### Edgar Filing: XCEL ENERGY INC - Form 8-K

#### Item 8.01. Other Events

On Dec.18, 2012, Northern States Power Company (NSP-Minnesota), a Minnesota corporation, and a wholly owned subsidiary of Xcel Energy Inc., filed a request with the North Dakota Public Service Commission (NDPSC) for an overall increase in annual retail electric revenues of approximately \$16.9 million, or an increase of 9.25 percent. The rate filing is based on a 2013 forecast test year and includes a requested return on equity of 10.6 percent, an electric rate base of approximately \$377.6 million and an equity ratio of 52.56 percent.

Primary drivers of the \$16.9 million request include:

- Investment and costs to operate and extend the lives of our nuclear plants and to expand power output at our Monticello plant (\$8.4 million)
  - Investments and costs to refresh, upgrade and operate the electric grid and other power plants (\$8.1 million)
     Increases related to other business costs (\$0.4 million)

As part of this rate filing, NSP-Minnesota proposes to implement interim electric rates of approximately \$14.7 million, subject to refund, effective Feb. 16, 2013. The interim rates would remain in effect until the NDPSC makes its final decision on the case, which is anticipated in the fourth quarter of 2013.

Except for the historical statements contained in this 8-K, the matters discussed herein, including the expected impact of rate cases, are forward-looking statements that are subject to certain risks, uncertainties and assumptions. Such forward-looking statements are intended to be identified in this document by the words "anticipate," "believe," "estimate," "expect," "intend," "may," "objective," "outlook," "plan," "project," "possible," "potential," "should" and similar expressions. results may vary materially. Forward-looking statements speak only as of the date they are made, and we do not undertake any obligation to update them to reflect changes that occur after that date. Factors that could cause actual results to differ materially include, but are not limited to: general economic conditions, including inflation rates, monetary fluctuations and their impact on capital expenditures and the ability of Xcel Energy Inc. and its subsidiaries (collectively, Xcel Energy) to obtain financing on favorable terms; business conditions in the energy industry; including the risk of a slow down in the U.S. economy or delay in growth recovery; trade, fiscal, taxation and environmental policies in areas where Xcel Energy Inc. and NSP-Minnesota have a financial interest; customer business conditions; actions of credit rating agencies; competitive factors including the extent and timing of the entry of additional competition in the markets served by Xcel Energy Inc. and its subsidiaries; unusual weather; effects of geopolitical events, including war and acts of terrorism; state, federal and foreign legislative and regulatory initiatives that affect cost and investment recovery, have an impact on rates or have an impact on asset operation or ownership or impose environmental compliance conditions; structures that affect the speed and degree to which competition enters the electric and natural gas markets; costs and other effects of legal and administrative proceedings, settlements, investigations and claims; actions by regulatory bodies impacting our nuclear operations, including those affecting costs, operations or the approval of requests pending before the NRC; financial or regulatory accounting policies imposed by regulatory bodies; availability of cost of capital; employee work force factors; and the other risk factors listed from time to time by Xcel Energy Inc. and NSP-Minnesota in reports filed with the Securities and Exchange Commission, including Risk Factors in Item 1A and Exhibit 99.01 of Xcel Energy Inc.'s and NSP-Minnesota's Annual Reports on Form 10-K for the year ended Dec. 31, 2011 and Quarterly Reports on Form 10-Q for the quarters ended March 31, June 30, and Sept. 30, 2012.
