To Our Shareholders,

The Board of Directors has decided to convene the EDAP Shareholders Meeting on February 26, 2009, and to submit for your vote a resolution (resolution N° 1) that allows the Board of Directors to issue new ordinary shares. The shares will be used for payment in kind (PIK) of our Convertible Debt interest, as provided by the Agreement we signed with Bondholders on October 29, 2007, upon raising USD20 million.

The Company's objective is to prudently manage its financial resources in an increasingly challenging economic environment. This objective is in line with our strategy to assure an optimal cash position for our US clinical trials designed to obtain Food and Drug Administration approval to market our Ablatherm-HIFU device.

The Board of Directors strongly recommends that shareholders vote in favour of resolution N° 1 as in the best interests of the Company. This resolution will ensure that the Company preserves its capital to move forward aggressively with its strategic plan to market its high definition device for the treatment of prostate in the U.S., the largest market for such treatment.

The Board of Directors recommends that EDAP shareholders reject Resolution N° 2. This resolution is being presented in accordance with French law, which requires this resolution when a Company is submitting a request for the issuance of new shares.

Sincerely,

S/ Philippe Chauveau  
Chairman

Report from the Board of Directors to the Extraordinary General Meeting of February 26, 2009

Shareholders are invited to attend the Extraordinary General Shareholders' Meeting of EDAP-TMS S.A. (the "Company") on February 26, 2009 at 10:30 a.m., at the Company's Headquarters, 4 rue du Dauphiné, 69120 Vaulx-en-Velin, France. The meeting will deliberate on the following agenda:

1. Authorization to be granted to the Board of Directors of the Company to increase the Company's share capital by issuing shares to one category of persons or legal entities, with preferential subscription rights of existing shareholders suppressed in favor of such persons or legal entities.
  2. Authorization to be granted to the Board of Directors of the Company to increase the Company's share capital by issuing shares reserved for members of savings plans, with preferential subscription rights of existing shareholders suppressed in favor of the members.
- I. Authorizations to be granted to the Board of Directors to increase share capital by issuing new shares for interest payments on its October 29, 2007 Convertible 9% Bonds.

In line with the Company's development strategy, particularly in the U.S., with the objective to obtain the Food and Drug Administration ("FDA")'s approval for its Ablatherm-HIFU device dedicated to treating localized prostate cancer, the Board of Directors raised USD 20 million on October 29, 2007, by issuing a certain number of convertible debentures with detachable warrants to a certain category of persons, as per the 10th resolution approved by the shareholders on May 22, 2007.

Terms and conditions of these convertible debentures with warrants, approved by the Board of Directors on October 29, 2007, provide for the Company's election to pay interest in kind (PIK) by issuing new ordinary shares, as per article 2(b) of the Agreement, thus allowing the Company to preserve its cash position to finance its development strategy described above. Conforming the Agreement, the Company elected to pay quarterly interests in kind on July 1, 2008 and October 1, 2008, respectively. The new interest shares have been issued within a global limit of 6,000,000 shares authorized by the shareholders on May 22, 2007, including the shares underlying the debentures and warrants.

Terms and conditions of the convertible debentures determine the calculation of each quarterly interest payment based on the Volume Weighted Average Price (VWAP) of the Company's stock during the last 20 trading days preceding the

interest payment date. However, due to the condition of the global financial market which dramatically deteriorated during the last months of 2008, the Company's share price has been significantly and negatively impacted. Hence, the number of new shares to be issued in payment of interests increased dramatically. Consequently, the balance of new PIK (payment in kind) shares to be issued within the authorized global limit above is not adequate to allow for the next payment of interest in shares.

In that respect, the Board of Directors asks the General Shareholders' Meeting to approve the resolution N°1 attached through the legal provisions of the delegation of authority (*délégation de compétence*), and provide the Board of Directors with this authority for a period of 18 months in order to enact share capital increases by issuing new shares in payment of the October 29, 2007 convertible debentures' interests.

The total maximum nominal value of the increases of share capital that may be carried out, at different period of times, as per the resolution submitted to your approval, would be set at €390,000, representing a maximum of 3,000,000 new shares. The Board points out that, as of this date, the Company's share capital amounts to €1,300,823.29, divided into 10,006,333 ordinary shares with a nominal value of €0.13. The maximum number of new authorized shares thus corresponds to approximately 30% of the Company's share capital on the day of the meeting, and less than 20% on a fully diluted basis.

The Board of Directors intends to make usage of this authorization as soon as possible to pay in shares the next quarterly interest due, in order to preserve the Company's cash position dedicated to the U.S. Ablatherm-HIFU clinical trial. The Board of Directors highlighted its strong cash position entering 2009. However, the Board of Directors considers this resolution submitted to your vote as being prudent to ensure appropriate financial resources to address the forthcoming, still uncertain, months, preserving its shareholders interests.

II. Authorization to be granted to the Board of Directors of the Company to increase the Company's share capital by issuing shares reserved for members of savings plans, with preferential subscription rights of existing shareholders suppressed in favor of the members.

The second resolution would allow your Board of Directors to offer the members of the company savings plan of the EDAP TMS Group, in France and abroad, the possibility to subscribe to shares or other securities that provide access to the Company's share capital.

This resolution responds to the requirement set forth by Article L.225-129-6 of the French Commercial Code (Code de commerce), which requires that the Shareholders' General Meeting makes a decision on a proposed resolution aimed at the completion of a share capital increase reserved for members of savings plans as soon as the agenda of the meeting includes the adoption of resolutions authorizing the completion of a capital increase by cash contribution, except when the capital increase results from a prior issuance of securities that provide access to the Company's capital, or when the Assembly meeting authorizes increases in share capital as per Article L.225-129-2 of the French Commercial Code (See Resolution 1). This authority will be granted for a period of 26 months.

The maximum nominal amount of capital increases that would be affected immediately or over time pursuant to this delegation would be set at €6,500, which represents a maximum of 50,000 shares; it being specified that the total amount

of share capital increases that may be carried out pursuant to this resolution shall also be counted towards the amount of the new global limit set up in Resolution N° 1.

This resolution, rendered obligatory by French legislation, is not a major element of the Company's employee shareholding plan. The Board of Directors recommends to reject this resolution.
