Form 40-F o

This Form 6-K consists of the UBS Group AG selected historical financial information in US dollars, which appear immediately following this page.

US dollar time series for the periods from 2015 to Q3 2018
of UBS Group AG consolidated

Basis of preparation of this US dollar information

Effective 1 October 2018 and as required by IAS 21, *The Effects of Changes in Foreign Exchange Rates*, the functional currency of UBS Group AG and UBS AG's Head Office in Switzerland has changed from Swiss francs to US dollars and the functional currency of UBS AG's London Branch operations has changed from British pounds to US dollars. In line with these changes, the presentation currency of UBS Group AG's and UBS AG's consolidated financial statements have changed from Swiss francs to US dollars. Prior periods have been restated for this presentation currency change. Prior period information is now presented as if we had always prepared our financial statements under a US dollar presentation currency. Assets, liabilities and total equity were converted to US dollars at historic closing exchange rates prevailing on the respective balance sheet dates, and income and expenses were translated at the respective average rates prevailing for the relevant periods.

The attached time series includes selected historical information previously disclosed in Swiss francs, which is now presented in US dollars. This time series information is unaudited and should be read in conjunction with UBS Group AG's audited consolidated financial statements included in the Annual Report 2017.

UBS will present current period financial data in US dollars for the first time in its fourth quarter 2018 report, which will be published on 21 January 2019. This information will include a full balance sheet, including components of equity, restated under a US dollar presentation currency. This information will also be subject to external audit as part of UBS Group AG's consolidated financial statements included in the Annual Report 2018. UBS expects to complement and update its US dollar time series information for the periods 2015 to 2018 together with the publication of its fourth quarter 2018 report.

The UBS Group AG third quarter 2018 report references changes in Corporate Center cost allocations and equity attribution to business divisions or changes to Corporate Center segment reporting, both of which are applicable as of the first quarter of 2019. The restated US dollar time series for the periods from 2015 to Q3 2018 included in this document does not incorporate the effect of these changes.

1 Upon adoption of IFRS 15, certain brokerage fees paid in an agency capacity have been reclassified from expense to Fee and commission income on a prospective basis from 1 January 2018, primarily relating to clearing costs for exchange traded derivative transactions and fees payable to third-party research providers. In addition to the IFRS 15 changes, certain revenues, primarily distribution fees and fund management fees, have been reclassified to better reporting lines to better reflect the nature of the revenues, with prior period information restated accordingly. Incremental and incidental expenses that are incremental and incidental to revenues have been reclassified prospectively from commission expense to Fee and commission expense to improve the alignment of transaction-based costs with revenues, primarily impacting clearing costs, client loyalty costs, fund and custody expenses. As the impact of these changes is not material, prior period information was not restated.

1 The weighted average shares outstanding for basic EPS are calculated by taking the number of shares outstanding at the beginning of the period, plus shares acquired or issued during the period, multiplied by a time-weighted factor for the period outstanding at the end of the period, less shares repurchased, treasury shares, and shares held by acquisitions and issuances during the period. 2 Due to the net loss in the fourth quarter of 2017, a portion of the unvested notional share awards and options outstanding were not included in the calculation of diluted EPS for the fourth quarter of 2017 and for the full year ended December 2017. Such shares are only taken into account for the diluted EPS calculation when their exercise would result in a net increase in earnings or decrease in loss per share, in accordance with IAS 33, Earnings per Share.

Prior periods were not restated. 3 Adjusted results are non-GAAP financial measures as defined by SEC regulations. 4 Includes a sale of our investment in Visa Europe. 5 Reflects restructuring expenses related to legacy cost programs as well as expenses for new restructuring initiatives in 2018. 6 Certain account types were corrected during the fourth quarter of 2017. Prior periods were corrected accordingly. The effect on net new money in all periods was immaterial. 7 Loans include customer brokerage receivables which with the adoption of IFRS 9 effective 1 January 2018 have been reclassified to a separate reporting line on the balance sheet.
