Item 1.02 Termination of a Material Definitive Agreement

On November 5, 2015, we gave notice of our termination of the Polaschegg Exclusive License and Consulting Agreement, dated January 30, 2008, covering the CRMD004 gel formulation. Pursuant to the terms of the Polaschegg License Agreement, the termination will be effective in 60 days. We determined that the CRMD004 gel technology patent targeting catheter locks was narrow in scope and limited in market potential. Based on technical analysis of the other patents under the Polaschegg License Agreement, we determined that extensive investment would be required to strengthen the patents. Upon termination of the Polaschegg License Agreement, all rights to the Polaschegg CRMD004 gel technology patent will revert to the patent originators. CRMD004 was in preclinical development.
