CHAIRMAN'S STATEMENT

Dear Shareholders,

The year of 2012 brought positive momentum for the Group's development, underpinned by China's steady economic growth and the rapid development of the information and communications technology sector. At the same time, we faced intense challenges and development pressures, including greater penetration in mobile communications and a more complex competitive landscape. The emergence of new technologies and businesses, particularly in Internet, magnified the impact and substitution effect on the traditional communications sector. Against this challenging backdrop, the Group has adhered to its strategy of speeding up its strategic transformation, deepening reform and innovation, and enhancing its management capabilities in pursuing a healthy and sustainable business growth. As a result, the Group achieved steady growth in its operating results and was able to maintain its market leading position and profitability.

Financial Results

Edgar Filing: CHINA MOBILE LTD /ADR/ - Form 6-K

In 2012, the Group's operating revenue maintained stable growth, reaching RMB560.4 billion, up 6.1% over last year. The Group continued to lead the industry in profitability, and profit attributable to equity shareholders increased 2.7% over last year to RMB129.3 billion, with the margin of profit attributable to equity shareholders reaching 23.1%. EBITDA rose 1.0% over last year to RMB253.6 billion, with EBITDA margin reaching 45.3%. Basic earnings per share grew 2.6% over last year to RMB6.43. Underpinned by a solid capital structure and strong cash flow, the Group is favourably positioned to manage risks and achieve sustainable development.

A-1

Business Development

In this competitive environment, the Group continued to focus on enhancing quality and services, furthering innovation and driving market expansion, and was able to maintain a steady business development. In 2012, the Group maintained its competitive advantage in terms of scale by expanding its total customer base to 710 million, including 87.93 million 3G customers. The net addition was 60.73 million and 36.72 million, respectively, for all customers and 3G customers. Voice services continued to develop and total voice usage volume reached 4,192.3 billion minutes, up 7.8% over last year. Data business achieved rapid growth, of which, wireless data traffic business became a major driver of operating revenue growth and accounted for an increase of 187.6% in traffic over last year. Revenue from wireless data traffic business increased by 53.6% over last year, contributing to 12.2% of the total operating revenue. The Group's corporate customer business also experienced significant growth, with the total corporate customer base expanding to 3.46 million. The Group's informationalization services for corporate customers maintained favourable growth momentum and the corporate customer dedicated-lines reached 781 thousand.

We remained committed to the mantra of "network quality is the lifeline for telecommunications companies" and that of "customers are our priority, quality service is our principle". With a focus on maintaining our industry leading position in terms of customer satisfaction with network quality, we have further enhanced our product quality and service support. We also focused on improving the customer service interface and the customer experience. We continued to strengthen customer information security and customer rights protection. We have held up our industry leading position in customer satisfaction, and recorded the lowest number of escalated customer complaints in the industry.

Strategic Transformation

The Group embraced strategic transformation and achieved progress in three areas in particular, developing our Four- Network Coordination, strengthening infrastructure resource consolidation, and expanding into the mobile Internet sector.

Our Four-Network Coordination strategy has started to show its effect. Network capacity and coverage continued to improve and traffic allocation was gradually optimized, providing strong support to our data traffic operations. We maintained our advantages in GSM network coverage and voice quality. By supporting our parent company in 3G (TD-SCDMA) network construction, we have achieved continuous 3G coverage in large and medium cities, as well as coverage for the county and above levels and for select towns, and have improved network utilization rates. We continued to refine WLAN management and improve coverage in areas with heavy traffic, and effectively allocated and channelled wireless data traffic. In cooperation with our parent company, we carried out large-scale TD-LTE trials in 15 cities, and have constructed networks of pre-commercial standard in Hangzhou, Guangzhou and Shenzhen. The trial in Hangzhou was well received by customers. We also received positive feedback from the relevant government bodies which have openly expressed their support for a faster TD-LTE development. In Hong Kong, we launched the TD-LTE/LTE FDD convergent network services. TD-LTE also accelerated its pace in internationalization, with the Global TD-LTE Initiative (GTI) currently enjoying the participation of 51 operators and 44 manufacturers. With the official launch of 14 commercial networks across the world, the TD-LTE industry continued to grow in scale.

We have enhanced our infrastructure build-up and swiftly strengthened our second mover advantages. We have upgraded our infrastructure resource capabilities including metro transmission networks, public Internet and Internet Data Centers (IDC). Through synergies with our parent company and attention to product differentiation and efficiency maximization, we are forming a full service product line focusing on corporate customer dedicated lines, IDC, convergent communications and high-end household broadband.

We embraced our mobile Internet development strategy to actively build up smart pipes, open platforms, featured services and friendly interfaces. In 2012, Mobile Market users and downloads increased dramatically. We sped up our mobile Internet deployment with initiatives such as the strategic investment in Anhui USTC and the convening of a Global Developers Conference. We also made progress in new specialty product areas, including mobile payments, cloud service, location service and intelligent voice portals. We continued to scale-up the Wireless City portals and build an operating system with a unified platform, provincial access, and centralized operations and management. With the expansion of its scope of application and scale, Internet of Things (IOT) also showed broad development potential.

Reform and Innovation

In 2012, the Group moved forward with our transformation and innovation through management centralization, operations specialization, market-oriented structures, and a more flattened organizational structure as well as standardization of procedures.

We continued to promote our specialized operations in terminal sales, corporate customers, international business, IOT, mobile Internet and other fields. China Mobile Device, together with its partners along the supply chain, is constantly enriching terminal models, enhancing product quality, and streamlining distribution channels to greatly enhance the competitiveness of its products and sales. China Mobile International is gradually forming its global network capabilities and establishing its international network and platforms. Through the launch of highly competitive products, the international business experienced steady growth.

We are proactively building centralized and standardized shared infrastructure. We have already seen successful results in building national data centers, call centers and a warehousing and logistics system. We also promoted centralized planning, manufacturing and services for our shareable infrastructure and resources to harness the advantages of economies of scale and to achieve higher efficiency and cost reduction. We vigorously pursued scientific and technological innovation to promote our organic growth and to enhance our core competitiveness. At the same time, we steadily implemented reforms in the areas of organizational structures, incentive schemes, management models and talent management. In order to refresh the vitality of our business, we also made efforts to establish the organizational structures and incentive schemes that match the strategic transformation and fit the mobile Internet era.

Corporate Governance

Abiding by corporate governance principles of integrity, transparency, openness and high efficiency, the Group instituted a sound governance structure and took practical measures to ensure best corporate governance practices. In 2012, in accordance with a series of new requirements under the Corporate Governance Code and the Listing Rules of the Hong Kong Stock Exchange, we took timely and appropriate measures to strengthen our corporate governance. We continued to improve our legal risk management system and thereby, strengthened the legal support for the Company's innovative developments and organizational reform. Furthermore, we reinforced a strict code of conduct at both the Company's managerial and employee level. We also improved our internal audit and control system by paying attention to key operational and management risks, focusing on key areas such as procurement and collaborative operations. The initiatives taken by the Group to improve the risk management systems will ensure that we are operating in an orderly, efficient and secure manner.

Corporate Social Responsibility

The Group attaches great importance to corporate social responsibility. In 2012, we actively implemented a strategy of sustainable development which enabled us to integrate social responsibility in our day-to-day operations. This entailed efforts to actively leverage the advantage of information communications technology (ICT) to create integrated economic, social and environmental value. We are committed to safeguarding communication network and information security by upholding our dedication to providing emergency and reliable telecommunication services. We maintained the goal of reducing the digital divide; since 2004, we have supported our parent company to actively promote the Village Connected Project. Through this project, we have helped a total of 111 thousand remote villages to establish basic communication facilities. In keeping to energy conservation, we furthered our Green Action Plan to utilize mature technologies while developing new energy saving applications. This year, our power consumption per unit of telecommunications traffic was reduced by 15% compared to last year. We continued to support various philanthropic activities through the China Mobile Charity Foundation. Over the past years, we trained a total of 48 thousand primary and secondary school principals in rural areas in central and western China, built 1,694 libraries and 674 multi-media classrooms, and treated 593 children with congenital heart diseases. During the five years of the China Warm 12.1 Project, we provided livelihood and educational assistance to 15 thousand children who lost their parents to AIDS or were in extreme poverty.

Resignation of Director

On 14 December 2012, Mr. Xu Long resigned from his position as an Executive Director due to work re-arrangement within the Group. On behalf of the Board, I take this opportunity to acknowledge the contributions of Mr. Xu to the Company with the highest regard and deepest gratitude.

Awards

The Group's efforts continued to receive recognition and praise. In 2012, the Group was again included in the Financial Times' FT Global 500, moving from 16th place last year to 8th place in this year's ranking. Our ranking also improved in Forbes Magazine's Global 2000 List, moving from 34th place last year to 31st place in this year's ranking. The China Mobile brand was also named one of the BRANDZ Top 100 Most Powerful Brands by Millward Brown and the Financial Times for the seventh consecutive year, ranking 10th among all companies considered and 1st among all Chinese companies. China Mobile, for the fifth consecutive year, was also the only Mainland Chinese company to be recognized by the Dow Jones Sustainability World Index. We were also included in the Hang Seng Corporate Sustainability Index for the third consecutive year and received an Excellence Award in Sustainable Development from the Hong Kong General Chamber of Commerce. In 2012, Moody's and Standard & Poor's maintained our corporate credit ratings at Aa3/Outlook Positive and AA-/Outlook Stable, respectively, equivalent to China's sovereign credit rating.

Company Dividends

In view of the Group's stable profitability in 2012 and taking into consideration its long-term future development, the Board recommends payment of a final dividend of HK\$1.778 per share for the financial year ended 31 December 2012 in accordance with the dividend payout ratio of 43% planned for the full financial year of 2012. This, together with the interim dividend of HK\$1.633 per share that was paid in 2012, amounts to an aggregate dividend payment of HK\$3.411 per share for the full financial year of 2012.

In 2013, taking into consideration various relevant factors such as the Group's overall financial condition, cash flow generating capability and the needs for future sustainable development, the Group's planned dividend payout ratio for the full year of 2013 will be 43%.

The Board believes that the Company's continuously stable profitability and strong cash flow generating capability will be able to support future sustainable development, while providing shareholders with a favorable return.

Future Outlook

China's continued steady economic growth, its modern industrialization, informationalization, urbanization, agricultural modernization with Chinese characteristics, and the drive to stimulate domestic demand and consumption policy will provide us with a broad platform for developing the information service industry. The government encourages proprietary technological innovation, and fully supports the industrialization, commercialization and internationalization of TD-LTE, which will help speed up its development as a new generation of wireless broadband technology. The era of the mobile Internet has arrived with the rapid development of ICT, mobile broadband, intelligent terminals and the cloud platforms, and as a result, is integrating information services into every aspect of our lives. All these factors have brought us opportunities for development.

The field of information and communication is experiencing dramatic changes due to continuous technological innovation and emerging new businesses. A new industry landscape is shaping up quickly. Competition among communications operators is becoming increasingly fierce due to the increasing saturation in the communications market. There is also a growing substitution effect brought by the Internet business, causing more intense cross-sector competition. As the Group's market position faces these challenges, its development is under an increasing downward pressure.

The Group's development has reached a critical turning point and is presented with a distinct strategic opportunity. Facing such challenges and opportunities, we will focus on our strategic vision "Mobile Changes Life", and the continued pursuit of strategic transformation, reform and innovation, and healthy development. We aim to enhance overall network capacity, marketing capabilities, and management and personnel execution capabilities. In terms of network capacity, we will continue to further promote the Four-Network Coordination and the building up of infrastructure resource capacity. We will actively enhance the development capability of the mobile feature service. From the perspective of our marketing capabilities, we will strengthen maintenance of the existing business, drive data traffic operations and excel in corporate customer services, as well as increase terminal sales and related marketing support. In the effort to improve management, we will continue to focus on further cost reduction and improvement of efficiency. We will promote the Group's strategic transformation and sustainable growth by focusing on fostering innovative business, exploring transformation models, accelerating structural adjustments and focusing on the quality and efficiency of development.

At the same time, we will look for appropriate investment opportunities in an active but cautious manner, striving to broaden our presence in the telecommunications market.

We will persevere and strive to create value for investors.

Notes:

1. Basis of preparation

The Group's financial statements have been prepared in accordance with all applicable International Financial Reporting Standards (IFRSs) issued by the International Accounting Standards Board (IASB), which collective term includes all applicable individual International Financial Reporting Standards, International Accounting Standards (IASs) and Interpretations issued by the IASB. Hong Kong Financial Reporting Standards (HKFRSs), which collective term includes all applicable individual Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards (HKASs) and Interpretations issued by the Hong Kong Institute of Certified Public Accountants (HKICPA) and accounting principles generally accepted in Hong Kong, are consistent with IFRSs. The financial statements also comply with HKFRSs, the requirements of the Hong Kong Companies Ordinance, and the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

2. Changes in accounting policies

The IASB has issued a number of new or revised IFRSs, which term collectively includes IASs and interpretations, that are first effective or available for early adoption for accounting periods beginning on or after 1 January 2012. The equivalent new or revised HKFRSs, which term collectively includes HKASs and Interpretations, consequently issued by HKICPA as a result of these developments have the same effective date as those issued by the IASB and are consistent with the pronouncements issued by the IASB. These developments have had no material impact on the Group's financial statements. The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period.

3. Segment reporting

An operating segment is a component of the Group that engages in business activities from which the Group may earn revenue and incur expenses, and is identified on the basis of the internal financial reports that are provided to and regularly reviewed by the Group's chief operating decision maker in order to allocate resource and assess performance of the segment. For the periods presented, the Group as a whole is an operating segment since the Group is only engaged in mobile telecommunications and related business. No Group's geographical information has been disclosed as the majority of the Group's operating activities are carried out in Mainland China (for the purpose of preparing the financial statements, Mainland China refers to the People's Republic of China (PRC) excluding the Hong Kong Special Administrative Region of the PRC (Hong Kong), the Macau Special Administrative Region of the PRC and Taiwan). The Group's assets located and operating revenue derived from activities outside Mainland China are less than 5% of the Group's assets and operating revenue, respectively.

4. Turnover

The principal activities of the Group are the provision of mobile telecommunications and related services in Mainland China and in Hong Kong.

Turnover represents voice services revenue, data services revenue and other operating revenue. Voice services revenue includes revenue derived from voice usage services (including usage fees and monthly fee) and voice value-added services. Data services revenue is mainly derived from short message services (SMS), multi-media message services (MMS), wireless data traffic, and applications and information services. Other operating revenue mainly represents interconnection revenue.

5. Other operating expenses

	2012 RMB million	2011 RMB million
Maintenance	39,184	35,096
Impairment loss of doubtful accounts	4,504	3,548
Impairment loss of inventories	313	87
Amortization of other intangible assets	68	54
Operating lease charges	12,752	11,235
Loss on disposal of property, plant and equipment	1	3
Write-off of property, plant and equipment	2,818	5,853
Auditors' remuneration	101	96
Others (Note)	78,091	69,392
	137,832	125,364

Note: Others consist of office expenses, utilities charges, travelling expenses, entertainment expenses, spectrum charges, consultancy and professional fees, consumables and supplies, labour service expenses and other miscellaneous expenses.

6. Taxation

Taxation in the consolidated statement of comprehensive income represents:

	Note	2012 RMB million	2011 RMB million
Current tax			
Provision for Hong Kong profits tax on the estimated assessable profits for the year	(i)	191	112
Provision for the PRC enterprise income tax on the estimated taxable profits for the year	(ii)	44,325	41,693
		44,516	41,805
Deferred tax			
Origination and reversal of temporary differences	(iii)	(2,597)	(1,202)
		41,919	40,603

- (i) The provision for Hong Kong profits tax is calculated at 16.5% (2011: 16.5%) of the estimated assessable profits for the year ended 31 December 2012.
- (ii) The provision for the PRC enterprise income tax is based on the statutory rate of 25% (2011: 24% 25%) on the estimated taxable profits determined in accordance with the relevant income tax rules and regulations of the PRC for the year ended 31 December 2012.
- (iii) Deferred taxes of the Group are recognized based on tax rates that are expected to apply to the periods when the temporary differences are realized or settled.

7. Earnings per share

(a) Basic earnings per share

The calculation of basic earnings per share for the year is based on the profit attributable to equity shareholders of the Company of RMB129,274,000,000 (2011: RMB125,870,000,000) and the weighted average number of 20,090,824,422 shares (2011: 20,068,193,892 shares) in issue during the year, calculated as follows:

CHINA MOBILE LIMITED

(Incorporated in Hong Kong with limited liability under the Companies Ordinance)

(Stock Code: 941)
ANNOUNCEMENT

PROPOSED CHANGE OF AUDITOR

This announcement is made by China Mobile Limited (the **Company**) pursuant to Rule 13.51(4) of the Listing Rules.

China Mobile Communications Corporation, the ultimate controlling shareholder of the Company, is a state-owned enterprise regulated by the State-owned Assets Supervision and Administration Commission of the State Council of the People's Republic of China (**SASAC**). Under the relevant requirements by the Ministry of Finance of the People's Republic of China and SASAC, there are certain limits to the number of years for which an auditor may continuously undertake financial auditing work in respect of a state-owned enterprise and its subsidiaries (the **SASAC Auditor Requirements**). In view of the SASAC Auditor Requirements, the Company has reached a mutual understanding with KPMG on the non-renewal of the appointment of KPMG, the transitional arrangements and other related matters, and agreed that after KPMG has completed the audit work in respect of the Company for the financial year ended 31 December 2012 (the **FY 2012**), the Company will not re-appoint KPMG as its auditor for the financial year ending 31 December 2013 (**FY 2013**).

As recommended by the Audit Committee of the Company, the board of directors of the Company (the **Board**) has resolved to put forward an ordinary resolution at the 2013 annual general meeting of the Company (**2013 AGM**) to appoint PricewaterhouseCoopers and PricewaterhouseCoopers Zhong Tian CPAs Limited Company (to be renamed as PricewaterhouseCoopers Zhong Tian LLP) as the auditors of the Company for FY 2013 for Hong Kong financial reporting and U.S. financial reporting purposes, respectively.

The Company has received a written confirmation from KPMG that there are no matters that need to be brought to the attention of the shareholders of the Company in connection with the above change. The Board confirms that there are no other matters that need to be brought to the attention of the shareholders of the Company in connection with the above change.

During the term of the appointment of KPMG as the Company's auditor, there were no disagreements or unresolved matter between the Company and KPMG on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure.

The Company believes that the proposed change of auditor will not affect the publication of the annual results and annual report of the Company for the year ended 31 December 2012.

The proposed appointment of auditors of the Company is subject to approval by the shareholders of the Company by way of an ordinary resolution at the 2013 AGM. In accordance with the Listing Rules, the Company will despatch to its shareholders a circular in respect of the 2013 AGM containing details of the proposed appointment of auditors.

The Board takes this opportunity to express its sincere gratitude to KPMG for the professional services it has rendered to the Company in the past years.

By Order of the Board
China Mobile Limited
Xi Guohua
Chairman

Hong Kong, 14 March 2013
