Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Act):

MGM Growth Properties LLC	Yes	No	<input checked="" type="checkbox"/>
MGM Growth Properties Operating Partnership LP	Yes	No	<input checked="" type="checkbox"/>

As of November 1, 2018, 70,911,166 shares of MGM Growth Properties LLC Class A shares, no par value, and 1 share of MGM Growth Properties LLC Class B share, no par value, were outstanding.

EXPLANATORY NOTE

This report combines the quarterly reports on Form 10-Q for the period ended September 30, 2018, of MGM Growth Properties LLC, a Delaware limited liability corporation, and MGM Growth Properties Operating Partnership LP, a Delaware limited partnership. Unless otherwise indicated or unless the context requires otherwise, all references in this report to “we,” “us,” “our,” “MGP” or “the Company” refer to MGM Growth Properties LLC together with its consolidated subsidiaries, including MGM Growth Properties Operating Partnership LP. Unless otherwise indicated or unless the context requires otherwise, all references to the “Operating Partnership” refer to MGM Growth Properties Operating Partnership LP together with its consolidated subsidiaries.

MGP is a real estate investment trust, or REIT, and the owner of the sole general partner of the Operating Partnership. As of September 30, 2018, MGP owned approximately 26.7% of the Operating Partnership units in the Operating Partnership. The remaining approximately 73.3% of the Operating Partnership units in the Operating Partnership are owned by subsidiaries of our parent, MGM Resorts International (“MGM”). As the owner of the sole general partner of the Operating Partnership, MGP has the full, exclusive and complete responsibility for the Operating Partnership’s day-to-day management and control.

We believe combining the quarterly reports on Form 10-Q of MGP and the Operating Partnership into this single report results in the following benefits:

- enhances investors’ understanding of MGP and the Operating Partnership by enabling investors to view the business as a whole in the same manner as management views and operates the business;

- eliminates duplicative disclosure and provides a more streamlined and readable presentation since a substantial portion of the disclosure applies to both MGP and the Operating Partnership, which we believe will assist investors in getting all relevant information on their investment in one place rather than having to access and review largely duplicative reports; and

- creates time and cost efficiencies through the preparation of one combined report instead of two separate reports.

There are a few differences between MGP and the Operating Partnership, which are reflected in the disclosures in this report. We believe it is important to understand the differences between MGP and the Operating Partnership in the context of how we operate as an interrelated consolidated company. MGP is a REIT, whose only material assets consist of Operating Partnership units representing limited partner interests in the Operating Partnership and our ownership interest in the general partner of the Operating Partnership. As a result, MGP does not conduct business itself, other than acting as the owner of the sole general partner of the Operating Partnership, but it may from time to time issue additional public equity. The Operating Partnership holds all the assets of the Company. The Operating Partnership conducts the operations of the business and is structured as a partnership with no publicly traded equity. Except for the net proceeds from the offerings of Class A shares by MGP, which were contributed to the Operating Partnership in exchange for Operating Partnership units, the Operating Partnership generates the capital required by the Company’s business through the Operating Partnership’s operations and by the Operating Partnership’s issuance of indebtedness or through the issuance of Operating Partnership units.

The presentation of noncontrolling interest, shareholders’ equity and partners’ capital are the main areas of difference between the condensed consolidated financial statements of MGP and those of the Operating Partnership. The Operating Partnership units held by subsidiaries of MGM are accounted for as partners’ capital in the Operating Partnership’s condensed consolidated financial statements and as noncontrolling interest within equity in MGP’s condensed consolidated financial statements. The Operating Partnership units held by MGP in the Operating Partnership are accounted for as partners’ capital in the Operating Partnership’s condensed consolidated financial statements and within Class A shareholders’ equity in MGP’s condensed consolidated financial statements. The differences in the presentations between shareholders’ equity and partners’ capital result from the differences in the equity issued at the MGP and Operating Partnership levels.

To help investors understand the significant differences between MGP and the Operating Partnership, this report presents the condensed consolidated financial statements separately for MGP and the Operating Partnership.

As the sole beneficial owner of MGM Growth Properties OP GP LLC, which is the sole general partner with control of the Operating Partnership, MGP consolidates the Operating Partnership for financial reporting purposes, and it does not have any assets other than its investment in the Operating Partnership. Therefore, the assets and liabilities of MGP

and the Operating Partnership are the same on their respective condensed consolidated financial statements. The separate discussions of MGP and the Operating Partnership in this report should be read in conjunction with each other to understand the results of the Company on a condensed consolidated basis and how management operates the Company.

In order to establish that the Chief Executive Officer and the Chief Financial Officer of each entity have made the requisite certifications and that the Company and the Operating Partnership are compliant with Rule 13a-15 or Rule 15d-15 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”) and 18 U.S.C. §1350, this report also includes separate “Item 4. Controls and Procedures” sections and separate Exhibit 31 and 32 certifications for each of the Company and the Operating Partnership.

All other sections of this report, including Management’s Discussion and Analysis of Financial Condition and Results of Operations and Quantitative and Qualitative Disclosures about Market Risk, are presented together for MGP and the Operating Partnership.

MGM GROWTH PROPERTIES LLC AND MGM GROWTH PROPERTIES OPERATING PARTNERSHIP LP
CONDENSED NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)
NOTE 1 — BUSINESS

Organization. MGM Growth Properties LLC (“MGP” or the “Company”) is a limited liability company that was organized in Delaware on October 23, 2015. MGP conducts its operations through MGM Growth Properties Operating Partnership LP (the “Operating Partnership”), a Delaware limited partnership that was formed on January 6, 2016 and acquired by MGP on April 25, 2016. The Company has elected to be treated as a real estate investment trust (“REIT”) commencing with its taxable year ended December 31, 2016.

MGP is a publicly traded REIT engaged through its investment in the Operating Partnership in the real property business, which primarily consists of owning, acquiring and leasing large-scale destination entertainment and leisure resorts, whose tenants generally offer casino gaming, hotel, convention, dining, entertainment and retail. MGM Resorts International (“MGM” or the “Parent”) is a Delaware corporation that acts largely as a holding company and, through its subsidiaries, owns and operates large-scale destination entertainment and leisure resorts. Pursuant to a master lease agreement (the “Master Lease”), a subsidiary of the Operating Partnership (the “Landlord”) leases the real estate assets of The Mirage, Mandalay Bay, Luxor, New York-New York, Park MGM (which was branded as Monte Carlo prior to May 2018), Excalibur, The Park, Gold Strike Tunica, MGM Grand Detroit, Beau Rivage, Borgata, and MGM National Harbor back to a subsidiary of MGM (the “Tenant”). One of the Company’s wholly-owned taxable REIT subsidiaries (“TRS”), MGP OH, Inc. owns the Hard Rock Rocksino Northfield Park (the “Rocksino”) in Northfield, OH.

As of September 30, 2018, there were 266,045,289 Operating Partnership units outstanding in the Operating Partnership of which MGM owned 195,134,123 or 73.3% and MGP owns the remaining 26.7%. MGM’s Operating Partnership units are exchangeable into Class A shares of MGP on a one-to-one basis, or cash at the fair value of a Class A share. The determination of settlement method is at the option of MGP’s independent conflicts committee. MGM’s indirect ownership of these Operating Partnership units is recognized as a noncontrolling interest in MGP’s financial statements. A wholly owned subsidiary of MGP is the general partner of the Operating Partnership and operates and controls all of its business affairs. As a result, MGP consolidates the Operating Partnership and its subsidiaries. MGM also has ownership of MGP’s outstanding Class B share. The Class B share is a non-economic interest in MGP which does not provide its holder any rights to profits or losses or any rights to receive distributions from the operations of MGP or upon liquidation or winding up of MGP but which represents a majority of the voting power of MGP’s shares. As a result, MGP continues to be controlled by MGM through its majority voting rights, and is consolidated by MGM.

Northfield Acquisition

On July 6, 2018, the TRS completed its previously announced acquisition of the membership interests of Northfield Park Associates, LLC (“Northfield”), an Ohio limited liability company that owns the real estate assets and operations of the Rocksino (the “Northfield Acquisition”) from Milstein Entertainment LLC. Simultaneously with the close of the transaction, Northfield entered into a new agreement with an affiliate of Hard Rock Café International (STP), Inc. (“Hard Rock”), to continue to serve as the manager of the property. Refer to Note 2 and Note 3 for additional details.

On September 18, 2018, the Company entered into an agreement to sell the operations of Northfield (“Northfield OpCo”) to a subsidiary of MGM. Northfield will be added to the existing Master Lease between the Landlord and Tenant. The transaction is expected to close in the first half of 2019, subject to regulatory approvals and other customary closing conditions. The transaction was approved by the Company’s Conflicts Committee. Refer to Note 3 for additional information.

Empire City Transaction

On May 28, 2018, the Company entered into an agreement to acquire the real property associated with the Empire City Casino's race track and casino ("Empire City") from MGM upon its acquisition of Empire City for total consideration of \$625 million, which will include the assumption of debt by the Operating Partnership with the balance through the issuance of Operating Partnership units to MGM ("Empire City Transaction"). Empire City will be added to the existing Master Lease between the Landlord and Tenant. As a result, the annual rent payment to MGP will increase by \$50 million. Consistent with the Master Lease terms, 90% of this rent will be fixed and contractually grow at 2% per year until 2022. In addition, pursuant to the Master Lease, MGP will have a right of first offer with respect to certain undeveloped land adjacent to the property to the extent MGM develops additional gaming facilities and chooses to sell or transfer the property in the future. The transaction is expected to close in the first quarter of 2019, subject to regulatory approvals and other customary closing conditions.

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation. The accompanying condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”) for interim financial information set forth in the Accounting Standards Codification (“ASC”), as published by the Financial Accounting Standards Board (“FASB”), and with the applicable rules and regulations of the Securities and Exchange Commission (“SEC”). Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. All adjustments (consisting of normal recurring accruals) considered necessary for a fair statement of results for the interim period have been included. Certain reclassifications have been made to conform the prior period presentation. Property tax expense was separately classified in prior periods and is now classified within “reimbursable expenses” in the accompanying condensed consolidated statements of operations.

The accompanying condensed consolidated financial statements and related notes should be read in conjunction with the audited financial statements and notes thereto included in the Company’s most recent Annual Report on Form 10-K.

Variable Interest Entities. The condensed consolidated financial statements of MGP include the accounts of the Operating Partnership, a VIE of which the Company is the primary beneficiary, as well as its wholly owned and majority-owned subsidiaries. MGP’s maximum exposure to loss is the carrying value of the assets and liabilities of the Operating Partnership, which represents all of MGP’s assets and liabilities. As MGP holds what is deemed a majority voting interest in the Operating Partnership through its ownership of the Operating Partnership’s sole general partner, it qualifies for the exemption from providing certain of the required disclosures associated with investments in VIEs. The condensed consolidated financial statements of the Operating Partnership include the accounts of its wholly owned subsidiary, the Landlord, which owns the real estate, a VIE of which the Operating Partnership is the primary beneficiary. As of September 30, 2018, on a consolidated basis the Landlord had total assets of \$9.9 billion primarily related to its real estate assets, and total liabilities of \$239 million primarily related to its deferred revenue and above market lease liability.

Noncontrolling interest. The Company presents noncontrolling interest and classifies such interest as a component of consolidated shareholders’ equity, separate from the Company’s Class A shareholders’ equity. Noncontrolling interest in the Company represents Operating Partnership units currently held by subsidiaries of MGM. Net income or loss of the Operating Partnership is allocated to its noncontrolling interest based on the noncontrolling interest’s ownership percentage in the Operating Partnership except for income tax expenses. Ownership percentage is calculated by dividing the number of Operating Partnership units held by the noncontrolling interest by the total Operating Partnership units held by the noncontrolling interest and the Company. Issuance of additional Class A shares and Operating Partnership units changes the ownership interests of both the noncontrolling interest and the Company. Such transactions and the related proceeds are treated as capital transactions.

MGM may tender its Operating Partnership units for redemption by the Operating Partnership in exchange for cash equal to the market price of MGP’s Class A shares at the time of redemption or for unregistered Class A shares on a one-for-one basis. Such selection to pay cash or issue Class A shares to satisfy an Operating Partnership unitholder’s redemption request is solely within the control of MGP’s independent conflicts committee.

Fair value measurements. Fair value measurements are utilized in the accounting and impairment assessments of its long-lived assets, assets acquired and liabilities assumed in a business combination, and goodwill and other intangible assets. Fair value measurements also affect the Company’s accounting for certain of its financial assets and liabilities. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and is measured according to a hierarchy that includes: Level 1 inputs, such as quoted prices in an active market; Level 2 inputs, which are observable inputs for similar assets; or Level 3 inputs, which are unobservable inputs. The Company used the following inputs in its fair value measurements:

Level 2 inputs for its long-term debt fair value disclosures. See Note 8;

Level 2 inputs when measuring the fair value of its interest rate swaps. See Note 9; and
Level 2 and Level 3 inputs when assessing the fair value of assets acquired and liabilities assumed during the
Northfield Acquisition. See Note 3.

Real estate investments. Real estate investments consist of land, buildings, improvements and integral equipment related to the Landlord. The contribution or acquisition of the real property by the Operating Partnership from MGM represent transactions between entities under common control, and as a result, such real estate was initially recorded by the Company at MGM's historical cost basis, less accumulated depreciation (i.e., there was no change in the basis of the contributed assets), as of the contribution or acquisition dates. Costs of maintenance and repairs to real estate investments are the responsibility of the Tenant under the Master Lease.

Although the Tenant is responsible for all capital expenditures during the term of the Master Lease, if, in the future, a deconsolidation event occurs, the Company will be required to pay the Tenant, should the Tenant so elect, for certain capital improvements that would not constitute “normal tenant improvements” in accordance with U.S. GAAP (“Non-Normal Tenant Improvements”), subject to an initial cap of \$100 million in the first year of the Master Lease increasing annually by \$75 million each year thereafter. The Company will be entitled to receive additional rent based on the 10-year Treasury yield plus 600 basis points multiplied by the value of the new capital improvements the Company is required to pay for in connection with a deconsolidation event and such capital improvements will be subject to the terms of the Master Lease. Examples of Non-Normal Tenant Improvements include the costs of structural elements at the properties, including capital improvements that expand the footprint or square footage of any of the properties or extend the useful life of the properties, as well as equipment that would be a necessary improvement at any of the properties, including initial installation of elevators, air conditioning systems or electrical wiring. Such Non-Normal Tenant Improvements are capitalized and depreciated over the asset’s remaining life. Inception-to-date Non-Normal Tenant Improvements were \$143.6 million through September 30, 2018.

Property and Equipment used in operations. Property and equipment used in operations are stated at cost. The property and equipment used in operations was acquired through the Northfield Acquisition and therefore recognized at fair value at the acquisition date. Property and equipment used in operations are generally depreciated over the following useful lives on a straight-line basis:

Buildings and improvements	20 to 40 years
Land improvements	10 to 20 years
Furniture, fixtures and equipment	3 to 20 years

The Company evaluates its property and equipment and other long-lived assets for impairment based on its classification as held for sale or to be held and used. Several criteria must be met before an asset is classified as held for sale, including that management with the appropriate authority commits to a plan to sell the asset to a third-party at a reasonable price in relation to its fair value and is actively seeking a buyer. For assets held for sale, the Company recognizes the asset at the lower of carrying value or fair market value less costs to sell, as estimated based on comparable asset sales, offers received, or a discounted cash flow model. For assets to be held and used, the Company reviews for impairment whenever indicators of impairment exist. The Company then compares the estimated future cash flows of the asset, on an undiscounted basis, to the carrying value of the asset. If the undiscounted cash flows exceed the carrying value, no impairment is indicated. If the undiscounted cash flows do not exceed the carrying value, then an impairment charge is recorded based on the fair value of the asset, typically measured using a discounted cash flow model. All recognized impairment losses, whether for assets held for sale or assets to be held and used, are recorded as operating expenses.

Goodwill and other intangible assets. Goodwill represents the excess of purchase price over fair market value of net assets acquired in business combinations. Goodwill and indefinite-lived intangible assets must be reviewed for impairment at least annually and between annual test dates in certain circumstances. The Company performs its annual impairment tests in the fourth quarter of each fiscal year. The Company will perform its first such annual impairment test in the fourth quarter of 2018.

Accounting guidance provides entities the option to perform a qualitative assessment of goodwill and indefinite-lived intangible assets (commonly referred to as step zero) in order to determine whether further impairment testing is necessary. In performing the step zero analysis the Company considers macroeconomic conditions, industry and market considerations, current and forecasted financial performance, entity-specific events, and changes in the composition or carrying amount of net assets of reporting units for goodwill. In addition, the Company takes into consideration the amount of excess of fair value over carrying value determined in the last quantitative analysis that was performed, as well as the period of time that has passed since the last quantitative analysis. If the step zero analysis indicates that it is more likely than not that the fair value is less than its carrying amount, the entity would

proceed to a quantitative analysis.

Under the quantitative analysis, goodwill for relevant reporting units is tested for impairment using a discounted cash flow analysis based on the estimated future results of the Company's reporting units discounted using market discount rates and market indicators of terminal year capitalization rates, and a market approach that utilizes business enterprise value multiples based on a range of multiples from the Company's peer group. An impairment charge is recognized for the amount by which the carrying value exceeds the reporting unit's fair value, not to exceed the total amount of goodwill allocated to that reporting unit. Under the qualitative analysis, the license rights are tested for impairment using a discounted cash flow approach. If the fair value of an indefinite-lived intangible asset is less than its carrying amount, an impairment loss is recognized equal to the difference.

Deferred revenue. The Company receives nonmonetary consideration related to Non-Normal Tenant Improvements as they become MGP's property pursuant to the Master Lease and recognizes the cost basis of Non-Normal Tenant Improvements

as real estate investments and deferred revenue. The Company depreciates the real estate investments over their estimated useful lives and amortizes the deferred revenue as additional rental revenue over the remaining term of the Master Lease once the related real estate assets are placed in service.

Revenue recognition. Rental revenue under the Master Lease is recognized on a straight-line basis over the non-cancelable term and reasonably assured renewal periods, which includes the initial lease term of ten years and all four additional five-year terms under the Master Lease, for all contractual revenues that are determined to be fixed and measurable. The difference between such rental revenue earned and the cash rent due under the provisions of the Master Lease is recorded as deferred rent receivable and included as a component of tenant and other receivables, net or as deferred revenue if cash rent due exceeds rental revenue earned.

Tenant reimbursement revenue arises from costs for which the Company is the primary obligor that are required to be paid by the Tenant or reimbursed to the Company pursuant to the Master Lease. This revenue is recognized in the same periods as the expense is incurred.

Northfield generates gaming, food, beverage and other revenue, which primarily consists of video lottery terminal ("VLT") wager transactions and food and beverage transactions. The transaction price for a VLT wager is the difference between gaming wins and losses (net win). The Company accounts for VLT revenue on a portfolio basis given the similar characteristics of wagers by recognizing net win per gaming day versus on an individual wager basis. The transaction price of food and beverage contracts is the amount collected from the customer or stand-alone selling price for such goods and services and is recorded when the delivery is made. Sales and usage-based taxes are excluded from revenues.

Income tax provision. For interim income tax reporting the Company estimates its annual effective tax rate and applies it to its year-to-date ordinary income. The tax effects of unusual or infrequently occurring items, including changes in judgment about valuation allowances and effects of changes in tax laws or rates, are reported in the interim period in which they occur. The Company's effective income tax rate was 7.0% and 4.2% for the three and nine months ended September 30, 2018, respectively.

The Company accounts for income taxes under the asset and liability method, which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements. Under this method, the Company determines deferred tax assets and liabilities on the basis of the differences between the financial statement and tax bases of assets and liabilities by using enacted tax rates in effect for the year in which the differences are expected to reverse. The effect of a change in tax rates on deferred tax assets and liabilities is recognized in income in the period that includes the enactment date. The Company recorded a tax provision of \$2.1 million on the TRS operations for the three and nine months ended September 30, 2018.

The Landlord is required to join in the filing of a New Jersey consolidated corporation business tax return under the New Jersey Casino Control Act and include in such return its income and expenses associated with its New Jersey assets and is thus subject to an entity level tax in New Jersey. Although the consolidated New Jersey return also includes MGM and certain of its subsidiaries, the Company is required to record New Jersey state income taxes in the accompanying financial statements as if the Landlord was taxed for state purposes on a stand-alone basis. The Company and MGM have entered into a tax sharing agreement providing for an allocation of taxes due in the consolidated New Jersey return. Pursuant to this agreement, the Landlord will only be responsible for New Jersey taxes on any gain that may be realized upon a future sale of the New Jersey assets resulting solely from an appreciation in value of such assets over their value on the date they were contributed to the Landlord by a subsidiary of MGM. MGM is responsible for all other taxes reported in the New Jersey consolidated return and, accordingly, the related income tax balances related to such taxes is reflected within noncontrolling interest within the accompanying financial statements. No amounts were due to MGM under the tax sharing agreement as of September 30, 2018 and December 31, 2017.

Recently issued accounting standards. In January 2017, FASB issued Accounting Standards Update (“ASU”) No. 2017-04, Intangibles - Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment (“ASU 2017-04”). ASU 2017-04 simplifies the subsequent measurement of goodwill by eliminating step two from the goodwill impairment test. Under the amended guidance, the Company will perform its annual goodwill impairment tests (and interim tests if any are determined to be necessary) by comparing the fair value of its reporting units with their carrying value, and an impairment charge, if any, will be recognized for the amount by which the carrying value exceeds the reporting unit’s fair value, not to exceed the total amount of goodwill allocated to that reporting unit. The Company early adopted ASU 2017-04 and it did not have a material effect on the Company’s consolidated financial statements.

In August 2017, the FASB issued ASU No. 2017-12, Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities (“ASU 2017-12”). ASU 2017-12 is effective for fiscal years beginning after December 15, 2018, and interim periods within those years. ASU 2017-12 amends the hedge accounting recognition and presentation requirements

in order to improve the transparency and understandability of information about an entity's risk management activities, and simplifies the application of hedge accounting. The Company does not expect the adoption of ASU 2017-12 to have a material effect on its consolidated financial statements.

In 2016 and 2018, the FASB issued ASC 842 "Leases (Topic 842)," which replaces the existing guidance in ASC 840, "Leases." ASC 842 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2018. ASC 842 requires a dual approach for lessee accounting under which a lessee would account for leases as finance leases or operating leases. Both finance leases and operating leases will result in the lessee recognizing a right-of-use ("ROU") asset and a corresponding lease liability. For finance leases, the lessee will recognize interest expense and amortization of the ROU asset and for operating leases the lessee will recognize a straight-line total lease expense. The Company will adopt ASC 842 on January 1, 2019 utilizing the simplified transition method. The Company has established a cross-functional implementation team to evaluate the impact of the new standard and is in the process of executing the implementation plan which included performing an assessment of its existing leasing arrangements. The Company plans to elect the package of practical expedients available under ASC 842, which includes that the Company need not reassess the lease classification for existing contracts. Accordingly, the Master Lease will continue to be classified as an operating lease and, as such, the Company does not expect the adoption of ASC 842 to have a material effect on the Company's consolidated financial statements.

In May 2014, the FASB issued ASC 606, Revenue from Contracts with Customers (Topic 606) which outlines a new, single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. Under the standard, revenue is recognized when a customer obtains control of promised goods or services in an amount that reflects the consideration the entity expects to receive in exchange for those goods and services. The Company adopted ASC 606 on January 1, 2018 and it did not have a material impact on the Company's financial statements.

NOTE 3 — NORTHFIELD ACQUISITION

As discussed in Note 1, on July 6, 2018 the TRS completed its acquisition of 100% of the membership interests of Northfield for a purchase price of approximately \$1.1 billion. The Company funded the acquisition through a \$200 million draw on the term loan A facility and a \$655 million draw under the revolving credit facility, with the remainder of the purchase price paid with cash on hand. The acquisition will expand MGP's real estate assets and diversify MGP's geographic reach.

The Company recognized 100% of the assets and liabilities of Northfield at fair value at the date of the acquisition. Under the acquisition method, the fair value was allocated to the assets acquired and liabilities assumed in the transaction. The allocation of fair value for substantially all of the assets and liabilities is preliminary and may be adjusted up to one year after the acquisition.

The following table sets forth the preliminary purchase price allocation (in thousands):

Fair value of assets acquired and liabilities:

Property and equipment used in operations	\$792,807
Cash and cash equivalents	35,831
Racing and gaming licenses	228,000
Customer list	25,000
Goodwill	17,915
Other assets	9,598
Other liabilities	(38,786)
	\$1,070,365

As discussed above, the Company recognized the identifiable intangible assets at fair value. The estimated fair values of the intangible assets were preliminarily determined using methodologies under the income approach based on significant inputs that were not observable. The goodwill is deductible for tax purposes and all of the goodwill was assigned to the TRS segment. The goodwill is primarily attributable to the synergies expected to arise after the acquisition.

Consolidated results. For the period from July 6, 2018 through September 30, 2018, Northfield's net revenue was \$65.6 million, operating income was \$16.9 million and net income was \$14.8 million.

Pro forma information (unaudited). The operating results for Northfield are included in the accompanying consolidated statements of operations from the date of acquisition. The following unaudited pro forma consolidated financial information for

the Company has been prepared assuming the Northfield Acquisition had occurred as of January 1, 2017. The unaudited pro forma financial information below is not necessarily indicative of either future results of operations or results that might have been achieved had the acquisition been consummated as of January 1, 2017.

The pro forma results include adjustments related to purchase accounting, primarily interest expense related to debt used to fund the acquisition, and the conformance of accounting policies. The following table represents MGP's and the Operating Partnership's unaudited pro forma information for the nine-months ended September 30, 2018 and 2017:

	2018	2017
	(unaudited, in thousands, except per share amounts)	
Net revenues	\$858,051	\$740,444
Net income	190,358	134,957
Net income attributable to Class A shareholders	52,247	33,327
Basic net income per Class A share	0.74	0.57
Diluted net income per Class A share	0.73	0.57

As discussed in Note 1, on September 18, 2018, the Company entered into an agreement to sell the operations of Northfield to a subsidiary of MGM for approximately \$275 million, subject to customary purchase price adjustments. The TRS will concurrently liquidate and the real estate assets of Northfield will be transferred to the Landlord. The Landlord will lease such real estate assets to the Tenant pursuant to an amendment to the Master Lease. As a result, the annual rent payment will increase by \$60 million, prorated for the remainder of the lease year. Consistent with the Master Lease terms, 90% of this rent will be fixed and contractually grow at 2% per year until 2022. The transaction is expected to close in the first half of 2019, subject to regulatory approvals and other customary closing conditions. The Northfield OpCo sale will be accounted for as a transaction between entities under common control and therefore the Company will continue to carry the Northfield OpCo operating assets and liabilities as held and used until the close of the transaction.

NOTE 4 — REAL ESTATE INVESTMENTS

The carrying value of real estate investments is as follows:

	September 30, 2018	December 31, 2017
	(in thousands)	
Land	\$4,143,513	\$4,143,513
Buildings, building improvements, land improvements and integral equipment	8,411,369	8,512,334
	12,554,882	12,655,847
Less: Accumulated depreciation	(2,751,472)	(2,633,909)
	\$9,803,410	\$10,021,938

NOTE 5 — PROPERTY AND EQUIPMENT USED IN OPERATIONS

The carrying value of property and equipment used in operations of the TRS is as follows:

	September 30, 2018
	(in thousands)
Land	\$ 392,500
Buildings, building improvements and land improvements	382,683
Furniture, fixtures and equipment	17,998
Construction in progress	230
	793,411

Edgar Filing: MGM Growth Properties LLC - Form 10-Q

Less: Accumulated depreciation	(4,372)
	\$ 789,039

18

NOTE 6 — GOODWILL AND OTHER INTANGIBLE ASSETS

Goodwill and other intangible assets consisted of the following:

	September 30, 2018 (in thousands)
Goodwill	\$ 17,915
Indefinite-lived intangible assets:	
Racing and gaming licenses	228,000
Total indefinite-lived intangible assets	228,000
Finite-lived intangible assets:	
Customer lists	25,000
Less: Accumulated amortization	(893)
	24,107
Total finite-lived intangible assets, net	24,107
Total other intangible assets, net	\$ 252,107

Goodwill. A summary of changes in the Company's goodwill by reportable segment is as follows:

	2018 Balance at January 1 (in thousands)	Balance at Acquisitions September 30
Goodwill, net by reportable segment:		
TRS	\$— \$ 17,915	\$ 17,915

Other intangible assets, net. The Company recognized an indefinite-lived intangible asset for the racing and gaming licenses acquired in the Northfield Acquisition and recognized an intangible asset related to Northfield's customer list, which is amortized on a straight-line basis over its estimated useful life of seven years.

Total amortization expense related to intangible assets was \$0.9 million for the three and nine months ending September 30, 2018. Remaining estimated future amortization is as follows:

	(in thousands)
Years ending December 31,	
2018	\$ 893
2019	3,571
2020	3,571
2021	3,571
2022	3,571
Thereafter	8,930
	\$ 24,107

NOTE 7 — MASTER LEASE

Pursuant to the Master Lease, the Tenant has leased the Company's real estate properties (other than the real estate associated with the TRS). The Master Lease is accounted for as an operating lease and has an initial lease term of ten years with the potential to extend the term for four additional five-year terms thereafter at the option of the Tenant.

On April 1, 2018, the second 2.0% fixed annual rent escalator went into effect. Rent payments under the Master Lease for the third lease year of April 1, 2018 through March 31, 2019 are currently \$770.3 million.

Rental revenues from the Master Lease for the three and nine months ended September 30, 2018 were \$186.6 million and \$559.7 million, respectively. The Company also recognized revenue related to tenant reimbursements and other of \$30.1 million and \$93.2 million for the three and nine months ended September 30, 2018, respectively.

NOTE 8 — DEBT

Debt consists of the following:

	September 30, 2018 (in thousands)	December 31, 2017
Senior secured credit facility:		
Senior secured term loan A facility	\$470,000	\$273,750
Senior secured term loan B facility	1,803,750	1,817,625
Senior secured revolving credit facility	565,000	—
\$1,050 million 5.625% senior notes, due 2024	1,050,000	1,050,000
\$500 million 4.50% senior notes, due 2026	500,000	500,000
\$350 million 4.50% senior notes, due 2028	350,000	350,000
	4,738,750	3,991,375
Less: Unamortized discount and debt issuance costs	(54,033)	(56,747)
	\$4,684,717	\$3,934,628

Operating Partnership credit agreement. At September 30, 2018, the Operating Partnership senior credit facility consisted of a \$470 million term loan A facility, a \$1.8 billion term loan B facility, and a \$1.4 billion revolving credit facility. In March 2018, the Operating Partnership repriced its term loan B interest rate to LIBOR plus 2.00% and extended the maturity of the term loan B facility to March 2025, effective in August 2018. In addition, the Operating Partnership will receive a further reduction in pricing to LIBOR plus 1.75% upon a corporate rating upgrade by either S&P or Moody's.

In June 2018, the Operating Partnership amended its credit agreement to provide for a \$750 million increase of the revolving facility to \$1.4 billion, provide for a \$200 million increase on the term loan A facility, and extend the maturity of the revolving facility and the term loan A facility to June 2023. Additionally, the revolving and term loan A facilities were repriced to LIBOR plus 1.75% to 2.25% determined by reference to the total net leverage ratio pricing grid. In addition, amortization payments under the term loan A facility's will start on the last business day of each calendar quarter beginning September 30, 2019, for an amount equal to 0.625% of the aggregate principal amount of the term loan A outstanding as of the amendment effective date.

The Operating Partnership permanently repaid \$4.6 million and \$17.6 million of the term loan A and term loan B facility in the three and nine months ended September 30, 2018, respectively, in accordance with the scheduled amortization. At September 30, 2018, the interest rate on the term loan A facility was 4.49% and the interest rate on the term loan B facility was 4.24%, and the interest rate on the revolving credit facility was 4.37%. At September 30, 2018, \$565 million was drawn on the revolving credit facility. The Operating Partnership was in compliance with its financial covenants at September 30, 2018.

Refer to Note 9 for further discussion of the Company's interest rate swap agreements related to the term loan B facility.

Fair value of long-term debt. The estimated fair value of the Company's long-term debt was \$4.7 billion at September 30, 2018 and \$4.1 billion at December 31, 2017. Fair value was estimated using quoted prices for identical or similar liabilities in markets that are not active (level 2 inputs).

Deferred financing costs. The Company recognized non-cash interest expense related to the amortization of deferred financing costs of \$3.3 million and \$9.4 million and during the three and nine months ended September 30, 2018, respectively. The Company recognized non-cash interest expense related to the amortization of deferred financing costs of \$2.8 million and \$8.4 million and during the three and nine months ended September 30, 2017, respectively.

NOTE 9 — DERIVATIVES AND HEDGING ACTIVITIES

The Company uses derivative instruments to mitigate the effects of interest rate volatility inherent in its variable rate debt, which could unfavorably impact our future earnings and forecasted cash flows. The Company does not use derivative instruments for speculative or trading purposes.

The Operating Partnership is party to interest rate swaps to mitigate the interest rate risk inherent in its senior secured term loan B facility. In May 2017 in connection with the term loan B re-pricing, the Company amended its outstanding interest rate swap agreements. As of September 30, 2018 and December 31, 2017, the Company pays a weighted average fixed rate of 1.844% on total notional amount of \$1.2 billion and the variable rate received will reset monthly to the one-month LIBOR, with no minimum floor. As of September 30, 2018 and December 31, 2017, all of the Company's derivative financial instruments have been designated as cash flow hedges and qualify for hedge accounting.

The fair values of the Company's interest rate swaps are \$38.3 million and \$11.3 million as of September 30, 2018 and December 31, 2017, respectively, based upon the present value of expected future cash flows using observable, quoted LIBOR swap rates for the full term of the swap (level 2 inputs). Interest rate swaps valued in net unrealized gain positions are recognized as asset balances within the prepaid expenses and other assets. Interest rate swaps valued in net unrealized loss positions are recognized as liability balances within accounts payable, accrued expenses and other liabilities. For the three and nine months ended September 30, 2018 and 2017, there was no material ineffective portion of the change in fair value derivatives. For the three and nine months ended September 30, 2018, the Company recorded offsets to interest expense of \$0.6 million and interest expense of \$0.1 million, respectively, related to the swap agreements. For the three and nine months ended September 30, 2017, the Company recorded interest expense of \$2.0 million and \$7.4 million, respectively, related to the swap agreements.

NOTE 10 — SHAREHOLDERS' EQUITY AND PARTNERS' CAPITAL

MGP dividends and Operating Partnership distributions. The following table presents the distributions declared and paid by the Operating Partnership and the dividends declared and paid by MGP for the nine months ended September 30, 2018 and September 30, 2017. MGP pays its dividends with the receipt of its share of the Operating Partnership's distributions.

Declaration Date	Record Date	Distribution/ Dividend Per Unit/ Share	Payment Date	Operating Partnership Distribution	MGP Class A Dividend
(in thousands, except per unit and per share amount)					
2018					
March 15, 2018	March 30, 2018	\$ 0.4200	April 15, 2018	\$ 111,733	\$ 29,777
June 15, 2018	June 29, 2018	\$ 0.4300	July 16, 2018	\$ 114,399	\$ 30,492
September 17, 2018	September 28, 2018	\$ 0.4375	October 15, 2018	\$ 116,395	\$ 31,024
2017					
March 15, 2017	March 31, 2017	\$ 0.3875	April 13, 2017	\$ 94,109	\$ 22,282
June 15, 2017	June 30, 2017	\$ 0.3950	July 14, 2017	\$ 95,995	\$ 22,777
September 15, 2017	September 29, 2017	\$ 0.3950	October 13, 2017	\$ 101,222	\$ 28,004

Dividends with respect to MGP's Class A shares are characterized for federal income tax purposes as taxable ordinary dividends, capital gains dividends, non-dividend distributions or a combination thereof.

NOTE 11 — ACCUMULATED OTHER COMPREHENSIVE INCOME

Changes in accumulated other comprehensive income attributable to Class A shareholders are as follows:

	Cash Flow Hedges (in thousands)
Balance at December 31, 2017	\$ 3,108
Other comprehensive income before reclassifications	27,241
Amounts reclassified from accumulated other comprehensive income to interest expense	131
Other comprehensive income	27,372
Less: Other comprehensive (income) attributable to noncontrolling interest	(20,076)
Balance at September 30, 2018	\$ 10,404

NOTE 12 — NET INCOME PER CLASS A SHARE

The table below reconciles basic and diluted net income per Class A share. Diluted weighted average Class A shares outstanding includes an adjustment for potential dilution of share-based compensation awards outstanding and does not assume conversion of the Operating Partnership units held by MGM as such conversion would be antidilutive. Net income per share has not been presented for the Class B shareholder as the Class B share is not entitled to any economic rights.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017
	(in thousands, except share amounts)			
Numerator:				
Net income attributable to Class A shares - basic and diluted	\$ 19,484	\$ 11,025	\$ 48,460	\$ 33,053

Partnership unit ⁽²⁾

Weighted average Operating Partnership units outstanding ⁽¹⁾ - diluted 266,335,946 246,117,322 266,308,392 244,170,084

(1) Includes weighted average deferred share units granted to certain members of the Board of Directors.

(2) No shares related to outstanding share-based compensation awards were excluded due to being antidilutive.

NOTE 14 — COMMITMENTS AND CONTINGENCIES

Litigation. In the ordinary course of business, from time to time, the Company expects to be subject to legal claims and administrative proceedings, none of which are currently outstanding, which the Company believes could have, individually or in the aggregate, a material adverse effect on its business, financial condition or results of operations, liquidity or cash flows.

NOTE 15 — SEGMENTS

Consistent with how the Company's management reviews and assesses the Company's financial performance, the Company and the Operating Partnership have two reportable segments, REIT and TRS. The REIT reportable segment consists of all other operations of the Company excluding Northfield and represents the majority of the Company's business. The TRS reportable segment consists of MGP OH, Inc. and Northfield.

The following tables present the Company and Operating Partnership's segment information (in thousands):

	Three Months Ended September 30, 2018			Three Months Ended September 30, 2017		
	REIT	TRS	Total	REIT	TRS	Total

NOTE 16 — CONDENSED CONSOLIDATING FINANCIAL INFORMATION

The Operating Partnership's senior notes were co-issued by MGP Finance Co-Issuer, Inc., a 100% owned finance subsidiary of the Operating Partnership. Obligations to pay principal and interest on the senior notes are currently guaranteed by all of the Operating Partnership's subsidiaries, other than MGP Finance Co-Issuer, Inc., each of which is directly or indirectly 100% owned by the Operating Partnership. Such guarantees are full and unconditional, and joint and several and are subject to release in accordance with the events described below. Separate condensed financial

information for the subsidiary guarantors as of September 30, 2018 and December 31, 2017 and for the nine months ended September 30, 2018 and September 30, 2017 are presented below.

The guarantee of a subsidiary guarantor will be automatically released upon (i) a sale or other disposition (including by way of consolidation or merger) of the subsidiary guarantor, or the capital stock of the subsidiary guarantor; (ii) the sale or disposition of all or substantially all of the assets of the subsidiary guarantor; (iii) the designation in accordance with the indenture of a subsidiary guarantor as an unrestricted subsidiary; (iv) at such time as such subsidiary guarantor is no longer a subsidiary guarantor or other obligor with respect to any credit facilities or capital markets indebtedness of the Operating Partnership; or (v) defeasance or discharge of the notes.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This management's discussion and analysis of financial condition and results of operations contains forward-looking statements that involve risks and uncertainties. Please see "Forward-Looking Statements" for a discussion of the uncertainties, risks, and assumptions that may cause our actual results to differ materially from those discussed in the forward-looking statements.

This discussion should be read in conjunction with our historical financial statements and related notes thereto and the other disclosures contained elsewhere in this quarterly report on Form 10-Q, and the audited consolidated financial statements and notes for the fiscal year ended December 31, 2017, which were included in our annual report on Form 10-K, filed with the SEC on March 1, 2018.

Executive Overview

MGP is a limited liability company that was formed in Delaware on October 23, 2015. MGP conducts its operations through the Operating Partnership, a Delaware limited partnership formed by MGM on January 6, 2016, which became a subsidiary of MGP on April 25, 2016. The Company has elected to be treated as a real estate investment trust ("REIT") commencing with its taxable year ended December 31, 2016.

Following the completion of MGP's initial public offering, it became a publicly traded REIT engaged in the real property business which primarily consists of owning, acquiring and leasing large-scale destination entertainment and leisure resort properties, whose tenants generally offer casino gaming, hotel, convention, dining, entertainment and retail. MGM continued to hold a controlling interest in MGP following the completion of its initial public offering through its ownership of MGP's single Class B share. The Class B share is a non-economic interest in MGP which does not provide its holder any rights to profits or losses or any rights to receive distributions from operations of MGP or upon liquidation or winding up of MGP but which represents a majority of the voting power of MGP's shares. In addition, MGM continues to hold a majority economic interest in the Operating Partnership through its ownership of Operating Partnership units. One of MGP's subsidiaries is the sole general partner of the Operating Partnership. We generate a substantial portion of our revenues by leasing our real estate properties through the Landlord, a wholly owned subsidiary of the Operating Partnership, to the Tenant, a subsidiary of MGM, in a "triple-net" lease arrangement, which requires the Tenant to pay substantially all costs associated with each property, including real estate taxes, insurance, utilities and routine maintenance, in addition to the base rent and the percentage rent, each as described below. The Master Lease has an initial lease term of ten years with the potential to extend the term for four additional five-year terms thereafter at the option of the Tenant. Additionally, the Master Lease provides us with a right of first offer to purchase the real estate assets with respect to MGM's development property in Springfield, Massachusetts in the event that MGM elects to sell it. In addition, in connection with the Empire City Transaction, we will be granted a right of first offer with respect to certain undeveloped land adjacent to the property to the extent MGM develops additional gaming facilities and chooses to sell or transfer the property in the future. On April 1, 2018, the second 2.0% fixed annual rent escalator went into effect. Rent payments under the Master Lease for the third lease year of April 1, 2018 to March 31, 2019 are \$770.3 million. Payments under the Master Lease are guaranteed by MGM. As of September 30, 2018, our portfolio consisted of eleven premier destination resorts, which include properties that we believe are among the world's finest casino resorts, as well as The Park in Las Vegas and the Hard Rock Rocksino Northfield Park, in Northfield, OH.

On July 6, 2018, we completed the acquisition of Northfield for \$1.1 billion. We funded the acquisition through a \$200 million draw on the term loan A facility and a \$655 million draw under the revolving credit facility, with the remainder of the purchase price paid with cash on hand. Simultaneously with the close of the transaction, we entered into a new agreement with Hard Rock to continue to serve as the manager of the property.

On September 18, 2018, the Company entered into an agreement to sell the operations of Northfield to a subsidiary of MGM for approximately \$275 million, subject to customary purchase price adjustments. The TRS will concurrently liquidate and the real estate assets of Northfield will be transferred to the Landlord. Northfield will be added to the existing Master Lease between the Landlord and Tenant. As a result, the annual rent payment will increase by \$60 million, prorated for the remainder of the lease year. The transaction is expected to close in the first half of 2019, subject to regulatory approvals and other customary closing conditions. The transaction was approved by the

Company's Conflicts Committee. Refer to Note 3 for additional information.

On May 28, 2018, we entered into an agreement to acquire the real property associated with Empire City from MGM upon its acquisition of Empire City for total consideration of \$625 million, which will include the assumption of approximately \$245 million of debt by the Operating Partnership with the balance through the issuance of Operating Partnership units to MGM.

Empire City will be added to the existing Master Lease between the Landlord and Tenant. The transactions are expected to close in the first quarter of 2019, subject to regulatory approvals and other customary closing conditions.

Combined Results of Operations for MGP and the Operating Partnership

Overview

The following table summarizes our financial results for the three and nine months ended September 30, 2018 and September 30, 2017.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017
	(in thousands)

Revenues

Rental revenue. Rental revenues, including tenant reimbursements and other, for the three and nine months ended September 30, 2018 were \$216.7 million and \$652.9 million, respectively. Rental revenues, including tenant reimbursements and other, for the three and nine months ended September 30, 2017 were \$182.8 million and \$551.2 million, respectively. The increase is primarily due to an increase in rental revenues of \$23.4 million and \$70.2 million for the three and nine months ended September 30, 2018, respectively, as a result of the MGM National Harbor transaction in October 2017.

Gaming, food, beverage and other. Gaming, food and beverage and other revenues were \$65.6 million for the three and nine months ended September 30, 2018, which represents the results of operations of Northfield from July 6, 2018, the date on which the Northfield Acquisition was completed, through September 30, 2018.

Operating Expenses

Gaming, food, beverage and other. Gaming, food and beverage and other expenses were \$43.3 million for the three and nine months ended September 30, 2018, which represent the results of operations of Northfield from July 6, 2018, the date on which the Northfield Acquisition was completed, through September 30, 2018.

Depreciation and amortization. Depreciation and amortization expense for the three and nine months ended September 30, 2018 was \$66.6 million and \$203.0 million, respectively. Depreciation and amortization expense for the three and nine months ended September 30, 2017 was \$68.7 million and \$190.6 million, respectively. Depreciation and amortization expense for the three and nine months ended September 30, 2018 increased due to assets placed in service and depreciation related to the MGM National Harbor and Northfield assets acquired.

Property transactions, net. Property transactions, net for the three and nine months ended September 30, 2018 were \$0.3 million and \$18.9 million, respectively, and relate to normal losses on the disposition of assets. Property transactions, net for the three and nine months ended September 30, 2017 were \$1.7 million and \$19.1 million, respectively, and relate to normal losses on the disposition of assets.

Reimbursable expenses. Reimbursable expenses include costs reimbursed or paid directly by Tenant pursuant to the Master Lease, including property taxes and ground lease rent for which we are the primary obligor. Reimbursable expenses for three and nine months ended September 30, 2018 were \$29.2 million and \$90.4 million. Reimbursable expenses for three and nine months ended September 30, 2017 were \$19.0 million and \$60.1 million. The increase is primarily due to the MGM National Harbor transaction in October 2017.

Acquisition-related expenses. Acquisition-related expenses for the three and nine months ended September 30, 2018 were \$4.4 million and \$7.1 million, respectively, which related to expenses incurred in connection with the Northfield Acquisition and the Empire City Transaction (see Note 1 and Note 3 to the accompanying financial statements).

Acquisition-related expenses for both the three and nine months ended September 30, 2017 were \$1.1 million, which related to expenses incurred in connection with the MGM National Harbor Transaction.

General and administrative expenses. General and administrative expenses for the three and nine months ended September 30, 2018 were \$3.4 million and \$10.1 million, respectively. General and administrative expenses for the three and nine months ended September 30, 2017 were \$2.9 million and \$8.2 million, respectively. The increase for the nine months ended September 30, 2018 when compared to the nine months ended September 30, 2017 is primarily due to an increase in costs incurred for transactions that did not close.

Non-Operating Expenses

Total non-operating expenses for the three and nine months ended September 30, 2018 were \$59.6 million and \$161.2 million, respectively, and primarily related to interest expense on the senior secured credit facility, senior notes and interest rate swaps, which included amortization of debt issuance costs of \$3.3 million and \$9.4 million for the three and nine months ended September 30, 2018 as well as \$2.7 million loss on retirement of debt incurred for the senior secured facility amendments in the nine months ended September 30, 2018. Total non-operating expenses for the three and nine months ended September 30, 2017 were \$44.2 million and \$133.4 million, respectively, and primarily related to interest expense on the senior secured credit facility, senior notes and interest rate swaps, which included amortization of debt issuance costs of \$2.8 million and \$8.4 million for the three and nine months ended September 30, 2017.

Provision for Income Taxes

Our effective tax rate was 7.0% and 4.2% for the three and nine months ended September 30, 2018, respectively, compared to 3.3% and 2.8% in the respective prior year periods. The increased rate is primarily driven from the operations of the TRS, which are taxed at the statutory corporate rate. Refer to Note 2 of the accompanying financial statements for additional discussion.

Non-GAAP Measures

Funds From Operations (“FFO”) is net income (computed in accordance with U.S. GAAP), excluding gains and losses from sales or disposals of property (presented as property transactions, net), plus real estate depreciation, as defined by the National Association of Real Estate Investment Trusts (“NAREIT”).

Adjusted Funds From Operations (“AFFO”) is FFO as adjusted for amortization of financing costs and cash flow hedges, amortization of the above market lease, net, non-cash compensation expense, acquisition related expenses, other non-operating expenses, provision for income taxes related to the REIT segment, other depreciation and amortization, and the net effect of straight-line rents and amortization of deferred revenue.

Adjusted EBITDA is net income (computed in accordance with U.S. GAAP) as adjusted for gains and losses from sales or disposals of property (presented as property transactions, net), real estate depreciation, other depreciation and amortization,

interest income, interest expense (including amortization of financing costs and cash flow hedges), amortization of the above market lease, net, non-cash compensation expense, acquisition related expenses, other non-operating expenses, provision for income taxes and the net effect of straight-line rents and amortization of deferred revenue.

FFO, FFO per unit, AFFO, AFFO per unit and Adjusted EBITDA are supplemental performance measures that have not been prepared in conformity with accounting principles generally accepted in the United States (“U.S. GAAP”) that management believes are useful to investors in comparing operating and financial results between periods. Management believes that this is especially true since these measures exclude real estate depreciation and amortization expense and management believes that real estate values fluctuate based on market conditions rather than depreciating in value ratably on a straight-line basis over time. The Company believes such a presentation also provides investors with a meaningful measure of the Company’s operating results in comparison to the operating results of other REITs. Adjusted EBITDA is useful to investors to further supplement AFFO and FFO and to provide investors a performance metric which excludes interest expense. In addition to non-cash items, the Company adjusts AFFO and Adjusted EBITDA for acquisition-related expenses. While we do not label these expenses as non-recurring, infrequent or unusual, management believes that it is helpful to adjust for these expenses when they do occur to allow for comparability of results between periods because each acquisition is (and will be) of varying size and complexity and may involve different types of expenses depending on the type of property being acquired and from whom.

FFO, FFO per unit, AFFO, AFFO per unit and Adjusted EBITDA do not represent cash flow from operations as defined by U.S. GAAP, should not be considered as an alternative to net income as defined by U.S. GAAP and are not indicative of cash available to fund all cash flow needs. Investors are also cautioned that FFO, FFO per unit, AFFO, AFFO per unit and Adjusted EBITDA as presented, may not be comparable to similarly titled measures reported by other REITs due to the fact that not all real estate companies use the same definitions.

The following table provides a reconciliation of the Company’s consolidated net income to FFO, AFFO and Adjusted EBITDA:

	Three Months Ended September 30, 2018		September 30, 2017

(1) Other depreciation and other amortization includes both real estate and equipment depreciation and amortization of intangible assets from the TRS.

(2) Net income, interest income and interest expense are net of intercompany interest eliminations of \$5.3 million for the three and nine months ended September 30, 2018.

Liquidity and Capital Resources

Property rental revenue is our primary source of cash from operations and is dependent on the Tenant's ability to pay rent. All of our indebtedness is held by the Operating Partnership and MGP does not guarantee any of the Operating Partnership's indebtedness. MGP's principal funding requirement is the payment of distributions on its Class A shares, and its principal source of funding for these distributions is the distributions it receives from the Operating Partnership. MGP's liquidity is therefore dependent upon the Operating Partnership's ability to make sufficient distributions to it. The Operating Partnership's primary uses of cash include payment of operating expenses, debt service and distributions to MGP. We believe that the Operating Partnership currently has sufficient liquidity to satisfy all of its commitments, including its distributions to MGP and the estimated \$245 million of indebtedness to be acquired in connection with the Empire City Transaction, and in turn, that we currently have sufficient liquidity to satisfy all our commitments in the form of \$49.5 million in cash and cash equivalents held by the Operating Partnership as of September 30, 2018, expected cash flows from operations, and \$785 million of borrowing capacity under the Operating Partnership's revolving credit facility as of September 30, 2018. See Note 8 to the accompanying financial statements for a description of our principal debt arrangements. In addition, we expect to incur additional indebtedness to finance acquisitions or for general corporate or other purposes.

Summary of Cash Flows

Net cash provided by operating activities for the nine months ended September 30, 2018 and September 30, 2017 were \$433.1 million and \$363.9 million, respectively. The increase in cash provided by operating activities was primarily due to an increase in rental payments of \$72.1 million as a result of the MGM National Harbor transaction, the impact of the 2.0% fixed annual rent escalators that went into effect on April 1, 2018, as well as an increase in cash provided by operating activities of Northfield subsequent to the acquisition, partially offset by an increase in cash paid for interest.

Net cash used in investing activities for the nine months ended September 30, 2018 was \$1.04 billion, primarily attributable to \$1.03 billion of net cash paid for the Northfield Acquisition (see Note 3 for additional detail). There were no cash flows from investing activities for the nine months ended September 30, 2017.

Net cash provided by financing activities for the nine months ended September 30, 2018 and September 30, 2017 were \$392.0 million, and \$414.5 million, respectively. The change in cash provided by financing activities is primarily attributable to

the net draws against our credit facilities to fund the Northfield Acquisition, partially offset by the increase in distributions and

dividends paid, and an increase in costs related to amending our senior credit facilities.

Dividends and Distributions

The following table presents the distributions declared and paid by the Operating Partnership and the dividends declared by MGP for the nine months ended September 30, 2018 and September 30, 2017. MGP pays its dividends with the receipt of its share of the Operating Partnership's distributions.

Declaration Date	Record Date	Distribution/ Dividend Per Unit/ Share	Payment Date	Operating Partnership Distribution	MGP Class A Dividend
(in thousands, except per unit and per share amount)					
2018					
March 15, 2018	March 30, 2018	\$ 0.4200	April 15, 2018	\$ 111,733	\$ 29,777
June 15, 2018	June 29, 2018	\$ 0.4300	July 16, 2018	\$ 114,399	\$ 30,492

2017

Edgar Filing: MGM Growth Properties LLC - Form 10-Q

March 15, 2017	March 31, 2017	\$ 0.3875	April 13, 2017	\$ 94,109	\$ 22,282
June 15, 2017	June 30, 2017	\$ 0.3950	July 14, 2017	\$ 95,995	\$ 22,777
September 15, 2017	September 29, 2017	\$ 0.3950	October 13, 2017	\$ 101,222	\$ 28,004

The Company filed its initial federal income tax return for its taxable year ended December 31, 2016 in 2017, and has elected to be treated as a REIT. U.S. federal income tax law generally requires that a REIT distribute annually at least 90% of its

REIT taxable income, without regard to the deduction for dividends paid and excluding net capital gains, and that it pay taxes at regular corporate income tax rates to the extent that it annually distributes less than 100% of its taxable income. Commencing with our taxable year ended on December 31, 2016, our annual distribution will not be less than 90% of our REIT taxable income on an annual basis, determined without regard to the dividends paid deduction and excluding any net capital gains.

Inflation

The Master Lease provides for certain increases in rent as a result of the fixed annual rent escalator or changes in the variable percentage rent. We expect that inflation will cause the variable percentage rent provisions to result in rent increases over time. However, we could be negatively affected if increases in rent are not sufficient to cover increases in our operating expenses due to inflation. In addition, inflation and increased cost may have an adverse impact on our tenants if increases in their operating expenses exceed increases in revenue due to inflation.

Application of Critical Accounting Policies and Estimates

A complete discussion of our critical accounting policies and estimates is included in our Form 10-K for the fiscal year ended December 31, 2017. There have been no significant changes in our critical accounting policies and estimates since year end.

Market Risk

Our primary market risk exposure is interest rate risk with respect to our existing variable-rate long-term indebtedness. As of September 30, 2018, we have incurred indebtedness in principal amount of \$4.7 billion. An increase in interest rates could make the financing of any acquisition by us more costly as well as increase the costs of our variable rate debt obligations. Rising interest rates could also limit our ability to refinance our debt when it matures or cause us to pay higher interest rates upon refinancing and increase interest expense on refinanced indebtedness.

As of September 30, 2018, the Operating Partnership's term loan B facility bears interest at LIBOR plus 2.00%, with a LIBOR floor of 0%. To manage our exposure to changes in LIBOR rates, we have interest rate swap agreements where the Company pays a weighted average 1.844% on a total notional amount of \$1.2 billion and the variable rate received will reset monthly to the one-month LIBOR, with no minimum floor. We also expect to manage our exposure to interest rate risk by maintaining a mix of fixed and variable rates for our indebtedness.

We do not hold or issue financial instruments for trading purposes and do not enter into derivative transactions that would be considered speculative positions. As of September 30, 2018, long-term variable rate borrowings including impact from our swap agreements, represented approximately 34.6% of our total borrowings. Assuming a 100 basis-point increase in LIBOR, our annual interest cost would increase by approximately \$17 million based on gross amounts outstanding at September 30, 2018 and taking into account the interest rate swap agreements in place. The following table provides information about the maturities of our long-term debt subject to changes in interest rates excluding the effect of the Operating Partnership interest rate swaps discussed above. Average interest rates presented relate to the interest rate of the debt maturity in the period:

	Debt maturing in							Fair Value September 30, 2018
	2018	2019	2020	2021	2022	Thereafter	Total	
	(in millions)							
Fixed-rate	\$—	\$—	\$—	\$—	\$—	\$1,900.0	\$1,900.0	\$1,866.8
Average interest rate						5.122	% 5.122	%
Variable rate	\$4.6	\$24.4	\$30.3	\$30.3	\$30.3	\$2,718.9	\$2,838.8	\$2,842.1
Average interest rate	4.242%	4.302%	4.339%	4.339%	4.339%	4.334	% 4.333	%

Cautionary Statement Concerning Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. In particular, statements pertaining to our capital resources and the amount and frequency of future distributions contain forward-looking statements. You can identify forward-looking statements by the use of forward-looking terminology such as “believes,” “expects,” “could,” “may,” “will,” “should,” “seeks,” “likely,” “intends,” “plans,” “pro forma,” “projects,” “estimates” or “anticipates” or the negative of these words and phrases or similar words or phrases that are predictions of or indicate future events or trends and that do not relate solely to historical matters. You can also identify forward-looking statements by discussions of strategy, plans or intentions. Examples of forward-looking statements include, but are not limited to, statements we make regarding the timing and amount of any future dividend, our expectations regarding our ability to meet our financial and strategic goals and our ability to further grow our portfolio.

Forward-looking statements involve numerous risks and uncertainties and you should not rely on them as predictions of future events. Forward-looking statements depend on assumptions, data or methods that may be incorrect or imprecise and we may not be able to realize them. We do not guarantee that the transactions and events described will happen as described (or that they will happen at all). The following factors, among others, could cause actual results and future events to differ materially from those set forth or contemplated in the forward-looking statements:

We are dependent on MGM (including its subsidiaries) unless and until we substantially diversify our portfolio, and an event that has a material adverse effect on MGM’s business, financial position or results of operations could have a material adverse effect on our business, financial position or results of operations.

• We depend on our properties leased to MGM for substantially all of our anticipated cash flows.

• We may not be able to re-lease our properties following the expiration or termination of the Master Lease.

• MGM’s sole material assets are Operating Partnership units representing 26.7% of the ownership interests in the Operating Partnership, over which we have operating control through our ownership of its general partner.

• The Master Lease restricts our ability to sell our properties.

• We will have future capital needs and may not be able to obtain additional financing on acceptable terms.

• Covenants in our debt agreements may limit our operational flexibility, and a covenant breach or default could materially adversely affect our business, financial position or results of operations.

• Rising expenses could reduce cash flow and funds available for future acquisitions and distributions.

• We are dependent on the gaming industry and may be susceptible to the risks associated with it, which could materially adversely affect our business, financial position or results of operations.

• Because a significant number of our major gaming resorts are concentrated on the Las Vegas Strip (the “Strip”), we are subject to greater risks than a company that is more geographically diversified.

• Our pursuit of investments in, and acquisitions or development of, additional properties (including our acquisition of Northfield, the real property associated with Empire City, our rights of first offer with respect to MGM Springfield and with respect to any future gaming developments by MGM in the undeveloped land adjacent to Empire City) may be unsuccessful or fail to meet our expectations.

• We may face extensive regulation from gaming and other regulatory authorities, and our operating agreement provides that any of our shares held by investors who are found to be unsuitable by state gaming regulatory authorities are subject to redemption.

• Required regulatory approvals can delay or prohibit future leases or transfers of our gaming properties, which could result in periods in which we are unable to receive rent for such properties.

• Net leases may not result in fair market lease rates over time, which could negatively impact our income and reduce the amount of funds available to make distributions to shareholders.

• Our dividend yield could be reduced if we were to sell any of our properties in the future.

• There can be no assurance that we will be able to make distributions to our Operating Partnership unitholders and Class A shareholders or maintain our anticipated level of distributions over time.

•

An increase in market interest rates could increase our interest costs on existing and future debt and could adversely affect the price of our Class A shares.

•MGP is controlled by MGM, whose interests in our business may conflict with ours or yours.

•We are dependent on MGM for the provision of administration services to our operations and assets.

•MGM's historical results may not be a reliable indicator of its future results.

•Our operating agreement contains provisions that reduce or eliminate duties (including fiduciary duties) of our directors, officers and others.

•If MGM engages in the same type of business we conduct, our ability to successfully operate and expand our business may be hampered.

The Master Lease and other agreements governing our relationship with MGM were not negotiated on an arm's-length basis and the terms of those agreements may be less favorable to us than they might otherwise have been in an arm's-length transaction.

In the event of a bankruptcy of the Tenant, a bankruptcy court may determine that the Master Lease is not a single lease but rather multiple severable leases, each of which can be assumed or rejected independently, in which case underperforming leases related to properties we own that are subject to the Master Lease could be rejected by the Tenant while tenant-favorable leases are allowed to remain in place.

MGM may undergo a change of control without the consent of us or of our shareholders.

If MGP fails to remain qualified to be taxed as a REIT, it will be subject to U.S. federal income tax as a regular corporation and could face a substantial tax liability, which would have an adverse effect on our business, financial condition and results of operations.

Legislative or other actions affecting REITs could have a negative effect on us.

The anticipated benefits of our anticipated and future acquisitions may not be realized fully and may take longer to realize than expected.

Our ownership of MGP OH, Inc. a taxable REIT subsidiary ("TRS") which we formed in connection with the Northfield Acquisition, will be subject to limitations, and a failure to comply with the limits could jeopardize our REIT qualification.

We may be unable to complete the disposition of Northfield OpCo or may not consummate it on the terms described herein.

While forward-looking statements reflect our good-faith beliefs, they are not guarantees of future performance. We disclaim any obligation to publicly update or revise any forward-looking statement to reflect changes in underlying assumptions or factors of new information, data or methods, future events or other changes. For a further discussion of these and other factors that could impact our future results, performance or transactions, see the section entitled "Risk Factors."

Any forward-looking statement made by us in this Form 10-Q speaks only as of the date on which it is made. Factors or events that could cause our actual results to differ may emerge from time to time, and it is not possible for us to predict all of them. We undertake no obligation to publicly update any forward-looking statement, whether as a result of new information, future developments or otherwise, except as may be required by law. If we update one or more forward-looking statements, no inference should be made that we will make additional updates with respect to those or other forward-looking statements.

You should also be aware that while we from time to time communicate with securities analysts, we do not disclose to them any material non-public information, internal forecasts or other confidential business information. Therefore, you should not assume that we agree with any statement or report issued by any analyst, irrespective of the content of the statement or report. To the extent that reports issued by securities analysts contain projections, forecasts or opinions, those reports are not our responsibility and are not endorsed by us.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We incorporate by reference the information appearing under "Market Risk" in Part I, Item 2 of this Form 10-Q.

Item 4. Controls and Procedures

Controls and Procedures with respect to MGP

Our Chief Executive Officer (principal executive officer) and Chief Financial Officer (principal financial officer) have concluded that our disclosure controls and procedures (as such term is defined in Rules 13(a)-15(e) and 15d-15(e) under the Exchange Act) were effective as of September 30, 2018 to provide reasonable assurance that information required to be disclosed in the Company's reports under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC rules and regulations and to provide that such information is accumulated and communicated to management to allow timely decisions regarding required disclosures. This conclusion is based on an evaluation as required by Rule 13a-15(b) under the Exchange Act conducted under the supervision and participation of the principal executive officer and principal financial officer along with company

management.

In making our assessment of changes in internal controls over financial reporting as of September 30, 2018, we have excluded Northfield from our assessment because it was acquired in a business combination in the third quarter 2018. Northfield represented approximately 10% of our total assets at September 30, 2018 and approximately 23% and 9% of our total revenues for the three and nine months ended September 30, 2018, respectively. There were no other changes in our internal control over financial reporting during the quarter ended September 30, 2018 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Controls and Procedures with respect to the Operating Partnership

In this “Controls and Procedures with respect to the Operating Partnership” section, the terms “we,” “our” and “us” refer to the Operating Partnership together with its consolidated subsidiaries, and “management,” “principal executive officer” and “principal financial officer” refers to the management, principal executive officer and principal financial officer of the Operating Partnership and of the Operating Partnership’s general partner.

Our Chief Executive Officer (principal executive officer) and Chief Financial Officer (principal financial officer) have concluded that our disclosure controls and procedures (as such term is defined in Rules 13(a)-15(e) and 15d-15(e) under the Exchange Act) were effective as of September 30, 2018 to provide reasonable assurance that information required to be disclosed in the Company’s reports under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC rules and regulations and to provide that such information is accumulated and communicated to management to allow timely decisions regarding required disclosures. This conclusion is based on an evaluation as required by Rule 13a-15(b) under the Exchange Act conducted under the supervision and participation of the principal executive officer and principal financial officer along with company management.

In making our assessment of changes in internal controls over financial reporting as of September 30, 2018, we have excluded Northfield from our assessment because it was acquired in a business combination in the third quarter 2018. Northfield represented approximately 10% of our total assets at September 30, 2018 and approximately 23% and 9% of our total revenues for the three and nine months ended September 30, 2018, respectively. There were no other changes in our internal control over financial reporting during the quarter ended September 30, 2018 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II. OTHER INFORMATION

Item 1. Legal Proceedings

Pursuant to the Master Contribution Agreement (the “MCA”), any liability arising from or relating to legal proceedings involving the businesses and operations located at MGM’s real property holdings prior to April 25, 2016 have been retained by MGM and MGM will indemnify us (and our subsidiaries, directors, officers, employees and agents and certain other related parties) against any losses we may incur arising from or relating to such legal proceedings.

From time to time, we are a party to various claims and routine litigation arising in the ordinary course of business. As of September 30, 2018, we do not believe that the results of any such claims or litigation, individually or in the aggregate, will have a material adverse effect on our business, financial position, results of operations or cash flows.

Item 1A. Risk Factors

A description of certain factors that may affect our future results and risk factors is set forth in our Annual Report on Form 10-K for the year ended December 31, 2017. Except as discussed below, there have been no material changes from the risk factors previously disclosed in our 2017 Annual Report on Form 10-K.

We may be unable to complete the disposition of Northfield OpCo or may not consummate it on the terms described herein. On September 18, 2018, MGP entered into an agreement to sell Northfield OpCo to a subsidiary of MGM (such sale, the “Northfield OpCo Disposition”). Although the sale of Northfield OpCo is expected to close in the first half of 2019, the consummation of the transaction is subject to certain customary regulatory and other closing conditions, which makes its completion and timing uncertain. Accordingly, there can be no assurance that the sale of Northfield OpCo will be consummated on the anticipated schedule or at all. If we are unable to sell the Northfield OpCo to MGM, we may be required to identify a new purchaser and renegotiate the sale of the Northfield OpCo, and any such new sale would also be subject to new regulatory and other conditions. Such renegotiation and conditions and the process of obtaining regulatory approvals could have the effect of delaying or impeding consummation of the sale of Northfield OpCo or imposing additional costs or limitations on us following completion of the sale of

Northfield OpCo. A delay or failure to sell Northfield OpCo to MGM or any other potential purchaser could have a material adverse effect on our business, financial position or results of operations.

Our ownership of the TRS, which we formed in connection with the Northfield Acquisition, will be subject to limitations, and a failure to comply with the limits could jeopardize our REIT qualification. We acquired Northfield using a TRS. This TRS will earn income that would not be qualifying income if earned directly by us. No more than 20% of the value of a REIT's assets

may consist of stock and securities of one or more TRSs. In addition, the TRS rules impose a 100% excise tax on certain transactions between a TRS and us that are not conducted on an arm's-length basis.

Our TRS will pay U.S. federal, state and local income tax at regular corporate rates on its taxable income, including any gains that may result from selling the operating assets, and its after-tax net income would be available for distribution to us but will not be required to be distributed to us by such TRS. We will monitor the value of our interests in the TRSs (and any other TRSs that we may form in the future) to ensure compliance with the rule that no more than 20% of the value of our assets may consist of TRS stock and securities (which is applied at the end of each calendar quarter). In addition, we will scrutinize all of our transactions with our TRSs (and any other TRSs that we may form in the future) to ensure that they are entered into on arm's length terms to avoid incurring the 100% excise tax described above. There can be no assurance, however, that we will be able to comply with the TRS limitations or to avoid application of the 100% excise tax discussed above.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 6. Exhibits

4.1 Second Supplemental Indenture to the Indentures, dated as of July 10, 2018, among Northfield Park Associates LLC, Cedar Downs OTB, LLC, MGP Finance Co-Issuer, Inc. and MGM Growth Properties Operating Partnership LP.
