1. Basis of Presentation

Basis of Consolidation. The unaudited consolidated financial statements presented herein include the accounts of Carrols Restaurant Group, Inc. (Carrols Restaurant Group or the Company) and its wholly-owned subsidiary Carrols Corporation (Carrols). Carrols Restaurant Group is a holding company and conducts all of its operations through Carrols and its wholly-owned subsidiaries. All intercompany transactions have been eliminated in consolidation.

The difference between the consolidated financial statements of Carrols Restaurant Group and Carrols is primarily due to additional rent expense of approximately \$6 per year for Carrols Restaurant Group and the composition of stockholders deficit.

Business Description. At June 30, 2007 the Company operated, as franchisee, 326 quick-service restaurants under the trade name Burger King in 12 Northeastern, Midwestern and Southeastern states. At June 30, 2007, the Company also owned and operated 80 Pollo Tropical restaurants of which 77 were located in Florida and three were located in the New York City metropolitan area, two of which were located in northern New Jersey and one of which was located in Brooklyn, New York and franchised a total of 27 Pollo Tropical restaurants, consisting of 23 in Puerto Rico, two in Ecuador and two on college campuses in Florida. Fiscal Year. The Company uses a 52-53 week fiscal year ending on the Sunday closest to December 31. All references herein to the fiscal years ended December 31, 2006 and January 1, 2006 will be referred to as the fiscal years ended December 31, 2006 and 2005, respectively. Similarly, all references herein to the three and six months ended July 1, 2007 and July 2, 2006 will be referred to as the three and six months ended June 30, 2007 and June 30, 2006, respectively. The years ended December 31, 2006 and 2005 each contained 52 weeks and the three and six months ended June 30, 2007 and 2006 contained 13 and 26 weeks, respectively.

Basis of Presentation. The accompanying unaudited consolidated financial statements for the three and six months ended June 30, 2007 and 2006 have been prepared without an audit, pursuant to the rules and regulations of the Securities and Exchange Commission and do not include certain of the information and the footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all normal and recurring adjustments considered necessary for a fair presentation of such financial statements have been included. The results of operations for the three and six months ended June 30, 2007 and 2006 are not necessarily indicative of the results to be expected for the full year.

These unaudited consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto for the year ended December 31, 2006 contained in the Company s 2006 Annual Report on Form 10-K. The December 31, 2006 balance sheet data is derived from those audited financial statements.

Use of Estimates. The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Significant items subject to such estimates include: accrued occupancy costs, insurance liabilities, legal obligations, income taxes, evaluation for impairment of goodwill, long-lived assets and Burger King franchise rights, lease accounting matters and stock-based compensation. Actual results could differ from those estimates.

2. Stock-Based Compensation

The Company adopted an incentive stock plan in 2006 (the 2006 Plan) under which incentive stock options, non-qualified stock options and restricted shares may be granted to employees and non-employee directors. During the three months ended June 30, 2007, there were an aggregate of 1,000 restricted shares granted to certain employees and an aggregate of 10,500 incentive stock options granted to three non-employee directors under the 2006 Plan. The stock options granted to employees generally vest 20% per year and expire seven years from the date of grant. Restricted shares granted to employees generally vest 33% per year for three years and restricted shares granted to non-employee directors generally vest at 20% per year.

Stock-based compensation related to these grants was \$0.4 million and \$0.7 million in the three and six months ended June 30, 2007, respectively and the income tax benefit recognized in the consolidated statement of operations for stock-based compensation was \$0.1 million and \$0.2 million for the three and six months ended June 30, 2007, respectively. The fair value of restricted shares granted is determined based on the Company s closing stock price on the date of grant.

3. Impairment of Long-Lived Assets

The Company reviews its long-lived assets, principally property and equipment, for impairment at the restaurant level. If an indicator of impairment exists for any of its assets, an estimate of undiscounted future cash flows from the related long-lived assets is compared to that long-lived asset s carrying value. If the carrying value is greater than the undiscounted cash flow, the Company then determines the fair value of the asset. If an asset is determined to be impaired, the loss is measured by the excess of the carrying amount of the asset over its fair value.

For the three and six months ended June 30, 2007 and 2006, the Company recorded impairment losses on long-lived assets for its segments as follows:

					Six	Mon	ths I	Ended
	Thre	ee Moi		Ended			20	
	20	Jun 107	e 30, 20	006	20	յա)07	ne 30 2	, 006

Taco Cabana		55		20		55		20
	\$	69	\$	20	\$	69	\$	244

4. Goodwill, Franchise Rights and Intangible Assets

Goodwill. Goodwill is reviewed for impairment annually, or more frequently when events and circumstances indicate that the carrying amounts may be impaired. The Company performs its annual impairment assessment as of December 31 and does not believe circumstances have changed since the last assessment date which would make it necessary to reassess their values. Goodwill balances are summarized below:

	Pollo	Taco	Burger	
	Tropical	Cabana	King	Total
Goodwill at June 30, 2007 and December 31, 2006	\$ 56.307	\$ 67,177	\$ 1.450	\$ 124,934

Burger King Franchise Rights. Amounts allocated to franchise rights for each Burger King acquisition are amortized using the straight-line method over the average remaining term of the acquired franchise agreements at January 1, 2002 plus one twenty-year renewal period. The Company assesses the potential impairment of franchise rights whenever events or changes in circumstances indicate that the carrying value may not be recoverable. If an indicator of impairment exists, an estimate of the aggregate undiscounted future cash flows from the acquired restaurants is compared to the respective carrying value of franchise rights for each Burger King acquisition. If an asset is determined to be impaired, the loss is measured by the excess of the carrying amount of the asset over its fair value. There were no impairment charges against franchise rights for the three and six months ended June 30, 2007 and 2006.

Amortization expense related to Burger King franchise rights was \$804 and \$873 for the three months ended June 30, 2007 and 2006, respectively. Amortization expense related to Burger King franchise rights was \$1,608 for in each of the six months ended June 30, 2007 and 2006. The estimated amortization expense for the year ending December 31, 2007 and for each of the five succeeding years is \$3,216.

Intangible Assets. The Company acquired four Taco Cabana restaurants from a franchisee in 2005. Under Emerging Issues Task Force Issue No. 04-1, Accounting for Preexisting Relationships between the Parties to a Business Combination (EITF 04-1), certain reacquired rights, including the right to the acquirer s trade name, are required to be recognized as intangible assets apart from goodwill. The Company allocated \$1.6 million of the purchase price to this intangible asset. The Company recorded amortization expense relating to the intangible asset of approximately \$71 and \$72 for the three months ended June 30, 2007 and 2006, respectively. Amortization for each of the six months ended June 30, 2007 and 2006 was \$144. The Company expects the annual amortization expense for the year ending December 31, 2007 and for each of five years ending 2008 through 2012 to be \$289, \$211, \$133, \$125, \$117 and \$99, respectively.

5. Long-term Debt

Long-term debt at June 30, 2007 and December 31, 2006 consisted of the following:

	June 30, 2007	De	cember 31, 2006
Collateralized:			
Senior Credit Facility-Term loan B facility	\$	\$	118,400
Senior Credit Facility-Term loan A facility	120,000

	301,392		299,909
Less: current portion	(1,681)		(2,477)
	\$ 299,711	\$	297,432

On March 9, 2007, Carrols terminated its senior credit facility and entered into a new senior credit facility with a syndicate of lenders. Carrols new senior credit facility totals approximately \$185 million, consisting of \$120 million principal amount of term loan A borrowings maturing on March 8, 2013 (or earlier on September 30, 2012 if Carrols 9% Senior Subordinated Notes due 2013 are not refinanced by June 30, 2012) and a \$65.0 million revolving facility (including a sub limit of up to \$25.0 million for letters of credit and up to \$5.0 million for swingline loans), maturing on March 8, 2012. The term loan A borrowings and an additional \$4.3 million of revolver borrowings from this facility were used to repay all outstanding borrowings and other obligations under Carrols prior senior credit facility and to pay certain fees and expenses incurred in connection with the new senior credit facility. The Company also recorded a \$1.5 million loss on extinguishment of debt in the six months ended June 30, 2007 for the write-off of deferred financing costs related to the prior senior credit facility.

Both term loan and revolving credit borrowings under the new senior credit facility bear interest at a per annum rate, at Carrols option, of either:

- 1) the applicable margin ranging from 0% to 0.25% based on Carrols senior leverage ratio (as defined in the new senior credit facility) plus the greater of (i) the prime rate or (ii) the federal funds rate for that day plus 0.5%; or
- 2) Adjusted LIBOR plus the applicable margin percentage in effect ranging from 1.0% to 1.5% based on Carrols senior leverage ratio.

Term loan A borrowings shall be due and payable in quarterly installments, beginning on June 30, 2008 as follows:

1) four quarterly installments of \$1.5 million beginning on June 30, 2008;

9

CARROLS RESTAURANT GROUP, INC. AND SUBSIDIARY

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

(in thousands of dollars except share and per share amounts)

- 2) eight quarterly installments of \$3.0 million beginning on June 30, 2009;
- 3) four quarterly installments of \$4.5 million beginning on June 30, 2011; and
- 4) four quarterly installments of \$18.0 million beginning on June 30, 2012.

Under the new senior credit facility, Carrols is also required to make mandatory prepayments of principal on term loan A facility borrowings (a) annually in an initial amount equal to 50% of Excess Cash Flow (as defined in the new senior credit facility), (b) in the event of certain dispositions of assets (all subject to certain exceptions) and insurance proceeds, in an amount equal to 100% of the net proceeds received by Carrols therefrom, and (c) in an amount equal to 100% of the net proceeds from any subsequent issuance of debt.

In general, Carrols obligations under the new senior credit facility are guaranteed by the Company and all of Carrols material subsidiaries and are collateralized by a pledge of Carrols common stock and the stock of each of Carrols material subsidiaries. The new senior credit facility contains certain covenants, including, without limitation, those limiting the Carrols ability to incur indebtedness, incur liens, sell or acquire assets or businesses, change the nature of its business, engage in transactions with related parties, make certain investments or pay dividends. In addition, Carrols is required to meet certain financial ratios, including fixed charge coverage, senior leverage, and total leverage ratios (all as defined under the new senior credit facility).

At June 30, 2007, \$120.0 million principal amount of term loan borrowings were outstanding under the term loan A facility and no borrowings were outstanding under the revolving credit facility. After reserving \$16.0 million for letters of credit guaranteed by the facility, \$49.0 million was available for borrowings under the revolving credit facility at June 30, 2007. The Company was in compliance with the covenants under its senior credit facility as of June 30, 2007.

On December 15, 2004, Carrols issued \$180 million of 9% Senior Subordinated Notes due 2013, which are referred to herein as the senior subordinated notes. Restrictive covenants under the senior subordinated notes include limitations with respect to the Carrols ability to issue additional debt, incur liens, sell or acquire assets or businesses, pay dividends and make certain investments. At both June 30, 2007 and December 31, 2006, \$180.0 million principal amount of the senior subordinated notes was outstanding.

The provision for income taxes for the three and six months ended June 30, 2006 was derived using an estimated effective annual income tax rate for 2006 of 33.5% as well as the effect of any discrete tax items occurring in those periods. There were no discrete tax items affecting the provision for income taxes in the three and six months ended June 30, 2006.

The Company adopted the provisions of Financial Standards Accounting Board (FASB) Interpretation No. 48, Accounting for Uncertainty in Income Taxes, (FIN 48) and interpretation of FASB Statement No. 109 (SFAS 109) on January 1, 2007. As a result of the implementation of FIN 48, the Company recognized no material adjustment in its consolidated financial statements. As of the adoption date of January 1, 2007, the Company had \$0.6 million of unrecognized tax benefits. At June 30, 2007, the Company had \$0.5 million of unrecognized tax benefits, all of which would reduce the Company s effective tax rate if recognized.

(in thousands of dollars except share and per share amounts)

The Company recognized interest and penalties related to uncertain tax positions in income tax expense. As of June 30, 2007, the Company had approximately \$0.1 million of accrued interest related to uncertain tax positions.

The tax years 2003-2006 remain open to examination by the major taxing jurisdictions to which the Company is subject. It is not possible to reasonably estimate any possible change in the unrecognized tax benefits within the next twelve months.

On July 12, 2007, the Michigan Business Tax (the MBT Act) was signed into law, which provides a comprehensive restructuring of Michigan s principal business taxes effective January 1, 2008. The MBT Act replaces the Michigan Single Business Tax that is scheduled to expire at the end of 2007. The Company is currently evaluating the impact of this law on its consolidated financial statements.

During the three and six months ended June 30, 2007, the Company made contributions of \$36 and \$100 to its postretirement plan. The Company expects to make additional contributions during 2007.

9. Lease Financing Obligations

The Company entered into sale-leaseback transactions in various years involving certain restaurant properties that did not qualify for sale-leaseback accounting and as a result, have been classified as financing transactions under Statement of Financial Accounting Standards (SFAS) No. 98, Accounting for Leases (SFAS 98). Under the financing method, the assets remain on the Company's consolidated balance sheet and proceeds received by the Company from these transactions are recorded as a financing liability. Payments under these leases are applied as payments of imputed interest and deemed principal on the underlying financing obligations.

During the second quarter of 2007, the Company exercised its right of first refusal under the leases for five restaurant properties previously accounted for as lease financing obligations and purchased these properties from the lessor. As a result, the Company reduced its lease financing obligations by \$4.4 million. The Company also recorded a gain of \$0.2 million as a reduction of interest expense which represented the net amount by which the lease financing obligations exceeded the purchase price of the restaurant properties acquired.

During the second and third quarters of 2006, the Company refinanced 14 restaurant properties previously accounted for as lease financing obligations and amended lease agreements for 34 restaurant properties to eliminate or otherwise cure the provisions that precluded the original sale-leaseback accounting. As a result of these transactions in 2006, the Company reduced its lease financing obligations by \$52.8 million, reduced its assets under lease financing obligations by \$36.2 million and recorded deferred gains of \$18.3 million which are being amortized as a reduction to rent expense over the remaining term of the underlying leases, which is generally 20 years.

As a result of these transactions, rent expense in the three and six months ended June 30, 2007 includes an additional \$1.0 million and \$2.0 million of expense, respectively, compared to the three and six months ended June 30, 2006. Also as a result of these transactions, the three and six months ended June 30, 2006 includes additional depreciation expense of \$0.3 million and \$0.6 million and additional interest expense of \$1.3 million and \$2.6 million as compared to the three and six months ended June 30, 2007. Interest expense associated with lease financing obligations, including settlement gains and losses, for the three months ended June 30, 2007 and 2006 was \$1.3 million and \$4.5 million, respectively and for the six months ended June 30, 2007 and 2006 was \$2.8 million and \$7.3 million, respectively.

10. Other Income

In the first quarter of 2007, the Company recorded a gain of \$0.3 million related to sale of one of its Taco Cabana restaurant properties.

11. Business Segment Information

The Company is engaged in the quick-service and quick-casual restaurant industry, with three restaurant concepts: Burger King operating as a franchisee and Pollo Tropical and Taco Cabana, both Company-owned concepts. 12. Commitments and Contingencies

On November 16, 1998, the Equal Employment Opportunity Commission (EEOC) filed suit in the United States District Court for the Northern District of New York (the Court), under Title VII of the Civil Rights Act of 1964, as amended, against Carrols. The complaint alleged that Carrols engaged in a pattern and practice of unlawful discrimination, harassment and retaliation against former and current female employees. The EEOC identified approximately 450 individuals (which was subsequently increased to 511 individuals) that it believed represented the class of claimants and was seeking monetary and injunctive relief from Carrols.

On April 20, 2005, the Court issued a decision and order granting Carrols Motion for Summary Judgment that Carrols filed in January 2004. Subject to possible appeal by the EEOC, the case is dismissed, however the Court noted that it was not ruling on the claims, if any, that individual employees might have against Carrols. The Company does not believe that any individual claim, if any, would have a material adverse impact on its consolidated financial statements.

On February 27, 2006, Carrols filed a motion for summary judgment to dismiss all but between four and 17 of the individual claims. On July 10, 2006, in its response to that motion, the EEOC has asserted that, notwithstanding the Court s dismissal of the case as a class action, the EEOC may still maintain some kind of collective action on behalf of these claimants. Oral argument before the Court was held on October 4, 2006 and the Company is awaiting the Court s decision on Carrols summary judgment motion. Although the Company believes that the EEOC s continued class litigation argument is without merit, it is not possible to predict the outcome of the pending motion.

On November 30, 2002, four former hourly employees commenced a lawsuit against Carrols in the United States District Court for the Western District of New York entitled Dawn Seever, et al. v. Carrols Corporation. The lawsuit alleges, in substance, that Carrols violated certain minimum wage laws under the Federal Fair Labor Standards Act and related state laws by requiring employees to work without recording their time and by retaliating against those who complained. The plaintiffs seek damages, costs and injunctive relief. They also seek to notify, and

eventually certify, a class consisting of current and former employees who, since 1998, have worked, or are working, for Carrols. As a result of the July 21, 2005 Status Conference, the parties agreed to withdraw Plaintiff's Motions to Certify and for National Discovery, and Defendant's Motion to Disqualify Counsel and related motions, to allow both sides limited additional discovery. Carrols has since filed a Motion for Summary Judgment as to the existing plaintiffs that the Court has under consideration. On January 19, 2007, plaintiffs re-filed the Motion to certify and for National Discovery. Carrols has opposed such Motions. Carrols has also moved to disqualify the Plaintiffs from representing the class and to strike the purported evidence presented in support of the motion to certify. The various motions are not yet set for hearing. It is too early to evaluate the likelihood of an unfavorable outcome or estimate the amount or range of potential loss, if any. Consequently, it is not possible to predict what adverse impact, if any, this case could have on the Company's consolidated financial statements. Carrols intends to continue to contest this case vigorously.

The Company is a party to various other litigation matters incidental to the conduct of business. The Company does not believe that the outcome of any of these other matters will have a material adverse effect on its consolidated financial statements.

13. Net Income Per Share

Basic net income per share is computed by dividing net income for the period by the weighted average number of common shares outstanding during the period. Diluted net income per share is computed by dividing net income for the period by the weighted average number of common shares outstanding plus the dilutive effect of outstanding stock options using the treasury stock method.

The computation of diluted net income per share excludes options to purchase 631,375 shares of common stock in each of the three and six months ended June 30, 2007 because the exercise price of these options was greater than the average market price of the common shares in the periods and therefore, they were antidilutive. In addition, options to purchase 620,875 shares of common stock are excluded from the computation of diluted net income per share in each of the three and six months ended June 30, 2007 as they were antidilutive under the treasury stock method.

In connection with the Company s initial public offering in 2006, the Company authorized an 11.288 for-one stock split on November 21, 2006 which became effective on December 8, 2006. Accordingly, basic and diluted shares for all periods presented have been calculated based on the average shares outstanding, as adjusted for the stock split.

The following table is a reconciliation of the income and share amounts used in the calculation of basic net income per share and diluted net income per share:

		hree months	_	une 30, 2006	Six months of		s ended June 30, 2006

14. Recent Accounting Developments

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements (SFAS 157). This statement defines fair value, establishes a framework for using fair value to measure assets and liabilities and expands disclosures about fair value measurements. The statement applies whenever other pronouncements require or permit assets or liabilities to be measured at fair value. SFAS 157 is effective for the Company s fiscal year beginning January 1, 2008. The Company is evaluating the impact the adoption of SFAS 157 will have on the Company s consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Liabilities Including an amendment of FASB Statement No. 115 (SFAS 159). This statement permits entities to choose to measure many financial instruments and certain other items at fair value. SFAS 159 is effective for the Company s fiscal year beginning January 1, 2008. The Company is currently evaluating the impact the adoption of SFAS 159 will have on its financial statements.

In May 2007, the FASB issued FASB Staff Position No. FIN 48-1, Definition of Settlement in FASB Interpretation No. 48 (the FSP). The FSP provides guidance about how an enterprise should determine whether a tax position is effectively settled for the purpose of recognizing previously unrecognized tax benefits. Under the FSP, a tax position could be effectively

The Company is a wholly-owned subsidiary of Carrols Restaurant Group, Inc. (Carrols Restaurant Group). All intercompany transactions have been eliminated in consolidation.

The difference between the consolidated financial statements of Carrols Corporation and Carrols Restaurant Group is primarily due to additional rent expense of approximately \$6 per year for Carrols Restaurant Group and the composition of stockholder s deficit.

Fiscal Year. The Company uses a 52-53 week fiscal year ending on the Sunday closest to December 31. All references herein to the fiscal years ended December 31, 2006 and January 1, 2006 will be referred to as the fiscal years ended December 31, 2006 and 2005, respectively. Similarly, all references herein to the three and six months ended July 1, 2007 and July 2, 2006 will be referred to as the three and six months ended June 30, 2007 and June 30, 2006, respectively. The years ended December 31, 2006 and 2005 each contained 52 weeks and the three and six months ended June 30, 2007 and 2006 contained 13 and 26 weeks, respectively.

Basis of Presentation. The accompanying unaudited consolidated financial statements for the three and six months ended June 30, 2007 and 2006 have been prepared without an audit, pursuant to the rules and regulations of the Securities and Exchange Commission and do not include certain of the information and the footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all normal and recurring adjustments considered necessary for a fair presentation of such financial statements have been included. The results of operations for the three and six months ended June 30, 2007 and 2006 are not necessarily indicative of the results to be expected for the full year.

These unaudited consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto for the year ended December 31, 2006 contained in the Company s 2006 Annual Report on Form 10-K. The December 31, 2006 balance sheet data is derived from those audited financial statements.

Use of Estimates. The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Significant items subject to such estimates include: accrued occupancy costs, insurance liabilities, legal obligations, income taxes, evaluation for impairment of goodwill, long-lived assets and Burger King franchise rights, lease accounting matters and stock-based compensation. Actual results could differ from those estimates.

Earnings Per Share Presentation. The guidance of SFAS No. 128, Earnings Per Share, requires presentation of earnings per share by all entities that have issued common stock or potential common stock if those securities trade in a public market either on a stock exchange (domestic or foreign) or in the over-the-counter market. The Company s common stock is not publicly traded and therefore, earnings per share amounts are not presented.

3. Impairment of Long-Lived Assets

The Company reviews its long-lived assets, principally property and equipment, for impairment at the restaurant level. If an indicator of impairment exists for any of its assets, an estimate of undiscounted future cash flows from the related long-lived assets is compared to that long-lived asset s carrying value. If the carrying value is greater than the undiscounted cash flow, the Company then determines the fair value of the asset. If an asset is determined to be impaired, the loss is measured by the excess of the carrying amount of the asset over its fair value.

For the three and six months ended June 30, 2007 and 2006, the Company recorded impairment losses on long-lived assets for its segments as follows:

	Three Months Ended June 30,			Three Months Ended Six Months Ended June 30, June 30,				
	20	007	20	006	20	007	2	006

Taco Cabana		55		20		55		20
	\$	69	\$	20	\$	69	\$	244

4. Goodwill, Franchise Rights and Intangible Assets

Goodwill. Goodwill is reviewed for impairment annually, or more frequently when events and circumstances indicate that the carrying amounts may be impaired. The Company performs its annual impairment assessment as of December 31 and does not believe circumstances have changed since the last assessment date which would make it necessary to reassess their values. Goodwill balances are summarized below:

	Pollo	Taco	Burger	
	Tropical	Cabana	King	Total
Goodwill at June 30, 2007 and December 31, 2006	\$ 56,307	\$ 67,177	\$ 1,450	\$ 124,934

Burger King Franchise Rights. Amounts allocated to franchise rights for each Burger King acquisition are amortized using the straight-line method over the average remaining term of the acquired franchise agreements at January 1, 2002 plus one twenty-year renewal period. The Company assesses the potential impairment of franchise rights whenever events or changes in circumstances indicate that the carrying value may not be recoverable. If an indicator of impairment exists, an estimate of the aggregate undiscounted future cash flows from the acquired restaurants is compared to the respective carrying value of franchise rights for each Burger King acquisition. If an asset is determined to be impaired, the loss is measured by the excess of the carrying amount of the asset over its fair value. There were no impairment charges against franchise rights for the three and six months ended June 30, 2007 and 2006.

Amortization expense related to Burger King franchise rights was \$804 and \$873 for the three months ended June 30, 2007 and 2006, respectively. Amortization expense related to Burger King franchise rights was \$1,608 for in each of the six months ended June 30, 2007 and 2006. The estimated amortization expense for the year ending December 31, 2007 and for each of the five succeeding years is \$3,216.

The Company s new senior credit facility totals approximately \$185 million, consisting of \$120 million principal amount of term loan A borrowings maturing on March 8, 2013 (or earlier on September 30, 2012 if the Company s 9% Senior Subordinated Notes due 2013 are not refinanced by June 30, 2012) and a \$65.0 million revolving facility (including a sub limit of up to \$25.0 million for letters of credit and up to \$5.0 million for swingline loans), maturing on March 8, 2012. The term loan A borrowings and an additional \$4.3 million of revolver borrowings from this facility were used to repay all outstanding borrowings and other obligations under the Company s prior senior credit facility and to pay certain fees and expenses incurred in connection with the new senior credit facility. The Company also recorded a \$1.5 million loss on extinguishment of debt in the six months ended June 30, 2007 for the write-off of deferred financing costs related to the prior senior credit facility.

Both term loan and revolving credit borrowings under the new senior credit facility bear interest at a per annum rate, at the Company s option, of either:

- 1) the applicable margin ranging from 0% to 0.25% based on the Company s senior leverage ratio (as defined in the new senior credit facility) plus the greater of (i) the prime rate or (ii) the federal funds rate for that day plus 0.5%; or

4) four quarterly installments of \$18.0 million beginning on June 30, 2012.

Under the new senior credit facility, the Company is also required to make mandatory prepayments of principal on term loan A facility borrowings (a) annually in an initial amount equal to 50% of Excess Cash Flow (as defined in the new senior credit facility), (b) in the event of certain dispositions of assets (all subject to certain exceptions) and insurance proceeds, in an amount equal to 100% of the net proceeds received by the Company therefrom, and (c) in an amount equal to 100% of the net proceeds from any subsequent issuance of debt.

In general, the Company s obligations under the new senior credit facility are guaranteed by the Company and all of the Company s material subsidiaries and are collateralized by a pledge of the Company s common stock and the stock of each of the Company s material subsidiaries. The new senior credit facility contains certain covenants, including, without limitation, those limiting the Company s ability to incur indebtedness, incur liens, sell or acquire assets or businesses, change the nature of its business, engage in transactions with related parties, make certain investments or pay dividends. In addition, the Company is required to meet certain financial ratios, including fixed charge coverage, senior leverage, and total leverage ratios (all as defined under the new senior credit facility).

At June 30, 2007, \$120.0 million principal amount of term loan borrowings were outstanding under the term loan A facility and no borrowings were outstanding under the revolving credit facility. After reserving \$16.0 million for letters of credit guaranteed by the facility, \$49.0 million was available for borrowings under the revolving credit facility at June 30, 2007. The Company was in compliance with the covenants under its new senior credit facility as of June 30, 2007.

On December 15, 2004, the Company issued \$180 million of 9% Senior Subordinated Notes due 2013, which are referred to herein as the senior subordinated notes. Restrictive covenants under the senior subordinated notes include limitations with respect to the Carrols ability to issue additional debt, incur liens, sell or acquire assets or businesses, pay dividends and make certain investments. At both June 30, 2007 and December 31, 2006, \$180.0 million principal amount of the senior subordinated notes was outstanding.

9. Lease Financing Obligations

The Company entered into sale-leaseback transactions in various years involving certain restaurant properties that did not qualify for sale-leaseback accounting and as a result, have been classified as financing transactions under SFAS No. 98, Accounting for Leases (SFAS 98). Under the financing method, the assets remain on the Company s consolidated balance sheet and proceeds received by the Company from these transactions are recorded as a financing liability. Payments under these leases are applied as payments of imputed interest and deemed principal on the underlying financing obligations.

During the second quarter of 2007, the Company exercised its right of first refusal under the leases for five restaurant properties previously accounted for as lease financing obligations and purchased these properties from the lessor. As a result, the Company reduced its lease financing obligations by \$4.4 million. The Company also recorded a gain of \$0.2 million as a reduction of interest expense which represented the net amount by which the lease financing obligations exceeded the purchase price of the restaurant properties acquired.

During the second and third quarters of 2006, the Company refinanced 14 restaurant properties previously accounted for as lease financing obligations and amended lease agreements for 34 restaurant properties to eliminate or otherwise cure the provisions that precluded the original sale-leaseback accounting. As a result of these transactions in 2006, the Company reduced its lease financing obligations by \$52.8 million, reduced its assets under lease financing obligations by \$36.2 million and recorded deferred gains of \$18.3 million which are being amortized as a reduction to rent expense over the remaining term of the underlying leases, which is generally 20 years .

As a result of these transactions, rent expense in the three and six months ended June 30, 2007 includes an additional \$1.0 million and \$2.0 million of expense, respectively, compared to the three and six months ended June 30, 2006. Also as a result of these transactions, the three and six months ended June 30, 2006 includes additional depreciation expense of \$0.3 million and \$0.6 million and additional interest expense of \$1.3 million and \$2.6 million as compared to the three and six months ended June 30, 2007. 12. Commitments and Contingencies

On November 16, 1998, the Equal Employment Opportunity Commission (EEOC) filed suit in the United States District Court for the Northern District of New York (the Court), under Title VII of the Civil Rights Act of 1964, as amended, against the Company. The complaint alleged that the Company engaged in a pattern and practice of unlawful discrimination, harassment and retaliation against former and current female employees. The EEOC identified approximately 450 individuals (which were subsequently increased to 511 individuals) that it believed represented the class of claimants and was seeking monetary and injunctive relief from the Company.

On April 20, 2005, the Court issued a decision and order granting the Company s Motion for Summary Judgment that the Company filed in January 2004. Subject to possible appeal by the EEOC, the case is dismissed, however the Court noted that it was not ruling on the claims, if any, that individual employees might have against the Company. The Company does not believe that any individual claim, if any, would have a material adverse impact on its consolidated financial statements.

On February 27, 2006, the Company filed a motion for summary judgment to dismiss all but between four and 17 of the individual claims. On July 10, 2006, in its response to that motion, the EEOC has asserted that, notwithstanding the Court s dismissal of the case as a class action, the EEOC may still maintain some kind of collective action on behalf of these claimants. Oral argument before the Court was held on October 4, 2006 and the Company is awaiting the Court s decision on the Company s summary judgment motion. Although the Company believes that the EEOC s continued class litigation argument is without merit, it is not possible to predict the outcome of the pending motion.

On November 30, 2002, four former hourly employees commenced a lawsuit against the Company in the United States District Court for the Western District of New York entitled Dawn Seever, et al. v. Carrols Corporation. The lawsuit alleges, in substance, that the Company violated certain minimum wage laws under the Federal Fair Labor Standards Act and related state laws by requiring employees to work without recording their time and by retaliating against those who complained. The plaintiffs seek damages, costs and injunctive relief. They also seek to

notify, and eventually certify, a class consisting of current and former employees who, since 1998, have worked, or are working, for the Company. As a result of the July 21, 2005 Status Conference, the parties agreed to withdraw Plaintiff's Motions to Certify and for National Discovery, and Defendant's Motion to Disqualify Counsel and related motions, to allow both sides limited additional discovery. The Company has since filed a Motion for Summary Judgment as to the existing plaintiffs that the Court has under consideration. On January 19, 2007, plaintiffs re-filed the Motion to certify and for National Discovery. The Company has opposed such Motions. The Company has also moved to disqualify the Plaintiffs from representing the class and to strike the purported evidence presented in support of the motion to certify. The various motions are not yet set for hearing. It is too early to evaluate the likelihood of an unfavorable outcome or estimate the amount or range of potential loss, if any. Consequently, it is not possible to predict what adverse impact, if any, this case could have on the Company s consolidated financial statements. The Company intends to continue to contest this case vigorously.

The Company is a party to various other litigation matters incidental to the conduct of business. The Company does not believe that the outcome of any of these other matters will have a material adverse effect on its consolidated financial statements.

13. Recent Accounting Developments

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements (SFAS 157). This statement defines fair value, establishes a framework for using fair value to measure assets and liabilities and expands disclosures about fair value measurements. The statement applies whenever other pronouncements require or permit assets or liabilities to be measured at fair value. SFAS 157 is effective for the Company s fiscal year beginning January 1, 2008. The Company is evaluating the impact the adoption of SFAS 157 will have on the Company s consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Liabilities Including an amendment of FASB Statement No. 115 (SFAS 159). This statement permits entities to choose to measure many financial instruments and certain other items at fair value. SFAS 159 is effective for the Company s fiscal year beginning January 1, 2008. The Company is currently evaluating the impact the adoption of SFAS 159 will have on its consolidated financial statements.

In May 2007, the FASB issued FASB Staff Position No. FIN 48-1, Definition of Settlement in FASB Interpretation No. 48 (the FSP). The FSP provides guidance about how an enterprise should determine whether a tax position is effectively settled for the purpose of recognizing previously unrecognized tax benefits. Under the FSP, a tax position could be effectively settled if a taxing authority has completed all of its required or expected examination procedures, if the entity does not intend to appeal or litigate the result and it is remote that the taxing authority would examine or re-examine the tax position. Application of the FSP shall be upon the initial adoption date of FIN 48. The FSP did not have a material impact on the Company s consolidated financial statements.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

(in thousands of dollars, except share amounts)

For certain of the Company s sale-leaseback transactions, the Parent Company has guaranteed on an unsecured basis the rental payments of its subsidiaries. In accordance with Emerging Issues Task Force Issue No. 90-14, Unsecured Guarantee by Parent of Subsidiary s Lease Payments in a Sale-Leaseback Transaction, the Company has included in the following guarantor financial statements amounts pertaining to these leases as if they were accounted for as financing transactions of the Guarantor Subsidiaries. These adjustments are eliminated in consolidation.

For purposes of the guarantor financial statements, the Company and its subsidiaries determine the applicable tax provision for each entity generally using the separate return method. Under this method, current and deferred taxes are allocated to each reporting entity as if it were to file a separate tax return. The rules followed by the reporting entity in computing its tax obligation or refund, including the effects of the alternative minimum tax, would be the same as those followed in filing a separate return with the Internal Revenue Service. However, for purposes of evaluating an entity sability to realize its tax attributes, the Company assesses whether it is more likely than not that those assets will be realized at the consolidated level. Any differences in the total of the income tax provision (benefit) for the Parent Company only and the Guarantor Subsidiaries, as calculated on the separate return method and the consolidated income tax provision (benefit) are eliminated in consolidation.

The Company provides some administrative support to its subsidiaries related to executive management, information systems and certain accounting, legal and other administrative functions. For purposes of the guarantor financial statements, the Company allocates such corporate costs on a specific identification basis, where applicable, or based on revenues or the number of restaurants for each subsidiary. Management believes that these allocations are reasonable based on the nature of costs incurred.
