As a result of the sale, the Company no longer owns Cyber 360, Inc. (formerly known as Staffing 360 Group, Inc.), a Nevada corporation, or its subsidiary Cyber 360 Inc. NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Interim Financial Statements

These unaudited condensed consolidated financial statements as of and for the three and nine months ended February 29, 2016 and February 28, 2015, respectively, reflect all adjustments including normal recurring adjustments, which, in the opinion of management, are necessary to present fairly the financial position, results of operations and cash flows for the periods presented in accordance with the accounting principles generally accepted in the United States of America.

These interim unaudited condensed consolidated financial statements should be read in conjunction with the Company's consolidated financial statements and notes thereto for the years ended May 31, 2015 and 2014, respectively, which are included in the Company's May 31, 2015 Annual Report on Form 10-K filed with the United States Securities and Exchange Commission on July 31, 2015. The Company assumes that the users of the interim financial information herein have read, or have access to, the audited consolidated financial statements for the preceding period, and that the adequacy of additional disclosure needed for a fair presentation may be determined in that context. The results of operations for the three and nine months ended February 29, 2016 are not necessarily indicative of results for the entire year ending May 31, 2016.

Year End and Principles of Consolidation

These consolidated financial statements and related notes are presented in accordance with generally accepted accounting principles ("GAAP") in the United States, and are expressed in U.S. dollars. The Company's consolidated fiscal year-end is May 31.

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. As described below, the Company consolidates PeopleSERVE PRS, Inc. ("PRS"), an entity of which it owns 49%, since the

Company is deemed to be the primary beneficiary of this entity. All significant inter-company transactions are eliminated.

Variable Interest Entities

On May 17, 2014, the Company purchased 49% of the issued and outstanding common stock of PRS. Pursuant to ASC 810, "Consolidation", PRS is deemed to be a variable interest entity since the Company is the primary beneficiary of PRS. Accordingly, the Company consolidates the results of PRS. As of February 29, 2016 the total assets and liabilities of PRS, which are consolidated, are \$2,164 and \$2,002 respectively. The total revenue and expenses for the three and nine months ended February 29, 2016 are \$3,867 and \$4,153 and \$9,767 and \$9,609, respectively. The total revenue and expenses for the three and nine months ended February 28, 2015 are \$2,745 and \$2,947 and \$7,846 and \$7,623, respectively.

Non-controlling interest in PRS is recorded in accordance with the provisions of ASC 810 "Consolidation", and is reported as a component of equity, separate from the parent company's equity.

Use of Estimates

The preparation of consolidated financial statements in accordance with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses in the reporting period. We regularly evaluate our estimates and assumptions related to valuation, impairment testing, earn-out liabilities, stock-based compensation and deferred income tax assets valuation allowances. We base our estimates and assumptions on current facts, historical experience and various other factors that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. The actual results experienced by us may differ materially and adversely from our estimates. To the extent there are material differences between our estimates and the actual results, our future results of operations will be affected. Significant estimates for the nine months ended February 29, 2016, February 28, 2015 and fiscal year ended May 31, 2015, respectively, include the valuation of intangible assets, including goodwill, liabilities associated with earn-out obligations and testing our long-lived assets for impairment.

STAFFING 360 SOLUTIONS, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, unless otherwise indicated, except share and per share amounts)

Cash and Cash Equivalents

The Company considers all highly liquid instruments with original maturities of three months or less when acquired, to be cash equivalents. The Company had no cash equivalents at February 29, 2016 or May 31, 2015.

Accounts Receivable

Accounts receivable are presented net of an allowance for doubtful accounts. The Company maintains allowances for doubtful accounts for estimated losses. The Company reviews the accounts receivable on a periodic basis and makes general and specific allowances when there is doubt as to the collectability of individual balances. In evaluating the collectability of individual receivable balances, the Company considers many factors, including the age of the balance, a customer's historical payment history, its current credit-worthiness and current economic trends. Accounts are written off after all efforts to collect have been exhausted. At February 29, 2016 and May 31, 2015, the Company had an allowance for doubtful accounts of \$428 and \$270, respectively.

Foreign Currency Translation

Assets and liabilities of subsidiaries operating in foreign countries are translated into U.S. dollars using both the exchange rate in effect at the balance sheet date or historical rate, as applicable. Results of operations are translated using the average exchange rates prevailing throughout the year. The effects of exchange rate fluctuations on translating foreign currency assets and liabilities into U.S. dollars are included in a separate component of stockholders' equity (accumulated other comprehensive loss), while gains and losses resulting from foreign currency transactions are included in operations.

Amortization of Deferred Financing Costs

Costs incurred in connection with obtaining financing are deferred and amortized on a straight-line basis over the term of the related loan. At February 29, 2016 such costs related to commissions, legal and due diligence fees totaled \$3,261. Amortization expense of deferred financing costs for the three and nine months ended February 29, 2016 and February 28, 2015 totaled \$154 and \$630 and \$37 and \$546, respectively. As of February 29, 2016, deferred financing costs amounted to \$1,669, net of accumulated amortization of \$1,592.

Fair Value of Financial Instruments

In accordance with ASC 820, “Fair Value Measurements and Disclosures”, the Company measures and accounts for certain assets and liabilities at fair value on a recurring basis. ASC 820 “Fair Value Measurements and Disclosures” establishes a common definition for fair value to be applied to existing generally accepted accounting principles that require the use of fair value measurements, and establishes a framework for measuring fair value and standards for disclosure about such fair value measurements.

ASC 820 “Fair Value Measurements and Disclosures” defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Additionally, ASC 820 requires the use of valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. These inputs are prioritized below:

- Level 1: Observable inputs such as quoted market prices in active markets for identical assets or liabilities
- Level 2: Observable market-based inputs or unobservable inputs that are corroborated by market data
- Level 3: Unobservable inputs for which there is little or no market data, which require the use of the reporting entity’s own assumptions.

STAFFING 360 SOLUTIONS, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, unless otherwise indicated, except share and per share amounts)

The Company did not have any Level 2 or Level 3 assets or liabilities as of February 29, 2016 or May 31, 2015, with the exception of its convertible notes payable, promissory notes, bonds payable and its earn-out liabilities.

Cash is considered to be highly liquid and easily tradable as of February 29, 2016 and May 31, 2015 and therefore classified as Level 1 within our fair value hierarchy.

ASC 825-10-25, "Fair Value Option" expands opportunities to use fair value measurements in financial reporting and permits entities to choose to measure many financial instruments and certain other items at fair value. The Company did not elect the fair value options for any of its qualifying financial instruments.

Revenue Recognition

The Company recognizes revenue when it is realized or realizable and earned. The Company considers revenue realized or realizable and earned when all of the following criteria are met: (i) persuasive evidence of an arrangement exists, and (ii) the services have been rendered to the customer, and (iii) the sales price is fixed or determinable, and (iv) collectability is reasonably assured.

Goodwill

Goodwill represents the excess of the purchase price over the fair value of net assets acquired in business combinations. ASC 350-30-35-4, "requires that goodwill be tested for impairment at the reporting unit level (operating segment or one level below an operating segment) on an annual basis and between annual tests when circumstances indicate that the recoverability of the carrying amount of goodwill may be in doubt". Application of the goodwill impairment test requires judgment, including the identification of reporting units, assigning assets and liabilities to reporting units, assigning goodwill to reporting units, and determining the fair value. Significant judgments required to estimate the fair value of reporting units include estimating future cash flows, determining appropriate discount rates and other assumptions. Changes in these estimates and assumptions could materially affect the determination of

fair value and/or goodwill impairment for each reporting unit. There were no impairments recorded for the periods presented.

Reclassifications

Certain reclassifications have been made to conform the prior period data to the current presentations.

Recent Accounting Pronouncements

On February 25, 2016, the FASB issued ASU 2016-02, "Leases" (Topic 842). It is expected to be effective for fiscal years and interim periods beginning after December 15, 2018 for public entities. Early application is permitted. Under the new provisions, all lessees will report a right-of-use asset and a liability for the obligation to make payments for all leases with the exception of those leases with a term of 12 months or less. All other leases will fall into one of two categories: (i) Financing leases, similar to capital leases, which will require the recognition of an asset and liability, measured at the present value of the lease payments and (ii) operating leases which will require the recognition of an asset and liability measured at the present value of the lease payments. Lessor accounting remains substantially unchanged with the exception that no leases entered into after the effective date will be classified as leveraged leases. For sale leaseback transactions, the sale will only be recognized if the criteria in the new revenue recognition standard are met. The Company is currently evaluating the impact of adopting this guidance.

In January 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2016-01, which amends the guidance relating to the classification and measurement of financial instruments. Changes to the current guidance primarily affect the accounting for equity investments, financial liabilities under the fair value option, and the presentation and disclosure requirements for financial instruments. In addition, the ASU clarifies guidance related to the valuation allowance assessment when recognizing deferred tax assets resulting from unrealized losses on available-for-sale debt securities. The new standard is effective for fiscal years and interim periods beginning after December 15, 2017, and upon adoption, an entity should apply the amendments by means of a cumulative-effect adjustment to the balance sheet at the beginning of the first reporting period in which the guidance is effective. Early adoption is not permitted except for the provision to record fair value changes for financial liabilities under the fair value option resulting from instrument-specific credit risk in other comprehensive income. The Company is currently evaluating the impact of adopting this guidance.

In November 2015, the FASB issued ASU 2015-17, “Balance Sheet Classification of Deferred Taxes”. Currently deferred taxes for each tax jurisdiction are presented as a net current asset or liability and net noncurrent asset or liability on the balance sheet. To simplify the presentation, the new guidance requires that deferred tax liabilities and assets for all jurisdictions along with any related valuation allowances be classified as noncurrent in a classified statement of financial position. This guidance is effective for interim and annual reporting periods beginning after December 15, 2016, and early adoption is permitted. The Company is currently evaluating the impact of adopting this guidance.

In September 2015, the FASB issued ASU 2015-16, “Simplifying the Accounting for Measurement-Period Adjustments”. Changes to the accounting for measurement-period adjustments relate to business combinations. Currently, an acquiring entity is required to retrospectively adjust the balance sheet amounts of the acquiree recognized at the acquisition date with a corresponding adjustment to goodwill as a result of changes made to the balance sheet amounts of the acquiree. The measurement period is the period after the acquisition date during which the acquirer may adjust the balance sheet amounts recognized for a business combination (generally up to one year from the date of acquisition). The changes eliminate the requirement to make such retrospective adjustments, and, instead require the acquiring entity to record these adjustments in the reporting period they are determined. The new standard is effective for both public and private companies for annual reporting periods beginning after December 15, 2015. The Company is currently evaluating the impact of adopting this guidance.

In August 2015, FASB issued Accounting Standards Update (“ASU”) 2015-15, “Interest - Imputation of Interest (Subtopic 835-30).” ASU 2015-15 provides guidance as to the presentation and subsequent measurement of debt issuance costs associated with line of credit arrangements. The new standard is effective for fiscal years beginning after December 15, 2015. The Company is currently evaluating the impact of adopting this guidance.

In August 2015, the FASB issued ASU No. 2015-14, “Revenue From Contracts With Customers (Topic 606)”. The amendments in this ASU defer the effective date of ASU 2014-09 “Revenue From Contracts With Customers (Topic 606)”. Public business entities should apply the guidance in ASU 2014-09 to annual reporting periods beginning after December 15, 2017, including interim reporting periods within that reporting period. Earlier application is permitted only as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that reporting period. We are still evaluating the effect of the adoption of ASU 2014-09.

In April 2015, the FASB issued ASU 2015-03, “Imputation of Interest – Simplifying the Presentation of Debt Issuance Costs.” This guidance requires that the debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the debt liability, consistent with the presentation of a debt discount. This amendment is effective for fiscal years and interim periods within those fiscal years, beginning after December 15, 2015. Early adoption is permitted. The Company is currently evaluating the impact on its consolidated financial statements of adopting this new guidance but at this time does not expect it to have an impact on the Company’s consolidated financial statements.

NOTE 3 – EARNINGS (LOSS) PER COMMON SHARE

The Company utilizes the guidance per ASC 260, “Earnings per Share”. Basic earnings per share are calculated by dividing income available to stockholders by the weighted average number of common stock shares outstanding during each period. Diluted earnings per share are computed using the weighted average number of common stock shares and dilutive common share equivalents outstanding during the period. Dilutive common stock share equivalents consist of common shares issuable upon the conversion of preferred stock, convertible notes and the exercise of stock options and warrants (calculated using the modified treasury stock method). Such securities, shown below, presented on a common share equivalent basis and outstanding as of February 29, 2016 and February 28, 2015 have been excluded from the per share computations, since its inclusion would be anti-dilutive:

Earn-out Liability

The earn-out liability is comprised of contractual contingent liabilities resulting from the Company's acquisitions. The provisions basically state that the seller of a business may receive additional future compensation based upon the business achieving certain future financial performance levels. The earn-out transactions were accounted for under the purchase method in accordance with ASC 805.

Pursuant to the acquisition of The JM Group Limited ("The JM Group"), the purchase price includes a cash payment to the shareholders for performance-based compensation of a) £850 if the gross profit for the 12 month period ending on the anniversary date of the date of completion (the "Anniversary TTM Gross Profit") is equal to 90% or more of the gross profit for the twelve months ending October 31, 2015 (the "Completion TTM Gross Profit"); or (b) if the Anniversary TTM Gross Profit is less than 90% of the Completion TTM Gross Profit, a sum equal to £850 multiplied by the Anniversary TTM Gross Profit/Completion TTM Gross Profit. The Company recorded the maximum contingent liability amount of £850 (\$1,180). At February 29, 2016 the remaining balance was \$1,180.

In addition, the Company will issue an aggregate of 20,000 shares of Common Stock valued at \$4.70 totaling \$94, if the Anniversary Gross Profit (defined) of the JM Group is 100% or more the Completion Gross Profit (defined). For the three and nine months ended February 29, 2016 and February 28, 2015, rent expense amounted to \$293 and \$272 and \$815 and \$779, respectively.

Legal Proceedings

On May 22, 2014, NewCSI Inc. ("NewCSI"), the former owners of CSI, filed a complaint in the United States District Court for the Western District of Texas, Austin Division ("the Court"), against the Company arising from the terms of the CSI Stock Purchase Agreement dated August 14, 2013. NewCSI claims that the Company breached a provision of the CSI Stock Purchase Agreement ("SPA § 2.7") that required the Company to calculate within 90 days after December

31, 2013 and pay to NewCSI fifty percent (50%) of certain “Deferred Tax Assets.” The Complaint sought payment of the amount allegedly owed under SPA § 2.7 and acceleration of earn-out payments provided for in the CSI Stock Purchase Agreement of \$1,400, less amounts paid to date, and attorneys’ fees. The Company responded denying the material allegations and interposing numerous affirmative defenses.

(Dollars in thousands, unless otherwise indicated, except share and per share amounts)

On December 31, 2014, NewCSI filed an amended complaint adding an additional count asserting an “Adjustment Event” had occurred requiring an acceleration of earn-out payments provided for in the CSI Stock Purchase Agreement of \$2,100, less amounts paid to date (\$1,671 balance at December 31, 2014), required should the Company or NewCSI “be unable, or admit to in writing, its inability to pay its debts as they become due.” Again, the Company responded denying the material allegations and interposing numerous affirmative defenses. The Earn-out liability was fully expensed at the time of the acquisition and fully accrued for on the Company’s balance sheet as part of the purchase accounting at the time of the acquisition. A full description of the Complaint can be found under Item 3 of the Company’s 10-K filed with the Securities and Exchange Commission on July 31, 2015.

The final pretrial conference in this matter was held April 22, 2015. A jury was selected on May 14, 2015, and the trial was held May 18-20, 2015. On May 20, 2015, the jury rendered a verdict, finding that the Company had not complied with SPA § 2.7 and owed \$154, but that NewCSI had not proved that the Company or NewCSI had become unable to pay debts as they came due. The Court had held that it was not a question for the jury to decide if damages for breach of SPA § 2.7 should include accelerated earn-out payments.

On June 3, 2015, NewCSI filed a Motion for Entry of Judgment as Matter of Law seeking entry of a judgment in the amount of \$154, plus accelerated earn-out payments in the amount of \$1,152, plus statutory interest. NewCSI did not challenge the jury verdict on the ability to pay issue. Also on June 3, 2015, the Company filed a Motion for Entry of Judgment as a Matter of Law seeking entry of judgment against NewCSI on the jury’s finding that the Company had not complied with Section 2.7 of the purchase agreement, or, in the alternative, for a reduction of damages to \$54 and to hold that NewCSI may not be awarded accelerated earn-out payments as that would result in an illegal penalty. As of July 1, 2015, the motions were fully briefed and submitted to the Court.

On October 21, 2015, the Court rendered a final judgment against the Company and in favor of NewCSI in the amount of \$1,307 Final Judgment Amount. The Court also awarded NewCSI: (i) pre-judgment interest on the Final Judgment Amount, in the amount of \$77; (ii) costs incurred in connection with the Complaint; and (iii) post-judgment interest on all amounts described above at a rate of 0.23% per annum from the date of this final judgment until such amounts are paid in full. In rendering its final judgment, the Court granted NewCSI’s post-verdict Motion for Entry of Judgment as a Matter of Law in part and denied the Company’s post-verdict Motion for Entry of Judgment as a Matter of Law in its entirety. The Company believes the final judgment is unsupported by the evidence and contrary to the law, and filed its notice of appeal of the final judgment to the United States Court of Appeals for the Fifth Circuit on January 6, 2016. In the Company’s financial results filed as part of this Form 10-Q for the period ending February 29, 2016, the Company accrued for this matter in the amount of \$1,593, which is in excess of the Final Judgement

Amount.

On January 15, 2016, a Magistrate Judge issued a Report and Recommendation to award NewCSI \$505 in attorneys' fees (a request for additional post-trial attorneys' fees totaling \$47 is still pending). These attorney fees awards, if they are approved and adopted by the District Judge, would increase the total award to \$1,957. Thus, the accrual reserves held by the Company would be deficient by \$364. The Company will take the appropriate steps to record the additional reserve deficiency based on the information received, if they are approved and adopted by the District Judge.

In addition, since the filing of the Form 10-Q on January 14, 2016, two of the Company's principal lenders funded the bond required to suspend the judgment. The bond was posted on February 9, 2016 in the amount of \$1,405 and therefore the Company will not be required to satisfy the judgment from its operational resources while the Company's appeal is pending.

We believe the Company acted in a manner consistent with our contractual rights, and we intend to aggressively defend the Company against this claim which we believe is not meritorious. Nevertheless, there can be no assurance that the outcome of this litigation will be favorable to the Company.

On November 13, 2015, in a separate proceeding, Staffing 360 initiated a Judicial Arbitration and Mediation Services Arbitration against the three shareholders of NewCSI, each a former Staffing 360 officer and employee. In the Demand for Arbitration and Statement of Claim, Staffing 360 alleges that these individuals breached their employment agreements with Staffing 360 and the fiduciary duties each owed to the Company.

On February 17, 2016, a previous law firm, filed suit in the Supreme Court of the State of New York alleging that the Company owes \$759, for legal services rendered. The Company disagrees with the quantum and quality of legal services provided by the firm to the Company. On March 17, 2016, the Company reached a settlement with the law firm in the amount of \$505 to be paid in equal installments over 24 months beginning in April 2016.

NOTE 10 – ACQUISITIONS

In accordance with ASC 805, the Company accounts for acquisitions using the purchase method under which the acquisition purchase price is allocated to the assets acquired and liabilities assumed based upon their respective fair values. The Company utilizes management estimates and, in some instances, may retain the services of an independent third-party valuation firm to assist in determining the fair values of assets acquired, liabilities assumed and contingent consideration granted. Such estimates and valuations require us to make significant assumptions, including projections of future events and operating performance.

On July 8, 2015, the Company purchased 100% of the membership interests in Lighthouse. The aggregate purchase price was \$6,133, paid as follows: (i) cash of \$2,498; (ii) 62,460 restricted common stock shares valued at \$8.20 totaling \$512; (iii) three year unsecured promissory note of \$2,498 and (iv) two year unsecured promissory note of \$625.

In connection with the acquisition of Lighthouse, the Company identified and preliminary recognized intangible assets of \$2,269 representing trade name, customer relationships and employment agreements/non-competes. The assets are being amortized on a straight line basis over their estimated life of four years, other than the trade name which is over fifteen years. The fair value allocation for the trade name, customer relationships and employment agreements/non-competes resulting from the acquisition of Lighthouse was based on management's estimates. The Company intends to retain the services of an independent valuation expert to determine the fair market value of these identifiable intangible assets. Once determined, the Company will reallocate the purchase price of the acquisition based on the results of the independent evaluation if they are materially different from the allocations as recorded on July 8, 2015. The Company anticipates this will be completed prior to filing its May 31, 2016 Form 10-K Annual

Report and reflected in its upcoming audited consolidated financial statements at such date.

The aggregate purchase price was \$6,134, paid as follows: (i) cash of \$2,498; (ii) 62,460 restricted common stock shares valued at \$8.20 totaling \$512; (iii) three year unsecured promissory note of \$2,498 and (iv) two year unsecured promissory note of \$625.

On November 5, 2015, the Company, through Longbridge Recruitment 360 Limited, a subsidiary of Staffing (UK), completed its eighth acquisition by purchasing 100% of the issued and outstanding equity interests of The JM Group Limited ("The JM Group"). The aggregate purchase price was \$3,517, paid as follows: (i) cash of £750 (approximately \$1,155); (ii) 40,000 restricted common stock shares valued at \$4.70 totaling \$188; (iii) six month unsecured promissory note of £500 (approximately \$770), (iv) performance based compensation in an amount in cash equal to £850 (approximately \$1,310) and (v) an aggregate of 20,000 shares of Common Stock valued at \$4.70 totaling \$94, if the Anniversary Gross Profit (defined) of the JM Group is 100% or more the Completion Gross Profit (defined). Group's Completion Gross Profit, an amount of shares equal to the product of (i) the Anniversary Gross Profit divided by the Completion Gross Profit and (ii) 20,000. If the Anniversary Gross Profit is less than 75% of the Completion Gross Profit, no shares are due.

Restructuring Plan and Implementation:

During the first and second quarters of fiscal 2015, the Company conducted a thorough review and evaluation of its business operations and strategies, the forecast for the staffing industry, and the business environment in general. The Company concluded that it was imperative to take immediate action to reduce short and medium-term debt service obligations, consulting/advisory agreements, employment costs and other corporate commitments that were overburdening the Company's working capital and ability to fund continuing business operations, raise additional equity capital and/or debt, and execute its business plan. As such, on September 3, 2014, the Company formally established a Restructuring Committee, comprised of a Chairman and four others selected from its board of directors to evaluate and formalize a Restructuring Plan. The Restructuring Plan was presented and adopted by the board of directors on September 3, 2014. Management planned to pursue each of the initiatives of the Restructuring Plan, some of which were contingent upon third parties' acceptance of the restructuring terms and may not be fully achieved.

Cost Reduction or Restructuring Goals and Key Initiatives:

Certain targeted initiatives have been and are being achieved through the following actions:

Short- and Medium-term debt service: The approved Restructuring Plan authorized management to approach existing debt holders with this proposal. The Company offered equity in the form of common stock and/or warrants in exchange for conversion or deferral of existing notes/obligations:

MANAGEMENT'S DISCUSSION AND ANALYSIS

(Dollars in thousands, unless otherwise indicated, except share and per share amounts)

Notes Payable and Other Debt obligations: The Restructuring Plan offered a meaningful incentive to outstanding Notes Payable holders to convert their principal and accrued interest to common stock and/or warrants rather than a cash payment; Note holders converted \$3,056 of principal and interest into 335,839 common stock shares and 369,423 warrants exercisable for a term of ten years at \$12.50. This action reduced the Company's cash outflows by approximately \$889 in the calendar year of 2015, and is anticipated to further reduce future cash outflows by approximately \$2,313 in the calendar year of 2016.

Modification of Series A Bonds: The Restructuring Plan modified the terms of the Series A Bonds conversion price from \$15.00 to \$10.00 with the intention of providing a meaningful incentive for the Series A Bond holders to convert their principal and interest into common stock and/or warrants on or before the maturity date of October 15, 2014, rather than redeem for cash. Bondholders converted \$3,710 of principal and interest into 370,969 common stock shares and 185,486 warrants exercisable for a term of three years at \$20.00 and extended the maturity to April 15, 2015. On May 11, 2015, the Company agreed with three of the remaining ten bond holders to extend the maturity date of the outstanding convertible bonds' \$175 in principal and \$16 in accrued interest to October 15, 2015 in exchange for 7,382 common stock shares, valued at \$48. The remaining seven bond holders totaling \$255 in principal and \$28 in accrued interest were repaid in full in May 2015. On November 10, 2015, the Company and three bondholders agreed to amend and extend the maturity date of the bonds to April 15, 2016 in exchange for 4,375 common stock shares, valued at \$24.

Modification of Series B Bonds: The Restructuring Plan modified the terms of the Series B Bonds conversion price from \$15.00 to \$12.00 with the intention of providing a meaningful incentive for the Series B Bond holders to convert their principal and interest into common stock by the maturity date of September 30, 2015, rather than redeem for cash. No bondholders elected to convert.

Effective October 30, 2015, the Company entered into three amended agreements. *Amendment 1* - Series B Holders owning an aggregate principal amount of \$55 in Series B Bonds agreed to extend the Maturity Date of the Series B Bond to March 31, 2016 and decrease the conversion rate and the price of common stock issued as interest payments on the Series B Bonds to \$10.00 per share. As consideration for amending the terms of the Series B Bonds, these Series B Holders received 2,500 shares of common stock for each \$100 (whole dollars) of principal amount of Series B Bond investment. The principal and accrued but unpaid interest are due on the date of maturity. On March 30, 2016, the bond holders agreed to extend the maturity date of the bonds to September 30, 2016. As consideration for extending the maturity date, the bond holders received an aggregate of 1,375 shares of common stock. *Amendment 2a & 2b* - Series B Holders owning an aggregate principal amount of \$827 in Series B Bonds agreed to modify the terms of the Series B Bonds to provide that (i) the Company shall make payments on the principal amount of the

Series B Bonds in six (6) equal tranches, every month, beginning on December 15, 2015 and (ii) the Company shall pay all accrued interest on the Series B Bonds by December 11, 2015, as calculated through December 15, 2015, at an increased rate of 18% beginning September 30, 2015. The interest rate reverted back to 12% for all interest payments made after December 15, 2015. In addition, the conversion rate and the price of common stock issued as interest payments on the Series B Bonds decreased from \$12.00 to \$10.00 per share. *Amendment 3a* - Series B Holders owning an aggregate principal amount of \$75 in Series B Bonds agreed to extend the Maturity Date until November 6, 2015. These bond holders were paid in full (\$75 in principal and \$3 in accrued interest) in accordance with the term of the amendment.

Earn-out Liabilities: The Restructuring Plan offered a meaningful incentive to the earn-out liability holders to convert their contingent future payments to common stock rather than cash payments. In conjunction with the sale of Cyber 360, effective January 1, 2015, the former shareholders of TRG were offered the opportunity and elected to convert their remaining earn-out liability of \$1,134 into common stock shares at \$10.00 per share. As a result, the Company issued 113,405 common stock shares.

Operational and Corporate commitments: The approved Restructuring Plan authorized management to cancel various on-going consulting and employment agreements and incur certain costs associated with this restructuring:

Consulting Agreements: The Company cancelled various on-going consulting agreements. This action reduced the Company's cash outflows by approximately \$432 in the calendar year of 2015.

Employment: The Company severed employment with one employee. This action increased the Company's cash outflows by approximately \$50 during the calendar year of 2015, and thereafter is anticipated to reduce the Company's future cash outflows by approximately \$624 annually.

Restructuring Fees: The Company estimated the cost associated with this restructuring to be approximately \$175. U.S. GAAP does not allow for a general accrual for restructuring costs. Therefore, any such costs have been and will continue to be expensed as incurred. To date, these fees have totaled approximately \$772 and together with employment related restructuring costs, are classified in Operating expenses - Restructuring.

Results of Operations

The Company believes the acquisitions consummated during calendar years 2015 and 2016 are performing as expected. We are confident that we can continue to grow these businesses and that they will allow us to attract further acquisitions in line with our stated Strategic Plan of achieving \$300 million of annualized revenue.

STAFFING 360 SOLUTIONS, INC.**MANAGEMENT'S DISCUSSION AND ANALYSIS****(Dollars in thousands, unless otherwise indicated, except share and per share amounts)**

The Company is vigilant in managing its operations and has developed a "Pathway to Profitability" program that is monitored constantly. This Pathway to Profitability includes overhead control, operational reviews, cash management, adequate capitalization, and our merger & acquisition program. Young, growing companies often confront struggles such as integration, financing, etc. We have invested for our future in building a strong corporate team which allows stronger financial reporting, compliance and commercial management. This investment has contributed to our losses in the short-term but we believe we will not need material additions to it as we grow, both organically and through acquisition.

For the three months ended February 29, 2016 as compared to the three months ended February 28, 2015

The following table sets forth the results of our operations for the three months ended February 29, 2016 and February 28, 2015 and as a percentage of revenue:

Service revenue

For the three months ended February 29, 2016, we had revenue of \$43,954 compared to \$30,964 for the three months ended February 28, 2015, an increase of \$12,990, or 42.0%, of which 31.3% is acquisition growth and (0.3)% is due to foreign currency translation.

Direct cost of services

Cost of revenue includes the cost of labor and other overhead costs (payroll wages, taxes and related insurance) as they relate to employees (temporary and permanent) as well as sub-contractors and consultants. For the three months ended February 29, 2016 and February 28, 2015, cost of revenue was \$36,363 and \$25,438, respectively. The increase of \$10,925, or 43%, is primarily is due to revenue growth coupled with additional costs incurred by the Lighthouse and The JM Group acquisitions completed in July and November 2015. Additionally, as the JM Group operates at lower margins than the Company's average, costs increased as a result of the change in business mix.

Gross profit and gross margin

Our gross profit for the quarters ended February 29, 2016 and February 28, 2015 was \$7,591 and \$5,526, respectively, an increase of 37.4%. Gross margin fell by approximately 60 basis points from the quarter ended February 28, 2015 to the quarter ended February 29, 2016, with the change driven by the addition of JM Group's lower margins in the current period.

Operating expenses

For the three months ended February 29, 2016, operating expenses amounted to \$8,242 as compared to \$6,462 for the three months ended February 28, 2015, an increase of \$1,780, or 27.6%. Despite increasing on an absolute basis, as a percentage of revenue, we saw an improvement from 20.9% for the three months ended February 28, 2015 to 18.8% for the three months ended February 29, 2016. As we continue to grow revenue and further leverage our existing support functions, we expect operating expenses as a percentage of revenue to continue to trend lower. For the three months ended February 29, 2016 and February 28, 2015, operating expenses consisted of the following:

(Dollars in thousands, unless otherwise indicated, except share and per share amounts)

For the three months ended February 29, 2016, the increase in our operating expenses as compared to the three months ended February 28, 2015 was primarily attributable to:

General and administrative expenses increased \$390, but improved from 4.2% of revenue to 3.8% from the three months ended February 28, 2015 to the three months ended February 29, 2016, respectively. The absolute increase is primarily attributable to the acquisition of Lighthouse and The JM Group during July and November, 2015, respectively. That increase is however partially offset by the Company's action to reduce consulting/advisory agreements, employment costs and other corporate commitments.

Compensation expenses increased \$1,062. The increase is primarily attributable to the acquisition of Lighthouse and The JM Group during July and November, 2015, respectively, coupled with increased commissions on higher gross margin. As a percentage of revenue, compensation expenses declined from 12.2% of revenue to 11.0% from the three months ended February 28, 2015 to the three months ended February 29, 2016, respectively.

An increase of \$135 in professional fees in the three months ended February 29, 2016 as compared to the three months ended February 28, 2015. The increase primarily relates to additional legal fees incurred in litigation; consulting, legal and accounting fees related to capital raising and acquisitions, as well as and additional expense incurred in investor relations

Other Income/Expense

For the three months ended February 29, 2016 and February 28, 2015, we incurred interest and financing expense of \$1,148 and \$460, respectively, relating to interest for convertible notes and other notes payable, accounts receivable financing, amortization of beneficial conversion feature, debt discount and deferred financing costs.

Net Loss from Continuing Operations

As a result of the factors described above, our net losses for the quarters ended February 29, 2016 and February 28, 2015 were \$1,842 and \$181, respectively, or a net loss per common share of \$(0.34) and \$(0.02) (basic and diluted), respectively.

For the nine months ended February 29, 2016 and February 28, 2015, cost of revenue was \$99,806 and \$79,610, respectively, an increase

of \$20,196 or 25.4%. The increase is due to revenue growth coupled with additional costs incurred by the Lighthouse and The JM Group acquisitions completed in July and November 2015. MANAGEMENT'S DISCUSSION AND ANALYSIS

(Dollars in thousands, unless otherwise indicated, except share and per share amounts)

Our primary uses of cash have been for professional fees related to our operations and financial reporting requirements and for the payment of compensation and benefits and consulting fees to related parties. All funds received have been expended in growing the business, implementing our business plan and funding operations. The following trends are reasonably likely to result in a material decrease in our liquidity over the near to long term:

- An increase in working capital requirements to finance targeted acquisitions,
- Addition of administrative and sales personnel as the business grows,
- Increases in advertising, public relations and sales promotions for existing and new brands as we expand within existing markets or enter new markets,
- The costs associated with being a public company, and
- Capital expenditures to add technologies.

As a result of our current and future potential financings, we believe that we will be able to implement our business plan and pursue the acquisition of a broad spectrum of staffing agencies primarily in the accounting and finance, information technology, engineering, administration and light industrial sectors. Financing transactions may include the issuance of equity or debt securities, obtaining credit facilities, or other financing mechanisms. However, the trading price of our common stock and a downturn in the U.S. equity and debt markets could make it more difficult to obtain financing through the issuance of equity or debt securities. Even if we are able to raise the funds required, it is possible that we could incur unexpected costs and expenses, fail to collect amounts owed to us, or experience unexpected cash requirements that would force us to seek alternative financing. Furthermore, if we issue additional equity or debt securities, stockholders may experience additional dilution or the new equity securities may have rights, preferences or privileges senior to those of existing holders of our common stock. Currently, dilutive common share equivalents totaling 3,688 consist of shares issuable upon the conversion of existing convertible notes, convertible Preferred Stock and the exercise of stock options and warrants.

Our liquidity may be negatively impacted by the significant costs associated with our public company reporting requirements, costs associated with newly applicable corporate governance requirements, including requirements under the Sarbanes-Oxley Act of 2002 and other rules implemented by the Securities and Exchange Commission. We expect all of these applicable rules and regulations to significantly increase our legal and financial compliance costs and to make some activities more time consuming and costly.

Early application is permitted. Under the new provisions, all lessees will report a right-of-use asset and a liability for the obligation to make payments for all leases with the exception of those leases with a term of 12 months or less. All other leases will fall into one of two categories: (i) Financing leases, similar to capital leases, which will require the recognition of an asset and liability, measured at the present value of the lease payments and (ii) operating leases which will require the recognition of an asset and liability measured at the present value of the lease payments. Lessor accounting remains substantially unchanged with the exception that no leases entered into after the effective date will be classified as leveraged leases. For sale leaseback transactions, the sale will only be recognized if the criteria in the new revenue recognition standard are met. The Company is currently evaluating the impact of adopting this guidance.

In January 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2016-01, which amends the guidance relating to the classification and measurement of financial instruments. Changes to the current guidance primarily affect the accounting for equity investments, financial liabilities under the fair value option, and the presentation and disclosure requirements for financial instruments. In addition, the ASU clarifies guidance related to the valuation allowance assessment when recognizing deferred tax assets resulting from unrealized losses on available-for-sale debt securities. The new standard is effective for fiscal years and interim periods beginning after December 15, 2017, and upon adoption, an entity should apply the amendments by means of a cumulative-effect adjustment to the balance sheet at the beginning of the first reporting period in which the guidance is effective. Early adoption is not permitted except for the provision to record fair value changes for financial liabilities under the fair value option resulting from instrument-specific credit risk in other comprehensive income. The Company is currently evaluating the impact of adopting this guidance.

In November 2015, the FASB issued ASU 2015-17, "Balance Sheet Classification of Deferred Taxes". Currently deferred taxes for each tax jurisdiction are presented as a net current asset or liability and net noncurrent asset or liability on the balance sheet. To simplify the presentation, the new guidance requires that deferred tax liabilities and assets for all jurisdictions along with any related valuation allowances be classified as noncurrent in a classified statement of financial position. This guidance is effective for interim and annual reporting periods beginning after December 15, 2016, and early adoption is permitted. The Company is currently evaluating the impact of adopting this guidance.

MANAGEMENT’S DISCUSSION AND ANALYSIS

(Dollars in thousands, unless otherwise indicated, except share and per share amounts)

In September 2015, the FASB issued ASU 2015-16, “Simplifying the Accounting for Measurement-Period Adjustments”. Changes to the accounting for measurement-period adjustments relate to business combinations. Currently, an acquiring entity is required to retrospectively adjust the balance sheet amounts of the acquiree recognized at the acquisition date with a corresponding adjustment to goodwill as a result of changes made to the balance sheet amounts of the acquiree. The measurement period is the period after the acquisition date during which the acquirer may adjust the balance sheet amounts recognized for a business combination (generally up to one year from the date of acquisition). The changes eliminate the requirement to make such retrospective adjustments, and, instead require the acquiring entity to record these adjustments in the reporting period they are determined. The new standard is effective for both public and private companies for annual reporting periods beginning after December 15, 2015. The Company is currently evaluating the impact of adopting this guidance.

In August 2015, FASB issued Accounting Standards Update (“ASU”) 2015-15, “Interest - Imputation of Interest (Subtopic 835-30)”. ASU 2015-15 provides guidance as to the presentation and subsequent measurement of debt issuance costs associated with line of credit arrangements. The new standard is effective for fiscal years beginning after December 15, 2015. The Company is currently evaluating the impact of adopting this guidance.

In August 2015, the FASB issued ASU No. 2015-14, “Revenue From Contracts With Customers (Topic 606)”. The amendments in this ASU defer the effective date of ASU 2014-09 “Revenue From Contracts With Customers (Topic 606)”. Public business entities should apply the guidance in ASU 2014-09 to annual reporting periods beginning after December 15, 2017, including interim reporting periods within that reporting period. Earlier application is permitted only as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that reporting period. We are still evaluating the effect of the adoption of ASU 2014-09.

In April 2015, the FASB issued ASU 2015-03, “Imputation of Interest – Simplifying the Presentation of Debt Issuance Costs”. This guidance requires that the debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the debt liability, consistent with the presentation of a debt discount. This amendment is effective for fiscal years and interim periods within those fiscal years, beginning after December 15, 2015. Early adoption is permitted. The Company is currently evaluating the impact on its consolidated financial statements of adopting this new guidance but at this time does not expect it to have an impact on the Company’s consolidated financial statements.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

Smaller reporting companies are not required to provide the information required by this item.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures.

We carried out an evaluation, under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act (defined below)). Based upon that evaluation, our principal executive officer and principal financial officer concluded that, as of the end of the period covered in this report, our disclosure controls and procedures were not effective to ensure that information required to be disclosed in reports filed under the Securities Exchange Act of 1934, as amended (the "Exchange Act") is recorded, processed, summarized and reported within the required time periods and is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Our management, including our principal executive officer and principal financial officer, does not expect that our disclosure controls and procedures or our internal controls will prevent all error or fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints and the benefits of controls must be considered relative to their costs. Due to the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected. Accordingly, management believes that the financial statements included in this report fairly present in all material respects our financial condition, results of operations and cash flows for the periods presented.

Change in Internal Control over Financial Reporting.

In addition, our management with the participation of our Principal Executive Officer and Principal Financial Officer have determined that no change in our internal control over financial reporting occurred during or subsequent to the quarter ended February 29, 2016 that has materially affected, or is (as that term is defined in Rules 13(a)-15(f) and 15(d)-15(f) of the Securities Exchange Act of 1934) reasonably likely to materially affect, our internal control over

financial reporting.

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those responsible for oversight of the registrant's financial reporting.

In its assessment of the effectiveness of internal control over financial reporting as of February 29, 2016, the Company determined that there were control deficiencies that constituted material weaknesses, as described below:

- 1) Inadequate segregation of duties, and
- 2) Inadequate procedures to test internal controls.

The Company intends to remedy the foregoing control deficiencies. A system of controls, no matter how well designed and operated, cannot provide absolute assurance that the objectives of the system of controls are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected.

PART II-OTHER INFORMATION

Item 1. Legal Proceedings

On May 22, 2014, NewCSI Inc. (“NewCSI”), the former owners of CSI, filed a complaint in the United States District Court for the Western District of Texas, Austin Division (“the Court”), against the Company arising from the terms of the CSI Stock Purchase Agreement dated August 14, 2013. NewCSI claims that the Company breached a provision of the CSI Stock Purchase Agreement (“SPA § 2.7”) that required the Company to calculate within 90 days after December 31, 2013 and pay to NewCSI fifty percent (50%) of certain “Deferred Tax Assets.” The Complaint sought payment of the amount allegedly owed under SPA § 2.7 and acceleration of earn-out payments provided for in the CSI Stock Purchase Agreement of \$1,400, less amounts paid to date, and attorneys’ fees. The Company responded denying the material allegations and interposing numerous affirmative defenses.

On December 31, 2014, NewCSI filed an amended complaint adding an additional count asserting an “Adjustment Event” had occurred requiring an acceleration of earn-out payments provided for in the CSI Stock Purchase Agreement of \$2,100, less amounts paid to date (\$1,671 balance at December 31, 2014), required should the Company or NewCSI “be unable, or admit to in writing, its inability to pay its debts as they become due.” Again, the Company responded denying the material allegations and interposing numerous affirmative defenses. The Earn-out liability was fully expensed at the time of the acquisition and fully accrued for on the Company’s balance sheet as part of the purchase accounting at the time of the acquisition. A full description of the Complaint can be found under Item 3 of the Company’s 10-K filed with the Securities and Exchange Commission on July 31, 2015.

The final pretrial conference in this matter was held April 22, 2015. A jury was selected on May 14, 2015, and the trial was held May 18-20, 2015. On May 20, 2015, the jury rendered a verdict, finding that the Company had not complied with SPA § 2.7 and owed \$154, but that NewCSI had not proved that the Company or NewCSI had become unable to pay debts as they came due. The Court had held that it was not a question for the jury to decide if damages for breach of SPA § 2.7 should include accelerated earn-out payments.

On June 3, 2015, NewCSI filed a Motion for Entry of Judgment as Matter of Law seeking entry of a judgment in the amount of \$154, plus accelerated earn-out payments in the amount of \$1,152, plus statutory interest. NewCSI did not challenge the jury verdict on the ability to pay issue. Also on June 3, 2015, the Company filed a Motion for Entry of Judgment as a Matter of Law seeking entry of judgment against NewCSI on the jury’s finding that the Company had not complied with Section 2.7 of the purchase agreement, or, in the alternative, for a reduction of damages to \$54 and to hold that NewCSI may not be awarded accelerated earn-out payments as that would result in an illegal penalty. As of July 1, 2015, the motions were fully briefed and submitted to the Court.

On October 21, 2015, the Court rendered a final judgment against the Company and in favor of NewCSI in the amount of \$1,307 Final Judgment Amount. The Court also awarded NewCSI: (i) pre-judgment interest on the Final Judgment Amount, in the amount of \$77; (ii) costs incurred in connection with the Complaint; and (iii) post-judgment interest on all amounts described above at a rate of 0.23% per annum from the date of this final judgment until such amounts are paid in full. In rendering its final judgment, the Court granted NewCSI's post-verdict Motion for Entry of Judgment as a Matter of Law in part and denied the Company's post-verdict Motion for Entry of Judgment as a Matter of Law in its entirety. The Company believes the final judgment is unsupported by the evidence and contrary to the law, and filed its notice of appeal of the final judgment to the United States Court of Appeals for the Fifth Circuit on January 6, 2016. In the Company's financial results filed as part of this Form 10-Q for the period ending February 29, 2016, the Company accrued for this matter in the amount of \$1,593, which is in excess of the Final Judgment Amount.

On January 15, 2016, a Magistrate Judge issued a Report and Recommendation to award NewCSI \$505 in attorneys' fees (a request for additional post-trial attorneys' fees totaling \$47 is still pending). These attorney fees awards, if they are approved and adopted by the District Judge, would increase the total award to \$1,957. Thus, the accrual reserves held by the Company would be deficient by \$364. The Company will take the appropriate steps to record the additional reserve deficiency based on the information received, if they are approved and adopted by the District Judge.

In addition, since the filing of the Form 10-Q on January 14, 2016, two of the Company's principal lenders funded the bond required to suspend the judgment. The bond was posted on February 9, 2016 in the amount of \$1,405 and therefore the Company will not be required to satisfy the judgment from its operational resources while the Company's appeal is pending.

We believe the Company acted in a manner consistent with our contractual rights, and we intend to aggressively defend the Company against this claim which we believe is not meritorious. Nevertheless, there can be no assurance that the outcome of this litigation will be favorable to the Company.

On November 13, 2015, in a separate proceeding, Staffing 360 initiated a Judicial Arbitration and Mediation Services Arbitration against the three shareholders of NewCSI, each a former Staffing 360 officer and employee. In the Demand for Arbitration and Statement of Claim, Staffing 360 alleges that these individuals breached their employment agreements with Staffing 360 and the fiduciary duties each owed to the Company.

On February 17, 2016, a previous law firm, filed suit in the Supreme Court of the State of New York alleging that the Company owes \$759, for legal services rendered. The Company disagrees with the quantum and quality of legal services provided by the firm to the Company. On March 17, 2016, the Company reached a settlement with the law firm in the amount of \$505 to be paid in equal installments over 24 months beginning in April 2016.
