We are the third-largest producer and marketer of beer for the U.S. market and the world's leading premium wine company with a leading market position in the U.S., Canada and New Zealand. Our wine portfolio is complemented by select premium spirits brands and other select beverage alcohol products. Our internal growth has been driven by leveraging our existing portfolio of leading brands, developing new products, new packaging and line extensions, and focusing on the faster growing sectors of the beverage alcohol industry. We conduct our business through entities we wholly own as well as a variety of joint ventures with various other entities, both within and outside the U.S.

Subsidiary Guarantors	The notes will be guaranteed by our subsidiaries that are guarantors under our senior credit facility. The guarantee of a subsidiary guarantor will be released to the extent such subsidiary guarantor is released as a guarantor under our senior credit facility or the facility (or a successor thereto) is amended, refinanced, extended, substituted, replaced or renewed without such subsidiary guarantor being a guarantor of the indebtedness thereunder, or if our senior credit facility is otherwise terminated or the requirements for legal or covenant defeasance or to discharge the indenture have been met.
Securities Offered	<p>\$800,000,000 aggregate principal amount of notes consisting of:</p> <p>\$ aggregate principal amount of % Senior Notes due 2019.</p> <p>\$ aggregate principal amount of % Senior Notes due 2024.</p>
Maturity	<p>The 2019 notes will mature on , 2019.</p> <p>The 2024 notes will mature on , 2024.</p>
Interest	The 2019 notes will bear interest at a rate of % per annum and the 2024 notes will bear interest at a rate of % per annum. Interest on the notes will accrue from , 2014 and will be payable on and of each year, beginning , 2015.
Ranking	The notes will be our senior unsecured obligations, will rank equally with all of our other senior unsecured indebtedness, and will be effectively subordinated to the indebtedness outstanding under our senior credit facility from time to time and any other secured debt we may incur to the extent of the value of the assets securing such debt. The notes will be fully and unconditionally guaranteed on a senior basis, jointly and severally, by the subsidiaries that are guarantors under our senior credit facility. Each guarantee will be effectively subordinated to any secured obligations of the subsidiary guarantors to the extent of the value of the assets securing such debt. Holders of the notes will not have a direct claim on assets of subsidiaries that do not guarantee the notes and the notes will be structurally subordinated to all indebtedness and liabilities of our subsidiaries that do not guarantee the notes, including borrowings under our accounts receivable securitization facilities and under European credit facilities in favor of an indirect wholly-owned Luxembourg subsidiary of the Company.

Table of Contents

As of August 31, 2014, as adjusted to give effect to the issuance of the notes and redemption of our 8.375% Senior Notes due 2014, we would have had approximately (i) \$7.5 billion aggregate principal amount of senior indebtedness outstanding, of which approximately \$3.0 billion was secured, (ii) \$725.9 million of available undrawn revolving commitments under the revolving portion of our senior credit facility and (iii) \$424.0 million available for borrowing under our accounts receivable securitization facilities. As of August 31, 2014, our non-guarantor subsidiaries had approximately \$2.4 billion of liabilities. For the fiscal year ended February 28, 2014 and the six months ended August 31, 2014, approximately \$625.7 million and \$318.4 million, respectively, of our net sales were from our subsidiaries that are not guarantors of the notes. See Capitalization.

Optional Redemption

We may, at our option, redeem some or all of the notes of either series at any time at a redemption price equal to the greater of

100% of the principal amount of the notes being redeemed; and

the sum of the present values of the remaining scheduled payments of principal and interest on the notes being redeemed (excluding interest accrued to the redemption date) from the redemption date to the maturity date of the applicable series of notes discounted to the date of redemption on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at a discount rate equal to the applicable Treasury Rate (as defined in this prospectus supplement) plus 50 basis points.

We will also pay the accrued and unpaid interest on the notes to the redemption date.

Repurchase at the Option of Holders Upon a Change of Control

If we experience a change of control (as defined in this prospectus supplement), we must offer to repurchase all the notes at a purchase price equal to 101% of the principal amount, plus accrued and unpaid interest, if any, to the repurchase date. We might not be able to pay you the required price for notes you present to us at the time of a change of control because our senior credit facility or other indebtedness may prohibit payment or we might not have enough funds at that time.

Sinking Fund

None.

Covenants

The indenture under which we will issue the notes contains covenants that, among other things, limit our ability under certain circumstances to create liens, enter into sale-leaseback transactions and engage in mergers, consolidations and sales of all or substantially all of our assets. See Description of the Notes and the Guarantees.

Table of Contents

Use of Proceeds

We intend to use the net proceeds from this offering to redeem prior to maturity our 8.375% Senior Notes due 2014 in the aggregate principal amount of \$500 million and for general corporate purposes. See Use of Proceeds.

Conflicts of Interest

Certain of the underwriters or their affiliates may hold positions in our outstanding 8.375% Senior Notes due 2014 and thus may receive a portion of the net proceeds from the sale of the notes through the redemption of our 8.375% Senior Notes due 2014. We have been advised that at least 5% of the net proceeds may be directed to one or more of such underwriters or their affiliates which would be considered a conflict of interest under Financial Regulatory Authority, Inc. (FINRA) Rule 5121. As such, this offering is being conducted in accordance with the applicable requirements of Rule 5121. See Underwriting (Conflicts of Interest).

Risk Factors

An investment in the notes involves a high degree of risk. Potential investors should carefully consider the risk factors set forth under the heading Risk Factors and in the documents incorporated by reference herein prior to making a decision to invest in the notes.

Table of Contents

RISK FACTORS

You should carefully consider the risks described below and in our documents filed with the SEC and incorporated by reference herein, as well as other information included in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference in this prospectus supplement and the accompanying prospectus before buying any of the notes.

Risks Relating to the Company

You should carefully consider the risks factors and other cautionary statements included in our annual report on Form 10-K for the fiscal year ended February 28, 2014 and in other documents filed with the SEC and incorporated by reference herein.

Risks Relating to the Notes

The notes are unsecured and will be effectively subordinated to our secured debt to the extent of the value of the assets securing such debt.

The notes will not be secured by any of our assets. As of August 31, 2014, as adjusted to give effect to the issuance of the notes and redemption of our 8.375% Senior Notes due 2014, we would have had approximately \$3.0 billion of secured debt and approximately \$725.9 million of unused commitments (taking into account issued and outstanding revolving letters of credit of approximately \$14.1 million) under our revolving credit facility. In addition, \$424.0 million was available for borrowing under our accounts receivable securitization facilities. Our obligations under our senior credit facility are currently secured by a pledge of (i) 100% of the ownership interests of certain of our U.S. subsidiaries, (ii) 65% of certain interests of certain of our foreign subsidiaries, and (iii) with respect to obligations of a foreign subsidiary, 100% of certain interests of certain of its subsidiaries. In addition, the indenture governing the notes will permit us and our subsidiaries to incur certain additional debt that is secured by liens on our assets without equally and ratably securing the notes. If the Company becomes insolvent or is liquidated, or if payment under our secured debt is accelerated, the holders of our secured debt would be entitled to exercise the remedies available to a secured lender under applicable law and pursuant to the agreement governing such debt. In any such event, because the notes will not be secured by any of our assets, it is possible that there would be no assets remaining from which claims of the holders of the notes could be satisfied following repayment of our secured debt or, if any such assets remained, such assets might be insufficient to satisfy such claims fully.

Our ability to make payments on the notes depends on our ability to receive dividends from our subsidiaries, and not all of our subsidiaries are guarantors of the notes. The notes will be structurally subordinated to all indebtedness and other liabilities of our subsidiaries that do not guarantee the notes.

We are a holding company and conduct almost all of our operations through our subsidiaries. As of August 31, 2014, approximately 93.8% of our tangible assets were held by our subsidiaries. The ownership interests of our subsidiaries represent substantially all the assets of the holding company. Accordingly, we are dependent on the cash flows of our subsidiaries to meet our obligations, including the payment of the principal and interest on the notes. See Description of the Notes and the Guarantees.

The notes will be guaranteed, jointly and severally, by our subsidiaries that guarantee our senior credit facility. Holders of the notes will not have a direct claim on assets of subsidiaries that do not guarantee the notes and the notes will be structurally subordinated to all indebtedness and liabilities of our subsidiaries that do not guarantee the notes, including any borrowings under our accounts receivable securitization facilities and under our European credit facilities in favor of an indirect wholly-owned Luxembourg subsidiary of the Company. For the fiscal year ended February 28, 2014 and the six months ended August 31, 2014, approximately \$625.7 million and \$318.4 million, respectively, of our net sales were from our subsidiaries that are not guarantors of the notes. As of August 31, 2014, our non-guarantor subsidiaries had approximately \$2.4 billion of liabilities.

Table of Contents

The subsidiary guarantees may be subject to challenge under fraudulent transfer laws.

Under U.S. bankruptcy law and comparable provisions of state fraudulent transfer laws, a court could subordinate or void any guarantee if it found that the guarantee was incurred with actual intent to hinder, delay or defraud creditors or the guarantor did not receive fair consideration or reasonably equivalent value for the guarantee and the guarantor was any of the following: (i) insolvent or was rendered insolvent because of the guarantee; (ii) engaged in a business or transaction for which its remaining assets constituted unreasonably small capital; or (iii) intending to incur, or believed that it would incur, debts beyond its ability to pay at maturity. To the extent any guarantee were to be voided as a fraudulent conveyance or held unenforceable for any other reason, holders of the notes would cease to have any claim in respect of such guarantor and would be creditors solely of us and any guarantor whose guarantee was not voided or held unenforceable. In such event, the claims of the holders of the notes against the issuer of an invalid guarantee would be subject to the prior payment of all liabilities of such guarantor. There can be no assurance that, after providing for all prior claims, there would be sufficient assets to satisfy the claims of the holders of the notes relating to any voided guarantee.

The subsidiary guarantees may be limited in duration.

Each subsidiary guarantor will guarantee our obligations under the notes only for so long as each subsidiary guarantor is a guarantor under our senior credit facility. If any or all of the subsidiary guarantees are released or terminated or no longer required under our senior credit facility, such subsidiary guarantee(s) will be released under the indenture. The indenture does not contain any covenants that materially restrict our ability to sell, transfer or otherwise dispose of our assets, including the ownership interests of our subsidiaries, or the assets of any of our subsidiaries, except as described under the caption **Description of Debt Securities Consolidation, Merger, Sale or Conveyance** in the accompanying prospectus.

We may not be able to repurchase the notes upon a change of control.

Upon the occurrence of specific kinds of change of control events, each holder of notes will have the right to require us to repurchase all or any part of such holder's notes at a price equal to 101% of their principal amount, plus accrued and unpaid interest, if any, to the repurchase date. Our senior credit facility currently also provides that certain change of control events constitute a default. Any future credit agreement or other agreements relating to indebtedness to which we become a party may contain similar provisions. If we experience a change of control that triggers a default under our senior credit facility, such default could result in amounts outstanding under our senior credit facility being declared due and payable. We would be prohibited from purchasing the notes unless, and until, such time as our indebtedness under our senior credit facility was repaid in full. There can be no assurance that either we or our subsidiary guarantors would have sufficient financial resources available to satisfy all of our or their obligations under our senior credit facility and these notes in the event of a change of control. Our failure to purchase the notes as required under the indenture governing the notes would result in a default under the indenture, which could have material adverse consequences for us and the holders of the notes. See **Description of the Notes and the Guarantees Repurchase at the Option of Holders Upon a Change of Control**.

Table of Contents

USE OF PROCEEDS

We estimate that the net proceeds from the sale of the notes will be approximately \$789.5 million (after deducting underwriter discounts and commissions and estimated offering expenses). We intend to use the net proceeds from this offering to redeem prior to maturity our 8.375% Senior Notes due 2014 in the aggregate principal amount of \$500 million and for general corporate purposes. Pending any such uses we will invest the proceeds in short-term, interest-bearing instruments. Certain of the underwriters or their affiliates may hold positions in our outstanding 8.375% Senior Notes due 2014 and thus may receive a portion of the net proceeds from the sale of the notes through the redemption of our 8.375% Senior Notes due 2014. See Underwriting (Conflicts of Interest).

DESCRIPTION OF THE NOTES AND THE GUARANTEES

The following discussion of the terms of the notes supplements the description of the general terms and provisions of the debt securities contained in the accompanying prospectus and identifies any general terms and provisions described in the accompanying prospectus that will not apply to the notes.

Unless the context requires otherwise, references in this section to we, us, our and the Company refer to Constellation Brands, Inc. only and not to its subsidiaries. Unless otherwise defined herein, capitalized terms used in the description below have the definitions given to them under Certain Definitions below.

General

The notes will be issued under an indenture and separate supplemental indentures thereto (together, the *indenture*), among us, Manufacturers and Traders Trust Company, as trustee, and the guarantors named therein. You should read the accompanying prospectus for a general discussion of the terms and provisions of the indenture.

The indenture does not limit the amount of notes, debentures or other evidences of indebtedness that we may issue thereunder and provides that notes, debentures or other evidences of indebtedness may be issued from time to time thereunder in one or more series. We are initially offering the 2019 notes in the principal amount of \$ and we are initially offering the 2024 notes in the principal amount of \$. Each of the 2019 notes and the 2024 notes are sometimes referred to herein as a series of notes. At any time following the issuance of the notes, we may, without the consent of the holders, issue additional notes (which are referred to as such below) of either or both series and thereby increase that principal amount in the future, on the same terms and conditions and with the same respective CUSIP numbers as the notes we offer by this prospectus supplement.

The 2019 notes will mature on , 2019 and will bear interest at a rate of % per year. The 2024 notes will mature on , 2024 and will bear interest at a rate of % per year. Interest on the notes will accrue from , 2014 or from the most recent interest payment date to which interest has been paid or duly provided for. We will pay interest on the notes semi-annually on and of each year, beginning , 2015. In each case, we:

will pay interest to the person in whose name a note is registered at the close of business on the or preceding the interest payment date;

will compute interest on the basis of a 360-day year consisting of twelve 30-day months;

will make payments on the notes at the offices of the trustee; and

may make payments by wire transfer for notes held in book-entry form or by check mailed to the address of the person entitled to the payment as it appears in the note register.

If any interest payment date or maturity or redemption date falls on a day that is not a business day, the required payment shall be made on the next business day as if it were made on the date such payment was due and no interest shall accrue on the amount so payable from and after such interest payment date or maturity or redemption date, as the case may be, to such next business day. Business day means any day that is not a day on which banking institutions in The City of New York are authorized or required by law or by executive order issued by a governmental authority or agency regulating such banking institutions, to close.

We will issue the notes only in fully registered form, without coupons, in denominations of \$2,000 and any integral multiple of \$1,000 in excess thereof.

Subsidiary Guarantees

Edgar Filing: HOGUE CELLARS, LTD. - Form 424B3

Our obligations under the indenture and the notes, including the payment of principal of, and premium, if any, and interest on, the notes, will be fully and unconditionally guaranteed by the subsidiaries of the Company

S-12

Table of Contents

that are guarantors of the Company's obligations under our senior credit facility, provided that the guarantee of a subsidiary guarantor will be released to the extent such subsidiary guarantor is released as a guarantor under our senior credit facility or the facility (or a successor thereto) is amended, refinanced, extended, substituted, replaced or renewed without such subsidiary guarantor being a guarantor of the indebtedness thereunder, or if our senior credit facility is otherwise terminated or the requirements for legal or covenant defeasance or to discharge the indenture have been met.

The subsidiary guarantors' guarantees will be joint and several obligations.

The guarantees will be senior unsecured obligations of each subsidiary guarantor and will rank equally with all of the other senior unsecured obligations of the subsidiary guarantor. Each guarantee will be effectively subordinated to any secured obligations of the subsidiary guarantors. The obligations of each subsidiary guarantor under its guarantee will provide that it be limited as necessary to prevent that guarantee from constituting a fraudulent conveyance under applicable law.

If a guarantee were rendered voidable, it could be subordinated by a court to all other liabilities and obligations (including guarantees and other contingent liabilities) of the applicable subsidiary guarantor, and depending on the amount of such liabilities and obligations, a subsidiary guarantor's liability on its guarantee could be reduced to zero.

The indenture will not contain any restrictions on the ability of any subsidiary guarantor to (i) pay dividends or distributions on, or redeem, purchase, acquire, or make a liquidation payment with respect to, any of that subsidiary guarantor's ownership interests, (ii) make any payment of principal, premium, if any, or interest on or repay, repurchase or redeem any debt securities of that subsidiary guarantor or (iii) consolidate with, merge with or into, or transfer all or substantially all of its assets to another person or entity. If a subsidiary guarantor is merged or consolidated with or into another person that is the surviving company in that merger or consolidation and (a) the surviving company becomes a guarantor under our senior credit facility, then the indenture will require that the surviving company expressly assume the obligations of the subsidiary guarantor under its guarantee or (b) the surviving company is not a guarantor under our senior credit facility and we deliver an officer's certificate to the trustee to that effect, then the surviving company will be released from any obligations under the guarantee of the subsidiary which was so merged or consolidated.

Ranking

The notes of each series will be our senior unsecured obligations and will rank equally with all of our other senior unsecured indebtedness and will be effectively subordinated to the indebtedness outstanding under our senior credit facility from time to time and any other secured debt we may incur. The notes of each series will be fully and unconditionally guaranteed on a senior basis, jointly and severally, by the subsidiaries that are guarantors under our senior credit facility, subject to the release provisions described above. Each guarantee will be effectively subordinated to any secured obligations of the subsidiary guarantors to the extent of the value of the assets securing such debt. These subsidiary guarantors also guarantee our obligations under our senior credit facility. Our senior credit facility is currently secured by a pledge of the ownership interests of certain of our subsidiaries and by certain intercompany debt subject to certain tax exclusions. The notes will also be structurally subordinated to all indebtedness and other liabilities of our subsidiaries that do not guarantee the notes.

We are a holding company and conduct almost all of our operations through our subsidiaries. Consequently, our ability to pay our obligations, including our obligation to pay interest on the notes and to repay the principal amount of the notes at maturity, upon redemption, upon acceleration or otherwise will depend upon our subsidiaries' earnings and advances or loans made by them to us (and potentially dividends or distributions made by them to us). Our subsidiaries are separate and distinct legal entities and, except for the subsidiary guarantors' obligations under the subsidiary guarantees, have no obligation, contingent or otherwise, to pay any amounts due on the notes or to make funds available to us to do so. Our subsidiaries' ability to make advances or loans to us or

Table of Contents

to pay dividends or make other distributions to us will depend upon their operating results and will be subject to applicable laws and contractual restrictions, if any. The indenture will not limit our subsidiaries' ability to enter into other agreements that prohibit or restrict dividends or other payments or advances to us. Except with respect to the covenants described below under *Limitation upon Liens* and *Limitation on Sale and Leaseback Transactions*, the indenture does not restrict or limit the ability of any subsidiary to incur, create, assume or guarantee indebtedness or encumber its assets or properties. As of August 31, 2014, as adjusted to give effect to the issuance of the notes and redemption of our 8.375% Senior Notes due 2014, we would have had approximately (i) \$7.5 billion aggregate principal amount of senior indebtedness outstanding, of which approximately \$3.0 billion was secured, (ii) \$725.9 million of unused commitments (taking into account issued and outstanding revolving letters of credit of approximately \$14.1 million) under our revolving credit facility and (iii) \$424.0 million available for borrowing under our accounts receivable securitization facilities. As of August 31, 2014, our non-guarantor subsidiaries had approximately \$2.4 billion of liabilities. See *Capitalization*.

Optional Redemption

We may redeem the notes of each series in whole or in part at any time or in part from time to time, at our option, at a redemption price equal to the greater of:

100% of the principal amount of the notes to be redeemed; and

the sum of the present values of the remaining scheduled payments of principal and interest (excluding interest accrued to the redemption date) on the notes discounted to the date of redemption on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the applicable Treasury Rate plus 50 basis points, plus, in each case, accrued and unpaid interest on the principal amount being redeemed to the redemption date.

Treasury Rate means, with respect to any redemption date, (1) the yield, under the heading which represents the average for the immediately preceding week, appearing in the most recently published statistical release designated H.15(519) or any successor publication which is published weekly by the Board of Governors of the Federal Reserve System and which establishes yields on actively traded United States Treasury securities adjusted to constant maturity under the caption *Treasury Constant Maturities*, for the maturity corresponding to the Comparable Treasury Issue (if no maturity is within three months before or after the remaining term of the notes to be redeemed, yields for the two published maturities most closely corresponding to the Comparable Treasury Issue will be determined and the Treasury Rate will be interpolated or extrapolated from such yields on a straight line basis, rounding to the nearest month) or (2) if such release (or any successor release) is not published during the week preceding the calculation date or does not contain such yields, the rate per year equal to the semi-annual equivalent yield-to-maturity of the Comparable Treasury Issue, calculated using a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such redemption date. The Treasury Rate will be calculated on the third Business Day preceding the redemption date.

Comparable Treasury Issue means the United States Treasury security selected by an Independent Investment Banker as having a maturity comparable to the remaining term of the notes to be redeemed.

Comparable Treasury Price means (1) the average of four Reference Treasury Dealer Quotations for such redemption date, after excluding the highest and lowest Reference Treasury Dealer Quotations, or (2) if the Independent Investment Banker obtains fewer than four such Reference Treasury Dealer Quotations, the average of all such quotations.

Independent Investment Banker means any of Merrill Lynch, Pierce, Fenner & Smith Incorporated, J.P. Morgan Securities LLC, Rabo Securities USA, Inc., Wells Fargo Securities, LLC or SunTrust Robinson

Table of Contents

Humphrey, Inc. and their successors, or, if Merrill Lynch, Pierce, Fenner & Smith Incorporated, J.P. Morgan Securities LLC, Rabo Securities USA, Inc., Wells Fargo Securities, LLC or SunTrust Robinson Humphrey, Inc. are unwilling or unable to select the Comparable Treasury Issue, an independent investment banking institution of national standing selected by us and appointed by the trustee after consultation with and upon the instruction of us.

Reference Treasury Dealer means any of (1) Merrill Lynch, Pierce, Fenner & Smith Incorporated, J.P. Morgan Securities LLC, Rabo Securities USA, Inc., Wells Fargo Securities, LLC or SunTrust Robinson Humphrey, Inc., or their successors; *provided, however*, that if Merrill Lynch, Pierce, Fenner & Smith Incorporated, J.P. Morgan Securities LLC, Rabo Securities USA, Inc., Wells Fargo Securities, LLC or SunTrust Robinson Humphrey, Inc., shall cease to be a primary U.S. Government securities dealer in New York City, which we refer to as a Primary Treasury Dealer, we will substitute another Primary Treasury Dealer and (2) any one other Primary Treasury Dealer selected by the Independent Investment Banker after consultation with us.

Reference Treasury Dealer Quotations means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by the Independent Investment Banker, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the Independent Investment Banker at 5:00 p.m., New York City time, on the third Business Day preceding such redemption date.

We are required to notify the trustee of an optional redemption at least 30 and not more than 60 days before the date fixed for redemption. Holders of notes to be redeemed will be sent a redemption notice by the trustee by first-class mail at least 10 and not more than 60 days before the date fixed for redemption. If fewer than all of the notes of a series are to be redeemed, the trustee will select, not more than 60 days and not less than 30 days before the redemption date, the particular notes or portions of the notes for redemption from the outstanding notes of the applicable series not previously called substantially pro rata or by lot in such manner as it shall deem appropriate and fair. Unless we default in payment of the redemption price, on and after the redemption date, interest will cease to accrue on the notes or portions of the notes called for redemption.

Repurchase at the Option of Holders Upon a Change of Control

Upon the occurrence of a Change of Control, each holder of notes will have the right to require us to repurchase all or any part of such holder's notes (except that no note will be purchased in part if the remaining principal amount of such note would be less than \$2,000) pursuant to the offer described below (the *Change of Control Offer*) at a purchase price (the *Change of Control Purchase Price*) equal to 101% of the principal amount of the notes to be repurchased, plus accrued and unpaid interest to, but excluding, the repurchase date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date).

Within 30 days following any Change of Control, we will:

- (a) cause a notice of the Change of Control Offer to be sent at least once to the Dow Jones News Service or similar business news service in the United States; and
- (b) send, by first-class mail, with a copy to the trustee, to each holder of notes, at such holder's address appearing in the security register, a notice stating:
 - (1) that a Change of Control has occurred and a Change of Control Offer is being made pursuant to the covenant entitled Repurchase at the Option of Holders Upon a Change of Control and that all notes timely tendered will be accepted for payment;
 - (2) the Change of Control Purchase Price and the repurchase date, which will be, subject to any contrary requirements of applicable law, a business day no earlier than 30 days nor later than 60 days from the date the notice is mailed;

Table of Contents

(3) the circumstances and relevant facts regarding the Change of Control (including information with respect to our *pro forma* consolidated historical income, cash flow and capitalization after giving effect to the Change of Control); and

(4) the procedures that holders of notes must follow in order to tender their notes (or portions thereof) for payment, and the procedures that holders of notes must follow in order to withdraw an election to tender notes (or portions thereof) for payment.

We will not be required to make a Change of Control Offer following a Change of Control if a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the indenture applicable to a Change of Control Offer made by us and purchases all notes validly tendered and not withdrawn under such Change of Control Offer.

We will comply, to the extent applicable, with the requirements of Section 14(e) of the Securities Exchange Act of 1934, as amended (the *Exchange Act*), and any other securities laws or regulations in connection with the repurchase of notes pursuant to a Change of Control Offer. To the extent that the provisions of any securities laws or regulations conflict with the provisions of the indenture or the notes, we will comply with the applicable securities laws and regulations and will not be deemed to have breached our obligations under the indenture or the notes by virtue of this compliance.

We have no present intention to engage in a transaction involving a Change of Control, although it is possible that we would decide to do so in the future. We could, in the future, enter into certain transactions, including acquisitions, refinancings or other recapitalizations, that would not constitute a Change of Control, but that could increase the amount of debt outstanding at such time or otherwise affect our capital structure or credit ratings.

The definition of Change of Control includes a phrase relating to the sale, transfer, assignment, lease, conveyance or other disposition of all or substantially all of our property. Although there is a developing body of case law interpreting the phrase substantially all, there is no precise established definition of the phrase under applicable law. Accordingly, if we and our subsidiaries, considered as a whole, dispose of less than all of our property by any of the means described above, the ability of a holder of notes to require us to repurchase its notes may be uncertain. In such a case, holders of the notes may not be able to resolve this uncertainty without resorting to legal action.

Sinking Fund

The notes will not have the benefit of any sinking fund.

Reports to the Trustee

We are required to provide the trustee with an officers' certificate each fiscal year stating that we reviewed our activities during the preceding fiscal year and that, after reasonable investigation and inquiry by the certifying officers, we are in compliance with the requirements of the indenture.

Limitation Upon Liens

The indenture provides that, so long as any of the notes of a series remain outstanding, we will not and will not permit any Subsidiary to issue, assume or guarantee any Funded Debt that is secured by a mortgage, pledge, security interest or other lien or encumbrance (a *lien*) upon or with respect to any Principal Property or on the Capital Stock of any Subsidiary that owns a Principal Property unless:

we secure the notes of such series equally and ratably with (or prior to) any and all Funded Debt secured by that lien, or

Table of Contents

in the case of Funded Debt other than Capital Markets Debt, immediately after giving effect to the granting of any such lien and the incurrence of any Funded Debt in connection therewith, the Company's Consolidated Fixed Charge Coverage Ratio would be greater than 2.0 to 1.0.

The above limitations will not apply to some types of permitted liens. These permitted liens include:

liens existing as of the date of the issuance of the notes (excluding liens securing our senior credit facility);

liens securing our senior credit facility in an amount not to exceed the maximum amount permitted to be outstanding under our existing senior credit facility (including the incremental facilities contemplated thereunder);

liens on property or assets of, or any shares of stock securing Funded Debt of, any corporation or other Person existing at the time such corporation or other Person becomes a Subsidiary;

liens on property, assets or shares of stock securing Funded Debt existing at the time of an acquisition, including an acquisition through merger or consolidation, and liens to secure Funded Debt incurred prior to, at the time of or within 180 days after the later of the completion of the acquisition, or the completion of the construction and commencement of the operation of any such property, for the purpose of financing all or any part of the purchase price or construction cost of that property;

liens to secure specified types of development, operation, construction, alteration, repair or improvement costs;

liens in favor of, or which secure Funded Debt owing to, the Company or a Subsidiary;

liens in connection with government contracts, including the assignment of moneys due or to come due on those contracts;

certain types of liens in connection with legal proceedings;

certain types of liens arising in the ordinary course of business and not in connection with the borrowing of money such as mechanics', materialmen's, carriers' or other similar liens;

liens on property securing obligations issued by a domestic governmental issuer to finance the cost of an acquisition or construction of that property; and

extensions, substitutions, replacements, refinancings or renewals (or successive extensions, substitutions, replacements, refinancings or renewals), in whole or in part, of the foregoing or of Funded Debt secured in reliance on the second bullet point under the first paragraph above, in each case, if the principal amount of the Funded Debt secured thereby is not increased and is not secured by any additional assets.

Limitation on Sale and Leaseback Transactions

The indenture provides that, so long as any of the notes remain outstanding, neither we nor any Subsidiary may enter into any arrangement with any Person (other than ourselves or any Subsidiary) where we or a Subsidiary agree to lease any Principal Property which has been or is to be sold or transferred more than 120 days after the later of (i) such Principal Property having been acquired by us or a Subsidiary and

Edgar Filing: HOGUE CELLARS, LTD. - Form 424B3

(ii) completion of construction and commencement of full operation thereof, by us or a Subsidiary to that person (a *Sale and Leaseback Transaction*). Sale and Leaseback Transactions with respect to facilities financed with specified tax exempt securities are excepted from the definition. This covenant does not apply to leases of a Principal Property for a term of less than three years.

This limitation also does not apply to any Sale and Leaseback Transaction if:

the net proceeds to the Company or a Subsidiary from the sale or transfer equal or exceed the fair value, as determined by our Board of Directors, of the Principal Property so leased,

S-17

Table of Contents

immediately after giving effect to such Sale and Leaseback Transaction, the Company's Consolidated Fixed Charge Coverage Ratio would be greater than 2.0 to 1.0, or

we, within 120 days after the effective date of the Sale and Leaseback Transaction, apply an amount equal to the fair value as determined by the Company's Board of Directors of the Principal Property so leased to:

the prepayment or retirement of our Funded Debt, which may include the notes; or

the acquisition of additional real property.

Events of Default

The events of default applicable to the notes of each series will consist of the following:

failure to pay the principal of, or premium, if any, on any of the notes of such series when due and payable (whether at maturity, by call for redemption, by declaration of acceleration or otherwise);

failure to make a payment of any interest on any note of such series when due and payable, which failure shall have continued for a period of 30 days;

our, or any subsidiary guarantor's, failure to perform or observe any other covenants or agreements in the indenture, with respect to the notes of such series or in the notes of such series which failure shall have continued for a period of at least 90 days after written notice to us or the guarantors, as the case may be, by the trustee or to us and the trustee from the holders of not less than 25% of the aggregate principal amount of the then outstanding notes of such series provided, that, notwithstanding the foregoing, in no event shall an event of default with respect to any failure by us to comply with the reporting provisions of the indenture or any failure by us to comply with the requirements of Section 314(a)(1) of the Trust Indenture Act (which relates to the provision of reports) be deemed to have occurred unless (x) such report is past due hereunder by at least 180 days and (y) such failure to comply has not been cured or waived prior to the 90th day after written notice to us by the trustee or to us and the trustee from the holders of not less than 25% of the aggregate principal amount of the then outstanding notes of such series;

failure to make any payment after the maturity of any indebtedness of ours with an aggregate principal amount in excess of \$100.0 million or the acceleration of indebtedness of ours with an aggregate principal amount in excess of \$100.0 million as a result of a default with respect to such indebtedness, and such indebtedness, in either case, is not discharged or such acceleration is not cured, waived, rescinded or annulled within a period of 30 days after we receive written notice;

certain events of bankruptcy, insolvency or reorganization of us; or

any guarantee of the notes of such series of a subsidiary guarantor that is a significant subsidiary shall for any reason cease to be, or be asserted in writing by any subsidiary guarantor thereof or us not to be, in full force and effect, and enforceable in accordance with its terms except as provided in the indenture.

Modification of the Indenture

The indenture contains provisions permitting us, the subsidiary guarantors and the trustee to amend or supplement the indenture with respect to the notes of either series or the notes of such series with the consent of the holders of a majority in principal amount of the notes of such series then outstanding. If any additional notes of either series are issued under the indenture, such notes would constitute part of the same series of

Edgar Filing: HOGUE CELLARS, LTD. - Form 424B3

debt securities as the respective notes offered hereby and would be included in determining whether the holders of the requisite percentage of notes of such series had provided any instruction or consented to any amendment. However, any debt securities (other than additional notes) that may be issued under the indenture will not vote together with the notes of either series and any additional notes of such series that we issue. In any event, no

S-18

Table of Contents

amendment or supplement may, among other things, (a) extend the final maturity of any note, or reduce the rate or extend the time of payment of any interest on any note, or reduce the principal amount of any note, premium on any note, or reduce any amount payable upon any redemption of any note, or (b) reduce the percentage of principal amount of the notes of a series that is required to approve an amendment or supplement to the indenture in each case, without the consent of the holder of each note so affected.

Legal Defeasance

We may be discharged from any and all obligations in respect of the notes of a series (except for certain obligations to register the transfer or exchange of such notes, to replace stolen, destroyed, lost or mutilated notes of such series, to maintain paying agencies, to compensate and indemnify the trustee and to furnish the trustee with the names and addresses of holders of notes of such series), which we refer to as *defeasance*, if:

we irrevocably deposit with the trustee, in trust, cash and/or securities of the United States government, or securities of agencies of the United States government backed by the full faith and credit of the United States government, in an amount certified by a nationally recognized firm of independent public accountants to be sufficient to pay the principal of and interest on the notes of such series on the applicable due dates for those payments in accordance with the terms of such notes;

we deliver to the trustee either (i) an opinion of counsel, based on a ruling of the United States Internal Revenue Service (unless there has been a change in the applicable United States federal income tax law), to the effect that the holders of the notes of such series will not recognize income, gain or loss for United States federal income tax purposes as a result of such defeasance and will be subject to United States federal income tax on the same amounts and in the same manner and at the same times as would have been the case if the defeasance had not occurred or (ii) a ruling of the United States Internal Revenue Service directed to the trustee to the same effect as set forth in clause (i) above;

immediately after giving effect to the deposit specified in the first bullet point, no event of default with respect to the notes of such series shall have occurred and be continuing on the date of deposit or, with respect to defaults occurring upon certain events of bankruptcy, insolvency or reorganization relating to us, at any time during the period ending on the 91st day after the date of the deposit; and

we deliver to the trustee an officers' certificate and an opinion of counsel each stating that we have complied with all of the above requirements.

Defeasance of Certain Obligations

We may omit to comply with certain covenants with respect to the notes of a series, and any such omission will not constitute an event of default with respect to the notes, which we refer to as *covenant defeasance*, if:

we irrevocably deposit with the trustee, in trust, cash and/or securities of the United States government, or securities of agencies of the United States government backed by the full faith and credit of the United States government, in an amount certified by a nationally recognized firm of independent public accountants to be sufficient to pay the principal of and interest on the notes of such series on the applicable due dates for those payments in accordance with the terms of such notes;

we deliver to the trustee an opinion of counsel to the effect that the holders of the notes of such series will not recognize income, gain or loss for United States federal income tax purposes as a result of such covenant defeasance and will be subject to United States federal income tax on the same amounts and in the same manner and at the same times as would have been the case if the covenant defeasance had not occurred;

Edgar Filing: HOGUE CELLARS, LTD. - Form 424B3

immediately after giving effect to the deposit specified in the first bullet point, on a pro forma basis, no event of default with respect to the notes of such series shall have occurred and be continuing on the date

of the deposit or, with respect to defaults occurring upon certain events of bankruptcy, insolvency or reorganization relating to us, at any time during the period ending on the 91st day after the date of the deposit;

if the notes of such series are then listed on a national securities exchange, we deliver to the trustee an opinion of counsel to the effect that the notes of such series will not be delisted as a result of such covenant defeasance; and

we deliver to the trustee an officers' certificate and an opinion of counsel each stating that we have complied with all of the above requirements.

If we exercise our option to effect a defeasance or covenant defeasance with respect to the notes of a series, as described above, and the trustee or paying agent is unable to apply any money or securities that we have deposited because of any legal proceeding or any order or judgment of any court or governmental authority, in each case our obligations under the indenture with respect to such series of notes and the notes of such series will be revived and reinstated.

Certain Definitions

The terms set forth below are defined in the indenture as follows:

Board of Directors means our board of directors, the executive committee of our board of directors, any other duly authorized committee of our board of directors, or any of our officers duly authorized by our board of directors or by any duly authorized committee of our board of directors to act under the indenture.

Whenever pro forma effect is to be given to an acquisition or disposition of assets for the purpose of calculating the Consolidated Fixed Charge Coverage Ratio, the amount of income or earnings related to such assets shall be calculated on a pro forma basis in accordance with Regulation S-X under the Securities Act, as in effect on the date of such calculation.

Consolidated Net Tangible Assets means the aggregate amount of assets, reduced by applicable reserves and other properly deductible items, after deducting

all current liabilities, excluding the current portion of any Funded Debt and any other current liabilities constituting Funded Debt because it is extendible or renewable, and

The term *Consolidated* shall have a similar meaning.

Funded Debt means all indebtedness for the repayment of money borrowed, whether or not evidenced by a bond, debenture, note or similar instrument or agreement, having a final maturity of more than 12 months after the date of its creation or having a final maturity of less than 12 months after the date of its creation but by its terms being renewable or extendible beyond 12 months after such date at the option of the borrower. When determining *Funded Debt*, indebtedness will not be included if, on or prior to the final maturity of that indebtedness, we have deposited the necessary funds for the payment, redemption or satisfaction of that indebtedness in trust with the proper depository.

GAAP means generally accepted accounting principles in the United States, consistently applied, which are in effect on the date of the issuance of the notes. At any time after the date of issuance of the notes, we may elect to apply International Financial Reporting Standards (*IFRS*) accounting principles, consistently applied, as in effect at the time of such election, in lieu of GAAP and, from and after any such election, references herein to GAAP shall thereafter be construed to mean IFRS; provided that any such election, once made, shall be irrevocable; provided, further that any calculation or determination under the indenture that requires the application of GAAP for periods that include fiscal quarters ended prior to our election to apply IFRS shall remain as previously calculated or determined in accordance with GAAP. We must give notice of any election made in accordance with this definition to the trustee and the holders of each series of notes.

Property means any asset, revenue or any other property, whether tangible or intangible, real or personal, including, without limitation, any right to receive income.

Securities Act means the Securities Act of 1933, as amended, and the rules and regulations promulgated thereunder.

Voting Stock means, with respect to any Person, Capital Stock of any class or kind the holders of which are ordinarily, in the absence of contingencies, entitled to vote for the election of directors (or persons performing similar functions) of such Person, even if the right so to vote has been suspended by the happening of such a contingency.

Global Notes; Book-Entry System

Global Notes

The notes of each series will be issued initially in book-entry form and will be represented by one or more global notes in fully registered form without interest coupons which will be deposited with the trustee as custodian for The Depository Trust Company (*DTC*) and registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. If, however, the aggregate principal amount of any series exceeds \$500.0 million, one certificate will be issued with respect to each \$500.0 million of principal amount of such series, and an additional certificate will be issued with respect to any remaining principal amount of such series. The deposit of Securities with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the securities; DTC's records reflect only the identity of the direct participants to whose accounts such securities are credited, which may or may not be the beneficial owners. Direct and indirect participants will remain responsible for keeping account of their holdings on behalf of their customers. Except as set forth below, the global notes may be transferred, in whole and not in

Table of Contents

part, only to DTC or another nominee of DTC or to a successor of DTC or its nominee. Beneficial interests in the global notes may not be exchanged for certificated notes except in the limited circumstances described below.

All interests in the global notes will be subject to the rules and procedures of DTC.

Certain Book-Entry Procedures for the Global Notes

The descriptions of the operations and procedures of DTC set forth below are provided solely as a matter of convenience. These operations and procedures are solely within the control of DTC and are subject to change by DTC from time to time. Neither we nor the underwriters takes any responsibility for these operations or procedures, and investors are urged to contact DTC or its participants directly to discuss these matters.

DTC has advised us that it is:

a limited-purpose trust company organized under the laws of the State of New York;

a banking organization within the meaning of the New York Banking Law;

a member of the Federal Reserve System;

a clearing corporation within the meaning of the New York Uniform Commercial Code, as amended; and

a clearing agency registered pursuant to Section 17A of the Exchange Act.

DTC was created to hold securities for its participants and to facilitate the clearance and settlement of securities transactions between participants through electronic book-entry changes to the accounts of its participants, thereby eliminating the need for physical transfer and delivery of securities certificates. DTC's participants include securities brokers and dealers (including one or more of the underwriters), banks and trust companies, clearing corporations and certain other organizations. Indirect access to DTC's system is also available to other entities such as banks, brokers, dealers and trust companies, which we refer to collectively as the indirect participants, that clear through or maintain a custodial relationship with a participant either directly or indirectly. Investors who are not participants may beneficially own securities held by or on behalf of DTC only through participants or indirect participants. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation (DTCC). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with participants or indirect participants.

We expect that, pursuant to procedures established by DTC:

upon deposit of each global note, DTC will credit, on its book-entry registration and transfer system, the accounts of participants designated by the underwriters with an interest in the global note; and

ownership of beneficial interests in the global notes will be shown on, and the transfer of ownership of beneficial interests in the global notes will be effected only through, records maintained by DTC (with respect to the interests of participants) and the participants and the indirect participants (with respect to the interests of persons other than participants).

The laws of some jurisdictions may require that some purchasers of securities take physical delivery of those securities in definitive form. Accordingly, the ability to transfer beneficial interests in the notes represented by a global note to those persons may be limited. In addition, because DTC can act only on behalf of its participants, who in turn act on behalf of persons who hold interests through participants, the ability of

Edgar Filing: HOGUE CELLARS, LTD. - Form 424B3

a person holding a beneficial interest in a global note to pledge or transfer that interest to persons or entities that do not

S-24

Table of Contents

participate in DTC's system, or to otherwise take actions in respect of that interest, may be affected by the lack of a physical security in respect of that interest.

So long as DTC or its nominee is the registered owner of a global note, DTC or that nominee, as the case may be, will be considered the sole legal owner or holder of the notes represented by that global note for all purposes of the notes and the indenture. Except as provided below, owners of beneficial interests in a global note will not be entitled to have the notes represented by that global note registered in their names, will not receive or be entitled to receive physical delivery of certificated notes and will not be considered the owners or holders of the notes represented by that beneficial interest under the indenture for any purpose, including with respect to the giving of any direction, instruction or approval to the trustee. Owners of beneficial interests in a global note will not receive written confirmation from DTC of their purchase. Owners of beneficial interests in a global note are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct or indirect participant through which the owner of beneficial interests in a global note entered into the transaction. Accordingly, each holder owning a beneficial interest in a global note must rely on the procedures of DTC and, if that holder is not a participant or an indirect participant, on the procedures of the participant through which that holder owns its interest, to exercise any rights of a holder of notes under the indenture or that global note. We understand that under existing industry practice, in the event that we request any action of holders of notes, or a holder that is an owner of a beneficial interest in a global note desires to take any action that DTC, as the holder of that global note, is entitled to take, DTC would authorize the participants to take that action and the participants would authorize holders owning through those participants to take that action or would otherwise act upon the instruction of those holders. Neither we nor the trustee will have any responsibility or liability for any aspect of the records relating to or payments made on account of notes by DTC or for maintaining, supervising or reviewing any records of DTC relating to the notes.

Payments with respect to the principal of and interest on a global note will be payable by the trustee to or at the direction of DTC or its nominee in its capacity as the registered holder of the global note under the indenture. Under the terms of the indenture, we and the trustee shall treat the persons in whose names the notes, including the global notes, are registered as the owners thereof for the purpose of receiving payment thereon and for any and all other purposes whatsoever. Accordingly, neither we nor the trustee has or will have any responsibility or liability for the payment of those amounts to owners of beneficial interests in a global note. Payments by the participants and the indirect participants to the owners of beneficial interests in a global note will be governed by standing instructions and customary industry practice and will be the responsibility of the participants and indirect participants and not of DTC.

Transfers between participants in DTC will be effected in accordance with DTC's procedures and will be settled in same-day funds.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to holders owning beneficial interests in a global note will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Although DTC has agreed to the foregoing procedures to facilitate transfers of interests in the global notes among participants in DTC, it is under no obligation to perform or to continue to perform those procedures, and those procedures may be discontinued at any time. Neither we nor the trustee will have any responsibility for the performance by DTC or its participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

We obtained the information in this section and elsewhere in this prospectus supplement concerning DTC and its book-entry system from sources that we believe are reliable, but we take no responsibility for the accuracy of any of this information.

Certificated Notes

We will issue certificated notes to each person that DTC identifies as the beneficial owner of the notes represented by a global note upon surrender by DTC of the global note only if:

DTC notifies us that it is no longer willing or able to act as a depository for the global note, and we have not appointed a successor depository within 90 days of that notice;

we decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository); or

an event of default has occurred and is continuing and DTC so requests.

Neither we nor the trustee will be liable for any delay by DTC, its nominee or any direct or indirect participant in identifying the beneficial owners of the related notes. We and the trustee may conclusively rely on, and will be protected in relying on, instructions from DTC or its nominee for all purposes, including with respect to the registration and delivery, and the respective principal amounts, of the notes to be issued in certificated form.

Information Concerning the Trustee

Manufacturers and Traders Trust Company is the trustee under the indenture. From time to time, we borrow from, maintain deposit accounts with and conduct other transactions with Manufacturers and Traders Trust Company and its affiliates in the ordinary course of business. In particular, Manufacturers and Traders Trust Company is currently a lender under our senior credit facility. Manufacturers and Traders Trust Company is also the trustee with respect to our outstanding 3.750% senior notes due 2021, 6.000% senior notes due 2022, and 4.250% senior notes due 2023. Manufacturers and Traders Trust Company is a lender under a credit facility with a Sands family investment vehicle that, because of its relationship with members of the Sands family, is an affiliate of the Company. Such credit facility is secured by pledges of shares of our class B common stock and personal guarantees of certain members of the Sands family, including Richard Sands and Robert Sands.

MATERIAL UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS

The following discussion is a summary of material U.S. federal income tax consequences of the acquisition, ownership and disposition of the notes and is based upon the provisions of the Internal Revenue Code of 1986, as amended, or the Code, the applicable Treasury Regulations promulgated and proposed thereunder, judicial authority and current administrative rulings and practice, all in effect as of the date hereof and all of which are subject to change, possibly with retroactive effect. The discussion does not purport to deal with all aspects of U.S. federal income taxation that might be relevant to particular holders in light of their personal investment circumstances or status, nor does it discuss the U.S. federal income tax consequences to holders subject to special treatment under the U.S. federal income tax laws (for example, financial institutions, insurance companies, regulated investment companies, dealers in securities, tax-exempt entities, U.S. expatriates, U.S. Holders (as defined below) whose functional currency is not the U.S. dollar, U.S. Holders who hold notes through a non-U.S. broker or other non-U.S. intermediary, persons subject to alternative minimum tax or taxpayers holding the notes through a partnership or similar pass-through entity or as part of a straddle, hedge or conversion transaction). Moreover, the effect of any applicable state, local or foreign tax laws and other U.S. federal tax laws (such as estate and gift tax and Medicare contribution tax laws) is not discussed.

This discussion assumes that the notes are held as capital assets (as defined in Section 1221 of the Code) by the holders thereof. The discussion is limited to the U.S. federal income tax consequences to holders acquiring notes at original issue for cash at their issue price (i.e., the first price at which a substantial amount of the notes is sold to the public for cash other than to bond houses, brokers or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers).

If an entity treated as a partnership for U.S. federal income tax purposes holds notes, the U.S. federal income tax treatment of a partner of the partnership generally will depend upon the status of the partner and the activities of the partnership. If you are a partner in a partnership considering an investment in the notes, you are urged to consult your own tax advisor.

PROSPECTIVE HOLDERS ARE URGED TO CONSULT THEIR OWN TAX ADVISORS REGARDING THE UNITED STATES FEDERAL, STATE, LOCAL AND OTHER TAX CONSEQUENCES TO THEM OF THE ACQUISITION, OWNERSHIP AND DISPOSITION OF THE NOTES.

U.S. Holders

For purposes of the following discussion, the term U.S. Holder means a beneficial owner of a note who or which is, for U.S. federal income tax purposes:

an individual who is a citizen or resident of the United States;

a corporation organized under the laws of the United States, any state thereof or the District of Columbia;

an estate the income of which is subject to U.S. federal income taxation regardless of its source; or

a trust if a U.S. court is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or if the trust has made a valid election to be treated as a United States person.

Interest on Notes

Interest on the notes generally will be included in income by a U.S. Holder as ordinary interest income when received or accrued in accordance with the U.S. Holder's regular method of accounting for U.S. federal income tax purposes.

Table of Contents

Sale, Exchange, Redemption, Retirement or Other Taxable Disposition of Notes

Upon the sale, exchange, redemption, retirement or other taxable disposition of a note a U.S. Holder will generally recognize gain or loss equal to the difference, if any, between:

the amount of cash plus the fair market value of any property received (except to the extent that amounts received are attributable to accrued but unpaid interest, which would be taxed as ordinary income to the extent not previously included in income); and

the U.S. Holder's adjusted tax basis in the note, which will generally equal the price paid for the note. Any such gain or loss will be capital gain or loss and will be long-term capital gain or loss if the note has been held for more than one year at the time of disposition. For certain non-corporate U.S. holders, net long term capital gains are generally subject to tax at preferential rates. The deductibility of capital losses is subject to certain limitations.

Non-U.S. Holders

For purposes of the following discussion, the term "non-U.S. Holder" refers to a beneficial owner of a note that is for U.S. federal income tax purposes an individual, corporation, estate or trust that is not a U.S. Holder.

Interest on Notes

Subject to the discussion of backup withholding below, interest paid to a non-U.S. Holder in respect of the notes that is not effectively connected with the non-U.S. Holder's trade or business in the United States generally will not be subject to U.S. federal income or withholding tax provided that:

the non-U.S. Holder does not actually or constructively own 10% or more of the total combined voting power of all classes of our voting stock;

the non-U.S. Holder is not a controlled foreign corporation with respect to which we are a related person within the meaning of the Code;

the non-U.S. Holder is not a bank receiving interest on an extension of credit made pursuant to a loan agreement in the ordinary course of its trade or business; and

the non-U.S. Holder satisfies certain certification requirements. A non-U.S. Holder will generally satisfy such certification requirements if it certifies, under penalties of perjury, that it is not a United States person and provides its name and address. This certification requirement can generally be met by providing a properly executed IRS Form W-8BEN or IRS Form W-8 BEN-E.

If the above conditions are not met, interest paid to a non-U.S. Holder in respect of the notes that is not effectively connected with the non-U.S. Holder's trade or business generally will be subject to 30% U.S. federal withholding tax unless such non-U.S. Holder is entitled to a reduction in or an exemption from such withholding under an applicable income tax treaty between the United States and the non-U.S. Holder's country of residence provided that such non-U.S. Holder satisfies certain certification requirements (generally, on a properly executed IRS Form W-8BEN or IRS Form W-8 BEN-E).

If a non-U.S. Holder is engaged in a trade or business in the United States and interest on the notes is effectively connected with the conduct of that trade or business (and, if required by an applicable tax treaty, the interest is attributable to a permanent establishment or fixed base maintained by the non-U.S. Holder in the United States), the non-U.S. Holder will be subject to U.S. federal income tax on the interest on a net income basis in the same manner as if such non-U.S. Holder were a U.S. Holder. Any interest income that is effectively connected with the

Edgar Filing: HOGUE CELLARS, LTD. - Form 424B3

conduct of a U.S. trade or business will not be subject to withholding of U.S. federal income tax if the non-U.S. Holder satisfies certain certification requirements (generally, on a properly executed IRS Form W-8ECI or, in certain circumstances, IRS Form W-8BEN or IRS Form W-8 BEN-E). A non-U.S. Holder

that is a foreign corporation that is engaged in a trade or business in the United States may also be subject to an additional 30% (or, if a tax treaty applies, such lower rate as the treaty provides) branch profits tax on its effectively connected earnings and profits, subject to adjustments.

Notwithstanding the foregoing, interest paid to a non-U.S. Holder that is, or holds a note through, a foreign financial institution or non-financial foreign entity generally will be subject to a 30% U.S. federal withholding tax pursuant to the Foreign Account Tax Compliance Act (FATCA) unless, (1) if such non-U.S. Holder is, or holds a note through, a foreign financial institution, any such foreign financial institution (i) has entered into an agreement with the U.S. government to collect and provide to the U.S. tax authorities information about its accountholders (including certain investors in such institution), (ii) qualifies for an exception from the requirement to enter into such an agreement or (iii) complies with the terms of an applicable intergovernmental agreement between the U.S. government and the jurisdiction in which such foreign financial institution operates and, (2) if such non-U.S. Holder is, or holds a note through, a non-financial entity, such entity has provided certain information regarding its direct and indirect U.S. owners.

Sale, Exchange, Redemption, Retirement or Other Taxable Disposition of Notes

Subject to the discussion of backup withholding below, a non-U.S. Holder generally will not be subject to U.S. federal income or withholding tax on any gain recognized upon a sale, exchange, redemption, retirement or other taxable disposition of a note (other than amounts attributable to accrued and unpaid interest, which will be treated as described above under Interest Notes unless:

that gain is effectively connected with the non-U.S. Holder's conduct of a trade or business in the United States (and, if required by applicable tax treaty, the gain is attributable to a permanent establishment or fixed base maintained by the non-U.S. Holder in the United States); or

the non-U.S. Holder is an individual who is present in the United States for 183 days or more in the taxable year of the disposition and certain other conditions are met.

A non-U.S. Holder described in the first bullet point will be subject to U.S. federal income tax on the gain on a net income basis in the same manner as if such non-U.S. Holder were a U.S. Holder. If such non-U.S. Holder is a foreign corporation, it may also be subject to a 30% (or, if a tax treaty applies, such lower rate as the treaty provides) branch profits tax on its effectively connected earnings and profits, subject to adjustments. A non-U.S. Holder described in the second bullet point will be subject to a flat 30% U.S. federal income tax on such gain, which may be offset by certain U.S. source capital losses, unless an exemption or reduction under an applicable income tax treaty applies.

In the case of the sale or disposition of a note after December 31, 2016, a non-U.S. Holder will be subject to a 30% withholding tax on the gross proceeds of the sale or disposition unless the requirements described in relation to FATCA above under Interest on Notes are satisfied. You are urged to consult your own tax advisor regarding the application of FATCA to your particular circumstances.

Backup Withholding and Information Reporting

Information returns may be filed with the IRS in connection with payments of interest on the notes and the proceeds from a sale or other disposition (including a retirement or redemption) of the notes. A U.S. Holder may be subject to United States backup withholding at a rate of 28% on the foregoing amounts if it fails to provide its taxpayer identification number to the paying agent and comply with certification procedures or otherwise establish an exemption from backup withholding. Certain U.S. Holders are exempt from backup withholding, including corporations.

A non-U.S. Holder may be subject to United States backup withholding on these payments unless the non-U.S. Holder complies with certification procedures to establish that it is not a U.S. person. The certification

Table of Contents

procedures required of non-U.S. Holders to claim the exemption from withholding tax on certain payments on the notes, described in general terms above, will satisfy the certification requirements necessary to avoid the backup withholding as well.

Backup withholding is not an additional tax. The amount of any backup withholding from a payment will be allowed as a credit against the holder's U.S. federal income tax liability and may entitle the holder to a refund, provided that the required information is timely furnished to the IRS.

The underwriting agreement provides that the obligations of the underwriters to purchase the notes included in this offering are subject to approval of legal matters by counsel and to other conditions. The underwriters are obligated to purchase all the notes if they purchase any of the notes. The offering of the notes by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part. The underwriters may offer and sell notes through certain of their affiliates.

The underwriters propose to offer some of the notes directly to the public at the public offering prices set forth on the cover page of this prospectus supplement and some of the notes to dealers at the public offering price less a concession. The underwriters may allow, and dealers may reallocate, a concession on sales to other dealers. After the initial offering of the notes to the public, the representatives may change the public offering prices and concessions.

We have agreed for a period of 60 days following the date of this prospectus supplement not to sell or announce an intention to sell any debt securities similar to the notes without the consent of Merrill Lynch, Pierce, Fenner & Smith Incorporated.

The notes are new issues of securities with no established trading market. The notes will not be listed on any securities exchange. We have been advised by the underwriters that they intend to make a market in the notes, but the underwriters are not obligated to do so and may discontinue market making at any time without notice. We can give no assurance as to the liquidity of, or the trading market for, the notes.

In connection with the offering, the underwriters may purchase and sell notes in the open market. These transactions may include over-allotment, syndicate covering transactions and stabilizing transactions. Over-allotment involves syndicate sales of notes in excess of the principal amount of notes to be purchased by the underwriters in the offering, which creates a syndicate short position. Syndicate covering transactions involve purchases of the notes in the open market after the distribution has been completed in order to cover syndicate

short positions. Stabilizing transactions consist of certain bids or purchases of notes made for the purpose of preventing or retarding a decline in the market price of the notes while the offering is in progress.

Any of these activities may have the effect of preventing or retarding a decline in the market price of the notes. They may also cause the price of the notes to be higher than the price that otherwise would exist in the open market in the absence of these transactions. The underwriters may conduct these transactions in the over-the-counter market or otherwise. If the underwriters commence any of these transactions, they may discontinue them at any time.

We estimate that our total expenses for this offering (including underwriting discounts) will be approximately \$10.5 million.

The following table shows the amount of the underwriting discount provided to the underwriters in connection with this offering, expressed as a percentage of the principal amount of the notes and in total:

	Per Note	Total

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. The underwriters and their respective affiliates have performed, and may in the future perform, various commercial banking, investment banking, brokerage and advisory services for us for which they have received, and will receive, customary fees and expenses. In particular, affiliates of certain of the underwriters are agents and/or lenders under our senior credit and securitization facilities and certain foreign credit facilities. Also, certain of the underwriters or their affiliates may hold positions in our outstanding 8.375% Senior Notes due 2014 and thus may receive a portion of the net proceeds from the sale of the notes through the redemption prior to maturity of our 8.375% Senior Notes due 2014. We have been advised that at least 5% of the net proceeds, excluding underwriting commission, may be directed to one or more of the underwriters or their affiliates (including Scotia Capital (USA) Inc.), which would be considered a conflict of interest under Financial Regulatory Authority, Inc. (FINRA) Rule 5121, and that, accordingly, this offering is being conducted in accordance with the applicable requirements of Rule 5121 regarding the underwriting of securities of a company with a member that has a conflict of interest within the meaning of those rules. Rule 5121 requires prominent disclosure of the nature of the conflict of interest in the prospectus supplement for the public offering. Pursuant to Rule 5121(a)(1)(A), the appointment of a qualified independent underwriter is not necessary in connection with an offering if the underwriters primarily responsible for managing the public offering do not have a conflict of interest, are not an affiliate of any underwriter that does have a conflict of interest, and meet the requirements of paragraph (f)(12)(E) of Rule 5121. Under Rule 5121, no underwriter that has a conflict of interest may confirm sales of the notes to discretionary accounts without the prior approval of the customer. In addition, affiliates of Merrill Lynch, Pierce, Fenner & Smith Incorporated and Goldman, Sachs & Co. are lenders under certain credit facilities to a Sands family investment vehicle that, because of its relationship with members of the Sands family, is an affiliate of the Company. Such credit facilities are secured by pledges of shares of class A common stock of the Company, class B common stock of the Company, or a combination thereof and personal guarantees of certain members of the Sands family, including Richard Sands and Robert Sands. In addition, one of the Company's executive officers is a member of the boards of directors of affiliates of TD Securities (USA) LLC.

If any of the underwriters or their affiliates has a lending relationship with us, certain of those underwriters or their affiliates routinely hedge, and certain other of those underwriters or their affiliates may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, these underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the notes offered hereby.

Table of Contents

In the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve securities and/or instruments of the issuer (directly, as collateral securing other obligations or otherwise). The underwriters and their respective affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

We have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act of 1933, or to contribute to payments the underwriters may be required to make because of any of those liabilities.

We expect that delivery of the notes will be made to investors on or about _____, 2014 which will be the tenth business day following the date of this prospectus supplement (such settlement being referred to as *T+10*). Under Rule 15c6-1 under the Securities Exchange Act of 1934, trades in the secondary market are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade notes on the date hereof or the next six succeeding business days will be required, by virtue of the fact that the notes initially settle in T+10, to specify an alternate settlement arrangement at the time of any such trade to prevent a failed settlement. Purchasers of the notes who wish to trade the notes prior to their date of delivery hereunder should consult their advisors.

We do not undertake any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we can give no assurance that such expectations will prove to be correct. We conduct our business through entities we wholly own as well as a variety of joint ventures with various other entities, both within and outside the U.S.

RISK FACTORS

Investing in our securities involves certain risks. You are urged to read and consider risk factors relating to an investment in our securities as described from time to time in our Annual Reports on Form 10-K, as may be updated from time to time in our Quarterly Reports on Form 10-Q filed with the SEC, each as incorporated by reference in this prospectus. Before making an investment decision, you should carefully consider these risks as well as other information we include or incorporate by reference in this prospectus. Pending the application of the proceeds, we will invest the proceeds in certificates of deposit, U.S. government securities or other interest bearing securities.

DIVIDEND POLICY

We have not paid any cash dividends on our common stock since our initial public offering in 1973. We currently intend to retain all of our earnings to finance the development and expansion of our business, but may in the future consider paying cash dividends on our common stock. In addition, the terms of our senior credit facility may restrict the payment of cash dividends on our common stock under certain circumstances. Any indentures for debt securities issued in the future, the terms of any preferred stock issued in the future and any credit agreements entered into in the future may also restrict or prohibit the payment of cash dividends on our common stock.

RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth our historical ratio of earnings to fixed charges for the periods indicated. For the purpose of calculating the ratio of earnings to fixed charges, earnings represent income before income taxes (adjusted, as appropriate, for equity in earnings of equity method investees) plus fixed charges less interest capitalized. Fixed charges consist of interest expensed and capitalized, amortization of debt issuance costs, amortization of discount on debt, and the portion of rental expense which management believes is representative of the interest component of lease expense.

STATEMENT OF INCOME

On June 7, 2013, Constellation Brands, Inc. (Constellation or the Company) acquired through wholly-owned subsidiaries (i) the remaining 50% equity interest in Crown Imports LLC (Crown) (the Crown Acquisition) and (ii)(a) all of the issued and outstanding equity interests of Compañía Cervecería de Coahuila, S. de R.L. de C.V. (the Brewery Company), which owns and operates a brewery located in Nava, Coahuila, Mexico (the Brewery), (ii)(b) all of the issued and outstanding equity interests of Servicios Modelo de Coahuila, S. de R.L. de C.V., which provides personnel and services for the operation and maintenance of the Brewery (the Service Company), and (ii)(c) an irrevocable, fully-paid license to produce in Mexico (or worldwide under certain circumstances) and exclusively import, market and sell Grupo Modelo, S.A.B. de C.V. s (Grupo Modelo) Mexican beer portfolio sold by Crown in the U.S. and Guam as of the date of acquisition, and certain extensions through a sub-license agreement (all collectively referred to as the Brewery Acquisition). The business of the Brewery Company and the Service Company acquired by the Company is referred to as the Brewery Business. The Crown Acquisition and the Brewery Acquisition are collectively referred to as the Beer Business Acquisition.

The following unaudited condensed combined consolidated pro forma statement of income for the twelve months ended February 28, 2014 gives effect to the Beer Business Acquisition as if it had occurred on March 1, 2013. The unaudited condensed combined consolidated pro forma statement of income shown below reflects historical financial information and has been prepared on the basis that the Beer Business Acquisition has been accounted for using the acquisition method of accounting under Accounting Standards Codification Topic 805: Business Combinations. Accordingly, the assets acquired and liabilities assumed were measured at their respective fair values with the excess reflected as goodwill.

The unaudited condensed combined consolidated pro forma statement of income should be read in conjunction with the notes to the unaudited condensed combined consolidated pro forma statement of income. The unaudited condensed combined consolidated pro forma statement of income and the notes to the unaudited condensed combined consolidated pro forma statement of income were derived from:

Constellation s historical audited consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the fiscal year ended February 28, 2014 and incorporated by reference in this prospectus,

The unaudited accounting records of Constellation for the period from March 1, 2014 to June 6, 2014,

The historical unaudited financial statements of Crown as of March 31, 2013 and for the three months ended March 31, 2013 and 2012 filed as an exhibit to our Current Report on Form 8-K filed on June 11, 2013, which are incorporated by reference in this prospectus,

The unaudited accounting records of Crown for the period from June 1, 2013 to June 6, 2013, and

The unaudited accounting records of the Brewery Business for the three months ended March 31, 2013.

The aggregate purchase price of the Beer Business Acquisition and the estimated fair value of the Company s preexisting 50% equity interest in Crown have been allocated to the assets acquired and the liabilities assumed based upon the estimated fair values of each as of the acquisition date. Accordingly, the purchase price

adjustments included in the unaudited condensed combined consolidated pro forma statement of income are based on a number of assumptions as more fully described in the notes to the unaudited condensed combined consolidated pro forma statement of income.

Historical financial information of the Company, Crown and the Brewery Business has been adjusted in the unaudited condensed combined consolidated pro forma statement of income to give effect to pro forma events that are:

directly attributable to the Beer Business Acquisition,

factually supportable, and

expected to have a continuing impact on the combined results.

The unaudited condensed combined consolidated pro forma statement of income does not reflect any revenue enhancements, cost savings from operating efficiencies, synergies or other restructurings, or the costs and related liabilities that would be incurred to achieve such revenue enhancements, cost savings from operating efficiencies, synergies or other restructurings, which could result from the Beer Business Acquisition. The unaudited condensed combined consolidated pro forma statement of income also has been adjusted to exclude the gain on the remeasurement to fair value of the Company's preexisting 50% equity interest in Crown and the acquisition-related costs as both are nonrecurring amounts directly attributable to the transaction.

The pro forma adjustments are based upon available information and assumptions that management of the Company believes reasonably reflect the Beer Business Acquisition. The unaudited condensed combined consolidated pro forma statement of income is provided for illustrative purposes only and does not purport to represent what the actual consolidated results of operations of the Company would have been had the Beer Business Acquisition occurred on the date assumed, nor is it necessarily indicative of future consolidated results of operations of the Company.

NOTES TO UNAUDITED CONDENSED COMBINED CONSOLIDATED PRO FORMA

STATEMENT OF INCOME

1. Basis of pro forma presentation

The unaudited condensed combined consolidated pro forma statement of income for the year ended February 28, 2014 is presented on a basis to reflect the Beer Business Acquisition and related pro forma adjustments as if it had occurred on March 1, 2013. Because of different fiscal period ends, and in order to present results for comparable periods, the unaudited condensed combined consolidated pro forma statement of income for the year ended February 28, 2014 combines (i) the Company's historical consolidated statement of income for the year ended February 28, 2014; (ii) Crown's historical statement of income for (a) the three months ended March 31, 2013 and (b) the period from June 1, 2013 through June 6, 2013; and (iii) the Brewery Business carve-out combined statement of income for the three months ended March 31, 2013. The unaudited condensed combined consolidated pro forma statement of income for the year ended February 28, 2014 does not give effect to the Brewery Business carve-out combined income statement for the period from June 1, 2013 through June 6, 2013 as it is not significant.

The Company's U.S. GAAP financial information for the year ended February 28, 2014 has been derived without adjustment from the audited financial statements contained in the Company's Annual Report on Form 10-K as filed with the Securities and Exchange Commission (SEC) on April 29, 2014. Crown's U.S. GAAP financial information for the three months ended March 31, 2013 has been derived from the unaudited financial statements filed with the SEC on June 11, 2013 as an exhibit to the Company's Current Report on Form 8-K and incorporated by reference into this prospectus and adding financial information for the period from June 1, 2013 through June 6, 2013.

The Brewery Business unaudited historical carve-out combined statement of income for the three months ended March 31, 2013 has been derived from historical financial information of the Brewery Business and has been prepared under IFRS as issued by the IASB. The unaudited historical carve-out combined statement of income was originally prepared using Mexican pesos as the reporting currency and has been converted into U.S. dollars in the unaudited condensed combined consolidated pro forma statement of income using the methodology and the exchange rate as explained in Note 3 to the unaudited condensed combined consolidated pro forma statement of income. Adjustments for the significant differences between IFRS and U.S. GAAP have been made to convert the Brewery Business IFRS carve-out combined statement of income to U.S. GAAP as explained in Note 3 to the unaudited condensed combined consolidated pro forma statement of income.

Adjustments reflected in the unaudited condensed combined consolidated pro forma statement of income include those items that are directly attributable to the transaction, factually supportable, and expected to have a continuing impact on the combined results, as well as to eliminate certain nonrecurring charges or credits that are directly attributable to the transaction.

The aggregate purchase price of the Beer Business Acquisition and the estimated fair value of the Company's preexisting 50% equity interest in Crown have been allocated to the assets acquired and the liabilities assumed based upon the estimated fair values of each as of the acquisition date. Accordingly, the purchase price adjustments included in the unaudited condensed combined consolidated pro forma statement of income are based on a number of assumptions as set out in Note 5.

The pro forma adjustments are based upon available information and assumptions that management of the Company believes reasonably reflect the Beer Business Acquisition. The unaudited condensed combined consolidated pro forma statement of income is provided for illustrative purposes only and does not purport to represent what the actual consolidated results of operations of the Company would have been had the Beer Business Acquisition occurred on the date assumed, nor is it necessarily indicative of future consolidated results of operations of the Company.

Table of Contents**2. Summary of significant accounting policies**

The unaudited condensed combined consolidated pro forma information has been compiled in a manner consistent with the accounting policies adopted by the Company. Adjustments were made for the significant differences between IFRS and U.S. GAAP for the Brewery Business, as set out further in Note 3. Apart from these adjustments, the accounting policies of Crown and the Brewery Business were not deemed to be materially different from those adopted by the Company. Other adjustments arising as part of eliminating transactions are described in Note 4 and acquisition accounting are described in Note 5.

3. Reconciliation of Brewery Business unaudited historical carve-out combined statement of income from IFRS to U.S. GAAP

The unaudited historical carve-out combined statement of income of the Brewery Business was prepared in accordance with IFRS and prepared in Mexican pesos. The unaudited condensed combined consolidated pro forma statement of income includes adjustments for the significant differences between IFRS and U.S. GAAP necessary to convert the statement of income of the Brewery Business from IFRS to U.S. GAAP and to translate the Mexican peso amounts into U.S. dollars. In addition, certain balances were reclassified from the Brewery Business carve-out combined statement of income so that its presentation would be consistent with the Company.

The Brewery Business reporting currency for its historical carve-out combined statement of income is the Mexican peso. The statement of income has been converted from Mexican pesos to U.S. dollars using the historical average exchange rate of 12.64 Mexican pesos per U.S. dollar for the three months ended March 31, 2013. The conversion of Mexican peso amounts into U.S. dollar amounts is included solely for the convenience of readers. Such conversion should not be construed as representation that the Mexican peso amounts could be converted into U.S. dollars at that or any other rate.

U.S. GAAP adjustments

The significant differences between IFRS, as applied by the Brewery Business, and U.S. GAAP are as follows:

(a) Property, plant and equipment

The Brewery Business elected the option under IFRS 1, which permits property, plant and equipment at the time of initial measurement to be stated at their deemed cost (i.e. fair value or the value recognized under

Table of Contents

Mexican Financial Reporting Standards (FRS) at the date of transition). The Brewery Business elected to record certain property, plant and equipment at deemed cost recognized under Mexican FRS, which includes 36.6 million Mexican pesos in historical restated inflation effects. Under U.S. GAAP, the restated values would not be recorded and would be reversed to equity. An adjustment of 0.5 million Mexican pesos would be made to reverse depreciation expense associated with the restated values.

(b) Intangible assets

Under IFRS, disbursements in developing activities are recognized as intangible assets when the costs can be estimated reliably, the product or process is technically and commercially viable, possible future economic benefits are obtained and the Brewery Business has enough resources to complete the development to use and sell the asset. The costs are amortized based on the straight line method over the estimated useful life of the asset. Development expenses that do not qualify for capitalization are expensed as incurred.

Under U.S. GAAP, generally all research and development costs are expensed as incurred. As such, the Brewery Business capitalized development costs of 137.4 million Mexican pesos would not be recorded and would be reversed to equity. An adjustment of 4.6 million Mexican pesos would be made to reverse the associated amortization expense.

(c) Income taxes

Provision for income taxes has been recorded on the U.S. GAAP pro forma adjustments to income at the statutory rate of 30 percent.

4. Elimination adjustments

These adjustments are recorded to eliminate transactions between Crown, the Brewery Business and the Company. Eliminations include sales from the Brewery Business to Crown and other payments between the parties such as royalties, profit sharing and shared services. Refer to the adjustments below for more details:

(a) Sales

Historically the Brewery Business only indirect customer has been Crown and as a result those sales should be eliminated from the unaudited condensed combined consolidated pro forma statement of income. Total sales from Grupo Modelo to Crown were \$325.4 million for the three months ended March 31, 2013. The amount of sales and cost of product sold that related to the Brewery Business and were eliminated from the unaudited condensed combined consolidated pro forma statement of income for the three months ended March 31, 2013 was \$185.8 million.

(b) Profit sharing

Crown has historically entered into a profit sharing methodology for certain Grupo Modelo brands sold in the U.S. Pursuant to this methodology, Crown has agreed to share profit with Grupo Modelo dependent upon reaching certain market pricing above pricing benchmarks. The estimated profit sharing, net of certain expenses, was approximately \$12.8 million for the three months ended March 31, 2013. Of the total amount of profit sharing, \$7.0 million relates to beer sales from the Brewery Business and as a result this amount has been eliminated from sales and cost of product sold in the unaudited condensed combined consolidated pro forma statement of income.

(c) Royalties

Crown has historically paid to Grupo Modelo royalty fees in exchange for a sub-license agreement, whereby, Grupo Modelo granted Crown the exclusive sub-license to use certain Grupo Modelo brands and trademarks within the U.S., the District of Columbia and Guam. Payments made by Crown to Grupo Modelo under the sub-license agreement amounted to approximately \$42.9 million for the three months ended March 31,

Table of Contents

2013. Of the total amount of payments, \$23.8 million relates to beer sales from the Brewery Business and as a result this amount has been eliminated from royalty income and cost of product sold in the unaudited condensed combined consolidated pro forma statement of income.

(d) Shared services

The Company has historically charged Crown for certain shared services including information technology, licensing, financial accounting, tax, administrative, legal and human resources. These charges were \$1.7 million for the three months ended March 31, 2013. This amount was not eliminated from the unaudited condensed combined consolidated pro forma statement of income as it naturally offsets in selling, general and administrative expenses.

5. Pro forma adjustments

The following pro forma adjustments are included in the unaudited condensed combined consolidated pro forma statement of income:

(a) Sub-licensing agreement and profit sharing payments

The historical sub-licensing agreement and profit sharing payments have been eliminated as a part of the acquisition agreements. An adjustment to cost of product sold has therefore been included in the unaudited condensed combined consolidated pro forma statement of income to:

(1) eliminate the remaining \$19.1 million of the \$42.9 million in total royalty payments made by Crown to Grupo Modelo for beer purchases from other Grupo Modelo breweries not forming a part of the transaction; and (2) eliminate the remaining \$5.8 million of the \$12.8 million in total profit sharing payments made by Crown to Grupo Modelo for beer purchases from other Grupo Modelo breweries.

(b) Beer Business Acquisition aggregate purchase price allocation

The aggregate purchase price of the Beer Business Acquisition and the estimated fair value of the Company's preexisting 50% equity interest in Crown have been allocated to the separately identifiable assets acquired and the liabilities assumed based upon the estimated fair values of each as of the June 7, 2013 acquisition date as follows:

<i>(in millions)</i>	
Cash	\$ 106.8
Accounts receivable	193.7
Inventories	243.1
Prepaid expenses and other	103.9
Property, plant and equipment	698.9
Goodwill	3,715.8
Intangible assets	2,403.2
Other assets	0.3
Total assets acquired	7,465.7
Accounts payable	123.2
Accrued excise taxes	14.4
Other accrued expenses and liabilities	72.9
Deferred income taxes	66.4
Other liabilities	10.6
Total liabilities assumed	287.5
Total estimated fair value	7,178.2
Less fair value of preexisting 50.0% equity interest in Crown	(1,845.0) ⁽ⁱⁱⁱ⁾
Less cash acquired	(106.8)
Aggregate purchase price	\$ 5,226.4⁽ⁱ⁾

Table of Contents

- i. The aggregate purchase price of \$5,226.4 million consists of cash paid at closing of \$4,745.0 million, net of cash acquired of \$106.8 million, plus the fair value of an additional purchase price for the finalization of the EBITDA of Grupo Modelo's operations relating to the production profit on all sales of beer to Crown during 2012 (as defined in the stock purchase agreement) of \$543.3 million, as well as additional estimated cash payments for certain working capital adjustments. During the year ended February 28, 2014, the Company recorded \$26.5 million of acquisition-related transaction costs in selling, general and administrative expenses. The unaudited condensed combined consolidated pro forma statement of income has been adjusted to exclude these acquisition-related costs as they are nonrecurring amounts directly attributable to the transaction.
- ii. The Company has historically accounted for its investment in Crown under the equity method. Accordingly, the results of operations of Crown are included in equity in earnings of equity method investees in the Company's consolidated statements of operations. Based upon the Company's acquisition of the remaining 50% interest in Crown and the resulting consolidation of the entire enterprise at estimated fair value, a gain of \$1,642.0 million was recorded due to the remeasurement of the Company's previous equity investment in Crown. The adjustment was made to exclude the gain in the unaudited condensed combined consolidated pro forma statement of income because it is a one-time, nonrecurring gain.

<i>(in millions)</i>	
Fair value of preexisting equity interest	\$ 1,845.0
Less: book value of preexisting equity interest, net of tax	(203.0)
Gain on preexisting equity interest	\$ 1,642.0

The equity in earnings of equity method investees of \$70.2 million for the year ended February 28, 2014 has been eliminated from the unaudited condensed combined consolidated pro forma statement of income.

The fair value allocated to the newly acquired definite-lived and indefinite-lived intangible assets is as follows:

<i>(in millions)</i>	Estimated Fair Value	Estimated Remaining Useful Life
Definite-lived intangible assets:		
Favorable interim supply agreement	\$ 68.3	3 years
Customer relationships	22.5	25 years
Copyrights	6.5	2 years
Distribution agreement	0.4	1.6 years
Indefinite-lived perpetual right to use trademarks	2,305.5	Indefinite
Total	\$ 2,403.2	

The estimated fair value for the favorable interim supply agreement was determined using an income approach, specifically, the differential method. The amortization of the favorable interim supply agreement is based on the difference between the estimated fair value and the contract value under the interim supply agreement for the required volume of beer needed to fulfill the U.S. demand in excess of the Brewery Business capacity. The estimated fair value for the favorable interim supply agreement is to be amortized to cost of product sold as inventory purchased from the seller of the Brewery Business is ultimately sold to Crown customers. The estimated fair values for the customer relationships and the copyrights were determined using a cost approach. The estimated fair value for the distribution agreement was determined using an income approach. The estimated fair value for the perpetual right to use trademarks was determined using an income approach, specifically, the relief from royalty method.

Table of Contents

The amortization related to the definite-lived intangible assets resulted in pro forma adjustments to the unaudited condensed combined consolidated pro forma statement of income of \$7.5 million to cost of product sold for the favorable interim supply agreement and \$1.1 million to selling, general and administrative expenses for the customer relationships, the copyrights and the distribution agreement.

The fair value allocated to the newly acquired property, plant and equipment is as follows:

<i>(in millions)</i>	Estimated Fair Value	Estimated Remaining Useful Life
Land and land improvements	\$ 25.8	15 to 32 years
Buildings and improvements	173.0	10 to 44 years
Machinery and equipment	470.3	3 to 35 years
Motor vehicles	3.3	3 to 7 years
Construction in progress	26.5	N/A
Total	\$ 698.9	

The estimated fair value of the property, plant and equipment was determined primarily using a cost approach. The depreciation related to the property, plant and equipment resulted in additional depreciation expense in the pro forma adjustments to the unaudited condensed combined consolidated pro forma statement of income of \$0.4 million to cost of product sold and \$0.2 million to selling, general and administrative expenses.

(c) Debt, interest and deferred financing costs

To reflect the debt-free terms of the purchase agreement, an adjustment has been made to eliminate the Brewery Business historical interest expense of \$3.1 million.

The unaudited condensed combined consolidated pro forma statement of income was prepared based on actual sources of financing as of June 7, 2013 as follows:

\$1,550.0 million from the issuance of senior notes in May 2013 with a weighted average fixed rate of 4.09%;

\$1,500.0 million in European term loans with a weighted average variable rate of 2.56% under the Company's second amendment and restatement of its senior credit facility;

\$675.0 million in U.S. term loans with a variable rate of 2.19% under the Company's second amendment and restatement of its senior credit facility;

\$208.0 million in proceeds from borrowings under the Company's then existing accounts receivable securitization facility with a variable rate of 1.19%;

\$580.0 million in borrowings under the Company's revolving facility under the Company's second amendment and restatement of its senior credit facility with a variable rate of 2.19%; and

Edgar Filing: HOGUE CELLARS, LTD. - Form 424B3

Approximately \$232.0 million of cash on hand (inclusive of \$13.0 million of borrowings under a subsidiary working capital facility with a variable rate of 1.94%).

To provide assurance of financing to fund the Beer Business Acquisition in the event the anticipated sources of funds for the Beer Business Acquisition were unavailable for any reason, the Company had entered into a bridge facility with affiliates of the underwriters. The Company did not borrow under the bridge facility. However, during the year ended February 28, 2014, the Company recorded \$25.9 million of bridge facility commitment fees in selling, general and administrative expenses. The unaudited condensed combined consolidated pro forma statement of income has been adjusted to exclude these bridge facility commitment fees as they are nonrecurring amounts directly attributable to the transaction.

Table of Contents

Adjustments have been made to the unaudited condensed combined consolidated pro forma statement of income to reflect the above financing as follows:

The Company incurred financing costs for the financing arrangements described above. The Company has used the effective interest rate method for the amortization of these costs to interest expense for the year ended February 28, 2014. An adjustment of \$35.9 million was made to record additional interest and amortization of deferred financing costs to interest expense. Interest expense was estimated for the period using the interest rates noted above. A 1/8% increase or decrease in the interest rate associated with the sources of financing with a variable rate would impact the interest expense by \$2.4 million.

The finalization of the EBITDA of Grupo Modelo's operations relating to the production profit on all sales of beer to Crown during 2012 resulted in an additional purchase price for the Beer Business Acquisition of \$558.0 million, consisting of the \$543.3 million of fair value recorded at the date of acquisition plus imputed interest of \$14.7 million. An adjustment \$3.7 million was made to record additional imputed interest to interest expense related to this additional purchase price.

(d) Taxes

Adjustments to current income taxes have been recorded at the Company's statutory rate of 35 percent and 30 percent for the Brewery Business. Crown's income is taxed at the partner level. As a result, a pro forma adjustment has been recognized to tax affect all of Crown's income using the Company's statutory rate and the reversal of the tax expense recognized on the Company's equity in earnings of investee in Crown that was eliminated. No adjustment to current income taxes was made for the gain on the remeasurement to fair value of the Company's preexisting 50% equity interest in Crown as the gain was not taxable.

DESCRIPTION OF DEBT SECURITIES

We may offer debt securities under this prospectus, any of which may be issued as convertible or exchangeable debt securities. The following description of the terms of the debt securities sets forth certain general terms and provisions of the debt securities to which any prospectus supplement or term sheet may relate. We will set forth the particular terms of the debt securities we offer in a prospectus supplement or term sheet. The extent, if any, to which the following general provisions apply to particular debt securities will be described in the applicable prospectus supplement or term sheet. The following description of general terms relating to the debt securities and the indenture (which includes one or more supplemental indentures) under which the debt securities will be issued are summaries only and therefore are not complete. You should read the indenture and the prospectus supplement or term sheet regarding any particular issuance of debt securities. If there are differences between the applicable prospectus supplement or term sheet and this prospectus, the prospectus supplement or term sheet will control.

The debt securities will represent our unsecured general obligations, unless otherwise provided in the prospectus supplement or term sheet. If so provided in a prospectus supplement or term sheet, the debt securities will have the benefit of the guarantees from the guarantors. Our subsidiaries are separate and distinct legal entities and have no obligation, contingent or otherwise, to pay any amounts due pursuant to the debt securities or to make any funds available therefor, whether by dividends, loans or other payments, other than as expressly provided in the guarantees.

Our ability to service our indebtedness, including the debt securities, is dependent primarily upon the receipt of funds from our subsidiaries. The payment of dividends or the making of loans and advances to us by our subsidiaries may be subject to contractual, statutory and regulatory restrictions, and are contingent upon the earnings of those subsidiaries and are subject to various business considerations. Further, any right we may have to receive assets of any of our subsidiaries upon liquidation or recapitalization of any such subsidiaries (and the consequent right of the holders of debt securities to participate in those assets) will be subject to the claims of our subsidiaries' creditors. Even in the event that we are recognized as a creditor of a subsidiary, our claims would still be subject to any security interest in the assets of such subsidiary and any indebtedness of such subsidiary senior to our claim.

The debt securities will be issued under an indenture entered into with the guarantors and the trustee. The indenture is subject to, and governed by, the Trust Indenture Act of 1939, as amended (the "Trust Indenture Act").

Except to the extent described in a prospectus supplement or term sheet, the indenture does not contain any covenants or restrictions that afford holders of the debt securities special protection in the event of a change of control or highly leveraged transaction.

The following is a summary of certain provisions of the debt securities that may be issued under the indenture, and is not complete. A description of such debt securities shall be contained in a prospectus supplement or term sheet. You should carefully read the provisions of particular debt securities we may issue and the indenture under which the debt securities are issued, including the definitions in those documents of certain terms and of those terms made a part of those documents by the Trust Indenture Act.

General

The indenture does not limit the aggregate principal amount of debt securities which may be issued under it and provides that debt securities may be issued in one or more series, in such form or forms, with such terms and up to the aggregate principal amount that we may authorize from time to time. The particular terms of the debt securities offered pursuant to any prospectus supplement or term sheet will be described in the prospectus supplement or term sheet. All debt securities of one series need not be issued at the same time and, unless otherwise provided, a series may be reopened, without the consent of any holder, for issuances of additional debt securities of that series.

Table of Contents

Unless otherwise provided in the prospectus supplement or term sheet, debt securities may be presented for registration of transfer and exchange and for payment or, if applicable, for conversion or exchange at the office of the trustee.

(18) whether and under what circumstances we will pay any additional amounts on the debt securities to any holder who is not a U.S. person in respect of any tax, assessment or governmental charge withheld or deducted and, if we will pay additional amounts, whether we will have the option, and on what terms to redeem the debt securities instead of paying the additional amounts;

(19) if receipt of certain certificates or other documents or satisfaction of other conditions will be necessary for any purpose, including, without limitation, as a condition to the issuance of the debt securities in definitive form (whether upon original issue or upon exchange of a temporary debt security), the form and terms of such certificates, documents or conditions;

However, at our option, payment of interest may be made by check mailed to the address of the person entitled thereto as it appears in the debt security register. Any payment of principal and any premium or interest required to be made on an interest payment date, redemption date or at maturity which is not a business day need not be made on such date, but may be made on the next succeeding business day with the same force and effect as if made on the applicable date, and no interest shall accrue for the period from and after such date.

Unless otherwise indicated in the prospectus supplement or term sheet relating to debt securities, the debt securities will be issued only in fully registered form, without coupons, in denominations of \$1,000 or any integral multiple thereof. No service charge will be made for any transfer or exchange of the debt securities, but we may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection with a transfer or exchange.

Debt securities may be issued under the indenture for federal income tax purposes as Original Issue Discount Securities (as defined below). Federal income tax consequences and other special considerations applicable to any such Original Issue Discount Securities (or other debt securities treated as issued at an original issue discount) will be described in the prospectus supplement relating to such securities. Original Issue Discount Security generally means any debt security that (i) is issued at a price lower than its principal amount (subject to a de minimus exception), (ii) does not require the payment of interest in cash or property (other than

Table of Contents

debt instruments of the issuer) at least annually throughout the term of the debt security or (iii) is issuable in exchange for property (including other debt instruments) and does not provide for adequate stated interest.

Global Securities

The debt securities of a series may be issued in the form of one or more global securities that will be deposited with a depositary or its nominees identified in the prospectus supplement or term sheet relating to the debt securities. In such a case, one or more global securities will be issued in a denomination or aggregate denominations equal to the portion of the aggregate principal amount of outstanding debt securities of the series to be represented by such global security or securities.

No global security may be transferred except as a whole by a nominee of the depositary for such global security to the depositary or a nominee of the depositary and except in the circumstances described in the prospectus supplement or term sheet relating to the debt securities. The specific terms of the depositary arrangement with respect to a series of debt securities will be described in the prospectus supplement or term sheet relating to such series.

Guarantees

In order to enable us to obtain more favorable interest rates and terms of payment of principal of, premiums (if any), other amounts (if any) and interest on the debt securities, the debt securities may (if so specified in the prospectus supplement or term sheet) be guaranteed, jointly and severally, by all of the guarantors pursuant to guarantees. Guarantees will not be applicable to or guarantee our obligations with respect to the conversion of the debt securities into shares of our capital stock or other securities. Each guarantee will be an unsecured obligation of each guarantor issuing such guarantee unless otherwise provided in the prospectus supplement or term sheet. The ranking of a guarantee and the terms of the subordination, if any, will be set forth in the prospectus supplement or term sheet.

The indenture provides that, in the event any guarantee would constitute or result in a violation of any applicable fraudulent conveyance or similar law of any relevant jurisdiction, the liability of the guarantor under such guarantee will be reduced to the maximum amount (after giving effect to all other contingent and other liabilities of such guarantor) permissible under the applicable fraudulent conveyance or similar law.

Consolidation, Merger, Sale or Conveyance

The indenture provides that we may consolidate with, or sell, convey or lease all or substantially all of our assets to, or merge with or into, any other corporation, if:

either we are the continuing corporation, or the successor corporation expressly assumes the due and punctual payment of the principal of and interest on all the debt securities outstanding under the indenture according to their tenor and the due and punctual performance and observance of all of the covenants and conditions of the indenture to be performed or observed by us; and

immediately after the merger or consolidation, or the sale, conveyance or lease, no event of default, and no event which, after notice or lapse of time or both, would become an event of default, shall have occurred and be continuing.

Modification of the Indenture

We and the trustee may modify the indenture with respect to the debt securities of any series, with or without the consent of the holders of debt securities, under certain circumstances to be described in a prospectus supplement or term sheet.

Table of Contents

Satisfaction and Discharge of Indenture

We may terminate our obligations under the debt securities of any series, except for certain limited surviving obligations, if either all of the debt securities of such series have been delivered to the trustee for cancellation or the debt securities of such series mature within one year or may be called for redemption within one year and, among other things, we deposit with the trustee cash or appropriate government obligations sufficient for the payment of principal and interest on the debt securities of such series to maturity.

Defaults and Notice

The debt securities will contain events of default to be specified in the applicable prospectus supplement or term sheet, including, without limitation:

failure to pay the principal of, or premium, if any, on any debt security of such series when due and payable (whether at maturity, by call for redemption, through any mandatory sinking fund, by redemption at the option of the holder, by declaration of acceleration or otherwise);

failure to make a payment of any interest on any debt security of such series when due and payable, which failure shall have continued for a period of 30 days;

our, or any guarantor's, failure to perform or observe any other covenants or agreements in the indenture or in the debt securities of such series which failure shall have continued for a period of at least 90 days after written notice to us or the guarantors, as the case may be, by the trustee or to us and the trustee from the holders of not less than 25% of the aggregate principal amount of the then outstanding debt securities of such series;

certain events of bankruptcy, insolvency or reorganization of us; and

any guarantee of a guarantor that is a significant subsidiary in respect of such series of debt securities shall for any reason cease to be, or be asserted in writing by any guarantor thereof or us not to be, in full force and effect, and enforceable in accordance with its terms subject to certain exceptions.

If an event of default with respect to debt securities of any series shall occur and be continuing, the trustee or the holders of not less than 25% in aggregate principal amount of the then outstanding debt securities of such series may declare the principal amount (or, if the debt securities of such series are issued at an original issue discount, such portion of the principal amount as may be specified in the terms of the debt securities of such series) of all debt securities of such series or such other amount or amounts as the debt securities or supplemental indenture with respect to such series may provide, to be due and payable immediately.

The indenture provides that, at any time after a declaration of acceleration with respect to the debt securities of any series as described in the preceding paragraph, the holders of a majority in principal amount of the then outstanding debt securities of such series may rescind and cancel such declaration and its consequences:

- (1) if the rescission would not conflict with any judgment or decree;
- (2) if all existing events of default with respect to the debt securities of such series have been cured or waived except nonpayment of principal or interest that has become due solely because of the acceleration;
- (3) to the extent the payment of such interest is lawful, if interest on overdue installments of interest and overdue principal, which has become due otherwise than by such declaration of acceleration, has been paid; and
- (4) if the Company has paid the trustee its reasonable compensation and reimbursed the trustee for its expenses, disbursements and advances.

Edgar Filing: HOGUE CELLARS, LTD. - Form 424B3

No such rescission shall affect any subsequent default or event of default or impair any right consequent thereto.

The indenture provides that the trustee will, within 90 days after the occurrence of a default, give to holders of debt securities of any series notice of all uncured defaults with respect to such series known to it. However, in

Table of Contents

the case of a default that results from the failure to make any payment of the principal of, premium, if any, or interest on the debt securities of any series, or in the payment of any mandatory sinking fund installment with respect to debt securities of such series, the trustee may withhold such notice if it in good faith determines that the withholding of such notice is in the interest of the holders of debt securities of such series.

The indenture contains a provision entitling the trustee to be offered reasonable indemnity by holders of debt securities before proceeding to exercise any trust or power under the indenture at the request of such holders. The indenture provides that the holders of a majority in aggregate principal amount of the then outstanding debt securities of any series may direct the time, method and place of conducting any proceedings for any remedy available to the trustee, or of exercising any trust or power conferred upon the trustee with respect to the debt securities of such series. However, the trustee may decline to follow any such direction if, among other reasons, the trustee determines in good faith that the actions or proceedings as directed, would involve the trustee in personal liability or would be unduly prejudicial to the holders of the debt securities of such series not joining in such direction.

The right of a holder of debt securities of any series to institute a proceeding with respect to the indenture is subject to certain conditions including that the holders of at least 25% in aggregate principal amount of the debt securities of such series then outstanding make a written request upon the trustee to exercise its power under the indenture, offer reasonable indemnity to the trustee and afford the trustee reasonable opportunity to act. Even so, the holder has an absolute right to receipt of the principal of, premium, if any, and interest when due, to require conversion of debt securities if the indenture provides for convertibility at the option of the holder and to institute suit for the enforcement of such rights.

Concerning the Trustee

The prospectus supplement or term sheet with respect to particular debt securities will describe any relationship that we may have with the trustee for such debt securities.

Reports to Holders of Debt Securities

We intend to furnish to holders of debt securities all quarterly and annual reports that we furnish to holders of our common stock, and file such additional information, documents and reports as may be required by the rules and regulations prescribed from time to time by the Securities and Exchange Commission.

DESCRIPTION OF PREFERRED STOCK

Our board of directors is authorized to issue in one or more series, generally without stockholder approval, up to 1,000,000 shares of preferred stock, par value \$.01 per share. Undesignated shares of preferred stock can be issued with such designations, preferences, qualifications, privileges, limitations, restrictions, options, voting powers (full or limited), conversion or exchange rights and other special or relative rights as the board of directors shall from time to time fix by resolution. Thus, unless a specific stockholder approval requirement applies and subject to any statutory or contractual or other limitations as to class rights or other matters that might apply, our board of directors could authorize the issuance of preferred stock with voting, conversion and other rights that could dilute the voting power and other rights of holders of our common stock. The prospectus supplement or term sheet relating to a series of preferred stock will set forth the dividend, voting, conversion, exchange, repurchase and redemption rights, if applicable, the liquidation preference, and other specific terms of such series of preferred stock.

The description of certain provisions of the preferred stock set forth in any prospectus supplement or term sheet does not purport to be complete and is subject to and qualified in its entirety by reference to our certificate of incorporation and the certificate of designations relating to each series of preferred stock. The applicable prospectus supplement or term sheet will describe the specific terms of any series of preferred stock being offered which may include:

the specific designation, number of shares, seniority and purchase price;

any liquidation preference per share;

any date of maturity;

any redemption, repayment or sinking fund provisions;

any dividend rate or rates and the dates on which any such dividends will be payable (or the method by which such rates or dates will be determined);

any voting rights;

if other than the currency of the United States, the currency or currencies (including composite currencies) in which such preferred stock is denominated and in which payments will or may be payable;

the method by which amounts in respect of such series of preferred stock may be calculated and any commodities, currencies or indices, or value, rate or price, relevant to such calculation;

whether such series of preferred stock is convertible or exchangeable and, if so, the securities or rights into which it is convertible or exchangeable, and the terms and conditions upon which such conversions or exchanges will be effected;

the place or places where dividends and other payments on such series of preferred stock will be payable; and

any additional voting, dividend, liquidation, redemption and other rights, preferences, privileges, limitations and restrictions.

As described under "Description of Depositary Shares" below, we may, at our option, elect to offer depositary shares evidenced by depositary receipts, each representing an interest (to be specified in the prospectus supplement or term sheet relating to the particular series of preferred stock) in a share of the particular series of preferred stock issued and deposited with a depositary.

All shares of preferred stock offered by this prospectus, or issuable upon conversion, exchange or exercise of securities, will, when issued, be validly issued and fully paid and non-assessable.

Table of Contents

DESCRIPTION OF DEPOSITARY SHARES

We may offer fractional shares of preferred stock rather than full shares of preferred stock, and, in that event, will issue receipts for depositary shares. Each of these depositary shares will represent a fraction, which will be set forth in the applicable prospectus supplement or term sheet, of a share of the applicable series of preferred stock. The shares of any series of preferred stock underlying any depositary shares that we may sell under this prospectus will be deposited under a deposit agreement between us and a depositary selected by us. Subject to the terms of the deposit agreement, each holder of a depositary share will be entitled, in proportion to the applicable fraction of a share of the preferred stock underlying the depositary share, to all of the rights, preferences and privileges, and be subject to the qualifications and restrictions, of the preferred stock underlying that depositary share. The description set forth below and in any prospectus supplement or term sheet of certain provisions of the deposit agreement and of the depositary shares and depositary receipts is not complete. You should carefully review the prospectus supplement or term sheet and the form of deposit agreement and form of depositary receipts relating to each series of preferred stock.

General

We may, at our option, elect to have shares of any series of preferred stock be represented by depositary shares. The shares of any series of preferred stock underlying the depositary shares will be deposited under a separate deposit agreement that we will enter with a bank or trust company having its principal office in the United States and a combined capital and surplus of at least \$50,000,000. This bank or trust company will be considered the depositary. The prospectus supplement or term sheet relating to a series of depositary shares will set forth the name and address of the depositary. Subject to the terms of the deposit agreement, each owner of a depositary share will be entitled, in proportion to the applicable interest in the number of shares of such series of preferred stock underlying such depositary share, to all the rights and preferences of such series of preferred stock underlying such depositary share (including dividend, voting, redemption, conversion, exchange and liquidation rights).

The depositary shares will be evidenced by depositary receipts issued pursuant to the deposit agreement, each of which will represent the applicable interest in a number of shares of such series of preferred stock described in the applicable prospectus supplement or term sheet.

Unless otherwise specified in the prospectus supplement or term sheet, a holder of depositary shares is not entitled to receive the shares of such series of preferred stock underlying the depositary shares.

Pending the preparation of definitive depositary receipts, the depositary may, upon our written order, issue temporary depositary receipts substantially identical to the definitive depositary receipts. Definitive depositary receipts will thereafter be prepared without unreasonable delay.

Dividends and Other Distributions

The depositary will distribute all cash dividends or other cash distributions received in respect of the applicable series of preferred stock to the record holders of depositary shares representing such preferred stock in proportion to the numbers of depositary shares owned by the holders on the relevant record date.

In the event of a distribution other than in cash, the depositary will distribute property received by it to the record holders of depositary shares entitled to such property, as nearly as practicable, in proportion to the number of depositary shares owned by the holder. However, if the depositary determines that it is not feasible to make such distribution, it may, with our approval, sell such property and distribute the net proceeds from such sale to the holders. The amounts distributed by the depositary may be reduced by any amount required to be withheld by us or the depositary on account of taxes.

The deposit agreement will also contain provisions relating to the manner in which any subscription or similar rights we offer to holders of preferred stock shall be made available to holders of depositary shares.

Table of Contents

Conversion and Exchange

If any preferred stock underlying the depositary shares is subject to provisions relating to its conversion or exchange as set forth in the prospectus supplement or term sheet relating thereto, each record holder of depositary shares will have the right or obligation to convert or exchange such depositary shares pursuant to its terms.

Redemption of Depositary Shares

If a series of preferred stock underlying the depositary shares is subject to redemption, the depositary shares will be redeemed from the proceeds received by the depositary resulting from the redemption, in whole or in part, of the series of preferred stock held by the depositary. The redemption price per depositary share will be equal to the aggregate redemption price payable with respect to the number of shares of such series of preferred stock underlying the depositary shares. Whenever we redeem a series of preferred stock from the depositary, the depositary will redeem as of the same redemption date a proportionate number of depositary shares representing the shares of such series of preferred stock that were redeemed. If less than all the depositary shares are to be redeemed, the depositary shares to be redeemed will be selected by lot or pro rata as we may determine.

After the date fixed for redemption, the depositary shares so called for redemption will no longer be deemed to be outstanding and all rights of the holders of the depositary shares will cease, except the right to receive the redemption price payable upon such redemption.

Voting

Upon receipt of notice of any meeting or action in lieu of any meeting at which the holders of any shares of a series of preferred stock underlying the depositary shares are entitled to vote, the depositary will mail the information contained in such notice to the record holders of the depositary shares relating to such shares of preferred stock. Each record holder of such depositary shares on the record date (which will be the same date as the record date for such series of preferred stock) will be entitled to instruct the depositary as to the exercise of the voting rights pertaining to the number of shares of such series of preferred stock underlying such holder's depositary shares. The depositary will endeavor, as practicable, to vote the number of shares of such series of preferred stock underlying such depositary shares in accordance with such instructions, and we will agree to take all action which may be deemed necessary by the depositary in order to enable the depositary to do so. If the depositary does not receive instructions from the holders of depositary shares, the depositary will abstain from voting the preferred stock that underlies these depositary shares.

Amendment of the Deposit Agreement

The form of depositary receipt evidencing the depositary shares and any provision of the deposit agreement may at any time be amended by agreement between us and the depositary. However, any amendment which materially and adversely alters the rights of the existing holders of depositary shares will not be effective unless such amendment has been approved by the holders of at least a majority of the depositary shares then outstanding.

Charges of Depositary

We will pay all transfer and other taxes and governmental charges that arise solely from the existence of the depositary arrangements. We will pay charges of the depositary in connection with the initial deposit of the applicable series of preferred stock and any exchange or redemption of such series of preferred stock. Holders of depositary shares will pay all other transfer and other taxes and governmental charges, and, in addition, such other charges as are expressly provided in the deposit agreement to be for their accounts.

Miscellaneous

We, or at our option, the depository, will forward to the holders of depository shares all of our reports and communications which we are required to furnish to the holders of the series preferred stock represented by the depository receipts.

Neither we nor the depository will be liable if we or the depository is prevented or delayed by law or any circumstances beyond our or its control in performing our or its obligations under the deposit agreement. Our obligations and the depository's obligations under the deposit agreement will be limited to performance in good faith and neither we nor the depository will be obligated to prosecute or defend any legal proceeding in respect of any depository share or preferred stock unless satisfactory indemnity has been furnished. Both we and the depository may rely upon written advice of counsel or accountants, or information provided by persons presenting preferred stock for deposit, holders of depository shares or other persons believed to be competent and on documents believed to be genuine.

Resignation and Removal of Depository; Termination of the Deposit Agreement

The depository may resign at any time by delivering notice to us of its election to do so, and we may at any time remove the depository. Any such resignation or removal will take effect upon the appointment of a successor depository and its acceptance of such appointment. We will appoint a successor depository within 60 days after delivery of the notice of resignation or removal. We may terminate the deposit agreement or it may be terminated by the depository if a period of 90 days expires after the depository has delivered written notice to us of its election to resign and we have not appointed a successor depository. Upon termination of the deposit agreement, the depository will discontinue the transfer of depository receipts, will suspend the distribution of dividends to the holders of depository receipts, and will not give any further notices (other than notice of such termination) or perform any further acts under the deposit agreement except that the depository will continue to deliver the applicable series of preferred stock certificates, together with dividends and distributions and the net proceeds of any sales of rights, preferences, privileges or other property in exchange for depository receipts surrendered prior to any such termination. Upon our request, the depository will deliver to us all books, records, certificates evidencing the applicable series of preferred stock, depository receipts and other documents relating to the subject matter of the deposit agreement.

DESCRIPTION OF COMMON STOCK

If we offer shares of Class A common stock, the prospectus supplement or term sheet will set forth the number of shares offered, the public offering price, information regarding our dividend history and Class A common stock prices as reflected on the New York Stock Exchange or other exchange that the Class A common stock is then listed, including a recent reported last sale price of the Class A common stock. Our authorized common stock currently consists of 377,000,000 shares, of which 322,000,000 shares are Class A common stock, par value \$.01 per share, 30,000,000 shares are Class B common stock, par value \$.01 per share and 25,000,000 shares are Class 1 common stock, \$.01 par value per share.

The shares of Class A common stock offered by this prospectus will, when issued, be validly issued and fully paid and non-assessable, not subject to redemption and without preemptive or other rights to subscribe for or purchase any proportionate part of any new or additional issues of stock of any class or of securities convertible into stock of any class.

The following descriptions of our common stock and certain provisions of our Restated Certificate of Incorporation, as amended, and By-Laws, as amended and restated, are summaries and are not complete. You should carefully review the provisions of our Restated Certificate of Incorporation, as amended, and By-Laws, as amended and restated, and appropriate provisions of the Delaware General Corporation Law.

Table of Contents

General

The rights of holders of Class A common stock and Class B common stock are identical except for voting, dividends and conversion rights. The rights of holders of Class 1 common stock are generally comparable to the rights of holders of Class B common stock except that shares of Class 1 common stock do not generally have voting rights and the circumstances under which shares of Class 1 common stock are convertible into shares of Class A common stock are limited.

Voting

Except as described below in connection with the election of directors and except where a separate class vote is required under Delaware law, the holders of Class A common stock and Class B common stock vote together as a single class on all matters submitted to a vote of the stockholders. In the instances in which the holders of Class A common stock and Class B common stock vote together as a single class, the holders of Class A common stock are entitled to one vote per share and the holders of Class B common stock are entitled to 10 votes per share. Alternatively, in instances where the holders of Class A common stock and Class B common stock vote as separate classes, holders of both the Class A common stock and Class B common stock are entitled to one vote per share.

With respect to the election of directors at a meeting of stockholders, holders of Class A common stock, voting as a separate class, are entitled to elect one-fourth of the members of our board of directors (rounded up, if necessary, to the nearest whole number of directors). If the number of outstanding shares of Class B common stock is an amount equal to or greater than 12 $\frac{1}{2}$ % of the aggregate number of outstanding shares of Class A common stock and Class B common stock, the holders of Class B common stock, voting as a separate class, are entitled to elect the remaining directors; otherwise, the holders of Class A common stock and Class B common stock, voting together as a single class, are entitled to elect the remaining directors (in which case the holders of Class A common stock are entitled to one vote per share and the holders of Class B common stock are entitled to 10 votes per share).

Holders of Class 1 common stock are not entitled to vote except that such holders are entitled to vote as a separate class on matters with respect to which a separate class vote of holders of Class 1 common stock is required by law and are entitled to vote with respect to any increase or decrease in the authorized number of shares of Class 1 common stock as a single class with the holders of Class A common stock and Class B common stock (in which case the holders of Class 1 common stock and Class A common stock are entitled to one vote per share and the holders of Class B common stock are entitled to ten votes per share).

Dividends

If we declare and pay a cash dividend on Class B common stock, we must declare and pay a cash dividend on Class 1 common stock in the same amount per share, and if we declare and pay a cash dividend on Class 1 common stock, we must declare and pay a cash dividend on Class B common stock in the same amount per share. In addition, if we pay a cash dividend on Class B common stock and Class 1 common stock, each share of Class A common stock will receive a cash dividend in an amount at least 10% greater than the amount of the cash dividend per share paid on Class B common stock and Class 1 common stock. Our board of directors may declare and pay a dividend on Class A common stock without paying any dividend on Class B common stock or Class 1 common stock. Our senior credit facility may restrict the payment of cash dividends on our common stock under certain circumstances. Any indentures for debt securities issued in the future, the terms of any preferred stock issued in the future and any credit agreements entered into in the future may also restrict or prohibit the payment of cash dividends on our common stock.

Conversion

Each share of Class B common stock is convertible into one fully paid and non-assessable share of Class A common stock at the option of the holder at any time. The shares of Class A common stock are not convertible

Table of Contents

into or exchangeable for shares of Class B common stock or any of our other securities. Each holder of a share of Class 1 common stock may convert shares of Class 1 common stock into shares of Class A common stock on a one-for-one basis; provided such conversion is permitted only if the holder immediately sells the Class A common stock acquired upon conversion in a market transaction or to an unrelated party in a bona fide private sale. The Company does not intend to list the Class 1 common stock on the New York Stock Exchange or any other exchange. A holder wishing to sell shares of Class 1 common stock may convert such shares of Class 1 common stock into shares of Class A common stock (which are currently listed on the New York Stock Exchange) immediately prior to a qualifying sale of the shares. The terms of the Class 1 common stock do not impose any transfer restrictions on shares of Class 1 common stock; however, shares of Class 1 common stock may be subject to restrictions on transfer imposed by applicable securities laws.

Other Provisions

Holders of Class A common stock, Class B common stock and Class 1 common stock are entitled to share pro rata in the distribution of our assets available for such purpose in the event of our liquidation, dissolution or winding up, after payment of, or provision for, creditors and distribution of, or provision for, preferential amounts and unpaid accumulated dividends to holders of preferred stock, if any. Holders of Class A common stock, Class B common stock and Class 1 common stock have no preemptive rights to subscribe for any additional securities of any class which we may issue, and there are no redemption provisions or sinking fund provisions applicable to any such classes, nor is the Class A common stock, Class B common stock and Class 1 common stock subject to calls or assessments.

Certain Statutory Provisions

We are subject to Section 203 of the Delaware General Corporation Law. Section 203 prohibits a publicly held Delaware corporation from engaging in any business combination with any interested stockholder for a period of three years following the time that such person became an interested stockholder, unless

prior to the time the interested stockholder becomes an interested stockholder, the board of directors approved either the business combination or the transaction which resulted in the stockholder becoming an interested stockholder;

upon consummation of the transaction which resulted in the stockholder becoming an interested stockholder, the interested stockholder owns at least 85% of the outstanding voting stock; or

at or subsequent to the time the interested stockholder became an interested stockholder, the business combination is approved by the board of directors and authorized at a meeting of the corporation's stockholders by the affirmative vote of at least $\frac{66\frac{2}{3}}{3}$ % of the outstanding voting stock that is not owned by the interested stockholder.

For purposes of Section 203, a business combination includes a merger, assets sale or other transaction resulting in a financial benefit to the interested stockholder, and an interested stockholder is a person who, together with affiliates and associates, owns (or within three years, did own) 15% or more of the corporation's voting stock.

DESCRIPTION OF STOCK PURCHASE CONTRACTS AND STOCK PURCHASE UNITS

The following is a general description of the terms of the stock purchase contracts and stock purchase units we may issue from time to time. Particular terms of any stock purchase contracts and/or stock purchase units we offer will be described in the prospectus supplement or term sheet relating to such stock purchase contracts and/or stock purchase units.

We may issue stock purchase contracts, representing contracts obligating holders to purchase from us, and we may sell to the holders, a specified number of shares of Class A common stock, preferred stock or depositary shares at a future date or dates. The price per share of Class A common stock, preferred stock or depositary shares may be fixed at the time the stock purchase contracts are issued or may be determined by reference to a specific formula set forth in the stock purchase contracts. Any stock purchase contract may include anti-dilution provisions to adjust the number of shares issuable pursuant to such stock purchase contract upon the occurrence of certain events.

Stock purchase contracts may be issued separately or as a part of units (stock purchase units) consisting of a stock purchase contract and our debt securities or debt obligations of third parties, including U.S. Treasury securities, in each case securing holders' obligations to purchase Class A common stock, preferred stock or depositary shares under the stock purchase contracts. The stock purchase contracts may require us to make periodic payments to the holders of the stock purchase units or vice versa, and such payments may be unsecured or prefunded on some basis. The stock purchase contracts may require holders to secure their obligations thereunder in a specified manner.

The applicable prospectus supplement or term sheet will describe the terms of any stock purchase contracts or stock purchase units. Certain material federal income tax considerations applicable to the stock purchase units and stock purchase contracts will be set forth in the prospectus supplement or term sheet relating thereto.
