Item 5. Other Events

This information is being provided under Item 12 of Form 8-K.

The Company today issued the following press release:

First National Lincoln Corporation Reports
Record Earnings for 2003, Up 13.3% Over Prior Year

DAMARISCOTTA, ME., January 21 -- First National Lincoln Corporation (Nasdaq NM: FNLC), today announced earnings per share of \$2.99 on a fully diluted basis for the year ended December 31, 2003, an increase of \$0.35 or 13.3% over the \$2.64 reported for 2002. Net income for the year ended December 31, 2003, was \$7,427,000, an increase of \$920,000 or 14.1% over the \$6,507,000 posted in 2002. Both earnings per share and net income reported by the Company for the year set new records in 2003.

The Company also announced earnings per share of \$0.80 on a fully diluted basis for the quarter ended December 31, 2003, an increase of \$0.11 or 15.9% over the \$0.69 reported for the same period in 2002. Net income for the fourth quarter was \$2,007,000, an increase of \$308,000 or 18.1% over the \$1,699,000 posted in the fourth quarter of 2002.

Total assets were \$568.8 million at December 31, 2003 -- an increase of 15.1% over December 31, 2002. Loans totaled \$398.9 million, up 20.1% or \$66.8 million over December 31, 2002, while investments increased by 12.0% to \$136.7 million. Deposits of \$359.1 million were up 7.4% over the prior year. As of December 31, 2003, First National Lincoln Corporation had total equity of \$47.7 million, an increase of 11.8% or \$5.0 million over December 31, 2002.

"I am very pleased to report that 2003 was another great year for First National Lincoln Corporation," commented the Company's President and Chief Executive Officer, Daniel R. Daigneault. "Loan growth was definitely the key component in our 2003 results, with total loans increasing \$66.8 million or 20.1% over December 31, 2002's volumes. We experienced excellent growth in most loan categories, including commercial loans, home equity loans, and residential mortgage loans, and at the same time our credit quality remains excellent with historically low loan losses and delinquencies.

"Record-low interest rates in 2003 spurred many homeowners to refinance their mortgages," President Daigneault continued, "and this led to higher non-interest income from the sale of mortgage loans to the secondary market. During 2003, we originated and sold \$55.5 million in mortgage loans, and at year-end, the volume of residential mortgage loans that we have sold and continue to service had increased over year-end 2002 by \$17.8 million to \$87.9 million. At the same time we saw excellent growth in other areas of non-interest income, including asset management fees from Pemaquid Advisors as well as service charges and fees.

"While revenue growth was certainly very good in 2003," President Daigneault said, "controlling our operating expenses also made a significant contribution to our increased profits. Salaries and benefits, which account for more than half of our operating expenses, increased only a modest 4.4%, while we saw lower expenses in a number of other areas when compared to 2002. The net result is that operating expenses in 2003 were only \$55,000 or 0.5% higher than in 2002. This is reflected in our excellent efficiency ratio -- a measure of how much is spent to generate one dollar in income -- which at 0.48 for 2003 is the best we have ever achieved.

"All of these accomplishments in 2003 are consistent with our profitability strategy which was outlined in the Company's 2002 Annual Report," President Daigneault went on. "Since we operate on narrower net interest margins than our peers, asset growth and operating efficiency are critical if we are to produce financial results that are consistently well-above those of our peers. Fortunately, our net interest margin for the year remained at a reasonable level as a result of planned repricing of a large block of wholesale

Edgar Filing: FIRST NATIONAL LINCOLN CORP /ME/ - Form 8-K

funding at mid-year."

"First National Lincoln Corporation's shares closed the year at \$49.90, close to the all-time high of \$51.05 set earlier in December," observed F. Stephen Ward, the Company's Treasurer and Chief Financial Officer. "Our shareholders were certainly well-rewarded in 2003 for their investment in the Company, with our price per share increasing \$18.42 or 58.5% over the \$31.48 closing price on December 31, 2002. When combined with dividends declared of \$1.14 per share that were reinvested in our stock, the total return on FNLC shares was 63.3%. Based upon our December 31, 2003 closing price of \$49.90, our trailing-twelve-month price-to-earnings ratio was 16.7, and our dividend yield was 2.4%.

"For the second year in a row," Mr. Ward continued, "First National Lincoln Corporation was the top-performing stock of all Maine-based banks listed on a major exchange. When compared to the broader market, FNLC's total return of 63.3% is significantly higher than 2003's total return of 28.7% for the S&P 500 and 33.0% for the Nasdaq Bank Index. These results assume that all dividends were reinvested in the index."

"Looking back over the past ten years, FNLC's shareholders have been rewarded with stock performance that has significantly outperformed both indices," President Daigneault concluded. "If you had invested \$100.00 in First National Lincoln Corporation on December 31, 1993, ten years later it would have been worth \$1,262.82 on December 31, 2003. This compares to \$285.49 for the S&P 500 and \$473.98 for the Nasdaq Bank Index for the same period. In my view, this performance has been driven by the consistent results we have produced each year, as evidenced in our return on average equity, which has averaged 15.5% for the past ten years and has been above the important 15.0% threshold in eight of those ten years. It is because of this consistent performance that I continue to see First National Lincoln Corporation as an excellent investment opportunity."

First National Lincoln Corporation, headquartered in Damariscotta, Maine, is the holding company for The First National Bank of Damariscotta and Pemaquid Advisors. The First is an independent community bank serving Mid-Coast Maine with seven offices in Lincoln and Knox Counties that provide consumer and commercial banking products and services. Pemaquid Advisors provides investment advisory, private banking and trust services from offices in Damariscotta, Boothbay Harbor, and Portland, Maine.
