Item 7.01 Regulation FD Disclosure

The following information is furnished under Item 7.01 - Regulation FD Disclosure:

During the first quarter of 2018, we announced organizational changes that combined our U.S. and International consumer businesses into a global consumer services organization, and combined our merchant and network-related businesses, among other changes. Our financial disclosures will reflect these organizational changes starting in the second quarter of 2018, which is consistent with when our executives began to review financial information aligned to the new segments. Our new reportable operating segments are as follows:

Global Consumer Services Group (GCSG), which primarily issues a wide range of proprietary consumer cards § globally. GCSG also provides services to consumers, including travel services and non-card financing products, and manages certain international joint ventures and our partnership agreements in China.

Global Merchant and Network Services (GMNS), which operates a global payments network that processes and settles card transactions, acquires merchants and provides multi-channel marketing programs and capabilities, § services and data analytics, leveraging our global integrated network. GMNS enters into partnership agreements with third-party card issuers and acquirers, licensing the American Express brand and extending the reach of the global network. GMNS also manages loyalty coalition businesses in certain countries around the world and our reloadable prepaid and gift card businesses.

Global Commercial Services (GCS), which primarily issues a wide range of proprietary corporate and small business § cards and provides payment and expense management services globally. In addition, GCS provides commercial financing products.

Certain preliminary financial and other information reflecting the realignment of our segments is attached to this report as Exhibit 99.1 and is incorporated herein by reference. Such information is being furnished in order to assist investors in understanding how our business segment results would historically have been presented had such results been reported to reflect the manner in which our business segments are managed effective for the second quarter of 2018. Such information does not represent a restatement of previously-issued consolidated financial statements, but rather represents a reclassification among our segments, and does not affect reported net income, earnings per share, total assets, stockholders' equity or regulatory capital for any of the previously reported periods.
