Overview

We are a self-advised and self-administered Maryland real estate investment trust, or REIT, that acquires primarily premium-branded, focused-service and compact full-service hotels. We are one of the largest U.S. publicly-traded lodging REITs in terms of both number of hotels and number of rooms. Our hotels are concentrated in urban and dense suburban markets that we believe exhibit multiple demand generators and high barriers to entry.

Our strategy is to acquire primarily premium-branded, focused-service and compact full-service hotels. Focused-service hotels typically generate most of their revenue from room rentals, have limited food and beverage outlets and meeting space and require fewer employees than traditional

Edgar Filing: RLJ Lodging Trust - Form 10-Q

full-service hotels. We believe premium-branded, focused-service and compact full-service hotels have the potential to generate attractive returns relative to other types of hotels due to their ability to achieve RevPAR levels at or close to those achieved by traditional full-service hotels while achieving higher profit margins due to their more efficient operating model and less volatile cash flows.

We recognize the challenging geopolitical environment and the possibility that the current economic recovery might not be as robust as anticipated or that economic conditions could deteriorate. However, with growth in lodging supply expected to be below historical averages for the next few years and corporate profits rising, we currently do not anticipate any significant slowdown in lodging fundamentals. Accordingly, we remain cautiously optimistic that we are in the midst of a multiyear lodging recovery.

Furthermore, we believe that attractive acquisition opportunities that meet our investment profile remain available in the market. We believe our cash on hand and expected access to capital (including availability under our unsecured revolving

credit facility) along with our senior management team's experience, extensive industry relationships and asset management expertise, will enable us to compete effectively for such acquisitions and enable us to generate additional internal and external growth.

As of June 30, 2013, we owned 149 properties, comprised of 147 hotels with approximately 22,300 rooms and two planned hotel conversions, located in 22 states and the District of Columbia, interests in land parcels located adjacent to certain hotels and an interest in two mortgage loans secured by hotels. We own, through wholly-owned subsidiaries, 100% of the interests in 146 hotels and two planned hotel conversions and a 95% interest in one hotel.

We elected to be taxed as a REIT, for U.S. federal income tax purposes, when we filed our U.S. federal tax return for the taxable year ended December 31, 2011. Substantially all of our assets are held by, and all of our operations are conducted through, our operating partnership RLJ Lodging Trust, L.P. (the "Operating Partnership"). We are the sole general partner of our operating partnership. As of June 30, 2013, we owned, through a combination of direct and indirect interests, 99.3% of the units of limited partnership interest in the Operating Partnership ("OP units").

Our Customers

Substantially all of our hotels consist of premium-branded focused-service and compact full-service hotels. As a result of this property profile, the majority of our customers are transient in nature. Transient business typically represents individual business or leisure travelers. The majority of our hotels are located in the business districts and suburban markets of major metropolitan areas. Accordingly, business travelers represent the majority of the transient demand at our hotels. As a result, macroeconomic factors impacting business travel have a greater effect on our business than factors impacting leisure travel.

Group business is typically defined as a minimum of 10 guestrooms booked together as part of the same piece of business. Group business may or may not use the meeting space at any given hotel. Given the limited meeting space at the majority of our hotels, group business that utilizes meeting space represents a smaller component of our customer base.

A number of our hotels are affiliated with brands marketed toward extended-stay customers. Extended-stay customers are generally defined as those staying five nights or longer. Reasons for extended stays may include, but are not limited to, training and/or special project business, relocation, litigation and insurance claims.

Our Revenues and Expenses

Our revenue is primarily derived from hotel operations, including the sale of rooms, food and beverage revenue and other operating department revenue, which consists of telephone, parking and other guest services.

Edgar Filing: RLJ Lodging Trust - Form 10-Q

Our operating costs and expenses consist of the costs to provide hotel services, including room expense, food and beverage expense, management fees and other operating expenses. Room expense includes housekeeping wages and payroll taxes, reservation systems, room supplies, laundry services and front desk costs. Food and beverage expense primarily includes the cost of food, the cost of beverages and associated labor costs. Other hotel expenses include labor and other costs associated with the other operating department revenue, as well as labor and other costs associated with administrative departments, franchise fees, sales and marketing, repairs and maintenance and utility costs. Our hotels are managed by independent, third-party management companies under long-term agreements under which the management companies typically earn base and incentive management fees based on the levels of revenues and profitability of each individual hotel. We generally receive a cash distribution from the hotel management companies on a monthly basis, which reflects hotel-level sales less hotel-level operating expenses.

Critical Accounting Policies

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities at the date of our financial statements and the reported amounts of revenues and expenses during the reporting period. Actual amounts may differ significantly from these estimates and assumptions. We have provided a summary of our significant accounting policies in the notes to the combined consolidated financial statements included elsewhere in this filing. We have set forth below those accounting policies that we believe require material subjective or complex judgments and have the most significant impact on our financial condition and

Table of Contents

results of operations. We evaluate our estimates, assumptions and judgments on an ongoing basis, based on information that is then available to us, our experience and various matters that we believe are reasonable and appropriate for consideration under the circumstances.

Investment in Hotel and Other Properties

Our acquisitions generally consist of land, land improvements, buildings, building improvements, furniture, fixtures and equipment (FF&E), and inventory. We may also acquire intangibles related to in-place leases, management agreements and franchise agreements when properties are acquired. We allocate the purchase price among the assets acquired and liabilities assumed based on their respective fair values.

Our investments in hotels and other properties are carried at cost and are depreciated using the straight-line method over estimated useful lives of 15 years for land improvements, 15 years for building improvements, 40 years for buildings and three to five years for FF&E. Intangible assets arising from favorable or unfavorable leases are amortized using the straight-line method over the non-cancelable portion of the term of the agreement. Maintenance and repairs are expensed and major renewals or improvements are capitalized. Upon the sale or disposition of a fixed asset, the asset and related accumulated depreciation are removed from the accounts and the related gain or loss is included in discontinued operations.

We consider each individual property to be an identifiable component of the business. In accordance with the guidance on impairment or disposal of long-lived assets, we do not consider a property as held for sale until it is probable that the sale will be completed within one year and the other requisite criteria for such classification have been met. Once a property is designated as held for sale the operations for that property are included in discontinued operations. We do not depreciate properties so long as they are classified as held for sale. Upon designation of a property as being held for sale and quarterly thereafter, we review the realizability of the carrying value, less cost to sell, in accordance with the guidance. Any such adjustment in the carrying value of a property classified as held for sale is reflected in discontinued operations.

We assess the carrying values of each property whenever events or changes in circumstances indicate that the carrying amounts of these properties may not be fully recoverable. Recoverability of the property is measured by comparison of the carrying amount of the property to the estimated future undiscounted cash flows which take into account current market conditions and our intent with respect to holding or disposing of the property. If our analysis indicates that the carrying value of the property is not recoverable on an undiscounted cash flow basis, it recognizes an impairment charge for the amount by which the carrying value exceeds the fair value of the property. Fair value is determined through various valuation techniques, including internally developed discounted cash flow models, comparable market transactions and third party appraisals, where considered necessary.

The use of projected future cash flows is based on assumptions that are consistent with a market participant's future expectations for the travel industry and economy in general and our plans to manage the underlying properties. However, assumptions and estimates about future cash flows and capitalization rates are complex and subjective. Changes in economic and operating conditions and our ultimate investment intent that occur subsequent to a current impairment analysis could impact these assumptions and result in future impairment charges of the properties.

Table of Contents**Results of Operations**

At June 30, 2013 and 2012, we owned 149 and 143 properties, respectively (excluding one hotel carried as discontinued operations for the three and six months ended June 30, 2013 and 2012). All properties owned during these periods have been included in our results of operations during the respective periods or since their date of acquisition. Based on when a property is acquired or closed for renovation, operating results for certain properties are not comparable for the three and six months ended June 30, 2013 and 2012. The properties listed in the table below are hereafter referred to as non-comparable properties:

Comparison of the three months ended June 30, 2013 to the three months ended June 30, 2012

Income from continuing operations for the three months ended June 30, 2013 was \$38.6 million compared to \$19.0 million for the three months ended June 30, 2012, representing an increase of \$19.6 million. This improved performance was primarily due to a \$38.8 million, or 17.4%, increase in total revenue (including \$21.0 million arising from non-comparable properties) and a decrease in interest expense of \$3.5 million, or 17.2%. This increase in performance was partially offset by the net impact of a \$23.0 million, or 12.6%, increase in total operating expenses. The increase in total operating expenses was primarily attributable to \$14.8 million from non-comparable properties.

ADR	\$ 145.71	\$	135.09	7.9%
RevPAR	\$ 114.67	\$	103.86	10.4%

Portfolio RevPAR increased to \$114.67 from \$103.86, a 10.4% increase. RevPAR, excluding non-comparable properties, increased 8.4% and was driven by a 2.0% increase in occupancy and a 6.3% increase in ADR.

Room Revenue

Our portfolio consists primarily of focused-service and compact full-service hotels that generate the majority of their revenues through room sales. Room revenue increased \$34.7 million, or 17.9%, to \$229.1 million for the three months ended June 30, 2013 from \$194.4 million for the three months ended June 30, 2012. This increase was a result of \$18.2 million of room revenue from non-comparable properties and an 8.4% increase in RevPAR at the comparable properties.

Food and Beverage Revenue

Food and beverage revenue increased \$2.7 million, or 12.1%, to \$25.1 million for the three months ended June 30, 2013 from \$22.4 million for the three months ended June 30, 2012. The increase includes \$1.7 million in food and beverage revenue arising from non-comparable properties. Food and beverage revenue for the remainder of the portfolio increased \$1.0 million.

Other Operating Department Revenue

Other operating department revenue, which includes revenue derived from ancillary sources such as telephone charges and parking fees, increased \$1.3 million, or 22.5%, to \$7.4 million for the three months ended June 30, 2013 from \$6.0 million for the three months ended June 30, 2012. This increase was primarily due to \$1.2 million of other operating department revenue from non-comparable properties.

Hotel Operating Expense

Edgar Filing: RLJ Lodging Trust - Form 10-Q

Hotel operating expense increased \$18.4 million, or 14.2%, to \$147.3 million for the three months ended June 30, 2013 from \$128.9 million for the three months ended June 30, 2012. This increase includes \$12.1 million in hotel operating expense attributable to non-comparable properties. The remaining increase was primarily attributable to higher room expense, other operating department costs, and management and franchise fees at the comparable properties. Room expense and other operating department costs were driven by higher occupancy at hotels not under renovation. Management fees and franchise fees, which are computed as a percentage of gross revenue and room revenue, respectively, increased as a result of higher revenues.

Depreciation and Amortization

Depreciation and amortization expense increased \$0.5 million, or 1.5%, to \$31.9 million for the three months ended June 30, 2013 from \$31.4 million for the three months ended June 30, 2012. The increase is the result of a \$2.2 million increase in depreciation and amortization expense arising from non-comparable properties, partially offset by FF&E at hotels being fully depreciated during the periods.

Property Tax, Insurance and Other

Property tax, insurance and other expense increased \$4.1 million, or 33.2%, to \$16.6 million for the three months

Edgar Filing: RLJ Lodging Trust - Form 10-Q

Table of Contents

ended June 30, 2013 from \$12.4 million for the three months ended June 30, 2012. The increase includes \$1.3 million in property tax, insurance and other expense attributable to non-comparable properties. The remaining increase of \$2.8 million is the net impact of increasing property tax assessments offset by favorable resolution of property tax appeals at comparable properties.

General and Administrative

General and administrative expense increased \$1.6 million, or 21.5%, to \$9.1 million for the three months ended June 30, 2013 from \$7.5 million for the three months ended June 30, 2012. The increase in general and administrative expense is primarily attributable to an increase in amortization of restricted share awards of \$1.6 million.

Transaction and Pursuit Costs

Transaction and pursuit costs decreased \$1.5 million to \$1.3 million for the three months ended June 30, 2013 from \$2.8 million for the three months ended June 30, 2012. There were two acquisitions during the three months ended June 30, 2013 resulting in transaction costs of \$1.2 million compared to three transactions during the three months ended June 30, 2012 resulting in transaction costs of \$2.8 million.

Interest Expense

Interest expense decreased \$3.5 million, or 17.2%, to \$16.9 million for the three months ended June 30, 2013 from \$20.4 million for the three months ended June 30, 2012. The decrease in interest expense was the result of a decrease of \$4.4 million of interest expense due to the \$331.0 million of mortgage principal balances that were paid down, the expiration of unfavorable interest rate hedges resulting in a decrease in hedge related interest expense of \$0.5 million, a \$0.1 million decrease in mortgage interest expense due to decreases in principal balances as the result of mortgage amortization and a decrease in amortization of deferred financing fees of \$0.3 million. The offsetting increase was primarily due to interest incurred in 2013 on the Five-Year Term Loan and the Seven-Year Term Loan of \$1.4 million and \$0.7 million, respectively, that was not incurred in 2012.

Income Taxes

As part of our structure, we own taxable REIT subsidiaries (TRSs) that are subject to federal and state income taxes. The effective tax rates were 3.81% and 18.67% for the three months ended June 30, 2013 and 2012, respectively. The decrease in rate is primarily a result of a reduction in state taxes paid at our Operating Partnership.

Income from Discontinued Operations

Edgar Filing: RLJ Lodging Trust - Form 10-Q

Income from discontinued operations increased \$2.4 million to \$2.4 million for the three months ended June 30, 2013 from \$0.1 million for the three months ended June 30, 2012. Income from discontinued operations for the three months ended June 30, 2013 includes a \$2.4 million gain on extinguishment of indebtedness from the SpringHill Suites Southfield, Michigan.

Comparison of the six months ended June 30, 2013 to the six months ended June 30, 2012

Income from continuing operations for the six months ended June 30, 2013 was \$47.2 million compared to \$12.1 million for the six months ended June 30, 2012, representing an increase of \$35.1 million. This improved performance was primarily due to a \$71.4 million, or 17.6%, increase in total revenue (including \$35.6 million arising from non-comparable properties) and a decrease in interest expense of \$6.6 million, or 16.4%. This increase in performance was partially offset by the net impact of a \$43.6 million, or 12.4%, increase in total operating expenses. The increase in total operating expenses was primarily attributable to \$29.3 million from non-comparable properties.

ADR	\$ 141.11	\$	130.78	7.9%
RevPAR	\$ 105.28	\$	94.60	11.3%

Portfolio RevPAR increased to \$105.28 from \$94.60, an 11.3% increase. RevPAR, excluding non-comparable properties, increased 9.5% and was driven by a 2.8% increase in occupancy and a 6.5% increase in ADR.

Room Revenue

Our portfolio consists primarily of focused-service and compact full-service hotels that generate the majority of their revenues through room sales. Room revenue increased \$62.5 million, or 17.7%, to \$415.1 million for the six months ended June 30, 2013 from \$352.6 million for the six months ended June 30, 2012. This increase was a result of \$30.6 million of room revenue from non-comparable properties and a 9.5% increase in RevPAR at the comparable properties.

Food and Beverage Revenue

Food and beverage revenue increased \$6.4 million, or 15.4%, to \$48.3 million for the six months ended June 30, 2013 from \$41.9 million for the six months ended June 30, 2012. The increase includes \$3.4 million in food and beverage revenue arising from non-comparable properties. Food and beverage revenue for the remainder of the portfolio increased \$3.0 million.

Other Operating Department Revenue

Other operating department revenue, which includes revenue derived from ancillary sources such as telephone charges and parking fees, increased \$2.5 million, or 22.2%, to \$13.6 million for the six months ended June 30, 2013 from \$11.1 million for the six months ended June 30, 2012. This increase was primarily due to \$1.7 million of other operating department revenue from non-comparable properties and a \$0.6 million increase in parking revenue from comparable properties.

Hotel Operating Expense

Edgar Filing: RLJ Lodging Trust - Form 10-Q

Hotel operating expense increased \$36.4 million, or 14.9%, to \$281.2 million for the six months ended June 30, 2013 from \$244.8 million for the six months ended June 30, 2012. This increase includes \$21.9 million in hotel operating expense attributable to non-comparable properties. The remaining increase was primarily attributable to higher room expense, other operating department costs, and management and franchise fees at the comparable properties. Room expense and other operating department costs were driven by higher occupancy at hotels not under renovation. Management fees and franchise fees, which are computed as a percentage of gross revenue and room revenue, respectively, increased as a result of higher revenues.

Depreciation and Amortization

Depreciation and amortization expense decreased \$1.8 million, or 2.7%, to \$63.3 million for the six months ended June 30, 2013 from \$65.1 million for the six months ended June 30, 2012. The decrease is a result of \$3.1 million of accelerated depreciation of FF&E that underwent renovations during the six months ended June 30, 2012 but not in 2013 and FF&E at other hotels being fully depreciated during the periods. Partially offsetting this was a \$4.6 million increase in depreciation and amortization expense arising from non-comparable properties.

Table of Contents

Property Tax, Insurance and Other

Property tax, insurance and other expense increased \$6.3 million, or 25.0%, to \$31.3 million for the six months ended June 30, 2013 from \$25.1 million for the six months ended June 30, 2012. The increase includes \$2.2 million in property tax, insurance and other expense attributable to non-comparable properties. The remaining increase of \$4.1 million is the net impact of increasing property tax assessments offset by favorable resolution of property tax appeals at the comparable properties.

General and Administrative

General and administrative expense increased \$3.2 million, or 21.4%, to \$17.9 million for the six months ended June 30, 2013 from \$14.7 million for the six months ended June 30, 2012. The increase in general and administrative expense is primarily attributable to an increase in amortization of restricted share awards of \$3.1 million.

Transaction and Pursuit Costs

Transaction and pursuit costs decreased \$0.5 million to \$2.3 million for the six months ended June 30, 2013 from \$2.8 million for the six months ended June 30, 2012. There were five acquisitions during the six months ended June 30, 2013 resulting in transaction costs of \$2.2 million compared to three during the six months ended June 30, 2012 resulting in transaction costs of \$2.8 million.

Interest Expense

Interest expense decreased \$6.6 million, or 16.4%, to \$33.8 million for the six months ended June 30, 2013 from \$40.5 million for the six months ended June 30, 2012. The decrease in interest expense was the result of a decrease of \$9.0 million of interest expense due to the \$331.0 million of mortgage principal balances that were paid down, the expiration of unfavorable interest rate hedges resulting in a decrease in hedge related interest expense of \$0.9 million, a \$0.6 million decrease in mortgage interest expense due to decreases in principal balances as the result of mortgage amortization and a decrease in amortization of deferred financing fees of \$0.5 million. The offsetting increase was primarily due to interest incurred in 2013 on the Revolver, the Five-Year Term Loan and the Seven-Year Term Loan of \$0.1 million, \$2.8 million and \$1.5 million, respectively, that was not incurred in 2012.

Income Taxes

As part of our structure, we own taxable REIT subsidiaries (TRSs) that are subject to federal and state income taxes. The effective tax rates were 303.43% and 4.99% for the six months ended June 30, 2013 and 2012, respectively. The increase in rate is primarily due to an increase in book income recorded at the TRS. Our tax expense decreased \$0.3 million to \$0.6 million for the six months ended June 30, 2013 from \$0.9

Edgar Filing: RLJ Lodging Trust - Form 10-Q

million for the six months ended June 30, 2012, primarily as a result of a reduction in state taxes paid at our Operating Partnership.

Income from Discontinued Operations

Income from discontinued operations increased \$2.4 million to \$2.4 million for the six months ended June 30, 2013. Income from discontinued operations for the six months ended June 30, 2013 includes a \$2.4 million gain on extinguishment of indebtedness from the SpringHill Suites Southfield, Michigan.

Non-GAAP Financial Measures

We consider the following non-GAAP financial measures useful to investors as key supplemental measures of our performance: (1) FFO, (2) Adjusted FFO, (3) EBITDA, and (4) Adjusted EBITDA. These non-GAAP financial measures should be considered along with, but not as alternatives to, net income or loss as a measure of our operating performance. FFO, Adjusted FFO, EBITDA and Adjusted EBITDA, as calculated by us, may not be comparable to FFO, Adjusted FFO, EBITDA and Adjusted EBITDA as reported by other companies that do not define such terms exactly as we define such terms.

Table of Contents

Funds From Operations

We calculate FFO in accordance with standards established by the National Association of Real Estate Investment Trusts, or NAREIT, which defines FFO as net income or loss (calculated in accordance with GAAP), excluding gains or losses from sales of real estate, items classified by GAAP as extraordinary, the cumulative effect of changes in accounting principles, plus depreciation and amortization, and adjustments for unconsolidated partnerships and joint ventures. Historical cost accounting for real estate assets implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values instead have historically risen or fallen with market conditions, most real estate industry investors consider FFO to be helpful in evaluating a real estate company's operations. We believe that the presentation of FFO provides useful information to investors regarding our operating performance by excluding the effect of depreciation and amortization, gains or losses from sales for real estate, extraordinary items and the portion of items related to unconsolidated entities, all of which are based on historical cost accounting, and that FFO can facilitate comparisons of operating performance between periods and between REITs, even though FFO does not represent an amount that accrues directly to common shareholders. Our calculation of FFO may not be comparable to measures calculated by other companies who do not use the NAREIT definition of FFO or do not calculate FFO per diluted share in accordance with NAREIT guidance. Additionally, FFO may not be helpful when comparing us to non-REITs. We present FFO attributable to common shareholders, which includes our OP units, because our OP units are redeemable for common shares. We believe it is meaningful for the investor to understand FFO attributable to all common shares and OP units.

We further adjust FFO for certain additional items that are not in NAREIT's definition of FFO, such as hotel transaction and pursuit costs, the amortization of share-based compensation, and certain other expenses that we consider outside the normal course of business. We believe that Adjusted FFO provides useful supplemental information to investors regarding our ongoing operating performance that, when considered with net income and FFO, is beneficial to an investor's understanding of our operating performance.

The following is a reconciliation of our GAAP net income to FFO and Adjusted FFO for the three and six months ended June 30, 2013 and 2012 (in thousands):

Earnings Before Interest, Taxes, Depreciation and Amortization

EBITDA is defined as net income or loss excluding: (1) interest expense; (2) provision for income taxes, including income taxes applicable to sales of assets; and (3) depreciation and amortization. We consider EBITDA useful to an investor in evaluating and facilitating comparisons of our operating performance between periods and between REITs by removing the impact of our capital structure (primarily interest expense) and asset base (primarily depreciation and amortization) from our operating results. In addition, EBITDA is used as one measure in determining the value of hotel acquisitions and dispositions. We present EBITDA attributable to common shareholders, which includes our OP units, because our OP units

Liquidity and Capital Resources

Edgar Filing: RLJ Lodging Trust - Form 10-Q

Our short-term liquidity requirements consist primarily of funds necessary to pay for operating expenses and other expenditures directly associated with our properties, including:

- recurring maintenance and capital expenditures necessary to maintain our properties in accordance with brand standards;
- interest expense and scheduled principal payments on outstanding indebtedness;
- distributions necessary to qualify for taxation as a REIT; and
- capital expenditures to improve our properties, including capital expenditures required by our franchisors in connection with our formation transactions and recent property acquisitions.

We expect to meet our short-term liquidity requirements generally through net cash provided by operations, existing cash balances and, if necessary, short-term borrowings under our unsecured revolving credit facility and proceeds from our recent underwritten public offering of common shares. On March 25, 2013, the Company completed an offering of 15,870,000

Table of Contents

common shares generating gross proceeds of approximately \$342.8 million and proceeds, net of underwriter discounts and other offering costs, of approximately \$327.5 million.

Our long-term liquidity requirements consist primarily of funds necessary to pay for the costs of acquiring additional properties and redevelopments, renovations, expansions and other capital expenditures that need to be made periodically with respect to our properties and scheduled debt payments. We expect to meet our long-term liquidity requirements through various sources of capital, including our unsecured revolving credit facility and future equity (including OP units) or debt offerings, existing working capital, net cash provided by operations, long-term hotel mortgage indebtedness and other secured and unsecured borrowings. However, there are a number of factors that may have a material adverse effect on our ability to access these capital sources, including the current state of overall equity and credit markets, our degree of leverage, the value of our unencumbered assets and borrowing restrictions imposed by lenders, general market conditions for REITs, our operating performance and liquidity and market perceptions about us. The success of our business strategy will depend, in part, on our ability to access these various capital sources.

Our properties will require periodic capital expenditures and renovation to remain competitive. In addition, acquisitions, redevelopments or expansions of properties will require significant capital outlays. We may not be able to fund such capital improvements solely from net cash provided by operations because we must distribute annually at least 90% of our REIT taxable income, determined without regard to the deductions for dividends paid and excluding net capital gain, to qualify and maintain our qualification as a REIT, and we are subject to tax on any retained income and gain. As a result, our ability to fund capital expenditures, acquisitions or property redevelopment through retained earnings is very limited. Consequently, we expect to rely heavily upon the availability of debt or equity capital for these purposes. If we are unable to obtain the necessary capital on favorable terms, or at all, our financial condition, liquidity, results of operations and prospects could be materially and adversely affected.

Revolving Credit Facility and Term Loans

We entered into a credit agreement on November 20, 2012 that provides for (i) an unsecured revolving credit facility of up to \$300.0 million with a scheduled maturity date of November 20, 2016 with a one-year extension option (the *Revolver*), and (ii) an unsecured term loan of \$275.0 million with a scheduled maturity date of November 20, 2017 (the *Five-Year Term Loan*). The credit agreement amends and restates in its entirety our prior unsecured revolving credit facility, which was originally entered into as of June 20, 2011. In addition, on November 20, 2012 we also entered into an unsecured term loan of \$125.0 million with a scheduled maturity date of November 20, 2019 (the *Seven-Year Term Loan*).

The credit agreements for these loans require that a group of no less than 20 of our hotel properties remain unencumbered by outstanding indebtedness. The credit agreements contain certain financial covenants relating to our maximum leverage ratio, minimum fixed charge coverage ratio, minimum tangible net worth and maximum secured indebtedness. If an event of default exists we are not permitted to make distributions to shareholders, other than those required to qualify for and maintain REIT status. As of June 30, 2013, we were in compliance with all financial covenants.

We incurred \$5.2 million in fees related to the credit agreements that were deferred and are being amortized over the term of the *Revolver*, the *Five-Year Term Loan* and the *Seven-Year Term Loan*, respectively.

Edgar Filing: RLJ Lodging Trust - Form 10-Q

Borrowings under the Revolver, the Five-Year Term Loan and the Seven-Year Term Loan bear interest at variable rates equal to the London InterBank Offered Rate (LIBOR) plus an applicable margin. The margin ranges from 1.70% to 3.00%, depending on our leverage ratio, as calculated under the terms of each facility. We incur an unused facility fee on the Revolver of between 0.25% and 0.35%, based on the amount by which the maximum borrowing amount exceeds the total principal balance of outstanding borrowings.

Under the terms of the credit agreement for the Revolver, one or more standby letters of credit, up to a maximum aggregate outstanding balance of \$30.0 million, may be issued on our behalf by the lenders holding the unsecured revolving credit facility. We will incur a fee of 0.125% of the value of each standby letter of credit that is issued on its behalf. Any outstanding standby letters of credit would reduce the available borrowings on the unsecured revolving credit facility by a corresponding amount. No standby letters of credit were outstanding at June 30, 2013. We also may borrow up to a maximum aggregate outstanding balance of \$40.0 million of swingline loans. Any outstanding swingline loans would reduce the available borrowings on the credit facility by a corresponding amount. No swingline loans were outstanding at June 30, 2013.

Table of Contents

For the three and six months ended June 30, 2013, we incurred an unused commitment fee on the Revolver of approximately \$0.3 million and \$0.5 million, respectively. At June 30, 2013, outstanding borrowings on the Revolver, the Five-Year Term Loan and the Seven-Year Term Loan were zero, \$275.0 million and \$125.0 million, respectively. For the three months ended June 30, 2013, interest expense incurred on the Revolver, the Five-Year Term Loan and the Seven-Year Term Loan was zero, \$1.4 million and \$0.8 million, respectively. For the six months ended June 30, 2013, interest expense incurred on the Revolver, the Five-Year Term Loan and the Seven-Year Term Loan was \$0.1 million, \$2.8 million and \$1.5 million, respectively.

We incurred interest expense on the prior credit facility for the three and six months ended June 30, 2012 of approximately \$0.6 million and \$0.6 million, respectively. For the three and six months ended June 30, 2012, we incurred an unused commitment fee of approximately \$0.2 million and \$0.5 million, respectively. There were \$85.0 million of borrowings outstanding at June 30, 2012.

Sources and Uses of Cash

As of June 30, 2013, we had \$262.9 million of cash and cash equivalents compared to \$115.9 million at December 31, 2012.

Cash flows from Operating Activities

Net cash flow provided by operating activities totaled \$99.7 million for the six months ended June 30, 2013. Net income of \$49.6 million included significant non-cash expenses, including \$63.4 million of depreciation and amortization, \$1.6 million of amortization of deferred financing costs, \$0.5 million of amortization of deferred management fees, and \$6.3 million of amortization of share based compensation, partially offset by \$2.4 million of gain on extinguishment of indebtedness and \$0.2 million of deferred income taxes. In addition, changes in operating assets and liabilities due to the timing of cash receipts and payments from our properties resulted in net cash outflow of \$19.1 million.

Net cash flow provided by operating activities totaled \$58.2 million for the six months ended June 30, 2012. Net income of \$12.1 million was partially offset by significant non-cash expenses, including \$65.2 million of depreciation and amortization, \$2.1 million of amortization of deferred financing costs, \$0.5 million of amortization of deferred management fees, \$0.6 million loss on disposal and \$3.2 million of amortization of share based compensation. In addition, changes in operating assets and liabilities due to the timing of cash receipts and payments from our hotels resulted in net cash outflow of \$25.5 million.

Cash flows from Investing Activities

Net cash flow used in investing activities totaled \$207.8 million for six months ended June 30, 2013 primarily due to \$184.2 million used for the purchase of five properties, \$26.0 million in routine capital improvements and additions to hotels and other properties and the net funding of \$0.3 million of restricted cash reserves, offset by the application of \$2.7 million of purchase deposits.

Edgar Filing: RLJ Lodging Trust - Form 10-Q

Net cash flow used in investing activities totaled \$254.6 million for six months ended June 30, 2012 primarily due to \$182.7 million used for the purchase of three hotels, \$15.1 million for a major redevelopment project, \$61.9 million in routine capital improvements and additions to hotels and other properties, \$0.2 million of additions to property and equipment, offset by the net release of restricted cash reserves of \$5.2 million.

Cash flows from Financing Activities

Net cash flow provided by financing activities totaled \$255.0 million for six months ended June 30, 2013 primarily due to \$327.5 million provided from the issuance and sale of common shares and \$83.0 million in borrowings on the Revolver. This was offset by \$99.0 million of repayments on the Revolver, \$7.3 million in payments of mortgage principal, \$1.8 million paid to repurchase common shares to satisfy employee statutory minimum federal and state tax obligations of certain employees in connection with the vesting of restricted common shares issued to such employees under our 2011 Plan and \$47.4 million of distributions on common shares and OP units.

Table of Contents

Net cash flow provided by financing activities totaled \$41.8 million for six months ended June 30, 2012 primarily due to \$85.0 million of borrowings under the credit facility and \$85.0 million of proceeds from mortgage loans. This was offset by \$91.5 million of mortgage loan repayments, \$1.1 million paid to repurchase common shares to satisfy employee statutory minimum federal and state tax obligations of certain employees in connection with the vesting of restricted common shares issued to such employees under our 2011 Plan, \$33.8 million of distributions on common shares and OP units and \$1.8 million paid for deferred financing fees.

Capital Expenditures and Reserve Funds

We maintain each of our properties in good repair and condition and in conformity with applicable laws and regulations, franchise agreements and management agreements. The cost of all such routine improvements and alterations are paid out of FF&E reserves, which are funded by a portion of each property's gross revenues. Routine capital expenditures are administered by the property management companies. However, we have approval rights over the capital expenditures as part of the annual budget process for each of our properties.

From time to time, certain of our hotels may be undergoing renovations as a result of our decision to upgrade portions of the hotels, such as guestrooms, public space, meeting space, and/or restaurants, in order to better compete with other hotels in our markets. In addition, upon acquisition of a hotel we often are required to complete a property improvement plan in order to bring the hotel up to the respective franchisor's standards. If permitted by the terms of the management agreement, funding for a renovation will first come from the FF&E reserves. To the extent that the FF&E reserves are not available or adequate to cover the cost of the renovation, we will fund all or the remaining portion of the renovation with cash and cash equivalents on hand, our Revolver and/or other sources of available liquidity.

With respect to some of our hotels that are operated under franchise agreements with major national hotel brands and for some of our hotels subject to first mortgage liens, we are obligated to maintain FF&E reserve accounts for future capital expenditures at these hotels. The amount funded into each of these reserve accounts is generally determined pursuant to the management agreements, franchise agreements and/or mortgage loan documents for each of the respective hotels, and typically ranges between 1.0% and 5.0% of the respective hotel's total gross revenue. As of June 30, 2013, approximately \$47.4 million was held in FF&E reserve accounts for future capital expenditures.

Off-Balance Sheet Arrangements

As of June 30, 2013, we had no off-balance sheet arrangements.

Inflation

We rely entirely on the performance of the properties and their ability to increase revenues to keep pace with inflation. Increases in the costs of operating our hotels due to inflation would adversely affect the operating performance of our TRSs, which in turn, could inhibit the ability of our TRSs to make required rent payments to us. Hotel management companies, in general, possess the ability to adjust room rates daily to reflect the effects of inflation. However, competitive pressures may limit the ability of our hotel management companies to raise room rates.

Seasonality

Depending on a hotel's location and market, operations for the hotel may be seasonal in nature. This seasonality can be expected to cause fluctuations in our quarterly operating performance. For hotels located in non-resort markets, demand is generally lower in the winter months due to decreased travel and higher in the spring and summer months during the peak travel season. Accordingly, we expect that we will have lower revenue, operating income and cash flow in the first and fourth quarters and higher revenue, operating income and cash flow in the second and third quarters.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Market risk includes risks that arise from changes in interest rates, equity prices and other market changes that affect market sensitive instruments. Our primary market risk exposure is to changes in interest rates on our variable rate debt. As of June 30, 2013, we had approximately \$627.0 million of total variable debt outstanding (or 45.3% of total indebtedness) with a weighted average interest rate of 2.68% per annum. If market rates of interest on our variable rate debt outstanding as of

Edgar Filing: RLJ Lodging Trust - Form 10-Q

Table of Contents

June 30, 2013 were to increase by 1.00%, or 100 basis points, interest expense would decrease future earnings and cash flows by approximately \$5.7 million annually, taking into account our existing contractual hedging arrangements.

Our interest rate risk objectives are to limit the impact of interest rate fluctuations on earnings and cash flows and to lower our overall borrowing costs. To achieve these objectives, we manage our exposure to fluctuations in market interest rates through the use of fixed rate debt instruments to the extent that reasonably favorable rates are obtainable. We have entered into derivative financial instruments such as interest rate swaps or caps to mitigate our interest rate risk or to effectively lock the interest rate on a portion of our variable rate debt. We do not enter into derivative or interest rate transactions for speculative purposes.

The following table provides information about our financial instruments that are sensitive to changes in interest rates. For debt obligations outstanding as of June 30, 2013, the following table presents principal repayments and related weighted average interest rates by contractual maturity dates (in thousands):

	2014	2015	2016	2017	2018	Thereafter	Total
Fixed rate debt	\$	\$ 185,822	\$ 572,736	\$	\$	\$	\$ 758,558
Weighted average interest rate		5.56%	6.29%				6.11%
Variable rate debt	\$ 142,000	\$	\$ 85,000	\$ 275,000	\$	\$ 125,000	\$ 627,000
Weighted average interest rate	4.18%		2.54%	2.04%		2.44%	2.68%
Total	\$ 142,000	\$ 185,822	\$ 657,736	\$ 275,000	\$	\$ 125,000	\$ 1,385,558

The foregoing table reflects indebtedness outstanding as of June 30, 2013 and does not consider indebtedness, if any, incurred or repaid after that date. Our ultimate realized gain or loss with respect to interest rate fluctuations will depend on the exposures that arise during future periods, prevailing interest rates, and our hedging strategies at that time.

Changes in market interest rates on our fixed rate debt impact the fair value of the debt, but such changes have no impact on our combined consolidated financial statements. If interest rates rise, and our fixed rate debt balance remains constant, we expect the fair value of our debt to decrease. As of June 30, 2013, the estimated fair value of our fixed rate debt was \$735.6 million, which is based on having the same debt service requirements that could have been borrowed at the date presented, at prevailing current market interest rates.

Item 4. Controls and Procedures.

Disclosure Controls and Procedures

Edgar Filing: RLJ Lodging Trust - Form 10-Q

In accordance with Rule 13a-15(b) of the Securities Exchange Act of 1934, as amended (the Exchange Act), the Company's management, with the participation of the Chief Executive Officer and the Chief Financial Officer, carried out an evaluation of the effectiveness of the Company's disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act, as of the end of the period covered by this report. Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of June 30, 2013.

Changes in Internal Control over Financial Reporting

There have been no changes in the Company's internal control over financial reporting (as defined in Rule 13a-15 and 15d-15 of the Exchange Act) during the period ended June 30, 2013 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

The nature of the operations of the hotels exposes our hotels, the Company and the Operating Partnership to the risk of claims and litigation in the normal course of their business. Other than routine litigation arising out of the ordinary course of business, the Company is not presently subject to any litigation nor, to the Company's knowledge, is any litigation threatened against the Company.

Item 1A. Risk Factors.

For a discussion of our potential risks and uncertainties, see the information under the heading "Risk Factors" in the Annual Report which is accessible on the SEC's website at www.sec.gov. There have been no material changes to the risk factors previously disclosed in the Annual Report.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Unregistered Sales of Equity Securities

The Company did not sell any securities during the quarter ended June 30, 2013 that were not registered under the Securities Act of 1933, as amended.

Issuer Purchases of Equity Securities

During the six months ended June 30, 2013, certain of our employees surrendered common shares owned by them to satisfy their statutory minimum federal and state tax obligations of certain employees in connection with the vesting of restricted common shares issued to such employees under our 2011 Plan.

The following table summarizes all of these repurchases during the six months ended June 30, 2013:

Edgar Filing: RLJ Lodging Trust - Form 10-Q

Period	Total number of shares purchased	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs	Maximum number of shares that may yet be purchased under the plans or programs
January 1, 2013 through January 31, 2013			N/A	N/A
February 1, 2012 through February 28, 2013	24,545(1)	\$ 21.00		N/A
March 1, 2013 through March 31, 2013	9,794(1)	\$ 21.63		N/A
April 1, 2013 through April 30, 2013			N/A	N/A
May 1, 2013 through May 31, 2013	33,948(1)	\$ 23.55		N/A
June 1, 2013 through June 30, 2013	10,341(1)	\$ 23.18		N/A
Total	78,628			

(1) The number of shares purchased represents common shares surrendered by certain of our employees to satisfy their statutory minimum federal and state tax obligations associated with the vesting of restricted common shares issued under our 2011 Plan. With respect to these common shares, the price paid per common share is based on the closing price of our common shares as of the date of the determination of the statutory minimum federal income tax.
