Dear Tornier Distributors,

I am very pleased to share with you that today we announced that we have entered into an agreement to combine with Wright Medical Group, Inc. As you know, we have been focused on our vision of becoming the #1 Extremities Company in the World and this strategic combination helps accelerate us toward the achievement of this goal.

As most of you already know, Wright Medical Group, Inc. is very similar in size to Tornier, with Upper Extremities, Lower Extremities, and Biologics business units selling in the U.S. as well as in over 60 International geographies. In particular, Wright has an innovative and broad Lower Extremities product offering. Additionally, Wright has a strong commitment to Biologics and just recently received an Approvable Letter from the FDA for its Premarket Approval Application for Augment[®] Bone Graft. What makes this combination so compelling is that similar to Tornier, Wright has a laser-like focus on the Extremities segment.

Based in Memphis, all of Wright's approximately 1,000 employees around the world are focused on serving the Extremities customer. Through this strategic combination, we will create a **Premier, High-growth, Extremities and Biologics Company**. This merger will significantly expand the breadth and depth of extremity products that we will offer to our collective surgeon customers. Additionally, we expect that the combined company will further accelerate revenue growth, benefitting from our combined sales and distribution networks and deep customer relationships. As such, we believe this combination will generate long-term value for our customers, our employees, our shareholders and distribution partners.

Next Steps

We expect the transaction to close in the first half of 2015. It is very important that you keep in mind that we must operate as independent companies until the transaction closes. Therefore, we must compete as vigorously as we did before the announcement of the merger.

In the coming weeks, we will form teams to begin planning an integration. We will identify and look for best practices from both organizations to leverage our combined strengths. The integration process will involve repositioning and aligning the strategic vision for both entities and preparing for a successful Day One following the close of the

transaction, when both businesses begin operating as one company. We will regularly communicate the integration plans as we move through the process.

You should expect that Tornier's Sales Leadership will be in touch within the next few days to answer any questions that you may have. In the near-term through closing of the transaction, there will be no significant changes. It is vitally important that our entire global sales organization continues to focus on executing sales objectives to minimize revenue disruption and continuing to deliver outstanding service to all of our customers. This means that you will continue to work with your existing accounts and manage your current Tornier product portfolio as you do today. In the meantime, if you have concerns, please feel free to contact Terry Rich, SVP of U.S. Commercial Operations or myself.

In closing, I wanted to reiterate that this combination brings together two companies with a rich heritage of innovation in Extremities and Biologics. This combination will begin an exciting next chapter for our company as well as for all our Sales Team and Distributor partners. We hope you share our enthusiasm about the opportunities that lie ahead.

Sincerely,

David H. Mowry

President & Chief Executive Officer
