EXPLANATORY NOTE

During the preparation of its Annual Report on Form 10-K for the fiscal year ended March 31, 2015, Advanced Drainage Systems, Inc. identified errors in its historical financial statements related to the accounting for leases, inventory, long-lived assets, ADS Mexicana, income taxes, and other items. As a result, Advanced Drainage Systems, Inc. is filing this Amendment No. 1 on Form 10-Q/A to amend and restate in their entirety the following items of our Quarterly Report on Form 10-Q for the three and six months ended September 30, 2014 as originally filed with the Securities and Exchange Commission on November 10, 2014 (the Original Form 10-Q): (i) Item 1 of Part I, Financial Statements, (ii) Item 2 of Part I, Management s Discussion and Analysis of Financial Condition and Results of Operations, (iii) Item 3 of Part I, Quantitative and Qualitative Disclosures About Market Risk, (iv) Item 4 of Part I, Controls and Procedures, (v) Item 1A of Part II Risk Factors, and (vi) Item 6 of Part II, Exhibits. We have also updated the signature page, the certifications of our Chief Executive Officer and Chief Financial Officer in Exhibits 31.01, 31.02, 32.01 and 32.02, respectively, and our financial statements formatted in Extensible Business Reporting Language (XBRL) in Exhibits 101. No other sections were affected, or have been changed; however, for the convenience of the reader, this report on Form 10-Q/A restates in its entirety, as amended, our Original Form 10-Q. This report on Form 10-Q/A is presented as of the filing date of the Original Form 10-Q and does not reflect events occurring after that date, or modify or update disclosures, other than as required to reflect the restatement.

This Form 10-Q/A is being filed concurrently with the Company s Form 10-K for the year ended March 31, 2015 and Forms 10-Q/A for the periods ended June 30, 2014 and December 31, 2014.

ADVANCED DRAINAGE SYSTEMS, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

(Amounts in thousands, except per share data)

1. BACKGROUND AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES Organization

Advanced Drainage Systems, Inc. (collectively with its subsidiaries referred to as ADS, the Company, we, us and our), incorporated in Delaware, designs, manufactures and markets high performance thermoplastic corrugated pipe and related water management products, primarily in North and South America and Europe. Our broad product line includes corrugated high density polyethylene (or HDPE) pipe, polypropylene (or PP) pipe and related water management products.

The Company is managed based primarily on the geographies in which it operates and reports results of operations in two reportable segments. The reportable segments are Domestic and International.

2014 Initial Public Offering (IPO)

On July 11, 2014, in anticipation of the IPO, we executed a 4.707-for-one split of our common and our preferred stock. The effect of the stock split on outstanding shares and earnings per share has been retroactively applied to all periods presented.

On July 25, 2014, we completed the IPO of our common stock, which resulted in the sale by the Company of 5,289 shares, bringing the total number of shares issued and outstanding as of July 25, 2014 to 52,881. We received total proceeds from the IPO of \$79,131 after excluding underwriter discounts and commissions of \$5,501, based upon the price to the public of \$16.00 per share. After deducting other offering expenses, we used the net proceeds to reduce the outstanding indebtedness under the revolving portion of our credit facility. The common stock is listed on the New York Stock Exchange under the symbol WMS.

On August 22, 2014, an additional 600 shares of common stock were sold by certain selling stockholders of the Company as a result of the partial exercise by the underwriters of the over-allotment option granted by the selling stockholders to the underwriters in connection with the IPO. The shares were sold at the public offering price of \$16.00 per share. The Company did not receive any proceeds from the sale of such additional shares.

Basis of Presentation

The Company prepares its condensed consolidated financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). The Condensed Consolidated Balance Sheet as of March 31, 2014 was derived from audited financial statements. In our opinion, the accompanying unaudited condensed consolidated financial statements contain all adjustments, of a normal recurring nature, in addition to the restatement adjustments described in Note 2. Restatement of Previously Issued Financial Statements, necessary to present fairly its financial position as of September 30, 2014 and the results of operations for the three and six months

ended September 30, 2014 and 2013 and cash flows for the six months ended September 30, 2014 and 2013. The interim condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements, including the notes thereto, filed in our Annual Report on Form 10-K for the year ended March 31, 2015, filed concurrently with this Form 10-Q/A.

Principles of Consolidation

Our condensed consolidated financial statements include the Company, our wholly-owned subsidiaries, our majority-owned subsidiaries, including ADS Mexicana, S.A. de C.V. (together with its affiliate ADS Corporativo, S.A. de C.V., ADS Mexicana), and variable interest entities (VIEs) of which we are the primary beneficiary. We use the equity method of accounting for equity investments where we exercise significant influence but do not hold a controlling financial interest. Such investments are recorded in Other assets in our Condensed Consolidated Balance Sheets and the related equity earnings from these investments are included in Equity in net loss of unconsolidated affiliates in our Condensed Consolidated Statements of Operations. All intercompany balances and transactions have been eliminated in consolidation.

Estimates

The preparation of our condensed consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingencies and

- 7 -

liabilities at the balance sheet date and the reported amounts of revenues and expenses during the reporting period. Significant estimates include, but are not limited to, our allowance for doubtful accounts, inventory, useful lives of our property, plant and equipment and amortizing intangible assets, determination of the proper accounting for leases, accounting for investments, evaluation of goodwill, intangible assets and other long-lived assets for impairment, accounting for stock-based compensation and our ESOP, valuation of our Redeemable common stock and Redeemable convertible preferred stock, determination of allowances for sales returns, rebates and discounts, determination of the valuation allowance, if any, on deferred tax assets, and reserves for uncertain tax positions. Management s estimates and assumptions are evaluated on an ongoing basis and are based on historical experience, current conditions and available information. Management believes the accounting estimates are appropriate and reasonably determined; however, due to the inherent uncertainties in making these estimates, actual results could differ from those estimates.

Property, Plant and Equipment and Depreciation Method

Property, plant and equipment are recorded at cost less accumulated depreciation, with the exception of assets acquired through acquisitions, which are initially recorded at fair value. Equipment acquired under capital lease is recorded at the lower of fair market value or the present value of the future minimum lease payments. Depreciation is computed for financial reporting purposes using the straight-line method over the estimated useful lives of the related assets or the lease term, if shorter, as follows:

Buildings Machinery and equipment Leasehold improvements Years
40
3 15
Shorter of useful life or life of lease

Costs of additions and major improvements are capitalized, whereas maintenance and repairs that do not improve or extend the life of the asset are charged to expense as incurred. When assets are retired or disposed, the cost and related accumulated depreciation are removed from the asset accounts and any resulting gain or loss is reflected in Loss (gain) on disposal of assets or businesses in our Condensed Consolidated Statements of Operations. Construction in progress is also recorded at cost and includes capitalized interest, capitalized payroll costs and related costs such as taxes and other fringe benefits. Interest capitalized was \$177 and \$316 during the three and six months ended September 30, 2014, respectively, and \$246, and \$410 during the three and six months ended September 30, 2013, respectively.

Leases

Leases are reviewed for capital or operating classification at their inception. The Company uses the lower of the rate implicit in the lease or its incremental borrowing rate in the assessment of lease classification and assumes the initial lease term includes cancellable and renewal periods that are reasonably assured. For leases classified as capital leases at lease inception, we record a capital lease asset and lease financing obligation equal to the lesser of the present value of the minimum lease payments or the fair market value of the leased asset. The capital lease asset is recorded in Property, plant and equipment, net and amortized to its expected residual value at the end of the lease term using the straight-line method, and the lease financing obligation is amortized using the effective interest method over the lease term with the rental payments being allocated to principal and interest. For leases classified as operating leases, we record rent expense over the lease term using the straight-line method.

Recent Accounting Pronouncements Not Yet Adopted

In April 2014, the Financial Accounting Standards Board issued authoritative guidance amending existing requirements for reporting discontinued operations. Under the new guidance, discontinued operations reporting will be limited to disposal transactions that represent strategic shifts having a major effect on operations and financial results. The amended guidance also enhances disclosures and requires assets and liabilities of a discontinued operation to be classified as such for all periods presented in the financial statements. Public entities will apply the amended guidance prospectively to all disposals occurring within annual periods beginning on or after December 15, 2014, and interim periods within those years. We will adopt this standard effective April 1, 2015. We are currently evaluating the impact of this amendment on our consolidated financial statements.

In May 2014, the Financial Accounting Standards Board issued an accounting standards update which amends the guidance for revenue recognition. This amendment contains principles that will require an entity to recognize revenue to depict the transfer of goods and services to customers at an amount that an entity expects to be entitled to in exchange for goods or services. The amendment sets forth a new revenue recognition model that requires identifying the contract, identifying the performance

obligations and recognizing the revenue upon satisfaction of performance obligations. This amendment is effective for annual periods beginning on or after December 15, 2016, and interim periods within those years, with earlier adoption not permitted. We will adopt this standard effective April 1, 2017. We are currently evaluating the impact of this amendment on our consolidated financial statements.

In August 2014, the Financial Accounting Standards Board issued an accounting standards update which provides guidance for management s assessment of an entity s ability to continue as a going concern. The new guidance is intended to define management s responsibility to evaluate whether there is substantial doubt about an entity s ability to continue as a going concern and to provide related footnote disclosures. The guidance provides a definition of the term substantial doubt and requires an assessment for a period of one year after the date that the financial statements are issued (or available to be issued). It also requires certain disclosures when substantial doubt is alleviated as a result of the consideration of management s plans and requires an express statement and other disclosures when substantial doubt is not alleviated. The new standard will be effective for annual periods beginning on or after December 15, 2016, and interim periods within those years, with earlier adoption permitted. We will adopt this standard effective April 1, 2017. We are currently evaluating the impact of this new standard on our consolidated financial statements.

2. RESTATEMENT OF PREVIOUSLY ISSUED FINANCIAL STATEMENTS Background

In June of 2015, in connection with the preparation of the Company s consolidated annual financial statements for the fiscal year ended March 31, 2015, certain errors related to the Company s accounting treatment for its transportation and equipment leases and inventory methodology were identified. As the Company completed additional accounting review procedures, it identified additional errors related to long-lived assets, ADS Mexicana, and certain other miscellaneous items.

Due to these errors, as further described below, and based upon the recommendation of management, the Audit Committee of the Company s Board of Directors (the Audit Committee) determined on August 14, 2015 that the Company s previously issued financial statements should no longer be relied upon. As a result of the foregoing, the Company has restated its condensed consolidated financial statements as of September 30, 2014 and March 31, 2014 and for the three and six months ended September 30, 2014 and 2013. The restatement also affects periods prior to fiscal year 2014, with the cumulative effect of the errors reflected as an adjustment to the fiscal year 2014 opening stockholders equity (deficit) balance.

Accounting Adjustments

The following is a discussion of the significant accounting adjustments that were made to the Company s historical condensed consolidated financial statements.

Lease Accounting Adjustments

The Company leases real estate and equipment under various lease agreements. Historically, assets leased under the Company s transportation and equipment leasing program (Fleet Leases) have been classified as operating leases. However, based upon a reexamination of the Company s historic assumptions, estimates and judgments with respect to lease accounting, the Company has determined that a substantial portion of the Fleet Leases should instead be classified as capital leases.

The Company has also reexamined its historic assumptions, estimates and judgments with respect to the accounting for real estate and aircraft leases that were previously classified as operating leases. In many cases, the Company has determined that the leases should instead be classified as capital leases due to the inclusion of contingent penalty amounts in the minimum lease payments used for purposes of the lease classification assessment.

Inventory Accounting Adjustments

The Company identified and corrected certain errors related to its accounting for inventory. The errors primarily related to the Company s incorrect historical calculation of inventory costing based on the first-in first-out (FIFO) method, the inappropriate capitalization of certain inter-plant freight expense and other overhead costs, the misclassification of certain overhead costs between general and administrative expense and cost of goods sold and the misclassification of our financial fuel hedge losses between Cost of goods sold and Other miscellaneous (income) expense, net.

Long-Lived Assets Accounting Adjustments

The Company identified and corrected certain errors related to the accounting for long-lived assets included in Property, plant and equipment, Goodwill, Intangible assets and Other assets in the condensed consolidated balance sheets. These errors primarily related to either the initial capitalization, subsequent depreciation or amortization, or the timing or amount of impairment charges.

ADS Mexicana Accounting Adjustments

In October 2015, the Company became aware of questions related to the proper characterization of certain ADS Mexicana transactions including an aircraft leasing arrangement, a real estate leasing arrangement and several service arrangements that involved ADS Mexicana related parties. Based on the results of a management review and an independent investigation authorized by the Audit Committee, it was determined that the various lease and services arrangements described above, as well as certain additional services arrangements with former related parties identified during the course of the investigation, lacked commercial and economic substance or proper supporting documentation as to the service performed, and therefore were not appropriately reflected in the Company s consolidated financial statements. These errors have been corrected in the restated condensed consolidated financial statements, with these adjustments primarily impacting Other miscellaneous (income) expense, net, Net income attributable to noncontrolling interest and Noncontrolling interest in subsidiaries.

Management also identified potential accounting errors related to ADS Mexicana s revenue recognition cut-off practices, which were included in the scope of the independent investigation authorized by the Audit Committee. As a result, the Company identified instances where ADS Mexicana recognized revenue prior to the date of shipment or transfer of title/ownership, which is not in accordance with U.S. GAAP.

The Company also identified and corrected certain other errors related to the accounting for ADS Mexicana. These adjustments related to the increase of the allowance for doubtful accounts, errors related to the inventory costing methodology, and certain other miscellaneous items.

Income Taxes and Other Accounting Adjustments

The Company recorded adjustments to income taxes to reflect the impact of the restatement adjustments, as well as discrete tax adjustments related to transfer pricing. See Note 18. Income Taxes for discussion of the related impact to our effective tax rate. The Company also identified and corrected certain other errors, all of which are insignificant individually and in the aggregate. The nature of the primary items besides income taxes in this category of adjustments is described as follows:

The adjustments to the accrued liability for customer rebates are the result of the Company s prior methodology not properly capturing all rebates due at period end.

The adjustments related to the Tuberias Tigre ADS Limitada joint venture (South American Joint Venture) were the result of an impairment of equipment in the fiscal year ended March 31, 2014 that was not identified until the time of a subsequent-year statutory audit. As a result, the Company has corrected its equity method accounting to properly reflect the impairment charge.

Impact on Condensed Consolidated Statements of Operations

The net effect of the restatement described above on the Company s previously reported condensed consolidated statements of operations for the three months ended September 30, 2014 and 2013 is as follows:

Net cash provided by financing activities	20,428	(6,623)	13,805

3. DISPOSAL OF ASSETS OR BUSINESSES

On June 28, 2013, we entered into an Asset Purchase Agreement (the NDS Agreement) to sell substantially all of the assets used in connection with our Draintech product line to National Diversified Sales, Inc. (NDS) in exchange for cash. The NDS Agreement defined the purchase price to consist of a cash payment of \$5,877. The net book value for the related assets, consisting of inventory and property and equipment, was \$1,029, bringing the net gain recognized to \$4,848. The sale transaction closed on June 28, 2013. The Company determined that this sale did not qualify for discontinued operations reporting.

4. PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment, net as of September 30, 2014 and March 31, 2014 consisted of the following:

(Amounts in thousands)	Septer	nber 30, 2014	Mar	ch 31, 2014
Land, buildings and improvements	\$	161,415	\$	158,588
Machinery and equipment		664,574		640,529
Construction in Progress		15,597		11,003
Total cost		841,586		810,120
Less accumulated depreciation		(481,844)		(459,769)
Property, plant and equipment - net	\$	359,742	\$	350,351

Table of Contents 37

- 15 -

The following table sets forth depreciation expense for the three and six months ended September 30, 2014 and 2013, respectively:

	Three Mon	Three Months Ended		ths Ended	
	Septem	ıber 30,	Septem	ber 30,	
(Amounts in thousands)	2014	2013	2014	2013	
Depreciation expense	\$ 12,533	\$ 12,107	\$ 24,790	\$ 24,188	

5. INVENTORIES

Inventories as of September 30, 2014 and March 31, 2014 consisted of the following:

		September 30,				
(Amounts in thousands)		2014	2014			
Raw materials	\$	56,859	\$ 51,7	⁷ 85		
Finished goods		175,403	208,1	.06		
Total inventory	\$	232,262	\$ 259,8	891		

We had no work-in-process inventories as of September 30, 2014 and March 31, 2014.

6. LEASES

Capital Leases

The Company leases certain buildings and transportation equipment including its fleet of trucks and trailers, under capital lease agreements.

Leased assets accounted for as capital leases and included in Property, plant and equipment, net consisted of the following:

(Amounts in thousands)	September 30, 2014		September 30, 2014 M		Marc	ch 31, 2014
Buildings and improvements	\$	7,163	\$	7,716		
Machinery and equipment		165,899		145,980		
Total cost		173,062		153,696		
Less accumulated amortization		(95,858)		(89,599)		
Leased assets in Property, plant and equipment, net	\$	77,204	\$	64,097		

The following is a schedule by year of future minimum lease payments under capital leases together with the present value of the net minimum lease payments as of September 30, 2014:

(Amounts in thousands)			
September 30, 2015	\$ 15,157		
September 30, 2016	15,115		
September 30, 2017	13,181		
September 30, 2018	9,913		
September 30, 2019	7,517		
Thereafter	9,407		
Total minimum lease payments ^(a)	70,290		
Less: amount representing interest ^(b)			
Present value of net minimum lease payments	\$61,462		
Lease obligation Current	\$ 12,225		
Lease obligation Long-term	49,237		
-			
Total lease obligation	\$61,462		

- (a) Excludes contingent rentals which may be paid. Contingent rentals amounted to \$375 and \$10 for the six months ended September 30, 2014 and 2013, respectively.
- (b) Amount necessary to reduce minimum lease payments to present value calculated at the lower of the rate implicit in the lease or the Company s incremental borrowing rate at lease inception.

During the three months ended September 30, 2014 and 2013, the Company acquired equipment under capital lease and incurred lease obligations of \$5,496 and \$5,053, respectively, and during the six months ended September 30, 2014 and 2013, the Company acquired equipment under capital lease and incurred lease obligations of \$20,158 and \$16,373, respectively.

Certain leases contain residual value guarantees that create a contingent obligation on the part of the Company to compensate the lessor if the leased asset cannot be sold for an amount in excess of a specified minimum value at the conclusion of the lease term. The calculation is based on the original cost of the transportation equipment, less lease payments made, compared to a percentage of the transportation equipment s fair market value at the time of sale. All leased units covered by this guarantee have been classified as capital leases and a corresponding capital lease obligation was recorded. Therefore, no further contingent obligation is needed.

Operating leases

We lease certain real estate and office equipment under various cancelable and non-cancelable operating lease agreements that expire at various dates through fiscal year 2037.

Total rent expense was \$645 and \$928 for the three months ended September 30, 2014 and 2013, respectively, and \$1,625 and \$2,231 for the six months ended September 30, 2014 and 2013, respectively.

Future minimum rental commitments under operating leases as of September 30, 2014, are summarized below (amounts in thousands):

	Twelve Months Ended September 30,						
	2015	2016	2017	2018	2019	The	reafter
Future operating lease payments	\$ 2,842	\$ 2,245	\$1,224	\$638	\$416	\$	2,245

7. GOODWILL AND INTANGIBLE ASSETS Goodwill

The carrying amount of goodwill by reportable segment is as follows:

(Amounts in thousands)	Domestic	Inter	Total	
Balance at March 31, 2014	\$ 87,507	\$	510	\$88,017

8. FAIR VALUE MEASUREMENT

The fair value measurements and disclosure principles of ASC 820 - Fair Value Measurements and Disclosures define fair value, establish a framework for measuring fair value and provide disclosure requirements about fair value measurements. These principles define a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

Level 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity has the ability to access as of the measurement date.

Level 2 Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 Significant unobservable inputs that reflect a reporting entity s own assumptions about the assumptions that market participants would use in pricing an asset or liability.

When applying fair value principles in the valuation of assets and liabilities, we are required to maximize the use of quoted market prices and minimize the use of unobservable inputs. The Company has not changed its valuation techniques used in measuring the fair value of any financial assets or liabilities during the periods presented. Our fair value estimates take into consideration the credit risk of both the Company and our counterparties.

When active market quotes are not available for financial assets and liabilities, we use industry standard valuation models. Where applicable, these models project future cash flows and discount the future amounts to a present value using market-based observable inputs including credit risk, interest rate curves, foreign currency rates and forward and spot prices for currencies. In circumstances where market-based observable inputs are not available, management judgment is used to develop assumptions to estimate fair value. Generally, the fair value of our Level 3 instruments is estimated as the net present value of expected future cash flows based on internal and external inputs.

Recurring Fair Value Measurements

The assets and liabilities carried at fair value as of September 30, 2014 and March 31, 2014 were as follows:

(Amounts in thousands)	,	Fotal	Septembe), 2014 evel 2	L	evel 3

For the six months ended September 30, 2014 our Redeemable common stock transferred out of Level 3, as these securities started actively trading on the NYSE during the second quarter of fiscal 2015. In addition, our Redeemable convertible preferred stock and Deferred compensation—unearned ESOP were reclassified from a recurring Level 3 fair value measurement to a non-recurring Level 3 fair value measurement as a result of the IPO. See Note 1. Significant Accounting Policies for further information on the IPO. There were no further transfers in or out of Levels 1, 2 and 3 for the fiscal year ended March 31, 2014 and the six months ended September 30, 2014.

Valuation of our Contingent Consideration for Acquisitions

The fair values of the contingent consideration payables were calculated with reference to the estimated future value of the Inserta Tee and Flexstorm businesses, which are based on a discounted cash flow model. The undiscounted value is discounted at the present value using a market discount rate. The categorization of the framework used to price this liability is considered a Level 3, due to the subjective nature of the unobservable inputs used to determine the fair value.

Valuation of our Redeemable Common Stock

The Company has certain shares of common stock outstanding allowing the holder to put its shares to us for cash. This Redeemable common stock was historically recorded at its fair value in the mezzanine equity section of our Condensed Consolidated Balance Sheets and changes in fair value were recorded in Retained earnings. Historically, the fair value of a share of common stock was determined by management by applying industry-appropriate multiples to EBITDA and performing a discounted cash flow analysis. Under the industry-appropriate multiples approach, to arrive at concluded multiples, we considered differences between the risk and return characteristics of ADS and the guideline companies. Under the discounted cash flow analysis, the cash flows expected to be generated by the Company are discounted to their present value equivalent using a rate of return that reflects the relative risk of an investment in ADS, as well as the time value of money. This return is an overall rate based upon the individual rates of return for invested capital (equity and interest-bearing debt). The return, known as the weighted average cost of capital (WACC), is calculated by weighting the required returns on interest-bearing debt and common stock in proportion to their estimated percentages in an expected capital structure. The WACC used was 11% as of March 31, 2014. An increase in the WACC would decrease the fair value of the Redeemable common stock. The categorization of the framework used to price this temporary equity is considered a Level 3, due to the subjective nature of the unobservable inputs used to determine the fair value.

The redemption feature of our Redeemable common stock allowing the holder to put its shares to us for cash, as discussed in the previous paragraph, was not in effect upon effectiveness of the IPO on July 25, 2014. As a result, the Redeemable common stock was recorded as mezzanine equity at fair value through the effective date of the IPO and was subsequently reclassified at that fair value to stockholders equity. See Note 1. Background and Summary of Significant Accounting Policies for more information on the IPO.

Nonrecurring Fair Value Measurements

Valuation of our Redeemable Convertible Preferred Stock

The Trustee of the Company s ESOP has the ability to put the shares of our Redeemable convertible preferred stock to the Company. Our Redeemable convertible preferred stock is recorded at its fair value in the mezzanine equity section of our Condensed Consolidated Balance Sheets and changes in fair value are recorded in Retained earnings.

Accordingly, we estimated the fair value of the Redeemable convertible preferred stock through estimating the fair value of the Company s common stock and applying certain adjustments including for the fair value of the total

dividends to be received and assuming conversion of the Redeemable convertible preferred stock to common stock at the stated conversion ratio per our Certificate of Incorporation. The categorization of the framework used to price this temporary equity is considered a Level 3, due to the subjective nature of the unobservable inputs used to determine the fair value.

Upon the effective date of the IPO, the redemption feature of our Redeemable convertible preferred stock allowing the Trustee of the Company s ESOP to put shares to us for cash was no longer applicable. However, if our common stock, which our Redeemable convertible preferred stock may convert to, is no longer a registration-type class of security (e.g., in the event of a delisting), the option held by the Trustee, which granted it the ability to put the shares of our Redeemable convertible preferred stock to us, would then become applicable. Preferred securities that become redeemable upon a contingent event that is not

solely within the control of the Company should be classified outside of permanent equity. As of September 30, 2014, the Company has determined that it is not probable that the redemption feature will become applicable. Since the Redeemable convertible preferred stock is not currently redeemable and it is not probable that the instrument will become redeemable, subsequent adjustment to fair value is not required. As such, the Redeemable convertible preferred stock was recorded to fair value at the effective date of the IPO on July 25, 2014 and will remain in mezzanine equity without further adjustment to carrying value unless it becomes probable that the redemption feature will become applicable. See Note 1. Background and Summary of Significant Accounting Policies for more information on the 2014 Initial Public Offering and Note 16. Redeemable Convertible Preferred Stock for further information on the Redeemable convertible preferred stock.

Valuation of our Goodwill and Indefinite Lived Intangible Assets

Goodwill and indefinite lived intangible assets are tested for impairment annually as of March 31 or whenever events or changes in circumstances indicate the carrying value may be greater than fair value.

9. ADS MEXICANA

We participate in joint ventures from time to time for the purpose of expanding upon our growth of manufacturing and selling HDPE corrugated pipe in emerging markets. We invested in ADS Mexicana for the purpose of expanding upon our growth of manufacturing and selling ADS licensed HDPE corrugated pipe and related products in the Mexican and Central American markets via the joint venture partner s local presence and expertise throughout the region. In April 2013, ADS Worldwide acquired an additional 1% equity interest in its consolidated subsidiary ADS Mexicana stock for \$520, increasing the Company s ownership percentage to 51% from 50%. We have executed a Technology, Patents and Trademarks Sub-License Agreement and a Distribution Agreement with ADS Mexicana that provides ADS Mexicana with the rights to manufacture and sell ADS licensed products in Mexico and Central America. We have concluded that we hold a variable interest in and are the primary beneficiary of ADS Mexicana based on our power to direct the most significant activities of ADS Mexicana and our obligation to absorb losses and our right to receive benefits that could be significant to ADS Mexicana. As the primary beneficiary, we are required to consolidate the assets and liabilities of ADS Mexicana. The equity owned by our joint venture partner is shown as Noncontrolling interest in subsidiaries in our Condensed Consolidated Balance Sheets and our joint venture partner s portion of net income is shown as Net income attributable to noncontrolling interest in our Condensed Consolidated Statements of Operations.

The table below includes the assets and liabilities of ADS Mexicana that are consolidated as of September 30, 2014 and March 31, 2014. The balances exclude intercompany transactions that are eliminated upon consolidation.

10. INVESTMENT IN UNCONSOLIDATED AFFILIATES

We participate in three unconsolidated joint ventures, South American Joint Venture, which is 50%-owned by our wholly-owned subsidiary ADS Chile; BaySaver Technologies, LLC (BaySaver), which is 55% owned by our wholly-owned subsidiary ADS Ventures, Inc; and Tigre-ADS USA, Inc. (Tigre-ADS USA), which is 49% owned by our wholly-owned subsidiary ADS Ventures, Inc. In each case, the Company has concluded that it is appropriate to account for these investments using the equity method, whereby our share of the income or loss of the joint venture is reported in the Condensed Consolidated Statements of Operations under Equity in net (income) loss of unconsolidated affiliates and our investment in the joint venture is included in Other assets in the Condensed Consolidated Balance Sheets.

South American Joint Venture

Our investment in this unconsolidated joint venture was formed for the purpose of expanding upon our growth of manufacturing and selling HDPE corrugated pipe in the South American market via the joint venture partner s local presence and expertise throughout the region. We are not required to consolidate South American Joint Venture under ASC 810-10 as we are not the primary beneficiary, although we do hold a significant variable interest through our equity investment and debt guarantee. The results of South American Joint Venture are accounted for in the condensed consolidated financial statements using the equity method of accounting. Our share of the loss of this joint venture is reported in the Condensed Consolidated Statements of Operations under Equity in net loss of unconsolidated affiliates. Our investment in this joint venture is included in Other assets in the Condensed Consolidated Balance Sheets which includes additional capital contributions of \$4,000 and \$2,875 made during the six months ended September 30, 2014 and the fiscal year ended March 31, 2014, respectively. Summarized financial data as of September 30 and March 31, 2014 for the South American Joint Venture is as follows:

(Amounts in thousands)	Septem	ber 30, 2014	Marc	ch 31, 2014
Investment in South American Joint				
Venture	\$	19,782	\$	18,422
Receivable from South American Joint				
Venture		4,660		8,313

BaySaver

On July 15, 2013, ADS Ventures, Inc., a wholly-owned subsidiary of the Company, BaySaver Technologies, Inc. (BTI) and Mid Atlantic Storm Water Research Center, Inc. entered into an LLC agreement to form a new joint venture, BaySaver. The joint venture was established to design, engineer, manufacture, market and sell water quality filters and separators used in the removal of sediment and pollution from storm water anywhere in the world except New Zealand, Australia and South Africa. The Company contributed \$3,500 in cash, \$1,285 in inventory, and other intangible assets with no carrying value, in exchange for a 55% equity interest and a 50% voting interest in BaySaver. We are not required to consolidate BaySaver under ASC 810-10 as we are not the primary beneficiary, although we do hold a significant variable interest in BaySaver through our equity investment. The Company accounts for its investment in BaySaver under the equity method of accounting. In connection with this investment, the Company acquired a call option to purchase the remaining 45% interest in BaySaver. Also, in connection with the investment, the Company granted a put option enabling the other equity holders to sell their remaining shares in BaySaver to the Company upon the passage of time or the occurrence of certain events. Our share of the income of this joint venture is reported in the Condensed Consolidated Statements of Operations under Equity in net loss of unconsolidated affiliates. Our investment in this joint venture is included in Other assets in the Condensed Consolidated Balance Sheets.

Summarized financial data as of September 30 and March 31, 2014 for the BaySaver joint venture is as follows:

(Amounts in thousands)	Septemb	er 30, 2014	Marcl	h 31, 2014
Investment in BaySaver	\$	5,217	\$	5,202
Receivable from BaySaver		216		6

Our share of the income of this joint venture is decreased by amortization expense relating to the basis difference between our cost basis in the investment and the basis reflected at the joint venture level. This basis difference is being

recorded over the lives of the underlying assets which gave rise to the basis difference, which is 10 years. The unamortized basis difference as of September 30, 2014 is \$1,739.

Tigre-ADS USA

On April 7, 2014, ADS Ventures, Inc., a wholly-owned subsidiary of the Company, and Tigre S.A. Tubos e Conexoes entered into a stock purchase agreement to form a new joint venture, Tigre-ADS USA Inc. The new joint venture was established to manufacture and sell PVC fittings for waterworks, plumbing, and HVAC applications primarily in the United States and Canadian markets. The Company acquired 49% of the outstanding shares of capital stock of Tigre USA, Inc. for \$3,566. The new joint venture represents a continuation of the existing activities of Tigre USA through its Janesville, Wisconsin manufacturing facility. We are not required to consolidate Tigre-ADS USA under ASC 810-10 as we are not the primary beneficiary, although we do hold a significant variable interest in Tigre-ADS USA through our equity investment. The Company accounts for its investment in Tigre-ADS USA under the equity method of accounting. Our share of the loss of this joint venture is reported in the Condensed Consolidated Statements of Operations under Equity in net loss of unconsolidated affiliates. Our investment in this joint venture is included in Other assets in the Condensed Consolidated Balance Sheets.

Summarized financial data as of September 30, 2014 for the Tigre-ADS USA joint venture is as follows:

(Amounts in thousands)	As reported on Balance Sheet
Investment in Tigre-ADS USA	\$ 3,406
Receivable from Tigre-ADS USA	22

11. RELATED PARTY TRANSACTIONS

ADS Mexicana

ADS conducts business in Mexico and Central America through its joint venture ADS Mexicana. ADS owns 51% of the outstanding stock of ADS Mexicana and consolidates its interest in ADS Mexicana for financial reporting purposes. During the three and six months ended September 30, 2014 and 2013, ADS Mexicana compensated certain owners and former owners of Grupa Altima, the JV partner of ADS Mexicana, for consulting services related to the operations of the business and a noncompete arrangement, respectively. These cash payments totaled \$94 and \$169 for the three and six months ended September 30, 2014, respectively, and \$68 and \$99 for the three and six months ended September 30, 2013, respectively.

Occasionally, ADS and ADS Mexicana jointly enter into agreements for pipe sales with their related parties which totaled \$1,027 and \$2,339 for the three and six months ended September 30, 2014, respectively, and \$1,908 and \$3,776 for the three and six months ended September 30, 2013, respectively. Outstanding receivables related to these sales were \$2,052 and \$2,480 as of September 30, 2014 and March 31, 2014, respectively.

We are the guarantor of 100% of ADS Mexicana s credit facility and our maximum potential payment under this guarantee totals \$12,000.

South American Joint Venture

Our South American Joint Venture manufactures and sells HDPE corrugated pipe in the South American market. We are the guarantor for 50% of the South American Joint Venture s credit facility, and the debt guarantee is shared equally with the joint venture partner. Our maximum potential obligation under this guarantee totals \$7,000 as of September 30, 2014. The maximum borrowings permitted under the South American Joint Venture s credit facility is \$19,000. This credit facility allows borrowings in either Chilean pesos or US dollars at a fixed interest rate determined at inception of each draw on the facility. The guarantee of South American Joint Venture s debt is for the life of the credit facility which matures on February 5, 2017. ADS does not anticipate any required contributions related to the balance of this credit facility. As of September 30, 2014 and March 31, 2014, the outstanding principal balance of the credit facility including letters of credit was \$12.3 million and \$11.1 million, respectively. The weighted average interest rate as of September 30, 2014 was 3.53% on U.S. dollar denominated loans and 6.76% on Chilean peso denominated loans.

ADS and the South American Joint Venture have entered into shared services arrangements in order to execute the joint venture services. Included within these arrangements are the lease of an office and plant location used to conduct business and operating expenses related to these leased facilities. Occasionally, ADS and South American Joint Venture jointly enter into agreements for pipe sales with their related parties in immaterial amounts.

BaySaver

Additionally, ADS holds an equity method investment in BaySaver of approximately 55% which is a joint venture that was established to produce and distribute water quality filters and separators used in the removal of sediment and pollution from storm water. BaySaver may at times provide short-term financing to ADS to enhance liquidity. As of September 30, 2014, BaySaver held an unsecured, interest-free, note receivable from ADS in the amount of \$1,000 which was fully paid subsequent to quarter end.

ADS and BaySaver have entered into shared services arrangements in order to execute the joint venture services. Included within these arrangements are the lease of a plant and adjacent yard used to conduct business and operating expenses related to the leased facility. Occasionally, ADS and BaySaver jointly enter into agreements for sales of pipe and Allied Products with their related parties in immaterial amounts.

- 23 -

12. DEBT

Long-term debt as of September 30 and March 31, 2014 consisted of the following:

(Amounts in thousands)		Septer	mber 30, 2014	Mar	ch 31, 2014
Bank Term Loans					
Revolving Credit Facility	ADS	\$	193,800	\$	248,100
Revolving Credit Facility	ADS Mexicana		2,000		
Term note			95,000		97,500
Senior Notes payable			100,000		100,000
Mortgage notes payable			2,833		3,733
Industrial revenue bonds			3,950		4,715
Total			397,583		454,048
Current maturities			(11,148)		(11,153)
Long-term debt obligatio	n	\$	386,435	\$	442,895

Bank Term Loans

The Bank Term Loans include a Revolving Credit Facility with borrowing capacity of \$325,000 for ADS, Inc., a Revolving Credit Facility for ADS-Mexicana with borrowing capacity of \$12,000 (the Revolving Credit Facilities) and a \$100,000 term note (Term note). The Revolving Credit Facilities expire and the Term note is due in June 2018. The Revolving Credit Facilities and the Term note have a variable interest rate that depends upon the Company s pricing ratio as defined in the agreements for the Revolving Credit Facilities. The interest rate is derived from the London InterBank Offered Rate (LIBOR) or alternate base rate (Prime Rate) at the Company s option. The average rate at September 30, 2014 was 2.603%. Any letters of credit outstanding reduce the availability on the revolver. The Company had outstanding letters of credit at September 30, 2014 in the amount of \$8,005. The amount available for borrowing for ADS was \$123,195, plus \$10,000 available under a separate revolving credit facility with our subsidiary, ADS Mexicana, at September 30, 2014.

Per the terms of the agreements for the Revolving Credit Facilities, ADS is not required to hedge its interest exposure using interest rate swaps; however, it is currently the objective of ADS to manage its exposure to variable rate debt. On October 7, 2010, ADS executed two Spot Interest Rate Swaps on the 90-Day LIBOR interest rate. One swap is related to the \$100,000 Term note which was part of the previous credit agreement. This swap is at a fixed rate of 1.105% for a period of four years, and expired on September 1, 2014. The second swap on the Revolving Credit Facility had a value of \$50,000 at a fixed rate of 0.890% for a period of three years, and expired on September 1, 2013.

On July 18, 2013, ADS executed two Forward Interest Rate Swaps on the 30-Day LIBOR interest rate. One swap was for \$50,000 on the Revolving Credit Facility starting on September 3, 2013 at a fixed rate of 0.86% for a period of three years, expiring on September 1, 2016. The second swap executed on July 18, 2013 was for \$50,000 on the Revolving Credit Facility starting on September 2, 2014 at a fixed rate of 1.08% for a period of two years, expiring on September 1, 2016.

Senior Notes Payable

In December 2009, we signed an agreement with Prudential Investment Management, Inc. for the issuance of senior promissory notes (Senior Notes), for an aggregate amount of up to \$100,000. During fiscal 2010, we issued \$75,000 of Senior Notes with interest fixed at 5.6% and payable quarterly. The rate is subject to an additional 200 basis point excess leverage fee if our calculated leverage ratio exceeds 3 to 1 at the end of a fiscal quarter. A principal payment of \$25,000 is due in each of fiscal years 2017, 2018, and 2019.

In July 2013, ADS issued an additional \$25,000 of Senior Notes. Interest for the additional \$25,000 is payable quarterly and is fixed at 4.05%. The rate is subject to an additional 200 basis point excess leverage fee if calculated leverage ratio exceeds 3 to 1 at the end of a fiscal quarter. A principal payment of \$25,000 is due in September of the fiscal year 2020.

The carrying and fair values of the Company s Senior Notes were \$100,000 and \$103,303, respectively, as of September 30, 2014 and \$100,000 and \$104,511, respectively, at March 31, 2014. The fair value of the Senior Notes was determined based on the interest rate and terms of such borrowings to the rates and terms of similar debt available for the period. The categorization of the framework used to evaluate this debt is considered Level 2. See Note 8. Fair Value Measurement to these financial statements.

- 24 -

Mortgage Notes Payable

One mortgage note payable with a fixed rate of 5.1% (Hilliard, Ohio) requires monthly installments through fiscal year 2015. In September 2014, a second mortgage with a variable interest rate was paid off (New Miami, Ohio). Land and building with a net book value of approximately \$4,971 at September 30, 2014 collateralize the mortgage note.

Industrial Revenue Bonds

Between 1996 and 2007, ADS issued industrial revenue bonds for the construction of four production facilities. Two of the bonds were retired during fiscal 2011 year and one of the bonds was retired in July of fiscal year 2015. The remaining bond has a variable interest rate based on Securities Industry and Financial Markets Association (SIFMA) municipal swap index rate which is computed weekly. The rate on this bond at September 30, 2014 was 3.84%, including a letter of credit fee of 3.75%. Land and buildings with a net book value of approximately \$10,116 at September 30, 2014 collateralize the bond. This bond is not considered an auction rate security.

Debt Covenants and Dividend Restrictions

The Bank Term Loans and the Senior Notes require, among other provisions, that we (1) maintain a 1.25 to 1 minimum fixed charge coverage ratio; (2) maintain a maximum leverage ratio of 4 to 1; and (3) establish certain limits on permitted transactions, principally related to indebtedness, capital distributions, loans and investments, and acquisitions and dispositions of assets. Capital distributions, including dividends, are prohibited if we are not in compliance with our debt covenants. In any fiscal year, if we are in compliance with all debt covenants and the pro-forma leverage ratio exceeds 3 to 1, capital distributions are permitted up to a limit of \$50,000.

13. DERIVATIVE TRANSACTIONS

The Company uses interest rate swaps, commodity options in the form of collars and swaps, and foreign currency forward contracts to manage its various exposures to interest rate, commodity price, and exchange rate fluctuations. For interest rate swaps, the difference between the spot rate and applicable base rate is recorded in interest expense. For collars, commodity swaps and forward contracts, contract settlement gains and losses are recorded in the Condensed Consolidated Statements of Operations in Cost of goods sold. Gains and (losses) related to the mark-to-market adjustments for changes in fair value of the derivative contracts are recorded in the Condensed Consolidated Statements of Operations as Other miscellaneous expense (income), net. The Company recognized (losses) on mark-to-market adjustments for changes in fair value on derivative contracts of \$(67) and \$(319) for the three months ended September 30, 2014 and 2013, respectively, and \$(163) and \$(238) for the six months ended September 30, 2014 and 2013, respectively.

A summary of the fair values for the various derivatives at September 30, 2014 and March 31, 2014 is presented below:

	September 30, 2014			Marc	h 31, 2014
(Amounts in thousands)	Asset	Lia	bility	Asset	Liability
Interest rate swaps	\$	\$	(639)	\$	\$ (1,001)
Diesel fuel option collars			(8)		
Propylene swaps			(491)	27	

14. COMMITMENTS AND CONTINGENCIES

Purchase Commitments

We will, from time to time, secure supplies of resin raw material by agreeing to purchase quantities during a future given period at a fixed price. These purchase contracts are short term in nature and occur in the ordinary course of business. Under such purchase contracts, we have agreed to purchase 30,000 pounds of resin over the period October 2014 through December 2014 at a committed purchase cost of \$20,153.

Litigation

We have been named as a defendant in various litigation matters. Management intends to defend these outstanding claims. We believe we have adequate accrued loss contingencies and that current or threatened litigation matters will not have a material adverse impact on our condensed consolidated results of operations or condensed consolidated financial condition. In management s opinion, none of these proceedings will materially affect our consolidated operations, cash flows, or financial position, and we have recorded adequate accrued liabilities to cover our estimated probable loss exposure.

- 25 -

15. ACCUMULATED OTHER COMPREHENSIVE LOSS

The following table presents the changes in balances of each component of Accumulated other comprehensive loss (AOCL) for the period ending September 30:

	Cu	ırrency				umulated Other
(Amounts in thousands)	Tra	nslation	Oth	ıer	Compre	ehensive Loss
Balance at April 1, 2013	\$	(1,085)	\$	4	\$	(1,081)

Balance at September 30, 2013	\$	(2,895)	\$	7	\$	(2,888)
Balance at April 1, 2014		(6,838)		8		(6,830)
Other comprehensive loss		(2,525)				(2,525)
Balance at September 30, 2014	\$	(9,363)	\$	8	\$	(9,355)

16. REDEEMABLE CONVERTIBLE PREFERRED STOCK

The Trustee of the Company s ESOP has the ability to put the shares of our Redeemable convertible preferred stock to the Company. The redeemable convertible preferred stock has a required cumulative 2.5% dividend and is convertible at a rate of 0.7692 shares of common stock for each share of Redeemable convertible preferred stock. We guarantee the value of the redeemable convertible preferred stock at \$0.78 per share. The put option requirements of the Internal Revenue Code apply in the event that the Company s common stock is not a registration type class of security. Therefore, the holders of convertible preferred stock have a put right to require us to repurchase such shares in the event that our common stock is not listed for trading or otherwise quoted on the NYSE, AMEX, NASDAQ, or any other market more senior than the OTC Bulletin Board.

Given that the event may trigger redemption of the convertible preferred stock (the listing or quotation on a market more senior than the OTCBB), is not solely within our control, this results in the classification of our convertible preferred stock recorded in the mezzanine section of our Condensed Consolidated Balance Sheets as of September 30, 2014.

In accordance with ASC 480-10-S99, as of September 30, 2014, we did not adjust the carrying value of the convertible preferred stock to its redemption value or recognize any changes in fair value as we did not consider it probable that the convertible preferred stock would become redeemable.

17. STOCK-BASED COMPENSATION

Deferred Compensation Unearned ESOP Shares

The fair value of Redeemable convertible preferred stock held by the ESOP trust, but not yet earned by the ESOP participants or used for dividends, is reported as Deferred compensation unearned ESOP shares within the mezzanine equity section of our Condensed Consolidated Balance Sheets.

Compensation expense and related dividends paid with ESOP shares are recognized based upon the average annual fair value of the shares allocated. The shares allocated are for services rendered throughout the period and, therefore, a simple average is used to calculate average annual fair value. Deferred compensation—unearned ESOP shares are relieved at the fair value, with any difference between the average fair value and the fair value shares when allocated being added to Additional paid in capital. The fair value of the shares allocated was \$12.50 and \$11.26 per share of Redeemable convertible preferred stock at September 30, 2014 and 2013, respectively, resulting in an average fair value per share of \$12.34 and \$10.92 for the six months ended September 30, 2014 and 2013, respectively. We recognized compensation expense of \$2,687 and \$2,506 for the three months ended September 30, 2014 and 2013, respectively, related to allocation of ESOP shares to participants for compensation.

Stock Options

Our 2000 stock option plan (2000 Plan) provides for the issuance of incentive common stock options and nonstatutory common stock options to management based upon the discretion of the Board of Directors. The plan generally provides for grants with the exercise price equal to fair value on the date of grant, which vest in three equal annual amounts beginning in year five and expire after 10 years from issuance.

- 26 -

In August 2013, a new stock option plan (2013 Plan) was approved by the Board of Directors and, as amended, provides for the issuance of up to 3,323 nonstatutory common stock options to management subject to the Board s discretion. The plan generally provides for grants with the exercise price equal to fair value on the date of grant. The grants vest in five equal annual amounts beginning in year one and expire after 10 years from issuance. Options issued to the Chief Executive Officer vest equally over four years and expire after 10 years from issuance.

For both stock option plans, management determines the fair value of the options based on the Black-Scholes option pricing model. This methodology requires significant inputs including the fair value of our common stock, which is determined with the assistance of an independent appraisal performed by a reputable valuation firm. We recognized total stock-based compensation expense under both plans of \$1,042 and \$387 for the three months ended September 30, 2014 and 2013, respectively, and \$2,379 and \$462 for the six months ended September 30, 2014 and 2013, respectively, which was included with General and administrative expenses in our Condensed Consolidated Statements of Operations. As of September 30, 2014 and 2013, there was a total of \$5,307 and \$9,319, respectively, of unrecognized compensation expense related to unvested stock option awards that will be recognized as an expense as the awards vest over the remaining service period. We had approximately 1,097 and 1,412 shares available for granting under the 2000 and 2013 plans, respectively, as of September 30, 2014.

We estimate the fair value of stock options granted after April 1, 2006, using a Black-Scholes option-pricing model, with assumptions as follows:

	Septemb	September 30,		
	2014	2013		
Expected stock price volatility	40%	44%		
Risk-free interest rate	2.1%	2.3%		
Weighted-average expected option life (years)	8	8		
Dividend yield	0.86%	0.84%		

In May 2014, the Board of Directors approved the increase of shares available for granting under the 2013 plan to 1,412 shares.

2000 Plan

The stock option transactions as of the six months ended September 30 are summarized as follows:

	Number	2014 Weighted Average Exercise	Weighted Average Remaining Contractual	Number	2013 Weighted Average Exercise	Weighted Average Remaining Contractual
	of Shares	Price	Term	of Shares	Price	Term
Outstanding at beginning of period	913	\$ 9.48	4.1	1,333	\$ 8.10	4.0
Issued	78	15.74		15	13.64	
Exercised	78	7.36		94	7.77	
Forfeited				17	10.77	

Edgar Filing: ADVANCED DRAINAGE SYSTEMS, INC. - Form 10-Q/A

Outstanding at end of period	913	10.20	4.3	1,237	8.19	3.7
Exercisable and vested at end of period	835	9.67	3.8	846	6.80	2.1
Unvested at end of period	78	15.74	9.9	391	11.16	7.1
Vested and expected to vest at end of period	901	\$ 10.12	7.7	1,167	\$ 8.03	3.5

As a result of the 2014 Initial Public Offering (See Note 1. Background and Summary of Significant Accounting Policies), all unvested stock options from prior issuances immediately vest. A new grant of 78 shares was issued in August 2014 at a fair market value of \$15.74 per share. Vesting on this issuance will be recognized as expense as the awards vest over the remaining service period.

The following table summarizes information about the nonvested stock option grants as of the six months ended September 30, 2014:

	Number of Shares	Avera	ighted ge Grant air Value
Unvested at beginning of period	428	\$	5.82
Granted	78		6.76
Vested	428		5.82
Forfeited			
Unvested at end of period	78	\$	6.76

2013 Plan

The stock option transactions as of the six months ended September 30, 2014 for the 2013 Stock Option Plan are summarized as follows:

	September 30, 2014			Se	2013	
	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term
Outstanding at beginning of period	1,911	\$ 13.64	9.4		\$	
Issued equity classified				1,440	13.64	
Issued liability classified				518	13.64	
Exercised					13.64

Outstanding at end of period	1,911	13.64	8.9	1,911	13.64	9.9
Exercisable and vested at end of period	408	13.64	8.9			
Unvested at end of period	1,503	13.64	8.9	1,911	13.64	9.9
Vested and expected to vest at end of						
period	1,881	13.64	8.9	1,704	13.64	9.9
Fair value of options granted during the period		\$			\$ 6.22	

The following table summarizes information about the nonvested stock option grants as of September 30, 2014:

	Weighted
Number	Average Grant
of Shares	Date Fair Value

Edgar Filing: ADVANCED DRAINAGE SYSTEMS, INC. - Form 10-Q/A

Unvested at beginning of period	1,911	\$ 6.22
Granted		
Vested	408	13.64
Forfeited		
Unvested at end of period	1,503	\$ 3.64

Restricted Stock

On September 16, 2008, the Board of Directors adopted the restricted stock plan, which provides for the issuance of restricted stock awards to certain key employees. The restricted stock generally vest ratably over a five-year period from the original restricted stock grant date, contingent on the employee s continuous employment by ADS. In certain instances, however, a portion of the grants vested immediately or for accounting purposes were deemed to have vested immediately, including the grants to the Chief Executive Officer, which do not have a substantial risk of forfeiture as a result of different vesting provisions. Under the restricted stock plan, vested shares are considered issued and outstanding. Employees with restricted stock have the right to dividends on the shares awarded (vested and unvested) in addition to voting rights on non-forfeited shares. The Company recognized compensation expense of \$639 and \$593 for the three months ended September 30, 2014 and 2013, respectively, and \$1,548 and \$1,178 for the six months ended September 30, 2014 and 2013, respectively, relating to the issuance of these shares; of this amount, \$0 and \$385 relates to the restricted shares that vested immediately during the six months ended September 30, 2014 and 2013, respectively. We had approximately 333 shares available for granting under this plan as of September 30, 2014.

The following table summarizes information about the unvested restricted stock grants as of September 30, 2014:

- 28 -

	Number of Shares	Av Gra	eighted verage int Date r Value
Unvested at beginning of period	311	\$	12.40
Granted			
Vested	118		12.06
Forfeited	3		10.66
Unvested at end of period	190	\$	12.60

We expect most, if not all, restricted stock grants to vest.

As of September 30, 2014, there was approximately \$2,306 of unrecognized compensation expense related to the restricted stock that will be recognized over the remaining service period.

Non-Employee Director Compensation Plan

On June 18, 2014, the Company amended its then-existing Stockholder's Agreement to authorize shares of stock to be granted to non-employee members of its Board of Directors. The number of shares authorized amounted to 282. The shares typically vest one year from the date of issuance. Under this stock plan, the vested shares granted are considered issued and outstanding. Non-Employee directors with this stock have the right to dividends on the shares awarded (vested and unvested) in addition to voting rights. On September 6, 2014, a total of 48 shares were granted to seven directors at a fair market value of \$18.88 per share. These shares will vest on February 27, 2015. The Company recognized compensation expense of \$450 and \$0 for the three months ended September 30, 2014 and 2013, respectively, and \$450 and \$0 for the six months ended September 30, 2014 and 2013, respectively, relating to the issuance of these shares. We had approximately 234 shares available for granting under this plan as of September 30, 2014.

The following table summarizes information about the unvested Non-Employee Director compensation stock grants as of September 30, 2014:

	Number of Shares	Weighted Average Grant Date Fair Value
Unvested at beginning of period		\$
Granted	48	18.88
Vested		
Forfeited		
Unvested at end of period	48	\$

We expect all the stock grants to vest.

As of September 30, 2014, there was approximately \$450 of unrecognized compensation expense related to the restricted stock that will be recognized over the remaining service period.

18. INCOME TAXES

The Company s effective tax rate will vary based on a variety of factors, including overall profitability, the geographical mix of income before taxes and related tax rates in jurisdictions where it operates, as well as discrete events. For the six months ended September 30, 2014 and 2013, the Company utilized an effective tax rate of 36.6% and 36.4%, respectively, to calculate its provision for income taxes. These rates are higher than the federal statutory rate of 35% due principally to state and local taxes, partially offset by foreign income taxed at lower rates.

19. NET INCOME PER SHARE

Basic net income per share is calculated by dividing the Net income attributable to common stockholders by the weighted-average number of common shares outstanding during the period, without consideration for common stock equivalents. Diluted net income per share is computed by dividing the Net income attributable to common stockholders by the weighted-average number of common share equivalents outstanding for the period.

- 29 -

Holders of unvested restricted stock have nonforfeitable rights to dividends when declared on common stock, and holders of Redeemable convertible preferred stock participate in dividends on an as-converted basis when declared on common stock. As a result, unvested restricted stock and Redeemable convertible preferred stock meet the definition of participating securities, which requires us to apply the two-class method to compute both basic and diluted net income per share. The two-class method is an earnings allocation formula that treats participating securities as having rights to earnings that would otherwise have been available to common stockholders.

The dilutive effect of stock options and unvested restricted stock is based on the more dilutive of the treasury stock method or the diluted two-class method. In computing diluted net income per share, income available to common shareholders used in the basic net income per share calculation (numerator) is adjusted, subject to sequencing rules, for certain adjustments that would result from the assumed issuance of potential common shares. Diluted net income per share assumes the Redeemable convertible preferred stock would be cash settled through the effective date of the IPO on July 25, 2014, as we have the choice of settling in cash or shares and we have demonstrated past practice and intent of cash settlement. Therefore these shares are excluded from the calculation through the effective date of the IPO. After the effective date of the IPO, Management s intent is to share settle; therefore, these shares are included in the calculation from July 26, 2014 through September 30, 2014, if dilutive. For purposes of the calculation of diluted net income per share, stock options and unvested restricted stock are considered to be potential common stock and are only included in the calculations when their effect is dilutive.

The Company s Redeemable common stock is included in the weighted-average number of common shares outstanding for calculating basic and diluted net income per share.

The following table presents information necessary to calculate net income per share for the three and six months ended September 30, 2013 and 2014, as well as potentially dilutive securities excluded from the weighted average number of diluted common shares outstanding because their inclusion would have been anti-dilutive:

	Three M

20. BUSINESS SEGMENTS INFORMATION

We operate our business in two distinct operating and reportable segments based on the markets we serve: Domestic and International . The Chief Operating Decision Maker (CODM) evaluates segment reporting based on net sales and Segment Adjusted EBITDA (a non-GAAP measure). We calculate Segment Adjusted EBITDA as net income or loss before interest, income taxes, depreciation and amortization, stock-based compensation expense, non-cash charges and certain other expenses.

Domestic - Our Domestic segment manufactures and markets products throughout the United States. We maintain and serve these markets through strong product distribution relationships with many of the largest national and independent waterworks distributors, major national retailers as well as an extensive network of hundreds of small to medium-sized

- 30 -

distributors across the U.S. We also sell through a broad variety of buying groups and co-ops in the United States. Products include single wall pipe, N-12 HDPE pipe sold into the Storm sewer and Infrastructure markets, High Performance PP pipe sold into the Storm sewer and sanitary sewer markets, and our broad line of Allied Products including StormTech, Nyloplast, Arc Septic Chambers, Inserta Tee, BaySaver filters and water quality structures, Fittings, and FleXstorm. Our Domestic segment sales are diversified across all regions of the country.

International Our International segment manufactures and markets products in regions outside of the United States, with a growth strategy focused on our owned facilities in Canada and through our joint-ventures, with best-in-class local partners in Mexico, Central America and South America. Our joint venture strategy provides us with local and regional access to new markets such as Brazil, Chile, Argentina, Peru and Colombia. We have been serving the Canadian market through Hancor of Canada since 2003. Our Mexican joint venture through ADS Mexicana primarily serves the Mexican markets, while our joint venture through Tigre ADS is our primary channel to serve the South American markets. Our product line includes single wall pipe, N-12 HDPE pipe, and High Performance PP pipe. The Canadian market also sells our broad line of Allied Products, while sales in Latin America are currently concentrated in fittings and Nyloplast.

The following table sets forth reportable segment information with respect to the amount of net sales contributed by each class of similar products of our consolidated gross profit for the three and six months ended September 30, 2014 and 2013, respectively:

21. SUBSEQUENT EVENTS

We evaluated subsequent events through November 10, 2014, the date these condensed consolidated financial statements were originally available to be issued.

Item 2. Management s Discussion and Analysis of Financial Condition and Results of Operations

Our fiscal year begins on April 1 and ends on March 31. Unless otherwise noted, references to year pertain to our fiscal year. For example, 2015 refers to fiscal 2015, which is the period from April 1, 2014 to March 31, 2015.

The following discussion and analysis of the financial condition and results of our operations should be read in conjunction with our condensed consolidated financial statements and related footnotes included elsewhere in this report and with our audited consolidated financial statements included in our Annual Report on Form 10-K for the year ended March 31, 2015 (filed concurrently with this Amendment No. 1 to our Form 10-Q) which includes our restated consolidated financial statements for the year ended March 31, 2014. In addition to historical condensed consolidated financial information, the following discussion contains forward-looking statements that reflect our plans, estimates, and beliefs. Our actual results could differ materially from those discussed in the forward-looking statements. This discussion contains forward-looking statements that are based on the beliefs of our management, as well as assumptions made by, and information currently available to, our management. Our actual results could differ materially from those discussed in the forward-looking statements. For more information, see the section below entitled Forward Looking Statements.

We consolidate all of our joint ventures for purposes of GAAP, except for our South American Joint Venture, our BaySaver Joint Venture, and our Tigre-ADS USA Joint Venture.

Overview

We are the leading manufacturer of high performance thermoplastic corrugated pipe, providing a comprehensive suite of water management products and superior drainage solutions for use in the construction and infrastructure marketplace. Our innovative products are used across a broad range of end markets and applications, including non-residential, residential, agriculture and infrastructure applications. We have established a leading position in many of these end markets by leveraging our national sales and distribution platform, our overall product breadth and scale and our manufacturing excellence. In North America, our national footprint combined with our strong local presence and broad product offering makes us the leader in an otherwise highly fragmented sector comprised of many smaller competitors. We believe the markets we serve in the United States represent approximately \$10.1 billion of annual revenue opportunity. In addition, we believe the increasing acceptance of thermoplastic pipe products in international markets represents an attractive growth opportunity.

Our products are generally lighter, more durable, more cost effective and easier to install than comparable alternatives made with traditional materials. Following our entrance into the non-residential construction market with the introduction of N-12 corrugated polyethylene pipe in the late 1980s, our pipe has been displacing traditional materials, such as reinforced concrete, corrugated steel and PVC, across an ever expanding range of end markets. This has allowed us to consistently gain share and achieve above market growth throughout economic cycles. We expect to continue to drive conversion to our products from traditional products as contractors, civil design engineers and municipal agencies increasingly acknowledge the superior physical attributes and compelling value proposition of our thermoplastic products. In addition, we believe that overall demand for our products will benefit as the regulatory environment continues to evolve.

Our broad product line includes corrugated high density polyethylene (or HDPE) pipe, polypropylene (or PP) pipe and related water management products. Building on our core drainage businesses, we have aggressively pursued attractive ancillary product categories such as storm and septic chambers, PVC drainage structures, fittings and filters, and water quality filters and separators. We refer to these ancillary product categories as Allied Products. Given the scope of our overall sales and distribution platform, we have been able to drive growth within our Allied Products and

believe there are significant growth opportunities going forward.

Recent Developments

On July 11, 2014, in anticipation of the IPO, we executed a 4.707-for-one split of our common and our preferred stock. The effect of the stock split on outstanding shares and earnings per share has been retroactively applied to all periods presented.

- 34 -

On July 25, 2014, we completed the IPO of our common stock, which resulted in the sale by the Company of 5,289,000 shares, bringing the total number of shares issued and outstanding as of July 25, 2014 to 52,881,000. We received total proceeds from the IPO of \$79.1 million after excluding underwriter discounts and commissions of \$5.5 million, based upon the price to the public of \$16.00 per share. After deducting other offering expenses, we used the net proceeds to reduce the outstanding indebtedness under the revolving portion of our credit facility. The common stock is listed on the New York Stock Exchange under the symbol WMS.

On August 22, 2014, an additional 600,000 shares of common stock were sold by certain selling stockholders of the Company to the underwriters as part of the Company s IPO. The sale of additional shares resulted from a partial exercise by the underwriters of the over-allotment option granted by the selling stockholders to the underwriters in connection with the IPO. The shares were sold at the public offering price of \$16.00 per share. The Company did not receive any proceeds from the sale of such additional shares.

Restatement of Previously Issued Financial Statements

The accompanying Management s Discussion and Analysis of Financial Condition and Results of Operations gives effect to the restatement adjustments made to the previously reported Condensed Consolidated Statements of Operations for the three and six months ended September 30, 2014 and the Condensed Consolidated Balance Sheets as of September 30, 2014 and March 31, 2014. For additional information and a detailed discussion of the restatement, see Note 2. Restatement of Previously Issued Financial Statements included in Part I. Financial Information, of this Form 10-Q/A.

Results of Operations

Three Months Ended September 30, 2014 Compared With Three Months Ended September 30, 2013

The following tables summarize certain financial information relating to our operating results that have been derived from our condensed consolidated financial statements for the three months ended September 30, 2014 and 2013. Also included is certain information relating to the operating results as a percentage of net sales. We believe this presentation is useful to investors in comparing historical results.

	Three Months Ended September 30,						
(Amounts in thousands)	2014 (As Restated) ^(a)	(10	2013 Restated) ^(a)				
Domestic	(As Restateu)	(AS	Kestateu) (**)				
Pipe	\$ 241,713	\$	223,099				
Allied Products	78,063		72,008				
Total domestic	319,776		295,107				
International							
Pipe	38,218		30,496				
Allied Products	8,720		7,124				
Total international	46,938		37,620				
Total net sales	\$ 366,714	\$	332,727				

(a) See Note 2. Restatement of Previously Issued Financial Statements to our consolidated financial statements. Net sales for the second quarter ended September 30, 2014 totaled \$366.7 million, increasing \$34.0 million, or 10.2%, over the comparable prior year period.

Domestic net sales increased \$24.7 million, or 8.4%, for the second quarter ended September 30, 2014, as compared to the prior year period. The sales growth was broken down between our domestic pipe and Allied Products, which increased \$18.6 million and \$6.1 million, respectively, for the three months ended September 30, 2014. Domestic pipe sales increased \$18.6 million, or 8.3%, due to continued growth in our N-12 HDPE and High Performance PP product lines offsetting lower Agricultural single wall sales. Pipe selling prices increased 5.7% as compared to the prior year. Domestic Allied Product sales increased \$6.1 million, or 8.4%, led by our StormTech, Nyloplast, Inserta Tee and FleXstorm product lines. Excluding \$2.2 million of domestic Allied Product lines sold in fiscal 2014 (a Precast structures business), Domestic Allied Product sales increased \$8.3 million, or 11.8%, for the three months ended September 30, 2014 as compared to prior year sales of continuing products.

International net sales for the second quarter ended September 30, 2014 increased \$9.3 million, or 24.8%, over the comparable fiscal year 2014 period. The growth was primarily due to increased sales in Canada and Mexico. Favorable weather conditions in Canada for the second quarter resulted in strong sales in the agricultural markets as well as continued acceptance and sales growth of Allied Products across all end markets. Improved public spending and continued positive sales momentum in the electrical conduit market were the main factors in increased second quarter net sales in Mexico versus the comparable prior year period.

System-Wide Net Sales for the second quarter ended September 30, 2014 were \$390.6 million, an increase of \$38.7 million, or 11.0%, over System-Wide Net Sales of \$351.9 million for the second quarter of fiscal 2014. Net sales at our South American Joint Venture operation were negatively impacted by continued softness in the mining markets and an overall construction slowdown due to a declining economic environment and reduced public spending. Net sales growth from our domestic joint ventures (Tigre-ADS USA and BaySaver) provided a combined increase of \$5.5 million in net sales for the unconsolidated joint ventures for the three months ended September 30 2014, as compared to the prior year period. Tigre-ADS USA was formed in the first quarter of fiscal year 2015 and our BaySaver was formed in the second quarter of fiscal year 2014.

Cost of goods sold and Gross profit

Gross profit for the second quarter ended September 30, 2014 increased \$4.2 million, or 6.4%, over the comparable period for fiscal year 2014.

Domestic gross profit increased \$7.5 million, or 12.9%, to \$65.6 million for the three months ended September 30, 2014 as compared to \$58.1 million during the prior year. The increase was primarily due to sales growth in our N-12 HDPE pipe and High Performance PP pipe product lines and Allied Product lines. Raw material prices increased 11.5% due to higher virgin and non-virgin resin prices for the second quarter of fiscal 2015 as compared to the prior period. Freight costs totaled 8.9% of Domestic net sales for the three months ended September 30, 2014, compared to 9.3% for the prior year period. Strong sales growth in higher margin Allied Products provided an improved profitability mix for the quarter compared to the prior year.

- 36 -

International gross profit decreased \$3.3 million, or 44.3%, for the second quarter of fiscal year 2015 over the comparable fiscal year 2014 period despite the strong sales growth in the quarter. International gross profit decreased primarily due to the impact of continued devaluation of the Canadian dollar versus the U.S. dollar and its impact on overall Canadian market selling prices in the second quarter. Raw material prices moved sharply higher (which are primarily purchased in U.S. dollars) and higher freight costs compared to the prior year period also contributed to the declining gross profit for the three months ended September 30, 2014.

Gross profit as a percentage of net sales totaled 19.0% for the second quarter ended September 30, 2014 as compared to 19.7% for the comparable second quarter fiscal 2014.

Selling expenses

Selling expenses consist of field selling, customer service and commission expenditures for personnel engaged in sales and sales support functions. Field selling and customer service expenditures primarily consists of personnel costs (salaries, benefits, and variable sales commissions), travel and entertainment expenses, marketing, promotion, and advertising expenses, as well as bad debt provisions.

Selling expenses for the three months ended September 30, 2014 increased \$1.6 million, or 8.6%, over the comparable fiscal year 2014 period. The increase was primarily the result of increases in variable selling expenses due to higher sales volume and investments in additional sales coverage and growth initiatives. As a percentage of net sales, selling expenses remained relatively flat at 5.5% for the second quarter of fiscal 2015 as compared to 5.6% the prior fiscal year 2014 period.

General and administrative expenses

General and administrative expenses consists of personnel costs (salaries, benefits, and other personnel-related expenses, including stock-based compensation), recruitment and relocation expenses, accounting and legal fees, business travel expenses, rent and utilities for the administrative offices, director fees, investor relations, membership fees, office supplies, insurance and other miscellaneous expenses.

General and administrative expenses for the three months ended September 30, 2014 increased \$0.2 million, or 1.4%, over the comparable fiscal year 2014 period.

The modest increase in overall expenses was the result of offsetting activity. The \$1.2 million increase in non-cash stock-based compensation was due to an increase of \$0.7 million of non-cash compensation related to stock option plans and \$0.5 million of non-cash compensation expense related to the non-employee director compensation stock plan created in the second quarter of fiscal 2015. This higher expense was partially offset by lower corporate overhead and departmental expenses that amount to a reduction of approximately \$1.0 million.

Intangibles amortization

Intangibles amortization for the three months ended September 30, 2014 was essentially flat compared to the three months ended September 30, 2013.

Interest expense

Interest expense for the three months ended September 30, 2014 increased \$0.3 million, or 6.8%, over the comparable fiscal year 2014 period. The increase in the current year second quarter was due to a higher average interest rate on

our outstanding indebtedness and a higher average long term debt balance.

Income tax expense

Income tax expense for the three months ended September 30, 2014 was essentially flat compared to the three months ended September 30, 2013.

Net income attributable to ADS and Net income per share

Second quarter net income attributable to ADS for fiscal year 2015 of approximately \$16.8 million increased 14.3% from the preceding fiscal year s net income attributable to ADS for the quarter of \$14.7 million, as influenced by the factors noted above. Net income per share for the second quarter fiscal year 2015 totaled \$0.41 per basic and diluted share, as compared to \$0.21 per basic and diluted share recorded in the comparable prior year period. The income per share for the three months ended September 30, 2014 is

- 37 -

primarily related to higher revenues as well as a favorable adjustment related to the fair value appreciation on convertible preferred stock classified in mezzanine equity which increased income available to common shareholders by \$7.3 million, or \$0.14 and \$0.13 per basic and diluted share, respectively, for common shareholders.

Adjusted EBITDA

	Three Months Ended September 30,						
(Amounts in thousands)	2014		2013	% Change			
	(As Restated) (a)	(As I	Restated) (a)				
Domestic	\$ 53,904	\$	45,290	19.0%			
International	1,296		5,228	(75.2%)			
Total adjusted EBITDA	\$ 55,200	\$	50,518	9.3%			
As a percentage of net sales	15.1%		15.2%				

(a) See Note 2. Restatement of Previously Issued Financial Statements to our consolidated financial statements. Adjusted EBITDA for the second quarter of fiscal year 2015 increased by \$4.7 million or 9.3% over the comparable fiscal year 2014 period.

Domestic adjusted EBITDA totaled \$53.9 million for the three months ended September 30, 2014 compared to \$45.3 million for the prior year second quarter. International adjusted EBITDA totaled \$1.3 million for the second quarter of fiscal 2015 compared to earnings of \$5.2 million for the prior period.

Adjusted EBITDA as a percentage of net sales totaled 15.1% and 15.2% for the three months ended September 30, 2014 and 2013, respectively.

Six Months Ended September 30, 2014 Compared With Six Months Ended September 30, 2013

The following tables summarize certain financial information relating to our operating results that have been derived from our condensed consolidated financial statements for the six months ended September 30, 2014 and 2013. Also included is certain information relating to the operating results as a percentage of net sales. We believe this presentation is useful to investors in comparing historical results.

Net sales

	Six Months Ended September 30,							
(Amounts in thousands)	2014		2013					
	(As Restated)(a)	(As Restated)(a)						
Domestic								
Pipe	\$ 457,749	\$	411,179					
Allied Products	151,652		138,455					
Total domestic	609,401		549,634					
International								
Pipe	68,149		60,600					
Allied Products	15,598		15,072					
	•		,					
Total international	83,747		75,672					
Total net sales	\$ 693,148	\$	625,306					

(a) See Note 2. Restatement of Previously Issued Financial Statements to our consolidated financial statements. Net sales totaled \$693.1 million for the six months ended September 30, 2014, increasing \$67.8 million, or 10.8%, over the comparable period for fiscal year 2014.

Domestic net sales increased \$59.8 million, or 10.9%, for the six months ended September 30, 2014, as compared to prior year period. The increase in domestic sales was due to continued strong sales growth in the non-residential, infrastructure, and residential markets, offsetting a decline in Agricultural sales due to less summer drainage work. The sales growth was broken down between our domestic pipe and Allied Products, which increased \$46.6 million and \$13.2 million, respectively, for the six months ended September 30, 2014. Domestic pipe sales increased \$46.6 million, or 11.3%, due to continued growth in our N-12 HDPE pipe and High Performance PP pipe product lines offsetting lower Agricultural single wall sales. Domestic Allied Product sales increased \$13.2 million, or 9.5%, due to strong sales volume sold primarily into the non-residential, residential and infrastructure markets. Excluding \$5.1 million in sales of Allied Product lines sold in fiscal 2014, Allied Product sales increased \$18.3 million, or 13.7%, for the six months ended September 30, 2014 as compared to prior year sales of continuing products. Pipe selling prices increased 5.1% as compared to the prior year.

International net sales increased \$8.1 million, or 10.7%, for the six months ended September 30, 2014 over the comparable fiscal year 2014 period. The growth was primarily due to increased sales in Canada and Mexico. Favorable weather conditions in Canada for the second quarter resulted in strong sales in the agricultural markets as well as fiscal year to date sales growth of Allied Products across all end markets. Improved public spending and continued positive sales momentum in the electrical conduit market were the main factors in the increased six month net sales in Mexico versus the comparable prior year period.

System-Wide Net Sales were \$736.8 million for the first six months of fiscal year 2015, an increase of \$76.2 million, or 11.5%, over System-Wide Net Sales of \$660.6 million for the first six months of fiscal year 2014. Net sales at our South American Joint Venture operation were negatively impacted by continued softness in the mining markets and an overall construction slowdown due to a declining economic environment and reduced public spending. Net sales from our domestic joint ventures (Tigre-ADS USA and Baysaver) provided a combined increase of \$11.4 million in net sales for unconsolidated joint ventures for the six months ended September 30, 2014 as compared to the prior year. Our Tigre-ADS USA Joint Venture was formed in the first quarter of fiscal year 2015 and our Baysaver Joint Venture was formed in the second quarter of fiscal year 2014.

Cost of goods sold and Gross profit

Gross profit for the six months ended September 30, 2014 increased \$8.7 million, or 7.1%, over the comparable prior year period.

Domestic gross profit increased \$11.8 million, or 11.0%, to \$119.6 million for the six months ended September 30, 2014 as compared to \$107.8 million during the prior year. The increase was primarily due to sales growth in our N-12 HDPE pipe and High Performance PP pipe product lines and Allied Product lines. Raw material prices increased 10% due to higher virgin and non-virgin resin prices for the first six months of fiscal 2015 as compared to the prior period. Freight costs totaled 9.3% of net sales for the six months ended September 30, 2014, compared to 9.5% for the prior year period.

International gross profit decreased \$3.2 million, or 22.3%, for the first six months of fiscal year 2015 over the comparable fiscal year 2014 period primarily due to the impact of continued devaluation of the Canadian dollar versus the U.S. dollar and its

- 39 -

impact on overall Canadian market selling prices, especially in the second quarter. Raw material prices moved higher (which are primarily purchased in U.S. dollars) and higher freight costs compared to the prior year period also contributed to the declining pipe gross profit for the six months ended September 30, 2014.

Gross profit as a percentage of net sales totaled 18.8% for the six months ended September 30, 2014 as compared to 19.5% for the prior year.

Selling expenses

Selling expenses consist of field selling, customer service and commission expenditures for personnel engaged in sales and sales support functions. Field selling and customer service expenditures primarily consists of personnel costs (salaries, benefits, and variable sales commissions), travel and entertainment expenses, marketing, promotion, and advertising expenses, as well as bad debt provisions.

Selling expenses for the six months ended September 30, 2014 increased \$4.6 million, or 13.2%, over the comparable fiscal year 2014 period. The increase was primarily the result of increases in variable selling expenses due to higher sales volume and investments in additional sales coverage and growth initiatives. As a percentage of net sales, selling expenses increased to 5.7% for the first six months of fiscal 2015 as compared to 5.6% in the prior year.

General and administrative expenses

General and administrative expenses consists of personnel costs (salaries, benefits, and other personnel-related expenses, including stock-based compensation), recruitment and relocation expenses, accounting and legal fees, business travel expenses, rent and utilities for the administrative offices, director fees, investor relations, membership fees, office supplies, insurance and other miscellaneous expenses.

General and administrative expenses for the six months ended September 30, 2014 increased \$2.9 million, or 10.8%, over the comparable fiscal year 2014 period. The increase was primarily the result of increases in non-cash stock-based compensation of \$2.7 million, higher professional fees of \$1.2 million, and reduced corporate overhead expenses of \$1.0 million.

The \$2.7 million increase in non-cash stock-based compensation was due to a \$1.9 million increase in non-cash compensation related to our stock option plans, primarily the 2013 stock option plan that was implemented late in the second quarter of fiscal 2014, \$0.3 million of accelerated non-cash compensation related to immediate vesting rescricted stock shares as the result of the IPO, and \$0.5 million of non-cash compensation expense related to the non-employee director compensation stock plan created in the second quarter of fiscal 2015.

The \$1.2 million increase in professional fees was due to audit services of \$0.8 million in connection with the IPO and additional professional and consulting fees of \$0.4 million associated with being a public company.

(Gain) loss on disposal of assets or businesses

(Gain) loss on the sale of assets or business for the six months ended September 30, 2014 was a loss of \$0.3 million compared to a gain of \$4.5 million over the comparable prior year period. The Company sold its Draintech product line during the first quarter of fiscal year 2014.

Intangibles amortization

Intangibles amortization for the six months ended September 30, 2014 was essentially flat when compared with the same period in the prior year.

Interest expense

Interest expense for the six months ended September 30, 2014 increased \$0.6 million, or 6.8%, over the comparable prior year period. The increase was due to a higher average interest rate on our outstanding indebtedness and a higher average outstanding balance in addition to a 2% surcharge on our Term notes paid during the first quarter of fiscal 2015 due to our leverage ratio of Adjusted EBITDA to Funded Debt exceeding 3 times at September 30, 2014. The surcharge increased interest expense by \$0.5 million. We repaid a portion of our outstanding indebtedness with the net proceeds from our initial public offering which closed on July 25, 2014. This repayment reduced our leverage ratio below 3 times at September 30, 2014 and eliminated the surcharge on the Term notes for the second quarter of fiscal 2015.

Other miscellaneous (income) expenses, net

Other miscellaneous (income) expense amounted to \$0.5 million income during the nine months ended September 30, 2014. Favorable mark-to-market adjustments for changes in fair value on derivative contracts contributed to the income during the current period.

Income tax expense

For the six months ended September 30, 2014 and 2013, the Company recorded income tax provisions of \$16.8 million and \$18.1 million, respectively, which represents an effective tax rate of 36.6% and 36.4%, respectively. These rates are higher than the federal statutory rate of 35% due principally to state and local income taxes, partially offset by foreign income taxed at lower rates. The effective tax rate for the first six months of the fiscal year 2015 is higher than the prior year period primarily due to the shift in the projections of the proportion of income earned and lower income before income taxes increasing the impact of non-deductible items in our tax calculations.

Equity in net loss of unconsolidated affiliates

Equity in net loss of unconsolidated affiliates represent our proportionate share of net loss attributed to the three unconsolidated joint ventures in which we have significant influence, but not control, over operations. Equity net loss of unconsolidated affiliates for the six months ended September 30, 2014 increased \$0.2 million over the comparable prior year period.

Income attributable to non-controlling interests

Income attributable to non-controlling interests decreased \$0.5 million for the six months ended September 30, 2014 compared to the comparable prior year period.

Net income attributable to ADS and Net income (loss) per share

Year to date net income attributable to ADS of approximately \$25.4 million decreased from the preceding fiscal year s net income attributable to ADS of \$27.7 million, as influenced by the factors noted above. Net income per share for the first six months of fiscal year 2015 totaled \$0.25 per basic and diluted share, as compared to \$0.43 and \$0.42 per basic and diluted share, respectively, recorded in the comparable prior year period. The income per share for the six months ended September 30, 2014 is impacted by changes in fair value appreciation on convertible preferred stock classified in mezzanine equity which reduced income available to common shareholders by \$11.1 million, or \$0.22 and \$.021 per basic and diluted share, respectively, for common shareholders.

Adjusted EBITDA

	Six Months Ended September 30,						
(Amounts in thousands)	2014	2013	% Change				
	(As Restated) (a)	(As Restated) (a)					
Domestic	\$ 94,896	\$ 83,426	13.7%				
International	5,432	10,568	(48.6%)				
Total adjusted EBITDA	\$ 100,328	\$ 93,994	6.7%				

As a percentage of net sales

14.5%

15.0%

(a) See Note 2. Restatement of Previously Issued Financial Statements to our consolidated financial statements. Adjusted EBITDA for the first six months of fiscal year 2015 increased by \$6.3 million or 6.7% over the comparable fiscal year 2014 period. Excluding the impact of the one-time \$4.8 million gain from the sale of the Draintech business during the first quarter of fiscal 2014, adjusted EBITDA increased \$11.1 million or 12.5% for the six months ended September 30, 2014 as compared to the prior year (\$100.3 million compared to an adjusted \$89.2 million for the prior year).

Domestic adjusted EBITDA totaled \$94.9 million for the six months ended September 30, 2014 compared to \$83.4 million in the prior year (which included the impact of the one-time \$4.8 million gain on the sale). International adjusted EBITDA totaled \$5.4 million for the first six months of fiscal 2015 compared to \$10.6 million in the prior period.

- 41 -

Adjusted EBITDA as a percentage of net sales totaled 14.5% for the six months ended September 30, 2014 compared to 15.0% for the prior year. Excluding the impact of the one-time gain on adjusted EBITDA in the first quarter of fiscal 2014, adjusted EBITDA as a percentage of net sales would have been 14.3%.

Non-GAAP Financial Measures

In addition to financial results reported in accordance with GAAP, we have provided the following non-GAAP financial measures: Adjusted EBITDA, System-Wide Net Sales, and Adjusted Earnings per Fully Converted Share. These non-GAAP financial measures are used in addition to and in conjunction with results presented in accordance with GAAP. However, these measures are not intended to be a substitute for those reported in accordance with GAAP. These measures may be different from non-GAAP financial measures used by other companies, even when similar terms are used to identify such measures.

Adjusted EBITDA. Adjusted EBITDA is a non-GAAP financial measure that comprises net income before interest, income taxes, depreciation and amortization, stock-based compensation, non-cash charges and certain other expenses. Our definition of Adjusted EBITDA may differ from similar measures used by other companies, even when similar terms are used to identify such measures. Adjusted EBITDA is a key metric used by management and our board of directors to assess our financial performance and evaluate the effectiveness of our business strategies. Accordingly, we believe that Adjusted EBITDA provides useful information to investors and others in understanding and evaluating our operating results in the same manner as our management and Board of Directors.

The following table presents a reconciliation of Adjusted EBITDA to Net Income, the most comparable GAAP measure, for each of the periods indicated:

				Six Mor	Six Months Ended

- (c) Represents expenses recorded related to legal, accounting and other professional fees incurred in connection with our debt refinancing and completion of the IPO.

System-Wide Net Sales. System-Wide Net Sales is a non-GAAP measure which equals the sum of the net sales of our Domestic and International segments plus all net sales from our unconsolidated joint ventures (our South American Joint Venture, our BaySaver Joint Venture and our Tigre-ADS USA Joint Venture). We use this metric to measure the overall performance of our business across all of our geographies and markets we serve.

Our South American Joint Venture is managed as an integral part of our International segment and our BaySaver and Tigre-ADS USA Joint Ventures are managed as an integral part of our Domestic segment. However, they are not consolidated under GAAP. System-Wide Net Sales is prepared as if our South American Joint Venture, our BaySaver Joint Venture, and our Tigre-ADS USA Joint Venture were accounted for as consolidated subsidiaries for management and segment reporting purposes.

The reconciliation of our System-Wide Net Sales to net sales is as follows:

	Three Months Ended September 30,			Six Months Ended September 30,			
(Amounts in thousands)	2014		2013	2014		2013	
	(As Restated) (a	(As	Restated) ^(a)	(As Restated) (a)) (As I	Restated) (a)

System-Wide Net Sales	\$ 390,610	\$	351,886	\$ 736,834	\$	660,607	

- (a) See Note 2. Restatement of Previously Issued Financial Statements to our consolidated financial statements.
- (b) On July 31, 2009, we entered into an arrangement to form our South American Joint Venture.
- (c) On July 15, 2013, we entered into an arrangement to form our BaySaver Joint Venture.
- (d) On April 7, 2014, we entered into an arrangement to form our Tigre-ADS USA Joint Venture. *Adjusted Earnings per Fully Converted Share*. Adjusted Earnings per Fully Converted Share, which is a non-GAAP measure, is a supplemental measure of financial performance that is not required by, or presented in accordance with GAAP. We calculate Adjusted earnings per fully converted share (Non-GAAP), and Weighted average fully converted common shares outstanding (Non-GAAP), by adjusting our Net income per share Basic and Weighted average common shares outstanding Basic, the most comparable GAAP measures.

To effect this adjustment, we have (1) removed the adjustment for the change in fair value of Redeemable convertible preferred stock classified as mezzanine equity from the numerator of the Net income per share - Basic computation, (2) added back the dividends to Redeemable convertible preferred stockholders and dividends paid to unvested restricted stockholders, (3) made corresponding adjustments to the amount allocated to participating securities under the two-class earnings per share computation method, and (4) added back ESOP deferred compensation attributable to the shares of redeemable convertible preferred stock allocated to employee ESOP accounts during the applicable period, which is a non-cash charge to our earnings and not deductible for income tax purposes.

We have also made adjustments to the Weighted average common shares outstanding Basic to assume, (1) share conversion of the Redeemable convertible preferred stock to outstanding shares of common stock and (2) add shares of outstanding unvested restricted stock.

Adjusted Earnings Per Fully Converted Share (Non-GAAP) is included in this report because it is a key metric used by management and our board of directors to assess our financial performance. Adjusted Earnings Per Fully Converted Share (Non-GAAP) is not necessarily comparable to other similarly titled captions of other companies due to different methods of calculation.

The following table presents a reconciliation of Adjusted Earnings Per Fully Converted Share (Non-GAAP), and the corresponding Weighted Average Fully Converted Common Shares Outstanding (Non-GAAP) to our Net income per

share and corresponding Weighted average common shares outstanding amounts, the most comparable GAAP measure, for each of the periods indicated.

(a) See Note 2. Restatement of Previously Issued Financial Statements to our consolidated financial statements. Liquidity and Capital Resources

Our primary liquidity requirements are working capital, capital expenditures, debt service, and dividend payments for our convertible preferred stock and common stock. We have historically funded, and expect to continue to fund, our operation primarily through equity issuance, internally generated cash flow and debt financings. From time to time we may explore additional financing methods and other means to raise capital. There can be no assurance that any additional financing will be available to us on acceptable terms or at all.

As of September 30, 2014, we had \$6.5 million in cash that was held by our foreign subsidiaries. Our intent is to reinvest our earnings in foreign subsidiaries. In the event that foreign earnings are repatriated, these amounts will be subject to income tax liabilities in the appropriate tax jurisdiction. No restrictions exist on our liquidity that is impacted by the significance of cash held by foreign subsidiaries.

Working Capital and Cash Flows

During the six months ended September 30, 2014, our net increase in cash was \$2.7 million compared to a net increase of \$0.7 million for the six months ended September 30, 2013. During the six months ended September 30, 2014, our source of funds was primarily driven by higher operating earnings, proceeds of \$79.1 million from primary shares sold during our IPO, decreased inventories (\$27.6 million) and non-cash charges (depreciation, amortization, compensation expense and shared based compensation expense). For the same period ending September 30, 2014, our use of cash was primarily driven by increased accounts receivable balances (up \$97.8 million), spending for capital expenditures (15.6 million), repayment of \$95.3 million of Long Term Debt in second quarter fiscal 2015 and investments in joint ventures (\$7.6 million). During the six months ended September 30, 2013, our primary source of cash was also provided by operating earnings, decreased inventories (\$37.1 million) borrowings on the Revolving Credit Facility and a new Term Note. For the six months ended September 30, 2013, our use of cash was primarily due to increases in accounts receivable (\$92.3 million) and for capital expenditures (\$21.6 million).

As of September 30, 2014, we had \$139.8 million in liquidity, including \$6.6 million of cash and cash equivalents and \$133.2 million in borrowings available under our Revolving Credit Facilities, described below. We believe that our cash on hand, together with the availability of borrowings under our Revolving Credit Facility and other financing arrangements and cash generated from operations, will be sufficient to meet our working capital requirements, anticipated capital expenditures, scheduled interest payments on our indebtedness and dividend payment requirement for our convertible preferred stock for at least the next twelve months.

As of September 30, 2014, we had total consolidated indebtedness of approximately \$397.6 million down \$56.5 million compared to March 31, 2014. We repaid a portion of our outstanding indebtedness with the net proceeds from our initial public offering which closed on July 25, 2014.

The following table sets forth the major sources and uses of cash for each of the periods presented:

 $\begin{array}{c} \text{Six Months Ended} \\ \text{September 30,} \\ \text{(Amounts in thousands)} \\ & 2014 \\ \text{(As Restated)}^{\text{(a)}} \\ \text{(As Restated)}^{\text{(a)}} \end{array}$

Statement of Cash Flows data:

Edgar Filing: ADVANCED DRAINAGE SYSTEMS, INC. - Form 10-Q/A

Net cash from operating activities	\$ 14,906	8,385
Net cash from investing activities	(23,972)	(21,524)
Net cash from financing activities	11,946	13,805

(a) See Note 2. Restatement of Previously Issued Financial Statements to the Condensed Consolidated Financial Statements.

Operating Cash Flows

During the six months ended September 30, 2014, cash provided by operating activities was \$14.9 million as compared with cash provided by operating activities of \$8.4 million for the six months ended September 30, 2013. Cash flow from operating activities during the six months ended September 30, 2014 was impacted lower net income and by moderately higher stock-based compensation compared to the prior period and lower inventory, offsetting an increase in the use of cash related to changes in accounts receivable, and accounts payable. Cash flow from operating activities for the six months ended September 30, 2013 also included a reduction of \$4.8 million gain realized from the sale of assets for the Draintech product line.

Investing Cash Flows

During the six months ended September 30, 2014, cash used for investing activities was \$24.0 million, primarily due to \$15.6 million for capital expenditures in support of operations, a \$3.6 million investment for a 49% interest in a newly created domestic joint venture operation, and a \$4.0 million investment in our international joint venture operation to support growth initiatives. During the six months ended September 30, 2013, cash used for investing activities was \$21.5 million, primarily due to capital expenditures in support of operations, net of \$5.9 million in proceeds received from the sale of the Draintech product line.

Financing Cash Flows

During the six months ended September 30, 2014, cash provided by financing activities was a net \$11.9 million, utilizing primarily borrowings on our Revolving Credit facility to support our typical seasonal demand increase following the winter months and early spring. Revolving Credit borrowings amounted to a net outflow of \$52.2 million, offset by net proceeds from the IPO. During the six months ended September 30, 2013, cash provided by financing activities was \$13.8 million primarily due to borrowings from Term and Revolving debt (\$30.6 million), offset by modest payments for dividends and redemption of convertible preferred stock in connection with the ESOP.

Capital Expenditures

Capital expenditures totaled \$15.6 million and \$21.6 million for the six months ended September 30, 2014 and September 30, 2013, respectively. Our capital expenditures for the six months ended September 30, 2014 were used primarily to support facility expansions, equipment replacements, and our recycled resin initiatives.

We currently anticipate that we will make capital expenditures of approximately \$35 million in fiscal year 2015. Such capital expenditures are expected to be financed using funds generated by operations. As of September 30, 2014, there were no material contractual obligations or commitments related to these planned capital expenditures.

Financing Transactions

Bank Term Loans

On September 24, 2010, we entered into a credit agreement with PNC Bank, National Association, or PNC, as administrative agent, and lender parties thereto. The credit agreement, as amended and restated on June 12, 2013 and subsequently further amended, provides for our Bank Term Loans consisting of (i) the Revolving Credit Facility providing for revolving loans and letters of credit of up to a maximum aggregate principal amount of \$325.0 million

and (ii) the Term Loan Facility providing for the Term Loans in an aggregate original principal amount of \$100 million. The Bank Term Loans also permit us to add additional commitments to the Revolving Credit Facility or the Term Loan Facility not to exceed \$50 million in the aggregate. The proceeds of the Revolving Credit Facility are primarily used to provide for our ongoing working capital and capital expenditure needs, to finance acquisitions and distributions, and for our other general corporate purposes. The proceeds of the Term Loan Facility were primarily used for our general corporate purposes. The interest rates on the Bank Term Loans are determined by certain base rates or LIBOR rates, plus an applicable margin. The obligations under the Bank Term Loans are guaranteed by certain of our subsidiaries and secured by substantially all of our personal property assets. On December 20, 2013, we amended the Revolving Credit Facility to, among other terms, make certain amendments in order to permit the payment of a cash dividend. For further information about the Bank Term Loans, see Note 12. Debt to the financial statements included in Item 8. Financial and Supplementary Data of our Form 10-K for the year ended March 31, 2015 filed concurrently with this Form 10-Q/A as of September 30, 2014. As of September 30, 2014, the outstanding principal drawn on the Revolving Credit Facility was \$193.8 million, with \$123.2 million available to be drawn. As of September 30, 2014, the outstanding principal balance of the Term Loan was \$95.0 million.

We used the net proceeds from the initial public offering, which closed on July 25, 2014, to repay a portion of our outstanding indebtedness under the Revolving Credit Facility.

ADS Mexicana Revolving Credit Facility

On September 24, 2010, our joint venture ADS Mexicana entered into a credit agreement with PNC, as administrative agent, and lender parties thereto. The credit agreement, as amended and restated on June 12, 2013 and subsequently further amended, provides for revolving loans and letters of credit of up to a maximum aggregate principal amount of \$12 million. The proceeds of the revolving credit facility are primarily used to cover working capital needs. The interest rates of the revolving credit facilities are determined by certain base rates or LIBOR rates, plus an applicable margin. The obligations under the revolving credit facility are guaranteed by us and certain of our subsidiaries and secured by substantially all of our assets. For further information about the Mexicana Revolving Credit Facilities, see Note 12. Debt to the financial statements included in Item 8. Financial and Supplementary Data of our Form 10-K for the year ended March 31, 2015 filed concurrently with this Form 10-Q/A as of September 30, 2014. As of September 30, 2014, the outstanding principal drawn on the revolving credit facility was \$2.0 million, with \$10.0 million available to be drawn.

Senior Notes

On December 11, 2009, we entered into a private shelf agreement with Prudential Investment Management Inc., or Prudential, which agreement, as amended and restated on September 24, 2010 and subsequently further amended, provides for the issuance by us of senior secured promissory notes to Prudential or its affiliates from time to time in the aggregate principal amount up to \$100 million. Pursuant to the private shelf agreement, on September 27, 2010, we issued \$75 million in aggregate principal amount of the 5.60% Senior Series A Notes due September 24, 2018 to repurchase outstanding shares of common stock from certain of our stockholders and to repurchase outstanding shares of convertible preferred stock from the ESOP. On July 24, 2013, we issued \$25 million in aggregate principal amount of the 4.05% Senior Series B Notes due September 24, 2019 for our general corporate purposes. The Senior Notes are guaranteed by certain of our subsidiaries and secured by substantially all of our assets. On December 20, 2013, we amended the private shelf agreement to, among other terms, make certain amendments in order to permit the payment of a cash dividend. For further information about the Senior Notes, see Note 12. Debt to the financial statements included in Item 8. Financial and Supplementary Data of our Form 10-K for the year ended March 31, 2015 filed concurrently with this Amendment No. 1 on Form 10-Q as of September 30, 2014 . We have no further amount available for issuance of senior notes under the private shelf agreement. At September 30, 2014 the outstanding principal balance on these notes was \$100 million.

Covenant Compliance

Our outstanding debt agreements and instruments contain various restrictive covenants including, but not limited to, limitations on additional indebtedness and capital distributions, including dividend payments. The two primary debt covenants include a Leverage Ratio and a Fixed Charge Ratio. For any relevant period of determination, The Leverage Ratio is calculated by dividing Total Consolidated Indebtedness (funded debt plus guarantees) by Consolidated EBITDA. The current upper limit is 4.0 times. The Fixed Charge Ratio is calculated by dividing the sum of Consolidated EBITDA minus Capital Expenditures minus cash Income Taxes paid, by the sum of Fixed Charges. Fixed Charges include cash Interest expense, scheduled principal payments on Indebtedness, and ESOP Capital Distributions in excess of \$10 million in a given fiscal year. The current minimum ratio is 1.25 times. For further information, see Note 12. Debt to the financial statements included in Item 8. Financial and Supplementary Data of our Form 10-K for the year ended March 31, 2015 filed concurrently with this Form 10-Q/A as of, and for the three and six months ended September 30, 2014. We were in compliance with our debt covenants as of September 30, 2014.

Total	\$ 545 648	\$ 63 505	\$ 128 751	\$ 341 740	\$ 11.652		

- (1) The current Revolving Credit Facility and Term Loan mature in June, 2018.
- (2) Based on applicable rates and pricing margins as of September 30, 2014, including interest rate swaps.
- (3) Purchase obligations include various commitments with vendors to purchase inventory.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements, with the exception of the guarantee of 50% of certain debt of our unconsolidated South American Joint Venture, as further discussed in Note 11. Related Party Transactions of our Notes to Condensed Consolidated Financial Statements. As of September 30, 2014, our South American Joint Venture had approximately \$12.3 million of outstanding debt. We do not believe that this guarantee will have a current or future effect on our financial condition, results of operations, liquidity, or capital resources.

Critical Accounting Policies and Estimates

There have been no changes in critical accounting policies from those disclosed in Management s Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended March 31, 2015 (filed concurrently with this Form 10-Q/A) which includes our restated consolidated financial statements for the year ended March 31, 2014.

Forward-Looking Statements

This Quarterly Report on Form 10-Q/A includes forward-looking statements. Some of the forward-looking statements can be identified by the use of terms such as believes, expects, may, will, should, could, seeks, intends, estimates, anticipates or other comparable terms. These forward-looking statements include all matters that are not related to present facts or current conditions or that are not historical facts. They appear in a number of places throughout this report and include statements regarding our intentions, beliefs or current expectations concerning, among other things, our consolidated results of operations, financial condition, liquidity, prospects and growth strategies and the industries in which we operate and including, without limitation, statements relating to our future performance.

Forward-looking statements are subject to known and unknown risks and uncertainties, many of which are beyond our control. We caution you that forward-looking statements are not guarantees of future performance and that our actual consolidated results of operations, financial condition and liquidity, and industry development may differ materially from those made in or suggested by the forward-looking statements contained in this report. In addition, even if our consolidated results of operations, financial condition and liquidity, and industry development are consistent with the forward-looking statements contained in this report, those results or developments may not be indicative of results or developments in subsequent periods. A number of important factors could cause actual results to differ materially from those contained in or implied by the forward-looking statements, including the risks and uncertainties discussed in this report under the headings Risk Factors, and Management s Discussion and Analysis of Financial Condition and Results of Operations. Factors that could cause actual results to differ from those reflected in forward-looking statements relating to our operations and business include:

fluctuations in the price and availability of resins and other raw materials and our ability to pass any increased costs of raw materials on to our customers in a timely manner;

volatility in general business and economic conditions in the markets in which we operate, including without limitation, factors relating to availability of credit, interest rates, fluctuations in capital and business and consumer confidence;

cyclicality and seasonality of the non-residential and residential construction markets and infrastructure spending;

the risks of increasing competition in our existing and future markets, including competition from both manufacturers of high performance thermoplastic corrugated pipe and manufacturers of products using alternative materials;

our ability to continue to convert current demand for concrete, steel and PVC pipe products into demand for our high performance thermoplastic corrugated pipe and Allied Products;

the effect of weather or seasonality;

the loss of any of our significant customers;

- 48 -

the risks of doing business internationally; the risks of conducting a portion of our operations through joint ventures; our ability to expand into new geographic or product markets; our ability to achieve the acquisition component of our growth strategy; the risk associated with manufacturing processes; our ability to manage our assets; the risks associated with our product warranties; our ability to manage our supply purchasing and customer credit policies; the risks associated with our self-insured programs; our ability to control labor costs and to attract, train and retain highly-qualified employees and key personnel; our ability to protect our intellectual property rights; changes in laws and regulations, including environmental laws and regulations; our ability to project product mix; the risks associated with our current levels of indebtedness; our ability to meet future capital requirements and fund our liquidity needs; and other risks and uncertainties, including those listed under Risk Factors.

All forward-looking statements are made only as of the date of this report and we do not undertake any obligation, other than as may be required by law, to update or revise any forward-looking statements to reflect future events or developments. Comparisons of results for current and any prior periods are not intended to express any future trends, or indications of future performance, unless expressed as such, and should only be viewed as historical data.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are subject to various market risks, primarily related to changes in interest rates, raw material supply prices, and, to a lesser extent, foreign currency exchange rates. Our financial position, results of operations or cash flows may be negatively impacted in the event of adverse movements in the respective market rates or prices in each of these risk categories. Our exposure in each category is limited to those risks that arise in the normal course of business, as we do not engage in speculative, non-operating transactions

Interest Rate Risk

We are subject to interest rate risk associated with our debt. Changes in interest rates impact the fair value of our fixed-rate debt, but there is no impact to earnings and cash flow. Alternatively, changes in interest rates do not affect the fair value of our variable-rate debt, but they do affect future earnings and cash flow. The Revolving Credit Facility, the Term Loan Facility, and our industrial development revenue bond, or IDRB, notes bear variable interest rates. The Revolving Credit Facility and Term Loan Facility bear interest either at LIBOR or the Prime Rate, at our option, plus applicable pricing margins. The IDRB notes bear interest at weekly commercial paper rates, plus applicable pricing margins. A 1.0% increase in interest rates on our variable-rate debt would increase our annual forecasted interest expense by approximately \$1.9 million based on our borrowings as of September 30, 2014.

Assuming the Revolving Credit Facility is fully drawn, each 1.0% increase or decrease in the applicable interest rate would change our interest expense by approximately \$3.2 million per year. To mitigate the impact of interest rate volatility, we had two interest rate swaps in effect as of September 30, 2014. The first swap is at \$70 million notional value, amortizing \$2.5 million per quarter at a fixed LIBOR rate of 1.105%, and expired in September 2014. The other swap is a \$50 million notional value, non-amortizing swap at a LIBOR rate of 0.86%, which expires in September 2016. A third \$50 million notional value swap took effect on September 1, 2014 and expires on September 1, 2016. The rate is at a fixed LIBOR of 1.08%.

Credit Risk

Financial instruments that potentially subject us to a concentration of credit risk consist principally of accounts receivable. We provide our products to customers based on an evaluation of the customers—financial condition, generally without requiring collateral. Exposure to losses on receivables is principally dependent on each customer—s financial condition. We monitor the exposure for credit losses and maintain allowances for anticipated losses. Concentrations of credit risk with respect to our accounts receivable are limited due to the large number of customers comprising our customer base and their dispersion among many different geographies.

- 49 -

Raw Material and Commodity Price Risk

Our primary raw materials used in the production of our products are polyethylene and polypropylene resins. As these resins are hydrocarbon-based materials, changes in the price of feedstocks, such as crude oil and natural gas, as well as changes in the market supply and demand may cause the cost of these resins to fluctuate significantly. Raw materials account for the majority of our cost of goods sold. Given the significance of these costs and the inherent volatility in supplier pricing, our ability to reflect these changes in the cost of resins in our product selling prices in an efficient manner, passing the increase on to our customers, contributes to the management of our overall supply price risk and the potential impact on our results of operations.

We manage supply risk with financial and physical hedge contracts for the HDPE and PP resins used in the manufacture of our Pipe and Allied Products, as well as for the diesel fuel used by our in-house fleet of delivery trucks. Our physical hedge contracts for HDPE resins are typically at a fixed price and volume over time. We use to a limited extent financial derivatives for PP resin in the form of fixed price swaps based on propylene monomer. For diesel fuel, we have utilized option contracts in the form of collars with put and call options.

We have supply contracts that typically include supply periods of greater than one year. Except for physical-hedged resin contracts, we generally do not enter into long-term purchase orders for the delivery of raw materials. Our orders with suppliers are flexible and do not normally contain minimum purchase volumes or fixed prices. Accordingly, our suppliers may change their selling prices or other relevant terms on a monthly basis, exposing us to pricing risk. Our use of pricing and forecasting tools, centralized procurement, additional sources of supply and incorporation of vertical integration for recycled material have increased our focus on efficiency and resulted in lower overall supply costs. If the price of HDPE and PP virgin resin increased or decreased by 5%, it would result in a change to our annual cost of goods sold of approximately \$25 million.

Inflation

Our cost of goods sold is subject to inflationary pressures and price fluctuations of the raw materials we use, primarily high density polyethylene and polypropylene resins. Historically, we have generally been able over time to recover the effects of inflation and price fluctuations through sales price increases and production efficiencies related to technological enhancements and improvements. However, we cannot reasonably estimate our ability to successfully recover any price increases.

Financial Instruments

We have operations in countries outside of the United States, all of which use the respective local foreign currency as their functional currency. Each of these operations may enter into contractual arrangements with customers or vendors that are denominated in currencies other than its respective functional currency. Consequently, our results of operations may be affected by exposure to changes in foreign currency exchange rates and economic conditions in the regions in which we sell or distribute our products. Exposure to variability in foreign currency exchange rates from these transactions is managed, to the extent possible, by natural hedges which result from purchases and sales occurring in the same foreign currency within a similar period of time, thereby offsetting each other to varying degrees.

In addition, to the transaction-related gains and losses that are reflected within the results of operations, we are subject to foreign currency translation risk, as the financial statements for our foreign subsidiaries are measured and recorded in the respective subsidiary s functional currency and translated into U.S. dollars for consolidated financial reporting purposes. The resulting translation adjustments are recorded net of tax impact in the Condensed Consolidated

Statement of Operations.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company s reports under the Securities Exchange Act of 1934, as amended (the Exchange Act), is recorded, processed, summarized and reported within the time periods specified in the SEC s rules and forms, and that such information is accumulated and communicated to management, including the Company s Chief Executive Officer (CEO) and Chief Financial Officer (CFO), as appropriate to allow timely decisions regarding required disclosure. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met.

- 50 -

In connection with the Company s Quarterly Report on Form 10-Q for the quarter ended September 30, 2014 (the Original Form 10-Q), the Company s CEO and CFO concluded that the Company s disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Exchange Act) were effective at a reasonable assurance level as of September 30, 2014 (the Evaluation Date). Subsequent to the filing of the Original Form 10-Q and in connection with the restatement discussed elsewhere in this Quarterly Report on Form 10-Q/A, the Company s management identified material weaknesses in the Company s internal control over financial reporting applicable to the period covered by this periodic report. As a result of its identification of the material weaknesses, management, under the supervision and with the participation of our CEO and CFO, reevaluated the effectiveness of the Company s disclosure controls and procedures as of the Evaluation Date. Based on that reevaluation, the CEO and CFO concluded that the Company s disclosure controls and procedures were not effective as of the Evaluation Date.

A material weakness in internal control over financial reporting is a deficiency, or a combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of a company s annual or interim financial statements will not be prevented or detected on a timely basis. We have identified certain material weaknesses in our internal control over financial reporting in the areas of (i) Company control environment, (ii) accounting for leases, (iii) accounting for inventory, (iv) journal entry and account reconciliation, (v) ADS Mexicana control environment, and (vi) ADS Mexicana revenue recognition cut-off practices. The material weaknesses in our internal control over financial reporting are more fully described in Item 9A in our Annual Report on Form 10-K for the year ended March 31, 2015, which is being filed concurrently with this Form 10-Q/A.

Changes in Internal Control over Financial Reporting

While there have been significant changes in our internal control over financial reporting subsequent to September 30, 2014, as described in Item 9A of our Annual Report on Form 10-K for the year ended March 31, 2015, no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) occurred during the period covered by this Quarterly Report on Form 10-Q that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

From time to time we are involved in legal proceedings incidental to our business, as well as other litigation of a non-material nature in the ordinary course of business. In connection with ASC 450, Contingencies, we have not accrued for material loss contingencies relating to any legal proceedings because we believe that, although unfavorable outcomes in proceedings may be possible, they are not considered by our management to be probable and reasonably estimable. We believe that the outcome of any such pending matters, either individually or in the aggregate, will not have a material impact on our business or financial condition.

Item 1A. Risk Factors

Important risk factors that could affect our operations and financial performance, or that could cause results or events to differ from current expectations, are described in Part I, Item 1A Risk Factors of our Annual Report on Form 10-K for the year ended March 31, 2015, which is being filed concurrently with this Form 10-Q/A. These factors are further supplemented by those discussed in Part II, Item 7A Quantitative and Qualitative Disclosures about Market Risk of our Annual Report on Form 10-K for the year ended March 31, 2015 and in Part I, Item 3 Quantitative and Qualitative Disclosures about Market Risk and Part II, Item 1 Legal Proceedings of this Amended Quarterly Report

on Form 10-Q/A.

Item 2. Unregistered Sale of Equity Securities

On July 24, 2014, the Company s Registration Statement (File No. 333-194980) was declared effective by the SEC for the initial public offering of its common stock, par value \$0.01 per share. We registered the offering and sale of 16,675,000 shares of common stock, including 2,175,000 shares of common stock to be sold to the underwriters pursuant to their over-allotment option, at a price of \$16.00 per share, with an aggregate price of the registered offering amount \$266.8 million. On July 25, 2014, the Company closed its initial public offering of 14,500,000 shares of the Company s common stock which were sold by the Company and certain of our stockholders. On August 22, 2014, an additional 600,000 shares of common stock were sold by certain of our stockholders pursuant to the underwriters partial exercise of their over-allotment option. The shares sold in the initial offering (including shares sold pursuant to the over-allotment option) were sold at a public offering price of \$16.00 per share, for an aggregate offering price of \$241.6 million. Barclays Capital Inc., Deutsche Bank Securities Inc., Citigroup Global Markets Inc. and RBC Capital Markets, LLC acted as joint book-running managers for the offering. Merrill Lynch, Pierce, Fenner & Smith Incorporated, Fifth Third Securities, Inc. and PNC Capital Markets LLC acted as co-managers for the offering.

As a result of our initial public offering, we received proceeds of \$79.1 million, after deducting underwriting discounts and commissions of approximately \$5.5 million, from the sale by us of 5,289,474 shares of common stock. We did not receive any proceeds from the sale of shares by the selling stockholders. None of the expenses associated with the initial public offering were paid to directors, officers or persons owning ten percent or more of our common stock or to their associates, or to our affiliates, except that the Company paid such portion of the fees and expenses of counsel to the selling stockholders that exceed \$100,000 and any transfer taxes payable in connection with the initial public offering.

There has been no material change in the planned use of proceeds from our initial public offering as described in our final prospectus filed with the SEC pursuant to Rule 424(b) under the Securities Act on July 28, 2014. We used the net proceeds that we received from our initial public offering to repay a portion of our outstanding indebtedness under the revolving portion of the Company s credit facility.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None.

Item 6. Exhibits

The exhibits listed in the Exhibit Index are incorporated herein by reference.
