STOCK EXCHANGE CODE: TELMEX QUARTER: 4 YEAR: 2009

TELÉFONOS DE MÉXICO, S.A.B. DE C.V.

ANNEX 1

CHIEF EXECUTIVE OFFICER REPORT

Consolidated

Final printing

---Highlights

Fourth Quarter 2009

- At year-end 2009 we had 15.882 million lines, including 703 thousand public telephony lines and 1.7 million social telephony lines. The year-end total for the first time excludes lines on which payments were behind by at least two months. That action reduced the number of lines by 1.2 million. The year-end 2008 total included 1.1 million lines on which payments were behind by at least two months.

- In the Mexican telecommunications market, including cellular telephony and services provided by other fixed-line operators, TELMEX has 15.8% of total lines and is the third operator in the market in terms of lines after Telcel and Telefónica. TELMEX has 80.6% of fixed lines, below the average of 85.3% for 35 countries worldwide included in the *Bank of America/ Merrill Lynch Global Wireline Matrix*.

Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

- During the fourth quarter, we continued growth, but at a lower pace in broadband Inifinitum (ADSL) services, the fastest connection, with a gain of 221 thousand services, bringing the total to 6.5 million customers. Compared with December 2003, the speed of Internet services has multiplied 100 times from 56 Kbps to more than 5 Mbps. In that period the number of customers has increased more than 36 times and the price per kilobyte in packages has decreased 48 times.

- This growth has been driven by installment sales of more than 2.5 million computers since 1999. The lack of computers in Mexican homes is the main limitation for higher broadband growth, which also is slowed by the shortage of domestic applications and content on the Internet.

- Based on the last report from Teligen (November, 2009), the OECD's tariff consultant, Mexico continues to be one of the countries with the lowest telephony prices in all of the OECD, resulting from TELMEX's policy of supporting the country's and consumers' economic well-being by reducing its prices for the last 10 years in real terms.

- TELMEX has decided to reduce the prices of its packages that include Inifinitum, Internet access through broadband and various voice services for discounted prices in spite of new taxes (a special telecommunications tax of 3% and a 1% increase in the value added tax).

- At TELMEX, one of our main commitments is to promote penetration and access to broadband services. The **TELMEX 2010 program –Driving Technological Innovation** positions Teléfonos de México as the main promoter of connectivity, education and digital culture and the development of information technologies in our country, supported by our world-class network along with the company's highly trained personnel. The program comprises the following:

- Increase connectivity in the country: TELMEX will contribute so the country reaches 12 million broadband accesses in the next three years, including all technologies and all providers, with the result that more than half of the population will be able to access the Internet. Additionally, this year, Inifinitum's access speed will be increased while maintaining the quality, continuity and speed consistency that characterize this service. The number of sites with Inifinitum Móvil will be doubled to reach 3,000 nationwide this year.

- Enhance Information Technologies: Start the operation of the **Instituto Tecnológico de Teléfonos de México en Tecnologías de la Información (Inttelmex IT)**, (TELMEX's Technological Institute of Information Technologies) to expand training (of 1,000 professionals) in the application of information technologies.

- Support Education and Digital Culture: Through the operation of 3,300 Bibliotecas Digitales TELMEX (TELMEX DigitalLibraries) and 1,000 Aulas Digitales TELMEX (TELMEX Digital Classrooms) at year-end 2010.

- Revenues in the fourth quarter totaled 29.7 billion pesos, a decrease of 3.9% compared with the same period of the previous year. Revenues related to corporate networks services increased 43.1% and Internet access revenues increased 13.6%. Local, long distance and interconnection revenues decreased 8.5%, 20.8% and 16.4%, respectively.

- In the fourth quarter, EBITDA (1) totaled 12.2 billion pesos, producing a margin of 41.2%. Operating income totaled 7.8 billion pesos, with a margin of 26.1%.

Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

- Net income from controlling interest in the quarter totaled 5.0 billion pesos, 67.7% higher than the fourth quarter of 2008. For the fourth quarter, earnings per share were 27 Mexican cents, 68.8% higher than the same year-earlier period, and earnings per ADR (2) were 41 US cents, an increase of 64.0% compared with the fourth quarter of 2008.
- At December 31, 2009, total debt was the equivalent of 7.878 billion dollars. Total net debt (3) was equivalent to 6.777 billion dollars, 678 million dollars less than December 31, 2008.
- In the fourth quarter, capital expenditures (Capex) were the equivalent of 124 million dollars and for the twelve months, Capex was the equivalent of 661 million dollars. From October to December, the company used 1.045 billion pesos to repurchase 91 million 969 thousand of its own shares.

(1) EBITDA: defined as operating income plus depreciation and amortization. Go to www.telmex.com in the Investor Relations section where you will find the reconciliation of EBITDA to operating income.

(2) One ADR represents 20 shares.

(3) Net debt is defined as total debt less cash and cash equivalents and marketable securities.

Relevant Event

TELMEX Shareholders' Meeting Resolutions

On December 1, 2009, TELMEX's Ordinary Shareholders' Meeting approved the payment of a special cash dividend of 0.40 Mexican pesos per outstanding share in a single payment made in Mexico on or after December 17, 2009, resulting from unappropriated earnings. For holders of American Depositary Shares, the payment date was December 24, 2009.

Operating Results

Lines and local traffic

At year-end 2009 we had 15.882 million lines, including 703 thousand public telephony lines and 1.7 million social telephony lines. The year-end total for the first time excludes lines on which payments were behind by at least two months. That action reduced the number of lines by 1.2 million. The year-end 2008 total included 1.1 million lines on which payments were behind by at least two months.

In the Mexican telecommunications market, including cellular telephony and services provided by other fixed-line operators, TELMEX has 15.8% of total lines and is the third operator in the market in terms of lines after Telcel and Telefónica. TELMEX has 80.6% of fixed lines, below the average of 85.3% for 35 countries worldwide included in the *Bank of America/ Merrill Lynch Global Wireline Matrix*.

During the fourth quarter, local calls decreased 7.7% compared with the same period of 2008, totaling 5 billion local calls. Local traffic volume continues to be affected mainly by the increase in cellular telephony services, which is changing our customers' consumption habits, by the reduction in the number of lines and by competition from other operators.

Long distance

Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

In the fourth quarter, domestic long distance (DLD) traffic decreased 2.3% compared with the previous year's fourth quarter, totaling 4.810 billion minutes, in spite of the fact that there was growth of multi-service package offerings that include DLD minutes and an increase in termination traffic from other long distance operators. These positive contributions were offset by the decrease in termination traffic with cellular telephony operators.

In the quarter, outgoing international long distance (ILD) traffic decreased 26.8% compared with the year-earlier fourth quarter, totaling 307 million minutes. The decline reflected a decrease in traffic from mobile operators and the slowdown of economic activity in the country. Incoming international long distance traffic decreased 0.7% compared with the same period of the previous year, totaling 1.760 billion minutes. The incoming-outgoing ratio was 5.7x.

Interconnection

In the fourth quarter, interconnection traffic totaled 10.678 billion minutes, 6.8% lower than the same quarter of 2008, mainly due to the decrease of 13.0% in calling party pays traffic. Interconnection traffic with local, long distance and cellular telephony operators decreased 4.9%.

Internet access

During the fourth quarter, we continued growth, but at a lower pace in broadband Infnitum (ADSL) services, the fastest connection, with a gain of 221 thousand services, bringing the total to 6.5 million customers. Compared with December 2003, the speed of Internet services has multiplied 100 times from 56 Kbps to more than 5 Mbps. In that period the number of customers has increased more than 36 times and the price per kilobyte in packages has decreased 48 times.

This growth has been driven by installment sales of more than 2.5 million computers since 1999. The lack of computers in Mexican homes is the main limitation for higher broadband growth, which also is slowed by the shortage of domestic applications and content on the Internet.

TELMEX has decided to reduce the prices of its packages that include Infnitum, Internet access through broadband and various voice services for discounted prices in spite of new taxes (a special telecommunications tax of 3% and a 1% increase in the value added tax).

Financial Results

The following financial information for 2009 and 2008 is presented in nominal pesos, according to Mexican Financial Reporting Standards.

Revenues In the fourth quarter revenues totaled 29.7 billion pesos, a decrease of 3.9% compared with the same period of the previous year. Revenues related to corporate networks services increased 43.1% and Internet access revenues increased 13.6%. Local, long distance and interconnection revenues decreased 8.5%, 20.8% and 16.4%, respectively.

- **Local:** Local service revenues totaled 10.799 billion pesos in the fourth quarter, a decrease of 8.5% compared with the same quarter of 2008, due to decreases of 6.2% in revenue per local billed call and 7.7% in local traffic volume.
- **DLD:** In the quarter, DLD revenues totaled 3.298 billion pesos, 7.6% lower than the fourth quarter of 2008, because of the 2.3% decrease in traffic and the 5.5% decline in average revenue per minute, reflecting increased penetration of multi-service packages that include long distance service.
- **ILD:** ILD revenues totaled 1.436 billion pesos in the quarter, a decrease of 40.3% compared with the same period of the previous year. Contributing factors included the 26.8% decrease in outgoing traffic reflecting, among other things, the decrease in the country's economic activity as well as the 2.7% decrease in average revenue per minute. Incoming international long distance traffic revenues totaled 534 million pesos, a decrease of 53.2% compared with the fourth quarter of the previous year, due to the decline of 52.9% in average revenue per minute and the decrease of 0.7% in incoming traffic.
- **Interconnection:** In the quarter, interconnection revenues decreased 16.4% to 3.974 billion pesos compared with the fourth quarter of 2008, due to the 13.0% decline in calling party pays services and the decrease of 6.1% in average revenue of these services, as well as the 7.5% decrease in interconnection traffic with local and long distance operators.
- **Internet access:** Revenues from Internet access in the fourth quarter totaled 4.175 billion pesos, 13.6% higher than the prior year's fourth quarter due to the increase of 27.5% in Internet access services, offset by lower average unit revenue for broadband Infnitum services.
- **Corporate networks:** Due to the increase in services from VPN (Virtual Private Networks) and the integration of value-added services into our portfolio of products and services for the corporate market, the corresponding revenues increased 43.1% compared with the same period of the previous year, totaling 4.641 billion pesos.

Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

Costs and expenses: In the fourth quarter, total costs and expenses were 21.971 billion pesos, 1.2% higher than the same period of the previous year, mainly due to higher costs of equipment for customer sales and to the increase in the reserve for uncollectables, partially offset by lower interconnection costs resulting from the decrease of 9.9% in the amount paid to cellular telephony operators for calling party pays services and by initiatives to optimize resource use.

- **Cost of sales and services:** In the fourth quarter, cost of sales and services increased 7.5% compared with the same period of 2008, totaling 9.290 billion pesos, due to higher costs related to services for corporate customers and computer sales at Tiendas TELMEX (TELMEX Stores).

- **Commercial, administrative and general:** In the fourth quarter, commercial, administrative and general expenses totaled 5.333 billion pesos, 2.0% higher than the year-ago fourth quarter, mainly due to an increase in the reserve for uncollectables primarily from bad accounts from some telecommunications operators.

- **Interconnection:** Interconnection costs totaled 2.883 billion pesos, a decrease of 14.2% compared with the fourth quarter of 2008 due to the 9.9% decrease in the amount paid to cellular telephony operators for calling party pays services and the decrease in calling party pays traffic.

- **Depreciation and amortization:** In the fourth quarter, depreciation and amortization decreased 0.4% compared with the same period of 2008, to 4.465 billion pesos.

EBITDA (1) and operating income: EBITDA (1) totaled 12.241 billion pesos in the fourth quarter, a decrease of 10.9% compared with the same period of the previous year. The EBITDA margin was 41.2%. Operating income totaled 7.776 billion pesos in the fourth quarter and the operating margin was 26.1%.

Financing cost: In the fourth quarter, financing cost produced a charge of 1.221 billion pesos. This resulted from: i) a net interest charge of 1.276 billion pesos, which includes the recognition of the market value of interest rate swaps, partially offset by the decrease in interest paid due to lower debt and ii) a net exchange gain of 55 million pesos from the fourth-quarter exchange rate appreciation of 0.4455 pesos per dollar and 4.423 billion dollars in dollar-peso hedges at year-end 2009.

Net income from controlling interest: In the fourth quarter, net income from controlling interest totaled 4.995 billion pesos, 67.7% higher than the same period of the previous year. Earnings per share were 27 Mexican cents, 68.8% higher than the same quarter of 2008, and earnings per ADR (2) were 41 US cents, an increase of 64.0% compared with the same period of the prior year.

Investments and other uses of cash: In the fourth quarter, capital expenditures (Capex) were the equivalent of 124 million dollars and for the twelve months, Capex was the equivalent of 661 million dollars, of which 67.4% was used for projects in the data and connectivity platform and transmission networks, and the rest for operational support projects.

Debt: Total debt at December 31, 2009, was the equivalent of 7.878 billion dollars, of which 80.8% is long-term, 49.6% has fixed rates considering interest rate swaps, and 67.7% is in foreign currency, equivalent to 5.336 billion dollars. To minimize risks from variations in the exchange rate, at the end of December we had dollar-peso hedges for 4.423 billion dollars.

Total net debt (3) decreased during the last twelve months the equivalent of 678 million dollars, bringing the total to 6.777 billion dollars.

Repurchase of shares: During the fourth quarter, the company used 1.045 billion pesos to repurchase 91 million 969 thousand of its own shares.

Mexico Local and Long Distance Accounting Separation

Based on Condition 7-5 of the Amendments of the Concession Title of Teléfonos de México, the commitment to present the accounting separation of the local and long distance services is presented below for the fourth quarter of 2009 and 2008.

Mexico Local Service Business

REPORT OF INDEPENDENT AUDITORS

To the Stockholders of

Teléfonos de México, S.A.B. de C.V.

We have audited the accompanying consolidated balance sheets of Teléfonos de México, S.A.B. de C.V. and subsidiaries as of December 31, 2009 and 2008, and the related consolidated statements of income, changes in stockholders' equity and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in Mexico. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement and are prepared in conformity with Mexican Financial Reporting Standards. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of Teléfonos de México, S.A.B. de C.V. and subsidiaries at December 31, 2009 and 2008, and the consolidated results of their operations, changes in their stockholders' equity and cash flows for the years then ended, in conformity with Mexican Financial Reporting Standards.

As discussed in Note 1 to the consolidated financial statements, as of January 1, 2008, Teléfonos de México, S.A.B. de C.V. adopted Mexican Financial Reporting Standards B-10, *Effects of Inflation*; D-3, *Employee Benefits*; and B-2, *Statement of Cash Flows*.

The accompanying notes are an integral part of these financial statements.

1. Description of the Business and Significant Accounting Policies

I. Description of the Business

Teléfonos de México, S.A.B. de C.V. and its subsidiaries (collectively “the Company” or “TELMEX”) provide telecommunications services, primarily in Mexico, including domestic and international long distance and local telephone services, data services, the interconnection of subscribers with cellular networks (calling party pays), as well as the interconnection of domestic long distance carriers’, cellular telephone companies’ and local service carriers’ networks with the TELMEX local network. TELMEX also obtains revenues from the sale of telephone equipment and personal computers.

The amended Mexican government concession under which TELMEX operates was signed on August 10, 1990. The concession runs through the year 2026, but it may be renewed for an additional period of fifteen years. Among other significant aspects, the concession stipulates the requirements to provide telephony services and establishes the basis for regulating rates.

The rates to be charged for basic telephone services are subject to a cap determined by the Federal Telecommunications Commission (COFETEL). During the last nine years, TELMEX management decided not to raise its rates for basic services.

TELMEX has concessions in Mexico to operate radio spectrum wave frequency bands to provide fixed wireless telephone services and to operate radio spectrum wave frequency bands for point-to-point and point-to-multipoint microwave communications.

The foreign subsidiary has licenses for use of point-to-point and point-to-multipoint links in the USA.

On January 13, 2010 América Móvil, S.A.B. de C.V. (América Móvil) announced that it will launch an exchange offer to the stockholders of Carso Global Telecom, S.A.B. de C.V. (Carso Global Telecom) (TELMEX’s controlling stockholder), pursuant to which the shares of Carso Global Telecom would be exchanged for shares issued by América Móvil. If Carso Global Telecom’s stockholders tender all their shares, América Móvil would acquire indirectly 59.4% of the outstanding shares of TELMEX and 60.7% of the outstanding shares of Telmex Internacional, S.A.B. de C.V. (Telmex Internacional). América Móvil also announced its intention to launch an offering for the exchange or purchase of all of the Telmex Internacional’s shares that are not already owned by Carso Global Telecom (39.3%).

On March 9, 2010, TELMEX’s Audit Committee and management authorized the issuance of the accompanying consolidated financial statements and these notes as of December 31, 2009 and 2008. These financial statements also must be approved by the Company’s Board of Directors and stockholders at their next meetings.

1. Description of the Business and Significant Accounting Policies (continued)

At December 31, 2009 and 2008, TELMEX's equity interest in its principal subsidiaries and affiliated companies is as follows:

Subsidiaries:	Company	Country	% equity interest at	
			December 31 2009	2008
	Integración de Servicios TMX, S.A. de C.V.	Mexico	100%	100%
	Alquiladora de Casas, S.A. de C.V.	Mexico	100%	100%
	Cía. de Teléfonos y Bienes Raíces, S.A. de C.V.	Mexico	100%	100%
	Consortio Red Uno, S.A. de C.V.	Mexico	100%	100%
	Teléfonos del Noroeste, S.A. de C.V.	Mexico	100%	100%
	Uninet, S.A. de C.V.	Mexico	100%	100%
	Telmex USA, L.L.C.	U.S.A.	100%	100%
Affiliated companies:				
	Grupo Telvista, S.A. de C.V.	Mexico	45%	45%
	2Wire, Inc.	U.S.A.	13%	13%

II. Significant Accounting Policies and Practices

The principal accounting policies and practices followed by the Company in the preparation of these consolidated financial statements, in conformity with Mexican Financial Reporting Standards, are described below:

a) Consolidation and basis of translation of financial statements of foreign subsidiaries**i) Consolidation and equity method**

The consolidated financial statements include the accounts of Teléfonos de México, S.A.B. de C.V. and those of the subsidiaries over which the Company exercises control. All the companies operate in the telecommunications sector or provide services to companies operating in this sector.

All intercompany balances and transactions have been eliminated in the consolidated financial statements. Noncontrolling interest refers to certain subsidiaries in which the Company does not hold 100% of the shares.

Equity investments in affiliated companies over which the Company exercises significant influence is accounted for using the equity method, which basically consists of recognizing TELMEX's proportional share in the net income or loss and the stockholders' equity of the investee (see Note 5).

1. Description of the Business and Significant Accounting Policies (continued)

The results of operations of the subsidiaries and affiliates were included in TELMEX's financial statements as of the month following their acquisition.

ii) Translation of financial statements of foreign subsidiary and affiliate

Beginning January 1, 2008, the financial statements of the foreign subsidiary and affiliate are either consolidated or accounted for based on the equity method, as the case may be, once the financial statements have been adjusted to conform to Mexican Financial Reporting Standards in the corresponding local currency, and are then translated to the reporting currency. All the assets and liabilities of our foreign subsidiary and affiliate are translated to Mexican pesos at the prevailing exchange rate at year-end. Stockholders' equity accounts are translated at the prevailing exchange rate at the time capital contributions were made and earnings were generated. Revenues, costs and expenses are translated at the historical exchange rate. Translation differences are recorded in stockholders' equity in the line item "Effect of translation of foreign entities" under "Accumulated other comprehensive income items."

Through December 31, 2007, the financial statements as reported by the foreign subsidiary were converted to conform to Mexican Financial Reporting Standards, in the local currency, and subsequently re-expressed to constant pesos based on the inflation rate of the country in which the subsidiary operates. Under this method, all assets and liabilities were translated to Mexican pesos at the prevailing exchange rate at year-end. Stockholders' equity accounts were translated at the prevailing exchange rate at the time capital contributions were made and earnings were generated. Income statement amounts were translated to Mexican pesos at the prevailing exchange rate at the end of the reporting period. Exchange differences and the monetary position effect resulting from intercompany monetary items were charged or credited to the consolidated statements of income. Translation differences resulting from the conversion process were recorded in stockholders' equity in the line item "Effect of translation of foreign entities" under "Accumulated other comprehensive income items."

b) Recognition of the effects of inflation on financial information

Upon adoption of Mexican FRS B-10, *Effects of Inflation*, which became effective on January 1, 2008, the Company ceased to recognize the effects of inflation in its financial information because it currently operates in a "non-inflationary economic environment".

The financial statements for the years ended December 31, 2009 and 2008 are expressed in nominal pesos, except for those non-monetary items that included inflation effects through December 31, 2007. Subsequent additions are recognized at historical cost.

1. Description of the Business and Significant Accounting Policies (continued)

Capital stock and retained earnings were re-expressed for inflation through December 31, 2007 based on the Mexican National Consumer Price Index (NCPI).

Through December 31, 2007, the deficit from re-expression of stockholders' equity consisted of the accumulated monetary position loss at the time the provisions of Bulletin B-10 were first applied, which was P.13,924,729, and of the result from holding non-monetary assets, which represents the difference between re-expression by the specific indexation method and re-expression based on the NCPI. At December 31, 2007, this item was included in stockholders' equity under the "Accumulated other comprehensive income items" caption. In conformity with Mexican FRS B-10, since it was not possible to identify the result from holding non-monetary assets with the items giving rise to them, the cumulative result from holding non-monetary assets, together with the initial effect from the adoption of Bulletin B-10, which amounted to P. (79,419,845), net of deferred taxes, were reclassified from accumulated other comprehensive income items to retained earnings in stockholders' equity.

c) Recognition of revenues

Revenues are recognized at the time services are provided. Local service revenues are related to new-line installation charges, monthly service fees, measured usage charges based on the number of calls made, and other service charges to subscribers. Local service revenues also include measured usage charges for prepayment plans, based on the number of minutes.

Revenues from the sale of prepaid telephone service cards are recognized based on an estimate of the usage of time covered by the prepaid card. Revenues from the sale of equipment are recorded when the product is delivered to the customer.

Revenues from domestic and international long distance telephone services are determined on the basis of the duration of the calls and the type of service used, which are billed monthly based on the authorized rates. International long distance and interconnection service revenues also include the revenues earned under agreements with foreign carriers for the use of the Company's facilities in interconnecting international calls. These services are regulated by agreements with these operators, in which the rates to be paid are defined.

Data revenues include revenues from services related to data transmission through private and managed networks and revenues from Internet access.

1. Description of the Business and Significant Accounting Policies (continued)

d) Use of estimates

The preparation of financial statements in conformity with Mexican Financial Reporting Standards requires the use of estimates and assumptions in certain areas. Actual results could differ from these estimates.

e) Cash and cash equivalents

Cash and cash equivalents are represented by time deposits and highly liquid investments in financial institutions with maturities of less than 90 days at the date purchased. Such investments are stated at acquisition cost plus accrued interest, similar to market value.

f) Derivative financial instruments and hedging activities

The Company is exposed to interest rate and foreign currency risks, which are mitigated through a controlled risk management program that includes the use of derivative financial instruments. The Company uses primarily cross-currency swaps and when necessary uses foreign currency forwards to offset the short-term risk of exchange rate fluctuations. In order to reduce the risks due to fluctuations in interest rates, the Company utilizes interest-rate swaps, through which it either pays or receives the difference between the net amount of either paying or receiving a fixed interest rate and the cash flow from receiving or paying a floating interest rate, based on a notional amount denominated in Mexican pesos or U.S. dollars. Most of these derivative financial instruments qualify and have been designated as cash flow hedges.

The Company's policy includes: i) formal documentation of all hedging relationships between the hedging instrument and the hedged position; ii) the objectives for risk management; and iii) the strategy for conducting hedging transactions. This process takes into account the relationship between the cash flow of the derivatives with the cash flows of the corresponding assets and liabilities recognized in the balance sheet.

The effectiveness of the Company's derivatives used for hedging purposes is evaluated prior to their designation as hedges, as well as during the hedging period, which is performed at least quarterly based on recognized statistical techniques. Whenever it is determined that a derivative is not highly effective as a hedge or that the derivative ceases to be a highly effective hedge, the Company ceases to apply hedge accounting for the derivative on a prospective basis. During the years ended December 31, 2009 and 2008, there were no gains or losses recognized due to changes in the accounting treatment for hedges.

1. Description of the Business and Significant Accounting Policies (continued)

Derivative financial instruments are recognized in the balance sheet at their fair values, which are obtained from the financial institutions with which the Company has entered into the related agreements. The Company's policy is to verify such fair values against valuations provided by an independent valuation agent contracted by the Company. The effective portion of the cash flow hedge's gain or loss is recognized in "Accumulated other comprehensive income items" in stockholders' equity, while the ineffective

portion is recognized in current year earnings. Changes in the fair value of derivatives that do not qualify as hedges are immediately recognized in earnings.

The change in fair value recognized in earnings related to derivatives that are accounted for as hedges is presented in the same income statement caption as the gain or loss of the hedged item.

g) Allowance for doubtful accounts

The allowance for doubtful accounts is determined based on the Company's experience, the aging of the balances and general economic trends, as well as an evaluation of accounts receivable in litigation. The allowance for doubtful accounts basically covers the balances of accounts receivable greater than 90 days old.

The risk of uncollectibility of accounts receivable from related parties is evaluated annually based on an examination of each related party's financial situation and the markets in which they operate.

h) Inventories

Inventories for sale are valued at average cost, and through December 31, 2007 they were re-expressed based on inflation. The carrying value of inventories is not in excess of their net realizable value.

Inventories for the operation of the telephone plant are valued at average cost, and through December 31, 2007 were re-expressed on the basis of specific indexes. The carrying value of inventories is similar to replacement value, which is not in excess of their market value.

i) Plant, property and equipment

Through December 31, 1996, plant, property and equipment and construction in process were re-expressed based on the acquisition date and cost, applying the factors derived from the specific indexes determined by the Company and validated by an independent appraiser.

Through December 31, 2007, plant, property and equipment and construction in progress acquired abroad were re-expressed based on the rate of inflation of the respective country of origin and the prevailing exchange rate at the balance sheet date (specific indexation factors). Plant, property and equipment of domestic origin were re-expressed based on the NCPI.

Telephone plant and equipment are depreciated using the straight-line method based on the estimated useful lives of the related assets (see Note 3 b).

1. Description of the Business and Significant Accounting Policies (continued)

The carrying value of plant, property, plant and equipment is reviewed whenever there are indicators of impairment in the carrying value of such assets. Whenever an asset's recovery value, which is the greater of the asset's selling price and its value in use (the present value of future cash flows) is less than the asset's net carrying amount, the difference is recognized as an impairment loss. For the years ended December 31, 2009 and 2008, there were no indicators of impairment in the value of the Company's plant, property and equipment.

The Company has not capitalized any financing costs since it has no significant qualifying assets with prolonged acquisition periods.

j) Leases

When the risks and benefits inherent to the ownership of the leased asset remain mostly with the lessor, they are classified as operating leases and rent expense is charged to results of operations when incurred.

Lease agreements are recognized as capital leases if (i) the ownership of the leased asset is transferred to the lessee upon termination of the lease; (ii) the agreement includes an option to purchase the asset at a reduced price; (iii) the term of the lease is

substantially the same as the remaining useful life of the leased asset; or (iv) the present value of minimum lease payments is substantially the same as the market value of the leased asset, net of any future benefit or residual value.

k) Licenses

TELMEX records licenses at acquisition cost and, through December 31, 2007, re-expressed them based on the inflation rate of each country. The amortization period is based on the terms of the licenses, which range from 5 to 20 years.

l) Business acquisitions

Acquisitions of businesses are recorded using the purchase method. The acquisition of noncontrolling interest is considered a transaction between entities under common control and any difference between the purchase price and the carrying value of net assets acquired is recognized as an equity transaction.

1. Description of the Business and Significant Accounting Policies (continued)

m) Accrued liabilities

Accrued liabilities are recognized whenever (i) the Company has current obligations (legal or assumed) resulting from a past event, (ii) when it is probable the obligation will give rise to a future cash disbursement for its settlement and (iii) the amount of the obligation can be reasonably estimated.

When the effect of the time value of money is significant, the amount of the liability is determined as the present value of the expected future disbursements to settle the obligation. The discount rate applied is determined on a pre-tax basis and reflects current market conditions at the balance sheet date and, where appropriate, the risks specific to the liability. When discounting is used, an increase in the liability is recognized as a finance expense.

Contingent liabilities are recognized only when it is probable they will give rise to a future cash disbursement for their settlement. Also, commitments are only recognized when they will generate a loss.

n) Labor obligations

The cost of pension, seniority premium and termination benefits (severance) are recognized periodically during the years of service of personnel, based on actuarial computations made by independent actuaries using the projected unit-credit method (see Note 9).

Actuarial (losses) gains are being amortized over a period of 12 years, which is the estimated average remaining working lifetime of Company employees.

As of January 1, 2008, the Company adopted Mexican FRS D-3 *Employee Benefits*, which replaced Mexican accounting Bulletin D-3, *Labor Obligations*. As a result of the MFRS D-3 adoption, the transition liability for labor obligations and prior service costs at December 31, 2007 are being amortized over a maximum period of 5 years. Prior to December 31, 2007, such amounts were being amortized over the estimated average remaining working lifetime of Company employees (12 years) (see Note 9).

o) Employee profit sharing

Current-year and deferred employee profit sharing expense is presented as an ordinary expense in the income statement.

Beginning January 1, 2008, in connection with the adoption of Mexican FRS D-3, the Company recognizes deferred employee profit sharing using the asset and liability method. Under this method, deferred profit sharing is computed by applying the 10% rate to all temporary differences between the values of all assets and liabilities for financial and tax reporting purposes. The Company periodically evaluates the possibility of recovering deferred employee profit sharing assets and, if necessary, creates a valuation allowance for those assets that do not have a high probability of being realized (see Note 9).

1. Description of the Business and Significant Accounting Policies (continued)

p) Exchange differences

Transactions in foreign currency are recorded at the prevailing exchange rate on the day of the related transactions. Foreign currency denominated monetary assets and liabilities are valued at the prevailing exchange rate at the balance sheet date. Exchange differences from the transaction date to the time foreign currency denominated monetary assets and liabilities are settled, as well as those arising from the translation of foreign currency denominated balances at the balance sheet date are charged or credited to results of operations.

See Note 10 for the Company's consolidated foreign currency position at the end of each year and the exchange rates used to translate foreign currency denominated balances.

q) Comprehensive income

Comprehensive income consists of current year net income, the effect of translation of the financial statements of foreign entities, the changes in noncontrolling interest, the changes in the fair value of cash flow hedges and the effect of deferred taxes related to these items.

r) Taxes on profits

Deferred taxes on profits are recognized using the asset and liability method. Under this method, deferred taxes on profits are recognized on all differences between the financial reporting and tax bases of assets and liabilities, applying the enacted income tax rate effective as of the balance sheet date, or the enacted rate at the balance sheet date that will be in effect when the deferred tax assets and liabilities are expected to be recovered or settled.

The Company periodically evaluates the possibility of recovering deferred tax assets and, if necessary, creates a valuation allowance for those assets that do not have a high probability of being realized.

1. Description of the Business and Significant Accounting Policies (continued)

s) Statement of income presentation

Costs and expenses shown in the Company's income statement are presented on a combined basis between their nature and function, in accordance with industry practice since such classification allows for an appropriate evaluation of gross profit and operating margin.

The "Operating income" caption is shown in the income statement since it is an important indicator used for evaluating the Company's operating results.

An analysis of the "Other expenses, net" caption for the years ended December 31, 2009 and 2008 is as follows:

	2009	2008
Employee profit sharing, current	P. 2,217,482	P. 2,548,762
P. 187,125,347		

Other income (Note 9)	(867,802)	(1,869,170)
Other expenses, net	P.	1,349,680	P.	679,592

t) Statement of cash flows

Effective January 1, 2008, Mexican FRS B-2 replaced Mexican accounting Bulletin B-12, *Statement of Changes in Financial Position*. Accordingly, the statement of cash flows substituted the statement of changes in financial position. The main differences between both statements lie in the fact that the statement of cash flows shows the entity's cash inflows and outflows during the period, while the statement of changes in financial position shows the changes in the entity's financial structure. Also, the statement of cash flows presents first income before taxes on profits, followed by cash flows from operating activities, then cash flows from investing activities and finally cash flows from financing activities.

The statement of cash flows for the years ended December 31, 2009 and 2008 were prepared using the indirect method.

u) Earnings per share

Earnings per share are determined by dividing the controlling interest in net income by the weighted-average number of shares outstanding during the year. In determining the weighted-average number of shares outstanding during the year, shares repurchased by the Company have been excluded.

v) Concentration of risk

The main risks associated with the Company's financial instruments are cash flow risk, liquidity risk, market risk and credit risk. The Company performs sensitivity analyses to measure potential losses in its operating results based on a theoretical increase of 100 basis points in interest rates and a 10% change in exchange rates. The Board of Directors approves the risk management policies that are proposed by the Company's management.

1. Description of the Business and Significant Accounting Policies (continued)

Credit risk represents the potential loss from the failure of counterparties to completely comply with their contractual obligations. The Company is also exposed to market risks related to fluctuations in interest rates and exchange rates. In order to reduce the risks related to fluctuations in interest rates and exchange rates, the Company uses derivative financial instruments as hedges against its debt obligations.

Financial instruments which potentially subject the Company to concentrations of credit risk are cash and cash equivalents, trade accounts receivable, and debt and derivative financial instruments. The Company's policy is designed to not restrict its exposure to any one financial institution; therefore, the Company's financial instruments are maintained in different financial institutions located in different geographical areas.

The credit risk in accounts receivable is diversified, because the Company has a broad customer base that is geographically dispersed. The Company continuously evaluates the credit conditions of its customers and does not require collateral to guarantee collection of its accounts receivable. In the event the collection of accounts receivable deteriorates significantly, the Company's results of operations could be adversely affected.

w) Segments

Segment information is presented based on information used by the Company in its decision-making processes (see Note 15).

Local and long distance segment information varies to the one presented in the consolidated financial statements due to:

- The information that was considered in its elaboration was only the one corresponding to the companies that are directly involved in rendering local and long distance telephone services in Mexico.

- Local service includes: revenues from basic rent, measured service, installation charges, equipment sales and interconnection.

- Long distance service includes: revenues from basic services of domestic and international long distance services; it does not include revenues from rural and public telephony and data services.

Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

- The services being disclosed consider the corresponding attributes for interconnection, billing, collecting, co-location and leased lines.

- Interconnection with cellular operators includes revenues from calling party pays.

1. Description of the Business and Significant Accounting Policies (continued)**x) Reclassifications**

Certain captions shown in the 2008 financial statements as originally issued have been reclassified for uniformity of presentation with the 2009 financial statements.

An analysis is as follows:

		As originally reported		As reclassified
		2008	Reclassifications	2008
Assets				
Current assets:				
Prepaid expenses and others	(1)	P. 2,900,790	P. (61,088)	P. 2,839,702
Deferred charges, net	(1)	1,407,687	61,088	1,468,775
Statement of income				
Operating revenues:				
Corporate networks	(2)	12,219,402	(12,219,402)	
Internet	(2)	13,168,270	(13,168,270)	
Data	(2)		25,387,672	25,387,672
Operating costs and expenses:				
Cost of sales and services	(3)	32,806,088	(283,420)	32,522,668
Commercial, administrative and general expenses	(4)	19,831,144	31,862	19,863,006
Interconnection	(3)	13,759,965	283,420	14,043,385
Depreciation and amortization	(4)	17,965,069	(31,862)	17,933,207

- (1) Reclassification of deferred charges.
- (2) Reclassification to Data revenues.
- (3) Reclassification of interconnection.
- (4) Reclassification of administrative expenses.

1. Description of the Business and Significant Accounting Policies (continued)

y) New accounting pronouncements

i) Following is a discussion of the new accounting pronouncements issued by the Mexican Financial Reporting Standards Research and Development Board (*Consejo Mexicano para la Investigación y Desarrollo de Normas de Información Financiera, A.C.* or "CINIF") that became effective on January 1, 2009 and that affected TELMEX's accounting policies:

Mexican FRS B-8, Consolidated and Combined Financial Statements

In November 2008, the CINIF issued Mexican FRS B-8, which became effective for fiscal years beginning on or after January 1, 2009. Mexican FRS B-8 replaces Mexican accounting Bulletin B-8, *Consolidated and Combined Financial Statements and the Valuation of Long-Term Equity Investments*. Mexican FRS B-8 establishes the overall guidelines for preparing and presenting consolidated or combined financial statements and transfers the guidance related to accounting for long-term equity investments to Mexican FRS C-7.

This standard establishes that to determine the existence of control, the Company must consider any potential voting rights held that could be exercised or converted, regardless of management's intention and ability to exercise them.

Also, unlike Bulletin B-8, this standard requires the financial statements of the consolidating entities to be prepared under the same Mexican FRS, eliminating the possibility to consolidate those entities that do not issue financial statements under Mexican FRS due to an obligation to present their financial statements under specific accounting standards.

This standard includes guidelines for the accounting treatment of special purpose entities and, upon adoption, abolishes the supplementary application of International Financial Reporting Standards SIC 12, *Consolidation – Special Purpose Entities (SPEs)*. Mexican FRS B-8 establishes that special purpose entities over which the Company exercises control must be consolidated.

Mexican FRS B-8 establishes that changes in equity interest that do not cause loss of control must be recognized as transactions between stockholders; therefore, any difference between the book value of the equity investment sold or acquired and the value of the consideration paid must be recognized in stockholders' equity.

This standard also establishes that the recognition of push-down adjustments must not be recognized in the financial statements of the subsidiary and provides no transitional guidance in this regard.

1. Description of the Business and Significant Accounting Policies (continued)

Mexican FRS C-7, *Equity Investments in Affiliates and Other Long-term Equity Investments*

In November 2008, the CINIF issued Mexican FRS C-7, which became effective for fiscal years beginning on or after January 1, 2009. The purpose of this standard is to establish guidelines for the accounting recognition of investments in affiliated companies, as well as for the recognition of any other long-term equity investments through which the reporting entity does not have control, joint control or exercise significant influence.

Unlike Mexican accounting Bulletin B-8, this standard establishes that there is significant influence when 10% or more of the voting shares in an entity that is listed on a stock exchange, or when it holds 25% or more of the voting shares in an entity not listed on a stock exchange. Mexican FRS C-7 also provides the guidelines for determining the existence of significant influence in the case of SPEs.

In identifying the existence of significant influence, both Mexican FRS B-8 and this standard require consideration of any potential voting rights held by the entity that might be exercised or converted, regardless of management's actual intention and financial capacity to exercise such rights.

Investments in an affiliated company or an equity interest in an SPE over which the reporting entity exercises significant influence must be initially recognized at fair value, determined at the time of acquisition, and subsequently by applying the equity method of accounting. To apply the equity method, unlike Mexican accounting Bulletin B-8, the financial statements of the affiliated company must be prepared in conformity with Mexican FRS.

This standard also establishes guidelines for the recognition of losses incurred by affiliated companies, since Mexican accounting Bulletin B-8 did not address this issue.

This standard establishes that the investment in affiliated companies must be tested for impairment when indicators of impairment exist, and modifies Mexican accounting Bulletin C-15, *Impairment in the Value of Long-lived Assets*, by establishing that the impairment of investments in affiliated companies must be presented as part of the caption Equity interest in income of unconsolidated subsidiaries and affiliates.

1. Description of the Business and Significant Accounting Policies (continued)

Mexican FRS C-8, *Intangible Assets*

Mexican FRS C-8 was issued by the CINIF in December 2008 to replace Mexican accounting Bulletin C-8, *Intangible Assets* and became effective for fiscal years beginning on or after January 1, 2009.

Unlike Mexican accounting Bulletin C-8, this standard establishes that separability is not the only condition necessary to determine that an intangible asset is identifiable. Mexican FRS C-8 also provides additional guidance on the accounting recognition of intangible assets acquired through exchange transactions and eliminates the presumption that the useful life of an intangible asset could not exceed twenty years. Furthermore, the standard adds the requirement of an accelerated amortization period as a condition for impairment and modifies the definition of pre-operating costs.

Lastly, Mexican FRS C-8 establishes the accounting treatment for disposals of intangible assets resulting from sale, abandonment or exchange.

The adoption of the new accounting standards mentioned above did not have any impact on the Company's financial statements and did not result in a cumulative adjustment to retained earnings at adoption.

ii) The most important new accounting pronouncements that will become effective on January 1, 2010 or 2011, and that could affect the Company's accounting policies, are as follows:

Mexican FRS C-1, *Cash and Cash Equivalents*

Mexican FRS C-1 was issued by the CINIF in November 2009 to replace Mexican accounting Bulletin C-1, *Cash*, and is effective for fiscal years beginning on or after January 1, 2010. The purpose of this standard is to establish guidelines for the valuation, presentation and disclosure of items comprising the cash and cash equivalents caption in the statement of financial position.

Mexican FRS C-1 establishes that restricted cash is to be presented in the cash and cash equivalents caption in the statement of financial position (under the former standard it was shown separately) and substitutes the term "short-term demand investments" with the new term "liquid demand investments", which, among other characteristics, must be readily convertible to cash and have maturities of no more than three months.

Mexican FRS C-1 also defines the following terms: acquisition costs, cash equivalents, restricted cash and cash equivalents, liquid demand investments, net realization value, nominal value and fair value.

1. Description of the Business and Significant Accounting Policies (concluded)

Mexican FRS B-5, *Financial Information by Segment*

In November 2009, the CINIF issued Mexican FRS B-5, which will become effective for fiscal years beginning on or after January 1, 2011. Mexican FRS B-5 will replace Mexican accounting Bulletin B-5.

Mexican FRS B-5 establishes the criteria for identifying the segments to be reported by an entity, as well as the standards for disclosing the financial information of such segments. The standard also contains the requirements applicable to the disclosure of certain information related to the entity as a whole.

The principal changes compared to Mexican accounting Bulletin B-5 are as follows:

- Information to be disclosed; Mexican FRS B-5 is management-focused, since the segment information disclosures it requires refer to the information used by the entity's most-senior business decision makers. Mexican FRS B-5 also requires the disclosure of information related to entity's products, geographic zones, customers and suppliers.
- Business risks; in identifying operating segments, this standard does not require the different areas of the business to be subject to different risks.
- Segments in the pre-operating stage; under Mexican FRS B-5, the different areas of a business in its pre-operating stage can be classified as operating segments.
- Disclosure of financial results; this standard requires disclosure of interest income and expense, as well as the other comprehensive financing items.
- Disclosure of liabilities; Mexican FRS B-5 requires disclosure of the liabilities included in the regular information for the operating segment that is habitually used by the entity's most-senior business decision makers.

The Company expects that these standards will not have a material impact on its financial statements.

2. Accounts Receivable

An analysis of accounts receivable at December 31, 2009 and 2008 is as follows:

	2009		2008
Customers	P. 19,112,062	P.	17,761,170
Recoverable taxes	2,316,472		2,061,818
Related parties (Note 12)	894,535		975,362
Net settlement receivables	417,152		478,991
Other	1,994,215		1,916,092
	24,734,436		23,193,433
Less:			
Allowance for doubtful accounts	3,621,113		2,384,670
Total	P. 21,113,323	P.	20,808,763

An analysis of activity in the allowance for doubtful accounts for the years ended December 31, 2009 and 2008 is as follows:

	2009		2008
Beginning balance at January 1	P. 2,384,670	P.	1,725,969
Increase charged to expenses	2,437,296		1,551,988
Charges to allowance	(1,200,853)	(893,287)
Ending balance at December 31	P. 3,621,113	P.	2,384,670

3. Plant, Property and Equipment

a) An analysis of plant, property and equipment at December 31, 2009 and 2008 is as follows:

	2009		2008
Telephone plant and equipment	P. 315,548,924	P.	314,077,075
Land and buildings	37,128,186		36,987,698
Computer equipment and other assets	49,952,667		47,564,938
	402,629,777		398,629,711
Less:			
Accumulated depreciation	298,734,102		286,221,263
Net	103,895,675		112,408,448
Construction in progress and advances to	409,074		456,929

P. 187,125,347

Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

equipment suppliers
Total

P. 104,304,749 P. 112,865,377

Construction in progress refers mainly to projects related to telephone plant, which are scheduled to be completed and transferred to the plant mostly during the first half of 2010.

3. Plant, Property and Equipment (concluded)

b) Depreciation of the telephone plant and equipment is calculated at annual rates ranging from 3.3% to 20.0%. The rest of the Company's assets, excluding land, are depreciated at rates ranging from 10% to 33.3%. Depreciation charged to operating costs and expenses was P.17,828,006 in 2009 and P.17,815,050 in 2008.

4. Licenses

An analysis of licenses cost and their amortization at December 31, 2009 and 2008 is as follows:

	2009	2008
Investment	P.1,777,464	P. 1,763,296
Less:		
Accumulated amortization	859,123	738,269
Net	P. 918,341	P.1,025,027

An analysis of the changes in 2009 and 2008 is as follows:

	Balance at January 1, 2009	Investment and amortization for the year	Balance at December 31, 2009
Investment	P. 1,763,296	P. 14,168	P. 1,777,464
Accumulated amortization	738,269	120,854	859,123
Net	P. 1,025,027	P.(106,686)	P. 918,341

	Balance at January 1, 2008	Investment and amortization for the year	Effect of translation	Balance at December 31, 2008
Investment	P. 1,627,992	P. 135,271	P. 33	P. 1,763,296
Accumulated amortization	636,531	101,703	35	738,269
Net	P. 991,461	P. 33,568	P.(2)	P. 1,025,027

The amortization expense of other deferred charges was P.1,908 and P.16,454 for the years ended December 31, 2009 and 2008, respectively.

5. Equity Investments

An analysis of equity investments in affiliates and other companies at December 31, 2009 and 2008, and a brief description of each, is as follows:

	2009	2008
Equity investments in:		
Grupo Telvista, S.A. de C.V.	P. 907,973	P. 726,342
2Wire, Inc.	301,035	276,000
Other affiliates	566,372	491,791
	P. 1,775,380	P. 1,494,133

Investments in affiliates***Grupo Telvista***

TELMEX holds 45% of the capital stock of Grupo Telvista, S.A. de C.V. (Grupo Telvista) which, through its subsidiaries, provides telemarketing services in Mexico and the U.S.A. For the year ended December 31, 2009, TELMEX's equity interest in the net income of Grupo Telvista gave rise to a credit to results of operations of P.195,498 (P.154,795 in 2008) and a charge to stockholders' equity of P.13,867 (credit of P.69,128 in 2008).

2Wire

TELMEX holds 13% of the capital stock of 2Wire, Inc. (2Wire), which is a broadband platform service provider for homes and businesses located in the U.S.A. For the year ended December 31, 2009, TELMEX's equity interest in the results of 2Wire gave rise to a credit to results of operations of P.25,035 (charge of P.266,568 in 2008).

Other affiliates

For the year ended December 31, 2009, equity interest in other affiliates represented a net credit to results of operations of P.34,147 (net credit of P.49,660 in 2008) and a charge to stockholders' equity of P.4,427 (credit of P.37,718 in 2008).

6. Long-term Debt

Long-term debt consists of the following:

	Weighted-average interest rate at			Balance at December 31	
	December 31 2009	2008	Maturities from 2010 through	2009	2008
<i>Debt denominated in foreign currency:</i>					
Senior notes	5.2%	5.1%	2019	P.29,361,181	P.23,670,364
Bank loans	0.7%	1.8%	2018	40,074,814	61,013,202
Other	2.0%	2.0%	2022	238,353	271,881
Total debt denominated in foreign currency				69,674,348	84,955,447
<i>Debt denominated in Mexican pesos:</i>					
Senior notes	8.8%	8.8%	2016	4,500,000	4,500,000
Domestic senior notes	6.3%	8.8%	2037	25,900,000	14,800,000
Bank loans	4.8%	8.6%	2010	2,800,000	2,800,000
Total debt denominated in Mexican pesos				33,200,000	22,100,000
Total debt				102,874,348	107,055,447
Less short-term debt and current portion of long-term debt				19,768,894	22,883,092
Long-term debt				P. 83,105,454	P.84,172,355

The above-mentioned rates are subject to market variances and do not include the effect of the Company's agreement to reimburse certain lenders for Mexican withholding taxes. The Company's weighted-average cost of debt at December 31, 2009 (including interest expense, interest rate swaps, fees and withholding taxes, and excluding exchange rate variances) was approximately 5.9% (6.2% in 2008).

Short-term debt and current portion of long-term debt consist of the following:

	Balance at December 31	
	2009	2008
<i>Short-term debt:</i>		
Domestic senior notes		P. 2,500,000
<i>Current portion of long-term debt:</i>		
Senior notes	P. 12,405,765	
Domestic senior notes		400,000
Bank loans	7,363,129	19,983,092
	19,768,894	20,383,092
Total	P. 19,768,894	P. 22,883,092

P. 187,125,347

6. Long-term Debt (continued)

Senior notes:

a) In November 2008, TELMEX repaid a bond of P.13,151,147 (U.S.\$1,000 million, nominal amount) that was issued in November 2003 and bore an annual interest of 4.5%, payable semiannually. For the year ended December 31, 2008, interest expense on the bond was P.442,078.

b) In the first quarter of 2005, TELMEX issued bonds in the amount of P.21,892,381 (U.S.\$1,750 million) divided into two issuances of P.11,870,243 and P.10,022,138 (U.S.\$950 million and U.S.\$800 million, respectively), the first matures in 2010 and bears an annual interest of 4.75%, and the second matures in 2015 and bears an annual interest of 5.5%. Interest is payable semiannually. For the year ended December 31, 2009, interest expense on these bonds was P.1,274,163 (P.1,025,848 in 2008).

On January 27, 2010, TELMEX repaid the first issuance of the bonds issued in 2005 for P.12,294,140 (U.S.\$950 million).

c) On January 26, 2006, TELMEX issued a bond denominated in Mexican pesos abroad in the amount of P.4,500,000 (nominal amount), which matures in 2016 and bears an annual interest of 8.75%. For the year ended December 31, 2009, interest expense on the bond was P.407,708 (P.409,655 in 2008).

d) On November 12, 2009, TELMEX issued a bond in the amount of P.6,615,400 (U.S.\$500 million, nominal amount), which matures in 2019 and bears an annual interest of 5.5%, payable semiannually. For the year ended December 31, 2009, interest expense on the bond was P.49,823.

Syndicated loan:

In 2004, the Company entered into a syndicated loan, which was restructured in 2005 and 2006 to improve the credit conditions and increase the total loan amount to P.34,531,521 (U.S.\$3,000 million), split into three tranches. The first tranche is for P.14,963,659 (U.S.\$1,300 million) and has a three-year maturity. The second tranche is for P.11,510,507 (U.S.\$1,000 million) and has a five-year maturity. The third tranche is for P.8,057,355 (U.S.\$700 million) with a seven-year maturity. In August 2009, TELMEX repaid the total amount of the first tranche, for which the original maturity was scheduled for October 2009. The balance of these loans at December 31, 2009 is included under bank loans (debt denominated in foreign currency).

On June 30, 2006, TELMEX entered into a syndicated loan agreement in the amount of P.5,986,554 (U.S.\$500 million), split into two tranches in equal amounts of P.2,993,277 (U.S.\$250 million), with maturities of four years and six years, respectively.

Substantially all of the bank loans bear interest equal to the London Inter-Bank Offered Rate (LIBOR) plus a specified margin. For the year ended December 31, 2009, interest expense on these loans was P.556,305 (P.1,425,514 in 2008).

6. Long-term Debt (continued)

Domestic senior notes (“Certificados Bursátiles”):

On December 19, 2007, TELMEX obtained authorization from the National Banking and Securities Commission (Comisión Nacional Bancaria y de Valores or “CNBV”) for a program to issue long-term domestic senior notes in a total amount of P.10,000,000 (nominal amount). In April 2008, domestic senior notes in the amount of P.1,600,000 were issued. In July 2009, TELMEX placed domestic senior notes in two issuances for a total amount of P.8,000,000.

On September 18, 2009, TELMEX obtained authorization from the CNBV for a dual program to issue short and long-term domestic senior notes in a total amount of P.15,000,000 (nominal amount). In November 2009, TELMEX placed long-term domestic senior notes in two issuances for a total amount of P.6,000,000.

Some domestic senior notes bear fixed-rate interest, while others bear interest equal to a specified margin in respect of the Mexican interbank equilibrium interest rate (“TIIE”). For the year ended December 31, 2009, interest expense on long-term domestic senior notes was P.1,194,213 (P.1,004,242 in 2008).

Restrictions:

The above-mentioned debt is subject to certain restrictions with respect to maintaining certain financial ratios, as well as restrictions on selling a significant portion of groups of assets, among others. At December 31, 2009, the Company was in compliance with all these requirements.

A portion of the debt is also subject to early maturity or repurchase at the option of the holders in the event of a change in control of the Company, as so defined in each instrument. The definition of change in control varies from instrument to instrument; however, no change in control shall be considered to have occurred as long as Carso Global Telecom or its current stockholders continue to hold the majority of the Company’s voting shares.

Foreign currency debt:

An analysis of the foreign currency denominated debt at December 31, 2009 is as follows:

	Foreign currency	Equivalent in
P.	187,125,347	

Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

	(in thousands)	Exchange rate at December 31, 2009	Mexican pesos
		(in units)	
U.S. dollar	5,103,362	P. 13.0587	P. 66,643,271
Japanese yen	19,891,200	0.1404	2,792,724
Euro	12,722	18.7353	238,353
Total			P. 69,674,348

6. Long-term Debt (continued)

Long-term debt maturities at December 31, 2009 are as follows:

Years	Amount
2011	P. 18,857,154
2012	12,343,560
2013	11,560,972
2014	8,164,639
2015 and thereafter	32,179,129
Total	P. 83,105,454

Hedges:

At December 31, 2009 and 2008, the financial instruments held by the Company are as follows:

	2009		2008	
	Notional	Fair value	Notional	Fair value
Financial instrument	(in millions)	asset (liability)	(in millions)	asset (liability)
Cross currency swaps	U.S.\$ 4,178	P. 12,226	U.S.\$ 5,451	P. 20,913
Forwards dollar-peso (Note 7)	U.S.\$ 245	(120)		
Interest-rate swaps in pesos	P. 23,752	(729)	P.23,752	(369)
Interest-rate swaps in dollars			U.S.\$ 100	(30)
Cross currency coupon swaps	U.S.\$ 50		U.S.\$ 350	(95)
Total		P. 11,377		P. 20,419

To reduce the risks related to fluctuations in exchange rates and interest rates, the Company uses derivative financial instruments as hedges associated with its debt. The derivative financial instruments principally used by the Company are as follows:

Cross currency swaps

At December 31, 2009, the Company has cross currency swaps that hedge foreign currency denominated liabilities of P.54,557,723 (U.S.\$4,178 million) (P.73,799,967 or U.S.\$5,451 million in 2008). These cross currency swaps hedge the exchange rate and interest rate risks associated with bonds that mature in 2010 and 2015 in the total amount of U.S.\$1,495 million and bank loans that mature from 2010 to 2018 in the total amount of U.S.\$2,683 million. These agreements allow TELMEX to fix the parity of

Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

such debt at a weighted-average exchange rate of P.10.5892 per U.S. dollar, as well as establish a fixed interest rate of 7.52% for the bonds maturing in 2010 and 8.57% for the bonds maturing in 2015, and a floating rate equal to the average 28-day TIE, less a specified margin for the bank loans.

The change in the fair value of these cross currency swaps recognized for the year ended December 31, 2009 was P. 5,682,263 (P. 16,281,874 in 2008).

6. Long-term Debt (concluded)

Forwards dollar-peso

At December 31, 2009, the Company had short-term foreign currency forwards with a notional amount of P.3,199,382 (U.S.\$245 million). At December 31, 2008, the Company had no forward contracts outstanding. For the year ended December 31, 2009, the Company recognized a net charge of P.520,733 (charge of P.1,690,380 in 2008) as part of exchange (gain) loss, net due to changes in the fair value of these forwards.

Interest-rate swaps

At December 31, 2009 and 2008, the Company had interest-rate swaps for an aggregate notional amount of P.23,752,125 to hedge the floating rate risk of its debt in Mexican pesos, fixing such rate at an average of 8.19%. At December 31, 2009, the Company had no interest rate swaps in U.S. dollars. At December 31, 2008, the Company had interest rate swaps in U.S. dollars for an aggregate notional amount of P.1,353,830 (U.S.\$100 million), paying a fixed rate of 4.47% and receiving the three-month LIBOR rate, to cover U.S. dollar denominated debt with a floating interest rate that matured in October 2009.

At December 31, 2009, the Company had cross currency coupon swaps that cover interest payments of P.652,935 (U.S.\$50 million) (P.4,738,405, or U.S.\$350 million, for 2008).

For the year ended December 31, 2009, the Company recognized a net expense for these swaps in interest expense of P.2,056,839 (P. 2,439,778 in 2008).

The Company's derivative financial instruments are acquired in over-the-counter markets, mostly from the same financial institutions with which it has contracted its debt.

Several of the Company's agreements under which it has negotiated its derivative financial instruments require margin calls when the fair value of the derivatives exceeds the Company's existing credit lines of P. 3,787,023 (U.S.\$290 million). At December 31, 2009, 65% of the Company's outstanding derivatives correspond to these types of agreements; however, no margin calls have been required at such date.

7. Accounts Payable and Accrued Liabilities

An analysis of accounts payable and accrued liabilities is as follows:

	December 31	
	2009	2008
Suppliers	P. 2,100,036	P. 4,285,331
Employee benefits	2,804,324	3,012,967
Sundry creditors	1,838,250	1,439,394
Related parties (Note 12)	1,602,128	1,993,079
Vacation accrual	1,284,578	1,287,747
Accrual for other contractual employee benefits	1,230,645	1,310,570
Dividend pending payment	1,106,119	899,541
Interest payable	936,550	1,187,525
Derivative financial instruments (Note 6)	119,719	
Other	1,181,839	501,952
	P. 14,204,188	P. 15,918,106

The activity in the main accruals for the years ended December 31, 2009 and 2008 is as follows:

Vacation accrual:

	2009	2008
Beginning balance at January 1	P.1,287,747	P. 1,256,783
Increase charged to expenses	1,619,979	1,656,930
Payments	(1,623,148)	(1,625,966)
Ending balance at December 31	P.1,284,578	P. 1,287,747

Accrual for other contractual employee benefits:

	2009	2008
Beginning balance at January 1	P.1,310,570	P. 1,151,700
Increase charged to expenses	3,725,372	3,588,400
Payments	(3,805,297)	(3,429,530)
Ending balance at December 31	P.1,230,645	P.1,310,570

8. Deferred Credits

Deferred credits consist of the following at December 31, 2009 and 2008:

	2009	2008
Short-term:		
Advance billings	P.1,009,603	P. 1,044,877
Advances from customers	94,572	735,238
	1,104,175	1,780,115
Long-term:		
Advance billings	466,696	411,106
Total	P.1,570,871	P.2,191,221

9. Labor Obligations**a) Pensions plans and seniority premiums**

The majority of the Company's employees are covered under defined benefits pension plans and seniority premiums. Pension benefits and seniority premiums are determined on the basis of compensation of employees in their final year of employment, their seniority, and their age at the time of retirement.

TELMEX has set up an irrevocable trust fund to finance these labor obligations and has adopted the policy of making annual contributions to such fund, which are deductible for Mexican corporate income tax and employee profit sharing purposes. The most important information related to labor obligations is as follows:

Analysis of net periodic cost:

	2009	2008
Labor cost	P.4,431,755	P.4,333,194
Finance cost on defined benefit obligation	15,861,542	14,344,072
Projected return on plan assets	(17,524,795)	(15,571,525)
Amortization of past services	69,526	1,344,971
Amortization of variances in actuarial assumptions (1)	2,183,763	201,412
Net periodic cost	P.5,021,791	P. 4,652,124

Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

(1) Includes P.99,125 in 2008 for the amortization of the initial balance of the actuarial loss, which is presented in the statement of income under the caption "Other expenses, net," in conformity with Mexican FRS D-3.

9. Labor Obligations (continued)

Analysis of the defined benefit obligation:

	2009		2008
Present value of labor obligations:			
Vested benefit obligation	P. 105,002,007	P.	93,175,620
Non-vested benefit obligation and effect of salary projection	92,330,826		83,007,215
Defined benefit obligation at end of year	P. 197,332,833	P.	176,182,835

Analysis of changes in the defined benefit obligation:

	2009		2008
Defined benefit obligation at beginning of year	P. 176,182,835	P.	159,484,041
Labor cost	4,431,755		4,333,194
Finance cost on defined benefit obligation	15,861,542		14,344,072
Actuarial loss	10,200,996		6,662,976
Benefits paid to employees	(215,298)	(194,437)
Payments from trust fund	(9,128,997)	(8,447,011)
Defined benefit obligation at end of year	P. 197,332,833	P.	176,182,835

Analysis of changes in plan assets:

	2009		2008
Established fund at beginning of year	P. 145,475,893	P.	156,979,097
Projected return on plan assets	17,524,795		15,571,525
Actuarial gain (loss)	4,371,737	(22,949,640)
Contributions to trust fund	5,751,947		4,321,922
Payments from trust fund	(9,128,997)	(8,447,011)
Established fund at end of year	P. 163,995,375	P.	145,475,893

Analysis of the net projected asset:

	2009		2008
Insufficiency of plan assets for defined benefit obligation	P. (33,337,458)	P. (30,706,942)
Unamortized actuarial loss	49,515,770		45,870,274
Transition liability	121,815		156,536
Past service cost and changes to plan	130,730		165,534

Years

Net projected asset

P. 16,430,857

P. 15,485,402

9. Labor Obligations (continued)

In 2009, the net actuarial loss of P.5,829,259 resulted from (i) the effect of a favorable actuarial variance of P.4,371,737 due to the behavior of the plan assets resulting from an increase in the value of investments in shares of companies and in fixed-yield investments due to variances in reference rates, and (ii) an actuarial loss of P.10,200,996, attributable principally to the number of employees who retired was greater than the number estimated at the beginning of the year, and the salary and pension benefits of the retired employees were higher than estimated at the beginning of the year.

In 2008, the actuarial loss of P.29,612,616 resulted from (i) the effect of an unfavorable actuarial variance of P.22,949,640 due to the behavior of the plan assets resulting from a decrease in the value of investments in shares of companies and in fixed-yield investments due to variances in reference rates, and (ii) an actuarial loss of P.6,662,976, attributable principally to the number of employees who retired was greater than the number estimated at the beginning of the year, the Company updating its mortality table, and the mortality rate of retired employees was less than the rate estimated at the beginning of the year.

At December 31, 2009 and 2008, the rates used in the actuarial study are as follows:

	2009	2008
	Nominal rates	Nominal rates
	%	%
Discount of labor obligations:		
Long-term average	9.20	9.20
Increase in salaries:		
Long-term average	4.50	4.50

At December 31, 2009 and 2008, 45.9% of plan assets were invested in fixed-yield securities and the remaining 54.1% in variable-yield securities.

b) Termination benefits

The most important information related to the liability for termination benefits is as follows:

Analysis of net periodic cost:

Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

	2009		2008	
Labor cost	P.	12,630	P.	15,188
Finance cost on defined benefit obligation		12,498		14,599
Amortization of variances in assumptions (1)	(9,867)	(87,699)
Net periodic cost (gain)	P.	15,261	P. (57,912)

(1) Includes P.36,206 in 2008 for the amortization of the initial balance of the actuarial gain, which is presented in the statement of income under the caption "Other expenses, net," in conformity with Mexican FRS D-3.

9. Labor Obligations (concluded)

The activity in the termination pay liability is as follows:

	2009		2008
Balance at beginning of year	P. 147,634	P.	208,406
Net periodic cost (gain)	15,261	(57,912)
Payments	(3,518)	(2,860)
Balance at end of year	P. 159,377	P.	147,634

c) Employee profit sharing

TELMEX is obligated to pay profit sharing to its employees in Mexico, in addition to their contractual compensation and benefits. For the years ended December 31, 2009 and 2008, employee profit sharing was based on 10% of the Company's taxable income, excluding certain inflation effects and the re-expression of depreciation expense.

The cumulative effect of deferred employee profit sharing at the beginning of 2008 resulting from the adoption of Mexican FRS D-3 was P.5,820,412 and was charged to stockholders' equity. The deferred employee profit sharing gave rise to a credit to stockholders' equity for deferred income tax of P.1,630,277. Accordingly, the net effect of the adoption of Mexican FRS D-3 was a charge to stockholders' equity of P.4,190,135. The 2007 financial statements remained unchanged by the new standard. For the year ended December 31, 2009, the deferred employee profit sharing provision represented a credit to results of operations of P.607,676 (P.1,400,171 in 2008), which was recognized in the statement of income under the caption "Other expenses, net."

At December 31, 2009 and 2008, the Company recognized deferred employee profit sharing on the following temporary items:

	2009		2008
Deferred employee profit sharing assets:			
Allowance for bad debts and slow-moving inventories	P. 310,287	P.	210,874

10. Foreign Currency Position

At December 31, 2009 and 2008, the Company had the following foreign currency denominated assets and liabilities:

Foreign currency in millions						
	2009		Exchange rate at December 31, 2009	2008		Exchange rate at December 31, 2008
Assets:						
U.S. dollar	669	P.	13.06	183	P.	13.54
Liabilities:						
U.S. dollar	5,205		13.06	6,235		13.54
Japanese yen	19,891		0.14	19,891		0.15
Euro	13		18.74	14		19.14

At March 9, 2010, the applicable exchange rates are as follows:

Foreign currency	Exchange rate
U.S. dollar	P. 12.66
Japanese yen	0.14
Euro	17.16

11. Commitments and Contingencies**Commitments**

At December 31, 2009, TELMEX has non-cancelable commitments for the purchase of equipment of P.3,372,975 (P.4,520,320 in 2008), which include P.977,637 (P.798,792 in 2008) for non-cancelable commitments with related parties. Payments made under the related purchase agreements aggregated to P.2,858,996 in 2009 (P.3,173,710 in 2008).

Contingencies

Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

a) In November 2005, COFETEL issued the guidelines for making changes to local service areas. In April 2006, Teléfonos de México, S.A.B. de C.V. contested the guidelines to modify local service areas via an administrative proceeding that was discarded by the Communications Ministry, and at present it is being litigated before the Third Metropolitan Regional Federal Court of Justice for Tax and Administrative Matters.

11. Commitments and Contingencies (continued)

In the interim, pursuant to the aforementioned guidelines COFETEL has ordered the consolidation of a package of 70 local service areas and a package of 2 local service areas in March 2007, another package of 125 local service areas in September 2008 and finally the consolidation of 1 local service area in December 2008, each with its own schedule. Teléfonos de México, S.A.B. de C.V. challenged COFETEL's orders through applicable legal procedures.

In November 2009, a resolution of a Federal Court nullified the consolidation of local service areas ordered by COFETEL.

If the guidelines resolution becomes effective, COFETEL may start again procedures to consolidate local service areas.

If such consolidation is implemented, it may have an adverse impact on the Company's long distance revenues.

The Company believes, based on the advice of external lawyers who are handling this matter, that although the Company's arguments are well-founded, there is no certainty that Teléfonos de México, S.A.B. de C.V. will obtain favorable results.

b) Between November 2007 and February 2008, the Federal Commission of Economic Competition (COFECO) initiated seven inquiries to determine whether Teléfonos de México, S.A.B. de C.V. has substantial control or engages in monopolistic practices in certain markets.

Preliminary resolutions in four of these inquiries have been issued, in which COFECO has determined that Teléfonos de México, S.A.B. de C.V. has substantial control in the following markets: (i) termination of public switched traffic; (ii) origination of public switched traffic; (iii) local transit services; and (iv) leasing of lines or circuits. Teléfonos de México, S.A.B. de C.V. expressed its disagreement with the proceedings, contested the preliminary resolutions and submitted evidence against them.

In the four inquiries indicated above, COFECO has already confirmed its resolutions, and Teléfonos de México, S.A.B. de C.V. filed the corresponding recourses, which COFECO denied. Against these resolutions, Teléfonos de México, S.A.B. de C.V. filed for constitutional protection ("amparo") which is still pending. If these resolutions prevail, COFETEL could impose specific obligations on tariffs, quality of service and information in these markets.

In the three remaining proceedings, COFECO is investigating to determine if Teléfonos de México, S.A.B. de C.V. engaged in monopolistic practices in the following markets: (i) broad-band Internet market for domestic residential customers; (ii) fixed-network interconnection services markets; and (iii) inter-urban transport for switched long distance traffic services market. These proceedings are currently in the stage of requesting information.

Notwithstanding the fact that the arguments of Teléfonos de México, S.A.B. de C.V. are considered to be well founded, the Company's external lawyers handling the above-mentioned cases consider that there is no certainty that the Company will obtain favorable results.

11. Commitments and Contingencies (concluded)

c) The Mexican Social Security Institute (IMSS) audited Teléfonos de México, S.A.B. de C.V. for the period from 1997 to 2001. As a result of the audit, IMSS determined that Teléfonos de México, S.A.B. de C.V. owed approximately P.330,000 (historical amount) as of July 2, 2003 in past due obligations, fines, surcharges, re-expression for inflation and interest. Teléfonos de México, S.A.B. de C.V. filed an appeal to nullify these findings and related assessment with the Federal Court of Justice for Tax and Administrative Matters. In accordance with Mexican law, by means of a trust fund established with a banking institution, the Company guaranteed payment of the tax assessment in the amount of P.568,869 through July 19, 2010. The regional metropolitan court declared the resolution to be null, but the administrative authorities filed an appeal. In October 2009, Teléfonos de México, S.A.B. de C.V. obtained favorable results through a final resolution that nullifies the schedule of rate payments; therefore the Company commenced proceedings to liquidate the trust fund that was guaranteeing the payment of this contingency, which was finalized on January 22, 2010, at which time the Company recognized the gain on settlement of this contingency.

On January 22, 2010, Teléfonos de México, S.A.B. de C.V. was entitled to a refund equivalent to the amount set up as guaranteed payment.

Since tax credits did not take effect and Teléfonos de México, S.A.B. de C.V. obtained reimbursement for the guaranteed payment, this matter was resolved and concluded with favorable results.

d) In accordance with Mexican law, Teléfonos de México, S.A.B. de C.V. shall be severally liable for all of the obligations transferred to Telmex Internacional, S.A.B. de C.V. as a result of the split-up, for a three-year period, with respect to the terms of the split-up agreement approved by the stockholders of Teléfonos de México, S.A.B. de C.V. on December 21, 2007. This responsibility, however, does not apply to obligations with those creditors who have given their express consent relieving Teléfonos de México, S.A.B. de C.V. from these liabilities and consenting to the split-up.

e) On February 10, 2009, COFETEL published the Fundamental Technical Interconnection and Interoperability Plan in the Official Gazette. Such plan could have a negative impact on Teléfonos de México, S.A.B. de C.V. and on the telecommunications sector in general, since it establishes additional obligations to concessionaries.

Teléfonos de México, S.A.B. de C.V. has filed for constitutional protection (“amparo”) against this plan, providing all necessary arguments to demonstrate illegality and unconstitutionality of such plan.

Notwithstanding the fact that the arguments of Teléfonos de México, S.A.B. de C.V. are considered to be well founded, the Company’s external lawyers handling the above-mentioned cases consider that there is no certainty that the Company will obtain favorable results.

12. Related Parties

a) An analysis of balances due from/to related parties at December 31, 2009 and 2008 is provided below. All the companies are considered affiliates since TELMEX's primary stockholders are also either direct or indirect stockholders of the related parties:

	December 31

12. Related Parties (continued)

b) For the years ended December 31, 2009 and 2008, the Company had the following transactions with related parties:

	2009	2008
Investment and expenses:		
Construction services, purchase of materials,		
inventories and fixed assets (1)	P. 2,163,205	P. 3,958,756
Insurance premiums, fees for administrative and		
operating services, security trading and others (2)	3,318,218	3,389,572
Calling Party Pays interconnection fees and other		
telecommunication services (3)	7,944,362	9,959,288
Cost of termination of international calls (6)	715,780	685,100
Revenues:		
Sale of materials and other services (4)	1,879,051	2,091,927
Sale of long distance and other telecommunications services (5)	5,727,833	6,211,439
Revenues from termination of international calls (6)	1,074,419	2,428,631

(1) Includes P.1,591,531 in 2009 (P.2,190,819 in 2008) for network construction services and purchase of construction materials from subsidiaries of Grupo Carso, S.A.B. de C.V. (Carso Group), which is an entity under common control with Carso Global Telecom. Also includes P.453,348 in 2009 (P.1,652,662 in 2008) for the purchase of equipment for broadband platform services from 2Wire.

(2) Includes P.571,338 in 2009 (P.563,331 in 2008) for network maintenance services from subsidiaries of Carso Group; P.714,242 in 2009 (P.632,970 in 2008) for software services received from subsidiaries of Telmex Internacional; P.327,500 in 2009 (P.805,703 in 2008) for the production and distribution of white pages telephone directories and advertising in the yellow pages with subsidiaries of Telmex Internacional; P.482,598 in 2009 (P.392,170 in 2008) for insurance premiums with Seguros Inbursa, S.A. (Seguros), which, in turn, places most of this amount in reinsurance with third parties; P.208,942 in 2009 (P.222,963 in 2008) for telemarketing services with Grupo Telvista; P.40,602 in 2009 (P.71,668 in 2008) for security trading fees with Inversora Bursátil, S.A. (Inversora); and P.335,975 in 2009 (P.243,999 in 2008) for fees paid for administrative and operating services to AT&T Mexico, Inc. and Carso Global Telecom. Telmex Internacional, Seguros, Grupo Telvista and Inversora are entities under common control with Carso Global Telecom. AT&T Inc. is a noncontrolling stockholder of the Company.

12. Related Parties (concluded)

(3) Includes P.7,944,083 in 2009 (P.9,959,018 in 2008) for interconnection expenses under the "Calling Party Pays" program for outgoing calls from fixed line telephones to cellular telephones paid to subsidiaries of América Móvil. América Móvil is an entity under common control with Carso Global Telecom.

(4) Includes P.47,462 in 2009 (P.84,654 in 2008) for the sale of materials and other services rendered to subsidiaries of Carso Group; P.230,397 in 2009 (P.206,634 in 2008) for billing and collection services rendered to subsidiaries of Grupo Financiero Inbursa, S.A.B. de C.V. (Inbursa); P.301,440 in 2009 (P.753,600 in 2008) for the use and updating of the telephone directory customer database, as well as P.373,648 in 2009 (P. 411,956 in 2008) for billing, collection, administrative services and others rendered to subsidiaries of Telmex Internacional; and P.494,785 (P.451,686 in 2008) for property leases and other services rendered to subsidiaries of América Móvil. Inbursa is an entity under common control with Carso Global Telecom.

(5) Includes P.4,397,574 in 2009 (P.5,072,839 in 2008) for revenues invoiced to a subsidiary of América Móvil for the rental of private circuits and long distance services.

(6) Includes costs and revenues with companies of AT&T Inc. and with subsidiaries of América Móvil and Telmex Internacional.

c) An analysis of employee benefits granted to the Company's key management or directors is as follows:

	2009	2008
Short- and long-term direct benefits	P.51,371	P.41,636
Post-retirement benefits	3,154	3,060
Total	P.54,525	P.44,696

13. Stockholders' Equity

a) At December 31, 2009, capital stock is represented by 18,192 million shares issued and outstanding with no par value, representing the Company's fixed capital (18,555 million in 2008). An analysis is as follows:

	2009	2008
8,115 million Series "AA" common shares	P.5,569,721	P. 5,569,721
395 million Series "A" common shares (407 million in 2008)	317,792	327,734
9,682 million Series "L" shares with limited voting	3,132,787	3,241,177

Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

rights (10,033 in 2008)
Total

P.9,020,300

P. 9,138,632

13. Stockholders' Equity (continued)

At December 31, 2009 and 2008, the historical value of the Company's capital stock was P.78,545 and P.80,113, respectively.

An analysis of the changes in 2009 and 2008 is as follows:

	Capital stock (1)					
	Series "AA"		Series "A"		Series "L"	
	Number	Amount	Number	Amount	Number	Amount
Balance at January 1, 2008	8,115	P.5,569,721	430	P.345,936	10,815	P.3,486,904
Cash purchase of Company's own shares			(9)	(6,934)	(796)	(256,995)
Conversion of shares			(14)	(11,268)	14	11,268
Balance at December 31, 2008	8,115	5,569,721	407	327,734	10,033	3,241,177
Cash purchase of Company's own shares			(2)	(1,551)	(361)	(116,781)
Conversion of shares			(10)	(8,391)	10	8,391
Balance at December 31, 2009	8,115	P.5,569,721	395	P.317,792	9,682	P.3,132,787

(1) Number of shares in millions

The Company's capital stock must be represented by (i) no less than 20% of Series "AA" common shares, which may be subscribed and acquired only by Mexican investors, and at all times must represent at least 51% of the common shares of total capital stock; (ii) Series "A" common shares, which may be freely subscribed, that must not exceed more than 19.6% of capital stock and no more than 49% of the common shares of total capital stock; (iii) both Series "AA" and "A" shares combined may not represent more than 51% of capital stock; and (iv) Series "L" shares, which have limited voting rights and may be freely subscribed, in a percentage when combined with the Series "A" shares may not exceed 80% of capital stock.

Voting rights

Each ordinary share of the Series "AA" and "A" entitles the holder to one vote at the general stockholders' meetings. Each Series "L" share entitles the holder to one vote at all stockholders' meetings in which holders of Series "L" shares are authorized to vote. In accordance with the Eighth Clause of the Company's bylaws, holders of Series "L" shares only have the right to vote to designate two directors on the Board of Directors and their corresponding alternate directors, and on the following matters:

- The transformation of TELMEX from one type of entity to another;

Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

- Any merger in which TELMEX is not the surviving entity or any merger with an entity whose principal corporate purposes are different from those of TELMEX (when TELMEX is the surviving entity); and

- Cancellation of the registration of the TELMEX's shares in the securities or special sections of the Mexican National Securities Registry and in any foreign stock exchanges in which they are registered.

13. Stockholders' Equity (continued)

In order for the resolutions adopted in extraordinary stockholders' meetings related to any of the matters on which the Series "L" shares are entitled to vote to be validated, the approval by a majority vote of the Series "AA" and Series "A" stockholders will be required.

Under Mexican law, the stockholders of any Series of shares are also entitled to vote as one class on any proposal that could adversely affect the rights of the stockholders of that particular series and the Company's stockholders (including the Series "L" stockholders), which individually or collectively represent 20% or more of all capital stock could judicially oppose any stockholders' resolution with respect to those resolutions for which such stockholders have the right to vote. The determination of whether a matter requires the vote by the holders of Series "L" under such basis would initially be made by the board of directors or by any other party that calls a stockholders' meeting to decide on the resolution. A negative decision would be subject to judicial challenge by any affected stockholder, and a court would ultimately determine the necessity for a class vote. There are no other procedures for determining whether a proposal requires a class vote, and Mexican law does not provide extensive guidance on the criteria to be applied in making such a determination.

b) In 1994, the Company initiated a program to purchase its own shares. The cost of the repurchased shares, in the amount that exceeds the portion of capital stock corresponding to the repurchased shares, is charged to retained earnings.

At a regular stockholders' meeting held on March 3, 2009, the stockholders approved an increase of P.10,000,000 in the total authorized nominal amount for the repurchase of the Company's own shares. The remaining amount was P. 340,868, bringing the total maximum amount to be used for this purpose to P.10,340,868.

In 2009, the Company acquired 361.2 million Series "L" shares for P.4,073,625 and 1.9 million Series "A" shares for P.21,695.

In 2008, the Company acquired 796.7 million Series "L" shares for P.12,764,130 and 8.6 million Series "A" shares for P.107,712.

At December 31, 2009 and 2008, the Company had 14,040 (13,998 Series "L" and 42 Series "A") and 13,677 (13,637 Series "L" and 40 Series "A") million treasury shares, respectively.

c) In conformity with the Mexican Corporations Act, at least 5% of net income of the year must be appropriated to increase the legal reserve. This practice must be continued each year until the legal reserve reaches at least 20% of capital stock.

13. Stockholders' Equity (concluded)

d) At December 31, 2009, *Accumulated other comprehensive income items* include P.748,675 for the effect of the market valuation of swaps designated as cash flow hedges and P.134,550 for the effect of translation of foreign entities, net of deferred taxes. At December 31, 2008, *Accumulated other comprehensive income items* include P.2,615,521 for the effect of the market valuation of swaps designated as cash flow hedges, net of deferred taxes, and P.201,104 for the effect of translation of foreign entities.

e) At a regular meeting held on April 28, 2009, the stockholders agreed to declare a cash dividend of P.0.46 per outstanding share, to be paid in four installments of P.0.1150 each in June, September and December 2009 and in March 2010. In March 2009, the Company paid the fourth installment of P.0.10 per outstanding share, which was authorized at the regular meeting held on April 25, 2008. At a regular meeting held on December 1, 2009, the stockholders agreed to declare an extraordinary cash dividend of P.0.40 per outstanding share, to be paid in a single payment beginning on December 17, 2009.

At a regular meeting held on April 25, 2008, the stockholders agreed to declare a cash dividend of P.0.40 per outstanding share, to be paid in four installments of P.0.10 each in June, September and December 2008 and in March 2009. In March 2008, the Company paid the fourth installment of P.0.1125 per outstanding share, which was authorized at the regular meeting held on April 27, 2007.

The cash dividends paid in 2009 and 2008 were P.15,093,082 and P.7,609,477, respectively.

14. Income Tax and Flat-Rate Business Tax

a) Through December 31, 2009 the corporate income tax rate was 28%. Under the Mexican Tax Reform Law approved on December 7, 2009, the corporate income tax rate will be increased from 28% to 30% for the period from January 1, 2010 through December 31, 2012, and will be scaled back to 29% in 2013, and to 28% in 2014 and future years.

b) On October 1, 2007, the Flat-Rate Business Tax (FRBT) Law was published and became effective as of January 1, 2008.

Beginning January 1, 2008, the FRBT is computed by applying the applicable rate to income determined on the basis of cash flows, which is determined by deducting authorized deductions from all income collected from those activities that are subject to the tax. As established under the Law, certain FRBT credits also may be deducted from the FRBT payable. Under the Law's transitory provisions, the FRBT rate is 16.5% in 2008, 17% in 2009 and 17.5% in 2010 and succeeding years.

Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

When the FRBT base is negative because deductions exceed taxable income, there is no FRBT payable. The amount of the negative base multiplied by the FRBT rate results in a FRBT credit, which may be applied against income tax for the same year or, if applicable, against FRBT payable in the next ten years.

14. Income Tax and Flat-Rate Business Tax (continued)

FRBT creditable concepts result mainly from the negative FRBT base to be amortized, salary and social security contribution credits, and credits arising from the deduction of certain assets, such as inventories and fixed assets, during the transition period as of the date on which the FRBT became effective.

FRBT is payable only to the extent it exceeds income tax for the same period. To determine FRBT payable, income tax paid in a given period is first subtracted from the FRBT of the same period.

For the years ended December 31, 2009 and 2008, the Company had no FRBT payable and, based on its tax projections, estimates that it will not be subject to the payment of FRBT in subsequent years.

c) An analysis of the income tax provision is as follows:

	2009		2008
Current year income tax	P. 9,560,860	P.	10,606,003
Deferred tax	(1,075,338)	(1,014,344)
Total	P. 8,485,522	P.	9,591,659

A reconciliation of the statutory income tax rate to the effective rate recognized for financial reporting purposes is as follows:

	2009		2008
	%		%
Statutory income tax rate	28.0		28.0
Depreciation	(0.9)	(3.9)
Social security benefits	1.2		1.1
Monetary gain	2.6		6.0
Tax benefits	(0.2)	(
Other	(1.4)	(1.0
Effective income tax rate	29.3		32.2

14. Income Tax and Flat-Rate Business Tax (concluded)

At December 31, 2009 and 2008, the Company recognized deferred income taxes on the following temporary differences:

	2009		2008
Deferred tax assets:			
Allowance for bad debts and slow-moving inventories	P. 877,847	P.	599,582
Tax loss carryforwards	87,365		75,394
Advance billings	435,521		529,417
Accrued liabilities	1,492,471		1,084,274
Employee profit sharing	1,728,654		2,071,573
	4,621,858		4,360,240
Deferred tax liabilities:			
Fixed assets	(14,357,100)	(15,386,755)
Inventories	(13,667)	(25,589)
Licenses	(118,903)	(132,936)
Labor obligations	(4,566,155)	(4,304,012)
Prepaid expenses	(300,552)	(189,628)
Derivative financial instruments	(272,538)	(1,129,711)
Effect of translation of foreign entities	(53,001)		
	(19,681,916)	(21,168,631)
Deferred tax liability, net	P. (15,060,058)	P. (16,808,391)

d) At December 31, 2009, the balance of the re-expressed contributed capital account (CUCA) and the net tax profit account (CUFIN) was P.11,491,546 and P.12,912,070, respectively. These amounts correspond to Teléfonos de México, S.A.B. de C.V. on an individual basis.

15. Segments

TELMEX primarily operates in two segments: local and long distance telephone service. The local telephone service segment corresponds principally to local fixed-line wired service, including interconnection service. The long distance service segment includes domestic and international service. Other segments include long distance calls made from public and rural telephones, data services and other services. Additional information related to the Company's operations is provided in Note 1. The following summary shows the most important segment information, which has been prepared on a consistent basis:

	(Amounts in millions of Mexican pesos)				Consolidated total
	Local service	Long distance	Other segments	Adjustments	
December 31, 2009					
Revenues:					
External revenues	P. 65,158	P. 22,543	P. 31,399		P. 119,100
Intersegment revenues	11,722		929	P.(12,651)	
Depreciation and amortization	9,818	1,788	6,345		17,951
Operating income	17,846	2,537	13,981		34,364
Segment assets	260,597	35,094	108,995		404,686
December 31, 2008					
Revenues:					
External revenues	P. 70,801	P.27,454	P. 25,850		P. 124,105
Intersegment revenues	10,600		993	P. (11,593)	
Depreciation and amortization	11,260	2,211	4,462		17,933
Operating income	19,552	6,169	14,022		39,743
Segment assets	284,502	53,932	63,321		401,755

Inter-segmental transactions are reported based on terms offered to third parties. Employee profit sharing, other expenses, financing cost, equity interest in net income of affiliates and the income tax provision are not allocated to each segment, because they are handled at the corporate level.

Segment assets include plant, property and equipment (excluding accumulated depreciation), construction in progress and advances to equipment suppliers, and inventories for operation of the telephone plant.

FINANCIAL LIMITED BASED IN ISSUED DEED AND/OR TITLE

Part of the long-term debt is subject to certain restrictive covenants with respect to maintaining certain financial ratios and the sale of assets, among others.

A portion of the debt is also subject to early maturity or repurchase at the option of the holders in the event of change of control of the Company, as defined in the related instruments. The definition of change of control varies from instrument to instrument; however, no change in control shall be considered to have occurred as long as Carso Global Telecom, S.A.B. de C.V. (TELMEX' controlling company) or its current stockholders continue to hold the majority of the Company's voting shares.

CURRENT SITUATION OF FINANCIAL LIMITED

At December 31, 2009, the Company has complied with such restrictive covenants.

TRANSACTIONS IN FOREIGN CURRENCY AND EXCHANGE OF FINANCIAL STATEMENTS FROM FOREIGN OPERATIONS

Consolidated

Final printing

Exchange differences

Transactions in foreign currency are recorded at the prevailing exchange rate on the day of the related transactions. Foreign currency denominated monetary assets and liabilities are valued at the prevailing exchange rate at the balance sheet date. Exchange differences from the transaction date to the time foreign currency denominated monetary assets and liabilities are settled, as well as those arising from the translation of foreign currency denominated balances at the balance sheet date are charged or credited to results of operations.

Translation of financial statements of foreign subsidiary and affiliate

The financial statements of the foreign subsidiary and affiliate are either consolidated or accounted for based on the equity method, as the case may be, once the financial statements have been adjusted to conform to Mexican Financial Reporting Standards in the corresponding local currency, and are then translated to the reporting currency. All the assets and liabilities of our foreign subsidiary and affiliate are translated to

Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

Mexican pesos at the prevailing exchange rate at year-end. Stockholders' equity accounts are translated at the prevailing exchange rate at the time capital contributions were made and earnings were generated. Revenues, costs and expenses are translated at the historical exchange rate. Translation differences are recorded in stockholders' equity in the line item "Effect of translation of foreign entities" under "Accumulated other comprehensive income items."

COMPLIANCE WITH THE REQUIREMENT ISSUED BY THE COMISION BANCARIA Y DE VALORES (BANKING AND SECURITIES COMMISSION OF MEXICO)

Consolidated

Final printing

Derivative Instruments

As of December 31, 2009, Teléfonos de México, S.A.B. de C.V. (the "Company") had cross currency swap agreements in the equivalent of U.S.\$ 4,178 million, which have hedged the exchange rate and interest rate risks related to the bonds with maturity in 2010 and 2015 for a total amount of U.S.\$ 1,495 million and bank loans with maturity from 2010 to 2018 for a total amount of U.S.\$ 2,683 million. These hedges allowed us to fix the exchange rate of our debt on a weighted average exchange rate of \$ 10.5892 Mexican pesos per US dollar, as well as to partially set a fixed rate with a range between 7.52% for bonds maturing in 2010 and 8.57% for bonds maturing in 2015 and for other cases, an average interest rate of 28-day TIIE less 26 basis points. During this quarter we did not have any early termination on cross currency swaps agreements.

At the end of the fourth quarter, the Company had forward agreements for U.S.\$ 245 million at a weighted average exchange rate of \$ 13.2812 Mexican pesos per dollar. These agreements hedged partially a U.S.\$ 950 million bond with maturity on January 2010.

Additionally, the Company had interest rate swaps in Mexican pesos for Ps.\$23,752 million to hedge the floating rate risk in local currency fixing it at an average of 8.19%.

These transactions have been carried out based on the Company's policies, strategies and guidelines that are explained below.

I. Qualitative and quantitative Information

i. Policies for using derivative instruments

Objective to enter into derivative transactions and selected instruments

With the purpose of reducing the risks related to the variations of exchange rate and interest rate, the Company uses derivative instruments connecting the hedges to the contracted debt. The derivative instruments that have been selected are mainly:

- (a) instruments for purchasing US dollars at a specified future time (forwards);
- (b) instruments that involve the exchange of principal and interest from one currency to another (cross currency swaps); and

(c) instruments to fix the floating interest rates of the debt (interest rate swaps).

Hedge strategies

When the market conditions are favorable, the Company's Management determines the amounts and objective parameters considered in the hedging agreements. This strategy seeks to reduce the risk exposure of abnormal fluctuations in the market of the main variables that affect our debt, including exchange rate and interest rate, to maintain a solid and healthy financial structure.

These strategies of hedging financial risks are included in the Corporate Governance Guidelines adopted by the Company, and its application is authorized by the Audit Committee.

Trading markets and eligible counterparts

The financial institutions and counterparts with which the Company enters into such derivative instruments are considered to have a proven reputation and solvency in the market, which allows us to balance our risk positions with such counterparts. Also, the Company only uses derivative instruments that are of common use in the markets, and therefore, can be quoted by two or more financial institutions to assure the best conditions in the negotiation.

Policies for the appointment of calculation and valuation agents

Given that the Company uses derivative instruments of common use in the market, it appoints a third party that is responsible to provide the market price of such instruments. These prices are compared by the Company with the ones provided by the financial intermediaries; and, in certain transactions, the counterpart is able to act as valuation agent under the applicable documentation if it is a financial institution with a proven reputation.

Main terms and conditions of the agreements

It is a policy of the Company that the amount, date and interest rate conditions of the debt to be hedged, if possible, have to coincide with the terms of the hedges, that is usual for this type of transactions in the different markets where it operates. All the transactions with derivative instruments are made under the ISDA Master Agreement (International Swap Dealers Association) standardized and duly executed by the legal representatives of the Company and the financial institutions, and in the case of counterparts in México, pursuant to the uses and practices of the market in our country.

Margin policies, collaterals and lines of credit

In some cases, the Company has entered into an accessory agreement to the ISDA Master Agreement with the financial institutions, the Credit Support Annex, which sets forth an obligation to grant collaterals for margin calls in case the mark-to market value exceeds certain established credit limits (threshold amount). The Company has the policy to keep a close watch of the volume of the transactions entered with each financial institution in order to avoid, if possible, any margin call.

Processes of levels of authorization required by type of negotiation

The strategy for hedging financial risks is discussed and approved by the Audit Committee. Subsequently, the Board of Directors is informed for its knowledge and ratification. The Treasury is in charge of its implementation and is supervised by the Company's Chief Financial Officer.

Existence of an independent third party that reviews such processes

Both, the fulfillment of the Corporate Governance Guidelines and the measurement of effectiveness of the derivative instruments, to comply with the financial reporting standards, are discussed with the external auditors that validate the correct accounting application of the effect of such instruments in the income statement and the balance sheet.

ii. Generic description of the valuation techniques

As previously stated, derivative instruments are carried out by the Company only for hedging purposes. The measurement of the effectiveness of the hedges is made in a prospective and retrospective manner. For the prospective valuation, we use statistic techniques that allow us to measure in what proportion the change in the value of the hedged debt (primary position) is compensated by the change in the value of the derivative instrument. The retrospective valuation is made by comparing the historic results of the debt flows with the flows of the respective hedges.

iii. Internal and external liquidity sources to meet the requirements related to derivative instruments

Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

It is estimated that the Company's cash generation has been enough to service debt and the established derivative instruments to hedge the risks associated with such debt.

iv. Changes in the exposure to the main identified risks and its management

The identified risks are those related to the variations of the exchange rate and interest rate. Given the direct relationship between the hedged debt and the derivative instruments and that they do not have any variables that could affect or terminate the hedge in advance, the Company does not foresee any risk that such hedges could differ from the original purpose for which the hedges were established.

In the fourth quarter of 2009, it was recognized in the statements of income a net charge of Ps. 2,276 million and an accrued net charge at the end of December of Ps. 2.135 million for exchange rate hedges. Furthermore, it was recognized in the statements of income a net charge of Ps. 421 million and an accrued net charge at the end of December of Ps. 2,057 million for interest rate hedges.

During the fourth quarter, there have not been any margin calls.

To date, there has not been any breach in the terms and conditions of the respective agreements.

v. Quantitative information

See TABLE 1 attached.

II. SENSITIVITY ANALYSIS

In the case of the Company, the sensitivity analysis does not apply for the derivative instruments, since they are only carried out for hedging purposes.

Derivative Instruments Summary									
Figures in thousands of Mexican Pesos and US Dollars									
Type of Derivative	Purpose of Hedging, Negotiation or Others	Notional Amount		Value of Underlying Asset Variable of Reference		Fair Value		Maturity Amounts per year	Collateral / Lines of Credit (*)

TOTAL									
						11,376,640	13,375,869		

*) Of our hedge agreements, 65% of the total hedge amount include margin calls when the market value exceeds the amounts of the lines of credit that we have for the amount of USD \$ 290 million.

(1) These swaps, hedge the debt position in US dollars, with the obligation of paying floating rate in Mexican pesos at an average of TIE less 26 basic points and with an average life of 3 years.

(2) This forward position mainly hedges debt position in US dollars with maturity in January 2010.

(3) This swap, hedge debt position in Yens with the obligation of paying in Mexican pesos \$ 2,000 million (equivalent to USD \$ 214 million) at a floating rate and mature on February 2014.

(4) These swaps hedge the interest payment of debt in US dollars, with the obligation of paying floating rate in Mexican pesos at an average of TIE less a margin and with maturities up to 2010.

(5) These agreements hedge debt position in Mexican pesos at a floating rate, fixing it at an average of 8.19% and with an average life of 5 years.
