PRELIMINARY NOTES

This annual report contains forward-looking statements. These statements relate to future events or our future financial performance. In some cases, you can identify forward-looking statements by terminology such as “may”, “should”, “expects”, “plans”, “anticipates”, “believes”, “estimates”, “predicts”, “potential” or “continue” or the negative of these and other comparable terminology. These statements are only predictions and involve known and unknown risks, uncertainties and other factors, including the risks in the section entitled “Risk Factors,” that may cause our or our industry’s actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Except as required by applicable law, including the securities laws of the United States, we do not intend to update any of the forward-looking statements to conform these statements to actual results.

Our financial statements are stated in Canadian Dollars (CDN\$) and are prepared in accordance with United States Generally Accepted Accounting Principles.

All share and per share information has been adjusted to give retroactive effect to a one for 100 reverse stock split implemented in December 2014.

As used in this annual report, the terms “we”, “us”, “our company,” and “the Company” mean Golden Global Corp. a Nevada corporation, and its subsidiaries.

PART I

ITEM 1. BUSINESS

Corporate Information

We were incorporated on December 10, 2009, under the laws of the State of Nevada. Our executive office is currently located at 22106 Montebello Drive, Boca Raton, FL 33433 and our telephone number is (561) 430-5935

Our Mining Business

For our fiscal year that ended on June 30, 2015, we remained a junior exploration stage company. We continued to work diligently on preparations to start mining our placer gold claims on our “McDame” property located in north central British Columbia, Canada. We still relied upon the sale of our securities to fund those operations, although we were also successful in obtaining private loans to commence preparations for gold mining, which was anticipated to start in the spring of 2015.

The McDame property consisted of placer claims #362586 and #363240, located near Cassiar, in the Liard Mining Division of British Columbia, Canada. Our long term goal during fiscal 2015 was to explore and, if warranted, develop further mining by acquiring other leases. We had a copper option in the Democratic Republic of Congo (DRC) which we planned to explore, subject to securing sufficient capital resources.

Events Subsequent to June 30, 2015

Foreclosure of Mining Business Assets

On October 7, 2015, title to the Company’s placer gold claims at its McDame property, which consisted of placer claims 362586, 363240, 776862 and 776902 located in north central British Columbia, were transferred to a shareholder (the “Lender”) who loaned our company \$185,000 (the “Loan”). These claims, and all equipment, machinery, vehicles and ancillary buildings to process the claims were used as collateral for the Loan. The collateral has been

foreclosed by the Lender and the assets are no longer owned by the Company.

Acquisition of Corpaycar, LLC and Changes in Management and Control

As a result of the October 2015 foreclosure of our mining assets by the Lender, we elected to redirect our efforts to explore opportunities in the fitness industry, by creating and integrating a platform of complementary fitness industry businesses, which we believe will afford better long term growth and appreciation opportunities for our shareholders.

On October 30, 2015, the Company entered into an Acquisition Agreement (the “Acquisition Agreement”), pursuant to which the Company acquired 100% of the issued and outstanding limited liability company membership interests of Corpaycar, LLC (“Corpaycar”), from its members. Corpaycar is the maker of the Combo Hitter, a multi applicable wall mounted punching system that enables a user to practice different types of boxing training on a single unit such as strength and arm development, up and down movement and kick boxing. Pursuant to the Acquisition Agreement, the Company was to issue 100,000 shares of Series B Convertible Preferred Stock (the “Series B Shares”) to the former member of Corpaycar. The Series B Shares entitled the holders thereof to convert, commencing one year after issuance, their shares into twenty percent(20%) of our then issued and outstanding common stock on the date of conversion

The Board of Directors also authorized the creation of 500 shares of Series A Convertible Preferred Shares (the “Series A Stock”), which would grant the holder the right to vote an amount of shares of common stock that equals a majority of our then issued and outstanding common stock. The Board of Directors issued the Series A Stock to Michael J. Starkweather, the Chief Operating Officer of Corpaycar, who was also appointed as a Director of our company and as its Chief Operating Officer.

On December 22, 2015, Robert Leyne Lee resigned as Director, President, Chief Executive Officer, and Treasurer our Company and Mr. Starkweather was appointed to those positions contemporaneously therewith.

On March 2, 2016, Mr. Starkweather, our then sole Director and officer, appointed Mr. Erik Blum to our Board of Directors. On March 3, 2016, in order to further facilitate the implementation of the Company’s new business strategy, Mr. Blum was appointed Chief Executive Officer and acting Chief Financial Officer of the Company and Mr. Starkweather resigned from his position as a director of the Company. Mr. Starkweather continues to serve as the Company’s President and Chief Operating Officer. Contemporaneously with his joining the Company’s management, Mr. Blum purchased the Series A Stock from Mr. Starkweather.

On April 7, 2016, we announced that in furtherance of our goal of creating and integrating a platform of complementary fitness industry businesses we entered into a letter of intent to acquire the membership base and operating assets of three fitness centers operating in Northern Ohio. Consummation of the acquisition is subject to the completion of due diligence, execution of definitive transaction documents between the parties and preparation of audited and unaudited financial statements for the business acquired.

At the same time, the Company that it has established its NUTRASTAX™ Fitness Supplement Division, under which it intends to market and sell a line of fitness supplements under the NUTRASTAX™ brand. The Company anticipates that its fitness supplement line will include energy, fat burning, muscle building and athletic enhancement products, which will be marketed through established industry distributors.

The Company intends to rebrand the acquired fitness centers as Global Fitness™ Training Centers. We plan to promote the Global Fitness™ brand to establish fitness centers where our trainers will specialize in developing an individual workout plan (IWP) for each member. The IWP will include a regimen of training and crossover workouts, combined with fitness supplements. As no two people are alike, we believe that each member needs a custom-tailored IWP. Our NUTRASTAX™ Fitness Supplement Division will clearly augment operation of our planned chain of Global Fitness™ Training Centers, while also allowing us to market our planned product line independent of our centers.

The Company believes that the planned acquisition and establishment of the NUTRASTAX™ Fitness Supplement Division, as key steps in creating and integrating a platform of complementary fitness industry businesses.

The Company continues to explore additional opportunities in the fitness industry which it believes it can implement during the balance of fiscal 2016 and 2017, together with refinement of the Company's capital structure.

Employees

As of the date of this report, we have two full-time employees, being our executive officers.

Going Concern

We anticipate that additional funding will be required in the form of equity financing from the sale of our common stock. At this time, we cannot provide our shareholders and investors with any assurance that we will be able to raise sufficient funding from the sale of our common stock or through a loan from our directors to meet our obligations over the next twelve months. We do not have any firm arrangements in place for any future equity financing.

ITEM 1A. RISK FACTORS

As a smaller reporting company, we are not required to provide the information required by this item.

ITEM 1B. UNRESOLVED STAFF COMMENTS

ITEM 6. SELECTED FINANCIAL DATA

As a “smaller reporting company,” we are not required to provide the information required by this Item.

ITEM 7. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with our audited consolidated financial statements and the related notes for the years ended June 30, 2015 and June 30, 2014, that appear elsewhere in this annual report. The following discussion contains forward-looking statements that reflect our plans, estimates and beliefs. Our actual results could differ materially from those discussed in the forward looking statements. Factors that could cause or contribute to such differences include, but are not limited to those discussed below and elsewhere in this report.

Our consolidated audited financial statements are stated in Canadian Dollars (CDN\$) and are prepared in accordance with United States Generally Accepted Accounting Principles.

Results of Operations for the Years Ended June 30, 2015 and 2014

The following summary of our results of operations should be read in conjunction with our audited consolidated financial statements for the years ended June 30, 2015 and 2014.

Our operating results for the years ended June 30, 2015 and 2014 are summarized as follows:

	Year Ended June 30	
	2015	2014
Revenue	\$Nil	\$Nil
Operating Expenses	\$754,492	\$428,688
Net Loss and Comprehensive Loss	\$(1,334,836)	\$(595,074)

Revenues

We have not earned revenues since our inception.

Operating Expenses

Our operating expenses for the years ended June 30, 2015, and June 30, 2014 are outlined in the table below:

	Year Ended June 30	
	2014	2014
Administrative fees	\$9,825	\$4,682
Consulting fees	\$379,878	\$192,448
Depreciation	\$41,230	\$33,521
Professional fees	\$55,389	\$57,377
Office and general	\$73,788	\$130,734
Stock-based compensation	\$193,267	—
Travel expenses	\$1,115	\$9,926

The increase in operating expenses for the year ended June 30, 2015 compared to fiscal 2014 was due to increased administrative fees, office and general expenses and consulting fees. In 2015, we also incurred expenses for stock based compensation, which we did not incur in 2014.

Liquidity and Financial Condition

As of June 30, 2015, our total assets were \$125,963, our total liabilities were \$1,621,486 and we had a total stockholders' deficit of \$1,495,523. Our financial statements report net loss and comprehensive loss of \$1,327,948 and \$595,074 for the years ended June 30, 2015 and 2014, respectively.

We have suffered recurring losses from operations. The continuation of our company is dependent upon our company attaining and maintaining profitable operations and raising additional capital as needed. In this regard we have raised additional capital through equity offerings and loan transactions.

Cash Flows

Edgar Filing: GOLDEN GLOBAL CORP. - Form 10-K

	At June 30, 2015	At June 30, 2014
Net Cash (Used in) Operating Activities	\$ (166,733)	\$ (147,377)
Net Cash Provided by (Used In) Investing Activities	\$ (402)	\$ (110,000)
Net Cash Provided by Financing Activities	\$ 131,260	\$ 143,601
Cash (decrease) increase during the year	\$ (38,875)	\$ 36,224

We had cash in the amount of \$7,131 as of June 30, 2015 as compared to \$43,006 as of June 30, 2014. We had a total stockholders' deficit of \$1,495,523 as of June 30, 2015, as compared to a total stockholders' deficit of \$731,336 as of June 30, 2014.

Our principal sources of funds have been from sales of our common stock and loans from shareholders and investors.

We believe that we will require significant capital during fiscal 2016 and 2017 to implement our new business plan.

Contractual Obligations

As a "smaller reporting company", we are not required to provide tabular disclosure obligations.

Going Concern

The consolidated audited financial statements included with this annual report have been prepared on the going concern basis which assumes that adequate sources of financing will be obtained as required and that our assets will be realized and liabilities settled in the ordinary course of business. Accordingly, the audited financial statements do not include any adjustments related to the recoverability of assets and classification of assets and liabilities that might be necessary should we be unable to continue as a going concern.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to stockholders.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As a “smaller reporting company,” we are not required to provide the information required by this Item.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

See the Index to Consolidated Financial Statements beginning on page F-1, below.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

(a) Disclosure Controls and Procedures

Our Chief Executive and Acting Chief Financial Officer conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), as of June 30, 2015, to ensure that information required to be disclosed by us in the reports filed or submitted by us under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities Exchange Commission’s rules and forms,

including to ensure that information required to be disclosed by us in the reports filed or submitted by us under the Exchange Act is accumulated and communicated to our management, including our principal executive and principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. Based on that evaluation, our Chief Executive and Acting Chief Financial Officer has concluded that as of June 30, 2015, our disclosure controls and procedures were not effective at the reasonable assurance level due to the material weaknesses identified and described in Item 9A(b) of this report.

Our Chief Executive and Acting Chief Financial Officer does not expect that our disclosure controls or internal controls will prevent all error and all fraud. Although our disclosure controls and procedures were designed to provide reasonable assurance of achieving their objectives and our Chief Executive and Acting Chief Financial Officer has determined that our disclosure controls and procedures are effective at doing so, a control system, no matter how well conceived and operated, can provide only reasonable, not absolute assurance that the objectives of the system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented if there exists in an individual a desire to do so. There can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

(b) Management's Report on Internal Control over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act). Internal control over financial reporting is a process designed by, or under the supervision of, our Chief Executive and Acting Chief Financial officer (our Principal Executive, Financial and Accounting Officer), to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements in accordance with GAAP. Internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of our Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP, and that receipts and expenditures of our company are being made only in accordance with authorizations of management and Directors of our Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of our company's assets that could have a material effect on the financial statements. Because of its inherent limitations, internal control over financial reporting may not provide absolute assurance that a misstatement of our financial statements would be prevented or detected.

Further, the evaluation of the effectiveness of internal control over financial reporting was made as of a specific date, and continued effectiveness in future periods is subject to the risks that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Our Chief Executive and Acting Chief Financial Officer (our Principal Executive, Financial and Accounting officer), conducted an evaluation of the effectiveness of our internal control over financial reporting as of June 30, 2015 in accordance with the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") in Internal Control — Integrated Framework. Based on this assessment, Management identified the following two material weaknesses that have caused management to conclude that, as of June 30, 2015, our disclosure controls and procedures, and our internal control over financial reporting, were not effective at the reasonable assurance level in that:

1. We do not have written documentation of our internal control policies and procedures. Written documentation of key internal controls over financial reporting is a requirement of Section 404 of the Sarbanes-Oxley Act of 2002. Management evaluated the impact of our failure to have written documentation of our internal controls and procedures on our assessment of our disclosure controls and procedures and has concluded that the control deficiency that resulted represented a material weakness.

2. We do not have sufficient segregation of duties within accounting functions, which is a basic internal control. Due to our size and nature, segregation of all conflicting duties may not always be possible and may not be economically feasible. However, to the extent possible, the initiation of transactions, the custody of assets and the recording of

transactions should be performed by separate individuals. Management evaluated the impact of our failure to have segregation of duties on our assessment of our disclosure controls and procedures and has concluded that the control deficiency that resulted represented a material weakness.

To address these material weaknesses, management performed additional analyses and other procedures to ensure that the consolidated financial statements included herein fairly present, in all material respects, our financial position, results of operations and cash flows for the periods presented. Accordingly, we believe that the consolidated financial statements included in this report fairly present, in all material respects, our financial condition, results of operations and cash flows for the periods presented.

This annual report does not include an attestation report of our independent registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by our registered public accounting firm pursuant to the rules of the Securities and Exchange Commission that permit us to provide only our management's report in this annual report.

(c) Remediation of Material Weaknesses

To remediate the material weakness in our documentation, evaluation and testing of internal controls we plan to engage a third-party firm to assist us in remedying this material weakness once resources become available.

We also intend to remedy our material weakness with regard to insufficient segregation of duties by hiring additional employees in order to segregate duties in a manner that establishes effective internal controls once resources become available.

(d) Changes in Internal Control over Financial Reporting

No change in our system of internal control over financial reporting occurred during the period covered by this report, fourth quarter of the fiscal year ended June 30, 2015, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

ITEM 9B. OTHER INFORMATION

Not applicable.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

Directors and Executive Officers

As of June 30, 2015, our sole director and executive officer was **Robert Leyne Lee**, 73, who joined the Company on September 12, 2013, and served as President, Chief Executive Officer, Chief financial Officer, Secretary and Director from that time until his resignation in December 2015. Mr. Lee has extensive experience in the tree crop sector in Southeast Asia and was a registered consultant with the World Bank and the other affiliated regional Banks. He served as an independent consultant for finance and business development for companies in the US and many countries worldwide. For over 15 years he worked with OTCBB and OTC market companies as a consultant, advisor and CEO. Mr. Lee served as an officer and director of Emphyrean Holdings, Inc. (now American Asset Development, Inc.) from March, 2001 until July 2010.

Our current directors and executive officers, positions held and date appointed, are as follows:

Name	Position Held with the Company	Date First Elected Age or Appointed	
Eric Blum	Chief Executive Officer, Acting Chief Financial Officer and Director	50	March 2, 2016
Michael Jeffrey Starkweather	President and Chief Operating Officer	33	October 30, 2015

Erik Blum joined the Company in March 2016 as Chief Executive Officer, Acting Chief Financial Officer and a Director. In 2014, Mr. Blum founded and since then has been the principal of JW Price Capital, LLC, a corporate consulting firm, which focuses its business on providing business development services to microcap and other small public companies. From February 2014 through August 2014, Mr. Blum was an executive with City Twist, LLC, which was engaged in providing national Email advertising services for the automotive industry. From January 2012 through December 2013, he was Managing Director of Infinity One Card Services, which marketed debit cards which could be used for payment of salary as opposed to paper checks. For over twenty-five (25) years prior thereto, Mr. Blum was involved in all aspects of the retail securities brokerage industry, most recently as a registered representative for Stern Agee and Leach, Inc. from July 2010 through December 2011.

From 2006 through 2009, Mr. Blum was a registered representative with Aura Financial Services, Inc. (“**Aura**”), which was a registered broker-dealer from February 1997 to February 2010 and managed its South Florida office, which initially was in West Palm Beach and subsequently relocated to Miami. In September 2010, the SEC instituted administrative proceedings against the president and principal owner of Aura and two of Aura’s registered representatives, including Mr. Blum, alleging, among other matters that during 2008 and 2009, they had failed to properly supervise certain other Aura registered representatives (one in Mr. Blum’s case) and follow up on certain “**red flags**,” which allowed churning and losses in various client accounts.

In August 2011, Mr. Blum submitted and the SEC accepted an Offer of Settlement, pursuant to which Mr. Blum agreed to not serve in a supervisory capacity with any broker-dealer or investment adviser, subject to his ability to reapply for such license after two (2) years and pay certain financial penalties. Mr. Blum left the brokerage industry and accordingly, has not reapplied for licensure.

Michael Jeffrey Starkweather joined the Company as a Director and Chief Operating Officer on October 30, 2015, upon completion of the acquisition of Corpaycar, where he occupied a similar position. He was appointed to the additional positions of President and Chief Executive Officer following the resignation of Robert Leyne Lee in December 2015. Following Mr. Blum’s joining the Company in March 2015, Mr. Starkweather resigned as a Director and Chief Executive Officer, but continued in the positions of President and Chief Operating Officer. Mr. Starkweather served in the United States Army Reserves. In 2008, he co-founded Live Fit Personal Training. Mr. Starkweather has acted as an outside consultant for a number of fitness training facilities. In addition, Mr. Starkweather has also served as an independent consultant for small cap emerging growth companies. He recently joined the board of advisors for an online mobile marketing platform service Textmunication Holdings, Inc. (OTCQB: TXHD).

Mr. Starkweather filed for Chapter 7 bankruptcy protection in 2014.

There are no family relationships among our directors and executive officers.

Terms of Office

All of the directors of our company hold office until the next annual meeting of shareholders or until their successors have been elected and qualified. Our officers are appointed by our board of directors and hold office until their death, resignation or removal from office.

Section 16(a) Beneficial Ownership Compliance

Section 16(a) of the Securities and Exchange Act of 1934 (the “Exchange Act”) requires our directors and executive officers and persons who beneficially own more than ten percent of our common stock (collectively, the “Reporting Persons”) to report their ownership of and transactions in our common stock to the Securities and Exchange Commission. Copies of these reports are also required to be supplied to us. To our knowledge, during the fiscal year ended June 30, 2015 the Reporting Persons complied with all applicable Section 16(a) reporting requirements under the Exchange Act.

Board Committees

Our board of directors does not currently have an audit committee, a compensation committee, or a corporate governance committee. We plan to establish such committees in the near future.

Code of Ethics

We have adopted a Code of Ethics that applies to, among other persons, our company's principal executive officers and senior financial executives, as well as persons performing similar functions. Our Code of Ethics and Business Conduct was filed with the SEC as Exhibit 14.1 to our Annual Report on Form 10-K for the year ended June 30, 2011. We will provide a copy of the Code of Ethics and Business Conduct to any person without charge, upon request. Requests can be sent to the Company, 22106 Montebello Drive, Boca Raton, FL 33433.

ITEM 11. EXECUTIVE COMPENSATION

The following table sets forth compensation paid to our sole executive officer and our mining consultant and director of our wholly subsidiary Golden Global Mining Corporation for the years ended June 30, 2015 and 2014.

SUMMARY COMPENSATION TABLE

Name and Principal Position	Year	Salary (\$)	Bonus (\$)	Stock Awards (\$)	Option Awards (\$)	Non-Equity Incentive Plan Compensation (\$)	Change in Pension	All Other Compensation (\$)	Total (\$)
							Nonqualified Deferred Compensation Earnings (\$)		
Robert Leyne Lee ⁽¹⁾ President, CEO, CFO, Treasurer, Secretary	2015	60,000	NIL	NIL	NIL	NIL	NIL	48,182	108,182
	2014	22,707	NIL	NIL	NIL	NIL	NIL	NIL	22,707
John Robert Hope ⁽²⁾ Mining Consultant, Director, GG MC	2015	42,000	NIL	NIL	NIL	NIL	NIL	160,682	202,682
	2014	19,682	NIL	NIL	NIL	NIL	NIL	NIL	19,682

(1) Mr. Lee was appointed as our president, chief executive officer and director on September 12, 2013 and served in such capacity until his resignation on December 22, 2015. Mr. Lee was compensated US\$5,000 per month in company stock for his services. During the year Mr. Lee was issued 8,068,182 company stock with a fair value of US\$108,182. The difference between the salary and fair value was recorded as share based compensation.

(2) Since his resignation on September 12, 2013 as our president, chief executive officer and director, Mr. Hope has served as Mining Consultant and Director of our wholly owned subsidiary, Golden Global Mining Corporation. Mr. Hope was compensated US\$3,500 per month in company stock for his services. During the year Mr. Hope was issued 11,218,182 company stock with a fair value of US\$202,682. The difference between the salary and fair value was recorded as share based compensation. He ceased serving as such following the foreclosure on the assets of our mining business on October 7, 2015.

(3) Mr. Hope received US\$5,000 per month in cash and company stock for his services, with the amount of each determined by our board of directors. In July 2014, Mr. Hope received 1,050,000 “restricted” shares in lieu of accrued monthly fees of \$84,000, which were due to him for his services as an executive officer of and consultant to the Company during the period January 2011 through December 2012. The value of these shares was \$0.10 per share on the date of issuance, therefore the additional value recorded as share-based payments during the year.

Employment Agreements

The Company was not party any employment agreement with Mr. Lee.

Stock Options/SAR Grants

Our company adopted the 2014 Employee and Consultant Stock Compensation Plans (the “Plan”) in the prior year. The number of shares of our common stock available for issuance under the 2014 Plan was 200,000 shares. No grants have been made under the Plan.

Aggregated Option Exercises in Last Fiscal Year and Fiscal Year-End Values

There were no options exercised during our fiscal years ended June 30, 2015 or 2014, by any executive officer or director of our company.

Outstanding Equity Awards at Fiscal Year End

No equity awards were outstanding as of the June 30, 2015.

Compensation of Directors

We reimburse our directors for expenses incurred in connection with attending board meetings. We have not paid any director’s fees or other cash compensation for services rendered as a director since our inception.

We have no formal plan for compensating our directors for their service in their capacity as directors, although such directors are expected in the future to receive stock options to purchase shares of common stock as awarded by our board of directors or (as to future stock options) a compensation committee which may be established. Directors are

entitled to reimbursement for reasonable travel and other out-of-pocket expenses incurred in connection with attendance at meetings of our board of directors. Our board of directors may award special remuneration to any director undertaking any special services on our behalf other than services ordinarily required of a director. No director received and/or accrued any compensation for their services as a director, including committee participation and/or special assignments.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The following table sets forth, as of June 30, 2015, certain information with respect to the beneficial ownership of our common stock by each stockholder known by us to be the beneficial owner of more than 5% of our common stock and by each of our current directors and executive officers. Each person has sole voting and investment power with respect to the shares of common stock, except as otherwise indicated. Beneficial ownership consists of a direct interest in the shares of common stock, except as otherwise indicated.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

Except as disclosed elsewhere in this report, there have been no transactions or proposed transactions in which the amount involved exceeds the lesser of \$120,000 or one percent of the average of our total assets at year-end for the three fiscal years ended June 30, 2015 and 2014 in which any of our directors, executive officers or beneficial holders of more than 5% of the outstanding shares of our common stock, or any of their respective relatives, spouses, associates or affiliates, has had or will have any direct or material indirect interest.

During the year ended June 30, 2015, we did not have any independent directors.

ITEM 14. PRINCIPAL ACCOUNTANTS FEES AND SERVICES

The aggregate fees billed for the fiscal years ended June 30, 2015 and 2014, for professional services rendered by our independent registered public accounting firm for the audit of our annual consolidated financial statements and review of the consolidated financial statements included in our quarterly reports on Form 10-Q and services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements for these fiscal periods were as follows:

	Year Ended	
	June 30	
	2015	2014
	(\$)	(\$)
Audit Fees	\$12,000	\$12,000
Audit Related Fees	\$16,000	\$16,000
Tax Fees	-	-
All Other Fees	-	-
Total	\$30,000	\$30,000

Our board of directors pre-approves all services provided by our independent auditors. All of the above services and fees were reviewed and approved by the board of directors either before or after the respective services were rendered.

Our board of directors has considered the nature and amount of fees billed by our independent auditors and believes that the provision of services for activities unrelated to the audit is compatible with maintaining our independent auditors' independence.

Independent Auditors' Report

To the Board of Directors and Stockholders of Golden Global Corp. (An Exploration Stage Company):

We have audited the accompanying consolidated balance sheets of Golden Global Corp. and its subsidiary (the "Company") as of June 30, 2015 and 2014, and the consolidated statements of operations, stockholders' equity, and cash flows for the years ended June 30, 2015 and 2014. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Golden Global Corp. and its subsidiary as of June 30, 2015 and 2014, and the results of their operations and their cash flows for the years ended June 30, 2015 and 2014 in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 1 to the consolidated financial statements, at June 30, 2015, the Company had not yet achieved profitable operations and has accumulated losses since its inception. These conditions raise substantial doubt about the Company's ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 1. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

GOLDEN GLOBAL CORP.

(An Exploration Stage Company)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the years ended June 30, 2015 and 2014

Stated in Canadian dollars

Note 1 – Nature of Operations and Going Concern

Golden Global Corp. ("the Company"), incorporated in the State of Nevada, USA on December 10, 2009, and its wholly-owned subsidiary are engaged in the acquisition, exploration and development of precious metal properties. The Company's wholly owned subsidiary is Golden Global Mining Corporation which was incorporated in the Province of Alberta, Canada on January 10, 2010. The Company is an exploration stage company in the process of exploring its mineral properties in British Columbia, Canada, and has not yet determined whether these properties contain reserves that are economically recoverable.

These consolidated financial statements have been prepared in accordance with generally accepted accounting principles applicable to a going concern, which assumes that the Company will be able to meet its obligations and continue its operations for its next fiscal year. Realization values may be substantially different from carrying values as shown and these consolidated financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. At June 30, 2015, the Company had not yet achieved profitable operations and has accumulated losses of \$2,905,270 since its inception. The Company expects to incur further losses in the development of its business, all of which casts substantial doubt about the Company's ability to continue as a going concern. The Company's ability to continue as a going concern is dependent upon its ability to generate future profitable operations and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management anticipates that additional funding will be in the form of equity financing from the sale of common stock. Management may also seek to obtain short-term loans from the directors of the Company. There are no current arrangements in place for equity funding or short-term loans. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Note 2 – Summary of Significant Accounting Policies

Basis of Presentation

The Company's consolidated financial statements are prepared in accordance with United States generally accepted accounting principles ("U.S. GAAP"). These consolidated financial statements include the accounts of the Company and its wholly owned subsidiary. All intercompany accounts and transactions are eliminated upon consolidation.

Functional Currency

The Company's functional currency is the Canadian dollar. All amounts shown on these statements are stated in Canadian dollars.

Development Stage Company

The Company is a development stage company as defined in the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 205-915, Development Stage Entities. The Company is still in the developmental stage, devoting substantially all of its present efforts to establishing its business. All losses accumulated since inception has been considered as part of the Company's development stage activities.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
For the years ended June 30, 2015 and 2014
Stated in Canadian dollars

Note 2 – Summary of Significant Accounting Policies *(continued)*

Cash and Cash Equivalents

The Company considers all highly liquid instruments with maturity of three months or less at the time of issuance to be cash equivalents. As at June 30, 2015, all cash amounts deposited in accounts were federally insured.

Fair Value Measurements

The Company has adopted FASB ASC 820, Fair Value Measurements and Disclosures, for all financial instruments and non-financial instruments accounted for at fair value on a recurring basis. This accounting standard established a single definition of fair value and a framework for measuring fair value, sets out a fair value hierarchy to be used to classify the source of information used in fair value measurement and expands disclosures about fair value measurements required under other accounting pronouncements. It does not change existing guidance as to whether or not an instrument is carried at fair value. The Company defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities, which are required to be recorded at fair value, the Company considers the principal or most advantageous market in which the Company would transact and the market-based risk measurements or assumptions that market participants would use in pricing the asset or liability, such as inherent risk, transfer restrictions and credit risk.

The Company has adopted FASB ASC 825, Financial Instruments, which allows companies to choose to measure eligible financial instruments and certain other items at fair value that are not required to be measured at fair value.

Financial Instruments

Fair Value

The guidance for fair value measurements establishes the authoritative definition of fair value sets out a framework for measuring fair value and outlines the required disclosures regarding fair value measurements. Fair value is the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. The Company uses a three-tier fair value hierarchy based upon observable and non-observable inputs as follows:

Level 1 –observable inputs such as quoted prices in active markets;

Level 2 –inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and

Level 3 –unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

Cash and equivalents and shares to be issued are measured using level 1 inputs. The fair value of embedded derivatives are measured using level 2 inputs.

Fair Value (continued)

Assets and Liabilities that are measured at Fair Value on a Recurring Basis

The fair value hierarchy requires the use of observable market data when available. In instances in which the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The Company's assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset or liability.

The carrying values of cash and cash equivalents, accounts payable and accrued liabilities, due to related parties, notes payable and dividend payable, approximate fair value due to the short-term nature of these instruments.

The Company has cash balances at well-known financial institutions. Balances in Canadian dollars at Canadian institutions are protected by insurance up to specified amount. Amounts not at Canadian institutions and /or over those specified amounts are subject to risk.

Management is of the opinion that the Company is not exposed to significant interest, currency or credit risks arising from these financial instruments.

Property and Equipment

Property and equipment is stated at cost less accumulated depreciation and amortization. Depreciation is calculated using the declining balance method and at the following annual rates which is intended to amortize the cost over its useful life:

Mining equipment – 20%

Computers – 20%

Furniture and fixtures – 20%

Improvements and betterments are capitalized if they extend the useful life of the asset. Repair and maintenance costs are charged to expense as incurred. Gain (loss) related to retirement or disposition of fixed assets is recognized in the period which the gain (loss) occurs.

Mineral Properties

Mineral property acquisition costs are initially capitalized when incurred and are amortized using the unit-of-production method over the estimated life of probable, proven reserves. If mineral rights are abandoned or estimated to be impaired, any capitalized costs will be charged to operations.

Exploration Costs

Exploration costs, which include maintenance, development and exploration of mineral claims, are expensed as incurred. When it is determined that a mineral deposit can be economically developed as a result of establishing proven and probable reserves, the costs incurred after such determination will be capitalized and amortized over their useful lives. To date, the Company has not established the commercial feasibility of its exploration prospects; therefore, all exploration costs are being expensed.

Impairment of Long-lived Assets

The Company evaluates the recoverability of the net carrying value of its equipment and identifiable intangible assets with definite lives, whenever certain events or changes in circumstances indicate that the carrying amount of these assets may not be recoverable, by comparing the carrying values to the estimated future undiscounted cash flows. A deficiency in cash flows relative to the carrying amounts is an indication of the need for a write-down due to impairment. The impairment write-down would be the difference between the carrying amounts and the fair value of these assets. A loss on impairment would be recognized as a charge to earnings.

Convertible Promissory Notes

Convertible promissory notes are accounted for under ASC470, Debt – Debt with Conversion and Other Options. The Company records a beneficial conversion feature (“BCF”) related to the issuance of convertible instruments that have conversion features at fixed or adjustable rates that are in-the-money when issued and records the fair value of warrants issued with those instruments. The BCF for the convertible instruments is recognized and measured by allocating a portion of the proceeds to additional paid-in-capital and as a reduction to the carrying amount of the convertible instrument equal to the intrinsic value of the conversion features.

Revenue Recognition

The Company recognizes revenue when a contract is in place, minerals are delivered to the purchaser and collectability is reasonably assured.

Use of Estimates

The preparation of consolidated financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Management makes its best estimate of the ultimate outcome for these items based on historical trends and other information available when the consolidated financial statements are prepared. Changes in estimates are recognized in accordance with the accounting rules for the estimate, which is typically in the period when new information becomes available to management. Actual results could differ from those estimates.

The company estimates fair value of financial instruments resulting in financial assets and liabilities, by their nature, which are subject to measurement uncertainty. The Company uses the Black-Scholes pricing model to estimate the fair value of derivative financial instruments, which is based on significant assumptions such as volatility, forfeiture rate, interest rate and expected term.

Noncash Transaction in Capital Stock

The Company follows the guidelines under FASB ASC Topic 845-10-30-3, *Non-monetary transactions*, when the fair value of neither the assets received nor the assets relinquished is determinable within reasonable limits.

Basic and Diluted Net Income (Loss) Per Share

The Company computes net loss per share in accordance with FASB ASC Topic 260, *Earnings Per Share*. This topic requires presentation of both basic and diluted earnings per share (“EPS”) on the face of the income statement. Basic loss per share is computed by dividing net loss available to common shareholders by the weighted average number of common shares outstanding during the year. Diluted EPS gives effect to all dilutive potential common shares outstanding during the year including stock options, using the treasury stock method, and convertible preferred stock, using the if-converted method. In computing diluted EPS, the average stock price for the year is used in determining the number of shares assumed to be purchased from the exercise of stock options or warrants. Diluted EPS excludes all dilutive potential common shares if their effect is anti dilutive.

Income Taxes

The Company follows FASB ASC Topic 820, “Income Taxes” which requires the use of the asset and liability method of accounting for income taxes. Under this method, deferred tax assets and liabilities are recognized for future tax consequences attributable to temporary differences between the financial statements carrying amounts of existing assets and liabilities and loss carry forwards and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the year in which those temporary differences are expected to be recovered or settled. The tax consequences of most events recognized in the current year’s financial statements are included in determining income taxes currently payable. However, because tax laws and financial accounting standards differ in their recognition and measurement of assets, liabilities, equity, revenues, expenses, gains and losses, differences arise between the amount of taxable income and pre-tax financial income for a year and

between the tax bases of assets or liabilities and their reported amounts in the financial statements.

Because the Company assumes that the reported amounts of assets and liabilities will be recovered and settled, respectively, a difference between the tax basis of an asset or a liability and its reported amount in the balance sheet will result in a taxable or a deductible amount in some future years when the related liabilities are settled or the reported amounts of the assets are recovered, which gives rise to a deferred tax asset. The Company must then assess the likelihood that the deferred tax assets will be recovered from future taxable income and to the extent the Company believes that recovery is not likely, the Company must establish a valuation allowance.

Income Taxes (continued)

The Company has adopted FASB guidance on accounting for uncertainty in income taxes which provides a financial statement recognition threshold and measurement attribute for a tax position taken or expected to be taken in a tax return. Under this guidance, the Company may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. The guidance also extends to de-recognition of income tax assets and liabilities, classification of current and deferred income tax assets and liabilities, accounting for interest and penalties associated with tax positions, and income tax disclosures.

Preferred Shares

Golden Global Mining Corporation, the Company's wholly owned subsidiary, issued preferred shares which have been classified as equity in the consolidated financial statements. In these consolidated financial statements, the financial instruments have been classified as non-controlling interests and dividends paid on behalf of the preferred shares have been recorded as a charge against income.

Recent Accounting Pronouncements

The Company adopts new pronouncements relating to generally accepted accounting principles applicable to the Company as they are issued, which may be in advance of their effective date. Management does not believe that any recently issued, but not yet effective accounting standards, if currently adopted, would have a material effect on the accompanying consolidated financial statements.

In July 2013, the FASB issued ASU No. 2013-11, Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists ("ASU 2013-11"). ASU 2013-11 provides guidance for the financial statement presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. ASU 2013-11 is effective for interim and annual reporting periods beginning after December 15, 2013, with early adoption permitted. The Company has determined that the adoption of this guidance has no material impact to its consolidated financial statements.

In August 2014, the FASB issued amended standards No. 2014-15, Presentation of Financial Statements - Going Concern ("ASU 2014-15"), to provide guidance about management's responsibility to evaluate whether there is substantial doubt about an entity's ability to continue as a going concern and to provide related footnote disclosures requirement. The amendments (1) provide a definition of the term substantial doubt, (2) require an evaluation for each annual and interim reporting period, (3) provide principles for considering the mitigating effect of management's plans, (4) require certain disclosures when substantial doubt is alleviated as a result of consideration of management's plans, (5) require an express statement and other disclosures when substantial doubt is not alleviated, and (6) require an assessment for a period of one year after the date that the financial statements are issued (or available to be issued). ASU 2014-15 is effective for the annual period ending after December 15, 2016, and for annual periods and interim periods thereafter. Early adoption is permitted. The Company does not expect the adoption of this guidance will have a material impact on its consolidated financial position.

Note 2 – Summary of Significant Accounting Policies *(continued)*

In February 2015, the FASB issued ASU No. 2015-2, “Consolidation (Topic 820): Amendments to the Consolidation Analysis.” ASU 2015-2 provides a revised consolidation model for all reporting entities to use in evaluating whether they should consolidate certain legal entities. All legal entities will be subject to reevaluation under this revised consolidation model. The revised consolidation model, among other things, (i) modifies the evaluation of whether limited partnerships and similar legal entities are VIEs or voting interest entities, (ii) eliminates the presumption that a general partner should consolidate a limited partnership, and (iii) modifies the consolidation analysis of reporting entities that are involved with VIEs through fee arrangements and related party relationships. ASU 2015-2 is effective for fiscal years, and interim reporting periods within those fiscal years, beginning after December 15, 2015. The Company does not expect the adoption of this guidance will have a material impact on its consolidated financial position, results of operations or cash flows.

In April 2015, the FASB issued ASU No. 2015-03, Interest -Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs. The amendments in this ASU require that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts and the accounting for debt issue costs under IFRS. The recognition and measurement guidance for debt issuance costs are not affected by the amendments in this ASU. ASU 2015-03 is effective for the annual period ending after December 15, 2015, and interim periods within those fiscal years. Early adoption of the amendments in this Update is permitted for financial statements that have not been previously issued. The Company does not expect the adoption of this guidance will have a material impact on its consolidated financial position, results of operations or cash flows.

In July 2015, the FASB issued No. 2015-11, *Inventory - Simplifying the Measurement of Inventory* ("ASU 2015-11"). ASU 2015-11 is additional guidance regarding the subsequent measurement of inventory by requiring inventory to be measured at the lower of cost and net realizable value. This guidance is effective for fiscal years and interim periods beginning after December 15, 2016. Early adoption is permitted. The Company does not expect the adoption of this guidance will have a material impact on its consolidated financial position, results of operations or cash flows.

In November 2015, the FASB issued ASU No 2015-17 to simplify the presentation of deferred income taxes by requiring that deferred tax assets and liabilities be classified as non-current on the consolidated balance sheet. The new guidance is effective for the annual period ending after December 15, 2016, and interim periods thereafter, with early adoption permitted. The Company does not expect the adoption of this guidance will have a material impact on its consolidated financial position.

Amounts due to related parties are non-interest bearing, unsecured and due on demand.

Note 6 –Note payable

On September 6, 2013, the Company entered into a loan agreement for a \$30,000 loan using all equipment as collateral. The loan bears interest at an annual rate of 30% and had an original maturity date of February 9, 2014. The principal of the loan can be paid off at anytime during the period of the loan at the election of the Company with interest in full for the 5 month term of the loan. In the event the loan is not paid by the maturity date, the collateral assets will become the property for the loaner and no interest is due. Upon further negotiations, the maturity date of the loan was extended to April 30, 2014. This loan has been settled and the accrued interest of \$3,750 has been included as part of the new loan agreement entered into on April 28, 2014.

On April 28, 2014, the Company entered into a loan agreement for \$150,000 with \$100,000 to be used towards the purchase of equipment and the balance towards operations. The loan bears interest at an annual rate of 12% and matures on November 30, 2014.

The terms of repayments are as follows:

- a) 10% of the gold recovered from the operation up to a value of \$1,500 per month will be applied towards interest and the remaining towards the principal.

Edgar Filing: GOLDEN GLOBAL CORP. - Form 10-K

The Company issued 3,000,000 restricted common shares on May 1, 2014 to the lender which becomes eligible to become free trading on or before November 1, 2014. If the shares at the time of becoming free from trading are not \$0.06 or greater, then the following repayment process will be followed:

Proceeds from mining operations.

If the proceeds from the mining operations are not sufficient then repayment will come from the proceeds from the issuance of free trading shares to raise capital.

Proceeds from additional financing.

- c) If the above repayment process cannot be followed all property and equipment (Note 3) and mineral rights (Note 4) will be used to fulfill the repayment obligation.

Subsequent to the year ended June 30, 2015, due to the Company's inability to repay the loan, the collateral has been foreclosed by the lender and the assets are no longer owned by the Company (Note 11).

The terms of the debenture requires the Company to pay the debenture investor a principal sum of US\$25,000 with 5% annual interest upon maturity. The principal amount of the debenture together with interest may be converted into shares of common stock equal to fifty percent of the lowest closing price during the 15 days prior to the conversion. As of June 30, 2015, conversions totaling US\$4,500 (C\$5,572) have been recorded and 3,461,538 shares of the Company's common stock have been issued as a result of the conversion.

The above notes include certain embedded features related to the embedded conversion option being exercisable into a variable number of shares and the strike price being dominated in a currency other than the Company's functional currency. These features qualify as derivatives and are bundled as a compound embedded derivative that is measured at fair value. The fair value of the derivatives as at June 30, 2015 was \$1,089,160 (June 30, 2014 - \$341,002). As the fair value of the embedded conversion features exceeded the principle value of the promissory notes, the entire amount of the debt has been classified as an embedded derivative on the consolidated balance sheet. To calculate the fair value of the embedded derivative the following assumptions were made using the Black-Scholes pricing model:
