10.1 - General Financial and Equity Conditions

Introduction

The following comments should be considered together with our individual and consolidated financial statements for the year ended December 31, 2016, issued on February 23, 2017, including Notes to the financial statements, as well as other financial information contained herein.

In the financial statements of Companhia Brasileira de Distribuição ("GPA" or "Company") of December 31, 2016, due to the ongoing divestment of the interest held by GPA in Via Varejo S.A. as announced in Note 35, the operations of Via Varejo are treated as discontinued operations. Accordingly, net sales and other income/expense lines were adjusted retrospectively from January 1, 2015, as defined in CPC31, approved by CVM Resolution 598/09 - Sale of non-current assets and discontinued operations, equivalent to IFRS 5. Consequently, the following comments do not include the performance of Via Varejo.

(a) general financial and equity conditions

Like the preceding year, 2016 was marked by a challenging period in which the macroeconomic scenario remained recessionary and consumers more selective, following a decade of accelerated expansion in Brazil's retail sector.

GPA's response to this transformation in market conditions began with a comprehensive review of the key fundamentals of retailing, such as store assortment, how we manage the product mix and our capacity to improve procurement and offer customers more attractive promotions and conditions.

Going back to basics, while capturing efficiency gains and prioritizing agility and simplicity, was one of our guiding principles. This effort extended to include GPA's corporate structure. At our businesses, we made progress on analyzing our portfolio from a strategic standpoint, which will ensure more balanced growth, especially in higher-return formats. This led us to prioritize new store openings in models best suited to their environments (Assaí cash & carry, Minuto Pão de Açúcar proximity stores and Pão de Açúcar) and to shut down unprofitable units.

We also began a process to change the banners of existing assets, by converting two Extra Hiper stores into Assaí, whose initial results have surpassed our expectations. For 2017, we will accelerate this timetable by opening about 15 new Assaí store conversions from Extra Hiper units. In addition to the 6 to 8 new Assaí stores to be opened, the conversions will help accelerate the expansion of GPA's cash-and-carry banner into new cities and states across Brazil.

In 2016:

- Gross sales revenue reached R\$44,969 billion and net sales revenue amounted to R\$41,454 billion, up 11.7% and 11.4%, respectively, compared to 2015 – an outstanding result given the recessive scenario. The Assaí banner registered 38.6% growth in sales during the year, reflecting the successful expansion of 13 new stores and its positioning that is aligned with the current economic scenario.
- Multivarejo: Net sales totaled R\$26.967 billion, with 1.9% growth in same-store sales and nominal growth of 0.8%. During the year we adjusted the commercial actions and operations of the Extra banner to be in tune with the consumption trend among consumers, who are increasingly sensitive to promotions and wishing to maintain their purchasing power. The new actions launched in 2016 have started producing results, with growing sales and consistent gains in market share. In addition, the market share of proximity formats increased, while the market share of Pão de Açúcar remained stable. During the year, we opened 17 stores (14 Minuto Pão de Açúcar, 1 Minimercado Extra and 2 Pão de Açúcar);

- Assaí: growth of 38.6% in sales compared to 2015, reaching R\$14.487 billion. The banner increased its share of GPA's Food portfolio to 35% (vs. 28% in 2015). The acceleration of sales growth translated into an important gain in market share, of about 400 basis points, driven by the maturation of stores opened in recent years, double-digit growth in customer traffic and accelerated expansion.

- Gross profit totaled R\$ 9.520 billion and margin stood at 23.0% (compared to 24.4% in 2015). The current level of gross margin reflects the commercial efforts at Multivarejo and higher share of Assaí in the sales mix.
 - Multivarejo: Gross profit reached R\$ 7.350 billion, with margin of 27.3%, reflecting the new commercial strategy implemented since 1Q16, mainly at Extra;
 - Assaí: gross profit totaled R\$2.170 billion, up 41.2% from 2015, mainly due to maturation of new stores;

- Selling, general and administrative expenses totaled R\$ 7.451 billion and corresponded to 18.0% of net sales, the same level as in 2015, despite the inflation during the period and organic expansion, especially at Assaí.
 - Multivarejo: the Company continued its strategy focusing on adjusting expenses in both operating and administrative areas. As a result, selling, general and administrative expenses increased by .6.6% in the year, in line with inflation in the period;
 - Assaí: selling, general and administrative expenses decreased by 20 basis points on net sales (10.3% in 2016 vs. 10.5% in 2015) despite higher operating expenses related to store expansions and the higher share of individual consumers in the sales mix.

- Adjusted EBITDA, excluding other "Operating Income and Expenses," totaled R\$2.185 billion, with margin of 5.3% compared to R\$2.524 billion and margin of 6.8% in 2015. The current adjusted EBITDA level is was mainly due to investments made in Multivarejo to drive margins and to Assaí's strong expansion.
 - Multivarejo: Adjusted EBITDA reached R\$1.520 billion, with margin of 5.6% in the year. The difference in adjusted EBITDA margin in relation to 2015 mainly reflects the initiatives to

drive price competitiveness, influenced by the changes in consumer habits on account of the economic scenario.

- Assaí: Adjusted EBITDA increased 54.5% to R\$ 681 million, higher than sales growth, reflecting the continuous organic expansion and successful performance of the format in the current economic scenario.
- Net financial expenses amounted to R\$903 million, increasing 17.6% from 2015. As a ratio of net sales, net financial result increased by just 10 basis points, from 2.1% in 2015 to 2.2% in 2016, virtually stable compared to the previous year, despite a more challenging macroeconomic scenario. Note that the cost of gross debt improved by 20 bps.

- Adjusted net income from continuing operations totaled R\$ 373 million, with Assaí posting a notable 95.3% growth in adjusted net income. The net book loss attributable to controlling and non-controlling shareholders, respectively, from continuing operations and discontinued operations was R\$482 million and R\$594 million.
- In an unfavorable scenario for consumption, the Company strengthened its financial capacity and reduced its leverage to end 2016 with a net debt / EBITDA ratio of 0.3 times, as against 0.4 times in 2015. Important to underline the cash position of approximately 5.112 millions in 2016, besides R\$241 million of receivables not sold reached, totaling R\$5.4 billion in cash and cash equivalents, R\$1.5 billion more than in the previous year.
- Consolidated shareholders' equity was R\$12.597 billion, down R\$755 million, mainly due to the loss from the year of R\$1.076 million.

For more information, see item 10.1.h.

(b) capital structure and eventual redemption of shares

Above is GPA's capital structure for the periods mentioned, considering as a percentage of equity, the amount resulting from total consolidated shareholders' equity divided by total liabilities (current and non-current) and shareholders' equity, and as a percentage of debt capital, the amount resulting from the sum of current and noncurrent liabilities divided by total liabilities (current and non-current) and shareholders' equity:

Debt – Consolidated

GPA understands that the current capital structure, measured mainly by the ratio of net debt to EBITDA, presented a lower level of leverage, ending December 2016 with net debt / EBITDA ratio of 0.3 times, as against 0.4 times at the end of 2015. Net debt, including receivables not sold, totaled R\$516 million in December 2016, improving by R\$357 million from the same period in 2015.

Cash position reached R\$5.112 billion and receivables not sold of R\$241 million respectively, for a total of R\$5,353 billion in cash and cash equivalents, R\$1.5 billion more than in the previous year. The Company also has approximately R\$1.350 billion in pre-approved/confirmed credit lines.

Gross debt totaled R\$5.9 billion in the period, up R\$1.2 billion, of which around R\$1.0 billion refers to the issue of debentures pegged to Agribusiness Receivables Certificate (CRA) at a coupon of 97.5% of the CDI rate and maturing in 3 years.

There is no assumption of share redemption.

(c) *ability to pay financial commitments*

GPA's executive officers believe that the cash flow and the funds currently available fully ensure the GPA to pay all its short- and long-term financial commitments.

(d) *sources of financing for working capital and investments in non-current assets utilized by GPA*

The Company raised funds in 2016, 2015 and 2014 through: (A) financial agreements that represent: (i) Brazilian reais denominated loans with obligation to payment principal and DI (interbank deposit)-pegged interest rates; (ii) foreign currency-denominated loans, which are immediately and fully “swapped,” with Brazilian reais denominated payment obligations with DI-pegged interest rates, through swap operations; and (iii) loans with the Brazilian Economic and Social Development Bank (“BNDES”), denominated in reais plus annual interest payments; (B) funding on capital markets, through the issue of debentures, promissory notes and agribusiness receivables certificates; (C) cash generation through its operations; and (D) anticipation of receivables.

6

In 2015, there were also suppliers in the then consolidated Via Varejo that associated with financial institutions, by transferring the costs of lengthening the maturity, although still within acceptable commercial terms. Due to the specific characteristics of the transaction, the balance of R\$1.055 billion was reclassified to an account of trade accounts payable – partnership. For the purpose of preparing the consolidated financial statements as at December 31, 2016 and considering the application of CPC 31/IFRS 5, the assets and liabilities of Via Varejo now presented net in the line “assets held for sale” and “liabilities related to assets held for sale”.

In 2016, 2015 and 2014, we had no difficulties in obtaining loans or refinancing its current debt.

(e) sources of financing for working capital and investments in non-current assets that GPA plans to utilize to cover liquidity deficiencies

In the opinion of the Group’s executive officers, the funding sources used in the fiscal years ended December 31, 2016, 2015 and 2014 are adequate, and will continue to be used by GPA as sources of financing, if necessary.

(f) debt levels and debt characteristics, as well as if the issuer has complied with these restrictions

i. Relevant loans and financing agreements

The tables below present the GPA's debt with financial institutions and the funding transactions performed on capital markets on December 31, 2016, 2015 and 2014.

Debt breakdown (including Loans and Financing, Debentures and payment vouchers – consumer finance – CDCI).

In R\$ million

The assets and liabilities of Via Varejo now presented net in the line "assets held for sale" and "liabilities related to assets held for sale".Maturity schedule of loans and financing recognized as non-current liabilities.

Direct consumer credit – CDCI

Refers to direct consumer credit through an intervening party (CDCI), which can be paid in up to 24 installments. However, the most utilized term is substantially less than 12 months. In 2016, this balance is not presented because the assets and liabilities of Via Varejo are now presented net in the line "assets held for sale" and "liabilities related to assets held for sale".

Financing of working capital, swap and direct consumer credit - CDCI

Financing of working capital

GPA and its subsidiaries raise loans and financing with major financial institutions to meet cash needs for investments.

GPA is required to maintain certain debt financial covenants. These ratios are calculated based on consolidated financial statements of the Company prepared in accordance with accounting practices adopted in Brazil, in the respective issuing Company as follows: (i) net debt (debt minus cash and cash equivalents and trade accounts receivable) not greater than equity and (ii) consolidated net debt/EBITDA ratio (debt less cash and cash equivalents and accounts receivable) lower than or equal to 3.25. At December 31, 2016, GPA complied with these ratios.

Swap contracts

In terms of foreign currency, GPA contracts swap operations to exchange liabilities denominated in U.S. dollar or other foreign currency and fixed interest rates for Real pegged to CDI floating interest rates. The

Edgar Filing: BRAZILIAN DISTRIBUTION CO COMPANHIA BRASILEIRA DE DISTR CBD - Form 6-K
average annual CDI rate was 14.00% in 2016 (13.23% in 2015 and 10.81% in 2014).

Debentures, promissory note and agribusiness receivables certificates

GPA is required to maintain certain debt financial covenants in connection with the issues made. These ratios are calculated based on consolidated financial statements of the Company prepared in accordance with accounting practices adopted in Brazil, in the respective issuing Company as follows: (i) net debt (debt minus cash and cash equivalents and trade accounts receivable) not greater than equity and (ii) consolidated net debt/EBITDA ratio lower than or equal to 3.25. At December 31, 2016, GPA complied with these ratios.

In R\$ million

Finance Lease Obligations

Finance lease agreements, which transfer to the Group substantially all the risks and benefits incidental to ownership of the leased item, are capitalized at the commencement of the lease at the fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are allocated between finance charges and reduction of lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognized in the income statement. Leased assets are depreciated over their estimated useful life or lease term, whichever is shorter.

The total amount recorded from lease agreements classified as financial lease are listed below:

ii. Other long-term relations with financial institutions

Currently, GPA has no relevant long-term relations with financial institutions referring to the fiscal years ended December 31, 2016, 2015 and 2014, in addition to those already described in item 10.1 (f) of this Reference Form.

iii. Level of subordination in Company's debt

GPA's executive officers inform that the level of subordination in GPA's debt is determined in accordance with the provisions set forth by the legislation in force.

iv. Possible restrictions imposed on indebtedness limits and new debt contracting, the distribution of dividends, the sale of assets, the issue of new securities and the sale of controlling interest, as well as if the issuer has complied with these restrictions

BNDES

Agreements signed with the BNDES (Finame) are subject to "Provisions Applicable to BNDES Agreements", which borrowers of the BNDES, through a financial agent: without previous authorization from BNDES, including GPA, may not: (i) give priority to other credits; (ii) amortize shares; (iii) issue debentures above the established limit; (iv) issue profit-sharing bonds; (v) taking on new debt; and (vi) sell or encumber permanent assets, in observance to the reservations expressly mentioned in the "Provisions Applicable to BNDES Agreements."

Debentures, promissory note and agribusiness receivables certificates

The debentures issued are not convertible into shares and hold no guarantee.

These debentures are amortized according to the issue. The methods of amortization are as follows: (i) annual installments (12th issue of CBD) as of the 4th anniversary of the issue; and (ii) semiannual interest payments. For further information on the issues of debentures by GPA, please see item 18 of this Reference Form.

The 12th issue is entitled to early redemption at any time, in accordance with the terms and conditions envisaged in the indenture.

On December 20, 2016, CBD held the 13th issue of simple, non-convertible unsecured debentures, in a single series, which were privately placed with Ares Serviços Imobiliários Ltda., which, in turn, assigned and transferred to Ápice Securitizadora S.A., which acquired the debentures and Agribusiness Receivables Certificates (CRA) in order to link them to the 2nd series of the 1st issue of agribusiness receivables certificates. The proceeds will be used exclusively to purchase fresh agricultural products, fruits and vegetables, dairy products, poultry and other animal proteins directly from rural producers and/or rural cooperatives.

GPA is required to maintain certain debt financial covenants in connection with the issues made, except in the case of Nova Pontocom. These ratios are calculated based on consolidated interim financial information of GPA prepared in accordance with accounting practices adopted in Brazil, as follows: (i) net debt (debt minus cash and cash equivalents and trade accounts receivable) not greater than equity and (ii) consolidated net debt/EBITDA ratio (debt less cash and cash equivalents and accounts receivable) lower than or equal to 3.25. At December 31, 2016, GPA was in compliance with these ratios.

Other covenants

Some loans agreements and financing instruments entered into by CBD and its subsidiaries envisage early maturity of the debt in the event of transfer of control, including:

- loan and financing agreements in domestic and foreign currencies;
- indenture of issue of debentures of CBD;

- machinery and equipment financing agreements (FINAME);
- Contract of Adhesion to System of Protection Against Financial Risks – Derivatives (swap, forwards and options).

The provisions applicable to BNDES contracts also forbid any changes in the effective control, whether direct or indirect, without prior express authorization from BNDES.

(g) limits of the financing already contracted, percentages already used

Though the Company does not have any fixed financing agreement contracted, on December 31, 2016, it had loan agreements amounting to R\$ 1.350 billion.

As mentioned in the financial statements disclosed by the Company in 2016, the agreements were entered into as per market practices and are valid till 2017.

(h) relevant changes in each item of the financial statements

There are no items that significantly altered the financial statements for 2014, 2015 and 2016, except for the effects of applying CPC 31 - Non-current assets held for sale and discontinued operation (IFRS5). The Company believes that the sale of Via Varejo through its efforts is highly probable and hence is presenting in the disclosure of the net income of Via Varejo (and its subsidiary Cnova Brasil) after taxes in a single line in the income statement and the balances of assets and liabilities as held for sale and discontinued operations. The statements of income and value added as of December 31, 2015 also present discontinued operations on a single line. For cash flow there is no effect of applying IFRS 5, and the effect of discontinued operations is presented in this note. The effect of assets and liabilities available for sale on December 31, 2016 was R\$ 20.303 billion and R\$ 15.632 billion, respectively. The effect of the result from discontinued operations was a loss of R\$ 1.005 billion on December 31, 2016, as against a loss of R\$ 891 million on December 31, 2015.

Income Statement

Fiscal Years Ended December 31, 2016, 2015 and 2014

Comments on variations between December 31, 2016 and December 31, 2015

Continuing and discontinued operations

According to the application of CPC 31 - Non-current assets held for sale and discontinued operation (IFRS5), the Company believes that the sale of Via Varejo through its efforts is highly probable and hence is presenting in the disclosure of the net income of Via Varejo (and its subsidiary Cnova Brasil) after taxes in a single line in the income statement and the balances of assets and liabilities as held for sale and discontinued operations. The original statements of income and value added as of December 31, 2015 were altered and now present discontinued operations on a single line. For cash flow there is no effect of applying IFRS 5, and the effect of discontinued operations is presented in the note. The effect of assets and liabilities available for sale on December 31, 2016 was R\$ 20.303 billion and R\$ 15.632 billion, respectively. The effect of the result from discontinued operations was a loss of R\$ 1.005 billion on December 31, 2016, as against a loss of R\$ 891 million on December 31, 2015.

Also, until October 31, 2016, the Company disclosed the net results of subsidiaries in the e-commerce segment abroad (mainly Cdiscount France) after taxes in a single line in the statement of income (similar to on December 31, 2015) and the assets and liabilities balances also as held for sale and discontinued operations. As of this date, the balances of assets and liabilities were written off against shareholders' equity and the e-commerce operations abroad were booked as equity income due to the significant influence held by the Company.

Net Sales

GPA's consolidated net sales, including only continuing operations, increased R\$ 4.256 billion or 11.4%, from R\$37.198 billion in 2015 to R\$41.454 billion in 2016.

The Group's main revenues arise from GPA foods' operations, comprised by Multivarejo and Assaí, as shown below:

(1) Extra and Pão de Açúcar banners: supermarket stores, hypermarket, proximity, gas stations, drugstores and food e-commerce, in addition to revenue from leasing of commercial centers

The growth in net sales in 2016 was driven by the expansion of higher growth and return formats with the opening of 30 new stores: 13 of the Assaí banner (including 2 conversions from Extra Hiper), 14 Minuto Pão de Açúcar, 2 Pão de Açúcar and 1 Minimercado Extra.

As in 2015, the year 2016 was marked by the worsening economic scenario, which resulted in the migration of customers from the traditional retail format to the cash-and-carry wholesale format. As a result, Assaí's sales increased R\$ 4,034 billion and grew by a significant 38.6%, which translated into an important gain in market share, driven by the maturation of stores opened in recent years, the double-digit growth in customer traffic and accelerated expansion.

In Multivarejo, the sales increased R\$ 223 million or 0.8%, from R\$ 26.744 billion in 2015 to R\$ 26.967 billion in 2016. The sales were impacted by the closure of 61 stores. In "same-store sales" concept, which disregards the impacted of this closures, the growth was 1.9%. Highlighting the new commercial action launched at Extra, which resulted in a progressive improvement in sales during the year and market share gains in volume in the last 9 measurements (April to December 2016). Pão de Açúcar continued to shows its resilience, with same-store sales and market share remaining stable during the course of the year: The Proximity format registered sales growth above inflation and launched the 'Aliados Compre Bem' project, a business model based on neighborhood stores, by which GPA partners with independent retailers in order to expand the format's reach.

Gross Profit

In 2016, gross profit totaled R\$ 9.521 billion, up R\$ 446 million or 4.9% compared to 2015 (28.2%). Gross margin reached 23.0%, 140bps lower than in 2015, reflecting the commercial actions launched mainly at Extra and the higher share of Assaí in the sales mix. The highlights by business were:

- ü Multivarejo: Gross margin reached 27.3% in the year, 90bps lower compared to 2015 (28.2%), reflecting the new commercial strategy focused on price competitiveness launched in 1Q16, especially at Extra, which resulted in sales growth during the year and market share gains;
- ü Assaí: Gross margin increased by 30 basis points, from 14.7% to 15.0%, mainly related to the economies of scale in its operations.

Operating Income (Expenses)

In 2016, the Company continued its efforts to optimize expenses and improve efficiency throughout the year across all business segments, which resulted in a nominal increase in selling, general and administrative expenses by R\$ 763 million or 11.4%, in line with the growth in net sales. Selling, general and administrative expenses increased from R\$6.688 billion in 2015 to R\$7.451 billion in 2016.

- ü Multivarejo: Focus on rationalizing expenses in both the operating and administrative areas. As a result, selling, general and administrative expenses increased from R\$ 5.588 billion in 2015 to R\$ 5,957 billion, increase of R\$ 369 millions or 6.6% in the year, in line with the inflation during the period (IPCA of 6.3%); Considering expenses related only to stores, growth was only 1.2%, with electricity and personnel expenses remaining practically stable throughout the year despite the inflation / wage increase during the period, thanks to energy efficiency projects and streamlining of store processes, respectively.
- ü Assaí: Despite the opening of 13 stores during the year (including two Extra Hiper conversions) and the higher share of individual consumers, which resulted in higher operating costs, the ratio of selling, general and administrative expenses to net sales (10.3 % in 2016 vs. 10.5% in 2015) declined 20 bps. The selling, general and administrative expenses reached 22.1% in 2016 compared to 20.9% in 2015.

Other Operating Income and Expenses

In 2016, other operating income and expenses came to an expense of R\$567 million, up R\$ 361 million or 175.2% from 2015 (R\$ 206 million - considering only continuing operations). The increase is mainly due to the R\$353 million increase in provision for tax contingencies made in the year for lawsuits related to income tax, ICMS and PIS/Cofins.

15

Depreciation and Amortization

In 2016, depreciation and amortization totaled R\$707 million, up R\$ 57 million or 8.8% compared to 2015 (R\$650 million). This increase was chiefly due to depreciation and amortization of the new investments made in 2016. The lower percentage increase in depreciation in 2016 was due to 18% lower investments than in 2015.

Net Financial Result

In 2016, the net financial result was an expense of R\$903 million, up R\$ 135 million or 17.6% from 2015 (R\$ 768 million). Despite the hike in the interest rate, expenses with sale of receivables and the cost of debt remained stable, and the main effect was due to lower yield from cash due to the lower balance during the year, as well as lower revenue from other changes in equity accounts. As a ratio of net sales, net financial result increased by just 10 basis points, from 2.1% in 2015 to 2.2% in 2016, practically stable compared to the previous year, despite a more challenging macroeconomic scenario.

Net Income (Loss)

In 2016, with the economic crisis worsening, the results of the Company's continuing operations were impacted by lower operating income, higher financial expenses and higher other operating expenses. Note that discontinued operations underwent an effective reorganization on October 31 and did not capture the effects of synergies during the year.

(1) Net Income adjusted by "Other Operating Income and Expenses", thus eliminating nonrecurring income and expenses

The Company closed 2016 with net income attributable to controlling shareholders of continuing operations, adjusted by Other Operating Income and Expenses, of R\$373 million. The highlights by business were:

- ü Multivarejo: Lower gross margin due to investments in price competitiveness; the impact of economic deterioration on sales and the increase in financial expenses. Accordingly, adjusted net income totaled R\$53 million in 2016.

- ü Assaí: adjusted net income of R\$336 million, reflecting the success of the format and the disciplined control of expenses, combined with store maturation.

Comments on variations between December 31, 2015 and December 31, 2014

The international operations of Cnova started being consolidated into GPA in August 2014 and hence the results of 2014 reflect only five months of these operations. For better comparison between 2015 and 2014, comments relating to gross profit and operating expenses do not include the result of Cnova (Cnova Brasil and international operations)

(1) EBITDA adjusted by the total of “Other Operating Income and Expenses”, thus eliminating nonrecurring income and expenses.

(2) For better comparison between the periods, figures exclude the result of Cnova for 2014 and 2015, considering that international operations were only consolidated in GPA as of August 2014.

Net Revenue

GPA’s consolidated net sales increased 5.8% in 2015, from R\$65.525 billion in 2014 to R\$69.220 billion in 2015.

The Group's main revenues arise from GPA foods' operations, comprised by Multivarejo and Assaí, sales of electronics and home appliances (bricks-and-mortar stores of Via Varejo) and e-commerce (Cnova). GPA's net sales are shown in the table below for the years ended December 31, 2015 and 2014:

(1) Excludes revenue from intercompany transactions; (2) Extra and Pão de Açúcar banners. Includes revenue from the lease of commercial centers; (3) Cnova: Cnova Brasil + Cdiscount. Includes only revenue from the commissions in the marketplace, without considering total revenue from goods; (4) Includes revenue from intercompany transactions.

The growth in net sales in 2015 was driven by the expansion of higher-return formats, with the opening of 118 new stores, of which 91 were in the food segment (46 Minimercado Extra, 27 Minuto Pão de Açúcar, 11 Assaí, 5 Pão de Açúcar, 1 Extra Super and 1 fuel station) and 27 were Casas Bahia stores. The year 2015 was marked by the slowdown in household consumption reflecting the worsening economic scenario, which mainly impacted non-food sales.

Gross Profit

In 2015, the Company took action to adapt itself to consumers' needs by intensifying price competitiveness, strengthening promotions and adjusting the assortment. Gross profit totaled R\$ 15.219 billion, with margin of 27.0%, decreasing from 2014, mainly due to lower contribution from Via Varejo. The highlights by business were:

- ü Multivarejo: Gross margin stood at 28.1% in the year, slightly below 2014, reflecting the price competitiveness strategy adopted throughout the year, especially at the Extra banner, which was partially offset by an increase in the share of higher margin formats (Pão de Açúcar, Minimercado Extra and Minuto Pão de Açúcar), coupled with the growth in rental revenue from commercial centers;

- ü Assaí: Gross margin increased 20 basis points, from 14.5% to 14.7%, mainly due to the banner's growth (11 new stores) and maturation of new stores;

- ü Via Varejo: Gross margin reached 32.2% due to the greater share of services in total sales and operating efficiency gains. This enabled the Company to intensify its pricing policy and strengthen promotions, which helped increase its competitiveness and accelerate market share gains.

Operating Income (Expenses)

The following comments do not include Cnova's results (Cnova Brasil and international operations) in 2015 and 2014, as mentioned in the introduction to explanations of changes between December 31, 2015 and December 31, 2014

In 2015, the efforts to optimize expenses and drive efficiency, rolled out throughout the year across all businesses, resulted in selling, general and administrative expenses increasing by just 4.4%, lower than inflation, despite higher electricity costs and the costs associated with the opening of 118 stores in the year. Selling, general and administrative expenses increased from R\$11.138 billion in 2014 to R\$11.628 billion in 2015.

ü Multivarejo: In terms of operating efficiency, operating expenses (selling, general and administrative expenses) increased by just 7.4%, significantly lower than inflation in the period. This result reflects the cost-cutting initiatives rolled out since the start of the year, mainly related to the optimization of advertising expenses, renegotiation of rental agreements and operating improvements at stores (revision of processes and logistics efficiencies), all of which enabled us to adjust headcount without affecting service quality at the stores;

ü Assaí: Despite the opening of 11 stores in the year, selling, general and administrative expenses as a ratio of net sales (10.5% in 2015 vs. 10.4% in 2014) increased slightly by 10 bps due to inflation-adjusted expenses, and especially electricity.

ü Via Varejo: Via Varejo accelerated initiatives to improve operational efficiency, such as optimization of the logistics network and synergies of the back office with group companies, besides optimizing processes and rationalizing expenses. Notable among the measures are revision of the store portfolio, with the closure of 39 underperforming units, revision of the logistics network and the spaces in distribution centers, adjustment of headcount with the reduction of around 13,000 positions, and renegotiation of rental agreements. These initiatives, which were rolled out throughout the year, helped cut SG&A expenses by 2.6%, despite inflation (IPCA) of 10.67% in the year.

Other Operating Income and Expenses

In 2015, other consolidated operating income (expenses) came to an expense of R\$684 million, up 55.1% from 2014. The increase mainly reflects severance expenses with the termination of executives and employees of the Group due to the restructuring and write-off of property and equipment.

Depreciation and Amortization

In 2015, depreciation and amortization totaled R\$961 million, up 17.3% from R\$819 million reported in 2014.

Net Financial Result

In 2015, net financial result (including Via Varejo) was an expense of R\$1.653 billion, increasing 9.8% from 2014, significantly lower than the 26.8% hike in the interest rate during the period. As a ratio of net sales, net financial result increased by just 10 basis points, from 2.3% in 2014 to 2.4% in 2015, virtually stable compared to the previous year, despite a more challenging macroeconomic scenario. This result is due to the Company's cash management strategy during the year, which resulted in significant optimization of cash.

Net Income (Loss)

In 2015, due to the challenges posed by the macroeconomic scenario, the Company's results were mainly affected by the results of Via Varejo and Cnova (Cnova Brasil + Cdiscount). Note that Cnova international operations started being consolidated in GPA in August 2014 and hence were not fully reflected in 2014, impacting the comparison base.

(1) Net Income adjusted by "Other Operating Income and Expenses," thus eliminating nonrecurring income and expenses

The Company closed 2015 with net income attributable to controlling shareholders and adjusted by Other Operating Income and Expenses of R\$609 million, mainly due to the resilience of the Food segment, which posted adjusted net income of R\$ 731 million. The highlights by business were:

ü Multivarejo: The decrease compared to 2014 reflects the lower gross margin due to investments in price competitiveness; the impact of the economic deterioration on sales; inflation pressure on expenses and higher electricity expenses. Thus, adjusted net income amounted to R\$559 million in 2015.

ü Assaí: adjusted net income of R\$172 million reflecting the assertiveness of the format and disciplined control of expenses, combined with store maturation.

ü Via Varejo: The decrease compared to 2014 is due to lower sales on the adverse macroeconomic scenario for the durable goods industry, coupled with higher inflation on fixed costs, leading to adjusted net income of R\$149 million.

Balance Sheet – Consolidated Liabilities

December 31, 2016 vs. December 31, 2015

Continuing and discontinued operations

According to the application of CPC 31 - Non-current assets held for sale and discontinued operation (IFRS5), the Company believes that the sale of Via Varejo through its efforts is highly probable and hence is presenting in the disclosure of the net income of Via Varejo (and its subsidiary Cnova Brasil) after taxes in a single line in the income statement and the balances of assets and liabilities as held for sale and discontinued operations. The original statements of income and value added as of December 31, 2015 were altered and now present discontinued operations on a single line. For cash flow there is no effect of applying IFRS 5, and the effect of discontinued operations is presented in the note. The effect of assets and liabilities available for sale on December 31, 2016 was R\$ 20.303 billion and R\$ 15.632 billion, respectively.

Also, until October 31, 2016, the Company disclosed the net results of subsidiaries in the e-commerce segment abroad (mainly Cdiscount France) after taxes in a single line in the statement of income (similar to on December 31, 2015) and the assets and liabilities balances also as held for sale and discontinued operations. As of this date, the balances of assets and liabilities were written off against shareholders' equity and the e-commerce operations abroad were booked as equity income due to the significant influence held by the Company.

Assets

Current Assets

Cash and Cash Equivalents

In 2016, cash and cash equivalents from continuing operations increased by R\$ 1.413 billion, from R\$ 3.699 billion in 2015 to R\$ 5.112 billion, mainly due to the funding at the end of 2016. The remainder of the change in the consolidated balance is due to the reclassification in 2016 of the balances of Via Varejo to "Assets Held for Sale". On December 31, 2016, cash and cash equivalents accounted for 11.3% of total assets, compared to 23.3% on December 31, 2015.

Accounts Receivable

On December 31, 2016, the change in the accounts receivable line is substantially due to the reclassification of Via Varejo to "held for sale", from R\$ 3.210 billion in 2015 to R\$ 543 million in 2016, a R\$2.667 billion reduction. The change occurred mainly due to the deconsolidation of the balance of Via Varejo of CDCI operations (Casas Bahia payment book). On December 31, 2016, this line accounted for 1.2% of total assets, compared to 6.8% on December 31, 2015.

Taxes Recoverable

On December 31, 2016, the balance of short-term recoverable taxes decreased by R\$ 406 million, from R\$ 1.080 billion in 2015 to R\$ 674 million. The change is due to the following: (i) R\$ 581 million relating to the balance of Via Varejo in 2016; (ii) R\$ (65) million relating to the balance of Cnova (Cdiscount) consolidated in 2015; (iii) and the balance relating to the change in the short-term monetization of the food segment. On December 31, 2016, this line accounted for 1.5% of total assets, compared to 2.3% on December 31, 2015.

Prepaid Expenses and Other Accounts Receivable

On December 31, 2016, prepaid expenses and other accounts receivable decreased 297 million, from R\$675 million in 2015 to R\$378 million. The bulk of the change (around R\$187 million) refers to the reclassified balances of Via Varejo in 2016.

Inventories

In 2016, inventories decreased R\$ 4.324 billion, from R\$ 8.965 billion in 2015 to R\$ 4.641 billion. The key changes are related to the following: (i) R\$ 3.054 billion related to the reclassification of Via Varejo; (ii) decrease of about R\$ 300 million in inventories at Multivarejo; (iii) about R\$ 1 billion related to Cnova (Cdiscount) consolidated in 2015 and which was deconsolidated on October 31, 2016; and (iv) the increase in inventories at Assaí to meet the strong sales growth. On December 31, 2016, inventories corresponded to 10.3% of total assets, as against 19.0% on December 31, 2015. Inventory days at GPA decreased from 61 days in 2015 to 52 days in 2016, mainly due to the reclassification of Via Varejo to “held-for-sale assets.”

Noncurrent Assets

Noncurrent assets, excluding property and equipment, intangible assets and investments, decreased from R\$ 4.954 billion in 2015 to R\$ 2.137 billion in 2016. The decrease of R\$ 2,817 million is mainly due to the reclassification of Via Varejo in 2016. On December 31, 2016, these accounts represented 4.7% of total assets, versus 10.5% on December 31, 2015.

Investments

Investments decreased R\$ 68 million in 2016, from R\$407 million in 2015 to R\$339 million in 2016. This decline is mainly due to the reclassification of investments in FIC held by Via Varejo, and the recognition of the investment in Cnova. On December 31, 2016, investments represented 0.7% of total assets and 2.3% on December 31, 2015.

Property and Equipment

In 2016, property and equipment decreased R\$ 1.195 billion, from R\$10.377 billion in 2015 to R\$9.182 billion. This decrease is related to the following: (i) R\$ 1.550 billion reclassified at Via Varejo; (ii) around R\$ 50 million relating to Cnova (Cdiscount); (iii) and the remainder to increases in the Food segment. On December 31, 2016, property and equipment accounted for 20.3% of total assets, versus 22.0% on December 31, 2015.

Intangible Assets

In 2016, intangible assets decreased R\$ 4,635 billion, from R\$ 6.543 billion in 2015 to R\$ 1.908 billion. This decrease is related to the reclassification of Via Varejo amounting to R\$ 4.170 billion, of which R\$423 million of Cnova (Cdiscount) and the remainder to changes in the food business. On December 31, 2016, intangible assets accounted for 4.2% of total assets, versus 13.9% on December 31, 2015.

Liabilities

Current Liabilities

Suppliers

Liabilities with suppliers decreased from R\$15.508 billion in 2015 to R\$7.232 billion in 2016. This variation of R\$ 8.276 billion occurred mainly due to the reclassification of Via Varejo (approximately R\$6 billion), and the remainder due to the increase in balances, mainly at Assaí due to the increase in business activity. On December 31, 2016, liabilities with suppliers accounted for 16.0% of total liabilities, including shareholders' equity, versus 32.8% on December 31, 2015.

Loans and Financing – short term

In 2016, short-term loans and financing, excluding debentures, fell R\$ 1.387 billion, from R\$3.776 billion in 2015 to R\$2.389 billion. The decline is due to the reclassification of the liability related to CDCI of Via Varejo and, in the food business, to the reclassification of short-term debt. On December 31, 2016, short-term loans and financing, excluding debentures, accounted for 5.3% of total liabilities, including

Edgar Filing: BRAZILIAN DISTRIBUTION CO COMPANHIA BRASILEIRA DE DISTR CBD - Form 6-K
shareholders' equity, versus 8.0% on December 31, 2015.

Debentures – short term

Short-term debt represented by debentures issued by us increased R\$ 530 million, from R\$38 million in 2015 to R\$568 million in 2016. The decrease is chiefly due to the issue of a promissory note in 2016. On December 31, 2016, short-term debentures accounted for 1.3% of total liabilities, including shareholders' equity, versus 0.1% on December 31, 2015.

Social and Labor Obligations

In 2016, liabilities with social and labor obligations decreased R\$ 409 million, from R\$ 1.023 billion in 2015 to R\$ 614 million, the decrease mainly related to Via Varejo. On December 31, 2016, liabilities with social and labor obligations accounted for 1.4% of total liabilities, including shareholders' equity, versus 2.2% on December 31, 2015.

Taxes and Contributions

In 2016, liabilities with Taxes, Fees and Contributions fell R\$ 576 million, from R\$830 million in 2015 to R\$254 million. The change occurred mainly due to the reclassification of Via Varejo. On December 31, 2016, taxes, fees and contributions accounted for 0.6% of total liabilities, including shareholders' equity, versus 1.8% on December 31, 2015.

Noncurrent Liabilities

Loans and Financing – long term

In 2016, long-term loans and financing, excluding debentures, decreased R\$ 2.259 billion, from R\$3.267 billion in 2015 to R\$1.008 billion. This decrease is due to loans reclassified to short term and to funding through the issue of debentures.

On December 31, 2016, long-term loans and financing, excluding debentures, accounted for 2.2% of total liabilities, including shareholders' equity, versus 6.9% on December 31, 2015.

Debentures – long term

In 2016, long-term debt represented by debentures issued by us increased R\$ 1.007 billion, from R\$ 897 million in 2015 to R\$ 1.904 billion. This increase is due to interest accrued in the year and funding through an Agribusiness Receivables Certificate. On December 31, 2016, long-term debentures accounted for 4.2% of total liabilities, including shareholders' equity, versus 1.9% on December 31, 2015.

Deferred Income and Social Contribution Taxes

In 2016, deferred income tax and social contribution decreased R\$ 867 million, from R\$ 1.184 billion in 2015 to R\$ 317 million, due to the reclassification of Via Varejo (around R\$ 790 million) and goodwill amortization, especially at Assai. On December 31, 2016, deferred income and social contribution taxes corresponded to 0.7% of total liabilities, including shareholders' equity, versus 2.5% on December 31, 2015.

Taxes Payable in Installments

In 2016, tax installments, including REFIS, decreased R\$ 32 million, from R\$572 million in 2015 to R\$540 million, due to the payment of installments over the year. On December 31, 2016, tax installments accounted for 1.2% of total liabilities, including shareholders' equity, the same as on December 31, 2015.

Provision for Lawsuits

In 2016, provision for lawsuits decreased R\$ 381 million, from R\$1.396 billion in 2015 to R\$1.177 billion. The main factors were the reclassification of around R\$ 650 million at Via Varejo and new provisions, mainly tax, made in the food segment. On December 31, 2016, provision for lawsuits accounted for 2.6% of total liabilities, including shareholders' equity, versus 3.0% on December 31, 2015.

Shareholders' Equity

In 2016, shareholders' equity decreased R\$ 755 milhões, from R\$13.352 billion in 2015 to R\$12.597 billion, mainly due to: (i) additions of R\$5 million to capital from the exercise of stock options; (ii) accrual of a reserve for options granted in the amount of R\$34 million; (iii) net loss of R\$1.076 billion; (iv) transactions with non-controlling shareholders in the amount of R\$59 million (mainly related to Cnova (Cdiscount); and (v) comprehensive income or loss in the amount of R\$231 million. On December 31, 2016, shareholders' equity corresponded to 27.9% of total liabilities, including shareholders' equity, versus 28.3% on December 31, 2015.

Non-controlling Interest

In 2016, non-controlling interest decreased R\$ 261 million, from R\$2.998 billion in 2015 to R\$2.737 billion. This was due to the loss of R\$(594) million and other transactions with non-controlling shareholders in the amount of R\$333 million. On December 31, 2016, non-controlling Interest accounted for 6.1% of total liabilities, including shareholders' equity, compared to 6.3% on December 31, 2015.

Other Equity Accounts

Equity accounts not mentioned above did not record relevant variations between the balances of December 31, 2016, December 31, 2015.

December 31, 2015 vs. December 31, 2014

Assets

Current assets

Cash and Cash Equivalents

In 2015, cash and cash equivalents were stable compared to 2014, from R\$11.149 billion in 2014 to R\$11.015 billion. The main changes were: decrease of R\$369 million in cash flow from operations, increase of R\$217 million in investment activities and R\$2.370 billion in financing activities compared to 2014. On December 31, 2015, cash and cash equivalents accounted for 23.3% of total assets, compared to 24.6% on December 31, 2014.

Accounts Receivable

On December 31, 2015, accounts receivable remained practically stable, from R\$3.176 billion in 2014 to R\$3.210 billion. The main changes were: (i) increase of R\$444 million in credit card receivables, due to the lower frequency of sales of receivables; and (ii) reduction of R\$598 million in the balance of CDCI receivables, due to lower sales in non-food categories. On December 31, 2015, this line accounted for 6.8% of total assets, compared to 7.0% on December 31, 2014.

Taxes Recoverable

On December 31, 2015, the balance of short-term recoverable taxes increased 33.8%, from R\$807 million in 2014 to R\$1.080 billion, mainly due to the merger of Nova Holding into CBD and Via Varejo, which enabled the reclassification of approximately R\$280 million from long-term to short-term. On December 31, 2015, this line accounted for 2.3% of total assets, compared to 1.8% on December 31, 2014.

Prepaid Expenses and Other Accounts Receivable

Prepaid expenses and other receivables increased 34.2% from R\$503 million in 2014 to R\$675 million, mainly due to rentals receivable and other amounts. On December 31, 2015, this line accounted for 1.4% of total assets, compared to 1.1% on December 31, 2014.

Inventories

In 2015, inventories increased by 7.2%, from R\$8.364 billion in 2014 to R\$8.965 billion, mainly due to strategic purchases and accelerated organic growth in the fourth quarter. On December 31, 2015, inventories accounted for 19.0% of total assets, versus 18.4% on December 31, 2014. Inventory days at GPA decreased from 62 days in 2014 to 61 days in 2015, with the increase in inventory related to inflation in the period.

Noncurrent Assets

In 2015, noncurrent assets, excluding property and equipment, intangible assets and investments, increased from R\$4.751 billion in 2014 to R\$4.954 billion. The increase of R\$203 million is mainly explained by higher recoverable taxes related to the increased generation of ICMS tax credits. On December 31, 2015, these accounts represented 10.5% of total assets, same as on December 31, 2014.

Investments

In 2015, investments decreased 4.5%, from R\$426 million in 2014 to R\$407 million. The decrease is mainly related to write-offs of investments in Cnova (Cdiscount) operations in the amount of R\$(7) million and greater dividends at FIC of R\$(8) million. On December 31, 2015, investments accounted for 0.9% of total assets. On December 31, 2015, investments accounted for 0.9% of total assets, same level of December 31, 2014.

Property and Equipment

In 2015, property and equipment increased 7%, from R\$9.699 billion in 2014 to R\$10.377 billion. The increase is mainly related to: (i) the increase of R\$1.613 billion from the opening and conversion of stores; (ii) R\$781 million in depreciation in the year; (iii) R\$148 million of write-offs; and (iv) R\$21 million of provision for property and equipment losses related to Cnova Brasil. On December 31, 2015, property and

Edgar Filing: BRAZILIAN DISTRIBUTION CO COMPANHIA BRASILEIRA DE DISTR CBD - Form 6-K
equipment accounted for 22.0% of total assets, versus 21.4% on December 31, 2014.

Intangible Assets

In 2015, intangible assets increased 1.5%, from R\$6.448 billion in 2014 to R\$6.543 billion. The increase is related to: (i) R\$400 million of additions; (ii) R\$295 million of amortization in the year; (iii) R\$59 million of write-offs; (iv) R\$103 million of write-offs related from restructuring; (v) R\$152 million of exchange variation; and (vi) provision for losses from Cnova. On December 31, 2015, intangible assets accounted for 13.9% of total assets, versus 14.2% on December 31, 2014.

Liabilities

Current liabilities

Suppliers

In 2015, liabilities with suppliers (trade accounts payable) increased 15.8%, from R\$13.393 billion in 2014 to R\$15.508 billion. The change was due to the increase of approximately 10 suppliers days in 2015. On December 31, 2015, liabilities with suppliers accounted for 32.8% of total liabilities, including shareholders' equity, versus 29.5% on December 31, 2014.

Loans and Financing – short term

In 2015, short-term loans and financing fell 3.7%, from R\$3.922 billion in 2014 to R\$3.776 billion. The reduction is due to the lower liabilities related to CDCI in the amount of R\$645 million, due to lower sales by Via Varejo, and the remaining to working capital variation. On December 31, 2015, short-term loans and financing, excluding debentures, accounted for 8.0% of total liabilities, including shareholders' equity, versus 8.6% on December 31, 2014.

Debentures – short term

In 2015, short-term debt represented by debentures issued by the company decreased 98.6%, from R\$2.672 billion in 2014 to R\$38 million. The change is mainly due to the settlement of the following debentures: (i) 10th and 11th issues of CBD; (ii) 1st and 3rd issues of Via Varejo. On December 31, 2015, short-term debentures accounted for 0.1% of total liabilities, including shareholders' equity, versus 5.9% on December 31, 2014.

Social and Labor Obligations

In 2015, liabilities with social and labor obligations increased 18.4%, from R\$864 million in 2014 to R\$1.023 billion, mainly due to collective bargaining agreements in the year and the effects thereof on labor charges and provisions. On December 31, 2015, liabilities with social and labor obligations accounted for 2.2% of total liabilities, including shareholders' equity, versus 1.9% on December 31, 2014.

Taxes and Contributions

In 2015, liabilities with Taxes, Fees and Contributions fell 4.3%, from R\$867 million in 2014 to R\$830 million. The variation was due to lower balances of taxes payable, offset on sales taxes. On December 31, 2015, liabilities with taxes, fees and contributions accounted for 1.8% of total liabilities, including shareholders' equity, versus 1.9% on December 31, 2014.

Noncurrent Liabilities

Loans and Financing – long term

In 2015, long-term loans and financing, excluding debentures, increased 46.0%, from R\$2.238 billion in 2014 to R\$3.267 billion. The increase is mainly due to working capital loans in foreign currencies with swap for local rates. On December 31, 2015, long-term loans and financing, excluding debentures, accounted for 6.9% of total liabilities, including shareholders' equity, versus 4.9% on December 31, 2014.

Debentures – long term

In 2015, long-term debt represented by debentures issued by the company remained virtually stable, from R\$896 million in 2014 to R\$897 million. On December 31, 2015, long-term debentures, accounted for 1.9% of total liabilities, including shareholders' equity, versus 2.0% on December 31, 2014.

Deferred Income and Social Contribution Taxes

In 2015, deferred income and social contribution taxes increased 4.5%, from R\$1.133 billion in 2014 to R\$1.184 billion, mainly due to the reduction for payment of the effects of deferred income and social contribution taxes on property and equipment of R\$104 million, offset by other effects. On December 31, 2015, deferred income and social contribution taxes corresponded to 2.5% of total liabilities, including shareholders' equity, same level of December 31, 2014.

Taxes Payable in Installments

In 2015, tax installments, including REFIS, decreased 7.3%, from R\$617 million in 2014 to R\$572 million, due to the payment of installments over the year. On December 31, 2015, tax installments accounted for 1.2% of total liabilities, including shareholders' equity, versus 1.4% on December 31, 2014.

Provision for Lawsuits

In 2015, provision for lawsuits increased 3.9%, from R\$1.344 billion in 2014 to R\$1.396 billion. The main factors in the increase were the additions of R\$768 million, reversals and payments of R\$(896) million and restatement and exchange variation of R\$180 million. On December 31, 2015, provision for lawsuits accounted for 3.0% of total liabilities, including shareholders' equity, same as on December 31, 2014.

Shareholders' Equity

In 2015, shareholders' equity decreased 5.9%, from R\$14.194 billion in 2014 to R\$13.352 billion, mainly due to: (i) additions of R\$14 million to capital from the exercise of stock options; (ii) accrual of a reserve for options granted in the amount of R\$25 million; (iii) net loss of R\$276 million; (iv) exchange variation on investments of (R\$219) million; (v) dividends of R\$115 million; and (vi) R\$150 million relating to settlement of equity instrument Morzan. On December 31, 2015, shareholders' equity corresponded to 28.3% of total liabilities, including shareholders' equity, versus 31.3% on December 31, 2014.

Non-controlling Interest

In 2015, non-controlling interest decreased 19.3%, from R\$3.717 billion in 2014 to R\$2.998 billion. The reduction is mainly related to the loss of and exchange variation of R\$(133) million, and to other less relevant effects. On December 31, 2015, non-controlling interest corresponded to 6.3% of total liabilities, including shareholders' equity, versus 8.2% on December 31, 2014.

Other Equity Accounts

Equity accounts not mentioned above did not record relevant variations between the balances of December 31, 2015 and December 31, 2014.

10.2 Operating and financial result

(a) *results from operations, particularly:*

(i) *description of any relevant component of our revenue*

The Group's revenues arise from GPA Foods' operations, composed of Multivarejo and Assaí. Net sales are shown in the table below for the years ended December 31, 2016, 2015 and 2014.

(1) Extra and Pão de Açúcar banners; supermarket stores, hypermarket, proximity, gas stations, drugstores and food e-commerce, in addition of revenue from the lease of commercial centers.

(2) Includes Minimercado Extra and Minuto Pão de Açúcar sales.

(3) Includes Gas Station, Drugstores, Delivery sales and revenues from the leasing of commercial galleries.

(ii) *factors affecting materially our operating results*

For information on the factors affecting materially our operating results, see item 10.1 (h) of this Reference Form.

(b) *revenue variations due to changes in prices, exchange rates, inflation, changes in volume and the launching of products and services*

For information on revenue variations, see item 10.1 (h) of this Reference Form.

(c) impact of inflation, variations in the price of our main inputs and products, foreign exchange and interest rates on the Company's operating and financial results

The inflation in 2016 influenced the prices of the items that we sell as well the expenses. Besides that, consumer's purchase power was also impacted by higher inflation. For more details about the changes in operational results of the Company, see item 10.1 (h) of this Reference Form.

The hike of interest rates impacted the financial results of the Company. For more details about the changes in financial results of the Company, see item 10.1 (h) of this Reference Form.

We do not suffer any relevant impact related to exchange rate variation, because the Company uses derivated financials instruments to limit exposure to changes not related to the local market such as interest rates swaps and exchange rate variation swaps.

10.3 – Events with material effects, occurred and expected, in the financial statements

(a) inclusion or disposal of the operational segment

In October, 2016, after the corporate reorganization, GPA no longer holds shareholding majority in Cnova N.V., losing the control over such subsidiary and, also, no longer consolidating the subsidiaries that represent the e-commerce industry abroad. Up until the date hereof, the income of Cnova N.V. (referred to as Cdiscount France) is classified in the discontinued operation in a single item in the income statement, and after the date hereof as equity adjustment, for also holding material interest. Further under the same transaction, Cnova Brasil is no longer a subsidiary of Cnova, now it is a wholly-owned subsidiary of Via Varejo.

30

As at November 23, 2013 the Board of Directors approved the process of disposal of the Company's interest in Via Varejo's capital stock, in line with its long-term strategy to focus on the development of the food industry. As a result, on December 31, 2016, the Company disclosed the net income, after taxes, of Via Varejo (and its subsidiary Cnova Brasil) and the operations of e-commerce abroad in a single item of the income statement.

(i) E-commerce operation – accounting for corporate interests at cost

On June 4, 2014, the Company's and Via Varejo's Board of Directors approved the e-commerce business combination project developed by Nova Pontocom, to be combined with the e-commerce business of the controlling shareholder Casino, through Cdiscount S.A. and its affiliates (Cdiscount), as recommended by the respective Special Committees created specifically to evaluate and negotiate the terms and conditions of the operation.

Thus, on July 24, 2014, the corporate reorganization was concluded through the integration of the e-commerce activities in a new company called Cnova N.V. ("Cnova"), created according to the laws of the Netherlands.

Based on the opinions issued by financial advisors, the exchange ratio proposed for the contribution of the e-commerce business of Nova Pontocom and Cdiscount in Cnova was 53.5% (Company and Via Varejo) and 46.5% (Cdiscount).

The operating entities with important transactions that the Company started to consolidate as a result of such transaction were:

- Cdiscount S.A.S;
- Financiere MSR;
- E-trend;
- Cdiscount Colombia;
- Cdiscount Thailand;
- Cdiscount Afrique;
- Cdiscount Voyages;

The exchange of interests continued to be recorded based on historical cost, since Management understands that such transaction is not included in the scope of CPC15/IFRS 3 (R) – Business Combination, because it involves entities under common control. The date of the first consolidation of the entities whose control was obtained by the Company is July 31, 2014.

The effects recorded in net equity of the controlling shareholder on July 31, 2014 as a result of the transaction are as follows (in millions of Brazilian reais):

07.31.2014

Delivered investment amount in Cnova	(23)
Received investment amount	16
Amount of effect on Nova Pontocom's shareholders' equity	(7)
Amount of effect on Parent's shareholders' equity	(5)

(ii) Public offer of e-commerce shares

In November and December 2014, Cnova N.V., concluded the initial offer of shares (IPO) and supplementary offer of shares, so that the Company's interest in Cnova N.V. was directly and indirectly reduced from 38.22% to 35.73%. The proceeds from the sale of interest were accounted for as shareholders' equity, since it refers to a transaction with noncontrolling shareholders, less the effects of income tax, transaction costs and other effects. The net effect on shareholders' equity arising from such transaction was R\$ 411 million, of which R\$ 132 million in the controlling shareholder and R\$ 279 million in noncontrolling shareholders, the Company having issued 29,182,894 new shares. Despite the Company holding direct and indirect interest of 35.73% in Cnova N.V., the control over such subsidiary was exercised through subsidiary Nova Pontocom which holds 49.96% interest plus 50% of the voting capital of Cnova N.V.

(iii) Corporate reorganization and Nova Pontocom debt

Subsidiary Nova Pontocom, a holding that held 100% of the shares of Marneylectro S.A.R.L., an indirect controlling shareholder of Cnova N.V., paid part of its debt against CBD and Via Varejo upon delivery of shares of its investee Marneylectro S.A.R.L. valued at market value. Since this transaction was conducted among entities under common control, all related effects were directly recorded in shareholders' equity on December 31, 2014, of which R\$ 53 million in the controlling shareholder and R\$ 14 million in noncontrolling shareholders.

(iv) Corporate reorganization of C-Asia

On November 17, 2014, Casino transferred 30% of its indirect interest in C-Distribution Asia Pte. Ltd ("C-Asia"), which controls subsidiaries of Cnova operating in Thailand and Vietnam, for R\$ 52 million. Such transaction resulted in the fact that Cnova N.V obtained indirect control upon 60% interest in C-Asia.

Since this transaction was conducted among entities under common control, Cnova applied the accounting for equity interest at cost. Therefore, no gain was recognized in relation to the 30% previously held and the difference between the consideration paid and the net accounting assets of the 30% transferred was recorded in shareholders' equity of the controlling and noncontrolling shareholders, in the amounts of R\$ 43 million and R\$ 6 million, respectively.

Cash and cash equivalents on the acquisition date totaled R\$ 18 million.

(v) Sale of subsidiary— Casas Bahia Contact Center Ltda.- "CBCC"

On December 30, 2014, subsidiary Via Varejo sold all interest in the share capital of CBCC to Atento Brasil S.A.. After satisfaction of all conditions precedent contained in the purchase and sale agreement, Via Varejo received the amount of R\$ 20 million and obtained a gain of R\$ 16 million which was recognized in the income statement for the year in line item other operating income and expenses. Therefore, the asset and liability balances of CBCC were eliminated in the preparation of the statement of cash flows.

(vi) Merger of subsidiary Sé

The Extraordinary Shareholders' Meeting ("AGE"), held on December 22, 2015, approved the merger of subsidiary Sé Supermercados Ltda. ("Sé") into the Company, in order to unify the activities and management. This unification will result in the obtaining of administrative, economic and financial benefits.

The effects in the parent's balance sheet as at December 31, 2015 as a result of the merger of subsidiary Sé are summarized below. As it refers to the merger of a wholly-owned subsidiary, the consolidated financial statements and the income statement of the individual financial statements have not been impacted (in million of reais):

(vii) Merger of subsidiary Nova Holding

The AGE, held on December 22, 2015, approved the merger of subsidiary Nova Holding into the Company, in order to unify the activities and management. The purpose of Nova Holding was to act as the holding of the Group's e-commerce business. This unification will result in the obtaining of equity and financial benefits and optimization of the Group's corporate structure.

The effects in the parent's balance sheet as at December 31, 2015 as a result of the merger are summarized below. The consolidated financial statements and the income statement of the individual financial statements have not been impacted (in million of reais):

(ix) Corporate Reorganization of Barcelona, Sendas and Xantocarpa

On April 27, 2016, the Ordinary and Extraordinary Meeting of CBD approved the merger of part of the net assets of Sendas Distribuidora. In order to concentrate the operating activities of the wholesale segment for self-services in a single entity and promote better operating and financial efficiency, the following corporate activities were performed:

Redemption of Barcelona shares

On February 22, 2016, the Extraordinary General Meeting approved the redemption of all preferred shares issued by Barcelona, corresponding to 3,722,470 shares held by Novasoc, for the book value of R\$160 million. The transaction did not impact the consolidated balances of the Company.

Barcelona's total merger

At the Ordinary and Extraordinary Meeting of April 27, 2016, the merger of Barcelona by Sendas was approved.

On April 30, 2016, the assets and liabilities of Barcelona were fully transferred to Sendas, and Barcelona was terminated. As a result of the merger, Sendas' capital stock was increased by R\$800 million, the amount of the total difference of Net Worth of Barcelona minus the investment made by Sendas in Barcelona, by issuance of new shares.

Partial Spin off of Sendas

Also at the Ordinary and Extraordinary General Meeting of April 27, 2016, Sendas spin off was approved. On April 30, 2016, after the total merger and termination of Barcelona, Sendas went through a partial spin off and it was merged by CBD. The spin off net asset amount was R\$2 million.

(*) Saldo Cindido

In August 2016 the full merger and consequent termination of Xantocarpa Participações by Sendas Distribuidora.

The result of this reorganization did not affect the consolidated financial statements of the Company, seeing they are fumm subsidiaries of the Company.

(x) Disposal of Rede Duque

On January 31, 2016, the Company completed the sale of entities Auto Posto Império Ltda., Auto Posto Duque Salim Maluf Ltda., Auto Posto Duque Santo André Ltda., Auto Posto Duque Lapa Ltda., and Auto Posto Ciara Ltda., to Rede Duque, regarding the agreement previously executed on December 1, 2015. The amount in the agreement was R\$8.

The Company had no gains or losses in its results with the operation. Equity balances of Rede Duque were deconsolidated from balance sheet on December 31, 2016.

(xi) Interest change in Cnova N.V.

In order to concentrate the Non-Food business in a single entity, a corporate restructuring with interest of the final controlling shareholder Casino, GPA, Via Varejo, Cnova N.V. and Cnova Brasil was performed and approved in all instances.

As a result of the transaction on October 31, 2016, the capital stock of Cnova Brasil became exclusively held by Via Varejo, which no longer held interest in Cnova N.V.. According to the terms and conditions of the loan agreements between Cnova Brasil and Cnova N.V. (estimated at approximately US\$160 million in the end of September 2016), such event resulted in the obligation of advanced payment of such loans, paid to Cnova N.V. by Via Varejo.

Consequently, the GPA no longer held corporate voting majority in Cnova N.V., losing control to such subsidiary and, in addition, failing to consolidate the subsidiaries that represent electronic commerce abroad. As of this date, assets and liabilities balances were written off against the net worth and activities of electronic commerce abroad are recorded as equity adjustment, due to the material influence of the Company.

(xii) Cnova N.V. shares offer

On December 27, 2016, Casino started an acquisition offer of all outstanding common shares in Nasdaq Global Select Market and Euronext, of our invested Cnova N.V.. The other subsidiaries of CASINO, including GPA, holders of 10.37% of Cnova's capital shall not participate in the offer.

The offer is of US\$5.50 per net share to shareholders, without interest and excluding any applicable withheld taxes. With the offer closing on January 31, 2017, Casino has, directly and indirectly, 98.88% of total shares and 99.41% of voting rights.

(c) Unusual events or operations

(i) Investigation Cnova Brasil

On December 18, 2015, an investigation was launched at Cnova Brasil regarding the practices of employees in inventory management, subsequently expanded to the evaluation of other facts.

At the end of the investigation process the total effect of the adjustments calculated was R\$557 million, where R\$357 million are related to adjustments from the investigation, R\$182 million related to the reassessment of recoverability of assets from taxes deferred and R\$18 million from other effects. Seeing they are related to the Company's subsidiaries, consolidated for purposes of presentation of financial statements, such effects resulted in the same adjustments in the financial statements presented again for the year ended December 31, 2015, as well as in periods prior to those such effects were related to, whose presentation took place again on July 27, 2016.

There are no effects from this matter in the financial statements of the year ended December 31, 2016.

(ii) Transaction in progress for sale of the subsidiary Via Varejo

On November 23, 2016, the Board of Directors approved the process of divesting the Company's stake in Via Varejo's capital stock, in line with its long-term strategy to focus on the development of the food sector.

In accordance with CPC 31 - Non-current assets held for sale and discontinued operation (IFRS5), the Company considers that through the efforts made, the sale is highly probable, resulting in the disclosure of the net income of Via Varejo (and its subsidiary Cnova Brasil) after taxes in a single line in the income statement and the balances of assets and liabilities as held for sale and discontinued operations. The statements of income and value added as of December 31, 2015 also show discontinued operations in a single line, there is no effect of the application of IFRS 5 on the cash flow, and the effect of discontinued operations is disclosed in this note. The effect of assets and liabilities available for sale on December 31, 2016 was R \$ 20,303 and R\$ 15,632, respectively. The effect of the result on discontinued operations was a loss of R \$ 1,005 on December 31, 2016 (loss of R \$ 891 on December 31, 2015)

The subsidiary Via Varejo S.A. ("Via Varejo"), has shares traded on the BM & FBovespa, under the code "VVAR11" and "VVAR3".

Also according to CPC 31 (IFRS 5), the Via Varejo investment should be recognized considering the lower of the carrying amount of the net assets and the market value less cost of sale.

The Company estimates that the market value less cost of sale of Via Varejo is higher than the book value of net assets, based on the weighting of different valuation methods including: i) multiple of P / E (Price / Earnings) considering local companies Traded on the stock exchange, with operations in the same segment of Via Varejo, ii) discounted cash flow prepared by external advisors, using assumptions of 15.7% discount rate and perpetuity growth of 5.5%, iii) average premiums Paid on the pre-announcement share price in acquisition transactions of listed companies; And iv) target prices of financial analysts for the stock.

For all of the methods described above, the book value is within the reasonable range of valuation, so valuation is not highly sensitive to changes in assumptions in the methods.

Other details of the transaction and net assets of Via Varejo, see note 35 to the financial statements of December 31, 2016.

10.4 – Significant changes in accounting practices – reservations and emphasis of the Auditor’s report

(a) significant changes in accounting practices

The Company prepared its financial statements according to the pronouncements issued by the Accounting Pronouncements Committee (CPC) and IFRS (International Financial Reporting Standards), and the first financial statements that complied with such rules were those for the year ended December 31, 2010.

There were no significant changes in the accounting practices adopted by the Company in the year ended on December 31, 2016 and 2015. In 2014, the changes in accounting practices are described below.

(b) significant effects of changes in the accounting practices

In 2014, revenues and costs incurred with rental of commercial galleries, which were previously recorded as recovery of the selling expenses, were reclassified to “net operating revenue” and “cost of products”, respectively, due to the increase of its market share in the retail (Multivarejo) sector, taking into consideration the expected launching of new “Conviva” projects and increase in future operations, which activities are better described in the Company’s financial statements. According to the management’s opinion, the best option is to proceed with current classification for comparison purposes and in order to obtain a final classification of these revenues and costs.

(c) caveats and emphases present in the auditor’s report:

There were no exceptions in the report issued by the Company's independent auditors with respect to the Company's financial statements for the years ended December 31, 2016, 2015 and 2014. On December 31, 2015, a paragraph was included emphasizing the republishing of the financial statements previously published.

10.5 – Critical accounting policies

Judgments, estimates and assumptions

The preparation of the Company's individual and consolidated financial statements requires management to make judgments and estimates and adopt assumptions that would impact the revenues, expenses, assets and liabilities, and the recording of contingent liabilities in the end of the year; however, the uncertainties relating to these assumptions and estimates may generate results that would require significant adjustments to the carrying amount of assets or liabilities in future years. In the process of application of the Company's accounting policies, management adopted the following judgments, which had more significant effects in the individual and consolidated financial statements:

a) *Impairment*

According to the method disclosed in Note 4.9 to the financial statements of fiscal year ended on December 31, 2016, the Company tested the assets for impairment and, in the year ended December 31, 2015, based on the tests performed, no provision was recorded.

The procedure for verification of non-performance comprised the grouping of operating assets and intangible assets (such as goodwill) directly attributable to the UGC (stores). The test steps were as follows:

- Step 1: the carrying value of the UGCs was compared to the sales multiple (30% to 35%), representing the transactions carried out by the retail companies. In relation to the UGCs with multiple value lower than the carrying amount, a more detailed method is described in Step 3;
- Step 2: for purposes of selection of the UGCs located in own properties (own stores), the Company requested an appraisal report prepared by independent specialists and, in the event of impairment, the Company would carry out the same procedures adopted for the third-party UGCs, as described in Step 3; and
- Step 3: preparation of the UGC's discounted cash flow, based on the increase in sales between 6.7% and 10% (6.7% and 8% as at December 31, 2015) for the next five years. The discount rate used was 12.4% ranging to 11.6% for periods of more than 3 years.

For purposes of impairment test, the premium and brands from business combinations and licenses with undetermined duration was allocated to the UGCs, which are also the operating segments that disclose information. The segments are: retail, electronics, wholesale of self-services and electronic commerce.

The recoverable value of the segments is determined by the calculation based on the use according to the cash projections arising from the financial budgets approved by the senior management for the next three years. The discount rate before income taxes levied on the cash flow projections is 12.4% ranging to 11.6% in periods of more than 3 years, and the cash flows exceeding the three-year period are extrapolated using the growth rate of 6.5% for retail and for retail sector (8% as at December 31, 2015). As a result of such analysis, no provision for impairment of these assets has been recorded.

The retail self-service brand refers to “ASSAÍ”, and the electronic brands refer to “PONTO FRIO” and “CASAS BAHIA”. These brands were recorded by virtue of the business combinations carried out with companies owning such brands.

The total net assets of Via Varejo consolidated, including Cnova Brasil, were evaluated as described in Note No. 35.

b) *Income tax*

By virtue of the nature and complexity of the Group’s businesses, the differences between the effective results and the adopted assumptions or future changes in these assumptions could result in future adjustments to tax revenues and expenses already recorded. The Company and its subsidiaries record the provisions based on the reasonable estimates in relation to the taxes payable. The value of these provisions is based on several factors, such as the previous inspections and different interpretations of tax regulation by the taxpayer and proper tax authority. These interpretation differences may refer to several matters, depending on the conditions in effect in the domicile location of the respective entity.

41

Deferred income tax and social contribution assets on unused tax losses and temporary differences are recognized to the extent that it is probable that the taxable income will be recorded and the tax credits may be offset. The definition of the value of deferred income tax and social contribution assets that may be recorded depends on a significant judgment level by management, based on the estimates of net profit and future taxable income, according to the strategic planning approved by the Board of Directors.

The tax losses of continued operations deferred recorded tax benefits in the amount of R\$ 112 million as at December 31, 2016 (R\$ 232 million on December 31, 2015). In relation to those cases in which the performance cannot be explained, the potential deferred income tax and social contribution credits are offset or recorded. These losses are not subject to prescription, however the respective use, as set forth in applicable law, is limited to 30% of taxable income for each year for the Brazilian legal entities, and refer to the subsidiaries that offer the tax planning opportunities for using these balances. Note 20 provides further tax information.

c) *Derivatives fair value and other financial instruments*

If not obtained in the active markets, the fair value of financial assets and financial liabilities recorded in the financial statements is obtained based on the hierarchy set forth in technical pronouncement CPC 38 (IAS 39), which established certain evaluation techniques, including the discounted cash flow model. The information about these models is obtained, whenever possible, from observable markets, or according to comparable information, operations and transactions available in the market. The judgments include an evaluation of the information, such as liquidity risk, credit risk and volatility. Eventual changes in the assumptions relating to these factors may impact the fair value of the financial instruments.

The fair value of the financial instruments actively traded in the organized markets is determined based on the market quotations and balance sheet closing.

In relation to the financial instruments not traded actively, the fair value is based on evaluation techniques established by the Company and compatible with usual market practices. These techniques include the use of recent market operations between independent parties, benchmarking of fair value of similar financial instruments, analysis of discounted cash flow and other evaluation models.

d) *Share-based payments*

The Company measures the transaction costs of the employees eligible to the share-based compensation based on the fair value of the equity instruments on the Granting Date. The estimated fair value of the share-based payment operations requires the definition of the most adequate evaluation model, according to the terms and conditions of the grant. This estimate also requires a definition of the most adequate information for the evaluation method, including the expected useful life of the stock option, volatility and return of dividends, as well as preparation of corresponding assumptions. The assumptions and models adopted in the estimative of fair value relating to the share-payment payment operations are described in Note 25.5.

e) *Provision for lawsuits*

The Company and its subsidiaries are parties to several administrative proceedings and lawsuits (Note 22), and the provisions for lawsuits are recorded for all lawsuits whose likelihood of loss is probable, as reasonably estimated. The likelihood of loss includes the evaluation of the available evidences, hierarchy of laws, available case rulings, most recent decisions issued by the courts, its legal relevance, historical events and amounts involved, and opinion of outside legal counsel.

f) *Estimated losses from allowance for doubtful accounts*

Subsidiary Via Varejo has balances receivables from sales through booklets, whose loss is estimated based on the expected percentage, which is obtained according to the portfolio performance over the last months and adjusted at each balance sheet date.

g) *Recoverable Taxes*

The Company and its subsidiaries have recoverable taxes mainly related to ICMS, ICMS of Tax Replacement – ST, PIS and COFINS. The performance of these taxes is carried out based on the growth projections, operating issues and debt generation for consumption of these credits by the companies of the Group. See Note 11 for further information about the credits and respective offset.

h) *Inventories*

The inventories are stated at the lower of acquisition cost and realization value, stated at weighted average cost. The net realization value is calculated at the average sales price, less: (i) taxes levied on sales; (ii) personnel expenses directly related to sales; (iii) cost of products; and (iv) other necessary costs to put the products in sales condition, except for the e-commerce business, which does not allocate the costs to inventories, whose application is different. The inventories are tested for impairment based on the estimated loss from robbery, theft, slow moving of inventories and estimated loss for products to be sold with negative gross margin, including showcase products.

Global compensation Proposal for the Managers and the Fiscal Council

The Management submits to offer the Extraordinary and Annual Shareholders' Meeting a Proposal for Managers' Global Compensation, for the fiscal year of 2017, in the total amount of R\$ 95,061,400.00, distributed as follows:

- (a) Board of Executive Officers: up to R\$ 88,465,900.00, observing that such value encompasses the expense arising from the Stock Option Plans agreements entered into with the Officers, which has a non-compensation nature for labor purposes;
- (b) Board of Directors: up to R\$ 5,911,500.00;
- (c) Fiscal Council, if setup: up to R\$ 684,000.

Furthermore, in compliance with article 12, item II, of ICVM 481/2009, item 13 of the Reference Form is enclosed.

Exhibit to the Global Compensation Proposal for the Managers and the Fiscal Council

Item 13 of the Reference Form, pursuant to ICVM 480/2009

13.1. Describe the compensation policy or practice of the Board of Directors, statutory and non-statutory Board of Executive Officers, Fiscal Council, Audit, Risk, Financial and Compensation Committees approaching the following aspects:

(a) purposes of the compensation policy or practice

The purpose of our compensation policies and practice is to remunerate our managers and members of the committees of our Company, according to the market practices, allowing the attraction and retention of skilled professionals and the engagement in our Company.

(b) Composition of the compensation, indicating:

i. description of the compensation elements and purposes of each of them

The members of our Board of Directors and committees, including the external members, as well as the members of the Fiscal Council, if installed, receive the monthly fixed compensation, disconnected to the actual attendance in meetings. This method of compensation is in line in relation to the market practice in general and to the Company's interests. Exceptionally, bonuses were paid to certain members of our Board of Directors and committees for their specific performance in certain extraordinary projects in the year of 2016.

The compensation of our Officers is comprised of the following elements: (i) fixed compensation reflected in a base salary, with the purpose of maintaining the balance in relation to the general market practice; (ii) profit sharing, with the purpose of stimulating our professionals to pursue the success of our Company and share our profits with them; and (iii) stock option plans, which are incentives offered to our executives to assure a long-term sustainable business.

The Officers also receive a package of benefits in line with market practices, contemplating a health care plan, a dental expense reimbursement plan, biennial medical checkup, pension plan, meal vouchers, fuel vouchers and parking in the workplace.

ii. proportion of each element in the total compensation

The table below presents the proportion of each element in the composition of the total compensation in the previous fiscal years:

For the fiscal year ended on December 31, 2016:

	% in relation to total compensation			
	Base Salary	Variable Compensation	Stock Option Plans	Total
Board of Directors	81%	19%	0%	100%
Board of Executive Officers	35.0%	27.3%	37.7%	100.0%
Fiscal Council	N/A	N/A	N/A	N/A

For the fiscal year ended on December 31, 2015:

	% in relation to total compensation			
	Base Salary	Variable Compensation	Stock Option Plans	Total
Board of Directors	100%	0%	0%	100%
Board of Executive Officers	64.7%	25.7%	9.6%	100%
Fiscal Council	N/A	N/A	N/A	N/A

For the fiscal year ended on December 31, 2014:

	% in relation to total compensation			
	Base Salary	Variable Compensation	Stock Option Plans	Total
Board of Directors	100%	0%	0%	100%
Board of Executive Officers	67.68%	25.07%	7.25%	100%
Fiscal Council	100%	0%	0%	100%

iii. methodology of calculation and adjustment of each element of the compensation

To set the compensation of our managers, we conduct market surveys on a regular basis, in order to evaluate whether the criteria and conditions that we adopt to determine the compensation are satisfactory and allow us to retain our professionals, and analyze the need for proposing adjustments to any component of the compensation that may be not in line. Such surveys are conducted annually, by a specialized and reputable consultation recognized in the market hired by us, and use as parameters of comparison large business groups that operate in the country, including particularly the groups that operate in the retail business.

The calculation of the sharing of our Officers in our results, in its turn, is based on indicators aligned with the strategic plan of our Company, whose definition is based on our business plan and on the results to be accomplished.

For further information on our stock option plans and on compensation based on stock options, see item 13.4 below.

iv. reasons that justify the composition of the compensation

Our focus on the results is what justifies the composition of our compensation policy, which depends on the ongoing search for skilled, qualified, devoted and valuable professionals for our Company.

v. the existence of members who are not remunerated by the issuer and the reason for such fact

The Chairman of the Board of Director does not receive any kind of compensation given that he waived his right to receive it.

(c) *main performance indicators that are taken into consideration in determining each element of the compensation*

To fix the variable portion of the compensation, we observe performance indicators that we consider strategic, such as gross sale, net profit, total expense, *working capital*, personnel turnover, in addition to the level of excellence of our managers in the performance of their functions, considering the degree of individual responsibility and attributions. The performance indicators are not taken into consideration for the determination of the fixed portion of the compensation.

(d) *how the compensation is structured to reflect the performance indicators evolution*

We structure our compensation by means of programs that monitor the accomplishment of goals previously defined by our Company and the results actually achieved.

(e) *how the compensation policy or practice is aligned to the short, medium and long term interests of the Company*

In order to align the Board of Executive Officers with the Company's goals in short and medium term perspective, we offer our Officers a fixed compensation (base salary) and, additionally a portion of variable compensation to be paid as sharing in the results. Furthermore, we offer our Officers a stock option plan and a compensation plan based on stock option plan that, because they have certain characteristics such as grace period to exercise the options and lock up of the acquired shares, maintain the Board of Executive Officers aligned with the Company's goals in a long-term perspective. It is relevant to further clarify that the stock option plan, the compensation plan based on stock option plan and on result sharing comprise the variable compensation of the Board of Executive Officers.

The compensation of the members of our Board of Directors, Fiscal Council and committees is readjusted based on the amount usually paid by the market, stimulating such professionals to keep the excellence in the exercise of their functions and the ongoing search for improving our results. In this regard, we understand that our policy and practice of compensation are adequate to our short-, medium- and long-term interests.

(f) *existence of compensation borne by subsidiaries, direct or indirect controlling or controlled companies*

The compensation of our managers and members of the committees is supported exclusively by our Company.

(g) *existence of any compensation or benefit related to the occurrence of a specific corporate event, such as the sale of the Company's controlling interest.*

There is no compensation or benefit to our managers or members of our committees related to the occurrence of a specific corporate event to our managers or members of our committees linked to the occurrence of corporate events.

13.4 – Compensation Plan based on shares of the Board of Directors and Statutory Board of Executive Officers

On May 9, 2014, our shareholders approved at an extraordinary shareholders' meeting (i) the discontinuance of Stock Option Plan named “*Ações com Açúcar*” (“Old Option Plan”), approved at the extraordinary shareholders' meeting held on December 20, 2006 for new granting of options, without prejudice to the options that have already been granted and which shall remain in effect under the same terms and conditions; (ii) the creation of the Stock Option Plan and its respective standard granting agreement (“Option Plan”); and (iii) the creation of the Compensation Plan at the Stock Option Plan and its respective standard granting agreement (“Compensation Plan” and, jointly with the Old Option Plan and the Option Plan, the “Plans”). The Stock Option Plan and the Compensation Plan were further altered as per the resolved at the Shareholders' Annual and Special Meeting held on April 24th, 2015.

We describe below the Plans that had options in effect on December 31, 2016:

OLD OPTION PLAN

a. general terms and conditions

Our Old Option Plan is managed by a committee elected by our Board of Directors named Stock Option Plan Management Committee ("Stock Option Committee"). This committee would determine which employees would be periodically benefited with stock options, based on their duties, responsibilities and performance, as well as the applicable conditions.

Our Stock Option Committee would develop annual stock option concession cycles. Each cycle has received a series number which started at letter A. On December 31, 2016, the options granted for Series A7 of the Old Option Plan were in force, which were entirely accounted for and its exercise period will be terminated on March 31st, 2017.

The options granted under the Old Option Plan may be whether “Gold” or “Silver,” which means change in the price to exercise the options, as provided for in item (i) below.

The Stock Option Committee approved, during 2013, new criteria to ascertain the decrease and/or increase index of the quantity of options granted classified as “Gold” in each series of the Old Option Plan, pursuant to the analysis of compliance with the concept of return on invested capital (ROIC). According to item 3.3 of the Old Option Plan, the Committee decided that for Series A7 (and the previous one), including, the decrease or increase of quantity of “Gold” options would be ascertained based on compliance with the Return on Capital Employed (ROCE) of CBD.

There is no limit for decrease or increase in such new criteria approved. At option vesting, the average ROIC/ROCE for the last three 3 fiscal years will be ascertained, against ROIC/ROCE established at the concession of each series.

b main purposes of the plan

The purpose of the Old Option Plan was to: (i) attract and retain in our Company highly qualified executives and professionals; (ii) enable our managers and employees to hold interests in our capital stock and in the capital increases arising out from results to which such managers, employees and service providers contributed; and (iii) align the interests of our managers and employees to the interests of our shareholders, stimulating their performance and ensuring continuity in the management of our Company.

c. how the plan contributes to these purposes

The beneficiaries of the Old Option Plan are stimulated in generating more results to our Company, firstly by reaching their goals as managers and employees of our Company, and, secondly, so that their shares, received as compensation, are valued.

d. how the plan is inserted in the Company's compensation policy

The Old Option Plan would constitute an element of compensation of our managers and was aligned to our compensation policy which aims at retention of our managers and employees and encourages better results.

e. how the plan aligns the interests of the management and the Company in the short, medium and long term

Since the options were granted annually and based on our results, we understand that the Old Option Plan was aligned to our short term interests by stimulating its beneficiaries to reach their individual goals and the Company's goals. In addition, the Old Option Plan would promote retention of our Officers and employees who were beneficiaries of the Old Option Plan, as well as would attract new professionals, in alignment with our mid-term interests. Finally, as provided for in item (j) below, the beneficiaries of the Old Option Plan would only be qualified to exercise their options as from certain term of employment by our Company, which would stimulate them to generate better results in the long-term so that their shares would be valued, in addition retain them for a longer period, in alignment with our long-term interests.

f. maximum number of shares

The maximum number of shares included in the Old Option Plan was of 15,500,000 preferred shares (as resolved by our Board of Directors at the Meeting held on February 19, 2013).

Upon exercise of the stock options, we would issue new shares to the beneficiaries, subject to our right to use shares held in our treasury.

g. maximum number of options to be granted

There was no maximum number of options to be granted under the Old Option Plan, provided that the total number of shares arising out of the exercise thereof would not exceed the limit indicated in item (f) above and the limit of 2% of our capital stock per Series.

h. conditions for the acquisition of shares

The Stock Option Committee has provided for, in each Series, and, if necessary, in each case, the terms and conditions for the acquisition of the right to exercise the options granted, based on a provision expressly set forth in the adhesion agreement entered into with the beneficiary.

In order to acquire the shares subject to the Old Option Plan, the beneficiaries had to remain related to our Company for a specific term, as provided for in item (j) below, except for the dismissal cases described in item (n) below.

The options could be exercised in whole or in part until the expiration of the respective option. For further information on the expiration term of the options currently in force, see item 13.6 below.

i. criteria to establish the price of acquisition or exercise

At options classified as “Silver,” the Exercise Price per preferred share corresponds to the average closing price at transactions involving preferred shares issued by our Company undertaken over the last 20 sessions of BM&FBOVESPA, prior to the date in which the Stock Option Committee resolves on granting the option. After ascertainment of the average price, a discount of 20% was applied.

At options classified as “Gold,” the Exercise Price per preferred share corresponds to R\$0.01.

j. criteria to establish the exercise term

As a general rule of the Old Option Plan, which could be amended by the Stock Option Committee at each series, the right to exercise option “Silver” would be obtained as from the 36th month and up to the 48th month, counted as from the date of execution of the respective adhesion agreement, and the beneficiary would have the right to exercise 100% of the options. The exercise of options classified as “Gold” shall occur at the same period, but the percentage for these options subject to exercised will be established by the Stock Option Committee in the 35th month, counted as from the date of execution of the respective adhesion agreement.

The options granted under the Old Option Plan may be exercised in whole or in part. It is important to point out that “Gold” options are additional to “Silver” options, and, accordingly, “Gold” option may only be exercised jointly with “Silver” options.

k. settlement method

Price related to the exercise of the options granted under the Old Option Plan must be fully paid in national currency by the beneficiary, provided that the exercise price must be paid in one installment which will fall due 30 days after the date of subscription of the respective shares, except for cases of dismissal of the beneficiary described in item (n) below, event in which the exercise price must be paid at sight upon subscription.

l. share transfer restrictions

The Stock Option Committee may establish restriction on transfer or outstanding of shares obtained upon the exercise of the options.

m. criteria and events which, when verified, will cause the suspension, change or extinction of the plan:

The number of shares to be acquired under “Gold” Series, as described in item (j) above, may be limited by the Stock Option Committee.

The Old Option Plan and the options granted will be automatically terminated in the event of dissolution or liquidation of our Company.

Finally, the Stock Option Committee may determine the suspension, change or termination of the Old Option Plan without the previous consent from the beneficiaries, provided that their rights and obligations are not affected.

n. effects of the withdrawal management members from the Company's bodies pursuant to his/her/its rights set forth in the share-based compensation plan

In the event of involuntary dismissal of any beneficiary of the Old Option Plan until the last business day of the 35th months counted as from the date of execution of his/her respective adhesion agreement, he/she will have the right to exercise 100% of the options classified as "Silver" and "Gold." In this event, the variation of the number of shares resulting from the exercise of options classified as "Gold" established by the Stock Option Committee, described in item (j) above, shall not apply, provided that the total number of shares initially attributed by the Committee will be subject to exercise.

In the event of involuntary dismissal of any beneficiary of the Old Option Plan between the last business day of the 35th month and the last business day of the 48th month counted as from the date of execution of the respective adhesion agreement, he/she will also have the right to exercise 100% of the options classified as "Silver" and "Gold." However, in this event, variation of the number of shares resulting from the exercise of options classified as "Gold," described in item (j) above, will continue to be applicable.

In both events, the beneficiaries must inform their intention to exercise the options granted to them within up to 15 days, counted as from the date of their dismissal.

In the event of voluntary resignation of any beneficiary of the Old Option Plan and/or with cause, pursuant to labor laws, he/she will not be entitled to exercise the options classified as “Silver” or “Gold.”

In the event of death, disability or incapability of any beneficiary, the involuntary dismissal rules described above shall apply, provided that the options may be exercised by a person duly permitted to do so by the competent authority.

COMPENSATION PLAN

a General terms and conditions

The Compensation Plan will be managed by the Board of Directors of the Company, which instituted the Compensation and Human Resources Committee of the Company in order to assist it in the management of the Compensation Plan (“Committee”).

The members of the Committee shall meet for granting the options of series of the Compensation Plan and, whenever necessary, to resolve on matters related to the Compensation Plan.

Each series of options granted will receive the letter “B” followed by a number. IN the fiscal year ended on December 31, 2016, options granted for Series B1, B2 and B3 of the Compensation Plan were in force.

The employees and managers of the company may be eligible to participate in the Compensation Plan, provided that the employees and managers from companies comprising GPA who are deemed key executives (“Eligible Person”) may also participate, all of whom shall be subject to the approval by the Board of Directors of the Company or the Committee, as applicable.

Participation of the Eligible Person in the Compensation Plan does not affect compensation which such person is entitled to receive as an employee and/or manager of the Company, such as salary, fees, pro-labore, benefits, profit sharing and/or any other advantage or compensation.

b. Main purposes of the plan

The Compensation Plan sets forth the conditions for the Company to grant stock options to its managers and employees, the purpose of which is to: (i) attract and retain in our Company (or, as the case may be, in the companies comprising GPA) highly qualified executives and professionals; (ii) enable our managers and employees, or, as the case may be, the managers and employees from companies comprising GPA, to hold interests in our capital stock and in the capital increases arising out from results which such managers and employees contributed to; and (iii) stimulate the consummation of the corporate purposes of the Company; and (iv) align the interests of our managers and employees and of the managers and employees from the companies comprising GPA to the interests of our shareholders, stimulating their performance and ensuring continuity of the management of our Company.

c. how the plan contributes to these purposes

The Compensation Plan contributes to the purposes of the Company by stimulating the alignment of its interest to the its long-term interests and the interests of senior managers in order to reach high performance and the valuation of the Company.

d. how the plan is inserted in the compensation policy of the issuer

The Company believes that, by attributing to the Eligible Persons the possibility of taking an investor position, it stimulates their performance in the Company's management aiming at the creation of value to the Company and its shareholders.

e. how the plan aligns managers' interest to issuers' interest in the short, mid and long term.

Through the Compensation Plan, the Company aims to stimulate the improvement of its management, aiming at gains due to commitment to long-term results. Better results and the valuation of shares issued by the Company, by their turn, maximize the gains of the Eligible Persons as investors jointly with the other shareholders of the Company.

f. maximum number of shares covered

The stock options granted under the Compensation Plan may grant rights to purchase over a number of shares which do not exceed two percent (2%) of the total preferred shares issued by the Company. The total number of shares issued or likely to be issued, under the Compensation Plan, shall be subject to adjustments thereto, due to splitting, grouping and bonuses.

g. maximum number of options to be granted

The maximum number of options to be granted shall be limited to the maximum number of shares covered by the Compensation Plan, as described in letter (f) above.

Each stock option plan shall entitle the Participating Person to the right to subscribe for one (1) preferred share issued by the Company.

h. conditions for the acquisition of shares

The granting of the stock options shall be formalized by the signature between the Company and the Participating Person of the option agreement, which shall specify the total number of shares subject matter of the respective option, the term and conditions for the actual entitlement to exercise the option, the conditions for such exercise, the purchase price and the conditions for its payment, subject to the provisions set forth in the Compensation Plan ("Option Agreement").

For purposes of Compensation Plan, the date of resolution by the Committee of the series of the granting of purchase options shall be the date on which the options shall be deemed as granted to such Participating Persons, provided that Participating Person, even if on a date following the date of resolution by the Committee, accepts to adhere to the Compensation Plan with the formalization of the Option Agreement ("Granting Date").

The Participating Person who wishes to exercise his/her options shall communicate the Company in writing, during the Exercise Period (as defined in item (i) below), his/her intention to do it so, stating the quantity of options he/she wishes to exercise. Such communication shall follow the exercise form template attached to such Option Agreement ("Option Exercise Form").

The Participating Person may exercise his/her purchase options totally or partially, in one or more times, provided that for each exercise he/she sends the corresponding Option Exercise Form during the Exercise Period.

i Criteria for the fixing of the price of acquisition or exercise

The Exercise Price of each stock option plan granted under the Compensation plan shall correspond to one cent (R\$0.01) ("Exercise Price").

j criteria to set the exercise term

The options granted to a Participating Person shall not be exercisable for a period of thirty six (36) months as from the Granting Date ("Lock-up Period"), and may only be exercised in the period starting on the first day of the thirty seventh (37th) month, as from the Granting Date, and ends on the last day of the forty second (42nd) month, as from the Granting Date ("Exercise Period"), except for the events of anticipation according to letter (n) and applicable sub items, below, and other cases that are authorized by the Committee, pursuant to the plan.

k. way of liquidation

Until day 30 of the month in which it receives the Option Exercise Form, the Company shall communicate in writing to such Participating Person: (i) the total exercise price to be paid, resulting by multiplying the Exercise Price by the quantity of options provided by the Participating Person in the Option Exercise Form; (ii) the date of delivery to the Participating Person of the shares, subject matter of the exercise of the options, which shall occur within (sixty) 60 days as from the date of receipt of the Option Exercise Form ("Share Acquisition Date"); (iii) the quantity of shares to be delivered to the Participating Person; and (iv) the period in which the Participating Person shall make the payment of the total exercise price, in legal currency, through check or wire transfer available to the bank account held by the da Company, observing

that the deadline for payment thereof shall, at all times be the tenth (10th) day preceding the Share Acquisition Date.

I. restrictions on transfer of shares

The Compensation plan does not provide for restriction on the transfer or circulation of shares purchased with the exercise of the options, and it shall be preserved the powers of the Board of Directors to establish such restriction on the granting agreements it deems necessary.

m. criteria and events which, when verified, will cause the suspension, change of extinction of the plan

The options granted under the Compensation Plan shall be automatically terminated, ceasing all the effects, by operation of law, in the following cases: (i) upon their full exercise, as provided for in 6 of the Compensation Plan; (ii) after the lapse of the period of effectiveness of the purchase option; (iii) upon termination, upon mutual agreement between the Company and the Participating Person, of the Option Agreement; (iv) if the Company is terminated, liquidated or has its bankruptcy adjudicated; or (v) in the events provided for in letter (n) below: subject to any specific conditions that the Compensation and Human Resources Committee can establish to certain Participating Persons.

In case the number, type and class of the shares existing on the date of the approval of the Compensation Plan are changed as a result of bonuses, splitting, grouping, conversion of shares from one type or class into other securities issued by the Company, it shall be for the Committee to carry out the adjustment corresponding to the number and class of the shares subject matter of the options granted and its respective Exercise Price, to avoid distortions in the application of the Compensation Plan.

n. effects of the manager's leaving the bodies of the issuer on his/her/its rights under the share-based compensation plan

In the event a termination of an employment relationship of the Participating Person due to dismissal, with or without just cause, resignation or removal from the position, retirement, permanent disability or death, the rights conferred to him/her, under the Compensation Plan, can be terminated or modified, subject to the provisions set forth below:

If, at any time during the effectiveness of the Compensation Plan, the Participating Person:

(i) is dismissed from the Company (or from any company of the GPA, as the case may be), involuntarily, upon dismissal without cause, or removal from his/her position without breach of the duties and attributions of manager, the Participating Person may exercise, within ten (10) days as from the date of the dismissal, the number of options calculated on a *pro rata temporis* basis in relation to the Lock-up Period. 13.8 Necessary information to understand the information disclosed in items 13.6 to 13.7 - Pricing method of the value of shares and options

a pricing model

The fair value of each option granted is estimated on the granting date using the *Black-Scholes-Merton* model for pricing of options.

b. information and assumptions used in the pricing model, including the weighted average price of the shares, exercise price, estimated volatility, option useful life, estimated dividends and risk-free interest rate

The market value of each option granted is estimated on the granting date by using the *Black-Scholes-Merton* model for pricing of options, considering the following assumptions with respect to the options in force and effect in 2016:

	<u>On the Granting Date</u>
Weighted average price of shares (per share), as per average value in the previous 20 auctions in connection with the Granting Date	Series A7: R\$ 100.00 Series B1: R\$ 99.86 Series C1: R\$ 99.86 Series B2: R\$ 93.37 Series C2: R\$ 93.37 Series B3: R\$ 46.51 Series C3: R\$ 46.51

0.96% to 1.37%

Risk-free interest rate

11.70% to 12.72%

Option's fair value on the Granting Date (per option) See item 13.6 above.

c. method used and the underlying assumptions to incorporate the expected effects of early exercise

We have not considered for effect of options pricing the early exercises deriving from involuntary termination, death or disability of the beneficiary and deriving from corporate events.

We adopt the assumption that the options will be exercised from the moment the shares become exercisable. Therefore, the term of life of the options adopted in the calculations is 3 years, according to the series of grant and corresponding to grace periods of the options.

d. way of determining the expected volatility

For the calculation of the expected volatility, the standard deviation of natural logarithms of the daily historic variations of the price of the shares issued by our Company was used, according to the effective period of the shares.

e. other characteristics included in the measurement of the fair value of the options

There are no additional characteristics to report in this item.

13.16. Other relevant information

Not applicable, since all relevant information pertaining to this topic have been disclosed in the items above.

Special Shareholders' Meeting

Ratification of Annual Global Compensation of the Management for the Fiscal Year of 2016

In the fiscal year of 2016, the Company disbursed R\$ 77,448,723.00 with the compensation of its managers, R\$ 658,250.00 more than the total amount approved at the Annual and Special Shareholders' Meeting held on April 27, 2016 ("2016 SM").

R\$ 70,320,385.00 were disbursed with the compensation of the members of the Officers, R\$ 1.099.101,00 less than the amount approved at the 2016 SM for these managers. The Company, after the 2016 SM, considering the current scenario of economic crises and straining of the competition in the retail market in general, decided to privilege, for the fiscal year of 2016, the granting of stock purchase options with immediate vest and a 12 months lock-up term, in consideration of the decrease of the variable compensation. Thus, of the total amount for the Officers' compensation, R\$ 23,112,364.00 was spent on share-based payments, which is higher than the amount estimated for payment to the Officers in the management proposal for 2016 SM, being clear that the global amount approved in the 2016 SM was observed.

As for the compensation of the Board of Directors and committees, R\$ 7,128,338.00 were disbursed by the Company, R\$ 1,757,351.00 more than the amount approved at the 2016 SM for this body. This difference is due to the payment, on an exceptional basis, of bonuses to certain directors and committees members for participation in specific projects carried out throughout 2016.

Therefore, it is proposed that the amounts paid to management for the year ended December 31, 2016 be ratified, taking into account the amounts effectively disbursed by the Company, as presented above. Finally, we would like to clarify that chapter 13 of the Reference Form attached hereto already includes the volumes actually recognized in the year.

Investment Plan for the Fiscal Year of 2017

The Management proposes to the shareholders the Investment Plan for Multivarejo, GPA Malls and Assaí for the fiscal year of 2017, in the value of up to R\$ 1.2 billion, for the purposes of (i) opening up stores, acquiring land and converting stores; (ii) renovating stores; and (iii) IT and logistics infrastructure as well as other productivity development projects. Such amount does not encompass the Investment Plan for Via Varejo and Cnova.

Change of Newspapers for the Publication of the Company's Acts

Management proposes to its shareholders that the Company's acts be published exclusively in the Folha de S. Paulo, for purposes of attending the publication in a newspaper of great circulation, under the terms of the current corporate law.

It should be clarified that this proposal does not affect the concurrent publication of such acts also in the Official Gazette of the State of São Paulo, which will continue to be done by the Company on a regular basis.

Proposal for the Amendment of the Company's Bylaws

To address regulatory issues related to the telecommunications industry regarding the sale of certain products in our stores, such as, for example, wireless computer accessories, remote controlled toys, walkie-talkie radios, among others, we propose to include the activity of trade of telecommunications goods in the description of the corporate purpose in the Company's bylaws (Article 2, paragraph 1) and consolidation of the Bylaws.

In compliance with article 11 of CVM Instruction 481/09, we present the following attachments: (i) the report detailing with the origin and justification of the proposed change with a comparative table between the current version and the amended proposal; and (ii) the consolidated Bylaws, reflecting the proposed amendment.

Report Detailing the Origin and Justification of the Proposed Amendment

The purpose of this proposal is to include in the Company's corporate purpose the sale of telecommunications products to meet regulatory issues related to this sector, such as ANATEL Resolution 242 of November 30, 2000, as amended, which approved Regulation For the certification and homologation of telecommunications products (article 20, sole paragraph, and article 28, II, of said Regulation) and Management Instrument No. 06, of October 15, 2006, as amended, which requires the mention Of such activity in the constituent acts of the applicant (item II.1.2.).

Accordingly, the table below compares the version currently in force with that proposed in Article 2 of the Company's Bylaws. The other clauses of the Bylaws remain unchanged.
