## Guangqi Honda to Build a Third Automobile Production Line

In Beijing, on April 23, 2012, Guangqi Honda Automobile Co., Ltd. (GHAC), an automobile production and sales joint venture of Honda in China, today announced plans to build a third production line within the property of the existing ZengCheng Plant.

The construction of the third line will begin at the end of this year, and the line will become operational in 2014 with an initial annual production capacity of 120,000 units. GHAC is planning to further expand the capacity up to 240,000 units in the future. GHAC is also planning to build a new engine plant in time for the start of production on the third line. The total investment for the third line (with capacity expandable up to 240,000 units) and the new engine plant is expected to be approximately 3.56 billion R.M.B. (approximately 46 billion yen*).

When the third line becomes operational in 2014, GHAC s overall annual automobile production capacity will be increased from the current 480,000 units to 600,000 units. In the meantime, Dongfeng Honda Automobile Co., Ltd., another Honda automobile production and sales joint venture in China, is scheduled to begin production at its newly built second plant in July of this year, increasing the company s annual production capacity to 360,000 units by 2013 . With these capacity expansion measures, Honda s overall annual automobile production capacity in China will increase from the current 770,000 units to 1.01 million units in 2014.

* calculated with an exchange rate of 1 R.M.B. $=12.92$ yen

## HONDA MOTOR CO., LTD. REPORTS

## CONSOLIDATED FINANCIAL RESULTS

## FOR THE FISCAL FOURTH QUARTER AND

## THE FISCAL YEAR ENDED MARCH 31, 2012

Tokyo, April 27, 2012 Honda Motor Co., Ltd. today announced its consolidated financial results for the fiscal fourth quarter and the fiscal year ended March 31, 2012.

## Fourth Ouarter Results

Honda s consolidated net income attributable to Honda Motor Co., Ltd. for the fiscal fourth quarter ended March 31, 2012 totaled JPY 71.5 billion (USD 871 million), an increase of $60.7 \%$ from the same period last year. Basic net income attributable to Honda Motor Co., Ltd. per common share for the quarter amounted to JPY 39.72 (USD 0.48 ), an increase of JPY 15.00 (USD 0.18 ) from JPY 24.72 for the corresponding period last year. One Honda American Depository Share represents one common share.

Consolidated net sales and other operating revenue (herein referred to as revenue ) for the quarter amounted to JPY 2,405.0 billion (USD 29,262 million), an increase of $8.7 \%$ from the same period last year, due primarily to increased revenue in motorcycle and automobile business operation, despite the unfavorable foreign currency translation effects.

Consolidated operating income for the quarter amounted to JPY 111.9 billion (USD 1,362 million), an increase of $142.3 \%$ from the same period last year, due primarily to an increase in sales volume and model mix, and decreased SG\&A expenses, despite increased R\&D expenses and the unfavorable foreign currency effect.

Consolidated income before income taxes and equity in income of affiliates for the quarter totaled JPY 93.0 billion (USD 1,132 million), an increase of $21.5 \%$ from the same period last year.

Equity in income of affiliates amounted to JPY 33.2 billion (USD 405 million) for the quarter, an increase of $33.1 \%$ from the corresponding period last year.

## Table of Contents

## Business Segment

With respect to Honda s sales for the fiscal fourth quarter by business segment, motorcycle unit sales totaled 3,456 thousand units, an increase of $17.8 \%$ from the same period last year* due mainly to increased unit sales in Asia and other regions including South America. Revenue from sales to external customers increased $1.5 \%$, to JPY 358.5 billion (USD 4,362 million), from the same period last year, due mainly to increased unit sales, despite unfavorable foreign currency translation effects. Operating income totaled JPY 32.8 billion (USD 400 million), a decrease of $31.7 \%$ from the same period last year, due primarily to the adverse impact of a one-time gain related to licensing agreements in the same period last year, increased SG\&A expenses and unfavorable foreign currency effects, despite an increase in sales volume and model mix.

* Of the net sales of Honda-brand motorcycle products that are manufactured and sold by overseas affiliates accounted for under the equity method, those with respect to which parts for manufacturing were not supplied from Honda or its subsidiaries are not included in net sales and other operating revenue, in conformity with U.S. generally accepted accounting principles. Accordingly, these unit sales are not included in the financial results. Sales of such products amounted to approximately 810 thousand units for the period.
Honda s automobile unit sales totaled 988 thousand units**, an increase of $14.9 \%$ from the same period last year due to increased unit sales in North America and Japan, despite decreased unit sales in Asia primarily caused by the impact of the Thailand flood. Revenue from sales to external customers increased $12.1 \%$, to JPY $1,844.9$ billion (USD 22,447 million), from the same period last year due mainly to an increase in unit sales, despite unfavorable currency translation effects. Operating income totaled JPY 45.1 billion (USD 549 million), an increase of JPY 84.3 billion (USD 1,026 million) from the same period last year, due primarily to an increase in sales volume and model mix and decreased SG\&A expenses despite increased R\&D expenses and unfavorable foreign currency effects.
** Certain sales of automobiles that are financed with residual value type auto loans by our domestic finance subsidiaries are accounted for as operating leases in conformity with U.S. generally accepted accounting principles. As a result, they are not included in total sales of our automobile segment or in our measure of unit sales.

## Table of Contents

Revenue from customers in the financial services business decreased 4.1\%, to JPY 129.0 billion (USD 1,570 million) from the same period last year due mainly to the unfavorable foreign currency translation effects. Operating income decreased $9.2 \%$ to JPY 35.9 billion (USD 438 million) from the same period last year due mainly to the increased allowance for losses on credit and the unfavorable foreign currency effects.

Honda s power product unit sales totaled 2,010 thousand units, an increase of $15.1 \%$ from the same period last year mainly due to increased unit sales in North America and Asia. Revenue from sales to external customers in power product and other businesses decreased 9.4\%, to JPY 72.5 billion (USD 883 million), from the same period last year, due mainly to decreased revenue in other businesses and the unfavorable currency translation effects, despite increased unit sales in power products. Honda reported an operating loss of JPY 2.0 billion (USD 25 million), an improvement of JPY 0.3 billion (USD 4 million), from the same period last year due mainly to an increase in sales volume and model mix, despite increased SG\&A expenses.

| Explanatory notes: |  |

Honda uses principally the declining-balance method for calculating the depreciation of property, plant and equipment, and plans to change it to the straight-line method from the fiscal year ended March 31, 2013. We believe that the straight-line method better reflects the future usage of property plant and equipment. The effect of the change in depreciation method is recognized prospectively as a change in accounting estimate. The change in depreciation method is anticipated to cause a decrease in depreciation expense by approximately JPY 40.0 billion. The impact is included in Cost reduction, the effect of raw material cost fluctuations, SG\&A expenses excluding currency effect, and R\&D expenses.

## Profit Redistribution Policy and Dividend per Share of Common Stock for fiscal years 2012 and 2013

The Company strives to carry out its operations worldwide from a global perspective and to increase its corporate value. With respect to the redistribution of profits to our shareholders, which we consider to be one of the most important management issues, the Company s basic policy for dividends is to make distributions after taking into account its long-term consolidated earnings performance.

The Company will also acquire its own shares at the optimal timing with the goal of improving efficiency of the Company s capital structure and implementing a flexible capital policy. The present goal is to maintain a shareholders return ratio (i.e. the ratio of the total of the dividend payment and the repurchase of the Company s own shares to consolidated net income attributable to Honda Motor Co., Ltd.) of approximately $30 \%$. Retained earnings will be allocated toward financing R\&D activities that are essential for the future growth of the Company and capital expenditures and investment programs that will expand its operations for the purpose of improving business results and strengthening the Company s financial condition.

The Company plans to distribute year-end cash dividends of JPY 15 per share for the year ended March 31, 2012. As a result, total cash dividends for the year ended March 31, 2012, together with the first quarter cash dividends of JPY 15, the second quarter cash dividends of JPY 15 and the third quarter cash dividends of JPY 15 , are planned to be JPY 60 per share, an increase of JPY 6 per share from the annual dividends paid for the year ended March 31, 2011.

Also, please note that the year-end cash dividends for the year ended March 31, 2012 is a matter to be resolved at the general meeting of shareholders.

The Company plans to distribute quarterly cash dividends of JPY 19 per share for each quarter for the year ending March 31, 2013. As a result, total cash dividends for the year ending March 31, 2013 are planned to be JPY 76 per share, an increase of JPY 16 from the annual dividends to be paid for the year ended March 31, 2012.

This announcement contains forward-looking statements as defined in Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Such statements are based on management s assumptions and beliefs taking into account information currently available to it. Therefore, please be advised that Honda s actual results could differ materially from those described in these forward-looking statements as a result of numerous factors, including general economic conditions in Honda s principal markets and foreign exchange rates between the Japanese yen and the U.S. dollar, the Euro and other major currencies, as well as other factors detailed from time to time.

## Management Policy

Honda s business activities are based on fundamental corporate philosophies known as Respect for the Individual and The Three Joys. Respect for the Individual defines Honda s relationship with its associates, business partners and society. It is based on sharing a commitment to initiative, equality and mutual trust among people. It is Honda s belief that everyone who comes into contact with Honda s activities will gain a sense of satisfaction through the experience of buying, selling or creating Honda s products and services. This philosophy is expressed as The Three Joys. With these corporate philosophies as the foundation, Honda s business is guided by the following Company Principle:

Maintaining a global viewpoint, we are dedicated to supplying products of the highest quality at a reasonable price for worldwide customer satisfaction. Honda actively works to share a sense of satisfaction with all of its customers as well as its shareholders, and to continue improving its corporate value.

## Medium- and Long-term Management Strategy and Management Target: Preparing for the Future

Honda aims to achieve global growth by further encouraging and strengthening innovation and creativity and creating quality products that please the customers and exceed their expectations.

Last year Honda suffered the effects of two large-scale disasters, the Great East Japan Earthquake and the Thai floods, but Honda will focus all its energies on the tasks set out below, aiming to get back on a growth trajectory as it pursues the vision toward 2020 of providing good products to customers with speed, affordability, and low $\mathrm{CO}_{2}$ emissions.

## 1. Research and Development

In connection with its efforts to develop the most effective safety and environmental technologies, Honda will continue to be innovative in advanced technology and products. Honda aims to create and introduce new value-added products to quickly respond to specific needs in various markets around the world. Honda will also continue its efforts to conduct research on experimental technologies for the future.

## 2. Production Efficiency

Honda will establish and enhance efficient and flexible production systems at its global production bases and supply high quality products, with the aim of meeting the needs of its customers in each region. Learning from the experience of disasters such as the Great East Japan Earthquake and the Thai floods, Honda will work at improving its global supply chain, implementing disaster prevention measures at each place of business and devising more effective business continuity plans (BCPs).

## 3. Sales Efficiency

Honda will remain proactive in its efforts to expand product lines through the innovative use of IT and will show its continued commitment to different customers throughout the world by upgrading its sales and service structure.

## Table of Contents

## 4. Product Quality

In response to increasing customer demand, Honda will upgrade its quality control by enhancing the functions of and coordination among the development, purchasing, production, sales and service departments.

## 5. Safety Technologies

Honda is working to develop safety technologies that enhance accident prediction and prevention, technologies to help reduce the risk of injuries to passengers and pedestrians from car accidents, and technologies that enhance compatibility between large and small vehicles, as well as expand its lineup of products incorporating such technologies. Honda will reinforce and continue to advance its contribution to traffic safety in motorized societies in Japan and abroad. Honda also intends to remain active in a variety of traffic safety programs, including advanced driving and motorcycling training programs provided by local dealerships.

## 6. The Environment

Honda will step up its efforts to create better, cleaner and more fuel-efficient engine technologies and to further improve recyclables throughout its product lines. Honda has now set a target to reduce $\mathrm{CO}_{2}$ emissions from its global products by 30 percent by the end of 2020 compared to year 2000 levels. In addition to reducing $\mathrm{CO}_{2}$ emissions during production and supply chain, Honda will strengthen its efforts to realize reductions in $\mathrm{CO}_{2}$ emissions through its entire corporate activities. Furthermore, Honda will strengthen its efforts in advancing technologies in the area of total energy management, to reduce $\mathrm{CO}_{2}$ emissions through mobility and people s everyday lives.

## 7. Continuing to Enhance Honda s Social Reputation and Communication with the Community

In addition to continuing to provide products incorporating Honda $s$ advanced safety and environmental technologies, Honda will continue striving to enhance its social reputation by, among other things, strengthening its corporate governance, compliance, and risk management as well as participating in community activities and making philanthropic contributions.

Through these company-wide activities, Honda will strive to be a company that its shareholders, investors, customers and society want to exist.

6. United States dollar amounts have been translated from yen solely for the convenience of the reader at the rate of $¥ 82.19=$ U.S. $\$ 1$, the mean of the telegraphic transfer selling exchange rate and the telegraphic transfer buying exchange rate prevailing on the Tokyo foreign exchange market on March 31, 2012.
7. Honda s common stock-to-ADS exchange ratio is one share of common stock to one ADS.
8. Inventories are stated at the lower of cost, determined principally by the first-in, first-out method, or market.
9. Honda classifies its debt and equity securities in the following categories: available-for-sale, trading, or held-to-maturity. Debt securities that are classified as held-to-maturity securities are reported at amortized cost. Debt and equity securities classified as trading securities are reported at fair value, with unrealized gains and losses included in earnings. Other marketable debt and equity securities are classified as available-for-sale securities and are reported at fair value, with unrealized gains or losses, net of deferred taxes included in accumulated other comprehensive income (loss) in the stockholders equity section of the consolidated balance sheets.
10. Goodwill, all of which is allocated to Honda s reporting units, is not amortized but instead is tested for impairment at least annually.
11. Depreciation of property, plant and equipment is calculated principally by the declining-balance method based on estimated useful lives and salvage values of the respective assets.
12. Honda applies hedge accounting for certain foreign currency forward contracts related to forecasted foreign currency transactions between the Company and its subsidiaries.

## Table of Contents

13. The allowance for credit losses on finance subsidiaries-receivables is maintained at an amount management deems adequate to cover estimated losses on finance receivables. The allowance is based on management s evaluation of many factors, including current economic trends, industry experience, inherent risks in the portfolio and the borrower s ability to pay.
14. The allowance for losses on lease residual values is maintained at an amount management deems adequate to cover estimated losses on the uninsured portion of the vehicles lease residual values. The allowance is also based on managements evaluation of many factors, including current economic conditions, industry experience and the finance subsidiaries historical experience with residual value losses.
15. Provisions for retirement benefits are provided based on the fair value of both projected benefit obligations and plan assets at the end of the fiscal year to cover for employees retirement benefits. The Company recognizes its overfunded or underfunded status for the defined benefit postretirement plan as an asset or liability in its consolidated balance sheets and recognizes changes in the funded status in accumulated comprehensive income (loss), net of taxes. Prior service cost (benefit) is amortized by using the straight-line method and the estimated average remaining service years of employees. Actuarial loss is amortized if unrecognized net gain or loss exceeds ten percent of the greater of the projected benefit obligation or the market-related value of plan assets by using the straight-line method and the estimated average remaining service years of employees.
16. Estimated warranty expenses are provided based on historical warranty claim experience with consideration given to the expected level of future warranty costs as well as current information on repair costs. Included in warranty expenses accruals are costs for general warranties on vehicles Honda sells and product recalls.
