**Item 4.02. Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review.**

(a)

On April 20, 2015, the Audit Committee of the Board of Directors (the "Audit Committee") of Akorn, Inc. (the "Company"), upon the recommendation of the Company's management concluded that the Company's previously issued consolidated financial statements for the year ended December 31, 2014, and the previously issued unaudited condensed consolidated financial statements contained in the Company's Quarterly Reports on Form 10-Q/A for the quarters ended June 30, 2014 and September 30, 2014, and the disclosures and related communications for each of these periods, should not be relied upon because of errors in the financial statements in those associated periods.

Furthermore, management's report on the effectiveness of internal control over financial reporting as of December 31, 2014 should no longer be relied upon. Additionally, the opinion of the Company's independent registered public accounting firm, KPMG LLP, ("KPMG") on the consolidated financial statements for the year ended December 31, 2014, as well as KPMG's opinion on the effectiveness of the Company's internal control over financial reporting as of December 31, 2014, should no longer be relied upon.

During the review process with respect to the quarter ended March 31, 2015, the Company identified errors related to understatements of rebates and other sales allowances that have resulted in an overstatement of the Company's net revenue for the affected periods described above. A substantial majority of these errors are related to the companies and products acquired in 2014, the formation of purchasing alliances among several of the Company's customers and changing competitive dynamics for select acquired products during 2014.

While the exact impact to the Company's financial statements has not been determined, based on management's preliminary assessment, the errors related to the understatements of rebates and other sales allowances are estimated to have resulted in an overstatement to net revenue and pretax income from continuing operations of \$20 million to \$35 million for the year ended December 31, 2014. The allocation of the impact of the errors among the affected quarterly periods has not been determined. The estimated impact of the errors could materially change based on further review and analysis of the affected periods, including due to potential identification of other errors. Additional material weaknesses in the internal control over financial reporting may be identified in connection with the known or potential errors noted above.

The errors will be corrected in restated financial statements included in amendments to Forms 10-Q for the quarters ended June 30, 2014 and September 30, 2014 and Form 10-K for the year ended December 31, 2014. The amended forms will be filed prior to the filing of Form 10-Q for the fiscal quarter ended March 31, 2015. The Company anticipates that as a result of the restated financial statements, the Company will not be able to timely file its Form 10-Q for the first quarter of 2015. While the Company plans to request a five-day extension to file its Form 10-Q with the U.S. Securities and Exchange Commission, the Company does not anticipate it will meet the extended deadline. The amended Form 10-K for the year ended December 31, 2014 will include the required restatement disclosures as defined in Accounting Standards Codification 250-10-50.

Both management and the Audit Committee have discussed with KPMG the matters disclosed in this Current Report on Form 8-K. The Audit Committee will be conducting an independent investigation into the circumstances surrounding the errors that resulted in the misstatements, which will involve retaining outside advisors to assist in the investigation.
