DUNKIN' BRANDS GROUP, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Unaudited)

(1) Description of business and organization

Dunkin' Brands Group, Inc. ("DBGI"), together with its consolidated subsidiaries, is one of the world's leading franchisors of restaurants serving coffee and baked goods, as well as ice cream, within the quick service restaurant segment of the restaurant industry. We franchise and license a system of both traditional and nontraditional quick service restaurants and, in limited circumstances, have owned and operated locations. Through our Dunkin' brand, we franchise restaurants featuring coffee, donuts, bagels, breakfast sandwiches, and related products. Additionally, we license Dunkin' brand products sold in certain retail outlets such as retail packaged coffee, Dunkin' K-Cup® pods, and ready-to-drink bottled iced coffee. Through our Baskin-Robbins brand, we franchise restaurants featuring ice cream, frozen beverages, and related products. Additionally, we distribute Baskin-Robbins ice cream products to certain international markets for sale in Baskin-Robbins restaurants and certain retail outlets.

Throughout these unaudited consolidated financial statements, "Dunkin' Brands," "the Company," "we," "us," "our," and "management" refer to DBGI and its consolidated subsidiaries taken as a whole.

(2) Summary of significant accounting policies

(a) Unaudited consolidated financial statements

The consolidated balance sheet as of September 29, 2018, the consolidated statements of operations and comprehensive income for the three and nine months ended September 29, 2018 and September 30, 2017, and the consolidated statements of cash flows for the nine months ended September 29, 2018 and September 30, 2017 are unaudited.

The accompanying unaudited consolidated financial statements include the accounts of DBGI and its consolidated subsidiaries and have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission ("SEC") for interim financial information. Accordingly, they do not include all of the information and footnotes required in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") for complete financial statements. All significant transactions and balances between subsidiaries and affiliates have been eliminated in consolidation. In the opinion of management, all adjustments necessary for a fair presentation of such financial statements in accordance with U.S. GAAP have been recorded. Such adjustments consisted only of normal recurring items. These unaudited consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto for the fiscal year ended December 30, 2017, included in the Company's Annual Report on Form 10-K.

(b) Fiscal year

The Company operates and reports financial information on a 52- or 53-week year on a 13-week quarter basis with the fiscal year ending on the last Saturday in December and fiscal quarters ending on the 13th Saturday of each quarter (or 14th Saturday when applicable with respect to the fourth fiscal quarter). The data periods contained within the three- and nine-month periods ended September 29, 2018 and September 30, 2017 reflect the results of operations for the 13-week and 39-week periods ended on those dates, respectively. Operating results for the three- and nine-month periods ended September 29, 2018 are not necessarily indicative of the results that may be expected for the fiscal year ending December 29, 2018.

(c) Cash, cash equivalents, and restricted cash

In accordance with the Company's securitized financing facility, certain cash accounts have been established in the name of Citibank, N.A. (the "Trustee") for the benefit of the Trustee and the noteholders, and are restricted in their use. The Company holds restricted cash which primarily represents (i) cash collections held by the Trustee, (ii) interest, principal, and commitment fee reserves held by the Trustee related to the Company's notes (see note 4), and (iii) real estate reserves used to pay real estate obligations.

Table of Contents

Cash, cash equivalents, and restricted cash within the consolidated balance sheets that are included in the consolidated statements of cash flows as of September 29, 2018 and December 30, 2017 were as follows (in thousands):

	September 29, December 30,	
	2018	2017
Cash and cash equivalents	\$ 428,179	1,018,317
Restricted cash	79,432	94,047
Restricted cash, included in Other assets	1,702	1,735
Total cash, cash equivalents, and restricted cash	\$ 509,313	1,114,099

(d) Fair value of financial instruments

Financial assets and liabilities are categorized, based on the inputs to the valuation technique, into a three-level fair value hierarchy. The fair value hierarchy gives the highest priority to the quoted prices in active markets for identical assets and liabilities and lowest priority to unobservable inputs. Observable market data, when available, is required to be used in making fair value measurements. When inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurement.

Financial assets and liabilities measured at fair value on a recurring basis as of September 29, 2018 and December 30, 2017 are summarized as follows (in thousands):

	September 29,		December 30,	
	2018		2017	
	Significant		Significant	
	other		other	
	observable		observable	
	Total		Total	
	inputs		inputs	
	(Level 2)		(Level 2)	
Assets:				
Company-owned life insurance	\$ 11,521	11,521	10,836	10,836
Total assets	\$ 11,521	11,521	10,836	10,836

Liabilities:

Deferred compensation liabilities	\$ 10,952	10,952	13,543	13,543
Total liabilities	\$ 10,952	10,952	13,543	13,543

The deferred compensation liabilities relate to the Dunkin' Brands, Inc. non-qualified deferred compensation plans ("NQDC Plans"), which allow for pre-tax deferral of compensation for certain qualifying employees and directors. Changes in the fair value of the deferred compensation liabilities are derived using quoted prices in active markets of the asset selections made by the participants. The deferred compensation liabilities are classified within Level 2, as defined under U.S. GAAP, because their inputs are derived principally from observable market data by correlation to hypothetical investments. The Company holds company-owned life insurance policies to partially offset the Company's liabilities under the NQDC Plans. The changes in the fair value of any company-owned life insurance policies are derived using determinable cash surrender value. As such, the company-owned life insurance policies are classified within Level 2, as defined under U.S. GAAP.

The carrying value and estimated fair value of long-term debt as of September 29, 2018 and December 30, 2017 were as follows (in thousands):

	September 29, 2018		December 30, 2017	
	Carrying	Estimated	Carrying	Estimated
	value	fair value	value	fair value
Financial liabilities				
Long-term debt	\$ 3,048,931	3,044,365	3,067,357	3,156,099

The estimated fair value of our long-term debt is estimated primarily based on current market rates for debt with similar terms and remaining maturities or current bid prices for our long-term debt. Judgment is required to develop these estimates. As such, the fair value of our long-term debt is classified within Level 2, as defined under U.S.

GAAP.

(e) Concentration of credit risk

The Company is subject to credit risk through its accounts receivable consisting primarily of amounts due from franchisees and licensees for franchise fees, royalty income, advertising fees, and sales of ice cream and other products. In addition, we have

8

Table of Contents

note and lease receivables from certain of our franchisees and licensees. The financial condition of these franchisees and licensees is largely dependent upon the underlying business trends of our brands and market conditions within the quick service restaurant industry. This concentration of credit risk is mitigated, in part, by the large number of franchisees and licensees of each brand and the short-term nature of the franchise and license fee and lease receivables. As of September 29, 2018 and December 30, 2017, one master licensee, including its majority-owned subsidiaries, accounted for approximately 14% and 11%, respectively, of total accounts and notes receivable. No individual franchisee or master licensee accounted for more than 10% of total revenues for any of the three- and nine-month periods ended September 29, 2018 and September 30, 2017.

Additionally, the Company engages various third parties to manufacture and/or distribute certain Dunkin' and Baskin-Robbins products under licensing arrangements. As of September 29, 2018, one of these third parties accounted for approximately 16% of total accounts and notes receivable. No individual third party accounted for more than 10% of total accounts and notes receivable as of December 30, 2017. No individual third party accounted for more than 10% of total revenues for any of the three- and nine-month periods ended September 29, 2018 and September 30, 2017.

(f) Advertising expenses

Advertising expenses in the consolidated statements of operations includes advertising expenses incurred by the Company, including those expenses incurred by the advertising funds and for the administration of the gift card program. The Company expenses production costs of commercial advertising upon first airing and expenses the costs of communicating the advertising in the period in which the advertising occurs. Costs of print advertising and certain promotion-related items are deferred and expensed the first time the advertising is displayed. Prepaid expenses and other current assets in the consolidated balance sheets include \$14.3 million and \$15.5 million at September 29, 2018 and December 30, 2017, respectively, that was related to advertising. Advertising expenses are allocated to interim periods in relation to the related revenues. When revenues of the advertising fund exceed the related advertising expenses, advertising costs are accrued up to the amount of revenues.

(g) Recent accounting pronouncements

Recently adopted accounting pronouncements

In February 2018, the Financial Accounting Standards Board (the "FASB") issued new guidance allowing companies the option to reclassify from accumulated other comprehensive loss to accumulated deficit the stranded income tax effects resulting from the Tax Cuts and Jobs Act that was enacted on December 22, 2017. The Company early adopted this standard during the first quarter of fiscal year 2018 and has elected to present the change in the period of adoption. The adoption of this guidance did not have a material impact on the Company's consolidated financial statements.

In May 2014, the FASB issued new guidance for revenue recognition related to contracts with customers ("ASC 606"), except for contracts within the scope of other standards, which supersedes nearly all existing revenue recognition guidance. We adopted this new guidance in fiscal year 2018. See [note 3](#) for further disclosure of the impact of the new guidance.

Recent accounting pronouncements not yet adopted

In February 2016, the FASB issued new guidance for lease accounting, which replaces existing lease accounting guidance. The new guidance aims to increase transparency and comparability among organizations by requiring lessees to recognize lease assets and lease liabilities on the balance sheet and requiring disclosure of key information about leasing arrangements. This guidance is effective for the Company in fiscal year 2019 with early adoption permitted, and modified retrospective application is required with an option to not restate comparative periods in the period of adoption. The Company expects to adopt this new guidance in fiscal year 2019 without restating comparative periods, and expects that substantially all of its operating lease commitments will be subject to the new guidance and will be recognized as operating lease liabilities and right-of-use assets upon adoption, thereby having a material impact to its consolidated balance sheet. We do not expect the adoption of the new guidance to have a material impact on the Company's net income, liquidity, or compliance with debt agreements. The Company expects to elect the package of practical expedients permitted under the new guidance, which includes allowing the Company to continue utilizing historical classification of leases.

Though the majority of the assessment phase is complete, the Company continues to evaluate the impact the adoption of this new guidance will have on the Company's consolidated financial statements, as well as the impact on accounting policies and related disclosures. Additionally, the Company is in the process of implementing new accounting systems, business processes, and internal controls related to lease accounting to assist in the application of the new guidance.

(h) Subsequent events

Subsequent events have been evaluated through the date these consolidated financial statements were filed.

(3) Revenue recognition

(a) Updated revenue recognition policies

Franchise fees and royalty income

Domestically, the Company sells individual franchises as well as territory agreements in the form of store development agreements (“SDAs”) that grant the right to develop restaurants in designated areas. The franchise agreements and SDAs typically require the franchisee to pay initial nonrefundable franchise fees prior to opening the respective restaurants and continuing fees, or royalty income, on a weekly basis based upon a percentage of franchisee gross sales. The initial term of domestic franchise agreements is typically 20 years. Prior to the end of the franchise term or as otherwise provided by the Company, a franchisee may elect to renew the term of a franchise agreement, and, if approved, will typically pay a renewal fee upon execution of the renewal term. If approved, a franchisee may transfer a franchise agreement or SDA to a new or existing franchisee, at which point a transfer fee is paid.

Occasionally, the Company offers incentive programs to franchisees in conjunction with a franchise/license agreement, territory agreement, or renewal agreement.

Internationally, the Company sells master franchise agreements that grant the master franchisee the right to develop and operate, and in some instances sub-franchise, a certain number of restaurants within a particular geographic area. The master franchisee is typically required to pay an upfront market entry fee upon entering into the master franchise agreement and an upfront initial franchise fee for each developed restaurant prior to each respective opening. For the Dunkin’ brand and in certain Baskin-Robbins international markets, the master franchisee will also pay continuing fees, or royalty income, generally on a monthly basis based upon a percentage of sales. Generally, the master franchise agreement serves as the franchise agreement for the underlying restaurants, and the initial franchise term provided for each restaurant typically ranges between 10 and 20 years.

Generally, the franchise license granted for each individual restaurant within an arrangement represents a single performance obligation. Therefore, initial franchise fees and market entry fees for each arrangement are allocated to each individual restaurant and recognized over the term of the respective franchise agreement from the date of the restaurant opening. Royalty income is also recognized over the term of the respective franchise agreement based on the royalties earned each period as the underlying sales occur. Renewal fees are generally recognized over the renewal term for the respective restaurant from the start of the renewal period. Transfer fees are recognized over the remaining term of the franchise agreement beginning at the time of transfer. Incentives provided to franchisees in conjunction with a franchise/license agreement, territory agreement, or renewal agreement are recognized over the remaining term of the respective agreement. Additionally, for Baskin-Robbins international markets that do not pay a royalty, a portion of the consideration from sales of ice cream and other products is allocated to royalty income as consideration for the use of the franchise license, which is recognized when the related sales occur and is estimated based on royalty rates in effect for markets where the franchise license is sold on a standalone basis. Fees received or receivable that are expected to be recognized as revenue within one year are classified as current deferred revenue in the consolidated balance sheets.

Advertising fees and related income

Domestically and in limited international markets, franchise agreements typically require the franchisee to pay continuing advertising fees on a weekly basis based on a percentage of franchisee gross sales, which are recognized over the term of the respective franchise agreement based on the fees earned each period as the underlying sales occur. The Company and its franchisees sell gift cards that are redeemable for products in our Dunkin’ and Baskin-Robbins restaurants. The Company manages the gift card program, and therefore collects all funds from the activation of gift cards and reimburses franchisees for the redemption of gift cards in their restaurants. A liability for unredeemed gift cards, as well as historical gift certificates sold, is included in other current liabilities in the consolidated balance sheets.

There are no expiration dates or service fees charged on the gift cards. While the franchisees continue to honor all gift cards presented for payment, the likelihood of redemption may be determined to be remote for certain cards due to long periods of inactivity. In these circumstances, the Company may recognize revenue from unredeemed gift cards (“breakage revenue”) if they are not subject to unclaimed property laws. For Dunkin’ gift cards enrolled in the DD Perks® Rewards loyalty program and other cards with expected similar redemption behavior, breakage is estimated

and recognized at the point in time when the likelihood of redemption of any remaining card balance becomes remote, generally after a period of sufficient inactivity. Breakage on all other Dunkin' gift cards and all Baskin-Robbins gift cards is estimated and recognized over time in proportion to actual gift card redemptions, based on historical redemption rates.

Table of Contents

The Company also collects gift card program service fees from franchisees to offset the costs to administer the gift card program. The gift card program service fees are based on the volume of gift card transactions processed and are recognized as the underlying transactions occur.

Rental income

Rental income for base rentals is recorded on a straight-line basis over the lease term, including the amortization of any tenant improvement dollars paid. The differences between the straight-line rent amounts and amounts receivable under the leases are recorded as deferred rent assets in current or long-term assets, as appropriate. Contingent rental income is recognized as earned, and any amounts received from lessees in advance of achieving stipulated thresholds are deferred until such thresholds are actually achieved. Deferred contingent rentals are recorded as deferred revenue in current liabilities in the consolidated balance sheets.

Sales of ice cream and other products

We distribute Baskin-Robbins ice cream products and, in limited cases, Dunkin' products to franchisees in certain international locations. Revenue from the sale of ice cream and other products is recognized when title and risk of loss transfers to the buyer, which is generally upon delivery. Payment for ice cream and other products is generally due within a relatively short period of time subsequent to delivery.

Other revenues

Other revenues include fees generated by licensing our brand names and other intellectual property, as well as gains, net of losses and transactions costs, from the sales of restaurants that were not company-operated to new or existing franchisees. Licensing fees are recognized over the term of the expected license agreement, with sales-based license fees being recognized based on the amount earned each period as the underlying sales occur. Gains on the refranchise or sale of a restaurant are recognized over the term of the related agreement.

(c) Contract balances

Information about receivables and deferred revenue subject to ASC 606 is as follows (in thousands):

	September 29, 2018	December 30, 2017	Balance Sheet Classification
Receivables	\$ 103,097	76,455	Accounts receivable, net and Notes and other receivables, net

Deferred revenue:

Current	\$ 30,724	27,724	Deferred revenue—current
Long-term	354,472	361,458	Deferred revenue—long term
Total	\$ 385,196	389,182	

Receivables relate primarily to payments due for royalties, franchise fees, advertising fees, sales of ice cream and other products, and licensing fees. Deferred revenue primarily represents the Company's remaining performance obligations under its franchise and license agreements for which consideration has been received or is receivable, and is generally recognized on a straight-line basis over the remaining term of the related agreement.

The decrease in the deferred revenue balance as of September 29, 2018 is primarily driven by \$24.0 million of revenues recognized that were included in the deferred revenue balance as of December 30, 2017, as well as franchisee incentives provided during fiscal year 2018, offset by cash payments received or due in advance of satisfying our performance obligations.

As of September 29, 2018 and December 30, 2017, there were no contract assets from contracts with customers.

(d) Transaction price allocated to remaining performance obligations

Estimated revenue expected to be recognized in the future related to performance obligations that are either unsatisfied or partially satisfied at September 29, 2018 is as follows (in thousands):

Fiscal year:

2018 ^(a)	\$9,279
2019	26,031
2020	22,744
2021	22,628
2022	22,441
Thereafter	244,692
Total	\$347,815

(a) Represents the estimate for remainder of fiscal year 2018 which excludes the nine months ended September 29, 2018.

The estimated revenue in the table above does not contemplate future franchise renewals or new franchise agreements for restaurants for which a franchise agreement or SDA does not exist at September 29, 2018. Additionally, the table above excludes \$63.6 million of consideration allocated to restaurants that are not yet open at September 29, 2018.

The Company has applied the sales-based royalty exemption which permits exclusion of variable consideration in the form of sales-based royalties from the disclosure of remaining performance obligations in the table above.

Additionally, the Company has applied the transition practical expedient that allows the Company to omit the above disclosures for the fiscal year ended December 30, 2017.

(e) Change in accounting principle

In fiscal year 2018, the Company adopted new revenue recognition guidance which provides a single framework in which revenue is required to be recognized to depict the transfer of goods or services to customers in amounts that

reflect the consideration to which a company expects to be entitled in exchange for those goods or services. The Company adopted the guidance using the full retrospective transition method which results in restating each prior reporting period presented. The restated amounts include the application of a practical expedient that permitted the Company to reflect the aggregate effect of all modifications that occurred prior to fiscal year 2016 when identifying the satisfied and unsatisfied performance obligations,

Table of Contents

determining the transaction price, and allocating the transaction price to the satisfied and unsatisfied performance obligations. The Company implemented new business processes, internal controls, and modified information technology systems to assist in the ongoing application of the new guidance.

Franchise Fees

The adoption of the new guidance changed the timing of recognition of initial franchise fees, including master license and territory fees for our international business, and renewal and transfer fees. Previously, these fees were generally recognized upfront upon either opening of the respective restaurant, when a renewal agreement became effective, or upon transfer of a franchise agreement. The new guidance generally requires these fees to be recognized over the term of the related franchise license for the respective restaurant. Additionally, transfer fees were previously included within other revenues, but are now included within franchise fees and royalty income in the consolidated statements of operations. The new guidance did not materially impact the recognition of royalty income.

Advertising

The adoption of the new guidance changed the reporting of advertising fund contributions from franchisees and the related advertising fund expenditures, which were not previously included in the consolidated statements of operations. The new guidance requires these advertising fund contributions and expenditures to be reported on a gross basis in the consolidated statements of operations. The assets and liabilities held by the advertising funds, which were previously reported as restricted assets and liabilities of advertising funds, respectively, are now included within the respective balance sheet caption to which the assets and liabilities relate. Additionally, advertising costs that have been incurred by the Company outside of the advertising funds were previously included within general and administrative expenses, net, but are now included within advertising expenses in the consolidated statements of operations.

Previously, breakage from Dunkin' and Baskin-Robbins gift cards was recorded as a reduction to general and administrative expenses, net, to offset the related gift card program costs. In accordance with the new guidance, breakage revenue is now reported on a gross basis in the consolidated statements of operations within advertising fees and related income, and the related gift card program costs are included in advertising expenses.

Ice Cream Royalty Allocation

The adoption of the new guidance requires a portion of sales of ice cream products to be allocated to royalty income as consideration for the use of the franchise license. As such, a portion of sales of ice cream and other products has been reclassified to franchise fees and royalty income in the consolidated statements of operations under the new guidance. This allocation has no impact on the timing of recognition of the related sales of ice cream products or royalty income.

Other Revenue Transactions

The adoption of the new guidance requires certain fees generated by licensing of our brand names and other intellectual property to be recognized over the term of the related agreement, including a one-time upfront license fee recognized in connection with the Dunkin' K-Cup® pod licensing agreement in fiscal year 2015. Additionally, gains associated with the refranchise, sale, or transfer of restaurants that were not company-operated to new or existing franchisees are recognized over the term of the related agreement under the new guidance, instead of upon closing of the sale transaction or transfer.

Total long-term debt	\$ 3,017,281	3,035,857

The Company's outstanding debt consists of Series 2015-1 3.980% Fixed Rate Senior Secured Notes, Class A-2-II (the "2015 Class A-2-II Notes"), Series 2017-1 3.629% Fixed Rate Senior Secured Notes, Class A-2-I (the "2017 Class A-2-I Notes"), and Series 2017-1 4.030% Fixed Rate Senior Secured Notes, Class A-2-II (the "2017 Class A-2-II Notes") and, together with the 2017 Class A-2-I Notes, the "2017 Class A-2 Notes") issued by DB Master Finance LLC (the "Master Issuer"), a limited-purpose, bankruptcy-remote, wholly-owned indirect subsidiary of DBGI. In addition, the Master Issuer issued Series 2017-1 Variable Funding Senior Secured Notes, Class A-1 (the "2017 Variable Funding Notes" and, together with the 2017 Class A-2 Notes, the "2017 Notes"), which allow for the issuance of up to \$150.0 million of 2017 Variable Funding Notes and certain other credit instruments, including letters of credit.

As of September 29, 2018 and December 30, 2017, \$32.4 million and \$32.3 million, respectively, of letters of credit were outstanding against the 2017 Variable Funding Notes which relate primarily to interest reserves required under the base indenture and related supplemental indentures. There were no amounts drawn down on these letters of credit as of September 29, 2018 or December 30, 2017.

The 2015 Class A-2-II Notes and 2017 Notes were each issued in a securitization transaction pursuant to which most of the Company's domestic and certain of its foreign revenue-generating assets, consisting principally of franchise-related agreements, real estate assets, and intellectual property and license agreements for the use of intellectual property, are held by the Master Issuer and certain other limited-purpose, bankruptcy-remote, wholly-owned indirect subsidiaries of the Company that act as guarantors of the 2015 Class A-2-II Notes and 2017 Notes and that have pledged substantially all of their assets to secure the 2015 Class A-2-II Notes and 2017 Notes.

Other	40,769	23,677
Total other current liabilities	\$ 296,622	355,110

The decrease in the gift card/certificate liability was driven by the seasonality of our gift card program. The franchisee profit-sharing liability represents amounts owed to franchisees from the net profits primarily on the sale of Dunkin' K-Cup® pods, retail packaged coffee, and ready-to-drink bottled iced coffee in certain retail outlets.

(6) Segment information

The Company is strategically aligned into two global brands, Dunkin' and Baskin-Robbins, which are further segregated between U.S. operations and international operations. Additionally, the Company administers and directs the development of all advertising and promotional programs in the U.S. advertising funds. As such, the Company has determined that it has five reportable segments: Dunkin' U.S., Dunkin' International, Baskin-Robbins U.S., Baskin-Robbins International, and U.S. Advertising Funds. Dunkin' U.S., Baskin-Robbins U.S., and Dunkin' International primarily derive their revenues through royalty income and franchise fees. Baskin-Robbins U.S. also derives revenue through license fees from a third-party license agreement and rental income. Dunkin' U.S. also derives revenue through rental income. Baskin-Robbins International primarily derives its revenues from sales of ice cream products, as well as royalty income, franchise fees, and license fees. U.S. Advertising Funds primarily derive revenues through continuing advertising fees from Dunkin' and Baskin-Robbins franchisees. The operating results of each segment are regularly reviewed and evaluated separately by the Company's senior management, which includes, but is not limited to, the chief executive officer. Senior management primarily evaluates the performance of its segments and allocates resources to them based on operating income adjusted for amortization of intangible assets, long-lived asset impairment charges, impairment of our equity method investments, and other infrequent or unusual charges, which does not reflect the allocation of any corporate charges. This profitability measure is referred to as segment profit. When senior management reviews a balance sheet, it is at a consolidated level. The accounting policies applicable to each segment are generally consistent with those used in the consolidated financial statements.

Revenues for all operating segments include only transactions with unaffiliated customers and include no intersegment revenues. Revenues reported as "Other" include revenues earned through certain licensing arrangements with third parties in which our brand names are used, including the licensing fees earned from the Dunkin' K-Cup® pod licensing agreement and sales of Dunkin' branded ready-to-drink bottled iced coffee and retail packaged coffee, revenues generated from online training programs for franchisees, advertising fees and related income from international advertising funds, and breakage and other revenue related to the gift card program, all of which are not allocated to a specific segment. (a) Treasury stock

In February 2018, the Company entered into two accelerated share repurchase agreements (the “February 2018 ASR Agreements”) with two third-party financial institutions. Pursuant to the terms of the February 2018 ASR Agreements, the Company paid the financial institutions \$650.0 million from cash on hand and received initial deliveries totaling 8,478,722 shares of the Company's common stock in February 2018, representing an estimate of 80% of the total shares expected to be delivered under the February 2018 ASR Agreements. Upon final settlement of the February 2018 ASR Agreements in August 2018, the Company received additional deliveries totaling 1,691,832 shares of its common stock based on a weighted average cost per share of \$63.91 over the term of the February 2018 ASR Agreements.

The Company accounts for treasury stock under the cost method based on the cost of the shares on the dates of repurchase plus any direct costs incurred. During the nine months ended September 29, 2018, the Company retired 10,170,554 shares of treasury stock repurchased under the February 2018 ASR Agreements. The repurchase and retirement of these shares of treasury stock resulted in a decrease in additional paid-in capital of \$77.7 million and an increase in accumulated deficit of \$572.6 million.

(b) Equity incentive plans

During the nine months ended September 29, 2018, the Company granted stock options to purchase 909,027 shares of common stock and 86,605 restricted stock units (“RSUs”) to certain employees and members of our board of directors. The stock options generally vest in equal annual amounts over a four-year period subsequent to the grant date, and have a maximum contractual term of seven years. The stock options were granted with an exercise price of \$59.60 per share and have a weighted average grant-date fair value of \$10.44 per share. The RSUs granted to employees and members of our board of directors vest in equal annual amounts over a three-year period and a one-year period, respectively, subsequent to the grant date and have a weighted average grant-date fair value of \$60.80 per share. In addition, the Company granted 67,993 performance stock units (“PSUs”) to certain employees during the nine months ended September 29, 2018. These PSUs are generally eligible to cliff-vest approximately three years from the grant date. Of the total PSUs granted, 30,974 PSUs are subject to a service condition and a market vesting condition linked to the level of total shareholder return received by the Company's shareholders during the performance period measured against the companies in the S&P 500 Composite Index (“TSR PSUs”). The remaining 37,019 PSUs granted are subject to a service condition and a performance vesting condition based on the level of adjusted operating income growth achieved over the performance period (“AOI PSUs”). The maximum vesting percentage that could be realized for each of the TSR PSUs and the AOI PSUs is 200% based on the level of performance achieved for the respective awards. All of the PSUs are also subject to a one-year post-vesting holding period. The TSR PSUs were valued based on a Monte Carlo simulation model to reflect the impact of the total shareholder return market condition, resulting in a grant-date fair value of \$65.52 per share. The probability of satisfying a market condition is considered in the estimation of the grant-date fair value for TSR PSUs and the compensation cost is not reversed if the market condition is not achieved, provided the requisite service has been provided. The AOI PSUs have a grant-date fair value of \$57.10 per share. Total compensation cost for the AOI PSUs is determined based on the most likely outcome of the performance condition and the number of awards expected to vest based on the outcome.

Total compensation expense related to all share-based awards was \$3.9 million and \$3.6 million for the three months ended September 29, 2018 and September 30, 2017, respectively, and \$10.9 million for each of the nine months ended September 29, 2018 and September 30, 2017 and is included in general and administrative expenses, net in the consolidated statements of operations.

(c) Accumulated other comprehensive loss

The changes in the components of accumulated other comprehensive loss were as follows (in thousands):

(d) Dividends

The Company paid a quarterly dividend of \$0.3475 per share of common stock on March 21, 2018, June 6, 2018, and September 5, 2018 totaling approximately \$28.6 million, \$28.8 million, and \$28.6 million, respectively. On October 25, 2018,

Table of Contents

the Company announced that its board of directors approved the next quarterly dividend of \$0.3475 per share of common stock payable December 5, 2018 to shareholders of record as of the close of business on November 26, 2018.

(8) Earnings per share

The computation of basic and diluted earnings per common share is as follows (in thousands, except for share and per share data):

	Three months ended		Nine months ended	
	September 29, 2018		September 30, 2017	
	2018	2017	2018	2017
Net income—basic and diluted	\$66,067	41,170	176,717	136,555

Earnings per common share:				
Common—basic	\$0.80	0.46	2.10	1.50
Common—diluted	0.79	0.45	2.07	1.48

The weighted average number of common shares in the common diluted earnings per share calculation includes the dilutive effect of 1,337,083 and 1,142,715 equity awards for the three months ended September 29, 2018 and September 30, 2017, respectively, and includes the dilutive effect of 1,335,873 and 1,335,153 equity awards for the nine months ended September 29, 2018 and September 30, 2017, respectively, using the treasury stock method. The weighted average number of common shares in the common diluted earnings per share calculation for all periods excludes all contingently issuable equity awards for which the contingent vesting criteria were not yet met as of the fiscal period end. As of September 29, 2018 and September 30, 2017, there were 189,077 and 150,000 shares, respectively, related to equity awards that were contingently issuable and for which the contingent vesting criteria were not yet met as of the fiscal period end. Additionally, the weighted average number of common shares in the common diluted earnings per share calculation excludes 22,289 and 1,315,258 equity awards for the three months ended September 29, 2018 and September 30, 2017, respectively, and 962,547 and 1,524,739 equity awards for the nine months ended September 29, 2018 and September 30, 2017, respectively, as they would be antidilutive.

(9) Commitments and contingencies

(a) Supply chain guarantees

The Company has various supply chain agreements that provide for purchase commitments, the majority of which result in the Company being contingently liable upon early termination of the agreement. As of September 29, 2018 and December 30, 2017, the Company was contingently liable under such supply chain agreements for approximately \$109.7 million and \$116.7 million, respectively. For certain supply chain commitments, as product is purchased by the Company's franchisees over the term of the agreement, the amount of the guarantee is reduced. The Company assesses the risk of performing under each of these guarantees on a quarterly basis, and, based on various factors including internal forecasts, prior history, and ability to extend contract terms, we accrued an immaterial amount of reserves related to supply chain commitments as of September 29, 2018 and December 30, 2017.

(b) Letters of credit

As of September 29, 2018 and December 30, 2017, the Company had standby letters of credit outstanding for a total of \$32.4 million and \$32.3 million, respectively. There were no amounts drawn down on these letters of credit.

(c) Legal matters

The Company is engaged in several matters of litigation arising in the ordinary course of its business as a franchisor. Such matters include disputes related to compliance with the terms of franchise and development agreements, including claims or threats of claims of breach of contract, negligence, and other alleged violations by the Company. As of September 29, 2018 and December 30, 2017, \$1.9 million and \$3.6 million, respectively, was included in other current liabilities in the consolidated balance sheets to reflect the Company's estimate of the probable losses incurred in connection with all outstanding litigation.

(12) Income taxes

Tax Reform

On December 22, 2017, the U.S. federal government enacted comprehensive tax legislation commonly referred to as the Tax Cuts and Jobs Act (the “Tax Act”). The Tax Act significantly changes U.S. tax law by, among other things, reducing the corporate income tax rate from 35% to 21% effective January 1, 2018, establishing a territorial-style system for taxing foreign-source income of domestic multinational corporations, and imposing a one-time mandatory transition tax on deemed repatriated

Table of Contents

earnings of certain foreign joint ventures and subsidiaries. As a result of the Tax Act, the Company recorded a provisional net tax benefit of \$143.4 million during fiscal year 2017.

The provisional amount included a \$145.1 million tax benefit for the remeasurement of certain U.S. deferred tax assets and liabilities. In addition, the provisional amount included a \$1.7 million tax expense for the income tax on the deemed repatriation of unremitted foreign earnings, net of estimated foreign tax credits. The provisional net tax benefit was computed based on information available to the Company at the time. There have been no material changes to these provisional amounts during the nine months ended September 29, 2018. There is still uncertainty as to the application of the Tax Act, including as it relates to state income taxes, because, while some regulations have been released, the guidance is not complete. Certain estimates which were used in computing the provisional amount were finalized upon the filing of the Company's 2017 U.S. federal tax return with no material change to the provisional amount. As we complete our analysis of U.S. tax reform in fiscal year 2018, we may make adjustments to the provisional amounts, which may impact our provision for income taxes in the period in which the adjustments are made.

Forward-Looking Statements

Certain statements contained herein are not based on historical fact and are "forward-looking statements" within the meaning of the applicable securities laws and regulations. Generally, these statements can be identified by the use of words such as "anticipate," "believe," "could," "estimate," "expect," "feel," "forecast," "intend," "may," "plan," "potential," "predict," or "would," and similar expressions intended to identify forward-looking statements, although not all forward-looking statements contain these identifying words. These forward-looking statements include all matters that are not historical facts.

By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. These risks and uncertainties include, but are not limited to: the ongoing level of profitability of franchisees and licensees; our franchisees' and licensees' ability to sustain same store sales growth; successful westward expansion; changes in working relationships with our franchisees and licensees and the actions of our franchisees and licensees; our master franchisees' relationships with sub-franchisees; the success of our investments in the Dunkin' U.S. Blueprint for Growth; the strength of our brand in the markets in which we compete; changes in competition within the quick service restaurant segment of the food industry; changes in consumer behavior resulting from changes in technologies or alternative methods of delivery; economic and political conditions in the countries where we operate; our substantial indebtedness; our ability to protect our intellectual property rights; consumer preferences, spending patterns and demographic trends; the impact of seasonal changes, including weather effects, on our business; the success of our growth strategy and international development; changes in commodity and food prices, particularly coffee, dairy products and sugar, and other operating costs; shortages of coffee; failure of our network and information technology systems; interruptions or shortages in the supply of products to our franchisees and licensees; the impact of food borne-illness or food safety issues or adverse public or media opinions regarding the health effects of consuming our products; our ability to collect royalty payments from our franchisees and licensees; uncertainties relating to litigation; the ability of our franchisees and licensees to open new restaurants and keep existing restaurants in operation; our ability to retain key personnel; any inability to protect consumer credit card data and catastrophic events.

Forward-looking statements reflect management's analysis as of the date of this quarterly report. Important factors that could cause actual results to differ materially from our expectations are more fully described in our other filings with the Securities and Exchange Commission, including under the section headed "Risk Factors" in our most recent annual report on Form 10-K. Except as required by applicable law, we do not undertake to publicly update or revise any of these forward-looking statements, whether as a result of new information, future events or otherwise.

Introduction and overview

We are one of the world's leading franchisors of quick service restaurants ("QSRs") serving hot and cold coffee and baked goods, as well as hard serve ice cream. We franchise restaurants under our Dunkin' and Baskin-Robbins brands. With more than 20,700 points of distribution in more than 60 countries worldwide, we believe that our portfolio has strong brand awareness in our key markets. QSR is a restaurant format characterized by counter or drive-thru ordering and limited or no table service. As of September 29, 2018, Dunkin' had 12,740 global points of distribution with restaurants in 43 U.S. states, the District of Columbia, and 42 foreign countries. Baskin-Robbins had 8,024 global points of distribution as of the same date, with restaurants in 44 U.S. states, the District of Columbia, Puerto Rico, and 54 foreign countries.

We are organized into five reporting segments: Dunkin' U.S., Dunkin' International, Baskin-Robbins U.S., Baskin-Robbins International, and U.S. Advertising Funds. We generate revenue from five primary sources:

(i) royalty income and franchise fees associated with franchised restaurants, (ii) continuing advertising fees from Dunkin' and Baskin-Robbins franchisees and breakage and other revenue related to the gift card program, (iii) rental income from restaurant properties that we lease or sublease to franchisees, (iv) sales of ice cream and other products to franchisees in certain international markets, and (v) other income including fees for the licensing of our brands for products sold in certain retail outlets, the licensing of the rights to manufacture Baskin-Robbins ice cream products sold to U.S. franchisees, refranchising gains, transfer fees from franchisees, and online training fees.

Franchisees fund the vast majority of the cost of new restaurant development. As a result, we are able to grow our system with lower capital requirements than many of our competitors. With no company-operated points of distribution as of September 29, 2018, we are less affected by store-level costs, profitability, and fluctuations in commodity costs than other QSR operators.

We operate and report financial information on a 52- or 53-week year on a 13-week quarter basis with the fiscal year ending on the last Saturday in December and fiscal quarters ending on the 13th Saturday of each quarter (or 14th Saturday when applicable with respect to the fourth fiscal quarter). The data periods contained within the three- and nine-month periods ended September 29, 2018 and September 30, 2017 reflect the results of operations for the 13-week and 39-week periods ended on

those dates. Operating results for the three- and nine-month periods ended September 29, 2018 are not necessarily indicative of the results that may be expected for the fiscal year ending December 29, 2018.

As a result of the adoption of new guidance related to revenue recognition during fiscal year 2018 (see [note 3](#) of the unaudited consolidated financial statements included herein), all prior period amounts included below have been restated to reflect the new guidance.

Our financial results are largely driven by changes in systemwide sales, which include sales by all points of distribution, whether owned by our franchisees or joint ventures. While we do not record sales by franchisees or joint ventures as revenue, and such sales are not included in our consolidated financial statements, we believe that this operating measure is important in obtaining an understanding of our financial performance. We believe systemwide sales information aids in understanding how we derive royalty revenue and in evaluating our performance relative to competitors.

Comparable store sales growth (decline) for Dunkin' U.S. and Baskin-Robbins U.S. is calculated by including only sales from franchisee-operated restaurants that have been open at least 78 weeks and that have reported sales in the current and comparable prior year week. Comparable store sales growth (decline) for Dunkin' International and Baskin-Robbins International generally represents the growth (decline) in local currency average monthly sales for franchisee-operated restaurants, including joint ventures, that have been open at least 13 months and that have reported sales in the current and comparable prior year month.

Overall growth in systemwide sales of 5.2% and 4.9% for the three- and nine-month periods ended September 29, 2018 over the same periods in the prior fiscal year resulted from the following:

Dunkin' U.S. systemwide sales growth of 4.6% and 4.1% for the three and nine months ended September 29, 2018, respectively, was primarily a result of 298 net new restaurants opened since September 30, 2017 and comparable store sales growth of 1.3% and 0.8%, respectively. The increases in comparable store sales were driven by increased average ticket, offset by a decline in traffic. Comparable store sales growth for the three and nine months ended September 29, 2018 was driven primarily by beverage sales, including iced coffee and frozen beverages, and breakfast sandwich sales.

Dunkin' International systemwide sales growth of 2.9% for the three months ended September 29, 2018 was driven by sales growth in the Middle East, offset by a sales decline in Asia. For the three months ended September 29, 2018, sales in Asia were negatively impacted by unfavorable foreign exchange rates. Dunkin' International systemwide sales growth of 6.6% for the nine months ended September 29, 2018 was driven by sales growth across all regions. For the nine months ended September 29, 2018, sales in South Korea, Europe, and Latin America were positively impacted by

foreign exchange rates, while sales in Asia were negatively impacted by unfavorable foreign exchange rates. On a constant currency basis, systemwide sales increased by approximately 5% for each of the each of the three- and nine-month periods ended September 29, 2018. Dunkin' International comparable store sales grew 2.5% and 2.6% for the three and nine months ended September 29, 2018, respectively, due primarily to growth in the Middle East, Asia, and Latin America, offset by a decline in Europe.

Baskin-Robbins U.S. systemwide sales grew 2.0% and 1.5% for the three and nine months ended September 29, 2018, respectively, primarily as a result of comparable store sales growth of 1.8% and 0.1%, respectively, offset by four net restaurant closures since September 30, 2017. The increases in comparable store sales were driven by increased average ticket, offset by a decline in traffic. Sales of beverages, including shakes and smoothies, as well as the take-home category, grew during the three and nine months ended September 29, 2018.

Baskin-Robbins International systemwide sales growth of 11.3% and 10.6% for the three and nine months ended September 29, 2018, respectively, was driven by sales growth in South Korea, the Middle East, Japan, and Canada. Sales in Asia declined for the three-month period, while they grew for the nine-month period. For the three months ended September 29, 2018, sales in South Korea were positively impacted by favorable foreign exchange rates, while all other regions were negatively impacted by unfavorable foreign exchange rates. For the nine months ended September 29, 2018, sales in South Korea, Japan, and Asia were positively impacted by favorable foreign exchange rates. On a constant currency basis, systemwide sales increased by approximately 12% and 8% for the three and nine months ended September 29, 2018, respectively. Baskin-Robbins International comparable store sales growth of 7.5% and 4.6% for the three and nine months ended September 29, 2018, respectively, was driven primarily by growth in South Korea.

Changes in systemwide sales are impacted, in part, by changes in the number of points of distribution. Points of distribution and net openings as of and for the three and nine months ended September 29, 2018 and September 30, 2017 were as follows:

	September 29, 2018		September 30, 2017	
Points of distribution, at period end:				
Dunkin' U.S.	9,313		9,015	
Dunkin' International	3,427		3,420	
Baskin-Robbins U.S.	2,558		2,562	
Baskin-Robbins International	5,466		5,382	
Consolidated global points of distribution	20,764		20,379	
	Three months ended September 29, 2018		Nine months ended September 30, 2017	
Net openings (closings) during the period:				
Dunkin' U.S.	52	67	172	187
Dunkin' International	12	18	30	(10)
Baskin-Robbins U.S.	(3)	11	(2)	24
Baskin-Robbins International	16	41	44	98
Consolidated global net openings	77	137	244	299

Total revenues for the three and nine months ended September 29, 2018 increased \$19.9 million, or 6.0%, and \$41.4 million, or 4.3%, respectively, due primarily to increases in franchise fees and royalty income driven by Dunkin' U.S. systemwide sales growth, as well as advertising fees and related income. The increases in advertising fees and related income were due primarily to additional gift card program service fees and increases in advertising fees, offset by declines in breakage income. Also contributing to the increases in revenues were increases in sales of ice cream and other products, as well as increases in other revenues driven primarily by license fees related to Dunkin' K-Cup® pods. Operating income and adjusted operating income for the three months ended September 29, 2018 increased \$6.3 million, or 6.0%, and \$5.7 million, or 5.2%, respectively, from the prior year period. Operating income and adjusted operating income for the nine months ended September 29, 2018 increased \$16.4 million, or 5.5%, and \$16.9 million,

or 5.3%, respectively, from the prior year period. The increases were primarily a result of the increases in royalty income, offset by increases in general and administrative expenses, decreases in net margin on ice cream due primarily to an increase in commodity costs, and decreases in net income from our Japan joint venture. Additionally, an increase in net income from our South Korea joint venture contributed to the increases in operating income and adjusted operating income for the three-month period. The increases in

Table of Contents

general and administrative expenses were due primarily to expenses incurred in connection with our 2018 Global Convention held in the third quarter of fiscal year 2018 as well as expenses incurred in fiscal year 2018 to support initiatives for the Dunkin' U.S. Blueprint for Growth, our multi-year strategic growth plan.

Net income and adjusted net income for the three months ended September 29, 2018 increased \$24.9 million, or 60.5%, and \$25.2 million, or 56.3%, respectively. Net income and adjusted net income for the nine months ended September 29, 2018 increased \$40.2 million, or 29.4%, and \$42.5 million, or 29.0%, respectively. These increases were primarily a result of decreases in income tax expense and the increases in operating income and adjusted operating income, offset by increases in net interest expense. The decreases in income tax expense were driven by a lower tax rate due to the enactment of the Tax Cuts and Jobs Act in the fourth quarter of fiscal year 2017, a valuation allowance recorded on foreign tax credit carryforwards of \$8.9 million in the third quarter of fiscal year 2017, and increases in excess tax benefits from share-based compensation. The increase in net interest expense was driven by additional borrowings incurred in conjunction with the refinancing transaction completed during the fourth quarter of fiscal year 2017.

Adjusted operating income and adjusted net income are non-GAAP measures reflecting operating income and net income adjusted for amortization of intangible assets, long-lived asset impairments, and certain other non-recurring, infrequent, or unusual charges, net of the tax impact of such adjustments in the case of adjusted net income. We use adjusted operating income and adjusted net income as key performance measures for the purpose of evaluating performance internally. We also believe adjusted operating income and adjusted net income provide our investors with useful information regarding our historical operating results. These non-GAAP measurements are not intended to replace the presentation of our financial results in accordance with GAAP. Use of the terms adjusted operating income and adjusted net income may differ from similar measures reported by other companies.

Adjusted operating income and adjusted net income are reconciled from operating income and net income, respectively, determined under GAAP as follows:

	Three months ended September 29, 2018 September 30, 2017		Nine months ended September 29, 2018 September 30, 2017

Table of Contents

Diluted adjusted earnings per share is calculated using adjusted net income, as defined above, and diluted weighted average shares outstanding. Diluted adjusted earnings per share is not a presentation made in accordance with GAAP, and our use of the term diluted adjusted earnings per share may vary from similar measures reported by others in our industry due to the potential differences in the method of calculation. Diluted adjusted earnings per share should not be considered as an alternative to earnings per share derived in accordance with GAAP. Diluted adjusted earnings per share has important limitations as an analytical tool and should not be considered in isolation or as a substitute for analysis of our results as reported under GAAP. Because of these limitations, we rely primarily on our GAAP results. However, we believe that presenting diluted adjusted earnings per share is appropriate to provide investors with useful information regarding our historical operating results.

The following table sets forth the computation of diluted adjusted earnings per share:

	Three months ended		Nine months ended

Also contributing to the increases in revenues were increases in sales of ice cream and other products as well as increases in other revenues driven primarily by license fees related to Dunkin' K-Cup® pods. The additional gift card program service fees were collected beginning in the second quarter of 2018 to cover certain gift card program costs, and such fees may not be required to be collected in future periods.

Occupancy expenses for franchised restaurants for the three and nine months ended September 29, 2018 decreased \$0.6 million and \$0.7 million, respectively, due primarily to expenses incurred in the prior year periods to record lease-related liabilities.

Net margin on ice cream and other products for the three and nine months ended September 29, 2018 decreased \$0.2 million, or 4.3%, and \$2.0 million, or 12.4%, respectively, due primarily to an increase in commodity costs.

Advertising expenses for the three and nine months ended September 29, 2018 increased \$9.7 million and \$19.5 million, respectively, driven by the increases in advertising fees and related income.

General and administrative expenses for the three and nine months ended September 29, 2018 increased \$3.4 million and \$1.1 million, respectively, due primarily to expenses incurred in connection with our 2018 Global Convention held in the third quarter of fiscal year 2018, as well as expenses incurred in fiscal year 2018 to support the Dunkin' U.S. Blueprint for Growth initiatives. Offsetting these increases in general and administrative expenses were decreases in personnel costs and other general expenses.

Depreciation and amortization for each of the three- and nine-month periods ended September 29, 2018 decreased \$0.1 million resulting primarily from a decrease in amortization due to favorable lease intangible assets being written off upon termination of the related leases.

Long-lived asset impairment charges decreased \$0.5 million for the three months ended September 29, 2018, whereas such charges increased \$0.6 million for the nine months ended September 29, 2018. Long-lived asset impairment charges generally fluctuate based on the timing of lease terminations and the related write-off of favorable lease intangible assets and leasehold improvements.

Net income of equity method investments for the three months ended September 29, 2018 increased \$0.3 million primarily as a result of an increase in net income from our South Korea joint venture, offset by a decrease in net income from our Japan joint

venture. Net income of equity method investments for the nine months ended September 29, 2018 decreased \$0.9 million primarily as a result of a decrease in net income from our Japan joint venture.

Other operating income (loss), net, which includes net gains and losses recognized in connection with the sale or disposal of property, equipment, and software, fluctuates based on the timing of such transactions.

Total other expense	\$30,103	23,657	6,446	27.2%	\$92,559	72,452	20,107	27.8%

Net interest expense increased \$6.2 million and \$19.0 million for the three and nine months ended September 29, 2018, respectively, driven primarily by the securitization refinancing transaction that occurred in October 2017, which resulted in additional borrowings and an increase in the weighted average interest rate, offset by an increase in interest income earned on our cash balances.

The fluctuation in other losses (income), net, for the three and nine months ended September 29, 2018 resulted primarily from net foreign exchange gains and losses driven primarily by fluctuations in the U.S. dollar against foreign currencies.

Effective tax rate	18.9 %	49.6 %	20.7 %	39.7 %

The decreases in the effective tax rate for the three and nine months ended September 29, 2018 were driven primarily by the enactment of the Tax Cuts and Jobs Act in the fourth quarter of fiscal year 2017, which reduced the corporate tax rate. Additionally, a valuation allowance recorded on foreign tax credit carryforwards of \$8.9 million in the third quarter of fiscal year 2017 unfavorably impacted the provision for income taxes in the prior year periods. Excess tax benefits from share-based compensation also reduced the provision for income taxes by \$7.4 million and \$16.4 million for the three and nine months ended September 29, 2018, respectively, compared to \$0.5 million and \$7.3 million for the three and nine months ended September 30, 2017, respectively.

Operating segments

We operate five reportable operating segments: Dunkin' U.S., Dunkin' International, Baskin-Robbins U.S., Baskin-Robbins International, and U.S. Advertising Funds. We evaluate the performance of our segments and allocate resources to them based on operating income adjusted for amortization of intangible assets, long-lived asset impairment charges, and other infrequent or unusual charges, which does not reflect the allocation of any corporate charges. This profitability measure is referred to as segment profit. Segment profit for the Dunkin' International and Baskin-Robbins International segments includes net income of equity method investments, except for other-than-temporary impairment charges and the related reduction in depreciation, net of tax, on the underlying long-lived assets.

For reconciliations to total revenues and income before income taxes, see [note 6](#) to the unaudited consolidated financial statements included herein. Revenues for all segments include only transactions with unaffiliated customers and include no intersegment revenues. Revenues not included in segment revenues include revenue earned through certain licensing arrangements with third parties in which our brand names are used, revenue generated from online training programs for franchisees, and breakage and other revenue related to the gift card program, all of which are not allocated to a specific segment. Additionally, allocation of the consideration from sales of ice cream and other products to royalty income as consideration for the use of the franchise license is not reflected within segment

revenues, but has no impact to total revenues for any segment.

Dunkin' U.S. revenues increased \$6.1 million and \$16.4 million for the three and nine months ended September 29, 2018, respectively, due primarily to increases in royalty income driven by systemwide sales growth, as well as increases in franchise fees.

Dunkin' U.S. segment profit increased \$6.3 million and \$13.1 million for the three and nine months ended September 29, 2018, respectively, which was driven primarily by the increases in royalty income and franchise fees, as well as an increase in rental margin due primarily to expenses incurred in the prior year periods to record lease-related liabilities. These increases were offset by increases in general and administrative expenses, due primarily to expenses incurred in fiscal year 2018 to support the Dunkin' U.S. Blueprint for Growth initiatives.

Dunkin' International revenues for the three and nine months ended September 29, 2018 increased by \$1.3 million and \$2.5 million, respectively, primarily as a result of increases in royalty income driven by systemwide sales growth, as well as an increase in franchise fees due primarily to recognition of deferred revenue upon the closure of certain international markets.

Segment profit for Dunkin' International for the three and nine months ended September 29, 2018 increased \$3.4 million and \$7.1 million, respectively, primarily as a result of the increases in revenues, as well as decreases in general and administrative expenses due primarily to decreases in personnel costs.

Baskin-Robbins U.S. revenues for the three and nine months ended September 29, 2018 increased \$0.4 million and \$0.1 million, respectively, due primarily to increases in franchise fees and sales of ice cream products. The increases for the nine-month period were offset by decreases in royalty income and other revenues, whereas an increase in royalty income contributed to the increase in revenues for the three-month period.

Baskin-Robbins U.S. segment profit for the three months ended September 29, 2018 increased \$0.1 million primarily as a result of the increases in franchise fees and royalty income, offset by an increase in general and administrative expenses.

Baskin-Robbins U.S. segment profit for the nine months ended September 29, 2018 decreased \$0.2 million, primarily as a result of an increase in general and administrative expenses, as well as the decreases in royalty income and other revenues, offset by the increase in franchise fees.

Baskin-Robbins International revenues for the three and nine months ended September 29, 2018 increased \$2.2 million and \$1.8 million, respectively, due primarily to increases in sales of ice cream products and royalty income.

Baskin-Robbins International segment profit for the three months ended September 29, 2018 increased \$0.4 million primarily as a result of an increase in net income from our South Korea joint venture, a decrease in general and administrative expenses, and an increase in royalty income, offset by a decrease in net margin on ice cream driven primarily by an increase in commodity costs, as well as a decrease in net income from our Japan joint venture.

Baskin-Robbins International segment profit for the nine months ended September 29, 2018 decreased \$1.3 million as a result of a decrease in net margin on ice cream driven primarily by an increase in commodity costs, as well as a decrease in net income from our Japan joint venture. U.S. Advertising Funds revenues for the three and nine months ended September 29, 2018 increased \$4.3 million, or 3.8%, and \$11.5 million, or 3.5%, respectively, compared to the prior year periods due primarily to Dunkin' U.S. systemwide sales growth. Expenses for the U.S. Advertising Funds were equivalent to revenues in each period, resulting in no segment profit.

Liquidity and capital resources

As of September 29, 2018, we held \$428.2 million of cash and cash equivalents and \$79.4 million of short-term restricted cash that was restricted under our securitized financing facility. Included in cash and cash equivalents is \$132.1 million of cash held for advertising funds and reserved for gift card/certificate programs. In addition, as of September 29, 2018, we had a borrowing capacity of \$117.6 million under our \$150.0 million 2017 Variable Funding Notes (as defined below).

As a result of the adoption of new guidance related to revenue recognition during fiscal year 2018 (see [note 3](#) of the unaudited consolidated financial statements included herein), all prior period amounts included below have been restated to reflect the new guidance.

Operating, investing, and financing cash flows

Net cash provided by operating activities was \$126.5 million for the nine months ended September 29, 2018, as compared to \$126.2 million in the prior year period. The \$0.3 million increase in operating cash flows was driven primarily by a decrease in cash paid for income taxes, as well as favorable cash flows related to our gift card program due primarily to the timing of holidays and our prior year fiscal year end. Offsetting these increases in operating cash inflows were increases in cash paid for interest and other changes in working capital.

Net cash used in investing activities was \$41.4 million for the nine months ended September 29, 2018, as compared to \$13.8 million in the prior year period. The \$27.7 million increase in investing cash outflows was driven primarily by an increase in capital expenditures of \$27.8 million primarily due to investments in technology infrastructure to support the Dunkin' U.S. Blueprint for Growth strategy.

Net cash used in financing activities was \$689.5 million for the nine months ended September 29, 2018, as compared to \$201.1 million in the prior year period. The \$488.4 million increase in financing cash outflows was driven primarily by incremental cash used in the current year period for repurchases of common stock of \$523.2 million, as well as an increase in the repayment of long-term debt of \$4.9 million primarily as a result of the refinancing completed in October 2017. Offsetting these increases in financing cash outflows was incremental cash generated from the exercise of stock options in the current year period of \$38.4 million, as well as a decrease in cash used to pay quarterly dividends of \$1.9 million.

Adjusted operating and investing cash flow

Net cash flows from operating and investing activities for the nine months ended September 29, 2018 and September 30, 2017 include decreases of \$43.6 million and \$69.2 million, respectively, in cash held for advertising funds and reserved for gift card/certificate programs, which were primarily driven by the timing of holidays relative to our fiscal year end. Excluding cash held for advertising funds and reserved for gift card/certificate programs, we generated \$128.7 million and \$181.7 million of adjusted operating and investing cash flow during the nine months ended September 29, 2018 and September 30, 2017, respectively. The decrease in adjusted operating and investing cash flow was driven primarily by an increase in capital expenditures, an increase in cash paid for interest, and other changes in working capital, offset by a decrease in cash paid for income taxes.

Adjusted operating and investing cash flow is a non-GAAP measure reflecting net cash provided by operating and investing activities, excluding the cash flows related to advertising funds and gift card/certificate programs. We use adjusted operating and investing cash flow as a key liquidity measure for the purpose of evaluating our ability to generate cash. We also believe adjusted operating and investing cash flow provides our investors with useful information regarding our historical cash flow results. This non-GAAP measurement is not intended to replace the presentation of our financial results in accordance with

Table of Contents

GAAP, and adjusted operating and investing cash flow does not represent residual cash flows available for discretionary expenditures. Use of the term adjusted operating and investing cash flow may differ from similar measures reported by other companies.

Adjusted operating and investing cash flow is reconciled from net cash provided by operating activities determined under GAAP as follows (in thousands):

	Nine months ended September 29, 2018	September 30, 2017
Net cash provided by operating activities	\$ 126,529	126,180
Plus: Decrease in cash held for advertising funds and gift card/certificate programs	43,575	69,224

Adjusted operating and investing cash flow	\$ 128,674	181,654
Borrowing capacity		

As of September 29, 2018, our securitized financing facility included original borrowings of approximately \$1.75 billion, \$1.40 billion, and \$150.0 million related to the 2015 Class A-2-II Notes (as defined below), the 2017 Class A-2 Notes (as defined below), and the 2017 Variable Funding Notes (as defined below), respectively. As of September 29, 2018, there was approximately \$3.08 billion of total principal outstanding on the 2015 Class A-2-II Notes and 2017 Class A-2 Notes, while there was \$117.6 million in available commitments under the 2017 Variable Funding Notes as \$32.4 million of letters of credit were outstanding.

In January 2015, DB Master Finance LLC (the “Master Issuer”), a limited-purpose, bankruptcy-remote, wholly-owned indirect subsidiary of Dunkin’ Brands Group, Inc. (“DBGI”), issued Series 2015-1 3.262% Fixed Rate Senior Secured Notes, Class A-2-I (the “2015 Class A-2-I Notes”) with an initial principal amount of \$750.0 million and Series 2015-1 3.980% Fixed Rate Senior Secured Notes, Class A-2-II (the “2015 Class A-2-II Notes” and, together with the 2015 Class A-2-I Notes, the “2015 Class A-2 Notes”) with an initial principal amount of \$1.75 billion. In addition, the Master Issuer also issued Series 2015-1 Variable Funding Senior Secured Notes, Class A-1 (the “2015 Variable Funding Notes” and, together with the 2015 Class A-2 Notes, the “2015 Notes”), which allowed the Master Issuer to borrow up to \$100.0 million on a revolving basis. The 2015 Variable Funding Notes could also be used to issue letters of credit. In October 2017, the Master Issuer issued Series 2017-1 3.629% Fixed Rate Senior Secured Notes, Class A-2-I (the “2017 Class A-2-I Notes”) with an initial principal amount of \$600.0 million and Series 2017-1 4.030% Fixed Rate Senior Secured Notes, Class A-2-II (the “2017 Class A-2-II Notes” and, together with the 2017 Class A-2-I Notes, the “2017 Class A-2 Notes”) with an initial principal amount of \$800.0 million. In addition, the Master Issuer issued Series 2017-1 Variable Funding Senior Secured Notes, Class A-1 (the “2017 Variable Funding Notes” and, together with the 2017 Class A-2 Notes, the “2017 Notes”), which allows for the issuance of up to \$150.0 million of 2017 Variable Funding Notes and certain other credit instruments, including letters of credit.

A portion of the proceeds of the 2017 Notes was used to repay the remaining \$731.3 million of principal outstanding on the 2015 Class A-2-I Notes and to pay related transaction fees. The additional net proceeds were used for general corporate purposes, which included a return of capital to the Company’s shareholders in 2018, as discussed below. In connection with the issuance of the 2017 Variable Funding Notes, the Master Issuer terminated the commitments with respect to its existing 2015 Variable Funding Notes.

The 2015 Notes and 2017 Notes were issued pursuant to a base indenture and related supplemental indentures (collectively, the “Indenture”) under which the Master Issuer may issue multiple series of notes. The legal final maturity date of the 2015 Class A-2-II Notes and 2017 Class A-2 Notes is in February 2045 and November 2047, respectively,

but it is anticipated that, unless earlier prepaid to the extent permitted under the Indenture, the 2015 Class A-2-II Notes will be repaid by February 2022, the 2017 Class A-2-I Notes will be repaid by November 2024, and the 2017 Class A-2-II Notes will be repaid by November 2027 (the “Anticipated Repayment Dates”). Principal amortization payments, payable quarterly, are required to be made on the 2015 Class A-2-II Notes, 2017 Class A-2-I Notes, and 2017 Class A-2-II Notes equal to \$17.5 million, \$6.0 million, and \$8.0 million, respectively, per calendar year through the respective Anticipated Repayment Dates. No principal payments are required if a specified leverage ratio, which is a measure of outstanding debt to earnings before interest, taxes, depreciation, and amortization, adjusted for certain items (as specified in the Indenture), is less than or equal to 5.0 to 1.0. If the 2015 Class A-2-II Notes or the 2017 Class A-2 Notes have not been repaid or refinanced by their respective Anticipated Repayment Dates, a rapid amortization event will occur in which residual net cash flows of the Master Issuer, after making certain required payments, will be applied to the outstanding principal of the 2015 Class A-2-II Notes and the 2017 Class A-2 Notes. Various

Table of Contents

other events, including failure to maintain a minimum ratio of net cash flows to debt service, may also cause a rapid amortization event.

It is anticipated that the principal and interest on the 2017 Variable Funding Notes will be repaid in full on or prior to November 2022, subject to two additional one-year extensions.

In February 2018, we entered into two accelerated share repurchase agreements (the “February 2018 ASR Agreements”) with two third-party financial institutions. Pursuant to the terms of the February 2018 ASR Agreements, we paid the financial institutions \$650.0 million from cash on hand and received initial deliveries totaling 8,478,722 shares of our common stock on February 16, 2018, representing an estimate of 80% of the total shares expected to be delivered under the February 2018 ASR Agreements. Upon final settlement of the February 2018 ASR Agreements in August 2018, we received additional deliveries totaling 1,691,832 shares of our common stock based on a weighted average cost per share of \$63.91 over the term of the February 2018 ASR Agreements.

In order to assess our current debt levels, including servicing our long-term debt, and our ability to take on additional borrowings, we monitor a leverage ratio of our long-term debt, net of cash (“Net Debt”), to adjusted earnings before interest, taxes, depreciation, and amortization (“Adjusted EBITDA”). This leverage ratio, and the related Net Debt and Adjusted EBITDA measures used to compute it, are non-GAAP measures, and our use of the terms Net Debt and Adjusted EBITDA may vary from other companies, including those in our industry, due to the potential inconsistencies in the method of calculation and differences due to items subject to interpretation. Net Debt reflects the gross principal amount outstanding under our securitized financing facility, notes payable, and capital lease obligations, less short-term cash, cash equivalents, and restricted cash, excluding cash reserved for gift card/certificate programs. Adjusted EBITDA is defined in our securitized financing facility as net income before interest, taxes, depreciation and amortization, and impairment charges, as adjusted for certain items that are summarized in the table below. Net Debt should not be considered as an alternative to debt, total liabilities, or any other obligations derived in accordance with GAAP. Adjusted EBITDA should not be considered as an alternative to net income, operating income, or any other performance measures derived in accordance with GAAP, as a measure of operating performance, or as an alternative to cash flows as a measure of liquidity. Net Debt, Adjusted EBITDA, and the related leverage ratio have important limitations as analytical tools and should not be considered in isolation or as a substitute for analysis of our results as reported under GAAP. However, we believe that presenting Net Debt, Adjusted EBITDA, and the related leverage ratio are appropriate to provide additional information to investors to demonstrate our current debt levels and ability to take on additional borrowings.

Table of Contents

As of September 29, 2018, we had a Net Debt to Adjusted EBITDA ratio of 5.2 to 1.0. The following is a reconciliation of our Net Debt and Adjusted EBITDA to the corresponding GAAP measures as of and for the twelve months ended September 29, 2018, respectively (in thousands):

Based upon our current level of operations and anticipated growth, we believe that the cash generated from our operations and amounts available under our 2017 Variable Funding Notes will be adequate to meet our anticipated debt service requirements, capital expenditures, and working capital needs for at least the next twelve months. We believe that we will be able to meet these obligations even if we experience no growth in sales or profits. There can be no assurance, however, that our business will generate sufficient cash flows from operations or that future borrowings will be available under our 2017 Variable Funding Notes or otherwise to enable us to service our indebtedness, including our securitized financing facility, or to make anticipated capital expenditures. Our future operating performance and our ability to service, extend, or refinance the securitized financing facility will be subject to future economic conditions and to financial, business, and other factors, many of which are beyond our control.

Item 4. Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures as of September 29, 2018. The term “disclosure controls and procedures,” as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (“Exchange Act”), means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company’s management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Based on the evaluation of our disclosure controls and procedures as of September 29, 2018, our Chief Executive Officer and Chief Financial Officer concluded that, as of such date, our disclosure controls and procedures were effective.

During the nine month period ended September 29, 2018, we adopted new revenue recognition guidance. We implemented internal controls to ensure we adequately evaluated our contracts with customers and properly assessed the impact of the new guidance to facilitate the adoption. Additionally, we implemented new business processes, internal controls, and modified information technology systems to assist in the ongoing application of the new guidance.

Part II. Other Information

Item 1. Legal Proceedings

We are engaged in several matters of litigation arising in the ordinary course of our business as a franchisor. Such matters include disputes related to compliance with the terms of franchise and development agreements, including claims or threats of claims of breach of contract, negligence, and other alleged violations by us. As of September 29, 2018, \$1.9 million is recorded within other current liabilities in the consolidated balance sheet in connection with all outstanding litigation.

Item 1A. Risk Factors.

There have been no material changes from the risk factors disclosed in Part I, Item 1A “Risk Factors” included in our Annual Report on Form 10-K for the fiscal year ended December 30, 2017.

Total	1,691,832	\$ 63.91	1,691,832	

In February 2018, the Company entered into two accelerated share repurchase agreements (the “February 2018 ASR Agreements”) with two third-party financial institutions. Pursuant to the terms of the February 2018 ASR Agreements, the Company paid the financial institutions \$650.0 million from cash on hand and received initial deliveries totaling 8,478,722 shares of the Company's common stock in February 2018, representing an estimate of 80% of the total shares expected to be delivered under the February 2018 ASR Agreements. Upon final settlement of the February 2018 ASR Agreements in August 2018, the Company received additional deliveries totaling 1,691,832 shares of its common stock based on a weighted average cost per share of \$63.91 over the term of the February 2018 ASR Agreements.

On May 16, 2018, our board of directors authorized a new share repurchase program for up to an aggregate of \$250.0 million of our outstanding common stock. This repurchase authorization is valid for a period of two years. Under the program, purchases may be made in the open market or in privately negotiated transactions from time to time subject to market conditions.
