FORWARD LOOKING STATEMENTS

This report contains forward-looking statements regarding our business, financial condition, results of operations and prospects. Words such as expects, anticipates, intends, plans, believes, seeks, estimates and similar expressions and variations of such words are intended to identify forward-looking statements, but are not deemed to represent an all-inclusive means of identifying forward-looking statements as denoted in this report. Additionally, statements concerning future matters are forward-looking statements.

Although forward-looking statements in this report reflect the good faith judgment of our management, such statements can only be based on facts and factors currently known by us. Consequently, forward-looking statements

are inherently subject to risks and uncertainties and actual results and outcomes may differ materially from the results and outcomes discussed in or anticipated by the forward-looking statements. Factors that could cause or contribute to such differences in results and outcomes include, without limitation, those specifically addressed under the headings **Risks Factors** and **Management's Discussion and Analysis of Financial Condition and Results of Operations** in our annual report on Form 10-K, in **Management's Discussion and Analysis of Financial Condition and Results of Operations** in this Form 10-Q and in other reports that we file with the SEC. You are urged not to place undue reliance on these forward-looking statements, which speak only as of the date of this report. We file reports with the SEC. The SEC maintains a website (www.sec.gov) that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC, including us. You can also read and copy any materials we file with the SEC at the SEC's Public Reference Room at 100 F Street, NE, Washington, DC 20549. You can obtain additional information about the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330.

We undertake no obligation to revise or update any forward-looking statements in order to reflect any event or circumstance that may arise after the date of this report, except as required by law. Readers are urged to carefully review and consider the various disclosures made throughout the entirety of this Quarterly Report, which are designed to advise interested parties of the risks and factors that may affect our business, financial condition, results of operations and prospects.

TRANSAX INTERNATIONAL LIMITED AND SUBSIDIARIES

Notes to the Unaudited Consolidated Financial Statements

June 30, 2011

NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Company

Transax International Limited ("TNSX" or the "Company") was incorporated in the State of Colorado in 1987. The Company currently trades on the OTC Pink Sheet market under the symbol "TNSX" and the Frankfurt and Berlin Stock Exchanges under the symbol "TX6". The Company was an international provider of information network solutions specifically designed for healthcare providers and health insurance companies. The Company has an office located in Plantation, Florida.

On April 4, 2011, pursuant to a Quota Purchase and Sale Agreement amongst Transax Limited, QC Holding I Participacoes S.A., a corporation organized under the laws of Brazil (QC Holding), and Medlink Conectividade em Saude Ltda (Medlink Conectividade), the Company sold 100% of its interest in Medlink Conectividade to QC Holding. Due to this sale, all operations of Medlink Conectividade have been retroactively presented as discontinued operations for all periods presented and related operating assets and liabilities have been classified as assets and liabilities of discontinued operations for all periods presented.

Subsequent to April 4, 2011, the Company has no revenues and limited operations consisting of financial reporting, administration and seeking new business opportunities or a merger candidate. In accordance with the further terms and provisions of the Quota Purchase and Sale Agreement, the Company retained its relevant technology assets consisting of software code and other intellectual property developed by Medlink Conectividade to seek business outside of Brazil (See Note 5).

Principles of Consolidation

The consolidated financial statements are prepared in accordance with generally accepted accounting principles in the United States of America. The consolidated financial statements include the Company and its subsidiary, Transax Limited, Transax Limited's wholly-owned subsidiary, MTI, and through April 4, 2011, Transax Limited's formerly a wholly-owned subsidiary of Medlink Conectividade. All significant intercompany balances and transactions have

been eliminated in the consolidated financial statements. The Company has reclassified, for all periods presented in the accompanying consolidated statements of operations, the amounts related to the discontinued operations (Medlink Conectividade) in accordance with the applicable accounting criteria. In addition, assets and liabilities related to the discontinued operations are reported separately in the accompanying consolidated balance sheets.

Management acknowledges its responsibility for the preparation of the accompanying interim consolidated financial statements, which reflect all adjustments, consisting of normal recurring adjustments, considered necessary, in its opinion, for a fair statement of its consolidated financial position and the results of its operations for the interim period presented. These consolidated financial statements should be read in conjunction with the summary of significant accounting policies and notes to consolidated financial statements included in the Company's Form 10-K annual report for the year ended December 31, 2010. The accompanying unaudited condensed consolidated financial statements for Transax International, Inc. and its subsidiaries have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Article 8-03 of Regulation S-X. Operating results for interim periods are not necessarily indicative of results that may be expected for the fiscal year as a whole.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, expenses, and the related disclosures at the date of the financial statements and during the reporting period. Actual results could materially differ from these estimates. Significant estimates include the allowance for doubtful accounts receivable, assumptions used to calculate stock-based compensation and derivative liabilities and the accounting for discontinued business operations.

Fair Value of Financial Instruments

The Company adopted the guidance of the Financial Accounting Standards Board (FASB) as presented in Accounting Standards Codification (ASC) Topic 820 for fair value measurements which clarifies the definition of fair value, prescribes methods for measuring fair value, and establishes a fair value hierarchy to classify the inputs used in measuring fair value as follows:

TRANSAX INTERNATIONAL LIMITED AND SUBSIDIARIES

Notes to the Unaudited Consolidated Financial Statements

June 30, 2011

NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fair Value of Financial Instruments (continued)

Level 1- inputs which include quoted prices in active markets for identical assets or liabilities;

Level 2 - inputs which include observable inputs other than Level 1 inputs such as quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, inputs other than quoted prices that are observable, and inputs derived from or corroborated by observable market data for the full term of the asset or liability; and

Level 3 - inputs which include unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the underlying asset or liability. Level 3 assets and liabilities include those whose fair value measurements are determined using pricing models, discounted cash flow methodologies or similar valuation techniques, as well as significant management judgment or estimation.

The carrying amounts reported in the consolidated balance sheet for cash, accounts payable and accrued expenses, liabilities from discontinued operations and amounts due from related parties approximate their fair market value based on the short-term maturity of these instruments. The Company uses Level 3 inputs to value its derivative liabilities. The following table provides a reconciliation of the beginning and ending balances for the major classes of assets and liabilities measured at fair value using significant unobservable inputs (Level 3) and reflects gains and losses for the six months ended June 30, 2011 for all financial assets and liabilities categorized as Level 3 as of June 30, 2011.

Derivative Liability:	
Balance of derivative liability as of December 31, 2010	\$ 1,185,563
Decrease in fair value of derivative liability (a)	(485,563)
Reclassification of derivative liability to paid-in capital upon redemption on May 4, 2011	(700,000)
Balance of derivative liability as of June 30, 2011	\$

- (a) The Company calculated the fair value of the conversion features on the Series A convertible preferred stock and warrants (expired in January 2011) on a quarterly basis, as these conversion features on the convertible preferred stock and warrants had been treated as a derivative liability since their initial issuance dates (See Note 6).

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with original maturities of three months or less to be cash equivalents. The Company had no cash equivalents at June 30, 2011 and December 31, 2010.

Concentrations of Credit Risk

Financial instruments that potentially subject us to significant concentrations of credit risk consist principally of cash. The Company maintains its cash in accounts with major financial institutions in the United States and Brazil. Deposits in these banks may exceed the amounts of insurance provided on such deposits. As of June 30, 2011, bank deposits in the United States did not exceed federally insured limits. At June 30, 2011, the Company had no deposits in banks in Brazil which may not be insured. Historically, we have not experienced any losses on our deposits of cash.

Property and Equipment, net

Property and equipment, net, is stated at cost less accumulated depreciation and amortization. Depreciation and amortization is computed generally by the straight-line method at rates adequate to allocate the cost of applicable assets over their estimated useful lives. Expenditures for maintenance and repairs that do not improve or extend the lives of the related assets are expensed as incurred, while major repairs are capitalized.

TRANSAX INTERNATIONAL LIMITED AND SUBSIDIARIES

Notes to the Unaudited Consolidated Financial Statements

June 30, 2011

NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Impairment of Long-Lived Assets

The Company reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be fully recoverable. The Company recognizes an impairment loss when the sum of expected undiscounted future cash flows is less than the carrying amount of the asset. The amount of impairment is measured as the difference between the asset's estimated fair value and its book value. The Company did not record any impairment charges during the six months ended June 30, 2011 and 2010.

Income Taxes

The Company files federal and state income tax returns in the United States for its domestic operations, and files separate foreign tax returns for the Company's foreign subsidiaries in the jurisdictions in which those subsidiaries operate. Deferred tax assets and liabilities are determined based on differences between the financial statement and tax basis of assets and liabilities and net operating loss and credit carry forwards using enacted tax rates in effect for the year in which the differences are expected to affect taxable income. A valuation allowance is established, when necessary, to reduce deferred tax assets to the amount that is more likely than not to be realized. If it becomes more likely than not that a deferred tax asset will be used, the related valuation allowance on such assets would be reversed. Management makes judgments as to the interpretation of the tax laws that might be challenged upon an audit and cause changes to previous estimates of tax liability. In management's opinion, adequate provisions for income taxes have been made for all years. If actual taxable income by tax jurisdiction varies from estimates, additional allowances or reversal of reserves may be necessary. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Under the provisions of Section 382 of the Internal Revenue Code, certain substantial changes in the Company's ownership result in a limitation on the amount of net operating loss carryforwards which can be used in future years.

The Company has adopted the accounting standard related to the accounting for uncertainty in income taxes, which provides a financial statement recognition threshold and measurement attribute for a tax position taken or expected to be taken in a tax return. The Company may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. The accounting standard also provides guidance on de-recognition of income tax assets and liabilities, classification of current and deferred income tax assets and liabilities, accounting for interest and penalties associated with tax positions, and income tax disclosures. Management believes its exposure to uncertain tax positions as of June 30, 2011 is deemed immaterial.

Foreign Currency Translation

The reporting currency of the Company is the U.S. dollar. The functional currency of the Company's sold and discontinued subsidiary, Medlink Conectividade, which is shown as a discontinued operation, was its local currency, the Brazilian Real (R\$). Results of operations and cash flows were translated at average exchange rates during the period, assets and liabilities were translated at the unified exchange rate at the end of the period, and stockholders deficit was translated at historical exchange rates. Translation adjustments resulting from the process of translating the local currency financial statements into U.S. dollars are included in determining comprehensive income (loss).

Transaction gains and losses that arise from exchange rate fluctuations on transactions denominated in a currency other than the functional currency are included in the results of operations as incurred.

Asset and liability accounts at December 31, 2010 were translated at 1.6662 R\$ to \$1.00. Stockholders' deficit accounts are translated at their historical rate. Cash flows from the Company's operations are calculated based upon the local currencies using the average translation rate. As a result, amounts related to assets and liabilities reported on the statement of cash flows will not necessarily agree with changes in the corresponding balances on the consolidated balance sheet. Transactions and balances originally denominated in U.S. dollars are presented at their original amounts. Transactions and balances in other currencies are converted into U.S. dollars and are included in determining net earnings.

NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue Recognition

For the six months ended June 30, 2011 and 2010, the Company had no revenues. Revenues from the Company's discontinued operations, which are included in loss from discontinued operations, are recognized when (1) persuasive evidence of an arrangement exists; (2) delivery has occurred; (3) the Company's fee is fixed and determinable; and (4) collectability is probable.

Accounting for Conversion Features and Warrants issued with Preferred Stock

In 2006, the Company issued 16,000 shares of convertible Series A preferred stock, (see Note 6), which contained an Embedded Conversion Feature, ("ECF"), and warrants to purchase common stock. In accordance with the accounting standards related to accounting for derivative instruments and hedging activities, it was necessary to evaluate the conversion option separately from the debt host and account for it separately as a derivative if the conversion option met certain criteria. The conversion option met all of the three criteria: (1) the conversion feature is not clearly and closely related to the host component, (2) the convertible instrument is not accounted for at fair value, and (3) the embedded conversion option meets the definition of a derivative.

In assessing whether or not the conversion option would be classified as equity or a liability if it were freestanding, management determined whether or not the Series A convertible preferred stock is considered conventional. Conventional convertible debt is defined as debt whereby the holder will, at the issuer's option, receive a fixed amount of shares or the equivalent amount of cash as proceeds when the conversion option is exercised. Management determined that the Series A convertible preferred stock was not conventional as defined. This caused the ECF of the Series A convertible preferred stock to be classified as a derivative financial instrument. In addition, all warrants to purchase common stock issued with the preferred stock were then deemed to be derivative instruments. The accounting treatment of derivative financial instruments requires that the Company record the ECF and warrants at their fair values as of each reporting date. Any change in fair value is recorded as a gain or loss from derivative liabilities within the consolidated statements of operations for all periods presented. At December 31, 2010, the derivatives were valued using the Black-Scholes-Merton option pricing model and are classified in the consolidated balance sheet. In May 2011, upon redemption by the Company of all issued and outstanding Series A convertible

preferred stock, the remaining derivative liability at a fair value of \$700,000 (the amount that the Company paid to redeem all outstanding series A preferred shares) was reclassified to paid-in capital.

Stock-Based Compensation

Stock-based compensation is accounted for based on the requirements for share-based payments in ASC Topic 718.

This ASC topic requires recognition in the financial statements of the cost of employee and director services received in exchange for an award of equity instruments over the period the employee or director is required to perform the services in exchange for the award (presumptively the vesting period). ASC 718 also requires measurement of the cost of employee and director services received in exchange for an award based on the grant-date fair value of the award. The Company did not incur stock-based compensation cost for the six months ended June 30, 2011 and 2010.

Basic and Diluted Net (Loss) Income per Common Share

Basic net (loss) income per share is computed by dividing net (loss) income allocable to common shareholders by the weighted average number of shares of common stock outstanding during the period. Diluted (loss) income per share is computed by dividing net (loss) income by the weighted average number of shares of common stock, common stock equivalents and potentially dilutive securities outstanding during each period. Potentially dilutive common shares consist of common shares issuable upon the conversion of series A preferred stock (using the if-converted method) and common stock warrants and options (using the treasury stock method).

Net income (loss) per common share diluted:						
Net income (loss) from continuing operations	\$		\$	(0.01)	\$	
Net income (loss) from discontinued operations		0.02			0.01	(0.02)
Net income (loss) per common share diluted	\$	0.02	\$	(0.01)	\$	0.01
					\$	(0.02)

(1) Excludes common shares issuable upon the conversion of Series A preferred stock, common stock warrants and options which are anti-dilutive.

The following were excluded from the computation of diluted shares outstanding as they would have had an anti-dilutive impact on our loss from discontinued operations. In periods where the Company has a net loss, all dilutive securities are excluded. In periods where the Company has net income, the dilutive securities are excluded when, for example, their exercise prices are greater than the average fair values of the Company's common stock as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
Stock options	825,000	1,175,000	825,000	1,175,000
Stock warrants		5,000,000		5,000,000
Convertible loan-related party	700,000	1,400,000	700,000	1,400,000

Advertising

Advertising costs are expensed when incurred. For the six months ended June 30, 2011 and 2010, we did not incur any advertising expenses from continuing operations.

Comprehensive Income (Loss)

The Company follows the accounting standards related to reporting comprehensive income (loss) to recognize the elements of comprehensive (loss) income. The Company's comprehensive income (loss) is comprised of net income (loss) and all changes to the statements of changes in stockholders' deficit, except those due to investments by stockholders, changes in paid-in capital and distributions to stockholders. For the six months ended June 30, 2010, the Company's comprehensive loss included net loss and unrealized losses from foreign currency translation adjustments. For the six months ended June 30, 2011, the Company reallocated the unrealized foreign currency translation adjustment of \$514,505 to realized which has been included in gain from sale of discontinued operation on the accompanying consolidated statement of operations.

Research and Development

Research and development costs are expensed as incurred. For the six months ended June 30, 2011 and 2010, we did not incur any research and development costs in continuing operations.

Related Parties

Parties are considered to be related to the Company if the parties directly or indirectly, through one or more intermediaries, control, are controlled by, or are under common control with the Company. Related parties also include principal owners of the Company, its management, members of the immediate families of principal owners of the Company and its management and other parties with which the Company may deal if one party controls or can significantly influence the management or operating policies of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests. The Company has disclosed all related party transactions for all periods presented. All transactions were recorded at fair value of the goods or services exchanged.

Recently Issued Accounting Pronouncements

In December 2010, FASB issued Accounting Standards Update (ASU) No. 2010-29, *Business Combinations* (ASC Topic 805). The amendments in this update specify that if a public entity presents comparative financial statements, the entity should disclose revenue and earnings of the combined entity as though the business combination(s) that occurred during the current year had occurred as of the beginning of the comparable prior annual reporting period only. The amendments also improve the usefulness of the pro forma revenue and earnings disclosures by requiring a description of the nature and amount of material, nonrecurring pro forma adjustments that are directly attributable to the business combination(s). The amendments in this update are effective for fiscal years, and interim periods within those years, beginning after December 15, 2010. Early adoption is permitted. As we did not enter into any business combinations in the six months ended June 30, 2011, the adoption this update did not have any material impact on our financial statement disclosures. However, if we enter into material business combinations in the future, the adoption of this update may have significant impact on our financial statement disclosures.

Other accounting standards that have been issued or proposed by FASB that do not require adoption until a future date are not expected to have a material impact on the consolidated financial statements upon adoption.

NOTE 2 GOING CONCERN

Since inception, the Company has incurred cumulative net losses of \$10,612,784, and has a stockholders' deficit of \$790,273 and a working capital deficit of \$790,683 at June 30, 2011. Since inception, the Company has funded operations through short-term borrowings and the proceeds from equity sales in order to meet its strategic objectives.

On April 4, 2011, the Company sold its sole operating business subsidiary and accordingly, the Company has limited continuing operations that generate no revenues and will be seeking new opportunities to exploit its technologies outside of Brazil or to seek a merger candidate. The Company's future operations are dependent upon external funding and its ability to obtain revenues and reduce expenses. Management believes that sufficient funding will be available from additional related party borrowings to meet its business objectives, including anticipated cash needs for working capital, for a reasonable period of time. However, there can be no assurance that the Company will be able to obtain sufficient funds to continue the development of its business plan.

As a result of the foregoing, there exists substantial doubt about the Company's ability to continue as a going concern. These consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 3 PROPERTY AND EQUIPMENT, NET

Property and equipment consisted of the following at June 30, 2011 and December 31, 2010:

	2011	2010
Computer Equipment	\$ 1,640	\$ 1,640

For the six months ended June 30, 2011 and 2010, depreciation expense amounted to \$65,903 and \$124,616, of which \$65,739 and \$124,452 is included in discontinued operations, respectively.

NOTE 4 RELATED PARTY TRANSACTIONS

Convertible Loan - Related Party

At June 30, 2011 and December 31, 2010, the Company had aggregate loans payable for \$87,500 and \$175,000, respectively, to Carlingford Investments Limited (Carlingford), a related party company whose officer is an officer of the Company. These loans are convertible into the Company's common stock at \$0.125 per share (700,000 and 1,400,000 common shares at June 30, 2011 and December 31, 2010, respectively). For each share of common stock received upon conversion of the principal balance, the related party is entitled to receive one warrant to purchase the Company's common stock at \$0.25 per share for a period of two years from the conversion date. The interest rate of the loan is 12% per annum computed at simple interest. During the six months ended June 30, 2011, the Company paid principal of \$87,500 and accrued interest of \$15,239. At June 30, 2011 and December 31, 2010, interest due on these loans amounted to \$59,408 and \$66,679, respectively, and the aggregate principal amount due is \$87,500 and \$175,000, respectively. During the six months ended June 30, 2011 and 2010, the Company incurred \$7,968 and \$10,414, respectively, in interest expense related to these two loans. The loan is in default and is due on demand.

Due to Related Parties

For the six months ended June 30, 2011 and 2010, the Company incurred \$82,500 and \$105,000 respectively, in management fees to an officer/director of the Company, which has been included in management and consulting fees - related party on the accompanying consolidated statements of operations. Effective July 1, 2007, pursuant to a Management Consulting Services Agreement, the Company's board of directors approved compensation for this officer/director of \$17,500 per month. Subsequent to the sale of the Company's operating subsidiary, beginning in April 2011, the monthly compensation was lowered to \$10,000 per month. At June 30, 2011 and December 31, 2010, \$510,246 and \$702,950 in management fees and other expenses are payable to this officer/director and are included in due to related parties within the accompanying consolidated balance sheets. The amount due is unsecured, non-interest bearing and payable on demand.

The amount due is unsecured, non-interest bearing and payable on demand.

At June 30, 2011 and December 31, 2010, \$12,000 and \$24,000 in directors fees is payable to a director and are included in due to related parties on the accompanying consolidated balance sheets. For the six months ended June 30, 2011 and 2010, there were no directors fees included in management and consulting fees - related party on the accompanying consolidated statements of operations. The amount due is unsecured, non-interest bearing and payable on demand.

Loans Payable - Related Party

On March 5, 2004, the Company borrowed 115,000 Euros (translated to \$152,409 at December 31, 2010 and repaid prior to June 30, 2011) from an officer of the Company for working capital purposes. The loan accrued 0.8% non-compounding interest per month, (9.6% per annum), had an initial term of twelve months, and was repayable quarterly in arrears. This loan was repaid in April 2011. Additionally, through January, 2011, the Company borrowed \$234,950 from this officer and in April 2011, the Company repaid \$142,422 of these loans. These loans accrue 1.0% non-compounding interest per month, (12% per annum), and are due on demand. For the six months ended June 30, 2011 and 2010, the Company incurred \$13,673 and \$17,706, respectively, in interest related to these loans. NOTE 5 DISCONTINUED OPERATIONS

Sale of Medlink Conectividade

On April 4, 2011, pursuant to a Quota Purchase and Sale Agreement amongst Transax Limited, QC Holding, and Medlink Conectividade, the Company sold 100% of its interest in Medlink Conectividade to QC Holding. For the six months ended June 30, 2011 and 2010, the Company's operating subsidiary, Medlink Conectividade, is reported as a discontinued operation and all periods have been restated in the Company's consolidated financial statements and related footnotes to conform to this presentation.

In accordance with the terms and provisions of the Agreement: (i) QC Holding acquired the equity interest of Medlink Conectividade resulting in the sale of the Company's operating subsidiary. As consideration for the purchase and sale of 100% of the Company's interest in Medlink Conectividade, QC paid to the Company approximately \$298,000; (ii) QC Holding agreed to assume all debt and other contingent liabilities of Medlink Conectividade, which as of June 30, 2011 was approximately \$7,800,000 including \$5,800,000 in past taxes and social security contributions due to the Brazil Government; and (iii) QC agreed to contribute to Medlink Conectividade approximately \$1,402,000 which be used to pay to the Company approximately \$1,402,000 in loans and interest due to Transax Limited by Medlink Conectividade. In accordance with the further terms and provisions of the Agreement, the Company retains its relevant technology assets consisting of software code and other intellectual property developed by Medlink Conectividade to seek business outside of Brazil. Currently, the Company does not have any revenues outside of Brazil. In the second quarter of 2011, the Company recorded a gain from the sale of its discontinued operation of \$8,706,785.

The Company's board of directors considered the sale of Medlink Conectividade to be in the best interests of the Company and its shareholders. Factors considered included (i) the high levels of debt in Medlink Conectividade, (ii) its continuing net losses from operations and (iii) reports from Brazilian legal counsel to Medlink Conectividade indicating that immediate tax and social security payments were due to the Brazilian Government of over \$1,000,000.

NOTE 6 STOCKHOLDERS DEFICIT

Preferred stock

On May 4, 2011, the Company entered into an agreement to redeem 100% of the issued and outstanding shares of Series A convertible preferred stock held by YA Global Investments L.P. (YA Global) and to release and indemnify the Company against all claims and liabilities for the sum of \$700,000 paid in cash. As of the date of redemption, YA Global owned 14,190 Series A convertible preferred shares.

Prior to the redemption, the Company recorded the fair value of the ECF and warrants as a liability. At March 31, 2011 and June 30, 2010, the Company revalued the ECF and warrants (expired in January 2011) resulting in a gain on derivative liabilities of \$485,563 and \$133,198 for the six months ended June 30, 2011 and 2010, respectively.

Upon redemption, on May 4, 2011, the remaining estimated fair value of the ECF liabilities of \$700,000, the amount that the Company paid to redeem all outstanding Series A preferred shares, was reclassified to paid-in capital. At December 31, 2010, the estimated fair value of the ECF and warrants were liabilities of \$1,185,563. These derivative liabilities are reflected as a conversion feature liability and a warrant liability, respectively, on the accompanying consolidated balance sheet as of December 31, 2010.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following analysis of the results of operations and financial condition should be read in conjunction with our unaudited condensed consolidated financial statements for the three and six months ended June 30, 2011 and notes thereto contained elsewhere in this report.

GENERAL

Transax International Limited is a Colorado corporation and currently trades on the OTC Pink Sheet market under the symbol "TNSX.PK" and the Frankfurt and Berlin Stock Exchanges under the symbol "TX6". Please note that throughout this report, and unless otherwise noted, the words "we," "our," "us," or the "Company" refer to Transax International Limited. Through April 1, 2011, we were an international provider of information network solutions, products and services specifically designed for the healthcare providers and health insurance companies (collectively, the "Health Information Management Products").

On April 4, 2011, pursuant to a Quota Purchase and Sale Agreement amongst Transax Limited, QC Holding I Participacoes S.A., a corporation organized under the laws of Brazil (QC Holding), and Medlink Conectividade, we sold 100% of our interest in Medlink Conectividade. As such all related operations have been retroactively presented as discontinued operations for all periods presented and related operating assets and liabilities have been classified as assets from discontinued operations and liabilities from discontinued operations, respectively for all periods presented.

In accordance with the terms and provisions of the Agreement: (i) QC Holding acquired the equity interest of Medlink Conectividade resulting in the sale of our operating subsidiary. As consideration for the purchase and sale of 100% of our interest in Medlink Conectividade, in April 2011, QC paid to us approximately \$298,000; (ii) QC Holding agreed to assume all debt and other contingent liabilities of Medlink Conectividade, which as of December 31, 2010 was approximately \$8,400,000 including \$5,800,000 in past taxes and social security contributions due to the Brazil Government; and (iii) QC contributed to Medlink Conectividade approximately \$1,402,000 which was used to pay us approximately \$1,402,000 in loans and interest due to Transax Limited by Medlink Conectividade. In accordance with the further terms and provisions of the Agreement, we retained our relevant technology assets consisting of software code and other intellectual property to carry on business outside of Brazil.

Our board of directors considered the sale of Medlink Conectividade to be in the best interests of the Company and its shareholders. Factors considered included (i) the high levels of debt in Medlink Conectividade, (ii) its continuing net losses and (iii) reports from Brazil counsel to Medlink Conectividade indicating that immediate tax and social security payments were due to the Brazilian Government of over \$1,000,000.

Subsequent to April 4, 2011, we will have no revenues and limited operations consisting of financial reporting, administration and seeking new business opportunities or a merger candidate.

CRITICAL ACCOUNTING POLICIES

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. We continually evaluate our estimates, including those related to bad debts, recovery of long-lived assets, income taxes, the change in fair value of our derivatives, and the valuation of our stockholders' deficit transactions.

We base our estimates on historical experience and on various other assumptions that we believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Any future changes to these estimates and assumptions could cause a material change to our reported amounts of revenues, expenses, assets and liabilities. Actual results may differ from these estimates under different assumptions or conditions. We believe the following critical accounting policies affect our more significant judgments and estimates used in the preparation of the financial statements

We review the carrying value of property and equipment for impairment at least annually or whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of long-lived assets is measured by the comparison of its carrying amount to the undiscounted cash flows that the asset or asset group is expected to generate. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the property, if any, exceeds its fair market value.

Net Loss

Due to the reasons described above, for the six months ended June 30, 2011, our net income was \$8,631,975 as compared to a net loss of \$1,367,493 for the six months ended June 30, 2010. For the three months ended June 30, 2011, our net income was \$8,809,877 as compared to a net loss of \$975,480 for the three months ended June 30, 2010.

During the six months ended June 30, 2011, we recorded a cumulative preferred stock dividend of \$24,833 as compared to \$50,388 for the six months ended June 30, 2010, which is related to our Series A Preferred Stock. During the three months ended June 30, 2011, we recorded a cumulative preferred stock dividend of \$0 (due to the redemption of our series A preferred stock in the second quarter of 2011) as compared to \$25,188 for the three months ended June 30, 2010, which is related to our Series A Preferred Stock.

We reported net income attributable to common shareholders of \$8,607,142 for the six months ended June 30, 2011 as compared to a net loss attributable to common shareholders of \$1,417,881 for the six months ended June 30, 2010. This translates to net income (loss) per common share (basic) available to shareholders of \$0.09 and \$(0.02) for the six months ended June 30, 2011 and 2010, respectively, and net income (loss) per common shares (diluted) available to shareholders of \$0.01 and \$(0.02) for the six months ended June 30, 2011 and 2010, respectively.

Comprehensive Loss

For the three and six months ended June 30, 2011, we did not record any unrealized foreign currency translation gains or losses since we sold our foreign subsidiary and recognized the remaining unrealized foreign currency translation loss as part of the gain on sale from discontinued operations. For the six months ended June 30, 2010, we recorded an unrealized foreign currency translation loss of \$4,117. This resulted in comprehensive net income during the six months ended June 30, 2011 of \$8,631,975 as compared to a comprehensive net loss of \$(1,371,610) for the six months ended June 30, 2010. We recorded an unrealized foreign currency translation loss of \$64,677 for the three months ended June 30, 2010. This resulted in comprehensive net income during the three months ended June 30, 2011 of \$8,809,877 as compared to a comprehensive net loss of \$(1,040,157) for the three months ended June 30, 2010.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity is the ability of a company to generate funds to support its current and future operations, satisfy its obligations and otherwise operate on an ongoing basis. At June 30, 2011 and December 31, 2010, we had cash balances of \$51,236 and \$18,388, respectively. These funds are located in financial institutions located as follows:

	June 30, 2011		December 31, 2010			
Country:						
United States	\$	51,236	100.0%	\$	3,660	19.9%
Brazil			%		14,728	80.1%
Total cash and cash equivalents	\$	51,236	100.0%	\$	18,388	100.0%

For the six months ended June 30, 2011, net cash flow used in operating activities was \$443,418 compared to \$468,401 for the six months ended June 30, 2010.

For the six months ended June 30, 2011, net cash flows used in operating activities of \$443,418 is primarily due to the funding of our continuing operations and included the payment of interest due on loans due to related parties of \$143,367 and the payments of amounts due to related party of \$250,712. For the six months ended June 30, 2010, net cash used in operating activities of \$468,401 primarily consisted of our the use of cash in our discontinued operations of \$425,059 and the use of cash in our continuing operations of \$43,342.

Net cash flows provided by investing activities amounted to \$1,652,881 for the six months ended June 30, 2011 as compared to net cash used in investing activities of \$22,728 for the six months ended June 30, 2010. During the six months ended June 30, 2011, we received net cash from the sale of our subsidiary of \$1,670,537 offset by the use of cash for the acquisition of property and equipment of discontinued operations of \$17,656. During the six months ended June 30, 2010, we used cash for the acquisition of property and equipment of \$22,728.

Net cash flows used in financing activities for six months ended June 30, 2011 were \$1,177,007 as compared to net cash flows provided by financing activities of \$490,560 for six months ended June 30, 2010. For the six months ended June 30, 2011, cash flow used in financing activities was attributable to the payment of \$700,000 for the redemption of all issued and outstanding series A preferred stock, the payment of convertible debt related party of \$87,500, the payment of loans payable related party of \$299,610 and the payment of loans of discontinued operations of \$89,897. For the six months ended June 30, 2010, cash flow provided by financing activities was attributable to \$450,560 in proceeds from loans of discontinued operations and \$40,000 in proceeds from loans-related party.

PLAN OF OPERATIONS

Since inception, we incurred cumulative net losses of \$10,612,784, and have a stockholders' deficit of \$790,273 and a working capital deficit of \$790,683 at June 30, 2011. Since inception, we have funded operations through short-term borrowings and the proceeds from equity sales in order to meet our strategic objectives. On April 4, 2011, we sold our sole operating business subsidiary and accordingly, we now have limited continuing operations that generate no revenues and will be seeking new opportunities to exploit our technologies or to seek a merger candidate. Our future operations are dependent upon external funding and our ability to obtain revenues and reduce expenses. Management believes that sufficient funding will be available from additional related party borrowings to meet our business objectives, including anticipated cash needs for working capital, for a reasonable period of time. However, there can be no assurance that we will be able to obtain sufficient funds to continue the development of our business plan.

As result of the sale as discussed above, in April 2011, we received cash of approximately \$1.7 million. We used these funds to:

- Pay outstanding liabilities for services rendered;
- Pay outstanding related party loans and interest;
- In May 2011, we reached a settlement with all remaining Series A Preferred shareholders to repurchase all outstanding preferred shares for \$700,000; and
- Fund on-going operations.

As of the filing date of this quarterly report, we have approximately \$40,000 of cash remaining and there is substantial doubt regarding our ability to continue as a going concern as we have not generated sufficient cash flow to fund our business operations and material commitments and we will have no revenues in the near future. Our future success and viability, therefore, is dependent on our ability to develop, provide and market our information network solutions to healthcare providers, health insurance companies and other end-users outside of Brazil, our ability to generate capital financing, or to seek a merger candidate. We are optimistic that we will be successful in our business operations and capital raising efforts; however, there can be no assurance that we will be successful in generating revenue or raising additional capital. The failure to generate sufficient revenues or raise additional capital may have a material and adverse effect upon us and our shareholders.

Based upon a twelve (12) month work plan, it is anticipated that such a work plan would require approximately \$100,000 of financing designed to fund various commitments and business operations.

There can be no assurance, however, that we will be able to raise additional capital. Our failure to successfully raise additional capital will have a material and adverse effect upon us and our shareholders.

Our future success and viability are primarily dependent upon our current management to generate revenues from business operations and raise additional capital through further private offerings of our stock or loans from private investors. There can be no assurance, however, that we will be able to raise additional capital. Our failure to successfully raise additional capital will have a material and adverse effect upon us and our shareholders.

MATERIAL COMMITMENTS

Convertible Loans Related Party

A material liability for us at June 30, 2011 is the aggregate principal amount of \$87,500 and \$59,408 in accrued interest due and owing to a related party in accordance with two convertible promissory notes (collectively, the "Convertible Promissory Note(s)"). The Convertible Promissory Notes are convertible into shares of our common stock at \$0.125 per share together with a warrant to purchase our common stock at \$0.25 per share for a period of two years. As of June 30, 2011, an aggregate principal amount of \$87,500 and interest in the amount of \$59,408 remains due and owing under the Convertible Promissory Notes. As of the date of this quarterly report, the Convertible Promissory Notes are deemed in default and are due on demand. In April 2011, we repaid \$87,500 of principal balance on these loans.

Loan Related Party

A material liability for us at June 30, 2011 is the aggregate amount of \$95,577 in principal and interest due and owing to Stephen Walters, our Chief Executive Officer (collectively, the "Loans"). The Loans are evidenced by a promissory note with an interest rate of 12% per annum and are currently due on demand. For the six months ended June 30, 2011 and 2010, we incurred \$13,673 and \$17,706, respectively, in interest related to these loans. At June 30, 2011 and December 31, 2010, \$3,049 and \$128,035 in interest and loan fees was accrued on these loans and the aggregate principal and interest amount due is \$95,577 and \$510,444, respectively. During the six months ended June 30, 2011, we borrowed \$4,950 which was used for working capital purposes and repaid \$304,560.

Consulting Agreement

A material liability for us at June 30, 2011 is the amount due and owing as management fees to Stephen Walters, our Chief Executive Officer. For the six months ended June 30, 2011 and 2010, we incurred \$82,500 and \$105,000, respectively, in management fees. At June 30, 2011 and December 31, 2010, \$510,246 and \$702,950 in management fees and other expenses are payable to Mr. Walters. In accordance with the terms of an agreement effective July 2007, we shall pay monthly to Mr. Walters an aggregate amount of \$17,500 as compensation for managerial and consulting services he provides. In April 2011, we reduced this monthly fee to \$10,000 per month.

Purchase of Significant Equipment

We do not intend to purchase any significant equipment during the next twelve months.

Off-Balance Sheet Arrangements

As of the date of this quarterly report, we do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors. The term "off-balance sheet arrangement" generally means any transaction, agreement or other contractual arrangement to which an entity unconsolidated with us is a party, under which we have: (i) any obligation arising under a guarantee contract, derivative instrument or variable interest; or (ii) a retained or contingent interest in assets transferred to such entity or similar arrangement that serves as credit, liquidity or market risk support for such assets.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not required for smaller reporting companies.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

As required by Rule 13a-15 under the Exchange Act, our management evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of June 30, 2011.

Disclosure controls and procedures refer to controls and other procedures designed to ensure that information required to be disclosed in the reports we file or submit under the Securities Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC and that such information is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating our disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating and implementing possible controls and procedures.

Management conducted its evaluation of disclosure controls and procedures under the supervision of our chief executive officer and our chief financial officer. Based on that evaluation, because of the continuing material weaknesses in internal control over financial reporting described below, our disclosure controls and procedures were not effective as of June 30, 2011.

Management's Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act. Our management is also required to assess and report on the effectiveness of our internal control over financial reporting in accordance with Section 404 of the Sarbanes-Oxley Act of 2002 (Section 404). Management assessed the effectiveness of our internal control over financial reporting as of December 31, 2010. In making this assessment, we used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control – Integrated Framework. During our assessment of the effectiveness of internal control over financial reporting as of June 30, 2011, management identified material deficiencies related to (i) the U.S. GAAP expertise of our internal accounting staff, (ii) our internal audit functions, (iii) a lack of segregation of duties within accounting functions, and (iv) a lack of an independent board of directors or audit committee.

A material weakness (within the meaning of PCAOB Auditing Standard No. 5) is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness yet important enough to merit attention by those responsible for oversight of the company's financial reporting.

Changes in Internal Controls over Financial Reporting

There were no changes in our internal controls over financial reporting during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Management is not aware of any legal proceedings contemplated by any governmental authority or any other party involving us or our properties. As of the date of this Quarterly Report, no director, officer or affiliate is (i) a party adverse to us in any legal proceeding, or (ii) has an adverse interest to us in any legal proceedings. Management is not aware of any other legal proceedings pending or that have been threatened against us or our properties.
