GENERAL INFORMATION

Outstanding Stock and Voting Rights.

Only stockholders of record at the close of business on May 9, 2008 (the "Record Date") are entitled to notice of and to vote at the Annual Meeting. As of the Record Date, there were issued and outstanding 80,587,762 shares of the Company's Common Stock, \$.001 par value per share (the "Common Stock"), the Company's only class of voting securities, and 950,000 shares of the Company's Series A Redeemable Convertible Preferred Stock (the "Series A Preferred Stock"). Each share of Common Stock entitles the holder thereof to cast one vote on each matter submitted to a vote at the Annual Meeting. The holders of shares of Series A Preferred Stock do not have any vote rights, except as required by law, and, accordingly, are not entitled to vote on the election of directors.

Voting Procedures.

At the Annual Meeting, the two nominees for election as Class I directors and the nominee for election as Class II director who receive the highest number of affirmative votes of shares of person or by proxy will be elected, provided a quorum is present. All other matters to come before the Annual Meeting will be decided by the affirmative vote of a majority of the shares of Common Stock represented at the Annual Meeting and entitled to vote on the matter presented in person or by proxy, provided a quorum is present. A quorum is present if at least a majority of the shares of Common Stock outstanding as of the Record Date are present in person or represented by proxy at the Annual Meeting. It is currently anticipated that votes will be counted and certified by an Inspector of Election who is currently expected to be either an employee of the Company or its transfer agent. In accordance with Delaware law, abstentions and "broker non-votes" (i.e. proxies from brokers or nominees indicating that such persons have not received instructions from the beneficial owner or other persons entitled to vote shares as to a matter with respect to which the brokers or nominees do not have discretionary power to vote) will be treated as present for purposes of determining the presence of a quorum. For purposes of determining approval of a matter presented at the meeting, abstentions will be deemed present and entitled to vote and will, therefore, have the same legal effect as a vote "against" a matter presented at the meeting. Broker non-votes will be deemed not entitled to vote on the subject matter as to which the non-vote is indicated. Broker non-votes will have no legal effect on the vote on the election of directors or on any other particular matter which requires the affirmative vote of the holders of a majority of the shares of Common Stock represented at the Annual Meeting.

The officers and directors of the Company who, in the aggregate own approximately 15.3% of the outstanding common stock of the Company on the Record Date, have indicated their intent to vote in favor of the nominees for director nominated by the Company.

The enclosed proxies will be voted in accordance with the instructions thereon. Unless otherwise stated, all shares represented by such proxy will be voted as instructed. Proxies may be revoked as noted above.

The entire cost of soliciting proxies, including the costs of preparing, assembling, printing and mailing this Proxy Statement, the proxy and any additional soliciting material furnished to stockholders, will be borne by the Company. Arrangements will be made with brokerage houses, banks and other custodians, nominees and fiduciaries to send proxies and proxy materials to the beneficial owners of stock, and the Company expects to reimburse such persons for their reasonable out-of-pocket expenses. Proxies may also be solicited by directors, officers or employees of the Company in person or by telephone, telegram or other means. No additional compensation will be paid to such individuals for these services.

PROPOSAL I: ELECTION OF DIRECTORS

The Company's By-Laws provide that the Board of Directors of the Company is divided into three classes (Class I, Class II and Class III). At each Annual Meeting of Stockholders, directors constituting one class are elected for a three-year term. At this year's Annual Meeting of Stockholders, two (2) Class I directors will be elected to hold office for a term expiring at the Annual Meeting of Stockholders to be held in 2011 and one (1) Class II director will be elected to hold office for a term expiring at the Annual Meeting of Stockholders to be held in 2009. It is the intention of the Board of Directors to nominate Dana A. Marshall and James A. McDivitt as Class I directors and General James M. Feigley as Class II director. Each director will be elected to serve until a successor is elected and qualified or until the director's earlier resignation or removal.

At this year's Annual Meeting of Stockholders, the proxies granted by stockholders will be voted individually for the election, as directors of the Company, of the persons listed below, unless a proxy specifies that it is not to be voted in favor of a nominee for director. In the event either or both of the nominees listed below shall be unable to serve, it is intended that the proxy will be voted for such other nominees as are designated by the Board of Directors. Each of the persons named below has indicated to the Board of Directors that he will be available to serve.

THE BOARD OF DIRECTORS RECOMMENDS THAT SHAREHOLDERS VOTE FOR THE ELECTION OF THE NOMINEES SPECIFIED BELOW.

Litigation

In July 2006, two class action complaints were filed by George Wood and Raymond Deedon against Applied Energetics, Inc. (formerly Ionatron, Inc.) and its founders. Each of the class actions was filed in the United States District Court for the District of Arizona and allege, among other things, violations of Section 10(b) of the Securities Exchange Act of 1934 and Rule 10b-5, claiming that we issued false and misleading statements concerning the development of its counter-IED product. The court consolidated these cases, and a consolidated amended complaint was served. The action has been dismissed against Joseph C. Hayden and Stephen W. McCahon with prejudice, and is proceeding against us and the remaining defendants. We are unable to evaluate the likelihood of an unfavorable outcome in this matter or estimate the range of potential loss, if any. However, we intend to defend ourselves vigorously in these legal proceedings.

In September 2006, a derivative action was filed by John T. Johnsen in Arizona State Court, Pima County, against certain of our current and former officers and directors, alleging, among other things, breach of fiduciary duty. On February 1, 2008, the state court extended the stay of the derivative action until 30 days after the federal district court rules on our motion to dismiss the consolidated complaint in the class action described above. The parties have executed a stipulation that has not yet been approved by the court pursuant to which, among other things, this action will be stayed until the federal action described above has been concluded.

In addition, we may from time to time be involved in legal proceedings arising from the normal course of business. As of the date of this report, we have not received notice of any other legal proceedings.

EXECUTIVE AND DIRECTOR COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS

Executive Compensation Philosophy

Our board of directors is committed to establishing and maintaining executive compensation practices designed to support the development of the company's capabilities and business objectives, enhance our profitability and enhance long-term shareholder value. Toward these aims, in March 2006, our board of directors established a compensation committee. This committee reports to the board on executive compensation matters.

Compensation Committee

Membership

The committee is currently comprised of three independent members of the Board. Director independence is, at a minimum, consistent with applicable rules for Nasdaq-traded issuers, Rule 16b-3 of the Exchange Act, and Section 162(m) of the Internal Revenue Code. The members of the committee are James K. Harlan (chairman), George P. Farley and James A. McDivitt.

Process and procedures for considering and determining executive and director compensation.

Among other things, the committee has the authority and responsibility under its charter to:

- Approve our compensation philosophy.
- Formulate, evaluate, and approve compensation for our officers, as defined in Section 16 of the Securities and Exchange Act of 1934 and rules and regulations promulgated therein.
- Formulate, approve, and administer cash incentives and deferred compensation plans for executives. Cash incentive plans are based on specific performance objectives defined in advance of approving and administering the plan.
- Oversee and approve all compensation programs involving the issuance of our stock and other equity securities.
- Review executive supplementary benefits, as well as our retirement, benefit, and special compensation programs involving significant cost to us, as necessary and appropriate.
- Review compensation for terminated executives.
- Oversee funding for all executive compensation programs.
- Review compensation practices and trends of other companies to assess the adequacy of our executive compensation programs and policies.
- Secure the services of external compensation consultants or other experts, as necessary and appropriate. These services will be paid from us provided board of directors budget. This system is designed to ensure the independence of such external advisors.
- Approve employment contracts, severance agreements, change in control provisions, and other compensatory arrangements with our executives.

Role of Chief Executive Officer in Recommending Executive Compensation.

The committee makes all compensation decisions related to our named executive officers. However, our Chief Executive Officer regularly provides information and recommendations to the committee on the performance of the executive officers, appropriate levels and components of compensation, including equity grants as well as other information as the committee may request.

-10-

Compensation Goals

Our compensation policies are intended to achieve the following objectives:

- reward executives and employees for their contributions to our growth and profitability, recognize individual initiative, leadership, achievement, and other valuable contributions to our company.
- to link a portion of the compensation of officers and employees with the achievement of our overall performance goals, to ensure alignment with the our strategic direction and values, and to ensure that individual performance is directed towards the achievement of our collective goals;
- to enhance alignment of individual performance and contribution with long-term stockholder value and business objectives by providing equity awards;
- to motivate and incentivize our named executive officers and employees to continually contribute superior job performance throughout the year; and
- to obtain and retain the services of skilled employees and executives so that they will continue to contribute to and be a part of our long-term success.

Compensation programs and policies are reviewed and approved annually but could be adjusted more frequently if determined by the committee. Included in this process is establishing the goals and objectives by which employee and executive compensation is determined. Executive officers' performance is evaluated in light of these performance goals and objectives. The committee consults the Chief Executive Officer on the performance of other company executives.

Compensation Surveys and Compensation Consultants

In determining compensation levels, we review compensation levels of companies that we deem to be similar to our company regardless of their location, competitive factors to enable us to attract executives from other companies, and compensation levels that we deem appropriate to retain and motivate our executives. From time to time, we retain the services of independent compensation consultants to review a wide variety of factors relevant to executive compensation, trends in executive compensation, and the identification of relevant peer companies. The committee makes all determinations regarding the engagement, fees, and services of our compensation consultants, and our compensation consultants report directly to our committee.

Elements of Compensation

Compensation for our executives is generally comprised of:

- base salary is targeted at a competitive level and used to reward superior individual job performance of each named executive officer and to encourage continued superior job performance;
- cash bonuses are tied to specific, quantifiable and objective performance measures based on a combination of corporate and individual goals, and discretionary bonuses;
- equity compensation is based on corporate and individual performance, and discretionary equity awards;
- severance and change of control agreements; and

other benefits plan and programs.

While executives have a greater of their total compensation at risk than other employees, the principles which serve as the basis for executive compensation practices apply to the compensation structures for all employees. Namely, corporate and individual performance are the key factors which determine incentive compensation.

The committee considers each component of executive compensation in light of total compensation. In considering adjustments to the total compensation of each named executive officer, the committee also considers the value of previous compensation, including outstanding equity grants and equity ownership.

-11-

Compensation paid to executive officers must be approved by our board of directors or by the committee. The committee conducts several meetings in person or telephonically to review and consider our compensation program and policies, as well as specific elements of executive compensation.

Base Salary

Base salaries for the named executive officers and other executives are determined based on market data analysis of comparable positions in the identified compensation peer group. A competitive base salary is provided to each executive officer to recognize the skills and experience each individual brings to the company and the performance contributions they make. When determining the base salary for an executive, we reference a target of the base salaries of similar positions in the identified compensation peer group. Other factors are also taken into account such as internal comparisons, individual skills and experience, length of time with the company, performance contributions and competitiveness of the marketplace. Salaries are reviewed on an annual basis, taking into account the factors described above, and are made in connection with annual performance reviews. The amounts of such adjustments are calculated using merit increase guidelines based on the employee's position within the relevant compensation range and the results of his or her performance review. The recommended percentage increases are established annually and reflect the committee's assessment of appropriate salary adjustments based on competitive surveys and general economic conditions.

Pursuant to his employment agreement in August 2006, Mr. Marshall, our Chairman, Chief Executive Officer and President received an annual base salary of established initially at \$250,000 with a provision for annual review of compensation. After a review of Mr. Marshall's performance and consideration of prevailing compensation levels for executive talent such as is required for the company, the committee increased Mr. Marshall's annual base salary to \$350,000, effective October 1, 2007.

In connection with his hiring and the negotiation of his compensation package in March 2006, Mr. Wallace, our Chief Financial Officer and Principal Accounting Officer, received an annual base salary of \$190,000. In February 2007, after the initial year of service and a review of compensation levels for the CFO of similarly sized public companies, the committee increased Mr. Wallace's annual base salary to \$210,000 effective February 1, 2007. On October 24, 2007, the board approved Mr. Wallace's employment agreement which increased Mr. Wallace's annual base salary to \$225,000.

During the fourth quarter of 2007, the committee reviewed prevailing practices for compensation of professionals in similar functions as Messrs. Hayden and McCahon, who as co-founders of our company have major stock holdings. During 2006, Mr. Hayden, our Executive Vice-President of Programs and Mr. McCahon, our Executive Vice-President of Engineering, each received an annual base salary of \$183,750. Effective December 3, 2007, the committee increased the annual base salaries of Messrs. McCahon and Hayden to \$235,000 and \$225,000, respectively.

The employment of Mr. McCommon - who had served as the company's Vice President of Finance and Chief Accounting Officer ended in December 2007 with Mr. McCommon continuing to support the company in a consulting capacity. The employment of Mr. Walik - who had been an officer and reporting employee -- ended in January 2007.

Other than the annual base salary for Mr. Marshall, the levels of annual base salary were determined based on the recommendation made by the Chief Executive Officer and approved by the committee. Each individual's educational qualifications, leadership skills, demonstrated knowledge and business accomplishments were also evaluated in determining base salary levels.

Cash Bonus

Our practice is to award cash bonuses based upon accomplishment of key objectives and overall performance. In addition, from time-to-time the committee may approve payment of bonuses to executives or key contributors for special accomplishment or other reasons. These goals may include progress made in technical programs and technology and product development, improved utilization of company resources and progress in relationships with key customers and strategic alliances and financing activities and the financial results of the company. Generally, the company does not disclose specific targets relating to these goals, because doing so may disclose confidential business information.

After careful consideration of Mr. Marshall's contributions and accomplishments during the first five months of employment, the committee awarded Mr. Marshall a \$60,000 cash bonus in December 2006 which was paid in January 2007. A similar annual review was completed in November 2007. Pursuant to this review which noted important progress in relationships with key customers, the company's technical programs, and improved utilization of company resources, the committee granted a cash bonus of \$125,000 to Mr. Marshall.

-12-

After a review of 2006 activities in progress in a number of areas, the committee established a compensation pool of approximately \$250,000 (approximately 3% of gross payroll) and requested that Mr. Marshall recommend allocations of this pool for grants – to be reviewed and approved by the committee, to key executives and employees based on their contribution to our objectives in 2006. As a part of the incentive bonus compensation program and in appreciation of their contribution to our goals during 2006, in 2006 the committee approved awards of cash bonuses of \$20,000, \$10,000 and \$10,000 to Messrs. Wallace, Hayden and McCahon, respectively. Additionally, the committee reviewed and approved Mr. Marshall's recommendation to compensate employees who were scheduled to forfeit excess earned vacation time due to our policy limiting the amount of time an employee is permitted to carry forward at year end. This payout was at a rate of 75% of the employees' standard hourly base pay. Among the employees included in this program, Messrs. Wallace, McCahon, Hayden, Dearmin and Walik received payments of approximately \$2,000, \$3,000, \$7,000, \$1,000 and \$5,000, respectively.

In October 2007, the board awarded Mr. Wallace a \$60,000 cash bonus in connection with the execution of his employment agreement. In November 2007, the committee granted cash bonuses of \$40,000, \$50,000 and \$40,000 to Messrs. Wallace, Hayden and McCahon, respectively based on their contributions toward advancing individual and corporate performance objectives identified by the Chief Executive Officer and the committee.

Long-Term Incentives

During 2007, the committee undertook an effort to review equity incentives existing for key employees and executives and define a long-term equity incentive program to reinforce and align employee and executive interests with those of the company and to aid in the retention and recruitment of key employee and managerial skills important to the progress of the company.

During the third quarter of 2007, the committee, working with input from the Chief Executive Officer, reviewed the equity compensation incentive positions of key executives and employees whose past and prospective contributions to the company merited special attention. This review was examined by the committee with input from Pearl Meyer and included considerations such as past contributions and effectiveness, key skills to contribute to the forward progress of the company, and incentives for continuity with the company. Pursuant to these evaluations, the committee approved the grant of 395,000 shares of restricted stock by the company to personnel other than the Chief Executive Officer.

During the third quarter 2007, following the approval of our 2007 Stock Incentive Plan by our stockholders, the committee considered, in conjunction with the Chief Executive Officer and experts from Pearl Meyer, the definition of a long term equity compensation program that would provided incentives for recruitment and retention of employees and executives in a competitive market for sometimes specialized scientific, technical and managerial skills. Another objective for this program was to increase alignment of employee and shareholder interests across the company and provide tangible reward for progress on key performance milestones. It was determined that the long term program should be well-defined and relatively predictable to support recruitment and retention objectives and include significant elements defined in the context to the company's annual planning and budgeting process that occurs during the fourth calendar quarter in respect of the following year. Implementation of long term incentives in the context of the planning and budgeting process supports linkage of a portion of such awards to achievement of specific performance milestones and objectives. Generally, the company does not disclose specific targets relating to these goals, because doing so may disclose confidential business information.

The long term program defined by the committee includes three major elements: (1) an annual equity grant based on a percentage of base compensation for all employees other than officers, (2) performance incentive grants to selected managerial, technical, and administrative employees at all levels with vesting of a portion of these grants keyed to achievement of objectives defined in the annual budgeting and planning process and approved by the Board Committee, and (3) special grants for specific accomplishments or contributions as determined by the Board Committee. The first and second elements of this program lead to expected grants made during the fourth quarter as

part of the budgeting and planning process, while the third element may lead to grants only from time to time, if at all. Generally, the restricted stock grants under the first two elements of this program vest over three years to provide for retention and long run commitment to the success of the company and the grants under the third element vest upon the earlier of the achievement of the performance objective or five years from grant.

This program seeks to provide all employees with an equity interest in the company and its success. The opportunity to realize significant increments over base annual compensation if the company succeeds in building value for customers and stockholders is intended to support recruitment of talented professionals who are sought by larger and more businesses. The use of restricted stock grants reflects a trend in equity compensation practices following the adoption of new accounting standards for equity based compensation and the desire to provide greater equity incentives with reduced stockholder dilution while utilizing fewer shares from stockholder approved equity compensation plans that are subject to overall and annual limits. Our restricted stock grants typically vest over several years and the performance based grants subject to accelerated vesting when targets are met and revocation if performance targets are not reached within defined periods. Specific performance targets are defined in the planning and budgeting process and may include items that are company confidential and, in some cases, subject to classification or confidentiality restrictions imposed by our customers. The portion of equity compensation grants linked to performance has initially been set at a modest percentage (about 10%), but this is intended to increase over time as the scope and predictability of the companies activities in various areas increase. The initial performance targets for this newly defined long term compensation program, have a high probability of being achieved. In future years, the portion and achievement likelihood for performance compensation may be adjusted with the growth, predictability, and maturity of the company's planning and budgeting process.

The Board Committee also reviewed the equity incentives of Mr. Marshall over the course of 2007. Upon assuming leadership of the company and pursuant to his employment agreement Mr. Marshall was awarded on August 18, 2006 an inducement stock option to purchase 800,000 shares of common stock, with an exercise price equal to \$6.30, the closing sale price of our common stock on August 17, 2006, which was the most recent closing price prior to the grant. These options become exercisable as to one quarter of the shares covered thereby on each of the first four year anniversaries of the date of grant and expire five years from the date of grant. We agreed to file a registration statement covering the shares issuable upon exercise of the option prior to August 18, 2007.

After consideration of the progress of the company under Mr. Marshall's leadership, in December 2006, the committee made a determination to make an additional grant to Mr. Marshall of options to purchase 200,000 shares of common stock at an exercise price of \$3.84, reflecting the closing sale price of our common stock on the date of grant. These options vest as to one third of the shares covered thereby on the date of grant and on each of the first two anniversaries of the date of grant and expire five years from the date of grant.

At the completion of Mr. Marshall's initial year the committee considered the progress of the company and determined additional incentives were warranted for advancing the development of the company. The committee negotiated an amendment of Mr. Marshall's employment agreement, and based on the negotiations and the forgoing factors, on October 26, 2007, the company granted to Mr. Marshall 275,000 shares of restricted common stock. This restricted stock grant vests as to 68,750 shares annually on each January 10th from 2008 through 2011.

In connection with the hiring of Mr. Wallace, the company granted options to purchase 100,000 shares of common stock with an exercise price of \$9.75 per share vesting 25,000 immediately and the remaining shares vesting in 25,000 increments annually on the anniversary date of each of the next three years. In the second quarter of 2006 the committee granted to Mr. Wallace an additional 200,000 options with an exercise price of \$7.20 vesting 100,000 annually on the anniversary of the grant. In December 2006, the committee made a grant of options to Mr. Wallace to purchase 120,000 shares of common stock at an exercise price of \$3.84, reflecting the closing price of our common stock on the date of grant. Pursuant to Mr. Wallace entering into an employment agreement with the company, on October 26, 2007, the committee granted Mr. Wallace 80,000 shares of restricted common stock. This restricted stock grant vests as to 26,666 shares on January 10, 2008 and 26,667 shares on each of January 10, 2009 and January 10, 2010.

On November 29, 2007, as part of the implementation of the long-term incentive program and after considering the equity compensation provided to persons in similar positions at other technology-based public companies, the committee determined to award 45,000 shares of restricted stock each to Messrs. Wallace, McCahon and Hayden. The committee determined that it was in best interest of the company and its management to provide equity compensation to Messrs. McCahon and Hayden that was based on their functional role and contributions to the company currently without material reference to equity those individuals own and based on their position as founders of the company. These restricted stock grants vest as to 13,500 shares on December 1, 2008, 2009 and 2010. Vesting of the remaining 4,500 shares awarded to each individual vest upon the achievement of certain specified performance targets.

Severance and Change in Control Agreements

Pursuant to Mr. Marshall's employment agreement, as amended, if Mr. Marshall's employment is terminated by us without "cause", or by Mr. Marshall for "good reason", he would receive payment of his base salary and benefits for 12 months, in monthly installments. Additionally, following a change of control, all unvested stock options and restricted stock granted to Mr. Marshall will immediately vest and become exercisable for the full term of the option and all other unvested equity awards shall immediately vest. In negotiating these terms, the committee determined that it was in the best interest of the company, in light of the authority vested in the Board as a whole to determine the acceptability of any discussions or prospective transactions, to provide Mr. Marshall as CEO with incentives to support the development and completion of transactions that might lead to a change of control without concern for the

impact of any such transaction to him relating to vesting of equity awards or cash compensation related to transition of employment that might occur following a change of control.

-14-

Pursuant to Mr. Wallace's employment agreement, if Mr. Wallace's employment is terminated by us without "cause", he would receive payment of his base salary and benefits for six months, in monthly installments. If Mr. Wallace is terminated within three months following a change of control, all unvested stock options granted to Mr. Wallace will immediately vest and become exercisable for the full term of the option and all other unvested equity awards shall immediately vest.

In conjunction with the termination of Mr. Walik's employment in January 2007, we entered into an agreement to pay an amount approximately equivalent to six months of base salary. In conjunction with the termination of Mr. McCommon's employment in December 2007, we entered into an agreement to pay an amount approximately equivalent to three months of base pay, in accordance with prior payroll practices, and entered into a short-term consulting agreement to facilitate a transition in personnel.

Other Benefit Plans and Programs

Executives are eligible to participate in benefit programs designed for all of our full-time employees. These programs include a 401(K) savings plan and medical, dental, disability and life insurance programs. We currently cover the majority of such medical, dental and insurance payments requiring a minor co-pay from the employee. Additionally, under our 401(K) plan employees are eligible to contribute to their 401(K) accounts through payroll deductions. In 2007, we implemented an employer match benefit where we matched 50% of the employees' 401(K) contribution up to 3% of their eligible compensation. Pursuant to his employment agreement, during 2007, Mr. Marshall received \$34,799 of tax gross up related to payments of temporary living and automobile expenses.

Employment Agreements for Named Executive Officers

We have employment agreements with Dana A. Marshall, our Chairman, Chief Executive Officer and President, and with Kenneth M. Wallace, our Chief Financial Officer and Principal Accounting Officer.

We entered into the employment agreement with Mr. Marshall on August 18, 2006, upon the commencement of his employment with our company, and we amended the agreement on October 24, 2007. Mr. Marshall's amended employment agreement provides for an annual base salary of \$350,000, subject to such increases as our board may determine. The agreement provides an annual incentive bonus each calendar year of up to 50% of the base salary for the calendar year if we achieve goals and objectives established by the committee. Pursuant to the employment agreement, we also provided an inducement grant to Mr. Marshall of options to purchase 800,000 shares of common stock at an exercise price of \$6.30 per share. These options become exercisable as to one quarter of the shares covered thereby on each of the first four year anniversaries of the date of grant and expire on the five years from the date of grant. Also, in accordance with the agreement, we filed a registration statement covering the shares issuable upon exercise of the option. Mr. Marshall is also eligible to receive such other cash bonuses or other compensation as may be awarded by the board during his employment including gross-up tax benefits for travel and relocation related expenses.

Pursuant to his employment agreement we agreed to pay Mr. Marshall a temporary housing allowance in an amount equal to his actual rental expense (plus an amount equal to any additional tax consequences to him for such payment, if any), up to \$2,500 per month, for a period of up to two years, while he establishes a permanent residence in the Tucson, Arizona area. We also agreed to pay Mr. Marshall an automobile allowance of \$1,000 per month.

Mr. Marshall's amended employment agreement is terminable by us immediately for "cause", or by us without cause upon 30 days prior written notice or by Mr. Marshall upon 30 days prior written notice, for any reason including "good reason". If Mr. Marshall's employment is terminated by us without cause, or by Mr. Marshall for good reason, he would receive payment of his base salary and benefits, in monthly installments, for 12 months. Additionally, following a change of control, all unvested stock options awarded to Mr. Marshall will immediately vest and become exercisable

for the full term of the option and all other unvested equity awards shall immediately vest.

We entered into the employment agreement with Mr. Wallace on October 26, 2007. Mr. Wallace's employment agreement provides for an annual base salary of \$225,000, subject to such increases as our board may determine. The agreement provides for a signing bonus of \$60,000 and an annual incentive bonus each calendar year of up to 25% of the base salary for the employment year if we achieve goals and objectives established by the committee. Pursuant to the employment agreement, we also granted to Mr. Wallace 80,000 shares of restricted common stock. The proposal, as well as any questions related thereto, should be directed to our Secretary.

If a stockholder submits a proposal after the December 14, 2008 deadline required under Rule 14a-8 of the Exchange Act but still wishes to present the proposal at our Annual Meeting of Stockholders (but not in our proxy statement) for the fiscal year ending December 31, 2008 to be held in 2009, the proposal, which must be presented in a manner consistent with our By-laws and applicable law, must be submitted to our Secretary in proper form at the address set forth above so that it is received by our Secretary not less than 50 nor more than 75 days prior to the meeting unless less than 65 days notice or prior public disclosure of the date of the meeting is given or made to stockholders, in which case, no less than the close of business on the tenth day following the date on which the notice of the date of the meeting was mailed or other public disclosure was made.

We did not receive notice of any proposed matter to be submitted by stockholders for a vote at this Annual Meeting and, therefore, in accordance with Exchange Act Rule 14a-4(c) any proxies held by persons designated as proxies by our Board of Directors and received in respect of this Annual Meeting will be voted in the discretion of our management on such other matter which may properly come before the Annual Meeting.
