PROXY STATEMENT

ANNUAL MEETING OF STOCKHOLDERS

To be held on Thursday, June 13, 2019

This Proxy Statement is furnished by the Board of Directors of Research Frontiers Incorporated (the “Company”) in connection with the solicitation by the Company of proxies to be voted at the Annual Meeting of Stockholders which will be held at the Company’s corporate offices located at 240 Crossways Park Drive, Woodbury, New York 11797, on June 13, 2019 at 11:00 A.M., local time, and all adjournments thereof.

Any stockholder giving a proxy will have the right to revoke it at any time prior to the time it is voted. A proxy may be revoked by written notice to the Company, Attention: Secretary, by execution of a subsequent proxy or by attendance and voting in person at the Annual Meeting of Stockholders. Attendance at the meeting will not automatically revoke the proxy. All shares represented by effective proxies will be voted at the Annual Meeting of Stockholders, or at any adjournment thereof. Unless otherwise specified in the proxy, shares represented by proxies will be voted (i) for the election of the nominees for directors recommended by the Board of Directors listed below; (ii) for the ratification of the selection of the independent registered public accountants; and (iii) for the approval of the Company’s 2019 Equity Incentive Plan. The cost of proxy solicitations will be borne by the Company. In addition to solicitations of proxies by use of the mails, some officers or employees of the Company, without additional remuneration, may solicit proxies personally or by telephone. The Company will also request brokers, dealers, banks and their nominees to solicit proxies from their clients, where appropriate, and will reimburse them for reasonable expenses related thereto.

The Company’s executive offices are located at 240 Crossways Park Drive, Woodbury, New York 11797. The Company believes that it can learn from constructive dialog with stockholders and other stakeholders and therefore actively encourages communications with all such interested parties. All appropriate e-mail communications to Directors@SmartGlass.com will be forwarded to each director of the Company. Furthermore, subject to the limits imposed by U.S. Securities and Exchange Commission (“SEC”) regulations regarding disclosure of information that is not made generally available to all stockholders at the same time, we will endeavor to respond to specific questions or suggestions which, in the opinion of management or the Board, merit individual response. On or about May 2, 2019 this Proxy Statement and the accompanying form of proxy, together with a copy of the Annual Report of the Company for the year ended December 31, 2018, including financial statements, are to be mailed to each stockholder of record at the close of business on April 18, 2019.

IMPORTANT NOTICE REGARDING THE AVAILABILITY OF PROXY MATERIALS FOR THE ANNUAL MEETING OF STOCKHOLDERS TO BE HELD ON JUNE 13, 2019.

This Proxy Statement is available at www.smartglass.com/proxy.asp.

VOTING SECURITIES AND SECURITY OWNERSHIP

Shares Entitled to Vote, Quorum and Required Vote

Only stockholders of record at the close of business on April 18, 2019 are entitled to vote at the meeting. As of April 25, 2019, the Company had issued and outstanding and entitled to vote 28,804,528 shares of common stock, par value \$0.0001 per share (the “Common Stock”), the Company’s only class of voting securities outstanding. Each share of Common Stock entitles the holder thereof to one vote.

As a stockholder of record, you may vote in person at the Annual Meeting or you may vote by proxy without attending the meeting. If you are a registered stockholder, you may vote your shares by giving a proxy via mail, telephone or internet. To vote your proxy by mail, indicate your voting choices, sign and date your proxy card and return it in the postage-paid envelope provided. You may vote by telephone or internet by following the instructions on your proxy card. If you hold your shares through a broker, bank or other nominee, that institution will send you separate instructions describing the procedure for voting your shares.

If you provide a properly executed proxy before voting at the Annual Meeting is closed, the persons listed on the proxy card will vote your shares of Common Stock in accordance with your directions. If you do not indicate how your shares are to be voted, the persons listed on the proxy card will vote your shares as recommended by the Board of Directors. The persons listed on the proxy card will also have the discretionary authority to vote on your behalf on any other matter that is properly brought before the Annual Meeting. If you wish to give a proxy to someone other than the persons listed on the proxy card, please cross out the names of the people listed on the proxy card and add the name of the person holding your proxy.

If we receive a valid proxy before voting at the Annual Meeting is closed, your shares are voted as indicated on the proxy card. If you indicate on your proxy card that you wish to “abstain” or “withhold,” as the case may be, from voting on an item, your shares will not be voted on that item.

If you do not provide voting instructions to your broker or nominee at least ten days before the Annual Meeting, that person has discretion to vote your shares on matters that the Nasdaq Capital Market has determined are routine. However, a broker or nominee cannot vote shares on non-routine matters without your instructions, and this is referred to as a “broker non-vote.”

Even though your broker may have discretionary authority under current Nasdaq Capital Market rules to vote your shares on your behalf on the proposal regarding the ratification of BDO USA, LLP as the independent registered public accountants of the Company for 2019, your broker does not have authority to vote on the election of directors or to vote to adopt the Research Frontiers Incorporated 2019 Equity Incentive Plan, so it is important that you vote your shares and send in your proxy.

The Annual Meeting cannot conduct business unless a quorum is present. In order to have a quorum, a majority of the shares of the Common Stock that are outstanding and entitled to vote at the meeting must be represented in person or by proxy. Abstentions and broker non-votes will be counted to determine whether there is a quorum present. If a quorum is not present, the Annual Meeting will be rescheduled for a later date.

A Director is elected by a plurality of the votes cast at the meeting and the nominee for the Class II director who receives the most votes will be elected. Please note that brokerage firms or other nominees may not vote your shares with respect to matters that are not “routine” under the rules. The rules were amended to provide that the election of directors is no longer a “routine” matter. Brokerage firms or other nominees may not vote your shares with respect to the election of directors or other nominees may not vote your shares without specific instructions from you as to how your shares are to be voted. Furthermore, brokerage firms or other nominees may not vote your shares with respect to the adoption of the Research Frontiers Incorporated 2019 Equity Incentive Plan. Broker non-votes will have no effect on the outcome of the vote.

The ratification and appointment of our independent registered public accounting firm for 2019 requires an affirmative majority of the total votes cast “FOR” and “AGAINST” to be approved. This matter is considered a “routine” under the rules and, therefore, brokerage firms and other nominees have the authority under the rules to vote your unvoted shares with respect to this matter if you have not furnished voting instructions within a specified period prior to the meeting. Abstentions will have the same effect as votes against the proposal. Broker non-votes will have no effect on the outcome of the vote.

Approval of the 2019 Equity Incentive Plan requires the affirmative vote of the holders of a majority of the shares of the Company’s Common Stock present, or represented, and entitled to vote at the Annual Meeting.

ELECTION OF DIRECTORS

(Item 1)

One director of the Company will be elected at the 2019 Annual Meeting of Stockholders.

The Board of Directors recommends a vote FOR Alexander Kaganowicz as a Class II director, and it is intended that proxies not marked to the contrary will be so voted.

Background

The Board of Directors is divided into three classes, Class I, Class II and Class III, which is intended to be as nearly equal in number as possible. Each class typically serves three years, with the terms of office of the respective classes expiring in successive years. The Company currently has four directors with three of these directors being independent directors. Two of these individuals are Class I directors, one of these individuals is a Class II director, and one of these individuals is a Class III director.

DIRECTOR RECOMMENDED BY THE BOARD OF DIRECTORS

The Board of Directors, upon recommendation of the Nominating and Corporate Governance Committee, proposes that Alexander Kaganowicz be elected to serve as a Class II director and hold office for a three-year term expiring at the 2022 Annual Meeting of Stockholders, and until the election and qualification of a respective successor. Mr. Kaganowicz (the “Board Nominee”) has indicated a willingness to serve as a director. If no other choice is specified in the accompanying proxy, the person named therein as proxies have advised the Board of Directors that it is their present intention to vote the proxy for the election of the Board Nominee. Each of the current members of the Board of Directors of the Company is presently a director of the Company and was elected to such office by the stockholders of the Company. Should a Board Nominee become unable to accept nomination or election, it is intended that the person named in the accompanying proxy will vote for the election of such other person as the Board of Directors may nominate in the place of such Board Nominee on the recommendation of the Nominating and Corporate Governance Committee. There is no indication at present that the Board Nominee will be unable to accept nomination.

We believe that the members of our Board of Directors represent a desirable mix of backgrounds, skills and experience. The following biographical information is provided with respect to each Board Nominee, including the specific experience, qualifications, attributes or skills that led to the conclusion that each Board Nominee should serve

CORPORATE GOVERNANCE

Board Leadership Structure and Risk Oversight

The Company has separated the positions of Chairman and Chief Executive Officer. The Company's founder, Robert L. Saxe, had served as the Company's Chairman since the Company's formation and a new Chairman has not been appointed since Mr. Saxe's death in 2016. The Company promoted the Company's President, Joseph M. Harary, to his current position as Chief Executive Officer effective in January 2009. We believe that the separation of responsibilities between the Chairman and Chief Executive allows the proper functioning of the Board of Directors while permitting Mr. Harary to focus on matters relating to the management of the Company. In addition, since the Board is responsible for the monitoring of the performance of the Company and of its Chief Executive Officer, the separation of roles of Chief Executive and Board Chairman, together with the fact that the majority of the Board members are independent under the applicable listing standards of the NASDAQ Capital Market, helps to ensure that these functions are properly executed. The committees of the Board are each chaired by an independent director. Mr. Gregory Grimes chairs the Compensation Committee, Mr. Alexander Kaganowicz chairs the Nominating and Corporate Governance Committee, and Mr. Darryl Daigle chairs the Audit Committee. Board Committee chairs are typically reviewed and determined annually after the Corporation's Annual Meeting of Stockholders.

Our Board oversees a Company-wide approach to risk management that is designed to support the achievement of organizational objectives, including strategic objectives, to improve long-term organizational performance and enhance stockholder value. A fundamental part of risk management is not only understanding the risks a company faces and what steps management is taking to manage those risks, but also understanding what level of risk is appropriate. In setting our business strategy, our Board assesses the various risks that now or in the future may be faced by the Company and the degree to which they are being mitigated by management and determines what constitutes an appropriate level of risk for us.

While our Board has the ultimate oversight responsibility for the risk management process, various committees of our Board also have responsibility for risk management in their areas of responsibility. The Audit Committee focuses on financial risk, including internal controls. Risks related to our compensation programs are reviewed by the Compensation Committee and the Company's overall compensation policies covering all employees are meant to motivate employees with an effective balance between cash and equity compensation, focus on performance, and improve our results on a cost-effective basis without encouraging excessive risk taking. Legal and regulatory compliance risks are reviewed by the Nominating and Corporate Governance Committee. Our Board is advised by the Committees of significant risks and management's response via periodic updates.

Board Composition

The number of directors is currently set at four. The Board of Directors is divided into three classes, Class I, Class II and Class III, which is divided as nearly equal in number as possible. Members of each class are elected to serve for staggered three-year terms. The Company believes that a classified board of directors provides continuity and stability in pursuing the Company's business strategies and policies and reinforces the Company's commitment to a long-term perspective and increases the Board's negotiating leverage when dealing with a potential acquirer. As discussed below under "Director Independence" a majority of the Board of Directors of the Company are "independent" directors.

At a minimum, Board members and candidates for membership on the Board of Directors must possess the experience, skills and background necessary to gain a basic understanding of the principal operational and financial objectives and plans of the Company, the results of operations and financial condition of our Company and its business segments and the relative standing of our Company and its business in relation to its competitors. In addition, candidates must have a perspective that will enhance the Board's strategic discussions and must be capable of and committed to devoting adequate time to Board duties, including attendance at regularly-scheduled Board and Board Committee meetings.

The Nominating and Corporate Governance Committee reviews and assesses with the Board of Directors the specific skills, experience, and background sought of Board members in the context of our business and the then-current membership on the Board. This assessment includes a consideration of independence, diversity, skills, business experience, and personal and industry backgrounds. Although the Company does not have a formal policy on diversity, as a matter of practice, the Nominating and Corporate Governance Committee strives to have a diverse set of skills, experience and backgrounds represented on the Board in order to bring many different viewpoints to guide and assist management of the Company. The Nominating and Corporate Governance Committee and the Board generally regard the following as key skills and experience important for the Company's Directors, as a group, to have in light of our current business and structure: senior leadership experience, public company board experience, experience in financial markets and with financing transactions, knowledge of accounting and financial reporting processes, experience in various industries relevant to the markets for the Company's light-control technology, technical knowledge relevant to our products, licensing, marketing and strategic planning expertise and legal education and experience.

Director Independence

The Board has determined that the following current directors of the Company are "independent" in accordance with applicable listing standards of the NASDAQ Capital Market: Messrs. Grimes, Daigle, and Kaganowicz. Mr. Harary is employed as executive officers of the Company and does not qualify as independent.

The NASDAQ Capital Market rules provide that a director cannot be considered independent if:

the director is, or at any time during the past three years was, an employee of the company;

8

the director or a family member of the director accepted any compensation from the company in excess of \$120,000 during any period of 12 consecutive months within the three years preceding the independence determination (subject to certain exclusions, including, among other things, compensation for board or board committee service);

a family member of the director is, or at any time during the past three years was, an executive officer of the company;

the director or a family member of the director is a partner in, controlling stockholder of, or an executive officer of an entity to which the company made, or from which the company received, payments in the current or any of the past three fiscal years that exceed 5% of the recipient's consolidated gross revenue for that year or \$200,000, whichever is greater (subject to certain exclusions);

the director or a family member of the director is employed as an executive officer of an entity where, at any time during the past three years, any of the executive officers of the company served on the compensation committee of such other entity; or

the director or a family member of the director is a current partner of the company's outside auditor, or at any time during the past three years was a partner or employee of the company's outside auditor, and who worked on the company's audit.

In addition, an independent director must be a person who lacks a relationship that, in the opinion of the Board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. The Board has not established categorical standards or guidelines to make these subjective determinations but considers all relevant facts and circumstances.

In addition to the Board-level standards for director independence, the directors who serve on the Audit Committee each satisfy standards established by the SEC providing that to qualify as "independent" for the purposes of membership on that committee, members of audit committees may not accept directly or indirectly any consulting, advisory, or other compensatory fee from the company other than their director compensation.

Board Committees

The Board of Directors has an Audit Committee, a Compensation Committee and a Nominating and Corporate Governance Committee. The Board has determined that each member of these committees is an "independent director" in accordance with applicable listing standards of the NASDAQ Capital Market. The current members of the Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee are Messrs. Daigle, Grimes and Kaganowicz.

Audit Committee.

During fiscal 2000, the Audit Committee of the Board of Directors developed a written charter for the Committee that was approved by the Board of Directors which was updated in 2004 and was updated again in February 2009. The complete text of the Audit Committee's current charter is available on Company's website at www.SmartGlass.com and is also attached as Exhibit 1 to this Proxy Statement.

The Audit Committee reviews and reports to the Board of Directors with respect to various auditing and accounting matters, including the nomination of the Company's independent registered public accountants, the scope of audit procedures, general accounting policy matters and the performance of the Company's independent registered public accountants. The Company believes that all members of its Audit Committee, due to their backgrounds and business experience, are Audit Committee's "financial expert" (as such term is defined by applicable rules) and have a sufficient understanding of generally accepted accounting principles and financial statements, the ability to assess the general application of such principles, an understanding of internal controls over financial reporting and of audit committee functions to perform their duties as an Audit Committee.

Compensation Committee.

During fiscal 2014, the Compensation Committee of the Board of Directors developed a written charter for the Committee that was approved by the Board of Directors in June 2014. The complete text of the Compensation Committee's current charter is available on Company's website at www.SmartGlass.com.

The Compensation Committee reviews and reports to the Board of Directors its recommendations for compensation of all employees and sets the compensation of the management of the Company. In addition, each committee member is a "non-employee director" as defined in Rule 16b-3 under the Exchange Act and an "outside director" as defined for purposes of Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Internal Revenue Code").

The Company's Compensation Committee has the authority specified in Rule 5605(d)(3) which requires the compensation committees of Nasdaq-listed companies to have specific responsibilities and authority with regard to compensation consultants, legal counsel, or other similar advisors to the compensation committee. Specifically, the compensation committee must have sole discretion to retain such advisors, must be directly responsible for oversight of their work, and must determine reasonable compensation to be paid to such advisors by the Company. Rule 5605(d)(3) also requires that the Compensation Committee may only select, or receive advice from, a compensation consultant, legal counsel, or other advisor after taking into consideration the following factors:

the provision of other services to the company by the person that employs the compensation consultant, legal counsel or other advisor;

the amount of fees received from the company by the person that employs the compensation consultant, legal counsel or other advisor, as a percentage of the total revenue of the person that employs the compensation consultant, legal counsel or other advisor;

the policies and procedures of the person that employs the compensation consultant, legal counsel or other advisor that are designed to prevent conflicts of interest;

any business or personal relationship of the compensation consultant, legal counsel or other advisor with a member of the compensation committee;

any stock of the company owned by the compensation consultant, legal counsel or other advisor; and

any business or personal relationship of the compensation consultant, legal counsel, other advisor or the person employing the advisor with an executive officer of the company.

Nominating and Corporate Governance Committee.

The Nominating and Corporate Governance Committee is responsible for overseeing the governance practices of the Company and for making recommendations to the Board for any modifications to such practices. It also identifies individuals qualified to become Board members and recommends to the Board the director nominees for the next annual meeting of stockholders and candidates to fill vacancies on the Board. Additionally, the committee recommends to the Board the directors to be appointed to Board committees. Because the Board of Directors of the Company has a majority of independent directors, these independent directors control the Board of Directors' selection of nominees for director. The Nominating and Corporate Governance Committee is not required to, and does not have, a written charter.

The Nominating and Corporate Governance Committee considers candidates for Board membership suggested by its members and by other Board members. The Nominating and Corporate Governance Committee may also engage the services of a director candidate search consultant. In that case, the director candidate search consultant will seek out candidates who have the experiences, skills, and characteristics that the Nominating and Corporate Governance Committee has determined are necessary to serve as a member of the Board and then present the most qualified candidates to the Nominating and Corporate Governance Committee and the Company's management.

Once a prospective nominee has been identified, the Nominating and Corporate Governance Committee makes an initial determination as to whether to conduct a full evaluation of the candidate. This initial determination is based on the information provided to the committee with the recommendation of the prospective candidate, as well as the committee's own knowledge of the prospective candidate, which may be supplemented by inquiries of the person making the recommendation or others. The initial determination is based primarily on the need for additional Board members to fill vacancies or expand the size of the Board and the likelihood that the prospective nominee can satisfy the evaluation factors described under the heading "Board Composition" above. The committee then evaluates the prospective nominee and his or her qualifications, as well as other factors which may include such things as whether the prospective nominee meets the independence requirements and other qualifications or criteria set forth under applicable listing standards of the NASDAQ Capital Market, or other requirements defined under applicable SEC rules and regulations; the extent to which the prospective nominee's skills, experience and perspective add to the range of talent appropriate for the Board and whether such attributes are relevant to the Company's industry; the prospective nominee's ability to dedicate the time and resources sufficient for the diligent performance of Board duties; and the extent to which the prospective nominee holds any position that would conflict with responsibilities to the Company.

If the Nominating and Corporate Governance Committee's internal evaluation is positive, the committee and possibly others will interview the candidate. Upon completion of this evaluation and interview process, the Nominating and Corporate Governance Committee makes a recommendation and report to the full Board as to whether the candidate should be nominated by the Board and the Board determines whether to approve the nominee after considering this recommendation and report.

Additionally, in selecting nominees for directors, the Nominating and Corporate Governance Committee will review candidates recommended by stockholders in the same manner and using the same general criteria as candidates recruited by the committee and/or recommended by the Board. The Nominating and Corporate Governance Committee will also consider whether any person nominated by a stockholder has been so nominated on a timely basis and in accordance with the provisions of the Company's By-Laws relating to stockholder nominations and other applicable provisions including those described in "2019 Stockholder and Director Nominations" below.

AUDIT COMMITTEE REPORT

The following Audit Committee Report does not constitute soliciting material and should not be deemed filed or incorporated by reference into any other Company filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent the Company specifically incorporates this Report by reference therein.

The Audit Committee of the Board is responsible for providing independent, objective oversight of the Company's accounting functions and internal controls. The Audit Committee's duties specifically include the appointment, compensation and supervision of the Company's independent registered public accountants, as well as pre-approval of all auditing and non-auditing services provided by the Company's independent registered public accounting firm. Management is responsible for the Company's internal controls and financial reporting process. The independent registered public accountants are responsible for performing an independent audit of the Company's financial statements and its internal controls over financial reporting, in accordance with auditing standards of the Public Company Accounting Oversight Board, and to issue a report thereon. As set forth in more detail in its charter, the Audit Committee's responsibility is to monitor and oversee these processes.

In connection with these responsibilities, the Audit Committee met with management and the Company's independent registered public accountants, to review and discuss all financial statements included in the Company's quarterly and annual reports for the fiscal year ended December 31, 2018 (the "Financial Statements") prior to their issuance and to discuss significant accounting issues. Management has advised us that the Financial Statements were prepared in accordance with generally accepted accounting principles, and the Committee discussed the Financial Statements with both management and the independent registered public accountants. Our review included discussions with the independent registered public accountants of matters required to be discussed pursuant to the Public Company Accounting Oversight Board Auditing Standard No. 61 as amended and adopted by Rule 3200T (Communication with Audit Committees).

The Audit Committee also received written disclosures and the letter from the independent registered public accountants required by applicable requirements of the PCAOB Rule 3526 regarding the independent accountant's communications with the Audit Committee concerning independence and has discussed with the independent registered public accountants that firm's independence. Finally, the Audit Committee continued to monitor the integrity of the Company's financial reporting processes and its internal procedures and controls. Based upon the Audit Committee's discussions with management and the independent registered public accountants, and the Audit Committee's review of the representations of management and the independent registered public accountants, the Audit Committee recommended to the Board of Directors that the Company's audited financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2018, for filing with the SEC.

ADOPTION OF 2019 EQUITY INCENTIVE PLAN

(Item 3)

The grant of equity awards is a common and recognized practice for companies to attract, retain and provide incentives to those responsible for its success, and to reduce the amount of cash compensation that would otherwise be necessary to achieve such goals. The Company's 2008 Stock Option Plan (the "2008 Plan") expired on April 20, 2018. Although the 2008 Plan authorized the grant of stock options, stock appreciation rights and restricted stock grants, the Company only issued restricted stock grants and stock options during the ten years that the 2008 Plan was in effect. Currently no options or other equity awards are available for issuance under any Company equity incentive plan.

On April 11, 2019, the Board of Directors of the Company approved for adoption by the Company's stockholders a new equity incentive plan entitled the "2019 Equity Incentive Plan" (the "2019 Plan") which is substantially similar to the Company's 2008 Plan. A copy of the 2019 Plan is annexed hereto as Exhibit 1.

The Board of Directors believes that the 2019 Plan is essential to the Company's continued success. The purpose of the 2019 Plan is to afford an incentive to executive officers, other employees, non-employee directors and consultants of the Company to acquire a proprietary interest in the Company, to continue as employees, non-employee directors or consultants (as the case may be), to increase their efforts on behalf of the Company and to promote the success of the Company's business. To further such purposes, stock options, stock appreciation rights, restricted stock and restricted stock units may be granted pursuant to the 2019 Plan. The Board of Directors believes that the granting of awards under the 2019 Plan will promote continuity of management, help attract new employees, and encourage employees, directors, officers and consultants, to increase their stock ownership in the Company and provide an increased incentive and personal interest in the welfare of the Company by those who are or may become primarily responsible for shaping and carrying out the long range plans of the Company and securing its continued growth, development and financial success. Granting stock appreciation rights, restricted stock and/or restricted stock units in lieu of options should result in a lower burn rate (the number of shares subject to awards annually) and a lower level of dilution.

The following summary of the 2019 Plan does not purport to be complete and is subject to and qualified in its entirety by, the text of the 2019 Plan.

The Company's employees, independent directors and consultants are eligible to receive grants under the 2019 Plan. Currently the Company's nine full-time employees, three non-employee independent directors and consultants would be eligible to receive grants. Awards under the 2019 Plan are made by the committee administering the plan. Because participation and the types of awards under the 2019 Plan are subject to the discretion of the committee, the benefits and amounts that will be received by any participant if the 2019 Plan is approved are not currently determinable.

The 2019 Plan will permit the issuance of up to 1,400,000 shares of common stock (having an underlying market value of \$3,920,000 as of April 25, 2019), which represents less than 5% of the outstanding common stock as of the record date. If any awards expire, are canceled or terminate for any reason without having been exercised in full, the shares subject to such awards will again be available for award under the 2019 Plan.

Under the 2019 Plan, stock options, stock appreciation rights (“SARs”), restricted stock or restricted stock units (“RSUs”) may be awarded by the Company to participants. The 2019 Plan will be administered by a committee of at least two directors who are not officers and employees of the Company (the “Committee”). At the outset, the Committee will consist of the Company’s three independent directors who serve as members of the Company’s Compensation and Stock Option Committee.

Stock Options. The 2019 Plan provides for the grant of options intended to qualify as incentive stock options (“ISOs”) under Section 422 of the Internal Revenue Code of 1986, as amended, (the “Code”) and options not intended to qualify as ISOs (“NQSOs”). ISOs may be granted only to employees of the Company, including directors who are also employees. NQSOs may be granted to employees, directors (regardless of whether they are employees of the Company) and consultants. All options granted under the 2019 Plan will have an exercise price at least equal to the fair market value of the Company’s common stock on the date of grant (110% of fair market value in the case of ISOs granted to 10% or more stockholders). Fair market value is generally defined as the average of the high and low trading price per share of common stock for the last day preceding the option grant on which there was a sale. Unless otherwise agreed to by the Company, all options granted under the 2019 Plan shall be non-transferable except by will or pursuant to the laws of descent and distribution. In no event may ISOs exercisable for stock having an aggregate fair market value of \$100,000 (together with all ISOs granted under any other Company plan) be granted which first become exercisable in any one calendar year. No options granted under the 2019 Plan may have a term greater than ten years (five years in the case of ISOs granted to 10% or more stockholders). The Committee will determine the time or times each option may be exercised and the time period if any, after death, disability or termination of employment or other relationship with the Company during which the option may be exercised. The exercisability of an option may be accelerated by the Committee. As may be determined by the board of directors, a participant may pay the exercise price of an option by cash, certified check, promissory note providing for interest, “netting”, by tendering shares of common stock, or by means of a broker assisted cashless exercise. Under the 2019 Plan, all options are intended to qualify as “performance-based compensation” under Section 162(m) of the Code.

Stock Appreciation Rights. SARs may be granted under the 2019 Plan either in conjunction with an option granted under the 2019 Plan or without regard to an option. Under exercise of a SAR awarded under the 2019 Plan, the participant will be entitled to an amount equal to the excess of the then fair market value of a share of common stock over the fair market value of a share of common stock on the date of grant, multiplied by the number of SARs being exercised. The payment of this amount may be in cash, common stock or any combination of the two, in the discretion of the Company. The Committee will determine the time or times, and the terms and condition pursuant to which, each SAR not granted in conjunction with an option may be exercised. A SAR granted in conjunction with an option will be exercisable at such time or times and only to the extent that the related option is exercised. Upon the exercise of a SAR granted in conjunction with an option, the related option shall be canceled to the extent of the number of shares of common stock as to which the SAR is exercised and upon the exercise of an option granted in conjunction with a SAR, the SAR will be cancelled to the extent of the number of shares of common stock to which the option is exercised. Under the 2019 Plan, all SARs are intended to qualify as “performance-based compensation” under Section 162(m) of the Code. To date, the Company has never awarded SARs under any plan.

Restricted Stock. Restricted Stock may be granted under the 2019 Plan. Each award of Restricted Stock shall be evidenced by a written agreement between the Company and the participant which states the number of shares of Restricted Stock to be subject to such award, and the conditions of grant. Share of Restricted Stock may not be sold, assigned, transferred, pledged, hypothecated or otherwise disposed of, except by will or the laws of descent and distribution, for such period as the Committee shall determine from the date on which the award is granted (the “Restricted Period”). The Committee may also impose such other restrictions and conditions on the shares as it deems appropriate including the satisfaction of performance criteria and the vesting of such awards over time. Certificates for shares of stock issued pursuant to Restricted Stock awards will bear an appropriate legend referring to such restrictions during the Restricted Period, and such certificates will be held in escrow by an escrow agent appointed by the Company. The Committee has the authority to waive or cancel all or any portion of any outstanding restrictions prior to the expiration of the Restricted Period with respect to any or all of the shares of Restricted Stock awarded. Subject to any restrictions imposed on the grant, during the Restricted Period, the participant will possess all incidents of ownership of such shares including the right to receive dividends with respect to such shares and to vote such shares. Subject to such exceptions as may be determined by the Committee, if the participant’s continuous employment or other relationship with the Company terminates for any reason prior to the expiration of the Restricted Period of an award, any shares remaining subject to restrictions will thereupon be forfeited by the participant and transferred to, and reacquired by, the Company.

Restricted Stock Units. RSUs may be granted under the 2019 Plan. Each award of a RSU will entitle the participant one share of common stock or cash equal to the value of one share of common stock, in the discretion of the Committee. Unless otherwise specified by the Committee, the Committee will deliver the participant of a RSU a share or cash, as the case may be, within 30 days after the conditions and restrictions with respect to such RSU have been satisfied. Each award of RSUs will be evidenced by a written agreement between the Company and the participant which states the number of RSUs to be subject to such award, and the conditions of the grant. RSUs may be subject to the satisfaction of such conditions and restrictions (such as a condition of continued employment or the satisfaction of performance criteria) as the Committee shall determine. The Committee has the authority to waive or cancel all or any portion of any outstanding conditions or restrictions with respect to any or all of the RSUs prior to the satisfaction of such terms and conditions. Subject to such exceptions as may be determined by the Committee, if the participant’s continuous employment or other relationship with the Company terminates for any reason prior to the satisfaction of the restrictions or conditions of SARs, any RSUs remaining subject to restrictions shall thereupon be forfeited by the participant and transferred to, and reacquired by, the Company. The Company was not permitted to award RSUs under its prior plans.

The 2019 Plan shall become effective on June 13, 2019 if approved by the stockholders of the Company and shall terminate on June 12, 2029. Any option or other award outstanding under the 2019 Plan at the time of the termination of the 2019 Plan shall remain in effect until such option or award shall have been exercised or shall have expired in accordance with its terms. The Board of Directors may make such modifications of the 2019 Plan as it shall deem advisable. However, the Board may not without further approval of the holders of a majority of the shares of the Common Stock present in person or by proxy at any special or annual meeting of the stockholders increase the number of shares as to which options or other awards may be granted or change the class of persons eligible to receive an award under the 2019 Plan. The Company intends to file a registration statement under the Securities Act of 1933, as amended covering the securities issuable under the 2019 Plan.

FEDERAL INCOME TAX ASPECTS OF AWARDS UNDER THE 2019 PLAN

The following is a brief summary of the federal income tax consequences of awards made under the 2019 Plan based upon the federal income tax laws in effect on the date hereof. This summary is not intended to be exhaustive and does not describe state or local tax consequences.

Incentive Stock Options. No regular taxable income is realized by the participant upon the grant or exercise of an incentive stock option (“ISO”). However, upon exercise of an ISO, the difference between the price paid for the shares and the fair market value of the shares on the date of exercise will be included in the participant’s income under the Alternative Minimum Tax. If a participant does not sell the stock received upon the exercise of an ISO (“ISO Shares”) within two years from the date of grant and one year from the date of exercise, any gain (loss) realized on the shares sold will be long-term capital gain (loss). In such circumstances, no deduction will be allowed to the Company for federal income tax purposes. If ISO Shares are disposed of prior to the expiration of either of the two and one-year holding periods described above, the participant generally will realize ordinary income at that time equal to the excess, if any, of the fair market value of the shares at exercise (or, if less, the amount realized on the disposition of the shares) over the price paid for such ISO Shares. The Company will be entitled to deduct any such recognized amount. Any further gain or loss realized by the participant will be taxed as short-term or long-term capital gain or loss, depending upon the length of time that the participant has held the shares. Subject to certain exceptions for disability or death, if an ISO is exercised more than three months following the termination of the participant’s employment, the option will generally be taxed as a non-qualified stock option.

Non-Qualified Stock Options. No income is realized by the participant at the time a non-qualified stock option (“NQSO”) is granted. Generally, upon exercise of a NQSO, the participant will realize ordinary income in an amount equal to the difference between the price paid for the shares and the fair market value of the shares on the date of exercise. The Company will be entitled to a tax deduction in the same amount. Any appreciation (or depreciation) after the date of exercise will be either short-term or long-term capital gain (or loss), depending upon the length of time that the participant has held the shares.

Stock Appreciation Rights. No income will be realized by a participant in connection with the grant of an SAR. When the SAR is exercised, the participant will generally be required to include as taxable ordinary income in the year of exercise an amount equal to the amount of cash and/or the fair market value of any shares received. The Company will be entitled to a deduction at the time and in the amount included in the participant’s income by reason of the exercise. If the participant receives common stock upon exercise of an SAR, any appreciation (or depreciation) after the date of exercise will be either short-term or long-term capital gain (or loss), depending upon the length of time that the participant has held the shares.

Restricted Stock. A participant receiving restricted stock generally will recognize ordinary income in the amount of the fair market value of the restricted stock at the time the stock is no longer subject to restriction or forfeiture, less any consideration paid for the stock. The Company will be entitled to a deduction at the same time and in the same amount. The holding period to determine whether the participant has long-term or short-term capital gain or loss on a subsequent sale generally begins when the stock is no longer subject to forfeiture, and the participant's tax basis for such shares will generally equal the fair market value of such shares on such date. However, a participant may elect, under Section 83(b) of the Internal Revenue Code, within 30 days of the grant of the stock, to recognize taxable ordinary income on the date of grant equal to the excess of the fair market value of the shares of restricted stock (determined without regard to the restrictions) over the purchase price of the restricted stock. By reason of such an election, the participant's holding period will commence on the date of grant and the participant's tax basis will be equal to the fair market value of the shares on that date (determined without regard to restrictions). Likewise, the Company generally will be entitled to a deduction at that time in the amount that is taxable as ordinary income to the participant. If shares are forfeited after making such an election, the participant only will be entitled to a loss for tax purposes in an amount equal to the difference between the purchase price of the forfeited shares (if any) and the amount received (if any) upon such forfeiture.

Restricted Stock Unit. No income will be realized by a participant in connection with the grant of Restricted Stock Unit. The participant will generally recognize ordinary income equal to the cash and/or fair market value of any shares of common stock received at the time of such receipt. The Company will be entitled to a deduction at the time and in the amount included in the participant's income.

Awards granted under the 2019 Plan are intended to either avoid the application of Section 409A of the Code (which deals with non-qualified deferred compensation arrangement) or to comply with such section.

In general, Section 162(m) of the Code denies a public company a deduction for federal income tax purposes for compensation in excess of \$1 million per year paid to its chief executive officer and the three other most highly compensated officers whose compensation is disclosed in the company's proxy statement (other than the chief financial officer), subject to certain exceptions. The options and SARs granted under the 2019 Plan are intended to qualify under one of the exceptions in Section 162(m), which provides that compensation that is "performance based" is not subject to the Section 162(m) limitation for the federal income tax deduction.

The Board of Directors recommends a vote FOR approval of the 2019 Plan and it is intended that proxies not marked to the contrary will be so voted. Approval of the 2019 Plan requires the affirmative vote of the holders of a majority of the shares of the Company's Common Stock present, or represented, and entitled to vote at the Annual Meeting.

COMPENSATION DISCUSSION AND ANALYSIS

Overview

This Compensation Discussion and Analysis ("CD&A") provides an overview of the Company's executive compensation program including our philosophy, key program elements, the decisions made under the program and the factors that were considered in making those decisions. The commentary in the CD&A is intended to facilitate an understanding of the data found in the accompanying compensation tables.

This Compensation Discussion and Analysis primarily addresses the compensation of our Named Executive Officers listed below:

Joseph M. Harary, President and Chief Executive Officer

Seth L. Van Voorhees, Chief Financial Officer, Vice President-Business Development

Michael R. LaPointe, Vice President – Aerospace Products

Steven M. Slovak, Vice President – Chief Technology Officer

The foregoing named executive officers comprise all of our executive officers. These four executive officers are referred to as the “named executive officers” throughout this Proxy Statement.

Our executive compensation program is intended to drive results, recognize contributions to the success of our company, and retain leadership talent. Our executive officers have shown solid leadership in the developments and commercialization of the Company's proprietary SPD technology. The Company believes that the continued development of our growth strategy will be the key factor to establishing strong financial performance for shareholders in the future.

Our Compensation Philosophy and Objectives

The Company seeks to include in compensation for the Company's executive officers a combination of base salary, equity incentives, and performance-based bonuses that is intended to attract, retain and motivate executive officers who have the skills, experience and knowledge important to the success of the Company and to reward superior performance and encourage actions that drive our business strategy. The objective of this approach is to align total executive compensation with the long-term performance of the Company and the interests of its stockholders and enable employees of the Company to participate in the Company's growth. Through ownership of stock and options, the Company believes that executive officers are rewarded if the Company's stockholders receive the benefit of appreciation of the price of the Common Stock.

The Compensation Committee reviewed and evaluated the Company's executive and non-executive compensation policies and practices, including, specifically, the mix between salary and bonus, cash and equity, short-term and long-term incentives, and the use of performance measures and discretion with respect to individual awards. The Compensation Committee also evaluated how the Company's compensation policies and practices could encourage excessive risk taking and how the Company's policies and practices are structured to mitigate any such risks. In this regard, the Compensation Committee considered the following: (i) while base salary is the primary component of total compensation for most of the Company's employees and such salaries are generally competitive, the Company has attempted to better align the interests of its executive officers and its stockholders by increasingly emphasizing incentive compensation for its executive officers, (ii) the Compensation Committee believes that the Company's incentive plans for senior management, executive officers and its employees include an appropriate mix of short-term and long-term performance incentives and cash and equity compensation, (iii) the Compensation Committee believes that the goals and objectives in the Company's incentive plans are reasonable and do not incentivize employees to take excessive risks, and (iv) the Company has one business unit so that there does not exist the risk that (A) any one business unit of the Company carries a significant portion of the Company's risk profile, (B) is significantly more profitable than other business units within the Company, or (C) that the compensation structure is inconsistent among business units. As a result of this review and evaluation, the Compensation Committee concluded that any risks that may result from the Company's compensation policies and practices are not reasonably likely to have a material adverse effect on the Company.

Role of the Compensation Committee in Compensation Decisions

The compensation of executive officers of the Company, including its named executive officers, is determined by the Compensation Committee of the Company's Board of Directors. The salaries of all executive officers are also reviewed at least annually by the Compensation Committee and by the entire Board of Directors. Numerous factors are reviewed in determining compensation levels. These factors include: the compensation levels of executive officers with comparable experience and qualifications, compensation levels at comparable companies, individual and Company performance, past compensation levels, building stockholder value, and other relevant considerations, including a review of applicable compensation studies and other reference materials.

Compensation Consultants and Benchmarking

The Compensation Committee believes that it is neither necessary nor cost-effective to hire advisors to benchmark the structure and level of its executive officer compensation on an annual basis. However, from time to time, the Compensation Committee retains compensation consultants to advise it and compare the Company's compensation practices versus similar companies. In 2018, the Company did not retain a compensation consultant.

In 2011, the Company retained Connell & Partners to analyze and compare the compensation of independent directors and of Mr. Harary and Dr. Van Voorhees against the compensation paid by a peer group of publicly-traded companies (the "Peer Group"). The Compensation Committee used the companies in the Peer Group based on its belief that they are similar to the Company in terms of business type, employee skill sets, revenue, and market capitalization.

The Company updated the Peer Group information with compensation data that was reported during 2018 and 2019. This updated compensation data for the Peer Group was considered by the Compensation Committee when evaluating the executive compensation for Mr. Harary and Dr. Van Voorhees. The following companies were included in the updated Peer Group:

Peer Company	Ticker
Arrowhead Research Corp.	ARWR
Aware, Inc.	AWRE
Creative Realities, Inc.	CREX
eMagin Corp.	EMAN
I.D. Systems, Inc.	IDSY
Image Sensing Systems, Inc.	ISNS
Innovative Solutions and Support, Inc.	ISSC
Mesa Laboratories, Inc.	MLAB
Microvision, Inc.	MVIS
MoSys, Inc.	MOSY
ParkerVision, Inc.	PRKR
PCTEL, Inc.	PCTI
PURE Bioscience	PURE
Riot Blockchain	RIOT

All fourteen of the Peer Group companies reported compensation data for 2017, however only nine Peer Group companies have currently reported their compensation data for 2018. As consequence, the following Compensation Analysis will consider compensation data for all the Peer Group companies in 2017 and the nine reporting Peer Group companies in 2018.

The Compensation Committee, having met and deliberated nine times during 2018, believes that the current compensation approach and level of compensation of the Company's named executive officers is appropriate and in the best interests of the Company and its stockholders.

Components of Named Executive Officer Compensation

The principal components of compensation for the named executive officers are base salary, performance-based annual cash compensation and long-term equity compensation. The Compensation Committee seeks to achieve a mix of these components such that total compensation is competitive in the marketplace. Historically, the Company's compensation program focused on base salary as a primary means to compensate its named executive officers. In

recent years, the Company has relied increasingly on short-term and long-term incentive compensation to better align the interests of the named executive officers with the interests of stockholders in both short-term and long-term growth. The Company continues to transition its compensation program from its historical base salary orientation to a program with an increasing emphasis on incentive compensation. The Compensation Committee does not have a formal policy for allocation between cash and non-cash or short-term and long-term incentive compensation. The following table shows the components of named executive officer compensation:

Component	Purpose	Characteristics
<i>Base Salary</i>	Compensate named executive officers for performing their roles and assuming their levels of executive responsibility. Intended to provide a competitive level of compensation, it is a necessary component in recruiting and retaining executives.	Fixed component. Annually reviewed and adjusted as appropriate.
<i>Performance-based Annual Incentive Compensation</i>	Promote the achievement of short-term business and financial goals. Align named executive officers and stockholder interests in the short-term performance of the Company and reward named executive officers for superior Company performance during the short-term.	Performance-based bonus opportunity based on the achievement of certain goals, which may be individual performance goals, Company performance goals or a combination of the two.
<i>Long-Term Equity Compensation</i>	Promote the achievement of the Company's long-term financial goals and increases in value for the Company's stockholders. Align named executive officers and stockholder interests, promote named executive officers' retention and reward named executive officers for superior Company performance over time.	Reviewed annually and granted, if appropriate, in the form of stock options and stock awards.

Base Salary. The amount of base salary for any executive officer is based on the level of responsibility of the executive officer, the Company's performance, the executive officer's individual performance and the executive officer's compensation compared to similarly situated executives in the Compensation Peer Group. As mentioned above, historically the Company's compensation program has focused on base salary as its primary compensation element. Base salary is an important element in recruiting and retaining executive officers.

Performance-based Annual Incentive Compensation. To better align our compensation practices with the market and to promote the achievement of short-term business and financial goals, the Compensation Committee has increasingly emphasized bonus opportunities for its executive officers in the form of performance-based annual incentive compensation.

A portion of Mr. Harary's 2018 compensation was tied to the achievement of various business and financial goals during the year. Under his employment agreement, Mr. Harary is eligible to earn a cash bonus based upon the achievement of performance goals established by the Board. As set forth below, the performance goals established by the Board for 2018 were divided into two main categories and, at the end of the performance period, the Compensation Committee determined the extent to which the pre-established performance goals were satisfied during the performance period.

For 2018, Mr. Harary's target bonus was based on: (i) the achievement of revenue goals, and (ii) the achievement of other non-revenue performance objectives. The revenue bonus threshold amount for 2018 was \$1,509,070, and revenues for 2018 were \$1,553,468 (both under the ASC 605 revenue standard), so a revenue-based bonus was paid to

Mr. Harary in 2018. The Board paid Mr. Harary bonuses in the total amount of \$170,000 for the achievement of certain other performance and strategic goals for the entire Company and their efficient implementation and management in 2018. The amount of compensation awarded for 2018 to Mr. Harary as a bonus is reflected in the “Non-Equity Incentive Plan Compensation” column of the “Summary Compensation Table” below.

A portion of Dr. Van Voorhees' 2018 compensation was tied to the achievement of various business and financial goals during the year. Under his employment agreement, Dr. Van Voorhees is eligible to earn a cash bonus based upon the achievement of performance goals established by the Board. As set forth below, at the end of the performance period the Compensation Committee determined the extent to which the pre-established performance goals were satisfied during the performance period.

Under Dr. Van Voorhees' employment agreement with the Company, there is a \$95,000 target bonus for Dr. Van Voorhees. For 2018, Dr. Van Voorhees target bonus was based on the achievement of established performance objectives. The Board paid Dr. Van Voorhees a bonus of \$19,683 for the achievement of certain other performance and strategic goals for the entire Company and their efficient implementation and management in 2018. The amount of compensation awarded for 2018 to Dr. Van Voorhees as a bonus is reflected in the "Non-Equity Incentive Plan Compensation" column of the "Summary Compensation Table" below, which resulted in a bonus.

A cash bonus may be awarded to any officer of the Company at the discretion of the Board and Compensation Committee for extraordinary individual achievement or for other reasons. The Board paid Mr. Slovak a bonus of \$15,000 and Mr. LaPointe a bonus of \$22,293 for the achievement of certain other performance and strategic goals for the entire Company and their efficient implementation and management in 2018. The amount of compensation awarded for 2018 to Mr. Slovak and Mr. LaPointe as a bonus is reflected in the "Non-Equity Incentive Plan Compensation" column of the "Summary Compensation Table" below.

Long-Term Equity Compensation. The Company uses long-term equity compensation to provide incentives to those most responsible for the Company's success, to promote the achievement of the Company's long-term financial goals and to align the interests of its executive officers, employees and consultants with that of its stockholders. The award of long-term equity compensation also assists the Company in attracting and retaining executive officer talent and reduces the amount of cash compensation that would otherwise be necessary to do so. Historically, the Company has granted equity awards to executive officers in the form of stock options or restricted stock under the Company's 2008 Equity Incentive Plan (the "2008 Plan") and its predecessor plan, the 1998 Stock Option Plan, which expired at the end of 2007.

The Compensation Committee does not employ quantitative criteria or performance measures from year to year in the granting of equity awards. Rather, the form and amount of equity awards are based on a subjective determination by the Compensation Committee of the effectiveness of each named executive officer and the extent of his contributions to the Company. The Company seeks to emphasize equity compensation to better align the interests of its named executive officers and stockholders and to promote the retention of its named executive officers. Accordingly, the Company awards long-term equity awards at levels it believes reflect these goals.

The Compensation Committee and Board believe that an equity incentive plan is essential to the Company's continued success. The purpose of such equity incentive plans is to afford an incentive to executive officers, other employees, non-employee directors and consultants of the Company to acquire a proprietary interest in the Company, to continue as employees, non-employee directors or consultants (as the case may be), to increase their efforts on behalf of the Company and to promote the success of the Company's business. The Compensation Committee and Board believe that the granting of equity incentive awards will promote continuity of management, help attract new employees, and encourage employees, directors, officers and consultants, to increase their stock ownership in the Company and provide an increased incentive and personal interest in the welfare of the Company by those who are or may become primarily responsible for shaping and carrying out the long range plans of the Company and securing its continued growth, development and financial success. To further such purposes, stock options, stock appreciation rights, restricted stock and restricted stock units may be granted pursuant to such equity incentive plans. The Company has relied primarily on stock option grants and awards of restricted stock under its prior equity incentive plans to compensate named executive officers. The Company has not awarded stock appreciation rights or restricted stock units.

During 2018, the Compensation Committee awarded option awards to its named executive officers as set forth in the "Grants of Plan-Based Awards in 2018" table below.

The Company's 2008 Stock Option Plan (the "2008 Plan") expired on April 20, 2018. Currently no options or other equity awards are available for issuance under any Company equity incentive plan. On April 11, 2019, the Board of Directors of the Company approved for adoption by the stockholders of the Company an updated equity incentive plan (2019 Plan) which is substantially similar to the Company's 2008 Plan. The adoption of this plan is subject to shareholder approval and additional details about this plan can be found in Item 3 of this filing.

Employment Arrangements

In 2009, the Company entered into a five-year employment agreement with Joseph M. Harary, which was effective as of January 1, 2009 when Mr. Harary was promoted to the position of Chief Executive Officer of the Company. An amendment to this agreement was executed effective as of June 12, 2014 between the Company and Joseph M. Harary which extended the agreement through December 31, 2019. The agreement automatically renews itself for successive one-year terms unless either the Company or Mr. Harary gives the other at least 90 days prior written notice of the intention not to renew the employment agreement. Pursuant to that agreement, in addition to possible future equity incentive awards granted by the Board of Directors of the Company in their discretion, Mr. Harary received 150,000 shares of restricted stock of the Company which vested monthly over a three-year period, and Mr. Harary received an annual base salary from the Company of \$450,000 in 2018 and will receive an annual base salary of \$500,000 through December 31, 2019. In addition, Mr. Harary will be eligible to also earn a bonus based upon the achievement of performance goals established by the Board of Directors. Pursuant to his employment agreement, if Mr. Harary's employment is terminated due to his death or disability, Mr. Harary shall be entitled to receive his base salary (less any disability payments) for six months as well as any earned or accrued bonus. If Mr. Harary's employment is not renewed or is terminated by the Company other than due to death, disability, or for cause (as defined in the

agreement) prior to its scheduled expiration date, then Mr. Harary shall also receive his base salary for between one and three years, depending upon the date of such termination. If there is a change in control of the Company, Mr. Harary shall receive his base salary for the longer of three years or the scheduled date of termination of Mr. Harary's employment agreement. Unless vesting is otherwise accelerated under the terms of an equity award (which is usually done in the case of death or disability of an employee), if Mr. Harary's employment is terminated by the Company in breach of his employment agreement or is terminated by Mr. Harary other than for good reason (as defined in the agreement), any unvested equity awards shall also become immediately vested. Pursuant to the employment agreement, Mr. Harary is also entitled to four weeks paid vacation each year, and other fringe benefits generally applicable to other employees of the Company. Under his employment agreement, Mr. Harary has also agreed to certain restrictive covenants including Mr. Harary's agreement not to solicit employees or compete with the Company for a period of two years following the termination of his employment thereunder.

On January 1, 2014, the Company entered into a three-year employment agreement with Dr. Van Voorhees. The agreement automatically renews itself for successive one-year terms unless either the Company or Dr. Van Voorhees gives the other at least 90 days prior written notice of the intention not to renew the employment agreement. The Company notified Dr. Van Voorhees that it will not renew his employment agreement after 2018.

The Company has not entered into employment agreements, written or unwritten, with its other executive officers, Messrs. LaPointe and Slovak.

Stock Options Exercised and Stock Vested in 2018

No stock options were exercised in 2018 by any named executive officer of the Company. No shares of stock were acquired by any named executive officer in 2018 upon vesting of awards of stock pursuant to the 2008 Plan. There are no unvested awards of restricted stock outstanding as of the end of 2018 that have been awarded to our named executive officers.

Potential Payments upon Termination or Change of Control

Mr. Harary's employment agreements provide for certain payments and benefits upon a termination, separation, or change in control. Neither of our other named executive officers has an employment agreement with us or are otherwise entitled to any sort of cash payment upon termination or separation from us.

Both our 2008 Plan and 1998 Stock Option Plan, which is the predecessor to the 2008 Plan and which expired at the end of 2007 (the "1998 Plan"), provide for the continuation or acceleration of certain awards and grants thereunder in the event of specified separations from employment with us. Under the standard grant agreements for options granted under our 2008 Plan and our 1998 Plan, the option holder generally has three months after the date of termination to exercise options that were exercisable on or before the date that employment ends unless the options' expiration date occurs first (other than for death or disability). Upon an option holder's death or disability, the holder or the holder's estate, as applicable, may exercise options that were exercisable on or before the date that employment ends due to death or disability for a period of six months thereafter, unless the options' expiration date occurs first. All of the outstanding options issued to our named executive officers are vested.

Under award agreements with our named executive officers for restricted stock granted pursuant to our 2008 Plan, each named executive officer's unvested restricted stock shall immediately become fully vested as of the date of his termination due to death or disability. In addition, Mr. Harary's employment agreement provides that his restricted stock and any additional equity incentive awards granted to him under the 2008 Plan or otherwise will immediately vest upon his termination by the Company (other than for cause or in connection with his death or disability), his resignation for good reason or upon change of control of the Company.

Although our 1998 Plan authorized the grant of restricted stock grants, the Company only granted stock options during the ten years that the plan was in effect.

Joseph M. Harary

DIRECTOR COMPENSATION

The Company believes that it is appropriate to set target levels of director compensation based upon the factors described above for service on the Company's Board of Directors. Based in part upon its review of comparable directors fees paid among the Compensation Peer Group companies, and upon the analysis and recommendations of the independent compensation consulting firm noted above, each non-employee independent director was to receive total compensation with respect to service as a Director during 2018 having a valuation initially targeted at approximately \$80,000, which targeted amount is then subject to adjustment based upon results achieved and future modification as a result of prevailing compensation levels and other factors. The mix of cash and equity grant for 2018 was developed following the review of an independent compensation consulting firm's report and an evaluation of prevailing trends and best practices in corporate governance and director compensation in a broad range of public companies.

Non-management directors of the Company each received compensation for service on the Board in 2018 in the amount of a cash fee paid in January 2018 of \$35,000. Typically, non-management directors also receive an option award at the end of the year but no options were available for grant at the end of 2018. The following table summarizes compensation paid or awarded to the Company's non-management directors in 2018. Management directors are not compensated separately for their service as directors and their compensation as employees of the Company is shown on the "Summary Compensation Table" in this Proxy Statement.

Darryl Daigle	35,000	-	35,000
