CAUTIONARY STATEMENT

This Quarterly Report contains “forward-looking statements” as defined in the Private Securities Litigation Reform Act of 1995. Forward-looking statements represent our management’s judgment regarding future events. In many cases, you can identify forward-looking statements by terminology such as “may,” “will,” “plan,” “expect,” “anticipate,” “estimate,” “believe,” or “continue” or the negative of these terms or other similar words. Actual results and events could differ materially and adversely from those contained in the forward-looking statements due to a number of factors, including:

- economic changes in global markets where we do business, such as currency exchange rates, inflation rates, interest rates, recession, foreign government policies and other external factors that we cannot control;
 - unanticipated fluctuations in commodity prices and raw material costs;
 - cyclical downturns affecting the global market for capital goods;
- unexpected issues and costs arising from the integration of acquired companies and businesses;
- marketplace acceptance of new and existing products including the loss of, or a decline in business from, any significant customers;
 - the impact of capital market transactions that we may effect;
 - the availability and effectiveness of our information technology systems;
 - unanticipated costs associated with litigation matters;
 - actions taken by our competitors;

- difficulties in staffing and managing foreign operations;
- other risks and uncertainties including but not limited to those described in **Item 1A-Risk Factors** of the Company's Annual Report on Form 10-K filed on February 28, 2007 and from time to time in our reports filed with U.S. Securities and Exchange Commission.

All subsequent written and oral forward-looking statements attributable to us or to persons acting on our behalf are expressly qualified in their entirety by the applicable cautionary statements. The forward-looking statements included in this Form 10-Q are made only as of their respective dates, and we undertake no obligation to update these statements to reflect subsequent events or circumstances. See also **Item 1A - Risk Factors** in the Company's Annual Report on Form 10-K filed on February 28, 2007.

REGAL BELOIT CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2007
(Unaudited)

1. BASIS OF PRESENTATION

The accompanying (a) condensed consolidated balance sheet as of December 30, 2006, which has been derived from audited financial statements, and (b) unaudited interim condensed consolidated financial statements as of June 30, 2007 have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and note disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted pursuant to those rules and regulations, although the Company believes that the disclosures made are adequate to make the information not misleading.

It is suggested that these condensed consolidated financial statements be read in conjunction with the financial statements and the notes thereto included in the Company's Annual Report on Form 10-K filed on February 28, 2007.

In the opinion of management, all adjustments considered necessary for a fair presentation of financial results have been made. Except as otherwise discussed, such adjustments consist of only those of a normal recurring nature. Operating results for the six months ended June 30, 2007 are not necessarily indicative of the results that may be expected for the entire fiscal year ending December 29, 2007.

2. SHORT-TERM INVESTMENTS

Short-term marketable investments include investments with maturities of greater than three months and less than one year. Such marketable investments were classified as available-for-sale and are reported at fair market value and classified within Prepaid Expenses and Other Current Assets. Mark-to-market gains on such investments are not material.

3. INVENTORIES

Cost for approximately 83% of the Company's inventory is determined using the last-in, first-out (LIFO) inventory valuation method. The approximate percentage distribution between major classes of inventories was as follows:

	<u>June</u>	<u>December</u>
	<u>30,</u>	<u>30, 2006</u>
	<u>2007</u>	
Raw Material	12%	11%
Work-in	21%	21%
Process		
Finished	67%	68%
Goods and		
Purchased		
Parts		

4. ACQUISITIONS AND DIVESTITURES

On May 8, 2006, the Company completed the sale of substantially all of the assets of the Company's Regal Cutting Tools business to YG-1 Co. Ltd. for \$7.7 million. The Company recorded a net gain of \$0.2 million which was

included as a reduction of operating expenses.

On May 1, 2006, the Company completed the acquisition of selected assets and liabilities of Changzhou Sinya Electromotor Co. Ltd., Jiangsu Southern Sinya Electric Co. Ltd. and Changzhou Xiesheng Plastic Co. Ltd. (collectively "Sinya"). Sinya operations are located in Changzhou, China and primarily produce electric motors for the HVAC industry. The purchase price was approximately \$13.0 million.

[Return to Index](#)**5. COMPREHENSIVE INCOME**

The Company's comprehensive income for the second quarter and first six months of 2007 and 2006 was as follows:

	(In Thousands of Dollars)			
	Second Quarter Ending		Six Months Ending	
	June 30,	July 1, 2006	June 30,	July 1, 2006
	2007		2007	
Net income as reported	\$ 36,253	\$ 33,309	\$ 63,066	\$ 57,097
Comprehensive income (loss) from:				
Additional Pension Liability, net of tax	-	-	-	(13)
Translation adjustments	6,010	296	6,812	512
Changes in fair value of hedging activities, net of tax	(2,546)	2,641	(3,490)	4,628
Hedging activities reclassified into earnings from accumulated other comprehensive income ("AOCI"), net of tax	3,159	(529)	4,101	(3,924)
Amortization of net prior service costs and actuarial losses	189	-	356	-
Comprehensive income	\$ 43,065	\$ 35,717	\$ 70,845	\$ 58,300

6. WARRANTY COSTS

The Company recognizes the cost associated with its standard warranty on its products at the time of sale. The amount recognized is based on historical experience. The following is a reconciliation of the changes in accrued warranty costs for the second quarter and first six months of 2007 and 2006 (in thousands):

	Second Quarter Ending		Six Months Ending	
	June 30,	July 1,	June 30,	July 1,
	2007	2006	2007	2006
Beginning balance	\$ 5,445	\$ 5,652	\$ 6,300	\$ 5,679
Deduct: Payments	(1,840)	(1,761)	(3,454)	(3,120)
Add: Provision	2,423	1,618	3,182	2,950
Ending balance	\$ 6,028	\$ 5,509	\$ 6,028	\$ 5,509

7. BUSINESS SEGMENTS

The Company operates two strategic businesses that are reportable segments, Mechanical and Electrical (in thousands):

Edgar Filing: REGAL BELOIT CORP - Form 10-Q

(Unaudited)

	Mechanical Segment				Electrical Segment			
	Second Quarter		Six Months Ending		Second Quarter		Six Months Ending

Engineering Drawings	10	1,200	307	893
Customer Relationships	10	28,600	7,253	21,347
Total		\$ 57,369	\$ 17,213	\$ 40,156

Asset Description	Useful Life (years)	Gross Value	December 30, 2006 Accumulated Amortization	Net Book Value
Non-Compete Agreements	3 - 5	\$ 5,470	\$ 1,425	\$ 4,045
Trademarks	3 - 5	6,490	3,311	3,179
Patents	9 - 10.5	15,410	3,107	12,303
Engineering Drawings	10	1,200	247	953
Customer Relationships	10	28,600	5,823	22,777
Total		\$ 57,170	\$ 13,913	\$ 43,257

Estimated Amortization (in thousands)

<u>2007</u>	<u>2008</u>	<u>2009</u>	<u>2010</u>	<u>2011</u>
\$ 7.1	\$ 6.3	\$ 5.9	\$ 5.5	\$ 4.7

Amortization expense recorded for the three and six months ended June 30, 2007 was \$1.7 million and \$3.5 million, respectively. The Company performs an annual evaluation of goodwill and other intangible assets in the fourth quarter of each fiscal year for impairment as required by SFAS 142, "Goodwill and Other Intangible Assets".

9. DEBT AND BANK CREDIT FACILITIES

The Company's indebtedness, excluding commercial paper borrowings, as of June 30, 2007 and December 30, 2006 was as follows (in thousands):

	June 30, 2007	December 30, 2006
Revolving credit facility	\$ 165,600	\$ 197,200
Convertible senior subordinated debt	115,000	115,000
Other	20,047	12,122
	300,647	324,322
Less: Current maturities	(8,544)	(376)
Non-current portion	\$ 292,103	\$ 323,946

During the quarter ended June 30, 2007, the Company amended its revolving credit facility ("Facility"). The committed amount of the Facility increased from \$475.0 million to \$500.0 million. The conditional commitment, subject to certain approvals and covenants, increased from \$75.0 million to \$200.0 million. The Facility permits the Company to borrow at interest rates (5.8% at June 30, 2007) based upon a margin above the London Inter-Bank Offered Rate ("LIBOR"), which margin varies with the ratio of total funded debt to earnings before interest, taxes, depreciation and amortization ("EBITDA"). These interest rates also vary as LIBOR varies. We pay a commitment fee on the unused amount of the Facility, which also varies with the ratio of our total debt to our EBITDA. The Facility requires us to meet specified financial ratios and to satisfy certain financial condition tests. We were in compliance with all debt covenants as of June 30, 2007.

[Return to Index](#)

There was \$9.7 million of commercial paper borrowings outstanding at June 30, 2007, all of which had original maturity terms of 90 days or less, and had a weighted interest rate of 5.5%. Total commercial paper outstanding cannot exceed \$50.0 million under the terms of the Facility. The Facility provides the liquidity backstop for outstanding commercial paper. Accordingly, the combined outstanding balances of the Facility and commercial paper cannot exceed \$500.0 million.

The Company's \$115.0 million, 2.75% convertible senior subordinated debt is convertible as the closing price of the Company's common stock exceeded the contingent conversion share price for the specified amount of time. As a result, holders of the notes may surrender the notes for conversion at any time until the maturing of the bonds in March 2024. Holders that exercise their right to convert the notes will receive up to the principal amount of the notes in cash, with the balance of the conversion obligation, if any, to be satisfied in shares of Company common stock or cash, at the Company's discretion. No notes have been converted into cash or shares of common stock as of June 30, 2007.

As of June 30, 2007, a foreign subsidiary of the Company had outstanding \$8.2 million denominated in U.S. dollars. The borrowings were made under a \$15.0 million unsecured credit facility which expires in December 2008. The notes are all short term and bear interest at a margin over LIBOR.

10. PENSION PLANS

As of December 30, 2006, the Company adopted SFAS No. 158, *Employer's Accounting for Defined Benefit Pension and Other Postretirement Plans*. The Company's net periodic pension cost is comprised of the following components:

	(In Thousands)			
	Second Quarter Ending		Six Months Ending	
	June 30, 2007	July 1, 2006	June 30, 2007	July 1, 2006
Service cost	\$ 1,215	\$ 940	\$ 2,422	\$ 1,880
Interest cost	1,267	1,048	2,534	2,188
Expected return on plan assets	(1,282)	(1,225)	(2,565)	(2,450)
Amortization of prior service cost	31	123	63	246
Amortization of net actuarial loss	238	868	477	3,170
Net periodic benefit expense	\$ 1,469	\$ 1,754	\$ 2,931	\$ 5,034

The estimated net actuarial loss and prior service cost for defined benefit pension plans that will be amortized from accumulated other comprehensive income into net periodic benefit cost during the 2007 fiscal year is \$1.0 million and \$0.1 million, respectively.

In the second quarter of 2007 and 2006, the Company contributed \$0.1 million, and \$0.3 million, respectively, to defined benefit pension plans. Contributions to defined benefit pension plans for the six months ended June 30, 2007 and July 1, 2006 were \$0.2 million and \$0.4 million, respectively. The Company expects to contribute an additional \$1.0 million, for total contributions of \$1.2 million in 2007. The Company contributed a total of \$3.0 million in 2006. The assumptions used in the valuation of the Company's pension plans and in the target investment allocation have remained the same as those disclosed in the Company's Annual Report on Form 10-K filed on February 28, 2007.

11. SHAREHOLDERS' INVESTMENT

The Company recognized approximately \$1.0 million and \$0.9 million in share-based compensation expense during the second quarter of 2007 and 2006, respectively. Share-based compensation expense for the six months ended June 30, 2007 and July 1, 2006 was \$1.9 million and \$1.7 million, respectively. The total income tax benefit recognized relating to share-based compensation for the six months ended June 30, 2007 and July 1, 2006 was approximately \$6.6 and \$1.8 million, respectively. The Company recognizes compensation expense on grants of share-based compensation awards on a straight-line basis over the vesting period of each award recipient. As of June 30, 2007, total unrecognized compensation cost related to share-based compensation awards was approximately \$11.1 million, net of estimated forfeitures, which the Company expects to recognize over a weighted average period of approximately 3.0 years.

[Return to Index](#)

On April 20, 2007, shareholders approved the 2007 Regal Beloit Corporation 2007 Equity Incentive Plan (“2007 Plan”), which authorized an additional 2.5 million shares for issuance under the 2007 Plan. Under the 2007 Plan and the Company’s 2003 and 1998 stock plans, the Company was authorized as of June 30, 2007 to deliver up to 5.0 million shares of common stock upon exercise of non-qualified stock options or incentive stock options, or upon grant or in payment of stock appreciation rights, and restricted stock. Approximately 2.8 million shares were available for future grant or payment under the various plans at June 30, 2007.

On April 20, 2007, the Company’s shareholders approved an amendment to the Company’s Articles of Incorporation that increased the number of shares of common stock that the Company is authorized to issue from 50 million shares to 100 million shares. Each authorized share is accompanied by one Common Stock Purchase Right as described in our Annual Report on Form 10-K filed on February 28, 2007.

Share-based Incentive Awards

The Company uses several forms of share-based incentive awards, including non-qualified stock options, incentive stock options and stock appreciation rights (SAR’s). All grants are made at prices equal to the fair market value of the stock on the grant dates, and expire ten years from the grant date.

The majority of the Company’s annual option and SAR incentive awards are made in the second quarter. The per share weighted average fair value of share-based incentive awards granted in the May, 2007 annual grant was \$16.68. The fair value of the awards is estimated on the date of the grant using the Black-Scholes pricing model and the following assumptions: risk-free interest rate of 4.7%, expected dividend yield of 1.2%, expected volatility of 32.0% and an estimated life of 7 years.

A summary of share-based awards (options and SAR’s) as of June 30, 2007 is as follows:

	Shares	Wtd. Avg. Exercise Price	Wtd. Avg. Remaining Contractual Term (years)	Aggregate Intrinsic Value (in millions)
Number of shares:				
Outstanding	1,498,675	\$ 31.19	6.3	\$ 23.3
Exercisable	706,925	\$ 23.32	4.8	\$ 16.4

Restricted Stock

The Company also granted a total of 31,500 restricted stock awards to certain employees during the six-months ended June 30, 2007. Restrictions generally lapse three years after the date of grant. The Company values restricted stock awards at the closing market value of its common stock on the date of grant.

12. INCOME TAXES

The Company adopted Financial Accounting Standards Board Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48) as of the beginning of fiscal 2007, December 31, 2006. FIN 48 clarifies the accounting for uncertainty in income taxes by defining criteria that a tax position on an individual matter basis must meet before that position is recognized in the financial statements. Additionally, FIN 48 provides guidance on measurement, derecognition, classification, interest and penalties, interim period accounting, disclosures and transition. As a result

of adopting FIN 48, the Company determined that approximately \$0.6 million (including approximately \$0.4 million in estimated interest payments) of tax benefits previously recognized were considered uncertain tax positions; as such these deductions may not be sustained upon examination by taxing authorities. This adjustment was reflected as a reduction of retained earnings. In addition, consistent with the provisions of FIN 48, the Company reclassified \$6.9 million of income tax liabilities from current to non-current liabilities because payment of cash is not anticipated within one year of the balance sheet date. As a result of the adoption of FIN 48, certain tax liabilities as of December 30, 2006 were reclassified in the condensed consolidated balance sheet. Income tax liabilities of \$6.3 million were reclassified from current liabilities to non-current liabilities. In addition, \$5.9 million of prepaid taxes were reclassified from current liabilities to current assets in the December 30, 2006 comparative condensed consolidated balance sheet.

As of the adoption date at the beginning of the fiscal year and at June 30, 2007, the Company had approximately \$6.9 million of unrecognized tax benefits, \$3.3 million of which would affect its effective tax rate if recognized. The Company recognizes interest and penalties related to uncertain tax positions in income tax expense.

The Company or one of its subsidiaries files income tax returns in the U.S. federal jurisdiction, and various states and foreign jurisdictions. Federal tax returns from 2003 through 2006 and various state tax returns from 2001 through 2006 remain subject to income tax examinations by tax authorities. The Company estimates that the unrecognized tax benefits will not change significantly within the next year.

[Return to Index](#)**13. EARNINGS PER SHARE (EPS)**

The numerator for the calculation of basic and diluted earnings per share is net income. The denominator is computed as follows (in thousands):

	Second Quarter Ending		Six Months Ending	
	June 30, 2007	July 1, 2006	June 30, 2007	July 1, 2006
Denominator for basic EPS - weighted average	31,547	30,816	31,181	30,759
Effect of dilutive securities	2,631	2,829	2,682	2,543
Denominator for diluted EPS	34,178	33,645	33,863	33,302

Options for common shares where the exercise price was above the market price at June 30, 2007, totaling approximately 133,000 shares, have been excluded from the calculation of the effect of dilutive securities as the effect of such options is anti-dilutive. There were 14,500 anti-dilutive option shares outstanding at July 1, 2006.

14. CONTINGENCIES

An action (the "Action") was filed on June 4, 2004, and amended in September 2004, against one of the Company's subsidiaries, Marathon Electric Manufacturing Corporation ("Marathon"), by Enron Wind Energy Systems, LLC, Enron Wind Contractors, LLC and Zond Minnesota Construction Company, LLC (collectively, "Enron Wind"). The Action was filed in the United States Bankruptcy Court for the Southern District of New York (the "Court") where each of the Enron Wind entities has consolidated its Chapter 11 bankruptcy petition as part of the Enron Corporation bankruptcy proceedings. In the Action, Enron Wind has asserted various claims relating to the alleged failures and/or degradations of performance of about 564 generators sold by Marathon to Enron Wind from 1997 to 1999. In January 2001, Enron Wind and Marathon entered into a "Generator Warranty and Settlement Agreement and Release of All Claims" ("Warranty Agreement"). This Warranty Agreement resolved various issues related to past performance of the generators, provided a limited warranty related to the generators going forward, and contained a release by all parties of any claims related to the generators other than those arising out of the obligations contained in the Warranty Agreement.

Enron Wind is seeking to recover the purchase price of the generators and transportation costs totaling about \$21 million. In addition, although the Warranty Agreement contains a waiver of consequential, incidental, and punitive damages, Enron Wind claims that this limitation is unenforceable and seeks recovery of consequential, incidental and punitive damages incurred by it and by its customers, totaling an additional \$100 million. Enron Wind has asserted claims of breach of contract, breach of the implied covenant of good faith and fair dealing, promissory fraud, and intentional interference with contractual relations.

On July 30, 2007, Marathon entered into a settlement agreement with Enron Wind to resolve all matters alleged by Enron Wind in the Action. Under the terms of the settlement agreement, Enron Wind will fully release and discharge Marathon from all claims relating to the Action and, in exchange, Enron Wind will receive a monetary payment. After contributions from other involved parties, the pre tax impact of Marathon's portion of the payment under the settlement agreement would be approximately \$1.8 million. The settlement agreement is subject to approval by the Court. Marathon expects that a motion to approve the settlement agreement will be filed by Enron Wind with

the Court in the near future and that, subject to scheduling, the Court will take action on the motion during the third quarter of 2007.

Marathon has denied and continues to deny all the allegations asserted in the Action. If the settlement agreement is not approved by the Court, then Marathon will continue to defend vigorously all of the claims asserted in the Action.

On April 26, 2007, the Company received notice that the U.S. Environmental Protection Agency (“U.S. EPA”) has filed an action against the Company in the United States District Court for the Northern District of Illinois seeking reimbursement of the U.S. EPA’s unreimbursed past and future remediation costs incurred in cleaning up an environmental site located near a former manufacturing facility of the Company in Illinois. In 1999, the Company and other parties identified as potentially responsible parties (“PRPs”) reached an agreement with the U.S. EPA to partially fund the costs of certain response actions taken with respect to this site. In 2004, the Company received communications from the U.S. EPA indicating that the Company was identified as one of three PRPs regarding additional remedial actions to be taken by the U.S. EPA at this site. In response, the Company provided to the U.S. EPA its environmental expert’s assessment of the site in 2004. The Company believes that it is not a PRP with respect to the site in question and intends to defend vigorously the associated claim. As of June 30, 2007 amounts that have been recorded in the Company’s financial statements related to this contingency are immaterial.

[Return to Index](#)

The Company is, from time to time, party to other lawsuits arising from its normal business operations. It is believed that the outcome of these lawsuits will have no material effect on the Company's financial position or its results of operations.

15. DERIVATIVE INSTRUMENTS

The Company periodically enters into commodity futures and options hedging transactions to reduce the impact of changing prices for certain commodities, such as copper and aluminum, based upon certain firm commitments to purchase such commodities. These transactions are designated as cash flow hedges and the contract terms of commodity hedge instruments generally mirror those of the hedged item, providing a high degree of risk reduction and correlation. Derivative commodity assets of \$2.8 million and \$1.7 million are recorded in current assets as of June 30, 2007 and December 30, 2006, respectively. The value of the effective portion of the contracts of \$1.6 million net of tax and \$1.0 million net of tax, as of June 30, 2007 and December 30, 2006, was recorded in accumulated other comprehensive income ("AOCI").

The Company uses a cash flow hedging strategy to protect against an increase in the cost of forecasted foreign currency denominated transactions. As of June 30, 2007, derivative currency assets of \$2.5 million and \$0.8 million are recorded in other current assets and other non-current assets, respectively. At December 30, 2006, derivative currency assets of \$2.2 million and \$1.0 million were recorded in other current assets and other non-current assets, respectively. The value of the effective portion of the contracts of \$2.0 million net of tax as of June 30, 2007 and December 30, 2006, was recorded in AOCI.

Of the net unrealized gain of \$3.6 million in AOCI at June 30, 2007, \$3.1 million is expected to be realized in the next year. The impact of hedge ineffectiveness was immaterial for all periods.

16. SUBSEQUENT EVENTS

On July 3, 2007, the Company signed an agreement to acquire certain assets of the FASCO Residential/Commercial operations, and the stock of the FASCO Asia/Pacific operations of the Tecumseh Products Company. The transaction is valued at approximately \$220.0 million and is expected to close in the third quarter of 2007 subject to required approvals.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Unless the context requires otherwise, references in this Item 2 to "we", "us", "our" or the "Company" refer collectively to Regal Beloit Corporation and its subsidiaries.

OVERVIEW

End markets for the Company's products continued to show strength during the second quarter of 2007. Net sales increased 5.6% to \$459.8 million from \$435.3 million in the second quarter of 2006.

Net income increased 8.8% to \$36.3 million in the second quarter of 2007 as compared to \$33.3 million in the comparable period last year. Diluted earnings per share increased 7.1% to \$1.06 in the second quarter of 2007 as compared to \$0.99 for the comparable period of 2006.

RESULTS OF OPERATIONS

Second Quarter 2007 versus Second Quarter 2006

Sales for the quarter were \$459.8 million, a 5.6% increase over the \$435.3 million reported for the second quarter of 2006. Second quarter 2007 sales included \$27.3 million of sales related to the Sinya motor business as compared to \$10.2 million in the period from acquisition on May 1, 2006 through July 1, 2006. Second quarter 2006 sales also included \$1.7 million of sales related to the Company's cutting tools business. Substantially all of the assets of the Company's cutting tools business were sold in May 2006.

In the Electrical Segment, sales increased 6.1%. The soft housing market and a comparison to a strong 2006 that was favorably impacted by the SEER 13 legislation impacted sales in the HVAC business, which decreased 10.7%. The sales for the remainder of the motor businesses increased 19.1%, including \$27.3 million of sales attributable to the Sinya motor business acquired in the second quarter of 2006. Sales for the power generation businesses increased 22.3%. Sales in the Mechanical Segment increased 2.1%, however, second quarter 2006 sales also included \$1.7 million of sales related to the Company's cutting tools business. Substantially all of the assets of the Company's cutting tools business were sold in May 2006.

Return to Index

Gross margin for the quarter was 22.6%, compared to 23.9% in the second quarter of 2006. Material costs, specifically copper and aluminum, continued to increase and have a significant impact on our gross margins during the quarter. These costs were partially offset by new products, productivity, pricing actions and positive product mix resulting in a net 1.3% decrease in gross margin.

Operating expenses were \$43.8 million (9.5% of sales) in the second quarter of 2007 versus \$46.2 million (10.6% of sales) in second quarter of 2006. Income from operations was \$60.1 million versus \$57.9 million in the second quarter of 2006, an increase of 3.8%. As a percent of sales, income from operations was 13.1% in the second quarter of 2007 versus 13.3% for the second quarter of 2006. This decrease reflected increased raw material costs partially offset by contributions from new products, pricing actions, productivity, and the leveraging of fixed costs.

Net interest expense was \$4.2 million versus \$5.3 million in the second quarter of 2006. The decrease reflected lower levels of debt outstanding, which was partially offset by higher interest rates.

The tax rate for the quarter was 34.0% versus 35.9% in the prior year period. The tax rate was impacted by the distribution of income, which was weighted more to lower tax rate countries than during the comparable period of 2006.

Net income for the second quarter of 2007 was \$36.3 million, an increase of 8.8% versus the \$33.3 million reported in same period of 2006. Fully diluted earnings per share was \$1.06 as compared to \$0.99 per share reported in the second quarter of 2006. The average number of diluted shares was 34,177,529 during the second quarter of 2007 as compared to 33,644,909 during the comparable period last year.

Six Months Ended June 30, 2007 versus Six Months Ended July 1, 2006

Sales for the six months ended June 30, 2007 were \$878.4 million, which is a 5.4% increase over the \$833.6 million reported for the comparable period of 2006. The sale of substantially all of the assets of the Company's cutting tool business (completed May 2006) reduced 2007 sales by approximately \$6.4 million. The Sinya motor business reported sales of \$45.2 million for the period ending June 30, 2007, as compared to \$10.2 million from the acquisition date of May 1, 2006 through July 1, 2006.

Excluding our HVAC business, we saw strong demand for our products throughout the first half of 2007, driven by strong end market activity. Electrical Segment sales increased 6.2% as compared to the first six months of 2006. Sales for this segment showed strength in all product lines except HVAC, which has been affected by a soft housing market in 2007 and comparisons with a strong 2006 that was favorably impacted by the SEER 13 legislation. Included in these results are the results for the Sinya motor business acquired on May 1, 2006. Mechanical Segment sales for the first six months of 2007 were comparable to sales for the first six months of the prior year; however sales for the six months ended July 1, 2006 included \$6.4 million of sales related to the Company's cutting tools business. Substantially all of the assets of the Company's cutting tools business were sold in May, 2006.

Gross margin for the six months ended June 30, 2007 was 22.9%, which is 0.8 percentage points lower than the comparable period of 2006. Material costs had a significant impact on the first six months of 2007, partially offset by the contribution from new products, productivity efforts, pricing actions and positive product mix across our entire business. The raw material cost increases resulted primarily from increases in the costs of copper and aluminum.

Operating expenses were \$93.7 million (10.7% of sales) versus \$95.8 million (11.5% of sales) in the comparable period of 2006. Included in operating expenses in the first half of 2006 was a second quarter \$1.6 million gain resulting from the sale of real property in the Mechanical Segment. Operating expenses for the first half of 2006 also

included \$2.0 million of incremental expense related to the Regal Beloit Supplemental Executive Retirement Plan resulting from a change in assumptions associated with retirement benefits for certain key executives. Income from operations was \$107.4 million versus \$101.5 million in the comparable period of 2006, an increase of 5.8%. As a percent of sales, income from operations was equal to the comparable period of 2006.

Net interest expense was \$9.2 million versus \$10.0 million in the comparable period of 2006. This decrease was driven by the lower level of debt outstanding, partially offset by an increase in interest rates.

LIQUIDITY AND CAPITAL RESOURCES

Our working capital was \$353.3 million at June 30, 2007, an 11.6% increase from \$316.6 million at year-end 2006. The \$36.7 million increase was driven by a \$54.0 million increase in accounts receivable resulting primarily from increased sales in the second quarter of 2007, a \$16.6 million increase in cash, partially offset by a \$25.5 million increase in accounts payable and a \$39.3 million decrease in inventories. The ratio of our current assets to our current liabilities ("current ratio") was 2.4:1 at June 30, 2007 as compared to 2.2:1 at year-end 2006.

Return to Index

Net cash provided by operating activities was \$100.1 million for the six months ended June 30, 2007 as compared to \$36.2 million in the comparable period of 2006. During the first six months of 2007, decreases in our inventories provided \$46.9 million more operating cash as compared to the comparable period of 2006. Net cash used in investing activities was \$20.3 million in the first six months of 2007 as compared to the \$23.6 million used in the prior year. Additions to property, plant and equipment were \$17.9 million in the first six months of 2007, which was equal to the comparable period of 2006. Our cash used in financing activities was \$64.4 million during the first six months of 2007 versus \$20.8 million used in the comparable period of 2006. The increase in cash used in financing activities is driven by a \$44.2 million increase in net debt repayments during the six months ended June 30, 2007 as compared to the first six months of 2006.

Our outstanding long-term debt decreased from \$323.9 million at December 30, 2006 to \$292.1 million at June 30, 2007. Of our total long-term debt, \$165.6 million was outstanding under our \$500.0 million unsecured revolving credit facility that expires on April 30, 2012 (the "Facility"). The Facility permits the Company to borrow at interest rates based upon a margin above the London Inter-Bank Offered Rate ("LIBOR"), which margin varies with the ratio of total funded debt to earnings before interest, taxes, depreciation and amortization ("EBITDA"). These interest rates also vary as LIBOR varies. We pay a commitment fee on the unused amount of the Facility, which also varies with the ratio of our total debt to our EBITDA. The Facility requires us to meet specified financial ratios and to satisfy certain financial condition tests. We were in compliance with all debt covenants as of June 30, 2007.

In addition to the Facility, at June 30, 2007, we also had \$115.0 million of convertible senior subordinated debt outstanding at a fixed interest rate of 2.75%, \$9.7 million of short-term commercial paper borrowings and \$11.8 million of other debt. At June 30, 2007, our borrowing availability under the Facility was \$319.1 million based on the Facility's credit limit. The Company's pending acquisition of certain assets of the FASCO division of Tecumseh Products Company which is discussed in Footnote 16 of the condensed consolidated financial statements, will utilize approximately \$220.0 million of our available Facility.

As of June 30, 2007, a foreign subsidiary of the Company had outstanding \$8.2 million denominated in U.S. dollars. The borrowings were made under a \$15.0 million unsecured credit facility which expires in December 2008. The notes are all short term and bear interest at a margin over LIBOR.

CRITICAL ACCOUNTING POLICIES

Revenue Recognition

We recognized revenue when all of the following have occurred: an agreement of sale exists; pricing is determinable; collection is reasonably assured; and product has been delivered and acceptance has occurred according to contract terms.

We use contracts and customer purchase orders to determine the existence of an agreement of sale. We use shipping documents and customer acceptance, when applicable, to verify delivery. We assess whether the sale price is subject to refund or adjustment, and we assess collectibility based on the creditworthiness of the customer as well as the customer's payment history.

Returns, Rebates and Incentives

Our primary incentive program provides distributors with cash rebates or account credits based on agreed amounts that vary depending on the end user or original equipment manufacturing (OEM) customer to whom our distributor ultimately sells the product. We also offer various other incentive programs that provide distributors and direct sale customers with cash rebates, account credits or additional products and services based on meeting specified program criteria. Certain distributors are offered a right to return product, subject to contractual limitations.

We record accruals for customer returns, rebates and incentives at the time of revenue recognition based primarily on historical experience. Adjustments to the accrual may be required if actual returns, rebates and incentives differ from historical experience or if there are changes to other assumptions used to estimate the accrual.

Impairment of Long-Lived Assets or Goodwill and Other Intangibles

We evaluate the recoverability of the carrying amount of long-lived assets whenever events or changes in circumstances indicate that the carrying amount of an asset may not be fully recoverable through future cash flows. We evaluate the recoverability of goodwill and other intangible assets with indefinite useful lives annually or more frequently if events or circumstances indicate that an asset might be impaired. We use judgment when applying the impairment rules to determine when an impairment is necessary. Factors that could trigger an impairment review include significant underperformance relative to historical or forecasted operating results, a significant decrease in the market value of an asset or significant negative industry or economic trends. We perform our annual impairment test in accordance with SFAS 142, *“Goodwill and Other Intangible Assets.”*

[Return to Index](#)

Retirement Plans

Approximately half of our domestic employees are covered by defined benefit pension plans with the remaining employees covered by defined contribution plans. Most of our foreign employees are covered by government sponsored plans in the countries in which they are employed. Our obligations under our domestic defined benefit plans are determined with the assistance of actuarial firms. The actuaries provide us with information and recommendations regarding such factors as withdrawal rates and mortality rates. The actuaries also provide us with information and recommendations from which management makes further assumptions on such factors as the long-term expected rate of return on plan assets, the discount rate on benefit obligations, and where applicable, the rate of annual compensation increases. Based upon the assumptions made, the investments made by the plans, overall conditions and movement in financial markets, particularly the stock market and how actual withdrawal rates, life-spans of benefit recipients, and other factors differ from assumptions, annual expenses and recorded assets or liabilities of these defined benefit plans may change significantly from year to year. Based on our annual review of actuarial assumptions as well as historical rates of return on plan assets and existing long-term bond rates, we set the long-term rate of return on plan assets at 8.5% and an average discount rate at 5.9% for our defined benefit plans as of December 30, 2006.

Income Taxes

We operate in numerous taxing jurisdictions and are subject to regular examinations by various U.S. Federal, state, and foreign jurisdictions for various tax periods. Our income tax positions are based on research and interpretations of the income tax laws and rulings in each of the jurisdictions in which we do business. Due to the subjectivity of interpretations of laws and rulings in each jurisdiction, the differences and interplay in tax laws between those jurisdictions as well as the inherent uncertainty in estimating the final resolution of complex tax audit matters, our estimates of income tax liabilities may differ from actual payments or assessments.

Use of Estimates and Assumptions

The preparation of our condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States requires the use of estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and the related disclosure of contingent assets and liabilities. Management bases its estimates on historical experience and on other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

New Accounting Pronouncements

In February 2007, Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standard (SFAS) No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities, Including an Amendment of FASB Statement No. 115* ("SFAS 159"). SFAS 159 permits entities to choose to measure many financial instruments and certain other items generally on an instrument-by-instrument basis at fair value that are not currently required to be measured at fair value. SFAS 159 is intended to provide entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. SFAS 159 is effective for the Company on January 1, 2008, although early adoption is permitted. If the Company elects to adopt SFAS 159 early, it would need to concurrently early adopt the provisions of Statement of Financial Accounting Standard No. 157, *Fair Value Measurements* ("SFAS 157"), which is described below. The Corporation is evaluating the provisions of SFAS 159.

In September 2006, the FASB issued SFAS 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans* ("SFAS 158"). SFAS 158 requires that companies prospectively recognize through Accumulated Other Comprehensive Income the over funded or under funded status of their defined benefit plans as an asset or liability in their balance sheets. The Company adopted SFAS 158 as of December 30, 2006.

In September 2006, the FASB issued SFAS 157, *Fair Value Measurements* (“SFAS 157”). SFAS 157 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. SFAS 157 will be effective beginning in fiscal 2008. We are evaluating the new standard to determine the effect on our financial statements and related disclosures.

In June 2006, the FASB issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (“FIN 48”). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise’s financial statements in accordance with FASB Statement No. 109, *Accounting for Income Taxes*. FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. The Company adopted FIN 48 in the first quarter of 2007. See Note 12 to the condensed consolidated financial statements.

[Return to Index](#)

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risk relating to the Company's operations due to changes in interest rates, foreign currency exchange rates and commodity prices of purchased raw materials. We manage the exposure to these risks through a combination of normal operating and financing activities and derivative financial instruments such as commodity cash flow hedges and foreign currency forward exchange contracts.

The Company is exposed to interest rate risk on certain of its short-term and long-term debt obligations used to finance our operations and acquisitions. At June 30, 2007, we had \$123.8 million of fixed rate debt and \$186.5 million of variable rate debt, the latter subject to interest rate risk. The variable rate debt is primarily under the Facility with an interest rate based on a margin above LIBOR. As a result, interest rate changes impact future earnings and cash flow assuming other factors are constant. A hypothetical 10% change in our weighted average borrowing rate on outstanding variable rate debt at June 30, 2007, would result in a change in after-tax annualized earnings of approximately \$0.6 million.

The Company periodically enters into commodity futures and options hedging transactions to reduce the impact of changing prices for certain commodities, such as copper and aluminum. Contract terms of commodity hedge instruments generally mirror those of the hedged item, providing a high degree of risk reduction and correlation.

We are also exposed to foreign currency risks that arise from normal business operations. These risks include the translation of local currency balances of foreign subsidiaries, intercompany loans with foreign subsidiaries and transactions denominated in foreign currencies. Our objective is to minimize our exposure to these risks through a combination of normal operating activities and the utilization of foreign currency contracts to manage our exposure on the transactions denominated in currencies other than the applicable functional currency. Contracts are executed with creditworthy banks and are denominated in currencies of major industrial countries. It is our policy not to enter into derivative financial instruments for speculative purposes. We do not hedge our exposure to the translation of reported results of foreign subsidiaries from local currency to United States dollars.

All hedges are recorded on the balance sheet at fair value and are accounted for as cash flow hedges, with changes in fair value recorded in accumulated other comprehensive income ("AOCI") in each accounting period. An ineffective portion of the hedge's change in fair value, if any, is recorded in earnings in the period of change. The impact due to ineffectiveness was immaterial for all periods included in this report.

Derivative commodity assets of \$2.8 million and \$1.7 million are recorded in current assets as of June 30, 2007, and December 30, 2006, respectively. The value of the effective portion of the contracts of \$1.6 million net of tax and \$1.0 million net of tax, as of June 30, 2007 and December 30, 2006, was recorded in accumulated other comprehensive income.

The Company uses a cash flow hedging strategy to protect against an increase in the cost of forecasted foreign currency denominated transactions. As of June 30, 2007, derivative currency assets of \$2.5 million and \$0.8 million are recorded in other current assets and other non-current assets, respectively. At December 30, 2006, derivative currency assets of \$2.2 million and \$1.0 million were recorded in other current assets and other non-current assets, respectively. The value of the effective portion of the contracts of \$2.0 million net of tax as of June 30, 2007, and December 30, 2006 was recorded in AOCI.

Of the net unrealized gain of \$3.6 million in AOCI at June 30, 2007, \$3.1 million is expected to be realized in the next year. The impact of hedge ineffectiveness was immaterial for all periods included in this report.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures. The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the period covered by this report. Based on such evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, the Company's disclosure controls and procedures were effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act.

Internal Control Over Financial Reporting. There were no changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II - OTHER INFORMATION

Items 3 and 5 are inapplicable and have been omitted.

ITEM 1. LEGAL PROCEEDINGS

An action (the “Action”) was filed on June 4, 2004, and amended in September 2004, against one of the Company’s subsidiaries, Marathon Electric Manufacturing Corporation (“Marathon”), by Enron Wind Energy Systems, LLC, Enron Wind Contractors, LLC and Zond Minnesota Construction Company, LLC (collectively, “Enron Wind”). The Action was filed in the United States Bankruptcy Court for the Southern District of New York (the “Court”) where each of the Enron Wind entities has consolidated its Chapter 11 bankruptcy petition as part of the Enron Corporation bankruptcy proceedings. In the Action, Enron Wind has asserted various claims relating to the alleged failures and/or degradations of performance of about 564 generators sold by Marathon to Enron Wind from 1997 to 1999. In January 2001, Enron Wind and Marathon entered into a “Generator Warranty and Settlement Agreement and Release of All Claims” (“Warranty Agreement”). This Warranty Agreement resolved various issues related to past performance of the generators, provided a limited warranty related to the generators going forward, and contained a release by all parties of any claims related to the generators other than those arising out of the obligations contained in the Warranty Agreement.

Enron Wind is seeking to recover the purchase price of the generators and transportation costs totaling about \$21 million. In addition, although the Warranty Agreement contains a waiver of consequential, incidental, and punitive damages, Enron Wind claims that this limitation is unenforceable and seeks recovery of consequential, incidental and punitive damages incurred by it and by its customers, totaling an additional \$100 million. Enron Wind has asserted claims of breach of contract, breach of the implied covenant of good faith and fair dealing, promissory fraud, and intentional interference with contractual relations.

On July 30, 2007, Marathon entered into a settlement agreement with Enron Wind to resolve all matters alleged by Enron Wind in the Action. Under the terms of the settlement agreement, Enron Wind will fully release and discharge Marathon from all claims relating to the Action and, in exchange, Enron Wind will receive a monetary payment. After contributions from other involved parties, the pre tax impact of Marathon’s portion of the payment under the settlement agreement would be approximately \$1.8 million. The settlement agreement is subject to approval by the Court. Marathon expects that a motion to approve the settlement agreement will be filed by Enron Wind with the Court in the near future and that, subject to scheduling, the Court will take action on the motion during the third quarter of 2007.

Marathon has denied and continues to deny all the allegations asserted in the Action. If the settlement agreement is not approved by the Court, then Marathon will continue to defend vigorously all of the claims asserted in the Action.

On April 26, 2007, the Company received notice that the U.S. Environmental Protection Agency (“U.S. EPA”) has filed an action against the Company in the United States District Court for the Northern District of Illinois seeking reimbursement of the U.S. EPA’s unreimbursed past and future remediation costs incurred in cleaning up an environmental site located near a former manufacturing facility of the Company in Illinois. In 1999, the Company and other parties identified as potentially responsible parties (“PRPs”) reached an agreement with the U.S. EPA to partially fund the costs of certain response actions taken with respect to this site. In 2004, the Company received communications from the U.S. EPA indicating that the Company was identified as one of three PRPs regarding additional remedial actions to be taken by the U.S. EPA at this site. In response, the Company provided to the U.S. EPA its environmental expert’s assessment of the site in 2004. The Company believes that it is not a PRP with respect to the site in question and intends to defend vigorously the associated claim. As of June 30, 2007 amounts that have been recorded in the Company’s financial statements related to this contingency are immaterial.

The Company is, from time to time, party to other lawsuits arising from its normal business operations. It is believed that the outcome of these other lawsuits will have no material effect on the Company's financial position or its results of operations.

ITEM 1A. RISK FACTORS

The business and financial results of the Company are subject to numerous risks and uncertainties. The risks and uncertainties have not changed materially from those reported in the 2006 Annual Report on Form 10-K.

[Return to Index](#)**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

The following table contains detail related to the repurchase of common stock based on the date of trade during the quarter ended June 30, 2007.

2007 Fiscal Month	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Be Purchased Under the Plan or Programs
April 1, 2007 to May 4, 2007	-	\$ -	-	1,225,900
May 5, 2007 to June 2, 2007	14,846	\$ 46.61	-	1,225,900
June 3, 2007 to June 30, 2007	228,991	\$ 46.54	-	1,225,900
Total	243,837		-	

Under the Company's equity incentive plans, participants may pay the exercise price or satisfy all or a portion of the federal, state and local withholding tax obligations arising in connection with plan awards by electing to (a) have the Company withhold shares of common stock otherwise issuable under the award, (b) tender back shares received in connection with such award or (c) deliver other previously owned shares of common stock, in each case having a value equal to the exercise price or the amount to be withheld. During the second quarter of 2007, the Company acquired 243,837 shares of common stock that were presented to the Company by employees to pay the exercise price or to satisfy withholding taxes in connection with the exercise and/or vesting of stock awards. These shares were then cancelled by the Company.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

(a) The Company held its Annual Meeting of Shareholders on April 20, 2007.

(b) The Directors elected at the meeting and those continuing after the Annual Meeting:

<u>Class A</u>	<u>Class B</u>	<u>Class C</u>
<u>Directors</u>	<u>Directors</u>	<u>Directors</u>
Dean A. Foate	Christopher L. Doerr	Thomas J. Fischer
G. Frederick	Mark J. Gliebe	Carol N. Skornicka
Kasten		
Henry W. Knueppel	Curtis W. Stoelting	

- (c) (1) The Shareholders voted for the election of the following Class B Directors to serve until the 2010 Annual Meeting of Shareholders:

	<u>Votes For</u>	<u>Votes</u> <u>Against</u>	<u>Abstentions</u>
Christopher L. Doerr	25,304,694	2,241,799	66,607
Mark J. Gliebe	24,834,041	2,709,072	69,987
Curtis W. Stoelting	25,307,216	2,236,897	68,987

- (2) The Shareholders voted for election of the following Class A Director to serve until the 2009 Annual Meeting of Shareholders:

	<u>Votes For</u>	<u>Votes</u> <u>Against</u>	<u>Abstentions</u>
G. Frederick Kasten, Jr.	24,995,624	2,548,745	68,731

- (3) The proposal to amend the Company's Articles of Incorporation to increase the number of share of Common Stock that the Company is authorized to issue was approved by a vote of 20,295,284 Votes For, 7,269,224 Votes Against and 48,593 abstentions.
- (4) The proposal to approve the Regal Beloit Corporation 2007 Equity Incentive Plan was approved by a vote of 20,735,198 Votes For, 4,453,486 Votes Against, 71,810 abstentions and 2,352,607 broker non-votes.
- (5) The proposal to ratify the appointment of Deloitte & Touche LLP as the company's independent registered public accounting firm for 2007 was approved by a vote of 27,482,421 Votes For, 87,749 Votes Against and 42,930 abstentions
