## Table of Contents

### SUMMARY INFORMATION

*This summary provides Business, Compensation and Corporate Governance Highlights from our Annual Report on Form 10-K for the fiscal year ended December 31, 2011 (our 2011 Form 10-K) as filed with the SEC on February 8, 2012 and elsewhere in this Proxy Statement and is provided to assist you in reviewing the Company's 2011 performance. The information contained below is only a summary. For additional information about these topics, please refer to the more fulsome discussions contained in this Proxy Statement and in our 2011 Form 10-K.*

### BUSINESS HIGHLIGHTS

Our strong 2011 financial results demonstrate our progress in achieving superior operating performance and our effective cash deployment. We achieved higher operating income, earnings and cash flow in a challenging federal budget environment, while continuing to align our portfolio with our customers' emphasis on affordability and in markets such as Command, Control, Communications, Computers, Intelligence, Surveillance and Reconnaissance (C4ISR), unmanned systems, cybersecurity and logistics. Our 2011 results continue a record of improving performance aimed at value creation for our shareholders, customers and employees.

**Portfolio Highlights** In March 2011, we completed the spin-off of our former shipbuilding business. In the spin-off, our shareholders received shares of the new shipbuilding company, Huntington Ingalls Industries, Inc. (HII), which represented equity value of \$1.8 billion at the time of the spin-off. We also refined our portfolio by divesting or de-emphasizing certain non-core and underperforming businesses. These actions improved our financial performance and sharpened our focus on four core areas: C4ISR, manned and unmanned systems, cybersecurity and logistics.

**Performance Highlights** 2011 earnings from continuing operations increased 10% to \$2.1 billion from \$1.9 billion in 2010. Earnings per share from continuing operations increased 17% to \$7.41 from \$6.32. This increase resulted from improved performance from our businesses, more favorable pension expense, lower interest expense and fewer shares outstanding as a result of our substantial share repurchases. These positive trends more than offset lower sales and higher taxes in 2011. Segment operating income generated by our businesses rose during the year and as a percentage of sales increased to 11.6%. Total operating income increased 16% and as a percent of sales increased to 12.4%.

We also generated higher cash from operations and higher free cash flow in 2011.\* Cash provided by operations before our discretionary after-tax pension contributions (CPO) totaled approximately \$3 billion, and free cash flow before discretionary after-tax pension contributions (FCF) totaled \$2.5 billion.\*

**Cash Deployment** Our strong cash generation in 2011 and the \$1.4 billion cash contribution from the HII spin-off allowed us to repurchase 40.2 million shares for \$2.3 billion. We also raised our quarterly dividend 6.4% to an annualized rate of \$2.00 per share, our eighth consecutive annual dividend increase. Cash returned to shareholders through dividends and share repurchases totaled \$2.8 billion in 2011.

\* Cash from operations and free cash flow presented are before discretionary after-tax pension contributions of \$648 million in 2011 and \$539 million in 2010. The information presented is a non-GAAP metric. For more information, see Miscellaneous Use of Non-GAAP Financial Measures on page 72 of

this Proxy Statement.

- i The compensation earned in 2011 by our Chief Executive Officer ( CEO ) and the other named executive officers ( NEOs ), as described in the Compensation Discussion and Analysis section of this Proxy Statement, reflect our Company's strong financial performance, achievement of the performance targets established by the Compensation Committee of the Board of Directors, and continued progress toward exceeding peer average financial benchmarks.
- j Consistent with our compensation philosophy, more than 90% of our CEO's 2011 compensation and more than 80% of the other NEOs' 2011 compensation was incentive-based pay. 2011 compensation earned also included special incentive grants awarded in February 2011 to certain NEOs designed to promote management's long-term focus on financial and operational performance.

**CORPORATE GOVERNANCE HIGHLIGHTS**

We are committed to good corporate governance, including maintaining and facilitating open lines of communication with our shareholders. Corporate governance highlights include:

- i *Ability of Shareholders to Act by Written Consent* Our Board of Directors carefully considered the input of shareholders at last year's annual meeting and has submitted to shareholders for approval a proposed amendment to our Certificate of Incorporation that will permit greater shareholder action by written consent. We believe this change represents a meaningful additional right for our shareholders.

## Edgar Filing: NORTHROP GRUMMAN CORP /DE/ - Form PRE 14A

- i *Say-on-Pay Advisory Vote* We were pleased that last year's shareholders' vote supported the compensation of our named executive officers. In response to last year's say-on-frequency advisory vote, we will submit to shareholders a non-binding say-on-pay resolution on our executive compensation again this year, and on an annual basis.
  
- i *Political Contributions* As a result of last year's shareholder proposal and other shareholder input aimed at increasing transparency with respect to our political activities, we undertook a comprehensive review of our political contribution activity. After this review, we have significantly enhanced our disclosure on our website regarding political contributions made by the Company and by our employees' political action committee.
  
- i *Director Stock Ownership* To encourage directors further to have a direct and material investment in our common stock, we implemented director stock ownership requirements that require each director ultimately to own stock of the Company in an amount equal to five times their annual cash retainer.
  
- i *Election of Additional Independent Directors* We increased the Board size to thirteen directors, twelve of whom are independent, and we appointed two additional independent directors to the Board.
  
- i *Shareholder Outreach* We have expanded our shareholder engagement program to foster increased communication with our shareholders and redesigned this Proxy Statement in an effort to provide more understandable and easily accessible disclosure for our shareholders.

We intend to mail a Notice of Internet Availability of Proxy Materials to shareholders of record and to make this Proxy Statement and accompanying materials available on the internet on or about April [ ], 2012.

The presence in person or by proxy of the holders of a majority of the shares entitled to vote at the Annual Meeting will constitute a quorum at the Annual Meeting. Persons returning executed proxy cards will be counted as present for purposes of establishing a quorum even if they abstain from voting on any or all proposals. Shares held by brokers who vote such shares on any proposal will be counted as present for purposes of establishing a quorum, and broker non-votes on other proposals will not affect the presence of a quorum.

**How can I receive a paper copy of the proxy materials?**

Instead of mailing a printed copy of this Proxy Statement and accompanying materials to each shareholder of record, we have elected to provide a Notice of Internet Availability of Proxy Materials as permitted by the rules of the Securities and Exchange Commission (SEC). This notice instructs you as to how you may access and review all of the proxy materials and how you may provide your proxy. If you would like to receive a printed or e-mail copy of this Proxy Statement and accompanying materials from us, you must follow the instructions for requesting such materials included in the Notice.

**What am I being asked to vote on?**

**What is a broker non-vote?**

Brokers who hold shares of common stock for the accounts of their clients may vote these shares either as directed by their clients or in their own discretion if permitted by the stock exchanges or other organizations of which they are members. Members of the New York Stock Exchange ( NYSE ) are permitted to vote their clients' proxies in their own discretion on certain matters if the clients have not furnished voting instructions within ten days of the meeting. However, NYSE Rule 452 defines various proposals as non-discretionary, and brokers who have not received instructions from their clients do not have discretion to vote on those items. When a broker votes a client's shares on some but not all of the proposals at a meeting, the withheld votes are referred to as broker non-votes. We expect the NYSE will deem Proposal Three to be discretionary such that brokers will be entitled to vote shares on behalf of their clients in the absence of instructions received ten days prior to the meeting. We expect all other votes to be non-discretionary.

**How do I vote my shares?**

You may vote your shares either by proxy or in person at the Annual Meeting. Shares represented by a properly executed proxy will be voted at the meeting in accordance

with the shareholder's instructions. If no instructions are given, the shares will be voted according to the recommendations of the Board of Directors. Registered shareholders and plan participants may go to [www.edocumentview.com/noc](http://www.edocumentview.com/noc) to view this Proxy Statement and the Annual

If you hold shares as a record holder there are four ways that you can vote your shares, as discussed below.

***In Person*** The methods used to grant a proxy or give voting instructions described above will not affect a registered shareholder's right to attend or vote in person at the Annual Meeting.

If any other matters are properly brought before the meeting, the proxy card gives discretionary authority to the proxyholders named on the card to vote the shares in their best judgment.

**How do I vote my shares if they are held by a bank, broker or other agent?**

Persons who own stock beneficially through a bank, broker or other agent may not vote directly. They will instead need to instruct the record owner as to the voting of their shares using the procedure identified by the bank, broker or other agent. Beneficial owners who hold our common stock in street name through a broker receive voting instruction forms from their broker. Most beneficial owners will be able to provide voting instructions by telephone or on the internet by following the instructions on the form they receive from their broker. Beneficial owners may view this Proxy Statement and the Annual Report on the internet by logging on to [www.edocumentview.com/noc](http://www.edocumentview.com/noc).

A person who beneficially owns shares of our common stock through a bank, broker or other nominee can vote his or her shares in person at the Annual Meeting only if he or she obtains from the bank, broker or other nominee a proxy, often referred to as a legal proxy, to vote those shares, and

presents such proxy to the inspector of election at the meeting together with his or her ballot.

**How do I vote my shares held under a Northrop Grumman savings plan?**

If shares are held on an individual's behalf under any of our savings plans, the proxy will serve to provide confidential instructions to the plan Trustee or Voting Manager who then votes the participant's shares in accordance with the individual's instructions. For those participants who do not return executed proxy cards, the applicable Trustee or Voting Manager will vote their plan shares in the same proportion as shares held under the plan for which voting directions have been received, unless the Employee Retirement Income Security Act (ERISA) requires a different procedure.

Voting instructions from savings plan participants must be received by the plan Trustee or Voting Manager by 11:59 p.m. Eastern Time on May 13, 2012 to be used by the plan Trustee or Voting Manager to determine the votes for plan shares.

**May I revoke my proxy?**

A shareholder who executes a proxy may revoke it at any time before its exercise by delivering a written notice of revocation to the Corporate Secretary or by signing and delivering another proxy that is dated later. A shareholder attending the meeting in person may revoke the proxy by giving notice of revocation to the inspector of election at the meeting or by voting at the meeting.

**PROPOSAL ONE:**

**ELECTION OF DIRECTORS**

Our Board of Directors has nominated thirteen directors for election at the Annual Meeting to hold office for a one-year term until the next annual meeting. Directors will hold office until their successor is elected and takes office, they resign or they are otherwise removed. Each of the thirteen director nominees has consented to serve, and we do not know of any reason why any of them would be unable to serve if elected. If a nominee becomes unavailable or unable to serve before the Annual Meeting (for example, due to serious illness), the Board of Directors may determine to leave the position vacant, reduce the number of authorized directors or designate a substitute nominee. If any nominee becomes unavailable for election to the Board of Directors, an event which is not anticipated, the proxyholders have full

discretion and authority to vote or refrain from voting for any other nominee in accordance with their judgment.

The following pages contain biographical and other information about each of the thirteen nominees. In addition, we have provided information regarding the particular experience, qualifications, attributes and/or skills that led the Board of Directors to conclude that each nominee should serve as a director.

Unless instructed otherwise, the proxyholders will vote the proxies received by them for the election of the thirteen director nominees listed below.

**Table of Contents**

**CORPORATE GOVERNANCE**

**Overview**

The following sections provide an overview of our corporate governance policies and procedures and include a description of the role of the Board of Directors, our director nomination process and the independence criteria we use in selecting directors, among other items.

The primary responsibility of the Board of Directors is to foster our long-term success representing the interests of our shareholders. We believe that strong ethical behavior is essential to achieve top performance. The Board of Directors has adopted Principles of Corporate Governance and Standards of Business Conduct that reinforce our values and strong commitment to ethics and integrity, promoting responsible business practices and good corporate citizenship.

The Principles of Corporate Governance outline the role and responsibilities of our Board of Directors, set forth additional independence requirements for our directors and provide guidelines for Board leadership and Board and committee membership, among other items. Further to align our directors' interests with those of our shareholders, our Principles of Corporate Governance require our directors to have a direct and material investment in our common stock. The Board of Directors reviews these principles at least annually and considers opportunities for improvement and modification based on changed circumstances.

Our Standards of Business Conduct apply to our Board of Directors, officers and all employees. The Standards of Business Conduct support our commitment to the highest standards of ethics and integrity in all aspects of our business. The Standards of Business Conduct require ethical conduct in our relationships with customers and suppliers, reinforce the need for avoiding actual or apparent conflicts of interest and require the responsible use of Company resources. The Standards of Business Conduct require strict adherence to all laws and regulations applicable to the conduct of our domestic and international businesses. As part of our commitment to ethics and integrity, our Standards of Business Conduct encourage open communication with Company ethics officers (which may be done on an anonymous basis) if an employee seeks guidance regarding business conduct or suspects an actual or apparent violation of the Standards of Business Conduct in good faith.

**Role of the Board and Director Responsibility**

Our day-to-day business and affairs are conducted by our employees and officers, under the direction of our Chairman and Chief Executive Officer and with the oversight of the Board of Directors. In discharging their oversight duties, the

Board of Directors regularly consults with management. Directors also communicate freely amongst themselves both at and apart from formal meetings.

The Board of Directors' general oversight responsibilities include, but are not limited to the following:

- review and monitor our long-range business strategies and significant corporate actions;
- oversee and evaluate management's performance;
- oversee senior executive succession planning;
- oversee policies to maintain our integrity and ethics, including the integrity of our financial statements, compliance with law and ethics, and the integrity of our relationships with customers and suppliers; and

i provide advice and counsel to management.

## **Board Leadership**

### *Chairperson of the Board*

Our Bylaws establish the position of Chairperson of the Board. The Chairperson of the Board will generally be either an independent director or the Chief Executive Officer. Prior to July 19, 2011, Mr. Coleman served as the Non-Executive Chairman of the Board of Directors. On July 19, 2011, Mr. Bush, our Chief Executive Officer and President, was elected by the Board of Directors to serve as its Chairman, and Mr. Coleman was designated as Lead Independent Director.

The Board of Directors believes that it is in the best interests of the Company and our shareholders to have flexibility in determining the most effective leadership structure to serve the interests of the Company and our shareholders. Our Governance Committee and our Board of Directors considered a number of factors to determine who should serve as Chairperson of the Board, including the experience and management responsibilities that Mr. Bush has as both Chief Executive Officer and President, the current environment, and what will best serve the interests of the Company and our shareholders at this time. The Board concluded that having the CEO also serve as Chairman best positions the Company to be innovative, compete successfully and advance shareholder interests. As discussed further below, the Board's designation of a Lead Independent Director demonstrates its continuing commitment to strong corporate governance and Board independence.

**CORPORATE GOVERNANCE** *(continued)*

***Lead Independent Director***

As discussed above, on July 19, 2011, Mr. Coleman was designated to serve as Lead Independent Director of the Board of Directors. In accordance with our Principles of Corporate Governance, if at any time the Chairperson of the Board is not independent, the independent directors will designate from among them a Lead Independent Director. Among the duties of the Lead Independent Director, he:

- presides at meetings of the Board of Directors at which the Chairperson of the Board is not present, including executive sessions of the independent directors;

- | interviews, along with the Chairperson of the Board and the Chairperson of the Governance Committee, all candidates for the Board of Directors and makes recommendations to the Governance Committee and the Board of Directors; and
- | if requested by major shareholders, ensures that he is available for consultation and direct communication.

#### **Board's Role in Risk Oversight**

The Board of Directors as a whole is responsible for risk oversight. The Audit Committee assists the Board of Directors in this role by reviewing and reporting to the full Board of Directors on our guidelines and policies with respect to risk assessment and risk management, including insurance risk management, major financial risk exposures, and the steps that management has taken to monitor and control such exposures. The Audit Committee annually receives a report from the Chief Financial Officer addressing our risk management process and system, the nature of the material risks the Company faces and how the Company responds to and mitigates these risks. The Audit Committee also receives periodic reports from our General Counsel and from our Chief Compliance Officer on the Company's compliance program.

Our risk management structure also includes an ongoing effort to assess and analyze the most likely areas of future risk for our Company. The Audit Committee periodically reports to the Board of Directors on matters concerning risk management, including the significant risks our Company faces and the processes, policies and procedures we employ to monitor and control such risks.

#### **Director Independence**

The Board of Directors has established an objective that at least 75% of the directors be independent directors. The Board of Directors annually determines the independence of directors based on a review by the directors and the Governance Committee. No director is considered independent unless the Board of Directors has determined that he or she meets the requirements for independence under the applicable rules of the NYSE and the SEC and has no material relationship with our Company, either directly or as a partner, shareholder, or officer of an organization that has a material relationship with our Company, other than as a director. Material relationships can include commercial, industrial, banking, consulting, legal, accounting, charitable and familial relationships, among others.

Our Principles of Corporate Governance provide that a director may be deemed not to have a material relationship with our Company if he or she:

- | has not within the prior three years been a director, executive officer or trustee of a charitable organization that received annual contributions from our Company exceeding the greater of \$1 million, or 2% of the charitable organization's annual gross revenues, where the gifts were not normal matching charitable gifts, did not go through normal corporate charitable donation approval processes or were made on behalf of a director;

**Table of Contents****CORPORATE GOVERNANCE** *(continued)*

- i has not within the prior three years been employed by, a partner in or otherwise affiliated with any law firm or investment bank retained by the Company in which the director's compensation was contingent on the services performed for our Company or in which the director personally performed services for our Company and the annual fees we paid during the preceding fiscal year did not exceed the greater of \$1 million or 2% of the gross annual revenues of such firm; and
- j has not within the prior three years owned, and has no immediate family member who owned, either directly or indirectly as a partner, shareholder or officer of another company, more than 5% of the equity of an organization that has a business relationship with (including significant purchasers of goods or services), or more than 5% ownership in, our Company.

In February 2012, the Board of Directors and the Governance Committee reviewed directors' responses to a questionnaire asking about their and their immediate family members' relationships with our Company and other potential conflicts of interest, as well as material provided by management related to transactions, relationships, or arrangements between our Company and the directors or parties related to the directors. The Board of Directors considered that Mr. Felsing, General Myers and Ms. Peters serve as members of the boards of for-profit organizations to which we have made payments in the usual course of our business and that each individual has no other relationship with those entities other than the role of director (other than Mr. Felsing who serves as Executive Chairman of Sempra Energy to which we made immaterial payments in the usual course of business). The Board of Directors considered that Mr. Fazio, Mr. Gordon, Ms. Kleiner, General Myers, Mr. Felsing and Mr. Sharer serve as members of the boards of charitable and other non-profit organizations to which we have made contributions in the usual course of our charitable contributions program or in the usual course of business. In all cases, our annual contribution to these entities did not exceed the greater of \$1,000,000 or 2% of the charitable and non-profit organization's annual gross revenue. In addition, Mr. Sharer's daughter is employed by us in a non-executive position, and her compensation is below the threshold required for disclosure by the SEC and was determined by the Board of Directors not to interfere with Mr. Sharer's independence.

The Governance Committee determined that all twelve non-employee directors are independent. All of the members of the Audit, Compensation, Governance, and Policy Committees are independent. The Governance Committee reported its conclusion to the Board of Directors, and the Board of Directors then considered each director individually

and, in applying the standards described above and considering the facts listed above concerning certain of the directors, determined that none of the twelve non-employee directors has had during the last three years any material relationship with our Company that would compromise his or her independence.

Accordingly, the Board of Directors affirmatively determined that all of the directors, except Mr. Bush, our Chairman, Chief Executive Officer and President, are independent. The independent directors constitute approximately 92% of the members of our Board of Directors.

**Director Nomination Process**

The Governance Committee identifies and evaluates director candidates and may employ a third party search firm to assist in this process. Board members also suggest director candidates to the Governance Committee. In addition, the Governance Committee will consider shareholder nominees if they have been nominated in accordance with our shareholder nominations process under our Bylaws. The shareholder recommendation must be addressed to the Governance Committee in care of the Corporate Secretary. The Governance Committee will evaluate candidates recommended by shareholders in the same manner as all other candidates brought to the attention of the Governance Committee.

The Governance Committee carefully considers all candidates on the basis of the candidate's background and experience, consistent with the criteria set forth in the Principles of Corporate Governance, and recommends to the Board of Directors the nominees for election. In making its selection, the Governance Committee bears in mind that the foremost responsibility of a director is to represent the interests of our shareholders as a whole. The activities and associations of candidates are reviewed for any legal impediment, conflict of interest or other consideration that might prevent or interfere with service on our Board of Directors. In evaluating candidates, the Governance Committee considers the personal integrity and the professional reputation of the individual as well as the education, professional background and particular skills and experience most beneficial to service on the Board of Directors. The Governance Committee also evaluates whether a director candidate is willing to submit to a background check necessary for obtaining a top secret clearance, and whether a director candidate has timely obtained a top secret clearance.

Edgar Filing: NORTHROP GRUMMAN CORP /DE/ - Form PRE 14A

As set forth in the Governance Committee Charter, the Governance Committee is responsible for establishing the criteria for Board membership. The Governance Committee

includes diversity as a key criterion for board composition. While we do not have a formal policy outlining the diversity standards to be considered when evaluating director candidates, our objective is to foster diversity of thought on our Board of Directors. To accomplish that objective, the Governance Committee seeks to achieve diversity including race, gender and national origin as well as differences in perspective, professional experience, education, skill and other qualities that contribute to our Board of Directors. The Governance Committee considers diversity amongst other important criteria for board membership and regularly monitors the composition of the Board of Directors with respect to diversity. We have established a number of programs and initiatives to help further diversity and inclusion throughout our Company.

In accordance with our Amended and Restated Bylaws and Restated Certificate of Incorporation, directors are elected by the shareholders for a one-year term expiring at the Annual Meeting of Shareholders following their election. Generally, in order to be elected or re-elected to the Board of Directors, a director nominee must receive more votes cast for rather than against his or her election or re-election unless one or more shareholders provide notice of an intention to nominate one or more candidates to compete with the Board of Directors nominees in a director election. Between annual meetings of the shareholders, the Board of Directors has the authority, under our Bylaws and Certificate of Incorporation, to fill any vacant positions.

#### **Effect of a Failure by an Incumbent Director to Receive the Required Vote for Re-Election**

Following the annual meeting at which the directors are elected, each director is required to tender a resignation that will be effective upon (i) the failure to receive the required vote at any future meeting at which such director faces re-election and (ii) the Board of Directors acceptance of such resignation. If an incumbent director fails to receive the required vote for re-election, the Governance Committee will consider whether the Board of Directors should accept the director's resignation and will submit a recommendation for prompt consideration by the Board of Directors. The Board of Directors expects the director whose resignation is under consideration to abstain from participating in any decision regarding that resignation and will also request that all non-independent directors abstain from participating in the decision regarding the resignation unless

the Board of Directors determines that the participation of one or more such directors is necessary under the circumstances. The Governance Committee and the Board of Directors may consider any factor they deem relevant in deciding whether to accept a resignation, including, without limitation, any harm to our Company that may result from accepting the resignation, the underlying reasons for the action at issue, and whether action in lieu of accepting the resignation would address the underlying reasons.

The Board of Directors will decide whether to accept or reject a resignation within 90 days, unless the Board of Directors determines that compelling circumstances require additional time.

#### **Board Membership**

All new directors receive an orientation that is individually tailored, taking into account the director's experience, background, education and committee assignments. This orientation includes one-on-one meetings with senior management and written materials about our Company and our various products and operations, key Company policies and procedures (including our Standards of Business Conduct) and duties and responsibilities under applicable law. We also maintain a list of continuing director education opportunities, and all directors are encouraged to periodically attend, at our expense, director continuing education programs offered by various organizations.

Directors may not serve on more than three other boards of publicly traded companies in addition to our Board of Directors without the approval of the Chairperson of the Governance Committee. A director who is a full-time employee of our Company may not serve on the board of more than two other public companies unless approved by the Board of Directors. When a director's principal occupation or business association changes substantially during his or her tenure as a director, the Board of Directors expects the director to tender his or her resignation for consideration by the Governance Committee, which subsequently will recommend to the Board of Directors the action, if any, to be taken with respect to the resignation. We have a retirement policy whereby a director will retire at the Annual Meeting of Shareholders following his or her 72nd birthday.

**CORPORATE GOVERNANCE** *(continued)*

The Board of Directors holds its meetings at Company locations other than our corporate headquarters on a regular basis to provide the directors with a first-hand view of the business at that location and an opportunity to interact with local management.

The non-employee directors meet in executive session during each in-person Board of Directors meeting and on other occasions as needed. The non-executive chairperson of the board or the lead independent director presides over the executive sessions. The Audit Committee meets in executive session at each in-person Audit Committee meeting, and regularly requests separate executive sessions with representatives from the independent registered public accounting firm, and our senior management, including our Chief Financial Officer, General Counsel and our Vice President, Internal Audit. The Compensation Committee also meets in executive session at regular Compensation Committee meetings, and regularly requests the Compensation Committee's compensation consultant report to the Compensation Committee in executive session. The Governance and Policy Committees may also meet in executive session as they deem necessary.

The Chairperson of the Board, in consultation with the Lead Independent Director, if any, and committee chairpersons, establishes the agenda for each Board of Directors meeting. Any other member of the Board of Directors is free to suggest the addition of any other item(s). The chairpersons of the committees coordinate committee meeting agendas with appropriate members of management. Other committee members are free to suggest additional agenda items.

**Evaluation and Succession Planning**

Every year the Board of Directors conducts an assessment of its performance and at the conclusion of the evaluation process discusses its results. The Board of Directors also considers the performance of each individual director on a regular basis.

The Board of Directors believes that providing for continuity of leadership is critical to the success of our Company. Therefore, processes are in place:

- annually to evaluate the chief executive officer based on a specific set of performance objectives;
- annually to provide the Compensation Committee with an assessment of persons considered potential successors to certain management positions, and the Compensation Committee reports and discusses the results of these reviews with the Board of Directors; and
- to support continuity of top leadership, including chief executive officer succession.

**Departure and Election of Directors in 2011 and 2012**

During 2011, the following changes occurred with respect to the composition of our Board of Directors:

All members of the Board of Directors in May 2011 attended the 2011 Annual Meeting.

**Table of Contents****COMPENSATION OF DIRECTORS****Director Compensation**

The Compensation Committee is responsible for reviewing and recommending the compensation of the members of our Board of Directors. In 2011, the Compensation Committee recommended to the Board of Directors, and the Board of Directors approved, the non-employee director fee structure, effective April 1, 2011. The table below lists the annual fees payable to our non-employee directors from January 1, 2011 to March 31, 2011 under the prior director fee structure, as well as the annual fees payable under our current director fee structure effective April 1, 2011.

Compensation Element	Amount (\$)		Amount (\$)	
	(1/1/11)	3/31/11)	(4/1/11	present)
Annual Cash Retainer	100,000		115,000	
Annual Retainer for Lead Independent Director*		N/A		25,000
Audit Committee Retainer	10,000		10,000	
Audit Committee Chair Retainer	15,000		15,000	
Compensation Committee Chair Retainer	10,000		15,000	
Governance Committee Chair Retainer	10,000		10,000	
Policy Committee Chair Retainer	7,500		7,500	
Annual Equity Grant**	120,000		130,000	

\* For the period from January 1, 2011 through July 18, 2011, Mr. Coleman served as Non-executive Chairman of the Board of Directors. He was paid the prorated portion of an annual cash retainer of \$250,000 for service as the Non-executive Chairman during that period in addition to a prorated portion of the applicable annual cash retainer paid to the other members of the Board of Directors. Mr. Coleman began serving as Lead Independent Director effective July 19, 2011.

\*\* The annual equity grant is required to be deferred into a stock unit account pursuant to the 2011 Long-Term Incentive Stock Plan (the 2011 Plan ) and the 1993 Stock Plan for Non-Employee Directors, as amended (the 1993 Directors Plan ). The equity award provisions of the 1993 Directors Plan also applied to the shares awarded in 2011 pursuant to the 2011 Plan.

Retainer fees are paid on a quarterly basis at the end of each quarter. To encourage directors to have a direct and material investment in shares of our common stock, each year directors who are not employees must defer at least \$130,000 of their annual equity grant in Company stock to be placed in a stock unit account ( Automatic Stock Units ) to be paid out at the conclusion of the director's board service, or earlier, as specified by the director, if he or she has five or more years of service. In addition, each director may elect to defer payment of all or a portion of his or her remaining annual cash retainer and other annual committee retainer fees into a stock unit account ( Elective Stock Units ). The Elective Stock Units are paid at the conclusion of board service or earlier as specified by the director, regardless of years of service. All deferral elections must be made prior to the beginning of the year for which the retainer and fees will be paid. Directors are credited with dividend equivalents in connection with the accumulated stock units until the shares of common stock related to such stock units are issued.

All directors are required to own common stock of the Company in an amount equal to five times the annual cash retainer, with such ownership to be achieved within five years of the later of (i) May 18, 2011 or (ii) the director's election to the Board. Deferred stock units and Company stock owned outright by the director count towards this requirement.

Directors are also eligible to participate in our Matching Gifts Program for Education. Under this program, the Company matches director contributions, up to \$10,000 per year per director, to eligible educational programs in accordance with the rules of the program.

**Security Arrangements for Certain Directors**

We maintain a comprehensive security program. As a component of this program, we provide certain individuals with residential and/or travel protection that we consider necessary to address our security requirements. In selecting the level and form of protection, we and the Board of Directors consider both security risks faced by those in our industry in general and security risks specific to our Company and employees.

## Edgar Filing: NORTHROP GRUMMAN CORP /DE/ - Form PRE 14A

In 2010, we received specific information from Federal law enforcement officials that led us to conclude that there were threats to the Company and its principals. Based on that information and an ongoing dialogue with law enforcement officials, the Board of Directors has required that Mr. Bush, Mr. Coleman (who served as our Non-Executive Chairman when the threat was

20 1 [NORTHROP GRUMMAN CORPORATION](#) 2012 ANNUAL MEETING OF SHAREHOLDERS

**Table of Contents****COMPENSATION OF DIRECTORS** *(continued)*

identified) and certain NEOs and elected officers receive varying levels of residential and travel protection. Mr. Coleman and Mr. Bush receive additional protection based on the specific threat information. That level of protection was provided for a partial year in 2010 and for the full year in 2011. The security protection for Mr. Coleman in 2011 included housing him in a more secure residence and providing for his personal travel and travel required by his employer using Company-provided aircraft to ensure his security. Consequently, the cost of providing security for Mr. Coleman during 2011 was higher than the cost of providing Mr. Bush's security.

Since we require this protection under a comprehensive security program and it is not designed to provide a personal benefit (other than the intended security), we do not view these security arrangements as compensation to the individuals. We report these security arrangements as perquisites as required under applicable SEC rules. In addition, we would report them as taxable compensation to the individuals, if they were not excludable from income as working condition fringe benefits under Internal Revenue Code Section 132.

We regularly review the nature of the threat and associated vulnerabilities with law enforcement and security specialists, and will continue to revise our security program as appropriate in response to those reviews, including the duration of security coverage required when individuals no longer serve in the roles associated with the threat information.

- (1) Amounts shown in the Fees Earned or Paid in Cash column reflect the annual retainer paid to each director, including any applicable annual committee retainers. As described above, a director may elect to defer all or a portion of his or her annual retainer into a stock unit account.
- (2) Represents the target value of Automatic Stock Units awarded to each of our non-employee directors in 2011 under the 2011 Plan and the 1993 Directors Plan. The amount reported in this column for each director reflects the aggregate fair value on the date of grant, as determined under Financial Accounting Standards Board Accounting Standards Codification Topic 718, Stock Compensation, of the stock units for each director, excluding any assumed forfeitures.

Assumptions used to calculate these amounts are included in Note 17 of our consolidated financial statements included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011.

- (3) Amounts reflected in the All Other Compensation column include the dollar value of additional stock units credited to each non-employee director as a result of dividend equivalents earned on their respective stock units awarded under the 2011 Plan and the 1993 Directors Plan as follows: Mr. Coleman, \$61,542; Mr. Fargo, \$2,759; Mr. Fazio, \$40,484; Mr. Felsing, \$31,310; Mr. Frank, \$23,014; Mr. Gordon, \$12,514; Ms. Kleiner, \$12,514; Mr. Krapek, \$22,488; General Myers, \$21,222; Ms. Peters, \$28,291; Mr. Schoewe, \$127; and Mr. Sharer, \$48,906.

Amounts shown also include perquisites and other personal benefits provided to certain of the directors in 2011 for use of Company aircraft for personal travel, including travel expenses for family members accompanying the director while on travel, security and matching contributions made through our Matching Gifts Program for Education discussed above. The cost of any category of the listed perquisites and personal benefits did not exceed the greater

of \$25,000 or 10% of total perquisites and personal benefits for any director, except for (i) the residential and personal security provided to Mr. Coleman described in footnote 5 below and (ii) Mr. Felsingers personal and spousal travel on Company aircraft (\$46,804).

- (4) Includes \$130,027 retainer for service as the Non-Executive Chairman of the Board of Directors from January 1, 2011 to July 18, 2011.
- (5) Amounts include expenses for residential and personal security required for Mr. Coleman. We calculate the cost of travel security coverage based on the hourly rates and overhead fees charged directly to the Company by the firms providing security personnel. If Company security personnel are used, their hourly rates are used to calculate the cost of coverage for each trip. During 2011, the Company incurred \$5,203,559 in costs related to security protection related to Mr. Coleman. These costs include \$1,515,536 attributable to personal and family member travel on Company aircraft consistent with our security program discussed above and a \$174,953 tax gross-up.
- (6) Admiral Thomas B. Fargo resigned from the Board of Directors and its committees on March 21, 2011. All amounts shown for 2011 were paid in cash upon Admiral Fargo's resignation from service on the Board of Directors.
- (7) Amounts include matching contributions made through our Matching Gifts Program for Education discussed above as follows: Mr. Fazio, \$5,000; Ms. Kleiner, \$10,000; Mr. Krapek, \$5,000; and Ms. Peters, \$7,500.
- (8) Includes spousal travel on Company aircraft. To calculate the value of personal use of Company aircraft, we calculate the incremental cost of each element, which includes trip-related crew hotels and meals, in-flight food and beverages, landing and ground handling fees, hourly maintenance contract costs, hangar or aircraft parking costs, fuel costs based on the average annual cost of fuel per mile flown and other smaller variable costs. Fixed costs that would be incurred in any event to operate Company aircraft (e.g., aircraft purchase costs, maintenance not related to personal trips and flight crew salaries) are not included.
- (9) Admiral Roughead was elected to the Board of Directors on February 14, 2012.
- (10) Mr. Schoewe was elected to the Board of Directors on August 17, 2011. Amounts shown reflect the prorated amounts of Mr. Schoewe's retainer fees and equity grant for 2011.

**Deferred Stock Units**

As of December 31, 2011, the non-employee directors had the following aggregate number of deferred stock units accumulated in their deferral accounts for all years of service as a director, including additional stock units credited as a result of dividend equivalents earned on the stock units.

**Table of Contents****COMPENSATION OF DIRECTORS** *(continued)***Prior Non-Employee Directors Equity Plans**

The 1995 Stock Plan for Non-Employee Directors (the 1995 Directors Plan ) provided for the annual grant of nonqualified stock options to each non-employee director to purchase shares of common stock with an exercise price equal to the fair market value of a share of common stock on the grant date. Since June 2005, no new grants have been issued pursuant to the 1995 Directors Plan. Awards subsequent to 2005 have been issued pursuant to the 1993 Directors Plan and the 2011 Plan. All stock options currently outstanding under the 1995 Directors Plan have a term of ten years from the date of grant. If the individual ceases to serve as a director, the stock options continue to be exercisable for the lesser of five years or the expiration of the original term of the stock options. If the termination of the individual's service is for cause, the stock options terminate and are automatically forfeited when the director ceases to serve.

Each non-employee director had the following aggregate number of shares underlying outstanding stock option awards that are exercisable as of December 31, 2011:

***Director Equity Plan***

Under the Northrop Grumman Non-Employee Directors Equity Participation Plan (the Director Equity Plan ), non-employee directors had an amount equal to 50% of their annual retainer credited to an equity participation account and converted into stock units based on the then fair market value (as defined in the Director Equity Plan) of our common stock. Because no new participants have been added to the Director Equity Plan since May 31, 2005, only Ms. Peters and Messrs. Coleman, Fazio and Sharer participate in this plan. Generally, if a participating non-employee director terminates service on the Board of Directors after completion of at least three consecutive years of service or retires from the Board of Directors as a result of a total disability or a debilitating illness as defined in the Director Equity Plan, the participant will be entitled to receive the full balance of the participant's equity participation account in annual installments. If a participant terminates service on the Board of Directors prior to completing three consecutive years of service and the termination occurs because he or she will have attained age 70 prior to the annual meeting of shareholders, the participant will be entitled to a partial amount of his or her equity participation account. Upon a change in control of the Company, as defined in the Director Equity Plan, non-employee directors will immediately be entitled to receive the full balance of their equity participation account under the Director Equity Plan regardless of the number of years of consecutive service, although payments of their benefits will not commence until the termination of his or her service. No new annual accruals have been credited to the Director Equity Plan; however, the directors participating in the Director Equity Plan do receive quarterly dividend accruals on the balances held in their respective equity participation accounts.

**TRANSACTIONS WITH RELATED PERSONS AND CONTROL PERSONS**

**Related Person Transaction Policy**

The Board of Directors has approved a written policy and procedures for the review, approval and ratification of transactions among our Company and our directors, executive officers and related persons. A copy of the policy is available on our website ([www.northropgrumman.com](http://www.northropgrumman.com)) and described in Corporate Governance Available Information above. The policy requires that all related person transactions be reviewed and approved or ratified, as applicable, by the Governance Committee. The Governance Committee may approve or ratify related person transactions at its discretion if the transaction is deemed fair and reasonable to the Company.

The policy defines a related person transaction as any transaction in which the Company was, is, or will be a participant, where the amount involved exceeds \$120,000, and in which a related person had, has or will have a direct or indirect material interest. A related person includes:

- i any of our directors or executive officers;
- i any person who is known to be the beneficial owner of more than 5% of any class of our voting securities;
- i an immediate family member of any such person; and
- i any firm, corporation, or other entity controlled by any such person.

The Corporate Secretary may determine that a transaction in an amount less than \$120,000 should nonetheless be deemed a related person transaction. If this occurs, the transaction would also be required to be submitted to the Governance Committee for review and approval or ratification.

The policy requires each director and executive officer to complete an annual questionnaire to identify his or her related interests and persons and to notify the Corporate Secretary of any changes to that information. The Corporate Secretary maintains a master list of related persons for purposes of tracking and reporting related person transactions.

If the Governance Committee does not recommend ratification of a related person transaction or the Board of Directors does not ratify a related person transaction that is pending or ongoing, the Governance Committee will refer the transaction to management for amendment or termination and determine whether other action is appropriate.

**Certain Relationships and Related Person Transactions**

In 2011, except as disclosed in the paragraph below, none of our directors or executive officers was a participant in or had a relationship regarded as a related person transaction, as considered under our corporate written policy and applicable regulations of the SEC and the NYSE listing standards.

As discussed under the Corporate Office Relocation section of the Compensation Discussion and Analysis included in this Proxy Statement, in 2010 we announced that we would move our corporate headquarters from Los Angeles, CA to Falls Church, VA. The relocation was completed in the summer of 2011. Messrs. Bush and Palmer were the only NEOs impacted by the relocation, as none of the other NEOs in the corporate headquarters were based in Los Angeles, CA. Mr. Bush did not receive any relocation payments from the Company in 2011, and he elected to pay his own costs of moving his household goods. The Compensation Committee approved a lump sum payment of \$750,000 to Mr. Palmer in lieu of relocation benefits to which he was otherwise entitled. In exchange for this payment, Mr. Palmer forfeited all benefits to which he was otherwise entitled to receive under our relocation policy.

In 2011, we paid Michael Petters \$302,360 in relocation benefits. Prior to the spin-off, Mr. Petters was the head of our shipbuilding business.

#### **Compensation Committee Interlocks and Insider Participation**

The members of the Compensation Committee are listed previously in the section Committees of the Board of Directors. No member of the Compensation Committee had a relationship with the Company or any of our subsidiaries, other than as directors and shareholders, and no member has ever been an officer or employee of the Company or any of our subsidiaries, a participant in a related person transaction or an executive officer of another entity, where one of our executive officers serves on the board of directors.

#### **Certain Indemnification Agreements**

Our Bylaws generally require us to indemnify our directors and executive officers to the fullest extent permitted by Delaware law. Additionally, as permitted by Delaware law, we have entered into indemnification agreements with each of our directors and executive officers. Under the indemnification agreements, we have agreed to hold harmless and indemnify each indemnitee, generally to the fullest extent permitted by Delaware law, against all expenses, liabilities and loss incurred in connection with any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative to which the indemnitee is made a party by reason of the fact that the indemnitee is or was a director or officer of the Company or any other entity at our request, provided however, that the indemnitee acted in good faith and in a manner reasonably believed to be in or not opposed to the best interests of our Company.

**SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE**

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires our directors and executive officers, and persons who own more than ten percent of our common stock, to file reports of ownership and changes in ownership on Forms 3, 4 and 5 with the SEC.

Based on our review of Forms 3, 4 and 5 we have received or have filed on behalf of our officers and directors, and of written representation from those persons that they were not required to file a Form 5, we identified one Form 4 for Ms. Peters that, due to an administrative error, was filed late during the year ended December 31, 2011. This filing related to shares of common stock transferred to a trust. We believe that all other filings were made on a timely basis during the year ended December 31, 2011.

We have included this summary to assist you in reviewing the 2011 compensation earned by our NEOs.*

**Our Business**

We provide technologically advanced, innovative products, services, and integrated solutions in aerospace, electronics, information and services to global customers. Our primary customer is the U.S. Government.

To increase our competitiveness and maximize our ability to provide affordable solutions to our customers, we have improved our performance and cost structure and undertaken significant portfolio shaping actions, including the spin-off of our former shipbuilding business, sector consolidations and business unit realignments and the sale or de-emphasis of several non-core or underperforming businesses. These actions are aimed at generating improved performance and achieving affordability and alignment with customer needs.

While our industry's business environment continues to be shaped by domestic economic conditions and the policy and budget decisions of the U.S. Government, we believe these actions will help position us for success going forward.

*For more information regarding our business, see Business and Management's Discussion and Analysis of Financial Condition and Results of Operations in our 2011 Form 10-K.*

**2011 Highlights\***

2011 was a very productive year for our Company. We continued to focus on performance and value creation for shareholders, customers and employees. We further aligned our portfolio with our customers' emphasis on affordability initiatives and in markets such as Command, Control, Communications, Computers, Intelligence, Surveillance and Reconnaissance ( C4ISR ), manned and unmanned systems, cybersecurity and logistics. We improved our 2011 performance as demonstrated by substantial increases in operating income and operating margin rate, we continued our share repurchase program and we distributed substantial cash to shareholders through dividends.

**Portfolio Highlights:** In March 2011, we completed the spin-off of our former shipbuilding business. In the spin-off, our shareholders received shares of the new shipbuilding company, HII, which represented equity value of \$1.8 billion at the time of the spin-off. We also refined our portfolio by

divesting or de-emphasizing non-core and underperforming businesses. These actions improved our financial performance and sharpened our focus on four areas – C4ISR, manned and unmanned systems, cybersecurity and logistics.

**Performance Highlights:** 2011 earnings from continuing operations increased 10% to \$2.1 billion from \$1.9 billion in 2010. Earnings per share from continuing operations increased 17% to \$7.41 from \$6.32, reflecting the higher earnings from continuing operations and the positive impact of cash generation and 2011 share repurchases. 2010 earnings per share include two unusual items which increased 2010 earnings per share by \$0.50. Excluding those items from 2010, earnings per share in 2011 increased 27%. Segment operating income generated by our businesses rose during the year and as a percentage of sales increased to 11.6%. Improved 2011 performance and pension expense resulted in a 16% increase in operating income, and as a percentage of sales operating income increased to 12.4%.

**Cash Deployment Highlights\***: 2011 was another year of strong cash generation. Before discretionary pension contributions our continuing operations generated approximately \$3 billion, and after capital spending, our 2011 FCF totaled \$2.5 billion. We returned a total of \$2.8 billion to shareholders through the repurchase of 40.2 million shares of our common stock for \$2.3 billion and paid shareholders dividends of \$543 million. In 2011, we increased our quarterly dividend 6.4% to an annualized rate of \$2.00 per share, our eighth consecutive annual dividend increase. In total, we used \$2.8 billion, or approximately 150% of 2011 reported free cash flow, to repurchase shares and pay dividends.

\* *Cash from operations and free cash flow presented above are before discretionary after-tax pension contributions of \$648 million in 2011 and \$539 million in 2010. The information presented is a non-GAAP metric. For more information see [Miscellaneous Use of Non-GAAP Financial Measures](#) on page 72 of this Proxy Statement*

***Our Compensation Strategy and Alignment with Our Shareholders***

- Our incentive plans are aligned with the interests of our shareholders and are designed to motivate and reward strong financial performance. Two years ago we shifted away from internal, plan-based performance metrics and established peer-based financial goals to improve our performance relative to nine peers in the aerospace and defense industry.
- Our annual incentive program uses a peer pay for performance approach, as defined by a set of financial and non-financial metrics. Our financial metrics are weighted as follows: New Business Awards (20%), Pension-Adjusted Operating Margin Rate ( Pension-Adjusted OM Rate ) (40%), and FCF Conversion (40%). In only two years, this focus on peer-based metrics has driven our Company's performance to above-average peer financial performance. Company leaders and key employees who have the ability to most impact the achievement of our business results are eligible to participate in the program.
- For purposes of measuring our financial performance, we define our peer group as the nine largest companies (measured by sales) of the aerospace and defense industry in the U.S. and Europe.
- Our Long-Term Incentive ( LTI ) program rewards performance over a three-year performance period to encourage sustainability over time for our investors. Beginning in 2010, all NEOs are measured on relative total shareholder return during this three year period.

**Compensation and Corporate Governance Features**

We endeavor to maintain good governance practices with respect to the oversight of our executive compensation policies. The following policies and practices, among others, were in effect during 2011.

- Our Board of Directors is led by a Chairman, who also is our CEO, and a Lead Independent Director, who are designated by the independent directors. Our Compensation Committee Chairperson is an independent director with strong compensation and leadership experience;
- Our stock ownership policy defines clear stock ownership guidelines for our executive officers, including the NEOs. As of December 31, 2011, each of the NEOs satisfied his or her individual stock ownership level in accordance with these guidelines. Beginning with the 2010 grant, equity awards to officers are subject to new stock retention requirements. Fifty percent (50%) of the net shares acquired upon the exercise of stock options or the payment or vesting of any performance shares are required to be held for a period of three years. These restrictions generally continue upon termination and retirement as described in detail below;
- Under our clawback policy, certain incentive compensation awards are subject to recovery if our financial results are restated;

COMPENSATION DISCUSSION AND ANALYSIS | EXECUTIVE SUMMARY (continued)

*Executive Compensation Decisions: A Look Forward to 2012*

The Compensation Committee has taken certain actions based in part on shareholder feedback on pay-for-performance objectives as well as our desire to provide competitive reward and retention value to our key executives. The Committee has:

- maintained NEO 2012 base salaries at their 2011 levels;
- revised our executive retirement benefits, eliminating pay-based accruals in legacy defined benefit and Supplemental Executive Retirement Plans ( SERPs ) effective January 1, 2015, to better align the benefits offered with current market practices, reduce costs, and decrease non-performance-based elements of executive compensation;
- increased 2012 annual cash-based bonus performance targets by 25 percentage points for NEO s other than the CEO to better align with market practices; the CEO 2012 annual performance target will remain at the 2011 level for 2012;
- in response to shareholder preference for full-value equity grants, changed the portfolio mix for 2012 equity grants for elected officers to a mix of restricted performance stock rights ( RPSRs ) and restricted stock rights ( RSRs ), eliminating grants of stock options; and
- changed the terms and methodology for the grants of long-term performance shares to elected officers who are also members of the Corporate Policy Council ( CPC ) to better align their interests with shareholder interests; these changes include: reducing the maximum payout under the programs from 200% of the RPSR award granted to 150% of the RPSR award granted and limiting the payout to no more than 100% of shares granted if absolute total shareholder return over the performance period is negative, even if our performance relative to the other industry benchmarks would have resulted in a higher score.

In his first two years as CEO, the Board of Directors made larger equity grants to the CEO in recognition of the significant increase in responsibilities, competitive market data and economic alignment with shareholder interests. In 2010, the equity grant value was \$15,505,013, and in 2011 it was \$12,977,692. For 2012, the Board of Directors determined that sufficient economic alignment was attained and approved a market median LTI grant at \$8,000,000.

**Table of Contents****COMPENSATION DISCUSSION AND ANALYSIS | KEY PRINCIPLES****Compensation Philosophy and Objectives**

The philosophy underlying our executive compensation program is to provide an attractive, flexible and market-based total compensation program tied to performance and aligned with the interests of our shareholders. Our objective is to recruit and retain the caliber of executive officers and other key employees necessary to deliver sustained high performance to our shareholders, customers and communities.

The Compensation Committee oversees our executive compensation and benefit programs. In its oversight of our compensation programs, the Compensation Committee is guided by the following principles:

- **Pay for Performance:** 2011 is the second year in which we have used a compensation structure based on peer-benchmarked performance metrics for our incentive plans, designed to drive superior results as compared to defense industry performance rather than internal operational goals.
- **Industry Benchmarking:** We evaluate our compensation programs and financial objectives on an annual basis and modify them in accordance with overarching industry and business conditions. When defining key operational (annual) and strategic (long-term) performance metrics, we seek to outperform our peers (a group of nine aerospace and defense companies). We also utilize two larger peer groups specifically to track and monitor executive compensation practices and levels in the overall marketplace of companies similar in revenue size to the Company.
- **Ensure Leadership Retention and Succession:** Compensation is designed to be competitive within our industry and retentive for key individuals who contribute to the achievement of business goals. Our programs are designed to motivate and reward NEOs for delivering operational and strategic performance and maximizing shareholder returns, while continuing to uphold our values.
- **Align Pay Programs with Shareholder Interests:** The Committee supports a compensation structure that places an appropriate level of compensation at risk based on our financial and non-financial (qualitative) performance, individual performance and relative total shareholder return. Our financial results predominantly determine the annual incentive compensation and are the sole factor in our long-term compensation. Achievement of both annual incentive goals and increased shareholder value will result in individual awards commensurate with results; however, failure to deliver shareholder value will negatively affect compensation for all NEOs. In addition, we have stock ownership guidelines for all executives and implemented holding requirements for equity grants beginning in 2010.
- **Ensure Long-Term Sustained Performance:** Our annual incentive plan includes both financial and non-financial metrics to ensure that we are building a strong foundation for growth and sustainable customer relationships. We expect all employees to adhere to the Company's values and execute annual plans while improving quality, customer satisfaction, employee engagement, diversity, safety and environmental performance.
- **Risk Management:** The Board of Directors evaluates the Company's risk profile on an ongoing basis to mitigate concerns of executives being overly leveraged to achieve near-term stock price growth. **HOW WE MAKE COMPENSATION DECISIONS**

***Role of Compensation Committee***

The Compensation Committee is responsible for overseeing our compensation policies and programs, administering our incentive and equity compensation plans, and approving all payments or grants under these plans for elected officers (other than the CEO). The Compensation Committee recommends the compensation for our CEO to the independent directors of the Board for approval and approves all compensation recommendations for elected officers of the Company. Among its duties, the Compensation Committee also:

- reviews market data and all other input from its independent compensation consultant;
- reviews and approves incentive goals and objectives relevant to elected officer compensation;
- evaluates the competitiveness of each elected officer's total compensation package; and
- approves any changes to each elected officer's total compensation package (other than the CEO), including, but not limited to, base salary, annual and long-term incentive award opportunities and payouts, and retention programs.

For more information regarding the duties and responsibilities of the Compensation Committee and the composition of the Compensation Committee, see Corporate Governance Committees of the Board of Directors Compensation Committee. The Compensation Committee's charter can be found on our website at [www.northropgrumman.com](http://www.northropgrumman.com).

***Role of Independent Compensation Consultant***

The Compensation Committee retains an independent compensation consultant, Frederic W. Cook & Co. (the Compensation Consultant), to provide advice in determining the levels and structure of our executive compensation policies and procedures. The Compensation Consultant reports directly to the Compensation Committee and the Compensation Committee may replace the Compensation Consultant or hire additional consultants at any time. A representative of the Compensation Consultant attends meetings of the Compensation Committee, as requested, and communicates with the Compensation Committee Chairperson between meetings; however, the Compensation Committee and the independent directors of the Board of Directors make final decisions on all compensation actions for the NEOs and other elected officers. Other than the fees paid to the Compensation Consultant pursuant to its engagement by the Compensation Committee for its advice on executive and director compensation, the Compensation Consultant does not receive any fees or income from, nor does it perform any services for, the Company.

The Compensation Consultant's role is to provide an independent review of market data and to advise the Compensation Committee on all compensation matters for elected officers, including the NEOs. The Compensation Consultant utilizes aerospace and defense industry market data supplied by both Aon Hewitt and Towers Watson and conducts an independent review of publicly available data.

The specific roles of the Compensation Consultant include:

- review our total compensation philosophy, peer groups and target competitive positioning for reasonableness and appropriateness;

- identify and advise the Compensation Committee on market trends and practices;
  
- provide proactive advice to the Compensation Committee on best practices for Board governance of executive compensation, as well as any areas of concern or risk that may exist or be anticipated in the design of our executive compensation programs; and
  
- serve as a resource to the Compensation Committee Chairperson on setting agenda items for Compensation Committee meetings and undertaking special projects.

***Role of Management***

Our CEO makes compensation-related recommendations for elected officers to the Compensation Committee for their review and approval based on management's review of each officer's compensation relative to market and the overall framework, philosophy and objectives for our compensation programs set by the Compensation Committee. The CEO does not make any compensation recommendations for himself to the Compensation Committee.

**Table of Contents****COMPENSATION DISCUSSION AND ANALYSIS | KEY PRINCIPLES (continued)**

The recommendations for elected officers include an assessment of each executive's performance, skills and industry knowledge, as well as succession and potential retention risks. The Chief Human Resources Officer provides tally sheets that summarize the historical and current total compensation and benefits for each NEO. These tally sheets are provided to the Compensation Committee to ensure that compensation decisions are made within our total compensation framework. The value of nonqualified deferred compensation, outstanding equity awards, health and welfare benefits, pension benefits and perquisites is also included.

Management also provides recommendations to the Compensation Committee regarding all executive incentive and benefit plan designs and strategies. These recommendations include financial and non-financial operational goals and criteria for our annual and long-term incentive plans.

Management conducts an annual performance assessment process during the first quarter of each year in which individual performance during the prior performance year is evaluated against pre-set financial, operational and individual goals. This practice ensures that compensation is tied to our financial and operating performance, individual achievement and demonstration of our strategic initiatives and values.

**Use of Competitive Data*****Industry Benchmarking for Performance***

In 2010, we changed how we set goals for purposes of administering our annual incentive compensation plan, shifting from performance metrics linked to internal criteria to metrics based on peer benchmarks. We continued with this philosophy in 2011.

The Performance Peer Group consists of the nine largest competitor companies in the aerospace and defense market in the U.S. and Europe measured by sales. While we sometimes face competition from smaller companies in some market areas, in particular our Technical Services and Information Systems sectors, the Compensation Committee determined that this group is the most appropriate for measuring overall financial performance as the nine companies represent the majority of the value of contracts awarded in our competitive space. The Compensation Committee uses information about the Performance Peer Group for setting annual performance targets and evaluating performance for purpose of award payments under our annual incentive plans.

The direct competitors included in the Performance Peer Group are:

PERFORMANCE PEER GROUP		
BAE Systems	Finmeccanica	Lockheed Martin Corp.
The Boeing Company	General Dynamics	Raytheon Corp.
EADS	L-3 Communications	SAIC, Inc.

For peers with substantial commercial business (Boeing, EADS, General Dynamics and Finmeccanica), we focus our comparisons on the government businesses of these companies, when such data is available. Such data is generally available at the government business level for operating margin rate and awards, but free cash flow and asset turns are typically available only at the total company level.

***Peer Groups for Evaluating Compensation Practices and Executive Pay***

The Compensation Committee utilizes a Target Industry Peer Group as the reference for market data for executive compensation levels and practices. It is comprised of 14 companies, including six of the nine largest worldwide defense contractors with which we compete for executive talent (Boeing, General Dynamics, Honeywell International, Lockheed Martin and United Technologies). Eight additional companies were added to this list of six companies because they were prevalent in the core competitor peer lists. In addition, the Compensation Committee

## Edgar Filing: NORTHROP GRUMMAN CORP /DE/ - Form PRE 14A

utilizes a broader industry peer group, the General Industry Peer Group, as a broader reference of executive compensation practices. The General Industry Peer Group is comprised of Fortune 100 companies (excluding financial services) participating in Aon Hewitt's executive compensation survey. For 2011, the General Industry Peer Group included 49 companies.

It is the Company's pay philosophy to target the size-adjusted median level of total compensation opportunity, while positioning total direct pay elements (e.g. base salary, target annual incentive awards, and target long-term incentive award opportunities) at levels approximating the median of market for target performance. Actual salaries may differ from our stated market positioning based on experience, sustained performance, growth in job, and leadership ability. Actual annual incentive awards and long-term incentive awards opportunities reflect these factors, as well as Company and business performance. In 2011, the actual total compensation level of the NEOs ranged from 122% - 131% of the Target Industry Peer Group size-adjusted market median, with the exception of Jim Pitts, Corporate Vice President and President, Electronic Systems Sector. Mr. Pitts' total compensation level was 152% of the size-adjusted market median, reflecting actual performance above market for the Electronic Systems Sector, as well as his participation and tenure in legacy pension benefits.

**Target Industry Peer Group**

The Target Industry Peer Group consists of the companies in the table below. For 2011, compared to the peers in the Target Industry Peer Group, we approximated the median in revenue and net income, we were between the 25<sup>th</sup> percentile and the median in number of employees, and we were at the 25<sup>th</sup> percentile in market capitalization value.

**Table of Contents****COMPENSATION DISCUSSION AND ANALYSIS | KEY COMPONENTS OF OUR PROGRAMS****Elements of Compensation**

For 2011 the compensation elements for the NEOs are summarized in the table below and described in more detail following the table.

Compensation		
Component	Key Characteristics	Purpose
<b>Base Salary</b>	Fixed compensation component. Reviewed annually and adjusted if and when appropriate.	Intended to compensate an executive officer fairly for the responsibility level of the position.
<b>Annual Incentive Awards</b>	Variable compensation component. Performance-based award determined by annual corporate performance as well as individual contributions to that performance. Performance-based award opportunity, generally granted annually, which may include stock options, restricted performance stock rights or restricted stock rights. Amounts actually earned will vary based on relative total shareholder return.	Intended to motivate executive officers to achieve our business objectives by tying incentives to the performance of our stock over the long-term and reinforce the link between the interests of our executive officers and our shareholders. Serves as key retention vehicle for executives.
<b>Health and Welfare and Retirement Plans</b>	Fixed compensation component.	Intended to provide benefits that promote employee health, productivity and retention.

### COMPENSATION DISCUSSION AND ANALYSIS | KEY COMPONENTS OF OUR PROGRAMS *(continued)*

#### **Salaries**

Base salaries of the NEOs are targeted at the competitive median on a job-by-job basis with individual variations explained by differences in each incumbent's experience, skills and sustained performance. The Compensation Committee also considers internal pay relationships and retention. The Compensation Committee reviews the salaries of the NEOs on an annual basis, or at the time of promotion or a substantial change in responsibilities, and makes adjustments as needed, based on the Company's Compensation Philosophy described above.

#### ***Decisions for 2011 and 2012***

In 2011, the Compensation Committee approved base salary increases of 2.9% to 3.3% for all NEOs except the CEO. For the CEO, the Compensation Committee approved a base salary increase of 11%. Competitive market data presented prior to the February 2011 Compensation Committee meeting indicated that Mr. Bush's base salary was anticipated to lag the Target Industry Peer Group median by 13%. The median market level was determined by conducting a regression analysis of the data based on revenue size. It was based on this market data that the Compensation Committee determined to provide Mr. Bush a merit and an equity adjustment to base salary of 11%.

For 2012, the Compensation Committee again reviewed the peer group data and determined that no base salary adjustments were necessary to maintain competitive base salary pay at the market median for any of the NEOs, including the CEO.

#### **Incentive Compensation**

We aspire to lead our industry in sustainable performance with strong, enduring values. Two years ago, we transitioned from plan-based metrics to peer-based metrics for both the annual and long-term incentive plans. For each plan, our objective is to align the metrics to drive shareholder value and measure our performance against our competitors.

#### ***Selection of Performance Criteria***

As discussed above, for purposes of measuring performance we use the Performance Peer Group to evaluate key financial metrics of our industry.

Our objective in selecting performance goals for the Annual Incentive Plan and Long-Term Incentive Stock Plan is to establish metrics that enhance shareholder value while complementing one another in support of strong Company performance over the longer term.

For the Annual Incentive Plan, we select a mix of financial and non-financial metrics to measure our short-term performance year over year. The following financial metrics were selected based on enhancing shareholder value in the near term:

- new awards focusing the Company on maintaining optimal market share;
- Pension-Adjusted OM Rate establishing high performance expectations for the Company; and
- FCF conversion focusing on the quality of net earnings.

To further enhance shareholder value over a longer time frame, for the NEOs the Long-Term Incentive Stock Plan has moved away from two operational financial metrics (Pension-Adjusted OM Rate and Return on Net Assets) to a relative Total Shareholder Return metric measured against the Performance Peer Group and the S&P Industrial Index. The plans are discussed in more detail below.

#### ***Determination of Incentive Compensation***

## Edgar Filing: NORTHROP GRUMMAN CORP /DE/ - Form PRE 14A

Under our shareholder-approved 2002 Incentive Compensation Plan, the Compensation Committee approves annual incentive compensation targets for each executive position that vary with market levels, individual job level, scope, and overall influence on the Company's business results. The Compensation Committee considers the market data and the recommendations of the Compensation Consultant, as well as recommendations of management in determining appropriate annual incentive target levels for the NEOs. Mr. Bush's target of 150% of base salary was determined to be at market median and target bonuses were anticipated to remain flat from 2010 to 2011. Thus, in 2011 there were no changes in Mr. Bush's target bonus percentage nor the target bonus percentage of any other NEO. The target incentive award ( Target Bonus ) represents a percentage of each executive's base salary. Following the completion of the fiscal year, the Target Bonus is used by the Compensation Committee, together with its assessment of Company performance against pre-determined performance criteria and the individual's performance, to determine the final bonus award amount.

### *2011 Annual Incentive Targets*

Name	Target Payout %	Payout Range % of Salary
Wesley G. Bush	150%	0% - 300%
James F. Palmer	75%	0% - 150%
Gary W. Ervin	75%	0% - 150%
James F. Pitts	75%	0% - 150%
Linda A. Mills	75%	0% - 150%

**COMPENSATION DISCUSSION AND ANALYSIS | KEY COMPONENTS OF OUR PROGRAMS *(continued)***

For 2011, each NEO's Target Bonus was determined based on a Northrop Grumman Company Performance Factor ( CPF ) and an Individual Performance Factor ( IPF ). Within the annual incentive formula described below, the CPF can range from 0% to 200%. The IPF can range from 0% to 125%. Final bonus award payments are capped at 200% of an individual's target bonus.

Annual incentive formula for 2011:

Base Salary x Target Payout % = Target Bonus

Target Bonus x CPF x IPF = Final Bonus Award

The annual incentive payments made are designed to qualify as performance-based compensation under Section 162(m) of the Internal Revenue Code (the Code ). As a result, the terms of the plan provide that the maximum potential individual incentive compensation award for a performance year for an officer subject to Section 162(m) shall be limited. Actual payouts for the 2011 performance year were far less than the limits set forth under the plan.

At the end of each year, the CEO conducts an annual performance evaluation for each NEO, other than himself, and then reviews the evaluation with the Compensation Committee in order to establish the IPF for those NEOs for the year. Each NEO's individual performance is determined based upon consideration of the following factors:

- Financial performance of the sector and Company as a whole;
- Performance on non-financial goals, including Company-level goals and sector-specific operating factors;
- Strategic leadership and vision, both at the sector level and in support of the Company's objectives;
- Program execution and performance;
- Customer relationships; and
- Peer and employee relationships/engagement.

The Compensation Committee reviews all individual and Company performance information, as well as the comparison to market data, and approves bonus amounts. The Committee approves bonus amounts for all NEOs, subject to ratification by the independent members of the Board with respect to the CEO's bonus. The Compensation Committee has full discretion to make adjustments to the annual payout if it determines such adjustment is warranted. For example, in instances where Company performance has been impacted by unforeseen or unusual events (natural disasters, significant acquisitions or divestitures, etc.), the Compensation Committee has exercised its authority to increase the final awards. The Compensation Committee has also adjusted

payouts downward in the past despite performance targets having been met when it determined that particular circumstances had a negative impact on the Company but were not reflected in the performance calculation.

***2011 Annual Incentive Goals and Results***

## Edgar Filing: NORTHROP GRUMMAN CORP /DE/ - Form PRE 14A

The Company Performance Factor is determined based on the Company's achievement of both financial and non-financial goals. The three financial metrics focus on capturing new business awards, Pension-Adjusted OM Rate, and FCF conversion. The six non-financial metrics are customer satisfaction, diversity, engagement, environmental, quality, and safety. They are determined as follows:

Customer Satisfaction measured in terms of feedback received from customers including customer generated performance scores, award fees, and verbal and written feedback.

Quality measured using program-specific objectives within each of our sectors, including defect rates, process quality, supplier quality, planning quality, and other appropriate criteria for program type and phase.

Engagement measured in terms of accomplishment of activities resulting from our enterprise-wide application of an engagement survey.

Diversity measured in terms of improving representation of females and People of Color in mid-level and senior-level management positions with respect to peer and broader industry benchmarks.

Safety measured by Total Case Rate, defined as the number of Occupational Safety & Health Administration (OSHA) recordable injuries and Lost Work Day Rate associated with those injuries.

Environmental Sustainability measured in terms of the reduction, in metric tons, of greenhouse gases emissions, and solid waste and water.

The final CPF equals the financial metric score multiplied by the assessment for the non-financial metrics, which are scored in the range of 80% to 120%. In 2011, the non-financial metrics did not impact the NEO's overall score. The Compensation Committee may adjust the score either positively or negatively based upon the amount of earnings charges recorded for the year. The adjustment can increase the score by a maximum of five percentage points if the actual Pension-Adjusted OM Rate is equal to or above target and minimal charges are recorded, or can decrease the score by up to five percentage points if significant charges are recorded and the target Pension-Adjusted OM Rate is not achieved.

**Table of Contents****COMPENSATION DISCUSSION AND ANALYSIS | KEY COMPONENTS OF OUR PROGRAMS (continued)**

Each CPF financial metric/goal is described below and shown with its relative weighting:

Metric/Goal	Weighting	Threshold Performance	Target Performance	Maximum Performance	2011 Actual Performance
New Business Awards*	20%	\$ 18.0	\$ 22.0	\$ 28.0	\$ 25.3
Pension-Adjusted OM Rate/Risk	40%	8.5%	9.5%	10.5%	10.9%
FCF Conversion**	40%	80%	100%	135%	120%

\* Dollar amounts in billions.

\*\* FCF to net income conversion.

Based on Company performance for the three factors shown in the table above, the final financial score for the Company was 179%. For non-financial metrics, the Company score was 100%. Multiplying the financial metric and the non-financial metric scores yields 179%. Based on overall assessment of the four operating units, the CEO recommended to the Compensation Committee a final CPF of 179%. After reviewing the Company's overall performance, the Compensation Committee approved a final CPF of 179%.

**Decisions for 2011****Mr. Bush**

During its meeting in February 2012, the Compensation Committee applied the Company performance factor of 179% to Mr. Bush's target bonus and set his IPF at 100% (target). In this determination, the Committee considered the following: Corporate performance which exceeded target on all annual incentive plan metrics of new business awards, pension-adjusted operating margin rate, and FCF conversion, as well as other Company achievements and individual performance that it believed contributed to higher performance relative to our peers and greater competitiveness within our industry, including:

- i his leadership of the actions across the company including program execution, cost reduction, risk management, and organizational restructuring that enabled significant improvements in the Company's operating performance as reflected in its margin rate expansion and cash generation;
- i actions to deliver value to shareholders including returning substantial cash to shareholders of \$2.8 billion in 2011 through share repurchases and dividends, along with the delivery to shareholders of \$1.8 billion in equity value through the spin-off of our former shipbuilding business;
- i the strong positioning of the Company's portfolio of capabilities in alignment with the customers' investment priorities, and the increased alignment of the company focus on its customers through the relocation of the Company's corporate offices from Los Angeles, California to the Washington, D.C. area; and

## Edgar Filing: NORTHROP GRUMMAN CORP /DE/ - Form PRE 14A

his effective leadership in implementing improvements in the Company's quality programs, diversity and capability of the leadership team, and environmental sustainability.

Based on these factors, including its own evaluation of his performance, in February 2011, the Committee recommended, and the independent members of our Board of directors approved, an annual incentive award of \$4,027,500 for Mr. Bush for 2011, compared to an annual incentive award of \$3,037,500 for 2010, a 32.6% increase.

### *Other NEOs*

In 2011, our NEOs performed well against their individual performance objectives. As discussed above, the IPF can range from 0% to 125%. For 2011, the IPF for our NEOs averaged 109%. In the case of the other NEOs, Mr. Bush formulated recommendations for each individual based on his assessment of their performance against sector performance metrics and individual performance and presented these recommendations to the Committee for its consideration.

Based on these recommendations, as well as the performance of the Company overall as previously described and its own evaluation of their performance, the CEO recommended, and the Compensation Committee approved, the following annual incentive awards for each of the other NEOs:

Name	2011 Annual Incentive (\$)*
James F. Palmer	\$ 1,250,000
Gary W. Ervin	\$ 1,250,000
James F. Pitts	\$ 1,200,000
Linda A. Mills	\$ 1,150,000

\* Details on the range of bonuses that could have been payable based on 2011 performance are provided in the Grants of Plan-Based Awards table. Actual bonus payouts for 2011 performance are provided here and in the Summary Compensation Table.

**Table of Contents****COMPENSATION DISCUSSION AND ANALYSIS | KEY COMPONENTS OF OUR PROGRAMS (continued)****Long-Term Incentive Compensation***Decisions for 2011*

In determining the amount of individual long-term incentive awards, the Committee considers an executive officer's individual performance during the preceding year, potential future contributions, retention considerations, as well as market data for the executive's officer's position based on the Target Industry Peer Group analysis discussed above in this CD&A. We utilize peer size-adjusted median data expressed in terms of dollar values to determine the value of the equity to be granted to each NEO. The Compensation Committee believes that value-based awards more effectively allow for the delivery of equity that is consistent with awards given to individuals holding comparable positions at peer companies.

In 2011, after determining the award value for the NEOs based on the market data, and individual factors as described above, the Compensation Committee granted approximately 33.3% of the value in the form of stock options (which only deliver anticipated value if stock appreciation occurs), 33.3% of the value in the form of Restricted Performance Stock Rights (RPSRs) (which delivers value based on relative Total Shareholder Return), and 33.3% in the form of Restricted Stock Rights (RSRs) (to provide retention value to ensure sustainability and achievement of business goals over time). The Committee determined that this long-term incentive mix would appropriately motivate and reward the NEOs to achieve our long-term objectives and further reinforce the link between their interests and the interests of our shareholders. The RPSRs vest 100% after the three year performance period (2011-2013). Stock options granted to the NEOs in 2011 vest over three years in equal annual installments and expire after seven years. RSRs were added to the LTI mix in 2011 and vest 100% after 4 years.

Beginning in 2012, we will rebalance the LTI mix of equity compensation for elected officers who are also members of the CPC in response to shareholder feedback indicating a preference for full-value equity grants. In 2012 CPC members will not receive annual grants of stock options and will instead be granted RPSRs and RSRs only.

The Compensation Committee evaluates RPSR performance requirements each year to ensure they are aligned with our objectives. For the 2011 grant, the Compensation Committee reviewed the performance metrics and determined that for elected officers who are members of the CPC, including all NEOs, performance would be measured in terms of relative Total Shareholder Return (TSR). Relative TSR was selected as the performance metric as it has the most direct line of sight to creating value for our shareholders.

TSR is measured by comparing our share performance over a three year period to the performance of the Performance Peer Group, and to the S&P Industrials Index which comprises companies within the S&P 500 classified as Industrials, reflecting the range of similar investment alternatives available to our shareholders. Shares that ultimately vest and are paid out under an RPSR award granted to the executive in 2011 can vary from 0% to 200% of the original RPSR award granted. RPSR awards may be paid in shares, cash or a combination of shares and cash. For the 2011 grant, dividends were not paid or earned on RPSR awards.

	Weight	Relative TSR Percentile		
RPSRs Earned		0%	100%	200%
S&P Industrials	50%	25 <sup>th</sup>	50 <sup>th</sup>	80 <sup>th</sup>
Performance Peer Group	50%	25 <sup>th</sup>	50 <sup>th</sup>	80 <sup>th</sup>

*Recently Completed RPSR Performance Period (2009 – 2011)*

During the February 2012 meeting, the Compensation Committee reviewed performance for the January 1, 2009 to December 31, 2011 RPSR performance period. For the 2009 grant, the Compensation Committee focused on improving pension-adjusted operating margin rate and Return on Net Assets (RONA) and established the following performance criteria:

Metric/Goal	Weighting	Threshold Performance	Target Performance	Maximum Performance	2011 Actual Performance
2011 Pension-Adjusted OM Rate*	50%	8.4%	9.2%	10.0%	10.9%
2011 Pension-Adjusted RONA **	50%	13.0%	14.0%	15.0%	15.1%

\* Operating margin adjusted for FAS/CAS net pension income

\*\* Return on net assets excluding FAS/CAS net pension income and pension assets and liabilities

### **Performance Results:**

- i 2011 Pension-Adjusted OM Rate of 10.9% resulted in a score of 200%. Pension-Adjusted OM improved from 9.1% in 2009 (beginning of the performance period) to 10.9% in 2011 (end of the performance period).
- i 2011 RONA of 15.1% resulted in a score of 200%. RONA improved from 12.7% in 2009 (beginning of the performance period) to 15.1% in 2011 (end of the performance period).

---

**Table of Contents**

**COMPENSATION DISCUSSION AND ANALYSIS | KEY COMPONENTS OF OUR PROGRAMS *(continued)***

The Compensation Committee used discretion to adjust the financial score from 200% to 160% taking into consideration the IRS deferred tax correction recorded to retained earnings as disclosed in Note 10 to the Company's consolidated financial statements in the 2011 Form 10-K and its impact on RONA.

In early 2012, the NEOs received payouts with respect to the performance awards that were granted in February 2009 for the three-year performance period ending December 31, 2011. Consistent with the performance scores in the annual incentive plan, these awards were paid at 160% of the target number of shares initially awarded. This is reflective of the strong performance over the three-year period as indicated above.

**Other Benefits**

This section describes other benefits the NEOs receive. These benefits are non-performance related and are designed to provide a competitive package for purposes of attracting and retaining the executive talent needed to achieve our business objectives. These benefits include retirement benefits, certain perquisites and severance arrangements.

***Retirement Benefits***

We maintain tax-qualified retirement plans (both defined benefit pension plans and defined contribution savings plans) that cover most of our workforce, including the NEOs. We also maintain non-qualified retirement plans that are available to certain of our executives, which are designed to restore benefits that were limited under the tax-qualified plans or to provide supplemental benefits. Compensation, age, and service factor into the amount of the benefits provided under the plans. Thus, the plans are structured to reward and retain employees of long service and recognize higher performance levels as evidenced by increases in annual pay. Additional information about these retirement plans and the NEO benefits under these plans can be found in the Pension Benefits Table and Non-Qualified Deferred Compensation Table.

Some of the plans were assumed in acquisitions, and participants may be legally or contractually entitled to accrued benefits. Nevertheless, we periodically assess the cost and benefits of the plans as well as competitive developments, and have frozen a number of the plans. Although the NEOs may receive benefits from different plans due to plan and legal requirements, the Committee assesses aggregate benefits available to the NEOs and has imposed an overall cap on pension benefits for elected officers including NEOs (subject to small variations due to contractual restrictions under the plans). Each elected officer's total pension benefit under all pension plans combined is generally limited to no more than 60% of his or her final average pay.

We maintain a retiree medical plan for certain elected officers that was closed to new entrants in 2007. Additional information about this plan can be found in the Retiree Medical Arrangement section of the tables that follow this CD&A, adjacent to the Termination Payment Tables.

***Perquisites***

Our NEOs are eligible for certain limited executive perquisites that include financial planning, income tax preparation, physical exams and personal liability insurance. While almost all other executive perquisites have been eliminated, the Compensation Committee believes the remaining perquisites are common within the competitive market for total compensation packages to executives and are useful in attracting, retaining, and motivating talented executives. Perquisites provided to the NEOs in 2011 are detailed in the 2011 Summary Compensation Table.

***Use of Company Aircraft***

In 2004, the Board of Directors determined that the CEO should avoid traveling by commercial aircraft for purposes of security, rapid availability and communications connectivity during travel. The Board of Directors has since directed that the CEO utilize Company-provided aircraft for all travel. Throughout the year, if the CEO uses Company-provided aircraft for personal travel, the costs for such travel are imputed as income and subject to the appropriate tax reporting according to Code regulations.

***Security Arrangements***

## Edgar Filing: NORTHROP GRUMMAN CORP /DE/ - Form PRE 14A

We maintain a comprehensive security program. As a component of that program, we provide certain individuals with residential and/or travel protection that we consider necessary to address our security requirements. In selecting the level and form of protection, we and the Board of Directors consider both security risks faced by those in our industry in general and security risks specific to our Company and employees.

In 2010, we received specific information from Federal law enforcement officials that led us to conclude that there were threats to the Company and its principals. Based on that information and an ongoing dialogue with law enforcement officials, the Board of Directors has required that Mr. Bush and certain NEOs and elected officers receive varying levels of residential and travel protection. Mr. Bush receives additional protection based on the specific threat information. That level of protection was for a partial year in 2010 and for the full year in 2011.

Since we require this protection under a comprehensive security program and it is not designed to provide a personal benefit (other than the intended security), we do not view these security arrangements as compensation to the individuals. We report these security arrangements as perquisites as required under applicable SEC rules. In addition, we would report them as taxable compensation to the individuals, if they were not excludable from income as working condition fringe benefits under Internal Revenue Code Section 132.

We regularly review the nature of the threat and associated vulnerabilities with law enforcement and security specialists, and will continue to revise our security program as

appropriate in response to those reviews, including the duration of security coverage required when individuals no longer serve in the roles associated with the threat information.

***Corporate Office Relocation***

In 2010, we announced that we would move our corporate headquarters from Los Angeles, CA to Falls Church, VA. The relocation was completed in the summer of 2011. Messrs. Bush and Palmer were the only NEOs impacted by the relocation as none of the other NEOs were based in our corporate offices in Los Angeles, CA. Mr. Bush did not receive any relocation payments from the Company in 2011, and he elected to pay his own costs of moving his household goods. The Compensation Committee approved a lump sum payment of \$750,000 to Mr. Palmer, and, in exchange for this payment, Mr. Palmer forfeited all benefits to which he was otherwise entitled to receive under our relocation policy.

***Severance and Change in Control Benefits***

Effective January 1, 2010, the Compensation Committee eliminated excise tax-gross ups related to change in control severance payments. In March 2010, the Compensation Committee approved the termination of all individual change in control agreements and change in control severance plans as of December 31, 2010.

We maintain the Northrop Grumman Severance Plan for Elected and Appointed Officers that offers severance to officers who qualify and are approved to receive such treatment. The purpose of the severance plan is to help bridge the gaps in an executive's income and health coverage during a period of unemployment following termination. Mr. Bush is not covered by, or eligible for, any benefits under our Severance Plan for Elected and Appointed Officers or any other Company severance plan or policy.

The Severance Plan for Elected and Appointed Officers provides the following:

- lump sum cash payment =  $1\frac{1}{2}$  x (Annual Base Salary + Target Bonus for the year of termination);
- continue to pay Company portion of medical & dental benefits for 18 months concurrent with COBRA coverage. The employee is responsible for his/her portion;
- outplacement assistance up to 1 year after termination; and
- continued reimbursement of eligible financial planning expenses for the year of termination and the following year, up to a maximum of \$15,000 per year.

Additional information on the benefits provided under severance plans is provided in the Potential Termination Payment tables.

**Policies and Procedures**

***Stock Holding Requirements***

In February 2010, we implemented a new holding period requirement that became effective for all new long-term incentive grants beginning in 2010, further emphasizing the importance of sustainable performance and appropriate risk-management behaviors. Under this policy, all elected and appointed officers are required to hold 50% of their net shares from all future RPSR payments and stock option exercises for a period of three years. These restrictions will generally continue upon termination and retirement; however, shares acquired from exercises or payments following termination or retirement occurring one year after separation from the Company will not be subject to the holding requirement.

**Stock Ownership Guidelines**

We maintain stock ownership guidelines for our NEOs and other elected officers to further promote alignment of management and shareholder interests. These guidelines require that the CEO and other elected officers own Company stock denominated as a multiple of their annual salaries that can be accumulated over a five-year period from the date of hire or promotion into an elected officer position.

The Stock Ownership Guidelines are as follows:

Position	Stock Value as a Multiple of Base Salary
Chairman, CEO and President	7x base salary
Other Elected Officers	3x base salary

Shares that satisfy the stock ownership guidelines include:

- ; Company stock owned outright by an officer;
- ; RSRs, whether or not vested; and
- ; the value of equivalent shares held in the Northrop Grumman Savings Plan or Northrop Grumman Financial Security and Savings Program.

Stock options and unvested RPSRs are not included in calculating ownership until they are converted to actual shares owned.

The Compensation Committee reviews compliance with our stock ownership guidelines on an annual basis. In 2011, all NEOs were in compliance with their respective guidelines. The Compensation Committee continues to monitor officer compliance and will conduct a full review again in 2012.

In September 2008, the Compensation Committee approved a stock trading program under SEC Rule 10b5-1.

**COMPENSATION DISCUSSION AND ANALYSIS | KEY COMPONENTS OF OUR PROGRAMS *(continued)***

Under this program, eligible employees (NEOs, vice presidents and directors) may establish a plan during any open window period under which sales may occur over the following twelve months, commencing no sooner than the next window period. The Corporate Secretary will disclose annually to the Compensation Committee the plans adopted, terminated or modified by elected officers.

***Grant Date for Equity Awards***

Historically, annual grant cycles for stock options and other equity awards occur in February at the same time as salary increases and annual incentive grants. This timing allows the Compensation Committee to make decisions on three compensation components at the same time, utilizing a total compensation perspective. The Compensation Committee reviews and approves long-term incentive grants during its scheduled meeting.

At its February 2011 meeting, the Compensation Committee reviewed and approved the long-term incentives for the NEOs and other participating employees. The 2011 grants were approved after the filing of the Company's 2010 Annual Report on Form 10-K. The Compensation Committee believes it is preferable to have the grant occur following the release of detailed financial information about the Company. This approach allows for the stock price to be fully reflective of the market's consideration of material information disclosed in the Company's Annual Report on Form 10-K.

***Tax Deductibility of Pay***

Section 162(m) of the Code generally limits the annual tax deduction to \$1 million per person for compensation paid to the Company's CEO, CFO and the next three highest-paid NEOs. Qualifying performance-based compensation is not subject to the deduction limit. The Company's annual incentive payments and equity-based incentive compensation are generally designed to qualify as performance-based compensation under this definition and to be fully deductible. Our grants of RSRs are not considered performance-based under Section 162(m) and, as such, may not be deductible.

In 2011, since the CEO's salary was above the \$1,000,000 threshold, a portion of his salary and his perquisites are not deductible by the Company.

***Executive Compensation Recoupment***

Ethical behavior and integrity are an important priority for our leadership. In support of this, the Compensation Committee approved an executive compensation recoupment policy (also known as a "clawback" policy) at its December 2008 meeting that became effective in the first quarter of 2009. The policy applies to the NEOs and all other employees at the level of vice president or higher. When first adopted,

this policy provided for recovery by the Company of annual and long-term incentive compensation when those incentive payments were determined to have been based on financial results that were later restated due to misconduct.

In the first quarter of 2010, the Compensation Committee strengthened the policy to allow for the recovery of incentive compensation payments based on restated financial results regardless of whether misconduct was the cause of the restatement. The Compensation Committee believes this broader definition governing the basis for incentive compensation recoupment better serves shareholder interests and those of the Company.

In the event of a restatement of our financial results, the Compensation Committee is responsible for evaluating whether any incentive compensation payments based on inaccurate financial results should be recovered by the Company.

***Say-on-Pay***

Beginning in 2011, we gave our shareholders an opportunity to provide feedback on our executive compensation program and related proxy disclosure through an advisory vote at our annual shareholders meeting. Shareholders were asked to approve, on an advisory basis, the compensation paid to the NEOs and indicate the frequency with which they prefer the Company to conduct the compensation advisory vote. A significant percentage of shareholders indicated approval of the compensation of the NEOs, with 76.4% of the votes cast in favor of the

## Edgar Filing: NORTHROP GRUMMAN CORP /DE/ - Form PRE 14A

proposal. Shareholders also indicated a strong preference to hold the advisory vote annually, with 80% of the votes supporting the Board's recommendation.

In light of the results of the advisory vote, and as part of our ongoing effort to enhance and refine our pay-for-performance compensation program, we took the following actions to better understand shareholder concerns with respect to executive compensation and the related disclosures in the CD&A:

- i initiated a new shareholder engagement strategy;
- i senior management held meetings with various of the Company's shareholders to better understand any views expressed in the vote results or other concerns; and
- i management made several changes as referenced in the executive summary on page 33 of this Proxy Statement.

In addition, in consideration of the dialogue with shareholders, the Compensation Committee determined to shift away from the use of stock options beginning in 2012. Shareholders expressed a preference for full-value shares because they are less dilutive and because they believe full-value shares provide a stronger linkage to shareholder interests. In 2012, the Compensation Committee approved a mix of LTI awards to NEOs that represented 70% RPSRs and 30% RSRs.

(1) This column includes amounts that were deferred under the savings and nonqualified deferred compensation plans.

(2) Pursuant to his March 12, 2007 offer letter, Mr. Palmer received a signing bonus of \$700,000 in three installments (\$233,333) each in 2007, 2008 and 2009. Mr. Palmer also received a recognition bonus for the spin-off of our former shipbuilding business in 2011.

(3) The dollar value shown in these columns is equal to the total grant date fair value of RPSRs, RSRs, and options granted during 2011. For information on each grant, see the 2011 Grants of Plan-Based Awards table. For a discussion on valuation assumptions, see the discussion in Note 17 of the Company's 2011 Form 10-K for the fiscal year ended December 31, 2011, adjusted to exclude forfeitures. The maximum grant date value of 2011 RPSRs for each NEO, which assumes a 200% maximum payout, is listed below:

Wesley G. Bush	\$ 8,523,026
James F. Palmer	\$ 2,130,757
Gary W. Ervin	\$ 2,130,757
James F. Pitts	\$ 2,130,757
Linda A. Mills	\$ 1,917,667

- (4) These amounts were paid pursuant to the Company's annual cash bonus program. This column includes amounts that were deferred under the savings and nonqualified deferred compensation plans.
- (5) The amounts in this column relate solely to the increased present value of the executive's pension plan benefits (see the description of these plans under the Pension Benefits table). There were no above-market earnings in the nonqualified deferred compensation plans (see the description of these plans under the Nonqualified Deferred Compensation table). The amount accrued in each year differs from the amount accrued in other years due to an increase in the number of years of service and any increases or decreases in pay (salary and bonus). The amount reflected is also sensitive to changes in the interest rate used to determine the present value of the payments to be made over the life of the executive. Of the \$5,276,169 change in pension value in 2011 for Mr. Bush, approximately \$1,500,000 was due to the lower discount rate used in 2011, \$3,000,000 was due to the increase in his pay, and \$700,000 was due to an additional year of age and service.
- (6) The 2011 amount listed in this column for Mr. Bush includes medical, dental, life and disability premiums (\$51,616), Company contributions to Northrop Grumman defined contribution plans (\$180,350), financial planning/income tax preparation (\$22,850) and other perquisites including personal liability insurance and executive physicals for years 2009 through 2011 (\$7,000). In addition, the Company incurred \$2,228,016 in costs related to security protection for Mr. Bush. These costs included \$250,882 attributable to personal travel, including travel expenses for family members accompany Mr. Bush while on travel, on Company aircraft consistent with the Company's security program.

**Table of Contents****COMPENSATION DISCUSSION AND ANALYSIS | SUMMARY COMPENSATION TABLE (continued)**

The 2011 amount listed in this column for Mr. Palmer includes medical, dental, life and disability premiums (\$39,500), Company contributions to Northrop Grumman defined contribution plans (\$73,810), security costs and personal travel on Company aircraft, including travel expenses for family members accompanying Mr. Palmer while on travel (\$33,229), relocation expenses (\$750,000) and other perquisites including financial planning/income tax preparation, personal liability insurance and executive physicals for years 2009 through 2011 (\$21,595).

The 2011 amount listed in this column for Mr. Ervin includes medical, dental, life and disability premiums (\$39,500), Company contributions to Northrop Grumman defined contribution plans (\$73,810), security costs and personal travel on Company aircraft, including travel expenses for family members accompanying Mr. Ervin while on travel (\$69,379) and other perquisites including financial planning/income tax preparation, personal liability insurance and executive physicals for years 2009 through 2011 (\$20,184).

The 2011 amount listed in this column for Mr. Pitts includes medical, dental, life and disability premiums (\$50,606), Company contributions to Northrop Grumman defined contribution plans (\$72,585), security costs and personal travel on Company aircraft, including travel expenses for family members accompanying Mr. Pitts while on travel (\$36,796) and other perquisites including personal liability insurance and executive physicals for years 2009 through 2011 (\$4,843).

The 2011 amount listed in this column for Ms. Mills includes medical, dental, life and disability premiums (\$39,686), Company contributions to Northrop Grumman defined contribution plans (\$66,809), security costs and personal travel on Company aircraft, including travel expenses for family members accompanying Ms. Mills while on travel (\$103,158) and other perquisites including personal liability insurance, financial planning/income tax preparation and executive physicals for years 2010 and 2011 (\$20,935).

**Method for Calculating Personal Use of Company Aircraft Value**

The following method was used to calculate the value of personal use of Company aircraft described in the paragraphs above. The Company calculates the incremental cost of each element, which includes trip-related crew hotels and meals, in-flight food and beverages, landing and ground handling fees, hourly maintenance contract costs, hangar or aircraft parking costs, fuel costs based on the average annual cost of fuel per mile flown, and other smaller variable costs. Fixed costs that would be incurred in any event to operate Company aircraft (e.g., aircraft purchase costs, maintenance not related to personal trips, and flight crew salaries) are not included. The amount related to the loss of tax deduction to the Company due to the personal use of corporate aircraft under the Internal Revenue Code is not included.

**Method for Calculating Personal Security Costs**

As discussed above under Security Arrangements, the Company provides certain NEOs with residential and personal security protection due to the nature of our business, which dictates certain security and personal safety requirements. The amounts reflected in the All Other Compensation column include expenses for residential and personal security that are treated as perquisites under relevant SEC guidance, even though the need for such expenses arises from the risks attendant with their positions with the Company. The Company calculates the cost of travel security coverage based on the hourly rates and overhead fees charged directly to the Company by the firms providing security personnel. If Company security personnel are used, their hourly rates are used to calculate the cost of coverage for each trip.

- (7) Due to the technical interaction of two pension plans, when calculated pursuant to SEC reporting rules, Mr. Pitts' net accrual for 2009 was negative, which is reported as zero in the column entitled Change in Pension Value and Non-Qualified Deferred Compensation Earnings.
- (8) Ms. Mills was not a named executive officer in 2009; therefore, data for 2009 are not applicable.

(1) Amounts in these columns show the range of payouts that were possible under the Company's annual cash bonus program. The actual bonuses are shown in the Summary Compensation Table column entitled "Non-Equity Incentive Plan Compensation."  
 (2) The number of shares and exercise prices reported in this table reflect the terms of the awards and the value of the awards on the date they were granted and do not reflect subsequent adjustments that were made pursuant to the terms of the 2001 Long-Term Incentive Stock Plan

and the awards to reflect the effect of the subsequent spin-off of our shipbuilding business. For additional information on the effect of such adjustments, see the Outstanding Equity Awards at 2011 Fiscal Year End below.

- (3) These amounts relate to RPSRs granted in 2011 under the 2001 Long-Term Incentive Stock Plan. Each RPSR represents the right to receive a share of the Company's common stock upon vesting of the RPSR. The RPSRs may be earned based on relative Total Shareholder Return over a three-year performance period commencing January 1, 2011 and ending December 31, 2013. The payout will occur in early 2014 and may range from 0% to 200% of the rights awarded. Earned RPSRs may be paid in shares, cash or a combination of shares and cash. An executive must remain employed through the performance period to earn an award, although pro-rata vesting results if employment terminates earlier due to retirement, death or disability. See the Severance section for treatment of RPSRs in these situations and upon a change in control.
- (4) These amounts relate to RSRs granted in 2011 under the 2001 Long-Term Incentive Stock Plan. Each RSR represents the right to receive a share of the Company's common stock upon vesting of the RSR. An executive must remain employed through a vesting period to earn an award, although full vesting results from death, disability, qualifying termination or mandatory retirement. The award is prorated if the executive terminates due to early retirement. Earned RSRs may be paid in either shares or cash. Mr. Ervin also holds RSRs that require employment through a vesting period to earn the award (100% after four years, although full vesting results from death or disability). See the Severance section for treatment of RSRs in these situations and upon a change in control.
- (5) These amounts relate to non-qualified stock options granted in 2011 under the 2001 Long-Term Incentive Stock Plan. The exercise price for the stock options equals the closing price of the Company's common stock on the date of grant. Stock options vest in one-third installments on the first three anniversaries of the grant date and become fully vested after three years. The stock options expire seven years from the date of the grant. The stock options may also vest upon a change in control under certain circumstances, and a portion of the stock options may vest upon termination due to retirement, death or disability. See the Severance section for more information about these situations.
- (6) For assumptions used in calculating the grant date fair value per share, see the discussion in Note 17 of the Company's 2011 Form 10-K for the fiscal year ended December 31, 2011, adjusted to exclude forfeitures.

**Table of Contents****COMPENSATION DISCUSSION AND ANALYSIS | PENSION BENEFITS****2011 Pension Benefits**

The following table provides information about the pension plans in which the NEOs participate, including the present value of each NEO's accumulated benefits as of December 31, 2011. Our policy is that an executive's total benefit under these plans should be limited to no more than 60% of final average pay. Mr. Bush has voluntarily elected to limit his OSERP benefit to no more than 50% of final average pay.

\* Service listed above in the CPC SERP represents employment while in a CPC position. The pension benefits for Ms. Mills under the CPC SERP are based on an alternative formula (as described in more detail in the narrative below) which includes total Company service.

(1) Amounts are calculated using the following assumptions:

i The NEO retired on the earliest date he could receive an unreduced benefit under each plan;

i The form of payment is single life annuity; and

i The discount rate is 4.97% for the Pension Plan, 5.16% for the S&MS Pension Plan and 5.03% for all others; the mortality table is the RP-2000 projected 17 years without collar adjustment (the same assumptions used for the Company's financial statements).

(2) Plan benefit is frozen, except for certain pay updates.

(3) Mr. Bush relinquished his CPC SERP benefit and instead participates in the OSERP.

- (4) Plan benefit is frozen.

**Table of Contents****COMPENSATION DISCUSSION AND ANALYSIS | PENSION BENEFITS (continued)****List of Pension Plans and Descriptions**

- **CPC SERP** is the CPC Supplemental Executive Retirement Program. This plan provides a supplemental pension benefit for certain CPC members.
- **ERISA 2** is the ERISA Supplemental Program 2. This plan makes participants whole for benefits they lose under the Pension Plan due to certain Code limits.
- **ESEPP** is the Northrop Grumman Electronic Systems Executive Pension Plan. This plan provides a supplemental pension benefit for certain ES Sector executives.
- **OSERP** is the Officers Supplemental Executive Retirement Program. This plan provides a supplemental pension benefit for certain elected and appointed officers of the Company.
- **Pension Plan** is the Northrop Grumman Pension Plan. This is a tax qualified pension plan covering a broad base of Company employees.
- **S&MS Pension Plan** is the Northrop Grumman Space & Mission Systems Salaried Pension Plan (former TRW pension plan). This is a tax qualified pension plan covering a broad base of Company employees.
- **SRIP** is the Northrop Grumman Supplementary Retirement Income Plan (former TRW plan). This plan makes participants whole for benefits they lose under the S&MS Pension Plan due to certain Code limits.
- **SRRP** is the Supplemental Retirement Replacement Plan. This plan (now frozen) replaced benefits Mr. Palmer forfeited as a result of his commencing employment with the Company.

**Pension Plan and S&MS Pension Plan (Tax Qualified Plans)**

The Pension Plan and the S&MS Pension Plan were each amended prior to 2005 to change from a traditional pension plan formula ( Heritage Formula ) to a cash balance formula ( Cash Balance Formula ). Except as provided below, the final benefit from each plan is the sum of the benefits under the two formulas: the Heritage Formula benefit *plus* the Cash Balance Formula benefit.

The following explains the formulas applicable to each NEO:

## Edgar Filing: NORTHROP GRUMMAN CORP /DE/ - Form PRE 14A

- ; Mr. Bush and Mr. Ervin each receive a benefit under a Heritage Formula and a Cash Balance Formula in the Northrop Grumman Retirement Plan, a subplan of the Pension Plan ( NGR Subplan ).
  
- ; Mr. Bush also receives a frozen benefit under a Heritage Formula in the S&MS Pension Plan due to his TRW related service. He ceased to be eligible for future service growth under this plan and SRIP when he began participating in the NGR Subplan.
  
- ; Due to his date of hire, Mr. Palmer does not receive a benefit under a Heritage Formula; he only receives a benefit under a Cash Balance Formula in the Pension Plan.
  
- ; Mr. Pitts receives a benefit under a Heritage Formula and a Cash Balance formula in the Northrop Grumman Electronic Systems Pension Plan, a subplan of the Pension Plan ( ES Subplan ).
  
- ; Ms. Mills receives a benefit under a Heritage Formula and a Cash Balance formula in the S&MS Pension Plan.

**Cash Balance Formula**

The Cash Balance Formula is a hypothetical account balance consisting of pay credits plus interest. It has the following features:

- Pay credits are a percentage of pay that vary based on an employee's points (age plus service). The range of percentages applicable to the NEOs on December 31, 2011 is: 5.5% - 9%. Employees, including the NEOs, also receive an additional 4% pay credit for pay above the social security wage base.
- Interest is credited at the 30-year US Treasury bond rate. The December 31, 2011 interest credit rate is 3.65%.

i Eligible pay is salary plus bonus, as limited by Code section 401(a)(17).

i Eligibility for early retirement occurs at age 55 with 10 years of service. Benefits may be reduced if commenced prior to Normal Retirement Age (65).

**ERISA 2, SRIP and SRRP (Nonqualified Restoration Plans)**

ERISA 2 and SRIP are non-qualified plans that restore benefits provided for under the Pension Plan and S&MS Pension Plan, respectively, but for the limits on eligible pay imposed by Code section 401(a)(17). SRIP also restores benefits limited by the overall benefit limitation of Code section 415. Benefits and features in these restoration plans otherwise are generally the same as described above for the underlying tax qualified plan.

**Table of Contents****COMPENSATION DISCUSSION AND ANALYSIS | PENSION BENEFITS (continued)**

SRRP entitles Mr. Palmer to an annuity equal to the amount that would have been paid to him under his former employer's supplemental retirement plan but for his employment with the Company.

**CPC SERP, OSERP and ESEPP (Nonqualified Supplemental Executive Retirement Plans)**

These plans provide pension benefits that supplement the tax qualified pension plans. The following chart highlights the key features of these plans applicable to the eligible NEOs.

**Table of Contents**

**COMPENSATION DISCUSSION AND ANALYSIS | SEVERANCE PROGRAM**

**2011 Severance Program**

The first set of tables below provides estimated payments and benefits that the Company would provide each NEO if his or her employment terminated on December 30, 2011 for specified reasons, assuming that the price per share of the Company’s common stock is \$58.48, the closing market price as of that date. These payments and benefits are payable based on:

- the Severance Plan for Elected and Appointed Officers of Northrop Grumman Corporation;
- the 2001 Long-Term Incentive Stock Plan and terms and conditions of equity awards;
- the Special Officer Retiree Medical Plan; and
- Mr. Bush’s CEO letter.

We summarize these arrangements before providing the estimated payment and benefit amounts in the tables. Due to the many factors that affect the nature and amount of any benefits provided upon the termination events discussed below, any actual amounts paid or distributed to NEOs may be different. Factors that may affect these amounts include timing during the year of the occurrence of the event, our stock price and the NEO’s age. The amounts described below are in addition to an NEO’s benefits described in the Pension Benefits and Nonqualified Deferred Compensation Tables, as well as benefits generally available to our employees such as distributions under our savings plan, disability or life insurance benefits and accrued vacation.

**Severance Plan Benefits**

Upon a qualifying termination (defined below) the Company has discretion to provide severance benefits to the NEOs under the Severance Plan for Elected and Appointed Officers of Northrop Grumman Corporation (Severance Plan). Provided the NEO signs a release, he or she will receive: (i) a lump sum severance benefit equal to one and one-half times annual base salary and target bonus, (ii) continued medical and dental coverage for the severance period, (iii) income tax preparation/financial planning fees for one year, and (iv) outplacement expenses up to 15% of salary. The cost of providing continued medical and dental coverage is based upon current premium costs. The cost of providing income tax preparation and financial planning is capped at \$15,000 for year of termination and for year following termination.

A qualifying termination means one of the following:

- involuntary termination, other than for cause or mandatory retirement;
- election to terminate in lieu of accepting a downgrade to a non-officer position;
- following a divestiture of the NEO’s business unit, election to terminate in lieu of accepting a relocation; or
-

if the NEO's position is affected by a divestiture, the NEO is not offered salary or bonus at a certain level. As noted below, Mr. Bush is not eligible for benefits under the Severance Plan.

**Terms of Equity Awards**

The terms of equity awards to the NEOs under the 2001 Long-Term Incentive Plan provide for accelerated vesting if an NEO's employment terminates for certain reasons. For stock options, accelerated vesting of a portion of each award results from a termination due to death, disability, or retirement (after age 55 with 10 years of service). Stock options fully vest for mandatory retirement at age 65. For RPSRs, accelerated vesting of a portion of each award results from a termination due to death, disability, or retirement (after age 55 with 10 years of service or mandatory retirement at age 65). An extended exercise period is also provided for options under these circumstances. For RSRs, full vesting occurs for a termination due to death or disability and mandatory retirement at age 65 and prorated vesting for retirement (age 55 with 10 years of service). In 2010, Mr. Palmer received a retention grant of RSRs for which full vesting occurs both for a termination due to death or disability and for a termination related to a change in control. In 2011, Mr. Ervin received a retention grant of RSRs for which full vesting occurs both for a termination due to death or disability and for a termination related to a change in control.

For purposes of estimating the payments due under RPSRs below, Company performance is assumed to be at target levels through the close of each three-year performance period.

**Table of Contents****COMPENSATION DISCUSSION AND ANALYSIS | SEVERANCE PROGRAM (continued)****Accelerated Equity Vesting Due to Change in Control**

The terms of equity awards to the NEOs under the 2001 Long-Term Incentive Stock Plan provide for accelerated vesting of stock options and RSRs (and for prorated payments in the case of RPSRs) when the Company is involved in certain types of change in control events that are more fully described in such plan (e.g., certain business combinations after which the Company is not the surviving entity and the surviving entity does not assume the awards). Vested stock options that are not exercised prior to one of these changes in control may be settled in cash and terminated. Prorated payments for RPSRs made upon one of these changes in control will be based on the portion of the three-year performance period prior to the change in control. For example, if a change in control occurred on June 30 in the second year of a three-year performance period, the target number of RPSRs subject to an award would be multiplied by one-half and then multiplied by the earnout percentage that is based on the Company's performance for the first half of the performance period. The table below provides the estimated value of accelerated equity vesting and/or payments if such a change in control had occurred on December 30, 2011. The value of the accelerated vesting was computed using only the closing market price of the Company's common stock on December 30, 2011 (\$58.48), with no consideration of an earnout percentage as previously described. The value for unvested RSRs and RPSRs is computed by multiplying \$58.48 by the number of unvested shares that would vest. The value of unvested stock options equals the difference between the exercise price of each option and \$58.48. No value was attributed to accelerated vesting of a stock option if its exercise price was greater than \$58.48.

**Retiree Medical Arrangement**

The Special Officer Retiree Medical Plan (SORMP) was closed to new participants in 2007. NEOs who are vested participants in the SORMP are entitled to retiree medical benefits pursuant to the terms of the SORMP. The coverage is a continuation of the NEO's executive medical benefits plus retiree life insurance. A participant becomes vested if he or she has either five years of vesting service as an elected officer or 30 years of total service with the Company and its affiliates. A vested participant can commence SORMP benefits at retirement before age 65 if he has attained age 55 and 10 years of service. The estimated cost of the SORMP benefit reflected in the tables below is the present value of the estimated cost to provide future benefits using actuarial calculations and assumptions. Mr. Ervin and Ms. Mills are not eligible for SORMP

benefits.

**Mr. Bush's CEO Letter**

Mr. Bush was elected to the position of Chief Executive Officer and President effective January 1, 2010. Effective January 1, 2010, Mr. Bush agreed that he would no longer be covered by, or eligible for, benefits under the Severance Plan or under any other severance plan, program or policy of Northrop Grumman.

**Change in Control Benefits**

During its March 2010 meeting, the Compensation Committee approved the termination of all change in control programs and agreements effective January 1, 2011. The only change in control benefits available to the NEOs are those described in the terms and conditions of the Long-Term Incentive Stock Plan.

**PROPOSAL TWO:**

**ADVISORY VOTE ON THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS**

We are providing our shareholders with the opportunity to cast a non-binding, advisory vote on the compensation of our NEOs.

We seek your advisory vote on our executive compensation in accordance with regulations promulgated under the Securities Exchange Act of 1934, as amended. Our executive compensation is described in the Compensation Discussion and Analysis and accompanying tables on pages 30 through 61 of this Proxy Statement. This advisory vote, commonly known as *say on pay*, gives our shareholders the opportunity to express their view on our 2011 executive compensation programs and policies for the named executive officers. The vote does not address any specific item of compensation and is not binding on the Board. However, as the vote is an expression of our shareholders' view on a significant matter, the Compensation Committee will consider the outcome of the vote when making future executive compensation decisions.

We believe that our compensation programs and policies are strongly aligned with the interests of our shareholders. We understand that our shareholders measure our annual and long-term performance against our industry and other peer groups. To better align with this perspective, two years ago we shifted away from internal, plan-based performance metrics and established peer-based financial goals. In 2011, we achieved top-quartile performance based on Pension-Adjusted OM Rate and FCF conversion within a peer group of the ten largest aerospace and defense companies in the U.S. and Europe, including the Company.

We believe our compensation programs strike the appropriate balance, utilizing responsible, measured pay practices and effectively incentivizing our executives to dedicate themselves fully to value creation for our shareholders, customers and employees. This balance is evidenced by the following:

- Earnings from continuing operations increased 10% to \$2.1 billion, and earnings per share from continuing operations increased 17%. Adjusting 2011 and 2010 earnings per share for pension and 2010 nonrecurring items, earnings per share from continuing operations increased 27%.
- Earnings per share growth reflects improved performance from our businesses, more favorable pension expense, lower interest expense and a lower weighted average share count. These positive trends offset the impact of lower revenue and higher taxes in 2011.
- Our businesses delivered higher operating income and our segment margin rate expanded by 90 basis points to 11.6 percent.
- Before discretionary pension contributions, our continuing operations generated approximately \$3 billion of cash from operations, and after capital spending, our 2011 FCF totaled \$2.5 billion.
- We returned \$2.8 billion, or 150% of reported free cash flow, to shareholders in 2011. We repurchased 40.2 million shares for \$2.3 billion and paid \$543 million in dividends, which included a 6.4% increase in our dividend to an annualized rate of \$2.00 per share, our eighth consecutive annual dividend increase.
- We also distributed approximately \$1.8 billion of equity value to shareholders through the spin-off of Huntington Ingalls, Inc.

The philosophy underlying our executive compensation program is to provide an attractive, flexible and market-based total compensation program tied to performance and aligned to shareholder interests. We strive to recruit and retain the highest caliber executive officers and key talent that can deliver sustained high performance. In the oversight of our compensation programs, our Compensation Committee is guided by the following principles:

- Compensation is designed to be competitive within our industry and retentive for key individuals who contribute to the achievement of business goals.

- Pay for performance is reflected when the achievement of both annual incentive goals and increased shareholder value result in individual total compensation commensurate with results; however, failure to deliver shareholder value will negatively affect compensation for all NEOs.

- Executive stock ownership is important to align our executives' interests with those of our shareholders.

The evidence of the effectiveness of our pay programs is demonstrated not only in our 2011 Company performance (as noted above), but also in the following actions we have taken to link executive pay to company performance:

- In response to shareholder preference for full-value equity grants, we changed the portfolio mix for 2012 equity grants for elected officers to a mix of RPSRs and RSRs and eliminated stock option grants;

**PROPOSAL TWO:**

**ADVISORY VOTE ON THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS *(continued)***

- ⌋ We have changed the terms and methodology for equity grants of performance shares to elected officers who are members of the CPC. These changes include reducing the maximum payout under the programs of the 2012 RPSR grant from 200% of the RPSR award to 150% of the RPSR award granted and limiting the payout to no more than 100% of shares granted if relative total shareholder return over the performance period is negative, even if our performance relative to the other industry benchmarks would have resulted in a higher score;
- ⌋ We have eliminated certain traditional executive perquisites such as change in control agreements and eliminated tax gross-ups in connection with a change in control;
- ⌋ We have reduced executive retirement benefits, eliminating pay-based accruals in legacy defined benefit and Supplemental Executive Retirement Plans, to better align our practices with current market practices, reduce costs, and decrease non-performance based elements of executive compensation. These changes will be fully implemented by January 1, 2015;
- ⌋ We continue to have significant stock retention requirements for our executives, requiring 50% of net shares acquired upon the exercise or the payment or vesting of any performance shares granted in 2010 and thereafter to be held for a period of three years; and
- ⌋ We are holding 2012 base salaries constant at their 2011 level and increasing annual incentive compensation targets for all of our appointed and elected officers (excluding the CEO) to encourage achievement of top quartile peer performance in 2012.

As the uncertainties of domestic economic conditions and the policy and budget decisions of the U.S. Government evolve, we have taken aggressive actions to strengthen our Company by managing our cost structure and re-shaping our portfolio. This increases our competitiveness and maximizes our ability to provide affordable solutions to our customers.

We urge shareholders to read our Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the SEC on February 8, 2012. This describes our business and 2011 financial results in more detail.

**Recommendation**

The Compensation Committee and the Board believe the compensation of our executives is aligned to performance, is sensitive to our share price, appropriately motivates and retains our executives, and is a competitive advantage in attracting and retaining the high caliber talent necessary to drive our business forward and build sustainable value for our shareholders:

RESOLVED, that, as an advisory matter, the shareholders of Northrop Grumman Corporation approve the compensation paid to the Company's named executive officers as disclosed in this proxy statement pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, compensation tables and narrative discussion.

**Table of Contents****PROPOSAL THREE:****RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITOR**

The Audit Committee proposes and recommends that the shareholders ratify the Audit Committee's appointment of Deloitte & Touche LLP (Deloitte) as our independent auditor for 2012. Deloitte served as our independent auditor for 2011. Although ratification is not required by our Bylaws or otherwise, the Audit Committee is submitting the selection of Deloitte to shareholders as a matter of good corporate governance. If the shareholders fail to ratify the appointment of Deloitte, the Audit Committee will consider this in its selection of auditors for the following year. A representative from Deloitte will attend the Annual Meeting and will have the opportunity to make a statement and respond to appropriate questions.

**Fees Billed By the Independent Auditor**

Fees for foreign statutory audits are reported in the year in which the audits are performed. For example, foreign statutory audit fees reported in 2011 relate to audits of the Company's foreign entities for the fiscal year ended 2010. - (d) All other fees of \$51,000 in 2010 relate to government contracting services.

**Policy on Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services of Independent Auditor**

It is the Audit Committee's policy to pre-approve all audit and permitted non-audit services provided by any independent auditor in order to ensure that the provision of these services does not impair the independent auditor's independence. These services may include audit services, audit-related services, tax-related services and other services. Pre-approval may be given at any time up to a year before commencement of the specified service. Any pre-approval is detailed as to the particular service or category of services. The Audit Committee has delegated pre-approval authority for any individual project up to a pre-determined amount to the Chairperson of the Audit Committee.

The decisions of the Chairperson to pre-approve a permitted service are reported to the Audit Committee at its next meeting. The independent auditor and management are required to periodically report to the full Audit Committee regarding the extent of services provided by the independent auditor in accordance with this pre-approval policy, as well as the fees for the services performed to date.

The Audit Committee of the Board of Directors is responsible for assisting the Board of Directors in fulfilling its oversight responsibilities over the Company's accounting, auditing and financial reporting processes and risk management process, and for monitoring compliance with certain regulatory and compliance matters. The Audit Committee's written charter describes the Audit Committee's responsibilities and has been approved by the Board of Directors.

Management is responsible for preparing the Company's financial statements and for the financial reporting process, including evaluating the effectiveness of the Company's disclosure controls and procedures and internal control over financial reporting.

Deloitte & Touche LLP (Deloitte), the Company's independent auditor, is responsible for performing an independent audit of the Company's consolidated financial statements and expressing an opinion on the conformity of the financial statements with accounting principles generally accepted in the United States of America, and on the effectiveness of the Company's internal control over financial reporting.

In connection with the preparation of the Company's financial statements as of and for the year ended December 31, 2011, the Audit Committee reviewed and discussed the audited financial statements with the Company's Chief Executive Officer, Chief Financial Officer and Deloitte. The Audit Committee also discussed with Deloitte the communications required under applicable professional auditing standards and regulations and, with and without management present, discussed and reviewed the results of Deloitte's examination of the financial statements. Additionally, the Audit Committee discussed with the Company's internal auditors the results of their audits completed during 2011.

The Audit Committee received the written disclosures and the letter from Deloitte required by the applicable requirements of the Public Company Accounting Oversight Board regarding the independent auditor's communications with the Audit Committee concerning independence. In addition, the Audit Committee discussed with Deloitte that firm's independence from the Company.

Based on the Audit Committee's review and discussions described in this report, the Audit Committee recommended to the Board of Directors that the audited financial statements for 2011 be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2011 for filing with the SEC. The Audit Committee also reappointed Deloitte to serve as the Company's independent auditors for 2012, and requested that this appointment be submitted to shareholders for ratification at the Annual Meeting.

**PROPOSAL FOUR:**

**APPROVAL OF AMENDMENT TO CERTIFICATE OF INCORPORATION OF TITAN II, INC.**

In December 2011, the Board of Directors of Northrop Grumman Corporation approved an amendment, described below, to the Certificate of Incorporation of our former parent company, Titan II, Inc., which is now a subsidiary of Huntington Ingalls Industries, Inc. We are asking shareholders to approve this amendment.

**Background**

On March 31, 2011, we completed the spin-off of our former shipbuilding subsidiary, Huntington Ingalls Industries, Inc. In connection with and immediately prior to the spin-off, we completed a corporate reorganization pursuant to Section 251(g) of the Delaware General Corporation Law ( DGCL ). As part of this reorganization, New P, Inc., a newly formed subsidiary, replaced old Northrop Grumman Corporation as our public holding company. Old Northrop Grumman Corporation became a wholly-owned subsidiary of New Ships, another newly formed subsidiary of New P, Inc. Old Northrop Grumman Corporation changed its name to Titan II, Inc. ( Titan II ) and New P, Inc. changed its name to Northrop Grumman Corporation. We completed the spin-off of New Ships (renamed Huntington Ingalls Industries, Inc.). Thus Titan II is now a wholly-owned subsidiary of the independent and publicly traded Huntington Ingalls Industries, Inc. ( HII ).

**Amendment of Titan II Certificate of Incorporation**

In connection with the reorganization, and pursuant to Section 251(g) of the DGCL, the Titan II Certificate of Incorporation was amended to require approval from the shareholders of its then parent, Northrop Grumman Corporation, for certain significant actions by Titan II including a merger or consolidation, a sale of all or substantially all assets, charter amendments and dissolution. Article Sixteenth of the Titan II Certificate of Incorporation provides:

SIXTEENTH: Any act or transaction by or involving the Corporation, other than the election or removal of directors of the Corporation, that requires for its adoption under the General Corporation Law of the State of Delaware or this Restated Certificate of Incorporation the approval of the stockholders of the Corporation shall, pursuant to Section 251(g)(7)(i) of the General Corporation Law of the

State of Delaware, require, in addition, the approval of the stockholders of Northrop Grumman Corporation (or any successor by merger), by the same vote as is required by the General Corporation Law of the State of Delaware and/or by this Restated Certificate of Incorporation.

Having completed the spin-off, these restrictive provisions no longer serve their original purpose of protecting the interests of Northrop Grumman shareholders in their subsidiary. As noted above, Titan II is now a wholly-owned subsidiary of HII and these restrictions are a continuing restraint on HII s ability freely to make structural decisions regarding its subsidiary.

Under Delaware law, we believe removal of Article Sixteenth requires a vote of our shareholders, rather than the HII shareholders. In addition, under the March 2011 Separation and Distribution Agreement that we entered into with HII, Titan II and others, in connection with the spin-off, we are required to use reasonable best efforts to solicit the approval of our shareholders for a proposal to eliminate Article Sixteenth from Titan II s Certificate of Incorporation.

Removal of this provision should have no effect on the rights of our shareholders to vote on matters relating to Northrop Grumman Corporation, such as a merger or consolidation, a sale of all or substantially all of our assets, amendments to our Certificate of Incorporation or any other matter requiring the approval of our shareholders.

If the proposed amendment is approved by our shareholders, we understand that HII intends promptly to cause the filing of an appropriate certificate of amendment of Titan II s Certificate of Incorporation with the Secretary of State of the State of Delaware.

66 1 NORTHROP GRUMMAN CORPORATION 2012 ANNUAL MEETING OF SHAREHOLDERS

**Table of Contents**

**PROPOSAL FIVE:**

**APPROVAL OF AMENDMENT AND RESTATEMENT OF NORTHROP GRUMMAN CORPORATION CERTIFICATE OF INCORPORATION TO PROVIDE ADDITIONAL RIGHTS FOR SHAREHOLDER ACTION BY WRITTEN CONSENT**

In March 2012, the Board of Directors approved amendments to our Restated Certificate of Incorporation that would provide shareholders certain additional rights to act by written consent. We are asking shareholders to approve this amendment, which will be reflected in a restatement of our Certificate of Incorporation to read in the form attached as Exhibit A to this Proxy Statement.

**Right of Shareholders to Act by Written Consent**

Our Restated Certificate of Incorporation currently provides that our shareholders may act by written consent provided the Board of Directors specifically authorizes such action.

At the 2011 Annual Meeting of Shareholders, a majority of shareholders supported a non-binding resolution to ask our Board of Directors to take the steps necessary to permit more broadly shareholder action by written consent. The shareholder proposal did not specify a mechanism for implementing shareholder action by written consent. After the meeting, the Board of Directors stated that they would consider the inputs of the shareholders on this proposal. The Governance Committee and full Board have done so. Specifically, they have considered:

- whether it would be advisable and in the best interests of all shareholders to provide additional rights for shareholders to act by written consent without a meeting;
- whether the ability to act by written consent would present a meaningful additional right of shareholders to influence and respond to actions by management given that our Restated Certificate of Incorporation currently provides shareholders the ability to call a special meeting;
- what procedures and protections could be employed to provide an orderly process for such actions to be taken; to protect the rights of all shareholders, mitigating potential risks to the Company and other shareholders associated with such actions; and further to enhance our corporate governance.

After discussion and consideration, the Board of Directors has recommended that the Company take affirmative action to respond to the shareholder vote in 2011 and to provide shareholders with an additional mechanism for influencing the direction of the Company. The Board has recommended that shareholders be provided with broader rights to act by written consent subject to certain procedural provisions intended to ensure an orderly process, protect the interests of all shareholders, enhance transparency and promote good governance. These provisions largely reflect the requirements currently in effect for shareholders to be able to call a special meeting of shareholders. They include the following: (a) holders of at least 25% of our outstanding shares must request action by written consent; (b) consents must be solicited from all shareholders entitled to deliver a written consent, giving each shareholder an equal right to consider and act on a proposal; (c) the requesting shareholder must undertake to provide background information to all shareholders, including the nature of the proposed business to be taken and any interests of the requesting shareholder(s) in the matter and (d) written consents signed by the holders of our outstanding common stock having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting must be delivered to the Company within a specified period and in accordance with Delaware law (in most cases, the matter would require majority approval).

We believe these provisions will implement shareholder action by written consent in a clear, straightforward and transparent manner that is balanced and provides fundamental fairness to all shareholders.

The Board of Directors also considered a corresponding amendment to our Amended and Restated Bylaws that will become effective if and when the amendment to the Restated Certificate of Incorporation becomes effective. The proposed amendment to the Amended and Restated Bylaws recommended by the Board of Directors sets forth processes for implementing the amendment to our Restated Certificate of Incorporation and is attached as Exhibit B to this Proxy Statement.

**Process for Approval of Proposed Amendments**

## Edgar Filing: NORTHROP GRUMMAN CORP /DE/ - Form PRE 14A

The Board of Directors approved the amendments to our Restated Certificate of Incorporation shown on Exhibit A and declared them to be advisable and in the best interest of our shareholders.

If the shareholders approve this Proposal Five at the Annual Meeting, we intend to file promptly an Amended and Restated Certificate of Incorporation that reflects the amendment shown on Exhibit A with the Secretary of State of the State of Delaware. The Amended and Restated Certificate of Incorporation will be effective upon filing. Shareholder approval of the proposed amendment shown on Exhibit A will also be deemed to constitute the approval of the filing of the Amended and Restated Certificate of Incorporation containing the amendment.

**PROPOSAL SIX:**

**SHAREHOLDER PROPOSAL**

Mr. John Chevedden, 2215 Nelson Avenue, No. 205, Redondo Beach, California 90278, a beneficial owner of 100 shares of common stock of the Company, the proponent of a shareholder proposal, has stated that the proponent intends to present a proposal at the Annual Meeting. The proposal and supporting statement, for which the Board of Directors accepts no responsibility, is set forth below. The Board of Directors opposes the proposal for the reasons stated after this proposal.

Proponent's Resolution

**6 Independent Board Chairman**

RESOLVED: Shareholders request that our board of directors adopt a policy that, whenever possible, the chairman of our board of directors shall be an independent director (by the standard of the New York Stock Exchange), who has not previously served as an executive officer of our Company. This policy should be implemented so as not to violate any contractual obligations in effect when this resolution is adopted. The policy should also specify how to select a new independent chairman if a current chairman ceases to be independent between annual shareholder meetings.

When a CEO serves as our board chairman, this arrangement can hinder our board's ability to monitor our CEO's performance. This proposal topic won 50%-plus support at four major U.S. companies in 2011.

To foster flexibility, this proposal gives the option of being phased in and implemented when our next CEO is chosen.

The merit of this proposal should also be considered in the context of the opportunity for additional improvement in our company's 2011 reported corporate governance in order to more fully realize our company's potential:

The Corporate Library, an independent investment research firm rate our company "Very High Concern" in Executive Pay. \$22 million for CEO Wesley Bush. CEO pay included such generous perquisites as reimbursement for Mr. Bush's loss on the sale of his home (\$250,000), tax gross-up for Mr. Bush's loss on the sale of his home (\$212,000) and security protection for Mr. Bush (\$1,642,000).

Also, Mr. Bush received a mega-grant of 627,000 stock options that simply vest after time without any performance criteria. Equity pay should have performance-vesting features. Market-priced stock options can provide financial rewards due to a rising market alone, regardless of an executive's performance.

At our 2011 annual meeting we gave 54%-support to a proposal for shareholders to be able to act by written consent. In 2009 we gave 53%-support for 10% of shareholders to call a special meeting. Management's response was to give us a token version of this proposal—the threshold was raised to a challenging 25% of shareholders and a provision was added to encourage shareholders to revoke their requests for a special meeting. Plus a further restriction was added, the Board of Directors shall have the discretion to determine whether or not to proceed with the special meeting.

Aulana Peters (still on our Audit Committee) was on the Merrill Lynch Executive Pay Committee as Merrill's Stanley O. Neal unceremoniously departed with \$161 million after he acquired subprime assets that contributed to \$40 billion in write-downs.

Karl Krapek and Stephen Frank were marked as "Flagged (Problem) Directors" because of their respective directorships at the bankrupt Visteon and Washington Mutual. Mr. Frank, who also chaired our Audit Committee, received the highest negative votes and every director on our executive pay committee received more than 12% in negative votes.

Please encourage our board to respond positively to this proposal for an Independent Board Chairman. Yes on 6.

**BOARD OF DIRECTORS' RESPONSE**

**THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE AGAINST THIS PROPOSAL.**

## Edgar Filing: NORTHROP GRUMMAN CORP /DE/ - Form PRE 14A

The Board of Directors opposes this proposal because it deprives the Board of important flexibility in determining the most effective leadership structure to serve the interests of the Company and its shareholders. The Board believes the Company is best served when it retains this flexibility.

[NOTICE OF ANNUAL MEETING OF SHAREHOLDERS AND 2012 PROXY STATEMENT](#) 1 69

**Table of Contents****PROPOSAL SIX:****SHAREHOLDER PROPOSAL** *(continued)*

Under the Company's current governing documents, the Board has the authority to determine whether the positions of Chairman and Chief Executive Officer should be held by the same or different persons. The Board has the flexibility to consider what is best for the Company and its shareholders, in light of all the facts and circumstances. In past circumstances, the Board has concluded that an independent Chairman would best serve the interests of the Company at that time. In today's environment, however, having considered the experience of the management team, the challenges facing the Company, and the evolving environment in which we operate, the Board has concluded that having the CEO also serve as Chairman best positions the Company to be innovative, compete successfully and advance shareholder interests. The Board believes it is important, especially in our changing environment, to retain the flexibility to be able to determine which structure is most effective.

The Board also does not believe the proposed change is necessary to ensure that the Board effectively monitors the performance of the CEO, contrary to what the proponent suggests. Today, twelve of the Company's thirteen directors are independent, and the Board regularly holds scheduled sessions of the independent directors at each Board meeting. The Chairs and all members of the Compensation, Governance and Audit Committees are independent directors. The independent directors have ample opportunity to, and regularly do, assess the performance of the CEO and provide meaningful direction.

When the Chairman is not independent, the Company's bylaws specifically provide that the Board may designate a Lead Independent Director. The Board has exercised that authority and Lewis W. Coleman currently serves as our Lead Independent Director. Among other duties, the Lead Independent Director:

- presides at the executive sessions of the Independent Directors and other meetings of the Board at which the Chairman is not present;
- serves as liaison between the Chairman and the Independent Directors;
- provides the Chairman with input as to the information provided to the Board and the agendas of the Board and Committee meetings;
- calls meetings of the Independent Directors;
- interviews, along with the Chairman and the Chair of the Governance Committee, Board candidates and makes recommendations to the Committee and the Board; and
- if requested by major shareholders, ensures that he or she is available for consultation and direct communication. Any shareholder can communicate with the Lead Independent Director (or any of the directors) as described on page 15 of this Proxy Statement and on the Company's website.

The Board's designation of a Lead Independent Director demonstrates its continuing commitment to strong corporate governance and Board independence.

The Board believes that the Company's corporate governance structure makes it unnecessary and ill advised to have an absolute requirement that the Chairman be an independent director. The Board believes that adopting such a rule would only limit the Board's ability to select the director it believes best suited to serve as Chairman of the Board, and is not in the best interests of the Company and its shareholders.

**Vote required**

Edgar Filing: NORTHROP GRUMMAN CORP /DE/ - Form PRE 14A

Approval of this proposal requires that the votes cast for the proposal must exceed the votes cast against the proposal. Abstentions and broker non-votes will have no effect on this proposal.

**FOR THESE REASONS, THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE AGAINST PROPOSAL NUMBER SIX.**

(6) a statement whether or not any such party will deliver a proxy statement and form of proxy to holders of at least the percentage of voting power of all of the shares of capital stock of the Corporation required under applicable law to carry the proposal (such statement, a Solicitation Statement ).

For purposes of this bylaw, Solicited Stockholder means any stockholder that has provided a request in response to a solicitation made pursuant to, and in accordance with, Section 14(a) of the Exchange Act by way of a solicitation statement filed on Schedule 14A.

A stockholder may revoke a request to call a special meeting by written revocation delivered to the Secretary at any time prior to the special meeting; provided, however, that if any such revocation(s) are received by the Secretary after the Secretary's receipt of written requests from the holders of the Required Percentage of Voting Stock, and as a result of such revocation(s), there no longer are unrevoked requests from the Required Percentage of Voting Stock to call a special meeting, the Board of Directors shall have the discretion to determine whether or not to proceed with the special meeting. A business proposal shall not be presented for stockholder action at any special meeting if (i) any stockholder or beneficial owner who has provided a Solicitation Statement with respect to such proposal does not act in accordance with the representations set forth therein or (ii) the business proposal appeared in a written request submitted by a stockholder who did not provide the information required by the preceding clause (c)(2) of this bylaw in accordance with such clause.

(d) The Secretary shall not accept, and shall consider ineffective, a written request from a stockholder to call a special meeting (i) that does not comply with the preceding provisions of this bylaw, (ii) that relates to an item of business that is not a proper subject for stockholder action under applicable law, (iii) if such request is delivered between the time beginning on the 61st day after the earliest date of signature on a written request that has been delivered to the Secretary relating to an identical or substantially similar item (such item, a Similar Item ) and ending on the one-year anniversary of such earliest date, (iv) if a Similar Item will be submitted for stockholder approval at any stockholder meeting to be held on or before the 90th day after the Secretary receives such written request, or (v) if a Similar Item has been presented at the most recent annual meeting or at any special meeting held within one year prior to receipt by the Secretary of such request to call a special meeting.

(e) The Board of Directors shall determine in good faith whether the requirements set forth in subparagraphs (d)(ii) through (v) have been satisfied. Either the Secretary or the Board of Directors shall determine in good faith whether all other requirements set forth in this bylaw have been satisfied. Any determination made pursuant to this paragraph shall be binding on the Corporation and its stockholders.

(f) The Board of Directors shall determine the place, and fix the date and time, of any special meeting called at the request of one or more stockholders, and, with respect to all other special meetings, the date and time of a special meeting shall be determined by the person or body calling the meeting. The Board of Directors may submit its own proposal or proposals for consideration at a special meeting called by the Chairperson of the Board of Directors or called at the request of one or more stockholders. The record date or record dates for a special meeting shall be fixed in accordance with Section 213 (or its successor provision) of the Delaware General Corporation Law (the "DGCL"). Business transacted at any special meeting shall be limited to the purposes stated in the notice of such meeting.

### **Section 2.03. Place of Meetings.**

(a) Each annual or special meeting of stockholders shall be held at such location as may be determined by the Board of Directors or, if no such determination is made, at such place as may be determined by the Chairperson of the Board of Directors. If no location is so determined, the annual or special meeting shall be held at the principal executive office of the Corporation. Notwithstanding the foregoing, the Board of Directors may, in its sole discretion, determine that an annual meeting shall not be held at any place, but may instead be held solely by means of remote communication as authorized by Section 2.03(b).

(b) If authorized by the Board of Directors in its sole discretion, and subject to such guidelines and procedures as the Board of Directors may adopt, stockholders and proxy holders not physically present at a meeting of stockholders may, by means of remote communication:

(1) participate in a meeting of stockholders; and

(2) be deemed present in person and vote at a meeting of stockholders, whether such meeting is to be held at a designated place or solely by means of remote communication; provided that (A) the Corporation implements reasonable measures to verify that each person deemed present and permitted to vote at the meeting by means of remote communication is a stockholder or proxy holder, (B) the Corporation implements reasonable measures to provide such stockholders and proxy holders a reasonable opportunity to participate in the meeting and to vote on matters submitted to the stockholders, including an opportunity to read or hear the proceedings of the meeting substantially concurrently with such proceedings, and (C) if any stockholder or proxy holder votes or takes other action at the meeting by means of remote communication, a record of such vote or other action is maintained by the Corporation.

### **Section 2.04. Notice of Meetings.**

(a) Unless otherwise required by law, written notice of each annual or special meeting of stockholders stating the date and time when, the place, if any, where it is to be held, the means of remote communications, if any, by which stockholders and proxy holders may be deemed to be present in person and vote at such meeting, the information required to gain access to the list of stockholders entitled to vote, if such list is to be open for examination on a reasonably accessible electronic network, and the record date for determining the stockholders entitled to vote at the meeting, if such date is different from the record date for determining stockholders entitled to notice of the meeting, shall be given not less than 10 nor more than 60 days before the date on which the meeting is to be held, to each stockholder entitled to vote at such meeting as of the record date for determining the stockholders entitled to notice of the meeting. The purpose or purposes for which the meeting is called may, in the case of an annual meeting, and shall, in the case of a special meeting, also be stated. If mailed, notice is given when it is deposited in the United States mail, postage prepaid, directed to a stockholder at such stockholder's address as it shall appear on the records of the Corporation.

(b) Without limiting the manner by which notice otherwise may be given effectively to stockholders, any notice to stockholders given by the Corporation under any provision of the DGCL, the Certificate of Incorporation of the Corporation (the "Certificate") or these Bylaws shall be effective if given by a form of electronic transmission consented to by the stockholder to whom the notice is given. Any such consent shall be revocable by the stockholder by written notice to the Corporation. Any such consent shall be deemed revoked if (i) the Corporation is unable to deliver by electronic transmission two consecutive notices given by the Corporation in accordance with such consent, and (ii) such inability becomes known to the Secretary or an assistant secretary of the Corporation or to the transfer agent or other person responsible for the giving of notice; provided, however, the inadvertent failure to treat such inability as a revocation shall not invalidate any meeting or other action. Notice given pursuant to this Section 2.04(b) shall be deemed given: (i) if by facsimile telecommunication, when directed to a number at which the stockholder has consented to receive notice, (ii) if by electronic mail, when directed to an electronic mail address at which the stockholder has consented to receive notice, (iii) if by a posting on an electronic network together with separate notice to the

stockholder of such specific posting, upon the later of (1) such posting and (2) the giving of such separate notice, and (iv) if by any other form of electronic transmission, when directed to the stockholder. For purposes of these Bylaws, electronic transmission means any form of communication not directly involving the physical transmission of paper that creates a record the recipient may retain, retrieve and review and reproduce in paper form through an automated process.

(c) Without limiting the manner by which notice otherwise may be given effectively to stockholders, but subject to Section 233(d) of the DGCL (or any successor provision thereof), any notice to stockholders given by the Corporation under any provision of the DGCL, the Certificate or these Bylaws shall be effective if given by a single written notice to stockholders who share an address if consented to by the stockholders at that address to whom such notice is given. Any such consent shall be revocable by the stockholder by written notice to the Corporation. Any stockholder who fails to object in writing to the Corporation, within 60 days of having been given written notice by the Corporation of its intention to send the single notice described in the preceding sentence, shall be deemed to have consented to receiving such single written notice.

**Section 2.05. Waiver of Notice.** Whenever notice is required to be given under any provision of the DGCL or the Certificate or these Bylaws, a written waiver, signed by the person entitled to notice, or a waiver by electronic transmission by the person entitled to notice, whether before or after the time stated therein, shall be deemed equivalent to notice. Attendance of a person at a meeting will constitute a waiver of notice of such meeting, except when the person attends a meeting for the express purpose of objecting at the beginning of the meeting to the transaction of any business because the meeting is not lawfully called or convened.

**Section 2.06. Adjourned Meetings.** When a meeting is adjourned to another time or place, notice need not be given of the adjourned meeting if the time and place, if any, thereof are announced at the meeting at which the adjournment is taken; provided, however, that if the date of any adjourned meeting is more than 30 days after the date for which the meeting was originally noticed, then notice of the place, if any, date and time of the adjourned meeting and the means of remote communication, if any, by which stockholders and proxy holders may be deemed to be present in person and vote at such adjourned meeting, shall be given in conformity herewith. If after the adjournment a new record date for stockholders entitled to vote is fixed for the adjourned meeting, the Board of Directors shall fix a new record date for notice of such adjourned meeting in accordance with Section 213(a) of the DGCL, and shall give notice of the adjourned meeting to each stockholder of record entitled to vote at such adjourned meeting as of the record date fixed for notice of such adjourned meeting. At any adjourned meeting, any business may be transacted which might have been transacted at the original meeting.

**Section 2.07. Conduct of Meetings.** All annual and special meetings of stockholders shall be conducted in accordance with such rules and procedures as the Board of Directors may determine subject to the requirements of applicable law and, as to matters not governed by such rules and procedures, as the chairperson of such meeting shall determine. Such rules or procedures, whether adopted by the Board of Directors or prescribed by the chairperson of such meeting, may include without limitation the following: (a) the establishment of an agenda or order of business for the meeting, (b) rules and procedures for maintaining order at the meeting and the safety of those present, (c) limitations on attendance at or participation in the meeting to stockholders of record of the Corporation, their duly authorized and constituted proxies or such other persons as the chairperson of the meeting shall determine, (d) restrictions on entry to the meeting after the time fixed for commencement thereof, and (e) limitations on the time allotted to questions or comments by participants. Unless and to the extent determined by the Board of Directors or the chairperson of the meeting, meetings of stockholders shall not be required to be held in accordance with the rules of parliamentary procedure.

The chairperson of any annual or special meeting of stockholders shall be either the Chairperson of the Board of Directors or any person designated by the Chairperson of the Board of Directors. The Secretary, or in the absence of the Secretary, a person designated by the chairperson of the meeting, shall act as secretary of the meeting.

**Section 2.08. Notice of Stockholder Business and Nominations.** Nominations of persons for election to the Board of Directors and the proposal of business to be transacted by the stockholders may be made at an annual meeting of stockholders (a) pursuant to the Corporation's proxy materials with respect to such meeting, (b) by or at the direction of the Board of Directors or (c) by any stockholder of record of the Corporation (the Record Stockholder) at the time of the giving of the notice required in the following paragraph, who is entitled to vote at the meeting and who has complied with the notice procedures set forth in this section. For the avoidance of doubt, the foregoing clause (c) shall be the exclusive means for a stockholder to bring nominations or business (other than business included in the Corporation's proxy materials pursuant to Rule 14a-8 under the Exchange Act.

For nominations or business to be properly brought before an annual meeting by a stockholder pursuant to clause (c) of the foregoing paragraph, (1) the Record Stockholder must have given timely notice thereof in writing to the Secretary of the

Corporation, (2) any such business must be a proper matter for stockholder action under applicable law, and (3) the Record Stockholder and the beneficial owner, if any, on whose behalf any such proposal or nomination is made, must have acted in accordance with the representations set forth in the Solicitation Statement required by these Bylaws. To be timely, a Record Stockholder's notice shall be received by the Secretary at the principal executive offices of the Corporation not less than 90 or more than 120 days prior to the one-year anniversary (the Anniversary) of the date on which the Corporation first mailed its proxy materials for the preceding year's annual meeting of stockholders; provided, however, that if the annual meeting is convened more than 30 days prior to or delayed by more than 30 days after the Anniversary of the preceding year's annual meeting, or if no annual meeting was held in the preceding year, notice by the Record Stockholder to be timely must be so received not later than the close of business on the later of (i) the 135th day before such annual meeting or (ii) the 10th day following the day on which public announcement of the date of such meeting is first made. Notwithstanding anything in the preceding sentence to the contrary, in the event that the number of directors to be elected to the Board of Directors is increased and there is no public announcement naming all of the nominees for director or specifying the size of the increased Board made by the Corporation at least 10 days before the last day a Record Stockholder may deliver a notice of nomination in accordance with the preceding sentence, a Record Stockholder's notice required by this bylaw shall also be considered timely, but only with respect to nominees for any new positions created by such increase, if it shall be received by the Secretary at the principal executive offices of the Corporation not later than the close of business on the 10th day following the day on which such public announcement is first made by the Corporation. In no event shall an adjournment of an annual meeting, or the postponement of a special meeting for which notice has been given, commence a new time period for the giving of a stockholder's notice as described herein.

Such Record Stockholder's notice shall set forth: (a) if such notice pertains to the nomination of directors, as to each person whom the Record Stockholder proposes to nominate for election or reelection as a director (i) all information relating to such person as would be required to be disclosed in solicitations of proxies for the election of such nominees as directors pursuant to Regulation 14A under the Exchange Act and such person's written consent to serve as a director if elected, and (ii) a statement whether such person, if elected, intends to tender, promptly following such person's election, an irrevocable resignation effective upon such person's failure to receive the required vote for reelection at any future meeting at which such person would face reelection and upon acceptance of such resignation by the Board of Directors, in accordance with the Corporation's Principles of Corporate Governance; (b) as to any business that the Record Stockholder proposes to bring before the meeting, a brief description of such business, the reasons for conducting such business at the meeting and any material interest in such business of such Record Stockholder and the beneficial owner, if any, on whose behalf the proposal is made; and (c) as to (1) the Record Stockholder giving the notice and (2) the beneficial owner, if any, on whose behalf the nomination or proposal is made (each, a party) (i) the name and address of each such party, as they appear on the Corporation's books; (ii) the class, series and number of shares of the Corporation that are owned beneficially and of record by each such party (which information set forth in this clause shall be supplemented by such stockholder or such beneficial owner, as the case may be, not later than 10 days after the record date for determining the stockholders entitled to notice of the meeting to disclose such ownership as of such record date); (iii) a description of any agreement, arrangement or understanding with respect to the nomination between or among such stockholder and such beneficial owner, any of their respective affiliates or associates, and any others acting in concert with any of the foregoing; (iv) a description of any agreement, arrangement or understanding (including any derivative or short positions, profit interests, options, warrants, stock appreciation or similar rights, hedging transactions, and borrowed or loaned shares) that has been entered into as of the date of the stockholder's notice by, or on behalf of, such Record Stockholder or such beneficial owners, the effect or intent of which is to mitigate loss to, manage risk or benefit of share price changes for, or increase or decrease the voting power of, such stockholder and such beneficial owner, with respect to shares of stock of the Corporation (which information set forth in this clause shall be supplemented by such party not later than 10 days after the record date for determining the stockholders entitled to notice of the special meeting to disclose such ownership as of such record date); (v) any other information relating to each such party that would be required to be disclosed in a proxy statement or other filings required to be made in connection with solicitations of proxies for, as applicable, the proposal and/or for the election of directors in a contested election pursuant to Section 14 of the Exchange Act; (vi) a representation that the stockholder is a holder of record of stock of the Corporation entitled to vote at such meeting; and (vii) a statement whether or not each such party will deliver a proxy statement and form of proxy to holders of, in the case of a proposal, at least the percentage of voting power of all of the shares of capital stock of the Corporation required under applicable law to carry the proposal or, in the case of a nomination or nominations, at least the percentage of voting power of all of the shares of capital stock of the Corporation reasonably believed by the Record Stockholder or the beneficial holder, as the case may be, to be sufficient to elect the nominee or nominees proposed to be nominated by such stockholder and/or intends otherwise to solicit proxies from stockholders in support of such proposal or nomination (such statement, a Solicitation Statement).

Only persons nominated in accordance with the procedures set forth in this Section 2.08 shall be eligible to serve as directors at an annual meeting of stockholders and only such business shall be conducted at an annual meeting of stockholders as

shall have been brought before the meeting in accordance with the procedures set forth in this Section 2.08. The chairperson of the meeting shall have the power and the duty to determine whether a nomination or any business proposed to be brought before the meeting has been made in accordance with the procedures set forth in these Bylaws and, if any proposed nomination or business is not in compliance with these Bylaws, to declare that such defectively proposed business or nomination shall not be presented for stockholder action at the meeting and shall be disregarded.

Only such business shall be conducted at a special meeting of stockholders as shall have been brought before the meeting in accordance with Section 2.02. The notice of such special meeting shall include the purpose for which the meeting is called. Nominations of persons for election to the Board of Directors may be made at a special meeting of stockholders at which directors are to be elected (a) by or at the direction of the Board of Directors or (b) by any stockholder of record of the Corporation at the time of giving of notice provided for in this paragraph, who shall be entitled to vote at the meeting and who delivers a written notice to the Secretary setting forth the information set forth in clauses (a) and (c) of the third paragraph of this Section 2.08. Nominations by stockholders of persons for election to the Board of Directors may be made at a special meeting of stockholders only if such stockholder's notice required by the preceding sentence shall be received by the Secretary at the principal executive offices of the Corporation not later than the close of business on the later of the 135th day prior to such special meeting or the 10th day following the day on which public announcement is first made of the date of the special meeting and of the nominees proposed by the Board of Directors to be elected at such meeting. In no event shall an adjournment of a special meeting, or a postponement of a special meeting for which notice has been given, commence a new time period for the giving of a record stockholder's notice. A person shall not be eligible for election or reelection as a director at a special meeting unless the person is nominated (i) by or at the direction of the Board of Directors or (ii) by a record stockholder in accordance with the notice procedures set forth in this Section 2.08.

For purposes of this section, public announcement shall mean disclosure in a press release reported by the Dow Jones News Service, Associated Press or a comparable national news service or in a document publicly filed by the Corporation with the Securities and Exchange Commission pursuant to Section 13, 14 or 15(d) of the Exchange Act.

Notwithstanding the foregoing provisions of this Section 2.08, a stockholder shall also comply with all applicable requirements of the Exchange Act and the rules and regulations thereunder with respect to matters set forth in this Section 2.08. Nothing in this Section 2.08 shall be deemed to affect any rights of stockholders to request inclusion of proposals in the Corporation's proxy statement pursuant to Rule 14a-8 under the Exchange Act.

**Section 2.09. Quorum.** At any meeting of stockholders, the presence, in person or by proxy, of the holders of record of a majority of the voting power of the shares then issued and outstanding and entitled to vote at the meeting shall constitute a quorum for the transaction of business. Where a separate vote by a class or classes or series is required, a majority of the voting power of the shares of such class or classes or series present in person or represented by proxy shall constitute a quorum entitled to take action with respect to the vote on that matter. In the absence of a quorum, the chairperson of the meeting may adjourn the meeting from time to time. At any reconvened meeting following such an adjournment at which a quorum shall be present, any business may be transacted which might have been transacted at the original meeting.

**Section 2.10. Votes Required.** When a quorum is present at a meeting, a matter submitted for stockholder action shall be approved if the votes cast for the matter exceed the votes cast against such matter, unless a greater or different vote is required by statute, any applicable law or regulation (including the applicable rules of any stock exchange), the rights of any authorized class of stock, the Certificate or these Bylaws. Unless the Certificate or a resolution of the Board of Directors adopted in connection with the issuance of shares of any class or series of stock provides for a greater or lesser number of votes per share, or limits or denies voting rights, each outstanding share of stock, regardless of class, shall be entitled to one vote on each matter submitted to a vote at a meeting of stockholders.

**Section 2.11. Proxies.** A stockholder may vote the shares owned of record by such stockholder either in person or by proxy in any manner permitted by law, including by execution of a proxy in writing or by telex, telegraph, cable, facsimile or electronic transmission, by the stockholder or by the duly authorized officer, director, employee or agent of such stockholder. No proxy shall be voted or acted upon after 3 years from its date, unless the proxy provides for a longer period. A duly executed proxy will be irrevocable if it states it is irrevocable and if, and only as long as, it is coupled with an interest sufficient in law to support an irrevocable power. A proxy may be made irrevocable regardless of whether the interest with which it is coupled is an interest in the stock itself or an interest in the Corporation generally.

Any copy, facsimile telecommunication or other reliable reproduction of the writing or transmission created pursuant to this paragraph may be substituted or used in lieu of the original writing or transmission for any and all purposes for which the original

writing or transmission could be used, provided that such copy, facsimile telecommunication or other reproduction shall be a complete reproduction of the entire original writing or transmission.

**Section 2.12. Stockholder Action by Written Consent.** (a) The holders of Common Stock of the Corporation may take action by written consent in lieu of a meeting of stockholders if, in accordance with and subject to the conditions and restrictions set forth in the Certificate and these Bylaws (as amended from time to time), (i) record holders of at least 25% of the outstanding Common Stock of the Corporation have submitted written requests to the Secretary of the Corporation asking that the Board of Directors fix a record date to determine the stockholders entitled to deliver written consents for the action or actions proposed to be taken (the Soliciting Stockholders ); (ii) such written requests include all of the required information with respect to such action or actions and with respect to such Soliciting Stockholder(s) and the beneficial owners (if any) on whose behalf such written requests are made; (iii) the Board of Directors fixes such a record date or has failed to do so within ten days after the Secretary certifies to the Board of Directors that he or she has received written requests from the requisite holders of Common Stock; (iv) written consents are solicited from all stockholders entitled to deliver a written consent by one or more of the Soliciting Stockholder(s) and the solicitation materials delivered by such Soliciting Stockholder(s) include a description of the action or actions proposed to be taken by written consent and, with respect to each person or entity directing such solicitation or on whose behalf such solicitation is made, a description of any material interest of such Soliciting Stockholder in the action or actions proposed to be taken by written consent, as well as any other required information; and (v) written consents setting forth the action or actions to be taken are signed by the holders of outstanding stock having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares entitled to vote thereon were present and voted and are delivered to the Corporation in the manner required by Section 228 of the Delaware General Corporation Law (as amended from time to time). The holders of Common Stock of the Corporation may not act by written consent in lieu of a meeting of stockholders except (a) in accordance with the preceding sentence or (b) pursuant to a resolution adopted by the Board of Directors authorizing one or more actions to be taken by written consent. Any written consent to take action in lieu of a meeting of stockholders may be revoked prior to the effectiveness of the stockholder action or actions set forth in such written consent. References in this bylaw to a written consent shall be deemed to include a telegram, cablegram or other electronic transmission consenting to an action to be taken if such transmission complies with Section 228(d) of the Delaware General Corporation Law (as amended from time to time).

(b) Each written request of a Soliciting Stockholder(s) asking that the Board of Directors fix a record date to determine the stockholders entitled to deliver written consents shall include the following: (i) the signature of the stockholder of record signing such written request and the date such written request was signed; (ii) the action or actions proposed to be taken by written consent and the reasons for seeking stockholder approval of such actions; and (iii) for each written request submitted by a person or entity other than a Solicited Stockholder, as to the stockholder signing such written request and the beneficial owner (if any) on whose behalf such written request is made (each, a party ):

(1) the name and address of such Soliciting Stockholder(s);

(2) the class, series and number of shares of the Corporation that are owned beneficially and of record by such Soliciting Stockholder(s) (which information set forth in this clause shall be supplemented by such Soliciting Stockholder(s) not later than 10 days after the record date for determining the stockholders entitled to act by written consent to disclose such ownership as of such record date);

(3) a description of any agreement, arrangement or understanding (including any derivative or short positions, profit interests, options, warrants, stock appreciation or similar rights, hedging transactions, and borrowed or loaned shares) that has been entered into as of the date of the Soliciting Stockholder's written request by, or on behalf of, such Soliciting Stockholder(s), the effect or intent of which is to mitigate loss to, manage risk or benefit of share price changes for, or increase or decrease the voting power of, such Soliciting Stockholder(s) with respect to shares of stock of the Corporation (which information set forth in this clause shall be supplemented by such Soliciting Stockholder(s) not later than 10 days after the record date for determining the stockholders entitled to act by written consent to disclose such ownership as of such record date);

(4) any other information relating to each such Soliciting Stockholder(s) that would be required to be disclosed in a proxy statement or other filings required to be made in connection with solicitations of proxies for the proposal pursuant to Section 14 of the Exchange Act;

(5) any material interest of such Soliciting Stockholder(s) in any of the actions to be taken by written consent;

(6) if directors are to be elected by written consent, with respect to each person proposed to be elected by written consent: (i) all information relating to such person as would be required to be disclosed in solicitations of proxies for the election

of such nominees as directors pursuant to Regulation 14A under the Exchange Act and such person's written consent to serve as a director if elected; and (ii) a statement whether such person, if elected, intends to tender an irrevocable resignation consistent with the Corporation's Principles of Corporate Governance; and

(7) a statement whether or not any such Soliciting Stockholder(s) will deliver a proxy statement and form of proxy to all stockholders entitled to deliver a written consent (such statement hereinafter for purposes of this Section 2.12, a Solicitation Statement).

For purposes of this bylaw, Solicited Stockholder means any stockholder that has provided a written request in response to a solicitation made pursuant to, and in accordance with, Section 14(a) of the Exchange Act by way of a solicitation statement filed on Schedule 14A.

(c) For purposes of this bylaw and the Certificate, Soliciting Stockholder(s) shall have fulfilled the requirement to solicit written consents from all stockholders entitled to deliver a written consent if they have undertaken all reasonable efforts to solicit written consents from all stockholders entitled to deliver a written consent.

(d) The Secretary shall not accept, and shall consider ineffective, a written request pursuant to Section 2.12(a)(i) asking that the Board of Directors fix a record date (i) that does not comply with the preceding provisions of this bylaw; (ii) that relates to an item of business that is not a proper subject for stockholder action under applicable law; (iii) if such written request is delivered between the time beginning on the 31st day after the earliest date of signature on a written request that has been delivered to the Secretary relating to an identical or substantially similar item (hereinafter for purposes of this Section 2.12, a Similar Item) and ending on the one-year anniversary of such earliest date; (iv) if a Similar Item will be submitted for stockholder approval at any stockholder meeting to be held on or before the 120th day after the Secretary receives such written request; or (v) if a Similar Item has been presented at the most recent annual meeting or at any special meeting held within one year prior to the receipt by the Secretary of such written request. The Board of Directors may fix a record date to determine the stockholders entitled to deliver written requests, whether or not the Corporation has already received one or more written requests pursuant to Section 2.12(a) of this bylaw. A written request may be revoked prior to the receipt of written requests from the holders of 25% of the outstanding Common Stock of the Corporation.

(e) In order that the Corporation may determine the stockholders entitled to consent to corporate action in writing without a meeting, the Board of Directors may fix a record date, which record date shall not precede the date upon which the resolution fixing the record date is adopted by the Board of Directors, and which date shall not be more than 10 days after the date upon which the resolution fixing the record date is adopted by the Board of Directors. The Board of Directors shall promptly, but in all events within 10 days after the Secretary certifies to the Board of Directors that the Secretary has received the requisite number of valid written requests in accordance with the foregoing provisions of this bylaw, adopt a resolution fixing the record date (unless a record date has previously been fixed by the Board of Directors pursuant to the first sentence of this Section 2.12(e)). If no record date has been fixed by the Board of Directors within such 10-day period, the record date for determining stockholders entitled to consent to corporate action in writing without a meeting, when no prior action by the Board of Directors is required by applicable law, shall be the first date on which a signed written consent setting forth the action proposed to be taken is delivered to the Corporation in the manner permitted by Section 228 of the Delaware General Corporation Law (as amended from time to time). If no record date has been fixed by the Board of Directors and prior action by the Board of Directors is required by applicable law, the record date for determining stockholders entitled to consent to corporate action in writing without a meeting shall be at the close of business on the day on which the Board of Directors adopts the resolution taking such prior action.

(f) In addition to the other requirements set forth in this bylaw and the Certificate, no written consent with respect to one or more stockholder actions shall be valid or effective if the stockholders who delivered written requests asking the Board of Directors to fix a record date do not comply with (i) clause (iv) of Article ELEVENTH of the Certificate and (ii) the supplemental disclosure requirements set forth in Sections 2.12(b)(2) and (3) of this bylaw.

(g) In the event of the delivery, in the manner provided by Section 228 of the Delaware General Corporation Law (as amended from time to time), to the Corporation of the requisite written consent or consents to take corporate action after giving effect to any related revocation or revocations, the Corporation shall engage independent inspector or inspectors of elections for the purpose of promptly performing a ministerial review of the validity of the consents and revocations. For the purpose of permitting the inspector or inspectors to perform such review, no action by written consent without a meeting shall be effective until such date as the independent inspector or inspectors certify to the Corporation that the consents delivered to the Corporation in accordance with applicable law represent at least the minimum number of votes that would be necessary to take the corporate action. The action by written consent will take effect as of the date and time of the certification of the written consents and will not relate back to the date the written consents were delivered to the Corporation. In conducting the review

required by this paragraph, the independent inspector or inspectors may, at the expense of the Corporation, retain legal counsel and any other necessary or appropriate professional advisors and such other personnel as they may deem necessary or appropriate to assist them and shall be fully protected in relying in good faith upon the opinion of such counsel or advisors. Nothing contained in this bylaw shall in any way be construed to suggest or imply that the Board of Directors or any stockholder shall not be entitled to contest the validity of any consent or revocation thereof, whether before or after such certification by the independent inspector or inspectors, or to take any other action (including, without limitation, the commencement, prosecution or defense of any litigation with respect thereto, and the seeking of injunctive relief in such litigation). If after such review the independent inspector or inspectors shall determine that the written consent or consents are valid and that the action specified therein has been validly authorized, that fact shall forthwith be certified on the records of the Corporation kept for the purpose of recording the proceedings of meetings of stockholders, and the written consent or consents shall be filed in such records.

(h) Prompt notice of the taking of corporate action without a meeting by less than unanimous written consent shall be given to those stockholders entitled thereto, in accordance with Section 228(e) of the Delaware General Corporation Law (as amended from time to time) and other applicable law.

(i) The Board of Directors shall determine in good faith whether the requirements set forth in this bylaw and the Certificate have been satisfied. If the Board of Directors shall determine that any written request asking the Board of Directors to fix a record date to take action by written consent was not properly made in accordance with this bylaw or the Certificate, or if the Board of Directors shall determine that the stockholder or stockholders seeking to take such action do not otherwise comply with this bylaw and the Certificate, then the Board of Directors shall not be required to fix a record date and any such purported action by written consent shall be null and void to the fullest extent permitted by applicable law. In addition to the requirements of this bylaw and the Certificate with respect to stockholders seeking to take an action by written consent, any stockholder of record seeking to have the stockholders authorize or take corporate action by written consent shall comply with all requirements of applicable law, including all requirements of the Exchange Act, with respect to such action.

**Section 2.13. List of Stockholders.** The Secretary of the Corporation shall, in the manner provided by law, prepare and make (or cause to be prepared and made) a complete list of stockholders entitled to vote at any meeting of stockholders, provided, however, that if the record date for determining the stockholders entitled to vote is less than 10 days before the meeting date, the list shall reflect the stockholders entitled to vote as of the 10th day before the meeting date, arranged in alphabetical order and showing the address of, and the number of shares registered in the name of, each stockholder. Nothing contained in this section shall require the Corporation to include electronic mail addresses or other electronic contact information on such list. Such list shall be open to the examination of any stockholder, for any purpose germane to the meeting, for a period of at least 10 days prior to the meeting in the manner provided by law. A list of the stockholders entitled to vote at the meeting shall also be produced and kept at the time and place, if any, of the meeting during the duration thereof, and may be inspected by any stockholder who is present. If the meeting is to be held solely by means of remote communication, then the list will also be open to the examination of any stockholder during the whole time of the meeting on a reasonably accessible electronic network, and the information required to access such list will be provided with the notice of the meeting.

The stock ledger shall be the only evidence as to who are the stockholders entitled to examine the list of stockholders or to vote in person or by proxy at any meeting of stockholders.

**Section 2.14. Inspectors of Election.** In advance of any meeting of stockholders, the Board of Directors may appoint Inspectors of Election to act at such meeting or at any adjournment or adjournments thereof. The Corporation may designate one or more alternate inspectors to replace any inspector who fails to act. If such inspectors are not so appointed or fail or refuse to act, the chairperson of any such meeting may (and, to the extent required by law, shall) make such an appointment. The number of Inspectors of Election shall be 1 or 3. If there are 3 Inspectors of Election, the decision, act or certificate of a majority shall be effective and shall represent the decision, act or certificate of all. No such inspector need be a stockholder of the Corporation. Each inspector, before entering upon the discharge of the duties of inspector, shall take and sign an oath faithfully to execute the duties of inspector with strict impartiality and according to the best of such inspector's ability.

The Inspectors of Election shall have such duties and responsibilities as required under Section 231 of the DGCL (or any successor provision thereof).

**ARTICLE V**

**INDEMNIFICATION OF DIRECTORS, OFFICERS,**

**EMPLOYEES AND AGENTS**

**Section 5.01. Right to Indemnification.** Each person who was or is made a party, or is threatened to be made a party, to any actual or threatened action, suit, or proceeding, whether civil, criminal, administrative, or investigative (hereinafter a "proceeding"), by reason of the fact that (i) he or she is or was a director, officer, employee, or agent of the Corporation (hereinafter an "indemnitee") or (ii) he or she is or was serving at the request of the Board of Directors or an executive officer (as such term is defined in Section 16 of the Exchange Act) of the Corporation as a director, officer, employee or agent of another corporation or of a partnership, joint venture, trust or other enterprise, including service with respect to an employee benefit plan, shall be indemnified and held harmless by the Corporation to the fullest extent authorized by the DGCL, as the same exists or may hereafter be amended, or by other applicable law as then in effect, against all expense, liability, and loss (including attorneys' fees, judgments, fines, ERISA excise taxes or penalties, and amounts paid in settlement) actually and reasonably incurred or suffered by such indemnitee in connection therewith. The right to indemnification provided by this Article shall apply whether or not the basis of such proceeding is alleged action in an official capacity as such director, officer, employee or agent or in any other capacity while serving as such director, officer, employee or agent. Notwithstanding anything in this Section 5.01 to the contrary, except as provided in Section 5.03 with respect to proceedings to enforce rights to indemnification, the Corporation shall indemnify any such indemnitee in connection with a proceeding (or part thereof) initiated by such indemnitee only if such proceeding (or part thereof) was authorized by the Corporation.

**Section 5.02. Advancement of Expenses.** The right to indemnification conferred in Section 5.01, shall include the right to have the expenses incurred in defending or preparing for any such proceeding in advance of its final disposition (hereinafter an "advancement of expenses") paid by the Corporation; provided, however, that if the DGCL requires, an advancement of expenses incurred by an indemnitee in his or her capacity as a director or officer (and not in any other capacity in which service was or is to be rendered by such indemnitee, including, without limitation, service to an employee benefit plan) shall be made only upon delivery to the Corporation of an undertaking containing such terms and conditions, including the requirement of security, as the Board of Directors deems appropriate (hereinafter an "undertaking"), by or on behalf of such indemnitee, to repay all amounts so advanced if it shall ultimately be determined by final judicial decision from which there is no further right to appeal that such indemnitee is not entitled to be indemnified for such expenses under this Article or otherwise. The Corporation shall not be obligated to advance fees and expenses to a director, officer, employee or agent in connection with a proceeding instituted by the Corporation against such person.

---

**Table of Contents**

**Section 5.03. Right of Indemnitee to Bring Suit.** If a claim under Section 5.01 or 5.02 is not paid in full by the Corporation within 60 calendar days after a written claim has been received by the Corporation, except in the case of a claim for an advancement of expenses under Section 5.02, in which case the applicable period shall be 30 calendar days, the indemnitee may at any time thereafter bring suit against the Corporation to recover the unpaid amount of the claim. If the indemnitee is successful in whole or in part in any such suit, or in a suit brought by the Corporation to recover an advancement of expenses pursuant to the terms of an undertaking, the indemnitee shall be entitled to be paid also the expense of prosecuting or defending such suit. In (i) any suit brought by the indemnitee to enforce a right to indemnification hereunder (but not in a suit brought by the indemnitee to enforce a right to an advancement of expenses) it shall be a defense that, and (ii) in any suit brought by the Corporation to recover an advancement of expenses pursuant to the terms of an undertaking, the Corporation shall be entitled to recover such expenses upon a final adjudication that, the indemnitee has not met any applicable standard for indemnification set forth in the DGCL. Neither the failure of the Corporation (including its directors who are not parties to such action, a committee of such directors, independent legal counsel or its stockholders) to have made a determination prior to the commencement of such suit that indemnification of the indemnitee is proper in the circumstances because the indemnitee has met the applicable standard of conduct set forth in the DGCL, nor an actual determination by the Corporation (including its directors who are not parties to such action, a committee of such directors, independent legal counsel or its stockholders) that the indemnitee has not met such applicable standard of conduct, shall create a presumption that the indemnitee has not met the applicable standard of conduct or, in the case of such a suit brought by the indemnitee, be a defense to such suit. In any suit brought by the indemnitee to enforce a right to indemnification or to an advancement of expenses hereunder, or brought by the Corporation to recover an advancement of expenses pursuant to the terms of an undertaking, the burden of proving that the indemnitee is not entitled to be indemnified, or to such advancement of expenses, under this Article V or otherwise shall be on the Corporation.

**Section 5.04. Nonexclusivity of Rights.** (a) The rights to indemnification and to the advancement of expenses conferred in this Article shall not be exclusive of any other right which any person may have or hereafter acquire under any statute, provisions of the Certificate, Bylaw, agreement, vote of stockholders or disinterested directors, or otherwise. (b) The Corporation may maintain insurance, at its expense, to protect itself and any past or present director, officer, employee or agent of the Corporation or another corporation, partnership, joint venture, trust or other enterprise against any expense, liability or loss, whether or not the Corporation would have the power to indemnify such person against such expense, liability or loss under the DGCL. The Corporation may enter into contracts with any indemnitee in furtherance of the provisions of this Article and may create a trust fund, grant a security interest or use other means (including, without limitation, a letter of credit) to ensure the payment of such amounts as may be necessary to effect indemnification as provided in this Article. (c) The Corporation may without reference to Sections 5.01 through 5.04 (a) and (b) hereof, pay the expenses, including attorneys' fees, incurred by any director, officer, employee or agent of the Corporation who is subpoenaed, interviewed or deposed as a witness or otherwise incurs expenses in connection with any civil, arbitration, criminal or administrative proceeding or governmental or internal investigation to which the Corporation is a party, target, or potentially a party or target, or of any such individual who appears as a witness at any trial, proceeding or hearing to which the Corporation is a party, if the Corporation determines that such payments will benefit the Corporation and if, at the time such expenses are incurred by such individual and paid by the Corporation, such individual is not a party, and is not threatened to be made a party, to such proceeding or investigation.

**Section 5.05. Indemnification of Employees and Agents of the Corporation.** The Corporation may grant rights to indemnification and to the advancement of expenses to any employee or agent of the Corporation to the fullest extent permitted by law. The Corporation may, by action of its Board of Directors, authorize one or more officers to grant rights for indemnification or the advancement of expenses to employees and agents of the Corporation on such terms and conditions as such officers deem appropriate.

**Section 5.06. Nature of Rights.** The rights conferred upon indemnitees in this Article V shall be contract rights and such rights shall continue as to an indemnitee who has ceased to be a director, officer or trustee and shall inure to the benefit of the indemnitee's heirs, executors and administrators. Any amendment, alteration or repeal of this Article V that adversely affects any right of an indemnitee or its successors shall be prospective only and shall not limit or eliminate any such right with respect to any proceeding involving any occurrence or alleged occurrence of any action or omission to act that took place prior to such amendment or repeal.

To the extent shares of capital stock are represented by certificates, such certificates shall be signed by the Chairperson of the Board of Directors, the President or a vice president, together with the Secretary or assistant secretary, or the Treasurer or assistant treasurer. Any or all of the signatures on any certificate may be facsimile. A stockholder that holds a certificate representing shares of any class or series of the capital stock of the Corporation for which the Board of Directors has authorized uncertificated shares may request that the Corporation cancel such certificate and issue such shares in an uncertificated form, provided that the Corporation shall not be obligated to issue any uncertificated shares of capital stock to such stockholder until such certificate representing such shares of capital stock shall have been surrendered to the Corporation (or, if such certificate has been lost, stolen or destroyed, the procedures required by the Corporation in Section 6.07 shall have been followed).

With respect to certificated shares of capital stock, the Secretary or an assistant secretary of the Corporation or the transfer agent thereof shall mark every certificate exchanged, returned or surrendered to the Corporation with **Cancelled** and the date of cancellation.

In case any officer, transfer agent or registrar who has signed or whose facsimile signature has been placed upon a certificate shall have ceased to be such officer, transfer agent or registrar before such certificate is issued, it may be issued by the Corporation with the same effect as if such person were such officer, transfer agent or registrar at the date of issue. The Corporation shall not have power to issue a certificate in bearer form.

If the Corporation shall be authorized to issue more than one class of stock or more than one series of any class, the powers, designations, preferences and relative, participating, optional, or other special rights of each class of stock or series thereof and the qualifications, limitations or restrictions of such preferences and/or rights shall be set forth in full or summarized on the face or back of the certificate which the Corporation shall issue to represent such class or series of stock, provided that, except as otherwise provided in Section 6.04 or Section 202 of the DGCL, in lieu of the foregoing requirements, there may be set forth on the face or back of the certificate which the Corporation shall issue to represent such class or series of stock, a statement that the Corporation will furnish without charge to each stockholder who so requests the powers, designations, preferences and relative, participating, optional, or other special rights of each class of stock or series thereof and the qualifications, limitations or restrictions of such preferences and/or rights. In the case of uncertificated shares, within a reasonable time after the issuance or transfer of uncertificated stock, the Corporation shall send to the registered owner thereof a written notice containing the information required to be set forth or stated on certificates pursuant to this section, Sections 6.02(b), 6.04 and 6.05 of these Bylaws and Sections 156, 202(a) and 218(a) of the DGCL, or with respect to this section and Section 151 of the DGCL a statement that the Corporation will furnish without charge to each stockholder who so requests the powers, designations, preferences and relative participating, optional or other special rights of each class of stock or series thereof and the qualifications, limitations or restrictions of such preferences and/or rights.

**Section 6.02. Issuance of Stock; Lawful Consideration.**

(a) Shares of stock may be issued for such consideration, having a value not less than the par value thereof, as determined from time to time by the Board of Directors. Treasury shares may be disposed of by the Corporation for such consideration as may be determined from time to time by the Board of Directors. The consideration for subscriptions to, or the purchase of, the capital stock to be issued by the Corporation shall be paid in such form and in such manner as the Board of Directors shall determine. The Board of Directors may authorize capital stock to be issued for consideration consisting of cash, any tangible or intangible property or any benefit to the Corporation, or any combination thereof. In the absence of actual fraud in the transaction, the judgment of the Board of Directors as to the value of such consideration shall be conclusive. The capital stock so issued shall be deemed to be fully paid and nonassessable stock upon receipt by the Corporation of such consideration; provided, however, nothing contained herein shall prevent the Board of Directors from issuing partly paid shares in accordance with Section 6.02(b) and Section 156 of the DGCL.

(b) The Corporation may issue the whole or any part of its shares as partly paid and subject to call for the remainder of the consideration to be paid therefor. Upon the face or back of each stock certificate issued to represent any such partly paid shares, or upon the books and records of the Corporation in the case of uncertificated partly paid shares, the total amount of the consideration to be paid therefor and the amount paid thereon shall be stated. Upon the declaration of any dividend on fully paid shares, the Corporation shall declare a dividend upon partly paid shares of the same class, but only upon the basis of the percentage of the consideration actually paid thereon.

**Section 6.03. Transfer Agents and Registrars.** The Corporation may have one or more transfer agents and one or more registrars of its stock whose respective duties the Board of Directors or the Secretary may, from time to time, define. No

certificate of stock shall be valid until countersigned by a transfer agent, if the Corporation has a transfer agent, or until registered by a registrar, if the Corporation has a registrar. The duties of transfer agent and registrar may be combined.

**Section 6.04. Restrictions on Transfer and Ownership of Securities.** A written restriction or restrictions on the transfer or registration of transfer of a security of the Corporation, or on the amount of the Corporation's securities that may be owned by any person or group of persons, if permitted by Section 202 of the DGCL and noted conspicuously on the certificate or certificates representing the security or securities so restricted or, in the case of uncertificated shares, contained in the notice or notices sent pursuant to Section 6.02 of these Bylaws and Section 151(f) of the DGCL, may be enforced against the holder of the restricted security or securities or any successor or transferee of the holder including an executor, administrator, trustee, guardian or other fiduciary entrusted with like responsibility for the person or estate of the holder. Unless noted conspicuously on the certificate or certificates representing the security or securities so restricted or, in the case of uncertificated shares, contained in the notice or notices sent pursuant to Section 6.02 of these Bylaws and Sections 151(f) of the DGCL, a restriction, even though permitted by Section 202 of the DGCL, is ineffective except against a person with actual knowledge of the restriction.

**Section 6.05. Voting Trusts and Voting Agreements.** One stockholder or two or more stockholders may by agreement in writing deposit capital stock of the Corporation of an original issue with or transfer capital stock of the Corporation to any person or persons, or entity or entities authorized to act as trustee, for the purpose of vesting in such person or persons, entity or entities, who may be designated voting trustee, or voting trustees, the right to vote thereon for any period of time determined by such agreement, upon the terms and conditions stated in such agreement. The agreement may contain any other lawful provisions not inconsistent with such purpose. After the filing of a copy of the agreement in the registered office of the Corporation in the State of Delaware, which copy shall be open to the inspection of any stockholder of the Corporation or any beneficiary of the trust under the agreement daily during business hours, certificates of stock or uncertificated stock shall be issued to the voting trustee or trustees to represent any stock of an original issue so deposited with such voting trustee or trustees, and any certificates of stock or uncertificated stock so transferred to the voting trustee or trustees shall be surrendered and cancelled and new certificates or uncertificated stock shall be issued therefor to the voting trustee or trustees. In the certificate so issued, if any, it shall be stated that it is issued pursuant to such agreement, and that fact shall also be stated in the stock ledger of the Corporation. The voting trustee or trustees may vote the stock so issued or transferred during the period specified in the agreement. Stock standing in the name of the voting trustee or trustees may be voted either in person or by proxy, and in voting the stock, the voting trustee or trustees shall incur no responsibility as stockholder, trustee or otherwise, except for their own individual malfeasance. In any case where two or more persons or entities are designated as voting trustees, and the right and method of voting any stock standing in their names at any meeting of the Corporation are not fixed by the agreement appointing the trustees, the right to vote the stock and the manner of voting it at the meeting shall be determined by a majority of the trustees, or if they be equally divided as to the right and manner of voting the stock in any particular case, the vote of the stock in such case shall be divided equally among the trustees.

**Section 6.06. Transfer of Shares.** Registration of transfer of shares of stock of the Corporation may be effected on the books of the Corporation in the following manner:

(a) **Certificated Shares.** In the case of certificated shares, upon authorization by the registered holder of share certificates representing such shares of stock, or by his attorney authorized by a power of attorney duly executed and filed with the Secretary or with a designated transfer agent or transfer clerk, and upon surrender to the Corporation or any transfer agent of the corporation of the certificate being transferred, which certificate shall be properly and fully endorsed or accompanied by a duly executed stock transfer power, and otherwise in proper form for transfer, and the payment of all transfer taxes thereon. Whenever a certificate is endorsed by or accompanied by a stock power executed by someone other than the person or persons named in the certificate, evidence of authority to transfer shall also be submitted with the certificate. Notwithstanding the foregoing, such surrender, proper form for transfer or payment of taxes shall not be required in any case in which the officers of the Corporation determine to waive such requirement.

(b) **Uncertificated Shares.** In the case of uncertificated shares of stock, upon receipt of proper and duly executed transfer instructions from the registered holder of such shares, or by his attorney authorized by a power of attorney duly executed and filed with the Secretary or with a designated transfer agent or transfer clerk, the payment of all transfer taxes thereon, and compliance with appropriate procedures for transferring shares in uncertificated form. Whenever such transfer instructions are executed by someone other than the person or persons named in the books of the Corporation as the holder thereof, evidence of authority to transfer shall also be submitted with such transfer instructions. Notwithstanding the foregoing, such payment of taxes or compliance shall not be required in any case in which the officers of the Corporation determine to waive such requirement.

**Table of Contents**

No transfer of shares of capital stock shall be made on the books of this Corporation if such transfer is in violation of a lawful restriction noted conspicuously on the certificate. No transfer of shares of capital stock shall be valid as against the Corporation for any purpose until it shall have been entered in the stock records of the Corporation by an entry showing from and to whom transferred.

**Section 6.07. Lost, Stolen or Destroyed Share Certificates.** The Corporation may issue a new certificate of stock or uncertificated shares in place of any certificate previously issued by it, alleged to have been lost, stolen or destroyed, and the Corporation may require the owner of the lost, stolen or destroyed certificate, or such owner's legal representative, to give the Corporation a bond sufficient to indemnify it against any claim that may be made against it on account of the alleged loss, theft or destruction of any such certificate or the issuance of such new certificate or uncertificated shares; but the Corporation, in its discretion, may refuse to issue a new certificate of stock unless the Corporation is ordered to do so by a court of competent jurisdiction.

**Section 6.08. Stock Ledgers.** Original or duplicate stock ledgers, containing the names and addresses of the stockholders of the Corporation and the number of shares of each class of stock held by them, shall be kept at the principal executive office of the Corporation or at the office of its transfer agent or registrar.

**Section 6.09. Record Dates.** In order that the Corporation may determine the stockholders entitled to notice of any meeting of stockholders or any adjournment thereof, the Board of Directors may, except as otherwise required by law, fix a record date, which record date shall not precede the date upon which the resolution fixing the record date is adopted by the Board of Directors and which record date shall not be more than 60 nor less than 10 days before the date of such meeting. If the Board of Directors so fixes a date, such date shall also be the record date for determining the stockholders entitled to vote at such meeting unless the Board of Directors determines, at the time it fixes such record date, that a later date on or before the date of the meeting shall be the date for making such determination. If no record date is fixed by the Board of Directors, the record date for determining stockholders entitled to notice of and to vote at a meeting of stockholders shall be at the close of business on the day next preceding the day on which notice is given, or, if notice is waived, at the close of business on the day next preceding the day on which the meeting is held, and, for determining stockholders entitled to receive payment of any dividend or other distribution or allotment of rights or to exercise any rights of change, conversion or exchange of stock or for any other purpose, the record date shall be at the close of business on the day on which the Board of Directors adopts a resolution relating thereto. A determination of stockholders of record entitled to notice of or to vote at a meeting of stockholders shall apply to any adjournment of the meeting; provided, however, that the Board of Directors may fix a new record date for determining the stockholders entitled to vote at the adjourned meeting, and in such case shall also fix as the record date for stockholders entitled to notice of such adjourned meeting the same or an earlier date as that fixed for determining the stockholders entitled to vote at such adjourned meeting in accordance with the foregoing provisions of this Section 6.09 at the adjourned meeting.

In order that the Corporation may determine the stockholders entitled to receive payment of any dividend or other distribution or allotment of any rights or the stockholders entitled to exercise any rights in respect of any change, conversion or exchange of stock, or for the purpose of any other lawful action (other than stockholder action by written consent), the Board of Directors may fix a record date, which record date shall not precede the date upon which the resolution fixing the record date is adopted, and which record date shall not be more than 60 days prior to such action. If no record date is fixed, the record date for determining stockholders for any such purpose shall be at the close of business on the day on which the Board of Directors adopts the resolution relating thereto.

**ARTICLE VII**

Any repeal or modification of this Article by the stockholders of the Corporation shall not adversely affect any right or protection of a director of the Corporation existing at the time of such repeal or modification.
