National Grid plc ('NG') - Notice of Blackout Trading Restriction under Sarbanes-Oxley

In accordance with 17 CFR Section 245.104, NG confirms that the following notice was issued to Executive Directors on 11 July 2005 (by Helen Mahy, Group Company Secretary and General Counsel, as contact):

'B Share Scheme - Notice of Blackout Trading Restriction under Sarbanes-Oxley

As you are aware, a share capital consolidation of the ordinary shares of National Grid Transco plc (the "Company") will occur following the close of business on 29 July 2005. Because of issues relating to the processing of this share capital consolidation as it pertains to the Company's American Depositary Receipts ("ADRs"), a temporary trading blackout on dealings in the ADRs will be imposed on participants in the Company's US Thrift 401(k) Plan. A copy of the blackout notice that was delivered to all such participants is attached explaining in detail the nature of the transactions that will be temporarily suspended during the blackout period. The blackout period is expected to commence immediately following the close of business on 27 July 2005, and to continue until the opening of business on 9 August 2005.

Because the blackout period lasts for more than three consecutive business days, it is unlawful, under Section 306(a)(1) of the Sarbanes-Oxley Act of 2002 and Regulation BTR promulgated by the United States Securities and Exchange Commission thereunder, for any executive director or executive officer (which is defined as the principal executive officer or officers, principal financial officer or officers, and principal accounting officer or officers) of the Company, during the blackout period, to engage, directly or indirectly, in any purchase, sale or other acquisition or transfer of any equity security of the Company, if

such equity security is acquired or was previously acquired in connection with such director's or officer's service or employment as a director or executive officer. For purposes of this prohibition, the term "equity security" includes derivative securities such as options, warrants, convertible securities, stock appreciation rights or similar rights with an exercise or conversion privilege at a price related to an equity security, and similar securities with a value derived from the value of an equity security.

Regulation BTR provides that any sale or other transfer of an equity security of the Company during the blackout period will be presumed to be a transaction involving an equity security acquired in connection with service or employment as a director or executive officer of this Company; this presumption may be rebutted under certain circumstances that are set forth in Regulation BTR.

Please note:-

The prohibition does not apply to Non-Executive Directors or the Chairman.

The prohibition does not prevent you from making elections in relation to the B share alternatives.

The prohibition does not prevent shares being acquired for you under the NGT SIP (SIP shares are normally acquired around the 7th of each month).'
