Item 8.01 Other Events

Consistent with the Company's comments during its November 3, 2004 conference call, the Company expects that adjusted EBITDA for the twelve months ended December 31, 2004 will be in the lower end of the forecasted range of \$65 million to \$70 million. The adjusted EBITDA guidance excludes the \$25.1 million of proceeds related to the previously announced Oxbar patent litigation settlement.

EBITDA is a non-GAAP measurement that the Company defines as income or loss before interest expense, provision for income taxes, depreciation and amortization, and the cumulative effect of a change in accounting. This measure does not represent cash flow for the periods presented and should not be considered as an alternative to net income/(loss) as an indicator of the Company's operating performance or as an alternative to cash flows as a source of liquidity. EBITDA is a key financial measure used by our senior credit facility lenders. The Company's definition of EBITDA may not be comparable to EBITDA as defined by other companies. Although EBITDA is a non-GAAP measurement, the Company believes it is a useful measure of pre-tax operating cash flow prior to debt service.

The Company's Senior Secured Credit Agreement adjusts EBITDA for certain non-cash accruals and uses the adjusted EBITDA figure to determine the Company's compliance with certain financial covenants in the Senior Secured Credit Agreement. This definition of adjusted EBITDA may not be comparable to adjusted EBITDA as defined by other companies.
