The following procedures apply to transfers of Common Stock or Preferred Stock:³

- a. Any entity (as defined in section 101(15) of the Bankruptcy Code) who is a Substantial Shareholder (as defined herein) and wishes to effectuate a transfer of Beneficial Ownership of Common Stock or Preferred Stock that would affect the size of a Substantial Shareholder's Beneficial Ownership or would result in another entity becoming or ceasing to be a Substantial Shareholder must file with the Court, and serve upon: (i) the Debtors, Gastar Exploration, Inc., 1331 Lamar Street, Suite 650, Houston, Texas 77010, Attn.: Michael A. Gerlich; (ii) proposed co-counsel to the Debtors, (a) Kirkland & Ellis LLP, 609 Main Street, Houston, Texas 77002, Attn: Anna G. Rotman P.C. and David Wheat, P.C., and Kirkland & Ellis LLP, 300 N. LaSalle Street, Chicago, Illinois 60654, Attn: Ross M. Kwasteniet, P.C., Thad W. Davis, and John R. Luze, and (b) Jackson Walker L.L.P., 1401 McKinney Street, Suite 1900, Houston, Texas 77010, Attn: Patricia B. Tomasco, Elizabeth C. Freeman, and Matthew D. Kreller, and Haig M. Maghakian; and (vi) to the extent not listed herein, those parties requesting notice pursuant to Bankruptcy Rule 2002 (collectively, the "Notice Parties"), a declaration of such status, substantially in the form of Exhibit 1A attached to these Procedures (each, a "Declaration of Status as a Substantial Shareholder"), on or before the later of (A) 30 calendar days after the date of the Notice of Interim Order (as defined herein), or (B) 10 calendar days after becoming a Substantial Shareholder (as defined herein); provided, that, for the avoidance of doubt, the other procedures set forth herein shall apply to any Substantial Shareholder even if no Declaration of Status as a Substantial Shareholder has been filed.
- b. Prior to effectuating any transfer of Beneficial Ownership of Common Stock or Preferred Stock that would result in an increase in the amount of Common Stock or Preferred Stock of which a Substantial Shareholder has Beneficial Ownership or would result in an entity or individual becoming a Substantial Shareholder, the parties to such transaction must file with the Court, and serve upon the Notice Parties, an advance written declaration of the intended transfer of Common Stock or Preferred Stock, substantially in the form of Exhibit 1B attached to these Procedures (each,

³Capitalized terms used but not otherwise defined herein have the meanings ascribed to them in the Motion.

- a “Declaration of Intent to Accumulate Common Stock or Preferred Stock”).
- c. Prior to effectuating any transfer of Beneficial Ownership of Common Stock or Preferred Stock that would result in a decrease in the amount of Common Stock or Preferred Stock of which a Substantial Shareholder has Beneficial Ownership or would result in an entity or individual ceasing to be a Substantial Shareholder, the parties to such transaction must file with the Court, and serve upon the Notice Parties, an advance written declaration of the intended transfer of Common Stock or Preferred Stock, substantially in the form of Exhibit 1C attached to these Procedures (each, a “Declaration of Intent to Transfer Common Stock or Preferred Stock,” and together with a Declaration of Intent to Accumulate Common Stock or Preferred Stock, each a “Declaration of Proposed Transfer”).
- d. The Debtors shall have 30 calendar days after receipt of a Declaration of Proposed Transfer to file with the Court and serve on such Substantial Shareholder or potential Substantial Shareholder an objection to any proposed transfer of Beneficial Ownership of Common Stock or Preferred Stock described in the Declaration of Proposed Transfer on the grounds that such transfer might adversely affect the Debtors’ ability to utilize their Tax Attributes. If the Debtors file an objection, such transaction will remain ineffective unless such objection is withdrawn by the Debtors, or such transaction is approved by a final and nonappealable order of the Court. If the Debtors do not object within such 30-day period, such transaction can proceed solely as set forth in the Declaration of Proposed Transfer. Further transactions within the scope of this paragraph must be the subject of additional notices in accordance with the procedures set forth herein, with an additional 30 day waiting period for each Declaration of Proposed Transfer.
- a. For purposes of these Procedures a “Substantial Shareholder” is any entity or individual that has direct or indirect Beneficial Ownership of at least 9,852,000 shares of Common Stock (representing approximately 4.5% of all issued and outstanding shares of Common Stock) or 182,000 shares of Series A Preferred Stock or 96,300 shares of Series B Preferred Stock (representing approximately 4.5% of all issued and outstanding shares of each series of Preferred Stock)⁴

⁴Based on approximately 218,933,504 shares of Common Stock outstanding or 4,045,000 shares of Series A and 2,140,000 shares of Series B Preferred Stock outstanding for purposes of Section 382 of the IRC as of the Petition Date.

The following procedures apply for declarations of worthlessness of Common Stock or Preferred Stock:

- a. Any person or entity that currently is or becomes a 50-Percent Shareholder⁵ must file with the Court and serve upon the Notice Parties a Declaration of Status as a 50-Percent Shareholder, substantially in the form attached to the Procedures as Exhibit 1D, on or before the later of (i) 30 calendar days after the date of the Notice of Interim Order, and (ii) ten calendar days after becoming a 50-Percent Shareholder; provided, that, for the avoidance of doubt, the other procedures set forth herein shall apply to any 50-Percent Shareholder even if no Declaration of Status as a 50-Percent Shareholder has been filed.
- a. Prior to filing any federal or state tax return, or any amendment to such a return, or taking any other action that claims any deduction for worthlessness of Beneficial Ownership of Common Stock or Preferred Stock for a tax year ending before the Debtors' emergence from chapter 11 protection, such 50-Percent Shareholder must file with the Court and serve upon the Notice Parties a declaration of intent to claim a worthless stock deduction (a "Declaration of Intent to Claim a Worthless Stock Deduction"), substantially in the form attached to the Procedures as Exhibit 1E.
 - i. The Debtors shall have 30 calendar days after receipt of a Declaration of Intent to Claim a Worthless Stock Deduction to file with the Court and serve on such 50-Percent Shareholder an objection to any proposed claim of worthlessness described in the Declaration of Intent to Claim a Worthless Stock Deduction on the grounds that such claim might adversely affect the Debtors' ability to utilize their Tax Attributes.
 - ii. If the Debtors timely object, the filing of the tax return or amendment thereto with such claim will not be permitted unless approved by a final and non-appealable order of the Court, unless the Debtors withdraw such objection.
 - iii. If the Debtors do not object within such 30-day period, the filing of the return or amendment with such claim will be permitted solely as described in the Declaration of Intent to Claim a Worthless Stock Deduction. Additional returns and amendments within the scope of this section must be the subject of additional notices as set forth herein, with an additional 30-day waiting period. To the extent that the Debtors receive an appropriate Declaration of Intent

⁵For purposes of the Procedures, a "50-Percent Shareholder" is any person or entity that at any time since December 31, 2015, has owned Beneficial Ownership of 50 percent or more of the Common Stock or either class of Preferred Stock of the Debtors (determined in accordance with section 382(g)(4)(D) of the IRC and the applicable Treasury Regulations thereunder).

to Claim a Worthless Stock Deduction and determine in their business judgment not to object, they shall provide notice of that decision as soon as is reasonably practicable to any statutory committee(s) appointed in these chapter 11 cases.

NOTICE PROCEDURES

The following notice procedures apply to these Procedures:

- a. No later than two business days following entry of the Interim Order, the Debtors shall serve a notice by first class mail, substantially in the form of Exhibit 1F attached to these Procedures (the "Notice of Interim Order"), on: (i) the Office of the United States Trustee for the Southern District of Texas; (ii) the entities listed on the Consolidated List of Creditors Holding the 20 Largest Unsecured Claims; (iii) the U.S. Securities and Exchange Commission; (iv) the Internal Revenue Service; (v) any official committees appointed in these chapter 11 cases; and (vi) all registered and nominee holders of Common Stock or Preferred Stock (with instructions to serve down to the beneficial holders of Common Stock or Preferred Stock, as applicable). Edgar Filing: Gastar Exploration Inc. - Form 424B3

our fundamental change notice (excluding such date of fundamental change notice) as described below. Any notes purchased by us will be paid for in shares of our common stock.

A fundamental change will be deemed to have occurred at the time after the notes are originally issued that any of the following occurs:

(1) a person or group within the meaning of Section 13(d) of the Exchange Act other than us, our subsidiaries or our or their employee benefit plans files a Schedule 13D or Schedule TO (or any successor schedule, form or report) pursuant to the Exchange Act disclosing that such person has become the direct or indirect beneficial owner, as defined in Rule 13d-3 under the Exchange Act, of our common equity representing more than 50% of the voting power of all shares of our common equity entitled to vote generally in the election of directors, unless such beneficial ownership arises as a result of a revocable proxy delivered in response to a public proxy or consent solicitation made pursuant to the applicable rules and regulations under the Exchange Act; provided that no person or group shall be deemed to be the beneficial owner of any securities tendered pursuant to a tender or exchange offer made by or on behalf of such person or group until such tendered securities are accepted for purchase or exchange under such offer; or

(2) consummation of (A) any recapitalization, reclassification or change of our common stock (other than changes resulting from a subdivision or combination) as a result of which our common stock would be converted into, or exchanged for, stock, other securities, other property or assets or (B) any statutory share exchange, consolidation or merger involving us pursuant to which our common stock will be converted into cash, securities or other property or any sale, lease or other transfer in one transaction or a series of related transactions of all or substantially all of the consolidated assets of us and our subsidiaries, taken as a whole, to any person other than one or more of our subsidiaries, other than any transaction:

§ involving a consolidation or merger that does not result in a reclassification, conversion, exchange or cancellation of our outstanding common stock;

§ where the holders of all classes of our common equity immediately prior to such transaction that is a statutory share exchange, consolidation or merger own, directly or indirectly, more than 50% of all classes of common equity of the continuing or surviving entity or transferee or the parent entity thereof immediately after such transaction; or

§ that is effected solely to change our jurisdiction of incorporation and results in a reclassification, conversion or exchange of outstanding shares of our common stock solely into shares of common stock of the surviving entity.

A fundamental change as a result of clause (2) will not be deemed to have occurred, however, if 90% or more of the consideration received or to be received by our common stockholders (excluding cash payments for fractional shares and cash payments made pursuant to dissenters appraisal rights) in connection with the transaction or transactions constituting the fundamental change consists of shares of capital stock traded on the NYSE, the Nasdaq Global Select Market or the Nasdaq Global Market (or their respective successors) or which will be so traded when issued or exchanged in connection with the transaction that would otherwise be a fundamental change (these securities being referred to as publicly traded securities) and as a result of this transaction or transactions the notes become convertible into such consideration or a unit of such consideration received by a holder of one share of our common stock in the relevant transaction used to calculate the daily VWAP, as the case may be.

On or before the 20th day after the occurrence of a fundamental change, we will provide to all noteholders and the trustee and paying agent a notice of the occurrence of the fundamental change and of the resulting purchase right. Such notice shall state, among other things:

the events causing a fundamental change;

the date of the fundamental change;

the last date on which a noteholder may exercise the repurchase right;

the fundamental change purchase price;

the fundamental change purchase date;

whether the consummation of the fundamental change and the resulting repurchase right resulted or will result in an Event of Default under clause (4) of the description of Events of Default in this prospectus supplement;

the name and address of the paying agent and the conversion agent, if applicable;

if applicable, the applicable conversion rate and any adjustments to the applicable conversion rate;

if applicable, that the notes with respect to which a fundamental change purchase notice has been delivered by a noteholder may be converted only if such noteholder withdraws the fundamental change purchase notice in accordance with the terms of the second supplemental indenture; and

the procedures that noteholders must follow to require us to purchase their notes.

In order to fulfill our obligation to pay the fundamental change purchase price in shares of our common stock, we will deliver to the paying agent on or prior to the fundamental change purchase date a number of shares of our common stock equal to (A) the aggregate purchase price to be paid divided by (B) the average of the Daily VWAP of our common stock for the 20 consecutive trading-days ending on the trading day immediately prior to the occurrence of the fundamental change. We will not issue fractional shares of our common stock upon purchase of the notes by us. Instead, we will pay cash in lieu of fractional shares based on the Daily VWAP of our common stock on the trading day immediately prior to the occurrence of the fundamental change. If our common stock has been replaced by reference property prior to the fundamental change purchase date, the number of shares of our common stock otherwise deliverable on such date will instead be deliverable in the amount and type of reference property that a holder of that number of shares of our common stock would have received in the relevant merger event. We will use our reasonable best efforts to cause a shelf registration statement to be declared effective prior to the fundamental change purchase date for the sale of such shares of our common stock (or reference property, if applicable).

Simultaneously with providing such notice, we will publish a notice containing this information in a newspaper of general circulation in The City of New York or publish the information on our website or through such other public medium as we may use at that time.

To exercise the purchase right, a noteholder must deliver, on or before the business day immediately preceding the fundamental change purchase date (excluding such fundamental change purchase date), subject to extension to comply with applicable law, the notes to be purchased, duly endorsed for transfer, together with a written purchase notice and the form entitled Form of Fundamental Change Purchase Notice on the reverse side of the notes duly completed, to the paying agent. The purchase notice must state:

if certificated, the certificate numbers of the noteholder's notes to be delivered for purchase;

the portion of the principal amount of the noteholder's notes to be purchased, which must be \$1,000 or an integral multiple thereof; and

that the holder's notes are to be purchased by us pursuant to the applicable provisions of the notes and the second supplemental indenture.

If the notes are not certificated, the purchase notice must comply with applicable DTC, Clearstream and/or Euroclear procedures.

A noteholder may withdraw any purchase notice (in whole or in part) by a written notice of withdrawal delivered to the paying agent prior to the close of business on the business day prior to the fundamental change purchase date (excluding such fundamental change purchase date). The notice of withdrawal shall state:

the principal amount of the withdrawn notes;

if certificated notes have been issued, the certificate numbers of the withdrawn notes, or if not certificated, the notice must comply with applicable DTC, Clearstream and/or Euroclear procedures; and

the principal amount, if any, which remains subject to the purchase notice.

Edgar Filing: Gastar Exploration Inc. - Form 424B3

We will be required to purchase the notes on the fundamental change purchase date, subject to extension to comply with applicable law. A noteholder that has exercised the purchase right will receive payment of the fundamental change purchase price promptly following the later of the fundamental change purchase date or the time of book-entry transfer or the delivery of the notes. If the paying agent holds money or securities sufficient to pay the fundamental change purchase price of the notes on the second business day following the fundamental change purchase date (excluding such fundamental change purchase date), then

the notes tendered for purchase and not withdrawn will cease to be outstanding and interest, including additional interest, if any, will cease to accrue on such notes on the fundamental change purchase date (whether or not book-entry transfer of the notes is made or whether or not the note is delivered to the paying agent); and

all other rights of the noteholders with respect to the notes tendered for purchase and not withdrawn will terminate on the fundamental change purchase date (other than the right to receive the fundamental change purchase price and previously accrued and unpaid interest (including any additional interest) upon delivery or transfer of the notes).

In connection with any purchase offer pursuant to a fundamental change purchase notice, we will, if required:

comply with the provisions of the tender offer rules under the Exchange Act that may then be applicable; and

file a Schedule TO or any other required schedule under the Exchange Act.

The purchase rights of the noteholders could discourage a potential acquirer of us. The fundamental change purchase feature, however, is not the result of management's knowledge of any specific effort to obtain control of us by any means or part of a plan by management to adopt a series of anti-takeover provisions.

The term fundamental change is limited to specified transactions and may not include other events that might adversely affect our financial condition. In addition, the requirement that we offer to purchase the notes upon a fundamental change may not protect noteholders in the event of a highly leveraged transaction, reorganization, merger or similar transaction involving us.

The definition of fundamental change includes a phrase relating to the conveyance, transfer, sale, lease or disposition of all or substantially all of our consolidated assets. There is no precise, established definition of the phrase substantially all under applicable law. Accordingly, the ability of a noteholder to require us to purchase its notes as a result of the conveyance, transfer, sale, lease or other disposition of less than all of our assets may be uncertain.

If we fail to purchase the notes when required following a fundamental change, we will be in default under the notes. In addition, we have, and may in the future incur, other indebtedness with similar change in control provisions permitting our holders to accelerate or to require us to purchase our indebtedness upon the occurrence of similar events. We will not be required to make an offer to purchase the notes upon a fundamental change if a third party makes the offer in the manner, at the times, and otherwise in compliance with the requirements set forth in the second supplemental indenture applicable to an offer by us to purchase the notes upon a fundamental change and such third party purchases all notes validly tendered and not withdrawn upon such offer.

Ownership Limit

As described in the accompanying prospectus under Restrictions on Ownership and Transfer, to assist us in qualifying as a REIT, our charter prohibits anyone from acquiring or holding, directly or constructively, ownership of a number of shares or value of any class of our capital stock in excess of 9.8% of the outstanding shares. The second supplemental indenture will provide that, notwithstanding any other provision of the indenture or the notes, no noteholder shall be entitled to convert such notes for our shares of common stock to the extent that the receipt of such common stock would violate any of the limitations on ownership of our shares contained in our charter. Accordingly, for purposes of the ownership limit contained in our charter, ownership of the notes will not be treated as ownership of the shares of common stock that are potentially issuable upon conversion of the notes, and the notes

will not be subject to transfer to a trust or to repurchase or other remedies that are provided in the charter for violations of the stock ownership limit. Any attempted conversion of notes that would result in the issuance of common stock in excess of such ownership limit in the absence of such an exemption shall be void to the extent of the number of shares that would cause such violation and the related note or portion thereof shall be returned to the noteholder as promptly as practicable. We will have no further obligation to the noteholder with respect to such voided conversion and such notes will be treated as if they had not been submitted for conversion. A holder of returned notes may resubmit those notes for conversion at a later date subject to compliance with the terms of the indenture and ownership limits described above.

Consolidation, Merger and Sale of Assets

The provisions of the indenture described under **Description of Debt Securities Consolidation, Merger and Sale of Assets** in the accompanying prospectus will apply to the notes.

Events of Default

In addition to the provisions of the indenture described under **Description of Debt Securities Events of Default** in the accompanying prospectus, each of the following is an Event of Default with respect to the notes:

(1) our failure to comply with our obligation to convert the notes in accordance with the second supplemental indenture upon exercise of a noteholder's conversion right and the default continues for a period of 3 business days after there has been given, by registered or certified mail, to us by the trustee or by such noteholder, a written notice specifying such default or breach and requiring it to be remedied and stating that such notice is a **Notice of Default** under the second supplemental indenture

(2) our failure to comply with our obligation to pay for or deliver any consideration required to be paid for or delivered to a noteholder entitled to receive the change of control make-whole, as described under **Conversion Rights Adjustment to Conversion Rate Upon Conversion Upon Certain Events**, or any other premium required pursuant to the terms of the second supplemental indenture;

(3) our failure to give a fundamental change notice when due;

(4) a fundamental change occurs and a noteholder, upon exercising its right to require us to purchase any or all of such holder's notes, or any portion thereof (as described under **Fundamental Change Permits Noteholders to Require Us to Purchase Notes**), is not entitled on the **Fundamental Change Repurchase Date** to receive at least the same amount and form of consideration per share of common stock as was received by the existing holders of our common stock receiving the highest consideration in connection with such fundamental change;

(5) our stockholders approve any plan or proposal for the liquidation or dissolution of us; and

(6) our common stock (or other capital stock into which the notes are then convertible pursuant to the terms of the second supplemental indenture) ceases to be listed on the NYSE, the Nasdaq Global Select Market or the Nasdaq Global Market (or their respective successors).

The second supplemental indenture will provide that if an Event of Default specified in clauses (4), (5) or (6) occurs, then the principal and accrued and unpaid interest, including additional interest, if any, on the notes will automatically become and be immediately due and payable without any declaration or other action on the part of the trustee or any noteholder. However, upon specified conditions, the holders of a majority in principal amount of the notes then outstanding may rescind and annul an acceleration of the notes and its consequences.

Notwithstanding the foregoing, the second supplemental indenture provides that, to the extent elected by us, the sole remedy for an event of default relating to the failure to comply with the reporting obligations in the indenture, which are described below under **Reports** and for any failure to comply with the requirements of Section 314(a)(1) of the Trust Indenture Act will for the first 120 days after the occurrence of such an event of default consist exclusively of the right to receive additional interest on the notes at an annual rate equal to 0.25% of the principal amount of the notes. If we so elect, such additional interest will accrue on all outstanding notes from and

including the date on which the event of default relating to the failure to comply with the reporting obligations in the indenture or the failure to comply with the requirements of Section 314(a)(1) of the Trust Indenture Act first occurs to but not including the 120th day thereafter (or such earlier date on which such event of default is cured or waived by the holders of a majority in principal amount of the outstanding notes). On such 120th day (or earlier, if the event of default relating to such reporting obligations or the failure to comply with the requirements of Section 314(a)(1) of the Trust Indenture Act is cured or waived by the holders of a majority in principal amount of the outstanding notes prior to such 120th day), such additional interest will cease to accrue and, if the event of default relating to reporting obligations or the failure to comply with Section 314(a)(1) of the Trust Indenture Act has not been cured or waived prior to such 120th day, the notes will be subject to acceleration as provided in the indenture. The provisions of the indenture described in this paragraph will not affect the rights of noteholders in the event of the occurrence of any other event of default. In the event we do not elect to pay the additional interest upon an event of default in accordance with this paragraph, the notes will be subject to acceleration as provided in the indenture.

In order to elect to pay the additional interest on the notes as the sole remedy as provided above, we must notify all noteholders and the trustee and paying agent of such election on or before the close of business on the date on which such event of default first occurs.

Reports

We are required to file with the trustee and the SEC, and transmit to noteholders, such information, documents and other reports, and such summaries thereof, as may be required pursuant to the Trust Indenture Act at the times and in the manner provided pursuant to the Trust Indenture Act; provided that any such information, documents or reports required to be filed with the SEC pursuant to Section 13 or 15(d) of the Exchange Act must be filed with the trustee within 15 days after the same are so required to be filed with the SEC.

Modification and Waiver

In addition to the provisions of the indenture described under **Description of Debt Securities** **Modification and Waiver** in the accompanying prospectus, the following provisions of the notes may not be modified without the consent of each holder of an outstanding note affected:

(1) the making of any change that adversely affects the conversion rights of any notes; or

(2) the reduction of the fundamental change purchase price of any note, the amendment or modification of the change of control make-whole amounts set forth in the table under **Conversion Rights** **Adjustment to Shares Delivered Upon Certain Events** or the amendment or modification in any manner adverse to the noteholders of our obligation to make such payments, whether through an amendment or waiver of provisions in the covenants, definitions or otherwise.

Calculations in Respect of Notes

Except as otherwise provided above, we will be responsible for making all calculations called for in respect of the notes. These calculations include, but are not limited to, determinations of the Daily VWAP of our common stock, accrued interest payable on the notes and the conversion rate of the notes. We will make all these calculations in good faith and, absent manifest error, our calculations will be final and binding on the noteholders. We will provide a schedule of our calculations to each of the trustee and the conversion agent, and each of the trustee and the conversion agent is entitled to rely conclusively upon the accuracy of our calculations without independent verification. The trustee will forward our calculations to any noteholder upon the request of that noteholder.

Information Concerning the Trustee

Wells Fargo Bank, National Association, will be the trustee, security registrar, paying agent and conversion agent for the notes. Wells Fargo Bank, National Association, in each of its capacities, including without limitation as trustee, security registrar, paying agent and conversion agent, assumes no responsibility for the accuracy or completeness of the information concerning us or our affiliates or any other party contained in this prospectus

supplement or the related documents or for any failure by us or any other party to disclose events that may have occurred and may affect the significance or accuracy of such information.

The trustee has and certain of its affiliates may from time to time have, banking relationships in the ordinary course of business with us and certain of our affiliates.

Governing Law

The indenture provides that it and the notes will be governed by, and construed in accordance with, the laws of the State of New York.

Book-Entry, Delivery and Form

The notes will be issued in the form of one or more fully registered global notes, which we refer to as the Global Notes, which will be deposited with, or on behalf of, The Depository Trust Company, New York, New York, which we refer to as the Depository or DTC, and registered in the name of Cede & Co., the Depository's nominee. Beneficial interests in the Global Notes will be represented through book-entry accounts of financial institutions acting on behalf of beneficial owners as direct and indirect participants in the Depository.

Investors may elect to hold interests in the Global Notes through the Depository, Clearstream Banking Luxembourg S.A., which we refer to as Clearstream, or Euroclear Bank S.A./N.A., as operator of the Euroclear System, which we refer to as Euroclear, if they are participants in such systems, or indirectly through organizations which are participants in such systems. Clearstream and Euroclear will hold interests on behalf of their participants through customers' securities accounts in Clearstream's and Euroclear's names on the books of their respective depositories, which in turn will hold such interests in customers' securities accounts in the depositories' names on the books of the Depository. Citibank, N.A. will act as depository for Clearstream, and JPMorgan Chase Bank, N.A., successor to The Chase Manhattan Bank, will act as depository for Euroclear, which we refer to in such capacities as the U.S. Depositories. Except as set forth below, the Global Notes may be transferred, in whole and not in part, only to another nominee of the Depository or to a successor of the Depository or its nominee.

A further description of the Depository and its procedures with respect to the Global Notes is set forth in the accompanying prospectus under Description of Debt Securities Book-entry Debt Securities. The Depository has confirmed to us, the underwriters and the trustee that it intends to follow such procedures.

Global Clearance and Settlement Procedures

Initial settlement for the notes will be made in immediately available funds. We will make all payments of principal, premium, if any, and interest in respect of the notes in immediately available funds while the notes are held in book-entry only form. Secondary market trading between DTC participants will occur in the ordinary way in accordance with the Depository's rules and will be settled in immediately available funds using the Depository's Same-Day Funds Settlement System. Secondary market trading between Clearstream Customers and/or Euroclear Participants will occur in the ordinary way in accordance with the applicable rules and operating procedures of Clearstream and Euroclear and will be settled using the procedures applicable to conventional Eurobonds in immediately available funds.

Cross-market transfers between persons holding directly or indirectly through the Depository on the one hand, and directly or indirectly through Clearstream Customers or Euroclear Participants, on the other, will be effected in the Depository in accordance with the Depository's rules on behalf of the relevant European international clearing system by its U.S. Depository; however, such cross-market transactions will require delivery of instructions to the relevant European international clearing system by the counterparty in such system in accordance with its rules and procedures and within its established deadlines, in European time. The relevant European international clearing system will, if the transaction meets its settlement requirements, deliver instructions to its U.S. Depository to take action to effect final settlement on its behalf by delivering interests in the notes to or receiving interests in the notes from the Depository, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to the Depository. Clearstream Customers and Euroclear Participants may not deliver instructions directly to their respective U.S. Depositories.

Edgar Filing: Gastar Exploration Inc. - Form 424B3

Because of time-zone differences, credits of interests in the notes received in Clearstream or Euroclear as a result of a transaction with a DTC participant will be made during subsequent securities settlement processing and dated the business day following the Depository settlement date. Such credits or any transactions involving interests in such notes settled during such processing will be reported to the relevant Clearstream Customers or Euroclear Participants on such business day. Cash received in Clearstream or Euroclear as a result of sales of interests in the notes by or through a Clearstream Customer or a Euroclear Participant to a DTC participant will be received with value on the Depository settlement date but will be available in the relevant Clearstream or Euroclear cash account only as of the business day following settlement in the Depository.

Although the Depository, Clearstream and Euroclear have agreed to the foregoing procedures in order to facilitate transfers of interests in the notes among participants of the Depository, Clearstream and Euroclear, they are under no obligation to perform or continue to perform such procedures and such procedures may be changed or discontinued at any time.

Further Issues

We may from time to time, without notice to, or the consent of, the noteholders, create and issue further notes equal in rank to the notes offered hereby in all respects (or in all respects except for the issue date, conversion price, conversion rate and public offering price of such further notes, the payment of interest accruing before the issue date of such further notes, or the first payment of interest following the issue date of such further notes) and so that such further notes may be consolidated and form a single series with any series of the notes offered by this prospectus supplement and have the same terms as to status, redemption or otherwise as the notes of such series offered by this prospectus supplement. We will not issue any further notes intended to form a single series with any series of the notes offered hereby unless the further notes will be fungible with all notes of the same series for U.S. federal income tax purposes.

Notices

Notices to noteholders will be given by mail to the addresses of the registered noteholders as they appear in the security register.

ADDITIONAL MATERIAL U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following discussion supplements the discussion under the heading "Material Federal Income Tax Considerations" in the prospectus. Terms used in this section but not defined in this section have the meanings ascribed to them elsewhere in this prospectus supplement or in "Material Federal Income Tax Considerations" in the prospectus. You should refer to the discussion in the prospectus under "Material Federal Income Tax Considerations" for a discussion of the tax consequences of our election to be taxed as a REIT and the tax consequences to Owners of shares of our common stock. The following is a summary of certain material U.S. federal income tax considerations relates to the acquisition, ownership and disposition of the notes.

This discussion does not purport to be a complete analysis of all the potential tax considerations relating to the acquisition, ownership and disposition of the notes and our common stock into which the notes may be converted. The discussion is based on the Code, current, temporary and proposed Treasury Regulations, the legislative history of the Code, current administrative interpretations and practices of the IRS, including its practices and policies as endorsed in private letter rulings, which are not binding on the IRS (except with respect to the taxpayer that received the ruling), and existing court decisions. Future legislation, regulations, administrative interpretations, and court decisions could change current law or adversely affect existing interpretations of current law. Any change could apply retroactively. The IRS could challenge the statements in this discussion, which do not bind the IRS or the courts.

This summary applies to you only if you are a beneficial owner of a note and you acquire the note in this offering for a price equal to the issue price of the notes. The issue price of the notes is the first price at which a substantial amount of the notes is sold other than to bond houses, brokers, or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers. This summary deals only with notes and common shares held as "capital assets" (within the meaning of Section 1221 of the Code) and does not address tax considerations applicable to an investor's particular circumstances or to investors that may be subject to special tax rules, including, without limitation:

- § dealers in securities or currencies;
- § traders in securities;
- § U.S. Holders (as defined below) whose functional currency is not the United States dollar;
- § persons holding notes or common stock as part of a conversion, constructive sale, wash sale or other integrated transaction or a hedge, straddle, or synthetic security;
- § persons subject to the alternative minimum tax;
- § certain United States expatriates;
- § financial institutions;
- § insurance companies;
- § controlled foreign corporations, passive foreign investment companies and regulated investment companies, and shareholders of such corporations;
- § entities that are tax-exempt from U.S. federal income tax, such as retirement plans, individual retirement accounts, and tax-deferred accounts;
- § pass-through entities, including partnerships and entities and arrangements classified as partnerships for U.S. federal tax purposes, and beneficial owners of pass-through entities; and

§ persons that acquire the notes for a price other than their issue price or that acquire our common stock other than pursuant to conversion of the notes.

If you are a partnership (or an entity or arrangement classified as a partnership for U.S. federal income tax purposes) holding notes or common stock, or a partner in such a partnership, the U.S. federal income tax treatment of a partner in the partnership generally will depend on the status of the partner and the activities of the partnership, and you are encouraged to consult your own tax advisor regarding the U.S. federal income and estate tax consequences of purchasing, owning and disposing of the notes and the common stock.

You are encouraged to consult your own tax advisor before you purchase notes regarding the particular U.S. federal, state and local and non-U.S. income and other tax consequences of purchasing, owning, and disposing of the notes and the common stock that may be applicable to you in light of your particular circumstances.

For purposes of this summary, when we use the term

§ U.S. Holder, we mean a U.S. Person that is the beneficial owner of an interest in notes; and

§ Foreign Holder, we mean a person other than an U.S. Person that is a beneficial owner of notes.

Tax Treatment of U.S. Holders

The following summary applies to you only if you are a U.S. Holder.

Interest on the Notes

Interest on your notes will be taxed as ordinary interest income. In addition:

§ if you use the cash method of accounting for U.S. federal income tax purposes, you will have to include the interest on your notes in your gross income at the time you receive the interest; and

§ if you use the accrual method of accounting for U.S. federal income tax purposes, you will have to include the interest on your notes in your gross income at the time the interest accrues.

Original Issue Discount

The stated principal amount of the notes will exceed their issue price (as defined below) by an amount that exceeds the statutory de minimis amount and, accordingly, the notes will be issued with original issue discount ("OID") for U.S. federal income tax purposes in an amount equal to such excess.

Generally, a debt instrument will be issued with OID if the excess of the "stated redemption price at maturity" of the debt instrument over its "issue price" is equal to or greater than a de minimis amount (generally 1/4 of 1% of the debt instrument's stated redemption price at maturity multiplied by the number of complete years from its issue date to its maturity date). The "stated redemption price at maturity" of the notes is the sum of all payments to be made under the notes other than payments of "qualified stated interest." All of the stated interest on the notes will be qualified stated interest, and thus the stated redemption price at maturity will equal the stated principal amount of the notes. The "issue price" of the notes is the first price at which a substantial amount of the notes is sold other than to bond houses, brokers or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers.

You will be required to accrue and include OID in gross income as ordinary income using a constant yield method, in advance of the receipt of the cash payment attributable to the OID, regardless of your regular method of accounting for U.S. federal income tax purposes. The amount of OID that you must include in gross income for each taxable year is the sum of the daily portions of OID that accrue on your notes for each day of the taxable year during which you held the notes. The daily portion of OID is determined by allocating to each day of an accrual period (generally, the period between interest payment dates or compounding dates) a pro rata portion of the OID allocable to such accrual period. The amount of OID allocable to an accrual period is the product of the "adjusted issue price" of the notes at the beginning of the accrual period multiplied by the yield to maturity of the notes (adjusted to reflect the length of the accrual period), reduced by the amount of any qualified stated interest allocable to such accrual period. The adjusted issue price of the notes at the beginning of an accrual period generally will equal their issue price, increased by the aggregate amount of OID that has accrued on the notes in all prior accrual periods. You should consult your own tax advisor concerning the consequences of, and accrual of, OID on the notes.

Edgar Filing: Gastar Exploration Inc. - Form 424B3

You generally may irrevocably elect to treat all interest on the notes as OID and calculate the amount includible in income using a constant yield method. You should consult your own tax advisor regarding this election.

Constructive Distributions

The terms of the notes allow for changes in the conversion rate of the notes under certain circumstances. Under Section 305(c) of the Code, adjustments to the conversion rate of the notes that have the effect of increasing the noteholders' proportionate interests in our earnings and profits or assets may result in a taxable deemed distribution to the noteholders. A taxable deemed distribution to the noteholders would result, for example, if the conversion rate is adjusted to compensate noteholders for distributions of cash or property to our stockholders. The adjustment to the conversion rate of the notes converted in connection with a fundamental change, as described under "Description of Notes—Conversion Rights—Conversion Rate Adjustments" above, also may be treated as a taxable deemed distribution. However, adjustments to the conversion rate made pursuant to a bona fide reasonable adjustment formula that has the effect of preventing the dilution of the noteholders' interests generally will not result in a taxable deemed distribution to the noteholders. Any taxable deemed distribution to the noteholders will be included in your income in the same manner as an actual distribution received by you as an Owner as discussed in the accompanying prospectus under "Material Federal Income Tax Considerations – Taxation of Owners – Taxation of Taxable Domestic Owners – Distributions." Accordingly, you would be considered to have received a distribution taxable as a dividend to the extent of our current or accumulated earnings and profits even though you did not receive any cash or other property.

Sale or Other Disposition of Notes

Upon the sale, redemption, exchange or other taxable disposition of the notes, you generally will recognize taxable gain or loss equal to the difference, if any, between:

§ the amount realized on the disposition (less any amount attributable to accrued interest, which will be taxable as ordinary interest income to the extent not previously included in your gross income, in the manner described above under "—Tax Treatment of U.S. Holders—Interest on the Notes"); and

§ your tax basis in the notes.

Your tax basis in your notes generally will be their cost, increased by the amount of OID on the notes previously included in your gross income. Your gain or loss generally will be capital gain or loss. This capital gain or loss will be long-term capital gain or loss if at the time of the disposition you have held the notes for more than one year. Subject to limited exceptions, your capital losses cannot be used to offset your ordinary income. If you are a non-corporate U.S. Holder, your long-term capital gain generally will be subject to a preferential rate of U.S. federal income tax.

Sale or Other Disposition of Common Stock

Your tax basis in shares of our common stock that you receive upon conversion of your notes will be determined in the manner described below under "—Tax Treatment of U.S. Holders—Conversion of Notes." See "Material Federal Income Tax Considerations — Taxation of Owners—Taxation of Taxable Domestic Owners—Dispositions of Our Stock" in the accompanying prospectus for additional information relating to the sale or other disposition of shares of our common stock.

Repurchase of Notes

You have the right to require that we repurchase all or a portion of your notes in exchange for shares of our common stock upon the occurrence of certain fundamental changes, as described above under "Description of Notes — Fundamental Change Permits Noteholders to Require Us to Purchase Notes." The U.S. federal income tax consequences to you upon such a repurchase of your notes will be as described below under "—Tax Treatment of U.S. Holders—Conversion of Notes."

Conversion of Notes for Common Stock

If you convert notes into shares of our common stock, you will not recognize any gain or loss (except with respect to cash received in lieu of a fractional share of common stock and cash received attributable to accrued and unpaid interest), subject to the discussion under "—Tax Treatment of U.S. Holders—Constructive Distributions" above regarding the possibility that the adjustment to the conversion rate of a note converted in connection with a fundamental change may be treated as a taxable deemed dividend. Moreover, your basis in the common stock you acquire upon the conversion (including any fractional share for which cash is paid, but excluding shares attributable to accrued and unpaid interest) will equal your basis in the notes you surrender upon conversion and your holding period for the common stock you acquire upon conversion (other than shares attributable to accrued and unpaid interest) will include the period for which you held the notes that you surrender upon conversion.

Any cash and the value of any shares of our common stock attributable to accrued interest on your converted notes not previously included in your income will be taxed as ordinary income. Your tax basis in any shares of our common stock attributable to accrued and unpaid interest will equal the fair market value of such shares when received. Your holding period in any shares of our common stock attributable to accrued and unpaid interest generally will begin on the day after the date of conversion

With respect to cash received in lieu of a fractional share of common stock, you will be treated as if the fractional share were issued and received and then immediately redeemed for cash. Accordingly, you will recognize capital gain or loss equal to the difference between the cash received and that portion of your tax basis in the common stock (determined as discussed above) attributable to the fractional share.

S-45

Conversion of Notes for Cash or Common Stock and Cash

If you convert your notes and receive in exchange solely cash, you will be subject to the rules described under “—Tax Treatment of U.S. Holders—Sale or Other Disposition of Notes” above.

If you convert your notes and receive, at our discretion, a combination of our common stock and cash, then the tax treatment of the conversion transaction is not clear. We encourage you to consult your own tax advisor concerning the proper treatment of such a conversion.

If you convert your notes and receive in exchange a combination of shares of our common stock and cash, the conversion transaction could be treated as a recapitalization for federal income tax purposes. If your conversion of notes were to be viewed as a recapitalization transaction in which you surrendered securities (*i.e.*, your interest in the notes) in exchange for stock and cash, you would be required to recognize any gain realized (but you would not recognize loss). The amount of gain you would recognize would equal the lesser of (i) the excess (if any) of (A) the sum of (I) the amount of cash you receive (excluding any cash received in lieu of a fractional share of our common stock and any cash received attributable to accrued and unpaid interest) plus (II) the fair market value of our common stock you receive (treating a fractional share of our common stock as issued and received for this purpose and excluding any such common stock that is attributable to accrued and unpaid interest), over (B) your tax basis in the converted note, and (ii) the amount of cash you receive upon conversion (excluding any cash received in lieu of a fractional share of our common stock and any cash received attributable to accrued and unpaid interest).

Your tax basis in the common stock you receive (including any fractional share for which cash is paid, but excluding shares attributable to accrued and unpaid interest) generally will equal your tax basis in the converted note, decreased by the amount of cash received (excluding any cash received in lieu of a fractional share of our common stock and any cash received attributable to accrued and unpaid interest), increased by the amount of gain (if any) recognized upon conversion (other than any gain recognized as a result of cash received in lieu of a fractional share of common stock). Your holding period in the common stock you receive will include your holding period in the converted note (other than shares attributable to accrued and unpaid interest).

Alternatively, your conversion of a note into cash and shares of our common stock may be treated as, in part, a payment in redemption for cash of a portion of the note and in part a conversion of a portion of the note into our common stock. Under this view, you would allocate your aggregate tax basis in the note between the portion of the note treated as redeemed and the portion of the note treated as converted into our common stock based on the relative fair market value of our common stock and the amount of cash received on conversion.

Under this alternative view, you generally would recognize capital gain or loss with respect to the portion of the note treated as redeemed equal to the difference between the amount of cash received (other than amounts attributable to accrued and unpaid interest) and the portion of your note treated as redeemed. See “—Tax Treatment of U.S. Holders—Sale or Other Disposition of Notes” above. With respect to the portion of your note treated as converted, you generally would not recognize any gain or loss (except with respect to cash received in lieu of a fractional share of common stock and cash received attributable to accrued and unpaid interest), subject to the discussion under “—Tax Treatment of U.S. Holders—Constructive Distributions” above regarding the possibility that the adjustment to the conversion rate of a note converted in connection with a fundamental change may be treated as a taxable deemed dividend. The tax basis allocated to the portion of your note treated as converted into common stock would be your tax basis in the common stock received (including any fractional share for which cash is paid, but excluding shares attributable to accrued interest). Your holding period in the common stock received (other than shares attributable to accrued and unpaid interest) would include your holding period in the converted note.

In each case, subject to the discussion under “—Tax Treatment of U.S. Holders—Constructive Distributions” above regarding the possibility that the adjustment to the conversion rate of a note converted in connection with a fundamental change may be treated as a taxable deemed dividend, any gain or loss that you recognize upon conversion of a note will be capital gain or loss.

In each case, with respect to cash received in lieu of a fractional share of common stock, you will be treated as if the fractional share were issued and received and then immediately redeemed for cash. Accordingly, you will recognize capital gain or loss equal to the difference between the cash received and that portion of your tax basis in the common stock (determined as discussed above) attributable to the fractional share.

In each case, any cash and the value of any shares of common stock attributable to accrued and unpaid interest on a converted note not previously included in your income will be taxed as ordinary income. Your tax basis in any shares of common stock attributable to accrued and unpaid interest will equal the fair market value of such shares when received. Your holding period in any shares of common stock attributable to accrued and unpaid interest generally will begin on the day after the date of conversion.

Mergers and Consolidations

If we are a party to a consolidation, merger or statutory share exchange or a transfer of all or substantially all of the consolidated assets of us and our subsidiaries as described under “Description of Notes—Conversion Rights—Recapitalizations, Reclassifications and Changes of Our Common Stock,” the conversion obligation will be adjusted so that you will be entitled to convert your notes into the type of consideration that

Edgar Filing: Gastar Exploration Inc. - Form 424B3

you would have been entitled to receive in such transaction had your notes been converted into common stock immediately prior to such transaction. Depending on the facts and circumstances at the time of any such transaction, such adjustment may result in a deemed exchange of the notes, which may be a taxable event for U.S. federal income tax purposes. You are encouraged to consult your own tax advisor regarding the U.S. federal income tax consequences of such an adjustment as a result of any such transaction.

Distributions on Common Stock

For a discussion concerning the tax treatment of distributions we make with respect to our common stock, see “Material Federal Income Tax Considerations — Taxation of Owners — Taxation of Taxable Domestic Owners” in the accompanying prospectus.

Tax Treatment of Foreign Holders

The following summary applies to you only if you are a Foreign Holder. References to interest on the notes in the following summary include OID on the notes.

Interest on Notes

Under current U.S. federal income tax law, and subject to the discussion below, U.S. federal withholding tax generally will not apply to payments by us or our paying agent (in its capacity as such) of principal of and interest on your notes under the portfolio interest exception of the Code, provided that in the case of interest:

- § you do not, directly or indirectly, actually or constructively, own ten percent or more of the total combined voting power of all classes of our stock entitled to vote within the meaning of section 871(h)(3) of the Code and the related Treasury Regulations;
- § you are not a controlled foreign corporation for U.S. federal income tax purposes that is related, directly or indirectly, to us through sufficient stock ownership (as provided in the Code);
- § you are not a bank receiving interest described in section 881(c)(3)(A) of the Code;
- § such interest is not effectively connected with your conduct of a United States trade or business (see the discussion below under Tax Treatment of Foreign Holders Income or Gains Effectively Connected with a U.S. Trade or Business); and
- § you provide a signed written statement, on an IRS Form W-8BEN (or other applicable form) which can reliably be related to you, certifying under penalties of perjury that you are not a United States person within the meaning of the Code and providing your name and address to:
 - o us or our paying agent; or
 - o a securities clearing organization, bank or other financial institution that holds customers securities in the ordinary course of its trade or business and holds your notes on your behalf and that certifies to us or our paying agent under penalties of perjury that it, or the bank or financial institution between it and you, has received from you your signed, written statement and provides us or our paying agent with a copy of this statement.

The applicable Treasury Regulations provide alternative methods for satisfying the certification requirement described in this section. In addition, under these Treasury Regulations, special rules apply to pass-through entities and this certification requirement may also apply to beneficial owners of pass-through entities. If you cannot satisfy the requirements of the portfolio interest exception described above, subject to the discussion below under Recent Tax Law Changes Reporting and Withholding on Foreign Financial Accounts, payments of interest made to you will be subject to 30% U.S. federal withholding tax unless you provide us or our paying agent with a properly executed (1) IRS Form W-8ECI (or other applicable form) stating that interest paid on your notes is not subject to withholding tax because it is effectively connected with your conduct of a trade or business in the United States, or (2) IRS Form W-8BEN (or other applicable form) claiming an exemption from or reduction in this withholding tax under an applicable income tax treaty.

Distributions on Common Stock and Constructive Distributions

Edgar Filing: Gastar Exploration Inc. - Form 424B3

For a discussion concerning the tax treatment of distributions we make with respect to our common stock, see *Material Federal Income Tax Considerations Taxation of Owners Taxation of Foreign Owners* in the accompanying prospectus.

As mentioned above, under *Tax Treatment of U.S. Holders Constructive Distributions*, the terms of the notes allow for adjustment of the conversion rate of the notes in certain circumstances and such adjustments may give rise to deemed distributions to the noteholders. Any such deemed distribution will be treated in the same manner as an actual distribution with respect to our common stock for purposes of U.S. federal income taxes and withholding taxes. If we pay withholding taxes on your behalf as a result of a deemed distribution upon an adjustment to the conversion rate of the notes, we may, at our option and pursuant to certain provisions of the second supplemental indenture, set off such payments against payments of cash and common stock on the notes. You are urged to consult your tax advisors with respect to the U.S. federal income tax and withholding tax consequences resulting from an adjustment to the conversion rate of the notes.

Sale or Other Disposition of Notes or Common Stock

Subject to the discussion below and under *Recent Tax Law Changes Reporting and Withholding on Foreign Financial Accounts*, you generally will not be subject to U.S. federal income or withholding tax on any gain realized on the sale, exchange, redemption, conversion or other disposition of the notes or our common stock, unless:

- § in the case of disposition proceeds representing accrued interest on the notes, you cannot satisfy the requirements of the *portfolio interest* exception described above (and your U.S. federal income tax liability has not otherwise been fully satisfied through the U.S. federal withholding tax described above);
- § the gain is effectively connected with your conduct of a U.S. trade or business and, if required by an applicable income tax treaty, is attributable to a permanent establishment maintained by you in the United States, in which case, the gain will be taxed as discussed below under *Tax Treatment of Foreign Holders Income or Gains Effectively Connected with a U.S. Trade or Business* ;
- § you are an individual who is present in the United States for more than 182 days during the taxable year of the disposition and specific other conditions are met (in which case, except as otherwise provided by an applicable income tax treaty, the gain, which may be offset by United States source capital losses, generally will be subject to a flat 30% U.S. federal income tax, even though you are not considered a resident alien under the Code); or
- § the rules of the Foreign Investment in Real Property Tax Act treat our common stock as U.S. real property interests (*USRPIs*).

We do not expect that our common stock will constitute USRPIs (see the discussion in the accompanying prospectus under *Material Federal Income Tax Considerations Taxation of Foreign Owners Dispositions of our Stock*). However, even if our common stock constitutes USRPIs, your disposition of the notes generally will still not be subject to tax under FIRPTA as a disposition of a USRPI provided that (i) our common stock is *regularly traded* (as defined by applicable Treasury Regulations) on an established securities market and (ii) you did not own, actually or constructively, notes whose total fair market value on the date they were acquired (and on the date or dates any additional notes were acquired) exceeded the fair market value on that date (and on the date or dates any additional notes were acquired) of 5% of all our common stock or, if the notes are *regularly traded* (as defined by applicable Treasury Regulations) on an established securities market, you did not own, actually or constructively, more than 5% of the total fair market value of the notes at any time during a specified testing period.

Income or Gains Effectively Connected with a U.S. Trade or Business

If any interest on the notes, dividends on our common stock or gain from the sale, exchange, redemption, conversion or other disposition of the notes or our common stock is effectively connected with a U.S. trade or business conducted by you, then the income or gain will be subject to U.S. federal income tax on a net basis at the

Edgar Filing: Gastar Exploration Inc. - Form 424B3

regular graduated rates and in the same manner applicable to U.S. Holders. If you are eligible for the benefits of an income tax treaty between the United States and your country of residence, any effectively connected income or gain generally will be subject to U.S. federal income tax only if it is also attributable to a permanent establishment maintained by you in the United States.

Payments of interest or dividends that are effectively connected with a U.S. trade or business conducted by you (and, if required by an applicable income tax treaty, are attributable to a permanent establishment in the United States maintained by you), and therefore included in your gross income, will not be subject to any withholding tax that may otherwise apply, subject to the discussion below under **Recent Tax Law Changes Reporting and Withholding on Foreign Financial Accounts**, provided that you claim exemption from such withholding tax. To claim exemption from such withholding tax, you must certify your qualification, which can be done by providing a properly executed IRS Form W-8ECI or appropriate substitute form on or before any payment date. In addition, a branch profits tax may be imposed at a 30% rate, or a lower rate under an applicable income tax treaty, on a non-U.S. corporation that has earnings and profits (attributable to interest, dividends, gains or otherwise) that are effectively connected with the conduct of a trade or business in the United States.

United States Federal Estate Tax

If you are an individual and are not a United States citizen or a resident of the United States (as specially defined for U.S. federal estate tax purposes) at the time of your death, your notes generally will not be subject to the U.S. federal estate tax, unless, at the time of your death:

§ you directly or indirectly, actually or constructively, own ten percent or more of the total combined voting power of all classes of our stock entitled to vote within the meaning of section 871(h)(3) of the Code and the related Treasury Regulations; or

§ your interest on the notes is effectively connected with your conduct of a United States trade or business.

Common stock owned or treated as owned by an individual who is not a United States citizen or resident of the United States (as specially defined for U.S. federal estate tax purposes) at the time of death will be included in the individual's gross estate for U.S. federal estate tax purposes, unless an applicable estate tax or other treaty provides otherwise and, therefore, may be subject to U.S. federal estate tax.

Recent Tax Law Changes

Medicare Tax For taxable years beginning after December 31, 2012, certain taxable U.S. Persons who are individuals, estates or trusts will be subject to a 3.8% tax on all or a portion of their net investment income, which may include all or a portion of their dividends on our common stock, interest on the notes and net gains from the taxable disposition of our common stock or the notes. Taxable U.S. Persons that are individuals, estates or trusts should consult their tax advisors regarding the applicability of the Medicare tax to any of their income or gains in respect of our common stock or the notes.

Reporting and Withholding on Foreign Financial Accounts On March 18, 2010, the President signed the Hiring Incentives to Restore Employment Act (the HIRE Act) into law. This law imposes a 30% U.S. federal withholding tax on dividends on, and the gross proceeds from the sale or other disposition of, shares of our common stock, and interest on, and proceeds from the sale or other disposition of, our notes to a foreign financial institution or non-financial foreign entity, unless (i) in the case of a foreign financial institution, such institution enters into an agreement with the U.S. government to withhold on certain payments and to collect and provide to the U.S. tax authorities substantial information regarding U.S. account holders of such institution (which includes certain equity and debt holders of such institution, as well as certain account holders that are foreign entities with U.S. owners) and to withhold on certain payments and (ii) in the case of a non-financial foreign entity, such entity provides the withholding agent with a certification identifying the direct and indirect U.S. owners of the entity. Although the withholding tax provisions of the HIRE Act were to have been effective beginning in 2013, the IRS has provided for a phased-in implementation of these provisions. Specifically, withholding on interest on the notes and dividends on share of our common stock, but not gross proceeds from the sale or other disposition of the

Edgar Filing: Gastar Exploration Inc. - Form 424B3

notes or shares of our common stock, generally is to begin after December 31, 2013. Withholding on gross proceeds from disposition of the notes and such shares is generally to begin after December 31, 2014. Under certain circumstances, a Foreign Owner might be eligible for refunds or credits of such taxes.

Under a statutory grandfathering provision, the withholding tax provisions of the HIRE Act apply to debt obligations, such as the notes, issued after March 18, 2012. However, recently issued proposed Treasury regulations generally would extend the statutory grandfathering provision to debt obligations that are issued after March 18, 2012 and before January 1, 2013. Thus, under these proposed Treasury regulations, the withholding tax provisions of the HIRE Act generally would not apply to the notes (although such provisions would still apply to the shares of our common stock received upon the conversion of the notes). However, there can be no assurance as to whether or not these proposed Treasury regulations will be adopted in final form and, if so adopted, what form the proposed Treasury regulations will take. Prospective purchasers of the notes should consult their own tax advisors regarding the effect, if any, of the withholding tax provisions of the HIRE Act for them based on their particular circumstances.

Extension of Reduced Tax Rates On December 17, 2010, the Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010 (the Job Creation Act) was enacted. Among other things, the Job Creation Act extended until December 31, 2012 certain reduced tax rates that had been scheduled to expire after December 31, 2010, including the reduced 15% maximum rate of tax on capital gains, the reduced 35% maximum rate of tax on ordinary income, and the application of the capital gains tax rate to certain qualified dividend income discussed in the accompanying prospectus.

CERTAIN ERISA CONSIDERATIONS

Each fiduciary of a pension, profit-sharing or other employee benefit plan subject to the Employee Retirement Income Security Act of 1974, as amended (or ERISA) (or Plan), should consider the fiduciary standards of ERISA in the context of the Plan's particular circumstances before authorizing an investment in the notes. Accordingly, among other factors, the fiduciary should consider whether the investment would satisfy the prudence and diversification requirements of ERISA and would be consistent with its fiduciary responsibilities, and the documents and instruments governing the Plan.

In addition, we and certain of our subsidiaries and affiliates may be each considered a party in interest within the meaning of ERISA, or a disqualified person within the meaning of the Code, with respect to many Plans, as well as other arrangements subject to Section 4975 of the Code, including individual retirement accounts and Keogh plans (such arrangements also referred to herein as Plans). Prohibited transactions within the meaning of ERISA or the Code would likely arise, for example, if the notes are acquired by or with the assets of a Plan with respect to which we or any of our subsidiaries or affiliates is a party in interest, unless the transaction qualifies for an exemption from the prohibited transaction rules of ERISA and the Code. A violation of these prohibited transaction rules could result in an excise tax or other liabilities under ERISA and/or Section 4975 of the Code for such persons, unless exemptive relief is available under an applicable statutory or administrative exemption.

Exemptive relief from the prohibited transaction rules under ERISA and the Code may be available for direct or indirect prohibited transactions resulting from the purchase, holding or disposition of the notes. Those exemptions include Prohibited Transaction Class Exemption (or PTCE) 96-23 (for certain transactions determined by in-house asset managers), PTCE 95-60 (for certain transactions involving insurance company general accounts), PTCE 91-38 (for certain transactions involving bank collective investment funds), PTCE 90-1 (for certain transactions involving insurance company separate accounts), and PTCE 84-14 (for certain transactions determined by independent qualified asset managers). In addition, the exemption under Section 408(b)(17) of ERISA and Section 4975(d)(20) of the Code provides exemptive relief for certain arm's-length transactions with a person (other than a fiduciary or an affiliate of a fiduciary that has or exercises discretionary authority or control or renders investment advice with respect to the assets involved in the transaction) that is a party in interest solely by reason of providing services to Plans or being an affiliate of such a service provider (or Service Provider Exemption). However, there can be no assurance that any of these class exemptions, the statutory exemption or any other exemption will be available with respect to any particular transaction involving the notes.

Because we or our affiliates may be considered a party in interest or disqualified person with respect to many Plans, the notes may not be purchased, held, converted or disposed of by any Plan, any entity whose underlying assets include plan assets by reason of any Plan's investment in the entity (or Plan Asset Entity) or any person investing plan assets of any Plan, unless such purchase, holding, conversion or disposition is eligible for exemptive relief, including relief available under PTCE 96-23, 95-60, 91-38, 90-1, or 84-14 or the Service Provider Exemption, or such purchase, holding, conversion or disposition is otherwise not prohibited. Any purchaser, including any fiduciary purchasing on behalf of a Plan, transferee or noteholder will be deemed to have represented, in its corporate and its fiduciary capacity, by its purchase and holding of the notes that either (a) it is not a Plan or a Plan Asset Entity and is not purchasing such notes on behalf of or with plan assets of any Plan or with any assets of a governmental, church or foreign plan that is subject to any federal, state, local or foreign law that is substantially similar to the provisions of Section 406 of ERISA or Section 4975 of the Code or (b) (i) its purchase, holding, conversion and disposition of the notes will not constitute or result in a non-exempt prohibited transaction or will satisfy the conditions required for exemptive relief under a prohibited transaction exemption and (ii) such purchase, holding, conversion and disposition are not otherwise prohibited by ERISA or Section 4975 of the Code (or in the case of a governmental, church or foreign plan, any substantially similar federal, state, local or foreign law).

Under ERISA, assets of a Plan may include assets held in the general account of an insurance company which has issued an insurance policy to such plan or assets of an entity in which the Plan has invested. Accordingly, insurance company general accounts that include assets of a Plan must ensure that one of the foregoing exemptions is available. Due to the complexity of these rules and the penalties that may be imposed upon persons involved in non-exempt prohibited transactions, it is particularly important that fiduciaries or other persons considering purchasing the notes on behalf of or with plan assets of any Plan consult with their counsel regarding the

Edgar Filing: Gastar Exploration Inc. - Form 424B3

availability of exemptive relief under PTCE 96-23, 95-60, 91-38, 90-1 or 84-14, the Service Provider Exemption or another exemption.

Purchasers of the notes have exclusive responsibility for ensuring that their purchase, holding, conversion and disposition of the notes do not violate the prohibited transaction rules or other provisions of ERISA, the Code or any substantially similar laws or regulations applicable to governmental, church or foreign plans, as described above.

UNDERWRITING

Under the terms and subject to the conditions contained in an underwriting agreement dated May 9, 2012 we have agreed to sell to the underwriters, and the underwriters have severally agreed to purchase from us, the principal amount of notes listed opposite their names below. Credit Suisse Securities (USA) LLC and Morgan Stanley & Co. LLC are acting as representatives of the underwriters.

<u>Name</u>	<u>Principal Amount of Notes</u>
Credit Suisse Securities (USA) LLC	\$ 300,000,000
Morgan Stanley & Co. LLC	225,000,000
J.P. Morgan Securities LLC	112,500,000
UBS Securities LLC	112,500,000
Total	\$ 750,000,000

The underwriters propose to offer the notes from time to time for sale in one or more transactions in the over-the-counter market, through negotiated transactions or otherwise at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices, subject to receipt and acceptance by the underwriters and subject to the underwriters' right to reject any order in whole or in part. In connection with the sale of the notes offered hereby, the underwriters may be deemed to have received compensation in the form of underwriting discounts. The underwriters may effect such transactions by selling notes to or through dealers, and such dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and / or purchasers of notes for whom they may act as agents or to whom they may sell as principal.

The underwriters are purchasing the notes from us at a price per note of 97.0% (plus accrued interest, if any, from May 14, 2012), resulting in aggregate net proceeds to us, before we deduct our out-of-pocket expenses, of approximately \$727,500,000 (or approximately \$836,625,000 if the underwriters' over-allotment option is exercised in full).

The underwriting agreement provides that the underwriters are obligated to purchase all the notes in the offering if any are purchased, other than those notes covered by the option to purchase additional notes described below.

The underwriters have an option to buy up to an additional \$112.5 million aggregate principal amount of notes at the initial offering price, less the underwriting discounts and commissions. The underwriters have 30 days from the date of this prospectus supplement to exercise this option. If any additional notes are purchased, the underwriters will offer the additional notes on the same terms as those on which the notes are being offered.

Pursuant to certain lock-up agreements, we and our executive officers and directors have agreed, subject to certain exceptions, not to offer, sell, contract to sell, announce any intention to sell, pledge or otherwise dispose of, directly or indirectly, or file with the SEC a registration statement under the Securities Act relating to, any common stock or securities convertible into or exchangeable or exercisable for any common stock without the prior written consent of Credit Suisse Securities (USA) LLC for a period of 30 days after the date of this prospectus supplement. Specifically, we and these other individuals have agreed not to directly or indirectly:

offer, pledge, sell or contract to sell any common stock;

sell any option or contract to purchase any common stock;

S-53

purchase any option or contract to sell any common stock;

grant any option, right or warrant for the sale of any common stock;

lend or otherwise dispose of or transfer any common stock;

request or demand that we file a registration statement related to the common stock; or

enter into any swap or other agreement that transfers, in whole or in part, the economic consequence of ownership of any common stock whether any such swap or transaction is to be settled by delivery of shares or other securities, in cash or otherwise.

This lock-up provision applies to common stock and to securities convertible into or exchangeable or exercisable for or repayable with common stock. It also applies to common stock owned now or acquired later by the person executing the agreement or for which the person executing the agreement later acquires the power of disposition. The 30-day restricted period will be automatically extended if (1) during the last 17 days of the 30-day restricted period issue an earnings release or material news or a material event relating to us occurs or (2) prior to the expiration of the 30-day restricted period, we announce that we will release earnings results or becomes aware that material news or a material event will occur during the 16-day-period beginning on the last day of the 30-day restricted period, in which case the restrictions described above will continue to apply until the expiration of the 18-day period beginning on the issuance of the earnings release or the occurrence of the material news or material event. The exceptions permit us, among other things and subject to restrictions, to: (a) issue common stock or options pursuant to our long term stock incentive plan or pursuant to the exercise of employee stock options or other awards, and (b) issue common stock pursuant to our stock dividend reinvestment plan.

We estimate that our total expenses for this offering, excluding the underwriting discounts and commissions, will be approximately \$250,000.

The notes are a new issue of securities, and there is currently no established trading market for the notes. The underwriters have advised us that they intend to make a market in the notes, but they are not obligated to do so. The underwriters may discontinue any market making in the notes at any time in their sole discretion without notice. Accordingly, we cannot assure you that a liquid trading market will develop for the notes, that you will be able to sell your notes at a particular time or that the prices you receive when you sell will be favorable.

In connection with the offering, the underwriters may engage in over-allotment transactions, syndicate covering transactions and penalty bids in accordance with Regulation M under the Exchange Act.

Over-allotment involves sales by the underwriters of notes in excess of the number of notes the underwriters are obligated to purchase, which creates a syndicate short position. The short position may be either a covered short position or a naked short position. In a covered short position, the number of notes over-allotted by the underwriters is not greater than the number of notes that they may purchase in the option to purchase additional notes. In a naked short position, the number of

notes involved is greater than the number of notes in the option to purchase additional notes. The underwriters may close out any covered short position by either exercising its option to purchase additional notes and/or purchasing notes in the open market.

Syndicate covering transactions involve purchases of the notes in the open market after the distribution has been completed in order to cover syndicate short positions. In determining the source of the notes to close out the short position, the underwriters will consider, among other things, the price of the notes available for purchase in the open market as compared to the price at which it may purchase notes through the option to purchase additional notes. If the underwriters sell more notes than could be covered by the option to purchase additional notes, a naked short position, the position can only be closed out by buying notes in the open market. A naked short position is more likely to be created if the underwriters are concerned that there could be downward pressure on the price of the notes in the open market after pricing that could adversely affect investors who purchase in the offering.

Penalty bids permit the representative to reclaim a selling concession from a syndicate member when the notes originally sold by the syndicate members are purchased in a stabilizing or syndicate covering transaction to cover syndicate short positions.

These syndicate covering transactions and penalty bids may have the effect of raising or maintaining the market price of the notes or preventing or retarding a decline in the market price of the notes. As a result the price of the notes may be higher than the price that might otherwise exist in the open market. These transactions, if commenced, may be discontinued at any time.

We and the underwriters have agreed to indemnify each other against certain liabilities, including liabilities under the Securities Act.

A prospectus in electronic format may be made available on the web sites maintained by the underwriters, or selling group members, if any, participating in this offering and the underwriters may distribute prospectuses electronically. The underwriters may agree to allocate an aggregate principal amount of notes to selling group members for sale to their online brokerage account holders. Internet distributions will be allocated by the underwriters and selling group members that will make internet distributions on the same basis as other allocations.

ABOUT ANNALY CAPITAL MANAGEMENT, INC.

General

We own, manage, and finance a portfolio of investment securities, including mortgage pass-through certificates, collateralized mortgage obligations (or CMOs), agency callable debentures, and other securities representing interests in or obligations backed by pools of mortgage loans. Our principal business objective is to generate net income for distribution to our stockholders from the spread between the interest income on our investment securities and the cost of borrowings to finance our acquisition of investment securities, and from dividends we receive from our subsidiaries. We are a Maryland corporation that commenced operations on February 18, 1997. We are self-advised and self-managed.

We have financed our purchases of investment securities with the net proceeds of equity offerings and borrowings under repurchase agreements whose interest rates adjust based on changes in short-term market interest rates. We have elected to be taxed as a real estate investment trust (or REIT) under the Internal Revenue Code of 1986, as amended (or the Code) and believe that we are organized and have operated in a manner that qualifies us to be taxed as a REIT. If we qualify for taxation as a REIT, we generally will not be subject to federal income tax on our taxable income that is distributed to our stockholders. Therefore, substantially all of our assets, other than our taxable REIT subsidiaries, consist of qualified REIT real estate assets (of the type described in Section 856(c)(5)(B) of the Code).

Stock Listing

Our common stock is traded on the New York Stock Exchange under the symbol **NLY** and our 7.875% Series A Cumulative Redeemable Preferred Stock (which we refer to as our Series A Preferred Stock) is traded on the New York Stock Exchange under the symbol **NLY PrA**. Our 6% Series B Cumulative Convertible Preferred Stock (which we refer to as our Series B Preferred Stock) is not listed on a national securities exchange or the National Association of Securities Dealers Automated Quotation system.

Principal Executive Offices and Telephone Number

Our principal executive offices are located at 1211 Avenue of the Americas, Suite 2902, New York, New York 10036. Our telephone number is (212) 696-0100.

RISK FACTORS

Investing in our securities involves risks. You should carefully consider the risks described under **Risk Factors** in our most recent Annual Report on Form 10-K and any subsequent Quarterly Reports on Form 10-Q (which descriptions are incorporated by reference herein), as well as the other information contained or incorporated by reference in this prospectus or in any prospectus supplement hereto before making a decision to invest in our securities. See **Where You Can Find More Information On Annaly**, below.

USE OF PROCEEDS

Unless otherwise indicated in an accompanying prospectus supplement, we intend to use the net proceeds from the sale of the securities offered by this prospectus and the related accompanying prospectus supplement for the purchase of mortgage-backed securities and for general corporate purposes. We then intend to increase our investment assets by borrowing against these mortgage-backed securities and using the proceeds to acquire additional mortgage-backed securities.

RATIOS OF EARNINGS TO FIXED CHARGES AND OF EARNINGS TO COMBINED FIXED CHARGES AND PREFERRED STOCK DIVIDENDS

The following table sets forth our ratios of earnings to fixed charges and of earnings to combined fixed charges and preferred stock dividends for periods indicated.

	Nine Months Ended	Fiscal Years Ended December 31,				
	September 30, 2009	2008	2007	2006	2005	2004
Ratio of earnings to fixed charges	2.24x	1.20x	1.22x	1.10x	1.00x	1.94x
Ratio of earnings to combined fixed charges and preferred stock dividends	2.21x	1.18x	1.21x	1.08x	0.98x	1.88x

The ratios of earnings to combined fixed charges and preferred stock dividends were computed by dividing earnings as adjusted by fixed charges and preferred stock dividends (where applicable). For this purpose, earnings consist of net income from continuing operations and fixed charges. Fixed charges consist of interest expense and preferred stock dividends paid on our outstanding shares of Series A Preferred Stock and Series B Preferred Stock.

DESCRIPTION OF EQUITY SECURITIES**General**

Our authorized capital stock consists of 1 billion shares of capital stock, par value \$.01 per share. Pursuant to our articles of incorporation, as amended, our Board of Directors has the right to classify or reclassify any unissued shares of common stock into one or more classes or series of common stock or preferred stock. As of February 2, 2010, our Board of Directors had classified 7,412,500 unissued shares of common stock as 7,412,500 shares of Series A Preferred Stock, and classified 4,600,000 unissued shares of common stock as 4,600,000 shares of Series B Preferred Stock. In addition, as of February 2, 2010, we had 7,412,500 shares of Series A Preferred Stock outstanding and 2,604,614 shares of Series B Preferred Stock outstanding.

Common Stock

All shares of common stock offered hereby will be duly authorized, fully paid and nonassessable. The statements below describing the common stock are in all respects subject to and qualified in their entirety by reference to our articles of incorporation, as amended, by-laws, as amended and restated, and any articles supplementary to our articles of incorporation, as amended.

Voting

Each of our common stockholders is entitled to one vote for each share held of record on each matter submitted to a vote of common stockholders.

Our by-laws, as amended and restated, provide that annual meetings of our stockholders will be held each calendar year on the date determined by our Board of Directors, and special meetings may be called by a majority of our Board of Directors, our Chairman, a majority of our independent directors, our President or generally by stockholders entitled to cast at least 25% of the votes which all stockholders are entitled to cast at the meeting. Our articles of incorporation, as amended, may be amended in accordance with Maryland law.

Dividends; Liquidation; Other Rights

Common stockholders are entitled to receive dividends when declared by our Board of Directors out of legally available funds. The right of common stockholders to receive dividends is subordinate to the rights of preferred stockholders or other senior stockholders. If we have a liquidation, dissolution or winding up, our common stockholders will share ratably in all of our assets remaining after the payment of all of our liabilities and the payment of all liquidation and other preference amounts to preferred stockholders and other senior stockholders. Common stockholders have no preemptive or other subscription rights, and there are no conversion rights, or redemption or sinking fund provisions, relating to the shares of common stock.

Classification or Reclassification of Common Stock or Preferred Stock

Our articles of incorporation, as amended, authorize our Board of Directors to reclassify any unissued shares of common or preferred stock into other classes or series of shares, to establish the number of shares in each class or series and to set the preferences, conversion and other rights, voting powers, restrictions, limitations, and restrictions on ownership, limitations as to dividends or other distributions, qualifications, and terms or conditions of redemption for each class or series.

Preferred Stock

The following description sets forth general terms and provisions of the preferred stock to which any prospectus supplement may relate. The statements below describing the preferred stock are in all respects subject to and qualified in their entirety by reference to our articles of incorporation, as amended, by-laws, as amended and restated, and any articles supplementary to our articles of incorporation, as amended, designating terms of a series of preferred stock. The preferred stock, when issued, will be validly issued, fully paid, and non-assessable. Because our

Edgar Filing: Gastar Exploration Inc. - Form 424B3

any limitation on issuance of any series of preferred stock ranking senior to or on a parity with the series of preferred stock as to dividend rights and rights upon the liquidation, dissolution or winding-up of our affairs; and

any limitations on direct or beneficial ownership and restrictions on transfer of the preferred stock, in each case as may be appropriate to preserve our qualification as a REIT.

the date on which the right to exercise such securities warrants shall commence and the expiration date on which such right shall expire;

federal income tax considerations; and

any other material terms of such securities warrants.

Holders of future securities warrants, if any, will not be entitled by virtue of being such holders, to vote, to consent, to receive dividends, to receive notice with respect to any meeting of stockholders for the election of our directors or any other matter, or to exercise any rights whatsoever as stockholders of Annaly.

In this prospectus, we refer to such rights as **stockholder rights**. If stockholders rights are so issued to existing holders of securities, each stockholder right will entitle the registered holder thereof to purchase the securities issuable upon exercise of the rights pursuant to the terms set forth in the applicable prospectus supplement.

whether the debt securities of the series are to be issuable, in whole or in part, in bearer form (bearer debt securities);

whether any debt securities of the series will be issued in temporary or permanent global form (global debt securities) and, if so, the identity of the depository for the global debt securities if other than The Depository Trust Company (DTC);

if and under what circumstances we will pay additional amounts (Additional Amounts) on the debt securities of the series in respect of specified taxes, assessments or other governmental charges and, if so, whether we will have the option to redeem the debt securities of the series rather than pay the Additional Amounts;

the manner in which, or the person to whom, any interest on any bearer debt security of the series will be payable, if other than upon presentation and surrender of the coupons relating to the bearer debt security;

the extent to which, or the manner in which, any interest payable on a temporary global debt security will be paid, if other than in the manner provided in the indenture;

the portion of the principal amount of the debt securities of the series which will be payable upon acceleration if other than the full principal amount;

the authorized denominations in which the debt securities of the series will be issued, if other than denominations of \$1,000 and any integral multiples of \$1,000, in the case of debt securities in registered form (registered debt securities) or \$5,000, in the case of bearer debt securities;

the terms, if any, upon which debt securities of the series may be convertible into or exchangeable for other securities or property;

if the amount of payments on the debt securities of the series may be determined with reference to an index, formula or other method or methods and the method used to determine those amounts;

if the debt securities of the series will be secured by any collateral and, if so, a general description of the collateral and of some of the terms of any related security, pledge or other agreements;

any listing of the debt securities on any securities exchange; and

any other terms of the debt securities of the series (whether or not such other terms are consistent or inconsistent with any other terms of the indenture).

As used in this prospectus and any prospectus supplement relating to the offering of debt securities of any series, references to the principal of and premium, if any, and interest, if any, on the debt securities of the series include the payment of Additional Amounts, if any, required by the debt securities of the series to be paid in that context.

Debt securities may be issued as original issue discount securities to be sold at a substantial discount below their principal amount. In the event of an acceleration of the maturity of any original issue discount security, the amount payable to the holder upon acceleration will be determined in the manner described in the applicable prospectus supplement. Certain U.S. federal income tax considerations applicable to original issue discount securities will be described in the applicable prospectus supplement.

If the purchase price of any debt securities is payable in a foreign currency or if the principal of, or premium, if any, or interest, if any, on any debt securities is payable in a foreign currency, the specific terms of those debt securities and the applicable foreign currency will be specified in the prospectus supplement relating to those debt securities.

The terms of the debt securities of any series may differ from the terms of the debt securities of any other series, and the terms of particular debt securities within any series may differ from each other. Unless otherwise expressly provided in the prospectus supplement relating to any series of debt securities, we may, without the consent of the holders of the debt securities of any series, reopen an existing series of debt securities and issue additional debt securities of that series.

Unless otherwise described in a prospectus supplement relating to any series of debt securities and except to the limited extent set forth below under Merger, Consolidation and Transfer of Assets, the indenture does not contain any provisions that would limit our ability or the ability of any of our subsidiaries to incur indebtedness or other liabilities or that would afford holders of debt securities protection in the event of a business combination, takeover, recapitalization or highly leveraged or similar transaction involving us. Accordingly, we and our subsidiaries may in the future enter into transactions that could increase the amount of our consolidated indebtedness and other liabilities or otherwise adversely affect our capital structure or credit rating without the consent of the holders of the debt securities of any series.

Registration, Transfer and Payment

Unless otherwise indicated in the applicable prospectus supplement, each series of debt securities will be issued in registered form only, without coupons. The indenture, however,

Edgar Filing: Gastar Exploration Inc. - Form 424B3

provides that we may also issue a series of debt securities in bearer form only, or in both registered and bearer form.

Unless otherwise indicated in the applicable prospectus supplement, registered debt securities will be issued in denominations of \$1,000 or any integral multiples of \$1,000, and bearer debt securities will be issued in denominations of \$5,000.

Unless otherwise indicated in the applicable prospectus supplement, the debt securities will be payable and may be surrendered for registration of transfer or exchange and, if applicable, for conversion into or exchange for other securities or property, at an office or agency maintained by us in the United States of America. However, we, at our option, may make payments of interest on any registered debt security by check mailed to the address of the person entitled to receive that payment or by wire transfer to an account maintained by the payee with a bank located in the United States of America. Unless otherwise indicated in the applicable prospectus supplement, no service charge shall be made for any registration of transfer or exchange, redemption or repayment of debt securities, or for any conversion or exchange of debt securities for other securities or property, but we may require payment of a sum sufficient to cover any tax or other governmental charge that may be imposed in connection with that transaction.

Unless otherwise indicated in the applicable prospectus supplement, payment of principal, premium, if any, and interest, if any, on bearer debt securities will be made, subject to any applicable laws and regulations, at an office or agency outside the United States. Unless otherwise indicated in the applicable prospectus supplement, payment of interest due on bearer debt securities on any interest payment date will be made only against surrender of the coupon relating to that interest payment date. Unless otherwise indicated in the applicable prospectus supplement, no payment of principal, premium, if any, or interest, if any, with respect to any bearer debt security will be made at any office or agency in the United States or by check mailed to any address in the United States or by wire transfer to an account maintained with a bank located in the United States. However, if any bearer debt securities are payable in U.S. dollars, payments on those bearer securities may be made at the corporate trust office of the relevant trustee or at any office or agency designated by us in the United States of America if, but only if, payment of the full amount due on the bearer debt securities for principal, premium, if any, or interest, if any, at all offices outside of the United States maintained for that purpose by us is illegal or effectively precluded by exchange controls or similar restrictions.

Unless otherwise indicated in the applicable prospectus supplement, we will not be required to:

issue, register the transfer of or exchange debt securities of any series during a period beginning at the opening of business 15 days before any selection of debt securities of that series of like tenor and terms to be redeemed and ending at the close of business on the day of that selection;

register the transfer of or exchange any registered debt security, or portion of any registered debt security, selected for redemption, except the unredeemed portion of any registered debt security being redeemed in part;

exchange any bearer debt security selected for redemption, except to exchange a bearer debt security for a registered debt security of that series of like tenor and terms that is simultaneously surrendered for redemption; or

issue, register the transfer of or exchange a debt security which has been surrendered for repayment at the option of the holder, except the portion, if any, of the debt security not to be repaid.

Book-entry Debt Securities

The debt securities of a series may be issued in whole or in part in the form of one or more global debt securities. Global debt securities will be deposited with, or on behalf of, a depository which, unless otherwise specified in the applicable prospectus supplement relating to the series, will be DTC. Global debt securities may be issued in either registered or bearer form and in either temporary or permanent form. Unless and until it is exchanged in whole or in part for individual certificates evidencing debt securities, a global debt security may not be transferred except as a whole by the depository to its nominee or by the nominee to the depository, or by the depository or its nominee to a successor depository or to a nominee of the successor depository.

We anticipate that global debt securities will be deposited with, or on behalf of, DTC and that global debt securities will be registered in the name of DTC's nominee, Cede & Co. All interests in global debt securities deposited with, or on behalf of, DTC will be subject to the operations and procedures of DTC and, in the case of any interests in global debt securities held through Euroclear Bank S.A./N.V. (Euroclear) or Clearstream Banking, société anonyme (Clearstream, Luxembourg), the operations and procedures of Euroclear or Clearstream, Luxembourg, as the case may be. We also anticipate that the following provisions will apply to the depository arrangements with respect to global debt securities. Additional or differing terms of the depository arrangements may be described in the applicable prospectus supplement.

DTC has advised us that it is:

a limited-purpose trust company organized under the New York Banking Law;

a banking organization within the meaning of the New York Banking Law;

a member of the Federal Reserve System;

a clearing corporation within the meaning of the New York Uniform Commercial Code; and

a clearing agency registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934.

DTC holds securities that its participants deposit with DTC. DTC also facilitates the settlement among its participants of securities transactions, including transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants

accounts, which eliminates the need for physical movement of securities certificates. Direct participants include securities brokers and dealers, banks, trust companies, clearing corporations and other organizations. Access to the DTC system is also available to others, sometimes referred to in this prospectus as indirect participants, that clear transactions through or maintain a custodial relationship with a direct participant either directly or indirectly. Indirect participants include securities brokers and dealers, banks and trust companies. The rules applicable to DTC and its participants are on file with the Securities and Exchange Commission.

Purchases of debt securities within the DTC system must be made by or through direct participants, which will receive a credit for the debt securities on DTC's records. The ownership interest of the actual purchaser or beneficial owner of a debt security is, in turn, recorded on the direct and indirect participants' records. Beneficial owners will not receive written confirmation from DTC of their purchases, but beneficial owners are expected to receive written confirmations providing details of the transactions, as well as periodic statements of their holdings, from the direct or indirect participants through which they purchased the debt securities. Transfers of ownership interests in debt securities are to be accomplished by entries made on the books of participants acting on behalf of beneficial owners. Beneficial owners will not receive certificates representing their ownership interests in the debt securities, except under the limited circumstances described below.

To facilitate subsequent transfers, all debt securities deposited by participants with DTC will be registered in the name of DTC's nominee, Cede & Co. The deposit of debt securities with DTC and their registration in the name of Cede & Co. will not change the beneficial ownership of the debt securities. DTC has no knowledge of the actual beneficial owners of the debt securities. DTC's records reflect only the identity of the direct participants to whose accounts the debt securities are credited. Those participants may or may not be the beneficial owners. The participants are responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants and by direct and indirect participants to beneficial owners will be governed by arrangements among them, subject to any legal requirements in effect from time to time.

Redemption notices shall be sent to DTC or its nominee. If less than all of the debt securities of a series are being redeemed, DTC will reduce the amount of the interest of each direct participant in the debt securities under its procedures.

In any case where a vote may be required with respect to the debt securities of any series, neither DTC nor Cede & Co. will give consents for or vote the global debt securities. Under its usual procedures, DTC will mail an omnibus proxy to us after the record date. The omnibus proxy assigns the consenting or voting rights of Cede & Co. to those direct participants to whose accounts the debt securities are credited on the record date identified in a listing attached to the omnibus proxy.

Principal and premium, if any, and interest, if any, on the global debt securities will be paid to Cede & Co., as nominee of DTC. DTC's practice is to credit direct participants' accounts on the relevant payment date unless DTC has reason to believe that it will not receive payments

Edgar Filing: Gastar Exploration Inc. - Form 424B3

on the payment date. Payments by direct and indirect participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the account of customers in bearer form or registered in street name. Those payments will be the responsibility of DTC's direct and indirect participants and not of DTC, us, any trustee or any underwriters or agents involved in the offering or sale of any debt securities. Payment of principal, premium, if any, and interest, if any, to DTC is our responsibility, disbursement of payments to direct participants is the responsibility of DTC, and disbursement of payments to the beneficial owners is the responsibility of direct and indirect participants.

Except under the limited circumstances described below, beneficial owners of interests in a global debt security will not be entitled to have debt securities registered in their names and will not receive physical delivery of debt securities. Accordingly, each beneficial owner must rely on the procedures of DTC to exercise any rights under the debt securities and the indenture.

The laws of some jurisdictions may require that some purchasers of securities take physical delivery of securities in definitive form. These laws may impair the ability to transfer or pledge beneficial interests in global debt securities.

DTC is under no obligation to provide its services as depositary for the debt securities of any series and may discontinue providing its services at any time. Neither we nor any trustee nor any underwriters or agents involved in the offering or sale of any debt securities will have any responsibility for the performance by DTC or its participants or indirect participants under the rules and procedures governing DTC. As noted above, beneficial owners of interests in global debt securities generally will not receive certificates representing their ownership interests in the debt securities. However, if

DTC notifies us that it is unwilling or unable to continue as a depositary for the global debt securities of any series or if DTC ceases to be a clearing agency registered under the Securities Exchange Act of 1934 (if so required by applicable law or regulation) and a successor depositary for the debt securities of such series is not appointed within 90 days of the notification to us or of our becoming aware of DTC's ceasing to be so registered, as the case may be,

we determine, in our sole discretion, not to have the debt securities of any series represented by one or more global debt securities, or

an Event of Default under the indenture has occurred and is continuing with respect to the debt securities of any series,

We will prepare and deliver certificates for the debt securities of that series in exchange for beneficial interests in the global debt securities of that series. Any beneficial interest in a global debt security that is exchangeable under the circumstances described in the preceding sentence will be exchangeable for debt securities in definitive certificated form registered in the names and in the authorized denominations that the depositary shall direct. It is expected that these directions will be based upon directions received by the depositary from its participants with respect to ownership of beneficial interests in the global debt securities.

Clearstream, Luxembourg and Euroclear hold interests on behalf of their participating organizations through customers' securities accounts in Clearstream, Luxembourg and Euroclear's names on the books of their respective depositories, which hold those interests in customers' securities accounts in the depositories' names on the books of DTC. At the present time, Citibank, N.A. acts as U.S. depository for Clearstream, Luxembourg and JPMorgan Chase Bank, N.A. acts as U.S. depository for Euroclear (the "U.S. Depositories").

Clearstream, Luxembourg holds securities for its participating organizations ("Clearstream Participants") and facilitates the clearance and settlement of securities transactions between Clearstream Participants through electronic book-entry changes in accounts of Clearstream Participants, thereby eliminating the need for physical movement of certificates. Clearstream, Luxembourg provides to Clearstream Participants, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing.

Clearstream, Luxembourg is registered as a bank in Luxembourg, and as such is subject to regulation by the Commission de Surveillance du Secteur Financier and the Banque Centrale du Luxembourg, which supervise and oversee the activities of Luxembourg banks. Clearstream Participants are financial institutions including underwriters, securities brokers and dealers, banks, trust companies and clearing corporations, and may include any underwriters or agents involved in the offering or sale of any debt securities or their respective affiliates. Indirect access to Clearstream, Luxembourg is available to other institutions that clear through or maintain a custodial relationship with a Clearstream Participant. Clearstream, Luxembourg has established an electronic bridge with Euroclear as the operator of the Euroclear System (the "Euroclear Operator") in Brussels to facilitate settlement of trades between Clearstream, Luxembourg and the Euroclear Operator.

Distributions with respect to global debt securities held beneficially through Clearstream, Luxembourg will be credited to cash accounts of Clearstream Participants in accordance with its rules and procedures, to the extent received by the U.S. Depository for Clearstream, Luxembourg.

Euroclear holds securities and book-entry interests in securities for participating organizations ("Euroclear Participants") and facilitates the clearance and settlement of securities transactions between Euroclear Participants, and between Euroclear Participants and participants of certain other securities intermediaries through electronic book-entry changes in accounts of such participants or other securities intermediaries. Euroclear provides Euroclear Participants, among other things, with safekeeping, administration, clearance and settlement, securities lending and borrowing, and related services. Euroclear Participants are investment banks, securities brokers and dealers, banks, central banks, supranationals, custodians, investment managers, corporations, trust companies and certain other organizations, and may include any underwriters or agents involved in the offering or sale of any debt securities or their respective affiliates. Non-participants in Euroclear may hold and transfer beneficial interests in a global debt security through accounts with a participant in the Euroclear System or any other securities intermediary that holds a book-entry interest in a global debt security through one or more securities intermediaries standing between such other securities intermediary and Euroclear.

Edgar Filing: Gastar Exploration Inc. - Form 424B3

Securities clearance accounts and cash accounts with the Euroclear Operator are governed by the Terms and Conditions Governing Use of Euroclear and the related Operating Procedures of the Euroclear System, and applicable Belgian law (collectively, the Terms and Conditions). The Terms and Conditions govern transfers of securities and cash within Euroclear, withdrawals of securities and cash from Euroclear and receipts of payments with respect to securities in Euroclear. All securities in Euroclear are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts. The Euroclear Operator acts under the Terms and Conditions only on behalf of Euroclear Participants, and has no record of or relationship with persons holding through Euroclear Participants.

Distributions on interests in global debt securities held beneficially through Euroclear will be credited to the cash accounts of Euroclear Participants in accordance with the Terms and Conditions, to the extent received by the U.S. Depository for Euroclear.

Transfers between Euroclear Participants and Clearstream Participants will be effected in the ordinary way in accordance with their respective rules and operating procedures.

Cross-market transfers between direct participants in DTC, on the one hand, and Euroclear Participants or Clearstream Participants, on the other hand, will be effected through DTC in accordance with DTC's rules on behalf of Euroclear or Clearstream, Luxembourg, as the case may be, by its U.S. Depository; however, such cross-market transactions will require delivery of instructions to Euroclear or Clearstream, Luxembourg, as the case may be, by the counterparty in such system in accordance with the applicable rules and procedures and within the established deadlines (European time) of such system. Euroclear or Clearstream, Luxembourg, as the case may be, will, if the transaction meets its settlement requirements, deliver instructions to its U.S. Depository to take action to effect final settlement on its behalf by delivering or receiving interests in global debt securities in DTC, and making or receiving payment in accordance with normal procedures for same-day fund settlement applicable to DTC. Euroclear Participants and Clearstream Participants may not deliver instructions directly to their respective U.S. Depositories.

Due to time zone differences, the securities accounts of a Euroclear Participant or Clearstream Participant purchasing an interest in a global debt security from a direct participant in DTC will be credited, and any such crediting will be reported to the relevant Euroclear Participant or Clearstream Participant, during the securities settlement processing day (which must be a business day for Euroclear or Clearstream, Luxembourg) immediately following the settlement date of DTC. Cash received in Euroclear or Clearstream, Luxembourg as a result of sales of interests in a global debt security by or through a Euroclear Participant or Clearstream Participant to a direct participant in DTC will be received with value on the settlement date of DTC but will be available in the relevant Euroclear or Clearstream, Luxembourg cash account only as of the business day for Euroclear or Clearstream, Luxembourg following DTC's settlement date.

Euroclear and Clearstream, Luxembourg are under no obligation to perform or to continue to perform the foregoing procedures and such procedures may be discontinued at any time without notice. Neither we nor any trustee nor any underwriters or agents involved in the offering or sale of any debt securities will have any responsibility for the performance by

Euroclear or Clearstream, Luxembourg or their respective participants of their respective obligations under the rules and procedures governing their operations.

The information in this section concerning DTC, Euroclear and Clearstream, Luxembourg and their book-entry systems has been obtained from sources that we believe to be reliable, but we take no responsibility for the accuracy of that information.

Redemption and Repurchase

The debt securities of any series may be redeemable at our option or may be subject to mandatory redemption by us as required by a sinking fund or otherwise. In addition, the debt securities of any series may be subject to repurchase or repayment by us at the option of the holders. The applicable prospectus supplement will describe the terms, the times and the prices regarding any optional or mandatory redemption by us or any repurchase or repayment at the option of the holders of any series of debt securities, if any.

Conversion and Exchange

The terms, if any, on which debt securities of any series are convertible into or exchangeable for our common shares or any other securities or property will be set forth in the applicable prospectus supplement. Such terms may include provisions for conversion or exchange, either mandatory, at the option of the holders or at our option. Unless otherwise expressly stated in the applicable prospectus supplement or the context otherwise requires, references in this prospectus and any prospectus supplement to the conversion or exchange of debt securities of any series for other securities or property shall be deemed not to refer to or include any exchange of any debt securities of a series for other debt securities of the same series.

Secured Debt Securities

The debt securities of any series may be secured by collateral. The applicable prospectus supplement will describe any such collateral and the terms of such secured debt securities.

Merger, Consolidation and Transfer of Assets

The indenture provides that we will not, in any transaction or series of related transactions, consolidate with, or sell, lease or convey all or substantially all of our property and assets to, or merge with or into, any person unless:

either (1) we shall be the continuing person (in the case of a merger) or (2) the successor person (if other than us) formed by or resulting from the consolidation or merger or which shall have received the transfer of assets shall be an entity organized and existing under the laws of the United States of America, any state thereof or the District of Columbia and shall expressly assume the due and punctual payment of the principal of, premium, if any, and interest, if any, on all the debt securities outstanding under the indenture and the due and punctual performance and observance of all covenants and conditions in such outstanding debt securities and the indenture to be performed or satisfied by us (including, without limitation, the

obligation to convert or exchange any debt securities that are convertible into or exchangeable for other securities or property in accordance with the provisions of such debt securities and the indenture) by a supplemental indenture reasonably satisfactory in form to the trustee;

immediately after giving effect to the transaction described above, no Event of Default under the indenture, and no event which, after notice or lapse of time or both would become an Event of Default under the indenture, shall have occurred and be continuing; and

the trustee shall have received the officers' certificate and opinion of counsel called for by the indenture.

In the case of any such consolidation, sale, lease, conveyance or merger in which we are not the continuing entity and upon execution and delivery by the successor person of the supplemental indenture described above, such successor person shall succeed to, and be substituted for, us and may exercise every right and power of ours under the indenture with the same effect as if such successor person had been named as us therein, and we shall be automatically released and discharged from all obligations and covenants under the indenture and the debt securities issued under that indenture.

Events of Default

Unless otherwise specified in the applicable prospectus supplement, an Event of Default with respect to the debt securities of any series is defined in the indenture as being:

- (1) default in payment of any interest, if any, on, or any Additional Amounts, if any, payable in respect of any interest, if any, on, any of the debt securities of that series when due, and continuance of such default for a period of 30 days;
- (2) default in payment of any principal of or premium, if any, on, or any Additional Amounts, if any, payable in respect of any principal of or premium, if any, on, any of the debt securities of that series when due (whether at maturity, upon redemption, upon repayment or repurchase at the option of the holder or otherwise and whether payable in cash or in our common shares or other securities or property);
- (3) default in the deposit of any sinking fund payment or payment under any analogous provision when due with respect to any of the debt securities of that series;
- (4) default in the delivery when due of any securities, cash or other property (including, without limitation, any of our common shares) when required to be delivered upon conversion of any convertible debt security of that series or upon the exchange of any debt security of that series which is exchangeable for our common shares or other securities or property (other than an exchange of debt securities of that series for other debt securities of the same series);
- (5) default in the performance, or breach, of any other covenant or warranty applicable to us in the indenture or in any debt security of that series other than a covenant or

warranty included in the indenture solely for the benefit of a series of debt securities other than that series, and continuance of that default or breach (without that default or breach having been cured or waived in accordance with the indenture) for a period of 60 days after notice to us by the trustee or the holders of not less than 25% in aggregate principal amount of the debt securities of that series then outstanding;

- (6) default after the expiration of any applicable grace period in the payment of principal when due, or resulting in acceleration of, other indebtedness (other than Non-recourse Debt) of us or any Significant Subsidiary of ours for borrowed money where the aggregate principal amount with respect to which the default or acceleration has occurred exceeds \$60.0 million and such indebtedness has not been discharged, or such default in payment or acceleration has not been cured or rescinded, prior to written notice of acceleration of the debt securities of that series;
- (7) failure by us or any of our Subsidiaries to pay final judgments or decrees entered by a court or courts of competent jurisdiction aggregating in excess of \$60.0 million, which judgments are not paid, discharged or stayed for a period of 30 calendar days after such judgments become final and non-appealable;
- (8) specified events of bankruptcy, insolvency or reorganization with respect to us or any Significant Subsidiary of ours; or
- (9) any other Event of Default established for the debt securities of that series.

No Event of Default with respect to any particular series of debt securities necessarily constitutes an Event of Default with respect to any other series of debt securities. The indenture provides that, within 90 days after the occurrence of any default with respect to the debt securities of any series, the trustee will mail to all holders of the debt securities of that series notice of that default if known to the trustee, unless that default has been cured or waived. However, the indenture provides that the trustee may withhold notice of a default with respect to the debt securities of that series, except a default in payment of principal, premium, if any, interest, if any, Additional Amounts, if any, or sinking fund payments, if any, if the trustee considers it in the best interest of the holders to do so. As used in this paragraph, the term "default" means any event which is, or after notice or lapse of time or both would become, an Event of Default with respect to the debt securities of any series.

The indenture provides that if an Event of Default (other than an Event of Default specified in clause (8) of the second preceding paragraph with respect to us) occurs and is continuing with respect to any series of debt securities, either the trustee or the holders of at least 25% in principal amount of the debt securities of that series then outstanding may declare the principal of, or if debt securities of that series are original issue discount securities, such lesser amount as may be specified in the terms of that series of debt securities, and accrued and unpaid interest, if any, on all the debt securities of that series to be due and payable immediately. The indenture also provides that if an Event of Default specified in clause (8) of the second preceding paragraph with respect to us occurs with respect to any series of debt securities, then the principal of, or if debt securities of that series are original issue discount securities, such lesser amount as may be specified in the terms of that series of debt securities, and accrued and unpaid

interest, if any, on all the debt securities of that series will automatically become and be immediately due and payable without any declaration or other action on the part of the trustee or any holder of the debt securities of that series. However, upon specified conditions, the holders of a majority in principal amount of the debt securities of a series then outstanding may rescind and annul an acceleration of the debt securities of that series and its consequences. For purposes of clarity, references to an Event of Default specified in clause (8) of the second preceding paragraph with respect to us shall not include any Event of Default specified in clause (8) of the second preceding paragraph with respect to any Significant Subsidiary of ours.

Subject to the provisions of the Trust Indenture Act of 1939 requiring the trustee, during the continuance of an Event of Default under the indenture, to act with the requisite standard of care, the trustee is under no obligation to exercise any of its rights or powers under the indenture at the request or direction of any of the holders of debt securities of any series unless those holders have offered the trustee indemnity reasonably satisfactory to the trustee against the costs, fees and expenses and liabilities which might be incurred in compliance with such request or direction. Subject to the foregoing, holders of a majority in principal amount of the outstanding debt securities of any series issued under the indenture have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee under the indenture with respect to that series. The indenture requires the annual filing by us with the trustee of a certificate which states whether or not we are in default under the terms of the indenture.

No holder of any debt securities of any series shall have any right to institute any proceeding, judicial or otherwise, with respect to the indenture, or for the appointment of a receiver or trustee, or for any other remedy under the indenture, unless

such holder has previously given written notice to the trustee of a continuing Event of Default with respect to the debt securities of such series;

the holders of not less than 25% in aggregate principal amount of the outstanding debt securities of such series shall have made written request to the trustee to institute proceedings in respect of such Event of Default in its own name as trustee under the indenture;

such holder or holders have offered to the trustee indemnity reasonably satisfactory to the trustee against the costs, fees and expenses and liabilities which might be incurred in compliance with such request;

the trustee for 60 days after its receipt of such notice, request and offer of indemnity has failed to institute any such proceeding; and

no direction inconsistent with such written request has been given to the trustee during such 60 day period by the holders of a majority in principal amount of the outstanding debt securities of such series.

Notwithstanding any other provision of the indenture, the holder of a debt security will have the right, which is absolute and unconditional, to receive payment of the principal of and

premium, if any, and interest, if any, on that debt security on the respective due dates for those payments and, in the case of any debt security which is convertible into or exchangeable for other securities or property, to convert or exchange, as the case may be, that debt security in accordance with its terms, and to institute suit for the enforcement of those payments and any right to effect such conversion or exchange, and this right shall not be impaired without the consent of the holder.

Modification, Waivers and Meetings

The indenture permits us and the trustee, with the consent of the holders of a majority in principal amount of the outstanding debt securities of each series issued under the indenture and affected by a modification or amendment, to modify or amend any of the provisions of the indenture or of the debt securities of the applicable series or the rights of the holders of the debt securities of that series under the indenture. However, the consent of the holder of each debt security affected will be required for any modification or amendment that, among other things:

changes the stated maturity of the principal of, or premium, if any, or any installment of interest, if any, on or any Additional Amounts, if any, with respect to any debt securities issued under the indenture;

reduces the principal of or any premium on any debt securities or reduce the rate of interest on any debt securities or reduce the price payable upon the redemption of any debt security, whether such redemption is mandatory or at our option, or upon the repurchase of any debt security at the option of the holder, or reduce any Additional Amounts with respect to any debt securities, or change our obligation to pay Additional Amounts;

reduces the amount of principal of any original issue discount securities that would be due and payable upon an acceleration of the maturity thereof;

adversely affects any right of repayment or repurchase of any debt securities at the option of any holder;

changes any place where or the currency in which debt securities are payable;

impairs the holder's right to institute suit to enforce the payment of any debt securities on or after their stated maturity or, in the case of any debt security which is convertible into or exchangeable for other securities or property, to institute suit to enforce the right to convert or exchange that debt security in accordance with its terms;

makes any change that adversely affects the right, if any, to convert or exchange any debt securities for other securities or property;

reduces the percentage of debt securities of any series issued under the indenture whose holders must consent to any modification or amendment or any waiver of

compliance with specific provisions of such indenture or specified defaults under the indenture and their consequences; or

reduces the requirements for a quorum or voting at a meeting of holders of the applicable debt securities.

The indenture also contains provisions permitting us and the trustee, without the consent of the holders of any debt securities issued under the indenture, to modify or amend the indenture, among other things:

to evidence the succession of another person to us and the assumption by that successor of our covenants contained in the indenture and in the debt securities;

to add to our covenants for the benefit of the holders of all or any series of debt securities issued under the indenture or to surrender any right or power conferred upon us with respect to all or any series of debt securities issued under the indenture;

to add to or change any provisions of the indenture to facilitate the issuance of bearer securities;

to establish the form or terms of debt securities of any series and any related coupons, including, without limitation, conversion and exchange provisions applicable to debt securities which are convertible into or exchangeable for other securities or property, and to establish any provisions with respect to any security or other collateral for such debt securities, and to make any deletions from or additions or changes to the indenture in connection with any of the matters referred to in this bullet point so long as those deletions, additions and changes are not applicable to any other series of debt securities then outstanding;

to evidence and provide for the acceptance of the appointment of a successor trustee in respect of the debt securities of one or more series;

to cure any ambiguity or correct or supplement any provision in such indenture which may be defective or inconsistent with other provisions in the indenture, or to make any other provisions with respect to matters or questions arising under the indenture which shall not adversely affect the interests of the holders of the debt securities of any series then outstanding in any material respect;

to add any additional Events of Default with respect to all or any series of debt securities;

to supplement any of the provisions of the indenture to permit or facilitate defeasance, covenant defeasance and/or satisfaction and discharge of any series of debt securities, provided that such action shall not adversely effect the interest of any holder of a debt security of such series or any other debt security in any material respect;

to secure or, if applicable, to provide additional security for all or any debt securities issued under the indenture and to provide for any and all matters relating thereto, and to provide for the release of any collateral as security for all or any debt securities in accordance with the terms of the indenture;

to add to or change or eliminate any provision of the indenture as is necessary or desirable in accordance with any amendment to the Trust Indenture Act;

to make any change to the indenture, or any supplemental indenture, or any debt securities to conform the terms thereof to any provision of the description of a series of any debt securities in any prospectus (including this prospectus), prospectus supplement, offering memorandum or similar offering document used in connection with the initial offering or sale of any debt securities to the extent that such provision in such description was intended to be a substantially verbatim recitation of a provision of the indenture or debt securities;

in the case of any series of debt securities which are convertible into or exchangeable for our common shares or other securities or property, to provide for the conversion or exchange rights of those debt securities in the event of any reclassification or change of our common shares or any of our other securities into which such debt securities are convertible or for which such debt securities are exchangeable or any similar transaction if expressly required by the terms of that series of debt securities; or

to amend or supplement any provision contained in the indenture or in any debt securities, provided that such amendment or supplement does not apply to any outstanding debt securities issued prior to the date of such supplemental indenture and entitled to the benefits of such provisions.

The holders of a majority in aggregate principal amount of the outstanding debt securities of any series may waive our compliance with the provisions described above under Merger, Consolidation and Transfer of Assets and certain other provisions of the indenture and, if specified in the prospectus supplement relating to such series of debt securities, any additional covenants applicable to the debt securities of such series. The holders of a majority in aggregate principal amount of the outstanding debt securities of any series may, on behalf of all holders of debt securities of that series, waive any past default under the indenture with respect to debt securities of that series and its consequences, except a default in the payment of the principal of, or premium, if any, or interest, if any, on debt securities of that series or, in the case of any debt securities which are convertible into or exchangeable for other securities or property, a default in any such conversion or exchange, or a default in respect of a covenant or provision which cannot be modified or amended without the consent of the holder of each outstanding debt security of the affected series.

The indenture contains provisions for convening meetings of the holders of a series of debt securities if (and only if) debt securities of such series are issued or issuable, in whole or in part, in the form of bearer debt securities. A meeting may be called at any time by the trustee, and also upon our request or the request of holders of at least 33 1/3% in principal amount of the

outstanding debt securities of a series. Notice of a meeting must be given in accordance with the provisions of the indenture. Except for any consent which must be given by the holder of each outstanding debt security affected in the manner described above, any resolution presented at a meeting or adjourned meeting duly reconvened at which a quorum, as described below, is present may be adopted by the affirmative vote of the holders of a majority in principal amount of the outstanding debt securities of that series. However, any resolution with respect to any request, demand, authorization, direction, notice, consent, waiver or other action which the indenture provides may be made, given or taken by the holders of a specified percentage, which is less or more than a majority, in principal amount of the outstanding debt securities of a series may be adopted at a meeting or adjourned meeting duly reconvened at which a quorum is present by the affirmative vote of the holders of that specified percentage in principal amount of the outstanding debt securities of that series. Any resolution passed or decision taken at any meeting of holders of debt securities of any series duly held in accordance with the indenture will be binding on all holders of debt securities of that series and the related coupons, if any. The quorum at any meeting called to adopt a resolution, and at any reconvened meeting, will be persons entitled to vote a majority in principal amount of the outstanding debt securities of a series, or, if any action is to be taken at a meeting with respect to any request, demand, authorization, direction, notice, consent, waiver or other action which the indenture provides may be given by holders of a greater percentage in principal amount of outstanding debt securities of a series, the persons entitled to vote at such greater percentage in principal amount of the outstanding debt securities of such series.

Discharge, Defeasance and Covenant Defeasance

Unless otherwise provided in the applicable prospectus supplement, upon our direction, the indenture shall cease to be of further effect with respect to any series of debt securities issued under the indenture specified by us, subject to the survival of specified provisions of the indenture (including the obligation to pay Additional Amounts to the extent described below and the obligation, if applicable, to exchange or convert debt securities of that series into other securities or property in accordance with their terms) when:

either

- (A) all outstanding debt securities of that series and, in the case of bearer securities, all related coupons, have been delivered to the trustee for cancellation, subject to exceptions, or
- (B) all debt securities of that series and, if applicable, any related coupons have become due and payable or will become due and payable at their stated maturity within one year or are to be called for redemption within one year and we have deposited with the trustee, in trust, funds in U.S. dollars or in the foreign currency in which the debt securities of that series are payable in an amount sufficient to pay the entire indebtedness on the debt securities of that series in respect of principal, premium, if any, and interest, if any (and, to the extent that (x) the debt securities of that series provide for the payment of Additional Amounts upon the occurrence of specified events of taxation, assessment or governmental charge with respect to payments on the debt securities and (y) the amount of any Additional Amounts which are or will

be payable is at the time of deposit reasonably determinable by us, in the exercise of our sole and absolute discretion, those Additional Amounts) to the date of such deposit, if the debt securities of that series have become due and payable, or to the maturity or redemption date of the debt securities of that series, as the case may be;

we have paid all other sums payable under the indenture with respect to the debt securities of that series; and

the trustee has received an officers certificate and an opinion of counsel called for by the indenture.

Unless otherwise provided in the applicable prospectus supplement, we may elect with respect to any series of debt securities either:

to defease and be discharged from all of our obligations with respect to that series of debt securities (defeasance), except for:

- (1) the obligation to pay Additional Amounts, if any, upon the occurrence of specified events of taxation, assessment or governmental charge with respect to payments on that series of debt securities to the extent (and only to the extent) that those Additional Amounts exceed the amount deposited in respect of those Additional Amounts as provided below,
- (2) the obligation, if applicable, to exchange or convert debt securities of that series into other securities or property in accordance with their terms, and
- (3) certain other limited obligations.

to be released from our obligations with respect to the debt securities of such series under such covenants as may be specified in the applicable prospectus supplement, and any omission to comply with those obligations shall not constitute a default or an Event of Default with respect to that series of debt securities (covenant defeasance), in either case upon the irrevocable deposit with the trustee, or other qualifying trustee, in trust for that purpose, of an amount in U.S. dollars or in the foreign currency in which those debt securities are payable at stated maturity or, if applicable, upon redemption, and/or Government Obligations which through the payment of principal and interest in accordance with their terms will provide money, in an amount sufficient to pay the principal of and any premium and any interest on (and, to the extent that (x) the debt securities of that series provide for the payment of Additional Amounts and (y) the amount of the Additional Amounts which are or will be payable is at the time of deposit reasonably determinable by us, in the exercise of our sole and absolute discretion, the Additional Amounts with respect to) that series of debt securities, and any mandatory sinking fund or analogous payments on that series of debt securities, on the due dates for those payments.

The defeasance or covenant defeasance described above shall only be effective if, among other things:

it shall not result in a breach or violation of, or constitute a default under, the indenture;

in the case of defeasance, we shall have delivered to the trustee an opinion of independent counsel reasonably acceptable to the trustee confirming that (A) we have received from or there has been published by the Internal Revenue Service a ruling or (B) since the date of the indenture there has been a change in applicable U.S. federal income tax law, in either case to the effect that, and based on this ruling or change the opinion of counsel shall confirm that, the holders and beneficial owners of the debt securities of the applicable series will not recognize income, gain or loss for U.S. federal income tax purposes as a result of the defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if the defeasance had not occurred;

in the case of defeasance, we shall provide money in an amount sufficient in the written opinion of a nationally recognized firm of independent public accountants to pay the principal of, premium, if any, and each installment of interest on the debt securities;

in the case of covenant defeasance, we shall have delivered to the trustee an opinion of independent counsel reasonably acceptable to the trustee to the effect that the holders and beneficial owners of the debt securities of the applicable series will not recognize income, gain or loss for U.S. federal income tax purposes as a result of the covenant defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if the covenant defeasance had not occurred;

if the cash and Government Obligations deposited are sufficient to pay the outstanding debt securities of that series provided those debt securities are redeemed on a particular redemption date, we shall have given the trustee irrevocable instructions to redeem those debt securities on that date; and

no Event of Default or event which with notice or lapse of time or both would become an Event of Default with respect to debt securities of that series shall have occurred and be continuing on the date of the deposit into trust; and, solely in the case of defeasance, no Event of Default arising from specified events of bankruptcy, insolvency or reorganization with respect to us or event which with notice or lapse of time or both would become such an Event of Default with respect to us shall have occurred and be continuing during the period through and including the 91st day after the date of the deposit into trust.

The applicable prospectus supplement may further describe the provisions, if any, permitting or restricting satisfaction and discharge, defeasance or covenant defeasance with respect to the debt securities of a particular series.

Definitions

As used in the indenture, the following terms have the meanings specified below:

The term **Corporation** includes corporations, partnerships, associations, limited liability companies and other companies and business trusts. The term **corporation** means a corporation and does not include partnerships, associations, limited liability companies or other companies or business trusts.

Non-recourse Debt means any indebtedness the terms of which provide that the claim for repayment of such indebtedness by the holder thereof is limited solely to a claim against the property or assets (including, without limitation, securities or interests in securities) that secure such indebtedness; provided, however, that any obligations or liabilities of the debtor or obligor or any other person solely for indemnities, covenants or breaches of warranties, representations or covenants or similar matters in respect of any indebtedness will not prevent such indebtedness from constituting Non-recourse Debt.

Person or **person** means any individual, Corporation, joint venture, joint-stock company, trust, unincorporated organization or government or any agency or political subdivision thereof.

Significant Subsidiary means, as of any date of determination, a Subsidiary of ours that would constitute a significant subsidiary as such term is defined under Rule 1-02(w) of Regulation S-X of the Securities and Exchange Commission as in effect on the date of the indenture.

Subsidiary means, with respect to any Person, (i) any corporation, association or other business entity of which more than 50% of the total voting power of shares of capital stock or other equity interests entitled (without regard to the occurrence of any contingency) to vote in the election of directors, managers or trustees thereof is at the time owned or controlled, directly or indirectly, by such Person or one or more of the other Subsidiaries of such Person (or a combination thereof) and (ii) any partnership (a) the sole general partner or managing general partner of which is such Person or a Subsidiary of such Person or (b) the only general partners of which are such Person or one or more Subsidiaries of such Person (or any combination thereof).

Governing Law

The indenture and the debt securities will be governed by, and construed in accordance with, the laws of the State of New York, without regard to conflicts of laws principles thereof.

Regarding the Trustees

The Trust Indenture Act of 1939 limits the rights of a trustee, if the trustee becomes a creditor of us, to obtain payment of claims or to realize on property received by it in respect of those claims, as security or otherwise. Any trustee is permitted to engage in other transactions with us and our subsidiaries from time to time. However, if a trustee acquires any conflicting interest it must eliminate the conflict upon the occurrence of an Event of Default under the applicable indenture or resign as trustee.

Wells Fargo Bank, National Association may act as trustee under one or more of the indentures. Wells Fargo Bank, National Association provides commercial banking services to us in the ordinary course of business

RESTRICTIONS ON OWNERSHIP AND TRANSFER

To assist us in qualifying as a REIT, our articles of incorporation, as amended, prohibit anyone from acquiring or holding, directly or constructively, ownership of a number of shares of any class of our capital stock in excess of 9.8% of the outstanding shares. For this purpose the term ownership generally means either direct ownership or constructive ownership in accordance with the constructive ownership provisions of Section 544 of the Code, as modified in Section 856(h) of the Code.

The constructive ownership provisions of Section 544 of the Code generally attribute ownership of securities owned by a corporation, partnership, estate or trust proportionately to its stockholders, partners or beneficiaries; attribute ownership of securities owned by family members to other members of the same family; and set forth rules for attributing securities constructively owned by one person to another person. To determine whether a person holds or would hold capital stock in excess of the 9.8% ownership limit, a person will be treated as owning not only shares of capital stock actually owned, but also any shares of capital stock attributed to that person under the attribution rules described above. Accordingly, a person who individually owns less than 9.8% of the shares outstanding may nevertheless be in violation of the 9.8% ownership limit.

Any transfer of shares of capital stock that would cause us to be disqualified as a REIT or that would (a) create a direct or constructive ownership of shares of capital stock in excess of the 9.8% ownership limit, or (b) result in the shares of capital stock being beneficially owned (within the meaning of Section 856(a) of the Code) by fewer than 100 persons (determined without reference to any rules of attribution), or (c) result in us being closely held within the meaning of Section 856(h) of the Code, will be null and void, and the intended transferee (the purported transferee) will acquire no rights to those shares. These restrictions on transferability and ownership will not apply if our Board of Directors determines that it is no longer in our best interests to continue to qualify as a REIT.

Any purported transfer of shares of capital stock that would result in a purported transferee owning (directly or constructively) shares of capital stock in excess of the 9.8% ownership limit due to the unenforceability of the transfer restrictions described above will constitute excess securities. Excess securities will be transferred by operation of law to a trust that we will establish for the exclusive benefit of a charitable organization, until such time as the trustee of the trust retransfers the excess securities. The trustee will be a banking institution designated by us that is not affiliated with the purported transferee or us. While the excess securities are held in trust, the purported transferee will not be entitled to vote or to share in any dividends or other distributions with respect to the securities. Subject to the 9.8% ownership limit, excess securities may be transferred by the trust to any person (if such transfer would not result in excess securities) at a price not to exceed the price paid by the purported transferee (or, if no consideration was paid by the purported transferee, the fair market value of the excess

securities on the date of the purported transfer), at which point the excess securities will automatically cease to be excess securities.

Upon a purported transfer of excess securities, the purported transferee shall cease to be entitled to distributions, voting rights and other benefits with respect to the shares of capital stock except the right to payment of the purchase price for the shares of capital stock on the retransfer of securities as provided above. Any dividend or distribution paid to a purported transferee on excess securities prior to our discovery that shares of capital stock have been transferred in violation of our articles of incorporation, as amended, shall be repaid to us upon demand. If these transfer restrictions are determined to be void, invalid or unenforceable by a court of competent jurisdiction, then the purported transferee of any excess securities may be deemed, at our option, to have acted as an agent on our behalf in acquiring the excess securities and to hold the excess securities on our behalf.

All certificates representing shares of capital stock will bear a legend referring to the restrictions described above.

Any person who acquires shares in violation of our articles of incorporation, as amended, or any person who is a purported transferee such that excess securities results, must immediately give written notice or, in the event of a proposed or attempted transfer that would be void as set forth above, give at least 15 days prior written notice to us of such event and shall provide us such other information as we may request in order to determine the effect, if any, of the transfer on our qualification as a REIT. In addition, every record owner of 5.0% or more (during any period in which the number of record stockholders is 2,000 or more) or 1.0% or more (during any period in which the number of record stockholders is greater than 200 but less than 2,000) or 1/2% or more (during any period in which the number of record stockholders is 200 or less) of the number or value of our outstanding shares must send us an annual written notice by January 30 stating the name and address of the record owner and the number of shares held and describing how the shares are held. Further, each stockholder is required to disclose to us in writing information with respect to the direct and constructive ownership of shares as the Board of Directors deems reasonably necessary to comply with the REIT provisions of the Code, to comply with the requirements of any taxing authority or governmental agency or to determine any such compliance.

Our Board of Directors may increase or decrease the 9.8% ownership limit. In addition, to the extent consistent with the REIT provisions of the Code, our Board of Directors may, pursuant to our articles of incorporation, as amended, waive the 9.8% ownership limit for a purchaser of our stock. In connection with any such waiver, we may require that the stockholder requesting the waiver enter into an agreement with us providing that we may repurchase shares from the stockholder under certain circumstances to ensure compliance with the REIT provisions of the Code. The repurchase would be at fair market value as set forth in the agreement between us and the stockholder. The consideration received by the stockholder in the repurchase might be characterized as the receipt by the stockholder of a dividend from us, and any stockholder entering into an agreement with us should consult its tax advisor. At present, we do not intend to waive the 9.8% ownership limit for any purchaser.

Edgar Filing: Gastar Exploration Inc. - Form 424B3

The provisions described above may inhibit market activity, and may delay, defer or prevent a change in control or other transaction and the resulting opportunity for the holders of our capital stock to receive a premium for their shares that might otherwise exist in the absence of such provisions. Such provisions also may make us an unsuitable investment vehicle for any person seeking to obtain ownership of more than 9.8% of the outstanding shares of our capital stock.

CERTAIN PROVISIONS OF MARYLAND LAW AND OF OUR CHARTER AND BYLAWS

We have summarized certain terms and provisions of the Maryland General Corporation Law and our charter and bylaws. This summary is not complete and is qualified by the provisions of our charter and bylaws, and the Maryland General Corporation Law. See Where You Can Find More Information on Annaly. For restrictions on ownership and transfer of our capital stock contained in our charter, see Restrictions on Ownership and Transfer.

Classification of Board of Directors, Vacancies and Removal of Directors

Our by-laws, as amended and restated, provide for a staggered Board of Directors. Our by-laws, as amended and restated, provide for between three and fifteen directors divided into three classes, with terms of three years each. The number of directors in each class and the expiration of each class term is as follows:

Class I	3 Directors	Expires 2012
Class II	2 Directors	Expires 2010
Class III	3 Directors	Expires 2011

At each annual meeting of our stockholders, successors of the class of directors whose term expires at that meeting will be elected for a three-year term and the directors in the other two classes will continue in office. A classified Board of Directors may delay, defer or prevent a change in control or other transaction that might involve a premium over the then prevailing market price for our common stock or other attributes that our stockholders may consider desirable. In addition, a classified Board of Directors could prevent stockholders who do not agree with the policies of our Board of Directors from replacing a majority of the Board of Directors for two years, except in the event of removal for cause.

Our by-laws, as amended and restated, provide that any vacancy on our Board of Directors may be filled by a majority of the remaining directors. Any individual so elected director will hold office for the unexpired term of the director he or she is replacing. Our by-laws, as amended and restated, provide that a director may be removed at any time only for cause upon the affirmative vote of at least two-thirds of the votes entitled to be cast in the election of directors, but only by a vote taken at a stockholder meeting. These provisions preclude stockholders from removing incumbent directors, except for cause and upon a substantial affirmative vote, and filling the vacancies created by such removal with their own nominees.

Indemnification

Our articles of incorporation, as amended, obligate us to indemnify our directors and officers and to pay or reimburse expenses for them before the final disposition of a proceeding to the maximum extent permitted by Maryland law. The Corporations and Associations Article of the Annotated Code of Maryland (or the Maryland General Corporation Law) permits a corporation to indemnify its present and former directors and officers against judgments, penalties, fines, settlements and reasonable expenses actually incurred by them in connection with any proceeding to which they may be made a party by reason of their service in those or other capacities, unless it is established that (1) the act or omission of the director or officer was material to the matter giving rise to the proceeding and (a) was committed in bad faith, or (b) was the result of active and deliberate dishonesty, or (2) the director or officer actually received an improper personal benefit in money, property or services, or (3) in the case of any criminal proceeding, the director or officer had reasonable cause to believe that the act or omission was unlawful.

Limitation of Liability

The Maryland General Corporation Law permits the charter of a Maryland corporation to include a provision limiting the liability of its directors and officers to the corporation and its stockholders for money damages, except to the extent that (1) it is proved that the person actually received an improper benefit or profit in money, property or services, or (2) a judgment or other final adjudication adverse to the person is entered in a proceeding based on a finding that the person's action, or failure to act, was the result of active and deliberate dishonesty and was material to the cause of action adjudicated in the proceeding. Our articles of incorporation, as amended, provide for elimination of the liability of our directors and officers to us or our stockholders for money damages to the maximum extent permitted by Maryland law from time to time.

Maryland Business Combination Act

The Maryland General Corporation Law establishes special requirements for business combinations between a Maryland corporation and interested stockholders unless exemptions are applicable. An interested stockholder is any person who beneficially owns 10% or more of the voting power of our then outstanding voting stock. Among other things, the law prohibits for a period of five years a merger and other similar transactions between us and an interested stockholder unless the Board of Directors approved the transaction prior to the party becoming an interested stockholder. The five-year period runs from the most recent date on which the interested stockholder became an interested stockholder. The law also requires a supermajority stockholder vote for such transactions after the end of the five-year period. This means that the transaction must be approved by at least:

80% of the votes entitled to be cast by holders of outstanding voting shares; and

two-thirds of the votes entitled to be cast by holders of outstanding voting shares other than shares held by the interested stockholder or an affiliate of the interested stockholder with whom the business combination is to be effected.

Edgar Filing: Gastar Exploration Inc. - Form 424B3

As permitted by the Maryland General Corporation Law, we have elected not to be governed by the Maryland business combination statute. We made this election by opting out of this statute in our articles of incorporation, as amended. If, however, we amend our articles of incorporation, as amended, to opt back in to the statute, the business combination statute could have the effect of discouraging offers to acquire us and of increasing the difficulty of consummating any such offers, even if our acquisition would be in our stockholders' best interests.

Maryland Control Share Acquisition Act

Maryland law provides that control shares of a Maryland corporation acquired in a control share acquisition have no voting rights except to the extent approved by a vote of the other stockholders. Two-thirds of the shares eligible to vote must vote in favor of granting the control shares voting rights. Control shares are shares of stock that, taken together with all other shares of stock the acquirer previously acquired, would entitle the acquirer to exercise voting power in electing directors within one of the following ranges of voting power:

one-tenth or more but less than one-third of all voting power;

one-third or more but less than a majority of all voting power; or

a majority or more of all voting power.

Control shares do not include shares of stock the acquiring person is entitled to vote as a result of having previously obtained stockholder approval. A control share acquisition means the acquisition of control shares, subject to certain exceptions.

If a person who has made (or proposes to make) a control share acquisition satisfies certain conditions (including agreeing to pay expenses), he may compel our Board of Directors to call a special meeting of stockholders to consider the voting rights of the shares. If such a person makes no request for a meeting, we have the option to present the question at any stockholders' meeting.

If voting rights are not approved at a meeting of stockholders then, subject to certain conditions and limitations, we may redeem any or all of the control shares (except those for which voting rights have previously been approved) for fair value. We will determine the fair value of the shares, without regard to the absence of voting rights, as of the date of either:

the last control share acquisition; or

the meeting where stockholders considered and did not approve voting rights of the control shares.

If voting rights for control shares are approved at a stockholders' meeting and the acquirer becomes entitled to vote a majority of the shares of stock entitled to vote, all other stockholders may obtain rights as objecting stockholders and, thereunder, exercise appraisal rights. This means that you would be able to force us to redeem your stock for fair value. Under Maryland law, the fair value may not be less than the highest price per share paid in the control

share acquisition. Furthermore, certain limitations otherwise applicable to the exercise of dissenters' rights would not apply in the context of a control share acquisition. The control share acquisition statute would not apply to shares acquired in a merger, consolidation or share exchange if we were a party to the transaction. The control share acquisition statute could have the effect of discouraging offers to acquire us and of increasing the difficulty of consummating any such offers, even if our acquisition would be in our stockholders' best interests.

MATERIAL FEDERAL INCOME TAX CONSIDERATIONS

This section summarizes the material federal income tax considerations that you, as an Owner (as defined in the immediately succeeding paragraph) of shares of capital stock, may consider relevant. K&L Gates LLP has acted as our tax counsel, has reviewed this section and is of the opinion that the discussion contained herein accurately describes the federal income tax considerations that are likely to be material to an Owner of our shares of capital stock. Because this section is a summary, it does not address all aspects of taxation that may be relevant to particular Owners of our capital stock in light of their personal investment or tax circumstances, or to certain types of Owners that are subject to special treatment under the federal income tax laws, such as insurance companies, tax-exempt organizations (except to the extent discussed in "Taxation of Owners," "Taxation of Tax-Exempt Owners" below), regulated investment companies, partnerships and other pass-through entities (including entities classified as partnerships for federal income tax purposes), financial institutions or broker-dealers, and non-U.S. individuals and foreign corporations (except to the extent discussed in "Taxation of Owners," "Taxation of Foreign Owners" below) and other persons subject to special tax rules.

You should be aware that in this section, when we use the term:

Code, we mean the Internal Revenue Code of 1986, as amended;

Disqualified organization, we mean any organization described in section 860E(e)(5) of the Code, including:

- i. the United States;
- ii. any state or political subdivision of the United States;
- iii. any foreign government;
- iv. any international organization;
- v. any agency or instrumentality of any of the foregoing;
- vi. any charitable remainder trust or other tax-exempt organization, other than a farmer's cooperative described in section 521 of the Code, that is exempt both from income taxation and from taxation under the unrelated business taxable income provisions of the Code; and
- vii. any rural electrical or telephone cooperative;

Domestic Owner, we mean an Owner that is a U.S. Person;

Foreign Owner, we mean an Owner that is not a U.S. Person;

IRS, we mean the Internal Revenue Service;

Owner, we mean any person having a beneficial ownership interest in shares of our capital stock, or, where applicable, a person having a beneficial ownership interest in debt securities or other securities that we issue;

U.S. Person, we mean (i) a citizen or resident of the United States; (ii) a corporation (or entity treated as a corporation for federal income tax purposes) created or organized in the United States or under the laws of the United States or of any state thereof, including, for this purpose, the District of Columbia; (iii) a partnership (or entity treated as a partnership for tax purposes) organized in the United States or under the laws of the United States or of any state thereof, including, for this purpose, the District of Columbia (unless provided otherwise by future Treasury regulations); (iv) an estate whose income is includible in gross income for federal income tax purposes regardless of its source; or (v) a trust, if a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. Persons have authority to control all substantial decisions of the trust. Notwithstanding the preceding clause, to the extent provided in Treasury regulations, certain trusts that were in existence on August 20, 1996, that were treated as U.S. Persons prior to such date, and that elect to continue to be treated as U.S. Persons, also are U.S. Persons.

The statements in this section and the opinion of K&L Gates LLP are based on the current federal income tax laws. We cannot assure you that new laws, interpretations of law or court decisions, any of which may take effect retroactively, will not cause any statement in this section to be inaccurate. No assurance can be given that the IRS would not assert, or that a court would not sustain, a position contrary to any of the tax consequences described below. We have not sought and will not seek an advance ruling from the IRS regarding any matter in this prospectus.

This summary provides general information only and is not tax advice. We urge you to consult your tax advisor regarding the specific tax consequences to you of the purchase, ownership and sale of our capital stock and of our election to be taxed as a REIT. Specifically, you should consult your tax advisor regarding the federal, state, local, foreign, and other tax consequences of such purchase, ownership, sale and election, and regarding potential changes in applicable tax laws.

Taxation of Our Company

We have elected to be taxed as a REIT under Sections 856 through 860 of the Code commencing with our taxable year ended on December 31, 1997. We believe that we were organized and have operated and will continue to operate in such a manner as to qualify for taxation as a REIT under the federal income tax laws, but no assurances can be given that we will operate in a manner so as to qualify or remain qualified as a REIT. This section discusses

Edgar Filing: Gastar Exploration Inc. - Form 424B3

the laws governing the federal income tax treatment of a REIT and the owners of REIT stock. These laws are highly technical and complex.

In the opinion of K&L Gates LLP, our counsel, we have qualified to be taxed as a REIT beginning with our taxable year ended on December 31, 1997, and our organization and current and proposed method of operation will enable us to continue to meet the requirements for qualification and taxation as a REIT. Investors should be aware that K&L Gates LLP's opinion is based upon customary assumptions, is conditioned upon certain representations made by us as to factual matters, including representations regarding the nature of our assets and the conduct of our business, and is not binding upon the IRS or any court.

In addition, K&L Gates LLP's opinion is based on existing federal income tax law governing qualification as a REIT, which is subject to change either prospectively or retroactively. Moreover, our qualification and taxation as a REIT depend upon our ability to meet on a continuing basis, through actual annual operating results, certain qualification tests set forth in the federal income tax laws. Those qualification tests involve the percentage of income that we earn from specified sources, the percentage of our assets that falls within specified categories, the diversity of our stock ownership, and the percentage of our earnings that we distribute. K&L Gates LLP will not review our compliance with those tests on a continuing basis. Accordingly, no assurance can be given that our actual results of operations for any particular taxable year will satisfy such requirements. For a discussion of the tax consequences of our failure to qualify as a REIT, see [Failure to Qualify](#).

If we qualify as a REIT, we generally will not be subject to federal income tax on our taxable income that we currently distribute to our stockholders, but taxable income generated by our domestic TRSs will be subject to regular federal (and applicable state and local) corporate income tax. However, we will be subject to federal tax in the following circumstances:

We will pay federal income tax on our taxable income, including net capital gain, that we do not distribute to stockholders during, or within a specified time period after, the calendar year in which the income is earned.

We may be subject to the alternative minimum tax.

We will pay federal income tax at the highest corporate rate on:

- o net income from the sale or other disposition of property acquired through foreclosure, which we refer to as foreclosure property, that we hold primarily for sale to customers in the ordinary course of business, and
- o other non-qualifying income from foreclosure property.

We will pay a 100% tax on net income earned from sales or other dispositions of property, other than foreclosure property, that we hold primarily for sale to customers in the ordinary course of business.

If we fail to satisfy the 75% gross income test or the 95% gross income test, as described below under [Gross Income Tests](#), but nonetheless continue to qualify as a REIT because we meet other requirements, we will be subject to a 100% tax on:

- o the greater of the amount by which we fail the 75% gross income test or the 95% gross income test, multiplied, in either case, by
- o a fraction intended to reflect our profitability.

If we fail to satisfy the asset tests by more than a de minimis amount, as described below under Asset Tests, as long as the failure was due to reasonable cause and not to willful neglect, we dispose of the assets or otherwise comply with such asset tests within six months after the last day of the quarter in which we identify such failure and we file a schedule with the IRS describing the assets that caused such failure, we will pay a tax equal to the greater of \$50,000 or 35% of the net income from the non-qualifying assets during the period in which we failed to satisfy such asset tests.

If we fail to satisfy one or more requirements for REIT qualification, other than the gross income tests and the asset tests, and such failure was due to reasonable cause and not due to willful neglect, we will be required to pay a penalty of \$50,000 for each such failure.

We may be required to pay monetary penalties to the IRS in certain circumstances, including if we fail to meet recordkeeping requirements intended to monitor our compliance with rules relating to the composition of a REIT's stockholders, as described below in Requirements for Qualification.

If we fail to distribute during a calendar year at least the sum of: (i) 85% of our REIT ordinary income for the year, (ii) 95% of our REIT capital gain net income for the year and (iii) any undistributed taxable income from earlier periods, we will pay a 4% nondeductible excise tax on the excess of the required distribution over the sum of the amount we actually distributed and any retained amounts on which income tax has been paid at the corporate level.

We may elect to retain and pay federal income tax on our net long-term capital gain. In that case, a Domestic Owner would be taxed on its proportionate share of our undistributed long-term capital gain (to the extent that we make a timely designation of such gain to the stockholder) and would receive a credit or refund for its proportionate share of the tax we paid.

We will be subject to a 100% excise tax on transactions between us and any of our TRSs that are not conducted on an arm's-length basis.

If (a) we recognize excess inclusion income for a taxable year as a result of our ownership of a 100% equity interest in a TMP or our ownership of a REMIC residual interest and (b) one or more Disqualified Organizations is the record owner of shares of our capital stock during that year, then we will be subject to tax at the highest corporate federal income tax rate on the portion of the excess inclusion income that is allocable to the Disqualified Organizations. We do not anticipate owning REMIC residual interests or residual interests in TMPs. See Taxable Mortgage Pools.

If we acquire any asset from a C corporation, or a corporation that generally is subject to full corporate-level tax, in a merger or other transaction in which we acquire a basis in the asset that is determined by reference either to the C corporation's basis in

the asset or to another asset, we will pay tax at the highest corporate federal income tax rate if we recognize gain on the sale or disposition of the asset during the 10-year period after we acquire the asset. The amount of gain on which we will pay tax (so called built-in-gain) is the lesser of:

- o the amount of gain that we recognize at the time of the sale or disposition, and
- o the amount of gain that we would have recognized if we had sold the asset at the time we acquired it, assuming that the C corporation will not elect in lieu of this treatment to an immediate tax when the asset is acquired.

In addition, notwithstanding our qualification as a REIT, we may also have to pay certain state and local income taxes because not all states and localities treat REITs in the same manner that they are treated for federal income tax purposes. Moreover, as further described below, any domestic TRS in which we own an interest will be subject to federal, state and local corporate income tax on its taxable income. We could also be subject to tax in situations and on transactions not presently contemplated.

Requirements for Qualification

A REIT is a corporation, trust, or association that meets each of the following requirements:

1. It is managed by one or more trustees or directors.
2. Its beneficial ownership is evidenced by transferable shares or by transferable certificates of beneficial interest.
3. It would be taxable as a domestic corporation, but for the REIT provisions of the federal income tax laws.
4. It is neither a financial institution nor an insurance company subject to special provisions of the federal income tax laws.
5. At least 100 persons are beneficial owners of its shares or ownership certificates.
6. Not more than 50% in value of its outstanding shares or ownership certificates is owned, directly or indirectly, by five or fewer individuals, which the federal income tax laws define to include certain entities, during the last half of any taxable year. For purposes of this requirement, indirect ownership will be determined by applying attribution rules set out in section 544 of the Code, as modified by section 856(h) of the Code.
7. It elects to be taxed as a REIT, or has made such election for a previous taxable year, and satisfies all relevant filing and other administrative requirements that must be met to elect and maintain REIT qualification.
8. It meets certain other qualification tests, described below, regarding the nature of its income and assets.

Edgar Filing: Gastar Exploration Inc. - Form 424B3

We must meet requirements 1 through 4 during our entire taxable year and must meet requirement 5 during at least 335 days of a taxable year of twelve months, or during a proportionate part of a taxable year of less than twelve months. If we comply with all the requirements for ascertaining the ownership of our outstanding stock in a taxable year and have no reason to know that we violated requirement 6, we will be deemed to have satisfied requirement 6 for that taxable year. For purposes of determining share ownership under requirement 6, an individual generally includes a supplemental unemployment compensation benefits plan, a private foundation, or a portion of a trust permanently set aside or used exclusively for charitable purposes. An individual generally does not include a trust that is a qualified employee pension or profit sharing trust under the federal income tax laws, however, and beneficiaries of such a trust will be treated as owning our stock in proportion to their actuarial interests in the trust for purposes of requirement 6.

We believe that we have always had and will continue to have sufficient diversity of ownership to satisfy requirements 5 and 6. In addition, our charter restricts the ownership and transfer of our stock so that we should continue to satisfy these requirements. The provisions of our charter restricting the ownership and transfer of our capital stock are described in *Description of Capital Stock Restrictions on Ownership and Transfer*.

To monitor compliance with the share ownership requirements, we generally are required to maintain records regarding the actual ownership of our shares. To do so, we must demand written statements each year from the record holders of significant percentages of our stock pursuant to which the record holders must disclose the actual owners of the shares (i.e., the persons required to include our dividends in their gross income). We must maintain a list of those persons failing or refusing to comply with this demand as part of our records. We could be subject to monetary penalties if we fail to comply with these record keeping requirements. If you fail or refuse to comply with the demands, you will be required by Treasury Regulations to submit a statement with your tax return disclosing your actual ownership of our shares and other information. In addition, we must satisfy all relevant filing and other administrative requirements that must be met to elect and maintain REIT qualification and use a calendar year for federal income tax purposes. We intend to continue to comply with these requirements.

Qualified REIT Subsidiaries

A corporation that is a qualified REIT subsidiary is not treated as a corporation separate from its parent REIT. All assets, liabilities, and items of income, deduction and credit of a qualified REIT subsidiary are treated as assets, liabilities, and items of income, deduction and credit of the REIT. A qualified REIT subsidiary is a corporation, other than a TRS, all of the capital stock of which is owned, directly or indirectly, by the REIT. Thus, in applying the requirements described herein, any qualified REIT subsidiary that we own will be ignored, and all assets, liabilities, and items of income, deduction and credit of such subsidiary will be treated as our assets, liabilities, and items of income, deduction and credit.

Other Disregarded Entities and Partnerships

An unincorporated domestic entity, such as a partnership, limited liability company, or trust that has a single owner generally is not treated as an entity separate from its parent for

federal income tax purposes. An unincorporated domestic entity with two or more owners generally is treated as a partnership for federal income tax purposes. In the case of a REIT that is a partner in a partnership that has other partners, the REIT is treated as owning its proportionate share of the assets of the partnership and as earning its allocable share of the gross income of the partnership for purposes of the applicable REIT qualification tests. For purposes of the 10% value test (see Asset Tests), our proportionate share is based on our proportionate interest in the equity interests and certain debt securities issued by the partnership. For all of the other asset and income tests, our proportionate share is based on our proportionate interest in the capital interests in the partnership. Our proportionate share of the assets, liabilities, and items of income of any partnership, joint venture or limited liability company that is treated as a partnership for federal income tax purposes in which we acquire an interest, directly or indirectly, will be treated as our assets and gross income for purposes of applying the various REIT qualification requirements.

If a disregarded subsidiary of ours ceases to be wholly-owned for example, if any equity interest in the subsidiary is acquired by a person other than us or another disregarded subsidiary of ours the subsidiary's separate existence would no longer be disregarded for federal income tax purposes. Instead, the subsidiary would have multiple owners and would be treated as either a partnership or a taxable corporation. Such an event could, depending on the circumstances, adversely affect our ability to satisfy the various asset and gross income requirements applicable to REITs, including the requirement that REITs generally may not own, directly or indirectly, more than 10% of the securities of another corporation. See Asset Tests and Gross Income Tests.

Taxable REIT Subsidiaries

A REIT is permitted to own up to 100% of the stock of one or more TRSs. A TRS is a fully taxable corporation that may earn income that would not be qualifying income if earned directly by the parent REIT. The subsidiary and the REIT must jointly elect to treat the subsidiary as a TRS. A corporation with respect to which a TRS directly or indirectly owns more than 35% of the voting power or value of the stock will automatically be treated as a TRS. We generally may not own more than 10%, as measured by voting power or value, of the securities of a corporation that is not a qualified REIT subsidiary unless we and such corporation elect to treat such corporation as a TRS. Overall, no more than 25% of the value of a REIT's assets may consist of stock or securities of one or more TRSs.

The separate existence of a TRS or other taxable corporation, unlike a qualified REIT subsidiary or other disregarded subsidiary as discussed above, is not ignored for U.S. federal income tax purposes. Accordingly, a domestic TRS would generally be subject to federal (and applicable state and local income tax) corporate income tax on its earnings, which may reduce the cash flow generated by us and our subsidiaries in the aggregate and our ability to make distributions to our stockholders.

A REIT is not treated as holding the assets of a TRS or other taxable subsidiary corporation or as receiving any income that the subsidiary earns. Rather, the stock issued by the subsidiary is an asset in the hands of the REIT, and the REIT generally recognizes as income the dividends, if any, that it receives from the subsidiary. This treatment can affect the gross income

and asset test calculations that apply to the REIT, as described below. Because a parent REIT does not include the assets and income of such subsidiary corporations in determining the parent's compliance with the REIT requirements, such entities may be used by the parent REIT to undertake indirectly activities that the REIT rules might otherwise preclude it from doing directly or through pass-through subsidiaries or render commercially unfeasible (for example, activities that give rise to certain categories of income such as non-qualifying hedging income or inventory sales).

Certain restrictions imposed on TRSs are intended to ensure that such entities will be subject to appropriate levels of U.S. federal income taxation. If a TRS that has for any taxable year both (i) a debt-to-equity ratio in excess of 1.5 to 1, and (ii) accrued interest expense in excess of accrued interest income, then the TRS may be denied an interest expense deduction for a portion of the interest expense accrued on indebtedness owed to the parent REIT (although the TRS can carry forward the amount disallowed to subsequent taxable years). In addition, if amounts are paid to a REIT or deducted by a TRS due to transactions between the REIT and a TRS that exceed the amount that would be paid to or deducted by a party in an arm's-length transaction, the REIT generally will be subject to an excise tax equal to 100% of such excess. We intend to scrutinize all of our transactions with any of our subsidiaries that are treated as a TRS in an effort to ensure that we do not become subject to this excise tax; however, we cannot assure you that we will be successful in avoiding this excise tax.

Gross Income Tests

We must satisfy two gross income tests annually to maintain qualification as a REIT. First, at least 75% of our gross income for each taxable year must consist of defined types of income that we derive from investments relating to real property or mortgages on real property, or from qualified temporary investments. Qualifying income for purposes of the 75% gross income test generally includes:

rents from real property;

interest on debt secured by a mortgage on real property or on interests in real property;

dividends or other distributions on, and gain from the sale of, shares in other REITs;

gain from the sale of real estate assets;

any amount includible in gross income with respect to a regular or residual interest in a REMIC, unless less than 95% of the REMIC's assets are real estate assets, in which case only a proportionate amount of such income will qualify; and

income derived from certain temporary investments.

Second, in general, at least 95% of our gross income for each taxable year must consist of income that is qualifying income for purposes of the 75% gross income test, other types of interest and dividends, gain from the sale or disposition of stock or securities (provided that such stock or securities are not inventory property, i.e., property held primarily for sale to customers in the ordinary course of business) or any combination of these.

Gross income from the sale of inventory property is excluded from both the numerator and the denominator in both income tests. Income and gain from hedging transactions that we enter into to hedge indebtedness incurred or to be incurred to acquire or carry real estate assets will generally be excluded from both the numerator and the denominator for purposes of the 95% gross income test and the 75% gross income test. We intend to monitor the amount of our non-qualifying income and manage our investment portfolio to comply at all times with the gross income tests but we cannot assure you that we will be successful in this effort.

Interest

The term interest, as defined for purposes of both gross income tests, generally excludes any amount that is based in whole or in part on the income or profits of any person. However, interest generally includes the following: (i) an amount that is based on a fixed percentage or percentages of gross receipts or sales and (ii) an amount that is based on the income or profits of a borrower, where the borrower derives substantially all of its income from the real property securing the debt by leasing substantially all of its interest in the property, but only to the extent that the amounts received by the borrower would be qualifying rents from real property if received directly by a REIT.

If a loan contains a provision that entitles a REIT to a percentage of the borrower's gain upon the sale of the real property securing the loan or a percentage of the appreciation in the property's value as of a specific date, income attributable to that loan provision will be treated as gain from the sale of the property securing the loan, which generally is qualifying income for purposes of both gross income tests.

Interest, including any original issue discount or market discount, on mortgage-backed securities in which we have invested and in which we propose to invest is qualifying income both for purposes of the 75% gross income test and the 95% gross income test. Interest income that we have accrued and will accrue in the future on other debt securities that are not secured by mortgages on real property is qualifying income for purposes of the 95% gross income test.

Fee Income

We may receive various fees in connection with our operations. The fees will be qualifying income for purposes of both the 75% gross income and 95% gross income tests if they are received in consideration for entering into an agreement to make a loan secured by a mortgage on real property or an interest in real property and the fees are not determined by income or profits of any person. Other fees are not qualifying income for purposes of either gross income test. Any fees earned by our TRS will not be included for purposes of the gross income tests.

Dividends

Our share of any dividends received from any corporation (including any TRS that we own, but excluding any REIT or any qualified REIT subsidiary) in which we own an equity interest will qualify for purposes of the 95% gross income test but not for purposes of the 75% gross income test. Our share of any dividends received from any other REIT in which we own an equity interest will be qualifying income for purposes of both gross income tests.

Hedging Transactions

We may, from time to time, enter into hedging transactions with respect to the interest rate risk associated with our borrowings. To the extent that we enter into a contract to hedge interest rate risk on indebtedness incurred to acquire or carry real estate assets, any income and gain from such hedging transaction will be excluded from gross income for purposes of the 95% gross income test and the 75% gross income test. To the extent that we hedge for certain other purposes, the resultant income or gain will be treated as income that does not qualify under the 95% gross income test or the 75% gross income test. We intend to structure any hedging transaction in a manner that does not jeopardize our status as a REIT but we cannot assure you that we will be successful in this regard. We may conduct some or all of our hedging activities through a TRS, the income from which may be subject to federal income tax, rather than participating in the arrangements directly or through a partnership, qualified REIT subsidiary or other disregarded subsidiary. No assurance can be given, however, that our hedging activities will not give rise to income that does not qualify for purposes of either or both of the REIT gross income tests, and will not adversely affect our ability to satisfy the REIT qualification requirements.

Failure to Satisfy Gross Income Tests

We intend to monitor the amount of our non-qualifying income and manage our assets to comply with the gross income tests for each taxable year for which we seek to maintain our status as a REIT. We cannot assure you, however, that we will be able to satisfy the gross income tests. If we fail to satisfy one or both of the gross income tests for any taxable year, we may nevertheless qualify as a REIT for such year if we qualify for relief under certain provisions of the Code. These relief provisions will be generally available if (i) our failure to meet such tests was due to reasonable cause and not due to willful neglect, and (ii) we file with the IRS a schedule describing the sources of our gross income in accordance with Treasury Regulations. We cannot predict, however, whether in all circumstances, we would qualify for the benefit of these relief provisions. In addition, as discussed above under Taxation of Our Company, even if the relief provisions apply, a tax would be imposed upon the amount by which we fail to satisfy the particular gross income test.

Asset Tests

To qualify as a REIT, we also must satisfy the following asset tests at the end of each quarter of each taxable year. First, at least 75% of the value of our total assets must consist of some combination of real estate assets, cash, cash items, government securities, and, under some circumstances, stock or debt instruments purchased with new capital. For this purpose, the term real estate assets includes interests in real property (including leaseholds and options to acquire real property and leaseholds), stock of other corporations that qualify as REITs and interests in mortgage loans secured by real property (including certain types of mortgage backed securities). Assets that do not qualify for purposes of the 75% test are subject to the additional asset tests described below.

Second, the value of our interest in any one issuer's securities (other than debt and equity securities issued by any of our TRSs, qualified REIT subsidiaries, any other entity that is

disregarded as an entity separate from us, and any equity interest we may hold in a partnership) may not exceed 5% of the value of our total assets. Third, we may not own more than 10% of the voting power or 10% of the value of any one issuer's outstanding securities (other than debt and equity securities issued by any of our TRSs, qualified REIT subsidiaries, any other entity that is disregarded as an entity separate from us, and any equity interest we may hold in a partnership). Fourth, no more than 25% of the value of our total assets may consist of the securities of one or more TRSs. For purposes of the 10% value test, the term securities does not include certain straight debt securities.

Notwithstanding the general rule that, for purposes of the gross income and asset tests, a REIT is treated as owning its proportionate share of the underlying assets of a partnership in which it holds a partnership interest, if a REIT holds indebtedness issued by a partnership, the indebtedness will be subject to, and may cause a violation of the asset tests, unless it is a qualifying mortgage asset or otherwise satisfies the rules for straight debt. Similarly, although stock of another REIT qualifies as a real estate asset for purposes of the REIT asset tests, non-mortgage debt issued by another REIT may not so qualify.

Any regular or residual interest that we own in a REMIC will generally qualify as real estate assets. However, if less than 95% of the assets of a REMIC consist of assets that qualify as real estate assets, then we will be treated as holding directly our proportionate share of the assets of such REMIC for purposes of the asset tests.

We believe that the mortgage-backed securities that we hold and those we expect to hold will be qualifying assets for purposes of the 75% asset test. However, our investment in other asset-backed securities, bank loans and other instruments that are not secured by mortgages on real property will not be qualifying assets for purposes of the 75% asset test.

We have monitored and will continue to monitor the status of our assets for purposes of the various asset tests and will seek to manage our portfolio to comply at all times with such tests. There can be no assurance, however, that we will be successful in this effort. In this regard, to determine our compliance with these requirements, we will need to estimate the value of our assets to ensure compliance with the asset tests. We will not obtain independent appraisals to support our conclusions concerning the values of our assets, and we will generally rely on representations and warranties of sellers from whom we acquire mortgage loans concerning the loan-to-value ratios for such mortgage loans. Moreover, some of the assets that we may own may not be susceptible to precise valuation. Although we will seek to be prudent in making these estimates, there can be no assurance that the IRS will not disagree with these determinations and assert that a different value is applicable, in which case we might not satisfy the 75% asset test and the other asset tests and would fail to qualify as a REIT.

Failure to Satisfy Asset Tests

If we fail to satisfy the asset tests as the end of a quarter, we will not lose our REIT qualification if:

we satisfied the asset tests at the end of the preceding calendar quarter; and

the discrepancy between the value of our assets and the asset test requirements arose from changes in the market values of our assets and was not wholly or partly caused by the acquisition of one or more non-qualifying assets.

If we did not satisfy the condition described in the second bullet above, we still could avoid disqualification by eliminating any discrepancy within 30 days after the close of the calendar quarter in which it arose.

If we violate the 5% value test, 10% voting test or 10% value test described above at the end of any calendar quarter, we will not lose our REIT qualification if (i) the failure is de minimis (up to the lesser of 1% of our total assets or \$10 million) and (ii) we dispose of these assets or otherwise comply with the asset tests within six months after the last day of the quarter. In the event of a more than de minimis failure of any of the asset tests, as long as the failure was due to reasonable cause and not to willful neglect, we will not lose our REIT qualification if we (i) file with the IRS a schedule describing the assets that caused the failure, (ii) dispose of these assets or otherwise comply with the asset tests within six months after the last day of the quarter and (iii) pay a tax equal to the greater of \$50,000 per failure or an amount equal to the product of the highest corporate income tax rate (currently 35%) and the net income from the non-qualifying assets during the period in which we failed to satisfy the asset tests.

Annual Distribution Requirements

To qualify as a REIT, we are required to distribute dividends (other than capital gain dividends) to our stockholders in an amount at least equal to:

(A) the sum of

- (i) 90% of our REIT taxable income (computed without regard to the dividends paid deduction and our net capital gains), and
- (ii) 90% of the net income (after tax), if any, from foreclosure property (as described below), minus

(B) the sum of certain items of non-cash income.

In addition, if we were to recognize built-in-gain, we would be required to distribute at least 90% of the built-in-gain recognized net of the tax we would pay on such gain.

Such distributions must be paid in the taxable year to which they relate, or in the following taxable year if either (i) we declare the distribution before we file a timely federal income tax return for the year and pay the distribution with or before the first regular dividend payment after such declaration or (ii) we declare the distribution in October, November or December of the taxable year, payable to stockholders of record on a specified day in any such month, and we actually pay the dividends before the end of January of the following year. The distributions under clause (i) are taxable to the Owners of our capital stock in the year in which paid, and the distributions in clause (ii) are treated as paid on December 31 of the prior taxable year. In both instances, these distributions relate to our prior taxable year for purposes of the 90% distribution requirement.

Edgar Filing: Gastar Exploration Inc. - Form 424B3

We will pay federal income tax at corporate tax rates on our taxable income, including net capital gain, that we do not distribute to stockholders. Furthermore, if we fail to distribute during each calendar year, or by the end of January following the calendar year in the case of distributions with declaration and record dates falling in the last three months of the calendar year, at least the sum of (i) 85% of our REIT ordinary income for such year, (ii) 95% of our REIT capital gain income for such year and (iii) any undistributed taxable income from prior periods, we will be subject to a 4% nondeductible excise tax on the excess of such required distribution over the amounts actually distributed. We generally intend to make timely distributions sufficient to satisfy the annual distribution requirements and to avoid corporate federal income tax and the 4% nondeductible excise tax.

We may elect to retain, rather than distribute, our net capital gain and pay tax on such gains. In this case, we could elect to have our stockholders include their proportionate share of such undistributed capital gains in income and to receive a corresponding credit or refund, as the case may be, for their share of the tax paid by us. Stockholders would then increase the adjusted basis of their stock by the difference between the designated amounts of capital gains from us that they include in their taxable income, and the tax paid on their behalf by us with respect to that income.

To the extent that a REIT has available net operating losses carried forward from prior tax years, such losses may reduce the amount of distributions that it must make to comply with the REIT distribution requirements. Such losses, however, will generally not affect the character, in the hands of stockholders, of any distributions that are actually made by the REIT, which are generally taxable to stockholders to the extent that the REIT has current or accumulated earnings and profits. See Taxation of Stockholders, Taxation of Taxable Domestic Stockholders.

We may find it difficult or impossible to meet distribution requirements in certain circumstances. Due to the nature of the assets in which we will invest, we may be required to recognize taxable income from those assets in advance of our receipt of cash flow on or proceeds from disposition of such assets. For instance, we may be required to accrue interest and discount income on mortgage-backed securities and other types of debt securities or interests in debt securities before we receive any payments of interest or principal on such assets. Thus, for any taxable year, we may be required to fund distributions in excess of cash flow received from our investments. If such circumstances arise, then to fund our distribution requirement and maintain our status as a REIT we may have to sell assets at unfavorable prices, borrow at unfavorable terms, make taxable stock dividends, or pursue other strategies. We cannot be assured, however, any such strategy would be successful if our cash flow were to become insufficient to make the required distributions.

Under certain circumstances, we may be able to rectify a failure to meet the distribution requirement for a year by paying deficiency dividends to stockholders in a later year, which may be included in our deduction for dividends paid for the earlier year. Thus, we may be able to avoid being taxed on amounts distributed as deficiency dividends; however, we will be required to pay interest and a penalty to the IRS based on the amount of any deduction taken for deficiency dividends.

Failure to Qualify

If we fail to satisfy one or more requirements for REIT qualification, other than the gross income tests and the asset tests, we could avoid disqualification if our failure is due to reasonable cause and not to willful neglect and we pay a penalty of \$50,000 for each such failure. In addition, there are relief provisions for a failure of the gross income tests and asset tests, as described in **Gross Income Tests** and **Asset Tests**.

If we fail to qualify for taxation as a REIT in any taxable year, and the relief provisions do not apply, we will be subject to tax (including any applicable alternative minimum tax) on our taxable income at regular federal corporate income tax rates. Distributions to stockholders in any year in which we fail to qualify will not be deductible by us nor will they be required to be made. In such event, to the extent of current and accumulated earnings and profits, all distributions to stockholders will be taxable as ordinary income, and, subject to certain limitations of the Code, corporate stockholders may be eligible for the dividends received deduction, and individual stockholders and other non-corporate stockholders may be eligible to be taxed at the reduced 15% rate currently applicable to qualified dividend income (through 2010). Unless entitled to relief under specific statutory provisions, we will also be disqualified from taxation as a REIT for the four taxable years following the year during which qualification was lost. We cannot predict whether in all circumstances we would be entitled to such statutory relief.

Prohibited Transactions

Net income derived by a REIT from a prohibited transaction is subject to a 100% excise tax. The term **prohibited transaction** generally includes a sale or other disposition of property (other than foreclosure property) that is held primarily for sale to customers in the ordinary course of a trade or business. Although we do not expect that our assets will be held primarily for sale to customers or that a sale of any of our assets will be in the ordinary course of our business, these terms are dependent upon the particular facts and circumstances, and we cannot assure you that we will never be subject to this excise tax. The 100% tax does not apply to gains from the sale of property that is held through a TRS or other taxable corporation, although such income will be subject to tax in the hands of the corporation at regular federal corporate income tax rates.

Foreclosure Property

A REIT is subject to tax at the maximum corporate rate (currently 35%) on any income from foreclosure property, including gain from the disposition of such foreclosure property, other than income that otherwise would be qualifying income for purposes of the 75% gross income test. Foreclosure property is real property and any personal property incident to such real property (i) that is acquired by a REIT as result of the REIT having bid on such property at foreclosure, or having otherwise reduced the property to ownership or possession by agreement or process of law, after there was a default (or default was imminent) on a lease of such property or a mortgage loan held by the REIT and secured by the property, (ii) for which the related loan or lease was acquired by the REIT at a time when default was not imminent or anticipated and (iii) for which such REIT makes a proper election to treat the property as foreclosure property.

Any gain from the sale of property for which a foreclosure election has been made will not be subject to the 100% excise tax on gains from prohibited transactions described above, even if the property would otherwise constitute inventory or dealer property in the hands of the selling REIT. We have not received any income from foreclosure property and we do not expect to receive income from foreclosure property.

Taxable Mortgage Pools

An entity, or a portion of an entity, may be classified as a TMP under the Code if (i) substantially all of its assets consist of debt obligations or interests in debt obligations, (ii) more than 50% of those debt obligations are real estate mortgage loans, interests in real estate mortgage loans or interests in certain mortgage-backed securities as of specified testing dates, (iii) the entity has issued debt obligations that have two or more maturities and (iv) the payments required to be made by the entity on its debt obligations bear a relationship to the payments to be received by the entity on the debt obligations that it holds as assets. Under Treasury Regulations, if less than 80% of the assets of an entity (or a portion of an entity) consist of debt obligations, these debt obligations are considered not to comprise substantially all of its assets, and therefore the entity would not be treated as a TMP.

We do not intend to structure or enter into securitization or financing transactions that will cause us to be viewed as owning interests in one or more TMPs. Generally, if an entity or a portion of an entity is classified as a TMP, then the entity or portion thereof is treated as a taxable corporation and it cannot file a consolidated federal income tax return with any other corporation. If, however, a REIT owns 100% of the equity interests in a TMP, then the TMP is a qualified REIT subsidiary and, as such, ignored as an entity separate from the REIT.

If, notwithstanding our intent to avoid having the issuing entity in any of our securitization or financing transactions classified as a TMP, one or more of such transactions was so classified, then as long as we owned 100% of the equity interests in the issuing entity, all or a portion of the income that we recognize with respect to our investment in the issuing entity will be treated as excess inclusion income. Section 860E(c) of the Code defines the term *excess inclusion* with respect to a residual interest in a REMIC. The IRS, however, has yet to issue guidance on the computation of excess inclusion income on equity interests in a TMP held by a REIT. Generally, however, excess inclusion income with respect to our investment in any TMP and any taxable year will equal the excess of (i) the amount of income we accrue on our investment in the TMP over (ii) the amount of income we would have accrued if our investment were a debt instrument having an issue price equal to the fair market value of our investment on the day we acquired it and a yield to maturity equal to 120% of the long-term applicable federal rate in effect on the date we acquired our interest. The term *applicable federal rate* refers to rates that are based on weighted average yields for treasury securities and are published monthly by the IRS for use in various tax calculations. If we undertake securitization transactions that are TMPs, the amount of excess inclusion income we recognize in any taxable year could represent a significant portion of our total taxable for that year.

Although we intend to structure our securitization and financing transactions so that we will not recognize any excess inclusion income, we cannot assure you that we will always be successful in this regard. If, notwithstanding our intent, we recognized excess inclusion income,

then under guidance issued by the IRS we would be required to allocate the excess inclusion income proportionately among the dividends we pay to our stockholders and we must notify our stockholders of the portion of our dividends that represents excess inclusion income. The portion of any dividend you receive that is treated as excess inclusion income is subject to special rules. First, your taxable income can never be less than the sum of your excess inclusion income for the year; excess inclusion income cannot be offset with net operating losses or other allowable deductions. Second, if you are a tax-exempt organization and your excess inclusion income is subject to the unrelated business income tax, then the excess inclusion portion of any dividend you receive will be treated as unrelated business taxable income. Third, dividends paid to Foreign Owners who hold stock for investment and not in connection with a trade or business conducted in the United States will be subject to United States federal withholding tax without regard to any reduction in rate otherwise allowed by any applicable income tax treaty.

If we recognize excess inclusion income, and one or more Disqualified Organizations are record holders of shares of capital stock, we will be taxable at the highest federal corporate income tax rate on the portion of any excess inclusion income equal to the percentage of our stock that is held by Disqualified Organizations. In such circumstances, we may reduce the amount of our distributions to a Disqualified Organization whose stock ownership gave rise to the tax. To the extent that our capital stock owned by Disqualified Organizations is held by a broker/dealer or other nominee, the broker/dealer or other nominee would be liable for a tax at the highest corporate tax rate on the portion of our excess inclusion income allocable to our capital stock held by the broker/dealer or other nominee on behalf of the Disqualified Organizations.

If we own less than 100% of the equity interests in a TMP, the foregoing rules would not apply. Rather, the entity would be treated as a corporation for federal income tax purposes and would potentially be subject to federal corporate income tax. This could adversely affect our compliance with the REIT gross income and asset tests described above. We currently do not have, and currently do not intend to enter into any securitization or financing transaction that is a TMP in which we own some, but less than all, of the equity interests, and we intend to monitor the structure of any TMPs in which we have an interest to ensure that they will not adversely affect our status as a REIT. We cannot assure you that we will be successful in this regard.

Taxation of Owners

Taxation of Taxable Domestic Owners

Distributions. As long as we qualify as a REIT, distributions we make to our taxable Domestic Owners out of current or accumulated earnings and profits (and not designated as capital gain dividends) will be taken into account by them as ordinary income. Dividends we pay to a corporation will not be eligible for the dividends received deduction. In addition, distributions we make to individuals and other Owners that are not corporations generally will not be eligible for the 15% reduced rate of tax currently (through 2010) in effect for qualified dividend income. However, provided certain holding period and other requirements are met, an individual or other non-corporate Owner will be eligible for the 15% reduced rate with respect to (i) distributions attributable to dividends we receive from certain C corporations, such as our

Edgar Filing: Gastar Exploration Inc. - Form 424B3

TRSs, and (ii) distributions attributable to income upon which we have paid corporate income tax.

Distributions that we designate as capital gain dividends will be taxed as long-term capital gains (to the extent that they do not exceed our actual net capital gain for the taxable year) without regard to the period for which you have owned our capital stock. However, corporate Owners may be required to treat up to 20% of certain capital gain dividends as ordinary income. Long-term capital gains are generally taxable at maximum federal rates of 15% (through 2010) in the case of individuals, trusts and estates, and 35% in the case of corporations.

Rather than distribute our net capital gains, we may elect to retain and pay the federal income tax on them, in which case you will (i) include your proportionate share of the undistributed net capital gains in income, (ii) receive a credit for your share of the federal income tax we pay and (iii) increase the basis in your capital stock by the difference between your share of the capital gain and your share of the credit.

Distributions in excess of our current and accumulated earnings and profits will not be taxable to you to the extent that they do not exceed your adjusted tax basis in our capital stock you own, but rather, will reduce your adjusted tax basis in your capital stock. Assuming that the capital stock you own is a capital asset, to the extent that such distributions exceed your adjusted tax basis in the capital stock you own, you must include them in income as long-term capital gain (or short-term capital gain if the capital stock has been held for one year or less).

If we declare a dividend in October, November or December of any year that is payable to stockholders of record on a specified date in any such month, but actually distribute the amount declared in January of the following year, then you must treat the January distribution as though you received it on December 31 of the year in which we declared the dividend. In addition, we may elect to treat other distributions after the close of the taxable year as having been paid during the taxable year, but you will be treated as having received these distributions in the taxable year in which they are actually made.

To the extent that we have available net operating losses and capital losses carried forward from prior tax years, such losses may reduce the amount of distributions that we must make to comply with the REIT distribution requirements. See Annual Distribution Requirements. Such losses, however, are not passed through to you and do not offset your income from other sources, nor would they affect the character of any distributions that you receive from us; you will be subject to tax on those distributions to the extent that we have current or accumulated earnings and profits.

Although we do not expect to recognize any excess inclusion income, if we did recognize excess inclusion income, we would identify a portion of the distributions that we make to you as excess inclusion income. Your taxable income can never be less than the sum of your excess inclusion income for the year; excess inclusion income cannot be offset with net operating losses or other allowable deductions. See Taxable Mortgage Pools.

Dispositions of Our Stock. Any gain or loss you recognize upon the sale or other disposition of our capital stock will generally be capital gain or loss for federal income tax

Edgar Filing: Gastar Exploration Inc. - Form 424B3

purposes, and will be long-term capital gain or loss if you held the capital stock for more than one year. In addition, any loss you recognize upon a sale or exchange of our capital stock that you have owned for six months or less (after applying certain holding period rules) will generally be treated as a long-term capital loss to the extent of distributions received from us that you are required to treat as long-term capital gain.

If you recognize a loss upon a disposition of our capital stock in an amount that exceeds a prescribed threshold, it is possible that the provisions of recently adopted Treasury Regulations involving reportable transactions could apply, with a resulting requirement to separately disclose the loss-generating transaction to the IRS. While these regulations are directed towards tax shelters, they are written quite broadly, and apply to transactions that would not typically be considered tax shelters. In addition, recently enacted legislation imposes significant penalties for failure to comply with these requirements. You should consult your tax advisor concerning any possible disclosure obligation with respect to the receipt or disposition of our capital stock, or transactions that might be undertaken directly or indirectly by us. Moreover, you should be aware that we and other participants in the transactions involving us (including our advisors) may be subject to disclosure or other requirements pursuant to these regulations.

Amounts that you are required to include in taxable income with respect to our capital stock you own, including taxable distributions and the income you recognize with respect to undistributed net capital gain, and any gain recognized upon your disposition of our capital stock, will not be treated as passive activity income. You may not offset any passive activity losses you may have, such as losses from limited partnerships in which you have invested, with income you recognize with respect to our shares of capital stock. Generally, income you recognize with respect to our capital stock will be treated as investment income for purposes of the investment interest limitations.

Information Reporting and Backup Withholding. We will report to you and to the IRS the amount of distributions on our capital stock or interest on debt securities we pay during each calendar year and the amount of tax we withhold, if any. Under the backup withholding rules, you may be subject to backup withholding at a current rate of 28% with respect to such distributions or interest unless you:

are a corporation or come within certain other exempt categories and, when required, demonstrate this fact; or

provide a taxpayer identification number, certify as to no loss of exemption from backup withholding, and otherwise comply with the applicable requirements of the backup withholding rules.

Any amount paid as backup withholding will be creditable against your federal income tax liability. For a discussion of the backup withholding rules as applied to foreign owners, see *Taxation of Foreign Owners*.

Taxation of Tax-Exempt Owners

Tax-exempt entities, including qualified employee pension and profit sharing trusts and individual retirement accounts, are generally exempt from federal income taxation. However,

they are subject to taxation on their unrelated business taxable income (UBTI). Provided that a tax-exempt Owner (i) has not held our capital stock as debt financed property within the meaning of the Code and (ii) has not used our capital stock in an unrelated trade or business, amounts that we distribute to tax-exempt Owners generally should not constitute UBTI. However, a tax-exempt Owner's allocable share of any excess inclusion income that we recognize will be subject to tax as UBTI. See Taxable Mortgage Pools. We intend to structure our securitization and financing transactions so that we will avoid recognizing any excess inclusion income.

Tax-exempt Owners that are social clubs, voluntary employee benefit associations, supplemental unemployment benefit trusts and qualified group legal services plans, exempt from taxation under special provisions of the federal income tax laws, are subject to different UBTI rules, which generally will require them to characterize distributions that they receive from us as UBTI.

In certain circumstances, a qualified employee pension trust or profit sharing trust that owns more than 10% of our stock could be required to treat a percentage of the dividends that it receives from us as UBTI if we are a pension-held REIT. We will not be a pension-held REIT unless either (a) one pension trust owns more than 25% of the value of our stock or (b) a group of pension trusts individually holding more than 10% of our stock collectively owns more than 50% of the value of our stock. However, the restrictions on ownership and transfer of our stock, as described under Description of Capital Stock Restrictions on Ownership and Transfer are designed among other things to prevent a tax-exempt entity from owning more than 10% of the value of our stock, thus making it unlikely that we will become a pension-held REIT.

Taxation of Foreign Owners

The following is a summary of certain U.S. federal income and estate tax consequences of the ownership and disposition of our capital stock applicable to a Foreign Owner.

If a partnership, including for this purpose any entity that is treated as a partnership for U.S. federal income tax purposes, holds our capital stock, the tax treatment of a partner in the partnership will generally depend upon the status of the partner and the activities of the partnership. An investor that is a partnership having Foreign Owners as partners should consult its tax advisors about the U.S. federal income tax consequences of the acquisition, ownership and disposition of our capital stock.

The discussion is based on current law and is for general information only. The discussion addresses only certain and not all aspects of U.S. federal income and estate taxation.

Ordinary Dividend Distributions. The portion of dividends received by a Foreign Owner payable out of our current and accumulated earnings and profits that are not attributable to our capital gains and that are not effectively connected with a U.S. trade or business of the Foreign Owner will be subject to U.S. withholding tax at the rate of 30% (unless reduced by an applicable income tax treaty). In general, a Foreign Owner will not be considered engaged in a U.S. trade or business solely as a result of its ownership of our capital stock. In cases where the dividend income from a Foreign Owner's investment in our capital stock is (or is treated as)

Edgar Filing: Gastar Exploration Inc. - Form 424B3

effectively connected with the Foreign Owner's conduct of a U.S. trade or business, the Foreign Owner generally will be subject to U.S. tax at graduated rates, in the same manner as Domestic Owners are taxed with respect to such dividends (and may also be subject to the 30% branch profits tax in the case of a foreign owner that is a foreign corporation). If a Foreign Owner is the record holder of shares of our capital stock, we plan to withhold U.S. income tax at the rate of 30% on the gross amount of any distribution paid to a Foreign Owner unless:

a lower income treaty rate applies and the Foreign Owner provides us with an IRS Form W-8BEN evidencing eligibility for that reduced rate; or

the Foreign Owner provides us with an IRS Form W-8ECI certifying that the distribution is effectively connected income.

Under some income tax treaties, lower withholding tax rates do not apply to ordinary dividends from REITs. Furthermore, reduced treaty rates are not available to the extent that distributions are treated as excess inclusion income. See Taxable Mortgage Pools. We intend to structure our securitization and financing transactions so that we will avoid recognizing any excess inclusion income.

Non-Dividend Distributions. Distributions we make to a Foreign Owner that are not considered to be distributions out of our current and accumulated earnings and profits will not be subject to U.S. federal income or withholding tax unless the distribution exceeds the Foreign Owner's adjusted tax basis in our capital stock at the time of the distribution and, as described below, the Foreign Owner would otherwise be taxable on any gain from a disposition of our capital stock. If it cannot be determined at the time a distribution is made whether or not such distribution will be in excess of our current and accumulated earnings and profits, the entire distribution will be subject to withholding at the rate applicable to dividends. A Foreign Owner may, however, seek a refund of such amounts from the IRS if it is subsequently determined that the distribution was, in fact, in excess of our current and accumulated earnings and profits, provided the proper forms are timely filed with the IRS by the Foreign Owner.

Capital Gain Dividends. Distributions that we make to Foreign Owners that are attributable to our disposition of U.S. real property interests (USRPI, which term does not include interests in mortgage loans and mortgage backed securities) are subject to U.S. federal income and withholding taxes pursuant to the Foreign Investment in Real Property Act of 1980, or FIRPTA, and may also be subject to branch profits tax if the Foreign Owner is a corporation that is not entitled to treaty relief or exemption. Although we do not anticipate recognizing any gain attributable to the disposition of USRPI, as defined by FIRPTA, Treasury Regulations interpreting the FIRPTA provisions of the Code could be read to impose a withholding tax at a rate of 35% on all of our capital gain dividends (or amounts we could have designated as capital gain dividends) paid to Foreign Owners, even if no portion of the capital gains we recognize during the year are attributable to our disposition of USRPI. However, in any event, the FIRPTA rules will not apply to distributions to a Foreign Owner with respect to any class of our capital stock so long as (i) such class of stock is regularly traded (as defined by applicable Treasury Regulations) on an established securities market, and (ii) the Foreign Owner owns (actually or constructively) no more than 5% of such class of stock at any time during the one-year period ending with the date of the distribution.

Edgar Filing: Gastar Exploration Inc. - Form 424B3

Dispositions of Our Stock. Unless our capital stock constitutes a USRPI, a sale of our capital stock by a Foreign Owner generally will not be subject to U.S. federal income tax under FIRPTA. We do not expect that our capital stock will constitute a USRPI. Our capital stock will not constitute a USRPI if less than 50% of our assets throughout a prescribed testing period consist of interests in real property located within the United States, excluding, for this purpose, interest in real property solely in the capacity as a creditor. Even if the foregoing test is not met, our capital stock will not constitute a USRPI if we are a domestically controlled REIT. A domestically controlled REIT is a REIT in which, at all times during a specified testing period, less than 50% in value of its shares is held directly or indirectly by foreign owners. We do not intend to maintain records to determine whether we are a domestically controlled REIT for this purpose.

Even if we do not constitute a domestically controlled REIT, a Foreign Owner's sale of a class of our capital stock generally will still not be subject to tax under FIRPTA as a sale of a USRPI provided that (i) such class of stock is regularly traded (as defined by applicable Treasury Regulations) on an established securities market and (ii) the selling Foreign Owner has owned (actually or constructively) 5% or less of such class of stock at all times during a specified testing period.

If gain on the sale of our capital stock were subject to taxation under FIRPTA, the Foreign Owner would generally be subject to the same treatment as a Domestic Owner with respect to such gain (subject to applicable alternative minimum tax and a special alternative minimum tax in the case of nonresident alien individuals) and the purchaser of the capital stock could be required to withhold 10% of the purchase price and remit such amount to the IRS.

Capital gains not subject to FIRPTA will nonetheless be taxable in the United States to a Foreign Owner in two cases. First, if the Foreign Owner's investment in our capital stock is effectively connected with a U.S. trade or business conducted by such Foreign Owner, the Foreign Owner will generally be subject to the same treatment as a Domestic Owner with respect to such gain. Second, if the Foreign Owner is a nonresident alien individual who was present in the United States for 183 days or more during the taxable year and has a tax home in the United States, the nonresident alien individual will be subject to a 30% tax on the individual's capital gain.

Estate Tax. Our capital stock owned or treated as owned by an individual who is not a citizen or resident of the United States (as specially defined for U.S. federal estate tax purposes) at the time of death will be includible in the individual's gross estate for U.S. federal estate tax purposes, unless an applicable estate tax treaty provides otherwise. Such individual's estate may be subject to U.S. federal estate tax on the property includible in the estate for U.S. federal estate tax purposes.

Information Reporting and Backup Withholding. Under current Treasury Regulations, information reporting and backup withholding will not apply to payments on the debt securities or our capital stock made by us or our paying agent (in its capacity as such) to you if you have provided the required certification that you are a Foreign Owner provided that neither we nor our paying agent has actual knowledge or reason to know that you are a Domestic Owner. However, we or our paying agent may be required to report to the IRS and you payments of interest on the

Edgar Filing: Gastar Exploration Inc. - Form 424B3

debt securities or dividends on our capital stock and the amount of tax, if any, withheld with respect to those payments. Copies of the information returns reporting such interest payments and any withholding may also be made available to the tax authorities in the country in which you reside under the provisions of a treaty or agreement. The gross proceeds from the disposition of your debt securities or capital stock may be subject to information reporting and backup withholding tax (currently at a maximum rate of 28%). If you sell your debt securities or capital stock outside the United States through a non-U.S. office of a non-U.S. broker and the sales proceeds are paid to you outside the United States, then the U.S. information reporting and backup withholding requirements generally will not apply to that payment. However, U.S. information reporting, but not backup withholding, will apply to a payment of sales proceeds, even if that payment is made outside the United States, if you sell your debt securities or capital stock through a non-U.S. office of a broker that:

is a U.S. person;

derives 50% or more of its gross income in specific periods from the conduct of a trade or business in the United States;

is a controlled foreign corporation for U.S. federal income tax purposes; or

is a foreign partnership, if at any time during its tax year:

o one or more of its partners are U.S. persons who in the aggregate hold more than 50% of the income or capital interests in the partnership; or

o the foreign partnership is engaged in a U.S. trade or business,

unless the broker has documentary evidence in its files that you are a Foreign Owner and certain other conditions are met or you otherwise establish an exemption.

If you receive payment of the proceeds of a sale of your debt securities or capital stock to or through a U.S. office of a broker, the payment is subject to both U.S. backup withholding and information reporting unless you provide an IRS Form W-8BEN certifying that you are a Foreign Owner or you otherwise establish an exemption, provided that the broker does not have actual knowledge or reason to know that you are not a Foreign Owner or the conditions of any other exemption are not, in fact, satisfied.

You are encouraged to consult your own tax advisor regarding application of backup withholding in your particular circumstance and the availability of and procedure for obtaining an exemption from backup withholding under current Treasury Regulations. Any amounts withheld under the backup withholding rules from a payment to you will be allowed as a refund or credit against your U.S. federal income tax liability, provided the required information is timely furnished to the IRS.

Other Tax Consequences

Possible Legislative or Other Actions Affecting Tax Consequences. Prospective investors should recognize that the present federal income tax treatment of an investment in our capital stock may be modified by legislative, judicial or administrative action at any time, and that any such action may affect investments and commitments previously made. The rules dealing with

Edgar Filing: Gastar Exploration Inc. - Form 424B3

federal income taxation are constantly under review by persons involved in the legislative process and by the IRS and Treasury Department, resulting in revisions of regulations and revised interpretations of established concepts as well as statutory changes. Revisions in federal tax laws and interpretations thereof could adversely affect the tax consequences of an investment in our capital stock.

State and Local Taxes. We and our stockholders may be subject to state or local taxation in various state or local jurisdictions, including those in which we or they transact business or reside. The state and local tax treatment may not conform to the federal income tax consequences discussed above. Consequently, prospective investors should consult their own tax advisors regarding the effect of state and local tax laws on an investment in our capital stock.

PLAN OF DISTRIBUTION

We may sell the securities offered pursuant to this prospectus and any accompanying prospectus supplements to or through one or more underwriters or dealers or we may sell the securities to investors directly or through agents. Each prospectus supplement, to the extent applicable, will describe the number and terms of the securities to which such prospectus supplement relates, the name or names of any underwriters or agents with whom we have entered into arrangements with respect to the sale of such securities, the public offering or purchase price of such securities, the net proceeds we will receive from such sale and any discounts or concessions allowed or reallocated or paid to dealers. Any underwriter or agent involved in the offer and sale of the securities will be named in the applicable prospectus supplement. We may sell securities directly to investors on our own behalf in those jurisdictions where we are authorized to do so.

Underwriters may offer and sell the securities at a fixed price or prices, which may be changed, at market prices prevailing at the time of sale, at prices related to the prevailing market prices or at negotiated prices. We also may, from time to time, authorize dealers or agents to offer and sell these securities upon such terms and conditions as may be set forth in the applicable prospectus supplement. In connection with the sale of any of these securities, underwriters may receive compensation from us in the form of underwriting discounts or commissions and may also receive commissions from purchasers of the securities for whom they may act as agent. Underwriters may sell the securities to or through dealers, and such dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters or commissions from the purchasers for which they may act as agents.

Shares may also be sold in one or more of the following transactions: (a) block transactions (which may involve crosses) in which a broker-dealer may sell all or a portion of the shares as agent but may position and resell all or a portion of the block as principal to facilitate the transaction; (b) purchases by a broker-dealer as principal and resale by the broker-dealer for its own account pursuant to a prospectus supplement; (c) a special offering, an exchange distribution or a secondary distribution in accordance with applicable New York Stock Exchange or other stock exchange rules; (d) ordinary brokerage transactions and transactions in which a broker-dealer solicits purchasers; (e) sales at the market to or through a market maker or into an existing trading market, on an exchange or otherwise, for shares; and (f) sales in other ways not involving market makers or established trading markets, including direct sales to purchasers. Broker-dealers may also receive compensation from purchasers of the shares which is not expected to exceed that customary in the types of transactions involved.

Any underwriting compensation paid by us to underwriters or agents in connection with the offering of these securities, and any discounts or concessions or commissions allowed by underwriters to participating dealers, will be set forth in the applicable prospectus supplement. Dealers and agents participating in the distribution of the securities may be deemed to be underwriters, and any discounts and commissions received by them and any profit realized by them on resale of the securities may be deemed to be underwriting discounts and commissions.

Underwriters, dealers and agents may be entitled, under agreements entered into with us, to indemnification against and contribution toward certain civil liabilities, including liabilities

Edgar Filing: Gastar Exploration Inc. - Form 424B3

under the Securities Act of 1933. Unless otherwise set forth in the accompanying prospectus supplement, the obligations of any underwriters to purchase any of these securities will be subject to certain conditions precedent.

In connection with the offering of the securities hereby, certain underwriters, and selling group members and their respective affiliates, may engage in transactions that stabilize, maintain or otherwise affect the market price of the applicable securities. These transactions may include stabilization transactions effected in accordance with Rule 104 of Regulation M promulgated by the SEC pursuant to which these persons may bid for or purchase securities for the purpose of stabilizing their market price.

The underwriters in an offering of securities may also create a short position for their account by selling more securities in connection with the offering than they are committed to purchase from us. In that case, the underwriters could cover all or a portion of the short position by either purchasing securities in the open market following completion of the offering of these securities or by exercising any over-allotment option granted to them by us. In addition, the managing underwriter may impose penalty bids under contractual arrangements with other underwriters, which means that they can reclaim from an underwriter (or any selling group member participating in the offering) for the account of the other underwriters, the selling concession for the securities that are distributed in the offering but subsequently purchased for the account of the underwriters in the open market. Any of the transactions described in this paragraph or comparable transactions that are described in any accompanying prospectus supplement may result in the maintenance of the price of the securities at a level above that which might otherwise prevail in the open market. None of the transactions described in this paragraph or in an accompanying prospectus supplement are required to be taken by any underwriters and, if they are undertaken, may be discontinued at any time.

Our common stock is listed on the New York Stock Exchange under the symbol NLY and our Series A Preferred Stock is listed on the New York Stock Exchange under the symbol NLY PrA. Except for our common stock or as otherwise described in the applicable prospectus supplement, all other securities will be new issues of securities with no established trading market and may or may not be listed on a national securities exchange. Any underwriters or agents to or through which securities are sold by us may make a market in the securities, but these underwriters or agents will not be obligated to do so and any of them may discontinue any market making at any time without notice. No assurance can be given as to the liquidity of or trading market for any securities sold by us.

Underwriters, dealers and agents may engage in transactions with, or perform services for, us and our affiliates in the ordinary course of business. Underwriters have from time to time in the past provided, and may from time to time in the future provide, investment banking services to us for which they have in the past received, and may in the future receive, customary fees.
