Note 1. Overview and Basis of Presentation

Business Sykes Enterprises, Incorporated and consolidated subsidiaries (SYKES or the Company) provides comprehensive outsourced customer contact management solutions and services in the business process outsourcing arena to companies, primarily within the communications, financial services, technology/consumer, transportation and leisure, and healthcare industries. SYKES provides flexible, high-quality outsourced customer contact management services (with an emphasis on inbound technical support, demand generation and customer service), which includes customer assistance, healthcare and roadside assistance, technical support, and product and service sales to its clients customers. Utilizing SYKES integrated onshore/offshore global delivery model, SYKES provides its services through multiple communication channels encompassing phone, e-mail, social media, text messaging, chat and digital self-service. SYKES complements its outsourced customer contact management services with various enterprise support services in the United States that encompass services for a company s internal support operations, from technical staffing services to outsourced corporate help desk services. In Europe, SYKES also provides fulfillment services, which includes order processing, payment processing, inventory control, product delivery and product returns handling. The Company has operations in two reportable segments entitled (1) the Americas, which includes the United States, Canada, Latin America, Australia and the Asia Pacific Rim, in which the client base is primarily companies in the United States that are using the Company s services to support their customer management needs; and (2) EMEA, which includes Europe, the Middle East and Africa.

Acquisitions

On April 1, 2016, the Company completed the acquisition of Clear Link Holdings, LLC (Clearlink), pursuant to a definitive Agreement and Plan of Merger (the Merger Agreement), dated March 6, 2016. The Company has reflected the operating results in the Condensed Consolidated Statements of Operations since April 1, 2016. See Note 2, Acquisitions, for additional information on the acquisition.

In July 2015, the Company completed the acquisition of Qelp B.V. and its subsidiary (together, known as Qelp), pursuant to a definitive Share Sale and Purchase Agreement, dated July 2, 2015. The Company has reflected the operating results in the Condensed Consolidated Statements of Operations since July 2, 2015. See Note 2, Acquisitions, for additional information on the acquisition.

Basis of Presentation The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (generally accepted accounting principles or U.S. GAAP) for interim financial information, the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and six months ended June 30, 2016 are not necessarily indicative of the results that may be expected for any future quarters or the year ending December 31, 2016. For further information, refer to the consolidated financial statements and notes thereto, included in the Company s Annual Report on Form 10-K for the year ended December

31, 2015, as filed with the Securities and Exchange Commission (SEC) on February 29, 2016.

Principles of Consolidation The condensed consolidated financial statements include the accounts of SYKES and its wholly-owned subsidiaries and controlled majority-owned subsidiaries. All significant intercompany transactions and balances have been eliminated in consolidation.

Use of Estimates The preparation of condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Table of Contents

Subsequent Events Subsequent events or transactions have been evaluated through the date and time of issuance of the condensed consolidated financial statements. There were no material subsequent events that required recognition or disclosure in the accompanying condensed consolidated financial statements.

Customer-Acquisition Advertising Costs The Company utilizes direct-response advertising the primary purpose of which is to elicit purchases from its clients customers. These costs are capitalized when they are expected to result in probable future benefits and are amortized over the period during which future benefits are expected to be received, which is generally less than one month. All other advertising costs are expensed as incurred. As of June 30, 2016, the Company had less than \$0.1 million of capitalized direct-response advertising costs included in Prepaid expenses in the accompanying Condensed Consolidated Balance Sheet (none in 2015). Total advertising costs included in Direct salaries and related costs in the accompanying Condensed Consolidated Income Statements for both the three and six months ended June 30, 2016 were \$8.0 million (none in 2015).

Reclassifications Certain balances in the prior period have been reclassified to conform to current period presentation.

New Accounting Standards Not Yet Adopted

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2014-09, *Revenue from Contracts with Customers (Topic 606)* (ASU 2014-09). The amendments in ASU 2014-09 outline a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and indicate that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve this, an entity should identify the contract(s) with a customer, identify the performance obligations in the contract, determine the transaction price, allocate the transaction price to the performance obligations in the contract and recognize revenue when (or as) the entity satisfies a performance obligation. In August 2015, the FASB issued ASU 2015-14, *Revenue from Contracts with Customers (Topic 606) Deferral of the Effective Date* (ASU 2015-14). The amendments in ASU 2015-14 defer the effective date of ASU 2014-09 to annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period. Earlier application is permitted only as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that period. An entity should apply the amendments using either the full retrospective approach or retrospectively with a cumulative effect of initially applying the amendments recognized at the date of initial application. The Company is currently evaluating the methods of adoption and the impact that the adoption of ASU 2014-09 may have on its financial condition, results of operations and cash flows.

In January 2016, the FASB issued ASU 2016-01, *Financial Instruments - Overall (Subtopic 825-10) Recognition and Measurement of Financial Assets and Financial Liabilities* (ASU 2016-01). These amendments modify how entities measure equity investments and present changes in the fair value of financial liabilities. Under the new guidance, entities will have to measure equity investments that do not result in consolidation and are not accounted for under the equity method at fair value and recognize any changes in fair value in net income unless the investments qualify for the new practicality exception. A practicality exception will apply to those equity investments that do not have a readily determinable fair value and do not qualify for the practical expedient to estimate fair value under ASC 820, Fair Value Measurements, and as such, these investments may be measured at cost. These amendments are effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. The Company does not expect the adoption of ASU 2016-01 to materially impact its financial condition, results of operations and cash flows.

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)* (ASU 2016-02). These amendments require the recognition of lease assets and lease liabilities on the balance sheet by lessees for those leases currently classified as operating leases under ASC 840 *Leases* . These amendments also require qualitative disclosures along with specific quantitative disclosures. These amendments are effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Early application is permitted. Entities are required to apply the amendments at the beginning of the earliest period presented using a modified retrospective approach. The Company is currently evaluating the impact that the adoption of ASU 2016-02 will have on its financial condition, results of operations and cash flows.

In March 2016, the FASB issued ASU 2016-05, *Derivatives and Hedging (Topic 815) Effect of Derivative Contract Novations on Existing Hedge Accounting Relationships* (ASU 2016-05). These amendments clarify that a change in the counterparty to a derivative instrument that has been designated as the hedging instrument under

Table of Contents

Topic 815 does not, in and of itself, require dedesignation of that hedging relationship provided that all other hedge accounting criteria continue to be met. These amendments are effective for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. Early adoption is permitted. Entities have the option to apply the amendments on either a prospective basis or a modified retrospective basis. The Company is evaluating the methods of adoption but does not expect the adoption of ASU 2016-05 to materially impact its financial condition, results of operations and cash flows.

In March 2016, the FASB issued ASU 2016-08, *Revenue from Contracts with Customers (Topic 606) Principal versus Agent Considerations (Reporting Revenue Gross versus Net)* (ASU 2016-08). These amendments clarify the implementation guidance on principal versus agent considerations and require entities to determine whether the nature of its promise to provide goods or services to a customer is performed in a principal or agent capacity and to recognize revenue in a gross or net manner based on its principal/agent designation. In April 2016, the FASB issued ASU 2016-10, *Revenue from Contracts with Customers (Topic 606) Identifying Performance Obligations and Licensing* (ASU 2016-10). These amendments clarify the identification of performance obligations and the licensing implementation guidance. In May 2016, the FASB issued ASU 2016-11, *Revenue Recognition and Derivatives and Hedging: Rescission of SEC Guidance Because of Accounting Standards Updates 2014-09 and 2014-16 Pursuant to Staff Announcements at the March 3, 2016 Emerging Issues Task Force Meeting (EITF)* (ASU 2016-11). These rescissions include changes to topics pertaining to accounting for shipping and handling fees and costs and accounting for consideration given by a vendor to a customer. In May 2016, the FASB issued ASU 2016-12, *Revenue from Contracts with Customers (Topic 606) Narrow-Scope Improvements and Practical Expedients* (ASU 2016-12). These amendments clarify the guidance in certain narrow areas and add several practical expedients. These ASUs affect the guidance in ASU 2014-09, which is not yet effective. The effective date and transition requirements for ASU 2016-08, ASU 2016-10, ASU 2016-11 and ASU 2016-12 are the same as the effective date and transition requirements of ASU 2014-09, as updated by ASU 2015-14. The Company is currently evaluating the impact the guidance will have on its financial condition, results of operations and cash flows.

In March 2016, the FASB issued ASU 2016-09, *Compensation - Stock Compensation (Topic 718) Improvements to Employee Share-Based Payment Accounting* (ASU 2016-09). These amendments are intended to simplify several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. These amendments are effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods. Early adoption is permitted. Entities have the option to apply the amendments on either a prospective basis or a modified retrospective basis. The Company is currently evaluating the impact the guidance will have on its financial condition, results of operations and cash flows.

In June 2016, the FASB issued ASU 2016-13, *Financial Instruments - Credit Losses (Topic 326) Measurement of Credit Losses on Financial Instruments* (ASU 2016-13). These amendments require measurement and recognition of expected versus incurred credit losses for financial assets held. These amendments are effective for fiscal years beginning after December 15, 2019, and interim periods within those fiscal years. Early adoption is permitted. The Company is currently evaluating the impact the guidance will have on its financial condition, results of operations and cash flows.

New Accounting Standards Recently Adopted

In June 2014, the FASB issued ASU 2014-12, *Compensation - Stock Compensation (Topic 718) Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period* (ASU 2014-12). The amendments in ASU 2014-12 require that a performance target that affects vesting and that could be achieved after the requisite service period be treated as a performance condition. A

reporting entity should apply existing guidance in Accounting Standards Codification (ASC) Topic 718, *Compensation - Stock Compensation* (ASC 718), as it relates to awards with performance conditions that affect vesting to account for such awards. These amendments, adopted prospectively, were effective for annual periods and interim periods within those annual periods beginning after December 15, 2015. The adoption of ASU 2014-12 on January 1, 2016 did not have a material impact on the financial condition, results of operations and cash flows of the Company.

In January 2015, the FASB issued ASU 2015-01, *Income Statement - Extraordinary and Unusual Items (Subtopic 225-20) Simplifying Income Statement Presentation by Eliminating the Concept of Extraordinary Items* (ASU 2015-01). The amendments eliminate from U.S. GAAP the concept of extraordinary items as part of the FASB's initiative to reduce complexity in accounting standards. These amendments, adopted prospectively, were effective

for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. The adoption of ASU 2015-01 on January 1, 2016 did not have a material impact on the financial condition, results of operations and cash flows of the Company.

In February 2015, the FASB issued ASU 2015-02, *Consolidation (Topic 810) Amendments to the Consolidation Analysis* (ASU 2015-02). The amendments are intended to improve targeted areas of the consolidation guidance for legal entities such as limited partnerships, limited liability corporations and securitization structures. These amendments affect the consolidation evaluation for reporting organizations. In addition, the amendments simplify and improve current U.S. GAAP by reducing the number of consolidation models. These amendments, adopted retrospectively, were effective for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2015. The adoption of ASU 2015-02 on January 1, 2016 did not have a material impact on the financial condition, results of operations and cash flows of the Company.

In April 2015, the FASB issued ASU 2015-03, *Interest Imputation of Interest (Subtopic 835-30) Simplifying the Presentation of Debt Issuance Costs* (ASU 2015-03). These amendments require that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. These amendments were effective for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. The adoption of ASU 2015-03 on January 1, 2016 did not have a material impact on the financial condition, results of operations and cash flows of the Company.

In April 2015, the FASB issued ASU 2015-05, *Intangibles Goodwill and Other Internal-Use Software (Subtopic 350-40) Customer's Accounting for Fees Paid in a Cloud Computing Arrangement* (ASU 2015-05). These amendments provide guidance to customers about whether a cloud computing arrangement includes a software license. If a cloud computing arrangement includes a software license, the customer should account for the software license element of the arrangement consistent with the acquisition of other software licenses. If a cloud computing arrangement does not include a software license, the customer should account for the arrangement as a service contract. The new guidance does not change the accounting for a customer's accounting for service contracts. These amendments, adopted prospectively, were effective for annual periods, including interim periods within those annual periods, beginning after December 15, 2015. The adoption of ASU 2015-05 on January 1, 2016 did not have a material impact on the financial condition, results of operations and cash flows of the Company.

In September 2015, the FASB issued ASU 2015-16, *Business Combinations (Topic 805) Simplifying the Accounting for Measurement-Period Adjustments* (ASU 2015-16). These amendments eliminate the requirement for an acquirer to retrospectively adjust provisional amounts recorded in a business combination to reflect new information about the facts and circumstances that existed as of the acquisition date and that, if known, would have affected measurement or recognition of amounts initially recognized. As an alternative, the amendment requires that an acquirer recognize adjustments to provisional amounts that are identified during the measurement period in the reporting period in which the adjustment amounts are determined. The amendments require that the acquirer record, in the financial statements of the period in which adjustments to provisional amounts are determined, the effect on earnings of changes in depreciation, amortization, or other income effects, if any, as a result of the change to the provisional amounts, calculated as if the accounting had been completed at the acquisition date. These amendments, adopted prospectively, were effective for fiscal years beginning after December 15, 2015, including interim periods within those fiscal years. The adoption of ASU 2015-16 on January 1, 2016 did not have a material impact on the financial condition, results of operations and cash flows of the Company.

In November 2015, the FASB issued ASU 2015-17, *Income Taxes (Topic 740) Balance Sheet Classification of Deferred Taxes* (ASU 2015-17). These amendments require that deferred tax liabilities and assets be classified as noncurrent in a classified statement of financial position. The existing requirement that deferred tax liabilities and

assets of a tax-paying component of an entity be offset and presented as a single amount is not affected by these amendments. These amendments, adopted prospectively, were effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods. The adoption of ASU 2015-17 on January 1, 2016 resulted in the reclassification of \$12.0 million of current deferred tax assets included in Other current assets and \$1.1 million of current deferred tax liabilities included in Current deferred income tax liabilities to noncurrent deferred income tax assets and liabilities. All future deferred tax assets and liabilities will be classified as noncurrent. No prior periods were adjusted.

Table of Contents**Note 2. Acquisitions*****Clearlink***

On April 1, 2016, the Company acquired 100% of the outstanding membership units of Clearlink through a merger of Clearlink with and into a subsidiary of the Company (the Merger). Clearlink, with its operations located in the United States, is an inbound demand generation and sales conversion platforms serving numerous Fortune 500 business-to-consumer and business-to-business clients across various industries and subsectors, including telecommunications, satellite television, home security and insurance. The results of Clearlink's operations have been included in the Company's consolidated financial statements since April 1, 2016 (the Clearlink acquisition date). The strategic acquisition of Clearlink expands the Company's suite of service offerings while creating differentiation in the marketplace, broadening its addressable market opportunity and extending executive level reach within the Company's existing clients' organization. This resulted in the Company paying a substantial premium for Clearlink resulting in the recognition of goodwill. Pursuant to Federal income tax laws, intangible assets and goodwill from the Clearlink acquisition are deductible over a 15 year amortization period.

The Clearlink purchase price totaled \$207.9 million, consisting of the following:

	Total
Cash ⁽¹⁾	\$ 209,186
Working capital adjustment	(1,278)
	\$ 207,908

⁽¹⁾ Funded through borrowings under the Company's credit agreement. See Note 10, Borrowings, for more information.

Approximately \$2.6 million of the purchase price was placed in an escrow account as security for the indemnification obligations of Clearlink's members under the merger agreement.

The Company accounted for the Clearlink acquisition in accordance with ASC 805 (ASC 805) *Business Combinations*, whereby the purchase price paid was allocated to the tangible and identifiable intangibles acquired and liabilities assumed from Clearlink based on their estimated fair values as of the closing date. Certain amounts are provisional and are subject to change, including the finalization of the working capital adjustment, tax analysis of the assets acquired and liabilities assumed, intangibles and goodwill. The Company expects to complete its analysis of the purchase price allocation during the fourth quarter of 2016 and the resulting adjustments will be recorded in accordance with ASU 2015-16 *Business Combinations (Topic 805) Simplifying the Accounting for Measurement-Period Adjustments*.

The amount of Clearlink's revenues and net income since the April 1, 2016 acquisition date, included in the Company's Condensed Consolidated Statements of Operations for both the three and six months ended June 30, 2016, were as follows (in thousands):

	From April 1, 2016 Through June 30, 2016
Revenues	\$ 36,362
Net income	\$ 791

Table of Contents

The following table presents the unaudited pro forma combined revenues and net earnings as if Clearlink had been included in the consolidated results of the Company for the entire three and six month periods ended June 30, 2016 and 2015. The pro forma financial information is not indicative of the results of operations that would have been achieved if the acquisition and related borrowings had taken place on January 1, 2016 and 2015 (in thousands):

These amounts have been calculated to reflect the additional depreciation, amortization, interest expense and rent expense that would have been incurred assuming the fair value adjustments and borrowings occurred on January 1, 2016 and January 1, 2015, together with the consequential tax effects. In addition, these amounts exclude costs incurred which are directly attributable to the acquisition, and which do not have a continuing impact on the combined companies' operating results. Included in these costs are advisory and legal costs, net of the tax effects.

Acquisition-related costs associated with Clearlink in the accompanying Condensed Consolidated Statement of Operations were as follows (none in 2015) (in thousands):

Qelp

On July 2, 2015, the Company's wholly-owned subsidiaries, Sykes Enterprises Incorporated B.V. and Sykes Enterprises Incorporated Holdings B.V., both Netherlands companies, entered into a definitive Share Sale and Purchase Agreement (the "Purchase Agreement") with MobileTimes B.V., Yarra B.V., From The Mountain Consultancy B.V. and Sticting Administratiekantoor Qelp (the "Sellers"), all of which are Netherlands companies, to acquire all of the outstanding shares of Qelp B.V. and its wholly owned subsidiary (together, known as "Qelp"). The strategic acquisition of Qelp (the "Qelp acquisition") was to further broaden and strengthen the Company's service portfolio around digital self-service customer support and extend its reach into adjacent, but complementary, markets. Pursuant to Federal income tax regulations, no amount of intangibles or goodwill from this acquisition will be deductible for tax purposes. The results of Qelp's operations have been included in the Company's consolidated financial statements since its acquisition on July 2, 2015 (the "Qelp acquisition date").

The consideration consisted of an initial purchase price and a contingent purchase price. The initial purchase price of \$9.8 million, including certain post-closing adjustments relating to Qelp's working capital, was funded through cash on hand upon the closing of the transaction on July 2, 2015. The contingent purchase price to be paid over a three year period is based on achieving targets tied to revenues and earnings before interest, income taxes, depreciation and amortization (EBITDA) for the years ended December 31, 2016, 2017 and 2018, not to exceed EUR 10.0 million.

Table of Contents

As of the Qelp acquisition date, the total consideration paid or to be paid by the Company for the Qelp acquisition is summarized below (in thousands):

	Total
Cash	\$ 9,885
Contingent consideration	6,000
Working capital adjustment	(65)
	\$ 15,820

The fair value of the contingent consideration was estimated using the discounted cash flow method, and was included in Other long-term liabilities in the accompanying Condensed Consolidated Balance Sheets (see Note 4, Fair Value, for further information). As part of the discounted cash flow method, the Company calculated an adjusted weighted average cost of capital (WACC) specifically attributable to the future payments of the contingent consideration. Based on the forecasted revenue and profitability scenarios and their respective probabilities of occurrence, the Company estimated the present value of the probability-adjusted future payments utilizing an adjusted WACC for the potential future payments. The Company believes that its estimates and assumptions are reasonable, but there is significant judgment involved. Changes in the fair value of the contingent consideration liabilities subsequent to the acquisition will be recorded in the Company's consolidated financial statements.

The Company accounted for the Qelp acquisition in accordance with ASC 805, whereby the fair value of the purchase price was allocated to the tangible and identifiable intangible assets acquired and liabilities assumed from Qelp based on their estimated fair values as of the closing date. The Company completed its analysis of the purchase price allocation during the fourth quarter of 2015.

The following table summarizes the Qelp acquisition date fair values of the assets acquired and liabilities assumed, all included in the EMEA segment (in thousands):

	July 2, 2015

Note 3. Costs Associated with Exit or Disposal Activities

In connection with the Company's initiatives to streamline excess capacity in The Philippines and various locations in the U.S. (the Exit Plans), the Company has paid \$7.8 million in cash through June 30, 2016.

The cumulative costs expected and incurred as a result of the Exit Plans were as follows as of June 30, 2016 (in thousands):

	Americas Fourth Quarter 2011 Exit Plan	Americas Third Quarter 2010 Exit Plan	Total
Lease obligations and facility exit costs	\$ 1,365	\$ 6,729	\$ 8,094

(2) Included in "Other long-term liabilities" in the accompanying Condensed Consolidated Balance Sheets.

The remaining restructuring liability relates to future rent obligations to be paid through the remainder of the lease terms, the last of which ends in February 2017.

Note 4. Fair Value

ASC 820 *Fair Value Measurements and Disclosures* (ASC 820) requires disclosure about how fair value is determined for assets and liabilities and establishes a hierarchy for which these assets and liabilities must be grouped, based on significant levels of observable or unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's market assumptions. This hierarchy requires the use of observable market data when available. These two types of inputs have created the following fair value hierarchy:

Level 1 Quoted prices for identical instruments in active markets.

Level 2 Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets.

Level 3 Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

Fair Value of Financial Instruments The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate that value:

Cash, short-term and other investments, investments held in rabbi trust and accounts payable The carrying values for cash, short-term and other investments, investments held in rabbi trust and accounts payable approximate their fair values.

Foreign currency forward contracts and options Foreign currency forward contracts and options, including premiums paid on options, are recognized at fair value based on quoted market prices of comparable instruments or, if none are available, on pricing models or formulas using current market and model assumptions, including adjustments for credit risk.

Embedded derivatives Embedded derivatives within certain hybrid lease agreements are bifurcated from the host contract and recognized at fair value based on pricing models or formulas using significant unobservable inputs, including adjustments for credit risk.

Long-term debt The carrying value of long-term debt approximates its estimated fair value as it re-prices at varying interest rates.

Contingent consideration The contingent consideration is recognized at fair value based on the discounted cash flow method.

Table of Contents

Fair Value Measurements ASC 820 defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles and expands disclosures about fair value measurements. ASC 820-10-20 clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants.

ASC 825 *Financial Instruments* (ASC 825) permits an entity to measure certain financial assets and financial liabilities at fair value with changes in fair value recognized in earnings each period. The Company has not elected to use the fair value option permitted under ASC 825 for any of its financial assets and financial liabilities that are not already recorded at fair value.

Determination of Fair Value The Company generally uses quoted market prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access to determine fair value, and classifies such items in Level 1. Fair values determined by Level 2 inputs utilize inputs other than quoted market prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted market prices in active markets for similar assets or liabilities, and inputs other than quoted market prices that are observable for the asset or liability. Level 3 inputs are unobservable inputs for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability.

If quoted market prices are not available, fair value is based upon internally developed valuation techniques that use, where possible, current market-based or independently sourced market parameters, such as interest rates, currency rates, etc. Assets or liabilities valued using such internally generated valuation techniques are classified according to the lowest level input or value driver that is significant to the valuation. Thus, an item may be classified in Level 3 even though there may be some significant inputs that are readily observable.

The following section describes the valuation methodologies used by the Company to measure assets and liabilities at fair value on a recurring basis, including an indication of the level in the fair value hierarchy in which each asset or liability is generally classified.

Money Market and Open-End Mutual Funds The Company uses quoted market prices in active markets to determine the fair value. These items are classified in Level 1 of the fair value hierarchy.

Foreign Currency Forward Contracts and Options The Company enters into foreign currency forward contracts and options over the counter and values such contracts using quoted market prices of comparable instruments or, if none are available, on pricing models or formulas using current market and model assumptions, including adjustments for credit risk. The key inputs include forward or option foreign currency exchange rates and interest rates. These items are classified in Level 2 of the fair value hierarchy.

Embedded Derivatives The Company uses significant unobservable inputs to determine the fair value of embedded derivatives, which are classified in Level 3 of the fair value hierarchy. These unobservable inputs include expected cash flows associated with the lease, currency exchange rates on the day of commencement, as well as forward currency exchange rates; results of which are adjusted for credit risk. These items are classified in Level 3 of the fair value hierarchy. See Note 6, Financial Derivatives, for further information.

Investments Held in Rabbi Trust The investment assets of the rabbi trust are valued using quoted market prices in active markets, which are classified in Level 1 of the fair value hierarchy. For additional information about the deferred compensation plan, refer to Note 7, Investments Held in Rabbi Trust, and Note 16, Stock-Based Compensation.

Guaranteed Investment Certificates Guaranteed investment certificates, with variable interest rates linked to the prime rate, approximate fair value due to the automatic ability to re-price with changes in the market; such items are classified in Level 2 of the fair value hierarchy.

Table of Contents

Contingent Consideration The Company uses significant unobservable inputs to determine the fair value of contingent consideration, which is classified in Level 3 of the fair value hierarchy. The contingent consideration recorded related to the Qelp acquisition and liabilities assumed as part of the Clearlink acquisition was recognized at fair value using a discounted cash flow methodology and a discount rate of approximately 14.0% and 10.0%, respectively. The discount rates vary dependent on the specific risks of each acquisition including the country of operation, the nature of services and complexity of the acquired business, and other similar factors, all of which are significant inputs not observable in the market. Significant increases or decreases in any of the inputs in isolation would result in a significantly higher or lower fair value measurement.

The Company's assets and liabilities measured at fair value on a recurring basis subject to the requirements of ASC 820 consist of the following (in thousands):

- (1) Related to the Qelp acquisition on July 2, 2015. See Note 2, Acquisitions.
- (2) Liability acquired as part of the Clearlink acquisition on April 1, 2016. See Note 2, Acquisitions.

The Company did not record any fair value adjustments to the contingent consideration as the key assumptions used to calculate the fair value at the acquisition dates remained consistent at June 30, 2016. Should the assumptions regarding probability of achievement of certain targets, including revenue and EBITDA, change in future periods, the change in fair value of the contingent consideration will be recognized in the Company's consolidated financial statements. The Company accretes interest expense each period using the effective interest method until the contingent consideration reaches the estimated future value of \$12.1 million. Interest expense related to the contingent consideration is included in Interest (expense) in the accompanying Condensed Consolidated Statements of Operations.

Non-Recurring Fair Value

Certain assets, under certain conditions, are measured at fair value on a nonrecurring basis utilizing Level 3 inputs, like those associated with acquired businesses, including goodwill, other intangible assets and other long-lived assets. For these assets, measurement at fair value in periods subsequent to their initial recognition would be applicable if these assets were determined to be impaired. The adjusted carrying values for assets measured at fair value on a nonrecurring basis (no liabilities) subject to the requirements of ASC 820 were not material at June 30, 2016 and December 31, 2015.

The Company performs its annual goodwill impairment test during the third quarter, or more frequently, if indicators of impairment exist.

For the annual goodwill impairment test, the Company elected to forgo the option to first assess qualitative factors and performed its annual two-step goodwill impairment test as of July 31, 2015. Under ASC 350, the carrying value of assets is calculated at the reporting unit level. The quantitative assessment of goodwill includes comparing a reporting unit's calculated fair value to its carrying value. The calculation of fair value requires significant judgments including estimation of future cash flows, which is dependent on internal forecasts, estimation of the long-term rate of growth, the useful life over which cash flows will occur and determination of the Company's weighted average cost of capital. Changes in these estimates and assumptions could materially affect the determination of fair value and/or conclusions on goodwill impairment for each reporting unit. If the fair value of the reporting unit is less than its carrying value, goodwill is considered impaired and an impairment loss is recorded to the extent that the fair value of the goodwill within the reporting unit is less than its carrying value.

The process of evaluating the fair value of the reporting units is highly subjective and requires significant judgment and estimates as the reporting units operate in a number of markets and geographical regions. The Company used an average of the income and market approaches to determine its best estimates of fair value which incorporated the following significant assumptions:

Revenue projections, including revenue growth during the forecast periods;

EBITDA margin projections over the forecast periods;

Estimated income tax rates;

Estimated capital expenditures; and

Discount rates based on various inputs, including the risks associated with the specific reporting units as well as their revenue growth and EBITDA margin assumptions.

As of July 31, 2015, the Company concluded that goodwill was not impaired for all five of its reporting units with goodwill. While the fair values of four of the reporting units were substantially in excess of their carrying value, the Qelp reporting unit's fair value approximated its carrying value due to the proximity to the acquisition date of July 2, 2015. The newly acquired Qelp reporting unit's carrying value was \$15.6 million at July 31, 2015, including \$9.9 million of goodwill.

The Qelp reporting unit is at risk for future impairment if projected operating results are not met or other inputs into the fair value measurement change. However, as of June 30, 2016 and December 31, 2015, there were no indicators of impairment.

Table of Contents**Note 6. Financial Derivatives**

Cash Flow Hedges The Company has derivative assets and liabilities relating to outstanding forward contracts and options, designated as cash flow hedges, as defined under ASC 815 *Derivatives and Hedging* (ASC 815), consisting of Philippine Peso, Costa Rican Colon, Hungarian Forint and Romanian Leu contracts. These contracts are entered into to protect against the risk that the eventual cash flows resulting from such transactions will be adversely affected by changes in exchange rates.

The deferred gains (losses) and related taxes on the Company's cash flow hedges recorded in Accumulated other comprehensive income (loss) (AOCI) in the accompanying Condensed Consolidated Balance Sheets are as follows (in thousands):

	June 30, 2016	December 31, 2015
Deferred gains (losses) in AOCI	\$ (75)	\$ (558)
Tax on deferred gains (losses) in AOCI	(18)	31
Deferred gains (losses) in AOCI, net of taxes	\$ (93)	\$ (527)

Deferred gains (losses) expected to be reclassified to

Revenues from AOCI during the next twelve months	\$ (39)
--	---------

Deferred gains (losses) and other future reclassifications from AOCI will fluctuate with movements in the underlying market price of the forward contracts and options.

Net Investment Hedge The Company enters into foreign exchange forward contracts to hedge its net investment in certain foreign operations, as defined under ASC 815. The purpose of these derivative instruments is to protect the Company's interests against the risk that the net assets of certain foreign subsidiaries will be adversely affected by changes in exchange rates and economic exposures related to the Company's foreign currency-based investments in these subsidiaries.

Non-Designated Hedges

Foreign Currency Forward Contracts The Company also periodically enters into foreign currency hedge contracts that are not designated as hedges as defined under ASC 815. The purpose of these derivative instruments is to protect the Company's interests against adverse foreign currency moves relating primarily to intercompany receivables and payables, and other assets and liabilities that are denominated in currencies other than the Company's subsidiaries functional currencies. These contracts generally do not exceed 180 days in duration.

Embedded Derivatives The Company enters into certain lease agreements which require payments not denominated in the functional currency of any substantial party to the agreements. The foreign currency component of these contracts meets the criteria under ASC 815 as embedded derivatives. The Company has determined that the embedded derivatives are not clearly and closely related to the economic characteristics and risks of the host contracts (lease agreements), and separate, stand-alone instruments with the same terms as the embedded derivative instruments would otherwise qualify as derivative instruments, thereby requiring separation from the lease agreements and recognition at fair value. Such instruments do not qualify for hedge accounting under ASC 815.

Master netting agreements exist with each respective counterparty to reduce credit risk by permitting net settlement of derivative positions. In the event of default by the Company or one of its counterparties, these agreements include a set-off clause that provides the non-defaulting party the right to net settle all derivative transactions, regardless of the currency and settlement date. The maximum amount of loss due to credit risk that, based on gross fair value, the Company would incur if parties to the derivative transactions that make up the concentration failed to perform according to the terms of the contracts was \$1.5 million and \$11.0 million as of June 30, 2016 and December 31, 2015, respectively. After consideration of these netting arrangements and offsetting positions by counterparty, the total net settlement amount as it relates to these positions are asset positions of \$0.6 million and \$10.2 million as of June 30, 2016 and December 31, 2015, respectively, and liability positions of \$1.4 million and \$0.1 million as of June 30, 2016 and December 31, 2015, respectively.

Although legally enforceable master netting arrangements exist between the Company and each counterparty, the Company has elected to present the derivative assets and derivative liabilities on a gross basis in the accompanying Condensed Consolidated Balance Sheets. Additionally, the Company is not required to pledge, nor is it entitled to receive, cash collateral related to these derivative transactions.

Deferred revenue consists of the following (in thousands):

	June 30, 2016	December 31, 2015
Future service	\$ 24,847	\$ 22,112
Estimated potential penalties and holdbacks	8,452	6,007
Estimated chargebacks	4,382	-
	\$ 37,681	\$ 28,119

The Company receives up-front fees in connection with certain contracts. The deferred revenue is earned over the service periods of the respective contracts, which range from 30 days to seven years. Deferred revenue included in current liabilities in the accompanying Condensed Consolidated Balance Sheets includes the up-front fees associated

with services to be provided over the ensuing twelve month period and the up-front fees associated with services to be provided over multiple years in connection with contracts that contain cancellation and refund provisions, whereby the manufacturers or customers can terminate the contracts and demand pro-rata refunds of the up-front fees with short notice. Deferred revenue from estimated penalties and holdbacks results from the failure to meet specified minimum service levels in certain contracts and other performance based contingencies. Deferred revenue from estimated chargebacks reflects the right of certain of the Company's clients to chargeback accounts that do not meet certain requirements for specified periods after a sale has occurred.

Note 10. Borrowings

On May 12, 2015, the Company entered into a \$440 million revolving credit facility (the 2015 Credit Agreement) with a group of lenders and KeyBank National Association, as Lead Arranger, Sole Book Runner, Administrative Agent, Swing Line Lender and Issuing Lender (KeyBank). The 2015 Credit Agreement is subject to certain borrowing limitations and includes certain customary financial and restrictive covenants.

The 2015 Credit Agreement includes a \$200 million alternate-currency sub-facility, a \$10 million swingline sub-facility and a \$35 million letter of credit sub-facility, and may be used for general corporate purposes including acquisitions, share repurchases, working capital support and letters of credit, subject to certain limitations. The Company is not currently aware of any inability of its lenders to provide access to the full commitment of funds that exist under the revolving credit facility, if necessary. However, there can be no assurance that such facility will be available to the Company, even though it is a binding commitment of the financial institutions.

Borrowings consist of the following (in thousands):

	June 30, 2016	December 31, 2015
Revolving credit facility	\$ 272,000	\$ 70,000
Less: Current portion	-	-
Total long-term debt	\$ 272,000	\$ 70,000

On April 1, 2016, the Company borrowed \$216.0 million under its 2015 Credit Agreement in connection with the acquisition of Clearlink, of which \$4.0 million represented a short-term loan to Clearlink for working capital purposes.

The 2015 Credit Agreement matures on May 12, 2020 and has no varying installments due.

Borrowings under the 2015 Credit Agreement bear interest at the rates set forth in the 2015 Credit Agreement. In addition, the Company is required to pay certain customary fees, including a commitment fee determined quarterly based on the Company's leverage ratio and due quarterly in arrears as calculated on the average unused amount of the 2015 Credit Agreement. The commitment fee was 0.125% for the three and six months ended June 30, 2016 and 2015.

The 2015 Credit Agreement is guaranteed by all of the Company's existing and future direct and indirect material U.S. subsidiaries and secured by a pledge of 100% of the non-voting and 65% of the voting capital stock of all the direct foreign subsidiaries of the Company and those of the guarantors.

Table of Contents

In May 2015, the Company paid an underwriting fee of \$0.9 million for the 2015 Credit Agreement, which is deferred and amortized over the term of the loan, along with the deferred loan fees of \$0.4 million related to the previous credit agreement.

The following table presents information related to our credit agreements (dollars in thousands):

Except as discussed in Note 12, Income Taxes, earnings associated with the Company's investments in its foreign subsidiaries are considered to be indefinitely reinvested and no provision for income taxes on those earnings or translation adjustments have been provided.

Note 12. Income Taxes

The Company's effective tax rate was 29.9% and 26.6% for the three months ended June 30, 2016 and 2015, respectively. The increase in the effective tax rate is predominately due to several factors, including shifts in earnings among the various jurisdictions in which the Company operates, none of which are individually material. The difference between the Company's effective tax rate of 29.9% as compared to the U.S. statutory federal income tax rate

of 35.0% was primarily due to the recognition of tax benefits resulting from foreign tax rate differentials, income earned in certain tax holiday jurisdictions, changes in uncertain tax positions, adjustments of valuation allowances and tax credits, partially offset by the tax impact of permanent differences and foreign withholding taxes.

The Company's effective tax rate was 30.4% and 26.8% for the six months ended June 30, 2016 and 2015, respectively. The increase in the effective tax rate is predominately due to several factors, including shifts in earnings among the various jurisdictions in which the Company operates, none of which are individually material. The difference between the Company's effective tax rate of 30.4% as compared to the U.S. statutory federal income tax rate of 35.0% was primarily due to the recognition of tax benefits resulting from foreign tax rate differentials, income earned in certain tax holiday jurisdictions, changes in uncertain tax positions, adjustments of valuation allowances and tax credits, partially offset by the tax impact of permanent differences and foreign withholding taxes.

Earnings associated with the investments in the Company's foreign subsidiaries are considered to be indefinitely reinvested outside of the U.S. Therefore, a U.S. provision for income taxes on those earnings or translation adjustments has not been recorded, as permitted by criterion outlined in ASC 740 *Income Taxes*. Determination of any unrecognized deferred tax liability related to investments in foreign subsidiaries is not practicable due to the inherent complexity of the multi-national tax environment in which the Company operates.

The Company is currently under audit in several tax jurisdictions. The Company received assessments for the Canadian 2003-2009 audit. Requests for Competent Authority Assistance were filed with both the Canadian Revenue Agency and the U.S. Internal Revenue Service and the Company paid mandatory security deposits to Canada as part of this process. The total amount of deposits, net of the effects of foreign exchange rate adjustments,

are \$14.3 million and \$13.4 million as of June 30, 2016 and December 31, 2015, respectively, and are included in Deferred charges and other assets in the accompanying Condensed Consolidated Balance Sheets. Although the outcome of examinations by taxing authorities is always uncertain, the Company believes it is adequately reserved for these audits and resolution is not expected to have a material impact on its financial condition and results of operations.

The significant tax jurisdictions currently under audit are as follows:

Tax Jurisdiction	Tax Years Ended
Canada	2003 to 2009

Note 13. Earnings Per Share

Basic earnings per share are based on the weighted average number of common shares outstanding during the periods. Diluted earnings per share includes the weighted average number of common shares outstanding during the respective periods and the further dilutive effect, if any, from stock appreciation rights, restricted stock, restricted stock units and shares held in rabbi trust using the treasury stock method.

The numbers of shares used in the earnings per share computation are as follows (in thousands):

On August 18, 2011, the Company's Board of Directors (the Board) authorized the Company to purchase up to 5.0 million shares of its outstanding common stock (the 2011 Share Repurchase Program). On March 16, 2016, the Board authorized an increase of 5.0 million shares to the 2011 Share Repurchase Program for a total of 10.0 million shares. A total of 4.9 million shares have been repurchased under the 2011 Share Repurchase Program since inception. The shares are purchased, from time to time, through open market purchases or in negotiated private transactions, and the purchases are based on factors, including but not limited to, the stock price, management discretion and general market conditions. The 2011 Share Repurchase Program has no expiration date.

The shares repurchased under the Company's share repurchase programs were as follows (in thousands, except per share amounts) (none in 2016):

The July 2015 Qelp acquisition included contingent consideration of \$6.0 million, based on achieving targets tied to revenues and EBITDA for the years ended December 31, 2016, 2017 and 2018. The estimated future value of the contingent consideration is \$9.1 million and is expected to be paid over a three year period.

As part of the April 2016 Clearlink acquisition, the Company assumed contingent consideration liabilities related to four separate acquisitions made by Clearlink in 2015 and 2016, prior to the Merger. The fair value of the contingent consideration related to these previous acquisitions was \$2.8 million as of April 1, 2016 and was based on achieving targets primarily tied to revenues for varying periods of time during 2016 and 2017. The estimated future value of the contingent consideration is \$3.0 million and is expected to be paid on varying dates through July 2017.

2011 Equity Incentive Plan The Company's Board adopted the Sykes Enterprises, Incorporated 2011 Equity Incentive Plan (the "2011 Plan") on March 23, 2011, as amended on May 11, 2011 to reduce the number of shares of common stock available to 4.0 million shares. The 2011 Plan was approved by the shareholders at the May 2011 annual shareholders meeting. The 2011 Plan replaced and superseded the Company's 2001 Equity Incentive Plan (the "2001 Plan"), which expired on March 14, 2011. The outstanding awards granted under the 2001 Plan will remain in effect until their exercise, expiration or termination. The 2011 Plan permits the grant of restricted stock, stock appreciation rights, stock options and other stock-based awards to certain employees of the Company, members of the Company's Board of Directors and certain non-employees who provide services to the Company in order to encourage them to remain in the employment of, or to faithfully provide services to, the Company and to increase their interest in the Company's success.

Stock Appreciation Rights The Board, at the recommendation of the Compensation and Human Resources Development Committee (the "Compensation Committee"), has approved in the past, and may approve in the future, awards of stock-settled stock appreciation rights ("SARs") for eligible participants. SARs represent the right to receive, without payment to the Company, a certain number of shares of common stock, as determined by the Compensation Committee, equal to the amount by which the fair market value of a share of common stock at the time of exercise exceeds the grant price. The SARs are granted at the fair market value of the Company's common stock on the date of the grant and vest one-third on each of the first three anniversaries of the date of grant, provided the participant is employed by the Company on such date. The SARs have a term of 10 years from the date of grant. The fair value of each SAR is estimated on the date of grant using the Black-Scholes valuation model that uses various assumptions.

The following table summarizes the assumptions used to estimate the fair value of SARs granted:

	Six Months Ended June 30,	
	2016	2015
Expected volatility	25.3%	34.1%
Weighted-average volatility	25.3%	34.1%

Forfeited or expired	(19)	\$	7.68
Nonvested at June 30, 2016	515	\$	7.76

As of June 30, 2016, there was \$3.5 million of total unrecognized compensation cost, net of estimated forfeitures, related to nonvested SARs granted under the 2011 Plan. This cost is expected to be recognized over a weighted average period of 1.5 years.

Restricted Shares The Board, at the recommendation of the Compensation Committee, has approved in the past, and may approve in the future, awards of performance and employment-based restricted shares (restricted shares) for eligible participants. In some instances, where the issuance of restricted shares has adverse tax consequences to the recipient, the Board may instead issue restricted stock units (RSUs). The restricted shares are shares of the Company s common stock (or in the case of RSUs, represent an equivalent number of shares of the Company s common stock) which are issued to the participant subject to (a) restrictions on transfer for a period of time and (b) forfeiture under certain conditions. The performance goals, including revenue growth and income from operations targets, provide a range of vesting possibilities from 0% to 100% and will be measured at the end of the performance period. If the performance conditions are met for the performance period, the shares will vest and all restrictions on the transfer of the restricted shares will lapse (or in the case of RSUs, an equivalent number of shares of the Company s common stock will be issued to the recipient). The Company recognizes compensation cost, net of estimated forfeitures, based on the fair value (which approximates the current market price) of the restricted shares (and RSUs) on the date of grant ratably over the requisite service period based on the probability of achieving the performance goals.

Changes in the probability of achieving the performance goals from period to period will result in corresponding changes in compensation expense. The employment-based restricted shares currently outstanding vest one-third on each of the first three anniversaries of the date of grant, provided the participant is employed by the Company on such date.

As of June 30, 2016, based on the probability of achieving the performance goals, there was \$21.2 million of total unrecognized compensation cost, net of estimated forfeitures, related to nonvested restricted shares/RSUs granted under the 2011 Plan. This cost is expected to be recognized over a weighted average period of 2.1 years.

Non-Employee Director Fee Plan The Company's 2004 Non-Employee Director Fee Plan (the "2004 Fee Plan"), as amended on May 17, 2012, provided that all new non-employee directors joining the Board would receive an initial grant of shares of common stock on the date the new director is elected or appointed, the number of which will be determined by dividing \$60,000 by the closing price of the Company's common stock on the trading day immediately preceding the date a new director is elected or appointed, rounded to the nearest whole number of shares. The initial grant of shares vested in twelve equal quarterly installments, one-twelfth on the date of grant and an additional one-twelfth on each successive third monthly anniversary of the date of grant. The award lapses with respect to all unvested shares in the event the non-employee director ceases to be a director of the Company, and any unvested shares are forfeited.

The 2004 Fee Plan also provided that each non-employee director would receive, on the day after the annual shareholders meeting, an annual retainer for service as a non-employee director (the "Annual Retainer"). Prior to May 17, 2012, the Annual Retainer was \$95,000, of which \$50,000 was payable in cash, and the remainder was paid in stock. The annual grant of cash vested in four equal quarterly installments, one-fourth on the day following the annual meeting of shareholders, and an additional one-fourth on each successive third monthly anniversary of the date of

grant. The annual grant of shares paid to non-employee directors prior to May 17, 2012 vests in eight equal quarterly installments, one-eighth on the day following the annual meeting of shareholders, and an additional one-eighth on each successive third monthly anniversary of the date of grant. On May 17, 2012, upon the recommendation of the Compensation Committee, the Board adopted the Fifth Amended and Restated Non-Employee Director Fee Plan (the Amendment), which increased the common stock component of the Annual Retainer by \$30,000, resulting in a total Annual Retainer of \$125,000, of which \$50,000 was payable in cash and the remainder paid in stock. In addition, the Amendment also changed the vesting period for the annual equity award, from a two-year vesting period, to a one-year vesting period (consisting of four equal quarterly installments, one-fourth on the date of grant and an additional one-fourth on each successive third monthly anniversary of the date of grant). The award lapses with respect to all unpaid cash and unvested shares in the event the non-employee director ceases to be a director of the Company, and any unvested shares and unpaid cash are forfeited.

In addition to the Annual Retainer award, the 2004 Fee Plan also provided for any non-employee Chairman of the Board to receive an additional annual cash award of \$100,000, and each non-employee director serving on a committee of the Board to receive an additional annual cash award. The additional annual cash award for the Chairperson of the Audit Committee is \$20,000 and Audit Committee members are entitled to an annual cash award of \$10,000. The annual cash awards for the Chairpersons of the Compensation Committee, Finance Committee and Nominating and Corporate Governance Committee are \$15,000, \$12,500 and \$12,500, respectively, and all other members of such committees are entitled to an annual cash award of \$7,500.

Table of Contents

The 2004 Fee Plan expired in May 2014, prior to the 2014 Annual Shareholder Meeting. In March 2014, upon the recommendation of the Compensation Committee, the Board determined that, following the expiration of the 2004 Fee Plan, the compensation of non-employee Directors should continue on the same terms as provided in the Fifth Amended and Restated Non-Employee Director Fee Plan, except the amounts of cash and equity grants shall be determined annually by the Board, and that the stock portion of such compensation would be issued under the 2011 Plan.

At the Board's regularly scheduled meeting on December 10, 2014, upon the recommendation of the Compensation Committee, the Board determined that the amount of the cash and equity compensation payable to non-employee directors beginning on the date of the 2015 annual shareholder meeting would be increased as follows: cash compensation would be increased by \$5,000 per year to a total of \$55,000 and equity compensation would be increased by \$25,000 per year to a total of \$100,000. No change would be made in the additional amounts payable to the Chairman of the Board or the Chairs or members of the various Board committees for their service on such committees, and no changes would be made in the payment terms described above for such cash and equity compensation.

The Board may pay additional cash compensation to any non-employee director for services on behalf of the Board over and above those typically expected of directors, including but not limited to service on a special committee of the Board.

As of June 30, 2016, there was \$0.6 million of total unrecognized compensation cost, net of estimated forfeitures, related to nonvested common stock share awards granted under the Fee Plan. This cost is expected to be recognized

over a weighted average period of 0.6 years.

Deferred Compensation Plan The Company's non-qualified Deferred Compensation Plan (the "Deferred Compensation Plan"), which is not shareholder-approved, was adopted by the Board effective December 17, 1998. It was last amended and restated on May 18, 2016, effective as of June 30, 2016. It provides certain eligible employees the ability to defer any portion of their compensation until the participant's retirement, termination, disability or death, or a change in control of the Company. Using the Company's common stock, the Company matches 50% of the amounts deferred by certain senior management participants on a quarterly basis up to a total of \$12,000 per year for the president, chief executive officer and executive vice presidents and \$7,500 per year for senior vice presidents, global vice presidents and vice presidents (participants below the level of vice president are not eligible to receive matching contributions from the Company). Matching contributions and the associated

earnings vest over a seven year service period. Deferred compensation amounts used to pay benefits, which are held in a rabbi trust, include investments in various mutual funds and shares of the Company's common stock (see Note 7, Investments Held in Rabbi Trust). As of June 30, 2016 and December 31, 2015, liabilities of \$8.5 million and \$7.9 million, respectively, of the Deferred Compensation Plan were recorded in Accrued employee compensation and benefits in the accompanying Condensed Consolidated Balance Sheets.

Additionally, the Company's common stock match associated with the Deferred Compensation Plan, with a carrying value of approximately \$1.8 million and \$1.6 million at June 30, 2016 and December 31, 2015, respectively, is included in Treasury stock in the accompanying Condensed Consolidated Balance Sheets.

The following table summarizes nonvested common stock activity as of June 30, 2016 and for the six months then ended:

As of June 30, 2016, there was less than \$0.1 million of total unrecognized compensation cost, net of estimated forfeitures, related to nonvested common stock granted under the Deferred Compensation Plan. This cost is expected to be recognized over a weighted average period of 2.7 years.

Note 17. Segments and Geographic Information

The Company operates within two regions, the Americas and EMEA. Each region represents a reportable segment comprised of aggregated regional operating segments, which portray similar economic characteristics. The Company aligns its business into two segments to effectively manage the business and support the customer care needs of every client and to respond to the demands of the Company's global customers.

The reportable segments consist of (1) the Americas, which includes the United States, Canada, Latin America, Australia and the Asia Pacific Rim, and provides outsourced customer contact management solutions (with an emphasis on technical support and customer service) and technical staffing and (2) EMEA, which includes Europe, the Middle East and Africa, and provides outsourced customer contact management solutions (with an emphasis on technical support and customer service), and fulfillment services. The sites within Latin America, Australia and the Asia Pacific Rim are included in the Americas segment given the nature of the business and client profile, which is primarily made up of U.S.-based companies that are using the Company's services in these locations to support their customer contact management needs.

In January 2008, the Company entered into a lease for a customer contact management center located in Kingstree, South Carolina. The landlord, Kingstree Office One, LLC, is an entity controlled by John H. Sykes, the founder, former Chairman and Chief Executive Officer of the Company and the father of Charles Sykes, President and Chief Executive Officer of the Company. The lease payments on the 20-year lease were negotiated at or below market rates, and the lease is cancellable at the option of the Company. There are significant penalties for early cancellation which decrease over time. The Company paid \$0.1 million to the landlord during both the three months ended June 30, 2016 and 2015 and \$0.2 million during both the six months ended June 30, 2016 and 2015 under the terms of the lease.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of

Sykes Enterprises, Incorporated

400 North Ashley Drive

Tampa, Florida

We have reviewed the accompanying condensed consolidated balance sheet of Sykes Enterprises, Incorporated and subsidiaries (the Company) as of June 30, 2016, and the related condensed consolidated statements of operations and comprehensive income (loss) for the three- and six-month periods ended June 30, 2016 and 2015, of changes in shareholders' equity for the six-month period ended June 30, 2016, and of cash flows for the six-month periods ended June 30, 2016 and 2015. These interim financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to such condensed consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of Sykes Enterprises, Incorporated and subsidiaries as of December 31, 2015, and the related consolidated statements of operations, comprehensive income (loss), changes in shareholders' equity, and cash flows for the year then ended (not presented herein); and in our report dated February 29, 2016, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2015 is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

This discussion should be read in conjunction with the condensed consolidated financial statements and notes included elsewhere in this report and the consolidated financial statements and notes in the Sykes Enterprises, Incorporated (SYKES, our, we or us) Annual Report on Form 10-K for the year ended December 31, 2015, as filed with the Securities and Exchange Commission (SEC).

Our discussion and analysis may contain forward-looking statements (within the meaning of the Private Securities Litigation Reform Act of 1995) that are based on current expectations, estimates, forecasts, and projections about SYKES, our beliefs, and assumptions made by us. In addition, we may make other written or oral statements, which constitute forward-looking statements, from time to time. Words such as believe, estimate, project, expect, intend, may, anticipate, plan, seek, variations of such words, and similar expressions are intended to identify such forward-looking statements. Similarly, statements that describe our future plans, objectives, or goals also are forward-looking statements. These statements are not guarantees of future performance and are subject to a number of risks and uncertainties, including those discussed below and elsewhere in this report. Our actual results may differ materially from what is expressed or forecasted in such forward-looking statements, and undue reliance should not be placed on such statements. All forward-looking statements are made as of the date hereof, and we undertake no obligation to update any such forward-looking statements, whether as a result of new information, future events or otherwise.

Factors that could cause actual results to differ materially from what is expressed or forecasted in such forward-looking statements include, but are not limited to: (i) the impact of economic recessions in the U.S. and other parts of the world, (ii) fluctuations in global business conditions and the global economy, (iii) currency fluctuations, (iv) the timing of significant orders for our products and services, (v) variations in the terms and the elements of services offered under our standardized contract including those for future bundled service offerings, (vi) changes in applicable accounting principles or interpretations of such principles, (vii) difficulties or delays in implementing our bundled service offerings, (viii) failure to achieve sales, marketing and other objectives, (ix) construction delays of new or expansion of existing customer contact management centers, (x) delays in our ability to develop new products and services and market acceptance of new products and services, (xi) rapid technological change, (xii) loss or addition of significant clients, (xiii) political and country-specific risks inherent in conducting business abroad, (xiv) our ability to attract and retain key management personnel, (xv) our ability to continue the growth of our support service revenues through additional technical and customer contact management centers, (xvi) our ability to further penetrate into vertically integrated markets, (xvii) our ability to expand our global presence through strategic alliances and selective acquisitions, (xviii) our ability to continue to establish a competitive advantage through sophisticated technological capabilities, (xix) the ultimate outcome of any lawsuits, (xx) our ability to recognize deferred revenue through delivery of products or satisfactory performance of services, (xxi) our dependence on trend toward outsourcing, (xxii) risk of interruption of technical and customer contact management center operations due to such factors as fire, earthquakes, inclement weather and other disasters, power failures, telecommunication failures, unauthorized intrusions, computer viruses and other emergencies, (xxiii) the existence of substantial competition, (xxiv) the early termination of contracts by clients, (xxv) the ability to obtain and maintain grants and other incentives (tax or otherwise), (xxvi) the potential of cost savings/synergies associated with acquisitions not being realized, or not being realized within the anticipated time period, (xxvii) risks related to the integration of the acquisitions and the impairment of any related goodwill, and (xxviii) other risk factors which are identified in our most recent Annual Report on Form 10-K, including factors identified under the headings Business, Risk Factors and Management's Discussion and Analysis of Financial Condition and Results of Operations.

Executive Summary

We provide comprehensive customer contact management solutions and services to a wide range of clients including Global 2000 companies, medium-sized businesses and public institutions around the world, primarily in the communications, financial services, technology/consumer, transportation and leisure and healthcare industries. We serve our clients through two geographic operating regions: the Americas (United States, Canada, Latin America, Australia and the Asia Pacific Rim) and EMEA (Europe, the Middle East and Africa). Our Americas and EMEA groups primarily provide customer contact management services (with an emphasis on inbound technical support, demand generation and customer service), which include customer assistance, healthcare and roadside assistance, technical support, and product and service sales to our clients' customers. These services, which represented 99.2% and 97.8% of consolidated revenues during the three months ended June 30, 2016 and 2015, respectively, and 99.1% and 98.2% of consolidated revenues during the six months ended June 30, 2016 and 2015, respectively, are

delivered through multiple communication channels encompassing phone, e-mail, social media, text messaging, chat and digital self-service. We also provide various enterprise support services in the United States (U.S.) that include services for our client s internal support operations, from technical staffing services to outsourced corporate help desk services. In Europe, we also provide fulfillment services, which includes order processing, payment processing, inventory control, product delivery, and product returns handling. Our complete service offering helps our clients acquire, retain and increase the lifetime value of their customer relationships. We have developed an extensive global reach with customer contact management centers throughout the United States, Canada, Europe, Latin America, Australia, the Asia Pacific Rim and Africa.

Acquisition of Clearlink

In April 2016, we completed the acquisition of Clear Link Holdings, LLC (Clearlink), to expand our suite of service offerings while creating differentiation in the marketplace, broadening our addressable market opportunity and extending executive level reach within our existing clients organization. We refer to such acquisition herein as the Clearlink acquisition.

The total purchase price of \$207.9 million was funded by borrowings under our existing credit facility.

The results of operations of Clearlink have been reflected in the accompanying Condensed Consolidated Statements of Operations since April 1, 2016.

Acquisition of Qelp

In July 2015, we completed the acquisition of Qelp B.V. and its subsidiary (together, known as Qelp), to further broaden and strengthen our service portfolio around digital self-service customer support and extend our reach into adjacent, but complementary, markets. We refer to such acquisition herein as the Qelp acquisition.

The total purchase price of \$15.8 million was funded by \$9.8 million in cash on hand and contingent consideration with a fair value of \$6.0 million as of July 2, 2015.

The results of operations of Qelp have been reflected in the accompanying Condensed Consolidated Statements of Operations since July 2, 2015.

(in thousands)	Three Months Ended June 30, 2016		Three Months Ended June 30, 2015		\$ Change
	Amount	% of Revenues	Amount	% of Revenues	
Americas	\$ 305,211	83.8%	\$ 249,682	81.2%	\$ 55,529
EMEA	59,152	16.2%	57,752	18.8%	1,400
Other	39	0.0%	19	0.0%	20
Consolidated	\$ 364,402	100.0%	\$ 307,453	100.0%	\$ 56,949

Consolidated revenues increased \$56.9 million, or 18.5%, for the three months ended June 30, 2016 from the comparable period in 2015.

The increase in Americas revenues was due to Clearlink acquisition revenues of \$36.4 million, new clients of \$15.3 million and higher volumes from existing clients of \$15.3 million, partially offset by end-of-life client programs of \$7.6 million and a negative foreign currency impact of \$3.9 million. Revenues from our offshore operations represented 40.7% of Americas revenues, compared to 46.4% for the comparable period in 2015.

The increase in EMEA revenues was due to new clients of \$3.3 million and higher volumes from existing clients of \$0.6 million, partially offset by end-of-life client programs of \$2.5 million.

On a consolidated basis, we had 45,700 brick-and-mortar seats as of June 30, 2016, an increase of 5,500 seats from the comparable period in 2015. Included in this seat count are 1,400 seats associated with Clearlink. This increase in seats, net of the Clearlink additions, was primarily due to seat additions to support higher projected demand. The capacity utilization rate on a combined basis was 78% compared to 80% in the comparable period in 2015. This decrease was due to a significant increase in the seat count related to projected client demand.

On a geographic segment basis, 39,300 seats were located in the Americas, an increase of 5,800 seats from the comparable period in 2015, and 6,400 seats were located in EMEA, a decrease of 300 seats from the comparable period in 2015. Capacity utilization rates as of June 30, 2016 were 77% for the Americas and 79% for EMEA, compared to 79% and 86%, respectively, in the comparable period in 2015, with the decrease in utilization in the Americas primarily due to seat additions for higher projected demand and the decrease in utilization in EMEA primarily due to lower demand in certain existing clients, certain end-of-life client programs and the rationalization of seats in a highly utilized center due to a planned program expiration. We strive to attain a capacity utilization rate of 85% at each of our locations.

Excluding Clearlink, we added 2,100 seats on a gross basis in the second quarter of 2016, with the additions for the first half of 2016 totaling 4,500. Total gross seats planned for the full year, excluding Clearlink, are now expected to be around 6,900. We plan to add another 2,000 in gross seats in the third quarter of 2016. However, we plan to rationalize 1,800 seats in 2016, 1,300 of which were rationalized in the first half of 2016. Total seat count on a net basis for the full year is expected to increase 5,100 in 2016 versus 2015, which excludes the expected full year seat count of 1,500 from Clearlink.

The increase of \$21.7 million in general and administrative expenses included a positive foreign currency impact of \$1.0 million in the Americas and a positive foreign currency impact of \$0.1 million in EMEA.

The increase in Americas' general and administrative expenses, as a percentage of revenues, was primarily attributable to higher compensation costs of 1.1% driven by ramp up in the current period for new and existing client programs in the communications and financial services verticals, higher communications costs of 0.2% and higher other costs of 0.1%, partially offset by lower facility-related costs of 0.3%.

The increase in EMEA's general and administrative expenses, as a percentage of revenues, was primarily attributable to higher compensation costs of 0.8%, higher consulting costs of 0.3%, higher travel costs of 0.2% and higher recruiting costs of 0.2% and higher other costs of 0.3%, partially offset by lower facility-related costs of 0.6%.

The increase of \$6.7 million in Other general and administrative expenses, which includes corporate and other costs, was primarily attributable to higher compensation costs of \$3.1 million, higher merger and integration costs of \$2.9 million, higher software maintenance costs of \$0.1 million, higher communications costs of \$0.1 million and higher other costs of \$0.5 million.

The increase in the effective tax rate in 2016 compared to 2015 is due to several factors, including fluctuations in earnings among the various jurisdictions in which we operate, none of which are individually material.

Table of Contents**Client Concentration**

Our top ten clients accounted for approximately 49.8% and 49.0% of our consolidated revenues in the three months ended June 30, 2016 and 2015, respectively, and approximately 49.1% and 49.2% of our consolidated revenues in the six months ended June 30, 2016 and 2015, respectively.

Total revenues by segment from AT&T Corporation (AT&T), a major provider of communication services for which we provide various customer support services over several distinct lines of AT&T businesses, were as follows (in thousands):

\$ 59,710	16.4%	\$ 54,235	17.6%	\$ 110,854	16.2%	\$ 115,008	

We have multiple distinct contracts with AT&T spread across multiple lines of businesses, which expire at varying dates between 2016 and 2018. We have historically renewed most of these contracts. However, there is no assurance that these contracts will be renewed, or if renewed, will be on terms as favorable as the existing contracts. Each line of business is governed by separate business terms, conditions and metrics. Each line of business also has a separate decision maker such that a loss of one line of business would not necessarily impact our relationship with the client and decision makers on other lines of business. The loss of (or the failure to retain a significant amount of business with) any of our key clients, including AT&T, could have a material adverse effect on our performance. Many of our contracts contain penalty provisions for failure to meet minimum service levels and are cancelable by the client at any time or on short notice. Also, clients may unilaterally reduce their use of our services under our contracts without penalty.

Total revenues by segment from our next largest client, which was in the financial services vertical in each of the periods, were as follows (in thousands):

Business Outlook

For the three months ended September 30, 2016, we anticipate the following financial results:

Revenues in the range of \$385.0 million to \$393.0 million;
Effective tax rate of approximately 27.0%;
Fully diluted share count of approximately 42.2 million;
Diluted earnings per share in the range of \$0.37 to \$0.41; and
Capital expenditures in the range of \$25.0 million to \$30.0 million

For the twelve months ended December 31, 2016, we anticipate the following financial results:

Revenues in the range of \$1,467.0 million to \$1,480.0 million;
Effective tax rate of approximately 29.0%;
Fully diluted share count of approximately 42.3 million;
Diluted earnings per share in the range of \$1.39 to \$1.45; and
Capital expenditures in the range of \$75.0 million to \$80.0 million

Our third quarter and full-year 2016 business outlook, as outlined above, reflects the revenue and earnings contributions associated with the Clearlink acquisition, which closed April 1, 2016.

We are adjusting our revenue and diluted earnings per share outlook in our customer contact management business down. Although demand levels remain healthy across the financial services and communications verticals, which continue to be significant drivers of growth in 2016, the speedy pace of a planned ramp, coupled with client-driven program migration to a large new site and program changes within a site in the US have created some unforeseen short-term operational drag among a few clients. The impact to full-year revenues relative to our May 2016 outlook is expected to be approximately \$12.0 million and \$0.18 per diluted share, \$0.02 of which is related to incremental seat capacity growth due to still-healthy demand.

Our revenues and earnings per share assumptions for the third quarter and full-year 2016 are based on foreign exchange rates as of July 2016. Therefore, the continued volatility in foreign exchange rates between the U.S. Dollar and the functional currencies of the markets we serve could have a further impact, positive or negative, on revenues and earnings per share relative to the business outlook for the third quarter and full-year, as discussed above.

We anticipate total other interest income (expense), net of approximately \$(1.7) million for the third quarter and \$(4.0) million for the full year 2016. These amounts include the accretion on the Qelp and Clearlink contingent consideration, which is expected to be a total of \$(0.3) million in the third quarter of 2016 and approximately \$(1.1) million for the year. The amounts, however, exclude the potential impact of any future foreign exchange gains or losses in other income (expense).

Not included in this guidance is the impact of any future acquisitions, share repurchase activities or a potential sale of previously exited customer contact management centers.

Liquidity and Capital Resources

Our primary sources of liquidity are generally cash flows generated by operating activities and from available borrowings under our revolving credit facility. We utilize these capital resources to make capital expenditures associated primarily with our customer contact management services, invest in technology applications and tools to further develop our service offerings and for working capital and other general corporate purposes, including repurchase of our common stock in the open market and to fund acquisitions. In future periods, we intend similar uses of these funds.

On August 18, 2011, the Board authorized us to purchase up to 5.0 million shares of our outstanding common stock (the 2011 Share Repurchase Program). On March 16, 2016, the Board authorized an increase of 5.0 million

Table of Contents

shares to the 2011 Share Repurchase Program, for a total of 10.0 million. A total of 4.9 million shares have been repurchased under the 2011 Share Repurchase Program since inception. The shares are purchased, from time to time, through open market purchases or in negotiated private transactions, and the purchases are based on factors, including but not limited to, the stock price, management discretion and general market conditions. The 2011 Share Repurchase Program has no expiration date.

During the six months ended June 30, 2016, cash increased \$64.6 million from operating activities, \$216.0 million from proceeds from the issuance of long-term debt, \$10.3 million from the settlement of the net investment hedge, \$2.1 million from excess tax benefits from stock-based compensation and \$0.2 million from other increases. The increase in cash was offset by \$205.3 million paid for the Clearlink acquisition (net of cash acquired), \$34.4 million used for capital expenditures, \$14.0 million to repay long-term debt, \$4.9 million to repurchase common stock for minimum tax withholding on equity awards and a \$0.2 million investment in restricted cash, resulting in a \$37.9 million increase in available cash (including the favorable effects of foreign currency exchange rates on cash and cash equivalents of \$3.5 million).

Net cash flows provided by operating activities for the six months ended June 30, 2016 were \$64.6 million, compared to \$57.1 million for the comparable period in 2015. The \$7.5 million increase in net cash flows from operating activities was due to a net increase of \$15.5 million in cash flows from assets and liabilities, partially offset by a \$5.4 million decrease in net income and a \$2.6 million decrease in non-cash reconciling items such as depreciation, amortization, unrealized foreign currency transaction (gains) losses and deferred income taxes. The \$15.5 million increase in 2016 from 2015 in cash flows from assets and liabilities was principally a result of a \$15.3 million increase in other liabilities, a \$6.0 million increase in deferred revenue, a \$4.6 million decrease in other assets and a \$4.2 million increase in taxes payable, partially offset by a \$14.6 million increase in accounts receivable. The \$15.3 million increase in the change in other liabilities was primarily due to \$12.5 million related to the timing of accrued employee compensation and benefits in the six months ended June 30, 2016 over the comparable period in 2015. The \$14.6 million increase in the change in accounts receivable was primarily due to the timing of billings and collections in the six months ended June 30, 2016 over the comparable period in 2015.

Capital expenditures, which are generally funded by cash generated from operating activities, available cash balances and borrowings available under our credit facilities, were \$34.4 million for the six months ended June 30, 2016, compared to \$19.5 million for the comparable period in 2015, an increase of \$14.9 million. In 2016, we anticipate capital expenditures in the range of \$75.0 million to \$80.0 million, primarily for new seat additions, Enterprise Resource Planning upgrades, facility upgrades, maintenance and systems infrastructure.

On May 12, 2015, we entered into a \$440 million revolving credit facility (the 2015 Credit Agreement) with a group of lenders and KeyBank National Association, as Lead Arranger, Sole Book Runner and Administrative Agent, Swing Line Lender and Issuing Lender (KeyBank). The 2015 Credit Agreement is subject to certain borrowing limitations and includes certain customary financial and restrictive covenants. At June 30, 2016, we were in compliance with all loan requirements of the 2015 Credit Agreement and had \$272.0 million of outstanding borrowings under this facility. On April 1, 2016, we borrowed \$216.0 million under our 2015 Credit Agreement in connection with the acquisition of Clearlink. See Note 2, Acquisitions, of Notes to Condensed Consolidated Financial Statements for further information.

Our credit agreements had an average daily utilization of \$278.8 million and \$70.2 million during the three months ended June 30, 2016 and 2015, respectively, and \$174.4 million and \$72.2 million during the six months ended June 30, 2016 and 2015, respectively. During the three months ended June 30, 2016 and 2015, the related interest expense, including the commitment fee and excluding the amortization of deferred loan fees, was \$1.1 million and \$0.3 million, respectively, which represented weighted average interest rates of 1.6% and 1.8%, respectively. During the six months

ended June 30, 2016 and 2015, the related interest expense, including the commitment fee and excluding the amortization of deferred loan fees, was \$1.5 million and \$0.6 million, respectively, which represented weighted average interest rates of 1.9% and 1.8%, respectively.

The 2015 Credit Agreement includes a \$200 million alternate-currency sub-facility, a \$10 million swingline sub-facility and a \$35 million letter of credit sub-facility, and may be used for general corporate purposes including acquisitions, share repurchases, working capital support and letters of credit, subject to certain limitations. We are not currently aware of any inability of our lenders to provide access to the full commitment of funds that exist under the 2015 Credit Agreement, if necessary. However, there can be no assurance that such facility will be available to us, even though it is a binding commitment of the financial institutions. The 2015 Credit Agreement will mature on May 12, 2020.

Table of Contents

Borrowings under the 2015 Credit Agreement bear interest at the rates set forth in the 2015 Credit Agreement. In addition, we are required to pay certain customary fees, including a commitment fee determined quarterly based on our leverage ratio and due quarterly in arrears as calculated on the average unused amount of the 2015 Credit Agreement. The commitment fee was 0.125% for the three and six months ended June 30, 2016 and 2015.

The 2015 Credit Agreement is guaranteed by all of our existing and future direct and indirect material U.S. subsidiaries and secured by a pledge of 100% of the non-voting and 65% of the voting capital stock of all of our direct foreign subsidiaries and those of the guarantors.

We are currently under audit in several tax jurisdictions. We received assessments for the Canadian 2003-2009 audit. Requests for Competent Authority Assistance were filed with both the Canadian Revenue Agency and the U.S. Internal Revenue Service and we paid mandatory security deposits to Canada as part of this process. The total amount of deposits, net of the effects of foreign exchange rate adjustments, are \$14.3 million and \$13.4 million as of June 30, 2016 and December 31, 2015, respectively, and are included in Deferred charges and other assets in the accompanying Condensed Consolidated Balance Sheets. Although the outcome of examinations by taxing authorities is always uncertain, we believe we are adequately reserved for these audits and resolution is not expected to have a material impact on our financial condition and results of operations.

As part of the April 2016 Clearlink acquisition, we assumed contingent consideration liabilities related to four separate acquisitions made by Clearlink in 2015 and 2016, prior to the Merger. The fair value of the contingent consideration related to these previous acquisitions was \$2.8 million as of April 1, 2016 and was based on achieving targets primarily tied to revenues for varying periods of time during 2016 and 2017. The estimated future value of the contingent consideration is \$3.0 million and is expected to be paid on varying dates through July 2017.

In July 2015, we completed the acquisition of Qelp B.V. and its subsidiary (together, known as Qelp) pursuant to the definitive Share Sale and Purchase Agreement, dated July 2, 2015. The purchase price of \$15.8 million was funded through cash on hand of \$9.8 million and contingent consideration of \$6.0 million. The estimated future value of the contingent consideration is \$9.1 million and is expected to be paid over a three year period.

As of June 30, 2016, we had \$273.2 million in cash and cash equivalents, of which approximately 89.2%, or \$243.8 million, was held in international operations and is deemed to be indefinitely reinvested offshore. These funds may be subject to additional taxes if repatriated to the United States, including withholding tax applied by the country of origin and an incremental U.S. income tax, net of allowable foreign tax credits. There are circumstances where we may be unable to repatriate some of the cash and cash equivalents held by our international operations due to country restrictions. We do not intend nor currently foresee a need to repatriate these funds. We expect our current domestic cash levels and cash flows from operations to be adequate to meet our domestic anticipated working capital needs, including investment activities such as capital expenditures and debt repayment for the next twelve months and the foreseeable future. However, from time to time, we may borrow funds under our 2015 Credit Agreement as a result of the timing of our working capital needs, including capital expenditures. Additionally, we expect our current foreign cash levels and cash flows from foreign operations to be adequate to meet our foreign anticipated working capital needs, including investment activities such as capital expenditures for the next twelve months and the foreseeable future.

If we should require more cash in the U.S. than is provided by our domestic operations for significant discretionary unforeseen activities such as acquisitions of businesses and share repurchases, we could elect to repatriate future foreign earnings and/or raise capital in the U.S through additional borrowings or debt/equity issuances. These alternatives could result in higher effective tax rates, interest expense and/or dilution of earnings. We have borrowed funds domestically and continue to have the ability to borrow additional funds domestically at reasonable interest

rates.

Our cash resources could also be affected by various risks and uncertainties, including but not limited to, the risks described in our Annual Report on Form 10-K for the year ended December 31, 2015.

Table of Contents***Off-Balance Sheet Arrangements and Other***

As of June 30, 2016, we did not have any material commercial commitments, including guarantees or standby repurchase obligations, or any relationships with unconsolidated entities or financial partnerships, including entities often referred to as structured finance or special purpose entities or variable interest entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes.

From time to time, during the normal course of business, we may make certain indemnities, commitments and guarantees under which we may be required to make payments in relation to certain transactions. These include, but are not limited to: (i) indemnities to clients, vendors and service providers pertaining to claims based on negligence or willful misconduct and (ii) indemnities involving breach of contract, the accuracy of representations and warranties, or other liabilities assumed by us in certain contracts. In addition, we have agreements whereby we will indemnify certain officers and directors for certain events or occurrences while the officer or director is, or was, serving at our request in such capacity. The indemnification period covers all pertinent events and occurrences during the officer's or director's lifetime. The maximum potential amount of future payments we could be required to make under these indemnification agreements is unlimited; however, we have director and officer insurance coverage that limits our exposure and enables us to recover a portion of any future amounts paid. We believe the applicable insurance coverage is generally adequate to cover any estimated potential liability under these indemnification agreements. The majority of these indemnities, commitments and guarantees do not provide for any limitation of the maximum potential for future payments we could be obligated to make. We have not recorded any liability for these indemnities, commitments and other guarantees in the accompanying Condensed Consolidated Balance Sheets. In addition, we have some client contracts that do not contain contractual provisions for the limitation of liability, and other client contracts that contain agreed upon exceptions to limitation of liability. We have not recorded any liability in the accompanying Condensed Consolidated Balance Sheets with respect to any client contracts under which we have or may have unlimited liability.

Contractual Obligations

The following table summarizes the material changes to our contractual obligations as of June 30, 2016, including the amounts that were assumed upon the acquisition of Clearlink in April 2016 and the related debt incurred in connection with the acquisition, and the effect these obligations are expected to have on liquidity and cash flow in future periods (in thousands):

- (2) Amounts represent the change in expected cash payments under our purchase obligations, which include agreements to purchase goods or services that are enforceable and legally binding on us and that specify all significant terms, including: fixed or minimum quantities to be purchased; fixed, minimum or variable price provisions; and the approximate timing of the transaction. Purchase obligations exclude agreements that are cancelable without penalty. See Note 14, Commitments and Loss Contingency, to the accompanying Condensed Consolidated Financial Statements.
- (3) Amounts represent Clearlink's accounts payable and accrued employee compensation and benefits for amounts due vendors and employees payable within one year. See Note 2, Acquisitions, to the accompanying Condensed Consolidated Financial Statements.
- (4) Amounts represent Clearlink's other accrued expenses and current liabilities, and other long-term liabilities for contingent consideration, customer deposits and other liabilities, and excluding non-cash liabilities. See Note 2, Acquisitions, to the accompanying Condensed Consolidated Financial Statements.
- (5) Amounts represent the change in outstanding borrowings. See Note 2, Acquisitions, and Note 10, Borrowings, to the accompanying Condensed Consolidated Financial Statements.

Except for the contractual obligations mentioned above, there have not been any material changes to the outstanding contractual obligations from the disclosure in our Annual Report on Form 10-K as of and for the year ended December 31, 2015 filed on February 29, 2016.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Foreign Currency Risk

Our earnings and cash flows are subject to fluctuations due to changes in currency exchange rates. We are exposed to foreign currency exchange rate fluctuations when subsidiaries with functional currencies other than the U.S. Dollar (USD) are translated into our USD consolidated financial statements. As exchange rates vary, those results, when translated, may vary from expectations and adversely impact profitability. The cumulative translation effects for subsidiaries using functional currencies other than USD are included in Accumulated other comprehensive income (loss) in shareholders' equity. Movements in non-USD currency exchange rates may negatively or positively affect our competitive position, as exchange rate changes may affect business practices and/or pricing strategies of non-U.S. based competitors.

We employ a foreign currency risk management program that periodically utilizes derivative instruments to protect against unanticipated fluctuations in certain earnings and cash flows caused by volatility in foreign currency exchange (FX) rates. We also utilize derivative contracts to hedge intercompany receivables and payables that are denominated in a foreign currency and to hedge net investments in foreign operations.

We serve a number of U.S.-based clients using customer contact management center capacity in The Philippines and Costa Rica, which are within our Americas segment. Although the contracts with these clients are priced in USDs, a substantial portion of the costs incurred to render services under these contracts are denominated in Philippine Pesos (PHP) and Costa Rican Colones (CRC), which represent FX exposures. Additionally, our EMEA segment services clients in Hungary and Romania where the contracts are priced in Euros (EUR), with a substantial portion of the costs incurred to render services under these contracts denominated in Hungarian Forints (HUF) and Romanian Leis (RON).

In order to hedge a portion of our anticipated cash flow requirements denominated in PHP, CRC, HUF and RON, we had outstanding forward contracts and options as of June 30, 2016 with counterparties through September 2017 with notional amounts totaling \$90.6 million. As of June 30, 2016, we had net total derivative assets associated with these contracts with a fair value of \$0.5 million, which will settle within the next 15 months. If the USD was to weaken against the PHP and CRC and the EUR was to weaken against the HUF and RON by 10% from current period-end levels, we would incur a loss of approximately \$7.4 million on the underlying exposures of the derivative instruments. However, this loss would be mitigated by corresponding gains on the underlying exposures.

We had forward exchange contracts with notional amounts totaling \$76.9 million to hedge net investments in our foreign operations. The purpose of these derivative instruments is to protect against the risk that the net assets of certain foreign subsidiaries will be adversely affected by changes in exchange rates and economic exposures related to our foreign currency-based investments in these subsidiaries. As of June 30, 2016, the fair value of these derivatives was a net liability of \$0.9 million. The potential loss in fair value at June 30, 2016, for these contracts resulting from a hypothetical 10% adverse change in the foreign currency exchange rates is approximately \$7.7 million. However, this loss would be mitigated by corresponding gains on the underlying exposures.

We had forward exchange contracts with notional amounts totaling \$58.7 million that are not designated as hedges.

Table of Contents

The purpose of these derivative instruments is to protect against FX volatility pertaining to intercompany receivables and payables, and other assets and liabilities that are denominated in currencies other than our subsidiaries' functional currencies. As of June 30, 2016, the fair value of these derivatives was a net liability of \$0.4 million. The potential loss in fair value at June 30, 2016, for these contracts resulting from a hypothetical 10% adverse change in the foreign currency exchange rates is approximately \$2.0 million. However, this loss would be mitigated by corresponding gains on the underlying exposures.

We had embedded derivative contracts with notional amounts totaling \$11.6 million that are not designated as hedges. As of June 30, 2016, the fair value of these derivatives was a net asset of less than \$0.1 million. The potential loss in fair value at June 30, 2016, for these contracts resulting from a hypothetical 10% adverse change in the foreign currency exchange rates is approximately \$1.8 million. However, this loss would be mitigated by corresponding gains on the underlying exposures.

We evaluate the credit quality of potential counterparties to derivative transactions and only enter into contracts with those considered to have minimal credit risk. We periodically monitor changes to counterparty credit quality as well as our concentration of credit exposure to individual counterparties.

We do not use derivative financial instruments for speculative trading purposes, nor do we hedge our foreign currency exposure in a manner that entirely offsets the effects of changes in foreign exchange rates.

As a general rule, we do not use financial instruments to hedge local currency denominated operating expenses in countries where a natural hedge exists. For example, in many countries, revenue from the local currency services substantially offsets the local currency denominated operating expenses.

Interest Rate Risk

Our exposure to interest rate risk results from variable debt outstanding under our revolving credit facility. We pay interest on outstanding borrowings at interest rates that fluctuate based upon changes in various base rates. As of June 30, 2016, we had \$272.0 million in borrowings outstanding under the revolving credit facility. Based on our level of variable rate debt outstanding during the three and six months ended June 30, 2016, a 1.0% increase in the weighted average interest rate, which generally equals the LIBOR rate plus an applicable margin, would have had an impact of \$0.7 million and \$0.9 million, respectively, on our results of operations.

We have not historically used derivative instruments to manage exposure to changes in interest rates.

Fluctuations in Quarterly Results

For the year ended December 31, 2015, quarterly revenues as a percentage of total consolidated annual revenues were approximately 25%, 24%, 25% and 26%, respectively, for each of the respective quarters of the year. We have experienced and anticipate that in the future we will experience variations in quarterly revenues. The variations are due to the timing of new contracts and renewal of existing contracts, the timing and frequency of client spending for customer contact management services, non-U.S. currency fluctuations, and the seasonal pattern of customer contact management support and fulfillment services.

Item 4. Controls and Procedures

As of June 30, 2016, under the direction of our Chief Executive Officer and Chief Financial Officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rule 13a-15(e)

under the Securities Exchange Act of 1934, as amended. Our disclosure controls and procedures are designed to provide reasonable assurance that the information required to be disclosed in our SEC reports is recorded, processed, summarized and reported within the time period specified by the SEC's rules and forms, and is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. We concluded that, as of June 30, 2016, our disclosure controls and procedures were effective at the reasonable assurance level.

There were no changes in our internal controls over financial reporting during the quarter ended June 30, 2016 that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting, except for the change discussed under "Changes in Internal Control over Financial Reporting" below.

Changes in Internal Control over Financial Reporting

On April 1, 2016, we acquired Clearlink. We are currently integrating policies, processes, people, technology and operations for the combined companies. Management will continue to evaluate our internal control over financial reporting as we execute our integration activities.

From time to time, we are involved in legal actions arising in the ordinary course of business. With respect to these matters, we believe that we have adequate legal defenses and/or provided adequate accruals for related costs such that the ultimate outcome will not have a material adverse effect on our future financial position or results of operations.
