Press Release

Highlights

The main figures obtained by Bradesco in the first semester of 2015 are presented below:

1. Adjusted Net Income⁽¹⁾ for the first semester of 2015 stood at R\$8.778 billion (a 20.6% increase compared to the R\$7.277 billion recorded in the same period of 2014), corresponding to earnings per share of R\$3.35 and Return on Average Adjusted Equity⁽²⁾ of 21.9%.
2. As for the source, the Adjusted Net Income is composed of R\$6.212 billion from financial activities, representing 70.8% of the total, and of R\$2.566 billion from insurance, pension plans and capitalization bonds operations, which together account for 29.2%.
3. On June 30, 2015, Bradesco market value stood at R\$142.098 billion⁽³⁾, showing a growth of 5.4% over June 30, 2014.
4. Total Assets, in June 2015, stood at R\$1.030 trillion, an increase of 10.6% over the June 2014 balance. The return on Average Total Assets was 1.7%, an increase of 0.1 p.p. over June 2014 (1.6%).
5. In June 2015, the Expanded Loan Portfolio⁽⁴⁾ reached R\$463.406 billion, up 6.5% over June 2014. Operations with individuals totaled R\$143.461 billion (an increase of 6.2% over June 2014), while corporate segment operations totaled R\$319.945 billion (up 6.6% over June 2014).
6. Assets under Management stood at R\$1.444 trillion, a 10.7% increase over June 2014.
7. Shareholders' Equity totaled R\$86.972 billion in June 2015, 13.2% higher than in June 2014. Basel III Ratio, calculated based on the Prudential Consolidated stood at 16.0% in June 2015, 12.8%

9. The Interest Earning Portion of the Net Interest Income stood at R\$26.688 billion, an increase of 17.8% compared to the first semester of 2014.

10. The Delinquency Ratio over 90 days stood at 3.7% on June 30, 2015.

11. The Operating Efficiency Ratio (ER)⁽⁵⁾ in June 2015 was 37.9% (40.9% in June 2014), while in the "risk-adjusted" concept, it stood at 46.5% (50.0% in June 2014).

12. Insurance Written Premiums, Pension Plan Contributions and Capitalization Bond Income totaled R\$30.357 billion in the first semester of 2015, up 19.3% when compared to the same period in 2014. Technical Reserves stood at R\$164.566 billion, an increase of 15.3% compared to the balance in June 2014.

13. Investments in infrastructure, information technology and telecommunications amounted to R\$2.706 billion in the first semester of 2015, up 22.4% over the same period in the previous year.

14. Taxes and contributions paid or recorded in provision, including social security, totaled R\$13.752 billion, of which R\$6.016 billion were related to taxes withheld and collected from third parties, and R\$7.736 billion were calculated based on activities developed by Organização Bradesco, equivalent to 88.1% of the Adjusted Net Income⁽¹⁾.

15. Bradesco has an extensive Customer Service Network in Brazil, with 4,628 Branches and 3,463 Service Points (PAs). Customers of Bradesco can also count on 980 ATMs, 50,042 Bradesco Espresso service points, 31,132 Bradesco Dia & Noite ATMs, and 18,278 Banco24Horas Network ATMs.

of which was classified as Common Equity / Tier I.

8. A total of R\$2.908 billion was paid to shareholders as Interest on Shareholders' Equity and Dividends for the first semester of 2015, of which R\$522 million were paid in monthly and interim installments and R\$2.386 billion were provisioned.

16. Payroll, plus charges and benefits, totaled R\$5.991 billion. Social benefits provided to all 93,902 employees of Organização Bradesco and their dependents amounted to R\$1.497 billion, while investments in education, training and development programs totaled R\$58.448 million.

(1) According to the non-recurring events described on page 8 of this Economic and Financial Analysis Report; (2) Excludes mark-to-market effect of Available-for-Sale Securities recorded under Shareholders' Equity; (3) Number of shares (excluding treasury shares) multiplied by the closing price for common and preferred shares on the last trading day of the period; (4) Includes sureties and guarantees, letters of credit, advances of credit card receivables, co-obligations in loan assignments (receivables-backed investment funds and mortgage-backed receivables), co-obligations in rural loan assignments and operations bearing credit risk – commercial portfolio, which includes debentures and promissory notes; and (5) In the last 12 months.

- _ Economic and Financial Analysis Report – June 2015

Highlights

17. In July 2015, Bradesco, through Bradesco Financiamentos, signed a partnership agreement with the Fiat Chrysler Automóveis Brasil (FCA Brasil) and Banco Fidis, for a term of 10 years, to finance vehicles of the brands Jeep, Chrysler, Dodge and Ram in Brazil.

18. Major Awards and Acknowledgments in the period:

- Bradesco was elected for the fourth consecutive year, as the "Best Brazilian Bank", with the Prize "Awards for Excellence 2015" (*Euromoney Magazine*);
- It is a highlight in the 2015 edition of the "Anuário Melhores e Maiores" ("Best and Largest Yearbook"), ranking that lists the 1,000 largest companies in the country (*Exame Magazine*);
- It was one of the highlights of the "Top Gestão 2015" ("Top Management 2015"), which lists BRAM among the best fund managers (*Valor Investe Magazine*, of the *Jornal Valor Econômico*). It is also featured in the "Star Ranking", which brings the best investment funds of the market in the categories of fixed income, multi-market funds and variable income;
- It was one of the highlights for the fifth consecutive time in "Guia Você S/A - As Melhores Empresas para Começar Carreira (The Best Companies to Begin the Career) 2015 Edition" (Revista Você S/A in partnership with Fundação Instituto de Administração (FIA) and Cia. de Talentos);
- Bradesco was recognized as one of the ten more committed companies in the world for its

Organização Bradesco is fully committed with internationally recognized sustainability and corporate governance initiatives, particularly: Global Compact, PRI (Principles for Responsible Investment), and Equator Principles. We set our guidelines and strategies with a view to incorporating the best sustainability practices into our businesses, considering the context and the potential of each region, thus contributing to the generation of value in the Organization. The driving forces behind our engagement are inclusion with education, democratization and presence, innovation, sustainability and continuity of our businesses. Our management process adopts economic and socioenvironmental indexes developed in Brazil and abroad, such as the Dow Jones Sustainability Index (DJSI), the Corporate Sustainability Index (ISE, of BM&FBovespa), and the Carbon Efficient Index (ICO2, also of BM&FBovespa), as well as the guidelines and indexes of the Global Reporting Initiative (GRI) and the CDP.

With a broad social and educational program in place for 58 years, Fundação Bradesco operates 40 schools across Brazil. In 2015, an estimated R\$537.311 million budget will benefit approximately 101,609 students enrolled in its schools in the following levels: basic education (from kindergarten to high school and higher secondary technical-professional education), youth and adult education; and preliminary and continuing vocational training, which focuses on creating jobs and income. In addition to being guaranteed free quality education, the approximately 44 thousand students enrolled in the Basic Education system also receive uniforms, school supplies, meals, and medical and dental assistance. With regard to the distance learning system (EaD), it is estimated that

performance in social networks, receiving the international certificate of *Socialbakers*, main institute of data and metrics of social networks in the world;

- Received the "Oi Tela Viva Móvel 2015" Award, in the "Mobile Marketing" category, for the free access to the Bradesco Celular channel; and
- It was recognized as one of the "50 Good Companies", in the category of "Activism: well beyond profit" (*IstoÉ Dinheiro* magazine, with the case of the Floating Branch).

380 thousand students will benefit from it, through its e-learning portal *Escola Virtual* (Virtual School). These students will conclude, at least, one of the various courses offered in its schedule, and another 17 thousand students will benefit from projects and initiatives carried out in partnership with Centers for Digital Inclusion (CDIs), the *Educa+Ação* Program, and from Technology courses (*Educar e Aprender* - Educating and Learning).

(1) Expanded Loan Portfolio: includes sureties and guarantees, letters of credit, advances of credit card receivables, co-obligations in loan assignments (receivables-backed investment funds and mortgage-backed receivables), co-obligations in rural loan assignments and operations bearing credit risk – commercial portfolio, covering debentures and promissory notes;

(2) Includes provision for guarantees provided, encompassing sureties, guarantees, letters of credit, and standby letter of credit, which comprises the concept of “excess” ALL;

(3) In the last 12 months;

(4) For comparison purposes, shares were adjusted in accordance with bonuses and stock splits;

(5) Excluding mark-to-market effect of Available-for-Sale Securities recorded under Shareholders' Equity;

- (6) Year-to-Date Adjusted Net Income;
- (7) Excludes additional reserves;
- (8) Number of shares (excluding treasury shares) multiplied by the closing price for common and preferred shares on the period's last trading day;
- (9) As defined by the Brazilian Central Bank (Bacen);
- (10) Overdue loans;
- (11) Since October 2013, the Basel Ratio calculation has followed regulatory guidelines set forth in CMN Resolutions No. 4.192/13 and 4,193/13 (Basel III);
- (12) As of March 2015, the ratio calculated based on the Prudential Consolidated is included, as set forth in CMN Resolution No. 4.192/13. It is important to note that the Prudential Consolidated is calculated in accordance with the regulatory guidelines set forth in CMN Resolution No. 4.280/13;
- (13) The decrease in June and March 2015 is related to (i) the migration of "External ATM Network Points – Bradesco" to "Banco24Horas Network" and (ii) the deactivation of ATMs from "Assisted Banco24Horas Network Points";
- (14) PA (Service Branch): a result of the consolidation of PAB (Banking Service Branch), PAA (Advanced Service Branch) and Exchange Branches, according to CMN Resolution No. 4.072/12; and PAEs – ATMs located on a company's premises;
- (15) Including overlapping ATMs within the Bank's own network and the Banco24Horas Network;
- (16) This decrease is related to the sharing of external network ATMs by the Banco24Horas Network ATMs;
- (17) The decrease in December 2014 includes the transfer of 2,431 employees from Scopus Tecnologia to IBM Brasil;
- (18) Number of individual customers (National Registry of Legal Entities (CNPJ) and Individual Taxpayer Registry (CPF));
- (19) Refers to first and second checking account holders; and
- (20) Number of accounts.

Summarized Analysis of Adjusted Income

Adjusted Net Income and Profitability

The return on the Average Adjusted Shareholder's Equity (ROAE) stood at 21.9% in June 2015. Such performance stems from the growth of adjusted net income, which increased by 5.4% quarter-over-quarter and 20.6% comparing the first semester of 2015 with the same period in the previous year. The main events that affected adjusted net income are detailed below.

Adjusted net income reached R\$4,504 million in the second quarter of 2015, up R\$230 million or 5.4% compared to the previous quarter, mainly due to (i) the largest revenues for services provided; (ii) the highest operating result of Insurance, Pension Plans and Capitalization Bonds, net of variation of technical reserves, retained claims and others; (iii) lower other operating expenses, net; and partially impacted by: (iv) higher personnel and administrative expenses.

In the comparison between the first semester of 2015 and the same period in the previous year, the adjusted net income increased R\$1,501 million or 20.6%, which reflects the highest revenues due to: (i) the interest earning portion, partially due to the effect the margin of intermediation and of the assets and liabilities management (ALM); and (ii) the services provided; being partially offset by: (iii) higher allowance for loan losses expenses; (iv) increased operating expenses, net; and (v) higher personnel and administrative expenses, whose variation was below the index of inflation (IPCA) in the period.

Shareholders' Equity totaled R\$86.972 million in June 2015, up 13.2% over June 2014. Basel III Ratio, calculated based on the Prudential Consolidated, stood at 16.0%, 12.8% of which was classified as Common Equity / Tier I.

Total Assets registered R\$1.030 trillion in June 2015, a 10.6% increase over June 2014, driven by the increased turnover. Return on Average Assets (ROAA) reached 1.7%.

- Economic and Financial Analysis Report – June 2015

Summarized Analysis of Adjusted Income

Operating Efficiency Ratio (ER)

The 12-month accumulated ER⁽¹⁾ reached 37.9% in the second quarter of 2015, again registering its best historical level. This result reflects: (i) investments in organic growth, which enabled an increase in our income; and (ii) the continued efforts to control expenses, including our Efficiency Committee actions and investments in Information Technology, which have improved internal systems and processes. It should be mentioned that the 0.4 p.p. improvement compared to the previous quarter was primarily due to: (i) a higher net interest income and revenues from fee and commission; and (ii) the strict control of our operating expenses, which were held below inflation; all these factors also contributed to the improvement of the ER in the “risk-adjusted” concept, reflecting the impact of the risk associated with loan operations⁽²⁾, which reached 46.5%, an improvement of 0.4 p.p. in the quarter.

The ER - quarterly was partially impacted by: (i) higher administrative expenses, primarily originated by the growth in volume of business and of expenses with advertising and outsourced services; (ii) higher personnel expenses, partially due to a lower number of employees on vacation in this quarter; and partially offset by: (iii) the increase of the Fee and Commission Income.

(1) $ER = (\text{Personnel Expenses} - \text{Employee Profit Sharing} + \text{Administrative Expenses}) / (\text{Net Interest Income} + \text{Fee and Commission Income} + \text{Income from Insurance} + \text{Equity in the Earnings (Losses) of Unconsolidated Companies} + \text{Other Operating Income} - \text{Other Operating Expenses})$. If we considered the ratio between (i) total administrative costs (Personnel Expenses + Administrative Expenses + Other Operating Expenses + Tax Expenses not related to income generation + Insurance Sales Expenses) and (ii) net income generation of related taxes (not considering Insurance Claims and Sales Expenses), our ER accumulated in the last 12 months in the second quarter of 2015 would be 42.4%; and

(2) Including ALL expenses, adjusted for discounts granted, loan recovery and sale of foreclosed assets, among others.

Press Release

Summarized Analysis of Adjusted Income

Net Interest Income

In the comparison between the second quarter of 2015 and the first quarter of 2015, the R\$58 million reduction was, mainly, due to: (i) lower result obtained with non-interest earning portion, in the amount of R\$200 million; and compensated, partially by: (ii) an increased income from interest earning portion, in the amount of R\$142 million.

In the comparison between the first semester of 2015 and the same period in the previous year, net interest income has an increase of R\$4,112 million, primarily due to a higher interest earning portion income, in the amount of R\$4,039 million, particularly in the “Credit Intermediation” and “Securities/Other”.

Summarized Analysis of Adjusted Income

Expanded Loan Portfolio⁽¹⁾

In June 2015, expanded loan portfolio of Bradesco totaled R\$463.4 billion. In the quarter, Individual accounts showed a growth of 1.0% and the Large Companies accounts of 0.9%, while the Micro, Small and Medium-sized Companies registered a contraction of 2.7%.

In the last 12 months, the portfolio increased by 6.5% primarily represented by: (i) 10.7% in Corporations; and (ii) 6.2% in Individuals.

For Individuals, the products that have the strongest growth in the last 12 months were: (i) real estate financing; and (ii) payroll-deductible loan. While for the Corporate segment, the highlights were: (i) operations abroad; and (ii) export financing, impacted, partially, by the exchange rate variation in the period.

(1) In addition to Bacen loan portfolio, it includes sureties, guarantees, letters of credit, advances of credit card receivables, debentures, promissory notes, co-obligation in mortgage-backed receivables, and farm loans.

For more information, see Chapter 2 of this Report.

Allowance for Loan Losses (ALL) ⁽¹⁾

In the second quarter of 2015, allowance for loan losses totaled R\$3,550 million, registering a reduction of 0.8% over the previous quarter due to the alignment of the allowance level in certain transactions with corporate customers carried out in the first quarter of 2015. It is important to note that loan operations, as defined by Bacen,

It must be noted that this result reflects the consistency of the loan assignment and monitoring policy and processes, quality of guarantees, as well as the improvement of the credit recovery processes.

increased 0.7% in the quarter.

In the comparison between the first semester of 2015 and the same period of the previous year, this expenses presented a variation of 18.8%, impacted, mainly by: (i) the effect of the alignment of the allowance level of certain operations with corporate clients, performed in the first quarter of 2015; and (ii) the slightly higher delinquency rate in the period; and (iii) the increase in credit operations - Bacen concept, which presented an evolution of 8.0% in the last 12 months.

(1) Includes provision for guarantees provided, encompassing sureties, guarantees, letters of credit, and standby letter of credit, which comprises the concept of “excess” ALL.

For more information, see Chapter 2 of this Report.

Summarized Analysis of Adjusted Income

Delinquency Ratio⁽¹⁾

The total delinquency ratio, which contemplates operations that are over 90 days past due, had a slight increase mainly due to the downturn in economy, which impacted the growth of the loan portfolio, highlighting the retraction of the portfolio of the SMEs segment.

In the quarter, short-term delinquency, including operations past due between 15 and 90 days, had a slight increase both for Individuals and Corporations.

In the year-over-year comparison, this ratio was mainly influenced by the improvement in the Legal Entity accounts, since for Individual accounts it remained stable.

(1) Concept defined by Bacen.

Press Release

Press Release

Summarized Analysis of Adjusted Income

In the second quarter of 2015, the revenue increased 23.0% over the same period in the previous year, disregarding DPVAT insurance, mainly due to "Life and Pension" products, which increased 45.3%.

In the first semester of 2015, the production registered an increase of 19.4% over the same period in the previous year, disregarding the DPVAT insurance, influenced by "Life and Pension Plans" and "Health" Bonds" products, which increased 26.1% and 21.6%, respectively.

Net income for the second quarter of 2015 remained in line with the one presented in the previous quarter, primarily due to: (i) the growth in turnover; (ii) the reduction in the claims ratio;

(iii) the improvement in the administrative efficiency ratio; and partially offset by: (iv) the reduction in the financial result.

Net income for the first semester of 2015 was 21.5% higher compared to the same period in the previous year, due to: (i) an increase in revenue; (ii) the growth of the financial result; (iii) the maintenance of the expense ratio; (iv) an improvement in the administrative efficiency ratio, even considering the collective bargaining agreement, in January 2015; partially offset by: (v) an increase in the claims ratio in the "Health" segment.

Minimum Capital Required – Grupo Bradesco Seguros

According to CNSP Resolution No.316/14, corporations should have adjusted shareholder's equity (ASE) equal to or higher than the minimum capital required (MCR). MCR is equivalent to the highest value between the base capital and the risk capital. For companies regulated by the ANS, Normative Resolution No.373/15 establishes that corporations should have adjusted shareholder's equity (ASE) equal to or higher than the Solvency Margin.

The capital adjustment and management process is continuously monitored, and aims to ensure that Grupo Bradesco Seguros keeps a solid capital base to support the development of activities and cope with the risks in any market situation, in compliance with regulatory requirements and/or Corporate Governance principles. Companies must permanently maintain a capital compatible with the risks for their activities and operations, according to the characteristics and peculiarities of each company belonging to Grupo Bradesco Seguros, represented by adequate capital levels. Grupo Bradesco Seguros permanently observes the limits required by the respective regulatory entities. The Minimum Capital Required in May 2015 was R\$7.669 billion.

Summarized Analysis of Adjusted Income

Fee and Commission Income

In the first semester of 2015 fee and commission income totaled R\$11,862 million, presenting an increase of R\$1,251 million, or 11.8%, compared to the same period in the previous year, primarily due to: (i) an increase in the volume of operations, due to continuous investments in technology and service channels; and (ii) the progress in the customer segmentation process, allowing for a more adequate offer of products and services. It must be noted that the incomes that have most contributed to this result derived from: (i) the good performance of the cards activity, as a result of (a) an increased revenue; (b) the impact of the creation of a services joint venture (Cateno) by our controlled Cielo; and (c) the highest volume of transactions performed; (ii) an increase in the incomes of checking accounts, due to an improvement in the customer segmentation process; (iii) the largest revenue with credit operations, resulting from the increase in the volume of operations of sureties and guarantees in the period; and evolution of revenue with: (iv) fund management; and (v) consortium management.

In the quarter-over-quarter comparison, an increase of R\$374 million, or 6.5%, was provided, mainly due to the increase of offering of products and services. The revenues that most contributed to this result were those arising from: (i) card income; (ii) checking account; (iii) loan operations; and (iv) consortium management.

____ Press Release

Summarized Analysis of Adjusted Income

Personnel Expenses

In the comparison between the first semester of 2015 and the same period in the previous year, the increase of R\$336 million, or 5.0%, was primarily due to the variation in the “structural” portion, related to higher expenses with payroll, social charges and benefits, affected by increased wage levels, in accordance with 2014 collective agreements (readjustment of 8.5%).

(1) The decrease in the fourth quarter of 2014 includes the transfer of 2,431 employees from Scopus Tecnologia to IBM Brasil.

In the second quarter of 2015, the increase of R\$173 million, or 5.0%, over the previous quarter, is a result of variations in the following expenses:

- “structural” – an increase of R\$82 million, mainly due to a lower number of employees on vacation, which is common in the second quarter of 2015; and
- “non-structural” – an increase of R\$91 million, primarily due to higher expenses with: (i) provision for labor claims; (ii) training; and (iii) costs with termination and charges of employment contracts.

Note: Structural Expenses = Salaries + Social Charges + Benefits + Pension Plans.

Non-Structural Expenses = Employee and Management Profit Sharing + Training + Labor Provision + Costs with termination of employment contracts.

- Economic and Financial Analysis Report – June 2015

Summarized Analysis of Adjusted Income

Administrative Expenses

In the comparison between the first semester of 2015 and the same period in the previous year, the 7.1%, or R\$504 million, increase was primarily due to an increase of expenses originated by: (i) the growth in turnover and services in the period; (ii) contractual adjustments; and (iii) expansion of 1,062 Service Points in the period, bringing the total number of Service Points to 74,270 on June 30, 2015. The inflation index (IPCA) performance over the past 12 months should also be highlighted, since it reached 8.9%.

In the second quarter of 2015, the increase of 7.9%, or R\$287 million, in the administrative expenses over the previous quarter, was mainly due to higher expenses with: (i) outsourced services; (ii) advertising and marketing; (iii) communication; and (iv) maintenance and conservation of assets.

(1) The decrease in June and March 2015 is related to (i) the migration of “External ATM Network Points – Bradesco” to “Banco24Horas Network” and (ii) the deactivation of ATMs from “Assisted Banco24Horas Network Points”.

Other Operating Income and Expenses

In the first semester of 2015, other operating expenses, net, totaled R\$3,518 million, a R\$794 million increase over the same period in the previous year, primarily due to: (i) the constitution

of tax provisions, in the first semester of 2015, relating to the levy of pension plan contributions and IRPJ/CSLL on credit losses, in the amount of R\$570 million; (ii) higher expenses related to: (a) the constitution of civil provisions; and (b) various losses; (iii) the impact of the creation of a services joint venture (Cateno) in Cielo; and (iv) the amortization of goodwill.

In the second quarter of 2015, other operating expenses, net, totaled R\$1,606 million, a R\$306 million reduction over the previous quarter, primarily due to: (i) the constitution of tax provisions, in the first quarter of 2015, relating to the levy of pension plan contributions and IRPJ/CSLL on credit losses, in the amount of R\$475 million; being offset, in part, by higher expenses related to: (ii) the addition of tax provision, made in the second quarter of 2015, relating to the levy of pension plan contributions, in the amount of R\$95 million; (iii) the constitution of civil provisions; and (iv) the various losses.

Bradesco

Press Release

Summarized Analysis of Adjusted Income

Income Tax and Social Contribution

The expenses with income tax and social contribution presented an increase of 3.3% over the previous quarter, and 13.2% in the first semester of 2015 compared to the same period of the previous year, mainly due to the highest taxable results in the period.

Unrealized Gains

Unrealized gains totaled R\$23,373 million at the end of the second quarter of 2015, a R\$3,558 million increase over the end of the previous quarter. Such variation is mainly due to the appreciation of: (i) investments, particularly Cielo shares, which increased by 15.1% in the quarter; and (ii) the devaluation of fixed income securities.

Economic and Financial Analysis Report – June 2015

Capital Ratios - Basel III

Basel Ratio

The implementation of the new capital structure in Brazil began in October 2013. Through the CMN Resolution No. 4.192/13, Bacen provided a new methodology to calculate Capital, replacing CMN Resolution No. 3.444/07. Since then, the Capital started being calculated based on CMN Resolution No. 4.192/13, which established that the calculation must be made based on the "Prudential Consolidated", as of January 2015.

In June 2015, the Capital of the Prudential Consolidated stood at R\$97,016 million, against risk-weighted assets totaling R\$607,226 million. The total Basel Ratio of the Prudential Consolidated presented an increase of 0.8 p.p, from 15.2% in March 2015 to 16.0% in June 2015, and from 12.1% in March 2015 to 12.8% in June

2015 for the Common Equity, primarily impacted by: (i) the increase in the Net Equity due to the increase of the result in the quarter; and (ii) the reduction in the weighting of assets of market risk and credit.

Full Impact – Basel III

We included a Basel III simulation, considering the opening of some of the main future adjustments, which include: (i) the application of 100% of the deductions provided in the implementation schedule; (ii) the allocation of resources, obtained via payment of dividends, of our Insurance Group; and (iii) the realization of tax credits arising from tax losses up to December 2018, for a rate of

(1) Includes the allocation of resources, obtained via payment of dividends, of the Insurance Group.

12.6% of Common Equity, which, added to funding obtained via subordinated debt, may amount to an approximate Tier I Basel Ratio of 14.1%, in the end of 2018.

Buffer Capital/Return on the Common Equity at 11%

Bradesco has improved its measurement methodology, and has structured processes for buffer capital, so that it can maintain enough capital available to cope with the risks incurred.

(1) Last 12 months

The Governance structure responsible for the evaluations and approvals of capital decided to maintain a minimum buffer capital of approximately 27%, considering the minimum regulatory capital of 11%.

Considering the minimum required Common Equity of 11% according to the full interpretation of Basel III rules, profitability would be 26.3% in the period of 12 months ended on June 30, 2015.

Bradesco _____

Press Release

Economic Scenario

The risks present in the international scenario were reduced in the second quarter of this year. As a result, the dollar reversed part of the appreciation displayed during the previous three months in relation to the main currencies. After the frustration with the performance of the North American economy from January to March, some recovery is evident, in particular, of the labor market. At the same time, the deceleration of the Chinese economy has lessened, in response to the fiscal and monetary stimuli adopted by the government of the country. Finally, the speed of the European recovery has settled on a moderate level, responding to the incentives of the European Central Bank. Even so, at the end of the quarter, risks emerged to the stabilization of the macroeconomic scenario. The impasse in negotiations between Greece and its European creditors and the sharp fall of the Chinese stock exchanges introduced new risks to the international environment.

The accommodation of North American growth, in the first quarter of the year, seems to have been an atypical event, since the GDP returned to the previous level of expansion, in the three following months. In particular, the labor market maintained to record the net creation of jobs exceeding 200 thousand per month, bringing the unemployment rate to lower levels when compared to those displayed before the crisis of 2008/2009. Thus, the Federal Reserve (Fed) has intensified the signaling toward the beginning of the normalization of monetary conditions in the country. Even so, the president of the institution, Janet Yellen has

Greece and its European creditors represented a risk factor to the scenario for the region at the end of the quarter.

There were advances in the reorientation of the domestic economic policy, especially, concerning the tax policy. The deceleration of the internal economic activity intensified in the second quarter, which reflected in the collection of taxes by the public sector. Even though this can hinder the achievement of the target for the primary results this year, more important are the actions to guarantee the tax sustainability in the medium term and the progress in the agenda of reforms. Efforts in this direction represent a requirement for the maintenance of the economic predictability to raising the confidence level of families and business people, in order to resume the trend of an actual income increase.

The weakening of domestic economic activity highlights the relevance of structural initiatives aimed at promoting future growth. The constant search for excellence in education is Brazil's front line in its struggle to become more competitive and to expedite its efforts to upgrade infrastructure. From this point-of-view, the success of the new stage of concessions has significant importance. It is always important to remind that, in the long term, the main source of economic growth is productivity, which becomes an even more relevant topic within a global context characterized by high levels of efficiency.

reinforced that this process will be very gradual.

In addition, the Chinese economy began to show signs of stabilization, succeeding significant deceleration in the first months of the year, in response to monetary and tax incentives, adopted by the government since the end of 2014. The pace of growth, however, is still moderate for the Chinese standards, compatible with a GDP growth of less than 7.0%. In addition, an additional risk to the Chinese economic growth came at the end of the quarter, with the Shanghai stock market plunge, which should lead the government to adopt more stimuli throughout the year. At the same time, the speed of recovery of the European economy showed some accommodation in the second quarter. The impasse in the negotiations between

Productive investments tend to play an increasingly relevant role in the breakdown of growth over the next few years, which should be favored by the increased share of the capital market in funding of these projects. At the same time, despite the shift in consumer market expansion levels in some segments, the potential of domestic demand for goods and services has yet to be depleted, and there is still much room for growth.

Bradesco maintains a positive outlook towards Brazil, with favorable perspectives for its operating segments. Credit volume is growing at sustainable and risk-compatible rates, whereas delinquency rates are stabilized at historically low and controlled levels, in spite of a cyclic elevation due to the retraction of the activity this year. The scenario is still very promising for the Brazilian banking and insurance sectors in the medium and long terms.

Average NIM ⁽¹⁾	7.6%	7.0%	7.6%	7.5%		

(1) Average Rate in 12 months = (Earning Portion / Total Average Assets – Repos – Permanent Assets)

In the comparison between the second quarter of 2015 over the previous quarter, the R\$58 million reduction was due to: (i) the lower non-interest earning portion, totaling R\$200 million; and partially offset by: (ii) the increase of "interest" portion in the amount of R\$142 million, due to the increase of: (a) the average volume of business in the amount of R\$83 million; and (b) average spread in the amount of R\$59 million.

In the first semester of 2015, the earning portion reached R\$27,140 million, increasing R\$4,112 million compared with the same period of the previous year, reflecting: (i) a R\$4,039 million growth in the result of interest earning operations, particularly "Credit Intermediation" portions and "Securities/Other"; and (ii) R\$73 million for the non-interest earning portion.

Interest Earning Portion**Interest Earning Portion – Breakdown**

	Interest Earning Portion Breakdown				R\$ million	
	1H15	1H14	2Q15	1Q15	Variation	
					Half	Quarter
Credit Intermediation	20,669	18,506	10,427	10,242	2,163	185

Interest Earning Portion	26,688	22,649	13,415	13,273	4,039	142

The interest earning portion stood at R\$13,415 million in the second quarter of 2015, against R\$13,273 million recorded in the first quarter of 2015, accounting for an increase of R\$142 million. The business lines that most contributed to this result were "Credit Intermediation" and "Securities/Other".

In the comparison between the first semester of 2015 over the same period in the previous year, the interest earning portion recorded a R\$4,039 million growth in the interest earning portion, particularly the lines of "Credit Intermediation" and "Securities/Other".

Bradesco _____

Economic and Financial Analysis**Interest Earning Portion****Interest Earning Portion – Rates**

The interest earning portion rate in the last 12 months stood at 7.4% in the second quarter of 2015, an increase of 0.1 p.p. over the previous quarter, primarily due to the income from the interest earning portion from “Credit Intermediation” and “Securities/Other”.

Interest Earning Portion – Average Rates (12 months)

	R\$ million					
	Interest	1H15 Average Balance	Average Rate	Interest	1H14 Average Balance	Average Rate
Credit Intermediation	20,669	362,088	11.5%	18,506	337,264	11.1%

Expenses	(11,867)	(9,284)	(5,379)	(6,488)	(2,583)	1,109

In the second quarter of 2015, interest earning portion of “Credit Intermediation” reached R\$10,427 million, up 1.8% or R\$185 million when compared to the first quarter of 2015. The variation is the result of: (i) a R\$157 million increase in the average spread due to an improved management in investment resources and funding operations; and (ii) a R\$28 million growth in the average business volume.

In comparison between the first semester of 2015 and the same period in the previous year, there was an increase of 11.7% or R\$2,163 million. The variation is the result of: (i) an increase in the average spread, amounting to R\$1,926 million, due to an improved management in investment resources and funding operations; and (ii) a R\$237 million increase in the volume of operations.

Bradesco

Economic and Financial Analysis

Interest Earning Portion of Credit Intermediation

Net Earning Portion of Credit Intermediation

The graph above presents a summary of Credit Intermediation activity. The Gross Margin line refers to interest income from loans, deducted from the customer acquisition costs.

The curve relating to the ALL shows delinquency costs, which are represented by Allowance for Loan Losses (ALL) Expenses, plus discounts granted in transactions net of loan recoveries, arising from the sale of foreclosed assets, among others.

In the second quarter of 2015, the curve related to the net margin, which presents the result of the net revenue from credit interest of ALL, had a growth of 3.2% in the quarterly comparison, primarily due to: (i) the increase in the average spread; and (ii) the reduction of the cost of default, primarily due to the effect of aligning the level of provision of certain transactions with corporate customers, carried out in the first quarter of 2015.

In the comparison between the first semester of 2015 over the same period of the previous year, the net margin recorded a 8.3% growth due to an increase of: (i) the average spread; (ii) the average volume of business; and was offset: (iii) by the effect of aligning the level of provision of certain transactions with corporate customers, carried out in the first quarter of 2015 and of the slightly higher delinquency rate in the period.

Economic and Financial Analysis**Interest Earning Portion of Credit Intermediation****Expanded Loan Portfolio ⁽¹⁾**

In June 2015, the expanded loan portfolio of Bradesco stood at R\$463.4 billion. In the quarter, Individuals showed a growth of 1.0% and the Corporate segment of 0.9%, while the Micro, Small and Medium-sized Companies segment registered a reduction of 2.7%.

In the last 12 months, the portfolio presented an increase of 6.5% primarily represented by: (i) 10.7% in Corporate segment; and (ii) 6.2% in Individuals.

For Individuals, the products that presented the strongest growth in the last 12 months were: (i) payroll-deductible loan; and (ii) real estate financing. In the Corporate segment, the highlights were: (i) operations abroad; and (ii) export financing, impacted, partially, by the exchange rate variation in the period.

(1) In addition to Bacen loan portfolio, it includes sureties, guarantees, letters of credit, advances of credit card receivables, debentures, promissory notes, co-obligation (receivables-backed investment funds, mortgage-backed receivables, and farm loans).

Expanded Loan Portfolio Breakdown by Product and Type of Customer (Individual and Corporate)

CDC / Leasing	11,050	11,789	12,787	(6.3)	(13.6)
Rural Loans	6,059	6,451	7,376	(6.1)	(17.9)
Sureties and Guarantees	71,334	73,006	69,504	(2.3)	2.6
Operations bearing Credit Risk - Commercial Portfolio ⁽¹⁾	33,418	33,913	33,356	(1.5)	0.2
Other	13,497	13,195	10,264	2.3	31.5
Total	319,945	321,254	300,163	(0.4)	6.6

(1) Includes debenture and promissory note operations.

Corporate segment operations decreased by 0.4% in the quarter and grew by 6.6% in the last 12 months. The lines highlighted in the quarter were the following: (i) export financing; and (ii) real estate financing. In the last 12 months, the lines that showed significant growth were: (i) operations abroad; and (ii) export financing.

Expanded Loan Portfolio – Consumer Financing¹⁾

The graph below shows the types of credit related to Consumer Financing of Individual segment, which stood at R\$97.1 billion in June 2015, an increase of 1.2% over the quarter and 2.8% over the last 12 months.

The lines highlighted in June 2015 are: (i) personal loans, including payroll-deductible loans, totaling R\$48.5 billion; and (ii) credit card, totaling R\$25.4 billion. Together, these operations totaled R\$73.9 billion, accounting for 76.1% of the Consumer Financing balance.

(1) Includes vehicle CDC/Leasing, personal loans, revolving credit card and cash, and installment purchases at merchants operations.

- Economic and Financial Analysis Report – June 2015

Economic and Financial Analysis**Interest Earning Portion of Credit Intermediation****Breakdown of Vehicle Portfolio**

	R\$ million			Variation %	
	Jun15	Mar15	Jun14	Quarter	12M

Total	43,991	43,596	46,270	0.9	(4.9)
Individuals	23,642	24,504	25,949	(3.5)	(8.9)
Corporate	20,349	19,092	20,321	6.6	0.1

Vehicle financing operations (individual and corporate) totaled R\$44.0 billion in June 2015, presenting an increase in quarter-over-quarter comparison and a decrease in year-over-year comparison. Of the total vehicle portfolio, 69.5% corresponds to CDC, 27.5% to Finame, and 3.0% to Leasing. Individuals represented, in June 2015, 53.7% of the portfolio, while Corporate segment accounted for the remaining 46.3%. Highlight to the Finame operation for Legal Entities, which grew 18.6% in the quarter and 11.4% in the period comprising the last 12 months.

The variations presented in the portfolio are the reflection of a more reduced financing market and of Bradesco's search for lower risk and more profitable operations, due to the demand for higher value of entry for these financing operations.

Expanded Loan Portfolio Concentration – By Sector

The expanded loan portfolio by economic activity sector showed a slight variation in the share of the sectors that it comprises.

Activity Sector**R\$ million**

Total	463,406	100.0	463,305	100.0	435,231	100.0	-	6.5

(1) Mostly, non-account holders using vehicle financing, credit cards and payroll-deductible loans.

Expanded Loan Portfolio – By Currency

The balance of foreign currency-indexed and/or denominated loan and onlending operations (excluding ACCs – Advances on Foreign Exchange Contracts) totaled US\$15.2 billion in June 2015 (US\$15.1 billion in March 2015 and US\$15.5 billion in June 2014), an increase of 0.7% as compared to the previous quarter and a reduction of 1.9% over the last 12 months, in U.S. Dollars. In Brazilian reais, such operations totaled R\$47.0 billion in June 2015 (R\$48.5 billion in March 2015 and R\$34.0 billion in June 2014), a reduction of 3.1% in the quarter and an increase of 38.2% over the last 12 months.

In June 2015, total loan operations in reais reached R\$416.4 billion (R\$414.8 billion in March 2015 and R\$401.2 billion in June 2014), an increase of 0.4% in the quarter and 3.8% in the last 12 months.

Economic and Financial Analysis

Interest Earning Portion of Credit Intermediation

Expanded Loan Portfolio – By Debtor

The range of the hundred main debtors was slightly more concentrated in the quarter, and with excellent quality of credit represented by most of the clients with ratings between AA and A.

Loan Portfolio ⁽¹⁾ – By Type

All operations bearing credit risk reached R\$490.9 billion, a reduction of 0.3% in the quarter and an increase of 6.4% in the last 12 months.

	R\$ million			Variation %

Total Operations bearing Credit Risk	490,906	492,372	461,575	(0.3)	6.4

(1) In addition to the Expanded Portfolio, it includes other operations bearing credit risk;

(2) As defined by Bacen;

(3) Includes debenture and promissory note operations; and

(4) Includes CDI operations, rural DI, international treasury, swap, non-deliverable forward transaction and investments in FIDC, Certificate of Agribusiness Credit Rights (CDCA) and Certificates of Real Estate Receivables (CRI).

Interest Earning Portion of Credit Intermediation

The charts below refer to the Loan Portfolio, as defined by Bacen.

Loan Portfolio ⁽¹⁾ – By Flow of Maturities⁽²⁾

The loan portfolio by flow of maturities of operations has, as one of its features, a longer profile, mainly due to the representativeness of real estate financing and payroll-deductible loans operations. It must be noted that, due to their guarantees and characteristics, these operations are not only exposed to lower risk, but they also provide favorable conditions to gain customer loyalty.

(1) As defined by Bacen; and

(2) Only performing loans.

Economic and Financial Analysis

Interest Earning Portion of Credit Intermediation

Loan Portfolio ⁽¹⁾ – Delinquency

The delinquency ratio, comprising the balance of operations in delays for more than 90 days, showed a slight increase, mainly due to the continuity of the process of deceleration of the economic activity and its impacts, among them the decrease of the growth of the credit portfolio, including the retraction of the portfolio of the Micro, Small and Medium-sized Enterprise segment.

In the quarter, short-term delinquency, including operations past due between 15 and 90 days, increased slightly for both Individual and Corporate segments.

In the annual comparative, the ratio was mainly influenced by Corporate segment since Individuals remained stable.

(1) As defined by Bacen.

Bradesco

____ Economic and Financial Analysis

Interest Earning Portion of Credit Intermediation

Allowance for Loan Losses (ALL) vs. Delinquency vs. Losses ⁽¹⁾

Bradesco monitors the development of its loan portfolio, as well as respective risks, by internally applying the expanded portfolio concept. In addition to the allowance for loan losses required by Bacen, Bradesco has excess ALL to support potential stress scenarios, as well as other operations/commitments bearing credit risks.

Allowance for Loan Losses totaled R\$23.8 billion in June 2015, representing 6.7% of the total loan portfolio, comprising: (i) generic provision (customer and/or operation rating); (ii) specific provision (non-performing loans); and (iii) excess provision (internal criteria, including provision for guarantees provided).

Provisioning levels are deemed appropriate and sufficient to support possible changes in scenarios, such as higher delinquency levels and/or changes in the loan portfolio profile.

(1) As defined by Bacen; and

(2) Includes provision for guarantees provided, encompassing sureties, guarantees, letters of credit and standby letters of credit, which comprises the concept of “excess” ALL.

Economic and Financial Analysis

Interest Earning Portion of Credit Intermediation

Allowance for Loan Losses (ALL) vs. Delinquency vs. Loss ⁽¹⁾

It must be mentioned the assertiveness of the provisioning criteria adopted, which is proven by: (i) analyzing historical data on recorded allowances for loan losses; and (ii) effective losses in the subsequent 12-month period. When analyzed in terms of net loss of recovery, for an existing provision of 6.6% of the portfolio⁽¹⁾ in June 2014, the net loss in the subsequent 12 months was 3.0%, that is, the existing provision exceeded over 124% the loss occurred in the subsequent 12 months.

(1) As defined by Bacen; and

(2) Includes provision for guarantees provided, encompassing sureties, guarantees, letters of credit and standby letters of credit, which comprises the concept of “excess” ALL.

Bradesco

____ Economic and Financial Analysis

Interest Earning Portion of Credit Intermediation

Provision for Allowance for Loan Losses ⁽¹⁾

Allowance for loan losses ratios have presented very comfortable levels in relation to loans over 60 and 90 days past due, and reached a 146.5% and a 180.4% coverage, respectively.

The Non-Performing Loans ratio (operations over 60 days past due) presented a slight increase in the quarter-over-quarter comparison and year-over-year comparison, mainly due to the downturn in the economic activities and its impacts.

(1) As defined by Bacen;

(2) Includes provision for guarantees provided, encompassing sureties, guarantees, letters of credit and standby letters of credit, which comprises the concept of “excess” ALL; and

(3) Loan operations overdue for over 60 days and that do not generate revenue appropriation on accrual accounting.

(3) Loan operations overdue for over 60 days and that do not generate revenue appropriation on accrual accounting.

Bradesco _____

Economic and Financial Analysis**Interest Earning Portion of Credit Intermediation****Loans vs. Funding**

To analyze Loan Operations in relation to Funding, the following should be deducted from total customer funding: (i) the amount committed to reserve requirements at Bacen, (ii) the amount of available funds held at customer service network, as well as add (iii) funds from domestic and foreign lines of credit that finance the demand for loans.

Bradesco presents low dependency on interbank deposits and foreign lines of credit, given its capacity to effectively obtain funding from customers. This is a result of: (i) the outstanding location of its Service Points; (ii) the broad diversity of products offered; and (iii) the market's confidence in the Bradesco brand.

Note that the use of funds provides a comfortable margin, which proves that Bradesco is capable of meeting demand for loaning funds through its own funding.

Total	455,778	466,412	438,430	(2.3)	4.0

(1) Considering mostly debentures used to back repos; and

(2) Includes: Financial Bills, on June 30, 2015, totaling R\$60,608 million (March 31, 2015 – R\$55,146 million and June 30, 2014 – R\$48,111 million).

Demand deposits

The reductions of R\$4,105 million, or 13.6%, in the second quarter of 2015 as compared to the previous quarter, and of R\$10,051 million, or 27.8%, as compared to the same period of the previous year, were mostly due to new business opportunities offered to customers, because of interest rate fluctuations in that period.

Savings Deposits

Savings deposits totaled R\$91,008 million in the end of the second quarter of 2015, showing a reduction of 0.8% as compared to the end of the previous quarter.

In the comparison between June 2015 over the same period of the previous year, the increase of

R\$6,689 million, or 7.9%, substantially originated by:
(i) the increase in deposits by customers; and (ii) the
yield of savings deposits reserve.

Bradesco is always increasing its savings accounts
base, posting a net growth of 5.8 million new
savings accounts over the last 12 months.

Bradesco _____

Economic and Financial Analysis

Interest Earning Portion of Credit Intermediation

Time Deposits

At the end of June 2015, the balance of time deposits totaled R\$78,062 million, registering reductions both in the quarterly comparative, of 12.6%, or R\$11,214 million, and in the annual comparative, 15.4%, or R\$14,192 million.

This performance was primarily due to the oscillations of the interest rates occurring in the period and to the new investment alternatives available to customers.

Debentures

In June 30, 2015, the Bradesco's debentures balance totaled R\$66,401 million, remaining practically stable both in the quarterly and annual comparatives.

Borrowing and Onlending

The reduction of R\$1,001 million, or 1.6%, in the quarter-over-quarter comparison was a result of: (i) the reduction of R\$ 1,708 million in the volume of funding raised by borrowings and onlending in the country, through operations of Finame and BNDES; and compensated, in part: (ii) by the increase of R\$707 million in bonds for loans and onlending denominated and/or indexed in foreign currency.

exchange rate variation of 40.9% in the period; offset by: (ii) the reduction of R\$972 million, or 2.4%, in the volume of resources captured by borrowings and onlending in the country, mainly in the form of Finame operations.

In the comparison between June 2015 over the same period of the previous year, the balance of borrowings and onlending recorded an increase of R\$7,227 million, or 13.3%, primarily due to: (i) the

increase of R\$8,199 million in borrowings and onlending denominated and/or indexed in foreign currency, whose balance modified from R\$13,921 million in June 2014 to R\$22,120 million in June 2015, primarily due to the positive

- Economic and Financial Analysis Report – June 2015

Interest Earning Portion of Credit Intermediation**Funds from Issuance of Securities**

Funds from Issuance of Securities totaled R\$95,387 million, an increase of R\$7,140 million, or 8.1%, over the previous quarter, primarily due to: (i) the increase in the Financial Bills operations, totaling R\$5,462 million; (ii) the increase in Real Estate Loan Letters operations, totaling R\$3,124 million; offset by: (iii) the reduction in Letters of Credit for Agribusiness operations, totaling R\$1,484 million.

In the comparison between the end of June 2015 over the same period of the previous year, the increase of R\$25,510 million, or 36.5%, was essentially due to: (i) the increased inventory of Financial Bills, from R\$48,111 million in June 2014 to R\$60,608 million in June 2015, primarily due to the new issuances in the period; (ii) the higher volume of Mortgage Bonds, in the amount of R\$8,358 million; and (iii) the higher volume of Letters of Credit for Agribusiness operations, totaling R\$4,796 million.

Subordinated Debt

Subordinated Debt totaled R\$37,426 million in June 2015 (R\$10,893 million abroad and R\$26,533 million in Brazil), presenting a reduction of 1.5%, or R\$564 million, in the quarter-over-quarter comparative, primarily due to the maturity of debts, and an increase of 5.8%, or R\$2,042 million, in the year-over-year comparative, mainly due to the exchange rate variation for the period.

Economic and Financial Analysis**Interest Earning Portion of Securities/Other****Earning Portion of Securities/Other – Breakdown**

	R\$ million					
	Securities/Other Margin - Interest Earning Operations					
	1H15	1H14	2Q15	1Q15	Variation Half	Quarter
Interest - due to volume					71	38
Interest - due to spread					1,165	74
Interest Earning Portion	3,334	2,098	1,723	1,611	1,236	112
Income	28,275	16,538	11,070	17,205	11,737	(6,135)
Expenses	(24,941)	(14,440)	(9,347)	(15,594)	(10,501)	6,247

In the comparison between the second quarter of 2015 over the previous quarter, there was an increase of R\$112 million in the interest earning portion of “Securities/Other”, which includes the assets and liabilities management (ALM). The change observed was primarily due to: (i) an increase of the average spread in the amount of R\$74 million; and (ii) an increase in the volume of operations, in the amount of R\$38 million.

In the comparison between the first semester of 2015 over the same period of the previous year, the interest earning portion of “Securities/Other”, which includes the assets and liabilities management (ALM), recorded an increase of R\$1,236 million. This result was due to: (i) an increase of R\$1,165 million in the average spread; and (ii) an increase in the volume of operations, resulting in R\$71 million.

Interest Earning Portion of Insurance**Earning Portion of Insurance – Breakdown**

	R\$ million					
	Insurance Margin - Interest Earning Operations					
	1H15	1H14	2Q15	1Q15	Variation Half	Quarter
Interest - due to volume					56	15
Interest - due to spread					584	(170)
Interest Earning Portion	2,685	2,045	1,265	1,420	640	(155)
Income	10,575	7,055	5,420	5,155	3,520	265
Expenses	(7,890)	(5,010)	(4,155)	(3,735)	(2,880)	(420)

Comparing the second quarter of 2015 with the previous quarter, the interest earning portion of insurance operations recorded a R\$155 million decrease, or 10.9%, which was due to: (i) a R\$170 million decrease in the average spread; reflecting, primarily, IPCA and IGP-M performance in the quarter and partially offset by: (ii) an increase in the volume of operations, totaling R\$15 million.

In the comparison between the first semester of 2015 and the same period of the previous year, the earning portion presented an increase of 31.3%, or R\$640 million, due to: (i) the growth of the average spread, in the amount of R\$584 million; and (ii) a greater volume of operations, in the amount of R\$56 million.

- Economic and Financial Analysis Report – June 2015

Economic and Financial Analysis**Non-Interest Earning Portion****Non-Interest Earning Portion – Breakdown**

	NII - Non-Interest Earning Portion				R\$ million	
	1H15	1H14	2Q15	1Q15	Variation Half	Quarter
Non-Interest Earning Portion	452	379	126	326	73	(200)

Non-interest earning portion stood at R\$126 million in the second quarter of 2015, compared to R\$326 million in the previous quarter, for a R\$200 million reduction, due to minor gains with arbitration of markets. In the semester-over-semester comparison, there was an increase of R\$73 million in the non-interest earning portion.

(2) The second quarter of 2015 includes the latest data released by SUSEP (May/15).

Note: For comparison purposes, the non-recurring events' effects are not considered.

Because of its solid structure, innovative product policy and the trust it has earned in the market, Bradesco Vida e Previdência accounted for 26.2% of the pension plan and VGBL income. (Source: SUSEP - May/2015).

Net income for the second quarter of 2015 was up 3.0% over the previous quarter, influenced by the following factors: (i) a growth of 45.3% in billing; (ii) a decline of 0.9 p.p. in the claims ratio index; (iii) a decline of 1.6 p.p. in the commercialization index; (iv) the result of decrease in operating expenses; and (v) an increase in the financial results and equity.

Net income for the first semester of 2015 was up 15.7% over the same period in the previous year, influenced by the following factors: (i) an increase of 26.1% in billing; (ii) a reduction of 3.5 p.p. in the expense ratio; (iii) an improved financial income; (iv) the result of decrease in operating expenses; and, even when considering the collective bargaining agreement, in January 2015; partially offset by: (v) an increase of 4.0 p.p. in the claims ratio; and (vi) a decrease in the equity result.

Bradesco

Economic and Financial Analysis

Bradesco Vida e Previdência

In June 2015, technical reserves for Bradesco Vida e Previdência stood at R\$144.3 billion, made up of R\$137.4 billion from "Pension Plans and VGBL" and R\$6.9 billion from "Life, Personal Accidents and Other Lines", resulting an increase of 16.2% over June 2014.

The Pension Plan and VGBL Investment Portfolio accounted for 30.0% of market funds in May 2015 (source: Fenaprevi).

Growth of Participants and Life and Personal Accident Policyholders

In June 2015, the number of Bradesco Vida e Previdência customers was up 2.4 million pension plan and VGBL participants, and 27.2 million life and personal accident policyholders.

This impressive growth was fueled by the strength of the Bradesco brand and the improvement of selling and management policies.

(1) The second quarter of 2015 includes the latest data released by ANS (May/15).

Note: For comparison purposes, the non-recurring events' effects are not considered.

Net income for the second quarter of 2015 was down 36.3% over the previous quarter, mainly due to: (i) the decrease in the financial result; (ii) the increase in the claims ratio index; and partially offset by: (iii) an increase of 4.5% in billing.

Net income for the first semester of 2015 was down 20.7% over the same period of the previous year, mainly due to: (i) the increase in the combined index, which was impacted, in part by: (a) an increase of 2.7% in the claims ratio; and (b) an increase in the operating expenses related to the constitution of civil contingencies and provision for delayed premiums; partially offset by: (ii) an increase of 24.4% in billing; and (iii) an improvement in the financial results.

In June 2015, Bradesco Saúde and Mediservice maintained a strong market position in the corporate segment (source: ANS).

Approximately 116 thousand companies in Brazil have Bradesco Saúde insurance and Mediservice plans.

Of the 100 largest companies in Brazil in terms of billing, 51 are Bradesco Saúde and Mediservice customers (source: *Exame* magazine - "Melhores e Maiores" ranking, July 2015).

Bradesco

Economic and Financial Analysis**Bradesco Saúde and Mediservice****Number of Bradesco Saúde and Mediservice Policyholders**

These two companies have a combined total of approximately 4.5 million customers. The large share of corporate insurance in this portfolio (96.1% in June 2015) is proof of its high level of specialization and customization in the provision of group plans.

(1) The second quarter of 2015 includes the latest data released by SUSEP (May/15).

Net income for the second quarter of 2015 recorded a reduction of 4.6% over the results recorded in the previous quarter, primarily due to a decrease in financial income.

Net income for the first semester of 2015 recorded an increase of 29.7% over the same period in the previous year, primarily due to: (i) an increase of 6.7% in billing; and (ii) the improved financial income.

Economic and Financial Analysis Report – June 2015

Bradesco Capitalização

Bradesco Capitalização ended May 2015 in first place among the capitalization bond private companies, due to its policy of transparency and by adjusting its products based on potential consumer demand and consistent with the market changes.

Concerned with providing products that better fit the most varied profiles and budgets of its customers, Bradesco Capitalização has a product portfolio ranging by payment method (lump or monthly), contribution term, periodicity and value of premiums that meet requirements and expectations of the customers.

Combining a pioneer spirit with business strategic view, Bradesco Capitalização has launched onto the market products concerned with socio-environmental causes, in which part of the revenue goes to projects with this purpose. In addition to offering to customers the possibility of creating a financial reserve, Capitalization Bonds with socio-environmental profile seek to raise customer's awareness about the importance of this theme and allow them to participate in a noble cause that benefits society.

Bradesco Capitalização currently has partnerships with the following institutions: (i) SOS Mata Atlântica Foundation (which contributes to the preservation of biological and cultural diversity of the Atlantic Forest, stimulating social and environmental citizenship); (ii) Amazonas Sustentável Foundation (which contributes to the sustainable development, environmental preservation and improvement of life quality in communities that benefit from preservation

centers in the state of Amazonas); (iii) the Brazilian Cancer Control Institute (which contributes to the prevention, early diagnosis and treatment of breast cancer in Brazil); and (iv) Tamar Project (created to preserve sea turtles).

The portfolio is composed of 22.5 million active bonds. Of this total, 36.1% are represented by "Traditional Bonds", sold at the Branch Network and at Bradesco Dia&Noite service channels. The other 63.9% of the portfolio is represented by "Incentive" bonds (assignment of drawing rights), such as partnerships with Bradesco Vida e Previdência and Bradesco Auto/RE. Given that the purpose of this type of capitalization bond is to add value to the product of a partner company or even to encourage timely payment by its customers, the bonds have reduced maturity and grace terms and lower sale price.

(1) The second quarter of 2015 includes the latest data released by SUSEP (May/15).

Note: We are considering Atlântica Companhia de Seguros as of the first quarter of 2014.

Net income in the second quarter of 2015 was 73.8% more than the results calculated in the previous quarter, due to: (i) the growth of 4.6% in billing; (ii) the decline of 3.9% in the claims ratio index; (iii) the result of the decrease in operating expenses; and (iv) the increase in the equity results; partially offset by: (v) a decrease in the financial results.

Net income in the first semester of 2015 presented a 7.3% decrease over the same period of the previous year, primarily due to: (i) the decrease in the equity results; (ii) the result of the decrease in operating expenses, partially offset by: (iii) the reduction in the claims ratio index and commercialization; and (iv) the improvement in the financial results.

In the segments of Auto and Civil Liability of Vehicles, the Insurer has implanted a new pricing model, which has provided more competitiveness and greater accuracy in monitoring results. In this segment the product "Bradesco Auto Assistência Total" was also launched, which offers Bradesco account holders, Assistance services Day and Night for vehicle and residence.

Mensal". The sale is carried out by means of an application available on smartphones and tablets with the IOS system. The service of "Assistência Sustentável" (Sustainable Assistance) was also launched in Bradesco Seguro Residencial (Residential Insurance), which allows the clients of the product to dispose of goods in disuse in a sustainable manner.

The launch of the product "Bradesco Seguro Fiança Locatícia", which ensures the rental contracts of residential property, enabled the entry on the market of real estate, which has a high growth potential and perspective to aggregate more business to the Insurance Group.

Aiming to provide more convenience and efficiency in the provision of services, Bradesco Auto/RE currently counts with 31 Bradesco Auto Centers (BAC), which offer policyholders the greatest variety of services in a single place. Some of the services offered include: auto claims services, rental car reservations, installation of anti-theft equipment, preventative maintenance checks and glass repairs or replacement. The Central de Monitoramento e

The residential insurance continues to be a priority focus. A new product was launched with monthly payment through direct debit in current account, the "Bradesco Bilhete Residencial

Atendimento (Monitoring and Care Center) was also implanted, which enables the monitoring of services of Day and Night Assistance and of service levels.

Business Days	122	122	61	61	-	-

Explanations of the main items that influenced the variation in Fee and Commission Income between periods can be found below.

Fee and Commission Income

Card Income

Income from card fees totaled R\$2,373 million in the second quarter of 2015, an increase of R\$165 million, or 7.5% over the previous quarter, basically due to: (i) the increase in the volume of transactions carried out in the period; (ii) the increase in billing; and (iii) the impact of the creation of a services joint venture (Cateno) in Cielo.

In the comparison between the first semester of 2015 over the same period of previous year, the 17.4% growth, or R\$680 million, is primarily due to: (i) the increase in transactions effected and billing in the period; (ii) the increase of the base of cards; and (iii) the impact of the creation of a services joint venture (Cateno) in Cielo.

Bradesco

_____ Economic and Financial Analysis

Fee and Commission Income

Checking Account

The revenues of current account presented increments both in the quarterly comparative, of 12.3% or R\$132 million, as in the half-yearly comparative, of 18.8% or R\$360 million, due primarily: (i) to the increase in the volume of business; and (ii) by the expansion of the portfolio of services rendered, with the adhesion of clients for the new segments "Classic" and "Exclusive".

Loan Operations

In the second quarter of 2015, revenues from loan operations totaled R\$698 million, which represent a R\$63 million or 9.9% increase over the previous quarter, due to the increased volume of operations contracted in the quarter.

In the comparison between the first semester of 2015 and the same period of previous year, the R\$135 million or 11.3% increase was substantially due to a higher income from collaterals, which increased 23.3%, deriving mostly from a 3.0% growth in the volume of "Sureties and Guarantees" operations.

Economic and Financial Analysis**Fee and Commission Income****Fund Management**

In the second quarter of 2015, fund management income totaled R\$637 million, presenting an increase of R\$12 million or 1.9% compared to previous quarter, mainly due to a 4.5% growth in volume of funds and portfolios raised and managed.

In the comparison between the first semester of 2015 over the same period of previous year, the increase of R\$123 million or 10.7%, was basically due to the increase in the volume of funds raised and managed, which grew 11.4% in the period.

Investments in fixed income funds led the segment, with growth of 12.2% in the period.

Bradesco _____

_____ Economic and Financial Analysis

Fee and Commission Income
Cash Management Solutions (Payments and Collection)

In the second quarter of 2015, billing and collection income remained virtually stable compared to the previous quarter.

In the comparison between the first semester of 2015 over the same period of previous year, the annual increase of 1.1%, or R\$11 million, was due to the greater volume of processed documents, up from 1,078 million in the first semester of 2014 to 1,095 million in the first semester of 2015, resulting an increase of 17 million of processed documents for the period.

Consortium Management

In the second quarter of 2015, income from consortium management increased R\$11 million or 4.5% compared to the previous quarter, because of the sales made in that period. On June 30, 2015, Bradesco had 1,127 thousand active quotas (1,101 thousand active quotas on March 31, 2015), ensuring a leading position in all the segments it operates (real estate, auto and trucks/machinery and equipment).

In the comparison between the first semester of 2015 over the same period of previous year, the 20.8% or R\$86 million increase in income from consortium management was mainly driven by: (i) a higher volume of received bids; (ii) the increase in the average ticket; and (iii) the increase in sales of new quotas, ranging from 1,010 thousand active quotas on June 30, 2014, to 1,127 thousand active quotas on June 30, 2015, an increase of 117 thousand net quotas.

Fee and Commission Income Custody and Brokerage Services

In the second quarter of 2015, total earnings with custody and brokerage services presented an increase of R\$6 million or 4.7% compared to the previous quarter. Such behavior resulted, basically, from the largest volumes traded on BM&FBovespa and the increase of R\$27 billion in assets in custody, which impacted the revenues with custody and brokerage.

In the comparison between the first semester of 2015 over the same period of previous year, the increase of R\$18 million or 7.3%, reflected the growth in income from custody and brokerage services, considering the increase in the average volume of assets under custody in the period.

Underwriting/ Financial Advisory Services

In the second quarter of 2015, the revenue from underwriting / financial advisory remained stable over the previous quarter.

In the comparison between the first semester of 2015 over the same period of the previous year, the reduction of R\$83 million, or 21.8%, refers, essentially, to the higher volume of business made in the first quarter of 2014, highlighting the Structured Operations and Project Finance.

It is important to note that variations recorded in this income derive from the volatile performance of the capital market.

Service Points ⁽¹⁾	74,270	73,208	74,270	74,917	1,062	1.5	(647)	(0.9)

(1) The reduction, in June 2015, refers to (i) the migration of “External ATM Network Points – Bradesco” to “Banco24Horas Network” and (ii) the deactivation of ATMs from “Assisted Banco24Horas Network Points”.

In the second quarter of 2015, total Personnel and Administrative Expenses amounted to R\$7,544 million, with growth of 6.5% or R\$460 million, in comparison with the previous quarter. In the comparison with the

first semester of 2015 and the same period of the previous year, total Personnel and Administrative Expenses presented a growth of 6.1% or R\$840 million.

Personnel Expenses

In the second quarter of 2015, personnel expenses totaled R\$3,618 million, with variation of 5.0% or R\$173 million compared to the previous quarter.

The R\$82 million increase in structural expenses was largely due to a lower number of employees on vacation in the second quarter of 2015, in the amount of R\$71 million.

The R\$91 million increase in non-structural expenses is, primarily, due to higher expenses with: (i) provision for labor claims, amounting to R\$73 million; (ii) training, amounting to R\$13 million; and (iii) cost of terminations and charges, totaling R\$12 million.

- Economic and Financial Analysis Report – June 2015

Economic and Financial Analysis

Personnel and Administrative Expenses
Personnel Expenses

In the comparison between the first semester of 2015 over the same period of previous year, the increase of R\$336 million, or 5.0%, was mainly due to the structural portion due to the increase in expenses with payroll, social charges and benefits, impacted by higher salaries, in accordance with the 2014 collective agreements (increase of 8.5%).

(1) The reduction in the fourth quarter of 2014 includes the transfer of 2,431 employees of Scopus Tecnologia to IBM Brasil.

Bradesco

_____ Economic and Financial Analysis

Personnel and Administrative Expenses

Administrative Expenses

In the second quarter of 2015, the operating expenses totaled R\$3,926 million, presenting an increase of R\$287 million, or 7.9%, compared to the previous quarter, mainly due to higher expenses with: (i) third party services, to the sum of R\$110 million; (ii) advertising and publicity, to the sum of R\$74 million; (iii) communication, to the sum of R\$30 million; and (iv) maintenance and conservation of goods, to the sum of R\$23 million.

In the comparison between the first semester of 2015 and the same period of previous year, the increase of 7.1% and R\$504 million, was due mainly to the increasing expenses with: (i) growth in business and services volumes in the period; (ii) contractual adjustments; and (iii) expansion of 1,062 Service Points in the period totaling 74,270 Service Points on June 30, 2015. We should note the performance of inflation index (IPCA) over the past 12 months, which reached 8.9%.

Operating Coverage Ratio ⁽¹⁾

In the quarter, the coverage ratio over the last 12 months maintained its improvement with a 1.3 p.p. growth, mainly due to an increase in fee and commission income, combined with ongoing cost control efforts, including (a) the initiatives of our Efficiency Committee and (b) measures applied to increase the offer of products and services to the entire client base.

(1) Fee and Commission Income/Administrative and Personnel Expenses (in the last 12 months).

Tax Expenses

The increase of R\$42 million or 3.2% in tax expenses compared to the previous quarter, was largely due to: (i) an increase in expenses with Cofins/ISS/PIS, derived from the increase in taxable income; and partially offset by: (ii) a decrease in expenses with IPTU, due to the prepayment of this tax in the first quarter of 2015.

In the comparison between the first semester of 2015 over the same period of previous year, such expenses increased R\$426 million, or 19.1%, due to the increase in expenses with Cofins/PIS/ISS, derived from the increase in taxable income.

Equity in the earnings (losses) of affiliates

Equity in the earnings (losses) of affiliated presented, in the second quarter of 2015, an

increase of R\$53 million compared to the previous quarter, and a reduction of R\$74 million in the comparative between the first semester of 2015 and the same period of the previous year, basically due to the equity in the earnings (losses) obtained with the affiliated "IRB – Brasil Resseguros".

Bradesco _____

Economic and Financial Analysis

Operating Income

Operating income totaled R\$6,952 million in the second quarter of 2015, a R\$303 million or 4.6% increase from the previous quarter. This performance was, substantially, driven: (i) by the increase in revenues for the provision of services, to the sum of R\$374 million; (ii) a decrease in other operating expenses, net, amounting to R\$306 million; (iii) a higher operating result from Insurance, Pension Plans and Capitalization Bonds, net of variation of technical reserves, retained claims and others, amounting to R\$100 million; and partially offset by: (iv) increased personnel and administrative expenses, in the amount of R\$460 million.

In the comparison between the first semester of 2015 over the same period of previous year, the increase of R\$2,109 million or 18.4%, was mainly driven by: (i) the R\$4,112 million increase net interest income results; (ii) increase in fees and commission income, totaling R\$1,251 million; offset by: (iii) higher expenses with allowance for loan losses, in the amount of R\$1,128 million; (iv) an increase in personnel and administrative expenses, in the amount of R\$840 million; (v) an increase in other operating expenses, net, totaling R\$794 million; and (vi) an increase in tax expenses, totaling R\$426 million.

Non-Operating Income

In the second quarter of 2015, non-operating income posted a loss of R\$55 million, a decrease of R\$13 million as compared to the previous quarter, and an increase of R\$53 million from the same period of the previous year, essentially, due to greater non-operating expenses (such as losses on sale of foreclosed assets/other) in the period.

Corporate Governance

Bradesco's management is made up of the Board of Directors and the Statutory Board of Executive Officers. The Board of Directors is composed of ten members who are eligible for reelection. There are nine external members, including the Chairman (Mr. Lázaro de Mello Brandão), and one internal member (the Chief Executive Officer, Mr. Luiz Carlos Trabuco Cappi). The Board members, who elect the members of the Board of Executive Officers, are themselves elected at the Annual Shareholders' Meeting.

There are six Committees subordinated to Bradesco's Board of Directors, two of which are Statutory Committees (Audit and Compensation) and four of which are Non-Statutory Committees (Ethical Conduct, Internal Controls and Compliance, Integrated Risk Management and Capital Allocation and Sustainability). Several Executive Committees are subordinated to Board of Executive Officers.

Bradesco guarantees its shareholders, as a mandatory minimum dividend, 30% of adjusted net income, as well as 100% tag-along rights for common shares and 80% for preferred shares. Preferred shares are also entitled to dividends 10% greater than those paid to common shares.

Investor Relations area – IR

The commitment with transparency, the democratization of information, the timeliness and search for best practices are essential factors and constantly reinforced by the Investor Relations area of Bradesco.

In the first semester of 2015, there were promoted over 200 events with national and international investors, through conferences, meetings, conference calls and institutional presentations, assisting 2,479 investors.

In 2001, Bradesco voluntarily adhered to Level 1 Corporate Governance of BM&FBovespa, as well as to the Code of Self-Regulation and Best Practices for Publicly Held Companies, issued by the Brazilian Association of Publicly Held Companies (ABRASCA), in 2011. On the basis of the main codes published on the theme, in December 2014, *Austin Rating* held its AA+ Corporate Governance Rating (very good level of adaptation to the best practices of corporate governance) attributed to Bradesco.

All matters proposed for the General Meetings held on March 10, 2015 were approved.

Further information is available at the Bradesco's Investor Relations website (www.bradescori.com.br – Corporate Governance Section).

During the period, there was also the 2nd Bradesco Insurance Day, which gathered 67 investors in Hotel Renaissance, in São Paulo.

On that occasion, a presentation was made of the positioning, operational strategy, structure and the main lines of growth of Grupo Bradesco Seguros, market leader in national insurance.

The Investor Relations area also provides services frequently to shareholders, investors and analysts

by phone, e-mail and in their headquarters.

Bradesco _____

Return to Shareholders

Sustainability Corporate Sustainability

In the continuous search for enhancing the organizational structures, Bradesco created its Corporate Sustainability area integrated to the

strategic planning structure of the Organization, reinforcing the transversal treatment of the theme in our business.

Planning for Sustainability

Aiming to structuring the corporate approach on Sustainability theme, a Strategic Plan on Sustainability was drawn up. This work has resulted in a broad set of Strategic Goals and an action plan involving various areas of Bradesco. The implementation of these initiatives will allow Bradesco to proceed in the Sustainability theme, achieve better results in the long term, meet the demands of Resolution No. 4.327/14 - Bacen, and still promote the acculturation of employees and external collaborators.

It is a comprehensive approach on Sustainability that covers aspects of socioenvironmental, corporate governance and economic-financial nature, among others, and that are relevant to the survival of the business.

Inventory of GHG emissions

For the seventh consecutive year, Bradesco has reported the direct and indirect greenhouse gas emissions of all companies in which it maintains

operational control. Its inventory for the year 2014 was prepared and verified according to ABNT-NBR ISO 14064.

Note: On 07/24/2014, the Central Bank issued Circular Letter No. 3.712/14, allowing the use of certain credit transactions in the reduction of Reserve Requirements.

For more information about the recent changes in the rules of the compulsory tax, check Note 35C, in Chapter 6.

Bradesco

Additional Information

Investments in Infrastructure, Information Technology and Telecommunications

One of the mainstays of Bradesco, technology is gaining more importance and its application in products and services is becoming an increasingly competitive differentiator.

The telecommunication network is being systematically expanded to improve the quality of services in Service Posts of this continental country. In this period, the process of installation of the Wi-Fi network began in the Branches for clients to access Bradesco applications.

In May 2015, Bradesco celebrated 20 years of Internet in Brazil. In May 1995, Bradesco was the first financial institution in the country to join the global computer network, by creating www.bradesco.com.br. Two decades of pioneering and innovation present in a tool that, every day, becomes more important in the clients' life, providing agility and convenience.

In June 2015, the "Bradesco" global digital brand was approved by Internet Corporation for Assigned Names and Numbers (ICANN) as pioneers in the financial segment and will be available to the general public in the second semester of this year. Bradesco clients will access the database through the worldwide computer network only with the word Bradesco.

The websites of Bradesco Empresas and Bradesco Empresas e Negócios have been redesigned, with more intuitive versions, and easy to navigate. The homepage of Bradesco website has also gained a new opening: more modern and with the application of the visual identity of Bradesco for the "Rio 2016 Olympics".

Another novelty that brought convenience to the client's life was the possibility of changing the four-digit password directly on Internet Banking, in addition to the Fone Fácil (Call Center), Autoatendimento (ATM), and the bank's Branch.

In June 2015, Bradesco was one of the highlights in the "efinance" award, promoted by the magazine *Executivos Financeiros*, among the winning categories, and of Special Innovation, which awarded the case inovaBRA.

Another achievement in the period was the award "Oi Tela Viva Móvel 2015", conquered by Bradesco in the *Mobile Marketing* category by free access to the channel Bradesco Celular.

Bradesco was recognized as one of the top ten companies more committed in the world for their performance in social networks, receiving the certificate of *Socialbakers*, main office of data and metrics of social networks in the world. Active since 2009, 24 hours a day, seven days a week, Bradesco has always sought to straighten the relationship, resolve doubts and complaints, as well as to maintain and expand lasting relationships by offering its contents.

All of this recognition was only possible thanks to the launch of products and services that facilitate the clients' life, such as the solution that allows payments with debit cards from other banks on Bradesco ATM machines. This is an important benefit that brings more convenience and agility to the user, since, with flexible hours; the transaction can be performed at any time, even after banking hours.

Bradesco created the debit card Click Conta Elo, for young people up to 17 years old, who can now perform withdrawals and purchases with the security of a chip and pin card. Still thinking about the young public, the website of ShopFácil Universitário was launched, with targeted products.

As a prerequisite for its continuous expansion, Bradesco has invested R\$2,706 million in Infrastructure, Information Technology and Telecommunications in the first semester of 2015. The total amount invested over recent years, including infrastructure (facilities, restorations, improvements, furniture and fixtures), can be found below:

					R\$ million
	1H15	2014	2013	2012	2011
Infrastructure	473	1,049	501	718	1,087
Information Technology and Telecommunications	2,233	3,949	4,341	3,690	3,241
Total	2,706	4,998	4,842	4,408	4,328

Bradesco

Additional Information

Risk Management

Risk management activity is highly strategic due to the increasing complexity of services and products and the globalization of the Bradesco's business. The dynamic aspect of markets forces Bradesco to engage in continuous improvement of this activity in pursuit of best practices. That has allowed Bradesco to use its internal market risk models, which were already in force, to calculate regulatory capital, since January 2013.

Bradesco controls corporative risk management in an integrated and independent manner, preserving and valuing the Board's decisions, developing and implementing methodologies, models, and measurement and control tools. It

also provides training to employees from all organization levels, from business areas to the Board of Directors.

The management process allows the risks to be proactively identified, measured, mitigated, monitored and reported, which is necessary in view of the Bradesco's complex financial products and activity profile.

Detailed information on the risk management process, Capital, as well as the Bradesco's risk exposure, can be found in the Risk Management Report, available on the Investor Relations website: www.bradescori.com.br.

- Economic and Financial Analysis Report – June 2015

Additional Information

Capital Management

The Capital Management structure aims to providing conditions for capital monitoring and control, contributing to the achievement of goals set in the strategic objectives defined by Bradesco, through an adequate capital sufficiency planning. This structure is comprised of Executive Committees and one Non-Statutory Committee, which assist the Board of Directors and Board of Executive Officers in the decision-making process.

In addition to the Committee structure, Bradesco has a department responsible for the capital management centralization, named Capital Management and Internal Capital Adequacy Assessment Process (ICAAP), subordinated to the Department of Planning, Budget and Control, which acts jointly with the Integrated Risk Control Department, associated companies, business areas and the Bradesco's supporting areas.

The capital plan is devised on an annual basis and approved by the Board of Executive Officers and Board of Directors. It is also aligned with the strategic plan and encompasses a prospective outlook of at least three years. The process of developing this plan considers threats and opportunities, market share and development goals, capital requirement projections based on risks, as well as capital held by Bradesco. Such projections are constantly monitored and controlled by the capital management area.

With the implementation of the capital management structure, an internal process has been established to assess capital adequacy (ICAAP), which provides conditions to assess capital sufficiency in accordance with the base and stress scenarios, in a prospective outlook to identify capital and contingency actions to be taken in the respective scenarios. Capital adequacy and sufficiency information represent essential tools to manage and support the decision-making process.

Additional information on the capital management structure is available in the Risk Management Report – Pillar 3, and in the 2014 Annual Report, on the Investor Relations website:
www.bradescori.com.br.

Bradesco

Basel Ratio

The implementation of the new capital structure in Brazil began in October 2013. Through the CMN Resolution No. 4.192/13, Bacen provided a new methodology to assess Capital, replacing CMN Resolution No. 3.444/07. Since then, the Capital started being calculated based on CMN Resolution No. 4.192/13, which established that the elaboration must be made based on the "Prudential Consolidated", as of January 2015.

In June 2015, the Capital of the Prudential Consolidated reached the amount of R\$97,016 million, compared to assets weighted by the risk of R\$607,226 million. The total Basel ratio, in the Prudential Consolidated, presented an increase of 0.8 p.p., from 15.2% in March 2015 to 16.0% in June 2015, and the Principal Capital from 12.1% in March 2015 to 12.8% in June 2015, impacted, basically: (i) by the increase in the Shareholders' Equity, due to the increment of the results in the quarter; and (ii) by the reduction in the assets weighted by the market and credit risks.

Calculation Basis	Basel III					R\$

Disclosure to the Market Form 20-F

By keeping programs of preferred and common ADR shares on the New York Stock Exchange (NYSE), Bradesco elaborates and discloses the Form 20-F annually. On April 30, 2015, this document was filed with the Securities and Exchange Commission (SEC) for the fiscal year ending on December 31, 2014, together with the financial statements prepared in accordance with the international accounting standards (IFRS).

The document is available on the Investor relations website: www.bradesco.com.br > Reports and Spreadsheets > SEC Reports > 20-F Reports.

Reference Form

For the purposes of compliance with CVM Instruction No. 480/09, Bradesco presented on May 29, 2015, the Reference Form to the CVM. This document is drawn up annually, and is presented again in the event of changes, as described in art. No. 24 of the above-mentioned Instruction. In addition to the financial statements under the IFRS, the document presents risk factors of Bradesco, description of its operations, information on its controllers, reviews of directors on the results and equity position, among other relevant topics.

The document is available on our Investor relations website: www.bradesco.com.br > Reports and Spreadsheets > CVM Reports.

Bradesco

Independent Auditors' Report

Independent reasonable assurance report on the supplementary accounting information included within the Economic and Financial Analysis Report

To

The Directors of

Banco Bradesco S.A.

Osasco – SP

Introduction

We were engaged by Banco Bradesco S.A. ("Bradesco") to report on the supplementary accounting information of Banco Bradesco S.A. for the six month period ended as at June 30, 2015 in the form of reasonable assurance conclusion that based on our work, described within this report, the supplementary accounting information included within the Economic and Financial Analysis Report is presented, in all material respects, based on the information referred to in the "Criteria for preparing the supplementary accounting information" paragraph.

Responsibilities of the Management of Bradesco

Management is responsible for preparing and adequately presenting the supplementary accounting information included within the Economic and Financial Analysis Report based on the criteria for the preparation of the supplementary accounting information described below, and for other information contained within this report, as well as the design, implementation and maintenance of internal controls that management determines are necessary to allow for such information that is free from material misstatement, whether due to fraud or error.

Independent Auditor's Responsibility

Our responsibility is to examine the supplementary accounting information included within the Economic and Financial Analysis Report prepared by Bradesco and to report thereon in the form of a reasonable assurance conclusion based on the evidence obtained. We conducted our engagement in accordance with the NBC TO 3000 - Assurance Engagement Other than Audit and Review (ISAE 3000). That standard requires that we comply with ethical requirements, including independence requirements, and plan and perform our procedures to obtain a reasonable assurance about whether the supplementary accounting information included within the Economic and Financial Analysis Report is presented, in all material respects, to the information referred to in the "Criteria for preparing the supplementary accounting information" paragraph.

The procedures selected were based on our judgement, including the assessment of risks of material misstatement in the supplementary accounting information of Banco Bradesco S.A. whether due to fraud or error, however, this does not include the search and identification of fraud or error.

In making those risk assessments, we have considered internal controls relevant to the preparation and presentation of supplementary accounting information in order to design assurance procedures that are appropriate in the circumstances, but not for the purposes of expressing a conclusion as to the effectiveness of Bradesco's internal control over the preparation and presentation of the supplementary accounting information. Our engagement also includes the assessment of the appropriateness of the reasonableness of the supplementary accounting information within the Economic and Financial Analysis Report in the circumstances of the engagement, evaluating the appropriateness of the procedures used in the preparation of the supplementary accounting information and the reasonableness of estimates made by Bradesco and evaluating the overall presentation of the supplementary accounting information. Reasonable assurance is less than absolute assurance.

Our conclusion does not contemplate aspects related to any prospective information contained within the Economic and Financial Analysis Report, nor offers any guarantee if the assumptions used by Management to provide a reasonable basis for the projections presented. Therefore, our report does not offer any type of assurance on the scope of future information (such as goals, expectations and ambitions) and descriptive information that is subject to subjective assessment.

- Report on Economic and Financial Analysis – June 2015

Independent Auditors' Report

Independent reasonable assurance report on the supplementary accounting information included within the Economic and Financial Analysis Report

Criteria for preparing the supplementary accounting information

The supplementary accounting information disclosed within the Economic and Financial Analysis Report, for the six month period ended June 30, 2015 has been prepared by the Management of Bradesco, based on the information contained in the consolidated financial statements on June 30, 2015 and the accounting criteria described within the Economic and Financial Analysis Report, in order to facilitate additional analysis, without, however, being part of the consolidated financial statements disclosed on that date.

Conclusion

Our conclusion has been formed on the basis of, and is limited to the matters outlined in this report.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our conclusion. In our opinion, the supplementary accounting information included within the Economic and Financial Analysis Information Report is presented, in all material respects, in accordance with the information referred to in the "Criteria for preparing the supplementary accounting information" paragraph.

- Report on Economic and Financial Analysis – June 2015

Consolidated Financial Statements and Independent Auditors' Report

Management Report

Dear Shareholders,

We hereby present the Consolidated Financial Statements of Banco Bradesco S.A related to the first semester of 2015, prepared in accordance with the accounting practices adopted in Brazil and applicable to institutions authorized to operate by the Brazilian Central Bank.

Bradesco, one of the largest financial groups in Brazil, with solid performance focused on the interests of its customers since 1943, present in all regions of the Country, in addition to the constant quest for excellence in services and customer care, was highlighted in the period, as one of the best managers of resources on the market, with results built on sustainable bases.

In the Organização Bradesco, between the events that marked the first semester of the year, we highlight the signature, on 07.06.2015, of the partnership with FCA Fiat Chrysler Automóveis Brasil and Banco Fidis, through Bradesco Financiamentos, for a period of ten years, to finance the sales of vehicles of the brands Jeep, Chrysler, Dodge and Ram in Brazil.

Economic Comment

The resumption of North American growth has not been accompanied in the same intensity by other

2. Capital and Reserves

At the end of the semester, the realized Capital Stock was of R\$43.100 billion. Added to the Equity Reserves of R\$43.872 billion, resulted in a Shareholders' Equity of R\$86.972 billion, with a growth of 13.2% on the same period of the previous year, corresponding to the equity value of R\$17.28 per share.

The Market Value of Bradesco, calculated on the basis of the listing of its shares, reached R\$ 142.098 billion on June 30, 2015, equivalent to 1.6 times the Shareholders' Equity.

The Shareholders' Managed Equity is equivalent to 8.6% of the Consolidated Assets, which amounted to R\$1.030 trillion, with a growth of 10.6% on June 2014. Thus, the index of solvency was 16.0% higher, therefore, at the minimum of 11% established by Resolution No. 4.193/13 of the National Monetary Council, in compliance with the Basel Committee. At the end of the semester, the immobilization index, regarding the Reference Equity in the Prudential Consolidated was of 39.6%, therefore within the maximum limit of 50%.

Securities classified under "Held-to-Maturity Securities"

In compliance with Article 8 of Brazilian Central Bank Circular Letter No. 3.068/01, Bradesco declares that it has the financial capacity and the intention of holding to maturity those securities classified under "held-to-maturity securities".

3. Capture and Management of Resources

countries, leading them to adopt new measures of stimulus, which should keep the world liquidity high, in spite of the perspective of growth of interest in the US. On the other hand, the slowdown in the Chinese economic growth has affected negatively the international price of commodities and the performance of a large part of the emerging economies. Brazil is going through a period of adjustments in economic policies, seeking to re-balance the public accounts. With this, the Country creates the basis for a sustainable development forward, guided by ample opportunities for investment and resumption of household consumption.

1. Result for the Period

In the first semester of 2015, Bradesco's Net Profit reached R\$8.717 billion, an increase of 20.7% in comparison to the same period of 2014, equivalent to R\$1.73 per share and profitability of 21.7% over the average Shareholders' Equity(*). The annualized return on Average Total Assets was 1.7%.

The taxes and contributions, including pensions, paid or provisioned, reached R\$13.752 billion in the semester, whereby R\$6.016 billion was related to withheld taxes and collected from third parties and R\$7.736 billion calculated based on the activities developed by Organização Bradesco, equivalent to 88.7% of the Net Profit.

To the shareholders, as Interest on Own Capital and Dividends, in the first semester, R\$ 2.908 billion was destined, in gross value, of which R\$ 522 million was paid in the form of monthly and intermediaries and R\$ 2.386 billion provisioned. The intermediate Dividends paid on 07.17.2015, represent approximately 11.8 times the value of monthly Interest paid (net of Withholding Income Tax).

On June 30, 2015, the total funds obtained and managed by Organização Bradesco totaled R\$1.444 trillion, 10.7% higher than the previous year, distributed as follows:

R\$489.657 billion in Demand Deposits, Time Deposits, Interbank Deposits, Savings Accounts and Securities Sold Under Agreements to Repurchase, a growth of 4.4%.

R\$514.728 billion in assets under management, comprising Investment Funds, Managed Portfolios and Third-Party Fund Quotas, a 11.4% increase.

R\$233.927 billion in the Exchange Portfolio, Borrowings and On-lendings in Brazil, Working Capital, Tax Payments and Collection and Related Charges, Funds From Issuance of Securities in Brazil, and Subordinated Debt in Brazil, a 16.3% growth.

Economic and Financial Analysis Report – June 2015

Consolidated Financial Statements and Independent Auditors' Report

Management Report

Consolidated Financial Statements and Independent Auditors' Report

Management Report

7. Grupo Bradesco Seguros

With a prominent position on the market in the areas of Insurance, Capitalization and Open Supplementary Pension Plans, Grupo Bradesco Seguros, on June 30, 2015, recorded a Net Profit of R\$2.566 billion and Shareholders' Equity of R\$22.187 billion. The net insurance premiums issued, pension contributions and income from capitalization reached a total of R\$30.357 billion, an increase of 19.3% in comparison to the same period of 2014.

8. Corporate Governance

With its shares traded on the Stock Exchange in Brazil since 1946, Banco Bradesco has been operating in the US capital markets since 1997, negotiating initially Level 1 ADRs (American Depositary Receipts) backed by preferred shares and, from 2001 to 2012, ADRs Level II backed, respectively, by preferred and common shares. Since 2001, they also negotiate GDRs (Global Depositary Receipts) on the European market (Latibex).

The Management is exercised by 10 members of the Board of Directors and 86 of the Board of Executive Officers, formed, in their majority, in the institution itself. There is no accumulation of the posts of President of these committees since 1999 and the succession plan is defined promptly.

Other services provided by the external auditors were the previously-agreed procedures for reviews of, substantially, financial, fiscal and actuarial information. The Bank's policy is in line with the principles of preserving the auditors' independence, which are based on generally accepted international criteria, i.e. the auditors should not audit their own work, perform managerial duties for their clients or promote their customers' interests. It is noteworthy that any eventual services not related to the external audit are submitted prior to the authorization of the Audit Committee.

8.1. Policies of Transparency and Disclosure of Information

Bradesco, in the first semester, took part in 28 events with investors, 12 in Brazil and 16 Abroad, in addition to 111 people attended through conference calls and 66 individual meetings and/or in groups of analysts. They also performed 2 teleconferences of the result, to institutional investors and 1 APIMEC Meeting in Brasilia/DF.

On the Investor Relations *website* – www.bradesco.com.br/ri – there is information available related to Organização Bradesco, like its profile, history, equity stake, management report, financial results, recent acquisitions, APIMECs meetings, Report on Economic and Financial Analysis, Annual Report, in addition to others on the financial market.

9. Integrated Risk Control

9.1. Risks Management

Risk management is strategically highly important due to the increasing complexity of services and products and the globalization of the Organization's

business.

To advise the Board of Directors there are 6 committees, and 2 statutory (Audit and Remuneration) and 4 non-statutory (Ethical Conduct, Internal Controls and Compliance, Integrated Risks Management and Allocation of Capital and Sustainability), in addition to executive committees which assist the activities of the Board of Executive Officers.

Permanent committee since the assembly meeting of 03.10.2015, the Fiscal Council is composed of 5 effective members and an equal number of alternate members, 2 of which are effective members and their respective alternates chosen, respectively, by minority preferred shareholders and by non-controlling shareholders, holders of common shares.

Banco Bradesco is listed in Level 1 of Corporate Governance of BM&FBovespa, is compliant with the Code of Self-regulation and Good Practices of Listed Companies of Abrasca and has the AA+ *rating* (very good degree of adaptation to good corporate governance practices), assigned by Austin Rating.

In compliance with CVM Rule No. 381/03, in the 1st semester of 2015, the Organização Bradesco neither contracted from nor had services provided by KPMG Auditores Independentes that were not related to the external audit, at a level greater than 5% of the total fees related to external audit services.

The risk corporate control is integrated and independent, preserving and valuing the Board's decisions, developing and implementing methodologies, models, and measurement and control tools. It also provides training to employees from all Organization levels, from the business areas to the Board of Directors.

In face of the complexity and the range of products and services offered to its customers in all segments of the market, and being exposed to various types of risks, either due to internal or external factors, the Organization adopts a constant monitoring of all risks in order to provide security and comfort to all interested parties. Among the main types of risks, we highlight: Credit, Counterpart Credit, Concentration, Market, Liquidity and Subscription, Operational, Strategy, Legal or Compliance, Legal Unpredictability (Regulatory), Reputation and Socio-environmental.

Consolidated Financial Statements and Independent Auditors' Report

Management Report

9.2. Internal Controls

The effectiveness of the internal controls of the Organization is sustained by qualified professionals, well-defined and implemented processes and technology compatible with the business needs.

The methodology of internal controls applied at Bradesco is in line with the guidelines of the Committee of Sponsoring Organizations of the Treadway Commission (COSO) – version 2013, which has the purpose of supplying a model for internal controls, management of corporate risks and fraud, in order to improve the performance and organizational supervision.

The existence, the execution, and the effectiveness of controls that ensure acceptable risk levels in the Organization's processes are certified by the department in charge, and the results are reported to the Audit Committee and to the Compliance and Internal Controls Committee, as well as to the Board of Directors, aiming to provide assurance regarding the proper conduct of business and the achievement of the established goals, in accordance with applicable external laws and regulations, policies, internal rules and procedures, and codes of conduct and self-regulation.

Money Laundering and Terrorist Financing Prevention

Prevention and Fight against Corruption

At Bradesco, the prevention and fight against any unlawful act are exercised continuously and permanently, with the strengthening of processes, procedures and training focused on the prevention and fight against corruption.

The Corporate Anti-corruption Policy, approved by the Board of Directors, establishes guidelines for the prevention and fight against corruption, and applies to all directors and employees of the Organization, composed by Banco Bradesco S.A. and its subsidiaries, in Brazil and Abroad.

The Corporate Anti-corruption Standard establishes the rules and procedures for the prevention and fight against corruption and bribery, in compliance with the legislation and regulations in force in Brazil and in the countries where we have Business Units.

The Program of Prevention and Fight against Corruption is supported by the Code of Ethical Conduct, by the Corporate Anti-corruption Policy and by the Ethical Conduct Committee.

The actions also include the management of business partners, the hiring of products and services, and the acculturation of officials and employees, by means of e-learning and personal training and internal and external communication,

Policies, standards, procedures and specific systems are maintained to prevent and/or detect the use of the structure of the Organization, or its products and services, for the purposes of money laundering and terrorist financing.

In addition, there is the monitoring of the training of employees with programs in a variety of formats, such as guidebooks, videos, distance and on-site courses and live lectures specific to areas in which they are required.

The Money Laundering and Terrorism Financing Prevention Program is supported by the Executive Committee of Money Laundering and Terrorism Financing Prevention, which evaluates the work and need to align procedures with the regulations laid down by Regulatory Bodies and with the best national and international practices.

The suspicious or atypical cases identified are forwarded to the Commission for the Evaluation of Suspicious Transactions, composed by several areas that assess the need to report to the Regulatory Bodies.

providing an effective monitoring of risks and controls.

Bradesco also has whistle blowing channels, whose actions treated as violations are subject to the disciplinary measures applicable, regardless of the hierarchical level, and without prejudice to the legal penalties applicable.

Independent Validation of Models of Management and Measurement of Risks and Capital

Bradesco uses internal models to manage risks and capital, developed from statistics, economic, financial, and mathematical theories or of expert knowledge, that support and facilitate the structuring of critical issues and provide standardization and agility to decisions.

To identify, mitigate and control risks of the models, represented by potential adverse consequences arising from decisions based on incorrect or obsolete models, there is the process of independent validation, whose main objective is to verify that the models operate according to the objectives provisioned, as well as if its results are adequate for the uses for which they are intended. This validation occurs through the application of a rigorous testing program that deals with aspects of appropriateness of processes, governance and construction of models and their assumptions, where the results are reported to managers to the Internal Audit, to Committees of Internal Controls and Compliance and to the Integrated Risks Management and Capital Allocation.

Consolidated Financial Statements and Independent Auditors' Report

Management Report

Information Security

The Information Security in the Organization is composed of a set of controls, represented by procedures, processes, organizational structures, policies, standards and information technology solutions. It aims to meet the basic principles for the protection of information related to confidentiality, availability and integrity, regardless of its form and where the information is kept or handled.

In the Policy and Corporate Standards of Information Security the bases for the SGSI-Information Security Management System within the Organization are described.

The Board of Executive Officers and the other hierarchical levels of the Organization are involved in the decisions on Information Security from their participation in the three technical Committees and in the Executive Committee of Corporate Security, who meet on a regular basis to assess and approve policies, measures and guidelines to ensure support to the processes and procedures related to the subject.

10. Human Resources

In Organização Bradesco, the model of Human Resource Management is invariably guided by the appreciation of the people, without any kind of discrimination.

Through UniBrad – Bradesco Corporate University, in the permanent search to evolve the quality of customer care and the level of services rendered, Bradesco maintains its purpose of promoting further education and enhancing the development and training of its staff. Thus, the employees have access to an integrated set of learning solutions that

As a form of recognition of the extensive work that it has been developing, the Bank is present in the sustainability indexes, DJSI (Dow Jones Sustainability Indexes), the New York Stock Exchange, of the ISE (Corporate Sustainability Indices) and the ICO2 (Carbon Efficient Index), both of BM&F Bovespa.

For more information about the initiatives of Bradesco, access the sites www.bradescosustentabilidade.com.br and www.bradesco.com.br/ri.

Fundação Bradesco

The social action of the Organization is mainly focused on educational and assistance programs developed through Fundação Bradesco, which maintains 40 own Schools installed as a priority in regions of accentuated socio-economic deprivation, in all the Brazilian States and in the Federal District.

This year, its budget is predicted to be R\$537.311 million, whereby R\$463.246 million destined to cover Expenses of the Activities and R\$74.065 million to the investments in Infrastructure and Educational Technology, that allows it to offer education free-of-charge and of quality to the: a) 101,609 students enrolled in its schools in the following levels: Basic Education (Kindergarten to High School) and Vocational Training (High School level); Youth and Adult Education; and Preliminary and Continuing Vocational Training, focused on creating jobs and income; b) 380 thousand students who will complete at least one of the distance-learning courses on offer (EaD) through its e-learning portal; and c) 17,346 people who will benefit through partnership projects and initiatives, including the Digital Inclusion Centers (CIDs), the Educa+Ação program and Technology courses

provides the development of competencies aligned with the business of the Organization. In the semester, 1,703 courses were given, with 426,983 participations.

Also highlighted are, at the end of the period, the assistance benefits included 202,697 people, ensuring well-being, better quality of life and security of employees and their dependents.

11. Sustainability in Organização Bradesco

Since its origins, Organização Bradesco is committed to the socioeconomic development of the Country. In a permanent manner, seeking sustainability in management, in business and in the day-to-day practices. Thus, it aims to grow on a continuous and sustainable basis, with respect to the target audiences with which it relates, and the environment.

Our guidelines and strategies are oriented in such a way as to promote the incorporation of best practices of corporate sustainability in business, considering the context and the potential of each region, contributing to the generation of shared value. In this sense, in the face of the current environmental and economic scenarios, the Organization has continued to implement its Strategic Planning for Sustainability promoting actions so that the strategic objectives are achieved.

(Educar e Aprender). To around 44 thousand students of Basic Education, are ensured free-of-charge, alimony, medical-dental assistance, school materials and uniform.

The "National Day of Voluntary Action", promoted for the 13th consecutive year, on 05.16.2015, brought together 15,684 volunteers in 61 different locations in Brazil, including the Schools of Fundação Bradesco and points of service close to the school units. It promoted, in total, 288,406 personal attendances in the areas of education, health, leisure, sports and environment, once again an example of citizenship and solidarity.

Programa Bradesco Esportes e Educação (Bradesco Sports and Education Program)

In the Municipal District of Osasco, SP, Programa Bradesco Esportes e Educação has Qualification and Specialist Centers to teach the modalities of Women's Volleyball and Basketball. The activities occur in their own Sports Development Center, in schools of Fundação Bradesco, municipal Sports Centers, and private schools and in a leisure club. Currently, two thousand girls are assisted, from the age of eight, reaffirming the social commitment and valuation of talent and plain exercise of citizenship, with actions of education, sports and health.

Economic and Financial Analysis Report – June 2015

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

1) OPERATIONS

Banco Bradesco S.A. (Bradesco) is a private-sector publicly traded company and universal bank that through its commercial, foreign exchange, consumer financing and housing loan portfolios carries out all the types of banking activities that it is authorized to do so. The Bank is involved in a number of other activities, either directly or indirectly, through its subsidiaries, specifically leasing, investment banking, brokerage, consortium management, credit cards, real estate projects, insurance, pension plans and capitalization bonds. All these activities are undertaken by the various companies in the Organização Bradesco, working together in an integrated fashion in the market.

2) PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS

Bradesco's consolidated financial statements include the financial statements for Banco Bradesco, its foreign branches, subsidiaries and jointly controlled entities, in Brazil and overseas, including SPEs (Special Purpose Entities). They were prepared using accounting practices in compliance with Laws No. 4.595/64 (Brazilian Financial System Law) and No. 6.404/76 (Brazilian Corporate Law), along with amendments introduced by Laws No. 11.638/07 and No. 11.941/09, as they relate to the accounting for operations, complemented by the rules and instructions of the National Monetary Council (CMN) and the Brazilian Central Bank (Bacen), Brazilian Securities and Exchange Commission (CVM), where applicable, National Private Insurance Council (CNSP), Insurance Superintendence (Susep) and National Supplementary Healthcare Agency (ANS). The financial statements of the leasing companies included in the consolidated financial statements were prepared using the finance lease method, under which the book value of leased fixed assets less the residual value paid in advance is presented with the leasing installments due in a single balance sheet line.

In the preparation of these consolidated financial statements, which were drawn up in accordance with the specific procedures laid down by Article 3 of Resolution No. 2.723/00 of CMN in force until March 26, 2015, and other provisions of the Accounting Plan of Financial Institutions – ("Cosif"), in order to demonstrate the appropriate financial situation and results of the operations of the member companies of Organização Bradesco, as well as to maintain consistency with the information already disclosed in previous periods. Moreover, intercompany transactions, including investments, assets and liabilities, revenue, expenses and unrealized profit were eliminated and net income and shareholders' equity attributable to the non-controlling interests were accounted for in a separate line. For jointly controlled investments with other shareholders, assets, liabilities and income and loss were proportionally consolidated in the consolidated financial statements according to the interest held in the shareholders' equity of each investee. Goodwill on the acquisition of investments in subsidiary/associate companies or jointly controlled entities is presented in the investments and intangible assets lines (Note 15a). The foreign exchange variation from foreign branches and investments is presented in the income statement accounts used for changes in the value of the derivative financial instrument and borrowing and on-lending operations in order to offset these results with

the hedges of these investments.

The financial statements include estimates and assumptions, such as: the calculation of estimated loan losses; fair value estimates of certain financial instruments; civil, tax and labor provisions; impairment losses of securities classified as available-for-sale and held-to-maturity securities and non-financial assets; the calculation of technical provisions for insurance, pension plans and capitalization bonds; and the determination of the useful life of specific assets. Actual results may differ from those based on estimates and assumptions.

Bradesco's consolidated financial statements were approved by the Board of Directors on July 29, 2015.

- (5) Company divested in December 2014.

Economic and Financial Analysis Report – June 2015

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

3) SIGNIFICANT ACCOUNTING PRACTICES

a) Functional and Presentation Currencies

Consolidated financial statements are presented in Brazilian reais, which is also Bradesco's functional currency. Foreign branches and subsidiaries are mainly a continuation of activities in Brazil, and, therefore, assets, liabilities and profit or loss are translated into Brazilian reais using the appropriate currency exchange rate to comply with accounting practices adopted in Brazil. Foreign currency translation gains and losses arising are recognized in the period's income statement in the lines "Derivative Financial Instruments" and "Borrowing and On-lending".

b) Income and Expense Recognition

The result is calculated according to the regime of competence, which establishes that the revenues and expenses should be included in the calculation of the results for the periods in which they occur, always simultaneously when they are correlated, regardless of being a receipt or payment.

Fixed rate contracts are recorded at their redemption value with the income or expense relating to future periods being recorded as a deduction from the corresponding asset or liability. Finance income and costs are recognized daily on a pro-rata basis and calculated using the compounding method, except when they relate to discounted notes or to foreign transactions, which are calculated using the straight-line method.

Floating rate and foreign-currency-indexed contracts are adjusted for interest and foreign exchange rates applicable at the end of the reporting period.

Insurance and coinsurance premiums, net of premiums paid for coinsurance and related commissions, are recorded upon the issue of the related policies/certificates/endorsements and invoices, or upon the

beginning of the exposure to risk in cases in which the risk begins before the issue, and recognized on a straight-line basis over the policies' effective period through the upfront recognition and subsequent reversal through the income statement of the unearned premium reserve and the deferred acquisition costs. Revenues from premiums and the corresponding deferred acquisition costs, relating to existing risk for which no policy has been issued, are recorded in the income statement at the beginning of the risk exposure, based on estimated figures.

Recognition of health insurance premiums commences with the effectiveness of the corresponding insurance policy, and is recognized in proportion to the portion of the term elapsed.

Income and expenses arising from Mandatory Insurance For Personal Injury Caused by Motor Vehicles (DPVAT) insurance operations are recorded based on information provided by Seguradora Líder dos Consórcios do Seguro DPVAT S.A.

Accepted coinsurance and retrocession operations are recorded based on the information received from other insurers and IRB - Brasil Resseguros S.A. (IRB), respectively.

Reinsurance operations are recorded based on the premium and claims information provided which is subject to the analysis of the re-insurers. The deductions of reinsurance premiums granted are consistent with the recognition of the corresponding insurance premium and/or terms of the reinsurance contract.

Acquisition costs, relative to the insurance commission, are deferred and recognized in profit or loss in proportion to the amount of premium recognized.

Contributions and agency fees are deferred and recognized in the income statement on a straight-line basis over a period of 24 months for health insurance operations, and 12 months for other operations.

Pension plan contributions and life insurance premiums with survival coverage are recognized in the income statement as they are received.

Bradesco

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

Income from capitalization bonds is recognized in the month it is received. Technical provisions are recorded when the respective revenues are recognized.

Income from expired capitalization bonds is recognized after the statute of limitation, as per Article 206 of the Brazilian Civil Code. The expenses for placement of capitalization bonds, classified as "Acquisition Costs", are recognized in the income statement as incurred.

c) Cash and cash equivalents

Cash and cash equivalents include: funds available in currency, investments in gold, securities sold under agreements to repurchase and interest-earning deposits in other banks, maturing in 90 days or less, which are exposed to insignificant risk of change in fair value. These funds are used by Bradesco to manage its short-term commitments.

Cash and cash equivalents detailed balances are presented in Note 6.

d) Interbank investments

Unrestricted repurchase and reverse repurchase agreements are stated at their fair value. All other interbank investments are stated at cost, plus income earned up to the end of the reporting period, net of any devaluation allowance, if applicable.

The breakdown, terms and proceeds relating to interbank investments are presented in Note 7.

e) Securities – Classification

- Trading securities – securities acquired for the purpose of being actively and frequently traded. They are recorded at cost, plus income earned and adjusted to fair value with movements recognized in the Income Statement for the period;
- Available-for-sale securities – securities that are not specifically intended for trading purposes or to be held to maturity. They are recorded at cost, plus income earned, which is recorded in profit or loss in the period and adjusted to fair value with movements recognized in shareholders' equity, net of tax, which will be transferred to the Income Statement only when effectively realized; and
- Held-to-maturity securities – securities for which there is positive intent and financial capacity to hold to maturity. They are recorded at cost, plus income earned recognized in the Income Statement for the period.

Securities classified as trading and available-for-sale, as well as derivative financial instruments, are recognized in the consolidated statement of financial position at their fair value. Fair value is generally based on quoted market prices or quotations for assets or liabilities with similar characteristics. If market prices are not available, fair values are based on traders' quotations, pricing models, discounted cash flows or similar techniques to determine the fair value and may require judgment or significant estimates by Management.

Classification, breakdown and segmentation of securities are presented in Note 8 (a to d).

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

f) Derivative financial instruments (assets and liabilities)

Derivate instruments are classified based on the objective for which the underlying instrument was acquired at the date of purchase, taking into consideration its use for possible hedging purposes.

Operations involving derivative financial instruments are designed to meet the Bank's own needs in order to manage overall exposure, as well as to meet customer requests to manage their positions. The gains or losses are recorded in profit-and-loss and shareholders' equity accounts.

Derivative financial instruments used to mitigate risk deriving from exposure to variations in the fair value of financial assets and liabilities are designated as hedges when they meet the criteria for hedge accounting and are classified according to their nature:

- Market risk hedge: the gains and losses, realized or not, of the financial instruments classified in this category as well as the financial assets and liabilities, that are the object of the hedge, are recorded in the Income Statement; and
- Cash flow hedge: the effective portion of valuation or devaluation of the financial instruments classified in this category is recorded, net of taxes, in a specific account in shareholders' equity. The ineffective portion of the hedge is recognized directly in the Income Statement.

A breakdown of amounts included as derivative financial instruments, in the balance sheet and off-balance-sheet accounts, is disclosed in Note 8 (e to h).

g) Loans and leasing, advances on foreign exchange contracts, other receivables with credit characteristics and allowance for loan losses

Loans and leasing, advances on foreign exchange contracts and other receivables with credit characteristics are classified by risk level, based on: (i) the parameters established by CMN Resolution No. 2.682/99, which requires risk ratings to have nine levels, from “AA” (minimum risk) to “H” (maximum risk); and (ii) Management’s assessment of the risk level. This assessment, which is carried out regularly, considers current economic conditions and past experience with loan losses, as well as specific and general risks relating to operations, debtors and guarantors. Moreover, the days-past-due is also considered in the rating of customer risk as per CMN Resolution No. 2.682/99, as follows:

Past-due period (1)	Customer rating
• from 15 to 30 days	B
• from 31 to 60 days	C
• from 61 to 90 days	D
• from 91 to 120 days	E
• from 121 to 150 days	F
• from 151 to 180 days	G
• more than 180 days	H

(1) For transactions with terms of more than 36 months, past-due periods are doubled, as permitted by CMN Resolution No. 2.682/99.

Interest and inflation adjustments on past-due transactions are only recognized in the Income Statement up to the 59th day that they are past due. As from the 60th day, they are recognized in off-balance sheet accounts and are only recognized in the Income Statement when received.

H-rated past-due transactions remain at this level for six months, after which they are written-off against the existing allowance and controlled in off-balance-sheet accounts for at least five years.

Renegotiated transactions are held at the same rating as on the date of the renegotiation or classified in a higher risk rating. Renegotiations already written-off against the allowance and that were recorded in off-balance-sheet accounts, are rated as level “H” and any possible gains derived from their renegotiation are recognized only when they are effectively received. When there is a significant repayment on the operation or when new material facts justify a change in the level of risk, the operation may be reclassified to a lower risk category.

Bradesco

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

The estimated allowance for loan losses is calculated to sufficiently cover probable losses, considering CMN and Bacen standards and instructions, together with Management's assessment of the credit risk.

Type, values, terms, levels of risk, concentration, economic sector of client's activity, renegotiation and income from loans, as well as the breakdown of expenses and statement of financial position accounts for the allowance for loan losses are presented in Note 10.

h) Income tax and social contribution (assets and liabilities)

Income tax and social contribution deferred tax assets, calculated on income tax losses, social contribution losses and temporary differences, are recorded in "Other Receivables - Sundry" and the deferred tax liabilities on tax differences in leasing depreciation (applicable only for income tax), mark-to-market adjustments on securities, restatement of judicial deposits, among others, are recorded in "Other Liabilities - Tax and Social Security".

Deferred tax assets on temporary differences are realized when the difference between the accounting treatment and the income tax treatment reverses. Deferred tax assets on income tax and social contribution losses are realizable when taxable income is generated, up to the 30% limit of the taxable profit for the period. Deferred tax assets are recorded based on current expectations of realization considering technical studies and analyses carried out by Management.

The provision for income tax is calculated at 15% of taxable income plus a 10% surcharge. Social contribution on net income is calculated at 15% for financial companies and similar companies, and insurance companies and at 9% for other companies.

Provisions were recorded for other income tax and social contribution in accordance with specific applicable legislation.

Changes in the criteria to recognize revenue, costs and expenses included in the net income for the period, enacted by Law No. 11.638/07 and subsequent amendments were made fiscally by the new regime of the taxation in force instituted by Law No. 12.973/14.

The breakdown of income tax and social contribution, showing the calculations, the origin and expected use of deferred tax assets, as well as unrecorded deferred tax assets, are presented in Note 34.

i) Prepaid expenses

Prepaid expenses consist of funds already disbursed for future benefits or services, which are recognized in the profit or loss on an accrual basis.

Incurred costs relating to assets that will generate revenue in subsequent periods are recorded in the Income Statement according to the terms and the amount of expected benefits and directly written-off in the Income Statement when the corresponding assets or rights are no longer part of the institution's assets or when future benefits are no longer expected.

In the case of the remuneration paid by the origination of credit operations to the banking correspondents related to credit operations originated during 2015, Bradesco opted to recognize 2/3 of the total value of compensation, pursuant to the provisions of Bacen Circular No. 3.738/14.

Prepaid expenses are shown in detail in Note 12b.

j) Investments

Investments in unconsolidated companies, where Bradesco has significant influence over the investee or holds at least 20% of the voting rights, are accounted for using the equity method.

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

Tax incentives and other investments are stated at cost, less allowance for losses/impairment, where applicable.

Subsidiaries and jointly controlled entities are consolidated - the composition of the main companies can be found in Note 2. The composition of unconsolidated companies, as well as other investments, can be found in Note 13.

k) Premises and equipment

Relates to the tangible assets used by the Bank in its activities, including those resulting from transactions that transfer risks, benefits and control of the assets to the Bank.

Premises and equipment are stated at acquisition cost, net of accumulated depreciation, calculated by the straight-line method based on the assets' estimated economic useful life, using the following rates: real estate - 4% per annum; furniture and utensils and machinery and equipment - 10% per annum; transport systems - 20% per annum; and data-processing systems - 20% to 50% per annum, and adjusted for impairment, when applicable.

The breakdown of asset costs and their corresponding depreciation, as well as the unrecorded surplus value for real estate and the fixed asset ratios, are presented in Note 14.

l) Intangible assets

Relates to the right over intangible assets used by the Bank in its activities.

Intangible assets comprise:

- Future profitability/acquired client portfolio and acquisition of right to provide banking services: they are recorded and amortized over the period in which the asset will directly and indirectly contribute to future cash flows and adjusted for impairment, where applicable; and
- Software: stated at cost less amortization calculated on a straight-line basis over the estimated useful life (20% to 50% p.a.), from the date it is available for use and adjusted for impairment, where applicable. Internal software development costs are recognized as an intangible asset when it is possible to show the intent and ability to complete and use the software, as well as to reliably measure costs directly attributable to the intangible asset. These costs are amortized during the software's estimated useful life, considering the expected future economic benefits.

Goodwill and other intangible assets and the movement in these balances by class, are presented in Note 15.

m) Impairment

Financial and non-financial assets are tested for impairment.

Impairment evidence may comprise the non-payment or payment delay by the debtor, possible bankruptcy process or the significant or extended decline in an asset value.

An impairment loss of a financial or non-financial asset is recognized in the profit or loss for the period if the book value of an asset or cash-generating unit exceeds its recoverable value.

Impairment losses are presented in Note 8d⁽¹⁰⁾.

n) Securities sold under agreements to repurchase

These are recognized at the value of the liabilities and include, when applicable, related charges up to the end of the reporting period, calculated on a daily pro-rata basis.

A breakdown of the contracts recorded in deposits and securities sold under agreements to repurchase, as well as terms and amounts recognized in the statement of financial position and income statement, is presented in Note 16.

Bradesco

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

o) Technical provisions relating to insurance, pension plans and capitalization bonds

- Damage, health and group insurance lines, except life insurance with survival coverage:
 - The unearned premium reserve (PPNG) is calculated on a daily pro-rata basis, using premiums net of coinsurance, but including amounts ceded through reinsurance, and is comprised of the portion corresponding to the remaining period of coverage less initial contracting costs, except for health and personal insurance. The portion of these reserves corresponding to the estimate for risks in effect but not yet contracted is designated 'PPNG-RVNE';
 - The unearned premium or contribution reserve (PPCNG) is calculated on a daily pro-rata basis based on the portion of health insurance premiums corresponding to the remaining period of coverage, of the currently effective contracts;
 - The mathematical reserve for unvested benefits (PMBaC) is calculated as the difference between the current value of future benefits and the current value of future contributions, on obligations already assumed by Bradesco;
 - The mathematical reserve for unvested benefits (PMBaC) relates to the individual health care plan portfolio and covers the risk related to the cover for the holder's dependents for five years following the death of the holder. It is calculated using a 4.9% annual discount rate, the time holders are expected to remain in the plan up to their death, and the projected costs of the five-year-period cover, excluding payment of premiums;
 - The mathematical reserve for vested benefits (PMBC) relating to the individual health care plan portfolio comprises obligations under the terms of the contract for the provision of health care, to dependents whose policyholders are already deceased, and is based on the present value of estimated

future expenses, as provided for in ANS Normative Resolution No. 75/04, discounted using an annual discount rate of 4.9%;

- For health insurance, the reserve for 'incurred but not reported' (IBNR) claims is calculated based on incurred but not paid' (IBNP) claims less the balance of the reserve for 'unsettled' claims (PSL) on the calculation date. The methodology uses the historical behavior observed in the last 12 months to project future payments for claims related to events that took place prior to the calculation date.

- For non-life insurance, the reserve for 'incurred but not reported' (IBNR) claims is calculated based on incurred but not paid' (IBNP) claims less the balance of the reserve for 'unsettled' claims (PSL) on the calculation date. A final estimate of IBNP is calculated using semi-annual run-off triangles. The run-off triangles consider the historical development of claims paid in the previous 14 half-year periods to determine a future projection per occurrence period, and considers the estimated claims 'incurred but not sufficient' reported (IBNER), reflecting the changing expectation of the amount provisioned along the regulatory process;

- For other life insurance, the reserve for 'incurred but not reported' (IBNR) claims is calculated based on incurred but not paid (IBNP) claims less the reserve for unsettled claims (PSL) on the calculation date. A final estimate of IBNP claims is calculated using semi-annual run-off triangles. The run-off triangles consider the historical development of claims paid in the previous 16 half-year periods to determine a future projection per occurrence period;

- The reserve for unsettled claims (PSL) considers all claim notifications received up to the end of the reporting period. The reserve is adjusted for inflation and includes all claims in litigation;

- For non-life insurance, the reserve for unsettled claims (PSL) is determined based on the indemnity payment estimates, considering all administrative and judicial claims existing at the reporting date, net of the expected payments to be received;

- The reserve for related expenses (PDR) is recorded to cover expenses related to estimated claims and benefits. For products structured in self-funding and partially regimes, the reserve covers claims incurred. For plans structured under a capitalization regime, the reserve is made to cover the expected expenses related to incurred claims and also claims expected to be incurred in the future;

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

- For damage insurance, the reserve for related expenses is calculated on a monthly basis to cover the expenses related to indemnity payment, and it covers the expenses allocated individually to each claim, as well as expenses related to claims that have not been itemized, that is, those at the level of the portfolio;
 - The reserve for redemptions and other amounts to be settled (PVR) comprises figures related to redemptions to settle, premium refunds owed and portability (transfer-outs) requested but not yet transferred to the recipient insurer;
 - The reserve for technical surplus (PET) corresponds to the difference between the expected and the observed amounts for events in the period for personal insurance that have a technical surplus participation clause;
 - The complementary reserve for coverage (PCC) refers to the amount necessary to complement technical provisions, as calculated in the Liability Adequacy Test (LAT), which is prepared using statistical and actuarial methods based on realistic assumptions, taking into account the biometric table BR-EMS of both genders, improvement of G Scale and forward interest rate curves (ETTJ) free from risk as authorized by SUSEP. The improvement rate is calculated from automatic updates of the biometric table, considering the expected increase in future life expectancy; and
 - Other reserves are recorded for the individual health portfolio to address the differences between the expected present value of future indemnities and related expenses and the expected present value of future premiums, using an annual discount rate of 4.9%.
- Pension plans and life insurance with survival coverage:
- The unearned premium reserve (PPNG) is calculated on a daily prorated basis using net premiums, and is comprised of the portion corresponding to the remaining period of coverage and includes an

estimate for risks covered but not yet issued (RVNE);

- The mathematical reserve for unvested benefits (PMBaC) is recorded for participants who have not yet received any benefit. In defined benefit pension plans, the reserve represents the difference between the present value of future benefits and the present value of future contributions, corresponding to obligations in the form of retirement, disability, pension and annuity plans. The reserve is calculated using methodologies and assumptions set forth in the actuarial technical notes;
- The mathematical reserve for unvested benefits related to life insurance and unrestricted benefit pension plans (VGBL and PGBL), as well as the defined contribution plans, shows the value of participant contributions, net of costs and other contractual charges, plus income from investment in specially constituted investment funds (FIE);
- The reserve for redemptions and other amounts to be settled (PVR) comprises figures related to redemptions to settle, premium refunds owed and portability requested but not yet transferred to the recipient insurer;
- The mathematical reserve for vested benefits (PMBC) is recognized for participants already receiving benefits and corresponds to the present value of future obligations related to the payment of those on-going benefits;
- The complementary reserve for coverage (PCC) refers to the amount necessary to complement technical provisions, as calculated in the Liability Adequacy Test (LAT), which is prepared semi-annually using statistical and actuarial methods based on realistic assumptions, taking into account the biometric table BR-EMS of both genders, improvement of G Scale and forward interest rate curves (ETTJ) free from risk as authorized by SUSEP. The improvement rate is calculated from automatic updates of the biometric table, considering the expected increase in future life expectancy;

Bradesco

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

- The reserve for related expenses (PDR) is recorded to cover expenses related to estimated claims and benefits. For products structured in self-funding and partially regimes, the reserve covers claims incurred. For plans structured under a capitalization regime, the reserve is made to cover the expected expenses related to incurred claims and also claims expected to be incurred in the future;
 - The reserve for financial surplus (PEF) corresponds to the portion of income from investment of reserves that exceeds the minimum returns due to policyholders of pension plans that have a profit share clause;
 - The reserve for incurred and not reported (IBNR) events is constituted for claims incurred but not reported and is based on run-off triangles, which consider the loss development of claims in the previous 96 months to set forth a future projection by occurrence period; and
 - The reserve for unsettled claims (PSL) considers all loss notices received up to the end of the reporting period. The provision is updated for inflation and includes all claims in litigation.
- Capitalization bonds:
 - The mathematical reserve for capitalization bond (PMC) is recorded for each active or suspended capitalization bond over the term set forth in the general conditions of the plan, and is calculated using the capitalization percentage, applicable to each payments made, plus the monthly accrual calculated using the inflation index and the interest rate established in the plan until the bond is redeemed or canceled;
 - The reserve for redemption (PR) comprises the values of matured and early-terminated capitalization bonds and is calculated by updating the balance of bonds whose terms have expired or canceled using the inflation index until the holder receives the redemption payment;

- Reserve for 'draws to be held' (PSR) is recorded to cover premiums for future prize draws, and the balance represents the present value of the draws that have already been funded but have not yet been held. The calculation methodology consists of the accumulation of the prize draw percentage applicable to each payment, as established in the plan, less the amounts related to prize draws that have already occurred. The percentages of payments designated for the prize draws is defined in advance in the actuarial technical note, and is not modified during the term of the bond;
- Reserve for draws payable (PSP) consists of the value of unpaid prize draw amounts, adjusted for inflation for the period between the date of the drawing and its effective settlement; and
- Reserve for administrative expense (PDA) is recorded to cover the cost of maintaining the single payment (PU) capitalization bonds.

Technical provisions shown by account, product and segment, as well as amounts and details of plan assets covering these technical provisions, are shown in Note 21.

p) Provisions, contingent assets and liabilities and legal obligations - tax and social security

Provisions, contingent assets and liabilities, and legal obligations, as defined below, are recognized, measured and disclosed in accordance with the criteria set out in CPC 25, approved by CMN Resolution No. 3.823/09 and CVM Resolution No. 594/09:

- Contingent assets: these are not recognized in the financial statements, except to the extent that there are real guarantees or favorable judicial decisions, to which no further appeals are applicable, and confirmation of the capacity of the counterparty to pay or the ability of Bradesco to realize the asset via compensation against another liability upon which the gain is considered practically certain. Contingent assets with a chance of probable success are disclosed in the notes to the financial statements;

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

- Provisions: these are recorded taking into consideration the opinion of legal counsel, the nature of the lawsuits, similarity with previous lawsuits, complexity and positioning of the courts, whenever the loss is deemed probable, it requires a probable outflow of funds to settle the obligation and when the amount can be reliably measured;
- Contingent liabilities: according to CPC 25, the term "contingent" is used for liabilities that are not recognized because their existence will only be confirmed by the occurrence of one or more uncertain future events beyond Management's control. Contingent liabilities do not meet the criteria for recognition because they are considered as possible losses should only be disclosed in the notes when relevant. Obligations deemed remote are not recorded as a provision nor disclosed; and
- Legal obligations – provision for tax risks: results from judicial proceedings, which contest the applicability of tax laws on the grounds of legality or constitutionality, which, regardless of the assessment of the probability of success, are fully provided for in the financial statements.

Details on lawsuits, as well as segregation and changes in amounts recorded, by type, are presented in Note 18.

q) Funding expenses

Expenses related to funding transactions involving the issuance of securities reduce the corresponding liability and are recognized in the profit or loss over the term of the transaction. They are presented in Notes 16c and 19.

r) Other assets and liabilities

Assets are stated at their realizable amounts, including, when applicable, related income and inflation and exchange variations (on a daily prorated basis), less provision for losses, when deemed appropriate. Liabilities include known or measurable amounts, including related charges and inflation and exchange variations (on a daily prorated basis).

s) Subsequent events

These refer to events occurring between the reporting date and the date the financial statements are authorized to be issued.

They comprise the following:

- Events resulting in adjustments: events relating to conditions already existing at the end of the reporting period; and
- Events not resulting in adjustments: events relating to conditions not existing at the end of the reporting period.

Subsequent events, if any, are described in Note 35.

4) COMPARATIVE AMOUNTS

Reclassifications

There were no reclassifications or other relevant information for previous periods that affect the comparability of the consolidated financial statements for the period ended June 30, 2015.

%	26.8	2.8	8.4	62.0	

(1) Consistent with the criteria in Bacen Circular Letter No. 3.068/01 and due to the characteristics of the securities, we are classifying the derivative financial instruments, except those considered as cash flow hedges in the category Trading Securities;

(2) These refer to investment fund and managed portfolio resources invested in purchase contracts with a commitment to re-sell with Bradesco, whose owners are consolidated subsidiaries, included in the consolidated financial statements;

(3) The investment fund quotas are presented based on the instruments comprising their portfolios and maintaining the classification used in the fund;

(4) In compliance with Article 8 of Bacen Circular Letter No. 3.068/01, Bradesco declares that it has the financial capacity and intention to maintain held-to-maturity securities until their maturity dates. This financial capacity is disclosed in Note 32a, which presents the maturity of asset and liability operations. On June 30, 2015, R\$ 12,419,003 thousand were reclassified from category "Securities Available for Sale" to the category "Securities Held to Maturity", due to the change of intention of the Management. The mark-to-market of these securities, in the amount of R\$ (370,136) thousand, was maintained in

Shareholders' Equity and will be recognized in the result for the remaining term of the securities, as well as the securities that were transferred in December 2013, which have also been recognized, pursuant to Bacen Circular Letter No. 3.068/01;

(5) The number of days to maturity was based on the contractual maturity of the instruments, regardless of their accounting classification;

(6) This column reflects book value after mark-to-market accounting in accordance with item (7), except for securities classified as securities held to maturity, which fair value is higher than the original amortized cost by R\$2,022,726 thousand (R\$1,640,257 thousand on March 31, 2015 and R\$2,190,319 thousand on June 30, 2014);

(7) The fair value of securities is determined based on the market price available at the end of the reporting period. If no market price quotation is available at the end of the reporting period, amounts are estimated based on the prices quoted by dealers, pricing models, quotation models or price quotations for instruments with similar characteristics; for investment funds, the original amortized cost reflects the fair value of the respective quotas. For investment funds, the original amortized cost reflects the fair value of the respective quotas;

(8) Includes hedge for protection of assets and liabilities, denominated in or indexed to foreign currency, primarily, arising from foreign investments, eliminating the effects of exchange variation of these assets and liabilities. For a better analysis of these items, consider the net exposure (Note 8e II);

(9) In March 2015, there was a modification in the calculation method of the market capitalization of debentures, using market parameters (Brazilian Association of Entities of the Financial and Capital Markets – Anbima); and

(10) In the first semester of 2014 and 2015, there were no impairment losses, related to "Equity Securities", classified under "Available-for-sale securities".

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

e) Derivative financial instruments

Bradesco carries out transactions involving derivative financial instruments, which are recorded in the statement of financial position or in off-balance-sheet accounts, to meet its own needs in managing its global exposure, as well as to meet its customer's requests, in order to manage their exposure. These operations involve a range of derivatives, including interest rate swaps, currency swaps, futures and options. Bradesco's risk management policy is based on the utilization of derivative financial instruments mainly to mitigate the risks from operations carried out by the Bank and its subsidiaries.

Securities classified as trading and available-for-sale, as well as derivative financial instruments, are recognized in the consolidated statement of financial position at their fair value. Fair value is generally based on quoted market prices or quotations for assets or liabilities with similar characteristics. Should market prices not be available, fair values are based on dealer quotations, pricing models, discounted cash flows or similar techniques for which the determination of fair value may require judgment or significant estimates by Management.

Quoted market prices are used to determine the fair value of derivative financial instruments. The fair value of swaps is determined by using discounted cash flow modeling techniques that use yield curves, reflecting adequate risk factors. The information to build yield curves is mainly obtained from the Securities, Commodities and Futures Exchange (BM&FBOVESPA) and the domestic and international secondary market. These yield curves are used to determine the fair value of currency swaps, interest rate and other risk factor swaps. The fair value of forward and futures contracts is also determined based on market price quotations for derivatives traded at the exchange or using methodologies similar to those outlined for swaps. The fair values of credit derivative instruments are determined based on market price quotation or from specialized entities. The fair value of options is determined based on mathematical models, such as Black & Scholes, using yield curves, implied volatilities and the fair value of corresponding assets. Current market prices are used to calculate volatility.

Derivative financial instruments in Brazil mainly refer to swaps and futures and are registered at the OTC Clearing House (Cetip) and BM&FBOVESPA.

Operations involving forward contracts of interest rates, indexes and currencies are contracted by Management to hedge Bradesco's overall exposures and to meet customer needs.

Foreign derivative financial instruments refer to swap, forward, options, credit and futures operations and are mainly carried out at the stock exchanges in Chicago and New York, as well as the over-the-counter (OTC) markets.

Overseas (stock exchange) (1)	17,355,000	15,042,738	16,090,386
Total	299,612,910	280,029,548	662,659,260

(1) Comprised of operations carried out on the Chicago and New York Stock Exchanges and over-the-counter markets.

As of June 30, 2015, a total of 90.6% of counterparties are corporate entities and 9.4% are financial institutions.

f) Credit Default Swaps (CDS)

In general, these represent bilateral agreements in which one of the parties purchases protection against the credit risk of a certain financial instrument (the risk is transferred). The selling counterparty receives remuneration that is usually paid linearly over the term of the agreement.

In the case of a default, the purchasing counterparty will receive a payment to offset the loss incurred on the financial instrument. In this case, the selling counterparty usually receives the underlying asset of the agreement in exchange for the payment.

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

On June 30, 2015, Bradesco had credit default swaps (CDS) with the following characteristics: (i) the amount of risk transferred under credit swaps whose underlying assets are "Brazilian government securities" is negative R\$1,326,900 thousand; and (ii) the risk received in credit swaps whose underlying assets are "derivative with companies" is R\$81,071 thousand, amounting to a total net credit risk value of negative R\$1,245,829 thousand, with an effect on the calculation of required shareholders' equity of negative R\$64,062 thousand.

Bradesco carries out operations involving credit derivatives to better manage its risk exposure and its assets. The contracts related to credit derivatives transactions described above are due in 2019. The mark-to-market of the protection rates that remunerates the counterparty that received the risk totaled negative R\$123 thousand. There were no credit events, as defined in the agreements, during the first semester of 2015.

g) Cash flow hedge

Bradesco uses cash flow hedges to protect its cash flows from payment of interest rates on funds, which have a floating interest rate - the Interbank Deposit Rate (DI Cetip), thus converting them to fixed cash flows.

Bradesco has traded DI Future contracts at BM&FBOVESPA since 2009, using them as cash flow hedges for funding linked to DI. The following table presents the DI Future position, where:

	2015		R\$ thousand
	June 30	March 31	2014
	June 30	March 31	June 30
DI Future with maturity between 2016 and 2017	20,814,738	20,674,324	20,440,070
Funding indexed to CDI	21,133,663	20,908,816	20,290,694
Mark-to-market adjustment recorded in shareholders' equity (1)	299,179	308,820	(20,725)
Ineffective fair value recorded in profit or loss	4	3	-
(1) The adjustment in shareholders' equity is R\$179,507 thousand, net of taxes (R\$185,292 thousand on March 31, 2015 and R\$ (12,435) thousand on June 30, 2014).			

The effectiveness of the hedge portfolio was assessed in accordance with Bacen Circular Letter No. 3.082/02.

h) Income from securities, insurance, pension plans and capitalization bonds, and derivative financial instruments

- Excess provision (3) (4)	4,004,112	4,007,987	4,004,112	4,009,253

(1) For contracts with installments past due for more than 14 days;

(2) Recorded based on the customer/transaction classification and therefore not included in the preceding item;

(3) The additional provision is recorded based on Management's experience and the expectation in relation to the loan portfolio, to determine the total provision deemed sufficient to cover specific and general credit risk, when considered together with the provision calculated based on levels of risk and the corresponding minimum percentage in the provision established by CMN Resolution No. 2.682/99. The excess provision per customer was classified according to the level of risk in Note 10f; and

(4) On June 30, 2015, it includes the provision for guarantees provided, comprising sureties, letters of credit and standby letter of credit, which is presented here within the balance for excess provision, and totals R\$511,396 thousand (R\$607,195 thousand on March 31, 2015, and R\$333,734 thousand on June 30, 2014) (Note 20b).

h) Allowance for Loan Losses expense net of amounts recovered

Expenses with the allowance for loan losses, net of credit write offs recovered, are as follows.

	2015			R\$ thousand 2014
	2 nd quarter	1 st quarter	1 st semester	1 st semester
Amount recorded (1)	4,030,440	4,038,662	8,069,102	6,891,96
Amount recovered (2)	(1,045,291)	(855,208)	(1,900,499)	(1,857,24
Allowance for Loan Losses expense net of amounts recovered	2,985,149	3,183,454	6,168,603	5,034,72

(1) The second quarter of 2015 includes reversal of the provision of guarantees offered, comprising sureties, guarantees, letters of credit and standby letter of credit, which are presented in the “excess” provision, totaling R\$95,799 thousand (constitution of R\$185,599 thousand in the first quarter of 2015) and constitution of R\$89,800 thousand in the first semester of 2015 (reversal of R\$3,890 thousand in the first semester of 2014), respectively; and

(2) Classified in income from loans (Note 10j).

i) Changes in the renegotiated portfolio

(1) Issuance of securities on the international market to invest in foreign exchange transactions, pre-export financing, import financing and working capital financing, predominately in the medium and long terms.

Bradesco

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

d) Since 2003, Bradesco has been party to certain agreements to optimize its funding and liquidity management activities by using an SPE - Special Purpose Entity. This SPE, known as International Diversified Payment Rights Company, is financed with long-term debt and settled through future cash flows from underlying assets which primarily include flows from current payment orders and future remittances made by individuals and companies located overseas to beneficiaries in Brazil for which the Bank acts as a paying agent.

Long-term securities issued by the SPE and sold to investors are settled with proceeds from the payment order flows. Bradesco is obliged to redeem these securities in specific cases of delinquency or if the SPE discontinues operations.

Funds from the sale of current and future payment order flows, received by the SPE, must be maintained in a specific bank account until a minimum amount has been reached.

Below are the main features of the notes issued by the SPE:

R\$ thousand

18) PROVISIONS, CONTINGENT ASSETS AND LIABILITIES AND LEGAL LIABILITIES – TAX AND SOCIAL SECURITY**a) Contingent assets**

Contingent assets are not recognized in the financial statements. However, there are ongoing proceedings where the chance of success is considered probable, such as: a) Social Integration Program (PIS), claiming to offset PIS against Gross Operating Income, paid under Decree-Laws No. 2.445/88 and No. 2.449/88, regarding the payment that exceeded the amount due under Supplementary Law No. 07/70 (PIS Repique); and b) other taxes, the legality and/or constitutionality of which is being challenged, where the decision may lead to reimbursement of amounts paid.

b) Provisions classified as probable losses and legal obligations - tax and social security

Organização Bradesco is a party to a number of labor, civil and tax lawsuits, arising from the normal course of business.

Management recorded provisions where, based on their opinion and that of their legal counsel, the nature of the lawsuit, similarity to previous lawsuits, complexity and the courts standing, the loss is deemed probable.

Management considers that the provision is sufficient to cover the future losses generated by the respective lawsuits.

Provisions related to legal obligations are maintained until the conclusion of the lawsuit, represented by judicial decisions with no further appeals or due to the statute of limitation.

I - Labor claims

These are claims brought by former employees and outsourced employees seeking indemnifications, most significantly for unpaid "overtime", pursuant to Article 224 of the Consolidation of Labor Laws (CLT). In proceedings in which a judicial deposit is used to guarantee the execution of the judgment, the labor provision is made considering the estimated loss of these deposits. For proceedings with similar characteristics and not judged, the provision is recorded based on the average calculated value of payments made for labor complaints settled in the past 12 months; and for proceedings originating from acquired banks, with unique characteristics, the calculation and assessment of the required balance is conducted periodically, based on the updated recent loss history.

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

Overtime is monitored by using electronic time cards and paid regularly during the employment contract and, accordingly, the claims filed by former employees do not represent significant amounts.

II - Civil claims

These are claims for pain and suffering and property damages, mainly relating to protests, returned checks, the inclusion of information about debtors in the credit restriction registry and the replacement of inflation adjustments excluded as a result of government economic plans. These lawsuits are individually controlled using a computer-based system and provisioned whenever the loss is deemed as probable, considering the opinion of Management and their legal counsel, the nature of the lawsuits, similarity with previous lawsuits, complexity and positioning of the courts.

Most of these lawsuits are brought to the Special Civil Court (JEC), in which the claims are limited to 40 times the minimum wage and do not have a significant impact on Organização Bradesco's financial position.

There are a significant number of legal claims pleading alleged differences in adjustment for inflation on savings account balances due to the implementation of economic plans that were part of the federal government's economic policy to reduce inflation in the '80s and '90s.

Although Bradesco complied with the law and regulation in force at the time, these lawsuits have been recorded in provisions, taking into consideration the claims where the Bank is the defendant and the perspective of loss, which is considered after the analysis of each demand, based on the current decision of the Superior Court of Justice (STJ).

Note that, regarding disputes relating to economic plans, the Federal Supreme Court (STF) suspended the prosecution of all lawsuits at the cognizance stage, until the Court issues a final decision on the right under litigation.

III - Legal obligations – provision for tax risks

The Organização Bradesco is disputing the legality and constitutionality of certain taxes and contributions in court, for which provisions have been recorded in full, although there is a good chance of a favorable outcome, based on the opinion of Management and their legal counsel. The processing of these legal obligations and the provisions for cases for which the risk of loss is deemed as probable is regularly

monitored in the legal court. During or after the conclusion of each case, a favorable outcome may arise for the Organization, resulting in the reversal of the related provisions.

The main cases are:

- PIS and COFINS – R\$2,012,866 thousand (R\$1,963,859 thousand on March 31, 2015 and R\$2,522,979 thousand on June 30, 2014): a request for authorization to calculate and pay PIS and COFINS based on effective billing, as set forth in Article 2 of Supplementary Law No. 70/91, removing from the calculation base the unconstitutional inclusion of other revenues other than those billed;
- INSS Autonomous Brokers – R\$1,653,683 thousand (R\$1,591,091 thousand on March 31, 2015 and R\$1,414,168 thousand on June 30, 2014): discussing the charging of social security contribution on remunerations paid to third-party service providers, established by Supplementary Law No. 84/96 and subsequent regulations/amendments, at 20.0% with an additional 2.5%, on the grounds that services are not provided to insurance companies but to policyholders, thus being outside the scope of such a contribution as provided for in item I, Article 22 of Law No. 8.212/91, as new wording in Law No. 9.876/99;
- IRPJ/CSLL on losses of credits – R\$2,108,335 thousand (R\$2,069,323 thousand on March 31, 2015 and R\$1,912,596 thousand on June 30, 2014): we are requesting to deduct from income tax and social contributions payable (IRPJ and CSLL, respectively) amounts of actual and definite loan losses related to unconditional discounts granted during collections, regardless of compliance with the terms and conditions provided for in Articles 9 to 14 of Law No. 9.430/96 that only apply to temporary losses;

Bradesco _____

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

- PIS – EC 17/97 - R\$229,245 thousand (R\$227,259 thousand on March 31, 2015): for the period from July 1997 to February 1998, request to calculate and pay PIS contributions as established by LC 07/70 (PIS Repique) and not as established by EC 17/97 (PIS on Gross Operating Income);
- PIS – R\$318,994 thousand (R\$315,880 thousand on March 31, 2015 and R\$314,672 thousand on June 30, 2014): we are requesting the authorization to offset overpaid amounts in 1994 and 1995 as PIS contribution, corresponding to the surplus paid over that calculated on the tax base established in the Constitution, i.e., gross operating income, as defined in the income tax legislation (set out in Article 44 of Law No. 4.506/64), which excludes interest income; and
- Pension Contributions - R\$1,036,392 thousand (R\$920,790 thousand on March 31, 2015 and R\$470,803 thousand on June 30, 2014): official notifications related to the pension contributions on financial contributions in private pension plans, considered by the audit as compensatory sums subject to the incidence of such financial contributions and isolated fine for not withholding tax of the IRRF on the related financial contributions.

IV - Provisions by nature

---------------------------------	------------------	------------------	------------------

(1) Includes, in the first semester of 2015, constitution of tax provision: (i) related to the incidence of pension contributions on financial contributions in private pension plans, in the amount of R\$523,290 thousand; and (ii) IRPJ/CSLL on losses of credits, totaling R\$47,545 thousand; and

(2) Mainly include legal liabilities.

Economic and Financial Analysis Report – June 2015

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

c) Contingent liabilities classified as possible losses

The Organização Bradesco maintains a system to monitor all administrative and judicial proceedings in which the institution is plaintiff or defendant and, based on the opinion of legal counsel, classifies the lawsuits according to the expectation of loss. Case law trends are periodically analyzed and, if necessary, the related risk is reclassified. In this respect, contingent lawsuits deemed to have a possible risk of loss are not recorded as a liability in the financial statements. The main proceedings in this category are the following: a) leasing companies' Tax on Services of any Nature (ISSQN), total lawsuits correspond to R\$1,872,384 thousand (R\$1,884,046 thousand on March 31, 2015 and R\$1,753,024 thousand on June 30, 2014) which relates to the municipal tax demands from municipalities other than those in which the company is located and where, under law, tax is collected; b) 2006-2010 income tax and social contribution, relating to goodwill amortization being disallowed on the acquisition of investments, for the amount of R\$4,772,072 thousand (R\$4,339,317 thousand on March 31, 2015 and R\$3,456,648 thousand on June 30, 2014); c) IRPJ and CSLL deficiency notice relating to the disallowance of loan loss deductions, for the amount of R\$1,046,158 thousand (R\$979,460 thousand on March 31, 2015, and R\$553,964 thousand on June 30, 2014); d) IRPJ and CSLL deficiency note relating to disallowance of exclusions of revenues from the mark-to-market of securities from 2007 to 2010, and differences in depreciation and operating expenses and income, amounting to R\$1,287,426 thousand (R\$1,247,006 thousand on March 31, 2015 and R\$469,140 thousand on June 30, 2014); and e) IRPJ and CSLL deficiency note, amounting to R\$400,696 thousand (R\$384,621 thousand on March 31, 2015) relating to profit of subsidiaries based overseas, for the calendar years of 2008 and 2009.

(1) Benefited the shareholders registered in the records of Bradesco on March 26, 2015.

In the Extraordinary General Meeting of March 10, 2015, a deliberation was taken to increase the Capital Stock by R\$5,000,000 thousand, increasing it from R\$38,100,000 thousand to R\$43,100,000 thousand. This was effected through the capitalization of part of the balance of the account "Profit Reserves - Statutory Reserve", in compliance with the provisions in Article 169 of Law No. 6.404/76, with a stock-split of 20% in shares, by issuing 841,454,808 new nominative-book entry shares, with no nominal value, of which 420,727,426 were common shares and 420,727,382 were preferred shares. These were attributed free-of-charge to the shareholders registered on March 26, 2015 as bonus, in the ratio of two (2) new shares for every ten (10) shares of the same type that they own.

c) Interest on shareholders' equity/dividends

Preferred shares have no voting rights, but are entitled to all other rights and advantages given to common shares and, in compliance with Bradesco's Bylaws, have priority for repayment of capital and an additional ten percent (10%) interest on shareholders' equity and/or dividends, in accordance with the provisions of Paragraph 1, item II, of Article 17 of Law No. 6.404/76, amended by Law No. 10.303/01.

According to Bradesco's Bylaws, shareholders are entitled to interest on shareholders' equity and/or dividends amounting to at least 30% of the net income for the year, adjusted in accordance with Brazilian Corporate Law.

Interest on shareholders' equity is calculated based on the shareholders' equity limited to the variation in the Federal Government Long-Term Interest Rates (TJLP), subject to available profits before deductions, or transfer to retained earnings or profit reserves for the amounts equivalent or greater than twice its value.

Bradesco's capital remuneration policy aims to distribute interest on shareholders' equity at the maximum amount calculated under current legislation, and this is included, net of Withholding Income Tax, in the calculation for mandatory dividends for the year under the Company's Bylaws.

The Board of Directors' Meeting held on June 24, 2014 approved the Board of Executive Officers' proposal to pay shareholders' supplementary interest on shareholders' equity and dividends for the first semester of 2014, totaling R\$829,000 thousand, at R\$0.188201395 per common share and R\$0.207021535 per preferred share, which was paid on July 18, 2014.

The Board of Directors' Meeting held on December 22, 2014 approved the Board of Executive Officers' proposal to pay shareholders supplementary interest on shareholders' equity for 2014, for the amount of R\$2,600,300 thousand, at R\$0.590325800 (net of 15% withholding income tax - R\$0.501776930) per common share and R\$0.649358380 (net of 15% withholding income tax - R\$0.551954623) per preferred share, which was paid on March 6, 2015.

The Board of Directors' Meeting held on February 9, 2015 approved the Board of Executive Officers' proposal to pay shareholders' supplementary interest on shareholders' equity and dividends for the period of 2014, totaling R\$630,572 thousand, at R\$0.143153921 per common share and R\$0.157469313 per preferred share, which was paid on March 6, 2015.

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

The Board of Directors' Meeting held on June 22, 2015 approved the Board of Executive Officers' proposal to pay shareholders' supplementary interest on shareholders' equity and dividends for the first semester of 2015, totaling R\$912,000 thousand, at R\$0.172629101 per common share and R\$0.189892011 per preferred share, which was paid on July 17, 2015.

Interest on shareholders' equity and dividends for the first semester of 2015 is calculated as follows:

	R\$ thousand	% (1)
Net income for the semester	8,717,354	
(-) Legal reserve	(435,867)	
Adjusted calculation basis	8,281,487	
Monthly and supplementary interest on shareholders' equity (gross), paid and/or provisioned	1,996,092

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

b) Compensation for Key Management Personnel

Each year, the Annual Shareholders' Meeting approves:

- The annual grand total amount of management compensation, set forth at the Board of Directors Meetings, to be paid to board members and members of the Board of Executive Officers, as determined by the Company's Bylaws; and
- The amount allocated to finance Management pension plans, within the Employee and Management pension plan of the Organização Bradesco.

For 2015, the maximum amount of R\$349,900 thousand was set for Management compensation and R\$353,000 thousand to finance defined contribution pension plans.

The current policy on Management compensation sets forth that 50% of net variable compensation, if any, must be allocated to the acquisition of preferred shares of Banco Bradesco S.A., which vest in three equal, annual and successive installments, the first of which is in the year following the payment date. This procedure complies with CMN Resolution No. 3.921/10, which sets forth a management compensation policy for financial institutions.

Short-term Management benefits

				R\$ thousand

Bradesco does not offer its Key Management Personnel long-term benefits related to severance pay or share-based compensation, pursuant to CPC 10 – Share-Based Payment, approved by CMN Resolution No. 3.989/11.

Other information

l) Under current law, financial institutions are not allowed to grant loans or advances to:

a) Officers and members of the advisory, administrative, fiscal or similar councils, as well as to their respective spouses and family members up to the second degree;

b) Individuals or corporations that own more than 10% of their capital; and

c) Corporations in which the financial institution itself, any officers or administrators of the institution, as well as their spouses and respective family members up to the second degree own more than 10% of equity.

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

Therefore, no loans or advances are granted by financial institutions to any subsidiary, members of the Board of Directors or Board of Executive Officers and their relatives.

II) Shareholding

Together, members of the Board of Directors and Board of Executive Officers had the following shareholding in Bradesco:

	2015		2014
	June 30	March 31	June 30
Common shares	0.72%	0.72%	0.72%
Preferred shares	1.05%	1.05%	1.03%
Total shares (1)	0.89%	0.89%	0.88%

(1) On June 30, 2015, direct and indirect shareholding of the members of Bradesco's Board of Directors and Board of Executive Officers amounted to 3.10% of common shares, 1.10% of preferred shares and 2.10% of all shares.

32) FINANCIAL INSTRUMENTS**a) Risk Management**

Risk management is strategically highly important due to the increasing complexity of services and products and the globalization of the Organization's business. The dynamism of the markets requires that Bradesco continuously acts to improve this activity in the pursuit of best practices. For that reason, Bradesco uses its internal market risk models, which were already in force, to calculate regulatory capital since January 2013.

The Organization controls risk management in an integrated and independent manner, preserving and valuing the Board's decisions, developing and implementing methodologies, models, and measurement

and control tools. It also provides training to employees from all Organization levels, from the business areas to the Board of Directors.

The management process allows the risks to be proactively identified, measured, mitigated, monitored and reported, which is necessary in view of the Organization's complex financial products and activity profile.

Credit risk management

Credit risk refers to the possibility of losses as a result of the non-compliance by the borrower or counterparty with their financial obligations under agreed terms, as well as to the reduction in the value of a loan agreement resulting from a deterioration of the borrower's risk rating, reduced earnings or remuneration, the advantageous terms / conditions given in a renegotiation, recovery costs and other values related to the counterparty's non-compliance with its financial obligations.

Credit risk management in the Organization is a continuous and evolving process of mapping, development, assessment and diagnosis through the use of models, instruments and procedures that require a high degree of discipline and control during the analysis of operations to preserve the integrity and autonomy of the processes.

The Organization controls its exposure to credit risk, which mainly results from loans, securities and derivative financial instruments. Credit risk also stems from financial obligations related to credit commitments or financial guarantees.

In order not to compromise the quality of the portfolio, it includes all aspects related to the lending process, concentration, guarantee requirement, terms, among others.

Bradesco _____

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

The Organization continuously maps all activities that can generate exposure to credit risk, with their respective ratings related to probability and magnitude, as well as the identification of their managers, measurement and mitigation plans.

Market risk management

Market risk is the possibility of financial losses due to fluctuating prices and interest rates of the Organization's financial instruments, as its asset and liability portfolios may have mismatched maturities, currencies and indexes.

Market risk is carefully identified, measured, mitigated, controlled and reported. The Organization's market risk exposure profile is in line with the guidelines established by the governance process, with limits monitored independently on a timely basis.

All transactions exposing the Organization to market risk are mapped, measured and classified by probability and importance, and the whole process is approved by the corporate governance structure.

The process of market risk management is performed at the corporate level. This process involves several areas, with specific assignments, ensuring an efficient structure, with the measurement and control of market risk being performed centrally and independently. The management process, approved by the Board of Directors, is reviewed at least annually by the Committees and by the Board of Directors.

In line with the Corporate Governance practices, aiming to preserve and strengthen the management of market and liquidity risks in the Organization, and to meet the provisions of CMN Resolution No. 3.464/07, the Board of Directors approved the Market and Liquidity Risk Management Policy, which is reviewed at least annually by the competent Committees and by the Board of Directors, providing the main guidelines for acceptance, control and management of market and liquidity risks. In addition to this policy, the Organization has specific rules to regulate the market and liquidity risk management process.

Sensitivity analysis

The Trading Portfolio is also monitored through daily sensitivity analyses that measure the effect of movements of market and price curves on our positions. Furthermore, a sensitivity analysis of the Organization's financial exposures (Trading and Banking Portfolio) is performed on a quarterly basis, in compliance with CVM Rule No. 475/08.

Note that the impact of the financial exposure on the Banking Portfolio (notably interest rates and price indexes) do not necessarily represent a potential accounting loss for the Organization because a portion of loans held in the Banking Portfolio are financed by demand and/or savings deposits, which are "natural hedges" for future variations in interest rates, moreover, interest rate variations do not represent a material impact on the Institution's result, as Loans are held to maturity. In addition, due to our strong presence in the insurance and pension plan market, Bradesco holds a large volume of assets on which price

adjustments would also have an offsetting impact on the linked technical provisions.

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

The sensitivity analysis of the Trading Portfolio, which represents exposures that may have a material impact on the Organization's results, is presented below. Note that results show the impact for each scenario on a static portfolio position. However, the market is highly dynamic which results in continuous changes in these positions. Moreover, as previously mentioned, the Organization has an ongoing process of market risk management, which constantly seeks to adjust positions to mitigate related risks according to the strategy determined by Senior Management. Therefore, where there are indicators of deterioration in a certain positions, proactive measures are taken to minimize any potential negative impact and maximize the risk/return ratio for the Organization.

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

Sensitivity analyses were carried out based on scenarios prepared at the respective dates, always considering market data at the time and scenarios that would adversely affect our positions, according to the examples below:

Scenario 1: Based on market information (BM&FBOVESPA, Anbima, etc.), stresses were applied for 1 basis point on the interest rate and 1.0% variation on prices. For example: for a Real/US dollar exchange rate of R\$3.12 a scenario of R\$3.15 was used, while for a 1-year fixed interest rate of 14.3%, a 14.3% scenario was applied;

Scenario 2: 25.0% stresses were determined based on market information. For example: for a Real/US dollar exchange rate of R\$3.12 a scenario of R\$3.89 was used, while for a 1-year fixed interest rate of 14.3%, a 17.9% scenario was applied. The scenarios for other risk factors also accounted for 25.0% stresses in the respective curves or prices; and

Scenario 3: 50.0% stresses were determined based on market information. For example: for a Real/US dollar quote of R\$3.12 a scenario of R\$4.67 was used, while for a 1-year fixed interest rate of 14.3%, a 21.5% scenario was applied; The scenarios for other risk factors also account for 50.0% stresses in the respective curves or prices.

Liquidity Risk

Liquidity Risk is the possibility of the institution not being able to fully meet its obligations, without affecting its daily operations and incurring significant losses, as well as the possibility of the institution not being able to trade a position at market price due to its significant size when compared to the usually traded volume or due to some market discontinuation.

It is crucial to measure and monitor this risk, so that the Organization can settle its obligations in a timely and reliable way.

The process of liquidity risk management is performed at the corporate level. It involves several areas with specific assignments, ensuring an efficient structure. Liquidity risk is measured and controlled centrally and independently and includes the daily monitoring of the composition of available funds, compliance with the minimum liquidity level, and the contingency plan for stress situations.

One of the objectives of the Organization's Policy on Market and Liquidity Risk Management, approved by the Board of Directors, is to lay down the rules, criteria and procedures that guarantee the establishment of the Minimum Liquidity Reserve (RML) for the Organization, as well as the strategy and action plans for liquidity crisis situations.

As part of the criteria and procedures approved, the Organization establishes a minimum liquidity reserve to be held and the types of assets eligible for this reserve. Moreover, instruments for managing liquidity in a normal scenario and in a crisis scenario and the strategies to be implemented in each case are established.

Economic and Financial Analysis Report – June 2015

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

Operational Risk

Operational risk is the possibility of losses resulting from failure, deficiency or inadequacy of internal processes, people and systems, or from external events. This definition includes legal risk associated with the activities undertaken by the Organization.

The process of operational risk management is performed at the corporate level. This process involves several areas, with specific assignments, ensuring an efficient structure, with the measurement and control of operational risk being performed centrally and independently.

Among the plans to mitigate operational risk, we highlight that the most important is business continuity management, which consists of formal plans to be adopted during moments of crisis to guarantee the recovery and continuation of business as well as preventing loss.

Internal Controls

The effectiveness of the internal controls of the Organization is sustained by qualified professionals, well-defined and implemented processes and technology compatible with the business needs.

The methodology of internal controls applied in the Organization is in line with the guidelines of the Committee of Sponsoring Organizations of the Treadway Commission (COSO) – version 2013, which has the purpose of supplying a model for internal controls, management of corporate risks and fraud, in order to improve the performance and organizational supervision.

The existence, the execution, and the effectiveness of controls that ensure acceptable risk levels in the Organization's processes are certified by the department in charge, and the results are reported to the Audit Committee and to the Compliance and Internal Controls Committee, as well as to the Board of Directors, aiming to provide assurance regarding the proper conduct of business and the achievement of the established goals, in accordance with applicable external laws and regulations, policies, internal rules and procedures, and codes of conduct and self-regulation.

Borrowing and on-lending (Notes 17a and 17b)	61,369,108	61,385,883	(16,775)	48,289	(10,000,000)
Subordinated debts (Note 19)	37,425,568	37,420,778	4,790	(26,372)	(29,000,000)
Unrealized gains excluding tax			23,373,010	19,815,478	21,677,778

(1) Includes advances on foreign exchange contracts, leases and other receivables with lending characteristics; and

(2) Primarily includes the surplus of interest in subsidiaries and affiliates (Cielo, Odontoprev and Fleury).

Determination of the fair value of financial instruments:

- Securities and derivative financial instruments, investments, subordinated debts and treasury shares are based on the market price at the reporting date. If no quoted market price is available, amounts are estimated based on the dealer quotations, pricing models, quotation models or quotations for instruments with similar characteristics;
- Fixed rate loans were determined by discounting estimated cash flows, using interest rates applied by the Organização Bradesco for new contracts with similar features. These rates are consistent with the market at the reporting date; and

- Time deposits, funds from issuance of securities, borrowing and on lending were calculated by discounting the difference between the cash flows under the contract terms and our prevailing market rates for the same product at the reporting date.

Bradesco _____

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

c) Capital Management

The primary objective of the Capital Management structure is to provide the necessary conditions for a continuous process of capital assessment, monitoring and control, contributing to the achievement of the Organization's strategic objectives. It considers the current business environment and a prospective and consistent vision for capital adequacy planning. This structure is composed of the Statutory, Non-Statutory and Executive Committees that assist the Board of Directors and the Board of Executive Officers in decision making.

The internal process of assessing capital adequacy is carried out so as to ensure that the Organization has a Reference Equity base composition to support the development of activities and provide sufficient protection against risks, whether in normal or in extreme market conditions, as well as meeting managerial and regulatory requirements in relation to capital management.

33) EMPLOYEE BENEFITS

Bradesco and its subsidiaries sponsor a private defined contribution pension for employees and directors, that allows financial resources to be accumulated by participants throughout their careers by means of employee and employer contributions and invested in an Exclusive Investment Fund (FIE).

The pension scheme is managed by Bradesco Vida e Previdência S.A. and BRAM – Bradesco Asset Management S.A. The Securities Dealer Company (DTVM) is responsible for the financial management of the FIE funds.

The Supplementary Pension Plan was reformulated in October 2014, with contributions from employees and directors of Bradesco and its subsidiaries equal to at least 4% of their salaries. Contributions from Bradesco and its subsidiaries increased from 4% to 5% of salary, plus the percentage destined for death and disability coverage. The contributions belonging to participants who, in 2001, chose to migrate from the benefit plan defined for PGBL were maintained at the same levels of the previous benefit plan.

Actuarial obligations of the defined contribution plan are fully covered by the plan assets of the corresponding FIE.

In addition to the aforementioned plan, participants who chose to migrate from the defined benefit plan are guaranteed a proportional deferred benefit, corresponding to their accumulated rights in that plan. For the active participants, retirees and pensioners of the defined benefit plan, in extinction, the present value of the actuarial obligations of the plan is completely secured by collateral assets.

Banco Alvorada S.A. (successor from the spin-off of Banco Baneb S.A.) maintains defined contribution and defined benefit retirement plans, through Fundação Baneb de Seguridade Social - Bases (related to the former employees of Baneb).

Banco Bradesco's sponsors both defined benefit and defined contribution retirement plans, through Caixa de Assistência e Aposentadoria dos Funcionários do Banco do Estado do Maranhão (Capof), especially to employees originating from Banco BEM S.A.

Bradesco sponsors a defined benefit plan through Caixa de Previdência Privada do Banco do Estado do Ceará (Cabec), exclusively for former employees of Banco BEC S.A.

In accordance with CPC 33 (R1) – Employee Benefit, as approved by CVM Resolution No600/09, Bradesco and its subsidiaries, as sponsors of these plans calculated their actuarial commitments taking into consideration the economic and actuarial study, using a real interest rate and recognized their obligations in the financial statements.

The assets of pension plans are invested in compliance with the applicable legislation (government securities and private securities, listed company shares and real estate properties).

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

Expenses related to contributions made in the first semester of 2015 totaled R\$302,233 thousand (R\$310,630 in the first semester of 2014) and in the second semester of 2015 totaled R\$146,711 thousand (R\$155,522 thousand in the first quarter of 2015).

In addition to this benefit, Bradesco and its subsidiaries offer other benefits to their employees and administrators, including health insurance, dental care, life and personal accident insurance, and professional training. These expenses, including the aforementioned contributions, totaled R\$1,555,784 thousand in the first semester of 2015 (R\$1,455,022 thousand in the first semester of 2014) and in the second quarter of 2015 totaled R\$ 780,624 thousand (R\$775,160 thousand in the first quarter of 2015).

R\$ thousand

The projected realization of deferred tax assets is an estimate and it is not directly related to the expected accounting income.

The present value of deferred tax assets, calculated based on the average funding interest rate, net of tax effects, amounts to R\$32,970,036 thousand (R\$33,329,714 thousand on March 31, 2015 and R\$27,790,271 thousand on June 30, 2014), of which R\$29,052,268 thousand (R\$27,869,148 thousand on March 31, 2015 and R\$24,829,951 thousand on June 30, 2014) relates to temporary differences, R\$3,806,075 thousand (R\$5,349,483 thousand on March 31, 2015 and R\$2,827,939 thousand on June 30, 2014) to tax losses and negative basis of social contribution and R\$111,693 thousand (R\$111,083 thousand on March 31, 2015 and R\$132,381 thousand on June 30, 2014) to deferred social contribution, Provisional Measure No. 2.158-35.

e) Unrecognized deferred tax assets

On June 30, 2015, deferred tax assets of R\$1,927 thousand (R\$1,927 thousand on March 31, 2015 and R\$2,077 thousand on June 30, 2014) were not recognized, and will only be registered when they meet the regulatory requirements and/or present prospects of realization according to studies and analyses prepared

by the Management and in accordance with Bacen regulations.

f) Deferred tax liabilities

	R\$ thousand		
	2015		2014
	June 30	March 31	June 30
Mark-to-market adjustment to securities and derivative financial instruments	951,642	971,513	950,054
Difference in depreciation	685,794	738,827	1,007,958

c) In the 1st semester of 2015, the Central Bank of Brazil redefined the rules of compulsory deposits on time resources and resources in savings deposits, whose main changes we highlight below.

Description	Current Rule	Previous Rule
Time Resources	The collection will be 25% of the balance of time deposits with effect from the calculation period from August 31 to September 4, 2015.	The collection was 20% on the balance of time deposits.

	The collection will be made with full remuneration of the Selic Rate on the amount collected.	The collection was limited to the payment of 40% of the liability and deducted through the acquisition of credit, and financial bills, and amounts were not made up to 60% the value was collected without remuneration.
Resources from savings deposits	The collection became 24.5% of the balance of savings accounts, with effect from the calculation period from June 8 to 12, 2015.	The collection was 20% on the balance of the savings resources.
	The gross debit balance of the financing of new or second-hand real estate of the Housing Finance System may be deducted up to the limit of 18% of the liability, provided that they are contracted in the period from June 1 st , 2015 to June 23, 2017.	No deduction was allowed of financing of new or second-hand real estate.
	For the additional liability, the collection became 5.5% of the balance of savings accounts,	For the additional liability, the collection was of 10% on the balance of savings resources.

	with effect from the calculation period from June 8 to 12, 2015.	
--	---	--

d) As part of the convergence process with international accounting standards, the Brazilian Accounting Pronouncements Committee (CPC) issued several accounting pronouncements, as well as their interpretations and guidelines, which are applicable to financial institutions only after approval by CMN.

The accounting standards which have been approved by CMN include the following:

- Resolution No. 3.566/08 – Impairment of Assets (CPC 01);
- Resolution No. 3.604/08 – Statement of Cash Flows (CPC 03);
- Resolution No. 3.750/09 – Related Party Disclosures (CPC 05);
- Resolution No. 3.823/09 – Provisions, Contingent Liabilities and Contingent Assets (CPC 25);
- Resolution No. 3.973/11 – Subsequent Event (CPC 24);
- Resolution No. 3.989/11 – Share-based Payment (CPC 10);

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

- Resolution No. 4.007/11 – Accounting Policies, Changes in Estimates and Error Correction (CPC 23);
- Resolution No. 4.144/12 – Conceptual Framework for Preparing and Presenting Financial Statements; and
- Resolution No. 4.424/15 – Employee Benefits (CPC 33 – shall take effect as from January 2016).

Presently, it is not possible to estimate when the CMN will approve the other CPC pronouncements or if they will be applied prospectively or retrospectively.

CMN Resolution No. 3.786/09 and Bacen Circular Letters No. 3.472/09 and No. 3.516/10 establish that financial institutions and other entities authorized by Bacen to operate, which are publicly-held companies or which are required to establish an Audit Committee shall, since December 31, 2010, annually prepare and publish in up to 90 days after the reference date of December 31 their consolidated financial statements, prepared under the International Financial Reporting Standards (IFRS), in compliance with international standards issued by the International Accounting Standards Board (IASB).

As required by CMN Resolution, on March 31, 2015, Bradesco published its consolidated financial statements for December 31, 2013 and 2014 on its website, in accordance with IFRS standards. The net income and equity of the financial statements disclosed in IFRS were not substantially different from those presented in the financial statements prepared in accordance with the accounting practices adopted in Brazil and applicable to institutions authorized to operate by the Brazilian Central Bank (Bacen). As there were no substantial differences between the two sets of financial statements (GAAPs) in the year ended December 31, 2014, Management expects that the net profit and shareholders' equity for the semester ended on June 30, 2015 will also not be materially different in the two GAAPs.

e) On May 14, 2014, Law No. 12.973/14 was published, which converted Provisional Measure No. 627/13. This Law amends the Federal Tax Legislation regarding Corporate Income Tax - IRPJ, the Social Contribution on Net Profits - CSLL, the Contribution to PIS/PASEP and the Contribution to the Social

Security Financing - COFINS. These are the main issues contemplated by Law No. 12.973/14:

- revocation of the Transition Tax System (RTT), controlling the adjustments arising from new accounting methods and criteria following the alignment of Brazilian accounting rules to the international standards;
- taxation of companies domiciled in Brazil for increases in the equity of overseas subsidiaries and unconsolidated companies resulting from profit within these entities; and
- special installment payment of PIS/PASEP and COFINS Contributions.

The aforementioned Law was regulated through Normative Instructions No. 1.515/14 and No. 1.520/14. Our assessment shows that there will be no significant future impacts on our Consolidated Financial Statements.

On January 1, 2015, for the companies that opted not to early adopt, Law No. 12.973/14 came into force, ending the period of the Transition Tax Regime (RTT) and enforcing a new tax regime in Brazil. Among other matters, the Law revoked the RTT, disciplining the adjustments resulting from the new accounting methods and criteria introduced by the convergence of the Brazilian accounting standards to the international standards. It also altered the Federal Tax Legislation related to the Legal Entity Tax Return - IRPJ, to the Social Contribution on the Net Profit - CSLL, to the Contribution for the PIS/PASEP and to the Contribution for the Financing of Social Security – COFINS.

f) On January 20, 2015, Provisional Measure No. 656/14 was converted to law by the publication of Law No. 13.097/15. Among other things, this legislation changes the limits on the deductibility criteria for credit losses on contracts that become past-due after October 8, 2014 (Article 9 of Law No. 9.430/96). The limits remain the same for contracts that were past-due on or before October 7, 2014.

Bradesco _____

Consolidated Financial Statements and Independent Auditors' Report

Notes to the Consolidated Financial Statements

g) On May 21, 2015, Provisional Measure No. 675 (MP 675/15) was published which increased the rate of the Social Contribution on Net Profit - CSLL of the financial and insurance sectors from 15% to 20% of taxable profit, from September 1, 2015. Bradesco will wait for the conversion of MP 675/15 into Law for a more in-depth and conclusive analysis, since possible amendments to MP may be proposed by the National Congress.

h) There were no subsequent events that need to be adjusted or disclosed for the consolidated financial statements as of June 30, 2015.

Economic and Financial Analysis Report – June 2015

Consolidated Financial Statements and Independent Auditors' Report

Report of Independent Auditors on the Consolidated Financial Statements

To

The Board of Directors and Management

Banco Bradesco S.A.

Osasco – SP

Dear Sirs

We have audited the accompanying financial statements of the Economic-Financial Consolidated (*Consolidado Econômico Financeiro* - CONEF) of Banco Bradesco S.A. ("Bradesco"), which comprise the consolidated statement of financial position as at June 30, 2015, and the respective income statement, statement of changes in equity and cash flow statement for the six-month period then ended, and a summary of significant accounting policies and other explanatory information. These special purpose financial statements have been prepared by Bradesco's management as required by Article 3rd of Resolution 2,723, dated May 31, 2000, of the National Monetary Council (*Conselho Monetário Nacional* - CMN) and supplementary regulations of the Chart of Accounts for Financial Institutions (Plano Contabil de Instituições Financeiras - Cosif), described in the note 2 to the financial statements.

Management's Responsibility for the Financial Statements

Bradesco's Management is responsible for the preparation and fair presentation of these consolidated financial statements of the Economic-Financial Consolidated in accordance with the Resolution 2,723 of CMN, and supplementary regulations of Cosif, which main criteria and accounting practices are described in note 2 to the financial statements, and for such internal control as management determines is necessary to enable the preparation of the consolidated financial statements of the Economic-Financial Consolidated that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements of the Economic-Financial Consolidated, prepared by Bradesco's Management in accordance with the Resolution 2,723, of CMN, and supplementary regulations of Cosif, based on our audit in accordance with Brazilian and International Standards on Auditing, taking into account the NBC TA 800 (ISA 800) - "Special Considerations - Audits of Financial Statements Prepared in Accordance with Special Purpose Frameworks".

Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal controls relevant to the preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Bradesco's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements of the Economic-Financial Consolidated.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Bradesco _____

Consolidated Financial Statements and Independent Auditors' Report

Report of Independent Auditors on the Consolidated Financial Statements

Opinion

In our opinion, the consolidated financial statements of the Economic-Financial Consolidated referred to above present fairly, in all material respects, the financial position of the Economic-Financial Consolidated as at June 30, 2015, the financial performance of its operations and its cash flows for the six-month period then ended in accordance with the Article 3rd of the Resolution n^o 2,723 dated May 31, 2000, of CMN, and supplementary regulations of Cosif for the preparation of these consolidated financial statements prepared for special purpose, as described in note 2 to the financial statements.

Emphasis

Basis of preparation of the consolidated financial statements of the Economic-Financial Consolidated

Without modifying our opinion, we draw attention to note 2 to the financial statements that disclose that the above mentioned financial statements of the Economic-Financial Consolidated were prepared by Bradesco's management as required by Article 3rd of Resolution 2,723, dated May 31, 2000, of the National Monetary Council and supplementary regulations of Cosif. Consequently, our report on these consolidated financial statements has been prepared solely for meeting these specific requirements and thus may not be appropriate for other purposes.

Other Matter

Bradesco has prepared a separate set of financial statements for general purposes for the six-month period ended June 30, 2015, in accordance with accounting practices adopted in Brazil applicable to institutions authorized to operate by the Central Bank of Brazil, on which we issued an unqualified auditor's report on July 29, 2015.

Osasco, July 29, 2015.

Economic and Financial Analysis Report – June 2015

Individual Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Management Report

Dear Shareholders,

We hereby present the Individual Financial Statements of Banco Bradesco S.A related to the first semester of 2015, prepared in accordance with the accounting practices adopted in Brazil and applicable to institutions authorized to operate by the Brazilian Central Bank.

Bradesco, one of the largest financial groups in Brazil, with solid performance focused on the interests of its customers since 1943, present in all regions of the Country, in addition to the constant quest for excellence in services and customer care, was highlighted in the period, as one of the best managers of resources on the market, with results built on sustainable bases.

Economic Comment

The resumption of North American growth has not been accompanied in the same intensity by other countries, leading them to adopt new measures of stimulus, which should keep the world liquidity high, in spite of the growth prospect of interest in the US. On the other hand, the slowdown in the Chinese economic growth has affected negatively the international price of commodities and the performance of a large part of the emerging economies. Brazil is going through a period of adjustments in economic policies, seeking to re-balance the public accounts. With this, the Country creates the basis for a sustainable development forward, guided by ample opportunities for investment and recovery of household consumption.

1. Result for the Period

2. Capital and Reserves

At the end of the semester, the realized Capital Stock was of R\$43.100 billion. Added to the Equity Reserves of R\$43.872 billion, resulted in a Shareholders' Equity of R\$86.972 billion, with a growth of 13.2% on the same period of the previous year, corresponding to the equity value of R\$17.28 per share.

The Market Value of Bradesco, calculated on the basis of the listing of its shares, reached R\$142.098 billion on June 30, 2015, equivalent to 1.6 times the Shareholders' Equity.

The Shareholders' Equity is equivalent to 9.2% of the Total Assets, which amounted to R\$943.009 billion, with a growth of 5.7% on June 2014. Thus, the index of solvency was 16% higher, therefore, at the minimum of 11% established by Resolution No. 4.193/13 of the National Monetary Council, in compliance with the Basel Committee. At the end of the semester, the immobilization index, regarding the Reference Equity in the Prudential Consolidated was of 39.6%, therefore within the maximum limit of 50%.

Securities classified under "Held-to-Maturity Securities"

In compliance with Article 8 of Brazilian Central Bank Circular Letter No. 3.068/01, Bradesco declares that it has the financial capacity and the intention of holding to maturity those securities classified under "held-to-maturity securities".

3. Capture and Management of Resources

In the first semester of 2015, Bradesco's Net Profit reached R\$ 8.717 billion, an increase of 20.7% in comparison to the same period of 2014, equivalent to R\$ 1.73 per share and profitability of 21.7% over the average Shareholders' Equity*). The annualized return on Average Total Assets was 1.7%.

The taxes and contributions, including pensions, paid or provisioned, reached R\$7.939 billion in the semester, whereby R\$4.853 billion was related to withheld taxes and collected from third parties and R\$3.086 billion calculated based on the activities developed by the Bank equivalent to 35.4% of the Net Profit.

To the shareholders, as Interest on Own Capital and Dividends, in the first semester, R\$2.908 billion was destined, in gross value, of which R\$522 million was paid in the form of monthly and intermediaries and R\$2.386 billion provisioned. The intermediate Dividends paid on 07.17.2015, represent approximately 11.8 times the value of monthly Interest paid (net of Withholding Income Tax).

On June 30, 2015, the total funds obtained and managed by the Bank totaled R\$1.183 trillion, 7.6% higher than the previous year, distributed as follows:

R\$605.437 billion in Demand Deposits, Time Deposits, Interbank Deposits, Savings Accounts and Securities Sold Under Agreements to Repurchase, a growth of 0.1%;

R\$366.796 billion in assets under management, comprising Investment Funds, Managed Portfolios and Third-Party Fund Quotas, a 11.4% increase;

R\$170.058 billion in the Exchange Portfolio, Borrowings and On-lendings in Brazil, Working Capital, Tax Payments and Collection and Related Charges, Funds From Issuance of Securities in Brazil, and Subordinated Debt in Brazil, a 25.0% growth; and

R\$41.112 billion in foreign funding, through public and private issues, subordinated debt overseas, securitization of future financial flows and borrowings and on-lendings overseas, equivalent to US\$13.251 billion.

Bradesco

Individual Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and
Fiscal Council's Report

Management Report

4. Loan Operations

The balance of loan operations totaled R\$280.665 billion, at the end of the semester, an increase of 8.9% in comparison to same period in 2014, including in this sum:

R\$7.836 billion in Advances on Exchange Contracts, for a total Export Financing portfolio of US\$12.073 billion;

US\$3.223 billion operations in Import Finance in Foreign Currencies;

R\$22.879 billion in business in the Rural Area;

R\$40.132 billion in Consumption Finance, which includes R\$2.587 billion of credit receivables from Credit Cards;

R\$32.651 billion related to operations of transfer of internal and external resources, originating mainly from the BNDES - Banco Nacional de Desenvolvimento Econômico e Social (National Bank for Social and Economic Development), exceeding as one of the main distributing agent of loans.

The Bank, for the activities in Real Estate Loans, destined the total of R\$6.159 billion to resources for construction and promotion of home-ownership in the semester comprising 20,794 properties.

The balance of provision for credit losses amounted to R\$18.331 billion, an increase of 9,2% in comparison to the same period of the previous year, equivalent to 6.5% of the total volume of credit operations, with R\$2.869 billion of surplus provision in relation to the minimum required by the Central

3 Branches abroad, with one in New York and one in Grand Cayman of Bradesco and one in London of the subsidiary Banco Bradesco Europa;

11 Overseas Subsidiaries (Banco Bradesco Argentina S.A. in Buenos Aires; Banco Bradesco Europa S.A. in Luxembourg; Bradesco North America LLC, Bradesco Securities, Inc., and BRAM US LLC in New York; Bradesco Securities UK Limited in London, Bradesco Securities Hong Kong Limited and Bradesco Trade Services Limited in Hong Kong; Bradesco Services Co. Ltd., in Tokyo; Cidade Capital Markets Ltd. in Grand Cayman; and Bradescard Mexico, Sociedad de Responsabilidad Limitada in Mexico);

1,904 Correspondents of Bradesco Promotora, in the segment of consigned credit;

50,042 Bradesco Espresso service points;

980 PAEs – in-company electronic service branches;

1,112 External terminals in the Bradesco Dia & Noite network; and

12,127 ATMs in the Banco24Horas network, with 573 terminals shared by both networks.

6. Corporate Governance

With its shares traded on the Stock Exchange in Brazil since 1946, Banco Bradesco has been operating in the US capital markets since 1997, negotiating initially Level 1 ADRs (American Depositary Receipts) backed by preferred shares and, from 2001 to 2012, ADRs Level II backed, respectively, by preferred and common shares.

Bank.

Since 2001, they also negotiate GDRs (Global Depositary Receipts) on the European market (Latibex).

5. Customer Service Network of Bradesco

The Customer Service Network of Organização Bradesco, held at the disposal of customers and users present in all the regions of Brazil and in various cities Abroad, at the end of the semester, comprised 74,270 points. Simultaneously, provided 31,132 machines of the Rede de Autoatendimento Bradesco Dia & Noite (Bradesco Day & Night Auto Teller Machines), of which 30,588 operate also on weekends and bank holidays, besides 18,278 machines of the Rede Banco24Horas (24-Hour Auto Teller Machines), available to clients for operations of cash withdrawals, issuing statements, checking balances, requesting loans, payments and transfers between accounts. In the vehicle segment, with the presence of Bradesco Financiamentos, it counted on 11,232 retail points:

8,091 Branches and PAs (Service Branches) in Brazil (Branches: Bradesco 4,620, Banco Bradesco Cartões 3, Banco Bradesco Financiamentos 2, Banco Bradesco BBI 1, Banco Bradesco BERJ 1, Banco Alvorada 1; and PAs: 3,463);

The Management is exercised by 10 members of the Board of Directors and 86 of the Board of Executive Officers, formed, in their majority, in the institution itself. There is no accumulation of the posts of President of these committees since 1999 and the succession plan is defined promptly.

To advise the Board of Directors there are 6 committees, and 2 statutory (Audit and Remuneration) and 4 non-statutory (Ethical Conduct, Internal Controls and Compliance, Integrated Risks Management and Allocation of Capital and Sustainability), in addition to executive committees which assist the activities of the Board of Executive Officers.

Individual Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Management Report

Permanent committee since the assembly meeting of 03.10.2015, the Fiscal Council is composed of 5 effective members and an equal number of alternate members, 2 of which are effective members and their respective alternates chosen, respectively, by minority preferred shareholders and by non-controlling shareholders, holders of common shares.

Banco Bradesco is listed in Level 1 of Corporate Governance of BM&FBovespa, is compliant with the Code of Self-regulation and Good Practices of Listed Companies of Abrasca and has the AA+ rating (very good degree of adaptation to good corporate governance practices), assigned by Austin Rating.

In compliance with CVM Rule No. 381/03, in the first semester of 2015, the Organização Bradesco neither contracted from nor had services provided by KPMG Auditores Independentes that were not related to the external audit, at a level greater than 5% of the total fees related to external audit services.

Other services provided by the external auditors were the previously-agreed procedures for reviews of, substantially, financial, fiscal and actuarial information. The Bank's policy is in line with the principles of preserving the auditors' independence, which are based on generally accepted international criteria, i.e. the auditors should not audit their own work, perform managerial duties for their clients or promote their customers' interests. It is noteworthy that any eventual services not related to the external audit are submitted prior to the authorization of the Audit Committee.

The risk corporate control is integrated and independent, preserving and valuing the Board's decisions, developing and implementing methodologies, models, and measurement and control tools. It also provides training to employees from all Organization levels, from the business areas to the Board of Directors.

In face of the complexity and the range of products and services offered to its customers in all segments of the market, and being exposed to various types of risks, either due to internal or external factors, the Organization adopts a constant monitoring of all risks in order to provide security and comfort to all interested parties. Among the main types of risks, we highlight: Credit, Counterpart Credit, Concentration, Market, Liquidity and Subscription, Operational, Strategy, Legal or Compliance, Legal Unpredictability (Regulatory), Reputation and Socio-environmental.

7.2. Internal Controls

The effectiveness of the internal controls of the Organization is sustained by qualified professionals, well-defined and implemented processes and technology compatible with the business needs.

The methodology of internal controls applied at Bradesco is in line with the guidelines of the Committee of Sponsoring Organizations of the Treadway Commission (COSO) – version 2013, which has the purpose of supplying a model for internal controls, management of corporate risks and fraud, in order to improve the performance and organizational supervision.

The existence, the execution, and the effectiveness of controls that ensure acceptable risk levels in the

6.1. Policies of Transparency and Disclosure of Information

Bradesco, in the first semester, took part in 28 events with investors, 12 in Brazil and 16 Abroad, in addition to 111 people attended through conference calls and 66 individual meetings and/or in groups of analysts. They also performed 2 teleconferences of the result, to institutional investors and 1 APIMEC Meeting in Brasilia/DF.

On the Investor Relations *website* – www.bradesco.com.br/ri – there is information available related to the Bank, like its profile, history, equity stake, management report, financial results, recent acquisitions, APIMECs meetings, Report on Economic and Financial Analysis, Annual Report, in addition to others on the financial market.

7. Integrated Risk Control

7.1. Risks Management

Risk management is strategically highly important due to the increasing complexity of services and products and the globalization of the Organization's business.

Organization's processes are certified by the department in charge, and the results are reported to the Audit Committee and to the Compliance and Internal Controls Committee, as well as to the Board of Directors, aiming to provide assurance regarding the proper conduct of business and the achievement of the established goals, in accordance with applicable external laws and regulations, policies, internal rules and procedures, and codes of conduct and self-regulation.

Money Laundering and Terrorist Financing Prevention

Policies, standards, procedures and specific systems are maintained to prevent and/or detect the use of the structure of the Organization, or its products and services, for the purposes of money laundering and terrorist financing.

In addition, there is the monitoring of the training of employees with programs in a variety of formats, such as guidebooks, videos, distance and on-site courses and live lectures specific to areas in which they are required.

Bradesco

Individual Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and
Fiscal Council's Report

Management Report

The Money Laundering and Terrorism Financing Prevention Program is supported by the Executive Committee of Money Laundering and Terrorism Financing Prevention, which evaluates the work and need to align procedures with the regulations laid down by Regulatory Bodies and with the best national and international practices.

The suspicious or atypical cases identified are forwarded to the Commission for the Evaluation of Suspicious Transactions, composed by several areas that assess the need to report to the Regulatory Bodies.

Prevention and Fight against Corruption

At Bradesco, the prevention and fight against any unlawful act are exercised continuously and permanently, with the strengthening of processes, procedures and training focused on the prevention and fight against corruption.

The Corporate Anti-corruption Policy, approved by the Board of Directors, establishes guidelines for the prevention and fight against corruption, and applies to all directors and employees of the Organization, composed by Banco Bradesco S.A. and its subsidiaries, in Brazil and Abroad.

The Corporate Anti-corruption Standard establishes the rules and procedures for the prevention and fight against corruption and bribery, in compliance with the legislation and regulations in force in Brazil and in the countries where we have Business Units.

The Program of Prevention and Fight against Corruption is supported by the Code of Ethical Conduct, by the Corporate Anti-corruption Policy and by the Ethical Conduct Committee.

To identify, mitigate and control risks of the models, represented by potential adverse consequences arising from decisions based on incorrect or obsolete models, there is the process of independent validation, whose main objective is to verify that the models operate according to the objectives provisioned, as well as if its results are adequate for the uses for which they are intended. This validation occurs through the application of a rigorous testing program that deals with aspects of appropriateness of processes, governance and construction of models and their assumptions, where the results are reported to managers to the Internal Audit, to Committees of Internal Controls and Compliance and to the Integrated Risks Management and Capital Allocation.

Information Security

The Information Security in the Organization is composed of a set of controls, represented by procedures, processes, organizational structures, policies, standards and information technology solutions. It aims to meet the basic principles for the protection of information related to confidentiality, availability and integrity, regardless of its form and where the information is kept or handled.

In the Policy and Corporate Standards of Information Security the bases for the SGSI-Information Security Management System within the Organization are described.

The Board of Executive Officers and the other hierarchical levels of the Organization are involved in the decisions on Information Security from their participation in the three technical Committees and in the Executive Committee of Corporate Security, who meet on a regular basis to assess and approve

The actions also include the management of business partners, the hiring of products and services, and the acculturation of officials and employees, by means of e-learning and personal training and internal and external communication, providing an effective monitoring of risks and controls.

Bradesco also has whistle blowing channels, whose actions treated as violations are subject to the disciplinary measures applicable, regardless of the hierarchical level, and without prejudice to the legal penalties applicable.

Independent Validation of Models of Management and Measurement of Risks and Capital

Bradesco uses internal models to manage risks and capital, developed from statistics, economic, financial, and mathematical theories or of expert knowledge, that support and facilitate the structuring of critical issues and provide standardization and agility to decisions.

policies, measures and guidelines to ensure support to the processes and procedures related to the subject.

8. Human Resources

In Bradesco, the model of Human Resource Management is invariably guided by the appreciation of the people, without any kind of discrimination.

Through UniBrad – Bradesco Corporate University, in the permanent search to evolve the quality of customer care and the level of services rendered, Bradesco maintains its purpose of promoting further education and enhancing the development and training of its staff. Thus, the employees have access to an integrated set of learning solutions that provides the development of competencies aligned with the business of the Bank. In the semester, 1,302 courses were given, with 334,712 participations.

Also highlighted are, at the end of the period, the assistance benefits included 166,042 people, ensuring well-being, better quality of life and security of employees and their dependents.

9. Sustainability in Bradesco

Since its origins, Bradesco is committed to the socioeconomic development of the Country. In a permanent manner, seeking sustainability in management, in business and in the day-to-day practices. Thus, it aims to grow on a continuous and sustainable basis, with respect to the target audiences with which it relates, and the environment.

Our guidelines and strategies are oriented in such a way as to promote the incorporation of best practices of corporate sustainability in business, considering the context and the potential of each region, contributing to the generation of shared value. In this sense, in the face of the current environmental and economic scenarios, the Bank has continued to implement its Strategic Planning for Sustainability promoting actions so that the strategic objectives are achieved.

As a form of recognition of the extensive work that it has been developing, the Bank is present in the sustainability indexes, DJSI (Dow Jones Sustainability Indices), the New York Stock Exchange, of the ISE (Corporate Sustainability Index) and the ICO2 (Carbon Efficient Index), both of BM&F Bovespa.

For more information about the initiatives of Bradesco, access the sites www.bradescosustentabilidade.com.br and www.bradesco.com.br/ri.

Fundação Bradesco

The social action of the Bank is mainly focused on educational and assistance programs developed

The "National Day of Voluntary Action", promoted for the 13th consecutive year, on 05.16.2015, brought together 15,684 volunteers in 61 different locations in Brazil, including the Schools of Fundação Bradesco and points of service close to the school units. It promoted, in total, 288,406 personal attendances in the areas of education, health, leisure, sports and environment, once again an example of citizenship and solidarity.

Programa Bradesco Esportes e Educação (Bradesco Sports and Education Program)

In the Municipal District of Osasco, SP, Programa Bradesco Esportes e Educação has Qualification and Specialist Centers to teach the modalities of Women's Volleyball and Basketball. The activities occur in their own Sports Development Center, in schools of Fundação Bradesco, municipal Sports Centers, and private schools and in a leisure club. Currently, two thousand girls are assisted, from the age of eight, reaffirming the social commitment and valuation of talent and plain exercise of citizenship, with actions of education, sports and health.

10. Recognitions

Rankings – In the period, the following recognitions of Bradesco have been highlighted:

- **Most valuable brand in the banking sector in Latin America** and 15th in the global ranking, according to a study conducted by the magazines *The Banker* and *Brand Finance*;
- **Best Brazilian Bank, for the fourth consecutive year**, recognized with the Prize Awards for Excellence 2015, granted by English magazine *Euromoney*;

through Fundação Bradesco, which maintains 40 own Schools installed as a priority in regions of accentuated socio-economic deprivation, in all the Brazilian States and in the Federal District.

This year, its budget is predicted to be R\$537.311 million, whereby R\$463.246 million destined to cover Expenses of the Activities and R\$74.065 million to the investments in Infrastructure and Educational Technology, that allows it to offer education free-of-charge and of quality to the: a) 101,609 students enrolled in its schools in the following levels: Basic Education (Kindergarten to High School) and Vocational Training (High School level); Youth and Adult Education; and Preliminary and Continuing Vocational Training, focused on creating jobs and income; b) 380 thousand students who will complete at least one of the distance-learning courses on offer (EaD) through its e-learning portal; and c) 17,346 people who will benefit through partnership projects and initiatives, including the Digital Inclusion Centers (CIDs), the Educa+Ação program and Technology courses (Educar e Aprender). To around 44 thousand students of Basic Education, are ensured free-of-charge, alimony, medical-dental assistance, school materials and uniform.

- **Leader of the overall ranking of the assets under custody, exceeding, for the first time, the amount of R\$1 trillion in November 2014,** according to a survey published in the magazine *Investidor Institucional*, based on data provided by the Brazilian Association of Entities of the Financial and Capital Markets – Anbima;

- **Featured, for the fifth consecutive time, in *Guia Você S/A – The Best Companies to Begin the Career – 2015 Edition*,** in the survey conducted by the magazine *Você S/A* in partnership with *Fundação Instituto de Administração (FIA)* and *Cia. de Talentos*;

- **Featured in the *Guia Gestão & RH – 25 most Admired Companies by HRs – 2015 Edition*,** of the magazine *Gestão&RH*, in research by e-voting involving human resources professionals from around the Country;

Bradesco

Individual Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and
Fiscal Council's Report

Management Report

- **Featured in the 2015 edition of the yearbook *Melhores e Maiores (Best and Largest)* of the *Exame* magazine, integrating the rankings:** 200 Largest Groups for Net Revenue; 50 Largest Banks by Equity; 100 Largest Banks in Latin America by Equity; 200 Largest Companies in Latin America by Market Value;
- **One of the 50 'Good' Companies**, in the Activism category: besides profit, by *IstoÉ Dinheiro* magazine, with the *case of the* Floating Agency;
- **Received the international certificate of Socialbakers** for performance in Social Networks; and
- **Received the Oi Live Screen Award, in the Mobile Marketing category**, for the free access to the *Bradesco Celular* channel.

Ratings—To Bradesco, in the semester, among the assessment indexes assigned to banks in the country by Agencies and national and international entities, we recorded that:

- the credit rating agencies Standard & Poor's and Austin Rating affirmed all the ratings of Bradesco;
- the credit rating agency Moody's Investors Service, due to the implementation in the new methodology of ratings of banks, changed the long-term deposit rating in local currency, from "Baa1" to "Baa2" and has discontinued the bank financial strength rating (BFSR); and
- the credit rating agency Fitch Ratings changed the rating of feasibility, from "a-" to "bbb+", resulting in a change of rating of probability of default of the

11. Acknowledgments

The accuracy and consistency of the expansion strategy of Bradesco, founded on quality and efficiency, always in tune with the demands of the markets and the economy as a whole, reflect the results achieved in the semester. For the successes obtained, we are thankful for the support and trust of our shareholders and clients and the work dedicated by our employees and other cooperators.

Cidade de Deus, July 29, 2015.

Board of Directors

and the Board of Executive Officers

issuer (IDRs) in the long-term in local currency, from "A-" to "BBB+", and in the short-term in local currency, from "F1" to "F2". Fitch stressed that it still believes that the credit profiles of Bradesco meet the criteria to be classified above the sovereign rating.

Individual Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and
Fiscal Council's Report

Notes to the Individual Financial Statements

1) OPERATIONS

Banco Bradesco S.A. (Bradesco) is a private-sector publicly traded company and universal bank that through its commercial, foreign exchange, consumer financing and housing loan portfolios carries out all the types of banking activities that it is authorized to do so.

2) PRESENTATION OF THE INDIVIDUAL FINANCIAL STATEMENTS

Bradesco's individual financial statements were prepared using accounting practices in compliance with Laws No. 4.595/64 (Brazilian Financial System Law) and No. 6.404/76 (Brazilian Corporate Law), along with amendments introduced by Laws No. 11.638/07 and No. 11.941/09, as they relate to the accounting for operations, complemented by the rules and instructions of the National Monetary Council (CMN) and the Brazilian Central Bank (Bacen), Brazilian Securities and Exchange Commission (CVM), where applicable.

Bradesco's individual financial statements include estimates and assumptions, such as: the calculation of estimated loan losses; fair value estimates of certain financial instruments; civil, tax and labor provisions; impairment losses of securities classified as available-for-sale and held-to-maturity securities and non-financial assets; the calculation of technical provisions for insurance, pension plans and capitalization bonds; and the determination of the useful life of specific assets. Actual results may differ from those based on estimates and assumptions.

Bradesco's individual financial statements were approved by the Board of Directors on July 29, 2015.

3) SIGNIFICANT ACCOUNTING PRACTICES

a) Functional and presentation currencies

Individual financial statements are presented in Brazilian reais, which is also Bradesco's functional currency. Foreign branches and subsidiaries are mainly a continuation of activities in Brazil, and, therefore, assets, liabilities and profit or loss are translated into Brazilian reais using the appropriate currency exchange rate to comply with accounting practices adopted in Brazil.

b) Income and expense recognition

The result is calculated according to the regime of competence, which establishes that the revenues and expenses should be included in the calculation of the results for the periods in which they occur, always simultaneously when they are correlated, regardless of being a receipt or payment.

Fixed rate contracts are recorded at their redemption value with the income or expense relating to future periods being recorded as a deduction from the corresponding asset or liability. Finance income and costs are recognized daily on a pro-rata basis and calculated using the compounding method, except when they relate to discounted notes or to foreign transactions, which are calculated using the straight-line method.

Floating rate and foreign-currency-indexed contracts are adjusted for interest and foreign exchange rates applicable at the end of the reporting period.

c) Cash and cash equivalents

Cash and cash equivalents include: funds available in currency, investments in gold, securities sold under agreements to repurchase and interest-earning deposits in other banks, maturing in 90 days or less, which are exposed to insignificant risk of change in fair value. These funds are used by Bradesco to manage its short-term commitments.

Cash and cash equivalents detailed balances are presented in Note 5.

Individual Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Individual Financial Statements

d) Interbank investments

Unrestricted repurchase and reverse repurchase agreements are stated at their fair value. All other interbank investments are stated at cost, plus income earned up to the end of the reporting period, net of any devaluation allowance, if applicable.

The breakdown, terms and proceeds relating to interbank investments are presented in Note 6.

e) Securities – Classification

- Trading securities – securities acquired for the purpose of being actively and frequently traded. They are recorded at cost, plus income earned and adjusted to fair value with movements recognized in the Income Statement for the period;
- Available-for-sale securities – securities that are not specifically intended for trading purposes or to be held to maturity. They are recorded at cost, plus income earned, which is recorded in profit or loss in the period and adjusted to fair value with movements recognized in shareholders' equity, net of tax, which will be transferred to the Income Statement only when effectively realized; and
- Held-to-maturity securities – securities for which there is positive intent and financial capacity to hold to maturity. They are recorded at cost, plus income earned recognized in the Income Statement for the period.

Securities classified as trading and available-for-sale, as well as derivative financial instruments, are recognized in the individual statement of financial position at their fair value. Fair value is generally based

on quoted market prices or quotations for assets or liabilities with similar characteristics. If market prices are not available, fair values are based on traders' quotations, pricing models, discounted cash flows or similar techniques to determine the fair value and may require judgment or significant estimates by Management.

Classification, breakdown and segmentation of securities are presented in Note 7 (a to c).

f) Derivative financial instruments (assets and liabilities)

Derivate instruments are classified based on the objective for which the underlying instrument was acquired at the date of purchase, taking into consideration its use for possible hedging purposes.

Operations involving derivative financial instruments are designed to meet the Bank's own needs in order to manage overall exposure, as well as to meet customer requests to manage their positions. The gains or losses are recorded in profit-and-loss and shareholders' equity accounts.

Derivative financial instruments used to mitigate risk deriving from exposure to variations in the fair value of financial assets and liabilities are designated as hedges when they meet the criteria for hedge accounting and are classified according to their nature:

- Market risk hedge: the gains and losses, realized or not, of the financial instruments classified in this category as well as the financial assets and liabilities, that are the object of the hedge, are recorded in the Income Statement; and
- Cash flow hedge: the effective portion of valuation or devaluation of the financial instruments classified in this category is recorded, net of taxes, in a specific account in shareholders' equity. The ineffective portion of the hedge is recognized directly in the Income Statement.

A breakdown of amounts included as derivative financial instruments, in the balance sheet and off-balance-sheet accounts, is disclosed in Note 7 (d to g).

Individual Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and
Fiscal Council's Report

Notes to the Individual Financial Statements

g) Loans and leasing, advances on foreign exchange contracts, other receivables with credit characteristics and allowance for loan losses

Loans and leasing, advances on foreign exchange contracts and other receivables with credit characteristics are classified by risk level, based on: (i) the parameters established by CMN Resolution No. 2.682/99, which requires risk ratings to have nine levels, from "AA" (minimum risk) to "H" (maximum risk); and (ii) Management's assessment of the risk level. This assessment, which is carried out regularly, considers current economic conditions and past experience with loan losses, as well as specific and general risks relating to operations, debtors and guarantors. Moreover, the days-past-due is also considered in the rating of customer risk as per CMN Resolution No. 2.682/99, as follows:

Past-due period (1)	Customer rating
• from 15 to 30 days	B
• from 31 to 60 days	C
• from 61 to 90 days	D
• from 91 to 120 days	E
• from 121 to 150 days	F
• from 151 to 180 days	G
• more than 180 days	H

(1) For transactions with terms of more than 36 months, past-due periods are doubled, as permitted by CMN Resolution No. 2.682/99.

Interest and inflation adjustments on past-due transactions are only recognized in the Income Statement up to the 59th day that they are past due. As from the 60th day, they are recognized in off-balance sheet accounts and are only recognized in the Income Statement when received.

H-rated past-due transactions remain at this level for six months, after which they are written-off against the existing allowance and controlled in off-balance-sheet accounts for at least five years.

Renegotiated transactions are held at the same rating as on the date of the renegotiation or classified in a higher risk rating. Renegotiations already written-off against the allowance and that were recorded in off-balance-sheet accounts, are rated as level "H" and any possible gains derived from their renegotiation are recognized only when they are effectively received. When there is a significant repayment on the operation or when new material facts justify a change in the level of risk, the operation may be reclassified to a lower risk category.

The estimated allowance for loan losses is calculated to sufficiently cover probable losses, considering CMN and Bacen standards and instructions, together with Management's assessment of the credit risk.

Type, values, terms, levels of risk, concentration, economic sector of client's activity, renegotiation and income from loans, as well as the breakdown of expenses and statement of financial position accounts for the allowance for loan losses are presented in Note 9.

Leasing operations

The portfolio of leasing operations consists of contracts firmed with the support of Decree No. 140/84, of the Ministry of Finance, which contains clauses of: (a) non-cancellation; (b) purchase option; and c) post-fixed or fixed restatement and are accounted for in accordance with the standards established by Bacen, as follows:

I- Leasing receivables

Reflect the balance of installments receivable, restated according to the indexes and criteria established by contractual agreement.

Individual Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Individual Financial Statements

II- Unearned revenues from leases and Guaranteed Residual Value (GRV)

Recorded at the contractual amount, conversely to adjusted accounts of unearned Revenues from leasing and residual Value to balance, both submitted through negotiated conditions. The GRV received in advance is recorded in Other Liabilities – Creditors by Anticipation of the Residual Value until the date of contractual termination. The adjustment at present value of the lease payments and the GRV receivable from the financial leasing operations is recognized as excessive/insufficient depreciation on leased assets, in order to reconcile the accounting practices. In operations in arrears equal to or greater than 60 days, the appropriation to the result occurs upon receipt of contractual installments, in accordance with CMN Resolution No. 2.682/99.

III- Fixed assets for leasing operations

It is recorded at acquisition cost, minus the accrued depreciations. The depreciation is calculated using the linear method, with the benefit of a 30% reduction in the normal life cycle of the asset, provisioned in the current legislation. The main annual rates of depreciation used, as base for this reduction, are the following: vehicles and related, 20%; furniture and utensils, 10%; machinery and equipment, 10%; and other assets, 10% and 20%.

IV- Losses on leases

The losses recorded in the sale of leased assets are deferred and amortized over the remaining normal life cycle of assets, and are shown along with the Leased Fixed Assets (Note 9k).

V- Excessive (insufficient) depreciation

The accounting records of leasing operations are maintained as legal requirements, specific for this type of operation. The procedures adopted and summarized in items "II" to "IV" above differ from the accounting practices provisioned in the Brazilian corporate law, especially concerning the regime of competence in the record of revenue and expenses related to lease contracts. As a result, in accordance with Bacen Circular No. 1.429/89, the present value of outstanding leasing installments was calculated, using the internal rate of return of each contract, recording a leasing revenue or expenditure, conversely to the entries of excessive or insufficient depreciation, respectively, recorded in Permanent Assets, with the objective of adapting the leasing operations to the regime of competence (Note 9k).

h) Income tax and social contribution (assets and liabilities)

Income tax and social contribution deferred tax assets, calculated on income tax losses, social contribution losses and temporary differences, are recorded in "Other Receivables - Sundry" and the deferred tax liabilities on tax differences in leasing depreciation (applicable only for income tax), mark-to-market adjustments on securities, restatement of judicial deposits, among others, are recorded in "Other Liabilities - Tax and Social Security".

Deferred tax assets on temporary differences are realized when the difference between the accounting treatment and the income tax treatment reverses. Deferred tax assets on income tax and social contribution losses are realizable when taxable income is generated, up to the 30% limit of the taxable profit for the period. Deferred tax assets are recorded based on current expectations of realization considering technical studies and analyses carried out by Management.

The provision for income tax is calculated at 15% of taxable income plus a 10% surcharge. Social contribution on net income is calculated at 15% for financial companies and similar companies, and insurance companies and at 9% for other companies.

Provisions were recorded for other income tax and social contribution in accordance with specific applicable legislation.

Bradesco

Individual Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and
Fiscal Council's Report

Notes to the Individual Financial Statements

Changes in the criteria to recognize revenue, costs and expenses included in the net income for the period, enacted by Law No. 11.638/07 and subsequent amendments were made fiscally by the new regime of the taxation in force instituted by Law No. 12.973/14.

The breakdown of income tax and social contribution, showing the calculations, the origin and expected use of deferred tax assets, as well as unrecorded deferred tax assets, are presented in Note 31.

i) Prepaid expenses

Prepaid expenses consist of funds already disbursed for future benefits or services, which are recognized in the profit or loss on an accrual basis.

Incurred costs relating to assets that will generate revenue in subsequent periods are recorded in the Income Statement according to the terms and the amount of expected benefits and directly written-off in the Income Statement when the corresponding assets or rights are no longer part of the institution's assets or when future benefits are no longer expected.

In the case of the remuneration paid by the origination of credit operations to the banking correspondents related to credit operations originated during 2015, Bradesco opted to recognize 2/3 of the total value of compensation, pursuant to the provisions of Bacen Circular No. 3.738/14.

Prepaid expenses are shown in detail in Note 11b.

j) Investments

Investments in affiliates, where Bradesco has significant influence over the investee or holds at least 20% of the voting rights, are accounted for using the equity method.

Tax incentives and other investments are stated at cost, less allowance for losses/impairment, where applicable.

The composition of affiliates, as well as other investments, can be found in Note 12.

k) Premises and equipment

Relates to the tangible assets used by the Bank in its activities, including those resulting from transactions that transfer risks, benefits and control of the assets to the Bank.

Premises and equipment are stated at acquisition cost, net of accumulated depreciation, calculated by the straight-line method based on the assets' estimated economic useful life, using the following rates: real estate - 4% per annum; furniture and utensils and machinery and equipment - 10% per annum; transport systems - 20% per annum; and data-processing systems - 20% to 50% per annum, and adjusted for impairment, when applicable.

The breakdown of asset costs and their corresponding depreciation are presented in Note 13.

l) Intangible assets

Relates to the right over intangible assets used by the Bank in its activities.

Intangible assets comprise:

- Future profitability/acquired client portfolio and acquisition of right to provide banking services: they are recorded and amortized over the period in which the asset will directly and indirectly contribute to future cash flows and adjusted for impairment, where applicable; and

- Software: stated at cost less amortization calculated on a straight-line basis over the estimated useful life (20% to 50% p.a.), from the date it is available for use and adjusted for impairment, where applicable. Internal software development costs are recognized as an intangible asset when it is possible to show the intent and ability to complete and use the software, as well as to reliably measure costs directly attributable to the intangible asset. These costs are amortized during the software's estimated useful life, considering the expected future economic benefits.

Economic and Financial Analysis Report – June 2015

Individual Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Individual Financial Statements

Goodwill and other intangible assets and the movement in these balances by class, are presented in Note 14.

m) Impairment

Financial and non-financial assets are tested for impairment.

Impairment evidence may comprise the non-payment or payment delay by the debtor, possible bankruptcy process or the significant or extended decline in an asset value.

An impairment loss of a financial or non-financial asset is recognized in the profit or loss for the period if the book value of an asset or cash-generating unit exceeds its recoverable value.

n) Securities sold under agreements to repurchase

These are recognized at the value of the liabilities and include, when applicable, related charges up to the end of the reporting period, calculated on a daily pro-rata basis.

A breakdown of the contracts recorded in deposits and securities sold under agreements to repurchase, as well as terms and amounts recognized in the statement of financial position and income statement, is presented in Note 15.

o) Provisions, contingent assets and liabilities and legal obligations - tax and social security

Provisions, contingent assets and liabilities, and legal obligations, as defined below, are recognized, measured and disclosed in accordance with the criteria set out in CPC 25, approved by CMN Resolution No. 3.823/09 and CVM Resolution No. 594/09:

- **Contingent Assets:** these are not recognized in the financial statements, except to the extent that there are real guarantees or favorable judicial decisions, to which no further appeals are applicable, and confirmation of the capacity of the counterparty to pay or the ability of Bradesco to realize the asset via compensation against another liability upon which the gain is considered practically certain. Contingent assets with a chance of probable success are disclosed in the notes to the financial statements;
- **Provisions:** these are recorded taking into consideration the opinion of legal counsel, the nature of the lawsuits, similarity with previous lawsuits, complexity and positioning of the courts, whenever the loss is deemed probable, it requires a probable outflow of funds to settle the obligation and when the amount can be reliably measured;
- **Contingent Liabilities:** according to CPC 25, the term “contingent” is used for liabilities that are not recognized because their existence will only be confirmed by the occurrence of one or more uncertain future events beyond Management’s control. Contingent liabilities do not meet the criteria for recognition because they are considered as possible losses should only be disclosed in the notes when relevant. Obligations deemed remote are not recorded as a provision nor disclosed; and
- **Legal Obligations – provision for tax risks:** results from judicial proceedings, which contest the applicability of tax laws on the grounds of legality or constitutionality, which, regardless of the assessment of the probability of success, are fully provided for in the financial statements.

Details on lawsuits, as well as segregation and changes in amounts recorded, by type, are presented in Note 17.

Individual Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and
Fiscal Council's Report

Notes to the Individual Financial Statements

p) Other assets and liabilities

Assets are stated at their realizable amounts, including, when applicable, related income and inflation and exchange variations (on a daily prorated basis), less provision for losses, when deemed appropriate. Liabilities include known or measurable amounts, including related charges and inflation and exchange variations (on a daily prorated basis).

q) Subsequent events

These refer to events occurring between the reporting date and the date the individual financial statements are authorized to be issued.

They comprise the following:

- Events resulting in adjustments: events relating to conditions already existing at the end of the reporting period; and
- Events not resulting in adjustments: events relating to conditions not existing at the end of the reporting period.

Subsequent events, if any, are described in Note 32.

4) COMPARATIVE AMOUNTS**Reclassifications**

There were no reclassifications or other relevant information for previous periods that affect the comparability of the individual financial statements for the period ended June 30, 2015.

5) CASH AND CASH EQUIVALENTS

	June 30 - R\$ thousand	
	2015	2014

--------------------	--------------------	--------------------

- (1) Consistent with the criteria in Bacen Circular Letter No. 3.068/01 and due to the characteristics of the securities, we are classifying the derivative financial instruments, except those considered as cash flow hedges in the category Trading Securities;
- (2) These refer to investment fund and managed portfolio resources invested in purchase contracts with a commitment to re-sell with Bradesco, whose owners are consolidated subsidiaries, included in the financial statements;
- (3) The investment fund quotas are presented based on the instruments comprising their portfolios and maintaining the classification used in the fund;
- (4) In compliance with Article 8 of Bacen Circular Letter No. 3.068/01, Bradesco declares that it has the financial capacity and intention to maintain held-to-maturity securities until their maturity dates. This financial capacity is disclosed in Note 29a, which presents the maturity of asset and liability operations. On June 30, 2015, R\$12,419,003 thousand were reclassified from category "Securities Available for Sale" to the category "Securities Held to Maturity", due to the change of intention of the Management. The mark-to-market of these securities, in the amount of R\$(370,136) thousand, was maintained in Shareholders' Equity and will be recognized in the result for the remaining term of the securities, pursuant to Bacen Circular Letter No. 3.068/01;
- (5) The number of days to maturity was based on the contractual maturity of the instruments, regardless of their accounting classification;
- (6) This column reflects book value after mark-to-market accounting in accordance with item (8), except for securities classified as securities held to maturity, which fair value is higher than the original amortized cost by R\$4,756 thousand (2014 - R\$6,169 thousand);
- (7) The fair value of securities is determined based on the market price available at the end of the reporting period. If no market price quotation is available at the end of the reporting period, amounts are estimated based on the prices quoted by dealers, pricing models, quotation models or price quotations for instruments with similar characteristics; for investment funds, the original amortized cost reflects the fair value of the respective quotas. For investment funds, the original amortized cost reflects the fair value of the respective quotas;
- (8) Includes hedge for protection of assets and liabilities, denominated in or indexed to foreign currency, primarily, arising from foreign investments, eliminating the effects of exchange variation of these assets and liabilities. For a better analysis of these items, consider the net exposure (Note 7d II);
- (9) In March 2015, there was a modification in the calculation method of the market capitalization of debentures, using market parameters (Brazilian Association of Entities of the Financial and Capital Markets – Anbima); and
- (10) In the first semester of 2015 and 2014, there were no impairment losses related to "Equity Securities", for the bonds classified under "Available-for-sale securities".

Individual Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Individual Financial Statements

d) Derivative financial instruments

Bradesco carries out transactions involving derivative financial instruments, which are recorded in the statement of financial position or in off-balance-sheet accounts, to meet its own needs in managing its global exposure, as well as to meet its customer's requests, in order to manage their exposure. These operations involve a range of derivatives, including interest rate swaps, currency swaps, futures and options. Bradesco's risk management policy is based on the utilization of derivative financial instruments mainly to mitigate the risks from operations carried out by the Bank and its subsidiaries.

Securities classified as trading and available-for-sale, as well as derivative financial instruments, are recognized in the individual statement of financial position at their fair value. Fair value is generally based on quoted market prices or quotations for assets or liabilities with similar characteristics. Should market prices not be available, fair values are based on dealer quotations, pricing models, discounted cash flows or similar techniques for which the determination of fair value may require judgment or significant estimates by Management.

Quoted market prices are used to determine the fair value of derivative financial instruments. The fair value of swaps is determined by using discounted cash flow modeling techniques that use yield curves, reflecting adequate risk factors. The information to build yield curves is mainly obtained from the Securities, Commodities and Futures Exchange (BM&FBOVESPA) and the domestic and international secondary market. These yield curves are used to determine the fair value of currency swaps, interest rate and other risk factor swaps. The fair value of forward and futures contracts is also determined based on market price quotations for derivatives traded at the exchange or using methodologies similar to those outlined for swaps. The fair values of credit derivative instruments are determined based on market price quotation or from specialized entities. The fair value of options is determined based on mathematical models, such as Black & Scholes, using yield curves, implied volatilities and the fair value of corresponding assets. Current market prices are used to calculate volatility.

Derivative financial instruments in Brazil mainly refer to swaps and futures and are registered at the OTC Clearing House (Cetip) and BM&FBOVESPA. Operations involving forward contracts of interest rates, indexes and currencies are contracted by Management to hedge Bradesco's overall exposures and to meet customer needs.

Foreign derivative financial instruments refer to swap, forward, options, credit and futures operations and are mainly carried out at the stock exchanges in Chicago and New York, as well as the over-the-counter (OTC) markets.

Derivatives include operations maturing in D+1.

(1) Includes cash flow hedges to protect CDI-related funding, totaling R\$20,814,738 thousand (R\$20,440,070 thousand in 2014) (Note 7f); and

(2) Includes specific hedges to protect foreign investments, totaling R\$43,909,631 thousand (R\$31,850,766 thousand in 2014)).

Individual Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Individual Financial Statements

To obtain greater payment assurance for operations with financial institutions and customers, Bradesco established compensation and net settlement agreements within the National Financial System, in accordance with CMN Resolution No. 3.263/05.

II) Breakdown of derivative financial instruments (assets and liabilities), shown at original amortized cost and fair value

	2015			June 30 - R\$ thousand 2014		
	Original amortized cost	Mark-to-market adjustment	Fair value	Original amortized cost	Mark-to-market adjustment	Fair value

Notes to the Individual Financial Statements

V) Revenues and expenses, net

	Semesters ended June 30 - R\$ thousand	
	2015	2014
Swap contracts (1)	97,519	(486,744)
Forward contracts	(399,712)	(148,388)
Option contracts	(45,373)	(7,029)
Futures contracts (1)	(1,421,341)	1,799,790
Total (Note 7g)	(1,768,907)	1,157,629

(1) Includes the gain (loss) and the respective adjustment to the market capitalization of the hedge for protection of the assets and liabilities, designated and/or indexed in foreign currency, primarily, arising from foreign investments.

VI) Total value of derivative financial instruments, by trading location and counterparties

	June 30 - R\$ thousand	
	2015	2014
CETIP (over-the-counter)	93,265,846	52,990,714
BM&FBOVESPA (stock exchange)	173,386,935	577,001,732
Overseas (over-the-counter) (1)	16,686,243	16,964,600
Overseas (stock exchange) (1)	17,355,000	16,090,386
Total	300,694,024	663,047,432

(1) Comprised of operations carried out on the Chicago and New York Stock Exchanges and over-the-counter markets.

As of June 30, 2015, a total of 90.6% of counterparties are corporate entities and 9.4% are financial institutions.

e) Credit Default Swaps (CDS)

In general, these represent bilateral agreements in which one of the parties purchases protection against the credit risk of a certain financial instrument (the risk is transferred). The selling counterparty receives remuneration that is usually paid linearly over the term of the agreement.

In the case of a default, the purchasing counterparty will receive a payment to offset the loss incurred on the financial instrument. In this case, the selling counterparty usually receives the underlying asset of the agreement in exchange for the payment.

On June 30, 2015, Bradesco had credit default swaps (CDS) with the following characteristics: (i) the amount of risk transferred under credit swaps whose underlying assets are “Brazilian government securities” is negative R\$(1,326,900) thousand; and (ii) the risk received in credit swaps whose underlying assets are “derivative with companies” is R\$81,071 thousand, amounting to a total net credit risk value of negative R\$(1,245,829) thousand, with an effect on the calculation of required shareholders’ equity of negative R\$(64,062) thousand.

Bradesco carries out operations involving credit derivatives to better manage its risk exposure and its assets. The contracts related to credit derivatives transactions described above are due in 2019. The mark-to-market of the protection rates that remunerates the counterparty that received the risk totaled R\$(123) thousand. There were no credit events, as defined in the agreements, during the first semester of 2015.

f) Cash flow hedge

Bradesco uses cash flow hedges to protect its cash flows from payment of interest rates on funds, which have a floating interest rate - the Interbank Deposit Rate (DI Cetip), thus converting them to fixed cash flows.

Individual Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Individual Financial Statements

Bradesco has traded DI Future contracts at BM&FBOVESPA since 2009, using them as cash flow hedges for funding linked to DI. The following table presents the DI Future position, where:

	June 30 - R\$ thousand	
	2015	2014
DI Future with maturity between 2016 and 2017	20,814,738	20,440,070
Funding indexed to CDI	21,133,663	20,290,694
Mark-to-market adjustment recorded in shareholders' equity (1)	299,179	(20,725)
Ineffective fair value recorded in profit or loss	4	-
(1) The adjustment in shareholders' equity is R\$179,507 thousand, net of taxes (R\$(12,435) thousand in 2014).		

The effectiveness of the hedge portfolio was assessed in accordance with Bacen Circular Letter No. 3.082/02.

g) Income from securities and derivative financial instruments

(1) Percentage of existing provision in relation to total portfolio, by level of risk; and

(2) On June 30, 2015, it includes a provision for guarantees provided, comprising sureties, letters of credit and standby letter of credit, which is presented here within the balance for excess provision, and totals R\$509,785 thousand (R\$332,661 thousand in 2014) (Note 19b).

Individual Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Individual Financial Statements**g) Changes in allowance for loan losses**

	Semesters ended June 30 - R\$ thousand	
	2015	2014
Opening balance	18,356,047	16,621,452
- Specific provision (1)	8,950,587	7,572,259
- Generic provision (2)	5,935,511	5,565,620
- Excess provision (3)	3,469,949	3,483,573
Additions (Note 10h-1)	6,046,095	5,100,788
Net write-offs	(5,561,320)	(4,864,228)
Closing balance	18,840,822	16,858,012
- Specific provision (1)	9,468,830	7,967,235
- Generic provision (2)	5,992,572	5,474,014
- Excess provision (3) (4)	3,379,420	3,416,763

(1) For contracts with installments past due for more than 14 days;

(2) Recorded based on the customer/transaction classification and therefore not included in the preceding item;

(3) The additional provision is recorded based on Management's experience and the expectation in relation to the loan portfolio, to determine the total provision deemed sufficient to cover specific and general credit risk, when considered together with the provision calculated based on levels of risk and the corresponding minimum percentage in the provision established by CMN Resolution No. 2.682/99. The excess provision per customer was classified according to the level of risk in Note 9f; and

(4) On June 30, 2015, it includes the provision for guarantees provided, comprising sureties, letters of credit and standby letter of credit, which is presented here within the balance for excess provision, and totals R\$509,785 thousand (2014 – R\$332,661 thousand) (Note 19b).

h) Allowance for Loan Losses expense net of amounts recovered

Expenses with the allowance for loan losses, net of credit write offs recovered, are as follows.

	Semesters ended June 30 - R\$ thousand	
	2015	2014
Amount recorded (1)	6,046,095	5,100,788
Amount recovered (2)	(1,410,473)	(1,280,209)
Allowance for Loan Losses expense net of amounts recovered	4,635,622	3,820,579

(1) On June 30, 2015 includes provisioning of guarantees offered, comprising sureties, guarantees, letters of credit and standby letter of credit, which are presented in the "excess" provision, totaling R\$89,482 thousand (2015 – R\$4,005 thousand); and

(2) Classified in income from loans (Note 9j).

i) Changes in the renegotiated portfolio

	Semesters ended June 30 - R\$ thousand	
	2015	2014
Opening balance	9,548,703	8,983,189
Amount renegotiated	5,293,967	4,003,684
Amount received	(2,810,177)	(2,103,828)
Write-offs	(1,815,723)	(1,864,224)
Closing balance	10,216,770	9,018,821
Allowance for loan losses	6,311,535	5,780,915
Percentage on renegotiated portfolio	61.8%	64.1%

(1) Issuance of securities on the international market to invest in foreign exchange transactions, pre-export financing, import financing and working capital financing, predominately in the medium and long terms.

d) Since 2003, Bradesco has been party to certain agreements to optimize its funding and liquidity management activities by using an SPE - Special Purpose Entity. This SPE, known as International Diversified Payment Rights Company, is financed with long-term debt and settled through future cash flows from underlying assets which primarily include flows from current payment orders and future remittances made by individuals and companies located overseas to beneficiaries in Brazil for which the Bank acts as a paying agent.

Long-term securities issued by the SPE and sold to investors are settled with proceeds from the payment order flows. Bradesco is obliged to redeem these securities in specific cases of delinquency or if the SPE discontinues operations.

17) PROVISIONS, CONTINGENT ASSETS AND LIABILITIES AND LEGAL LIABILITIES – TAX AND SOCIAL SECURITY

a) Contingent assets

Contingent assets are not recognized in the financial statements. However, there are ongoing proceedings where the chance of success is considered probable, such as: a) Social Integration Program (PIS), claiming to offset PIS against Gross Operating Income, paid under Decree-Laws No. 2.445/88 and No. 2.449/88, regarding the payment that exceeded the amount due under Supplementary Law No. 07/70 (PIS Repique); and b) other taxes, the legality and/or constitutionality of which is being challenged, where the decision may lead to reimbursement of amounts paid.

Economic and Financial Analysis Report – June 2015

Individual Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Individual Financial Statements

b) Provisions classified as probable losses and legal obligations - tax and social security

Organização Bradesco is a party to a number of labor, civil and tax lawsuits, arising from the normal course of business.

Management recorded provisions where, based on their opinion and that of their legal counsel, the nature of the lawsuit, similarity to previous lawsuits, complexity and the courts standing, the loss is deemed probable.

Management considers that the provision is sufficient to cover the future losses generated by the respective lawsuits.

Provisions related to legal obligations are maintained until the conclusion of the lawsuit, represented by judicial decisions with no further appeals or due to the statute of limitation.

I - Labor claims

These are claims brought by former employees and outsourced employees seeking indemnifications, most significantly for unpaid "overtime", pursuant to Article 224 of the Consolidation of Labor Laws (CLT). In proceedings in which a judicial deposit is used to guarantee the execution of the judgment, the labor provision is made considering the estimated loss of these deposits. For proceedings with similar characteristics and not judged, the provision is recorded based on the average calculated value of payments made for labor complaints settled in the past 12 months; and for proceedings originating from acquired banks, with unique characteristics, the calculation and assessment of the required balance is conducted periodically, based on the updated recent loss history.

Overtime is monitored by using electronic time cards and paid regularly during the employment contract and, accordingly, the claims filed by former employees do not represent significant amounts.

II - Civil claims

These are claims for pain and suffering and property damages, mainly relating to protests, returned checks, the inclusion of information about debtors in the credit restriction registry and the replacement of inflation adjustments excluded as a result of government economic plans. These lawsuits are individually controlled

using a computer-based system and provisioned whenever the loss is deemed as probable, considering the opinion of Management and their legal counsel, the nature of the lawsuits, similarity with previous lawsuits, complexity and positioning of the courts.

Most of these lawsuits are brought to the Special Civil Court (JEC), in which the claims are limited to 40 times the minimum wage and do not have a significant impact on Organização Bradesco's financial position.

There are a significant number of legal claims pleading alleged differences in adjustment for inflation on savings account balances due to the implementation of economic plans that were part of the federal government's economic policy to reduce inflation in the '80s and '90s.

Although Bradesco complied with the law and regulation in force at the time, these lawsuits have been recorded in provisions, taking into consideration the claims where the Bank is the defendant and the perspective of loss, which is considered after the analysis of each demand, based on the current decision of the Superior Court of Justice (STJ).

Note that, regarding disputes relating to economic plans, the Federal Supreme Court (STF) suspended the prosecution of all lawsuits at the cognizance stage, until the Court issues a final decision on the right under litigation.

Bradesco _____

Individual Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and
Fiscal Council's Report

Notes to the Individual Financial Statements

III - Legal obligations – provision for tax risks

The Organização Bradesco is disputing the legality and constitutionality of certain taxes and contributions in court, for which provisions have been recorded in full, although there is a good chance of a favorable outcome, based on the opinion of Management and their legal counsel. The processing of these legal obligations and the provisions for cases for which the risk of loss is deemed as probable is regularly monitored in the legal court. During or after the conclusion of each case, a favorable outcome may arise for the Organization, resulting in the reversal of the related provisions.

The main cases are:

- IRPJ/CSLL on losses of credits – R\$1,335,927 thousand (R\$1,311,307 in 2014): we are requesting to deduct from income tax and social contributions payable (IRPJ and CSLL, respectively) amounts of actual and definite loan losses related to unconditional discounts granted during collections, regardless of compliance with the terms and conditions provided for in Articles 9 to 14 of Law No. 9.430/96 that only apply to temporary losses;
- PIS – EC 17/97 – R\$202,341 thousand: for the period from July 1997 to February 1998, request to calculate and pay PIS contributions as established by LC 07/70 (PIS Repique) and not as established by EC 17/97 (PIS on Gross Operating Income);
- PIS – R\$318,994 thousand (R\$307,458 thousand in 2014): we are requesting the authorization to offset overpaid amounts in 1994 and 1995 as PIS contribution, corresponding to the surplus paid over that calculated on the tax base established in the Constitution, i.e., gross operating income, as defined in the income tax legislation (set out in Article 44 of Law No. 4.506/64), which excludes interest income; and
- Pension Contributions - R\$948,436 thousand: official notifications related to the pension contributions on financial contributions in private pension plans, considered by the audit as compensatory sums subject to the incidence of such financial contributions and isolated fine for not withholding tax of the IRRF on the related financial contributions.

IV - Provisions by nature

	June 30 - R\$ thousand	
	2015	2014
Labor claims	2,411,552	2,127,695

Payments	(358,128)	(228,855)	(4,948)
Balance on June 30, 2015	2,411,552	2,710,302	2,843,676

(1) Includes, in the first semester of 2015, constitution of tax provision: (i) related to the incidence of pension contributions on financial contributions in private pension plans, in the amount of R\$467,488 thousand; and (ii) IRPJ/CSLL on losses of credits, totaling R\$14,939 thousand; and

Individual Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Individual Financial Statements

(2) Mainly include legal liabilities.

c) Contingent liabilities classified as possible losses

The Organização Bradesco maintains a system to monitor all administrative and judicial proceedings in which the institution is plaintiff or defendant and, based on the opinion of legal counsel, classifies the lawsuits according to the expectation of loss. Case law trends are periodically analyzed and, if necessary, the related risk is reclassified. In this respect, contingent lawsuits deemed to have a possible risk of loss are not recorded as a liability in the financial statements. The main proceedings in this category are the following: a) IRPJ and CSLL deficiency notice relating to the disallowance of loan loss deductions, for the amount of R\$850,679 thousand (R\$509,107 thousand in 2014); and b) IRPJ and CSLL deficiency note relating to disallowance of exclusions of revenues from the mark-to-market of securities from 2007 to 2010, and operating expenses and income, amounting to R\$1,048,425 thousand (R\$238,796 thousand in 2014).

Shares acquired and not canceled	(191,600)	(2,393,318)	(2,584,918)
Number of outstanding shares as at June 30, 2015	2,520,694,623	2,511,189,130	5,031,883,753
(1) Benefited the shareholders registered in the records of Bradesco on March 26, 2015.			

In the Extraordinary General Meeting of March 10, 2015, a deliberation was taken to increase the Capital Stock by R\$5,000,000 thousand, increasing it from R\$38,100,000 thousand to R\$43,100,000 thousand. This was effected through the capitalization of part of the balance of the account "Profit Reserves - Statutory Reserve", in compliance with the provisions in Article 169 of Law No. 6.404/76, with a stock-split of 20% in shares, by issuing 841,454,808 new nominative-book entry shares, with no nominal value, of which 420,727,426 were common shares and 420,727,382 were preferred shares. These were attributed free-of-charge to the shareholders registered on March 26, 2015 as bonus, in the ratio of two (2) new shares for every ten (10) shares of the same type that they own.

c) Interest on shareholders' equity/dividends

Preferred shares have no voting rights, but are entitled to all other rights and advantages given to common shares and, in compliance with Bradesco's Bylaws, have priority for repayment of capital and an additional ten percent (10%) interest on shareholders' equity and/or dividends, in accordance with the provisions of Paragraph 1, item II, of Article 17 of Law No. 6.404/76, amended by Law No. 10.303/01.

According to Bradesco's Bylaws, shareholders are entitled to interest on shareholders' equity and/or dividends amounting to at least 30% of the net income for the year, adjusted in accordance with Brazilian Corporate Law.

Interest on shareholders' equity is calculated based on the shareholders' equity limited to the variation in the Federal Government Long-Term Interest Rates (TJLP), subject to available profits before deductions, or transfer to retained earnings or profit reserves for the amounts equivalent or greater than twice its value.

Bradesco's capital remuneration policy aims to distribute interest on shareholders' equity at the maximum amount calculated under current legislation, and this is included, net of Withholding Income Tax, in the calculation for mandatory dividends for the year under the Company's Bylaws.

The Board of Directors' Meeting held on June 24, 2014 approved the Board of Executive Officers' proposal to pay shareholders' supplementary interest on shareholders' equity and dividends for the first semester of 2014, totaling R\$829,000 thousand, at R\$0.188201395 per common share and R\$0.207021535 per preferred share, which was paid on July 18, 2014.

The Board of Directors' Meeting held on December 22, 2014 approved the Board of Executive Officers' proposal to pay shareholders supplementary interest on shareholders' equity for 2014, for the amount of R\$2,600,300 thousand, at R\$0.590325800 (net of 15% withholding income tax - R\$0.501776930) per common share and R\$0.649358380 (net of 15% withholding income tax - R\$0.551954623) per preferred share, which was paid on March 6, 2015.

The Board of Directors' Meeting held on February 9, 2015 approved the Board of Executive Officers' proposal to pay shareholders' supplementary interest on shareholders' equity and dividends for the period of 2014, totaling R\$630,572 thousand, at R\$0.143153921 per common share and R\$0.157469313 per preferred share, which was paid on March 6, 2015.

Individual Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and
Fiscal Council's Report

Notes to the Individual Financial Statements

The Board of Directors' Meeting held on June 22, 2015 approved the Board of Executive Officers' proposal to pay shareholders' supplementary interest on shareholders' equity and dividends for the first semester of 2015, totaling R\$912,000 thousand, at R\$0.172629101 per common share and R\$0.189892011 per preferred share, which was paid on July 17, 2015.

Interest on shareholders' equity and dividends for the first semester of 2015 is calculated as follows:

	R\$ thousand	% (1)
Net income for the semester	8,717,354	
(-) Legal reserve	(435,867)	
Adjusted calculation basis	8,281,487	
Monthly and supplementary interest on shareholders' equity (gross), paid and/or provisioned	1,996,092	
Withholding income tax on interest on shareholders' equity	(299,414)	
Interim Dividends provisioned (2)	912,000	
Interest on own capital (net) /dividends accrued in the 1st semester of 2015	2,608,67831.50	
Interest on own capital (net) /dividends accrued in the 1st semester of 2014	2,160,86331.50	

(1) Percentage of interest on shareholders' equity/dividends after adjustments; and

(2) Paid on July 17, 2015.

Interest on shareholders' equity was paid or recorded in provisions, as follows:

Description	Per share (gross)		Gross amount paid/	Withholding Income Tax (IRRF) (15%)	R\$ thousand Net amount paid/recorded in provision
	Common shares	Preferred shares			
Monthly interest on shareholders' equity paid	0.112908	0.124198	497,377	(74,607)	422,770
Supplementary interest paid on own capital	0.242805	0.267086	1,069,521	(160,428)	909,093
Interim Dividends Paid	0.188201	0.207022	829,000	-	829,000

Total in the 1st semester of 2014	0.543914	0.598306	2,395,898	(235,035)	2,160,863
Monthly interest on shareholders' equity paid	0.108211	0.119031	522,175	(78,326)	443,849
Supplementary interest on shareholders' equity provisioned (1)	0.278866	0.306753	1,473,917	(221,088)	1,252,829
Interim Dividends provisioned (2)	0.172629	0.189892	912,000	-	912,000
Total in the 1st semester of 2015	0.559706	0.615676	2,908,092	(299,414)	2,608,678

(1) It considers the bonus of 20% of shares occurring in March 2015; and

(2) Paid on July 17, 2015.

d) Treasury shares

The Board of Directors' Meeting held on June 24, 2014 resolved to renew the term for the share buy-back program, based on the previous conditions. It is valid until June 26, 2015. The Board of Directors' Meeting held on June 24, 2015 resolved to renew the term for the share buy-back program based on the previous conditions. It is valid until June 26, 2016.

A total of 3,669,932 common shares and 13,175,162 preferred shares had been acquired with the effect of the 20% share split, totaling R\$371,012 thousand until June 30, 2015, and remain in treasury. The minimum, average and maximum cost per common share is R\$23.62221, R\$25.46012 and R\$27.14350, and per preferred share is R\$25.23185, R\$27.43646 and R\$33.12855, respectively. The fair value was R\$27.98 per common share and R\$28.50 per preferred share on June 30, 2015.

Notes to the Individual Financial Statements

b) Compensation for Key Management Personnel

Each year, the Annual Shareholders' Meeting approves:

- The annual grand total amount of management compensation, set forth at the Board of Directors Meetings, to be paid to board members and members of the Board of Executive Officers, as determined by the Company's Bylaws; and
- The amount allocated to finance Management pension plans, within the Employee and Management pension plan of the Organização Bradesco.

For 2015, the maximum amount of R\$250,000 thousand was set for Management compensation and R\$250,000 thousand to finance defined contribution pension plans.

The current policy on Management compensation sets forth that 50% of net variable compensation, if any, must be allocated to the acquisition of preferred shares of Banco Bradesco S.A., which vest in three equal, annual and successive installments, the first of which is in the year following the payment date. This procedure complies with CMN Resolution No. 3.921/10, which sets forth a management compensation policy for financial institutions.

Short-term Management benefits

	Semesters ended June 30 - R\$ thousand	
	2015	2014
Salaries	134,166	140,156
INSS contributions	30,187	31,535
		465

Total	164,353	171,691
--------------	----------------	----------------

Post-employment benefits

	Semesters ended June 30 - R\$ thousand	
	2015	2014
Defined contribution supplementary pension plans	110,715	117,408
Total	110,715	117,408

Bradesco does not offer its Key Management Personnel long-term benefits related to severance pay or share-based compensation, pursuant to CPC 10 – Share-Based Payment, approved by CMN Resolution No. 3.989/11.

Other information**l) Under current law, financial institutions are not allowed to grant loans or advances to:**

a) Officers and members of the advisory, administrative, fiscal or similar councils, as well as to their respective spouses and family members up to the second degree;

b) Individuals or corporations that own more than 10% of their capital; and

Individual Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Individual Financial Statements

c) Corporations in which the financial institution itself, any officers or administrators of the institution, as well as their spouses and respective family members up to the second degree own more than 10% of equity.

Therefore, no loans or advances are granted by financial institutions to any subsidiary, members of the Board of Directors or Board of Executive Officers and their relatives.

II) Shareholding

Together, members of the Board of Directors and Board of Executive Officers had the following shareholding in Bradesco:

	2015	June 30 2014
• Common shares	0.72%	0.72%
• Preferred shares	1.05%	1.03%
• Total shares (1)	0.89%	0.88%

(1) On June 30, 2015, direct and indirect shareholding of the members of Bradesco's Board of Directors and Board of Executive Officers amounted to 3.10% of common shares, 1.10% of preferred shares and 2.10% of all shares.

29) FINANCIAL INSTRUMENTS

a) Risk Management

Risk management is strategically highly important due to the increasing complexity of services and products and the globalization of the Organization's business. The dynamism of the markets requires that Bradesco continuously acts to improve this activity in the pursuit of best practices. For that reason, Bradesco uses its internal market risk models, which were already in force, to calculate regulatory capital since January 2013.

The Organization controls risk management in an integrated and independent manner, preserving and valuing the Board's decisions, developing and implementing methodologies, models, and measurement and control tools. It also provides training to employees from all Organization levels, from the business areas to the Board of Directors.

The management process allows the risks to be proactively identified, measured, mitigated, monitored and reported, which is necessary in view of the Organization's complex financial products and activity profile.

Bradesco _____

Individual Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and
Fiscal Council's Report

Notes to the Individual Financial Statements

Credit risk management

Credit risk refers to the possibility of losses as a result of the non-compliance by the borrower or counterparty with their financial obligations under agreed terms, as well as to the reduction in the value of a loan agreement resulting from a deterioration of the borrower's risk rating, reduced earnings or remuneration, the advantageous terms / conditions given in a renegotiation, recovery costs and other values related to the counterparty's non-compliance with its financial obligations.

Credit risk management in the Organization is a continuous and evolving process of mapping, development, assessment and diagnosis through the use of models, instruments and procedures that require a high degree of discipline and control during the analysis of operations to preserve the integrity and autonomy of the processes.

The Organization controls its exposure to credit risk, which mainly results from loans, securities and derivative financial instruments. Credit risk also stems from financial obligations related to credit commitments or financial guarantees.

In order not to compromise the quality of the portfolio, it includes all aspects related to the lending process, concentration, guarantee requirement, terms, among others.

The Organization continuously maps all activities that can generate exposure to credit risk, with their respective ratings related to probability and magnitude, as well as the identification of their managers, measurement and mitigation plans.

Individual Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Individual Financial Statements

Market risk management

Market risk is the possibility of financial losses due to fluctuating prices and interest rates of the Organization's financial instruments, as its asset and liability portfolios may have mismatched maturities, currencies and indexes.

Market risk is carefully identified, measured, mitigated, controlled and reported. The Organization's market risk exposure profile is in line with the guidelines established by the governance process, with limits monitored independently on a timely basis.

All transactions exposing the Organization to market risk are mapped, measured and classified by probability and importance, and the whole process is approved by the corporate governance structure.

The process of market risk management is performed at the corporate level. This process involves several areas, with specific assignments, ensuring an efficient structure, with the measurement and control of market risk being performed centrally and independently. The management process, approved by the Board of Directors, is reviewed at least annually by the Committees and by the Board of Directors.

In line with the Corporate Governance practices, aiming to preserve and strengthen the management of market and liquidity risks in the Organization, and to meet the provisions of CMN Resolution No. 3.464/07, the Board of Directors approved the Market and Liquidity Risk Management Policy, which is reviewed at least annually by the competent Committees and by the Board of Directors, providing the main guidelines for acceptance, control and management of market and liquidity risks. In addition to this policy, the Organization has specific rules to regulate the market and liquidity risk management process.

VaR Internal Model – Trading Portfolio

Below is the 1-day VaR:

Risk factors	June 30 - R\$ thousand	
	2015	2014
Fixed rates	18,826	5,879

Other	1,027	881
Correlation/diversification effect	(12,365)	(22,819)
VaR (Value at Risk)	19,657	24,974
Amounts net of tax.		

Sensitivity analysis

The Trading Portfolio is also monitored through daily sensitivity analyses that measure the effect of movements of market and price curves on our positions. Furthermore, a sensitivity analysis of the Organization's financial exposures (Trading and Banking Portfolio) is performed on a quarterly basis, in compliance with CVM Rule No. 475/08.

Note that the impact of the financial exposure on the Banking Portfolio (notably interest rates and price indexes) do not necessarily represent a potential accounting loss for the Organization because a portion of loans held in the Banking Portfolio are financed by demand and/or savings deposits, which are "natural hedges" for future variations in interest rates, moreover, interest rate variations do not represent a material impact on the Institution's result, as Loans are held to maturity. In addition, due to our strong presence in the insurance and pension plan market, Bradesco holds a large volume of assets on which price adjustments would also have an offsetting impact on the linked technical provisions.

Economic and Financial Analysis Report – June 2015

Individual Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Individual Financial Statements

The sensitivity analysis of the Trading Portfolio, which represents exposures that may have a material impact on the Organization's results, is presented below. Note that results show the impact for each scenario on a static portfolio position. However, the market is highly dynamic which results in continuous changes in these positions. Moreover, as previously mentioned, the Organization has an ongoing process of market risk management, which constantly seeks to adjust positions to mitigate related risks according to the strategy determined by Senior Management. Therefore, where there are indicators of deterioration in a certain positions, proactive measures are taken to minimize any potential negative impact and maximize the risk/return ratio for the Organization.

Individual Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and
Fiscal Council's Report

Notes to the Individual Financial Statements

Sensitivity analyses were carried out based on scenarios prepared at the respective dates, always considering market data at the time and scenarios that would adversely affect our positions, according to the examples below:

Scenario 1: Based on market information (BM&FBOVESPA, Anbima, etc.), stresses were applied for 1 basis point on the interest rate and 1.0% variation on prices. For example: for a Real/US dollar exchange rate of R\$3.12 a scenario of R\$3.15 was used, while for a 1-year fixed interest rate of 14.3%, a 14.3% scenario was applied;

Scenario 2: 25.0% stresses were determined based on market information. For example: for a Real/US dollar exchange rate of R\$3.12 a scenario of R\$3.89 was used, while for a 1-year fixed interest rate of 14.3%, a 17.9% scenario was applied. The scenarios for other risk factors also accounted for 25.0% stresses in the respective curves or prices; and

Scenario 3: 50.0% stresses were determined based on market information. For example: for a Real/US dollar quote of R\$3.12 a scenario of R\$4.67 was used, while for a 1-year fixed interest rate of 14.3%, a 21.5% scenario was applied; The scenarios for other risk factors also account for 50.0% stresses in the respective curves or prices.

Liquidity Risk

Liquidity Risk is the possibility of the institution not being able to fully meet its obligations, without affecting its daily operations and incurring significant losses, as well as the possibility of the institution not being able to trade a position at market price due to its significant size when compared to the usually traded volume or due to some market discontinuation.

It is crucial to measure and monitor this risk, so that the Organization can settle its obligations in a timely and reliable way.

The process of liquidity risk management is performed at the corporate level. It involves several areas with specific assignments, ensuring an efficient structure. Liquidity risk is measured and controlled centrally and independently and includes the daily monitoring of the composition of available funds, compliance with the minimum liquidity level, and the contingency plan for stress situations.

One of the objectives of the Organization's Policy on Market and Liquidity Risk Management, approved by the Board of Directors, is to lay down the rules, criteria and procedures that guarantee the establishment of the Minimum Liquidity Reserve (RML) for the Organization, as well as the strategy and action plans for liquidity crisis situations.

As part of the criteria and procedures approved, the Organization establishes a minimum liquidity reserve to be held and the types of assets eligible for this reserve. Moreover, instruments for managing liquidity in a normal scenario and in a crisis scenario and the strategies to be implemented in each case are established.

Borrowing and on-lending (Notes 16a and 16b)	61,369,108	61,385,883	(16,775)	(107,656)	(16,775)
Subordinated debts (Note 18)	37,425,568	37,420,778	4,790	(294,431)	4,790
Unrealized gains excluding tax			23,373,010	21,672,894	24,750,000

(1) Includes advances on foreign exchange contracts, leases and other receivables with lending characteristics; and

(2) Primarily includes the surplus of earnings (losses) of subsidiaries and affiliates (Cielo, Odontoprev and Fleury).

Determination of the fair value of financial instruments:

- Securities and derivative financial instruments, investments, subordinated debts and treasury shares are based on the market price at the reporting date. If no quoted market price is available, amounts are estimated based on the dealer quotations, pricing models, quotation models or quotations for instruments with similar characteristics;

- Fixed rate loans were determined by discounting estimated cash flows, using interest rates applied by the Organização Bradesco for new contracts with similar features. These rates are consistent with the

market at the reporting date; and

- Time deposits, funds from issuance of securities, borrowing and on lending were calculated by discounting the difference between the cash flows under the contract terms and our prevailing market rates for the same product at the reporting date.

Economic and Financial Analysis Report – June 2015

Individual Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Individual Financial Statements

c) Capital Management

The primary objective of the Capital Management structure is to provide the necessary conditions for a continuous process of capital assessment, monitoring and control, contributing to the achievement of the Organization's strategic objectives. It considers the current business environment and a prospective and consistent vision for capital adequacy planning. This structure is composed of the Statutory, Non-Statutory and Executive Committees that assist the Board of Directors and the Board of Executive Officers in decision making.

The internal process of assessing capital adequacy is carried out so as to ensure that the Organization has a Reference Equity base composition to support the development of activities and provide sufficient protection against risks, whether in normal or in extreme market conditions, as well as meeting managerial and regulatory requirements in relation to capital management.

30) EMPLOYEE BENEFITS

Bradesco and its subsidiaries sponsor a private defined contribution pension for employees and directors, that allows financial resources to be accumulated by participants throughout their careers by means of employee and employer contributions and invested in an Exclusive Investment Fund (FIE).

The pension scheme is managed by Bradesco Vida e Previdência S.A. and BRAM – Bradesco Asset Management S.A. The Securities Dealer Company (DTVM) is responsible for the financial management of the FIE funds.

The Supplementary Pension Plan was reformulated in October 2014, with contributions from employees and directors of Bradesco and its subsidiaries equal to at least 4% of their salaries. Contributions from Bradesco and its subsidiaries increased from 4% to 5% of salary, plus the percentage destined for death and disability coverage. The contributions belonging to participants who, in 2001, chose to migrate from the benefit plan defined for PGBL were maintained at the same levels of the previous benefit plan.

Actuarial obligations of the defined contribution plan are fully covered by the plan assets of the corresponding FIE.

In addition to the aforementioned plan, participants who chose to migrate from the defined benefit plan are guaranteed a proportional deferred benefit, corresponding to their accumulated rights in that plan. For the active participants, retirees and pensioners of the defined benefit plan, in extinction, the present value of the actuarial obligations of the plan is completely secured by collateral assets.

Bradesco sponsors supplemental defined benefit pension plans and of defined contribution, through Caixa de Assistência e Aposentadoria dos Funcionários do Banco do Estado do Maranhão – Capof, especially for employees originating from Banco BEM S.A.

Bradesco sponsors the defined benefit plan through Caixa de Previdência Privada do Banco do Estado do Ceará – Cabec, especially for employees originating from Banco BEC S.A.

In accordance with CPC 33 (R1) – Employee Benefit, as approved by CVM Resolution No600/09, Bradesco, as sponsor of these plans calculated their actuarial commitments taking into consideration the economic and actuarial study, using a real interest rate and recognized their obligations in the financial statements.

The assets of pension plans are invested in compliance with the applicable legislation (government securities and private securities, listed company shares and real estate properties).

Expenses related to contributions made in the first semester of 2015 totaled – R\$218,644 thousand (R\$233,267 thousand in 2014).

In addition to this benefit, Bradesco offers other benefits to their employees and administrators, including health insurance, dental care, life and personal accident insurance, and professional training.

32) OTHER INFORMATION

a) In the first semester of 2015, the Central Bank of Brazil redefined the rules of compulsory deposits on time resources and resources in savings deposits, whose main changes we highlight below.

Description	Current Rule	Previous rule
Time Resources	The collection will be 25% of the balance of time deposits with effect from the calculation period from August 31 to September 4, 2015.	The collection was 20% on the balance of time deposits.
	The collection will be made with full remuneration of the Selic Rate on the amount collected.	The collection was limited to the payment of 40% of the liability and deducted through the acquisition of credit, and financial bills, among others, were not made up to 60% the value was collected without remuneration.
	The collection became 24.5% of the balance of savings accounts, with effect from the calculation period from June 8 to 12, 2015.	The collection was 20% on the balance of the savings resources.
Resources from savings deposits	The gross debit balance of the financing of new or second-hand	No deduction was allowed of financing of new or second-hand real

real estate of
the Housing
Finance
System may
be deducted
up to the limit
of 18% of the
liability,
provided that
they are
contracted in
the period
from June 1,
2015 to June
23, 2017.

For the additional
liability, the
collection
became 5.5%
of the
balance of
savings
accounts,
with effect
from the
calculation
period from
June 8 to 12,
2015.

For the additional liability, the collection was of 10% on the balance

Individual Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Individual Financial Statements

b) As part of the convergence process with international accounting standards, the Brazilian Accounting Pronouncements Committee (CPC) issued several accounting pronouncements, as well as their interpretations and guidelines, which are applicable to financial institutions only after approval by CMN.

The accounting standards which have been approved by CMN include the following:

- Resolution No. 3.566/08 – Impairment of Assets (CPC 01);
- Resolution No. 3.604/08 – Statement of Cash Flows (CPC 03);
- Resolution No. 3.750/09 – Related Party Disclosures (CPC 05);
- Resolution No. 3.823/09 – Provisions, Contingent Liabilities and Contingent Assets (CPC 25);
- Resolution No. 3.973/11 – Subsequent Event (CPC 24);
- Resolution No. 3.989/11 – Share-based Payment (CPC 10);
- Resolution No. 4.007/11 – Accounting Policies, Changes in Estimates and Error Correction (CPC 23);

- Resolution No. 4.144/12 – Conceptual Framework for Preparing and Presenting Financial Statements; and
- Resolution No. 4.424/15 – Employee Benefits (CPC 33 – shall take effect as from January 2016).

Presently, it is not possible to estimate when the CMN will approve the other CPC pronouncements or if they will be applied prospectively or retrospectively.

CMN Resolution No. 3.786/09 and Bacen Circular Letters No. 3.472/09 and No. 3.516/10 establish that financial institutions and other entities authorized by Bacen to operate, which are publicly-held companies or which are required to establish an Audit Committee shall, since December 31, 2010, annually prepare and publish in up to 90 days after the reference date of December 31 their consolidated financial statements, prepared under the International Financial Reporting Standards (IFRS), in compliance with international standards issued by the International Accounting Standards Board (IASB).

As required by CMN Resolution, on March 31, 2015, Bradesco published its consolidated financial statements for December 31, 2013 and 2014 on its website, in accordance with IFRS standards. The net income and equity of the financial statements disclosed in IFRS were not substantially different from those presented in the financial statements prepared in accordance with the accounting practices adopted in Brazil and applicable to institutions authorized to operate by the Brazilian Central Bank (Bacen). As there were no substantial differences between the two sets of financial statements (GAAPs) in the year ended December 31, 2014, Management expects that the net profit and shareholders' equity for the semester ended June 30, 2015 will also not be materially different in the two GAAPs.

c) On May 14, 2014, Law No. 12.973/14 was published, which converted Provisional Measure No. 627/13. This Law amends the Federal Tax Legislation regarding Corporate Income Tax - IRPJ, the Social Contribution on Net Profits - CSLL, the Contribution to PIS/PASEP and the Contribution to the Social Security Financing - COFINS. These are the main issues contemplated by Law No. 12.973/14:

- revocation of the Transition Tax System (RTT), controlling the adjustments arising from new accounting methods and criteria following the alignment of Brazilian accounting rules to the international standards;
- taxation of companies domiciled in Brazil for increases in the equity of overseas subsidiaries and affiliates resulting from profit within these entities; and

- special installment payment of PIS/PASEP and COFINS Contributions.

Bradesco _____

Individual Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and
Fiscal Council's Report

Notes to the Individual Financial Statements

The aforementioned Law was regulated through Normative Instructions No. 1.515/14 and No. 1.520/14. Our assessment shows that there will be no significant future impacts on our Individual Financial Statements.

On January 1, 2015, for the companies that opted not to early adopt, Law No. 12.973/14 came into force, ending the period of the Transition Tax Regime (RTT) and enforcing a new tax regime in Brazil. Among other matters, the Law revoked the RTT, disciplining the adjustments resulting from the new accounting methods and criteria introduced by the convergence of the Brazilian accounting standards to the international standards. It also altered the Federal Tax Legislation related to the Legal Entity Tax Return - IRPJ, to the Social Contribution on the Net Profit - CSLL, to the Contribution for the PIS/PASEP and to the Contribution for the Financing of Social Security – COFINS.

d) On January 20, 2015, Provisional Measure No. 656/14 was converted to law by the publication of Law No. 13.097/15. Among other things, this legislation changes the limits on the deductibility criteria for credit losses on contracts that become past-due after October 8, 2014 (Article 9 of Law No. 9.430/96). The limits remain the same for contracts that were past-due on or before October 7, 2014.

e) On May 21, 2015, Provisional Measure No. 675 (MP 675/15) was published which increased the rate of the Social Contribution on Net Profit - CSLL of the financial and insurance sectors from 15% to 20% of taxable profit, from September 1, 2015. Bradesco will wait for the conversion of MP 675/15 into Law for a more in-depth and conclusive analysis, since possible amendments to MP may be proposed by the National Congress.

f) There were no subsequent events that need to be adjusted or disclosed for the individual financial statements as of June 30, 2015.

Individual Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and
Fiscal Council's Report

Independent Auditors' Report on the Financial Statements

To the Board of Directors and Shareholders

Banco Bradesco S.A.

Osasco – SP

We have audited the accompanying financial statements of Banco Bradesco S.A. ("Bradesco"), which comprise the statement of financial position as at June 30, 2015, the statements of income, changes in equity and cash flows for the six month period then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Bradesco's Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting practices adopted in Brazil applicable to institutions authorized to operate by the Brazilian Central Bank and for such internal control as management determines is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

Independent Auditors' responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Brazilian and International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making

those risk assessments, we consider internal controls relevant to the Bradesco's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bradesco's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements taken as a whole.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements, above mentioned, present fairly, in all material respects, the financial position of Banco Bradesco S.A., as at June 30, 2015, and of its financial performance and its cash flows for the six month period then ended in accordance with accounting practices adopted in Brazil applicable to institutions authorized to operate by the Brazilian Central Bank.

Other matters

Statement of value added

We have also audited the statement of value added (DVA), preparation of which is the responsibility of the Banco Bradesco S.A.'s Management, for the six month period ended June 30, 2015, that is being presented as supplemental information. The aforementioned statement was subject to the same auditing procedures described above and, in our opinion, are fairly presented, in all material respects, in relation to the financial statements taken as a whole.

Economic and Financial Analysis Report – June 2015

Individual Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Audit Committee Report Summary of Banco Bradesco S.A.

Corporate Governance and the Respective Responsibilities

The Board of Directors of Banco Bradesco S.A. has opted for a single Audit Committee for all of the companies that are members of the Financial Conglomerate, including those in Grupo Bradesco Seguros.

The Audit Committee is a statutory advisory body, associated directly to the Board of Directors. It is currently composed of one board member and two more members, appointed each year by the Board of Directors, which takes into account the criteria set out in the applicable laws and regulations.

The Board is responsible for the definition and implementation of processes and procedures in order to collect data for the preparation of the financial statements of the companies that make up Organização Bradesco, as well as financial reports, in compliance with the accounting practices adopted in Brazil, applicable to institutions authorized to operate by the Central Bank of Brazil, and to the standards of the National Monetary Council, the Central Bank of Brazil, the Brazilian Securities Commission (CVM), the National Council of Private Insurance - CNSP, the Superintendency of Private Insurance - and the National Supplementary Health Agency - ANS, as well as the International Accounting Standards - IFRS.

The Board is also responsible for processes, policies and internal control procedures to ensure the safeguarding of assets, the timely recognition of liabilities and the mitigation to acceptable levels of risk factors of Organização Bradesco.

The Independent Audit is responsible for reviewing the financial statements and issuing a report on their

Activities related to the 1st half of 2015

The Committee has participated in 116 meetings with the areas of business, information technology, control and risk management and the internal and independent auditors, checking, through different sources, information about the aspects considered relevant or critical. The meetings were divided in the following manner:

Area of Institutions authorized to operate by the Central Bank of Brazil. 85

Area of Insurance, Pension and Capitalization: 25

Health: 6

Concerning further education, the Committee participated in conferences, seminars and courses that total 133 hours in the semester.

The work plan of the Audit Committee for the financial year of 2015 had as its focus the main processes and products inherent to the business of Organização Bradesco. Among the aspects considered most relevant, we highlight:

- processes for the preparation and dissemination of financial reports to shareholders and external users of accounting and financial information;
- systems of management and control of credit and operational risk, preparation for the use of internal models in line with the conditions laid down by the New Capital Accord (Basel II and III) and the regulations of the Central Bank of Brazil on the subject;
- improvements in the systems of internal controls arising from the projects in the areas of

adherence to the accounting principles. In addition, as a result of their work for the purpose of issuing the aforementioned report, it produces a report of recommendations on accounting procedures and internal controls, without prejudice to other reports that it is also responsible for preparing, like those of limited reviews of quarterly information required by the CVM.

The Internal Audit (Department of General Inspectorate) has as duties to assess the quality of the systems of internal controls of Organização Bradesco and compliance with the policies and procedures defined by the Board, including those adopted in the preparation of accounting and financial reports.

It is up to the Audit Committee to assess the quality and effectiveness of the Internal and Independent Audits, based on a formal process, the effectiveness and sufficiency of internal control systems of Organização Bradesco and analyze financial statements, issuing, when applicable, the relevant recommendations.

Among the duties of the Audit Committee are also those required by American Law Sarbanes-Oxley for companies registered with the U.S. Securities and Exchange Commission and listed on the New York Stock Exchange.

The Audit Committee discloses its rules on the site www.bradesco.com.br, area of Corporate Governance.

Technology and Risk Management, of the Financial Conglomerate and Grupo Bradesco Seguros; and

- compliance with standards and customer service: Customer Care Services (SAC)/Ombudsman and Money Laundering Prevention (PLD).

Internal Control Systems

Based on the work plan and the agenda defined for the first half of 2015, the Audit Committee was informed about the major processes in the Organization, evaluating their quality and the commitment of the leaders with its continuous improvement.

As a result of the meetings with the areas of Organização Bradesco, the Audit Committee had the opportunity to offer to the Board of Directors suggestions for improvement in processes, as well as to monitor the implementations of recommendations for improvement, identified in the course of the audit assignments, in the demands of regulators and in discussions with the business and controls areas.

Bradesco _____

Individual Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and
Fiscal Council's Report

Audit Committee Report Summary of Banco Bradesco S.A.

Based on the information and comments collected, the Audit Committee believes that the system of internal controls of Organização Bradesco is appropriate to the size and complexity of its business and is structured so as to ensure the efficiency of its operations, of the systems that generate the financial reports, as well as the compliance with internal and external standards to which the transactions are subjected.

Independent Auditor

The planning of the assignments of independent audit for the financial year 2015 was discussed with KPMG Independent Auditors (KPMG) and, during the 1st half of 2015, the audit teams responsible for services presented the results and main conclusions to the Audit Committee.

The relevant points highlighted in the report on the study and evaluation of accounting systems and internal controls, prepared in connection with the examination of the financial statements and their recommendations for the improvement of these systems, were discussed with the Committee, which requested monitoring of implementations of the improvements in the areas responsible.

Based on the planning submitted by the auditors and in subsequent discussions on the results, the Committee considers that the work carried out by the teams were appropriate to the business of the Organization.

Internal Audit

The Committee has asked the Internal Audit to consider, in its planning for the 1st half of 2015, several studies in line with the topics covered in the agenda of the Committee.

Financial Statements of Banco Bradesco S.A.

The Committee met with the areas of General Accounting, Planning, Budget and Control, and General Inspectorate and with the Independent Audit (KPMG) to evaluate the monthly, quarterly and half-yearly financial statements. In these meetings, the aspects of preparation of balance sheets and individual balance sheets, the explanatory notes and the financial reports published with the financial statements were analyzed and evaluated.

The accounting practices adopted by Bradesco were also considered in preparing the financial statements and their compliance with the accounting practices adopted in Brazil, applicable to institutions authorized to operate by the Central Bank of Brazil, as well as the compliance with the applicable law.

Before the disclosure of the Quarterly Information (ITR Form) and the half-yearly balance sheet, the Committee met with KPMG to assess the aspects of independence of auditors and the control environment in generating the figures for disclosure.

Based on the reviews and discussions referred to above, the Audit Committee recommends to the Board of Directors, the approval of the financial statements of Banco Bradesco S.A. audited for the six months ended June 30, 2015.

Cidade de Deus, Osasco, SP, July 29, 2015

During the 1st half of 2015, the teams responsible for implementing the planned jobs reported and discussed with the Audit Committee the main conclusions regarding processes, and inherent and residual risks.

MILTON MATSUMOTO

(Coordinator)

On the basis of the discussions on the planning of the work of the Internal Audit, focused on risks, processes and the assessment of their results, the Audit Committee believes that the Internal Audit has responded adequately to the demands of the Committee and to the needs and requirements of the Organization and the regulatory bodies.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
