RCG COMPANIES INCORPORATED AND SUBSIDIARIES
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION

The condensed consolidated financial statements are unaudited and include the accounts of RCG Companies Incorporated and its subsidiaries ("RCG" or the "Company"), substantially all of which are wholly-owned (the "Company"), except for Lifestyle Innovations, Inc. ("LFSI") which RCG owns approximately 72%. On November 14, 2003 the Company changed its name from eResource Capital Group, Inc. to RCG Companies Incorporated to better reflect the nature and evolution of the Company's business strategy. All significant intercompany accounts and transactions have been eliminated in consolidation. These financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and the instructions of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by such generally accepted accounting principles for complete financial statements.

In the opinion of the management of the Company, the unaudited condensed consolidated financial statements contain all adjustments, consisting only of normal recurring adjustments, considered necessary for a fair statement of the results of operations for the interim periods presented, with no material retroactive adjustments. The results of operations for interim periods are not indicative of the results that may be expected for a full year due to the seasonality of the business. These interim unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto for the year ended June 30, 2003 included in the Company's Annual Report on Form 10-KSB.

The Company experienced an operating loss from continuing operations of \$4,624,000 during the first six months of fiscal 2004 and used cash from operations of \$3,451,000 during the period. The Company's working capital deficit of \$11,708,000 is substantially due to accounts payable and accrued expenses of \$22,933,000 and unearned income of \$20,540,000; these are only partially offset by \$23,576,000 of restricted cash and \$6,947,000 of prepaid expenses. A substantial portion of these amounts are from the Acquired Businesses (see Note 2) of the travel services business which operate at a higher volume than RCG has experienced historically. As a result of the integration of these acquired businesses, operating performance and negative

Edgar Filing: RCG COMPANIES INC - Form 10-Q

working capital, the Company is currently exploring additional sources of liquidity, including debt and equity financing alternatives, to provide additional cash to support operations, working capital and capital expenditure requirements for the next 12 months and to meet the scheduled debt repayments. Additionally, the Company plans on negotiating with its debt holders to extend some or all of this debt. If (i) we are unable to grow our business or improve our operating cash flows as expected, (ii) we suffer significant losses in our investments or operations, (iii) we are unable to realize adequate proceeds from investments, including our holdings of LFSI stock or (iv) we are unsuccessful in extending a substantial portion of the debt repayments, then we will need to secure alternative debt or equity financing to provide us with additional working capital. There can be no assurance that additional financing will be available when needed or, if available, that it will be on terms favorable to the Company and its stockholders. If the Company is not successful in generating sufficient cash flow from operations, or in raising additional capital when required in sufficient amounts and on terms acceptable to the Company, these failures would have a material adverse effect on the Company's business, results of operations and financial condition. If additional funds are raised through the issuance of equity securities, the percentage ownership of its then current stockholders would be diluted.

Certain reclassifications have been made to data from the previous period to conform with the presentation of the current period.

SIGNIFICANT ACCOUNTING POLICIES

RESTRICTED CASH

All cash received from customers in advance of flight departure must be deposited into escrow accounts in accordance with Department of Transportation regulations. Withdrawals from such escrow accounts are allowed in order to make required payments to air carriers at least 15 days in advance of departure. Hotels may be paid from

6

escrow after air carriers have been paid. Remaining funds are released from escrow 48 hours after return date. The Company classifies these escrow accounts as restricted cash. All escrow accounts are maintained in one financial institution and balances exceed insurable limits.

UNEARNED INCOME AND REVENUE RECOGNITION

Revenue from the sale of tour packages to either travel agents or directly to passengers is recognized on the departure date of the trip. Direct air and hotel costs, other related direct costs, and commissions associated with the tour package are also recognized on the departure date. Cash received in advance of the departure date is deposited into escrow accounts and recorded as unearned income.

IMPUTED INTEREST

Long-term obligations that do not state an interest rate are discounted to net present value using the Company's estimated incremental borrowing rate. The discount is amortized over the life of the obligation.

STOCK BASED COMPENSATION

In December 2002, the Financial Accounting Standards Board ("FASB")

Edgar Filing: RCG COMPANIES INC - Form 10-Q

issued Statement of Financial Accounting Standards ("SFAS") No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure". SFAS 148 amends SFAS 123, "Accounting for Stock-Based Compensation", to provide alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, SFAS 148 amends the disclosure requirements of SFAS 123 to require more prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported results. The additional disclosure requirements of SFAS 148 were effective for fiscal years ending after December 15, 2002. The Company has elected to continue to follow the intrinsic value method of accounting as prescribed by Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees" ("APB 25"), to account for employee stock options. Under APB 25, no compensation expense is recognized unless the exercise price of the Company's employee stock options is less than the market price of the underlying stock on the date of grant.

The Company's other significant accounting policies are the same as those applied at June 30, 2003 and disclosed in the Company's audited consolidated financial statements and notes thereto for the year ended June 30, 2003, included in the Company's Annual Report on Form 10-KSB.

NOTE 2. ACQUISITIONS

RCG concluded the acquisition of substantially all of the assets and liabilities of VE Holdings, Inc. ("Vacation Express") and SunTrips, Inc. ("SunTrips") ("the Acquired Companies"), effective October 31, 2003. These acquired companies were integrated into the Company's existing travel services business to form its largest operating segment. The Company had previously provided services to the acquired companies.

The Acquired Companies provide specialized distribution of leisure travel products and services. Vacation Express based in Atlanta, Georgia sells air and hotel packages to Mexico and Caribbean destinations and SunTrips, based in San Jose, California, sells air and hotel packages to Mexico, Dominican Republic, Costa Rica, Hawaii and the Azores out of Oakland, California and/or Denver, Colorado.

Under the terms of the asset purchase agreement, FS Tours, Inc. ("FS Tours") a wholly-owned subsidiary of Flightserv, which is a wholly-owned subsidiary of RCG, acquired substantially all of the assets and liabilities of Vacation Express, and FS SunTours, Inc. ("FS SunTours") a wholly-owned subsidiary of Flightserv, acquired substantially all of the assets and liabilities of SunTrips, except for certain excluded items, for a \$10 million non-interest bearing seven-year promissory note discounted to \$5.3 million at 12.00% per annum for imputed interest (the "Promissory Note") from Flightserv, Inc. ("Flightserv") secured by certain RCG investment holdings. Additionally, the Acquired Companies entered into a three-year agreement with MyTravel Canada Holidays, Inc. ("MyTravel Canada"), for certain services, including the purchasing of hotel accommodations on an exclusive basis. MyTravel Canada will be paid approximately \$4.5 million over three years under this agreement discounted to \$3.8 million at 12.00% per annum for imputed interest (the "Service Agreement Obligation").

7

The acquisition was accounted for under the purchase method of accounting in accordance with Statement of Financial Accounting Standards ("SFAS") No.141 "Business Combinations". The purchase price was allocated to the net assets acquired, including the liabilities assumed as of October 31, 2003,

Edgar Filing: RCG COMPANIES INC - Form 10-Q

based upon their estimated fair values as of that date with the remainder being recorded as goodwill. The consideration was allocated as follows (in thousands):

Current assets	\$ 25,115
Property and equipment	629
Goodwill	15,588
Other intangible assets	702

Total assets acquired	42,034
Current liabilities	32,646

Net assets acquired	\$ 9,388
	=====

On November 5, 2003, the technology solutions business completed the acquisition of SchoolWorld Software, a Pittsburgh, PA based educational software company. The consideration was allocated as follows (in thousands):

Property and equipment	\$ 14
Goodwill and other intangible assets	405

Total assets acquired	\$ 419
	=====

Operations of the acquired businesses are included in the condensed consolidated financial statements from the date of acquisition. The following sets forth pro forma consolidated financial information as if the acquisitions had taken place at the beginning of the periods presented (in thousands, except per share data):

	Three months Ended December 31,		Six months Ended December 31,	
	2003	2002	2003	2002
	-----	-----	-----	-----
Revenues	\$ 48,431	\$ 43,232	\$ 113,295	\$ 105,610
Net loss	\$ (5,149)	\$ (6,378)	\$ (15,920)	\$ (9,816)
Basic and diluted loss per share	\$ (0.29)	\$ (0.51)	\$ (1.00)	\$ (0.79)

The proforma information indicates that the losses for all periods presented would have been significantly higher had the businesses been acquired at the beginning of the periods presented. The additional proforma losses include the months of July through October of 2003 and the six months of July to December of 2002. Prior to the dates of acquisition, the acquired companies were significant customers of the travel business segment. The acquisition of the travel businesses was to more vertically integrate the travel business segment. It is the belief of management that the acquisition will result in the Company being able to obtain better purchasing power and to increase margins in the segment. Management believes that it will be able to operate the acquired business at a lower cost level and accordingly the losses presented on a proforma basis are not indicative of what they would have been had the Company acquired the business at an earlier date and been able to influence the operating results related thereto.

In connection with the acquisition, the Company paid a premium over the fair value of the assets acquired ("goodwill"). It is management's belief that it will be successful in implementing a strategy to improve operating performance of the travel business segment. Inasmuch as the acquisition was effective

Edgar Filing: RCG COMPANIES INC - Form 10-Q

October 31, 2003, significant time has not elapsed to indicate whether such plans will be successful. As a result, the Company has not, at December 31, 2003, performed an impairment test with respect to the acquired goodwill. In future periods, the Company will be monitoring the results of the acquisition to determine if its plans are achieved. If the Company is unsuccessful in reversing the losses of the acquired businesses, it could have significant impacts on the company, including but not limited to the recoverability of the carrying amount of goodwill.

NOTE 3. DISCONTINUED OPERATIONS

In March 2003 LFSI completed the acquisition of FutureSmart Systems, Inc. ("FutureSmart"), a manufacturer and distributor of structured wiring and home networking distribution panels. In May 2003 the Board of Directors approved a plan to dispose of FutureSmart. On October 17, 2003 LFSI completed the sale of all of the assets of FutureSmart for \$1,500,000. The \$1,500,000 was allocated to the secured creditors of FutureSmart, \$200,000 to LFSI and \$1,300,000 to the

8

other secured creditors. Thirty percent (\$450,000) was paid at Closing pro rata to the secured creditors (\$60,000 to LFSI) and the remainder of \$1,050,000 was placed in escrow. The escrowed amount is subject to various adjustments and settlement of certain other obligations. The remaining balance will be disbursed by the Escrow Agent no later than one year and one day after the Closing Date. While there are certain adjustments that may result from certain contingencies, the structure of the agreements are such that any adjustments will effect the consideration to the secured creditors and will not impact the proceeds to the Company. Accordingly, the Company has recognized the gain in the second quarter of 2003. The gain from discontinued operations reflects a gain on the disposal of these net assets of \$629,510, net of operating losses of the discontinued operations and net of the minority interest share of such net gain In the second quarter of 2003.

NOTE 4. GOODWILL AND OTHER INTANGIBLE ASSETS

Goodwill and other intangible assets consists of the following (in thousands):

	Travel Services -----	Technology Solutions -----	Home Technology -----	Corpora -----
Balance at June 30, 2003	\$ 939	\$ 7,702	\$ 6,900	\$ 1,000
Goodwill impairment			(2,848)	
Goodwill and other intangible assets acquired during period, net of \$39 mortization	16,251	405		-
	-----	-----	-----	-----
Balance at December 31, 2003	\$ 17,190	\$ 8,107	\$ 4,052	\$ 1,000
	=====	=====	=====	=====

During the quarter ended December 31, 2003, LFSI closed its Charlotte location and its CEO resigned. LFSI had revenues that were lower in the period ended December 31, 2003 than comparable periods of the preceding year by \$441,000 for the quarter and \$501,000 for the six month period. These factors, among others, caused management of RCG to evaluate its recorded goodwill attributable to LFSI as of December 31, 2003. As a result of this evaluation, RCG recorded an impairment of goodwill of \$2,848,000 during the quarter ended

Edgar Filing: RCG COMPANIES INC - Form 10-Q

December 31, 2003.

NOTE 8. STOCK OPTIONS AND WARRANTS

The Company accounts for stock option grants in accordance with APB Opinion No. 25, "Accounting For Stock Issued To Employees" and options and warrants issued to non-employees under SFAS No. 123, "Accounting For Stock Based Compensation". For the options and warrants issued to non-employees, the fair value of each award has been calculated using the Black-Scholes Model in accordance with SFAS No. 123.

The Company issued 2,500,000 warrants at an exercise price of \$2.44 in conjunction with the \$1.60 Common Stock Private Placement. The warrants are exercisable after the six month anniversary of the closing date, October 31, 2003. The Company used the Black-Scholes Model to allocate \$1.13 to the stock and \$.47 to the warrant.

The Company also issued 30,000 warrants at an exercise price of \$.50 in consideration for professional services and 200,000 warrants (100,000 with an exercise price of \$1.60 and 100,000 with an exercise price of \$1.85) to G. David Gordon, a related party, in consideration of legal fees. The Company used the Black-Scholes Model to record expenses related to these services in the amount of \$197,000.

LFSI entered into an employment agreement with an executive in March 2003 that involved the issuance of incentive and non-incentive stock options. The executive terminated her employment in October 2003 as a result of LFSI's disposal of FutureSmart. LFSI had accrued compensation expense for the issuance of the options during the vesting period. Upon her termination of employment, the compensation expense related to all unvested options recorded in previous periods was adjusted by decreasing compensation expense in the period of forfeiture. This resulted in the recognition of income for the three and six months ended December 31, 2003 of 244,000 and \$133,000, respectively.

Edgar Filing: RCG COMPANIES INC - Form 10-Q

The Company's pro forma net loss and net loss per share assuming compensation cost was determined under SFAS No. 123 for all options would have been the following (in thousands, except per share amounts):

In addition to this note, LFSI owed Mr. Pruitt, as of December 31, 2003, \$18,000. This amount is the result of loans made to LFSI by Mr. Pruitt in fiscal years 2003 and 2004. As of December 31, 2003, outstanding accrued interest on these obligations was \$10,000.

Mr. Pruitt owns 33.3% and is a director in a company that purchased franchise licenses and business operations from LFSI in three markets located in South Carolina. The loans, which arose during fiscal 2002 through fiscal 2004, bear interest at 12%. As of December 31, 2003, outstanding accrued interest on these obligations was \$72,000. These debts mature in fiscal 2004 and 2005. The above outstanding debt includes a Note for \$750,000 which is convertible into Common Stock of the Company at the lesser of \$2.10 per share or a 25% discount to the fair market value of the Company's Common Stock. The remaining \$964,000 is due from LFSI and its subsidiaries.

This business generated losses in the second quarter and first half of fiscal year 2004 of \$567,000 and \$410,000 compared with income of \$98,000 and \$726,000 in the same periods a year ago.

Home Technology

Our home technology business, LFSI, a separate publicly traded company of which the Company owns approximately 72% of the outstanding common stock, generated revenues in the second quarter and first half of fiscal year 2004 of \$117,000 and \$597,000 compared to \$558,000 and \$1,098,000 in the same periods a year ago. During the quarter ended December 31, 2003, LFSI closed its Charlotte location, had a significant decline in its

Atlanta location, and did not have any sales of franchises. All these factors caused the significant decline in both periods of fiscal year 2004 compared to fiscal year 2003.

Gross profit for the Company's home technology segment in the second quarter and

Edgar Filing: RCG COMPANIES INC - Form 10-Q

first half of fiscal year 2004 were \$35,000 and \$154,000 compared to a gross profit of \$349,000 and \$765,000 in the same periods a year ago. The gross profit percentage decreased significantly to 25.8% from 69.7% for the first six months of fiscal 2004 compared to the same period a year ago. The same factors in the preceding paragraph that caused the decrease in revenue contributed to the decrease in gross profit and gross profit percentage.

This business generated losses in the second quarter and first half of fiscal year 2004 of \$2,720,000 and \$3,078,000 compared with losses of \$376,000 and \$884,000 in the same periods a year ago.

The factors mentioned above, among others, caused management of RCG to evaluate its recorded goodwill attributable to LFSI as of December 31, 2003. As a result of this evaluation, RCG recorded an impairment of goodwill of \$2,848,000 during the quarter ended December 31, 2003. The officers and management of LFSI are in the process of developing a new business plan and securing additional funding.

Technology Solutions

The Company's technology solutions business generated revenues in the second quarter and first half of fiscal year 2004 of \$3,219,000 and \$6,754,000 compared to \$2,486,000 and \$5,705,000 in the same periods a year ago. The Acquired Business accounted for \$679,000 of the increase for both the second quarter and the first half of fiscal year 2004. The Existing Business generated an increase in revenues for the six months ended December 31, 2003 of approximately \$370,000 due to an increase in school budgets compared to the prior year.

Gross profit for the Company's technology solutions business in the second quarter and first half of fiscal year 2004 were \$424,000 and \$859,000 compared to a gross profit of \$239,000 and \$422,000 in the same periods a year ago. The gross profit percentage increased significantly from 7.4% to 12.7% for the first six months of fiscal 2004 compared to the same period a year ago. This increase was due to a higher gross margin on the Acquired Business and a recovery to normal margins aided by a decrease in costs because of dealing directly with manufacturers on targeted sales opportunities.

This business generated losses in the second quarter and first half of fiscal year 2004 of \$161,000 and \$170,000 compared with losses of \$80,000 and \$107,000 in the same periods a year ago. The increase in losses is primarily from costs incurred integrating the new acquisition as well as interest expense related to a line of credit that was not in place during the six month period ending December 31, 2002.

Corporate

Corporate incurred losses in the second quarter and first half of fiscal year 2004 of \$662,000 and \$966,000 compared with losses of \$173,000 and \$416,000 in the same periods a year ago. The increase in loss is due to increases in insurance, public relations, legal fees, and salaries and benefits as well as less of a gain from investments in the current fiscal year.

Seasonality

The Company experiences significant seasonality in its travel services and technology solutions businesses. The seasonality in the travel services business is due to the higher level of charter travel to Caribbean and Mexican destinations during the vacation season, which coincides with the Company's first and fourth fiscal quarters. The Company's technology solutions business generally experiences higher revenue in the first and fourth fiscal quarters, with the largest amount being recognized in the fourth quarter, due to the fact that the Company's year end

coincides with the year end of most schools and universities. These customers are tied to strict budgets and normally purchase more product at the start and the end of their fiscal year. Guarantee Obligation The Company's Travel Services segment has certain guarantees with an airline provider that agrees to a minimum number of hours during each program year and is required to pay any shortage to the provider. The segment does not anticipate a shortage and accordingly no amount has been accrued.

Liquidity and Capital Resources

The Company's net loss for the six months ended December 31, 2003 of \$4,638,000, was offset by an increase to shareholders' equity related to the sale of Common Stock and Warrants, with net proceeds of \$4,957,000, the issuance of Warrants for legal fees and other services valued at \$197,000, the issuance of Company Stock of \$380,000 for a business acquisition, and debt and accounts payable conversions totaling \$880,000, resulting in a net increase in shareholders' equity of \$1,776,000 for the six months ended December 31, 2003.

Minority interest decreased mainly due to the minority shareholders' portion of LFSI's losses of \$314,000.

For the six months ended December 31, 2003, operations used \$3,451,000 of cash primarily due to the travel services use of cash in the scheduling of flights. For the six months ended December 31, 2003, net cash used by investing activities was \$275,000 due primarily to business acquisitions. For the six months ended December 31, 2003, net cash provided by financing activities was \$5,132,000 due primarily to the Company receiving \$4,957,000 through the sale of the Company's Common Stock. At December 31, 2003, the Company had a working capital deficit of \$11,274,000. At December 31, 2003 the Company held cash and cash equivalents of \$2,242,000 and investments of \$392,000.

The Company experienced an operating loss from continuing operations of \$4,624,000 during the first six months of fiscal 2004. The Company's working capital deficit of \$11,274,000 is substantially due to accounts payable and accrued expenses of \$22,499,000 and unearned income of \$20,540,000; these are only partially offset by \$23,576,000 of restricted cash and \$6,947,000 of prepaid expenses. A substantial portion of these amounts are from the Acquired Businesses of the travel services segment which operate at higher dollar volume than RCG has experienced historically. The Company is currently exploring additional sources of liquidity, including debt and equity financing alternatives, to provide additional cash to support operations, working capital and capital expenditure requirements for the next 12 months and to meet the scheduled debt repayments. Additionally, the Company plans on negotiating with its debt holders to extend some or all of this debt. If (i) we are unable to grow our business or improve our operating cash flows as expected, (ii) we suffer significant losses on our investments or operations, (iii) we are unable to realize adequate proceeds from investments, including our holdings of LFSI stock, or (iv) we are unsuccessful in extending a substantial portion of the debt repayments, then we will need to secure alternative debt or equity financing to provide us with additional working capital. There can be no assurance that additional financing will be available when needed or, if available, that it will be on terms favorable to the Company and its stockholders. If the Company is not successful in generating sufficient cash flow from operations, or in raising additional capital when required in sufficient amounts and on terms acceptable to the Company, these failures would have a material adverse effect on the Company's business, results of operations and financial condition. If additional funds are raised through the issuance of equity securities, the percentage ownership of its then current stockholders

Edgar Filing: RCG COMPANIES INC - Form 10-Q

would be diluted.
