PROXY STATEMENT

ANNUAL MEETING OF STOCKHOLDERS
To be held on Thursday, June 12, 2014

This Proxy Statement is furnished by the Board of Directors of Research Frontiers Incorporated (the Company) in connection with the solicitation by the Company of proxies to be voted at the Annual Meeting of Stockholders which will be held at the Nasdaq MarketSite, 4 Times Square, 2nd Floor, New York, NY 10036, on June 12, 2014, at 11:00 A.M., local time, and all adjournments thereof.

Any stockholder giving a proxy will have the right to revoke it at any time prior to the time it is voted. A proxy may be revoked by written notice to the Company, Attention: Secretary, by execution of a subsequent proxy or by attendance and voting in person at the Annual Meeting of Stockholders. Attendance at the meeting will not automatically revoke the proxy. All shares represented by effective proxies will be voted at the Annual Meeting of Stockholders, or at any adjournment thereof. Unless otherwise specified in the proxy, shares represented by proxies will be voted (i) for the election of the nominee for director recommended by the Board of Directors listed below, (ii) for the ratification of the selection of the independent registered public accountants, and (iii) to vote on an advisory resolution on the Company's executive compensation. The cost of proxy solicitations will be borne by the Company. In addition to solicitations of proxies by use of the mails, some officers or employees of the Company, without additional remuneration, may solicit proxies personally or by telephone. The Company will also request brokers, dealers, banks and their nominees to solicit proxies from their clients, where appropriate, and will reimburse them for reasonable expenses related thereto.

The Company's executive offices are located at 240 Crossways Park Drive, Woodbury, New York 11797. The Company believes that it can learn from constructive dialog with stockholders and other stakeholders and therefore actively encourages communications with all such interested parties. All appropriate e-mail communications to Directors@SmartGlass.com will be forwarded to each director of the Company. Furthermore, subject to the limits imposed by U.S. Securities and Exchange Commission (SEC) regulations regarding disclosure of information that is not made generally available to all stockholders at the same time, we will endeavor to respond to specific questions or suggestions which, in the opinion of management or the Board, merit individual response. On or about May 1, 2014 this Proxy Statement and the accompanying form of proxy, together with a copy of the Annual Report of the Company for the year ended December 31, 2013, including financial statements, are to be mailed to each stockholder of record at the close of business on April 18, 2014.

IMPORTANT NOTICE REGARDING THE AVAILABILITY OF PROXY MATERIALS FOR THE ANNUAL MEETING OF STOCKHOLDERS MEETING TO BE HELD ON JUNE 12, 2014.

This Proxy Statement is available at www.smartglass.com/proxy.asp.

VOTING SECURITIES AND SECURITY OWNERSHIP

Shares Entitled to Vote, Quorum and Required Vote

Only stockholders of record at the close of business on April 18, 2014 are entitled to vote at the meeting. As of April 18, 2014, the Company had issued and outstanding and entitled to vote 23,109,665 shares of common stock, par value \$0.0001 per share (the "Common Stock"), the Company's only class of voting securities outstanding. Each share of Common Stock entitles the holder thereof to one vote.

As a stockholder of record, you may vote in person at the Annual Meeting or you may vote by proxy without attending the meeting. If you are a registered stockholder, you may vote your shares by giving a proxy via mail, telephone or internet. To vote your proxy by mail, indicate your voting choices, sign and date your proxy card and return it in the postage-paid envelope provided. You may vote by telephone or internet by following the instructions on your proxy card. If you hold your shares through a broker, bank or other nominee, that institution will send you separate instructions describing the procedure for voting your shares.

If you provide a properly executed proxy before voting at the Annual Meeting is closed, the persons listed on the proxy card will vote your shares of Common Stock in accordance with your directions. If you do not indicate how your shares are to be voted, the persons listed on the proxy card will vote your shares as recommended by the Board of Directors. The persons listed on the proxy card will also have the discretionary authority to vote on your behalf on any other matter that is properly brought before the Annual Meeting. If you wish to give a proxy to someone other than the persons listed on the proxy card, please cross out the names of the people listed on the proxy card and add the name of the person holding your proxy.

If we receive a valid proxy before voting at the Annual Meeting is closed, your shares are voted as indicated on the proxy card. If you indicate on your proxy card that you wish to "abstain" or "withhold," as the case may be, from voting on an item, your shares will not be voted on that item.

If you do not provide voting instructions to your broker or nominee at least ten days before the Annual Meeting, that person has discretion to vote your shares on matters that the Nasdaq Capital Market has determined are routine. However, a broker or nominee cannot vote shares on non-routine matters without your instructions, and this is referred to as a "broker non-vote."

Even though your broker may have discretionary authority under current Nasdaq Capital Market rules to vote your shares on your behalf on the proposal regarding the ratification of BDO USA, LLP as our accountants for 2014, your broker does not have authority to vote on the election of directors or for the advisory resolution on the Company's executive compensation, so it is important that you vote your shares and send in your proxy.

The Annual Meeting cannot conduct business unless a quorum is present. In order to have a quorum, a majority of the shares of the Common Stock that are outstanding and entitled to vote at the meeting must be represented in person or by proxy. Abstentions and broker non-votes will be counted to determine whether there is a quorum present. If a quorum is not present, the Annual Meeting will be rescheduled for a later date.

A Director is elected by a plurality of the votes cast at the meeting and the nominee for Class III director who receives the most votes will be elected. Please note that brokerage firms or other nominees may not vote your shares with respect to matters that are not routine under the rules. The rules were amended to provide that the election of directors is no longer a routine matter. Accordingly, brokerage firms or other nominees may not vote your shares with respect to the election of directors without specific instructions from you as to how your shares are to be voted. Broker non-votes will have no effect on the outcome of the vote.

The ratification and appointment of our independent registered public accounting firm for 2014 requires an affirmative majority of the total votes cast FOR and AGAINST to be approved. This matter is considered a routine under the rules and, therefore, brokerage firms and other nominees have the authority under the rules to vote your unvoted shares with respect to this matter if you have not furnished voting instructions within a specified period of time prior to the meeting. Abstentions will have the same effect as votes against the proposal. Broker non-votes will have no effect on the outcome of the vote.

ELECTION OF DIRECTORS
(Item 1)

One director of the Company will be elected at the 2014 Annual Meeting of Stockholders. As listed below, the Board of Directors of the Company is recommending the election of Robert L. Saxe as a Class III director.

The Board of Directors recommends a vote FOR Robert L. Saxe for election as a Class III director and it is intended that proxies not marked to the contrary will be so voted.

Background

The Board of Directors is divided into three classes, Class I, Class II and Class III, which is divided as nearly equal in number as possible. Each class typically serves three years, with the terms of office of the respective classes expiring in successive years. The Company currently has five directors with three of these directors being independent directors.

DIRECTORS RECOMMENDED BY THE BOARD OF DIRECTORS

The Board of Directors, upon recommendation of the Nominating and Corporate Governance Committee, proposes that Robert L. Saxe be elected to serve as Class III director and hold office for a three-year term expiring at the 2017 Annual Meeting of Stockholders, and until the election and qualification of a respective successor. Mr. Saxe (the Board Nominee) has indicated a willingness to serve as a director. If no other choice is specified in the accompanying proxy, the persons named therein as proxies have advised the Board of Directors that it is their present intention to vote the proxy for the election of the Board Nominee. Each of the current members of the Board of Directors of the Company is presently a director of the Company, and was elected to such office by the stockholders of the Company. Should a Board Nominee become unable to accept nomination or election, it is intended that the person named in the accompanying proxy will vote for the election of such other person as the Board of Directors may nominate in the place of such Board Nominee on the recommendation of the Nominating and Corporate Governance Committee. There is no indication at present that the Board Nominee will be unable to accept nomination.

We believe that the members of our Board of Directors represent a desirable mix of backgrounds, skills and experience. The following biographical information is provided with respect to each Board Nominee, including the specific experience, qualifications, attributes or skills that led to the conclusion that each Board Nominee should serve as one of our directors in light of our business and structure.

Bob Saxe, age 78, is a founder of the Company, has been Chairman of the Board of Directors of the Company since its inception in 1965, and was its President from 1966 to February 2002, its Treasurer from 1966 to 2005 and its Chief Executive Officer from 1965 to 2008. Mr. Saxe is currently the Company's Chief Technology Officer. Mr. Saxe is the principal inventor for many of the Company's patents and patent applications. He graduated from Harvard College in 1956 with an A.B. degree, *Cum Laude* in General Studies (with a major in physics) and received an M.B.A. degree from Harvard Business School in 1960. Our conclusion that Mr. Saxe should serve as one of our directors is based not only on his well-developed knowledge of the Company, its technology and the industries that it serves, which is a result of the executive positions he has held with the Company over many years, but is also based on his strategic vision and leadership abilities. CORPORATE GOVERNANCE

Board Leadership Structure and Risk Oversight

The Company has separated the positions of Chairman and Chief Executive Officer. The Company's founder, Robert L. Saxe, has served as the Company's Chairman since the Company's formation. The Company promoted the Company's President, Joseph M. Harary, to his current position as Chief Executive Officer effective in January 2009. We believe that this division of responsibilities allows Mr. Saxe to focus on matters relating to the proper functioning of the Board of Directors while permitting Mr. Harary to focus on matters relating to the management of the Company. In addition, since the Board is responsible for the monitoring of the performance of the Company and of its Chief Executive Officer, the separation of roles of Chief Executive and Board Chairman, together with the fact that the majority of the Board members are independent under the applicable listing standards of the NASDAQ Capital Market, helps to ensure that these functions are properly executed. The committees of the Board are each chaired by an independent director. Mr. Gregory Grimes chairs the Compensation Committee, Mr. Alexander Kaganowicz chairs the Nominating and Corporate Governance Committee, and Mr. Darryl Daigle chairs the Audit Committee. Board Committee chairs are typically reviewed and determined annually after the Corporation's Annual Meeting of Stockholders.

Our Board oversees a Company-wide approach to risk management that is designed to support the achievement of organizational objectives, including strategic objectives, to improve long-term organizational performance and enhance stockholder value. A fundamental part of risk management is not only understanding the risks a company faces and what steps management is taking to manage those risks, but also understanding what level of risk is appropriate. In setting our business strategy, our Board assesses the various risks that now or in the future may be faced by the Company and the degree to which they are being mitigated by management, and determines what constitutes an appropriate level of risk for us.

While our Board has the ultimate oversight responsibility for the risk management process, various committees of our Board also have responsibility for risk management in their particular areas of responsibility. In particular, the Audit Committee focuses on financial risk, including internal controls, and receives an annual risk assessment report from our internal auditor and outside auditors. Risks related to our compensation programs are reviewed by the Compensation Committee and the Company's overall compensation policies covering all employees are meant to motivate employees with an effective balance between cash and equity compensation, focus on performance, and improve our results on a cost-effective basis without encouraging excessive risk taking. Legal and regulatory compliance risks are reviewed by the Nominating and Corporate Governance Committee. Our Board is advised by the Committees of significant risks and management's response via periodic updates.

Board Composition

The number of directors is currently set at five. The Board of Directors is divided into three classes, Class I, Class II and Class III, which is divided as nearly equal in number as possible. Members of each class are elected to serve for staggered three-year terms. The Company believes that a classified board of directors provides continuity and stability in pursuing the Company's business strategies and policies and reinforces the Company's commitment to a long-term perspective and increases the Board's negotiating leverage when dealing with a potential acquirer. As discussed below under "Director Independence" a majority of the Board of Directors of the Company are independent directors.

At a minimum, Board members and candidates for membership on the Board of Directors must possess the experience, skills and background necessary to gain a basic understanding of the principal operational and financial objectives and plans of the Company, the results of operations and financial condition of our Company and its business segments and the relative standing of our Company and its business in relation to its competitors. In addition, candidates must have a perspective that will enhance the Board's strategic discussions and must be capable of and committed to devoting adequate time to Board duties, including attendance at regularly-scheduled Board and Board Committee meetings.

The Nominating and Corporate Governance Committee reviews and assesses with the Board of Directors the specific skills, experience, and background sought of Board members in the context of our business and the then-current membership on the Board. This assessment includes a consideration of independence, diversity, skills, business experience, and personal and industry backgrounds. Although the Company does not have a formal policy on diversity, as a matter of practice, the Nominating and Corporate Governance Committee strives to have a diverse set of skills, experience and backgrounds represented on the Board in order to bring many different viewpoints to guide and assist management of the Company. The Nominating and Corporate Governance Committee and the Board generally regard the following as key skills and experience important for the Company's Directors, as a group, to have in light of our current business and structure: senior leadership experience, public company board experience, experience in financial markets and with financing transactions, knowledge of accounting and financial reporting processes, experience in various industries relevant to the markets for the Company's light-control technology, technical knowledge relevant to our products, licensing, marketing and strategic planning expertise and legal education and experience.

Director Independence

The Board has determined that the following current directors of the Company are independent in accordance with applicable listing standards of the NASDAQ Capital Market: Messrs. Grimes, Daigle, and Kaganowicz. Because Messrs. Saxe and Harary are employed as executive officers of the Company, neither qualifies as independent.

The NASDAQ Capital Market rules provide that a director cannot be considered independent if:

- the director is, or at any time during the past three years was, an employee of the company;
- the director or a family member of the director accepted any compensation from the company in excess of \$120,000 during any period of 12 consecutive months within the three years preceding the independence determination (subject to certain exclusions, including, among other things, compensation for board or board committee service);
- a family member of the director is, or at any time during the past three years was, an executive officer of the company;
- the director or a family member of the director is a partner in, controlling stockholder of, or an executive officer of an entity to which the company made, or from which the company received, payments in the current or any of the past three fiscal years that exceed 5% of the recipient's consolidated gross revenue for that year or \$200,000, whichever is greater (subject to certain exclusions);
- the director or a family member of the director is employed as an executive officer of an entity where, at any time during the past three years, any of the executive officers of the company served on the compensation committee of such other entity; or
- the director or a family member of the director is a current partner of the company's outside auditor, or at any time during the past three years was a partner or employee of the company's outside auditor, and who worked on the company's audit.

In addition, an independent director must be a person who lacks a relationship that, in the opinion of the Board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. The Board has not established categorical standards or guidelines to make these subjective determinations but considers all relevant facts and circumstances.

In addition to the Board-level standards for director independence, the directors who serve on the Audit Committee each satisfy standards established by the SEC providing that to qualify as independent for the purposes of membership on that committee, members of audit committees may not accept directly or indirectly any consulting, advisory, or other compensatory fee from the company other than their director compensation.

Board Committees

The Board of Directors has an Audit Committee, a Compensation Committee and a Nominating and Corporate Governance Committee. The Board has determined that each member of these committees is an independent director in accordance with applicable listing standards of the NASDAQ Capital Market. The current members of the Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee are Messrs. Daigle, Grimes and Kaganowicz.

Audit Committee.

During fiscal 2000, the Audit Committee of the Board of Directors developed a written charter for the Committee that was approved by the Board of Directors which was updated in 2004, and was updated again in February 2009. The complete text of the Audit Committee's current charter is available on Company's website at www.SmartGlass.com.

The Audit Committee reviews and reports to the Board of Directors with respect to various auditing and accounting matters, including the nomination of the Company's independent registered public accountants, the scope of audit procedures, general accounting policy matters and the performance of the Company's independent registered public accountants. The Company believes that all members of its Audit Committee, due to their backgrounds and business experience, are Audit Committee's financial expert (as such term is defined by applicable rules) and have a sufficient understanding of generally accepted accounting principles and financial statements, the ability to assess the general application of such principles, an understanding of internal controls over financial reporting and of audit committee functions to perform their duties as an Audit Committee.

Compensation Committee.

The Compensation Committee reviews and reports to the Board of Directors its recommendations for compensation of all employees and sets the compensation of the management of the Company. In addition, each committee member is a non-employee director as defined in Rule 16b-3 under the Exchange Act and an outside director as defined for purposes of Section 162(m) of the Internal Revenue Code of 1986, as amended (the Internal Revenue Code). The Compensation Committee is not required to, and does not have, a written charter.

The Company's Compensation Committee has the authority specified in Rule 5605(d)(3) which requires the compensation committees of Nasdaq-listed companies to have specific responsibilities and authority with regard to compensation consultants, legal counsel, or other similar advisors to the compensation committee. Specifically, the compensation committee must have sole discretion to retain such advisors, must be directly responsible for oversight of their work, and must determine reasonable compensation to be paid to such advisors by the Company. Rule 5605(d)(3) also requires that the Compensation Committee may only select, or receive advice from, a compensation consultant, legal counsel, or other advisor after taking into consideration the following factors:

- the provision of other services to the company by the person that employs the compensation consultant, legal counsel or other advisor;
- the amount of fees received from the company by the person that employs the compensation consultant, legal counsel or other advisor, as a percentage of the total revenue of the person that employs the compensation consultant, legal counsel or other advisor;
- the policies and procedures of the person that employs the compensation consultant, legal counsel or other advisor that are designed to prevent conflicts of interest;
- any business or personal relationship of the compensation consultant, legal counsel or other advisor with a member of the compensation committee;
- any stock of the company owned by the compensation consultant, legal counsel or other advisor; and
- any business or personal relationship of the compensation consultant, legal counsel, other advisor or the person employing the advisor with an executive officer of the company.

Nominating and Corporate Governance Committee.

The Nominating and Corporate Governance Committee is responsible for overseeing the governance practices of the Company and for making recommendations to the Board for any modifications to such practices. It also identifies individuals qualified to become Board members and recommends to the Board the director nominees for the next annual meeting of stockholders and candidates to fill vacancies on the Board. Additionally, the committee recommends to the Board the directors to be appointed to Board committees. Because the Board of Directors of the Company has a majority of independent directors, these independent directors control the Board of Directors' selection of nominees for director. The Nominating and Corporate Governance Committee is not required to, and does not have, a written charter.

The Nominating and Corporate Governance Committee considers candidates for Board membership suggested by its members and by other Board members. The Nominating and Corporate Governance Committee may also engage the services of a director candidate search consultant. In that case, the director candidate search consultant will seek out candidates who have the experiences, skills, and characteristics that the Nominating and Corporate Governance Committee has determined are necessary to serve as a member of the Board and then present the most qualified candidates to the Nominating and Corporate Governance Committee and the Company's management.

Once a prospective nominee has been identified, the Nominating and Corporate Governance Committee makes an initial determination as to whether to conduct a full evaluation of the candidate. This initial determination is based on the information provided to the committee with the recommendation of the prospective candidate, as well as the committee's own knowledge of the prospective candidate, which may be supplemented by inquiries of the person making the recommendation or others. The initial determination is based primarily on the need for additional Board members to fill vacancies or expand the size of the Board and the likelihood that the prospective nominee can satisfy the evaluation factors described under the heading "Board Composition" above. The committee then evaluates the prospective nominee and his or her qualifications, as well as other factors which may include such things as whether the prospective nominee meets the independence requirements and other qualifications or criteria set forth under applicable listing standards of the NASDAQ Capital Market, or other requirements defined under applicable SEC rules and regulations; the extent to which the prospective nominee's skills, experience and perspective add to the range of talent appropriate for the Board and whether such attributes are relevant to the Company's industry; the prospective nominee's ability to dedicate the time and resources sufficient for the diligent performance of Board duties; and the extent to which the prospective nominee holds any position that would conflict with responsibilities to the Company.

If the Nominating and Corporate Governance Committee's internal evaluation is positive, the committee and possibly others will interview the candidate. Upon completion of this evaluation and interview process, the Nominating and Corporate Governance Committee makes a recommendation and report to the full Board as to whether the candidate should be nominated by the Board and the Board determines whether to approve the nominee after considering this recommendation and report.

Additionally, in selecting nominees for directors, the Nominating and Corporate Governance Committee will review candidates recommended by stockholders in the same manner and using the same general criteria as candidates recruited by the committee and/or recommended by the Board. The Nominating and Corporate Governance Committee will also consider whether any person nominated by a stockholder has been so nominated on a timely basis and in accordance with the provisions of the Company's By-Laws relating to stockholder nominations and other applicable provisions including those described in "2015 Stockholder Proposals and Director Nominations" below.

During 2013, the Company's Board of Directors had nine formal meetings and also met numerous additional times informally, the Board's Audit Committee met four times, the Board's Compensation Committee met six times, and the Board's Nominating and Corporate Governance Committee met twice. No incumbent director attended less than 75% of meetings of the full Board of Directors and of the Board committee(s) of which that director was a member during 2013. The Company encourages and expects all of its directors to attend its Annual Meeting of Stockholders, and all incumbent directors attended last year's Annual Meeting of Stockholders.

ADVISORY RESOLUTION ON EXECUTIVE COMPENSATION
(Item 3)

In accordance with the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank) and section 14A of the Exchange Act, we are providing stockholders with the opportunity to cast a vote on an advisory resolution on the Company's executive compensation as reported in this Proxy Statement. Our executive compensation programs are designed to support the Company's long-term success. As described below in the Compensation Discussion and Analysis section of this Proxy Statement, the Compensation Committee has structured our executive compensation program to achieve the following key objectives:

1. provide total compensation packages to our executives that are competitive with our peer companies;
2. attract, retain and motivate executive officers who have the skills, experience and knowledge important to the success of the Company;
3. reward superior performance and encourage actions that drive our business strategy; and
4. align total executive compensation with the long-term performance of the Company and the interests of its stockholders and enable our executives to participate in the Company's growth.

The overall market for smart window technology in general was modest in 2013, however, various market studies have projected this market to grow dramatically in the future. As a consequence, it has been strategically important for the Company to establish and maintain a leadership position in this growing market, even though some of the other companies in the smart window area are much larger in terms of capital resources and number of employees, in order for the Company to be well positioned in the smart window market when it becomes much larger in the future, and for the Company's SPD-SmartGlass technology to become the technology of choice for use in the automotive, aircraft, architectural, marine and artwork/document protection market for museums and private collectors.

The Compensation Committee of the Board considered the key objectives discussed above in combination with the successful execution of Company's strategic efforts to establish a leadership position in the smart window market. These strategic initiatives included the following: (i) assist existing licensees to market commercial SPD SmartGlass products to a broader universe of customers, (ii) assist current licensees to develop SPD SmartGlass products for existing and new applications, and (iii) develop new business for the SPD-industry and for the Company, expanding awareness of the Company's SPD-SmartGlass technology and its many benefits, and expanding the resources being invested by other companies to manufacture, distribute and sell SPD-SmartGlass products by expanding the number of companies licensed to sell SPD SmartGlass technology, expanding the geographic scope and markets where SPD-SmartGlass products are sold, and developing and expanding the efforts of key customers for SPD-SmartGlass products, with a focus in 2013 in particular on the growing markets for electronically dimmable windows and other products in the automotive and aircraft industries, while also continuing to grow the markets in other areas such as architectural, marine and museum uses.

In 2013, the management of the Company expanded its marketing initiatives, advanced its R&D directives, expanded and took steps to enforce its intellectual property portfolio, and achieved many important milestones relating to its strategic initiatives in the smart window market which the Compensation Committee of the Board considered in its executive compensation deliberations, including:

The Company successfully worked with its existing licensees to increase the adoption of commercial SPD SmartGlass products to a broader universe of customers. In 2013, several new product applications resulting from these collaborations were announced:

In August 2013, the Company and its launch customer Daimler AG announced that SPD SmartGlass technology (i.e. Magic Sky Control) will be offered as an option on the new Mercedes-Benz S-Class sedan.

In September 2013, the Company and its launch customer Daimler AG announced that Magic Sky Control will be offered as an option on the new Mercedes-Benz S-Class Coupe, renamed from CL or CL-Class.

In October 2013, at the 2013 NBAA, Dassault showcased a mock-up of their new Falcon 5X aircraft which includes a SPD-Smart skylight. The Falcon 5X will use SPD technology as standard equipment on the first skylight on an aircraft. In addition, it was announced that cabin windows using SPD-SmartGlass technology will be standard equipment on the new HondaJet.

While not publicly announced, the Compensation Committee also considered progress made at other automotive and aircraft OEMs in particular in assessing management's performance during 2013.

The Company established its new VariGuard division in 2013 to protect artwork and documents from damage from visible light. In addition, the Company successfully worked with its existing licensees to develop new product applications using SPD SmartGlass technology. In 2013, its licensees announced several new product applications resulting from these collaborations:

In April 2013, at the 2013 Hamburg Air Show, a licensee debuted a new SPD-Smart window with integrated electronics and controls directly on the window.

In May 2013, at EBACE 2013, a licensee announced the debut of SPD-Smart windows and SPD-Smart cabin partitions on a mock-up of a Eurocopter EC175 helicopter.

In October 2013, at Busworld 2013, a licensee announced the debut of a new sun visor using SPD-Smart light-control film technology to automatically adjust the sun visor to deal with changing light and glare conditions.

In October 2013, at the 2013 NBAA, a licensee announced the world's first self-powered dimmable window for aircraft cabins.

The Company successfully worked to attract new licensees to develop SPD SmartGlass products. In 2013, the Company announced that it had entered into three new licensing agreements with a focus on new geographic markets for the Company's SPD-SmartGlass technology:

In March 2013, Research Frontiers announced that it had added Tint-It JSC and Advnanotech as licensees. Both these new licensees are targeting SPD SmartGlass products for the architectural market and automotive aftermarket in Russia.

In November 2013, Research Frontiers announced that it added a new licensee, MDV, who is targeting the architectural market in Brazil.

While the above description outlines some of the milestones achieved by the Company during 2013, a more complete list and more details are available on the Company's newly redesigned SmartGlass.com website in the News section and in various periodic reports such as Current Reports on Form 8-K filed by the Company with the SEC. Also a more detailed analysis of the factors considered by the Company, including achievement of targeted revenue, and other analysis of executive compensation is contained later on in this Proxy Statement.

We believe that our performance-based executive compensation programs provide incentives that are aligned with the interests of our stockholders and have facilitated the Company's performance. We urge stockholders to read the Compensation Discussion and Analysis below, which describes in more detail how our executive compensation policies and procedures operate and are designed to achieve our compensation philosophy and objectives, as well as the Summary Compensation Table and related compensation tables and narrative below which provide detailed information on the compensation of our named executive officers. The Compensation Committee and the Board of Directors believe that the policies and procedures articulated in the Compensation Discussion and Analysis are effective in achieving our goals and that the compensation of our named executive officers reported in this Proxy Statement has supported and contributed to the Company's success.

We are asking stockholders to approve the following advisory resolution at the 2014 Annual Meeting:

RESOLVED, that the stockholders of Research Frontiers Incorporated (the Company) approve, on an advisory basis, the compensation of the Company's named executive officers set forth in the Compensation Discussion and Analysis, the Summary Compensation Table and the related compensation tables and narrative in the Proxy Statement for the Company's 2014 Annual Meeting of Stockholders.

This advisory resolution, commonly referred to as a say-on-pay resolution, is non-binding on the Board of Directors. Although non-binding, the Board and the Compensation Committee will carefully review and consider the voting results when evaluating our executive compensation program.

The Board of Directors recommends a vote FOR the advisory resolution approving the compensation of the Company's named executive officers set forth in the Compensation Discussion and Analysis, the Summary Compensation Table and the related compensation tables and narrative in the Proxy Statement, and it is intended that proxies not marked to the contrary will be so voted.

AUDIT COMMITTEE REPORT

The following Audit Committee Report does not constitute soliciting material and should not be deemed filed or incorporated by reference into any other Company filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent the Company specifically incorporates this Report by reference therein.

The Audit Committee of the Board is responsible for providing independent, objective oversight of the Company's accounting functions and internal controls. The Audit Committee's duties specifically include the appointment, compensation and supervision of the Company's independent registered public accountants, as well as pre-approval of all auditing and non-auditing services provided by the Company's independent registered public accounting firm. Management is responsible for the Company's internal controls and financial reporting process. The independent registered public accountants are responsible for performing an independent audit of the Company's financial statements and its internal controls over financial reporting, in accordance with auditing standards of the Public Company Accounting Oversight Board, and to issue a report thereon. As set forth in more detail in its charter, the Audit Committee's responsibility is to monitor and oversee these processes.

In connection with these responsibilities, the Audit Committee met with management and the Company's independent registered public accountants, to review and discuss all financial statements included in the Company's quarterly and annual reports for the fiscal year ended December 31, 2013 (the Financial Statements) prior to their issuance and to discuss significant accounting issues. Management has advised us that the Financial Statements were prepared in accordance with generally accepted accounting principles, and the Committee discussed the Financial Statements with both management and the independent registered public accountants. Our review included discussions with the independent registered public accountants of matters required to be discussed pursuant to the Public Company Accounting Oversight Board Auditing Standard No. 61 as amended and adopted by Rule 3200T (Communication with Audit Committees).

The Audit Committee also received written disclosures and the letter from the independent registered public accountants required by applicable requirements of the PCAOB Rule 3526 regarding the independent accountant's communications with the Audit Committee concerning independence, and has discussed with the independent registered public accountants that firm's independence. Finally, the Audit Committee continued to monitor the integrity of the Company's financial reporting processes and its internal procedures and controls. Based upon the Audit Committee's discussions with management and the independent registered public accountants, and the Audit Committee's review of the representations of management and the independent registered public accountants, the Audit Committee recommended to the Board of Directors that the Company's audited financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2013, for filing with the SEC.

COMPENSATION DISCUSSION AND ANALYSIS

Overview

This Compensation Discussion and Analysis ("CD&A") provides an overview of the Company's executive compensation program including our philosophy, key program elements, the 2013 decisions made under the program and the factors that were considered in making those decisions. The commentary in the CD&A is intended to facilitate an understanding of the data found in the accompanying compensation tables.

This Compensation Discussion and Analysis primarily addresses the compensation of our Named Executive Officers listed below:

Robert L. Saxe, Chairman of the Board and Chief Technology Officer
Joseph M. Harary, President and Chief Executive Officer
Seth L. Van Voorhees, Chief Financial Officer, Vice President - Business Development
Michael R. LaPointe, Vice President - Marketing
Steven M. Slovak, Vice President - Technology

The foregoing named executive officers comprise all of our executive officers. These five executive officers are referred to as the named executive officers throughout this Proxy Statement.

Our executive compensation program is intended to drive results, recognize contributions to the success of our company, and retain leadership talent. Our executive officers have shown solid leadership in the developments and commercialization of the Company's proprietary SPD technology. The Company believes that the continued development of our growth strategy will be the key factor to establishing strong financial performance for shareholders in the future.

Our Compensation Philosophy and Objectives

The Company seeks to include in compensation for the Company's executive officers a combination of base salary, equity incentives, and performance-based bonuses that is intended to attract, retain and motivate executive officers who have the skills, experience and knowledge important to the success of the Company and to reward superior performance and encourage actions that drive our business strategy. The objective of this approach is to align total executive compensation with the long-term performance of the Company and the interests of its stockholders and enable employees of the Company to participate in the Company's growth. Through ownership of stock and options, the Company believes that executive officers are rewarded if the Company's stockholders receive the benefit of appreciation of the price of the Common Stock.

The Compensation Committee reviewed and evaluated the Company's executive and non-executive compensation policies and practices, including, specifically, the mix between salary and bonus, cash and equity, short-term and long-term incentives, and the use of performance measures and discretion with respect to individual awards. The Compensation Committee also evaluated how the Company's compensation policies and practices could encourage excessive risk taking and how the Company's policies and practices are structured to mitigate any such risks. In this regard, the Compensation Committee considered the following: (i) while base salary is the primary component of total compensation for most of the Company's employees and such salaries are generally competitive, the Company has attempted to better align the interests of its executive officers and its stockholders by increasingly emphasizing incentive compensation for its executive officers, (ii) the Compensation Committee believes that the Company's incentive plans for senior management, executive officers and its employees include an appropriate mix of short-term and long-term performance incentives and cash and equity compensation, (iii) the Compensation Committee believes that the goals and objectives in the Company's incentive plans are reasonable and do not incentivize employees to take excessive risks, and (iv) the Company has one business unit so that there does not exist the risk that (A) any one business unit of the Company carries a significant portion of the Company's risk profile, (B) is significantly more profitable than other business units within the Company, or (C) that the compensation structure is inconsistent among business units. As a result of this review and evaluation, the Compensation Committee concluded that any risks that may result from the Company's compensation policies and practices are not reasonably likely to have a material adverse effect on the Company.

Role of the Compensation Committee in Compensation Decisions

The compensation of executive officers of the Company, including its named executive officers, is determined by the Compensation Committee of the Company's Board of Directors. The salaries of all executive officers are also reviewed at least annually by the Compensation Committee and by the entire Board of Directors. Numerous factors are reviewed in determining compensation levels. These factors include: the compensation levels of executive officers with comparable experience and qualifications, compensation levels at comparable companies, individual and Company performance, past compensation levels, building stockholder value, and other relevant considerations, including a review of applicable compensation studies and other reference materials. The Company's Compensation Committee also reviews and approves recommendations made by management of the Company with respect to the compensation of all non-executive employees of the Company.

Role of Management in Compensation Decisions

As mentioned above, management of the Company makes recommendations to the Compensation Committee with respect to the compensation of all non-executive employees of the Company. The Compensation Committee reviews and has discretion to approve those recommendations.

Compensation Consultants and Benchmarking

The Compensation Committee believes that it is neither necessary nor cost-effective to hire advisors to benchmark the structure and level of its executive officer compensation on an annual basis. However, from time to time, the Compensation Committee retains compensation consultants to advise it and compare the Company's compensation practices versus similar companies. In 2013, the Company did not retain a compensation consultant.

In 2011, the Company retained Connell & Partners to analyze and compare the compensation of independent directors and of Mr. Harary and Dr. Van Voorhees against the compensation paid by a peer group of publicly-traded companies (the Peer Group). The Compensation Committee used the companies in the Peer Group based on its belief that they are similar to the Company in terms of business type, employee skill sets, revenue, and market capitalization.

In 2013, the Company updated the 2012 compensation data of the Peer Group. This updated compensation data for the Peer Group was considered by the Compensation Committee when evaluating the executive compensation for Mr. Harary and Dr. Van Voorhees. Compensation data for 2013 of the Peer Group was not considered by the Compensation Committee since most of the Peer Group had not yet made this information public at the time that the Compensation Committee was making its analysis.

The following companies were included in the updated Peer Group:

2013 Compensation Analysis:

Mr. Harary's and Dr. Van Voorhees' compensation in 2013 was based on the components and analysis used in 2012: (1) base salary; (2) actual total cash compensation (base salary plus actual bonus); (3) long-term incentive compensation (fair value of stock options, restricted shares, and performance-based long-term incentive plans, annual equity participation (annual shares granted as a percent of shares outstanding); and (4) actual total direct compensation (actual total cash plus long-term incentive compensation). As discussed earlier, no Peer Group comparison analysis was performed for 2013 due to limited compensation data availability at the time of analysis by the Compensation Committee.

The Company typically makes a decision regarding the issuances long-term incentive compensation in December and issues this grant in January of the following year (the next month). This process was followed in December 2012 when the Company decided on the issuance of long-term incentive compensation that was subsequently granted in January of 2013. In December 2013 the Company made a decision to issue long-term incentive compensation that was subsequently granted in that month instead of January of 2014. The change in timing resulted in two grants of long-term incentive compensation in 2013 rather than one in January 2013 and another in January 2014 as has been the typical process for the Company. As a consequence of this timing effect, reported long-term incentive compensation and actual total direct compensation (actual total cash plus long-term incentive compensation) will be higher in 2013 versus 2012.

Base Salary:

Mr. Harary's base salary in 2013 was \$425,000. Mr. Harary's base salary in 2013 represents 29% of his ATDC.

Dr. Van Voorhees' base salary in 2013 was \$200,000. Dr. Van Voorhees' base salary in 2013 represents 27% of his ATDC.

Actual Total Cash Compensation:

Mr. Harary's actual total cash compensation in 2013 was \$775,109. Mr. Harary's actual total cash compensation in 2013 as a percentage of his ATDC was 53%.

Dr. Van Voorhees' actual total cash compensation in 2013 was \$304,652. Dr. Van Voorhees' actual total cash compensation in 2013 as a percentage of his ATDC was 42%.

Long-Term Incentive Compensation:

Mr. Harary's long-term incentive compensation in 2013 was \$696,837. Mr. Harary's long-term incentive compensation in 2013 as a percentage of his ATDC was 47%.

Dr. Van Voorhees' long-term incentive compensation in 2013 was \$428,421. Dr. Van Voorhees' long-term incentive compensation in 2013 as a percentage of his ATDC was 58%.

The Compensation Committee, having met and deliberated six times during 2013, believes that the current compensation approach and level of compensation of the Company's named executive officers is appropriate and in the best interests of the Company and its stockholders.

Components of Named Executive Officer Compensation

The principal components of compensation for the named executive officers are base salary, performance-based annual cash compensation and long-term equity compensation. The Compensation Committee seeks to achieve a mix of these components such that total compensation is competitive in the marketplace. Historically, the Company's compensation program focused on base salary as a primary means to compensate its named executive officers. In recent years, the Company has relied increasingly on short-term and long-term incentive compensation to better align the interests of the named executive officers with the interests of stockholders in both short-term and long-term growth. The Company continues to transition its compensation program from its historical base salary orientation to a program with an increasing emphasis on incentive compensation. The Compensation Committee does not have a formal policy for allocation between cash and non-cash or short-term and long-term incentive compensation.

The following table shows the components of named executive officer compensation:

Component	Purpose	Characteristics
<i>Base Salary</i>	Compensate named executive officers for performing their roles and assuming their levels of executive responsibility. Intended to provide a competitive level of compensation, it is a necessary component in recruiting and retaining executives.	Fixed component. Annually reviewed and adjusted as appropriate.
<i>Performance-based Annual Incentive Compensation</i>	Promote the achievement of short-term business and financial goals. Align named executive officers and stockholder interests in the short-term performance of the Company and reward named executive officers for superior Company performance during the short-term.	Performance-based bonus opportunity based on the achievement of certain goals, which may be individual performance goals, Company performance goals or a combination of the two.
<i>Long-Term Equity Compensation</i>	Promote the achievement of the Company's long-term financial goals and increases in value for the Company's stockholders. Align named executive officers and stockholder interests, promote named executive officers retention and reward named executive officers for superior Company performance over time.	Reviewed annually and granted, if appropriate, in the form of stock options and stock awards.

Base Salary. The amount of base salary for any executive officer is based on the level of responsibility of the executive officer, the Company's performance, the executive officer's individual performance and the executive officer's compensation compared to similarly situated executives in the Compensation Peer Group. As mentioned above, historically the Company's compensation program has focused on base salary as its primary compensation element. Base salary is an important element in recruiting and retaining executive officers.

Performance-based Annual Incentive Compensation. In order to better align our compensation practices with the market and to promote the achievement of short-term business and financial goals, the Compensation Committee has increasingly emphasized bonus opportunities for its executive officers in the form of performance-based annual incentive compensation.

A portion of Mr. Harary's 2013 compensation was tied to the achievement of various business and financial goals during the year. Under his employment agreement, Mr. Harary is eligible to earn a cash bonus based upon the achievement of performance goals established by the Board. As set forth below, the performance goals established by the Board for 2013 were divided into two main categories and, at the end of the performance period, the Compensation Committee determined the extent to which the pre-established performance goals were satisfied during the performance period.

Under Mr. Harary's employment agreement with the Company, there is a \$150,000 target bonus for Mr. Harary. For 2013, 50% of Mr. Harary's target bonus was based on the achievement of revenue goals and the remaining 50% of his target bonus was based on the achievement of other established performance objectives. The non-revenue components of the bonus was capped at \$150,000. The Board paid Mr. Harary a total cash bonus of \$301,791 for the achievement of various goals during 2013 specified by the Board of Directors of the Company detailed below.

The Board paid Mr. Harary a bonus of \$161,791 for the achievement of targeted revenue levels. The bonus for this category was based on the level of the Company's revenues with a threshold amount of \$900,000 below which no bonus would be paid. Revenues for 2013 were \$2,161,359.

The Board paid Mr. Harary a bonus of \$140,000 for the achievement of certain other performance and strategic goals for the entire Company and their efficient implementation and management.

The amount of compensation awarded for 2013 to Mr. Harary as a bonus is reflected in the Non-Equity Incentive Plan Compensation column of the Summary Compensation Table below.

A cash bonus may be awarded to any officer of the Company at the discretion of the Board and Compensation Committee for extraordinary individual achievement or for other reasons. In 2013, Dr. Van Voorhees and Messrs. Slovak and LaPointe received a discretionary bonus of \$100,000, \$25,000 and \$8,562 in addition to their respective base salaries in 2013 of \$200,000, \$148,608 and \$68,576 based upon the achievement of certain market development initiatives.

Long-Term Equity Compensation. The Company uses long-term equity compensation to provide incentives to those most responsible for the Company's success, to promote the achievement of the Company's long-term financial goals and to align the interests of its executive officers, employees and consultants with that of its stockholders. The award of long-term equity compensation also assists the Company in attracting and retaining executive officer talent and reduces the amount of cash compensation that would otherwise be necessary to do so. Historically, the Company has granted equity awards to executive officers in the form of stock options or restricted stock under the Company's 2008 Equity Incentive Plan (the 2008 Plan) and its predecessor plan, the 1998 Stock Option Plan, which expired at the end of 2007.

The Compensation Committee does not employ quantitative criteria or performance measures from year to year in the granting of equity awards. Rather, the form and amount of equity awards are based on a subjective determination by the Compensation Committee of the effectiveness of each named executive officer and the extent of his contributions to the Company. For 2013, the Company sought to emphasize equity compensation as a means to better align the interests of its named executive officers and stockholders and to promote the retention of its named executive officers. Accordingly, the Company awarded long-term equity awards at levels it believes reflect these goals.

The Compensation Committee and Board believe that the 2008 Plan is essential to the Company's continued success. The purpose of the 2008 Plan is to afford an incentive to executive officers, other employees, non-employee directors and consultants of the Company to acquire a proprietary interest in the Company, to continue as employees, non-employee directors or consultants (as the case may be), to increase their efforts on behalf of the Company and to promote the success of the Company's business. The Compensation Committee and Board believe that the granting of awards under the 2008 Plan will promote continuity of management, help attract new employees, and encourage employees, directors, officers and consultants, to increase their stock ownership in the Company and provide an increased incentive and personal interest in the welfare of the Company by those who are or may become primarily responsible for shaping and carrying out the long range plans of the Company and securing its continued growth, development and financial success. To further such purposes, stock options, stock appreciation rights, restricted stock and restricted stock units may be granted pursuant to the 2008 Plan. The Company has relied primarily on stock option grants and awards of restricted stock under the 2008 Plan to compensate named executive officers. The Company has not awarded stock appreciation rights or restricted stock units.

During 2013, the Compensation Committee awarded restricted stock and option awards to each of its named executive officers as set forth in the Grants of Plan-Based Awards in 2013 table below.

Employment Arrangements

The Company entered into an employment agreement effective January 1, 1989 with Mr. Robert L. Saxe which automatically renews itself for successive one-year terms unless either the Company or Mr. Saxe gives the other at least ten days prior written notice of the intention not to renew the employment agreement. Pursuant to that agreement, Mr. Saxe received an annual base salary from the Company of \$351,000 during 2013 and will receive an annual base salary of \$402,000 through December 31, 2014. Pursuant to his employment agreement, Mr. Saxe has agreed not to compete with the Company for a period of two years following the termination of his employment thereunder. In the event of Mr. Saxe's death, Mr. Saxe's estate shall be entitled to receive his accrued but unpaid base salary and bonus plus \$50,000.

In 2009, the Company entered into a five-year employment agreement with Joseph M. Harary, which was effective as of January 1, 2009 when Mr. Harary was promoted to the position of Chief Executive Officer of the Company. The agreement automatically renews itself for successive one-year terms unless either the Company or Mr. Harary gives the other at least 90 days prior written notice of the intention not to renew the employment agreement. Pursuant to that agreement, in addition to possible future equity incentive awards granted by the Board of Directors of the Company in their discretion, Mr. Harary received 150,000 shares of restricted stock of the Company which vest monthly over a three-year period, and Mr. Harary received an annual base salary from the Company of \$425,000 from 2009-2013 which was increased to \$450,000 in 2014, and will be eligible to also earn a bonus based upon the achievement of performance goals established by the Board of Directors for Mr. Harary. Pursuant to his employment agreement, if Mr. Harary's employment is terminated due to his death or disability, Mr. Harary shall be entitled to receive his base salary (less any disability payments) for six months as well as any earned or accrued bonus. If Mr. Harary's employment is not renewed, or is terminated by the Company other than due to death, disability, or for cause (as defined in the agreement) prior to its scheduled expiration date, then Mr. Harary shall also receive his base salary for between one and three years, depending upon the date of such termination. If there is a change in control of the Company, Mr. Harary shall receive his base salary for the longer of three years or the scheduled date of termination of Mr. Harary's employment agreement. Unless vesting is otherwise accelerated under the terms of an equity award (which is usually done in the case of death or disability of an employee), if Mr. Harary's employment is terminated by the Company in breach of his employment agreement or is terminated by Mr. Harary other than for good reason (as defined in the agreement), any unvested equity awards shall also become immediately vested. Pursuant to the employment agreement, Mr. Harary is also entitled to four weeks paid vacation each year, and other fringe benefits generally applicable to other employees of the Company. Under his employment agreement, Mr. Harary has also agreed to certain restrictive covenants including Mr. Harary's agreement not to solicit employees or compete with the Company for a period of two years following the termination of his employment thereunder.

On January 1, 2014 the Company entered into a three year employment agreement with Dr. Van Voorhees. The agreement automatically renews itself for successive one-year terms unless either the Company or Dr. Van Voorhees gives the other at least 90 days prior written notice of the intention not to renew the employment agreement. Dr. Van Voorhees received an annual base salary from the Company of \$200,000 from 2012-2013 which was increased to \$220,000 in 2014, and will be eligible to also earn a bonus based upon the achievement of performance goals established by the Board of Directors for Dr. Van Voorhees. Pursuant to his employment agreement, if Dr. Van Voorhees' employment is terminated due to his death or disability, Dr. Van Voorhees shall be entitled to receive his base salary (less any disability payments) for four months as well as any earned or accrued bonus. If Dr. Van Voorhees' employment is not renewed, or is terminated by the Company other than due to death, disability, or for cause (as defined in the agreement) prior to its scheduled expiration date, then Dr. Van Voorhees shall also receive his base salary for between three months and three years, depending upon the date of such termination. If there is a change in control of the Company, Dr. Van Voorhees shall receive his base salary for the longer of three years or the scheduled date of termination of Dr. Van Voorhees' employment agreement. Unless vesting is otherwise accelerated under the terms of an equity award (which is usually done in the case of death or disability of an employee), if Dr. Van Voorhees' employment is terminated by the Company in breach of his employment agreement or is terminated by Dr. Van Voorhees other than for good reason (as defined in the agreement), any unvested equity awards shall also become immediately vested. Pursuant to the employment agreement, Dr. Van Voorhees is also entitled to four weeks paid vacation each year, and other fringe benefits generally applicable to other employees of the Company. Under his employment agreement, Dr. Van Voorhees has also agreed to certain restrictive covenants including Dr. Van Voorhees' agreement not to solicit employees or compete with the Company for a period of two years following the termination of his employment thereunder.

The Company has not entered into employment agreements, written or unwritten, with its other executive officers, Messrs. LaPointe and Slovak.

Stock Options Exercised and Stock Vested in 2013

The following table sets forth the number of shares of stock acquired by each named executive officer in 2013 upon vesting of awards of stock pursuant to the 2008 Plan. While not indicative of amounts actually realized by the named executive upon vesting, the right hand column in the table below indicates the aggregate dollar value of stock that vested during fiscal 2013, calculated by multiplying the number of shares acquired on vesting by the market value (determined based upon the average of the high and low trading price of the Common Stock) of such shares on the date of vesting.

Potential Payments upon Termination or Change of Control

Mr. Harary's, Mr. Saxe's and Dr. Van Voorhees' respective employment agreements provide for certain payments and benefits upon a termination, separation, or change in control. Neither of our other named executive officers has an employment agreement with us or are otherwise entitled to any sort of cash payment upon termination or separation from us.

Both our 2008 Plan and 1998 Stock Option Plan, which is the predecessor to the 2008 Plan and which expired at the end of 2007 (the 1998 Plan), provide for the continuation or acceleration of certain awards and grants thereunder in the event of specified separations from employment with us. Under the standard grant agreements for options granted under our 2008 Plan and our 1998 Plan, the option holder generally has three months after the date of termination to exercise options that were exercisable on or before the date that employment ends unless the options expiration date occurs first (other than for death or disability). Upon an option holder's death or disability, the holder or the holder's estate, as applicable, may exercise options that were exercisable on or before the date that employment ends due to death or disability for a period of six months thereafter, unless the options' expiration date occurs first. All of the outstanding options issued to our named executive officers are vested.

Under award agreements with our named executive officers for restricted stock granted pursuant to our 2008 Plan, each named executive officer's unvested restricted stock shall immediately become fully vested as of the date of his termination due to death or disability. In addition, Mr. Harary's employment agreement provides that his restricted stock and any additional equity incentive awards granted to him under the 2008 Plan or otherwise will immediately vest upon his termination by the Company (other than for cause or in connection with his death or disability), his resignation for good reason or upon change of control of the Company.

Although our 1998 Plan authorized the grant of restricted stock grants, the Company only granted stock options during the ten years that the plan was in effect.

Robert L. Saxe

Had Mr. Saxe's employment terminated on December 31, 2013 due to his death or disability, his restricted stock would have immediately vested. The value of his restricted stock, based upon the closing price of our Common Stock on December 31, 2013 (\$5.78), would have been \$59,823. Pursuant to his employment agreement, Mr. Saxe's estate would be entitled to receive \$50,000 as a single, lump-sum payment upon his death. Mr. Saxe is not entitled to any payment upon termination for any other reason or upon a change of control of the Company.

Joseph M. Harary

The following table describes the potential payments and benefits to Mr. Harary upon termination of his employment or a change of control of the Company had such termination or change of control occurred on December 31, 2013.

Payments and Benefits	By Company			By Mr. Harary		Change of Control (\$)

Bonus payable under employment agreement (5)	301,791	301,791	-	301,791	301,791	-	301,791

- (1) Had Mr. Harary's employment terminated on December 31, 2013, the value of his restricted stock, based upon the closing price of our Common Stock on December 31, 2013 (\$5.78), would have been \$537,563.
- (2) The amount of the benefit shown would be paid over a six month period following the date of his termination in the manner it would have been paid if Mr. Harary's employment had not so terminated.
- (3) The amount of the benefit shown would be paid in equal installments over a six month period following the date of Mr. Harary's termination on December 31, 2013 at such intervals (at least monthly) as salaries are paid generally to executive officers of the company. Mr. Harary's employment agreement provides that the company shall pay the amount, if any, by which Mr. Harary's base salary for the period commencing on the date of termination and ending on the six month anniversary of such date exceeds the sum of (i) the amount of base salary received by Mr. Harary with respect to the period he was disabled and (ii) the sum of the amounts, if any, payable to him under the Company's benefit plans. The amount of the benefit shown assumes that Mr. Harary became disabled and was terminated on December 31, 2013, that Mr. Harary did not receive his base salary during the period in which he was disabled and that no amounts were payable to him under the Company's benefit plans.
- (4) The amount of the benefit shown would be paid over a three year period following the date of his termination in the manner it would have been paid if Mr. Harary's employment had not so terminated.
- (5) Assumes that Mr. Harary was eligible as of the date of his termination to receive a bonus in the amount reported in the Summary Compensation Table for 2013.

Mr. Slovak is not entitled to any payment upon termination for any other reason or upon a change of control of the Company.

Michael R. LaPointe

Had Mr. LaPointe's employment terminated on December 31, 2013 due to his death or disability, his restricted stock would have immediately vested. DIRECTOR COMPENSATION

The Company believes that it is appropriate to set target levels of director compensation based upon the factors described above for service on the Company's Board of Directors. Based in part upon its review of comparable directors fees paid among the Compensation Peer Group companies, and upon the analysis and recommendations of the independent compensation consulting firm noted above, each non-employee independent director was to receive total compensation with respect to service as a Director during 2013 having a valuation initially targeted at approximately \$80,000, which targeted amount is then subject to adjustment based upon results achieved and future modification as a result of prevailing compensation levels and other factors. The mix of cash and stock for 2013 and future years was developed following the review of an independent compensation consulting firm's report and an evaluation of prevailing trends and best practices in corporate governance and director compensation in a broad range of public companies.

Non-management directors of the Company each received in January 2013 their compensation for service on the Board in 2013 in a combination of 19,300 shares of Common Stock of the Company (having an estimated value at the time of grant of \$65,234 and a cash fee of \$35,000. The following table summarizes compensation paid or awarded to the Company's non-management directors in 2013. Management directors are not compensated separately for their service as directors and their compensation as employees of the Company is shown on the Summary Compensation Table on page 28 of this Proxy Statement.

Name	Fees Paid in Cash (\$)	Stock Awards	Total (\$)
		(1), (2), (3) (\$)	
Darryl Daigle	35,000	136,156	171,156
Gregory G. Grimes	35,000	136,156	171,156
Alexander Kaganowicz (4)	-	68,354	68,354

- (1) The dollar values reported in this column include: (i) the aggregate grant date fair value of awards of stock to each of the independent non-management directors in fiscal 2013 computed in accordance with ASC 718 based upon the average of the high and low trading price of the Common Stock on the trading date immediately prior to the date of the stock award, and (ii) the dollar value of option awards are estimated grant date fair values based upon the Black-Scholes valuation method in accordance with Financial Accounting Standards Board Accounting Standard Codifications Topic 718 (ASC 718) and using the assumptions set forth in the Company's 2013 Annual Report on Form 10-K.

- (2) The aggregate grant date fair value of awards of stock options to each of the independent non-management directors in fiscal 2013. The Company used the Black-Scholes option-pricing model to determine the estimated fair value of each option grant. The Black-Scholes model includes assumptions regarding dividend yields, expected volatility, expected lives, and risk-free interest rates. These assumptions reflect our best estimates, but these items involve uncertainties based on market conditions generally outside of our control.
- (3) The Company typically makes a decision regarding the issuances long-term incentive compensation to independent non-management directors in December and issues this grant in January of the following year (the next month). This process was followed in December 2012 when the Company decided on the issuance of long-term incentive compensation that was subsequently granted in January of 2013. In December 2013 the Company made a decision to issue long-term incentive compensation that was subsequently granted in that month instead of January of 2014. The change in timing resulted in two grants of long-term incentive compensation in 2013 rather than one in January 2013 and another in January 2014 as has been the typical process for the Company.
- (4) The Company s pays its cash fees to independent non-management directors in January. Mr. Kaganowicz became a Director of the Company in June 2013. As a consequence, he did not receive any cash fee compensation in 2013.

NASDAQ OMX, which supplies us with total return data for the comparative indexes, has historically used total return data prepared by the Center for Research in Security Prices (CRSP). Effective January 2014, NASDAQ OMX has replaced total return values prepared by CRSP with its own NASDAQ OMX Global Index data. As a result of this change, the NASDAQ U.S. Index has been replaced with the NASDAQ Composite Index, and the NASDAQ Electronic Component Stock Index has been replaced with the NASDAQ Electronic Components and Equipment Index. The stock price performance shown on the graph below reflects historical data and is not necessarily indicative of future price performance.

Rule 14a-8 requires, among other things, that any proposal be received by the Company at its principal executive office, 240 Crossways Park Drive, Woodbury, New York 11797, Attention: Corporate Secretary, by December 31, 2014. Section 2.12 of the Company's By-Laws (a copy of which is available upon request) sets forth the procedures that must be followed with respect to stockholder nominations, which include a requirement that the person making the nomination be a stockholder of record at the time of giving notice for such stockholders meeting and who shall be entitled to vote for the election of directors at the meeting, and that such nomination be made pursuant to timely notice in proper written form to the Secretary of the Company. In addition, a person providing notice under this Section shall supplementally and promptly provide such other information as the Company otherwise requests. At the request of the Board, any person nominated by the Board for election as a director shall furnish to the Secretary of the Company that information required to be set forth in a stockholder's notice of nomination which pertains to the nominee.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Under the securities laws of the United States, the Company's directors, its executive officers, and any persons holding more than ten percent of the Common Stock are required to report their initial ownership of the Common Stock and any subsequent changes in that ownership to the SEC. Specific due dates for these reports have been established, and the Company is required to disclose in this Proxy Statement any failure to file by these dates. All of these filing requirements were satisfied on a timely basis historically. However, on January 7, 2013, the Form 4 filings for Messrs. Harary, Saxe, Slovak and LaPointe were filed two business days late of the disclosure deadline as a result of a clerical error. This clerical error has been corrected and these individuals have subsequently made timely Form 4 filings. In making these disclosures, the Company has relied solely on written representations of its directors and executive officers and copies of the reports that they have filed with the Commission.
