Fellow Shareholders,

For the first six months of 2015, our Fund was down 0.2% while the S&P 500 was up 1.2%. However, the Fund started July on a high note. ACE Ltd. announced a deal to buy Chubb Corporation in a cash-and-stock deal at a price near \$125. At the time of announcement Chubb was trading near \$95. As noted on the inside front cover, Chubb was nearly a 5% position. While we are happy with the 30% premium, we are sad to see one of our terrific portfolio companies absorbed.

Great companies, like those in the Fund's portfolio, are treasured by investors and envied by competitors. This explains why two of the Fund's 20 portfolio companies are in the process of being acquired by their competitors (Sigma-Aldrich Corp. and Chubb Corp.). The competition envies the brands and business positions of the two companies; rather than invest billions of dollars to try to recreate those advantages, Merck KGaA and Ace Ltd., respectively, decided to buy them directly. It is another benefit of owning exceptional businesses.

We have been pleased with the operating performance of our portfolio companies. Not only were they excellent businesses when we purchased them, the companies have maintained or improved their positions since we acquired shares. To each company in the portfolio we pay the ultimate compliment--- we would invest in it today, had we not already done so!

Recently there have been tremors in the market related to China and Greece. For short-term traders, these events may be incredibly important. For long-term investors, neither event is likely to create an issue. The Fund's portfolio has virtually no exposure to Greece's economy nor Greek debt; hiccups which may arise due to China's stock market fluctuations are unlikely to affect any Fund portfolio company in a significant way. Despite many newspaper columns and lots of television time devoted to each, neither impacts the long-term investment merits of our Fund's companies.

Along with solving a number of problems, technology has been terrific at creating distractions. Universal adoption of internet-connected smartphones, in addition to networks like Facebook and Twitter, help connect people; however that interconnection also works to distribute unnecessary, and often inaccurate, information. Investors are inundated with more uninformed opinions than ever before, with many pundits encouraging short-term behavior. One professional on a network can predict a collapse in a market as the next professional predicts a boom. It often leads us to ask: what is their profession? Predictions like these are worthless, since they provide no insight while at the same time encouraging harmful behavior. All predictions of short-term stock market prices are guesses. Investing involves tuning out the uninformed background noise so that you can focus on the long-term metrics of a business. With that mindset, we are very confident in the Fund's portfolio.

As always, we love hearing from our shareholders. However, we won't comment on any undisclosed purchases or sales that the Fund has made or is considering. With that caveat in mind, please feel free to contact us.

Notes to Financial Statements (unaudited)

(1) Organization.

Eagle Capital Growth Fund, Inc., a Maryland corporation (“Fund”), is a diversified closed-end investment company subject to the Investment Company Act of 1940.

(2) Significant Accounting Policies.

The following is a summary of the significant accounting policies followed by the Fund not otherwise set forth in the Notes to the Financial Statements:

**Dividends and distributions**—Distributions to shareholders from the Fund’s net investment income and realized net long- and short-term capital gains will be declared and distributed at least annually.

**Investments**— Investments in equity securities are valued at the closing market price (as of the close of regular trading on the New York Stock Exchange) on the applicable valuation date. If no such closing market price is available on the valuation date, the Fund uses the then most recent closing market price.

In the unlikely event that there is no current or recent closing market price for a portfolio security (whether equity or debt) traded in the over-the-counter market, then the Fund uses the most recent closing bid price. If there is no closing bid price for a portfolio security for a period of ten (10) consecutive trading days, then the Fund’s Audit Committee or other appropriate committee shall determine the value of such illiquid security.

The Fund uses the amortized cost method to determine the carrying value of short-term debt obligations. Under this method, investment securities are valued for both financial reporting and Federal tax purposes at amortized cost, which approximates fair value. Any discount or premium is amortized from the date of acquisition to maturity.

Investment security purchases and sales are accounted for on a trade date basis. Interest income is accrued on a daily basis while dividends are included in income on the ex-dividend date.

**Use of estimates**—The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Federal income taxes**—The Fund intends to comply with the general qualification requirements of the Internal Revenue Code applicable to regulated investment companies such as the Fund. The Fund plans to distribute annually at least 90% of its taxable income, including net long-term capital gains, to its shareholders. In order to avoid imposition of the excise tax applicable to regulated investment companies, the Fund intends to declare as dividends in each calendar year an amount equal to at least 98% of its net investment income and 98% of its net realized capital gains (including undistributed amounts from previous years).

The following information is based upon the Federal income tax basis of portfolio investments as of June 30, 2015:

Gross unrealized appreciation	\$ 10,140,278
Gross unrealized depreciation	--
Net unrealized appreciation	\$ 10,140,278
Federal income tax basis	\$ 13,910,162
Total common stock investments	\$ 24,050,440

Expenses—The Fund’s service providers bear all of their expenses in connection with the performance of their services. The Fund bears all of its expenses incurred in connection with its operations including, but not limited to, investment advisory fees (as discussed in Note 3), legal and audit fees, taxes, insurance, shareholder reporting and other related costs. As noted in Note 3, the Fund’s investment advisor, as part of its responsibilities under the Investment Advisory Agreement, is required to provide certain internal administrative services to the Fund at such investment advisor’s expense. The Investment Advisory Agreement provides that the Fund may not incur annual aggregate expenses in excess of two percent (2%) of the first \$10 million of the Fund’s average net assets, one and a half percent (1.5%) of the next \$20 million of the average net assets, and one percent (1%) of the remaining average net assets for any fiscal year. Any excess expenses are the responsibility of the investment advisor.

---

**Fair Value Accounting**—Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provides a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access. All of the Fund's investments are classified as Level 1.

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

### (3) Certain Service Providers Arrangements

**Investment advisor**—For its services under the Investment Advisory agreement, the investment advisor receives a monthly fee calculated at an annual rate of three-quarters of one percent (0.75%) of the weekly net asset value of the Fund, as long as the weekly net asset value is at least \$3.8 million. The investment advisor is not entitled to any compensation for any week in which the average weekly net asset value falls below \$3.8 million. Pursuant to the Investment Advisory Agreement, the investment advisor is required to provide certain internal administrative services to the Fund at the investment advisor's expense.

Effective June 1, 2007, following shareholder approval of the Investment Advisory Agreement, Sims Capital Management LLC ("SCM") began serving as the Fund's investment advisor. Pursuant to the Investment Advisory Agreement, SCM is responsible for the management of the Fund's portfolio, subject to oversight by the Fund's Board of Directors. Luke E. Sims, a Director, President and Chief Executive Officer of the Fund and owner of more than five percent of the Fund's outstanding shares, owns 50% of SCM. David C. Sims, a Director, Chief Financial Officer, Chief Compliance Officer and Secretary of the Fund and the son of Luke E. Sims, owns the remaining 50% of SCM.

**Custodian**— Bank of America Corporation serves as the Fund's custodian pursuant to a custodian agreement. As the Fund's custodian, Bank of America receives fees and compensation of expenses for services provided including, but not limited to, an annual account charge, annual security fee, security transaction fee and statement of inventory fee.

**Transfer Agent**— American Stock Transfer & Trust Company ("AST") serves as the Fund's transfer agent and dividend disbursing agent. AST receives fees for services provided including, but not limited to, account maintenance fees, activity and transaction processing fees and reimbursement for its out-of-pocket expenses. AST also acts as the agent under the Fund's Dividend Reinvestment and Cash Purchase Plan.

### (4) Dividend Reinvestment and Cash Purchase Plan.

The Fund has a Dividend Reinvestment and Cash Purchase Plan ("DRIP") which allows shareholders to reinvest cash dividends and make cash contributions. Pursuant to the terms of the DRIP, cash dividends may be used by the DRIP agent to either purchase shares from the Fund or in the open market, depending on the most favorable pricing available to DRIP participants. Voluntary cash contributions from DRIP participants are used to purchase Fund shares in the open market. A complete copy of the DRIP is available on the Fund's website ([www.eaglecapitalgrowthfund.com](http://www.eaglecapitalgrowthfund.com)) or from AST, the DRIP agent.

(5) Fund Investment Transactions

Purchases and sales of securities, other than short-term securities, for the six-month period ended June 30, 2015 were \$2,990,356 and \$3,953,566, respectively.

(6) Financial Highlights.

The Financial Highlights present a per share analysis of how the Fund's net asset value has changed during the periods presented. Additional quantitative measures expressed in ratio form analyze important relationships between certain items presented in the financial statements. The total investment return based on market value assumes that shareholders bought into the Fund at the bid price and sold out of the Fund at the bid price, if no shares traded on the last trading day of the period. In reality, shareholders buy into the Fund at the asked price and sell out of the Fund at the bid price. Therefore, actual returns may differ from the amounts shown.

The Board reviewed other factors in determining to retain SCM as investment advisor including, among other things, the nature, extent and quality of services provided by SCM, the cost of services provided by SCM (and benefits to be realized by SCM as a result of its relationship with the Fund), the economies of scale that may be realized as the Fund grows, whether fee level reflects the economies of scale for the benefit of Fund investors, the

investment philosophy of SCM, the Fund's portfolio turnover, best execution and trading costs, personnel considerations, resources available to SCM, SCM's ability to satisfy compliance obligations and other relevant factors. Overall, the Board remained satisfied with the nature, extent and quality of services provided by SCM.
