INFORMATION STATEMENT
PURSUANT TO SECTION 14(F) OF
THE SECURITIES EXCHANGE ACT OF 1934
AND RULE 14F-1 THEREUNDER

NO VOTE OR OTHER ACTION OF SECURITY HOLDERS IS REQUIRED IN CONNECTION WITH THIS INFORMATION STATEMENT

This Information Statement is being mailed on or about May 29, 2012, to holders of common stock, par value \$0.10 per share (Common Stock), of Charming Shoppes, Inc., a Pennsylvania corporation (the Company, Charming, we, us or our). You are receiving this Information Statement in connection with the possible election of persons designated by Ascena Retail Group, Inc., a Delaware corporation (Parent), to at least a majority of the seats on the Board of Directors of the Company (the Board or the Board of Directors).

On May 2, 2012, the Company, Parent and Colombia Acquisition Corp., a Pennsylvania corporation and a direct wholly owned subsidiary of Parent (Merger Sub or the Offeror), entered into an Agreement and Plan of Merger (the Merger Agreement). Pursuant to the Merger Agreement, Merger Sub is required to commence a tender offer to purchase all outstanding Common Stock (the shares of Common Stock are referred to herein as Shares) at a price of \$7.35 per Share (such amount, the Offer Price), net to the selling shareholder in cash, without interest and subject to any required withholding taxes, upon the terms and subject to the conditions set forth in the Offer to Purchase dated May 15, 2012 (the Offer to Purchase) and the related Letter of Transmittal (which, together with any amendments or supplements, collectively, constitute the Offer). The Offer is described in a Tender Offer Statement on Schedule TO (together with any exhibits thereto, the Schedule TO) originally filed by Parent and Merger Sub with the Securities and Exchange Commission (the SEC) on May 15, 2012, as amended and supplemented through the date hereof. Copies of the Offer to Purchase and related Letter of Transmittal are filed as Exhibits (a)(1)(A) and (a)(1)(B) to the Schedule TO, respectively, and are incorporated herein by reference.

The Merger Agreement provides, among other things, that as soon as possible after consummation of the Offer, Merger Sub will merge with and into the Company (the Merger), with the Company continuing as the surviving corporation and a wholly owned subsidiary of Parent. At the effective time of the Merger, each outstanding Share (other than Shares owned (i) by Parent, Offeror, the Company (as treasury stock or otherwise) or any of their respective direct or indirect wholly owned subsidiaries or (ii) by any shareholder of Charming who is entitled to and properly exercises appraisal rights under the Pennsylvania Business Corporation Law of 1988, as amended) will be converted into the right to receive the Offer Price. A copy of the Merger Agreement is filed as Exhibit 2.1 to the Form 8-K filed by the Company on May 3, 2012, and is incorporated herein by reference.

The Offer, the Merger and the Merger Agreement are more fully described in the Offer to Purchase and the Solicitation/Recommendation Statement on Schedule 14d-9 (the Schedule 14d-9), which was originally filed by the Company with the SEC on May 15, 2012, and which was mailed to shareholders of the Company on May 15, 2012.

This Information Statement is being mailed to you in accordance with Section 14(f) of the Securities Exchange Act of 1934, as amended (the Exchange Act), and Rule 14f-1 promulgated thereunder. The information set forth herein supplements certain information set forth in the Schedule 14d-9. Please read this Information Statement carefully. **You are not, however, required to take any action in connection with the matters set forth in this Information Statement.**

Pursuant to the Merger Agreement, the Offeror commenced the Offer on May 15, 2012. The Offer is currently scheduled to expire at 12:00 midnight, New York City time, on June 12, 2012 (which is the end of the day on June 12, 2012), unless extended.

The information contained in this Information Statement concerning Parent, Offeror and their director designees has been furnished to the Company by Parent and the Company assumes no responsibility for the accuracy of any such information.

GENERAL INFORMATION

All Shares are entitled to vote together as a single class at a meeting of the shareholders of the Company. The Company has not issued any shares of preferred stock, par value \$1.00 per share (Preferred Stock). The following table sets forth per class, the number of authorized shares and the number of shares outstanding as of the close of business on May 18, 2012.

Class of Security	Authorized Shares	Shares Outstanding
Common Stock	300,000,000	116,879,051
Preferred Stock	100,000,000	0

DIRECTORS DESIGNATED BY PARENT OR MERGER SUB**Right to Designate Directors**

The Merger Agreement provides that effective upon acceptance for payment of any Shares pursuant to the Offer, and subject to applicable law, Parent will be entitled to designate such number of members of the Board, rounded up to the next whole number, as is equal to the product of (i) the total number of Directors on the Board (after giving effect to the election of any additional Directors pursuant to the Merger Agreement) and (ii) the percentage that the number of Shares beneficially owned by Parent and/or Merger Sub at such time (including Shares so accepted for payment) bears to the total number of Shares outstanding. The Company will also, subject to applicable law, cause individuals designated by Parent to constitute at least the same percentage (rounded up to the next whole number) as is on the Board of (i) each committee of the Board requested by Parent and (ii) each board of directors of each subsidiary of the Company (and each committee thereof) as reasonably requested by Parent.

Following the election or appointment of Parent's designees and until the Merger is consummated, the approval of a majority of the independent members of the Board (or the approval of the sole independent Director if there is only one independent Director) will be required to authorize any amendment or termination of the Merger Agreement by the Company, any extension by the Company of the time for the performance of any of the obligations or other actions of Parent or Merger Sub or any waiver of compliance with any agreement or condition to the Company's obligations thereunder or of the Company's rights thereunder.

Parent's Designees

Parent has informed the Company that promptly following its payment for Shares pursuant to the Offer, Parent will exercise its rights under the Merger Agreement to obtain representation on, and control of, the Board by requesting that the Company provide it with the maximum representation on the Board to which it is entitled under the Merger Agreement. Parent has informed the Company that it will choose its designees to the Board from among the persons identified below. Before moving to Ahold USA, Ms. Price was the Chief Accounting Officer, Controller, and a Senior Vice President of CVS Caremark Corporation, an integrated pharmacy services provider, where she worked from 2006 until 2008. As Chief Accounting Officer and Controller, Ms. Price oversaw controls, accounting and financial reporting, assisted with strategic planning, and played a key role in the merger and integration of CVS and Caremark. From 2002 until 2005 Ms. Price held various positions at JP Morgan Chase & Company. Ms. Price has also held positions at other financial institutions and businesses including Prudential Financial, Inc., Kraft Foods, Inc., Sears, Roebuck & Company, and Arthur Andersen LLP. Ms. Price received her B.S. in accounting from DePaul University and her MBA in finance and strategy from the University of Chicago Booth School of Business. Ms. Price is a Certified Public Accountant. She currently serves as an overseer for the Museum of Fine Arts Boston and previously served on the board of trustees of the Metropolitan College of New York. Ms. Price serves on our Audit Committee. In considering Ms. Price for Director of the Company, the Board took into account her extensive executive and management experience, as well as her extensive background in finance, both as an audit manager and also as a finance executive with both private and public companies.

ANTHONY M. ROMANO

Director Since March 2011

Mr. Romano, 49, has served as the Company's President and Chief Executive Officer and as a Director since March 23, 2011. Before his appointment to this position in March 2011, Mr. Romano served as our Chief Operating Officer and was responsible for our operations following the resignation of our former Chief Executive

Officer in October 2010. He also served as Executive Vice President – Global Sourcing and Business Transformation from February 2009, when he joined the Company, until October 2010. Prior to joining the Company in February 2009, he served as executive vice president and chief supply chain officer for women's clothing retailer Ann Inc., formerly Ann Taylor, Inc. (Ann Taylor), from May 2005 through July 2008; as executive vice president, corporate operations for Ann Inc. from March 2004 through May 2005; and as senior vice president global logistics for Ann Taylor from June 1997 through March 2004. Mr. Romano had previously spent eight years at the Company in a variety of operational and financial roles before joining Ann Taylor in 1997. He started his career as a certified public accountant with the predecessor firm to Ernst & Young, and is a summa cum laude graduate of Syracuse University where he was a four year football letterman and an Academic All-American. In considering Mr. Romano for Director of the Company, the Board took into account his credentials and past working experience with the Company and other retailers as well as his current position as President and Chief Executive Officer with the Company.

ALAN ROSSKAMM

Director Since 1992

Mr. Rosskamm, 62, has served as the Chief Executive Officer of Breakthrough Charter Schools since November 1, 2009. Breakthrough Charter Schools is a non-profit charter management organization created to support the operation of six high performing public charter schools in Cleveland, Ohio. He served as our Interim Chief Executive Officer from July 10, 2008 until April 2, 2009 and as our Chairman of the Board from June 26, 2008 until June 24, 2010. Mr. Rosskamm was the Chief Executive Officer of Jo-Ann Stores, Inc. (Jo-Ann), from October 1985 until August 2006, Chairman of its board of directors from July 1992 until August 2006 and a director from 1985 until March 2011. Under his leadership, Jo-Ann became the nation's leading retailer of fabrics and sewing supplies and one of the nation's largest retailers of craft and floral products, operating approximately 800 stores in 47 states. Since 2007, Mr. Rosskamm has been a director of PetSense, Inc., a start-up retailer with 55 pet stores serving smaller U.S. markets. Mr. Rosskamm serves on our Corporate Governance and Nominating Committee and Compensation Committee. In considering Mr. Rosskamm for Director of the Company, the Board took into account his executive experience and governance leadership roles on other boards, as well as his extensive background in retail.

Copies of the Policy, Principles, and Charters are also available, at no charge, upon written request to Charming Shoppes, Inc., Attn. Director of Investor Relations, 3750 State Road, Bensalem, PA, 19020.

Our Board of Directors has sole authority for making any amendments to, or granting waivers from, any provision of the Policy that affects our executive officers or Directors, including our Chief Executive Officer, Chief Financial Officer and Principal Accounting Officer. We intend to satisfy the disclosure requirement under Item 5.05 of Form 8-K regarding any such amendment or waiver by disclosing the nature of such amendment or waiver in a report on Form 8-K within four business days.

Director Independence

The Board of Directors currently consists of 10 Directors. The Board of Directors has determined that each of the Directors except for Mr. Blitzer, who is performing consulting services for the Company, and Mr. Romano, our President and Chief Executive Officer, has no relationship which, in the opinion of the Board of Directors, would interfere with the exercise of independent judgment in carrying out the responsibilities of a Director, and that each Director, other than Mr. Blitzer and Mr. Romano, meets the objective requirements for independence under the NASDAQ Marketplace Rules and the Chicago Stock Exchange Rules. Therefore, the Board of Directors has determined that each of Mr. Ajdler, Mr. Appel, Mr. Bennet, Mr. Goldstein, Ms. Hudson, Mr. Klatsky, Ms. Price and Mr. Rosskamm is independent under the NASDAQ Marketplace Rules and the applicable Chicago Stock Exchange Rules, as well as the standards set forth in our Principles of Corporate Governance.

The Board of Directors has determined that the current members of the Audit Committee and Compensation Committee are independent under the independence standards discussed above.

Board of Directors; Committees

On May 5, 2008, the Board of Directors amended the Company's By-laws to separate the duties of Chairman of the Board and Chief Executive Officer and to require that the Chairman of the Board be independent. We separated the positions of Chairman of the Board and Chief Executive Officer because the Board determined at that time based on the structure and make-up of the Board that this enhances the independence of the Board, increases the effectiveness of the Board's oversight of management (as the Chairman is not himself a member of management), deters conflicts of interest and conflicts of function that may arise when the Chief Executive Officer is also the Chairman, and permits our Chief Executive Officer to devote a greater amount of time and concentration to the management and development of the Company and our businesses. The Board serves a vital role in the oversight of management and we believe that the Board is most effective in this role when led by an independent Chairman. Mr. Goldstein currently serves as the Non-Executive Chairman of our Board of Directors.

During fiscal 2011, our Board of Directors held sixteen (16) meetings either in person or by telephone conference. Each member of the Board of Directors attended at least 75% of the total number of meetings of the Board of Directors and all committees on which he or she served. From time to time, the Board of Directors and Board Committees act by unanimous written consent.

Our Board of Directors has the following standing committees: Audit Committee, Compensation Committee, and Corporate Governance and Nominating Committee. The charters of these Committees have been approved by our Board of Directors and are available on our corporate website (www.charmingshoppes.com). We will disclose any amendments to our committee charters on our website. Following the resignation of our former Chief Executive Officer on October 13, 2010, the Board appointed a CEO Search Committee to lead the search for a new Chief Executive Officer. On April 27, 2011, our Board of Directors dissolved the CEO Search Committee. On January 19, 2011, the Board appointed a special committee for the consideration and exploration of certain strategic options. This committee was dissolved on November 30, 2011. On June 16, 2011, the Board appointed an IT Committee for the purpose of reviewing with management the approach, costs, timing and business case relating to the IT and Supply Chain transformation initiatives.

Each of our current Directors serve on at least one standing or ad hoc committee, with the exception of Mr. Romano. Although Mr. Blitzer serves on our IT Committee, he does not receive compensation for his

services related to the committee. The following table presents information regarding the membership of our standing Board Committees as of the date of this Information Statement:

Audit Committee

The Charter of the Audit Committee is reviewed annually by the Board of Directors and was most recently amended by our Board in fiscal 2010. Under the Charter, the Audit Committee must be composed of at least three independent Directors. The Audit Committee's primary responsibility is to assist the Board of Directors in fulfilling its oversight responsibilities to our shareholders and other constituencies. In furtherance of those oversight responsibilities, the Audit Committee's primary duties are to (1) serve as an independent and objective party to monitor the quality, reliability and integrity of our accounting and financial reporting processes, including our internal control over financial reporting; (2) monitor our compliance with ethics policies and legal and regulatory requirements; (3) review and evaluate the qualifications, independence and performance of our independent auditors and internal auditors; (4) be directly responsible for the appointment, retention and compensation of the independent auditors, including pre-approving all audit and permissible non-audit services; (5) provide an open avenue of communication among and individually with the independent auditors, internal auditors, members of management and the Board of Directors and take appropriate actions resulting from these interactions; (6) review the scope of the audits to be conducted by the independent auditors and internal auditors and meet to discuss the results of their respective audits; (7) review with management, the independent auditors and our internal auditors the selection and disclosure of critical accounting policies and practices, significant financial reporting issues and judgments and estimates made in connection with the preparation of the financial statements and changes in accounting policies and practices and the effect on the financial statements; (8) review with management and the independent auditors our audited annual and unaudited quarterly financial statements before filing them with the SEC; and (9) review with management, the internal auditors and independent auditors, management's assessment of internal control over financial reporting and the independent auditors' evaluation of the effectiveness of our internal control over financial reporting.

The Audit Committee is responsible for oversight of Company risks relating to accounting matters, financial reporting and legal and regulatory compliance. To satisfy these oversight responsibilities, the Committee separately meets regularly with the Company's Chief Accounting Officer, Director of Internal Audit (also known as Business Assurance and Advisory Services), General Counsel, our external auditors and management. The Committee chair regularly interacts with the director of Business Assurance and Advisory Services. The Committee also receives regular reports regarding issues such as the status and findings of audits being conducted by the internal and independent auditors, the status of material litigation, accounting changes that could affect the Company's financial statements and proposed audit adjustments.

Mr. Rosskamm, who was appointed to the Audit Committee in June 2010, resigned on April 15, 2011 after determining that, because as interim Chief Executive Officer he had certified the Company's financial statements, he did not satisfy the requirements for service on the Audit Committee set forth in NASDAQ Listing Rule 5605(c)(2) and Chicago Stock Exchange Rule 19(b). The Board of Directors has determined that the current members of the Audit Committee are independent under the independence standards discussed above, and meet the additional standards of independence applicable under the Sarbanes-Oxley Act of 2002 and related rules of the SEC, the NASDAQ Marketplace Rules, the NASDAQ listing requirements, and the applicable Chicago Stock Exchange Rules and Chicago Stock Exchange listing requirements.

The Board of Directors has determined that Ms. Hudson, an independent Director who is currently the chairman of the Audit Committee, qualifies as an audit committee financial expert in accordance with the definition of audit committee financial expert set forth in Item 407(d)(5)(ii) of Regulation S-K, adopted by the SEC.

Compensation Committee

The Charter of the Compensation Committee is reviewed annually by the Board of Directors and was most recently amended by our Board in fiscal 2011. Under the Charter, the Compensation Committee must be composed of at least three independent Directors. The Compensation Committee is responsible for overseeing our compensation strategy and for the oversight and administration of our compensation programs, including our stock incentive plans. The Compensation Committee reviews and approves performance targets, eligibility, participation and award levels for incentive compensation plans; approves and reports to the Board of Directors on the administration of compensation plans and the compensation of executives; approves and makes recommendations to the independent members of the Board of Directors regarding the compensation of the Chief Executive Officer; and selects participants and determines when options and other stock-based awards should be granted, the number of shares to be subject to each option or award, and other terms of the option or award.

In addition, the Compensation Committee monitors aggregate share usage under our stock incentive plans and potential dilution resulting from the granting of options or awards. It also makes all other determinations involved in the administration of these stock incentive plans. The Board of Directors has determined that each member of the Compensation Committee is independent under the independence standards discussed above. In making executive compensation decisions, the Compensation Committee is advised by an independent compensation consultant. Pearl Meyer & Partners, Inc. (PM&P) served the Company in this capacity until being replaced by the appointment of Hay Group (Hay) on September 27, 2011. Hay provides the Compensation Committee with information regarding market trends and practices as they relate to matters for which the Committee is responsible. Hay conducts analyses and provides information to support the Compensation Committee's decision-making with regard to specific matters as they arise. Hay also performs services for the Compensation Committee on executive compensation matters at the direction of the Compensation Committee and also provides salary and personnel surveys for the Company. Similarly, when PM&P served as the Company's independent compensation consultant, the only services it performed for the Company were for the Compensation Committee on executive compensation matters, and all such services were provided at the direction of the Compensation Committee. The Compensation Committee is also responsible for the assessment of risks relating to employment policies and the Company's compensation and benefits programs, and works with the Board of Directors to manage such risks. In fiscal 2011, the Compensation Committee reviewed the Company's compensation plans and programs for all employees and

determined that none of the compensation plans or programs are reasonably likely to have a material adverse effect on the Company. As part of this process, PM&P presented a Compensation Programs and Risk Management Discussion to the Board on December 13, 2010 regarding our 2011 compensation plan. There are several design features of the Company's compensation plans and programs that mitigate risk-taking and encourage the creation of long-term value for shareholders, including the mix of base salary, annual incentive compensation and long-term incentive compensation, and the reasonable goals set by the Company in order for an employee to receive incentive compensation.

To assist in satisfying its oversight responsibilities, the Compensation Committee confers with Hay and meets regularly with management to understand the financial, human resources and shareholder implications of compensation decisions being made. The Compensation Committee has the right to terminate the services of the compensation consultant at any time. The Compensation Committee's Charter authorizes the Committee to delegate authority to a subcommittee, one or more members of the Compensation Committee or management. The Compensation Committee retains Hay directly, although in carrying out assignments, the Company's Executive Vice President of Human Resources, General Counsel and Chief Financial Officer and their staffs often work with Hay to provide compensation and performance data regarding the executives and the Company. In addition, Hay may, in their discretion, seek input and feedback from management regarding their consulting work product before presentation to the Compensation Committee in order to confirm information, clarify data questions or other similar issues.

The Compensation Committee often requests our Chief Financial Officer, Executive Vice President of Human Resources and General Counsel to be present at Committee meetings where executive compensation and Company and individual performance are discussed and evaluated. These executives provide insight, suggestions and recommendations regarding executive compensation (other than their own) if present during these meetings or at other times. Historically, the Compensation Committee has met with the Chief Executive Officer to discuss his or her own compensation package and recommendations for other executives. Decisions regarding compensation for the Chief Executive Officer must be approved by a majority of the independent Directors meeting in an executive session. Decisions regarding the compensation levels of the other executive officers are made solely by the Compensation Committee by votes that generally take place during the executive session portion of the Compensation Committee meetings, when members of management are not present.

Corporate Governance and Nominating Committee

The Charter of the Corporate Governance and Nominating Committee is reviewed annually by the Board of Directors and was most recently amended by our Board in fiscal 2010. Under the Charter, the Corporate Governance and Nominating Committee must be composed of at least three independent Directors. The Corporate Governance and Nominating Committee: (1) develops, reviews and recommends to the Board of Directors corporate governance policies and principles for Charming; (2) makes recommendations to the Board of Directors regarding the size and composition of the Board of Directors; (3) recommends to the Board of Directors criteria regarding the personal qualifications required for Board of Directors membership and service on Board Committees; (4) establishes procedures for the nomination process and recommends candidates for election to the Board of Directors; (5) determines and recommends to the Board of Directors appropriate compensation for Directors; (6) evaluates the performance of the Board of Directors as a whole and prepares and supervises the Board's and the various Committees' performance self-evaluations on an annual basis; (7) evaluates Board practices and recommends appropriate changes to the Board of Directors; and (8) considers various other corporate governance issues, including those raised by shareholders and other constituents, and recommends appropriate responses to the Board of Directors. The Board of Directors has determined that each member of the Corporate Governance and Nominating Committee is independent under the independence standards discussed above. As discussed below, under **Related Party Transactions**, our Board of Directors has adopted a written policy which requires that any transaction involving the Company in which one of our Directors, nominees for Director, executive officers, or greater than five percent shareholders, or their immediate family members, has a material interest be approved or ratified by the Corporate Governance and Nominating Committee if the amount involved is at least \$120,000.

CEO Search Committee

On November 1, 2010, the Board constituted a CEO Search Committee to seek a successor to James P. Fogarty, the Company's former President and Chief Executive Officer, who resigned from those positions effective October 13, 2010. During Fiscal 2011, this Committee held one meeting. Following the appointment of Mr. Romano as the Company's new President and Chief Executive Officer on March 23, 2011, the Board dissolved the CEO Search Committee on April 27, 2011.

Special Committee

On January 19, 2011, the Board constituted a special committee for the consideration and exploration of certain strategic options. During Fiscal 2011, this Committee held fifteen meetings. This committee was dissolved on November 30, 2011.

IT Committee

On June 16, 2011, the Board constituted an IT Committee for the purpose of reviewing with management the approach, costs, timing and business case relating to the IT and Supply Chain transformation initiatives. During Fiscal 2011, this Committee held two meetings.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

SEC rules require our Directors, executive officers and holders of more than 10% of our outstanding Common Stock to file Forms 3, 4 and 5 reports disclosing information concerning their transactions in and beneficial ownership of our Common Stock. Based solely on a review of filed reports and the written representations of our Directors and executive officers that no other reports were required, we believe that all Section 16(a) filing requirements have been met during fiscal 2011.

PRINCIPAL SHAREHOLDERS AND MANAGEMENT OWNERSHIP

The following table shows the beneficial ownership of our Common Stock by (1) each person or group we know to be a beneficial owner of more than five percent of our outstanding Common Stock; (2) each Director and nominee for Director; (3) each named executive officer for fiscal 2011; and (4) all of our Directors and executive officers as a group. The number of shares beneficially owned is as of April 24, 2012, unless otherwise indicated, and all percentages are calculated based on the shares outstanding as of April 24, 2012. Unless otherwise indicated in the footnotes, each named person had sole voting and dispositive power over the shares shown as beneficially owned by that person, and the address for each named person is c/o Charming Shoppes, Inc., 3750 State Road, Bensalem, Pennsylvania 19020.

COMPENSATION DISCUSSION AND ANALYSIS

Introduction

The Committee administers our compensation programs. Working with management and its own independent compensation consultant, the Committee has developed a compensation and benefits strategy designed to reward the performance, behaviors and culture that we believe will drive long-term success. For a discussion of the Committee's roles, responsibilities and a discussion of the role of our executive officers in setting compensation, see **Corporate Governance Compensation Committee**.

As used in this Information Statement the terms *fiscal 2011*, *fiscal 2010* and *fiscal 2009* refer to our fiscal years ended January 28, 2012, January 29, 2011, and January 30, 2010, respectively. The term *fiscal 2012* refers to our fiscal year which is scheduled to end on February 2, 2013.

For fiscal 2011, our named executive officers were:

Anthony M. Romano President and Chief Executive Officer and a Director;

Eric M. Specter Executive Vice President and Chief Financial Officer;

MaryEllen MacDowell President Fashion Bug;

Carol L. Williams President Catherines; and

Brian P. Woolf Group President Lane Bryant.

Executive Summary

The compensation of our named executive officers for fiscal 2011 must be understood in the broader context of the specific factors then impacting the Company and its business, including the specialty retail apparel sector generally and overall economic conditions. Fiscal 2011 was another challenging year for the Company; however, through its execution of its merchandise strategy and disciplined inventory management, the Company experienced improved financial results as compared to prior years. During fiscal 2011 the Company operated in a

- 18 -

business turnaround mode in order to improve its financial performance. As part of the Company's turnaround initiatives, and in light of executive changes in fiscal 2011 and other economic factors impacting the Company, we structured our fiscal 2011 compensation program in order to attract and retain talented executives who were invested in the success of the Company and to provide strong incentives to our executives to improve the Company's financial results. The following provides an overview of our compensation program for fiscal 2011, which provide context for the Compensation Discussion and Analysis that follows:

Executive Changes

On March 23, 2011, the Company promoted Anthony M. Romano as our President and Chief Executive Officer and a Director. Mr. Romano had been our Executive Vice President - Chief Operating Officer, and had assumed responsibility for our Company's operations since the resignation of our previous Chief Executive Officer.

On March 23, 2011, the Company promoted Brian Woolf, our former President - Lane Bryant, to the newly-created position of Group President - Lane Bryant, with responsibility for the Lane Bryant, Lane Bryant Outlet and Cacique intimate apparel brands.

Pay-for-Performance

While retention of seasoned executives is important for the Company's continued success, the Company believes that a meaningful portion of each executive's compensation must be at risk in order to invest our executives in the long-term success of the Company.

Our annual incentive program rewards our executive officers to the extent that annual operating performance exceeds goals set by the Committee at the beginning of the year. Our annual incentive program not only covers our named executive officers, but approximately 539 other key employee participants were covered in fiscal 2011.

No base salary increases were granted to the named executive officers in fiscal 2011 (other than to Mr. Romano in conjunction with his appointment as President and Chief Executive Officer).

Bonuses were paid under our fiscal 2011 annual incentive program to each of our named executive officers. Additionally, the Company granted discretionary bonuses to: Anthony M. Romano, \$150,000, MaryEllen MacDowell, \$100,000 and Brian P. Woolf, \$100,000 in fiscal 2011, in light of their increased responsibilities.

In fiscal 2011, we granted Stock Appreciation Rights (SARs) to our named executive officers under our Long-Term Incentive Plan with a four year vesting period. These SARs serve two purposes. The first is to retain our seasoned executives by using a multi-year vesting period. The second is to drive performance because an executive will only profit on the grant if our stock performance increases and therefore, shareholder value increases. To further emphasize these points, SARs constituted 100% of the Company's long-term incentive awards granted to our named executive officers in fiscal 2011.

Balancing of Risk and Retention of Executive Officers

Our compensation program is designed to drive company-wide performance to achieve financial goals and create shareholder value without encouraging inappropriate or excessive risk-taking. We also recognize that we need talented executives to ensure the long-term success of the Company. The following illustrates these points:

Base salary, the guaranteed portion of our compensation program, constituted approximately 50% of our named executive officers' target total pay opportunity in fiscal 2011.

Edgar Filing: CHARMING SHOPPES INC - Form SC 14F1

The Board of Directors has adopted a recoupment policy which permits the Company to cancel or clawback annual incentive compensation if the basis upon which it was paid or awarded is later shown to be materially inaccurate.

- 19 -

The Company encourages a long-term commitment to its shareholders through stock ownership requirements for all members of the senior management team. Combinations of cash and equity compensation have been critical factors in attracting and retaining key employees and are intended to contribute to a high level of employee commitment to our business success.

Target total direct compensation (i.e., base salary, target annual incentives and grant value of long-term incentives) is generally set to fall at the median of the competitive market for target performance. For fiscal 2011, target total direct compensation of our executive officers fell 5% below the median of the competitive market, on average.

Minimization of Problematic Pay Practices

The Company provides minimal perquisites to its executive officers. The perquisites that the Company provides are: (1) a modest annual car allowance; and (2) a modest annual flexible perquisite allowance for our Chief Executive Officer, Executive Vice Presidents and brand Presidents. This allowance may only be used for specifically identified purposes, such as reimbursement for certain medical services and reimbursement for the costs of financial planning services.

In 2008 and 2009, the Company amended its executive severance agreements with its named executive officers and other senior officers of the Company. See ***Severance and Change in Control Benefits***. Among other things, the amended agreements:

reduced the amount of severance that executives would receive in the event of a termination. Our severance agreements do not provide for excessive severance payments. As of the end of fiscal 2011, upon certain qualifying terminations, our executive officers would have received 1.0 times (in the case of Mr. Romano 1.5 times) the sum of their annual base salary and their three-year average bonus, and upon certain qualifying terminations in connection with a change in control, our executive officers would have received 1.5 times (in the case of Mr. Romano 2.0 times) the sum of their annual base salary and their three-year average bonus.

eliminated the Company's obligation to make gross up payments for excise taxes in the event of change in control payments imposed on the executives under Section 4999 of the Internal Revenue Code of 1986, as amended (the Code). Additionally, our severance agreements are double-triggered in that cash severance will only be paid to an executive upon a change in control if a qualifying termination occurs within a specified amount of time of such change in control.

In fiscal 2009, our long-term incentive grants were revised to provide for a double-trigger in the event an acquiring entity assumes the award upon a change in control of the Company. Specifically, if a change in control of the Company occurs and the acquiror assumes the outstanding awards, the awards will only be accelerated if a qualifying termination occurs within a specific amount of time of such change in control. Outstanding awards not assumed by an acquiring entity become fully vested upon a change in control.

Our executive officers are prohibited from engaging in hedging transactions with respect to our Common Stock.

Cost-Saving Measures

In light of the economic factors affecting the Company in fiscal 2011, the Company continued to implement cost-saving measures with regards to its compensation program including no base salary increases for the named executive officers (other than Mr. Romano in conjunction with his appointment to President and Chief Executive Officer during fiscal 2011).

On December 22, 2011, our Board extended the suspension, which began in April 2009, of Company matching contributions to our Variable Deferred Compensation Plan through December 31, 2012. The

Board determined that it is appropriate to resume matching contributions to the 401(k) Plan for the 2012 Plan Year and subsequent plan years in the amount of \$.50 for each \$1.00 contributed that does not exceed 2% of an eligible employee's compensation, for a maximum contribution of 1% of compensation.

In 2008, our Board discontinued the Charming Shoppes, Inc. Supplemental Executive Retirement Plan (SERP). The annual cost savings of this action has been approximately \$1,000,000, and the total value of the accounts subject to participant elections was approximately \$4,100,000. All account balances under the SERP have been paid to participants.

Merger with Parent

On May 1, 2012, the Company entered into the Merger Agreement with Parent and Merger Sub, pursuant to which Merger Sub is required to commence the Offer. Following the closing of the Offer and the satisfaction of all conditions to the closing of the transactions described in the Merger Agreement, Merger Sub will be merged with and into the Company, and the Company will become a wholly owned subsidiary of Parent. If the Merger is consummated, it will constitute a change in control for all purposes under the Company's compensation program as discussed herein.

Compensation Objectives, Design and Strategy

The primary objectives of Charming's executive compensation structure are to assure that our executive compensation and benefit programs:

are effective in driving performance to achieve financial goals and create shareholder value without encouraging inappropriate or excessive risk-taking;

reflect our unique, entrepreneurial and customer-focused orientation, while taking into account the specific factors currently impacting the Company;

help us to attract and retain talented executives by providing competitive compensation opportunities as compared to other retail industry organizations and other companies that represent the market for high caliber executive talent;

are cost-efficient and fair to employees, management and shareholders; and

are well-communicated to and understood by program participants.

The Committee designed our compensation program, in consultation with the Committee's independent compensation consultant, to reflect our entrepreneurial business strategy. This means that executives with business unit responsibility, such as our brand Presidents, are measured primarily upon the results of their units. At the corporate level, entrepreneurship means that executives are measured on our overall results and on other objective goals.

Our compensation strategy is to place a major portion of an executive's compensation opportunity at risk in the form of annual and long-term incentive programs and to provide competitive compensation opportunities tied to performance. This means that the Committee assesses the relative pay opportunities vis-à-vis relative performance and that for senior executives a substantial portion of their compensation opportunity (i.e., annual and long-term incentives) should be contingent upon their meeting the performance goals set for them by the Committee.

We intend the combination of incentive compensation to balance short-term operational objectives, such as the achievement of adjusted EBITDA targets, and long-term strategic goals such as increasing shareholder value. We also seek to promote a long-term commitment to Charming. This means that while we believe compensation should have a strong link to annual financial performance and long-term value creation, we also believe there is great value to the Company in retaining a team of tenured, seasoned executives. These components of compensation are discussed more fully below.

Role of the Compensation Committee

The Committee provides overall guidance for our executive compensation policies and determines the amounts and elements of compensation for our executive officers. The Committee reviews, approves and modifies, as necessary, our compensation and benefits philosophy and our executive compensation programs and administers our short and long-term incentive plans and other stock or stock-based incentive plans. In addition, the Committee is also responsible for the assessment of risks relating to the Company's employment policies and the Company's compensation and benefits programs. The Committee's function is more fully described in its charter which is available on our website at www.charmingshoppes.com. See also **Corporate Governance Compensation Committee**.

Risk Assessment of Executive Pay

In determining the structure of the Company's executive compensation program and the appropriate levels of incentive opportunities, the Committee considers whether the program rewards reasonable risk-taking and whether the incentive opportunities achieve the proper balance between the need to reward employees and the need to improve shareholder returns. For example, the Committee believes that base salaries, the guaranteed portion of total compensation, should represent a sufficient percentage of an executive's compensation opportunity to discourage excessive or inappropriate risk-taking. In fiscal 2011, on average, base salaries of the Company's executive officers constituted approximately 50% of an executive's target total compensation opportunity (i.e., base salary, annual incentives and long-term incentives) with the Company, which the Company felt was sufficient to balance the Company's objectives of rewarding performance and incentivizing appropriate risk. Incentive award targets and opportunities are reviewed annually, allowing the Committee to maintain an appropriate balance between risk and compensation as the Company's business evolves and changes. In addition, the Company's Long-Term Incentive Plan seeks to focus executive officers on the long-term interests of the Company through awards of SARs and/or RSUs that vest over a multi-year period. Finally, the Company's stock ownership guidelines encourage executive officers to focus on long-term shareholder returns. See **Management Stock Ownership Guidelines**. The Committee believes that the combination of compensation elements in the overall program and the related Company policies provide executive officers with appropriate incentives to create long-term value for shareholders while taking thoughtful and prudent risks to grow the value of the Company.

Because our brand Presidents are primarily responsible for ensuring the profitability of our business units, their incentive compensation is tied to the achievement of brand-specific targets. Further, our brand Presidents, like our other executive officers, are incentivized to create long-term value through grants of SARs and/or RSUs that vest over multi-year periods. The Committee believes that the combination of brand-specific targets and the grants of SARs and/or RSUs provide the appropriate balance between creating long-term value and prudent risk-taking.

Policy on Recovery of Previously Paid Executive Compensation

The Company has adopted a recoupment or "clawback" policy providing in certain circumstances for the recovery or forfeiture of annual incentive awards paid or to be paid to certain executives and employees. The policy applies to the officers of the Company and its subsidiaries who hold the office of Vice President or higher and any other officer or employee of the Company or its subsidiaries who is engaged in the preparation of the financial statements of the Company or a subsidiary or the implementation of performance metrics used to calculate incentive awards. If the Committee, in its sole discretion, determines that (1) the executive's or employee's annual incentive compensation was based on financial statements that are required to be materially restated, other than on account of a change in accounting positions or regulatory requirements; (2) the executive or employee received or would receive annual incentive compensation based on materially inaccurate financial statements of the Company or a division or brand; or (3) the executive or employee received or would receive annual incentive compensation based on materially inaccurate performance metric criteria, the Committee may require forfeiture or reimbursement of part or all of the annual incentive award if the annual incentive award paid

or payable to the executive or employee exceeds the annual incentive compensation award that would have been paid or payable in the absence of error by more than 10%. If the Committee, in its sole discretion, determines that the executive or employee has committed an act of fraud, embezzlement or theft in connection with his or her employment with the Company, the Committee may require forfeiture or reimbursement of part or all of the annual incentive compensation award. Under the policy, the Company may seek to recover or recoup annual incentive awards that were paid up to two years before the date of the Committee's determination. The policy became effective on April 29, 2010 and applies to incentive awards granted under the Company's annual incentive program on or after January 31, 2010.

Compensation and Benefits Structure

This next section of this Compensation Discussion and Analysis describes each element of our compensation and benefits structure for our named executive officers, with focus on:

Pay level determination of the appropriate pay opportunity;

Pay mix determination of each element of compensation, its purpose and design, and its relationship to the overall pay program; and

Pay-for-performance determination of the performance measures and goals used in the pay programs.

Pay Level

We determine pay levels for the named executive officers based on a number of factors, including each individual's roles and responsibilities within the Company, the individual's experience and expertise, the pay levels for peers within the Company, the pay levels in the marketplace for comparable positions and the performance of the individual, his/her business unit and the Company as a whole. In determining pay levels, the Committee considers all forms of compensation and benefits to review the total opportunity delivered through all elements of pay. In fiscal 2011, this process served as a useful check on total compensation for each executive officer and relative compensation among the executive officers, but no one factor had a specific impact on the named executive officers' annual compensation. In its review of the compensation data in fiscal 2011, the Committee determined that the annual compensation amounts for our named executive officers remained consistent with the Committee's policies and expectations.

Notwithstanding the Company's overall pay positioning objectives, pay opportunities for specific individuals vary based on a number of factors. The Committee reviews competitive market information for all named executive officers each year as part of their annual review process. Actual total compensation paid to an executive in a given year will vary above or below the target compensation levels based primarily on the attainment of individual and corporate goals. In some instances the amount and structure of compensation results from negotiations with executives, which reflects the competitive market for quality managerial talent. To help attract and retain such talent, the Committee also seeks to provide a level of benefits in line with those of comparable publicly traded companies.

The Committee assesses competitive market compensation using a number of sources. A primary data source, although not the determinative factor, used in setting competitive market levels for the named executive officers is the information publicly disclosed by a peer group of 18 companies. The Committee closely analyzes the peer group data, but exercises its discretion in the weight it assigns to this data. An individual's pay is driven primarily by individual and Company performance and internal relativity rather than the peer group data. The peer group data is mostly used as a market check to ensure that individual pay remains within an appropriate range of the peer group. The ranges that the Committee uses are described throughout this Compensation Discussion and Analysis.

We revise this peer group from time to time, in consultation with our independent compensation consultant, primarily due to mergers and other changes to the companies on the list. The list of companies comprising the

current peer group follows below. Each of these peer group companies is comparable to us in that they have similar business models, have sales between approximately \$1 billion to \$5 billion, are U.S. publicly traded companies and, where possible, have both general retail and direct-to-consumer markets. This list of companies is the same group reviewed for fiscal 2010 with two exceptions: J. Crew Group, Inc. was removed from the list since it is no longer publicly traded and Express was added to the list since it is newly public.

Peer Companies used for Compensation Comparison

of Named Executive Officers

Abercrombie & Fitch Co.	Foot Locker, Inc.
Aeropostale, Inc.	Genesco Inc.
American Eagle Outfitters, Inc.	J. Crew Group, Inc. *
ANN INC. (formerly Ann Taylor Stores Corporation)	The Men's Wearhouse, Inc.
Chico's FAS, Inc.	New York & Company, Inc.
The Children's Place Retail Stores, Inc.	Pacific Sunwear of California, Inc.
Collective Brands, Inc.	Stage Stores, Inc.
Dick's Sporting Goods, Inc.	The Talbots, Inc.
Ascena Retail Group, Inc. (formerly The Dress Barn, Inc.)	Urban Outfitters, Inc.

* subsequently replaced by Express, Inc.

The publicly available information for the peer companies is supplemented with survey data that provides position-based compensation levels across broad industry segments. Except for our Chief Executive Officer who is assessed solely on the basis of the peer group data, executives are also assessed relative to both general industry, and retail-specific surveys. In setting compensation for fiscal 2011, the Committee reviewed surveys from the Mercer Benchmark Database (retail and general industry segments), Mercer Retail Compensation and Benefits Survey (retail survey), Watson Wyatt Survey Report on Top Management Compensation (general industry survey), Salary.com Apparel & Footwear Industry Compensation Survey (retail survey) and several PM&P proprietary surveys.

The Committee does not select or have any influence over the companies that participated in these surveys. Further, the Committee only receives and considers the aggregate results of the surveys prepared. The Committee does not receive, and accordingly, does not consider the identities of the individual component companies that are included in the surveys. Rather, the Committee only considers statistical summaries of pay practices of the companies included in these databases.

The Committee intends that the total direct compensation opportunity (i.e., base salary, target annual incentives and target long-term incentives) of the executive group for the achievement of target performance should approximate the median for total direct compensation of executives performing similar functions in the competitive market. Market data used for market checks and discussed throughout this Information Statement are based on blended data of the peer group information and where available and appropriate for the position, survey data. In fiscal 2011 the target total direct compensation of the executive group fell approximately 5% below the median, primarily as a result of below market long-term incentive grants as compared to the peer group in an effort to manage overall share utilization.

Pay Mix

For fiscal 2011 our compensation program for our named executive officers consisted of the following principal elements:

Base Salary fixed pay that reflects an individual's role and responsibilities, experience, expertise, and individual performance;

Annual Incentive Bonus paid to reward attainment of annual business goals; and

Long-term Incentives paid to reward increases in shareholder value over longer terms and align the interests of executives with the interests of shareholders.

The Committee selected these elements because it believes that this compensation package, taken as a whole, will attract and retain executives, motivate them to achieve the business goals set by the Company, without taking inappropriate risk, and reward them and, in turn our shareholders, for achieving such goals. The rationale for the selection of each particular element is discussed below. In fiscal 2011, the Company's pay mix was significantly different from our peer group in that cash was a more substantial component of total compensation than equity. This difference is largely based on the conscious decision of the Committee to grant equity awards with a lower aggregate grant date value in an effort to manage overall share utilization.

In addition to the factors considered in the discussion that follows, the Committee considered the following specific factors with respect to the named executive officers in setting compensation in fiscal 2011:

Named Executive Officer	Key Factors
Anthony M. Romano	tenure with the Company
	position as Chief Operating Officer and assumption of responsibility for the Company's operations in the absence of a Chief Executive Officer beginning in October 2010; March 2011 appointed as President and Chief Executive Officer
	role of responsibility in the operations and performance of the Company and
Eric M. Specter	oversight of management tenure with the Company
	position as Chief Financial Officer and
MaryEllen MacDowell	role of responsibility and management of the Company's financial affairs position as President of Fashion Bug
	role of responsibility in the long-term success of the Company and
Carol L. Williams	significant role in generating revenues for the Company position as President of Catherines

role of responsibility in the long-term success of the Company and

significant role in generating revenues for the Company

Brian P. Woolf

position as Group President of Lane Bryant

role of responsibility in the long-term success of the Company and

significant role in generating revenues for the Company

In light of these factors, the specific factors impacting the Company's business as described under ***Executive Compensation*** and the factors discussed below, the Committee determined that compensation levels for fiscal 2011 were appropriate.

- 25 -

Base Salaries

Executive base salaries are designed to reflect our operating philosophy, culture and business direction. Each salary is determined by an annual assessment of a number of factors, including job responsibilities, the development and execution of business strategy, labor market compensation data, individual performance relative to job requirements, our ability to attract and retain critical executives, and salaries paid for comparable positions at peer companies and the general market. The Committee intends that base salaries for our executives, together with other principal components of compensation at target opportunity levels, will approximate the median of the competitive market. The Committee periodically evaluates market base salaries for comparable positions among retailers and general industry. Nevertheless, no specific weighting is applied to the factors considered in setting the level of salary, and thus the process relies on the subjective exercise of the Committee's judgment. In reviewing base salaries for fiscal 2011, the Committee considered current roles and responsibilities with respect to Ms. MacDowell, Mr. Romano, Mr. Specter and Ms. Williams, and additionally considered, with respect to Mr. Woolf, his employment arrangements which took into account competitive market pay in setting base salaries. The only salary increase granted in fiscal 2011 was to Mr. Romano in conjunction with his appointment as President and Chief Executive Officer of the Company. For a discussion of the base salary of Mr. Romano as our Chief Executive Officer, see ***Chief Executive Officer Compensation***.

Annual Incentive Program

The annual incentive plan is designed to reward annual operating performance. This is a broad management incentive program, covering the named executive officers, as well as approximately 539 other participants for fiscal 2011. The 2003 Incentive Compensation Plan (the 2003 Incentive Plan) was approved by shareholders in 2003 and the performance goals were re-approved in 2008 for the purpose of preserving tax deductions under Section 162(m) of the Code. This plan is administered by the Committee, which approves the awards and the performance goals. Therefore, awards earned under the plan that are considered performance-based are fully deductible by the Company as a compensation expense.

The plan provides for differing target incentive levels, each expressed as a percentage of base salary. Consistent with our overall compensation strategy, these annual incentive levels in combination with other key elements of compensation are intended to approximate the median of the competitive market. That said, in fiscal 2011, target total cash compensation (i.e., salary plus target annual incentive) for the incumbent named executives approximated the 75th percentile of the competitive market for two reasons. First, the Committee wanted to focus executives with short-term cash opportunities while the Company focused on its turnaround initiatives. Second, the Committee was sensitive to potential shareholder dilution which would have resulted from fully competitive equity awards, and chose instead to weight the variable pay structure more heavily toward cash compensation. Each participant in the annual incentive plan is assigned to an incentive level based on his/her position. For example, the position of our Chief Executive Officer is in Level 1, with a target of 100% of salary and the other named executive officer positions are in Level 2, with a target of 50% of salary (with the exception of Mr. Woolf, who has a target of 75% of salary). In light of our Chief Executive Officer's increased role and responsibility within the Company as compared to other named executive officers and available market data, the Committee considers the differentiation between the Chief Executive Officer and the other executives appropriate.

Actual awards under the annual incentive plan vary each year based upon actual performance relative to the goals set by the Committee at the beginning of the fiscal year (performance goals are discussed below in this Compensation Discussion and Analysis under the caption

Pay-for-Performance and ***Fiscal 2011 Compensation Actions***). The maximum that can be earned by a named executive officer under the annual incentive plan is 200% of the target award, for the achievement of maximum performance. Conversely, a partial bonus of 50% of target can be earned for performance that falls short of target, but is above threshold performance. No bonus is earned if performance falls below the threshold level. In fiscal 2011, performance fell short of the target but was above the threshold level, and as a result, bonuses were awarded to each of our named executive officers under the annual incentive plan.

Long-Term Incentive Program

Long-term incentives are used to balance the short-term focus of the annual incentive program by tying vesting to multi-year periods. Our 2004 Stock Award and Incentive Plan (the 2004 Plan), was approved by our shareholders at the 2004 Annual Meeting and the performance goals were re-approved at the 2009 Annual Meeting for the purpose of preserving tax deductions under Section 162(m) of the Code. Equity awards granted in fiscal 2011 and all future equity awards will be granted under our 2010 Plan which was approved by our shareholders at the 2010 Annual Meeting, and not under the 2004 Plan. Under the 2004 Plan, the Company could use a variety of long-term incentive vehicles, including stock options, SARs, restricted stock, RSUs, performance shares, performance units and long-term cash incentives. The 2004 and 2010 Plans are administered by the Committee. With the exception of time vested restricted stock grants, awards under the 2004 and 2010 Plans, which are considered performance-based under Section 162(m) of the Code, are fully deductible by the Company as a compensation expense.

Fiscal 2011 Awards

Target long-term incentive opportunities vary from year to year, based on the Committee's assessment of market practices, share utilization strategies, and stock price performance. In fiscal 2011, each of our named executive officers was granted equity awards consisting of 100% SARs. SARs granted in fiscal 2011 vest in equal amounts on each of the first four anniversaries of the grant date, subject to the executive's continued employment with the Company. The SARs also provide for full vesting if they are not assumed by the acquiring entity in a change in control and for double-trigger vesting if they are assumed. The Committee believes that the use of SARs is appropriate to incentivize performance and to reward executives for the Company's performance during the Company's turnaround. Because the value of SARs is tied to the performance of our stock, our executives will only profit on the SARs if the price of our Common Stock increases over the relevant four-year period. The Committee elected to grant equity awards to the named executive officers consisting of 100% SARs rather than a mix of SARs and RSUs, as it had done in the past, to increase the performance alignment of the program, because SARs deliver no additional compensation unless our share price increases.

As mentioned above, the Company's philosophy is to have target long-term incentive awards, in combination with other key elements of compensation, approximate the median of the competitive market. In fiscal 2011, however, long-term incentives as granted fell below the 25th percentile of the competitive market. This was primarily due to the lower market price of our Common Stock on the date of grant, which resulted in equity awards with values significantly smaller than in prior years. The Committee believed that these below-market value grants were appropriate to manage aggregate share usage and dilution levels in comparison to our 18 peer group companies and general industry norms. As mentioned above, while target cash compensation levels were, therefore, above market median, overall target compensation for our executives averaged 5% below market median levels. Within these general grant guidelines, individual awards are made to reflect the performance of the executive and his or her contributions to the success of our initiatives to create shareholder value and other individualized considerations. The SARs granted were as follows: Anthony M. Romano, 600,000 SARs; Eric M. Specter, 100,000 SARs; MaryEllen MacDowell, 90,000 SARs; Carol Williams, 60,000 SARs and Brian P. Woolf, 200,000 SARs. In light of Mr. Romano's increased role and responsibility as Chief Executive Officer of the Company as compared to other named executive officers, the Committee considers the differentiation between the SARs granted to Mr. Romano and those granted to the other executives appropriate.

Pay-for-Performance

In fiscal 2011, we used several vehicles designed to create a strong link between pay and performance:

The annual incentive program rewards participants for the achievement of short-term, operational goals. As mentioned above, the annual incentive plan serves to reward not only overall Company performance, but also departmental and business unit performance. In general, as discussed below, the performance metrics for Mr. Romano and Mr. Specter were based on corporate operating goals while

the performance metrics for Mr. Woolf, Ms. MacDowell and Ms. Williams were based on business unit performance (75%) and corporate operating goals (25%).

We believe it is important for all participants to have a significant portion of their annual incentive compensation tied to overall Company performance and, where relevant, departmental and business unit performance. We believe that adjusted EBITDA is a primary indicator of financial performance. Therefore, for fiscal 2011, the annual incentive awards for our named executive officers were determined solely upon the achievement of pre-established consolidated adjusted EBITDA and business unit adjusted EBITDA targets, as appropriate. The target corporate and business unit adjusted EBITDA results were established early in fiscal 2011 based on our financial plan. For a definition of adjusted EBITDA, see *Fiscal 2011 Compensation Actions*.

In fiscal 2011, we exceeded the consolidated and business unit adjusted EBITDA threshold goals set for the year with respect to the named executive officers and, as a result, bonuses under our annual incentive plan were paid to them.

In fiscal 2011, we awarded SARs to our named executive officers. Because the value of SARs is tied to the performance of our stock, our named executive officers will only profit on the grants if shareholder value increases. While the vesting of these SARs is not directly tied to performance, the ultimate value of the award at vesting is contingent upon the long-term performance of the stock price over the vesting period.

Performance measures for the annual incentive plan have threshold requirements, below which no awards are earned or paid. The maximum amount that can be earned is 200% of the target award opportunity. The Committee reviews and approves these performance levels. In setting the threshold, target and maximum performance levels, the Committee considers a number of factors, including the Company's historical performance, the current budget and long-term forecasts, peer company performance, and general economic trends and conditions. The Committee intends target performance levels to represent challenging and not easily attainable goals, while threshold performance levels are meant to represent challenging, but achievable goals. Incentive payout levels for threshold performance are designed to provide a level of total direct compensation that is below median competitive levels. Maximum performance levels are intended to represent superior performance. Likewise, the incentive payouts for the achievement of maximum performance are designed to reward our executives at overall compensation levels approximating the 75th percentile of the competitive market. We set the threshold and maximum performance levels and payout levels early in a given performance period taking into account the current business conditions we anticipate and our budgets for the year, with a view that the payouts associated with threshold and maximum performance levels should serve as incentives that will not become irrelevant due to business setbacks or unusually strong performance partway through the year. In addition, we intend that the threshold and maximum payout levels will represent a fair allocation of the positive business results achieved in a given year between our shareholders and our employees.

Annual incentive awards are intended to qualify as performance-based under Section 162(m) of the Code. As such, the Committee may not exercise discretion to make upward adjustments to the awards earned by the named executive officers. The Committee may, however, exercise negative discretion, to make downward adjustments to the awards earned (i.e., it may authorize an actual payout that is less than the award earned based on the achievement of performance goals), which preserves its ability to factor in other relevant information not reflected in performance targets, while maintaining a favorable 162(m) tax treatment for annual incentives. The Committee's negative discretion may be based on both subjective performance and individual strategic objectives. In fiscal 2011, the Company's performance was above threshold, but below target. The Committee did not exercise negative discretion in the determination of awards.

Fiscal 2011 Compensation Actions

We review salary levels for all employees annually. For fiscal 2011, there were no base salary increases for our named executive officers other than Mr. Romano, who received a salary increase in conjunction with his appointment as President and Chief Executive Officer.

As noted above, performance measures in the annual incentive plan vary by participant, depending upon their roles and responsibilities. However, all participants, including the named executive officers, have either all or a portion of their annual incentive payments tied to consolidated and business unit adjusted EBITDA goals. In addition, the achievement of consolidated adjusted EBITDA and business unit adjusted EBITDA goals determines the amount of the total incentive which is available for payment to each named executive officer and our other executives. Specifically, the estimated awards for corporate officers was established based on corporate consolidated adjusted EBITDA goals, while estimated awards for our brand Presidents was determined based on business unit adjusted EBITDA goals (75%) and consolidated adjusted EBITDA goals (25%). Whether any payout is made under the annual incentive program depends on whether the relevant consolidated adjusted EBITDA and/or business unit adjusted EBITDA goals are met. If these goals are met, the Committee will review subjective and individual factors and may use negative discretion to reduce the amount of the annual incentive award.

The consolidated and business unit adjusted EBITDA goals between threshold and target for our named executive officers were met in fiscal 2011. As a result, we made payments to each of our named executive officers under the annual incentive plan.

The chart below compares actual consolidated and business unit adjusted EBITDA results to the performance goals that were set at the beginning of the year and which determined the amount of the total annual incentive available for payment to our named executive officers.

* We define adjusted EBITDA as EBITDA before certain recurring items, such as (i) gain on repurchases of the Company's 1.25% Senior Convertible Notes, (ii) restructuring and other charges, (iii) impairment of store assets, goodwill, and trademarks; (iv) income and (loss) from divestitures subsequent to the completion date of the sale and any income and expenses associated with or incidental to the consummation of such divestitures; and (v) income and (loss) from acquisitions and any expenses associated with or incidental to the consummation of such acquisitions and excluding extraordinary and non-recurring items. We define EBITDA as income/(loss) from continuing operations before (i) income taxes, (ii) net interest expense/other income/(loss); and (iii) depreciation and amortization, except for amortization of stock-based compensation, which is a component of selling, general, and administrative expenses.

As a result of our performance in fiscal 2011, our named executive officers received cash payments in the following amounts under the annual incentive plan: Mr. Romano, \$775,200; Mr. Specter, \$234,500; Ms. MacDowell, \$211,687; Ms. Williams, \$214,625; and Mr. Woolf, \$436,224.

In fiscal 2011, the following awards were granted:

A total of 329,541 RSUs were granted to a total of 97 employees. No RSUs were granted to the named executive officers under our Long-Term Incentive Plan. See ***Long-Term Incentive Program*** for a further discussion of these awards.

A total of 2,569,450 SARs were granted to a total of 94 employees, including 1,050,000 SARs to the named executive officers under our Long-Term Incentive Plan. See ***Long-Term Incentive Program*** for a further discussion of these awards. The number of grants was based on the Committee's assessment of market practices, share utilization strategies, and stock price performance.

Chief Executive Officer Compensation

On October 13, 2010, Anthony M. Romano was appointed Chief Operating Officer and assumed responsibility for our Company's operations while the Company conducted a search for a new Chief Executive Officer. Due to the increase in his responsibilities, Mr. Romano's base salary was increased from \$450,000 to \$650,000.

On March 23, 2011, Mr. Romano became our new President and Chief Executive Officer and a Director. In connection with his promotion Mr. Romano's annual base salary was increased to \$800,000 and he received a discretionary bonus of \$150,000. Mr. Romano is eligible to receive an annual bonus under our annual incentive plan of up to 200% of his base salary based on the achievement of certain performance goals of the Company. In addition, Mr. Romano is provided with an annual automobile allowance of \$15,000 and an annual flexible perquisite allowance of \$20,000. The Company also granted to Mr. Romano 400,000 SARs, the terms of which are substantially similar to the terms of the SARs granted to our other executive officers as annual awards, which are described above, except that on an involuntary termination the SARs will also become exercisable for the number of shares as to which the SARs would have become exercisable, in the absence of termination, on the next two anniversaries of the grant date following the date of termination.

Additionally, on March 28, 2011 the Company entered into an amendment to Mr. Romano's severance agreement. Under the terms of the severance agreement, as amended, in the event of a qualifying termination Mr. Romano would receive 1.5 times the sum of his annual base salary and three-year average bonus, payable over 18 months, and in the event of a qualifying termination within 24 months of a change in control, Mr. Romano would receive a lump sum payment equal to twice the sum of his annual base salary and three-year average bonus. The other terms of Mr. Romano's severance agreement are substantially similar to those provided to our other executive officers, including our named executive officers, as described below under ***Potential Payments Upon Termination or Change in Control***.

Supplemental Executive Retirement Plan

The Supplemental Executive Retirement Plan (SERP) was implemented in 2003 as a recruiting and retention tool for executives. In light of the challenging global economy and in order to eliminate a significant annual expense with respect to executive compensation, the Board of Directors discontinued the SERP as of December 31, 2008.

The annual cost to the Company that was eliminated by the amendment was approximately \$1,000,000, and the total value of the accounts was approximately \$4,100,000. The discontinuance of the SERP did not affect the Company's deferred compensation program, which is continuing. All account balances under the SERP have been paid to participants.

Deferred Compensation

We offer to certain executives, including our named executive officers, an opportunity to participate in our Variable Deferred Compensation Plan, or VDCP, as a cost-effective benefit that enhances the competitiveness of our compensation program. The VDCP provides participants with a way to delay receipt of income and thus income tax on that income until a future date. While deferred, the amount of compensation is not reduced by income taxes, and the executive can choose to have this deferred amount deemed invested in one or more notional investments. See ***Nonqualified Deferred Compensation For Fiscal 2011***. Although the executive will eventually owe income taxes on any amounts distributed from the VDCP, the ability to invest on a pre-tax basis allows for a higher ultimate after-tax return. By providing a wealth-building opportunity through the VDCP, we believe we are better able to attract and retain executives.

Through the VDCP, we may also provide matching contributions to executives that would have been made under our 401(k) Plan but for limitations under U.S. tax law. As a cost savings measure, we suspended our matching contributions to the VDCP and to our 401(k) Plan beginning in April 2009. We also use the VDCP to encourage executives who would receive compensation that would be non-deductible under Section 162(m) to defer receipt of the compensation until after their termination of employment, at which time the payment of such compensation would be fully deductible by the Company under current tax law. We provide an inducement for such deferrals by crediting the named executive officer with additional Common Stock units that have a value equal to 20% of the amounts deferred with respect to which we would have lost a tax deduction under Section 162(m). None of the named executive officers have availed themselves of this provision.

Other Benefits and Perquisites

As employees of the Company, the named executive officers are eligible to participate in all of the broad-based Company-sponsored benefits programs on the same basis as other full-time employees.

The Company provides minimal perquisites as an additional form of compensation to executive officers, including the named executive officers. The type and amount of perquisites is subject to the approval of the Committee, and is taken into account as part of the total compensation to executive officers. Details of these perquisites provided to the named executive officers are set forth in footnotes to the Summary Compensation Table.

In connection with his employment arrangement with the Company, we provided Mr. Woolf with certain relocation benefits in order to move near his office with the Company. In addition to these benefits, we also provided our named executive officers with a modest automobile allowance. Our Executive Vice Presidents and brand Presidents are also granted an annual flexible perquisite allowance, which may only be used for specifically identified purposes, such as reimbursement for certain medical services and reimbursement for the costs of financial planning services. We believe these benefits are reasonable in light of the named executive officers' positions with the Company.

Management Stock Ownership Guidelines

The purpose of our Stock Ownership Guidelines is to more closely align our key executives' interest with our shareholders. Where executives are shareholders themselves, the executives realize a direct benefit by achieving the objective of increasing shareholder value. Our Chief Executive Officer is required to hold 120,000 shares of our Common Stock. The other named executive officers are required to hold 40,000 shares of our Common Stock. Their holdings may include deferred stock, RSUs and vested SARs (to the extent of the number of shares equal in value to the spread of the vested SAR at a point in time). These requirements are to be satisfied within six years of appointment to an office subject to this guideline. Until the executive's respective ownership guideline is satisfied, the executive is expected to retain all shares of Company stock acquired upon vesting or release, except those shares withheld by the Company to satisfy required tax obligations. All named executive officers who are currently required to comply with the guidelines were in compliance as of the date hereof.

Severance and Change in Control Benefits

Like most of our peers, we have entered into severance and change in control agreements with our senior executive officers, including our former Chief Executive Officer and our other named executive officers. See ***Potential Payments Upon Termination or Change in Control***. The Committee believes that these benefits are an important part of the total compensation and benefits package, enhancing our ability to compete for talent, and fostering stability in our management group. Our Committee regularly reviews and examines our compensation arrangements for executives. In 2007, this review included an analysis, carried out with the assistance of the Committee's independent compensation consultants, of our executive severance agreements with our named executive officers and other senior executives. Based on this review, we amended the severance agreements with our executive team. Among other things, these agreements were revised to condition severance payments upon agreement by the executives to non-competition covenants that previously had not been included in many of these agreements, in addition to the existing non-solicitation covenants and a requirement that the executive deliver a release of claims. In other words, in return for providing assurances to our executives that they will be compensated if they are terminated by the Company without cause or in the case of certain fundamental changes to the Company, these executives have made a commitment to the Company that they will not voluntarily terminate their employment in order to work for our competitors. In general, our severance benefits provide for a lump sum cash payment in the event of involuntary termination or termination for good reason following a change in control and a cash payment over time in the event of involuntary termination independent of a change in control. The Committee determined to reduce the amount of severance that executives would receive in the event of a termination of employment within 24 months after a change in control. These severance agreements have been further amended to eliminate the Company's obligation to make gross up payments for excise taxes imposed on the executives under Section 4999 of the Code, as amended. The Committee believes that its severance and change in control benefits are reasonable and fair to both the Company and the executives and are within the norm when compared to similar companies.

Under our Long-Term Incentive Plans, awards granted prior to fiscal 2009 were single trigger. Therefore, if a change in control of the Company occurs, stock options, SARs, restricted stock and RSUs granted before fiscal 2009 under such plans become fully vested (at target levels in the case of performance shares) and, in the case of stock options and SARs, become fully exercisable. Awards granted in fiscal 2009 (SARs), fiscal 2010 (SARs and RSUs) and fiscal 2011 (SARs) under such plans become fully vested and, in the case of SARs, become fully exercisable in connection with a change in control of the Company only if (1) the acquiring company does not convert the award into an equivalent replacement award, or (2) the acquiring company does so convert the award and the employee is terminated as a result of a qualifying termination upon or within 24 months following the change in control.

Timing of Equity Awards and the Release of Material Information

In December 2006, the Committee adopted a policy governing grants of equity awards, including stock options, SARs, restricted stock, RSUs, deferred stock, performance shares and all other forms of equity-based awards under our compensation plans (the Equity Awards Policy), which formalized certain unofficial policies and procedures historically followed by us with respect to awards. Under the Equity Awards Policy, the Committee delegated authority to an internal stock award committee consisting of three officers (the Internal Committee) to determine, together with the Committee, equity awards to employees and non-employees, subject to limitations set forth in the equity compensation plans and in the Equity Awards Policy. The Internal Committee has authority to make grants only to non-executive officer employees and service providers.

The Equity Awards Policy includes rules regarding the timing of equity award grants. Whether an equity award is granted by the Committee or the Internal Committee, the grant date of a particular equity award generally is the date when the actions authorizing the grant are completed or at a later specified date. However, grants of stock options and SARs, other than those made pursuant to regular annual grants, may not be made until after the release of any pending material non-public information, regardless of whether such information is anticipated to be positive or negative. Grants of all other types of equity awards generally should be made at

times when no material non-public information is pending, unless such grants are made at a fixed date approved in advance, and it is determined such grants would not provide an unintended benefit to the employee or an unintended cost to us. In the case of regular annual grants of equity awards pursuant to employment agreements, the Equity Awards Policy directs such grants to be made at the times specified in the employment agreements. If an employment agreement specifies a time period during which equity awards must be made, the grant date should be determined at a meeting of the Committee scheduled at least ninety days in advance, except in exceptional circumstances. Regular annual grants of equity awards, for which grant dates are not specified in the recipient's employment agreement, are made during a period of fourteen days commencing with the third trading day after the announcement of our financial results for the previous fiscal year.

Impact of Tax and Accounting on Compensation Decisions

As a general matter, the Committee takes into account the various tax and accounting implications of compensation vehicles employed by the Company.

Section 162(m) of the Code generally prohibits any publicly held corporation from taking a federal income tax deduction for compensation paid in excess of \$1,000,000 in any taxable year to each of the chief executive officer and certain other executive officers other than the chief financial officer. Exceptions are made for qualified performance-based compensation. The Committee seeks to maximize the effectiveness of our executive compensation plans in this regard. However, the Committee believes that compensation and benefits decisions should be driven primarily by the needs of the business, rather than by tax policy. Therefore, the Committee may make pay decisions that potentially could result in compensation expense that is not fully deductible under Section 162(m). For fiscal 2011, we anticipate that substantially all of the compensation realized during the fiscal year by the named executive officers will be tax deductible without limitation under Section 162(m).

When determining amounts of long-term incentive grants to executives and employees, the Committee examines the accounting cost associated with the grants. Under Accounting Standards Codification Topic 718 Compensation—Stock Compensation, grants of stock options, SARs, restricted stock, RSUs and other share-based payments result in accounting expense to us. The accounting charge is equal to the fair market value of the instruments being used. For restricted stock or RSUs, the expense is equal to the fair market value per share on the date of grant times the number of shares or units granted. For stock options and SARs, the expense is equal to the fair value of the option or SAR on the date of grant using a Black-Scholes option pricing model times the number of options or SARs granted. This expense is amortized on a straight line basis over the award's requisite service period, except for awards that include a market condition, which are amortized on a graded vesting basis over their derived service period.

Summary Compensation Table

The table below summarizes the total compensation for fiscal 2011, 2010 and 2009 for our Chief Executive Officer, our Chief Financial Officer and the other named executive officers.

Offer Letters and Severance Agreements

In connection with his employment by the Company as Executive Vice President Business Transformation, we signed an offer letter with Mr. Romano on January 26, 2009. Pursuant to the terms of the offer letter, Mr. Romano received an annual base salary of \$450,000 and was eligible to receive an annual bonus of up to 100% of base salary (50% is the target level for such bonus) based on the achievement of certain performance goals for fiscal 2009. As performance targets for Mr. Romano for fiscal 2009 were not met, no annual incentive bonus was paid to him. The offer letter provides for Mr. Romano's participation in our retirement and other employee benefit programs, including the Company's medical plan, life insurance program, 401(k) Plan and variable deferred compensation plan. In addition, Mr. Romano is provided with an annual automobile allowance and an annual flexible perquisite allowance.

As an inducement for Mr. Romano to enter into employment with the Company, the Company granted him 150,000 SARs which were granted in accordance with NASDAQ Marketplace Rule 5635(c)(4). Each SAR represents the right to receive, at exercise, a number of shares of the Company's Common Stock with a fair market value at the date of exercise equal to the appreciation in value of shares over the base amount. The base amount was \$1.03 per share, which was the closing price per share for our Common Stock on the grant date (as reported by NASDAQ). These time-based SARs vest as to 40% of the shares on the first anniversary of the grant date and 30% of the shares on each of the second and third anniversaries of grant date.

Effective October 13, 2010, Mr. Romano's salary was increased to \$650,000 on his promotion to Chief Operating Officer and his assumption of responsibility for the operations of the Company. Effective March 23, 2011, Mr. Romano was appointed as our new President and Chief Executive Officer and a Director and his salary increased to \$800,000. The Company paid Mr. Romano a bonus of \$150,000 in connection with his promotion. He also received 400,000 SARs upon his appointment, the terms of which are substantially similar to the terms of the SARs granted to our other executive officers as annual awards, which are described above, except that on an involuntary termination the SARs will also become exercisable for the number of shares as to which the SARs would have become exercisable, in the absence of termination, on the next two anniversaries of the grant date following the date of termination. As of April 1, 2012, Mr. Romano received a salary increase of \$100,000.

In connection with his appointment as President Lane Bryant, we signed an offer letter with Mr. Woolf on June 30, 2008. Pursuant to the terms of his offer letter, Mr. Woolf received an annual base salary of \$725,000 and was eligible to receive an annual bonus of up to 100% of base salary (50% is the target level for such bonus) based on the achievement of certain performance goals. The offer letter provided for Mr. Woolf's participation in our retirement and other employee benefit programs, including the Company's medical plan, life insurance program, 401(k) Plan and variable deferred compensation plan. In addition, Mr. Woolf received an annual automobile allowance, an annual flexible perquisite allowance and supplemental life insurance with a \$600,000 death benefit. Under the terms of the offer letter, Mr. Woolf received relocation assistance and a special transition bonus of \$85,000. As an inducement for Mr. Woolf to enter into employment with the Company, the Company granted him SARs with an aggregate value equal to \$500,000 in accordance with NASDAQ Marketplace Rule 5635(c)(4), with vesting in three equal installments on the third, fourth and fifth anniversaries of the grant date, subject to accelerated vesting in certain circumstances.

On March 23, 2011, Mr. Woolf was appointed to the new position of Group President Lane Bryant. In connection with his promotion, Mr. Woolf received a bonus of \$100,000. He also received 75,000 SARs, the terms of which are substantially similar to the terms of the SARs granted to our other executive officers, which are described above. The other aspects of Mr. Woolf's compensation package remain unchanged.

We have entered into severance agreements with all of our named executive officers. These agreements provide for certain payments to be made to the executive if he or she is terminated in connection with a change in control of the Company or if he or she is otherwise involuntarily terminated without cause, as described more fully under **Potential Payments Upon Termination or Change in Control**. As stated above, if consummated the Merger will constitute a change in control. These severance agreements also obligate each executive not to disclose or use our confidential or proprietary information during and after his or her employment with Charming, not to compete with the Company nor to attempt to induce any of our employees to terminate employment, and not to interfere in a similar manner with our business during the time in which the executive is receiving payments and not to disparage the Company, its officers and employees.

Grants of Plan-Based Awards During Fiscal 2011

The following table shows all plan-based awards granted to the named executive officers during fiscal 2011. The non-equity incentive plan awards are also reflected in the Summary Compensation Table under Non-Equity Incentive Plan Compensation, and the stock awards identified in the table below are also repeated in the Outstanding Equity Awards at Fiscal 2011 Year-End Table which follows this table.

- (1) The amounts in the columns under Estimated Future Payouts Under Non-Equity Incentive Plan Awards represent potential threshold, target and maximum bonuses available to the named executive officers under the 2003 Incentive Plan. This table reports the awards that could have been earned in fiscal 2011. The actual payments under these awards are reported above in the Summary Compensation Table in the column entitled Non-Equity Incentive Plan Compensation. Under the 2003 Incentive Plan, awards are paid at the end of the fiscal year based on performance metrics for the year, as described above in **Compensation Discussion and Analysis**.
- (2) No stock awards were granted in fiscal 2011 to the named executive officers.
- (3) The amounts shown in the All Other Option Awards column represent the shares awarded under the 2010 Plan which are SARs. The vesting schedule is described in the footnotes to the Outstanding Equity Awards at Fiscal 2011 Year-End table below.
- (4) The amounts shown in the Grant Date Fair Value of Stock and Option Awards column represent the fair value of the awards on the date of grant, as computed in accordance with Financial Accounting Standards Board Accounting Standards Codification Topic 718, Compensation - Stock Compensation.

In fiscal 2011 and prior years, Charming granted awards to its executive officers under three plans: the 2003 Incentive Plan (the 2003 Incentive Plan), the 2004 Stock Award and Incentive Plan (the 2004 Plan) and the 2010 Plan. The 2003 Incentive Plan was approved by our Shareholders at our 2003 Annual Meeting and the performance goals were reapproved at the 2008 Annual Meeting of Shareholders. The 2004 Plan was approved by our Shareholders at our 2004 Annual Meeting of Shareholders and the performance goals were reapproved at the 2009 Annual Meeting of Shareholders. The 2010 Plan was approved by our Shareholders at our 2010 Annual Meeting of Shareholders.

The 2003 Incentive Plan is designed to reward short-term operating performance and in certain circumstances, authorizes stock awards. See **Compensation Discussion and Analysis Fiscal 2011 Awards** for a discussion of the business metrics upon which performance goals for 2011 were based.

Under the 2003 Incentive Plan, the Compensation Committee generally can specify the circumstances in which awards will be paid or forfeited in the event of a change in control, termination of employment by Charming or other events. However, the 2003 Incentive Plan provides that, in the event of death, disability or retirement, the participant will receive a pro rated incentive award, proportionate to the part of the performance period worked by the participant, based on actual performance, unless otherwise determined by the Compensation Committee.

RSUs and SARs granted under the 2004 Plan and 2010 Plan are subject to a risk of forfeiture upon termination of employment in certain circumstances until they become vested. Awards made prior to fiscal 2009 generally would become vested on an accelerated basis upon a change in control of Charming. Awards made in fiscal 2009, 2010 and 2011 become vested on an accelerated basis upon a change in control of Charming unless assumed by the acquirer and to the extent not already vested, while the awards assumed by the acquirer would become fully vested in the event the employee is terminated as a result of a qualifying termination within 24 months of a change in control.

RSUs are credited with dividend equivalents equal to dividends, if any, paid on our Common Stock. In some cases these dividends would be deemed reinvested in additional RSUs, but in all cases dividend equivalents, whether in the form of deferred cash or additional stock awards, remain subject to the same risk of forfeiture as the underlying RSUs. Absent unusual circumstances, vested RSUs are expected to be settled solely by delivery of shares of our Common Stock. We have not paid any dividends since 1995.

Outstanding Equity Awards at Fiscal 2011 Year-End

The following table shows all outstanding equity awards held by the named executive officers at the end of fiscal 2011. The amounts reported under the Option Awards and Stock Awards columns are included in the Summary Compensation Table under Stock Awards and Option Awards at their grant date fair value computed in accordance with Financial Accounting Standards Board Accounting Standards Codification Topic 718, Compensation Stock Compensation. In addition, the stock awards and option awards reported in the Grants of Plan-Based Awards table above are also reported in this table.

Nonqualified Deferred Compensation for Fiscal 2011

The following table shows certain information with respect to the named executive officers' nonqualified deferred compensation during fiscal 2011, under our Variable Deferred Compensation Plan (VDCP). See **Variable Deferred Compensation Plan** below.

- (1) Represents the named executive officers' contributions to our VDCP. These amounts are included in the Summary Compensation Table under Salary or Non-Equity Incentive Plan Compensation or both.
- (2) The amounts in this column include the returns credited to accounts under the VDCP based on the actual investment performance of mutual funds selected by participants. The weighted average rate of return for the VDCP for the named executive officers in fiscal 2011 was 2.6%.
- (3) Attributable to the VDCP.
- (4) Attributable to a partial distribution of Mr. Specter's account balance in the VDCP.
- (5) Represents compensation deferred pursuant to the VDCP.

Variable Deferred Compensation Plan

We provide the VDCP to key executives and certain other officers and employees. Under the VDCP, participants may contribute up to 77% of their base compensation and 90% of bonus compensation to their choice of a retirement distribution account and/or an in-service distribution account while they are employed by the Company. In addition, participants may contribute all or part of the shares of stock they would otherwise receive upon the lapse of restrictions applicable to restricted stock and restricted stock unit awards under one or more equity plans. Until the matching Company contributions were suspended effective April 2009, this plan included a matching Company contribution of 50% of the participant's contribution with respect to up to 3% of the participant's compensation (up to 6% of total compensation for contributions with respect to amounts of total compensation in excess, if any, of the sum of the participant's compensation over the maximum amount of compensation permitted to be taken into account under the terms of the Company's retirement savings plan), less any matching contributions made for the participant under our 401(k) Plan.

Under this plan, a participant is also entitled to have credited to his or her retirement distribution account a unit equivalent to two-tenths of a share of Common Stock for every share such participant elects to defer and Common Stock equal to 20% of base salary and bonus compensation which such participant elects to defer, but only to the extent that, in the absence of deferral, the vesting of such shares or the payment of such compensation would have otherwise caused such participant's compensation to be non-deductible by the Company under Section 162(m) of the Code.

Participants are 100% vested in their contributions from base salary and bonus compensation. Participants will be 25% vested in matched contributions after two years of service, and an additional 25% vested in such contributions for each year of service after the first two. Therefore, participants are 100% vested in matched contributions after five years of service. Also, participants over the age of 65, or over the age of 55 who have ten or more years of service, will be 100% vested in matched contributions as long as they are still employed.

Finally, participants are automatically 100% vested in matched contributions if they become disabled or die while employed, or if a change in control occurs while they are employed by us.

Amounts deferred under the VDCP are deemed to be invested in one or more investment portfolios made available to participants. Since the amounts in the VDCP are unfunded, participants do not actually own shares in the investment portfolios; rather, their deferral accounts are credited with gains or losses based on the actual performance of such investment portfolios. We established a Rabbi Trust to provide an informal funding vehicle for our nonqualified benefit obligations to our employees, and this trust holds life insurance policies on some of the plan participants. We contribute cash to these life insurance policies in amounts equal to the compensation deferred by plan participants. The cash value of the life insurance policies is allocated among funds that are similar to the funds offered to participants as investment indices under the plan.

The rate of return credited to accounts under the VDCP is based on the actual investment performance of mutual funds designated for selection by the participants. The weighted average rate of return for the named executive officers in fiscal 2011 was 2.6%.

Benefits under the VDCP's retirement distribution accounts can be disbursed in a lump sum or in annual installments (over five or ten years) at the election of the participant; if a form of distribution is not elected, or if the value of the account is less than \$50,000, distribution is in a lump sum. The first distribution payment will be made as soon as practicable after the participant's retirement. Benefits under the VDCP's in-service distribution account are disbursed in a lump sum on the date designated by the participant. If a participant's employment ends before retirement or before the distribution date chosen by the participant, other than because of disability or death, the participant will receive a lump sum payment of the vested portion of its distribution account(s). Under the VDCP, distribution accounts become 100% vested in the event of a change in control, and the distributions will be made in a lump sum as soon as practicable following the change in control.

Supplemental Executive Retirement Plan (SERP)

In order to eliminate a significant annual expense with respect to executive compensation, the Board of Directors discontinued the SERP as of December 31, 2008. On December 17, 2008, the Board of Directors amended the Plan to discontinue retirement credits to the Plan and make other related changes. See **Compensation Discussion and Analysis Executive Summary** for a description of the principal changes made. The annual cost to the Company that was eliminated by these changes is approximately \$1,000,000, and the total value of the accounts was approximately \$4,100,000. The discontinuance of the SERP did not affect the Company's VDCP program, which is continuing. The final distribution from the SERP was made in fiscal 2011.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL

The following explains the compensation potentially payable to each of our named executive officers in connection with termination of such executive's employment and in connection with a change in control of the Company. As stated above, if the Merger is consummated it will constitute a change in control. In accordance with SEC rules, the discussion below provides estimates of the amounts that would have been payable had a change in control occurred on January 28, 2011, the last day of fiscal 2011, and is not reflective of amounts that may be paid or be payable to the named executive officers upon the consummation of the Merger.

Amounts payable pursuant to a severance agreement could be paid over a shorter period than the payment periods referenced below in order to comply with Section 409A of the Internal Revenue Code.

The payments and benefits accruing to a named executive officer in the various termination and change in control circumstances discussed below represent compensation that is tied to the particular type of termination or the change in control event. Ordinary accruals, including salary payable through the date of termination, annual

incentive plan amounts and earned and accrued vacation pay, are not included as these are not payable as a result of any particular termination. Fiscal 2011 annual incentive plan amounts and earned and accrued vacation pay as of January 28, 2012 were as follows: Mr. Romano, \$775,200 and \$21,538; Mr. Specter, \$234,500 and \$17,308; Ms. MacDowell, \$211,687 and \$15,385; Ms. Williams, \$214,625 and \$8,654; and Mr. Woolf, \$436,224 and \$19,519. Likewise, the amounts shown below do not include benefits that are payable without regard to the type of termination event and attributable to the named executive officer under our VDCP, which includes the amounts deferred by the named executive officer and the matching contributions by us under VDCP. See *Nonqualified Deferred Compensation for Fiscal 2011* above.

For purposes of this analysis, we value stock awards and SARs based on the closing market price of our stock on January 27, 2012, less the exercise price (or base amount) in the case of SARs. We have not included any additional value representing the time value of SARs and we have not reduced the value of unvested stock awards or SARs based on the portion of the vesting period elapsed at January 28, 2012.

Severance Agreements

We have entered into severance agreements with our named executive officers (each a Severance Agreement). Under the Severance Agreements, subject to the named executive officer's execution and non-revocation of a general release of claims, a named executive officer is entitled to receive severance benefits upon termination of employment by us other than for cause or upon termination by the named executive officer for good reason, which are qualifying terminations under the Severance Agreements. Cause is generally defined under the Severance Agreements as the named executive officer's: (1) willful and continued failure to substantially perform his or her duties (other than due to disability or following a notice of termination for good reason) that is not cured within 30 days of notice; (2) willfully engaging in conduct demonstrably and materially injurious to the Company; or (3) conviction for a felony. Good Reason generally means, without the named executive officer's written consent and without cure: (a) a material diminution of the named executive officer's authorities, duties or responsibilities as an employee; (b) any requirement that a named executive officer be based at a location at least 50 miles farther from the named executive officer's then current primary residence than is the named executive officer's current office location; (c) a material diminution in the named executive officer's base salary then in effect; or (d) a material breach by the Company of the named executive officer's Severance Agreement (or, for Mr. Romano, the term sheet detailing his compensation that was approved by the Board on March 23, 2011).

The amounts payable to the named executive officers under the Severance Agreements depend upon whether termination occurs within a certain time frame related to a change in control. If a named executive officer's employment is terminated before a change in control or after 24 months following a change in control, the named executive officer will receive severance equal to the sum of the named executive officer's annual base salary (or for Mr. Romano, 1.5 times his annual base salary) and a three-year average bonus, monthly reimbursements of COBRA health care premiums for a 12-month period (or for Mr. Romano, an 18-month period) following the qualifying termination (or until the named executive officer obtains similar coverage from a subsequent employer, if earlier) and a prorated annual bonus for the year of termination, based on our performance.

If termination occurs upon or during the 24-month period following a change in control, instead of the severance benefits described above, the named executive officer will receive a lump sum severance amount equal to 1.5 times the sum of the named executive officer's annual base salary (or for Mr. Romano, two times his annual base salary) and three-year average bonus, a lump sum payment equal to the cost of COBRA health care premiums, life insurance premiums and disability insurance premiums for the 18-month period (or for Mr. Romano, the 24-month period) following the qualifying termination and a prorated annual bonus at target for the year of termination.

In either event, the named executive officer will also receive a lump sum amount equal to the named executive officer's accrued base salary, vacation pay and certain outplacement benefits.

A change in control under the Severance Agreements includes: (1) an acquisition of voting securities by any person (other than certain related parties) after which such person has beneficial ownership of 20% or more of the voting power of outstanding voting securities of the Company; (2) the individuals who, as of the effective date of the applicable Severance Agreement, were members of our Board of Directors, plus any new Director whose election or nomination was approved by a vote of at least two-thirds of the applicable members of the Board of Directors, cease for any reason to constitute at least a majority of the Board of Directors; (3) the consummation of a merger, consolidation, recapitalization or reorganization, a reverse stock split of the outstanding voting securities or an acquisition of securities or assets in which the shareholders owning 80% of the voting securities of the Company immediately before such transaction do not own at least 60% of the combined voting power of the outstanding voting securities of the surviving entity after such transaction; or (4) the implementation or consummation of a complete liquidation or sale or disposition of all or substantially all the assets of the Company, other than a transaction resulting in certain affiliates owning more than 50% of the assets prior to the transaction. In any event, a change in control under a named executive officer's Severance Agreement does not include any transaction in which the named executive officer is considered part of the purchasing group which consummates the change in control transaction.

The named executive officer is not entitled to severance benefits if his or her employment terminates due to disability, retirement or death, or if the named executive officer is terminated for cause or terminates other than for good reason.

In 2009, the Severance Agreements with Mr. Romano, Mr. Specter, Ms. MacDowell, Ms. Williams and Mr. Woolf were amended to provide that the named executive officers are not entitled to a tax gross up payment if an excise tax under section 4999 of the Code is imposed on any payments contingent upon a change in control of the Company. All of the Severance Agreements now provide that the amount of such payments may be reduced to the threshold amount under Section 280G of the Code if such reduction provides the named executive officer with a greater net after-tax amount than would be the case if no reduction was made.

To the extent permitted by law, the Company will pay or reimburse each named executive officer for all legal fees and expenses incurred in good faith by the named executive officer as a result of any conflict between Charming and the named executive officer pertaining to the named executive officer's Severance Agreement, up to a maximum of \$35,000, regardless of the outcome of such conflict.

The Severance Agreements have a three-year term which, at the end of the first year of the three-year term and at the end of each year thereafter, automatically extends for one additional year unless the Company provides a notice of non-renewal six months prior to the end of the then current term. However, the terms of the Severance Agreements will remain in effect for a period of 24 months following a change in control or until all benefits have been paid.

During the term of the Severance Agreement and for a stated period after the named executive officer's termination of employment for any reason, the named executive officer is subject to non-competition and non-solicitation provisions. The stated period is 12 months (18 months for Mr. Romano) if the termination occurs before a change in control or after 24 months following a change in control, or 18 months (24 months for Mr. Romano) if the termination occurs upon or within 24 months of a change in control. Each named executive officer is also subject to confidentiality provisions and non-disparagement provisions during the term of the Severance Agreement and thereafter. We may seek injunctive relief against a named executive officer for breach of the confidentiality, non-competition and non-solicitation provisions. In addition, any and all payments under a named executive officer's Severance Agreement will cease if he or she breaches the confidentiality, non-competition or non-solicitation provisions.

Incentive Compensation Plans and Other Employee Benefits

Under our Long-Term Incentive Plans, awards granted prior to fiscal 2009 were single trigger. Therefore, if a change in control of Charming occurs, stock options, SARs, restricted stock and RSUs granted before fiscal

2009 under such plans become fully vested (at target levels in the case of performance shares) and, in the case of stock options and SARs, become fully exercisable. Awards granted in fiscal 2009 (SARs), fiscal 2010 (SARs and RSUs) and fiscal 2011 (SARs) under such plans become fully vested and, in the case of SARs, become fully exercisable in connection with a change in control of Charming only if (1) the acquiring company does not convert the award into an equivalent replacement award, or (2) the acquiring company does so convert the award into an equivalent replacement award and the employee is terminated as a result of a qualifying termination upon or within 24 months following the change in control.

Under our Long-Term Incentive Plans, in the event of retirement, (1) vesting of a participant's equity awards granted before fiscal 2009 will not be accelerated, but rather will vest on their existing schedule; and (2) a participant's equity awards granted in fiscal 2009, 2010 and 2011 will vest in amounts equal to the pro rated number of shares scheduled to vest on the next vesting date. In the event of death or disability, (1) vesting of a participant's equity awards granted before fiscal 2009 will be fully accelerated; (2) vesting of a participant's equity awards granted in fiscal 2009 and 2010 will be accelerated to the extent such awards would vest within 180 days of the participant's death or disability, and (3) vesting of a participant's equity awards granted in fiscal 2011 will be fully accelerated. In the event of involuntary termination other than for cause, (1) vesting of a participant's equity awards granted before fiscal 2009 will be accelerated to the extent such awards would vest on the next vesting date; and (2) vesting of a participant's equity awards granted in fiscal 2009 and fiscal 2010 and more than one year before the involuntary termination will be accelerated to the extent such awards would vest within 90 days of the involuntary termination, and (3) vesting of a participant's equity awards granted in fiscal 2011 will be accelerated to the extent such awards would vest on the next vesting date.

Upon a change in control, VDCP participants are automatically 100% vested in matching Company contributions. Additionally, upon an involuntary termination, executives are entitled to the aggregate benefits accrued by each of them under the savings and retirement plans sponsored by the Company and any deferred compensation under the VDCP.

Under our 2003 Incentive Plan, for all involuntary terminations (whether or not upon a change in control), the participant is not entitled to any cash bonus for the year of termination, unless the Committee determines otherwise and except as provided in our severance agreements. In the event of death, disability or retirement, the participant will receive a pro rated incentive award, proportionate to the part of the performance period worked by the participant, based on actual performance, unless otherwise determined by the Committee.

Involuntary Termination

The amounts that each of our named executive officers would have received as a result of an involuntary termination not for cause or a termination for good reason on January 28, 2012 are set forth below.

Anthony M. Romano. Assuming a change in control of Charming and an involuntary termination of employment not for cause or termination by Mr. Romano for good reason occurred on January 28, 2012, Mr. Romano would have received the following incremental severance benefits under his severance agreement and our employee benefit plans: (1) a lump-sum payment of \$1,624,800 attributable to base salary, the three-year average bonus and short-term incentives; (2) deemed earning and vesting of time-based SARs with a market value of \$1,158,000; (3) vesting of RSUs with a market value of \$58,054; (4) \$93,629 related to premiums for health, disability and life insurance benefits; and (5) \$30,000 for the cost of outplacement services. In the aggregate, Mr. Romano would have received incremental benefits of \$2,964,021 under these circumstances.

Assuming an involuntary termination of employment not for cause or, for non-equity awards, termination by Mr. Romano for good reason, occurred on January 28, 2012 (without a change in control), Mr. Romano would have received the following incremental severance benefits under his severance agreement and our employee benefits plans: (1) an amount equal to \$1,200,000 attributable to base salary plus the three-year average bonus payable in regular payroll installments over the next 12 months; (2) deemed earning and vesting of time-based

SARs with a market value of \$554,100; (3) vesting of RSUs with a market value of \$19,350; (4) \$70,222 in the form of health insurance; and (5) \$30,000 for the cost of outplacement services. In the aggregate, Mr. Romano would have received incremental benefits of \$1,873,672 under these circumstances.

Eric M. Specter. Assuming a change in control of Charming and an involuntary termination of employment not for cause or termination by Mr. Specter for good reason occurred on January 28, 2012, Mr. Specter would have received the following incremental severance benefits under his severance agreement and our employee benefit plans: (1) a lump-sum payment of \$765,500 attributable to base salary, the three-year average bonus and short-term incentives; (2) deemed earning and vesting of time-based SARs with a market value of \$1,183,000; (3) vesting of RSUs with a market value of \$232,175; (4) \$46,919 related to premiums for health, disability and life insurance benefits; and (5) \$30,000 for the cost of outplacement services. In the aggregate, Mr. Specter would have received incremental benefits of \$2,257,594 under these circumstances.

Assuming an involuntary termination of employment not for cause or, for non-equity awards, termination by Mr. Specter for good reason, occurred on January 28, 2012 (without a change in control), Mr. Specter would have received the following incremental severance benefits under his severance agreement and our employee benefits plans: (1) an amount equal to \$500,000 attributable to base salary plus the three-year average bonus payable in regular payroll installments over the next 12 months; (2) deemed earning and vesting of time-based SARs with a market value of \$676,000; (3) vesting of RSUs with a market value of \$132,784; (4) \$31,279 in the form of health insurance; and (5) \$30,000 for the cost of outplacement services. In the aggregate, Mr. Specter would have received incremental benefits of \$1,370,063 under these circumstances.

MaryEllen MacDowell. Assuming a change in control of Charming and an involuntary termination of employment not for cause or termination by Ms. MacDowell for good reason occurred on January 28, 2012, Ms. MacDowell would have received the following incremental severance benefits under her severance agreement and our employee benefit plans: (1) a lump-sum payment of \$938,313 attributable to base salary, the three-year average bonus and short-term incentives; (2) deemed earning and vesting of time-based SARs with a market value of \$436,800; (3) vesting of RSUs with a market value of \$44,025; (4) \$40,331 related to premiums for health, disability and life insurance benefits; and (5) \$30,000 for the cost of outplacement services. In the aggregate, Ms. MacDowell would have received incremental benefits of \$1,489,469 under these circumstances.

Assuming an involuntary termination of employment not for cause or, for non-equity awards, termination by Ms. MacDowell for good reason, occurred on January 28, 2012 (without a change in control), Ms. MacDowell would have received the following incremental severance benefits under her severance agreement and our employee benefits plans: (1) an amount equal to \$600,000 attributable to base salary plus the three-year average bonus payable in regular payroll installments over the next 12 months; (2) deemed earning and vesting of time-based SARs with a market value of \$306,765; (3) vesting of RSUs with a market value of \$23,384; (4) \$26,887 in the form of health insurance; and (5) \$30,000 for the cost of outplacement services. In the aggregate, Ms. MacDowell would have received incremental benefits of \$987,036 under these circumstances.

On December 9, 2011 Charming approved a compensation arrangement (the Agreement) with Ms. MacDowell, President Fashion Bug, related to Charming's announcement of the planned divestiture of the Fashion Bug Division (Fashion Bug). The arrangement is intended to encourage the retention of Ms. MacDowell during the transition and provide an incentive for her active participation in the successful divestiture of Fashion Bug.

Since the divestiture of Fashion Bug would not qualify as a change of control, special vesting provisions and other incentives were approved, intended to compensate for awards that would otherwise not vest in accordance with their terms as granted as a result of the sale of Fashion Bug and her resultant involuntary termination.

Had an involuntary termination resulting from the sale of Fashion Bug occurred at January 28, 2012, Ms. MacDowell would have received the following incremental severance benefits under her severance

agreement, our employee benefit plans and the additional incentives approved December 9, 2011: (1) a lump-sum payment of \$975,000 attributable to base salary, the three-year average bonus and project and retention bonuses related to the sale of Fashion Bug; (2) deemed earning and vesting of time-based SARs with a market value of \$437,670; (3) vesting of RSUs with a market value of \$52,251; (4) \$26,887 related to premiums for health, disability and life insurance benefits; and (5) \$30,000 for the cost of outplacement services. In the aggregate, Ms. MacDowell would have received incremental benefits of \$1,521,808 under these circumstances.

Carol L. Williams. Assuming a change in control of Charming and an involuntary termination of employment not for cause or termination by Ms. Williams for good reason occurred on January 28, 2012, Ms. Williams would have received the following incremental severance benefits under her severance agreement and our employee benefit plans: (1) a lump-sum payment of \$785,375 attributable to base salary, the three-year average bonus and short-term incentives; (2) deemed earning and vesting of time-based SARs with a market value of \$729,651; (3) vesting of RSUs with a market value of \$53,757; (4) \$28,865 related to premiums for health, disability and life insurance benefits; and (5) \$30,000 for the cost of outplacement services. In the aggregate, Ms. Williams would have received incremental benefits of \$1,627,648 under these circumstances.

Assuming an involuntary termination of employment not for cause or, for non-equity awards, termination by Ms. Williams for good reason, occurred on January 28, 2012 (without a change in control), Ms. Williams would have received the following incremental severance benefits under her severance agreement and our employee benefits plans: (1) an amount equal to \$500,000 attributable to base salary plus the three-year average bonus payable in regular payroll installments over the next 12 months; (2) deemed earning and vesting of time-based SARs with a market value of \$380,990; (3) vesting of RSUs with a market value of \$17,919; (4) \$19,243 in the form of health insurance; and (5) \$30,000 for the cost of outplacement services. In the aggregate, Ms. Williams would have received incremental benefits of \$948,152 under these circumstances.

Brian P. Woolf. Assuming a change in control of Charming and an involuntary termination of employment not for cause or termination by Mr. Woolf for good reason occurred on January 28, 2012, Mr. Woolf would have received the following incremental severance benefits under his severance agreement and our employee benefit plans: (1) a lump-sum payment of \$1,195,026 attributable to base salary, the three-year average bonus and short-term incentives; (2) deemed earning and vesting of time-based SARs with a market value of \$832,107; (3) vesting of RSUs with a market value of \$85,739; (4) \$37,553 related to premiums for health, disability and life insurance benefits; and (5) \$30,000 for the cost of outplacement services. In the aggregate, Mr. Woolf would have received incremental benefits of \$2,180,425 under these circumstances.

Assuming an involuntary termination of employment not for cause or, for non-equity awards, termination by Mr. Woolf for good reason, occurred on January 28, 2012 (without a change in control), Mr. Woolf would have received the following incremental severance benefits under his severance agreement and our employee benefits plans: (1) an amount equal to \$725,000 attributable to base salary plus the three-year average bonus payable in regular payroll installments over the next 12 months; (2) deemed earning and vesting of time-based SARs with a market value of \$495,288; (3) vesting of RSUs with a market value of \$28,576; (4) \$25,036 in the form of health insurance; and (5) \$30,000 for the cost of outplacement services. In the aggregate, Mr. Woolf would have received incremental benefits of \$1,303,900 under these circumstances.

In addition, under our severance agreements, for involuntary terminations not for cause or termination for good reason (without a change in control), the named executive officers would be entitled to a pro rated annual cash bonus for the year of the termination, based on our performance. During Fiscal 2011, actual performance results were between threshold and target levels. Therefore, such bonuses were awarded. Also, upon a change in control, VDCP participants are automatically 100% vested in matching Company contributions, and payments under our SERP accelerate. See *Nonqualified Deferred Compensation for Fiscal 2011*.

Death or Disability

Each of our named executive officers would be entitled to accrued salary and accrued vacation upon death or disability. Under our 2003 Incentive Plan, the participant will receive a pro rated incentive award,

proportionate to the part of the performance period worked by the participant, based on actual performance, unless otherwise determined by the Committee. In addition, assuming the death or disability occurred on January 28, 2012, Mr. Romano would have received deemed earning and vesting of time-based SARs with a market value of \$554,100 and vesting of RSUs with a market value of \$19,350; Mr. Specter would have received deemed earning and vesting of time-based SARs with a market value of \$676,000 and vesting of RSUs with a market value of \$132,784; Ms. MacDowell would have received deemed earning and vesting of time-based SARs with a market value of \$306,765 and vesting of RSUs with a market value of \$23,384; Ms. Williams would have received deemed earning and vesting of time-based SARs with a market value of \$380,990 and vesting of RSUs with a market value of \$17,919; and Mr. Woolf would have received deemed earning and vesting of time-based SARs with a market value of \$495,288 and vesting of RSUs with a market value of \$28,576.

Retirement

Each of our named executive officers would be entitled to accrued salary and accrued vacation upon retirement. Under our 2003 Incentive Plan, the participant will receive a pro rated incentive award, proportionate to the part of the performance period worked by the participant, based on actual performance, unless otherwise determined by the Committee. Also, VDCP participants upon retirement who are over the age of 65, or over the age of 55 who have ten or more years of service, will be 100% vested in matched contributions. See ***Nonqualified Deferred Compensation for Fiscal 2011***.

Ms. Williams and Mr. Woolf were eligible to receive additional retirement benefits on January 28, 2012. Assuming each retired on January 28, 2012, Ms. Williams and Mr. Woolf would have received deemed earning and vesting of time-based SARs with a market value of \$562,323 and \$715,187, respectively, and vesting of RSUs with a market value of \$15,771 and \$25,146, respectively.

Voluntary Termination or Termination for Cause

Each of our named executive officers would only be entitled to accrued salary and accrued vacation upon a voluntary termination or termination for cause.

COMPENSATION OF DIRECTORS

We use a combination of cash and stock-based compensation to attract and retain qualified candidates to serve as non-employee Directors on our Board of Directors. We set compensation for non-employee Directors at a level that reflects the significant amount of time and high skill level required of Directors in performing their duties to the Company and to our shareholders. The table below summarizes the compensation paid to or earned by the Company's current and former non-employee Directors during fiscal 2011, which ended on January 28, 2012.

DIRECTOR COMPENSATION**FISCAL 2011**

- (1) The amounts reported in the "Stock Awards" column represent the grant date fair value of restricted stock units (RSUs) granted to each Director during fiscal 2011 computed in accordance with Financial Accounting Standards Board Accounting Standards Codification Topic 718, "Compensation - Stock Compensation." For information regarding significant factors, assumptions and methodologies used in our computations, see "Note 1. Summary of Significant Accounting Policies: Stock-based Compensation," and "Note 7. Stock-Based Compensation Plans" to our consolidated financial statements included in our Annual Report on Form 10-K for the fiscal year ended January 28, 2012. The amounts reflected include only time-based RSUs. Upon Ms. Price's appointment to the Board on March 23, 2011, she received a pro rated grant of 11,746 RSUs, which vested on June 1, 2011. The other non-employee Directors' RSUs, which were granted on June 24, 2010, vested on June 1, 2011. On June 16, 2011, each non-employee Director received a grant of 35,156 RSUs. As of January 28, 2012, each Director had 35,156 RSUs that remained subject to a risk of forfeiture. Mr. Appel, Mr. Blitzer, Mr. Goldstein, Ms. Hudson and Mr. Klatsky elected to defer all these RSUs upon vesting. Upon deferral, the RSUs will be settled in shares of Common Stock.
- (2) In addition to his role as a Director, the Company engaged Mr. Blitzer as a consultant as it searched for and transitioned to a new chief executive officer. Mr. Blitzer has continued to advise Mr. Romano following his appointment as President and Chief Executive Officer. As a consultant, Mr. Blitzer reports to the Chairman of the Board. He provides consulting services as and when requested by the Chairman of the Board and is paid a daily rate of \$5,200. Mr. Blitzer was paid an aggregate of \$233,358 for his services as a consultant during fiscal 2011. In fiscal 2011, the Company also made a donation of \$25,000 to Rosie's Theatre Kids (RTK). Mr. Goldstein currently serves as vice president and on the board of directors of RTK, a not-for-profit organization.
- (3) Ms. Price was appointed to the Board on March 23, 2011.

Cash Compensation Paid to Board Members

Non-employee Directors receive compensation for their services. The pay level and structure of our Board compensation program was developed in consultation with the Committee's independent compensation

consultants, formerly PM&P and now, Hay. An annual cash retainer of \$50,000 is paid to each non-employee Director for Board service, other than our Non-Executive Chairman of the Board who receives an annual cash retainer of \$100,000. Each non-employee Director who serves as a chair of a standing committee also receives an annual cash retainer to recognize the additional work required of the chair function. The retainer for the Chair of the Audit Committee is \$10,000 annually. The retainer for the other chairs of a standing committee is \$5,000. Each non-employee Director also receives a meeting fee of \$1,500 per Board meeting attended and \$750 per Board update telephonic meeting attended. No committee meeting fees are payable to Committee members except for members of the CEO Search Committee, the special committee for the consideration and exploration of certain strategic options and the IT Committee. A CEO Search Committee was established effective November 1, 2010 to recruit a permanent chief executive officer for the Company. The retainers for the Chair of the CEO Search Committee and for each member of that committee were \$4,000 per month and \$2,500 per month, respectively. Following the appointment of Mr. Romano as our new President and Chief Executive Officer on March 23, 2011, the Board dissolved the CEO Search Committee on April 27, 2011. On January 19, 2011, the Board established a special committee for the consideration and exploration of certain strategic options. This committee was dissolved on November 30, 2011. The retainers for the Chair of the special committee and for each member of that committee were \$4,000 per month and \$2,500 per month, respectively. On June 16, 2011, the Board appointed an IT Committee for the purpose of reviewing with management the approach, costs, timing and business case relating to the IT and Supply Chain transformation initiatives. The members of the IT Committee are paid a meeting fee of \$1,500 per meeting, except for Mr. Blitzer who receives no compensation for his attendance at these meetings.

Non-employee Directors are also reimbursed for certain business expenses, including their travel expenses in connection with Board and committee meeting attendance and their attendance at Director education programs. In addition, Mr. Blitzer received \$233,358 in fiscal 2011 for services provided under his consulting agreement with the Company.

Share Plan for Non-Employee Directors

Under our 2003 Non-Employee Directors Compensation Plan (the "2003 Plan"), a subplan under the 2010 Stock Award and Incentive Plan (the "2010 Plan"), each non-employee Director receives an automatic annual grant of RSUs equal to \$135,000 divided by the closing price of the Company's stock on the date of each annual meeting of shareholders. 35,156 RSUs were granted to each Director serving at that time following our 2011 Annual Meeting. Ms. Price received a pro rata grant of 11,746 RSUs upon her election to the Board on March 23, 2011. The RSUs granted to our Directors are payable in shares of Common Stock. These RSUs vest on June 1 in the year following the date of grant, subject to earlier vesting in the case of death, disability, or a change in control. As stated above, if consummated the Merger will constitute a change in control, however, outstanding RSUs will vest on June 1, 2012 prior to the consummation of the Merger. In addition, if a non-employee Director has a mandatory retirement or a voluntary termination, RSUs will vest on a pro rata basis, proportionate to the part of the year during which the non-employee Director served, with the remainder of the RSUs forfeited unless otherwise determined by the Board of Directors. Unvested RSUs will be forfeited if a non-employee Director is removed from service. On January 18, 2012, our Board of Directors amended the 2003 Plan. As amended, the automatic annual grant of RSUs to non-employee Directors will take place on June 1 each year rather than at the date of the Annual Meeting of Shareholders. The RSUs will continue to vest on June 1 in the year following the date of grant. In the case of a newly elected or appointed Director, the proration of the award amount will be calculated from June 1 rather than from the date of the last Annual Meeting. Upon a termination of a Director's service, the pro rata vesting will be similarly calculated based on a June 1 grant date. On April 30, 2012, the Board of Directors determined that the automatic grants of RSUs that were due to be granted to each non-employee Director on June 1, 2012 would not be made.

Edgar Filing: CHARMING SHOPPES INC - Form SC 14F1

Our non-employee Director compensation program for fiscal 2011 is summarized in the table below:

Pay Element	Amount
Non-Executive Chairman of the Board	\$100,000 per year
Cash for Board Service

A non-employee Director may elect to defer any cash fee into deferred shares of Common Stock or a cash-denominated deferred compensation amount. Fees are converted into deferred shares at 100% of the fair market value of shares of Common Stock on the date of conversion. Investment alternatives for cash-denominated deferred compensation balances are mutual funds which are the same as those available to management in the Company's Variable Deferred Compensation Plan for Executives, described above under the caption **Compensation Discussion and Analysis** *Nonqualified Deferred Compensation for Fiscal 2011*.

Employee Directors

Anthony M. Romano, our President and Chief Executive Officer, does not receive any additional compensation from the Company for serving on the Board.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

During fiscal 2011, Michael C. Appel, Richard W. Bennet, III, Michael Goldstein, Bruce J. Klatsky and Alan Rosskamm served as members of the Compensation Committee. No member of the Compensation Committee is or was during fiscal 2011 an employee, or ever has been an officer of, Charming or its subsidiaries, except for Mr. Rosskamm who served as our Interim Chief Executive Officer from the resignation of our former Chief Executive Officer in July 2008 until the appointment of Mr. Fogarty to the office of Chief Executive Officer in April 2009. No executive officer of Charming served as a director or a member of the compensation committee of another company, one of whose executive officers serves as a member of Charming's Board of Directors or Compensation Committee.

AUDIT COMMITTEE REPORT

The Audit Committee of the Board of Directors has submitted the following report for inclusion in this Information Statement:

Our role as the Audit Committee is to assist the Board of Directors in fulfilling its oversight responsibilities with respect to Charming's accounting and financial reporting processes, including its internal control over financial reporting, and overseeing the Company's risk management process. Specific responsibilities of the Audit Committee are set forth in the Audit Committee Charter that has been approved by the Board of Directors. As stated in the Charter, management of Charming is responsible for the preparation, presentation and integrity of financial statements, appropriateness of the accounting principles and reporting policies and establishing and maintaining effective internal control over financial reporting. Charming's independent auditors, Ernst & Young LLP, are responsible for auditing the financial statements and expressing an opinion as to their conformity with generally accepted accounting principles, reviewing the unaudited quarterly financial statements and auditing and expressing an opinion on the effectiveness of Charming's internal control over financial reporting. The activities of our Audit Committee are in no way designed to supersede or alter those traditional responsibilities.

In this context, our Audit Committee has met with management, the internal auditors, the independent auditors (including private sessions with the independent auditors, the internal auditors and members of management) and independently as an Audit Committee to discuss the overall scope, plans and results of audits, as well as the overall quality, reliability and integrity of Charming's accounting and financial reporting processes. Management represented to us that Charming's consolidated financial statements were prepared in accordance with generally accepted accounting principles, and our Audit Committee has reviewed and discussed the audited financial statements for fiscal 2011 with management and the independent auditors, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements. In addition, our Audit Committee reviewed and discussed with management, the internal auditors and independent auditors, management's assessment of internal control over financial reporting and the independent auditors' evaluation of the effectiveness of Charming's internal control over financial reporting. We also specifically discussed with the independent auditors, Ernst & Young LLP, all matters required by generally accepted auditing standards, including those described in Statement on Auditing Standards No. 61 (Communication with Audit Committees), as amended, and as adopted by the Public Company Accounting Oversight Board in Rule 3200T.

In addition, our Audit Committee has discussed with the independent auditors the auditors' independence from Charming and its management, and we received the written disclosures and letter from the independent auditors, as required by the Public Company Accounting Oversight Board Ethics and Independence Rule 3526 (Communication with Audit Committees Concerning Independence). We have concluded that the independent auditors are independent from Charming and its management. In reaching this conclusion, we also determined that the audit and permissible non-audit services provided to Charming were compatible with maintaining the independent auditors' independence.

In reliance on the review and discussions referred to above, our Audit Committee recommended to the Board of Directors, and the Board of Directors has approved, that the audited financial statements and management's report on internal control over financial reporting be included in Charming's Annual Report on Form 10-K for the fiscal year ended January 28, 2012, and all amendments thereto, for filing with the SEC.

The foregoing report is provided by the following independent Directors, who constitute the Audit Committee:

Katherine M. Hudson (Chair)

Arnaud Ajdler

Bruce J. Klatsky

Paula A. Price

RELATED PARTY TRANSACTIONS

Each Director is required to disclose to the Board of Directors any direct or indirect material interest he or she may have in a transaction with us before we enter into the transaction, and to refrain from participating in any Board of Directors decision regarding the transaction. In addition, each Director and nominee for election as Director delivers to the Company annually a questionnaire that includes, among other things, information relating to any transactions in which both the Director or nominee, or their family members, and the Company participates, and in which the Director or nominee, or such family member, has a material interest.

Our Board of Directors has adopted a written policy which requires that any transaction involving the Company in which one of our Directors, nominees for Director, executive officers, or greater than five percent shareholders, or their immediate family members, has a material interest be approved or ratified by the Corporate Governance and Nominating Committee if the amount involved is at least \$120,000. In determining whether to approve or ratify any such transaction, the disinterested members of the Corporate Governance and Nominating Committee must consider, in addition to other factors they deem appropriate, whether the transaction is on terms no less favorable to the Company than those available to an unaffiliated third party under the same or similar circumstances.

On October 13, 2010, we entered into a consulting agreement with Portsmouth Partners, LLC of which Michael J. Blitzer, a Director of the Company and nominee standing for reelection at the Meeting, is a principal. The consulting agreement was approved by the full Board of Directors, with the exception of Mr. Blitzer who recused himself. Pursuant to the consulting agreement, Mr. Blitzer provides the Company with consulting services on an as-needed basis as requested by the Chairman of the Board. The services provided by Mr. Blitzer under the consulting agreement primarily related to transitioning to a new Chief Executive Officer and now relate to functioning as a key adviser to Mr. Romano.

In consideration for his services, the Company pays Mr. Blitzer at the rate of \$5,200 (or a pro-rated portion thereof) for each full work day during which Mr. Blitzer performs consulting services for the Company, and also reimburses his actual out-of-pocket expenses and disbursements reasonably incurred in performing the consulting services. In fiscal 2011, the Company paid Mr. Blitzer \$233,358 for services rendered under the consulting agreement.

SHAREHOLDER PROPOSALS

Under the terms of our By-laws, a shareholder who intends to present an item of business at an annual meeting, excluding a nomination for Director and other than a proposal submitted for inclusion in our proxy materials (which are described separately below), must provide notice of such business to Charming not less than 60 nor more than 90 days prior to the anniversary of the date on which notice of the date of the immediately preceding annual meeting was mailed and must comply with all applicable requirements of our By-laws; provided, however, that in the event the date of the annual meeting has been changed by more than 30 days such shareholder's notice must be delivered by the later of the 60th day prior to the annual meeting or the tenth day following the day on which public disclosure of the meeting date was made. Our By-laws generally require shareholders to provide advance notice to the Company of any item of business. This notice generally must, among other things, (1) identify the name and address of the proposing shareholder and any beneficial owner; (2) state the number of shares owned of record by the proposing shareholder, beneficial owner and certain associated persons; (3) describe any interest which the proposing shareholder, beneficial owner or certain associated persons have in the proposed business; (4) describe any arrangements or understandings among the proposing shareholder, beneficial owner, certain associated persons and any other third person regarding the proposed business; (5) describe the proposed business, the reason for the proposed business and include a proposed resolution; and (6) the extent to which the nominating shareholder, any beneficial owner and certain associated persons have hedged their positions in the Company.

The full text of the relevant By-law provisions, which includes the full list of the information that must be submitted for a shareholder proposal, may be obtained upon written request directed to our Corporate Secretary.

Under the terms of our By-laws, a shareholder who intends to submit nominees to our Board of Directors, must provide notice of such nominees to Charming not less than 120 days before the first anniversary of the date of the Company's last annual meeting and must comply with all requirements of our By-laws. If the Merger and the other transactions contemplated by the Merger Agreement are successfully consummated, no annual meeting will be held in 2012.
