LETTER FROM THE CHAIRMAN

R. JAY GERKEN, CFA

*Chairman, President and
Chief Executive Officer*

Dear Shareholder,

Despite sharply rising oil prices, threats of terrorism, geopolitical concerns and uncertainties surrounding the Presidential election, the U.S. economy continued to expand during the reporting period. Following a robust 4.5% gain in the first quarter of 2004, gross domestic product (GDP) growth was 3.3% in the second quarter of the year. This decline was largely attributed to higher energy prices. However, third quarter 2004 GDP growth rose to a strong 4.0%. While fourth quarter GDP figures have not yet been released, continued growth is anticipated.

Turning to the stock market, equities in both the U.S. and abroad rallied sharply during the fourth quarter of 2004, helping to produce solid gains for the year. With the uncertainty of the Presidential election behind them, coupled with falling oil prices, investors were drawn to the equity markets. Following their exceptional returns in 2003, real estate investment trusts (REITs) had another outstanding year in 2004. With the economy on solid footing, capital flows into the REIT market were very strong, which benefited stock prices.

Please read on for a more detailed look at prevailing economic and market conditions during the fund's fiscal year and to learn how those conditions have affected fund performance.

Information About Your Fund

As you may be aware, several issues in the mutual fund industry have recently come under the scrutiny of federal and state regulators. The fund's Adviser and some of its affiliates have received requests for information from various government regulators regarding market timing, late trading, fees, and other mutual fund issues in connection with various investigations. The fund has been informed that the Adviser and its affiliates are responding to those information requests, but are not in a position to predict the outcome of these requests and investigations.

As previously disclosed by Citigroup, the Staff of the Securities and Exchange Commission (SEC) has notified Citigroup Asset Management (CAM) and Citicorp Trust Bank (CTB), an affiliate of CAM, that the Staff is considering recommending a civil injunctive action and/or an administrative proceeding

Real Estate Income Fund Inc.

against CAM, CTB, the former CEO of CAM, two former employees and a current employee of CAM, relating to the creation, operation and fees of an internal transfer agent unit that serves various CAM-managed funds. Citigroup is cooperating with the SEC and will seek to resolve this matter in discussion with the SEC Staff. Although there can be no assurance, Citigroup does not believe that this matter will have a material adverse effect on the fund. For further information, please see the Additional Information note in the Notes to the Financial Statements included in this report.

As always, thank you for your confidence in our stewardship of your assets. We look forward to helping you continue to meet your financial goals.

Sincerely,

R. Jay Gerken, CFA

2004 Annual Report

MANAGER OVERVIEW**Performance Review**

For the 12 months ended December 31, 2004, the Real Estate Income Fund Inc. returned 13.45%, based on its New York Stock Exchange (NYSE) market price and 24.75% based on its net asset value (NAV) per share. In comparison, the Lipper Sector Equity Closed-end Funds Category Average^{iv} was 18.81% over the same time frame. Please note that Lipper performance returns are based on each fund's NAV.

During the 12-month period, the fund made distributions to common shareholders totaling \$1.308 per share. The performance table shows the fund's 30-day SEC yield as well as its 12-month total return based on its NAV and market price as of December 31, 2004. **Past performance is no guarantee of future results. The fund's yields will vary.**

**FUND PERFORMANCE
AS OF DECEMBER 31, 2004
(unaudited)**

Price Per Share	30-Day SEC Yield	12-Month Total Return
\$21.05 (NAV)	6.49%	24.75%
\$18.47 (NYSE)	7.40%	13.45%

All figures represent past performance and are not a guarantee of future results. The fund's yields will vary.

Total returns are based on changes in NAV or market price, respectively. Total returns assume the reinvestment of all dividends and/or capital gains distributions, if any, in additional shares. The SEC yield is a return figure often quoted by bond and other fixed-income mutual funds. This quotation is based on the most recent 30-day (or one-month) period covered by the fund's filings with the SEC. The yield figure reflects the dividends and interest earned during the period after deduction of the fund's expenses for the period. The yield figure is as of December 31, 2004 and is subject to change.

REIT Market/Economic Overview

The REIT market continued its strong run in 2004. The major U.S. REIT indices posted returns in excess of 30.0% for the second consecutive year, with all property sectors posting positive results. This also marked the fifth year in a row that REITs have outperformed the broad equity market, as measured by the S&P 500 Index.^v Capital flows, both from domestic and foreign investors, into the U.S. REIT market continued to remain strong during the fiscal year, as investors in general continued to embrace REITs as a strategic asset class offering diversification benefits and a stable dividend yield. We expect that capital flows into the REIT sector are likely to continue, at least in the near term. Going forward, however, we caution investors not to expect the outsized relative gains of the past five years.

Contributors to Performance

For the year ended December 31, 2004, each of the property sectors in which the fund had holdings posted positive returns. The fund's positive performance for the period was particularly driven by strong results in the regional mall, office and apartment sectors. Among the best performers in the regional mall sector was **The Macerich Co.**, which was up 48.0% in 2004. The company benefited from strong retailer demand, as well as speculation of it being a potential acquisition target. Also enhancing results was **Summit Properties Inc.** in the apartment sector. Its shares rose over 44.0% as the firm benefited significantly from its merger announcement with another apartment REIT, **Camden Property Trust**.

The fund used leverage during the fiscal year. This had a positive impact on results, given the strong performance of the fund's underlying assets. During the reporting period, there were no major detractors to fund performance. Not surprisingly, the fund's common stock holdings outperformed its more income-oriented preferred positions, which on average gained 7.0% to 10.0%.

- ⁱ Gross domestic product is a market value of goods and services produced by labor and property in a given country.
- ⁱⁱ Real Estate Investment Trusts invest in real estate or loans secured by real estate and issue shares in such investments, which can be illiquid.
- ⁱⁱⁱ NAV is calculated by subtracting total liabilities and outstanding preferred stock from the closing value of all securities held by the fund (plus all other assets) and dividing the result (total net assets) by the total number of the common shares outstanding. The NAV fluctuates with changes in the market prices of securities in which the fund has invested. However, the price at which an investor may buy or sell shares of the fund is at the fund's market price as determined by supply of and demand for the fund's shares.
- ^{iv} Lipper, Inc. is a major independent mutual-fund tracking organization. - ^v The S&P 500 Index is a market capitalization-weighted index of 500 widely held common stocks.

Take Advantage of the Fund's Dividend Reinvestment Plan!

As an investor in the Fund, you can participate in its Dividend Reinvestment Plan (Plan), a convenient, simple and efficient way to reinvest your dividends and capital gains, if any, in additional shares of the Fund. A description of the Fund's Plan begins on page 33. Below is a short summary of how the Plan works.

Plan Summary

If you are a Plan participant who has not elected to receive your dividends in the form of a cash payment, then your dividend and capital gain distributions will be reinvested automatically in additional shares of the Fund.

The number of common stock shares in the Fund you will receive in lieu of a cash dividend is determined in the following manner. If the market price of the common stock is equal to or exceeds 98% of the net asset value (NAV) per share on the date of determination, you will be issued shares at a price equal to the greater of (a) 98% of the NAV per share at the close of trading on the determination date or (b) 95% of the market price per share of the Common Shares on the determination date.

If 98% of the NAV per share at the time of valuation is greater than the market price of the common stock on the determination date, the Plan Agent will buy common stock for your account in the open market or on the New York Stock Exchange.

If the Plan Agent begins to purchase additional shares in the open market and the market price of the shares subsequently rises above 98% of the NAV before the purchases are completed, the Plan Agent will attempt to cancel any remaining orders and the Fund will issue the remaining dividend or distribution in shares at the greater of 98% of the NAV per share at the close of trading on the Exchange on the determination date or 95% of their current market price. In that case, the number of Fund shares you receive will be based on the weighted average of prices paid for shares purchased in the open market and the price at which the Fund issues the remaining shares.

To find out more detailed information about the Plan and about how you can participate, please call American Stock Transfer & Trust Company at 1-877-366-6441.

(1) Per share amounts have been calculated using the monthly average shares method.

(2) For the period July 31, 2002 (commencement of operations) to December 31, 2002.

(3) Due to a change in the accounting method that required a change in the classification of periodic payments made under interest rate swap agreements, certain amounts have been reclassified among net investment income and net realized and unrealized loss in order to conform to the current period. Without the effect of these reclassifications, for the period ended December 31, 2002, the amounts for net investment income and net realized and unrealized loss would have been \$0.51 and \$(0.31), respectively. In addition, the ratio of net investment income to average net assets would have been 8.91%. These reclassifications had no impact on the net asset value of the Fund or the amount and character of distributions.

(4) The Investment Manager has agreed to waive a portion of its management fees for the years ended December 31, 2004, and December 31, 2003, and the period ended December 31, 2002. In addition, the Investment Manager has reimbursed

Edgar Filing: REAL ESTATE INCOME FUND INC - Form N-CSR/A

the Fund for certain expenses for the period ended December 31, 2002. If such fees were not waived and/or expenses reimbursed, the per share actual expense ratios would have been 1.44%, 1.55% and 1.55% for the years ended December 31, 2004 and 2003 and the period ended December 31, 2002, respectively.

(5) The total return calculation assumes that dividends are reinvested in accordance with the Fund's dividend reinvestment plan. Performance figures may reflect fee waivers and/or expense reimbursements. Past performance is not a guarantee of future results. In the absence of fee waivers and/or expense reimbursements, the total return would have been lower.

(6) Calculated on the basis of average net assets of common stock shareholders. Ratios do not reflect the effect of dividend payments to preferred shareholders.

* Amount represents less than \$0.01 per share.

Total return is not annualized, as it may not be representative of the total return for the year.

Notes to Financial Statements

1. Organization and Significant Accounting Policies

The Real Estate Income Fund Inc. (Fund), a Maryland corporation, is registered under the Investment Company Act of 1940, as amended, as a non diversified, closed end management investment company.

The following are significant accounting policies consistently followed by the Fund and are in conformity with U.S. generally accepted accounting principles (GAAP). Estimates and assumptions are required to be made regarding assets, liabilities and changes in net assets resulting from operations when financial statements are prepared. Changes in the economic environment, financial markets and any other parameters used in determining these estimates could cause actual results to differ.

(a) Investment Valuation. Securities traded on national securities markets are valued at the closing price on such markets or, if there were no sales during the day, at the mean between the quoted bid and asked prices; securities listed on the NASDAQ National Market System for which market quotations are available are valued at the official closing price or, if there is no official closing price on that day, at the last sale price; U.S. government agencies and obligations are valued at the mean between the last reported bid and asked prices. When market quotations or official closing prices are not readily available, or are determined not to reflect fair value, such as when the value of a security has been significantly affected by events after the close of the exchange or market on which the security is principally traded, but before the Fund calculates its net asset value, the Fund may value these investments at fair value as determined in accordance with the procedures approved by the Fund's Board of Directors. Short term obligations maturing within 60 days are valued at cost plus accreted discount or minus amortized premium, which approximates value.

(b) Repurchase Agreements. When entering into repurchase agreements, it is the Fund's policy that a custodian takes possession of the underlying collateral securities, the value of which at least equals the principal amount of the repurchase transaction, including accrued interest. To the extent that any repurchase transaction exceeds one business day, the value of the collateral is marked-to-market to ensure the adequacy of the collateral. If the seller defaults and the value of the collateral declines or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited.

(c) Concentration Risk. The Fund invests in securities related to the real estate industry and is subject to the risks of real estate markets, including fluctuating property values, changes in interest rates and other mortgage related risks.

Notes to Financial Statements (continued)

(d) Swap Contracts. The Fund enters into interest rate swap agreements, which involve the exchange by the Fund with another party of their respective commitments to pay or receive interest (e.g., an exchange of floating rate payments for fixed rate payments) with respect to a notional amount of principal. Swaps are marked to market daily based upon quotations from market makers and the change, if any, is recorded as an unrealized gain or loss in the Statements of Operations. Net payments of interest are recorded as realized gains. Entering into these agreements involves, to varying degrees, elements of credit and market risk in excess of the amounts recognized on the Statement of Assets and Liabilities. Such risks involve the possibility that there will be no liquid market for these agreements, that the counter-party to the agreement may default on its obligation to perform and there may be unfavorable changes in the fluctuation of interest and/or exchange rates.

(e) Security Transactions and Investment Income. Security transactions are accounted for on trade date. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Foreign dividend income is recorded on the ex-dividend date or as soon as practical after the Fund determines the existence of a dividend declaration after exercising reasonable due diligence. The cost of investments sold is determined by use of the specific identification method.

(f) Net Asset Value. The net asset value (NAV) of the Fund's Common Stock is determined no less frequently than the close of business on the Fund's last business day of each week (generally Friday). It is determined by dividing the value of the net assets available to Common Stock by the total number of shares of Common Stock outstanding. For the purpose of determining the NAV of the Common Stock, the value of the Fund's net assets shall be deemed to equal the value of the Fund's assets less (1) the Fund's liabilities and (2) the aggregate liquidation value (i.e., \$25,000 per outstanding share) of the Taxable Auction Rate Cumulative Preferred Stock (TARPS).

(g) Foreign Currency Translation. The books and records of the Fund are maintained in U.S. dollars. Transactions denominated in foreign currencies are recorded at the current prevailing exchange rates. All assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the current exchange rates at the end of the period. Translation gains or losses resulting from changes in the exchange rates during the reporting period and realized gains and losses on the settlement of foreign currency transactions are reported in the statement of operations for the current period. The Fund does not isolate that portion of realized gains and losses on investments in securities, which are due to changes in the foreign exchange rates from that which is due to changes in market prices of equity securities.

Notes to Financial Statements (continued)

(h) Dividends and Distributions to Shareholders. Dividends and distributions to shareholders are recorded monthly by the Fund on the ex-dividend date for the shareholders of common stock. The holders of the Taxable Auction Rate Preferred Stock shall be entitled to receive dividends in accordance with an auction that will normally be held weekly and out of funds legally available to shareholders. The Fund's policy is to pass through to its shareholders substantially all Real Estate Investment Trust (REIT) distributions and other income it receives, less operating expenses. The character of REIT distributions received from portfolio securities held by the Fund is generally comprised of investment income, long-term capital gains, and return of capital. The Fund reclassifies amounts within the Statement of Operations primarily based on information provided by REITs after the Fund's fiscal year end. In those instances where such information is not available, the Fund estimates the amounts based on amounts reported by the REITs in the prior year. After all remaining REITs report the actual character of distributions paid during the year, the Fund adjusts estimates previously recorded to actual. The character of distributions paid to shareholders disclosed within the Statements of Changes in Net Assets is based on these reclassifications.

Pursuant to its Managed Distribution Policy, the Fund intends to make regular monthly distributions to shareholders at a fixed rate per common share, which rate may be adjusted from time to time by the Fund's Board of Directors. Under Fund's Managed Distribution Policy, if, for any monthly distribution, net investment income and net realized capital gain is less than the amount of the distribution, the difference will be distributed from the Fund's assets (and constitute a return of capital). The Board of Directors may terminate the Managed Distribution Policy at any time, including when certain events would make part of the return of capital taxable to shareholders. Any such termination could have an adverse effect on the market price for Fund's shares.

(i) Federal and Other Taxes. It is the Fund's policy to comply with the federal income and excise tax requirements of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies. Accordingly, the Fund intends to distribute substantially all of its taxable income and net realized gains on investments, if any, to shareholders each year. Therefore, no federal income tax provision is required. Under the applicable foreign tax law, a withholding tax may be imposed on interest, dividends and capital gains at various rates.

(j) Reclassification. In accordance with Statement of Position 93-2 Determination, Disclosure, and Financial Statement Presentation of Income, Capital Gain, and Return of Capital Distributions by Investment Companies, book/tax basis differences relating to shareholder distributions and other permanent book/tax differences are reclassified to paid-in capital. In addition, the character of income

Notes to Financial Statements (continued)

and gains to be distributed is determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States of America. At December 31, 2004, reclassifications were made to the Fund's capital accounts to reflect permanent book/tax differences and income and gains available for distributions under income tax regulations. Accordingly, during the current year, \$1,209,128 has been reclassified between undistributed net investment income and accumulated net realized loss from investment transactions and swap contracts as a result of book losses from interest rate swap contracts treated as ordinary loss for tax and book gains on foreign currency transactions treated as ordinary income for tax purposes. Additionally, \$13,087 has been reclassified between paid-in capital and undistributed net investment income as a result of permanent differences attributable to the differences in the tax treatment of distributions from real estate investment trusts. These reclassifications have no effect on net assets or net asset values per share.

2. Management Agreement and Other Transactions

Citi Fund Management Inc. (CFM), an affiliate of Citigroup Inc. (Citigroup), acts as the investment manager of the Fund. The Fund pays CFM a management fee calculated at an annual rate of 0.90% of the Fund's Managed Assets (which includes assets attributable to TARPS). This fee is calculated daily and paid monthly.

In addition, CFM has contractually agreed to waive a portion of its management fee in the amount of 0.32% of the Fund's Managed Assets through July 31, 2007, 0.20% of Managed Assets for the 12-month period ending July 31, 2008, and 0.10% of Managed Assets for the 12-month period ending July 31, 2009. The waiver will be eliminated on August 1, 2009. For the year ended December 31, 2004, CFM waived a portion of its management fee amounting to \$874,929.

CFM has entered into a sub-investment advisory agreement with AEW Management and Advisors, L.P. (AEW). AEW is primarily responsible for overseeing the day-to-day investment operations of the Fund. CFM pays AEW a fee at an annual rate equal to: (a) for the first 5 years of the Fund's operation, 0.40% of the first \$100 million of the Fund's Managed Assets (which includes assets attributable to Preferred shares), 0.35% of the next \$100 million of the Fund's Managed Assets and 0.30% of the Fund's Managed Assets in excess of \$200 million; and (b) starting 5 years after the commencement of the Fund's operations, 50% of the management fee paid by the Fund to CFM net of any waivers.

Notes to Financial Statements (continued)

For the year ended December 31, 2004, Citigroup Global Markets Inc. (CGM), an indirect wholly-owned subsidiary of Citigroup, received brokerage commissions of \$2,250.

All officers but one and one Director of the Fund are employees of Citigroup or its affiliates and do not receive compensation from the Fund.

At December 31, 2004, the Fund had total unrealized depreciation of \$273,723 from swap contracts.

4. Taxable Auction Rate Cumulative Preferred Stock

As of December 31, 2004, the Fund had 2,600 outstanding shares of TARPS. The TARPS dividends are cumulative at a rate determined at an auction and the dividend period is typically seven days. The dividend rates ranged from 1.03% to 2.66% for the year ended December 31, 2004. At December 31, 2004, the dividend rate was 2.66%.

The Fund is required to maintain certain asset coverages with respect to the TARPS. If the Fund fails to maintain these coverages and does not cure any such failure within the required time period, the Fund is required to redeem a requisite number of the TARPS at a redemption price equal to \$25,000 per share plus accumulated and unpaid dividends in order to meet the applicable requirement. The TARPS have a liquidation preference of \$25,000 per share plus accumulated and unpaid dividends. Additionally, failure to meet the foregoing asset coverage requirements would restrict the Fund's ability to pay dividends to common shareholders.

CGM currently acts as the broker/dealer in connection with the auction of TARPS. After each auction, the auction agent will pay to the participating broker/dealer, from monies the Fund provides, a participation fee at the annual rate of 0.25% of the purchase price of the TARPS that the broker/dealer places at the auction. For the year ended December 31, 2004, the Fund incurred auction participation fees of \$163,130 for CGM's services as a participating broker/dealer.

5. Capital Shares

Capital stock transactions were as follows:

	Year Ended December 31, 2004		Year Ended December 31, 2003

<i>Total Distributions Paid</i>		

As of December 31, 2004, the components of accumulated earnings on a tax basis were as follows:

Unrealized appreciation	80,386,674**
	<u>81,287,284</u>
Total accumulated earnings	\$ 81,287,284

* Other book/tax temporary differences are attributable primarily to differences in the book/tax treatment of distributions received from REITs held by the Fund.

** The difference between book-basis and tax-basis unrealized/depreciation is attributable primarily to the tax deferral of losses on wash sales.

7. Additional Information

In connection with an investigation previously disclosed by Citigroup, the Staff of the Securities and Exchange Commission (SEC) has notified Citigroup Asset Management (CAM), the Citigroup business unit that includes the funds investment manager and other investment advisory companies; Citicorp Trust Bank (CTB), an affiliate of CAM; Thomas W. Jones, the former CEO of CAM; and three other individuals, one of whom is an employee and two of whom are former employees of CAM, that the SEC Staff is considering recommending a civil injunctive action and/or an administrative proceeding against each of them relating to the creation and operation of an internal transfer agent unit to serve various CAM-managed funds.

In 1999, CTB entered the transfer agent business. CTB hired an unaffiliated subcontractor to perform some of the transfer agent services. The subcontractor, in exchange, had signed a separate agreement with CAM in 1998 that guaranteed investment management revenue to CAM and investment banking revenue to a CAM affiliate. The subcontractor's business was later taken over by PFPC Inc.,

Notes to Financial Statements (continued)

and at that time the revenue guarantee was eliminated and a one-time payment was made by the subcontractor to a CAM affiliate.

CAM did not disclose the revenue guarantee when the boards of various CAM-managed funds hired CTB as transfer agent. Nor did CAM disclose to the boards of the various CAM-managed funds the one-time payment received by the CAM affiliate when it was made. As previously disclosed, CAM has already paid the applicable funds, primarily through voluntary fee waivers, a total of approximately \$17 million (plus interest), which is the amount of the revenue received by Citigroup relating to the revenue guarantee.

In addition, the SEC Staff has indicated that it is considering recommending action based on the adequacy of the disclosures made to the fund boards that approved the transfer agency arrangement, CAM's initiation and operation of, and compensation for, the transfer agent business and CAM's retention of, and agreements with, the subcontractor.

Citigroup is cooperating fully in the SEC's investigation and is seeking to resolve the matter in discussions with the SEC Staff. On January 20, 2005, Citigroup stated that it had established an aggregate reserve of \$196 million (\$25 million in the third quarter of 2004 and \$171 million in the fourth quarter of 2004) related to its discussions with the SEC Staff. Settlement negotiations are ongoing and any settlement of this matter with the SEC will require approval by the Citigroup Board and acceptance by the Commission.

Unless and until any settlement is consummated, there can be no assurance that any amount reserved by Citigroup will be distributed. Nor is there at this time any certainty as to how the proceeds of any settlement would be distributed, to whom any such distribution would be made, the methodology by which such distribution would be allocated, and when such distribution would be made.

Although there can be no assurance, Citigroup does not believe that this matter will have a material adverse effect on the funds. The Fund did not implement the contractual arrangement described above and will not receive any payments.

The Fund's CEO has submitted to the NYSE the required annual certification and, the Fund also has included the Certifications of the Fund's CEO and Chief Financial Officer required by Section 302 of the Sarbanes-Oxley Act in the Fund's Form N-CSR filed with the SEC, for the period of this report.

Dividend Reinvestment Plan (unaudited)

Under the Fund's Dividend Reinvestment Plan (" Plan "), a shareholder whose shares of Common Stock are registered in his own name will have all distributions from the Fund reinvested automatically by American Stock Transfer & Trust Company (" AST "), as agent under the Plan, unless the shareholder elects to receive cash. Distributions with respect to shares registered in the name of a broker-dealer or other nominee (that is, in " street name ") will be reinvested by the broker or nominee in additional shares under the Plan, unless the service is not provided by the broker or nominee or the shareholder elects to receive distributions in cash. Investors who own Common Stock registered in street name should consult their broker-dealers for details regarding reinvestment. All distributions to Fund shareholders who do not participate in the Plan will be paid by check mailed directly to the record holder by or under the direction of AST as dividend-paying agent.

If the Fund declares a dividend or capital gains distribution payable either in Common Shares or in cash, shareholders who are not Plan participants will receive cash, and Plan participants will receive the equivalent amount in Common Shares. When the market price of the Common Shares is equal to or exceeds 98% of the net asset value per share of the Common Shares on the Determination Date (as defined below), Plan participants will be issued Common Shares valued at a price equal to the greater of (a) 98% of the net asset value per share at the close of trading on the Determination Date or (b) 95% of the market price per share of the common stock on the Determination Date. The Determination Date is the dividend or capital gains distribution record date or, if that date is not a New York Stock Exchange (" NYSE ") trading day, the immediately preceding trading day.

If 98% of the net asset value per share of the Common Shares exceeds the market price of the Common Shares on determination date, the Plan Agent will receive the dividend or distribution in cash and will buy Common Shares in the open market, on the Exchange or elsewhere, for your account as soon as practicable commencing on the trading day following the determination date and terminating no later than the earlier of (a) 30 days after the dividend or distribution payment date, or (b) the record date for the next succeeding dividend or distribution to be made to the Common Shareholders, except when necessary to comply with applicable provisions of the federal securities laws. If during this period: (i) the market price rises so that it equals or exceeds 98% of the net asset value per share of the Common Shares at the close of trading on the Exchange on the Determination date before the Plan Agent has completed the open market purchases or (ii) if the Plan Agent is unable to invest the full amount eligible to be reinvested in open market purchases, the Plan agent will cease purchasing Common Shares in the open market and the Fund shall issue the remaining Common Shares at a price per share equal to the greater of (a) 98% of the net asset value per share at the close of trading on the Exchange on the Determination date or (b) 95% of the then current market price per share. You may withdraw from the Plan by notifying the Plan Agent in writing at

Dividend Reinvestment Plan (unaudited) (continued)

P.O. Box 922, Wall Street Station, New York, New York 10269-0560, by logging onto your account and following the directions at www.Investpower.com or by calling the Plan Agent at 1-877-366-6441. Such withdrawal will be effective immediately if notice is received by the Plan Agent not less than ten business days prior to any dividend or distribution record date; otherwise such withdrawal will be effective as soon as practicable after the Plan Agent's investment of the most recently declared dividend or distribution on the Common Shares.

AST will maintain all shareholder accounts in the Plan and will furnish written confirmations of all transactions in each account, including information needed by a shareholder for personal and tax records. The automatic reinvestment of dividends and capital gains distributions will not relieve Plan participants of any income tax that may be payable on the dividends or capital gains distributions. Common Shares in the account of each Plan participant will be held by AST on behalf of the Plan participant, and each shareholder's proxy will include those shares purchased pursuant to the Plan.

Plan participants are subject to no charge for reinvesting dividends and capital gains distributions. AST's fees for handling the reinvestment of dividends and capital gains distributions will be paid by the Fund. No brokerage charges apply with respect to Common Shares issued directly by the Fund as a result of dividends or capital gains distributions payable either in Common Shares or in cash. Each Plan participant will, however, bear a proportionate share of brokerage commissions incurred with respect to open market purchases made in connection with the reinvestment of dividends or capital gains distributions.

Experience under the Plan may indicate that changes to it are desirable. The Fund reserves the right to amend or terminate the Plan as applied to any dividend or capital gains distribution paid subsequent to written notice of the change sent to participants at least 30 days before the record date for the dividend or capital gains distribution. The Plan also may be amended or terminated by AST, with the Fund's prior written consent, on at least 30 days' written notice to Plan participants. Upon any termination, you will be sent a certificate or certificates for the full Common Shares held for you under the Plan and cash for any fractional Common Shares. You may elect to notify the Plan Agent in advance of such termination to have the Plan Agent sell part or all of your shares on your behalf. The Plan Agent is authorized to deduct brokerage commissions actually incurred for this transaction from the proceeds. All correspondence concerning the Plan should be directed by mail to American Stock Transfer & Trust Company, 59 Maiden Lane, New York, New York 10038, by logging onto your account and following the directions at www.Investpower.com or by telephone at 1-877-366-6441.

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940, as amended, that from time to time the Fund may purchase shares of its common stock in the open market.

ITEM 6. [RESERVED]

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The Board of Directors of the Fund has delegated the authority to develop policies and procedures relating to proxy voting to the Manager. The Manager is part of Citigroup Asset Management (CAM), a group of investment adviser affiliates of Citigroup, Inc. (Citigroup). Along with the other investment advisers that comprise CAM, the Manager has adopted a set of proxy voting policies and procedures (the Policies) to ensure that the Manager votes proxies relating to equity securities in the best interest of clients.

In voting proxies, the Manager is guided by general fiduciary principles and seeks to act prudently and solely in the best interest of clients. The Manager attempts to consider all factors that could affect the value of the investment and will vote proxies in the manner that it believes will be consistent with efforts to maximize shareholder values. The Manager may utilize an external service provider to provide it with information and/or a recommendation with regard to proxy votes. However, such recommendations do not relieve the Manager of its responsibility for the proxy vote.

In the case of a proxy issue for which there is a stated position in the Policies, CAM generally votes in accordance with such stated position. In the case of a proxy issue for which there is a list of factors set forth in the Policies that CAM considers in voting on such issue, CAM votes on a case-by-case basis in accordance with the general principles set forth above and considering such enumerated factors. In the case of a proxy issue for which there is no stated position or list of factors that CAM considers in voting on such issue, CAM votes on a case-by-case basis in accordance with the general principles set forth above. Issues for which there is a stated position set forth in the

Edgar Filing: REAL ESTATE INCOME FUND INC - Form N-CSR/A

Policies or for which there is a list of factors set forth in the Policies that CAM considers in voting on such issues fall into a variety of categories, including election of directors, ratification of auditors, proxy and tender offer defenses, capital structure issues, executive and director compensation, mergers and corporate restructurings, and social and environmental issues. The stated position on an issue set forth in the Policies can always be superseded, subject to the duty to act solely in the best interest of the beneficial owners of accounts, by the investment management professionals responsible for the account whose shares are being voted. Issues applicable to a particular industry may cause CAM to abandon a policy that would have otherwise applied to issuers generally. As a result of the independent investment advisory services provided by distinct CAM business units, there may be occasions when different business units or different portfolio managers within the same business unit vote differently on the same issue.

In furtherance of the Manager's goal to vote proxies in the best interest of clients, the Manager follows procedures designed to identify and address material conflicts that may arise between the Manager's interests and those of its clients before voting proxies on behalf of such clients. To seek to identify conflicts of interest, CAM periodically notifies CAM employees (including employees of the Manager) in writing that they are under an obligation (i) to be aware of the potential for conflicts of

interest with respect to voting proxies on behalf of client accounts both as a result of their personal relationships and due to special circumstances that may arise during the conduct of CAM's and the Manager's business, and (ii) to bring conflicts of interest of which they become aware to the attention of compliance personnel. The Manager also maintains and considers a list of significant relationships that could present a conflict of interest for the Manager in voting proxies. The Manager is also sensitive to the fact that a significant, publicized relationship between an issuer and a non-CAM affiliate might appear to the public to influence the manner in which the Manager decides to vote a proxy with respect to such issuer. Absent special circumstances or a significant, publicized non-CAM affiliate relationship that CAM or the Manager for prudential reasons treats as a potential conflict of interest because such relationship might appear to the public to influence the manner in which the Manager decides to vote a proxy, the Manager generally takes the position that non-CAM relationships between Citigroup and an issuer (e.g. investment banking or banking) do not present a conflict of interest for the Manager in voting proxies with respect to such issuer. Such position is based on the fact that the Manager is operated as an independent business unit from other Citigroup business units as well as on the existence of information barriers between the Manager and certain other Citigroup business units.

CAM maintains a Proxy Voting Committee, of which the Manager personnel are members, to review and address conflicts of interest brought to its attention by compliance personnel. A proxy issue that will be voted in accordance with a stated position on an issue or in accordance with the recommendation of an independent third party is not brought to the attention of the Proxy Voting Committee for a conflict of interest review because the Manager's position is that to the extent a conflict of interest issue exists, it is resolved by voting in accordance with a pre-determined policy or in accordance with the recommendation of an independent third party. With respect to a conflict of interest brought to its attention, the Proxy Voting Committee first determines whether such conflict of interest is material. A conflict of interest is considered material to the extent that it is determined that such conflict is likely to influence, or appear to influence, the Manager's decision-making in voting proxies. If it is determined by the Proxy Voting Committee that a conflict of interest is not material, the Manager may vote proxies notwithstanding the existence of the conflict.

If it is determined by the Proxy Voting Committee that a conflict of interest is material, the Proxy Voting Committee is responsible for determining an appropriate method to resolve such conflict of interest before the proxy affected by the conflict of interest is voted. Such determination is based on the particular facts and circumstances, including the importance of the proxy issue and the nature of the conflict of interest. Methods of resolving a material conflict of interest may include, but are not limited to, disclosing the conflict to clients and obtaining their consent before voting, or suggesting to clients that they engage another party to vote the proxy on their behalf.
