ITEM 11. EXECUTIVE COMPENSATION. COMPENSATION DISCUSSION AND ANALYSIS

Executive Compensation Policy - Overview

Our overall executive compensation policy strives to support our business and financial goals by seeking to be competitive with other companies who seek the services of similarly qualified candidates and by seeking to align the interests of our executive officers with those of our shareholders.

It is our belief that compensation should be based on the level of individual job responsibility and performance and the Company's performance during a fiscal year. Additionally, compensation should reflect the value of the individual's job in the marketplace. In general, our executive compensation program has been designed to:

Attract and retain highly skilled and experienced executives by establishing a compensation program that we believe is competitive with those offered by other companies with whom we compete for management talent;

Provide a vehicle for compensating our executive officers by giving them the opportunity to acquire an interest in our common stock by receiving equity-based incentive compensation through the issuance of options, from time to time;

Establish compensation programs that are equitable internally within our organization; and

Provide differentiated compensation based on individual performance and contribution to our business and financial objectives.

Our Compensation Committee, comprised of some of our independent directors, is responsible for developing and approving the compensation program for our executive officers. To assist our Compensation Committee in performing its duties, our Chief Executive Officer may provide recommendations concerning the compensation of executive officers, excluding himself; and

may also provide our Compensation Committee information regarding an executive officer's performance in light of our overall business and financial results of operations. Our Compensation Committee considers, but is not bound to and does not always accept, our Chief Executive Officer's recommendations with respect to executive compensation. While the Compensation Committee may utilize compensation survey data, including retail and other industries, which the Compensation Committee considers comparable or relevant to our own business, our Compensation Committee does not use a specific formula to set executive pay in relation to this market data; nor does our Compensation Committee utilize any formulation directly tied to our financial results of operations.

Elements of Compensation

To accomplish our executive compensation program objectives, compensation for our executive officers generally consists of the following components: base salary, annual cash bonuses, and long-term incentives and benefits. Additionally, our executive officers are entitled to other benefits that are generally available to our employees.

Base Salary

Base salaries are used to attract and retain employees by providing a portion of compensation that is not considered at risk. The initial base salary for each executive officer was established at the time of hire taking into account the officer's scope of responsibilities, qualifications, experience and competitive salary information. The Compensation Committee generally reviews base salaries for our executive officers and other senior executives annually. Base salaries for ensuing years are determined based on an assessment of the executive's performance against job responsibilities, promotions, overall Company performance and competitive salary information.

In evaluating the performance of executives other than our Chief Executive Officer, our Compensation Committee generally assesses the job performance of our executive officers, and also may consider various measures of our performance, including sales growth, earnings per share and actual results compared to budgeted amounts. Annual adjustments in base salaries, if any, have generally been made effective as of the respective executive's anniversary hiring date.

During fiscal year 2006, the base salaries of some of our executive officers were increased in recognition of our improved financial performance in fiscal year 2005, and the demonstrated positive contributions to the financial success of our Company by these officers. Fiscal year 2006 base salary information for our Named Executive Officers is detailed in the Summary Compensation Table.

Although we do not have an employment agreement with any of our executive officers; prior to January 2004, certain of our executives did have an employment agreement with us. In accordance with the terms of those expired agreements, the base salary of those officers was contractually determined. To the extent such individuals had employment agreements that expired, the base salaries reflected in such agreements were used by us to determine the base salaries of such individuals going forward.

Annual Cash Bonuses

Annual cash incentive bonuses are intended to reflect our belief that a portion of the annual compensation of each executive officer should be contingent upon our performance and the executive's contribution to that performance. Accordingly, our executive officers, including our Chief Executive Officer, are eligible to receive annual cash bonuses in the discretion and judgment of our Compensation Committee. Our Compensation Committee considers the executive's primary area of responsibility, the executive's influence on our performance, as well as our overall performance compared to our financial plan. Cash bonuses are generally paid each year upon completion of our annual audit of our results of operations for the previous fiscal year.

In fiscal year 2006, bonuses were awarded for fiscal 2005 by our Compensation Committee and are disclosed in the Summary Compensation Table. No bonuses were awarded for fiscal year 2006.

Long-Term Incentives

We strive to provide long-term incentive compensation to our executives through equity awards under our 2000 Stock Option Plan. Our Stock Option Plan provides for the granting of both incentive stock options (as defined in Section 422A of the Internal Revenue Code) and non-statutory stock options. We believe awards granted under our Stock Option Plan help align the interests of our employees with those of our shareholders, as stock options have value only if the Company's stock price increases over time.

With respect to executive officers, stock options have generally been granted upon commencement of employment and on a periodic basis in connection with our performance evaluation process. Our Compensation Committee has on occasion also made grants in connection with promotions. Our Compensation Committee typically considers both the number of shares subject to proposed awards, as well as the valuation of proposed awards under the valuation method used for purposes of reporting expense associated with the awards. All equity-based awards to executive officers require the approval of our Stock Option Committee or the Compensation Committee before they are awarded or communicated to the individual.

Stock options are priced at the fair market value of our common stock on the date of grant of the award. Our executive officers do not have the ability to select or influence stock option grant dates. Stock options granted to executives generally vest in equal amounts over a period of years from the date of grant which assists in retaining key employees. Stock options generally are also forfeited three months following termination of the employee. We do not re-price options; likewise, if the stock price declines after the grant date, we do not replace options. The stock options typically expire ten years from the effective date of grant.

Outstanding stock option awards to our Named Executive Officers as of February 3, 2007 are reflected in the Outstanding Equity Awards at Fiscal Year-End Table. There were no stock option grants made during fiscal 2006 to our Named Executive Officers.

Other Compensation

Our executive officers also are eligible to participate in the health and dental coverage, life insurance, paid vacation and holiday, employee discount and other programs that are generally available to all of our employees. We also provide supplemental long-term disability insurance coverage. We believe the terms of our other compensation offered to our executive officers are comparable to those provided at comparable companies.

Deferred Compensation Plan

We do not maintain any deferred compensation plan for any of our employees, including for any of our executive officers.

Pension Benefits

We do not maintain any pension benefit plan for any of our employees, including for any of our executive officers. Thus, there are no accumulated pension benefits for any of our named executive officers.

Compensation Committee Report

The Compensation Committee has reviewed and discussed with management the Compensation Discussion and Analysis contained in this Form 10-K/A. Based on this review and discussion, the Compensation Committee has recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Form 10-K/A and incorporated into the Annual Report on Form 10-K for the fiscal year ended February 3, 2007.

Generally, upon a termination of employment for any reason, each Named Executive officer would be entitled to receive a cash payment of the Named Executive Officer's base salary through the date of termination, to the extent not paid, any accrued, but unused vacation pay and any unreimbursed business expenses. The Compensation Committee may, in its sole discretion, depending upon the circumstances of the termination of employment, pay the terminated Named Executive Officer severance in such amount as then determined by the Compensation Committee.

In addition, prior to the merger, an unspecified amount of inter-company obligations due from Model to its affiliate, Quality King, may be converted into a note payable or preferred stock of Model. Any Model preferred shares would be converted into preferred shares of the Company in connection with the merger. The proposed offer specifies that it is based upon a 20% premium to our common stock's closing price as of November 9, 2006 of \$13.94, or an effective price of \$16.73 per share. Following the proposed merger, the Nussdorfs would own in the aggregate approximately 80% of the Company (assuming the conversion of the Company's subordinated note held by them). The proposed offer, by its terms, is subject to numerous conditions, including approval by a special committee of our Board of Directors, comprised of independent directors, and approval by a majority of our disinterested shareholders. A special committee of our Board of Directors has been formed to review and evaluate the proposed offer.

With respect to related party transactions, as described below, pursuant to which we purchase or sell merchandise from or to companies in which the Nussdorfs are affiliated, our Audit Committee reviews on a quarterly basis the related party transactions in the aggregate between us and such company, to determine the reasonableness of the transactions as compared to third party transactions. We do not have any written policies or procedures specifically addressing such related party transactions with companies affiliated with the Nussdorfs. Our Audit Committee in reviewing such transactions considers, among other factors, the gross margin of product sales, the payment and credit terms of the transactions, and the turnover of inventory of product purchases. Our Audit Committee in ratifying such transactions has considered the commercial reasonableness of their terms.

During fiscal year 2006, we purchased approximately \$32,385,000 of merchandise from Model and its subsidiaries, representing approximately 23% of our total purchases, and sold approximately \$13,624,000 of different merchandise to Model and its subsidiaries, which represented 99% of our wholesale sales. There were approximately \$30,547,000 and \$39,317,000 of purchases from Model and its subsidiaries and approximately \$17,853,000 and \$23,570,000 of merchandise sales to Model and its subsidiaries during fiscal years 2005 and 2004, respectively. The wholesale sales made to Model and its subsidiaries result from our supplier relationships and our ability to obtain certain merchandise at better prices and in greater quantities than Model and its subsidiaries are able to achieve. The amounts due to Model and its subsidiaries at February 3, 2007 and January 28, 2006, were approximately \$16,897,000 and \$17,240,000 respectively. Accounts payable due to Model and its subsidiaries are non-interest bearing.

Purchases of products from Parlux Fragrances, Inc. (Parlux) amounted to approximately \$17,644,000, \$23,004,000, and \$38,360,000 in fiscal years 2006, 2005 and 2004, representing approximately 12%, 18% and 20%, respectively, of our total purchases. In fiscal year 2006, Parlux sold all 378,102 shares of our common stock that it had previously owned. Until February 2007, Ilia Lekach, our former Chairman and Chief Executive officer, served as the Chairman of the Board of Directors and Chief Executive Officer of Parlux. The amount due to Parlux on February 3, 2007 and January 28, 2006, was approximately \$7,213,000 and \$9,666,000, respectively. Accounts payable due to Parlux are non-interest bearing, and purchases are generally payable in 90 days.

However, due to the seasonality of our business, these terms are generally extended. These related party accounts are historically brought closer to terms at the end of the holiday season, however, we are dependent upon these extended terms for much of our liquidity during the year.

Glenn Nussdorf currently beneficially owns approximately 12% of Parlux's outstanding common stock, and three of his nominees were appointed to the Parlux Board, with one of these Board members currently serving as Parlux's Chief Executive Officer.

It is our policy that all related party transactions be disclosed to our Audit Committee for review.

Corporate Governance

Our Board of Directors has determined that all of our directors, other than Michael W. Katz and Stephen Nussdorf, are independent under the rules of The Nasdaq Stock Market. In addition, each member of both our Audit and Compensation Committees are also independent.
