GAFISA RELEASES 1Q14 RESULTS

FOR IMMEDIATE RELEASE

São Paulo, May 09, 2014

Gafisa S.A. (Bovespa: GFSA3; NYSE: GFA), one of the leading Brazilian homebuilder, today reported financial results for the quarter ended March 31, 2014.

MANAGEMENT COMMENTS AND HIGHLIGHTS

We started 2014 motivated by the results achieved in the prior year and confident in the goals and guidelines contained in our business plan for the upcoming year.

Traditionally, the first quarter is characterized by seasonally lower activity. In the Gafisa segment, although aware of the changes in the country's macroeconomic scenario, we are happy with the operational and financial results we achieved in the period. Launch volumes reached R\$353.9 million in 1Q14 and included 2 projects in São Paulo and 1 in Rio de Janeiro. Pre-sales reached R\$187.6 million in the quarter, with inventories representing 80% of the total, and launches the remaining 20%. It should also be noted that Gafisa segment dissolutions were down 58% y-o-y, despite the high volume of deliveries in recent quarters. This reduction of dissolutions in the Gafisa segment demonstrates the improved credit profile in our customer base.

As for the Tenda segment, the 1Q14 marks another step forward in the application of the new business model initiated in 2013. Given the strong performance of projects launched last year, first quarter launches totaled R\$181.4 million and were spread over 4 projects in São Paulo, Rio de Janeiro, Bahia and Pernambuco. Pre-sales reached R\$51.8 million and were impacted by a higher volume of dissolutions. This is the result of the delivery of almost 5 thousand units in the last 6 months.

Since late 2013, reduced operational complexity coupled with the narrowing of the Company's geographic footprint, led to higher profitability. The consolidated gross margin, before interest, increased to 30.5% in 1Q14, as compared to 22.0% in same quarter of last year.

Cash generation was a highlight in the quarter. The Company recorded cash generation of R\$107.3 million in 1Q14, reaching free cash flow of R\$20.5 million.

Reasserting our commitment to enhancing shareholder value, at the end of April the Company approved the payment of supplementary dividends totaling R\$32.9 million, which, when added to interest on own capital paid in February, represents a dividend yield of 11.0%, based on 2013.

We continue to implement our five-year business plan for the 2014 to 2018 period, in which guidelines for the development of our business for the coming years were established. The plan details the expected size of Gafisa and Tenda's operations, appropriate leverage, profitability guidelines, and importantly, our commitment to capital discipline and shareholder value generation, which are reflected in the guidance released to the market at the end of 2013.

On February 2014, we announced that the Board is studying the potential separation of the Gafisa and Tenda business units into two independent, public companies. We are analyzing possible impacts and scenarios for the proposed separation to identify what are the best ways for its implementation. In these first three months of the year, we have made progress in the administrative separation process of the Gafisa and Tenda business units, already dividing some areas between both companies, and we expect that most of this process to be completed by the end of the year, at which point the two companies will operate independently from an administrative point of view. As part of this process, Duilio Calciolari, after 14 years of meaningful dedication to Gafisa, announced in February the intention to leave his position, and after a transition period, Sandro Gamba was appointed CEO last Monday, and Rodrigo Osmo remains in charge of Tenda business. The Company will keep the market informed as new definitions may occur over the coming months.

Gafisa entered 2014 well positioned to benefit from all the initiatives implemented in the last two years. Reduced operational complexity, a more appropriate cost and expense structure, the new Tenda operating model and Gafisa's narrowed geographic footprint, coupled with financial flexibility achieved by the sale of a stake in Alphaville, were important steps in preparing the Company to face future challenges. These initiatives should also lead to improved results in 2014.

ANALYSIS OF RESULTS

Gafisa segment

Gross Margin Expansion and Reduction in Selling Expenses

During the past year, the Gafisa segment's margins improved due to the delivery of legacy projects and the narrowing of the brand's geographic footprint. Accordingly, the segment's profitability increased. Adjusted gross profit totaled R\$116.5 million in 1Q14, with margin of 35.7%, compared to 29.9% in 1Q13.

Results were also positively impacted by a 44.8% y-o-y reduction in the level of selling expenses, despite higher launch volumes.

Net Income

The first quarter net loss was R\$2.3 million, compared to a loss of R\$11.6 million in the year-ago period. Excluding the equity from Alphaville, negative at R\$3.4 million, Gafisa segment net income in the 1Q14 was positive at R\$1.1 million.

Below is a brief description of the main factors impacting results.

Adjusted Gross Profit	116.5	109.8
Adjusted Gross Margin	35.7%	29.9%
Net Profit Ex-AUSA	1.1	(49.9)

Tenda segment

Gross Margin Expansion and Lower Expenses

The reduced contribution and complexity of Tenda legacy projects, coupled with the resumption of launches under a new business model, is resulting in a gradual improvement in the segment's margins. At the end of 1Q13, adjusted gross profit was at R\$1.9 million, while in the 1Q14, it reached R\$15.6 million, with adjusted gross margin reaching 14.7%, compared to a margin of 1.3% in the 1Q13.

A streamlined cost structure also contributed to the segment's first quarter results. Selling, general and administrative expenses decreased from a year earlier to R\$12.7 million, with a sharp 43.3% reduction in selling expenses. This was mainly driven by the in-store sale process, which is one of the pillars of the new Tenda business model.

Net Income

The first quarter net loss was R\$37.5 million, compared to a net loss of R\$43.9 million in the 1Q13.

Adjusted Gross Profit	15.6	1.9
<i>Adjusted Gross Margin</i>	<i>14.7%</i>	<i>1.3%</i>

Updated Status of the Separation Process

Initial Studies and First Steps

In early 2014, Gafisa's management initiated studies to analyze the possible separation of the Gafisa and Tenda business units.

The separation would be the next step in a comprehensive plan initiated by management to enhance value creation for the Company and its shareholders.

During 1Q14, the Company made initial progress in separating some of Gafisa and Tenda's administrative functions, initiating the corporate areas effective division process. By the end of the year, most of Gafisa and Tenda administrative structures will be segregated, operating independently.

At this moment, we highlight the following points:

- (1) Definition of segregated corporate structures for Gafisa and Tenda;
- (2) Assessment, understanding, sizing and necessary adjustments in processes and systems for separation of areas;
- (3) Definition of the separation strategy, workforce, separation schedule for different areas, and major milestones on the process.

In parallel, the Company continues the studies related to separation alternatives of the two companies, assessing issues relating to capital structure, liquidity, and fiscal, tax, legal, corporate aspects, among others.

As previously announced to the market, with the completion of the turnaround process and in line with the intention of separating Gafisa and Tenda business units, Duilio Calciolari announced to leave the company, after 14 years of dedication to Gafisa. Therefore, on May 05, Sandro Gamba was named the new CEO of the Company. Until then, Sandro Gamba, was the CEO of Gafisa business unit, having held a number of leadership positions, in several areas of Gafisa business cycle, for more than 15 years dedicated to the Company.

Andre Bergstein remains as Chief Financial Officer and Rodrigo Osmo as CEO for Tenda.

The Company will keep its shareholders and the market informed about the process and any developments pertaining to the potential separation.

GAFISA SEGMENT

Operating Results

Gafisa Segment Launches and Pre-Sales

First quarter launches totaled R\$353.9 million, represented by 3 projects/phases located in the cities of São Paulo and Rio de Janeiro. In the 1Q13, the segment registered R\$83 million in launches.

The Gafisa segment's 1Q14 gross pre-sales totaled R\$267.9 million. Taking into account a 58% y-o-y decline in the volume of dissolutions, 1Q14 net pre-sales increased 85% y-o-y to R\$187.5 million. Inventory accounted for 80% of sales, while the sale of units launched during the quarter represented the remaining 20%. The segment accounted for 66% of consolidated launches.

Table 4. Gafisa – Launches and Pre-sales (R\$000)

Launches	353,934	679,154	-47.9%	83,029	326.3%
Pre-sales	187,555	454,457	-58.7%	101,116	85.5%

Sales over Supply (SoS)

1Q14 sales velocity increased to 7.9% from 5.0% in 1Q13. Considering the last 12 months, Gafisa's SoS ended the 1Q14 at 32.3%. SoS of launches reflects a lower conversion rate (visits x sales) in the quarter due to a longer time limit on the buyer's decision making process, associated with a concentration of launches in late March. The sales performance of these launches will be continued throughout 2Q13.

Dissolutions

The Company has shown a consistent reduction in their level of dissolutions. Gafisa segment dissolutions declined 58.1% y-o-y, in keeping with a decline in the level of dissolutions to a more stable level.

Of the 148 Gafisa segment units cancelled and returned to inventory, 39% were resold in the period.

Inventory

In 1Q14, Gafisa maintained its focus on inventory reduction initiatives. Accordingly, inventory represented 80% of total sales in the first quarter. The market value of Gafisa segment inventory reached R\$2.2 billion in the 1Q14, as compared to R\$2.1 billion in the previous quarter. Finished units outside of core markets accounted for R\$256.9 million, or 12% of total inventory.

During the same period, finished units comprised R\$309.8 million, or 14% of total inventory. Of this amount, inventory from projects launched outside core markets totaled R\$196.7 million. We emphasize that the Company has seen evolution in the sales velocity in these markets over the past few quarters, and we believe that by the end of 2015 we should be able to monetize such inventory in the so called non-core markets.

In the 1Q14, the Company expanded its landbank by an additional PSV of R\$231.2 million, representing an acquisition cost of R\$49.9 million. Of this total, 87.3% was acquired with cash, and 12.7% through swap agreements. In reference to the land acquired in the quarter, about R\$ 8.8 million has already been paid in 1Q14, and approximately another R\$34.4 million are to be disbursed by the end of the year.

First quarter adjustments reflect updates related to project scope, expected launch date and inflationary adjustments to landbank during the period.

Gafisa Vendas

During the 1Q14, Gafisa Vendas – an independent sales unit of the Company, with operations in Sao Paulo and Rio de Janeiro, - accounted for 52.8% of gross sales. Gafisa Vendas currently has a team of 485 highly trained, dedicated consultants, combined with an online sales force.

During 1Q14, Gafisa delivered 4 projects/phases and 524 units.

Income

Net income for the Gafisa segment in 1Q14 totaled R\$326.7 million, down 11% versus the prior year period. The result was impacted by revenues pegged to developments with a less real estate appropriation, in comparison with the previous year.

In the 1Q14, approximately 94.7% of Gafisa Segment revenues were derived from projects in Rio de Janeiro/ São Paulo, while only 5.3% were derived from projects in non-core markets. The table below provides additional details.

Gross Profit & Margin

Gross profit for the Gafisa segment in 1Q14 was R\$88.9 million, compared to R\$87.8 million in 1Q13. Gross margin for the quarter was 27.2%, up 3.3 percentage points over the previous year. Gafisa's margins have improved, in keeping with the delivery of legacy projects and the narrowing of the segment's geographic footprint. Excluding financial impacts, the adjusted gross margin reached 35.7%.

It is noteworthy that in the last two quarters of 2013, gross margin was positively impacted due to the reversal of provisions in some Gafisa developments, and also due to positive INCC variation.

Find below more details about the composition of Gafisa's gross margin in 1Q14.

Selling, General and Administrative Expenses (SG&A)

SG&A expenses totaled R\$51.4 million in the 1Q14, a 21% decrease when compared with the R\$64.8 million reported in 1Q13. This decrease primarily reflects a lower volume of selling expenses that despite a higher volume of launches, has presented a reduction of R\$15.4 million, 44.8% lower than the previous year, result of better balance in marketing expenses and sales commission.

The segment's general and administrative expenses grew by 6.8% compared to 1Q13, reaching R\$32.4 million in 1Q14 due to the non-recurring effect of the payment of R\$2.2 million for advisory services due to Alphaville operation. Excluding this effect, the Company's general and administrative expenses would have reached R\$30.2 million, in line with the previous year.

Adjusted EBITDA

Adjusted EBITDA for the Gafisa segment totaled R\$54.8 million in the 1Q14, up 14.3%, as compared to R\$45.0 million in the previous year. Note that adjusted EBITDA does not consider the impact of Alphaville equity. The adjusted EBITDA margin, using the same criteria, was 16.8%, compared with a margin of 12.2% in the year-ago period.

In the 1Q14, despite a modest decrease in net revenues, the Company's operating performance benefited from the following factors: (i) a 5.8 percentage point expansion in adjusted gross margin compared to the 1Q13; and (ii) a R\$13.4 million, or 20.6%, y-o-y reduction in SG&A.

TENDA SEGMENT

Operating Results

Tenda Segment Launches

First-quarter launches totaled R\$181.4 million and included 4 projects/phases in 4 states. The brand accounted for 34% of 1Q14 consolidated launches.

During 1Q14, gross sales reached R\$244.9 million, while net pre-sales totaled R\$51.8 million. Sales from inventory accounted for 61% of the total, while sales from units launched during 1Q14 accounted for the remaining 39%.

All new projects under the Tenda brand are being developed in phases, in which all pre-sales are contingent on the ability to pass mortgages onto financial institutions. During 1Q14, 1,278 units, representing R\$147.6 million in net pre-sales, were transferred to financial institutions.

Pre-sales	51,767	163,626	-68%	6,785	663%

Sales over Supply (SoS)

In 1Q14, sales velocity (sales over supply) rose to 6.4%, compared to 0.9% in 1Q13. Considering the last 12 months, Tenda SoS ended the 1Q14 at 41.6%.

Dissolutions

The volume of 1Q14 dissolutions was down 58.6%, R\$467.0 million in 4Q11 to R\$193.2 million in 1T14, and a reduction of 16.9% compared to 1Q13.

As expected, due to the high volume of deliveries in recent quarters, the level of cancellations in the Tenda segment increased compared to the 4Q13, particularly among older programs and those in the Minha Casa, Minha Vida program. Changes to bank credit criteria over the second half of 2013, which impacted the ability of some customers to secure financing, also impacted the level of cancellations for that period. Approximately 80% of 1Q14 dissolutions in the Tenda segment were related to old projects.

Tenda remains focused on the completion and delivery of legacy projects, and is dissolving contracts with ineligible clients, so as to sell the units to qualified customers.

Of the 1,223 Tenda units cancelled and returned to inventory, 47% were resold to qualified customers during the same period. In 1Q14, 55% of dissolutions related to the new Tenda model were resold in the same period. It is important to note the importance of the sale and transfer process contained in the New Tenda Business Model, in which within 90 days the customer will either sign the financing agreement with the financial institution, or will have his/her contract cancelled.

Tenda Segment Transfers

In the 1Q14, Tenda transferred 1,278 units to financial institutions, representing R\$147.6 million.

New Model Update and Turnaround

Tenda began 2014 continuing the resumption of its launches within the New Business Model, based on three basic pillars: operational efficiency, risk management and capital discipline. Currently, the Company

continues to operate in 4 macro regions: São Paulo, Rio de Janeiro, Minas Gerais and Nordeste (Bahia and Pernambuco), with a PSV of R\$427.6 million to date. Below is a brief description of the performance of these projects:

Financial Result

Revenues

Tenda's net revenue in 1Q14 totaled R\$105.9 million, a reduction of 24% compared with the previous year. The decline reflects the resumption of Tenda launches in the 1Q13 following a period during which launch activity was halted while a new business model was developed. As shown in the table below, revenues from new projects accounted for 55.0% of Tenda's revenues in 1Q14, while revenues from older projects accounted for the remaining 45.0%.

Gross Profit & Margin

Gross profit in 1Q14 was R\$8.5 million, an increase of 188% compared to a loss of R\$9.6 million in 1Q13.

Gross margin for the quarter reached 8.0%, an increase of 14.8 percentage points from the prior-year period. The improvement in gross margin reflects the delivery of Tenda legacy projects. At the same time, the contribution of projects developed under Tenda's new business model, which contain higher margins, is increasing, as observed in recent quarters.

It is noteworthy that in the last quarters of 2013, Tenda's gross margin was positively impacted due to the reversal of provisions in some of its developments, and also due to positive INCC variation.

Below is the Tenda's gross margin breakdown for 1Q14. Note that the gross margin of the first projects under Tenda's new business model benefits from the use of landbank acquired in the past, allowing greater profitability.

Selling, General, and Administrative Expenses (SG&A)

During 1Q14, selling, general and administrative expenses totaled R\$30.8 million, a decrease of 29.1% compared to R\$43.4 million in 1Q13. The decline reflects the Company's efforts to adapt its cost and expense structure to the size of its operations.

Selling expenses totaled R\$11.8 million in the 1Q14, a decrease of 43.3% compared to 1Q13, due to the following: (i) consolidation over time of the sales transaction through the store, started with the New Model in early 2013; (ii) adjustments to the Tenda's sales team compensation and commissioning policy, reflecting the new business model; (iii) smaller representation of the legacy projects impacting Tenda's cost structure.

Adjusted EBITDA

Adjusted EBITDA was negative R\$24.9 million in 1Q14, compared to negative adjusted EBITDA of R\$25.5 million in 1Q13.

Despite the lower level of revenue, the Company was able to improve its operating performance due to the expansion of its gross margin and efforts to streamline its cost and expense structure.

Financial Results

Revenue

On a consolidated basis, net revenue in the 1Q14 totaled R\$432.7 million, down 15% over the previous year.

In the 1Q14, the Gafisa segment represented 69.5% of revenues and Tenda accounted for the remaining 30.5%.

A Alphaville sells R\$ 120 million in the 1st Quarter 2014

São Paulo, May 9th, 2014 – Alphaville Urbanismo SA releases its results for the 1st quarter 2014 (1Q14), which are subjected to review by auditors.

Launches

The company ended the 1st quarter 2014 with R\$ 103 million of launches, 10% below the volume of launches of the same period of last year.

Sales

In this quarter, the sales volume was R\$ 120 million, 9% above the sales volume of the same period of 1Q13.

Financial Results

During this quarter, net revenues came at R\$ 151 million, 7,2% below the net revenues of 1Q13. The main reason was the non-cash impact of the SELIC change on the NPV of receivables.

Lower revenues and the non-recurring expenses associated to the spin off the back office from Gafisa result in a lower net profit.

PoC Method

Under Brazilian GAAP, real estate development revenues, costs and related expenses are recognized using the percentage-of-completion ("PoC") method of accounting by measuring progress towards completion in terms of actual costs incurred versus total budgeted expenditures for each stage of a development.

Pre-Sales

Contracted pre-sales are the aggregate amount of sales resulting from all agreements for the sale of units entered into during a certain period, including new units and units in inventory. Contracted pre-sales will be recorded as revenue as construction progresses (PoC method). There is no definition of "contracted pre-sales" under Brazilian GAAP.

PSV

Potential Sales Value.

SFH Funds

Funds from SFH are originated from the Governance Severance Indemnity Fund for Employees (FGTS) and from savings accounts deposits. Banks are required to invest 65% of the total savings accounts balance in the housing sector, either to final customers or developers, at lower interest rates than the private market.

Swap Agreements

A system in which we grant the land-owner a certain number of units to be built on the land or a percentage of the proceeds from the sale of units in such development in exchange for the land. By acquiring land through this system, we intend to reduce our cash requirements and increase our returns.

21. Financial instruments

The Company and its subsidiaries participate in operations involving financial instruments. These instruments are managed through operational strategies and internal controls aimed at liquidity, return and safety. The use of financial instruments with the objective of hedging is made through a periodical analysis of exposure to the risk that the management intends to cover (exchange, interest rate, etc.) which is submitted to the corresponding Management bodies for approval and subsequent performance of the proposed strategy. The policy on control consists of permanently following up the contracted conditions in relation to the conditions prevailing in the market. The Company and its subsidiaries do not invest for speculation in derivatives or any other risky assets. The result from these operations is consistent with the policies and strategies devised by Company management. The Company and its subsidiaries operations are subject to the risk factors described below:

During the period ended March 31, 2014, the amount of R\$186 (R\$2,507 in 2013) in the Company's statements and in the consolidated statements, which refer to net result of the interest swap transaction, was recognized in the "financial income" line in the statement of profit or loss for the period, allowing correlation between the impact of such transactions and interest rate fluctuation in the Company's balance sheet (Note 25).

The estimated fair value of derivative financial instruments contracted by the Company was determined based on information available in the market and specific evaluation methodologies. However, considerable judgment was necessary for interpreting market data to produce the estimated fair value of each transaction. Accordingly, the estimates above do not necessarily indicate the actual amounts realized upon the financial settlement of transactions.
