Dear Actinium Shareholders,

We cordially invite you to attend the 2015 annual meeting of our stockholders on December 22, 2015, at 9:30 a.m. Eastern Time, at The Garden City Hotel, 45 Seventh St, Garden City, NY 11530 . Matters on which action will be taken at the meeting are explained in detail in the attached Notice and Proxy Statement. Additionally, a form of proxy card and information on how to vote by mail, through the Internet, by fax or by phone is included herein.

Above all else, we wish to thank all our shareholders, new and old, for their faith in our ability to execute on our strategy and generate shareholder value. As outlined in our letter to you in July, we acknowledge that we have faced challenges this year, specifically with manufacturing process and scale-up issues pertaining to IomabTM-B. We are pleased to have overcome these obstacles and now with these challenges behind us and our organization stronger than ever before, we are eager to embark on a new era for Actinium. We have made significant strides with Iomab-B and are on track to file the IND by year end. With respect to Actimab-A, we are excited to be near the conclusion of the Phase 1 portion of the clinical trial, which will be highlighted at the 57th American Society of Hematology (ASH) Annual Meeting in Orlando, Florida on December 4 - 8, 2015. We are eager to begin the Phase 2 portion of the trial as we are very well-positioned competitively. We look forward to the future with confidence in our strategy as we progress into 2016. We will strive to deliver sustainable results that will drive growth and generate shareholder value as we continue to drive the business forward in 2016 and beyond.

Key Achievements in 2015

- On track to submit the Iomab-B IND filing in the fourth quarter of 2015
- Completed the majority of the Phase 1 clinical trial for Actimab-A, the final three confirmatory patients are now enrolling which will enable the Phase 2 trial to start in 2016
- Actimab-A's positive results imply leadership position in the renewed race for CD-33 targeting drugs in AML
- Started work on an exciting new indication for one of our drug candidates with proof of concept studies expected in 2016
- Successfully labeled an antibody with Actinium-225 creating an exciting new pipeline candidate with broad hematology applications
- Strengthened our development team with key senior level hires in place ahead of the upcoming Phase 3 clinical trial for Iomab-B and Phase 2 trial for Actimab-A next year

Much Anticipated IND Filing to Enable Initiation of Iomab-B's Single, Pivotal, Phase 3 Clinical Trial in 2016

In 2015, we successfully addressed our manufacturing challenges, bolstered our development team in key areas and established a clear regulatory pathway for Iomab-B. In addition, we further strengthened our intellectual property portfolio with a provisional patent application for infusion administration of Iomab-B. These achievements give us great confidence as we look past our planned fourth quarter IND filing toward to the upcoming pivotal, Phase 3

clinical trial. We have hired and will continue to hire key professionals to our clinical, project management, manufacturing, quality control and regulatory teams to ensure that we execute the Iomab-B trial in the most efficient and timely manner. With these new members firmly on board, we are confident in our ability to execute and look forward to providing you, our shareholders, with regular updates on our progress as we seek to obtain regulatory approval for Iomab-B and deliver this important, potentially breakthrough therapy to patients.

We are eager to commence the Iomab-B phase 3 clinical trial, as we believe it to represent a revolutionary treatment option for refractory and relapsed Acute Myeloid Leukemia (AML) patients over the age of 55. Iomab-B will be used in preparing AML patients for hematopoietic stem cell transplantation (HSCT), the fastest growing hospital procedure in the U.S. The path to a Biologics License Application (BLA) submission is expected to be based on the results of the upcoming single, pivotal Phase 3 clinical study, assuming success. The trial size is set at 150 patients with 75 patients per arm. The primary endpoint in the pivotal Phase 3 trial is durable complete remission, defined as a complete remission lasting at least 6 months and the secondary endpoint will be overall survival at one year. There are currently no effective treatments approved by the FDA for AML in this patient population and there is no defined standard of care. In its proof of concept trial Iomab-B results showed that it tripled the rate of survival at one year and twenty percent survived at two years and medically considered cured. It is these results that are generating such strong support for the trial by many of the leading specialists in the field as evidenced by our strong KOL support.

We expect the 2015 ASH Annual Meeting to be a major event for Actinium and our Iomab-B program. As we prepare for our Phase 3 clinical trial, we will be meeting with our Scientific Advisory Board and Clinical Advisory Board, which is comprised of Key Opinion Leaders (KOLs) in the field of hematopoietic stem cell transplant. We will also use our time at ASH to meet with representatives from major medical institutions including stem cell transplant physicians, hematologists and other referring physicians to build awareness of the Iomab-B Phase 3 clinical trial. We have invested significant time and resources in preparing for ASH this year and look forward to seeing the return on our efforts revealed in the Phase 3 Iomab-B trial.

Promising Phase 1 Results for Actimab-A Raise Anticipation for the Upcoming Phase 2 Trial with Interim Results Expected in 2016

We completed the fourth and final cohort of the Phase 1 portion of the Actimab-A clinical trial. The Company is now enrolling the final three confirmatory patients which should conclude the Phase 1 portion of the trial. Patients in this fourth and final cohort are being treated at 2.0 $\mu\text{Ci/kg}$ dose level of Actimab-A. Previously, three cohorts of patients have been treated at dose levels of 0.5, 1.0 and 1.5 $\mu\text{Ci/kg}$ per fractionated dose, respectively. We were excited to learn that the Actimab-A data was selected by the ASH Program Committee for poster presentation, which will be presented December 7th, 2015, by Dr. Joseph Jurcic, Director of Hematologic Malignancies at Columbia University Medical Center.

We recently announced the hiring of Dr. Sri Srivastava, Ph.D., PMP, to the position of Associate Director of Project Management. Sri's experience and knowledge, which we highlight in more detail below, is ideal for the Actimab-A Phase 2 trial as he has broad experience with the management of randomized Phase 2 clinical trials, CRO selection and supervision, and clinical trial data analysis. We expect to begin the Phase 2 portion of the clinical trial in the first part of 2016, following dosing of three confirmatory patients, and will provide updates on this program, including the interim results that are expected by the second half of 2016. We are confident that our stronger team and enhanced operations coupled with a less complex protocol will improve clinical trial recruitment for the Phase 2 portion of the trial.

Actinium Is Strongly Positioned in the Reemerging Race to Develop an AML Therapy by Targeting CD-33

Actimab-A targets CD33, an antigen on the surface of AML cells via the monoclonal antibody lintuzumab coupled to actinium-225. We have long held the belief that CD33 is an ideal target in AML as evidenced by our Actimab-A and earlier Bismab-A programs. In years past, Mylotarg an antibody drug conjugate targeting CD33 received accelerated FDA approval and was then withdrawn from the market in 2010 due to safety concerns. There has been resurgent interest with larger and/or global companies such as Bayer, Boehringer Ingelheim, Immunogen, Johnson & Johnson and Seattle Genetics developing therapies for AML targeting CD33. Actinium at the current time seems to have the most interesting clinical data and is among the most advanced program amongst the second generation CD33 targeting therapies. We look forward to validating the safety and efficacy results in the upcoming Phase 2 trial and demonstrating that Actimab-A is best in class.

Strong Pipeline Additions with New Product Candidates and Exciting New Indications

While we remain focused on progressing Iomab-B into its Phase 3 clinical trial and Actimab-A into its Phase 2 trial, our scientific team working in tandem with thought leaders team have identified an exciting new area for clinical research. Our research team has determined, based on external, multi-national research efforts, that one of our

pipeline candidates may have broad therapeutic applicability in an indication that represents a large and growing disease segment outside of AML. This is an area where several large companies compete and should only increase the attractiveness of our relevant pipeline candidate from a licensing perspective. In 2016, we expect to initiate a clinical trial to demonstrate proof of concept for this indication and we look forward to providing you with more detail on this program in the coming months. Separately, we had also announced that we had successfully labelled actinium-225 to an antibody which enabled us to begin pre-clinical studies in certain hematological indications. This fulfills our promise of a third, pipeline candidate and we are equally excited about this program as we believe the construct has broad applicability in several liquid cancers. Our work in both programs brings us great excitement as these programs are not only as exciting as Iomab-B and Actimab-A from a market potential perspective but also serve to validate both our scientific and technical capabilities to partners.

Key Hires Make Actinium Stronger and Well-Positioned to Deliver on Its Corporate Goals

In 2015 we successfully recruited and retained talented professionals to our executive, clinical development, project management, regulatory, quality control and manufacturing teams. The Actinium team, which now totals 16 employees, is comprised of experts in their respective fields that we believe possess the knowledge and experience to execute our business strategy and development of our programs. We will continue to identify and recruit talented professionals consistent with our strategy to develop Actinium into an industry leading immuno-oncology company.

Beginning in February 2015, Actinium engaged Dr. Roland Turck as a senior advisor to our Board of Directors to help guide Iomab-B's clinical development and regulatory strategy with the goal of crafting the most efficient development program possible. In July 2015, our Executive Chairman, Mr. Sandesh Seth, resigned from his position as Head of Healthcare Investment Banking at Laidlaw & Co. to focus his efforts on Actinium. We are pleased to have his undivided attention, energy and myriad skill sets being brought to bear for the Company as we gear up for the future. Notable hires in 2015 include Dr. Felix Garzon, M.D., Ph.D., to our executive team as Senior Vice President, Head of Clinical Development. Dr. Garzon will leverage his deep knowledge of oncology product development, clinical trial management and regulatory experience to guide and manage the upcoming Phase 3 Iomab-B trial and Phase 2 Actimab-A trial. In addition, Actinium recently announced the appointment of Dr. Xin Du, Ph.D., to the position of Executive Director, Regulatory Affairs where he will be responsible for managing Actinium's regulatory submissions, CMC efforts, interactions with regulators and developing the Company's regulatory strategy for current and future programs. Dr. Du comes to Actinium with over 15 years of regulatory experience beginning with the FDA and subsequently with a number of major global pharmaceutical companies where he developed a proven track record of product approvals, regulatory strategy and efficient regulatory submission management. We also announced the appointment of Dr. Sri Srivastava, Ph.D., PMP, to the position of Associate Director of Project Management. In this position, Dr. Srivastava will be responsible for the management of operations for the Actimab-A Phase 2 clinical trial. His career includes tenures at Parke-Davis (now Pfizer), Purdue Pharma, Organon, Janssen and ClinTech Research. Dr. Srivastava spent a decade at ClinTech Research where he provided consulting services focused on clinical operations for emerging biopharmaceuticals including management of randomized Phase 2 clinical trials, clinical trial site and CRO selection and management and the development of study related documentation

We are proud to have assembled a team of such accomplished professionals. Their belief in our Iomab-B and Actimab-A programs and their commitment to their development give us great confidence for our future. We will continue to add key professionals to the Actinium team as we strive to build an organization and corporate culture that promotes stakeholder value.

Strong Balance Sheet Allows us to Achieve Value Creating Milestones

During the first nine months of 2015, we strengthened our cash position in preparation of moving Iomab-B into its Phase 3 trial and the advancement of Actimab-A into Phase 2 development. With a September 30, 2015 cash balance of \$24.8 million, we believe the Company has sufficient capital to meet our major near-term milestones of producing interim clinical trial results in 2016 and early 2017 to drive shareholder value.

A Promising Outlook in 2016 Building of Successes of A Challenging 2015

Actinium has an ambitious corporate strategy focused initially on development of our Iomab-B and Actimab-A programs in order to generate shareholder value. It is our vision to progress these programs through their clinical

trials, obtain regulatory approval and launch these therapies commercially either alone or with partners. Our team is focused on executing on this vision in the most effective and efficient way possible and strategic licensing is very much a core element of our strategy. We find our developments of late to be very exciting based on positive clinical results for Actimab-A and overcoming the technical challenges of Iomab-B and we look forward to delivering on our objectives for 2016.

Actinium's major objectives for 2016 as we transition from a Company with one Phase 1 trial to a Company involved with as many as three trials in Phase 3 (Iomab-B), Actimab-A (Phase 2) and New Indication (Proof-of-Concept) are:

- Execute our corporate transformation from an early-stage to a later stage company
- Initiate the pivotal Phase 3 study for Iomab-B and produce initial Data Safety Monitoring Board updates
- Start the Phase 2 trial for Actimab-A and generate interim results showing proof of concept
- Begin proof of concept studies in new indication and generate supportive data
- Launch our fourth program based on previously announced antibody labeled with actinium-225
- Actively explore strategic licensing and collaborations as appropriate
- Further expand the business, technical and clinical development teams to scale with expanded operating plan for 2016 and beyond

In summary, we believe that 2016 will be a transformational year that will result in transformation of Actinium Pharmaceuticals to a later-stage clinical development company with additional pipeline products. We have overcome many challenges with few resources in 2015. Actinium is now a stronger organization that is better capitalized and equipped to deliver value to shareholders. We have assembled a team and developed a corporate culture that is committed to executing on our milestones, delivering on our strategy and creating value for our stakeholders. We look forward to an exciting 2016 and to updating all our shareholders about the clinical progress of Iomab-B and Actimab-A, and with more information related to the new programs in the near future. In addition, we intend to ramp up our efforts to form alliances strategically with potential partners to extend our product development efforts and extend our geographic reach in key markets outside the United States.

Our team wishes to thank our shareholders again for their support in Actinium this year. As can be clearly seen from the highlights of our achievements listed above, we have made great progress since our shareholder update in July 2015. However, we are acutely aware that delivering on our primary objectives of bringing Iomab-B to market in as short a time frame as possible, establishing the clinical validity of Actimab-A for the treatment of AML, and expanding our pipeline requires us to meet nearer-term milestones on time. Let me assure you that our entire team is energized and completely focused on meeting our corporate objectives.

We hope that you will be supportive of our goals to continue on your behalf to provide breakthrough cancer therapies for unmet medical needs and in the process enhance value to the company and its shareholders. Please send in your completed proxy form as soon as possible as indicated in the proxy materials. We hope we will see many of you at the Shareholder Meeting.

On behalf of everyone at Actinium Pharmaceuticals, I would like to reiterate our appreciation to our stockholders for their support and continued confidence. The coming year will be a very important year for Actinium and we look forward to serving you.

Sincerely,

/S/ Kaushik J. Dave

QUESTIONS AND ANSWERS

Following are some commonly asked questions raised by our stockholders and answers to each of those questions.

What may I vote on at the annual meeting?

At the annual meeting, stockholders will consider and vote upon the following matters:

- To elect Sandesh Seth and Sergio Traversa as Class II directors to serve for a three-year term that expires at the 2018 Annual Meeting of Stockholders, or until his successor is elected and qualified or until his earlier resignation or removal;
- To ratify the appointment of GBH CPAs, PC as our independent registered public accounting firm;

- such other matters as may properly come before the annual meeting or any adjournments thereof.

How does the Board of Directors recommend that I vote on the proposals?

The Board of Directors recommends a vote “FOR” each of the nominees to the Board of Directors, “FOR” the proposal ratifying the appointment of GBH CPAs, PC, and “FOR” the approval of an amendment to our stock plan to increase the shares authorized under the plan by 3.5 million shares.

How do I vote?

Whether you plan to attend the annual meeting or not, we urge you to vote by proxy. If you vote by proxy, the individuals named on the proxy card applicable to your class of stock, or your “proxies,” will vote your shares in the manner you indicate. You may specify whether your shares: should be voted for or withheld for the nominee for director; and should be voted for, against or abstained with respect to the ratification of the appointment of the Company’s independent registered public accounts. Voting by proxy will not affect your right to attend the annual meeting. If your shares are registered directly in your name through our transfer agent, Action Stock Transfer Corporation, or you have stock certificates registered in your name, you may submit a proxy to vote:

Edgar Filing: Actinium Pharmaceuticals, Inc. - Form DEF 14A

- By Internet or by telephone. Follow the instructions attached to the proxy card to submit a proxy to vote by Internet or telephone.
- By mail. If you received one or more proxy cards by mail, you can vote by mail by completing, signing, dating and returning the enclosed proxy card applicable to your class of stock in the enclosed postage prepaid envelope. Your proxy will be voted in accordance with your instructions. If you sign the proxy card but do not specify how you want your shares voted, they will be voted as recommended by our Board of Directors.

- In person at the meeting. If you attend the annual meeting, you may deliver your completed proxy card in person or you may vote by completing a ballot, which will be available at the annual meeting. You are required to register in advance of the annual meeting if you plan to attend the annual meeting in person. If you wish to register in advance of the annual meeting, please contact our investor relations office by no later than December 15, 2015, by e-mail to soloughlin@actiniumpharma.com, fax at (732) 243-9499, mail to Actinium Pharmaceuticals, Inc., 757 Third Avenue, 21st Floor, New York, New York 10017 or telephone at (212) 376-6214.

Telephone and Internet voting facilities for all stockholders of record will be available 24-hours a day and will close at 11:59 p.m., Eastern Standard Time, on December 21, 2015.

If your shares are held in “street name” (held in the name of a bank, broker or other nominee who is the holder of record), you must provide the bank, broker or other nominee with instructions on how to vote your shares and can do so as follows:

- By Internet or by telephone. Follow the instructions you receive from the record holder to vote by Internet or telephone.
- By mail. You should receive instructions from the record holder explaining how to vote your shares.
- In person at the meeting. Contact the broker, bank or other nominee who holds your shares to obtain a broker’s proxy card and bring it with you to the annual meeting. You will not be able to vote at the annual meeting unless you have a proxy card from your broker, bank or other nominee.

What happens if additional matters are presented at the annual meeting?

Other than the election of directors, the ratification of the appointment of our auditor, the amendment of our charter to increase the authorized shares of the Company, and the amendment of our charter to remove the board size and update the classified board provisions, we are not aware of any other business to be acted upon at the annual meeting. If you grant a proxy, the person named as proxy holder, Sandesh Seth, our Executive Chairman and Kaushik Dave, Ph.D., our CEO, will have the discretion to vote your shares on any additional matters properly presented for a vote at the annual meeting.

What happens if I do not give specific voting instructions?

If you hold shares in your name and you sign and return a proxy card without giving specific voting instructions, your shares will be voted as recommended by our Board of Directors on all matters and as the proxy holder may determine in her discretion with respect to any other matters properly presented for a vote before the annual meeting. If you hold your shares through a stockbroker, bank or other nominee and you do not provide instructions on how to vote, your stockbroker or other nominee may exercise their discretionary voting power with respect to certain proposals that are considered as “routine” matters. For example, Proposal 2 — ratification of the appointment of GBH CPAs, PC as our independent registered public accounting firm is commonly considered as a routine matter, and thus your stockbroker, bank or other nominee may exercise their discretionary voting power with respect to Proposal 2. If the organization that holds your shares does not receive instructions from you on how to vote your shares on a non-routine matter, the organization that holds your shares will inform us that it does not have the authority to vote on these matters with respect to your shares. This is generally referred to as a “broker non-vote.” When the vote is tabulated for any particular matter, broker non-votes will be counted for purposes of determining whether a quorum is present, but will not otherwise be counted. In the absence of specific instructions from you, your broker does not have discretionary authority to vote your shares with respect to Proposal 1 — the election of Sandesh Seth and Sergio Traversa as members to our Board of Directors, and Proposal 3 — the amendment to our 2013 stock plan to increase the authorized shares under the plan by 3.5 million shares. We encourage you to provide voting instructions to the organization that holds your shares by carefully following the instructions provided in the notice.

What is the quorum requirement for the annual meeting?

On November 2, 2015, the Record Date for determining which stockholders are entitled to vote, there were 42,017,449 shares of our common stock outstanding which is our only class of voting securities. Each share of common stock entitles the holder to one vote on matters submitted to a vote of our stockholders. A majority of our

outstanding common shares as of the Record Date must be present at the annual meeting (in person or represented by proxy) in order to hold the meeting and conduct business. This is called a quorum. Your shares will be counted for purposes of determining if there is a quorum, even if you wish to abstain from voting on some or all matters introduced at the annual meeting, if you are present and vote in person at the meeting or have properly submitted a proxy card or voted by fax, by phone or by using the Internet.

How can I change my vote after I return my proxy card?

You may revoke your proxy and change your vote at any time before the final vote at the annual meeting. You may do this by signing a new proxy card with a later date, by voting on a later date by using the Internet (only your latest Internet proxy submitted prior to the annual meeting will be counted), or by attending the annual meeting and voting in person. However, your attendance at the annual meeting will not automatically revoke your proxy unless you vote at the annual meeting or specifically request in writing that your prior proxy be revoked.

Is my vote confidential?

Proxy instructions, ballots and voting tabulations that identify individual stockholders are handled in a manner that protects your voting privacy. Your vote will not be disclosed either within our company or to third parties, except:

- as necessary to meet applicable legal requirements;
- to allow for the tabulation of votes and certification of the vote; and
- to facilitate a successful proxy solicitation.

Any written comments that a stockholder might include on the proxy card will be forwarded to our management.

Where can I find the voting results of the annual meeting?

The preliminary voting results will be announced at the annual meeting. The final voting results will be tallied by our Inspector of Elections and reported in a Current Report on Form 8-K which we will file with the SEC within four business days of the date of the annual meeting.

How can I obtain a separate set of voting materials?

To reduce the expense of delivering duplicate voting materials to our stockholders who may have more than one Actinium Pharmaceuticals, Inc. stock account, we are delivering only one Notice to certain stockholders who share an address, unless otherwise requested. If you share an address with another stockholder and have received only one Notice, you may write or call us to request to receive a separate Notice. What is the voting requirement to elect directors?

Directors are elected by a plurality of the votes cast in person or by proxy at the annual meeting and entitled to vote on the election of directors. "Plurality" means that the nominees receiving the greatest number of affirmative votes will be elected as directors, up to the number of directors to be chosen at the meeting. Broker non-votes will not affect the outcome of the election of directors because brokers do not have discretion to cast votes on this proposal without instruction from the beneficial owner of the shares.

What is the voting requirement to approve the other two proposals?

The proposal to ratify the appointment of GBH CPAs, PC as our independent registered public accounting firm will be approved if there is a quorum and the votes cast "FOR" the proposal exceeds those cast against the proposal. The proposal to approve an amendment to our 2013 stock plan to increase the shares authorized under the plan will be approved if there is a quorum and the votes cast "FOR" the proposal reaches the majority of the outstanding voting power.

Abstentions and broker non-votes will be treated as shares that are present, or represented and entitled to vote for purposes of determining the presence of a quorum at the annual meeting. Abstentions will not be counted in determining the number of votes cast in connection with any matter presented at the annual meeting. Broker non-votes will not be counted as a vote cast on any matter presented at the annual meeting.

Do I Have Dissenters' (Appraisal) Rights?

Appraisal rights are not available to our shareholders with any of the proposals described above to be brought before the annual meeting of shareholders.

How can I communicate with the non-employee directors on the Actinium Pharmaceuticals, Inc. Board of Directors?

The Board of Directors encourages stockholders who are interested in communicating directly with the non-employee directors as a group to do so by writing to the non-employee directors in care of our Executive Chairman. Stockholders can send communications by mail to:

Sandesh Seth, Chairman of the Board and Executive Chairman ("Executive Chairman")
Actinium Pharmaceuticals, Inc.
757 Third Avenue, 21st floor

Directors may at any time review a log of all correspondence received by us that is addressed to the non-employee members of the Board of Directors and request copies of any such correspondence.

CORPORATE GOVERNANCE

Board of Directors

The Board of Directors oversees our business affairs and monitors the performance of management. In accordance with our corporate governance principles, the Board of Directors does not involve itself in day-to-day operations. The directors keep themselves informed through discussions with the Chief Executive Officer, the Executive Chairman, other key executives and by reading the reports and other materials that we send them and by participating in Board of Directors and committee meetings. Our directors hold office until their successors have been elected and duly qualified unless the director resigns or by reason of death or other cause is unable to serve in the capacity of director. Biographical information about our directors is provided in “Election of Directors — Proposal No. 1” on page 33.

Term of Office

Our directors are divided into three classes, designated Class I, Class II and Class III. Class I shall consists of two directors, Class II shall consist of two directors, and Class III consists of the chief executive officer.

The term of each director is set forth below or until their successors are duly elected:

Director	Class	Term (from 2015 Annual Meeting)
Kaushik Dave	Class III	12 months
David Nicholson	Class I	24 months
Sandesh Seth	Class II	36 months
Sergio Traversa	Class II	36 months
Richard I. Steinhart	Class I	24 months

Notwithstanding the foregoing, each director shall serve until his successor is duly elected and qualified, or until his or her retirement, death, resignation or removal. In order to implement a classified board of directors, Class I shall serve a 24 month term from the date of the 2015 Annual Shareholders Meeting; Class II shall serve a 36 month term from the date of the 2015 Annual Shareholders Meeting; and Class III shall serve a 12 month term from the date the date of the 2015 Annual Shareholders Meeting. Directors elected at each annual meeting commencing in 2014 shall be elected for a 3 year term.

Director Independence

We use the definition of “independence” of the NYSE MKT to make this determination. We are listed on the NYSE MKT under the symbol “ATNM”. NYSE MKT corporate governance rule Sec. 803(A)(2) provides that an “independent director” means a person other than an executive officer or employee of the company. No director qualifies as independent unless the issuer’s board of directors affirmatively determines that the director does not have a relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. The following is a non-exclusive list of persons who shall not be considered independent under NYSE MKT rules:

- a director who is, or during the past three years was, employed by the company, other than prior employment as an interim executive officer (provided the interim employment did not last longer than one year);
- a director who accepted or has an immediate family member who accepted any compensation from the company in excess of \$120,000 during any period of twelve consecutive months within the three years preceding the determination of independence, other than the following:
 - (i) compensation for board or board committee service;

- (ii) compensation paid to an immediate family member who is an employee (other than an executive officer) of the company,
- (iii) compensation received for former service as an interim executive officer (provided the interim employment did not last longer than one year); or
- (iv) benefits under a tax-qualified retirement plan, or non-discretionary compensation;

- a director who is an immediate family member of an individual who is, or at any time during the past three years was, employed by the company as an executive officer;
- a director who is, or has an immediate family member who is, a partner in, or a controlling shareholder or an executive officer of, any organization to which the company made, or from which the company received, payments (other than those arising solely from investments in the company's securities or payments under non-discretionary charitable contribution matching programs) that exceed 5% of the organization's consolidated gross revenues for that year, or \$200,000, whichever is more, in any of the most recent three fiscal years;
- a director who is, or has an immediate family member who is, employed as an executive officer of another entity where at any time during the most recent three fiscal years any of the issuer's executive officers serve on the compensation committee of such other entity; or
- a director who is, or has an immediate family member who is, a current partner of the company's outside auditor, or was a partner or employee of the company's outside auditor who worked on the company's audit at any time during any of the past three years.

Since our common stock is listed on the NYSE MKT exchange, we are required to meet the exchanges independence requirements. Under the above-mentioned NYSE MKT director independence rules, David Nicholson, Richard I. Steinhart and Sergio Traversa are the only independent directors of the Company.

Executive Chairman

In August 2014, our Board created the office of Executive Chairman of the Company and appointed Sandesh Seth, our Chairman of the Board, as Executive Chairman of our Company.

As Executive Chairman of our Company, Mr. Seth acts as an officer and consultant and, as such, performs his duties subject in all instances to the oversight of our board of directors and the power of our board of directors to approve all applicable corporation actions (which powers shall not be vested in the office of Executive Chairman). The Executive Chairman is not an "executive officer" (as defined in SEC Rule 3b-7) of our Company as the role of the Executive Chairman by design is not an officer who performs a policy making function for our Company. Rather, the Executive Chairman serves as a conduit between our board and our executive management team and is available to act as an advisor and consultant to our executive management team, who are responsible for development and implementation of our corporate policies under the supervision of our board of directors.

Subject to such other roles, duties and projects as may (consistent with the terms and provisions of our Amended and Restated Bylaws and the resolutions of our board that formed the office of Executive Chairman) be assigned by our board to the Executive Chairman, the primary responsibilities of the Executive Chairman are as follows:

- (i) Chair annual and special Board meetings and annual stockholder meetings and, subject to availability, attend meetings of the committees of the Board;
- (ii) Provide overall Board leadership and establish guiding principles for the Board;
- (iii) Manage the affairs of the Board and facilitate Board action in such a way that strategic and policy decisions are fully discussed, debated and decided by the Board;
- (iv) In cooperation with the President, and Chief Executive Officer, and other Company officers as appropriate or selected by the Executive Chairman/Board, ensure that our strategic orientation is defined and communicated to the Board for its approval and that all material issues are dealt with by the Board in a timely manner;

- (v) Ensure that the Board has efficient communication channels regarding all material issues concerning the business and see to it that directors are informed about these issues;
- (vi) Act as a representative of the Board and consult with Board members outside the regularly scheduled meetings of the Board and of Board committees;

- (vii) Meet and confer as often as required with our President, and Chief Executive Officer and executive management to ensure that there is efficient communication between the Executive Chairman, the President, and Chief Executive Officer, other executive management and Board members;
- (viii) Offer advice and consultation to the President, and Chief Executive Officer and executive management on the overall management of the business and affairs of our company as well as specific matters upon the request of the President, and Chief Executive Officer and or the Board;
- (ix) In consultation and partnership with the President, and Chief Executive Officer, the Executive Chairman may act as our representative with business partners of our company; and
- (x) At the request of the Board or the President, and Chief Executive Officer the Executive Chairman may be placed in charge of special corporate strategic initiatives or projects.

Board Leadership Structure

Our Board has a policy that calls for the role of Chairman of the Board and Chief Executive Officer (CEO) to be separate, as it believes that the most effective leadership structure for us at this time is not to have these roles combined. Dr. Kaushik J. Dave serves as our Chief Executive Officer and Sandesh Seth is our Chairman of the Board who serves as the Executive Chairman. We believe this structure of having a separate CEO and Chairman provides proper oversight of our operations.

Board of Directors Meetings and Attendance

During the fiscal year 2014, the Board of Directors held 43 meetings. Each member of our Board was present at eighty-five (85%) percent or more of the Board meetings held. No actions were approved by unanimous written consent. It is our policy that directors should make every effort to attend the annual meeting of stockholders, and each of our directors: Sandesh Seth, Kaushik Dave, David Nicholson, Richard I. Steinhart and Sergio Traversa, attended the annual meeting of stockholders in 2014.

Code of Business Conduct and Ethics

We adopted a Code of Business Conduct and Ethics that applies to all of our directors, officers and employees, including our principal executive officer and principal financial and accounting officer. A copy of the Code of Business Conduct and Ethics is available on the Investor section of our website at www.actiniumpharma.com. We will post on our website any amendment to our Code of Business Conduct and Ethics or waivers of our Code of Business Conduct and Ethics for directors and executive officers.

Complaints Regarding Accounting Matters

The Audit Committee has established procedures for:

- the receipt, retention and treatment of complaints regarding accounting, internal accounting controls, or auditing matters; and
- the confidential, anonymous submission by our employees of concerns regarding questionable accounting or auditing matters.

Communications with Directors

The Board of Directors has approved procedures for stockholders to send communications to individual directors or the non-employee directors as a group. Written correspondence should be addressed to the director or directors in care of Sandesh Seth, Executive Chairman of Actinium Pharmaceuticals, Inc., 757 Third Avenue, 21st Floor, New York, NY 10017. Correspondence received that is addressed to the non-employee directors will be reviewed by our corporate secretary or his designee, who will regularly forward to the non-employee directors a summary of all such correspondence and copies of all correspondence that, in the opinion of our corporate secretary, deals with the functions of the Board of Directors or committees thereof or that the corporate secretary otherwise

determines requires their attention. Directors may at any time review a log of all correspondence received by Actinium Pharmaceuticals, Inc. that is addressed to the non-employee members of the Board of Directors and request copies of any such correspondence. You may also contact individual directors by calling our principal executive offices at (212) 376-6214.

Legal Proceedings

There are no legal proceedings to which any director, director nominee, officer or affiliate of our company, any owner of record or beneficially of more than 5% of common stock, or any associate of any such director, officer, affiliate of our company or security holder that is a party adverse to our company or any of our subsidiaries or has a material interest adverse to us.

Compliance With Section 16(a) of the Exchange Act

Based solely upon a review of copies of such forms filed on Forms 3, 4, and 5, and amendments thereto furnished to us we believe that as of the date of this proxy, our executive officers, directors and greater than 10 percent beneficial owners have complied on a timely basis with all Section 16(a) filing requirements except for the following: Form 4's filed for officers and directors on March 16, 2015; Form 3 filed for Mr. Nicholson on March 17, 2015; and Form 4's filed for Dr. Dave and Dr. Cicic on May 22, 2015.

BOARD COMMITTEES

Committees of the Board of Directors

Our board of directors has formed three standing committees: audit, compensation and corporate governance. Actions taken by our committees are reported to the full board. Each of our committees has a charter and each charter is posted on our website.

Audit Committee

Our audit committee, which currently consists of three directors, provides assistance to our board in fulfilling its legal and fiduciary obligations with respect to matters involving the accounting, financial reporting, internal control and compliance functions of the company. Our audit committee employs an independent registered public accounting firm to audit the financial statements of the company and perform other assigned duties. Further, our audit committee provides general oversight with respect to the accounting principles employed in financial reporting and the adequacy of our internal controls. In discharging its responsibilities, our audit committee may rely on the reports, findings and representations of the company's auditors, legal counsel, and responsible officers. Our board has determined that all members of the audit committee are financially literate within the meaning of SEC rules and under the current listing standards of the NYSE MKT. Richard I. Steinhart is the chairman of the audit committee.

Under NYSE MKT rules (Section 803(b)(2)(b) of the NYSE MKT Company Guide), one director who is not independent under general audit committee purposes, but who satisfies the requirements of Rule 10A-3 under the Securities Exchange Act of 1934, and is not a current officer or employee, may be appointed to the audit committee, if the board, under exceptional and limited circumstances, determines that membership on the committee by the individual is required by the best interests of the issuer and its shareholders. In August 2015, the board appointed Mr. Traversa to the audit committee under this exception. The board has determined that Mr. Traversa's appointment to the audit committee is in the best interests of the Company and its shareholders given his financial experience and knowledge of public companies. Mr. Traversa may not under this exception serve in excess for consecutive years and may not chair the audit committee.

Compensation Committee

Our compensation committee, which currently consists of three directors, establishes executive compensation policies consistent with the company's objectives and stockholder interests. Our compensation committee also reviews the performance of our executive officers and establishes, adjusts and awards compensation, including incentive-based compensation, as more fully discussed below. In addition, our compensation committee generally is responsible for:

- establishing and periodically reviewing our compensation philosophy and the adequacy of compensation plans and programs for our directors, executive officers and other employees;
- overseeing our compensation plans, including the establishment of performance goals under the company's incentive compensation arrangements and the review of performance against those goals in determining incentive award payouts;

- overseeing our executive employment contracts, special retirement benefits, severance, change in control arrangements and/or similar plans;
- acting as administrator of any company stock option plans; and
- overseeing the outside consultant, if any, engaged by the compensation committee.

Our compensation committee periodically reviews the compensation paid to our non-employee directors and the principles upon which their compensation is determined. The compensation committee also periodically reports to the board on how our non-employee director compensation practices compare with those of other similarly situated public corporations and, if the compensation committee deems it appropriate, recommends changes to our director compensation practices to our board for approval.

Outside consulting firms retained by our compensation committee and management also will, if requested, provide assistance to the compensation committee in making its compensation-related decisions.

Corporate Governance Committee

Corporate Governance Committee, which currently consists of three directors, monitors our corporate governance system.

AUDIT COMMITTEE REPORT

Report of the Audit Committee of the Board of Directors

The Audit Committee provides assistance to the Board of Directors in fulfilling its oversight responsibilities relating to our corporate accounting and reporting practices toward assurance of the quality and integrity of our consolidated financial statements. The purpose of the Audit Committee is to serve as an independent and objective party to monitor our financial reporting process and internal control system; oversee, review and appraise the audit activities of our independent registered public accounting firm and internal auditing function, maintain complete, objective and open communication between the Board of Directors, the independent accountants, financial management and the internal audit function.

Our independent registered public accounting firm reports directly to the Audit Committee and the Audit Committee is solely responsible to appoint or replace our independent registered public accounting firm and to assure its independence and to provide oversight and supervision thereof. The Audit Committee determines compensation of the independent registered public accounting firm and has established a policy for approval of non-audit related engagements awarded to the independent registered public accounting firm. Such engagements must not impair the independence of the registered public accounting firm with respect to our company as prescribed by the Sarbanes-Oxley Act of 2002; thus payment amounts are limited and non-audit related engagements must be approved in advance by the Audit Committee. The Audit Committee determines the extent of funding that we must provide to the Audit Committee to carry out its duties and has determined that such amounts were sufficient in 2014.

With respect to the fiscal year ended December 31, 2014, in addition to its other work, the Audit Committee:

- Reviewed and discussed with management our audited consolidated financial statements as of December 31, 2014 and for the year then ended; and
- Discussed with GBH CPAs, PC the matters required to be discussed by Statement on Auditing Standards No. 61, "Communication with Audit Committees," as amended, with respect to its review of the findings of the independent registered public accounting firm during its examination of our financial statements.

The Audit Committee recommended, based on the review and discussion summarized above, that the Board of Directors include the 2014 audited consolidated financial statements in the 2014 Form 10-K for the fiscal year ended December 31, 2014 for filing with the SEC.

The Audit Committee has developed policies and procedures regarding the approval of all non-audit services that are to be rendered by our independent registered public accounting firm, as permitted under applicable laws and the corresponding fees for such services. In situations where the full Audit Committee is unavailable to pre-approve any permitted non-audit services to be rendered by our independent registered public accounting firm: (i) our Chief Executive Officer will evaluate the proposed engagement to confirm that the engagement is not prohibited by any applicable rules of the SEC, applicable quotation service or exchange, (ii) following such confirmation by the Chief Executive Officer, the Chairperson of the Audit Committee will determine whether we should engage our independent registered public accounting firm for such permitted non-audit services and, if so, negotiate the terms of the engagement with our independent registered public accounting firm and (iii) the Chairperson of the Audit Committee will report to the full Audit Committee at its next regularly scheduled meeting about any engagements of our independent registered public accounting firm for permitted non-audit services that have been approved by the Chairperson. Alternatively, after confirmation by the Chief Executive Officer, the full committee may pre-approve engagements of our independent registered public accounting firm at Audit Committee meetings.

Compensation Discussion and Analysis

The Compensation Committee of our board of directors has the responsibility to review, determine and approve the compensation for our executive officers. Further, the Compensation Committee oversees our overall compensation strategy, including compensation policies, plans and programs that cover all employees. In 2013, our Stockholders voted on an advisory basis with respect to our compensation program for named executive officers. Of the votes cast (excluding abstentions and broker non-votes), 94.1% were cast in support of the program. In light of this, in reviewing the executive compensation program for 2015, the Compensation Committee decided to retain the general overall program design, which ties a significant portion of the executives’ pay closely with our performance. In the future, the Compensation Committee will continue to consider the executive compensation program in light of changing circumstances and Stockholder feedback.

We currently employ two executive officers, each of whom serves as a “Named Executive Officer” (or NEO) for purposes of SEC reporting: (1) Kaushik J. Dave., our Chief Executive Officer (who we refer to in this Compensation Discussion and Analysis as our CEO); and (2) Dragan Cicic, our Chief Scientific Officer.

This Compensation Discussion and Analysis sets forth a discussion of the compensation for our NEOs as well as a discussion of our philosophies underlying the compensation for our NEOs and our employees generally.

Objectives of Our Compensation Program

The Compensation Committee’s philosophy seeks to align the interests of our stockholders, officers and employees by tying compensation to individual and company performance, both directly in the form of salary or annual cash incentive payments, and indirectly in the form of equity awards. The objectives of our compensation program enhance our ability to:

- attract and retain qualified and talented individuals; and

- provide reasonable and appropriate incentives and rewards to our team for building long-term value within our company, in each case in a manner comparable to companies similar to ours.

In addition, we strive to be competitive with other similarly situated companies in our industry. The process of developing pharmaceutical products and bringing those products to market is a long-term proposition and outcomes may not be measurable for several years. Therefore, in order to build long-term value for our company and its stockholders, and in order to achieve our business objectives, we believe that we must compensate our officers and employees in a competitive and fair manner that reflects current company activities but also reflects contributions to building long-term value.

We utilize the services of StreeterWyatt Governance LLC to review compensation programs of peer companies in order to assist the Compensation Committee in determining the compensation levels for our NEOs, as well as for other employees of our company. StreeterWyatt is a recognized independent consulting company and services clients throughout the United States.

Elements of Our Compensation Program and Why We Chose Each

Main Compensation Components

Our company-wide compensation program, including for our NEOs, is broken down into three main components: base salary, performance cash bonuses and potential long-term compensation in the form of stock options or restricted stock awards. We believe these three components constitute the minimum essential elements of a competitive compensation package in our industry.

Salary

Base salary is used to recognize the experience, skills, knowledge and responsibilities required of our NEOs as well as recognizing the competitive nature of the biopharmaceutical industry. This is determined partially by evaluating our peer companies as well as the degree of responsibility and experience levels of our NEOs and their overall contributions to our company. Base salary is one component of the compensation package for NEOs; the other components being cash bonuses, annual equity grants, and company benefit programs. Base salary is determined in advance whereas the other components of compensation are awarded in varying degrees following an assessment of the performance of a NEO. This approach to compensation reflects the philosophy of our board of directors and its Compensation Committee to emphasize and reward, on an annual basis, performance levels achieved by our NEOs.

Performance Bonus Plan

We have a performance bonus plan under which bonuses are paid to our NEOs based on achievement of company performance goals and objectives established by the Compensation Committee and/or our board of directors as well as on individual performance. The bonus program is discretionary and is intended to: (i) strengthen the connection between individual compensation and our company's achievements; (ii) encourage teamwork among all disciplines within our company; (iii) reinforce our pay-for-performance philosophy by awarding higher bonuses to higher performing employees; and (iv) help ensure that our cash compensation is competitive. Depending on the cash position of the company, the Compensation Committee and our board of directors have the discretion to not pay cash bonuses in order that we may conserve cash and support ongoing development programs and commercialization efforts. Regardless of our cash position, we consistently grant annual merit-based stock options to continue incentivizing both our senior management and our employees.

Based on their employment agreements, each NEO is assigned a target payout under the performance bonus plan, expressed as a percentage of base salary for the year. Actual payouts under the performance bonus plan are based on the achievement of corporate performance goals and an assessment of individual performance, each of which is separately weighted as a component of such officer's target payout. For the NEOs, the corporate goals receive the highest weighting in order to ensure that the bonus system for our management team is closely tied to our corporate performance. Each employee also has specific individual goals and objectives as well that are tied to the overall corporate goals. For employees, mid-year and end-of-year progress is reviewed with the employees' managers.

Equity Incentive Compensation

We view long-term compensation, currently in the form of stock options and restricted stock generally vesting in annual increments over four years, as a tool to align the interests of our NEOs and employees generally with the creation of stockholder value, to motivate our employees to achieve and exceed corporate and individual objectives and to encourage them to remain employed by the company. While cash compensation is a significant component of employees' overall compensation, the Compensation Committee and our board of directors (as well as our NEOs) believe that the driving force of any employee working in a small biotechnology company should be strong equity participation. We believe that this not only creates the potential for substantial longer term corporate value but also serves to motivate employees and retain their loyalty and commitment with appropriate personal compensation.

Other Compensation

In addition to the main components of compensation outlined above, we also provide contractual severance and/or change in control benefits to our Executive Chairman and CEO. The change in control benefits for all applicable persons have a “double trigger.” A double-trigger means that the executive officers will receive the change in control benefits described in the agreements only if there is both (1) a Change in Control of our company (as defined in the

agreements) and (2) a termination by us of the applicable person's employment "without cause" or a resignation by the applicable persons for "good reason" (as defined in the agreements) within a specified time period prior to or following the Change in Control. We believe this double trigger requirement creates the potential to maximize stockholder value because it prevents an unintended windfall to management as no benefits are triggered solely in the event of a Change in Control while providing appropriate incentives to act in furtherance of a change in control that may be in the best interests of the stockholders. We believe these severance or change in control benefits are important elements of our compensation program that assist us in retaining talented individuals at the executive and senior managerial levels and that these arrangements help to promote stability and continuity of our executives and senior management team. Further, we believe that the interests of our stockholders will be best served if the interests of these members of our management are aligned with theirs. We believe that providing change in control benefits lessens or eliminates any potential reluctance of members of our management to pursue potential change in control transactions that may be in the best interests of the stockholders. We also believe that it is important to provide severance benefits to members of our management, to promote stability and focus on the job at hand.

We also provide benefits to the executive officers that are generally available to all regular full-time employees of our company, including our medical and dental insurance, and a 401(k) plan. At this time, we do not provide any perquisites to any of our NEOs. Further, we do not have deferred compensation plans, pension arrangements or post-retirement health coverage for our executive officers or employees. All of our employees not specifically under contract are "at-will" employees, which means that their employment can be terminated at any time for any reason by either us or the employee. Our Executive Chairman and CEO have employment agreements that provide lump sum compensation in the event of their termination without cause or, under certain circumstances, upon a Change of Control.

Determination of Compensation Amounts

A number of factors impact the determination of compensation amounts for our NEOs, including the individual's role in the company and individual performance, length of service with the company, competition for talent, individual compensation package, assessments of internal pay equity and industry data. Stock price performance has generally not been a factor in determining annual compensation because the price of our common stock is subject to a variety of factors outside of our control.

Industry Survey Data

In collaboration with StreeterWyatt, we establish and maintain a list of peer companies to best assure ourselves that we are compensating our executives on a fair and reasonable basis, as set forth above under the heading "Objectives of our Compensation Program." We also utilize StreetWyatt-prepared data for below-executive level personnel, which data focuses on similarly-sized bio-tech companies. The availability of peer data is used by the Compensation Committee strictly as a guide in determining compensation levels with regard to salaries, cash bonuses and performance related annual equity grants to all employees. However, the availability of this data does not imply that the Compensation Committee is under any obligation to exactly follow peer companies in compensation matters.

Determination of Base Salaries

As a guideline for NEO base salary, we perform formal benchmarks against respective comparable positions in our established peer group. We adjust salaries based on our assessment of our NEOs' levels of responsibility, experience, overall compensation structure and individual performance. The Compensation Committee is not obliged to raise salaries purely on the availability of data. Merit-based increases to salaries of executive officers are based on our assessment of individual performance and the relationship to applicable salary ranges. Cost of living adjustments may also be a part of that assessment.

Performance Bonus Plan

Concurrently with the beginning of each calendar year, preliminary corporate goals that reflect our business priorities for the coming year are prepared by the CEO with input from the other executive officers. These goals are weighted by relative importance. The draft goals and proposed weightings are presented to the Compensation Committee and the Board and discussed, revised as necessary, and then approved by our board of directors. The Compensation Committee then reviews the final goals and their weightings to determine and confirm their

appropriateness for use as performance measurements for purposes of the bonus program. The goals and/or weightings may be re-visited during the year and potentially restated in the event of significant changes in corporate strategy or the occurrence of significant corporate events. Following the agreement of our board of directors on the corporate objectives, the goals are then shared with all employees in a formal meeting(s), and are reviewed periodically throughout the year.

Determination of Equity Incentive Compensation

To assist us in assessing the reasonableness of our equity grant amounts, we have reviewed StreeterWyatt supplied information. Such information included equity data from a cross-section of similar companies in our industry.

Equity Grant Practices

All stock options and/or restricted stock granted to the NEOs and other executives are approved by the Compensation Committee. Exercise prices for options are set at the closing price of our common stock on the date of grant. Grants are generally made: (i) on the employee's start date and (ii) at board of director meetings held each February and following annual performance reviews. However, grants have been made at other times during the year. The size of year-end grants for each NEO is assessed against our internal equity guidelines. Current market conditions for grants for comparable positions and internal equity may also be assessed. Also, grants may be made in connection with promotions or job related changes in responsibilities. In addition, on occasion, the Compensation Committee may make additional special awards for extraordinary individual or company performance.

Compensation Setting Process

At the February meetings of our board of directors and the Compensation Committee, overall corporate performance and relative achievement of the corporate goals for the prior year are assessed. The relative achievement of each goal is assessed and quantified and the summation of the individual components results in a corporate goal rating, expressed as percentages. The Compensation Committee then approves the final disbursement of salary increases, cash bonuses and option or restricted stock grants.

The Compensation Committee looks to the CEO's performance assessments of the other NEOs and his recommendations regarding a performance rating for each, as well as input from the other members of our board of directors. These recommendations may be adjusted by the Compensation Committee prior to finalization. For the CEO, the Compensation Committee evaluates his performance, taking into consideration input from the other members of our board of directors, and considers the achievement of overall corporate objectives by both the CEO specifically and the company generally. The CEO is not present during the Compensation Committee's deliberations regarding his compensation.

The Compensation Committee has the authority to directly engage, at our company's expense, any compensation consultants or other advisors (such as StreeterWyatt) that it deems necessary to determine the amount and form of employee, executive and director compensation. In determining the amount and form of employee, executive and director compensation, the Compensation Committee has reviewed and discussed historical salary information as well as salaries for similar positions at comparable companies. However the availability of this data does not imply that the Compensation Committee is under any obligation to exactly follow peer companies' compensation practices.

We paid consultant fees to StreeterWyatt of \$17,500. NEOs may have indirect input in the compensation results for other executive officers by virtue of their participation in the performance review and feedback process for the other executive officers.

PROPOSAL 3

APPROVAL OF AMENDMENT OF THE 2013 AMENDED AND RESTATED STOCK PLAN, AS AMENDED, TO INCREASE THE NUMBER OF SHARES OF COMMON STOCK AUTHORIZED FOR ISSUANCE UNDER THE PLAN By 3.5 MILLION SHARES FROM 5,750,000 TO 9,250,000

Description of Proposed Amendment

On October 2, 2015, the Board unanimously approved an amendment (the “Plan Amendment”) to the Company’s 2014 Stock option and Equity Incentive Plan, as amended (the “Plan”), subject to stockholder approval, to increase the number of shares of Common Stock authorized for issuance under the Plan by 3.5 million shares from 5,750,000 to 9,250,000.

The full text of the proposed Plan Amendment is set out in Annex A to this Proxy Statement. The text of the proposed Plan Amendment is subject to modification to include such changes as the Board deems necessary and advisable to affect the increase in the number of shares of Common Stock reserved and available for issuance under the Plan. Stockholders are being asked to approve the Plan Amendment.

Vote Required and Recommendation

The approval of the Plan Amendment will be made upon the affirmative vote of the majority of shares cast on the proposal. Abstentions and broker non-votes will have no direct effect on the outcome of this proposal. If the proposal is not approved by the stockholders, the Plan Amendment will not be effective and the proposal will not be implemented.

Reasons for the Plan Amendment

2013 Plan Generally

Our 2013 Plan is currently comprised of 5,750,000 shares of Common Stock.

The purpose of the Plan is to provide a means through which the Company and its affiliates may attract and retain key personnel and to provide a means whereby directors, officers, managers, employees, consultants and advisors (and prospective directors, officers, managers, employees, consultants and advisors) of the Company and its affiliates can acquire and maintain an equity interest in the Company, or be paid incentive compensation, which may (but need not) be measured by reference to the value of Common Shares, thereby strengthening their commitment to the welfare of the Company and its affiliates and aligning their interests with those of the Company’s stockholders.

Increase in Size of Plan

Currently, awards (consisting of options to purchase shares of Common Stock) issued under the Plan total 4.3 million shares of Common Stock.

The Board determined to increase the number of shares of Common Stock reserved and available for issuance under the Plan by 3.5 million shares because it believes that the current number is insufficient for the purposes of the Plan for future issuances. The market for quality personnel is competitive, and the ability to obtain and retain competent personnel is of great importance to the Company’s business operations. In addition, the Board is seeking to satisfy grants made subject to stockholder approval as stated above as well as the Company’s forecasted needs for equity compensation.

Effects of the Plan Amendment

As a result of the Plan Amendment, there will be an increase in the total number of shares of Common Stock reserved for issuance under the Plan. This will provide the Company with the ability to grant more awards than are currently available under the Plan to eligible recipients including employees, directors, consultants and advisors. The issuance in the future of awards under the Plan consisting of full value awards and options to purchase shares of Common Stock may have the effect of diluting the earnings per share and book value per share, as well as the stock ownership and voting rights, of the holders of the currently outstanding shares of Common Stock. The effective

increase in the number of authorized but unissued shares of Common Stock which may be issued as awards under the Plan may be construed as having an anti-takeover effect by permitting the issuance of shares to purchasers who might oppose a hostile takeover bid or oppose any efforts to amend or repeal certain provisions of the Company's Certificate of Incorporation or Bylaws. Holders of the Common Stock have no preemptive or other subscription rights. There are no other material differences to the Plan as a result of the Plan Amendment.

ANNUAL REPORT ON FORM 10-K

As required, we filed our 2014 Form 10-K, as amended, with the SEC. Stockholders may obtain, free of charge, a copy of the 2013 Form 10-K by writing to us at Actinium Pharmaceuticals, Inc., 757 Third Avenue, 21st Floor, New York NY 10017, Attention: Corporate Secretary, or from our website, www.actiniumpharma.com under the heading "Investor Relations" and the subheading "Company Financial Reports."

HOUSEHOLDING OF PROXY MATERIALS

SEC rules concerning the delivery of annual disclosure documents allow us or your broker to send a single Notice or, if applicable, a single set of our proxy materials to any household at which two or more of our stockholders reside, if we or your broker believe that the stockholders are members of the same family. This practice, referred to as "householding," benefits both you and us. It reduces the volume of duplicate information received at your household and helps us to reduce our expenses. The rule applies to our Notices, annual reports, proxy statements and information statements. Once you receive notice from your broker or from us that communications to your address will be "household," the practice will continue until you are otherwise notified or until you revoke your consent to the practice. Stockholders who participate in householding will continue to have access to and utilize separate proxy voting instructions.

If your household received a single Notice or, if applicable, a single set of proxy materials this year, but you would prefer to receive your own copy, please contact Broadridge Financial Solutions, Inc., by calling their toll free number, 1-866-540-7095.

If you do not wish to participate in "householding" and would like to receive your own Notice or, if applicable, set of our annual disclosure documents in future years, follow the instructions described below. Conversely, if you share an address with another holder of our Common Stock or Preferred Stock and together both of you would like to receive only a single Notice or, if applicable, set of our annual disclosure documents, follow these instructions:

- If your shares are registered in your own name, please contact Broadridge Financial Solutions, Inc., and inform them of your request by calling them at 1-866-540-7095 or writing them at 51 Mercedes Way, Edgewood, New York 11717.
- If a broker, bank or other nominee holds your shares, please contact the broker, bank or other nominee directly and inform them of your request. Be sure to include your name, the name of your brokerage firm and your account number.

Electronic Delivery of Company Stockholder Communications

Most stockholders can elect to view future proxy statements and annual reports over the Internet instead of receiving paper copies in the mail.

You can choose this option and save the cost of producing and mailing these documents by:

- following the instructions provided on your Notice or proxy card;
- following the instructions provided when you submit a proxy to vote over the Internet; or
- going to www.proxyvote.com and following the instructions provided.
