Item 8.01. Other Events

In June 2012, Northern States Power Company (NSP-Minnesota), a Minnesota corporation and a wholly owned subsidiary of Xcel Energy Inc., filed a request with the South Dakota Public Utilities Commission (SDPUC) to increase electric rates by \$19.4 million annually. The request was based on a 2011 historic test year adjusted for known and measurable changes for 2012 and 2013, a requested ROE of 10.65 percent, an average rate base of \$367.5 million and an equity ratio of 52.89 percent.

In December 2012, the procedural schedule was suspended to allow time to construct a potential settlement agreement between NSP-Minnesota and the SDPUC Staff. Interim rates of \$19.4 million went into effect on Jan. 1, 2013, subject to refund.

On March 15, 2013, NSP-Minnesota and the SDPUC Staff executed a settlement agreement that provides for a base rate increase of approximately \$11.6 million and the implementation of a new Rate Phase-In Rider to recover an additional approximate \$3.7 million for the recovery of certain capital projects and incremental property taxes not otherwise included in base rates. Combined, the overall revenue increase in base rates and Rate Phase-In Rider for 2013 is approximately \$15.3 million, or 9.1 percent. The rider is subject to true-up for actual costs and is projected to provide incremental revenue of \$2.6 million in 2014. If the settlement agreement is approved, as filed, a moratorium on base rate increases would be in effect until Jan. 1, 2015.

The matter is expected to be scheduled for SDPUC decision in the first half of 2013.
