United States District Court for the Western District of Washington

On May 21, 2003, the Port of Seattle, Washington (Port) filed a complaint in the United States District Court for the Western District of Washington against Portland General Electric Company (PGE, or the Company) and sixteen other companies (Defendants) alleging violation of both the Sherman Act and the Racketeer Influenced and Corrupt Organization Act, fraud, and, with respect to Puget Energy, Inc. and Puget Sound Energy, Inc., breach of contract. The complaint alleges that the price of electric energy purchased by the Port between November 1997 and June 2001 under a contract with Puget Sound Energy, Inc. was unlawfully fixed and artificially increased through various actions alleged to have been undertaken in the Pacific Northwest power markets among Defendants and Enron Corp., Enron Energy Services, Inc., Enron North America Corp., Enron Power Marketing, Inc., and others. The complaint alleges actual damages of \$30.5 million suffered by the Port and seeks recovery of that amount, plus punitive damages and reasonable attorney fees.

FERC Investigations - Wholesale Power Markets

Enron Trading Strategies

With respect to the Federal Energy Regulatory Commission (FERC) investigation (Docket No. EL02-114-000) of PGE and Enron Power Marketing, Inc. related to possible violations of the companies' codes of conduct, the FERC's standards of conduct, and the companies' market-based rate tariffs, the hearing scheduled for June 2, 2003 has been delayed to October 21, 2003, with the initial decision scheduled on or before December 19, 2003.

Financing Activities

On May 28, 2003, PGE completed a new \$150 million 364-day revolving credit facility with a group of commercial banks. This facility replaces separate \$72 million and \$150 million facilities scheduled to expire in June 2003 and July 2003, which were terminated upon execution of the new agreement. Under the new credit facility, PGE has the option to use letters of credit, in addition to borrowings, totaling up to the \$150 million. The new facility is secured by First Mortgage Bonds issued by the Company and prohibits the payment of any cash dividends by PGE on its common stock.

Existing cash and short-term investments, along with cash provided by operations, have currently replaced the use of commercial paper in meeting the Company's day-to-day requirements. Management believes that the Company has sufficient liquidity to meet such requirements.
