ITEM 7.01 Regulation FD.

On December 10, 2018, Northrop Grumman Corporation (the “Company”) announced a change to the Company’s method of accounting for actuarial gains and losses relating to its pension and other post-retirement benefit (“OPEB”) plans to a more preferable method under U.S. GAAP. A copy of the press release entitled “Northrop Grumman Announces Change in Pension Accounting” is furnished as Exhibit 99.1 and incorporated by reference herein. Beginning with December 31, 2018 results, the Company will adopt the mark-to-market method of accounting and recognize pension and OPEB actuarial gains and losses, largely related to changes in discount rates and differences between expected and actual plan asset returns, in the year they are incurred rather than amortizing them over time. This accounting change will have no effect on the Company’s cash flows, pension funding requirements or benefits received by participants of the pension and OPEB plans. It is expected to impact pre-tax earnings as described in the press release. The Company will provide recast prior period financial statements reflecting the effects of this change when it reports its fourth quarter and full year 2018 results.

ITEM 9.01. Financial Statements and Exhibits.
