The Company holds in the highest regard the interests of its shareholders and the returns achieved for its shareholders, especially minority shareholders. The Company will endeavor to achieve a longer term sustainable, steadily increasing dividend, with a view to generating the best possible return for shareholders.

## **Looking to the Future**

From a macro economic perspective, current trends indicate that the Chinese economy will continue to maintain relatively strong growth in the future. The continued increase in consumer spending, the development of industry informalization and the demand for telecommunications services as a result of rural development provide the telecommunications industry with tremendous opportunities for development. In comparison with developed countries, the telecommunications penetration rate in Mainland China remains relatively low and as a result, great potential for development still exists in the mobile telecommunications market. With the development and maturing of the market, competition will become more rational. As Third Generation Mobile Communication Technology (3G) and

## **Table of Contents**

products become more mature, the conditions for 3G development in China will also gradually mature. The issuance of 3G licences in Mainland China may result in changes in the industry's environment. Looking to the future, the Company faces great opportunities and challenges at the same time.

The Group will leverage its existing advantages in and promote the development of economies of scale, encourage innovation, enhance management and service standards, and direct the industry towards rational competition, with a view to maintaining the momentum of the Group's continued healthy development and extending its leading position. The Group will actively monitor policies relating to 3G technologies, utilize its competitive advantages in terms of networks and scale, and make networks, service and product offerings preparation, in order to lay a solid foundation for the launch of commercial application services of 3G at the appropriate time.

Looking to the future, the Group will work towards building a pre-eminent operating system, creating a pre-eminent organization and cultivating a pre-eminent staff force, and strive to become a creator of pre-eminent quality. Focusing on its defined strategy of being a World-class Enterprise and a Mobile Information Expert, the Group will continue to maintain its existing competitive advantages, provide quality services and products, innovate in its growth model, and pioneer multi-media mobile services. The Group will also foster an eminent corporate culture and maintain growth in value, with a view to building a lasting good business, and bringing better returns for its investors.

Finally, I would like to take this opportunity to express my heart-felt thanks to all shareholders and friends who have cared for and supported the Company, as well as to the Company's employees who have worked hard during the past year.

(c) *Amortization of positive and negative goodwill (HKFRS 3 Business combinations and HKAS 36 Impairment of assets )*

In prior years:

positive goodwill arising from acquisitions before 1 January 2001 was eliminated against reserves and was reduced by impairment losses recognized in the consolidated income statement;

positive goodwill arising from acquisitions on or after 1 January 2001 was amortized to the consolidated income statement on a straight-line basis over 20 years. Positive goodwill was stated in the consolidated balance sheet at cost less accumulated

amortization and any impairment losses;

negative goodwill arising from acquisitions before 1 January 2001 was credited to a capital reserve; and

negative goodwill which arose from acquisitions on or after 1 January 2001 was amortized over the weighted average life of the depreciable/amortizable non-monetary assets acquired, except to the extent is related to identified expected future losses as at the date of acquisition. In such cases it was recognized in the consolidated income statement as those expected losses were incurred.

With effect from 1 January 2005, in order to comply with HKFRS 3 and HKAS 36, the Group adopted a new accounting policy for goodwill. The Group no longer amortizes positive goodwill. Such goodwill is tested annually for impairment, including in the year of its initial recognition, as well as when there are indications of impairment. Impairment losses are recognized when the carrying amount of the cash generating unit to which the goodwill has been allocated exceeds its recoverable amount.

## **Table of Contents**

With effect from 1 January 2005 and in accordance with HKFRS 3, if the fair value of the net assets acquired in a business combination exceeds the consideration paid (i.e. an amount arises which would have been known as negative goodwill under the previous accounting policy), the excess is recognized immediately in the consolidated income statement as it arises.

The new policy in respect of positive goodwill has been applied prospectively in accordance with the transitional arrangements under HKFRS 3. As a result, comparative amounts have not been restated, the cumulative amount of amortization as at 1 January 2005 has been offset against the cost of the goodwill and no amortization charge for goodwill has been recognized in the consolidated income statement for the year ended 31 December 2005.

The change in policy relating to negative goodwill had no effect on the Group's audited consolidated results as there was no negative goodwill deferred as at 31 December 2004.

Also in accordance with the transitional arrangements under HKFRS 3, goodwill which had previously been taken into reserve (i.e. goodwill which arose before 1 January 2001) will not be recognized in the consolidated income statement on disposal or impairment of the acquired business, or under any other circumstances.

### ***(d) Minority interests (HKAS 1 Presentation of financial statements and HKAS 27 Consolidated and separate financial statements)***

In prior years, minority interests at the balance sheet date were presented in the consolidated balance sheet separately from liabilities and as deduction from net assets. Minority interests in the results of the Group for the year were also separately presented in the consolidated income statement as a deduction before arriving at the profit attributable to equity shareholders.

With effect from 1 January 2005, in order to comply with HKAS 1 and HKAS 27, minority interests at the balance sheet date are presented in the consolidated balance sheet within equity, separately from the equity attributable to equity shareholders of the Company, and minority interests in the results of the Group are presented on the face of the consolidated income statement as an allocation of the total profit or loss for the year between minority interests and the equity shareholders of the Company.

The presentation of minority interests in the consolidated balance sheet and consolidated income statement for the comparative period has been restated accordingly.

### ***(e) Land use rights and buildings held for own use (HKAS 17 Leases)***

In prior years, land use rights and buildings held for own use were stated at cost less accumulated depreciation and impairment losses. Depreciation was calculated to write-off the cost of such assets on a straight-line basis over their estimated useful lives, to residual value.

With effect from 1 January 2005, in order to comply with HKAS 17, land use rights held for own use are accounted for as being held under an operating lease where the fair value of the interest in any buildings situated on the leasehold land could be separately identified from the fair value of the land use rights at the time the lease was first entered into the Group, or taken over from the previous lessee, or at the date of construction of those buildings, if later.

Any pre-paid land premiums for acquiring the land use rights, or other lease payments, are stated at cost and are written off on a straight-line basis over the respective periods of the rights.

## **Table of Contents**

Any buildings held for own use which are situated on such land leases continue to be presented as part of property, plant and equipment.

The new accounting policy has been adopted retrospectively. There is no impact on the Group's net assets as at the year end and on the Group's profit attributable to equity shareholders for the periods presented. An additional line item "Land lease prepayments", which was previously included in "Property, plant and equipment" and "Construction in progress" has been included on the face of the consolidated balance sheet. Comparative figures for "Property, plant and equipment" and "Construction in progress" have been reclassified to conform with the current year's presentation. Amortization charges relating to land lease prepayments have been included in "Other operating expenses" and "Depreciation" and "Other operating expenses" in the consolidated income statement for the year ended 31 December 2004 have also been restated.

### ***(f) Employee share option scheme (HKFRS 2 Share-based payment)***

In prior years, no employee benefit cost or obligation was recognized when employees (which term includes directors) were granted share options by the Group over shares in the Company. When the share options were exercised, equity was increased by the amount of the proceeds received.

With effect from 1 January 2005, in order to comply with HKFRS 2, the Group recognizes the fair value of such share options as an expense in the consolidated income statement, or as an asset, if the cost qualifies for recognition as an asset under the Group's accounting policies. A corresponding increase is recognized in a capital reserve within equity.

Where the employees are required to meet vesting conditions before they become entitled to the options, the Group recognizes the fair value of the options granted over the vesting period. Otherwise, the Group recognizes the fair value in the period in which the options are granted.

If an employee chooses to exercise the options, the capital reserve is transferred to share capital and share premium, together with the exercise price. If the options lapse unexercised the capital reserve is transferred directly to retained earnings.

The new accounting policy has been applied retrospectively with comparatives restated in accordance with HKFRS 2, except that the Group has adopted the transitional provisions set out in paragraph 53 of HKFRS 2 under which the new recognition and measurement policies have not been applied to the following grants of options:

all share options granted to employees on or before 7 November 2002; and

all share options granted to employees after 7 November 2002 but which had vested before 1 January 2005.

### ***(g) Financial instruments (HKAS 32 Financial instruments: Disclosure and presentation and HKAS 39 Financial instruments: Recognition and measurement)***

In prior years, convertible notes and bonds were stated in the balance sheet at face value, less unamortized discount arising upon issuance. The discount was amortized on a straight-line basis over the period from the date of issue to the date of maturity.

With effect from 1 January 2005, and in accordance with HKAS 39, the following new accounting policies are adopted:

- (i) Convertible notes issued are split into their liability and equity components at initial recognition by recognizing the liability component at its fair value and attributing to the equity component the difference between the proceeds from the issue and the fair value of the liability component. The liability component is subsequently carried at amortized cost. The equity component is recognized in the capital reserve until the note is either converted (in which case is transferred to share premium) or the note is redeemed (in which case it is released directly to retained profits).

**Table of Contents**

- (ii) Bonds issued are classified as liability at initial recognition at its fair value and is carried at amortized cost.

The new accounting policies have been adopted by way of opening balance adjustment to retained earnings as at 1 January 2005. Comparative amounts have not been restated as this is prohibited by the transitional arrangements in HKAS 39.

**3. Segment reporting**

No analysis of the Group's turnover and contribution to profit from operations by geographical segment or business segment has been presented as all the Group's operating activities are carried out in the People's Republic of China ( PRC ) and less than 10 per cent. of the Group's turnover and contribution to profit from operations were derived from activities outside the Group's mobile telecommunications and related services activities. There is no other geographical or business segment with segment assets equal to or greater than 10 per cent. of the Group's total assets.

**PROPOSED CHANGE OF COMPANY NAME**

The Board proposes to change the name of the Company from China Mobile (Hong Kong) Limited to China Mobile Limited. The change of name of the Company shall become effective after the approval by the shareholders by way of a special resolution at the annual general meeting of the Company to be convened on Thursday, 18 May 2006 and the issuance of a Certificate of Incorporation on Change of Name by the Registrar of Companies in Hong Kong. The logo and the stock trading name currently employed by the Company will remain unchanged.

A circular containing further details of the proposed change of name of the Company will be despatched to the shareholders together with the 2005 Annual Report of the Company, which contains the notice of the annual general meeting of the Company to be convened on Thursday, 18 May 2006. A further announcement will be made once the change of name becomes effective.

**PROPOSED CHANGE OF COMPANY NAME**

The board of directors (the **Board**) of China Mobile (Hong Kong) Limited (the **Company**) proposes to change the name of the Company from China Mobile (Hong Kong) Limited to China Mobile Limited. The change of name of the Company shall become effective after the approval by the shareholders by way of a special resolution at the annual general meeting of the Company to be convened on Thursday, 18 May 2006 and the issuance of a Certificate of Incorporation on Change of Name by the Registrar of Companies in Hong Kong. The logo and the stock trading name currently employed by the Company will remain unchanged.

**REASONS FOR THE CHANGE OF NAME**

In 2004, the Company completed the acquisition of the mobile telecommunications companies in ten provinces (autonomous regions) and other telecommunications assets in Mainland China, thereby becoming the first overseas-listed PRC telecommunications company operating in all thirty-one provinces (autonomous regions and directly-administered municipalities) in Mainland China. The current name of the Company does not fully reflect the fact that the Company's businesses are principally operated in thirty-one provinces, autonomous regions and municipalities in Mainland China. In addition, the Company has been listed in Hong Kong for years. The market is familiar with the Company and it is not necessary to emphasise the place of incorporation of the Company. The Board believes that the new company name will more appropriately reflect the existing core objectives of the Company and the focus and direction of its future business development.

**SHARE CERTIFICATES**

The share certificates bearing the Company's existing name will continue to be evidence of title and valid for trading, settlement and registration purposes. There will not be any arrangements for free exchange of existing share certificates for new share certificates under the new name. A further announcement will be made once the change of name becomes effective.

**GENERAL**

A circular containing further details of the proposed change of name of the Company will be despatched to the shareholders together with the 2005 Annual Report of the Company, which contains the notice of the annual general meeting of the Company to be convened on Thursday, 18 May 2006.
