- + *The reverse repurchase agreement matures on demand. Interest rate resets daily and the rate shown is the rate in effect on June 30, 2011*
- \* *Interest payment due from counterparty.*

- (a) Security is exempt from registration under Rule 144A of the Securities Act of 1933. These securities are considered liquid and may be resold in transactions exempt from registration, normally to qualified institutional buyers. At June 30, 2011, the aggregate market value of these securities amounted to \$581,843,050 or 44.4% of net assets.
- (b) Floating Rate Security. Stated interest rate was in effect at June 30, 2011.
- (c) Position, or a portion thereof, has been segregated to collateralize reverse repurchase agreements. The market value of the collateral amounted to \$134,132,535.
- (d) Pay-In-Kind Payments (PIK).
- (e) Illiquid security.
- (f) Security is in default and is non-income producing.
- (g) Fair valued.
- (h) Security is exempt from registration under Rule 144A of the Securities Act of 1933. These securities, which represent 0.11% of net assets as of June 30, 2011, are considered illiquid and restricted.

- (i) Coupon rate adjusts periodically based upon a predetermined schedule. Stated interest rate in effect at June 30, 2011.
- (j) This position represents unfunded or partially unfunded loan commitments. Investments in unfunded loan commitments obligate the Fund to fund these commitments at the borrower's discretion. At period end, the market value and unrealized loss of these unfunded loan commitments amounted to \$3,155,460 and \$55,790, respectively. The coupon rate will be determined at the time of funding and will be based upon the London-Interbank Offered Rate ( LIBOR ) plus a premium which was determined at the time of purchase.
- (k) This position or a portion of this position represents an unsettled loan purchase. At June 30, 2011, the market value and unrealized loss of these unsettled loan purchases amounted to \$1,260,810 and \$43,981, respectively. The coupon rate will be determined at the time of settlement and will be based upon the London-Interbank Offered Rate ( LIBOR ) plus a premium which was determined at the time of purchase.
- (l) Variable rate coupon, rate shown as of June 30, 2011.
- (m) Non-income producing security.
- (n) Investment in affiliated money market mutual fund. The rate shown represents the 7-day yield as of period end.
- (o) As of June 30, 2011, the cost basis of investment securities owned was substantially identical for both book and tax purposes. Gross unrealized appreciation of investments was \$130,676,238 and gross unrealized depreciation of investments was \$(28,835,341), resulting in net unrealized appreciation of \$101,840,897.

**AllianceBernstein Global High Income Fund****June 30, 2011 (unaudited)**

In accordance with U.S. GAAP regarding fair value measurements, fair value is defined as the price that the Fund would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date. The U.S GAAP disclosure requirements establish a framework for measuring fair value, and a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability. Inputs may be observable or unobservable and refer broadly to the assumptions that market participants would use in pricing the asset or liability. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Fund. Unobservable inputs reflect the Fund's own assumptions about the assumptions that market participants would use in pricing the asset or liability based on the best information available in the circumstances. Each investment is assigned a level based upon the observability of the inputs which are significant to the overall valuation. The three-tier hierarchy of inputs is summarized below.

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The following table summarizes the valuation of the Fund's investments by the above fair value hierarchy levels as of June 30, 2011:

<b>Investments in Securities</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>

\* Other financial instruments are derivative instruments, such as futures, forwards and swap contracts, which are valued at the unrealized appreciation/depreciation on the instrument.

The earlier close of the foreign markets gives rise to the possibility that significant events, including broad market moves, may have occurred between the close of the foreign markets and the time at which the Fund values its securities which may materially affect the value of securities trading in such markets. To account for this, the Fund may frequently value many of its foreign equity securities using fair value prices based on third party vendor modeling tools to the extent available. Accordingly, a significant portion of the Fund's investments are categorized as Level 2 investments.

Edgar Filing: ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND INC - Form N-Q

Following is a reconciliation of investments in which significant unobservable inputs (Level 3) were used in determining fair value. The transfers between levels of the fair value hierarchy assumes the financial instrument was transferred at the end of the reporting period.
